INJURED. Frank Walker, 82 Duchess street, Toronto.

Special to The Toronto World. Bowmanville, Ont., Aug. 12.—Four men and a woman were killed near the local station about 4.15 p.m. on Saturday when the Montreal Grand Trunk flyer crashed into a motor car driven and owned by Norman Fletcher, Oshawa, and carrying as passengers, James Connolly, James Normoye and William Johnston, all of Oshawa, and Frank Walker and wife of Toronto, who had been overtaken while walking to the station and had accepted an invitation to complete the journey in the motor car.

RUMANIANS MEET Foe IN DESPERATE FIGHTING

Allies Stoutly Defend Lines Before Fokshani—Russians Begin Counter-Offensive in the Region of Galatz to Ease Pressure.

London, Aug. 12.—In southern Moldavia the desperate fighting between the Russo-Rumanians and the Teutons continues with increasing ferocity.

Field Marshal von Mackensen is using strong forces in an endeavor to break thru the entente line toward the railroad junction of Tecuchiu. The Russians and Rumanians are resisting valiantly the numerically superior enemy, but have been forced to give up, at least temporarily, their positions along the railroad line north of Fokshani.

MANY HUNS SUCCUMB

Two Battalions Make Valiant Stand—Westhoek Ridge Firmly Held.

By R. T. Small, Staff Correspondent of the Associated Press. British front in France and Belgium, Aug. 12.—Hand-to-hand fighting of the most furious nature, in which bayonets and clabbed rifles were utilized, developed in the Glengorse Wood yesterday as a result of a German counter-attack by which the enemy took the southeastern portion of this elevation. Glengorse Wood was the southern extremity of the line taken by the British in Friday's offensive and, owing to the fact that it overlooked the surrounding country, the Germans determined to regain it at any cost.

TORONTO AIRMEN WIN DECORATIONS

Flight-Lieut. Sharman Engages Many Enemy Machines Single-Handed.

Canadian Associated-Press Cable. London, Aug. 12.—Several Canadian airmen with the naval services were decorated with honors tonight: Bar to Distinguished Service Cross: Flight-Lieutenant John Edward Sharman, Toronto, for courage and skill in attacking aircraft while on patrol on the evening of June 14. He observed five Albatross scouts, and dived on one, firing at about fifty feet range, the scout going down in a spin. He attacked, with six others, on June 24, fifteen Albatrosses, and destroyed one after a combat at close range. His right plane and tail falling off.

U. S. MAY TAKE OVER WHOLE WHEAT CROP

Washington Food Administration Will Attempt to Reduce Costs.

Washington, Aug. 12.—The food administration announced tonight its plan for controlling wheat, flour and bread, revealing that the government is prepared to take over the whole 1917 wheat harvest if necessary to conserve the supply, obtain just prices for America's fighting forces and their allies and reduce costs to the general public in the United States.

AUSTRALIA'S DUTIES ON IMPORTS RAISED

Melbourne, Australia, Aug. 12.—(Via Eeeter's Ottawa agency.)—In the house of representatives the minister of customs announced important increases in the customs and excise duties. The principal increase in customs is three shillings per gallon on imported spirits, with a proportional advance in excise. The increased excise tax on beer is estimated to produce 1600,000, which will counter-balance the loss sustained by prohibiting the importation of the following articles: Blenders, perfume, perfumed spirits, jewelry, air, stout, confectionery, motor bodies, apparel made of fur and three-tenths of last year's importation of spirits.

Forty Bombs Descend on Southend, Where Nine Women and Six Children Are Among Killed—Little Damage at Margate.

London, Aug. 12.—Twenty-three persons, including nine women and six children, were killed, and fifty persons were injured at Southend, in Essex, forty miles east of London, by bombs dropped by German raiders today, says an official statement issued tonight. Considerable damage to property was caused at Southend by nearly forty bombs dropped on the town.

Two men were injured at Rochford, but four bombs dropped on Margate, in Kent, did little damage. The latest statement follows:

"Enemy raiders caused considerable damage at Southend, where they dropped about forty bombs. The casualties thus far reported are: Killed, eight men, nine women, six children. About fifty people were injured. At Rochford two men were injured, but no damage is reported. At Margate, four bombs were dropped. One uninhabited house was demolished, but there were no casualties."

