A SPECIAL VALUATION OF CIVIC PROPERTIES

Assessed Value Exceeds \$10,000,000, But Controllers Want to Know Real Worth.

Assessment Commissioner Forman has supplied the special auditors with a statement showing that the city owns property valued at \$10,109,944.

Controller Spence said all property should be assessed at its real value, and, on the other hand, that it was decided to have a special valuation made of the city properties.

The court has refused yesterday that policemen's pensions are taxable, much to the chagrin of former Police Inspector Johnston, who announced that he would fight the case last night before the court judge for the privilege of drawing money from the civic coffers without handing any of it back.

The board wasn't satisfied with the report of the contractors for the addition to Agnes-street police station, that they are paying the union rate for cutting stone. The inspector will report.

Aid. Hales' Experience. Aid. Hales told the board that although he boarded a street car the other night at five minutes to twelve the conductor insisted upon collecting ten cents and then held the car until after midnight. The controllers agreed that this was one more instance of the extortion of a greedy corporation, but did not take any action.

THE ENGLISH LANGUAGE

We'll begin with a box, and the plural is boxes. But the plural of ox should be oxen, not oxes. Then one fowl is a goose, but two 'are' geese. If the singular's this and the plural is these, Should the plural of kiss ever be nicknamed keese? And the plural of cat is cats, not cose. We speak of a brother and also of brethren. But tho we say mother we never say mothren. Then the masculine pronouns are he, his and him. But imagine the feminine she; shis and shin. So the English, I think you will all agree, Is the queerest language you ever did see. —Fusi.

CANADIAN ARTISTS' EXHIBITS AT THE FAIR

Some of the Paintings Which Will Grace Walls of the Art Gallery.

One of the outstanding features of this year's Canadian National Exhibition will be the collection of pictures in the fine arts building. In addition to a large number of important pictures from England and France, the committee have secured some of the best recent works by the foremost Canadian painters.

The contributions of the local painters are not behind either in numbers or in quality. Mr. Atkinson shows some of his delightfully mellow evening effects.

The collection this year is of more than usual interest and importance, and includes contributions from all parts of the Dominion.

Among the water colors are examples of the best work of Mr. Gagen, Mr. Brisson, Mr. Chagnaud, Mr. Lapine and Mr. Manly. The art of the Royal Canadian Academy, G. A. Reid, sends a number of fine things, and the Ontario Society of Artists, Mr. Wylie, sends excellent portraits.

24 Hours Hot—72 Hours Cold

No more necessity for taking a drink that's cool when it ought to be hot, or warm when it ought to be cold. Wherever you are or whatever the weather you can keep refreshments at the right temperature by putting them into

The Thermos Bottle

Heat and cold can neither get in nor out of the Thermos Bottle, because it's a double bottle, with a vacuum between the two parts. That's why it keeps hot drinks boiling hot for 24 hours in the coldest weather, and cold drinks ice cold 72 hours on the hottest Summer days.

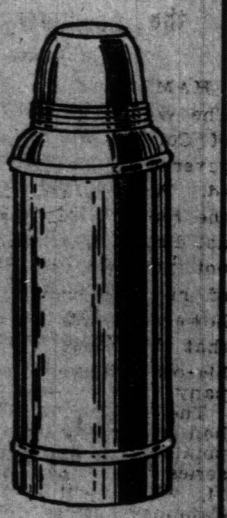

Motoring—Outings—Traveling. Take Thermos Bottles filled with hot and cold liquids and no matter what happens you have refreshments at hand.

Home—Office—Factory. The Thermos Bottle provides hot or cold drinks for luncheon wherever you are, making the noon-day meal more enjoyable, refreshing and invigorating, and saving expense.

Sick Room—Nursery. The Thermos Bottle makes it easy to have hot or cold drinks always at the bedside, and to keep baby's milk warm and sweet day and night.

Into Training

The effect which the revived Directory fashion in dress may have on the health of its followers continues to excite general interest. A physician interviewed yesterday said: "If the fashion becomes general our women will have to take pains to get rid of superfluous flesh. They will have to go into training, and if these efforts to reduce superfluous flesh are carried out along common-sense lines, such as by moderate dieting and exercise, the result must be an increase in health and vigor."

Storm Drives New York's Homeless People to the Morgue. NEW YORK, Aug. 27.—Driven from the city parks and streets by the storm, 200 homeless men and women last night sought shelter in the city morgue, at the foot of East 24th-st. During the height of the storm such numbers applied for shelter that officials opened the morgue to the homeless and began to give out tickets to all who desired them.

Another Defeat

NOTE AND COMMENT

The display against Baltimore yesterday would indicate that it was not necessary to blame the umpire for the loss of a game to Providence. The Toronto team seem to have forgotten nearly everything that goes to make up a winning team, except probably some pitching ability. Even on the home grounds, the enemy must suffer a shut out to ensure a victory.

The real original woman fan was out in full glory at Vinton Park, says The Omaha News.

While Omaha was wallowing Des Moines two games, the woman fan sat in a box crocheting peacefully. Hissings from 3000 excited fans never bothered her tattling. She kept up the merry, even click of her knitting needles, while the champions made runs. Occasionally the crocheting lagged, while the woman watched the game out of the corner of her eye, but not for long.

The nearest fan was discovered last Tuesday at Heaman's Point Park, not by the provincial policeman, but by the grounds' keep. He had a gruff face and slipped in to view the game from the grand stand clad in a skirt, merry widow, etc. Others are said to have practised the deception on former occasions with ease and profit and the baseball club have taken a laudable precaution to prevent any repetition by appointing the president a committee of one with instructions to be careful about mistakes.

They make no play in New York whatever to belittle the greatness of Wagner and Hens' superiority over all ball players. The Ty Cobb, LaJolie and Hal Chase boosters are not in evidence, and Smoky City rooters can't get up an argument along these lines. The German is fairly idolized, still, with becoming modesty. Honus sticks close to his room, sidestepping the hero worshippers. Wagner's little charities are not generally known, says a Pittsburg paper. One of the players informs me that old-time players, now down and out, get home for at least \$5 a day in every city the team strikes.