An earlier statement estimated that about 20 German planes took part in the raid on the southeast coast of England. It was stated that British aviators pursued the raiders out to sea.

BARNES MAY SUCCEED

London, Aug. 12.—George Nicoll Barnes, minister of pensions, who has attended the meetings of the war cabinet since Arthur Henderson started on his mission to Russia, probably will succeed Mr. Henderson as Labor representative in the war cabinet, and that Labor's support of the government is not likely to be affected by his resignation.

WASHINGTON FOOD ADMINISTRATION WILL ATTEMPT TO REDUCE COSTS.

Washington, Aug. 12.—The food administration announced tonight its plan for controlling wheat, flour and bread, revealing that the government is prepared to take over the whole 1917 wheat harvest if necessary to conserve the supply, obtain just prices for America's fighting forces and their allies and reduce costs to the general public in the United States.

Establishing of buying agencies at all the principal terminals, licensing of elevators and mills, fixing of a price to be considered fair, regulation of the middlemen of grain exchanges, with the elimination of trading in futures, are the chief features of the plan. The licensing will begin September 1.

## BRITISH RETAIN HALF OF WOOD

Operations we also captured six German guns.

The fighting along the ridge and in the Glencorse Wood on Friday, was most bitter and sanguinary, a large part of the ridge being taken with the bayonet. Heavy casualties were inflicted on the defenders. At one strongly defended point, the Germans withstood the British for three hours with machine gun fire and then the position was rushed by the attackers, the Germans being forced out.

## THIRD BODY RECOVERED

Kingston, Aug. 12.—A body washed ashore at Amherst Island tonight has been identified as that of George Cousins, one of the victims of the wreck of the schooner Grenville.

Seized with cramp while swimming in the bay off Mudge's Landing, between Hanlan's Point and Centre Island, yesterday morning, an unknown girl was almost drowned. Her cries for help brought a number of residents to the rescue, but she was unconscious when brought ashore. A pulmotor was procured, and after a short time the girl came to. The life-saving crew responded in answer to a telephone call. The girl was swimming about 20 feet from shore, and sank in about seven feet of water.

## HAD NARROW ESCAPE

Girl Seized With Cramps While Swimming, and Nearly Drowned.

When A. Fowler, 63 Austin avenue, visited 26 Galt avenue, last night, he found his father-in-law, Robert Lowe, dead in bed. Death is believed to be due to heart failure. Mr. Lowe was alone in the house, the family being away with friends at Bowmanville. Fowler, the front door being locked, was compelled to gain access to the house by way of a cellar window.

## WRECKED STEAMER MARSH WILL BE REMOVED FROM DANGER ZONE

Kingston, Aug. 12.—The government steamer Grenville has arrived here and will go to the scene of the wreck of the schooner George A. Marsh, to make an investigation.

Special to The Toronto World. Kingston, Aug. 12.—The government steamer Grenville has arrived here and will go to the scene of the wreck of the schooner George A. Marsh, to make an investigation. A report is to be made by the captain of the Grenville to the marine department at Ottawa. If the vessel is found to be in a position where it will be a danger to navigation, it will either have to be salvaged by the owners or blown up by the government. It is understood that it is the intention of the owner, J. B. Flint, of Belleville, to have the vessel raised.

## FOURTY-FIVE A MONTH TOO HIGH FOR FARMERS

Men Released From Toronto Factories Return to City From Victoria Unhired.

Special to The Toronto World. Lindsay, Aug. 10.—Twenty-five young men, some mere boys who were released by the William Davies Co. Toronto, to help harvest the crops, arrived here unexpectedly. A. A. Knight, of the department of agriculture immediately got in touch with farmers in the surrounding country who drove to town and engaged some of the likely timber, but the wages demanded by the men (\$45 a month and board), did not appeal to many of the farmers, who claimed that they wanted experienced men. Some of the men returned to Toronto.

### FRENCH RECAPTURE ST. QUENTIN LINE

Brilliant Counter-Attack Takes Positions From Germans.

### ACTION NEAR AILLES

Two Strong German Attacks Fail With Heavy Losses.

Paris, Aug. 12.—French troops last night resumed their counter-attacks against the positions which the Germans had captured on the night of a 4-11 north of St. Quentin. The French official statement issued this afternoon said the ground previously lost was reconquered in its entirety.