Word comes from Montreal that the Big Four Rugby League will be strictly independent as far as the C.A.A.U. and Federation are concerned. The president declares that they will remain amateur from their own standpoint, and the belief at headquarters exists that Arnie Russell is still eligible.

While the Tecumseh are putting in the most diligent work this week and will be in the best possible condition for Saturday's crucial game with the St. Michaels in Montreal, the opinion prevails among the majority, even in Toronto, that the Irishmen will win, especially when it is a fact that the Irishians have never scored a victory on the Mile End grounds. Still, according to the theory of probability, it is Tecumseh's turn, and here's hoping that they turn the trick and that we are thru with the Capitals until next year.

And, by the way, Mr. Mulligan is telling his friends in Ottawa that he will secure that \$500 from President Solman, even should he be forced to take to the law.

Leslie Boyd, K.C., may have satisfied his own mind and a limited constituency in Montreal by the explanation of his great against Longwell, but even in the seat they are well divided on the question, while hereabouts there is only one opinion of the federation's second vice-president, viz., that his act was traitorous in the extreme. Messrs. Foran and Ross of Ottawa are outspoken in their condemnation of Boyd's action, and the federation whatever, and it looks as if they had severed all connection with the eastern monarchy.

In Montreal the question of conciliation between the federation and C. A. U. is being revived by well-meaning athletic devotees, but as President Stark points out, there can be no peace as far as the union is concerned until the federation detains its professional ideas of an amateur.

The mixed meeting just closed at Dufferin Park was the most successful held in Toronto for many years, which shows that there are many admirers of the trotters and pacers besides the runners in the city, who will support good racing.

The New York Evening Mail says: "Young Mr. Hayes, Marathon winner, has the heart of a sportsman, as well as the lungs and legs of the same. He has no more to exhibit. He has no fault to find with the treatment of America's Olympic athletes by the British officials, and says so. Of the same kidney is J. P. Halstead, another contestant. I am perfectly satisfied with the treatment we received by the English, and think the English tried to give us a square deal thruout. I didn't see any attempt at what should be called unfairness."

"This is mainly talk, more generous, and we guess, more just, than some that is credited to our always valiant and striving, but in certain cases rather querulous, Olympians."

Gore Vales Are Busy.

The Gore Vales Athletic Club are planning big things for the coming season. On Saturday, Sept. 19, the club will hold a field day in the Exhibition Park, when a complete athletic card will be put on. The members are now rallying faithfully and expect to establish some fine club records. The day will run a ten-mile race, the 100-yard dash, the 200-yard dash, the 400-yard dash, the 800-yard dash, the 1600-yard dash, the 3200-yard dash, the 6400-yard dash, the 12800-yard dash, the GO ON WITH THE LINE.

At this stage of the public power scheme it is up to the government to show the same firmness as called for by the municipalities, and to launch away promptly with its transmission line. The Hon. Adam Beck is credited with the statement that the efforts made to block the building of the line could have little or no effect on the government's policy.

COL. GIBSON'S PROMOTION.

An Ottawa special to last night's Star confirms The World's exclusive announcement of Wednesday. A formal announcement will be made in a few days of the appointment of Hon. J. M. Gibson of Hamilton as lieutenant-governor of the Province of Ontario. It is understood that Col. Gibson's acceptance of governorship will carry with it his retirement from the important business enterprises in which his name now figures.

EATEN ALIVE BY ANTS.

Helpless Man Dies After Two Days' Terrible Suffering. LOS ANGELES, Aug. 27.—After lying helpless under a tree near the orchard farm east of this city, from Sunday afternoon until Tuesday night, his life slowly ebbing away, while red ants swarmed over his body and literally ate him alive, Burton B. Jarvis, aged 26, a contracting teamster of 25 Chestnut-st., Terre Haute, Ind., died today at the County Hospital. Jarvis was suffering from tuberculosis and came to California two years ago.

MINISTER IN THE NORTH.

Receives Addresses in Cree and French at Lathlain. EDMONTON, Aug. 27.—Hon. W. H. Cushing has returned from a trip to the Peace River district, being the first cabinet minister to make the trip. The minister of public works said he simply made a tour of inspection of what had already been done in the matter of roads and bridges and what it needs. "I found the three weeks all too short to do this satisfactorily, and would like to spend three months in the country. I found settlements very prosperous. Several meetings were held in the course of the trip, one at Lathlain, one at Grande Prairie, and one at the Landing, where a banquet was tendered. He was presented with addresses in Cree and French.

WILL FAVORS TWO PERSONS

The Intention Evidently Was to Leave Estate to Daughter. Mary Ann Gallagher died in Winnipeg, leaving real estate worth \$5000 in Toronto and the following will: "This is my last will and testament. I bequeath all I have to my daughter Lillian Gallagher, and if anything happens to her it is to go to my sister Esther Lockington, but in the meantime Lillian is to have the use of it as long as she lives, to do as she pleases with it." In all probability this will may have been interpreted by the court, for whereas Lillian died in the first two lines, she gives the property absolutely to her daughter, the closing words "to have the use of it as long as she lives," means legally that the daughter is granted only a life estate in the property.

PROFITS OF PUBLIC SERVICES.

In connection with the federation of the towns known in England as the Potteries, a provisional order for its accomplishment was recently issued. Among the articles is one dealing with the finances of the various gas undertakings belonging to the local authorities, and it is interesting because it shows the attitude of the government authorities towards public services. The article in question provides that the revenue from the undertakings is to be used by the new council, (3) in payment of the expenses properly chargeable to revenue; (2) payment of capital charges; (3) the setting apart, if the council so resolve, of an amount not exceeding ten per cent. of the revenue as a reserve fund, and (4), in payment of the expenses of executing any permanent works that may be authorized. As regards the free residue of the revenue the order directs that from it shall be paid in rate relief not more than five per cent. of the value of the undertakings, as stated in the order, together with any additional capital expenditure, and that the balance shall be applied in reduction of the price to be charged in the next following year. The Municipal Journal of London, in calling attention to this, adds that "the importance of the provision lies in its limitation of the amount to be devoted to rate relief, and the recognition of the principle that we have so frequently asserted, viz., that the consumer, no less than the ratepayer, is entitled to share in the prosperity of a municipal undertaking."

TO KNOW THE EMPIRE.

General Pole-Carew's suggestion that personal knowledge of the imperial states should be required of cabinet ministers is a good one if it could be carried out. At an earlier time what was called "the grand tour" was the constant finish to the education of young Britons intending to enter the

CAUSE OF COLLAPSE.

Coroner's Jury is Investigating the Scaffold Fatalities.

Coroner W. A. Young opened an inquest yesterday morning at the General Hospital into the death of Frederick Waberton, killed by a collapsing scaffold at the Gas Works Wednesday. The jury viewed the body and then went to see the wreck of the scaffolding. It had been made of four uprights, 14 feet high, with two planks laid across. The breaking of one of these was the cause of the accident. The taking of evidence was postponed till Thursday night at the city hall.

British Imports Indicate It—Emigrants Coming Here. (Canadian Associated Press Cable.) LONDON, Aug. 27.—The imports of apples this season amount to 12,000,000 bushels. It is apparent that the Canadian exporters are ousting the United States. Imports from Australia are also increasing. Emigration returns indicate that Canada is easily the most favored country with Britishers and foreigners, despite the restrictions. During July over half the English, nearly two-thirds of the Scotch and over three-fourths of the Irishmen, emigrating, went to the Dominion. The figures for the half year were 63,385, against 125,326 in 1907.

CANADIAN AUTHORS.

A Good Idea is Brought Out by One of the Big Stores. One of the big departmental stores has set aside for the exhibition week a special counter to display books by Canadian authors. It has been a considerable time coming, but the recognition of native literary merit is bound to follow in Canada, the very appreciation of public opinion in the States. The retail booksellers complain that Canadian publishers injure their trade by refusing to issue the cheaper editions which are to be had in Britain and across the border. This is true of such authors as Sir Gilbert Parker and Ralph Connor, as well as those with more restricted circulation. It is an axiom in the book trade that the cheap editions sell the more expensive ones. This has been true in the invariable rule in England, and the Canadian retailers complain that the publishers do not give the same good opportunity as they might to popularize Canadian literary art.

BYCICLE RACING IN AMERICA.

"Bicycle racing," says The Philadelphia Record, "the sport which at one time held the interest of the general public much as baseball now does, has been showing a remarkably healthy increase in public favor during the past few weeks and is expected to become the present season. The promoters have thus far been amply repaid for their enterprise, as some of the tracks are running weekly and bi-weekly meetings and Sunday afternoons, to an attendance of from 4000 to 7000 persons. The enthusiasm of the crowds augurs well for the future of the sport. A selected card of events is invariably well filled and results in close and exciting races. The riders, both professional and amateur, are without exception classy and representative of the best that can be seen anywhere during the past ten years. Also many of the professionals and nearly all of the amateurs are new to the old followers of the game, there still remains in active competition a number of the former, whose names were known all over the country in the heyday of cycling. Such as Fred McEwen, LeRoy Kramer, Willie Fenn Floyd Krebs and others, together with a dozen or more German, Danish and Italian. Bicycle road racing has also come in for its share of popularity."

CANADIAN AUTHORS.

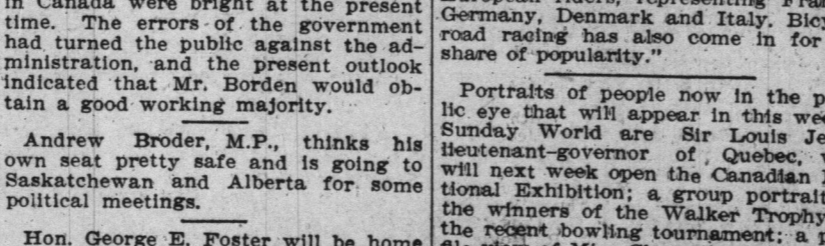

A Good Idea is Brought Out by One of the Big Stores. One of the big departmental stores has set aside for the exhibition week a special counter to display books by Canadian authors. It has been a considerable time coming, but the recognition of native literary merit is bound to follow in Canada, the very appreciation of public opinion in the States. The retail booksellers complain that Canadian publishers injure their trade by refusing to issue the cheaper editions which are to be had in Britain and across the border. This is true of such authors as Sir Gilbert Parker and Ralph Connor, as well as those with more restricted circulation. It is an axiom in the book trade that the cheap editions sell the more expensive ones. This has been true in the invariable rule in England, and the Canadian retailers complain that the publishers do not give the same good opportunity as they might to popularize Canadian literary art.

BYCICLE RACING IN AMERICA.

"Bicycle racing," says The Philadelphia Record, "the sport which at one time held the interest of the general public much as baseball now does, has been showing a remarkably healthy increase in public favor during the past few weeks and is expected to become the present season. The promoters have thus far been amply repaid for their enterprise, as some of the tracks are running weekly and bi-weekly meetings and Sunday afternoons, to an attendance of from 4000 to 7000 persons. The enthusiasm of the crowds augurs well for the future of the sport. A selected card of events is invariably well filled and results in close and exciting races. The riders, both professional and amateur, are without exception classy and representative of the best that can be seen anywhere during the past ten years. Also many of the professionals and nearly all of the amateurs are new to the old followers of the game, there still remains in active competition a number of the former, whose names were known all over the country in the heyday of cycling. Such as Fred McEwen, LeRoy Kramer, Willie Fenn Floyd Krebs and others, together with a dozen or more German, Danish and Italian. Bicycle road racing has also come in for its share of popularity."

CANADIAN ENGINEERS SIGHTED AT HOME

Plums for Aliens While Native Born Win Fame for the Dominion.