South of Ailles, in the Aisne region, two strong German attacks on the trenches captured earlier by the French were repulsed with heavy German losses. There were no infantry actions on the French front in Belgium.

The communication issued by the war office this evening says:

"Today the cannonade assumed at times rather considerable violence in Belgium. In the sector of Hurlonville (Aisne) and on both banks of the Meuse (Vandun region).

"The Germans have directed a scattered artillery fire all over the City of Hurlonville. Two civilians were killed and one civilian was wounded.

"The day was quiet elsewhere.

"The official statement issued last night by the war department follows:

"In Belgium the artillery fighting was very spirited throughout the day. To the north of St. Quentin a German infantry attack against our positions to the east of Fayet was stopped short.

"In Champagne the activity of both sides has slackened a little. In the region of the Meuse, which they attacked last night without success in the Carrière sector, they today directed two attacks against our trenches at Mont Saint. The assaults were caught under our fire and forced to fall back on their departure trench. Other enemy attempts against Mont Blond were similarly repulsed.

### CARDINAL GASPARRI HAS POPE'S CONFIDENCE

Vatican Denies Report of Succession By Mgr. Tedeschini.

Rome, Aug. 12.—Reports from foreign countries that Monsignor Francesco Tedeschini had succeeded Cardinal Gasparri as the papal secretary of state, were denied today at the Vatican. It was stated at the Vatican that Cardinal Gasparri enjoys the full confidence of Pope Benedict, and that the office of secretary of state has taken place.

The official French Bureau of Information in New York today published on August 10 a cable message received from Paris indicating that Mgr. Tedeschini, the under-secretary of state, was to succeed Cardinal Gasparri as secretary of state.

"I regard a conference at which the peace cranks of all countries, including Great Britain, and Germany's secret agents masquerading as pacifists and friends of labor will be gathered at a cunning trap set to catch loyal British labor representatives and thru them, organized labor men supporting the war."

### GLASGOW PEACE FOLK HOLD DEMONSTRATION

J. Ramsay MacDonald Wants to Go to Stockholm.

Glasgow, Aug. 12.—Pacifists of this city held a large open-air demonstration yesterday to protest against the authorities' ban on the conference convened by the Independent Labor Party, which is an offshoot of the pacifist independent labor party. James Ramsay MacDonald, Socialist Labor Party member of parliament, was received with cheers and the waving of red flags when he rose to address the meeting. He said: "We are called enemies of the soldiers, but in reality we are their greatest friends. Our enemies are the profiteers, the war-mongers, the men who hold the labor movement and to prevent our delegates from going to Stockholm, they put their snarling jaws at the throat of the peace movement. We will not give up our children to death."

### MEIGHAN SHOWS UP HUDSON'S "EXPLANATION"

"Why Did Convention Vote Compulsion Down?" His Pertinent Query.

By a Staff Reporter. Ottawa, Aug. 12.—Hon. Arthur Meighan when shown the "explanation" of Hon. A. B. Hudson of Manitoba that the resolution of the western liberal convention really meant compulsion, made the following comment: "This is the spirit in Ontario. If the convention favored compulsion, why did they vote compulsion down? Show that explanation to Mr. Meighan and see what he thinks about it. Also if the resolution meant anti-unionism, telegraphed Mr. Oliver that it was highly objectionable. Show that explanation to Sir Wilfrid. See what he says about it."

### SWISS MUST ENLARGE CREDIT TO GERMANS

London, Aug. 12.—Swiss firms doing a big export business with Germany have received notice from the German trade department at Berlin, according to a Central News despatch from Zurich, stating that the government has permitted to send goods to Germany unless they agree to accept payment for them in marks three months after peace has been declared.

### PETROGRAD TO RID ITSELF OF LOAFERS

Russian Government Decides to Eject Parasitic Population.

Petrograd, Aug. 12.—A partial evacuation of Petrograd by idle and non-productive elements of the population in order to alleviate the economic crisis, which daily is becoming more acute, was favorably considered by the government as a constructive measure. The proposition referred to the minister of justice.

### GERMAN TRAP TO CATCH ALLIED PEACE CRANKS

Premier Hughes Opposes British Representation at Stockholm Conference.