Down at the Canadian Engineers' Club, 96 West King-street, Mayor Oliver and the board of control could hear things which might make them ponder. Members of the club who are recognized as authorities all over the world, speak in tones of strong disapproval of the course of Canadian municipalities, and Toronto in particular, of giving every big engineering plum to some outsider of no better standing than many Canadian members of the profession.

CAUSE OF COLLAPSE.

Coroner's Jury is Investigating the Scaffold Fatalities.

Coroner W. A. Young opened an inquest yesterday morning at the General Hospital into the death of Frederick Waberton, killed by a collapsing scaffold at the Gas Works Wednesday. The jury viewed the body and then went to see the wreck of the scaffolding. It had been made of four uprights, 14 feet high, with two planks laid across. The breaking of one of these was the cause of the accident. The taking of evidence was postponed till Thursday night at the city hall.

LIKE CANADIAN APPLES.

British Imports Indicate It—Emigrants Coming Here. (Canadian Associated Press Cable.) LONDON, Aug. 27.—The imports of apples this season amount to 12,000,000 bushels. It is apparent that the Canadian exporters are ousting the United States. Imports from Australia are also increasing. Emigration returns indicate that Canada is easily the most favored country with Britishers and foreigners, despite the restrictions. During July over half the English, nearly two-thirds of the Scotch and over three-fourths of the Irishmen, emigrating, went to the Dominion. The figures for the half year were 63,385, against 125,326 in 1907.

BETTER CLOTHES FOR MEN WHO CARE

Because Men Dress Better

to-day than they ever did before is not the only reason for the improvement in our clothing.

It's a pretty poor kind of a store that has to be FORCED into doing its best.

Men who know this store would as soon expect the whole big business to stop growing as to stand still in the clothing business.

The world goes on improving things; inventing new things for the betterment of mankind, and if the world is progressing there's no reason why you shouldn't expect improvement in even the BEST ready-to-wear clothing—EATON'S.

The improvement is seen particularly in the designing; in the style; get-up; in the good and staying good appearance of the garments. You'll find still further improvement after you've worn the clothing for a time, in the way it retains its shapeliness. But talk will not convince like the clothing will, so come—you know you'd like to be convinced.

Here's a brief mention of a few of our particularly attractive Fall values.

New Fall Suits—In worsted and Saxony tweed effects, imported from England; dark olive and blue, with stripe, single-breasted saque shape, strong Italian linings, well made, sizes 34 to 44. 8.50

Tweed Suits—Saxony finished, dark brown with colored stripe and dark grey worsteds with green thread and Celtic woven stripe, all English cloths, made single-breasted saque style, with good linings 10.00

Imported English Worsteds—Three-buttoned saque shape, new colors of dark greys and browns, with pin stripe, solid good wearing materials; good fittings and best Italian linings 12.50

Raincoats—Dark Oxford grey cravenette cloth, good length, full skirt, vent in back, Italian cloth lining throughout, sizes 34 to 44 8.50

Raincoats—Fine cravenette cloth, in Oxford grey and olive and grey with colored pin stripe, English cloths, full length, vent in back, Italian cloth lined 12.50

NEW HIGH SCHOOL GETS ITS PRINCIPAL

Hot Shot Exchanged by Trustees Over Appointment at Meeting of Education Board.

"Call it Martin."

The foregoing report was Trustee Levee's final hot shot, in returning fire on Miss Clara B. Martin's fusillade on the new high school for the northwest part of the city at the special meeting of the board of education yesterday afternoon. The board met for the extensive purpose of considering the school management's special high school report, which was moved as follows by Dr. Hawke:

"That John L. Cox, B.A., be appointed principal of the additional high school established in the northwest part of the city, as per bylaw passed by the city council.

"That the property committee be requested to provide the necessary temporary accommodation, and would re-

A CRIME THAT IS NOT PUNISHABLE.

How many people reading this article have gone into a drug store and asked for some well known and highly tried medicine and some unscrupulous druggist has said, "Yes! we have that, but have you ever tried this remedy, it is just as good and costs less." Any druggist doing this has not the interest of your health at heart, but the interest of his pocket, as he can make more profit out of the cheap substitute.

For the protection and benefit of the public, we wish to say that Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY has been used in thousands of homes for the past sixty-three years and has never failed to give prompt relief and cure in all cases of Diarrhoea, Dysentery, Colic, Stomach Cramps, Summer Complaint, Sea Sickness, Cholera Infantum, Cholera Morbus and all Fluxes of the Bowels. When you buy Dr. FOWLER'S, you are not experimenting with a new and untried remedy, but are getting one that has stood the test of time.

Miss Letitia Reid, Vivian, Ont., writes: "Last year I suffered untold agony from cramps in the stomach and did not know what to do until a friend suggested I should try Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY and as I was glad to try anything I purchased a bottle.

"When I had taken four doses I found relief and since then I never fail to keep a bottle in the house."

spectfully suggest that the upper flat of the King Edward School be used for that purpose.

That first, second and third forms be opened.

That the selection of the pupils to attend the new high school be made by the principal of the school and principal of Harbord Collegiate, and when any differences arise the chairman of the management committee to decide.

Miss Martin vigorously opposed the report. The board was asked to approve the appointment of a principal for a high school which did not exist. The bylaw of the city council authorizing a new high school did not create one.

Trustee Brown, who in the absence of Chairman Ogden, presided, ruled that the report was in order.

Trustee Houston supported the appointment of the new high school principal contained in the first clause of the report.

Miss Martin ridiculed the appointment of a principal to a high school "in the roof or the kitchen of the King Edward School."

Trustee Levee rebuked Miss Martin for "returning after a long holiday to oppose a high school which had been in existence for almost a year. It was very wrong to speak of it as meeting in the roof because it met at present in the upper part of the King Edward School."

Miss Martin: "What's the name of the new high school?"

Trustee Levee: "Call it Martin."

Trustee Davis questioned the legality of the report. It took more than three to form a quorum of the management committee.

Chairman Brown ruled that the consideration of the report having been assented to, Trustee Davis was too late with his point of order.

Trustee Davis: "Why this rush?"

A division on the clause appointing Principal Scott was adopted, the vote being: For, Kent, Levee, Houston, Hawke and Rawlinson—5. Against, Martin, Davis and Hunter.

The report was adopted in full without further division.

The management committee met yesterday afternoon to prepare the regular reports for the meeting of the board next week.

Inspector Hughes' report on the Island school presented by Inspector Chapman recommending a change in site to one near Hanlan's Point was not favorably considered. Trustee Kent said the present site was only obtained after great difficulty and with the assistance of the Dominion Government.

Trustee Levee considered the present site satisfactory. The committee decided on the re-opening of the Island school as at present located on Sept. 3.

The resignations of these teachers were accepted:

Miss N. Wintersgill, teacher in Ogden School; Miss F. Brierley, now on leave; Miss Maud Robertson, assistant kindergarten in Duke-street School; Mr. F. A. Giesmon, appointed to Queen Alexandra School.

Leave of absence was granted to Miss M. Smith, kindergarten assistant in Grace-street School, for six months from July 1, on account of ill health; to Miss A. R. McCrea, teacher in Shirley-street School, for the month of September.

Miss F. I. Irwin was transferred

from Sackville-street School to York-street School.

Miss C. L. Smith was assigned to Ogden School.

The following teachers were appointed to the temporary staff and assigned to the schools named: Miss B. A. Ross to Perth-avenue School; Miss M. E. Chibbons to Sackville-street School; W. R. Beattie to Queen Alexandra School.

C. M. A. WANT PROTECTION.

Will Be Burden of Their Coming Convention.

At the meeting here next month of the Canadian Manufacturers' Association, tariff matters will receive considerable attention.

It is said that a definite and strong policy will be taken up and will be advocated by that body demanding adequate protection for all Canadian industries. On Monday, Sept. 14, the day preceding the opening of the convention, an important meeting of the woolen section of the association will be held.

LABOR TO HELP BRYAN.

WASHINGTON, Aug. 27.—After a series of conferences between National Chairman Norman E. Mack and Samuel Gompers, president of the American Federation of Labor, Secretary Morrison of the federation and President McConnell of the Machinists' Union, Chairman Mack announced that within a few days he would announce the chairman of the various labor bureaus which will be established in several of the larger cities and conducted under the general direction of the national committee and with the assistance of the American Federation of Labor.

A Big Piano Exhibit for the Exposition.

For the coming National Exposition in Toronto the old firm of Heintzman & Co., Toronto, have in preparation a very large exhibit of their world-famous pianos. Outstanding among the many beautiful instruments to be shown will be a grand piano in hand-made Santos Domingo mahogany case, after the style of the gold-cased piano shown two years ago.

MUST TIE UP SCALES.

New Rules for Inspectors of Weights and Measures.

The following changes have been made in the weights and measures department of Toronto division, of which J. J. McConvey is inspector:

A. Lyons will inspect in York, Ontario and Peel, and James Murdoch in Muskoka, Dufferin and Grey, and in the three city districts the inspectors will be J. C. Smith, J. L. Cruikshank and R. J. Wright.

Mr. McConvey has issued instructions to the inspectors that they must not repair scales that are out of order, but must tie them up till the owners get them repaired. Factory scales will be inspected by R. J. Milligan, and all the inspectors will have a government badge.

INGERSOLL, Ont., Aug. 27.—Harry Cline, the 13-year-old son of W. A. Cline of this town, is a hero.

While swimming across the Thames River, east of here, with his 8-year-old son, Melvin, on his back, Harry's father was seized with a cramp.

Harry, who was on the bank, stripped off his clothing, and diving, rescued both father and brother from fifteen feet of water.

BOYS CONFESS TO BROTHEN BLAZE CAUSED \$15,000 BLAZE.

PORT ARTHUR, Aug. 27.—Two boys named White and Hansen, aged about twelve years, confessed to starting a fire this morning which did damage to the extent of nearly \$15,000.

The burned building was that on Cumberland-street known as the old Toronto House.

Whitney's Thanks.

A copy of an order-in-council has been forwarded to Premier Gouin and his colleagues, thanking the Quebec Government for the "courtesy and too generous hospitality, received by Premier Whitney during his eight days' stay in Quebec."

"While in Quebec," says Sir James Whitney, "I received from men of all ranks and conditions—especially from members of the government—earnest assurances of good will towards, and friendship for, the Province of Ontario and its people."

POLICE BAFFLED.

Cooper Will Be Handed Back Diamonds Worth \$10,000.

MONTREAL, Aug. 27.—The refusal of Mr. and Mrs. A. Burrows to give evidence against Ed. Cooper before a commission has baffled the Montreal police. It was charged that Cooper had stolen about \$10,000 worth of diamonds from the Burrows while they were on the train coming to Montreal from the West.

Commissioner Lafontaine has simply called that the Burrows waived all claim to the jewels and refused to give evidence.

Leading detectives, seen to-day, hold to the opinion that the Burrows, who are very wealthy, were afraid that they would have to come back to Canada to prosecute the accused, and rather than be forced to do so decided to let the whole matter drop.

Cooper was arrested last June near the Grand Trunk Station while making presents of valuable diamonds to some of his girl friends.

The diamonds taken from him will now be returned by the police.

NEEPAWAH ABANDONED.

Steel Grate Carrier Total Wreck on Otter Head Shoal.

COLLINGWOOD, August 27.—The steamer Neepawah has been abandoned to the underwriters. She grounded recently on the shoal near Otter Head, Lake Superior.

At the time of the accident the steamer was at the end of her trip to the various lighthouses on the lakes. This contract having been secured from the Dominion Government. The steamer Neepawah was practically a new boat, having been on the lakes but a few years, and was one of the Suez Canal freighters brought to this country from England.