London, Aug. 12.—(Via Reuter's Ottawa Agency.)—Premier Hughes of Australia has telegraphed the colonial office expressing the strong opinion that British representation at the Stockholm conference would be most undesirable and calculated to hamper the allies in the prosecution of the war and in deciding the terms of peace.

### KILKENNY ELECTION WILL BE DISREGARDED

Irish Nationalists Understand the Temporary Causes of Sinn Fein Influences.

Dublin, Aug. 12.—The Sinn Fein victory in Kilkenny is the subject of much discussion among the delegates here to the Irish convention. The opinion of well-informed political circles is that the Kilkenny result will not affect the action of the Irish parliamentary party. The extent of Sinn Fein influence and its temporary causes already having been estimated, the future now depends on the convention.

### MOVE BY HENDERSON IS MORAL SURRENDER

Winning or Losing of War Depends on Solution of Crisis—Allies Must Take Instant Action in Union Regarding Stockholm Conference.

London, Aug. 12.—The Sunday Observer says that the action at the labor conference on Friday, of Arthur Henderson, the resigned minister without portfolio, in the British cabinet, confronts the government with a crisis on the solution of which will depend the winning or the losing of the war. "Mr. Henderson," the newspaper says, "has raised the flag of moral surrender." The Observer then proceeds to analyze the situation and says: "The council of workmen and soldiers' delegates has not a shadow of right to speak for Russia. Neither Mr. Henderson, nor the independent labor party has the right to speak for Great Britain. If the attempt to arrogate such right goes further, there must be instant repudiation. Must Act in Union. "The only means of correcting the mischief is for the government's allies to take instant action in union. They ought to assert that in free countries, in time of war, responsibility and authority belongs solely to the government representing the whole nation in accordance with parliamentary systems which Germany does not possess. "We hope President Wilson without waiting for any other lead, will take up this principle. He could give it an incomparably clear and grave expression in such another state document as he recently addressed to Russia. Look to Lloyd George. "We hope Premier Lloyd George will take the initiative in inducing all the league of liberty, including the United States and Premier Kerensky's government, to declare that there can be no negotiating whatever, until the unconditional withdrawal from the territories invaded by the enemy is assured and that there can be no peace until reparation, restitution and guarantees are actually obtained and accomplished. "If that declaration cannot be assured, Mr. Lloyd George ought to take the issue to the people at a general election as soon as possible. We must know who represents opinion and power, and we must face our soldiers' and workmen's movement before irreparable mischief on the Russian model has been done. "The only alternative would be for the government to have a direct meeting with the chief representative of labor and to give its reasons as the government why Friday's decision (to send delegates to Stockholm) should be reversed. That would be the best solution. "The Stockholm conference must not take place with British participation, apart from America and the allies."

### MOVE AVOIDED WAR ON GERMAN SOIL

Hun Staff Officer Frankly Admits Reverse of Marne.

### COUNTER IN BELGIUM

Final Victory Not Secured Because French Line Was Unbreakable.

Copenhagen, Aug. 12.—Lieutenant-General Baron von Freytag-Loringhoven, chief of the supplementary general staff of the German army, in a German newspaper, admits the failure of the German offensive in Belgium, and states that the French originally started to concentrate their armies along their own eastern frontier, and made a belated change in their plan after the German offensive was set in motion thru Belgium, and the Germans profited greatly from the resulting confusion and delay.

Stories of French troops marching thru Belgium during the initial stages toward the west, and of airplane and automobile attacks from Belgium territory, and other facts, which figure so largely in the German justification of the invasion of Belgium, are not mentioned in General von Freytag-Loringhoven's article. German Advances. After a description of the bulk of the German forces westward, consisting of four armies, comprising its center and left bank of the Meuse, in Luxembourg, beginning Aug. 18, 1914, he says: "The French main concentration was originally accomplished between Belfort and the Belgian frontier, and the first indication that the German offensive was a German advance thru Belgium resulted in a shift to the left. The entire army recognized the danger and previously they had assumed that only an army of cavalry, strengthened by some tanks, was present. "In consequence of the original erroneous concentration toward the east, the French Fifth Army did not succeed in advancing beyond the line of Dinant, where they were forced to content itself with holding the passages of the Rivers Sambre and Meuse. "The article proceeds to describe the disastrous effect of the sweep of that unexpected German force, the successive French armies and the advance to the Marne. General von Freytag-Loringhoven declares that the Germans retreated from the Marne because they were too weak to break thru the French lines, but he argues that, although final success was missed there, Germany, by seizing the opportunity of daring advance thru Belgium, avoided war on her own territory. "The newspaper says that the article of Gen. von Freytag-Loringhoven, who is Germany's leading military historian and writes the official German general staff records, is circulated semi-officially in the German press.