Her value would be about \$100,000.

TREATY MAY FALL THRU.

OTTAWA, Aug. 27.—Strong influences are at work against the ratification of the new Franco-Canadian Treaty of Commerce by the French Senate, and it is extremely doubtful under the circumstances whether the treaty will pass into law in its present form.

It is most distasteful to those who are endeavoring to arrange a reciprocity treaty between France and the United States.

Wants Settlement Oupst.

Henry Holman, a farmer from Port Law, has returned to the Victoria Memorial Hospital in Toronto. Mr. Holman was injured in the Caledon wreck last September, setting the next day for \$25. Ever since he has been very sick.

An action has been entered against the C.P.R. to set aside the agreement made at the time of the wreck.

SMOTHERED WITH MUSTARD.

Given to Rescue Girl From Supposed Attempt at Suicide.

ESPANOLA, Ont., Aug. 27.—Smothered with mustard and water is the verdict of the coroner's jury empanelled to investigate the mysterious death of Mary Carriers, caused by mustard and water administered by a member of the household under the belief that the unfortunate girl had taken poison. The jury held all persons blameless.

It appeared that the girl had been brooding over disagreeable circumstances thru which she had passed not long ago, and this was what prompted the belief that she had taken poison, when she was discovered in an unconscious state by a member of the priest's household in which she was employed.

FEEDING HORSES.

In answering a correspondent, Mr. Wing says:

"The truth is that when alfalfa hay is first fed to horses or mules not accustomed to it, and fed in large amounts, it sometimes, not always, makes them urinate more freely than is their wont. This is nearly always a very temporary effect, and in a short time they eat alfalfa hay with no other noticeable effect than that they are in better flesh than when eating other forage, work better and feel better."

"Alfalfa hay for horses or mules should be allowed to get fairly mature before being cut, should be well cured and have no mold on it. The last cutting of alfalfa is usually too ready to make the best horse feed, the coarser crops growing earlier in the season serving better. Neither horses nor mules should be fed all the alfalfa hay they will consume; it is too rich a feed, and they do not need so much of it, tho it is ordinarily fed in limitless amounts with no perceptible injury."

Frank Hall, wanted at Cornwall for false pretences, has been arrested at Brockville.

Special Train From Montreal Carrying Workmen to Rebuild Western City.

MONTREAL, Aug. 27.—(Special).—A special train of colonist cars left Windsor Station to-day over the C.P.R. for the west. It conveys laborers, mostly Italians, to be employed in remedying the damage done by the disastrous fire at Fernie and other places in British Columbia. Over two hundred are being sent from Montreal alone, to be brooded en route by contingents from other places.

RAILWAY MAN BADLY HURT.

Harvey Shanker of Danforth-avenue, a G. T. R. employe, was caught while coupling cars at York early yesterday morning. His hip was badly broken and he was taken to Grace Hospital.

Easy to Own a Piano.

With square pianos at \$65.00, \$75.00 and \$100.00, and a good upright for \$175.00 or \$200.00, it is not a difficult problem to own a piano oneself. These things are possible because of the bargains offered by the old firm of Heintzman & Co., Limited, 115-117 West King-street, Toronto. Terms of payment are made easy.

The Toronto Collegiate Institutes Technical High School and Public Schools will re-open Thursday, Sept. 3. Intending pupils will present themselves at the schools in their respective districts on the opening day.

Child Crushed to Death.

ST. JOHN, N.B., Aug. 27.—The three-year-old daughter of E. H. Kerr, of Milltown, had hold of the reins of a horse which was used in hoisting hay into the barn when some scuttles gave way and the horse was jerked backwards with such force that it fell on the child, causing instant death.

The bean crop in Kent has been damaged by rains.

ONTARIO'S BIG OUTPUT.

Ontario is still the big milk cow of Canada. There is big talk of the great Western Provinces, but a glance at figures almost staggers the reader. Ontario easily leads them all.

When one considers that the value of farm buildings, equipments and possessions run up to a billion and a quarter of dollars, the immensity of the farm importance becomes realizable. Compared with our half million farms in Ontario, the output of the mines is a mere bagatelle in the business of the provinces. These little patches in East-Ins, Cobalt and elsewhere at best afford little revenue and represent small fortunes compared with the total agricultural wealth of Ontario. Very few people are engaged in mining. The greater part of our population are employed in agriculture.

Each farm is a little factory in itself, turning out beef, pork, butter, cheese and poultry. Each farm is a producing plant for wheat, barley, oats, peas, buckwheat, flax, corn, roots, hay, tobacco, potatoes or fruit in greater or lesser quantities.

Ontario's field crops are big. We gaze in wonder at the hundred million wheat estimates of the west, but in grain crops alone Ontario's production is no small quantity.

The latest Dominion crop estimate places our wheat at 18,164,000 bushels, oats at 111,838,000 bushels, barley, mixed grains and other cereals at 46,064,000 bushels, or a total of nearly 177 million bushels.

DISGRACEFUL.

Every decent Canadian must hang his head in shame when he reads of the beastly conduct of the eastern harvesters while en route to the west. The stories of their conduct are so vile as to almost pass comprehension. For instance, it is difficult to conceive that the savage instinct is so implanted in the breast of any set of young savages, in this year of grace 1908, to say nothing of the breasts of young Canadians brought up in Christian homes, that they would seize upon a helpless young girl, almost paralyzed with fright, and strip her clothes from her back for their own drunken amusement. Ten years in jail with a home whipping every month is too good for the perpetrators of such a heinous act. There must be something wrong about our race or such things never could occur. We boast about our civilization, but in the face of such savagery the sooner we take in our sign the better. No expense ought to be spared by the authorities to hunt down the young savages who have disgraced, not only themselves, but the entire Dominion. Unless some punitive steps are taken, it looks as if we shall have to face the necessity of keeping an armed force along the entire C.P.R. line to maintain law and order during the annual harvest excursions.—Winnipeg Tribune.