### BRITISH VESSEL SINKS SUBMARINE OFF BREST

First Shot Destroys Periscope, Explosion Follows, and U-Boat Disappears.

An Atlantic Post, Aug. 12.—Another German submarine has been sunk by the guns of a merchantman, if the gunners of a British freighter which arrived here today are correct in their assumption that three shots which struck an undersea boat off Brest, France, sent her to the bottom. The British merchantman, the *St. John*, on her last outward trip from this port. One shot destroyed the periscope. The second and third were followed by an explosion and the submarine disappeared. The gunners were confident that the submarine went down involuntarily.

### NINETEEN PORTUGUESE FISHERMEN DROWN

Gale Swamps Dories Off Cape Cod—Wreckage of Boats Seen.

Boston, Mass., Aug. 12.—Nineteen Portuguese fishermen of Provincetown were drowned when the dories in which they were fishing off Cape Cod were swamped by a gale that came up suddenly late Friday afternoon. The men were from the fishing schooners *Mary C. Santos* and the *Natalie J. Nelson*, which arrived here tonight. Eight Gloucester fishermen, comprising the crews of the small fishing schooners *Daniel and Alice Stetson*, are also believed to have been lost in the gale. Members of the crew of the fishing schooner *Virginia* reported that they had seen both the *Daniel* and the *Stetson* making desperate efforts to ride the storm, and later saw boats and wreckage from both craft wash by. The storm struck the fishing fleet 90 miles south by southeast of Highland Light, a 45-mile wind sweeping up from the southeast and suddenly veering to the northwest.

### RESCUED PASSENGERS REACH AFRICAN PORT

U. S. Steamer City of Athens Lost—Ottawa Man on Board.

New Bedford, Mass., Aug. 12.—The loss of the American steamer *City of Athens* and the rescue and landing of an African port of all the passengers was announced in a cable message received tonight in this city from a South African port. No details of the mishap were given. The messages simply stated: "All passengers saved. Everything lost." The steamer was bound from an American port and had seven missionaries on board representing a local religious organization. Among the passengers were Douglas Heine, Ottawa, and Mr. and Mrs. Arthur E. Hornsby and baby, of this city. The *City of Athens* registered 9000 tons and was owned by the American Navigation Company.

### POPULAR INDIGNATION GROWS IN NORWAY

German Persecution of Vessels in Coastal Trade Rouses Norwegian Newspapers.

Christiania, Aug. 12.—Popular indignation here against the German persecution of vessels in the Norwegian coastal trade has again been aroused by the case of the steamer *Thorun*, whose officers pilot and crew landed in the three-mile limit of the Norwegian coast when seized as a prize by a German submarine, last May. The steamer recently was released by the German naval authorities and has returned to a Norwegian port. The newspapers have severely criticized the government for accepting the German note on the incident, which offers neither apology nor compensation for the time lost while the *Thorun* was held in a German port. It is expected that the incident will be brought up by interpellation in the storting.

DYNAMITE OUTRAGE OPENLY EXTOLLED

Fire-Eating Anti-Conscriptionists Promise Greater Outrages if Conscription is Enforced.

Montreal, Aug. 12.—Paul Lefortune, one of the young "fire-eating" anti-conscriptionists of the nightly open-air meetings, at a small gathering on the Champ de Mars tonight, referred to the attempted destruction of Lord Abolition's summer residence at Cartierville while Lord Abolition and his family were asleep in the house. He said: "The affair at Cartierville shows that we are not cowards. What was done at Cartierville was well done and I am not afraid to say so. Fernand Villeneuve, the 18-year-old advocate of killing any persons who would attempt to put conscription into force, declared tonight that if the government declared tonight that it the people would do what their forefathers in 1871 had done, and the affair at Cartierville would be only a 'peanut to what would come.'"