Fall Wheat Yields Vary With Variety C. A. C. Reports

Each Farmer Must Sum Up the Conditions of His Own Farm Before Sowing to any Variety—Dawson's Golden Chaff and the Imperial Amber With Their Related Varieties Lead For Years—Ontario's Big Output.

Fall wheat in Ontario this year has been a good crop. The dry weather of the summer came too late to seriously affect the crop, which had drawn generously upon the soil for the nutrition necessary to mature the berry.

Here's the College Report.

About 260 varieties of winter wheat have been grown at the Agricultural College within the past 15 years. All varieties are carefully tested for a period of five years, after which the inferior kinds are dropped and the most promising sorts are continued in future tests. In 1908, 65 varieties were under experiment. Of this number, 10 varieties have been grown for less than five years and 55 varieties for five years or over.

ALFALFA FEEDING.

Ontario Will Feed a Good Deal of This Clover This Year.

Many good fields of alfalfa have been harvested in Ontario this year. And from the reports of the seedsmen greater amounts will be experimented with next year. There can be no doubt about it but that a successful field of alfalfa will prove to be a big source of feed for the farmer.

A WHITCHURCH FARM.

Another chance is afforded to the person who wishes to buy a good farm. Lying three-quarters of a mile from the Pine Orchard Railway Station is a splendid farm of some 22 1-2 acres, and well equipped with buildings and natural resources to suit the most particular. It is offered by Mr. J. A. McDonagh of Toronto, who will be glad to answer all questions concerning the place. Easier still, you can run out by rail and visit this splendid farm. The fact that \$2500 worth of fat cattle were sold off the place each year should be guarantee enough of the fertility.

A BIG ONE.

"The biggest pig I ever bought," said Drover Billy Vanstone of Pickering; "was from Penn Orvis over on the sixth. It cost me \$58 and I paid 7 cents a pound for it. But it died on the cars en route to the city."

ONTARIO AGRICULTURE

The Province of Ontario is an ideal land for agriculture in any of its varied branches. Our farmsteads are scenes, just now, of the busy harvesting operations, which mean to the farmer the summing up of his returns and the wise direction of his winter's feeding operations.

Distinctive in Fashion

—Distinctive in fashion and remarkable in quality; such phrases partly describe the unique exhibit of Fur garments now in our show rooms.

—It will be a sure loss to you should you fail to visit us. The educational value of a call cannot be overrated. Everything is moderately priced.

—Selecting good Furs has been our business for a lifetime. You get the benefit of our expert knowledge in the garments we sell.

—Two large factories are busy all the year round; the cutting and tailoring is in the hands of experts; obliging salesmen and women always eager to tend to your wants.

—Buy if you want to—you'll not be urged. If out of town, write for catalogue "W."

WEST TORONTO EXPERT SAYS 20-INCH WOULD DO

Could Maintain 85 Pound Pressure —Disabled Cars Are Piling Up—County Notes.

WEST TORONTO, Aug. 27.—The urgent need of West Toronto's waterworks system is a 20-inch main. Had this been installed, an 85 pound pressure could have been maintained at the time on Tuesday evening, while the Union Stock Yards fire was raging, and the waterworks plant would have been quite adequate to meet the demand. Add to this a 600 gallon per minute fire engine, a good team of horses, a plentiful supply of hose, and the city's fire fighting apparatus would compare very favorably with anything the City of Toronto could offer for years to come.

The foregoing statement, made here-to-night by a well-known local expert of high standing, appears to voice fairly well the opinion of the mayor and a majority of the members of the council.

The more the difficulties encountered by the firemen on Tuesday night's fire at the stock yards are considered, the more is praise due to the West Toronto fire department for their efficient work with the material at their command.

"With your equipment," said Deputy Chief Noble to a local fireman, "we wouldn't have done a thing more than you did."

The union of Toronto and West Toronto will establish a precedent in this country, as there has been a union of two cities such as is now proposed, neither is there legislation on the Dominion side referring to such a course of action.

Albert, the 2-months-old child of Mr. and Mrs. Ezekiel Little of 115 King-street, died this afternoon. The funeral will take place on Saturday at 2 p.m., at Prospect Cemetery.

The wedding took place to-night of Miss Mary Morrison of Toronto, sister of Scotland, to James Henry Burgess of York Township. The ceremony was performed by the Rev. Dr. Pigeon, at his residence, 117 Lawrence-st. Mr. and Mrs. Burgess will reside on Roslin-avenue, Toronto.

City Treasurer Jackson has returned from a fishing trip at Georgian Bay. Commissioner and Mrs. Coombs will publicly welcome Col. and Mrs. Mapp, Canadian Association secretary, and the Salvation Army Temple, on Thursday, Sept. 3. The members and friends of the West Toronto corps are invited to be present.

If the C. P. R. strike continues much longer the company will evidently have to commence negotiations with the real estate men with a view to purchasing more land as a storehouse for disabled rolling stock. The yards are rapidly filling up and every siding has its complement of disabled coaches and freight cars, waiting for repairs.

The second garden party given by the Epworth Methodist Church this season, was held to-night on the church lawn. The grounds were beautifully illuminated with electric lights and lanterns. Light refreshments and a plentiful supply of bottled corn cobs were on hand, and were largely purchased by the crowd of upwards of 500 people who were present. The band of the Salvation Army provided an excellent music amounting to 45, which was devoted to the organ fund of the new church.

Mr. Reid of 22 May-street, who fell from his wagon about a week ago, is progressing favorably. His arm, although terribly crushed, will not have to be amputated.

NORTH TORONTO.

School Board Are in a Quandry What to Do.

NORTH TORONTO, Aug. 27.—The members of the school board went over the ground at Bedford Park with a view to arrive at the solution of the problem of providing the school children there with accommodation, and did not reach a definite proposition to be taken up next Monday evening for further consideration.

There are different propositions to be considered. One is to put up the large hall at the hotel for a room, another is to secure one of the mission churches, or to get a large room in a private house. The matter is being considered.

A. Peters of East Eglinton-avenue is holding an auction sale of everything appertaining to his property, on Saturday, Aug. 29, at 1:30 p.m., including horse and heifer.

The executive committee of the Ratepayers' Association will meet in the council chamber on Saturday evening at 8 o'clock. All members are expected to be present as important business will come up.

The funeral of the late Mrs. Margaret Rutherford of Enfield-street took place this afternoon. The interment of the late Margaret Morris also took place to-day.

A road half driven by Arthur Watson of Bedford Park was overturned just south of the C.P.R. crossing on Yonge-street yesterday morning. Mr. Watson was thrown against a tree and his leg was broken. He was attended by Dr. Winters and conveyed to his mother's residence on Marlboro-street.

BARLSCOURT.

Suburbanites Won't Listen to Wootings of West Toronto.

BARLSCOURT, Aug. 27.—Speaking on the question of annexation of the Barlscourt district to West Toronto, W. A. Robinson, president of the Ratepayers' Association, said: "Annexation to West Toronto would do nothing for this district. No doubt West Toronto may be seeking new territory to assist them to help to pay their enormous civic debt, and have additional territory to pledge for improvements needed. West To-

ronto would like to get annexed to Toronto, and no doubt would form part of the taxpayers of the baby city. Nobody in Barlscourt favors annexation with West Toronto, and would sooner former part with Toronto. The whole scheme, however, seems to be evolved by the local street railway company for some reason."

J. J. Little said: "The district would be better annexed to Toronto than West Toronto, as the latter city cannot offer any inducements whatever. I believe the Toronto Suburban Railway Co. to get a franchise on St. Clair-avenue for their system."

HUMBER BAY TROUBLES.

Police Magistrate Will Submit Evidence to Crown Attorney.

Police Magistrate Ellis yesterday in the old court house, after listening to a mass of contradictory evidence touching the Linstead case, which broke out in Aug. 13, in which one William Linstead charged a number of young men with doing him serious bodily injury. Linstead adjourned the case for a week.

Linstead was represented by W. R. Smyth and the defendants by T. N. Phelan. In the morning the court gave the parties interested some good friendly advice, and the disposition to resort to heroic methods.

The highway belongs to the general public," said the magistrate, and if these matters must be settled in this way get on some private grounds and fight it out.

According to the evidence submitted Linstead was ejected from the local hotel there, and in redress threw a stone, which effected the desired purpose. He was afterward chased for half a mile west, overtaken, kicked and cuffed, and subsequently when he reached his own room was waited upon by a deputation of two or three, who demanded revenge. Nothing daunted, Linstead called out the police, and with the result that Magistrate Ellis intimated that he would be found guilty of disorderly conduct.

He further stated that all the evidence taken would be submitted to Mr. Monahan, as to whether the whole matter will be thoroughly investigated depends upon the action of the deputy crown attorney.

Vincent Mitchell, residing out near Mimico, was arrested by County Constable George Simpson yesterday and brought before High Constable Ragneden, who sent him over the Don on a week, when he will come before Police Magistrate Ellis. Mitchell, who was a boatman on the river, was developing a mania for eggs and succeeded in stowing away no less than 3, and was making an onslaught on the other vessels and creating much trouble generally when Constable Simpson arrested him. And he gave the officer a good argument. Dr. Godfrey regards him as insane.

NEWMARKET.

Gossip Around the "Hub" Singles Out Three or Four Candidates.

NEWMARKET, Aug. 27.—(Special.)—A meeting of executive of the North York Conservative Association has, it is said, been called for Saturday, Sept. 3. It is probable that a convention to nominate a candidate for the next election will be held on that date. The names most prominently mentioned as likely to come before the convention are Reeve Armstrong of the city, and John H. McKeay of the Express-Herald. Reeve Arthur Pugsley of Sutton, and John Boag. The candidature of G. R. Gamey is not seriously considered here.

EAST TORONTO.

G. T. R. Brakeman Taken to Grace Hospital.

EAST TORONTO, Aug. 27.—Henry Holker, 1646 Danforth-avenue, who fell from a G.T.R. engine late last night, and was taken to the Union Station and later to Grace Hospital, is reported as doing well. Beside a fractured hip, Holker, who is a brakeman, got a severe shaking up.

Ex-Truster "Bob" Peterson, who attended a threshing "bee" on the homestead up the York township a day or two ago reports the yield of barley and oats as very good. Barley ran over 20 bushels per acre. Farmers generally throughout Scarborough, where threshing is in progress, report the yield as better than was anticipated.

The crop and a rule is a failure. Miss Elsie Harding of Lindsay is visiting her friend, Miss Mary Paterson, for a few days.

MYRTLE.

Peter Christie, M.P. laid the cornerstone of the new Methodist Church at Myrtle yesterday afternoon. Rev. Mr. Howard, who is in charge of the congregation, was present, together with about five hundred representative people from Whitby, Oshawa, Port Perry and Toronto. The new building is being erected largely thru the efforts of John Bright, president of the City-

CONTEST FOR CONTROL OF SILVER LEAF MINE

Rumor That Boston Interests Are Fighting Toronto Holders—Cobalt Market Firm.

Thursday Evening, Aug. 27. In extent of dealings Silver Leaf stopped the local markets for mining stocks to-day. Heavy orders are in the market for this stock, but they are not being filled except as an occasion offers. It was rumored to-day that there was the possibility of a contest for the control of the company between Toronto and Boston interests, and that this was the opinion of many of the orders. Traders have bought considerable of the stock on the announcement of another rich find on the property, equal to the surface find on the Crown Reserve and believed to be an extension of the same vein. The whole Cobalt market was firm, both here and at New York. La Rose was the leader at the New York curb with 8000 shares dealt in. An early rise is predicted for this stock, and many are of the opinion that it will shortly cross Nipissing in the market. Crown Reserve was in good demand again to-day, as was also Temiskaming, both stocks making new high records. The markets closed decidedly strong with the buying demand far from satisfied.