#### Coal Situation Still Urgent.

There is still an ominous look about the coal situation. A warning has been given local merchants and manufacturers to take what they could get at any price. The demand in the United States is urgent and insistent, and Canada is likely to suffer by the same competition. The excuse for not supplying Canada more promptly is unfortunately supplied by Canadians themselves. Very flagrant cases of delay in unloading cars have been reported. Dealers and brokers waiting for sales have held up cars for weeks at a time waiting for higher prices, and making storage bins of the wagons on the sidings. No wonder the United States roads complain and impose embargoes.

The coal dealer who handles coal in this way is not only a profiteer, but he is an open enemy to his country, and the whole nation suffers and suffers acutely because of him. Mr. Magrath or whoever is responsible should adopt drastic regulations for dealing with such cases.

It is stated that 45 per cent. of the coal ordinarily required has been laid in stock, and to this extent the situation is satisfactory. But very great evils and distress might arise out of inability to supply the other moiety required with promptness and at reasonable prices. Large numbers of people have no coal at all, and they are depending on the service which was so inadequate last year, and which is, if anything, worse equipped for the approaching season. The failure to nationalize the Grand Trunk Railway, for whatever cause, leaves the coal situation that much worse. The Acworth-Draxton report regarding the consolidation of the roads as a measure of relief for the coal situation.

Perhaps the railway commission can arrange for some scheme for pooling the rolling stock of the roads concerned with the coal supply. It will be criminal negligence if the authorities face the coming winter without taking steps to relieve this country of such conditions as were suffered last season.

#### Pacifists Are Pro-German.

In the United States Mayor Thompson of Chicago has become the great type and warning of those who in Canada rally together under the banner of anti-conscription. There is an advantage in having a distinct impression and image of one's ideal in life, and Mayor Thompson furnishes it distinctly. He is strong for providing an army to protect America against invasion. Our Canadian pacifists are quite of this idea. It will be time enough to fight for the maritime provinces and Quebec, they say, when the German navy is in the St. Lawrence and the German army sailing Halifax and St. Anne de Beaupre. They hope in Britain that Germany may be defeated before it comes to fighting on this side of the Atlantic. Mayor Thompson also puts his trust in Britain and France, and hopes, no doubt, that Britain will be victorious and save him trouble.

Nothing can be clearer, however, than that Britain and France alone cannot defeat Germany. That is what makes the Germans so hopeful even in their extremity. Every army corps helps. Every division helps to turn the scale. The United States Government watched the situation most carefully and it was not till the inability of the allies alone to protect themselves and America, democracy and the world, against Germany, became apparent, that President Wilson entered the conflict. With the solid help of Russia the allies, no doubt, could have struggled thru. But Russia's help for some time to come must be fitful and unreliable. America is now fighting for her own life and liberty and glad to have the assistance of the allies.

It is, therefore, ignorance of the real military situation that causes men like Thompson and our Canadian pacifists to act as they do. The same class of men in Germany and other countries always have a vivid sense of "safety first" measures and are always to be found on what is expected to be the winning side. The German pacifists were all for Germany while Germany looked like winning. Now they are all for peace when Germany looks less secure.

There is not the slightest doubt about the German sympathies of all those who are opposing active war measures in the United States and Canada. It is an attitude difficult to understand, but ignorance of the facts explains it.

One might imagine that Quebec would sympathize with Alsace-Lorraine. It appears as the Quebec wished to pass thru a similar martyrdom. The United States, one might suppose, had sufficient war in her borders 50 years ago, without desiring

#### The Last of the Barons

THE last of the barons died out in California the other day. He was a very old man and very simple and very kindly. He left behind him a rolling miles—acres—miles of land, great bands of cattle, ten thousand head, sheep which have never been counted and pasturage for the herds of a nation.

He had ranches up in the mountains, where the cattle could range the foothills. He had ranches in the rich valleys, where every foot of land sold for an inch at that price. Along the river beds his lands stretched like the domains of a king and every once in a while, when you were motoring over one of the hard, smooth roads, whether you were in the mountains or in the green valleys, or in the orchard country, or among the vineyards, or skimming along on the edge of the desert, some one would say: "Here is one of the baron's homes."

And you'd look closer and see a plain, neat ranch house, with an old-fashioned gate and a regular stockman's corral and some outbuildings and, at ways at the ranch house, a plain but comfortable porch—for the baron was a plain man and liked the plain comforts of the plain people.

He came to this country a poor boy, just one cent to his back, and that was his whole world. They say that he wore a pair of shoes, and a queer German hat, with a tassel on it, that made him look like a clown, and he had a pair of blue eyes and a light heart and a good-humored way, and he loved, more than anything else on earth—work. Hard work, with no time to rest between jobs.

When he arrived in California everybody else was going to the mines. The baron went to the mines, too, but he did not dig for gold. He opened a little shop and sold salt pork at five dollars a pound and bacon at thirty dollars a hundred, and the miners were glad to get it and pay him in gold dust, which they brought in little sacks. As soon as there were enough bags of gold dust in the back room of the little building he took a partner and they called their shack the "Baron's Store."

While he was hunting for meat, he found land, and land, and more land, first—and then for some time he had a woman up in Calaveras County, gave him one hundred and sixty acres, which he carried as he read a horseback.

When a woman stuck the whip in the ground and he was in gold dust, he grew her, her conscience twinged and he troubled her, for she thought she had like a fairy tale when his own grand children hear it twenty years from now. For we, too, are changing here in America, aren't we?

am sure, a tremendous field for the newspapers in educating the people and in paving the way for more advanced and progressive ideas.

As I am still in the service this letter, must, of course, remain private, but as I imagine that you will come to my attention, I will send you my campaign proceeds very far, I am simply taking this opportunity to commend your attitude and to wish you every success. Overseas Officer.

#### The Army Menace.

Editor World: Will you allow me to congratulate and thank you for the stand you are taking on the question of venereal disease, as evidenced by your recent editorial?

As a member of the original Canadian division I saw some of the results among the men on the other side. The wastage and the resulting inefficiency was a very serious drain, not only on the Canadian forces but on the army as a whole. Since my return to Toronto I have had a number of letters, thru the loss of men under my command from an occasional visit to this country, that conditions in this country are showing signs of being very different from what the standard patterns would have us believe.

We are not a military people, and so I am quite sure that conditions in the army are only a reflection of civilian ideas and customs. If at this time of reconstruction there is any greater need than that of strengthening our real defenses with their effects, reaching to the third generation, I do not know what it is. The moral side of the question, I suppose, must be left to the preachers to argue with us. I have in the past, but in merely considering the question from a national public health point of view there is, I

#### Ready Money

"Real opportunities come only to the man with ready money."—John D. Rockefeller.

Almost every day opportunities of various kinds present themselves to you—to go into business, to make an investment which will certainly prove to be profitable, and in numerous ways rise to a position of prosperity. The possession of a greater or lesser amount of capital is necessary. If you lack the opportunity passes you by.

Why prepare for some of these opportunities by having a small portion of your income invested in a fund that will begin with a dollar at a time. Even if you compound half-yearly at three and one-half per cent. per annum, will amount in ten years to \$100.00. The possession of a steadily growing savings account will be a stimulus to you to increase it. The necessary capital will be in your possession sooner than you now anticipate.

### SAMUEL CHARTERS GETS CONVENTION

#### Chosen By Peel Forces to Carry Standard in Coming Election.

By a Staff Reporter.  
Brampton, August 11.—At the Liberal-Conservative convention Saturday afternoon Samuel Charters of Brampton was chosen the Conservative candidate for Peel County in the coming federal election, as successor to Richard Blair, M.P., recently appointed to the senate.

The names of L. A. Hamilton and James R. Fallis were also mentioned as candidates, but Mr. Fallis, with expert aid in the vote which followed Mr. Charters was successful over L. A. Hamilton. Immediately after the nomination a vote was taken making Mr. Charters the unanimous choice of the convention, which was held in the armories.

The convention was largely attended by representatives of the entire county, including many ladies who came to assist in the nomination of a candidate for the provincial house, but the main business of the convention was the nomination of Mr. Charters as the Conservative candidate for Peel County in the coming federal election.

Mr. Charters did not arrive until after the convention. He was given a splendid ovation upon entering the building. He took the platform and in a short but forceful speech thanked the electors and gave a short review of his political career. He has been the Conservative member in the provincial legislature for this riding for several sessions, and was finally forced to resign in 1914.

A Warm Welcome.  
Mr. Charters, upon his entrance, which did not take place until after the meeting had been declared, was warmly welcomed by the Conservative members of the provincial legislature for this riding for several sessions, and was finally forced to resign in 1914.

He immediately took the platform and briefly outlined his former political experience when he represented Peel County in the provincial house during two terms until he was forced by ill health to resign office.

The return to power of Sir Wilfrid Laurier would be a national calamity, which is not in the interests of my sons and your sons at the front. He stood up for recruiting as it should have done. Out of a population of 2,000,000 only 7000 French-Canadians went to the war. Sir Robert Borden had the support of 96 men selected in opposition to him, and that is an indication that the English-speaking people at least are behind him in his policy.

The premier is in favor of a union government, and that union government will have the support of this convention and of a large percentage of the population of Peel, irrespective of party affiliations.

The Conservative party, he said, had done what it could to prevent an election. The election was now upon the people because of the unfortunate action of Sir Wilfrid Laurier and those who are with him. "I am against an election being held at this time, and I am in favor of a union government and the military service bill introduced by Sir Robert Borden," he concluded.

Senator Blair Speaks.  
Richard Blair, former representative of the riding in the federal house, and who was recently appointed as a member of the senate, was the final speaker. "The Conservative party," he said, "stands today in the proud position of its whole history, and I am glad to know that on this great question it is found on the right side. It is our policy that is appealing to the best men on the other side of politics, and the men we need not hesitate to speak out boldly. We stand for winning the war and winning it in the interests of civilization and Christianity."

#### POTATOES AT TWO DOLLARS

Special to The Toronto World.  
Brampton, Aug. 12.—The greater production effort in this district brought down the price of potatoes for this year with a jump, they being offered in plenty Saturday at \$2 per bushel. It is expected that when the main crop is harvested they will be much lower. Butter and eggs advanced.

#### GIRLFORME WAS IN STORM.

Special to The Toronto World.  
Kingston, Aug. 12.—The yacht Girlforme of the Royal Canadian Yacht Club, Toronto, was out in Wednesday's gale.

The yacht was weathering Presque Isle Bluff at the time the steamer Marsh went down. The party were in Kingston Saturday, and included Messrs. Britton B. Cook and Basil G. Morgan, the owners, and the crew, consisting of C. H. J. Snider and G. McMurey of Toronto.

#### BIG DROP IN POTATOES.

Special to The Toronto World.  
Kingston, Aug. 12.—There was great rejoicing among the householders on the market Saturday when potatoes, which had been selling for 60 cents per peck, dropped to 45 cents. "They drop still lower," said the buyers. It is reported that the price will go lower still, and a danger of some of the farmers wanting to get rid of them. There was no change in other prices worthy of note.

#### CHEESE FACTORY BURNED.

Special to The Toronto World.  
Brookville, Aug. 12.—A considerable fire completely destroyed the cheese factory at Soperton, owned and operated by Davison & Berner. It has a capacity of about twenty cases a day and was a comparatively new and modern structure. The loss is estimated at about \$10,000.

As I am still in the service this letter, must, of course, remain private, but as I imagine that you will come to my attention, I will send you my campaign proceeds very far, I am simply taking this opportunity to commend your attitude and to wish you every success. Overseas Officer.

#### The Army Menace.

Editor World: Will you allow me to congratulate and thank you for the stand you are taking on the question of venereal disease, as evidenced by your recent editorial?

As a member of the original Canadian division I saw some of the results among the men on the other side. The wastage and the resulting inefficiency was a very serious drain, not only on the Canadian forces but on the army as a whole. Since my return to Toronto I have had a number of letters, thru the loss of men under my command from an occasional visit to this country, that conditions in this country are showing signs of being very different from what the standard patterns would have us believe.

We are not a military people, and so I am quite sure that conditions in the army are only a reflection of civilian ideas and customs. If at this time of reconstruction there is any greater need than that of strengthening our real defenses with their effects, reaching to the third generation, I do not know what it is. The moral side of the question, I suppose, must be left to the preachers to argue with us. I have in the past, but in merely considering the question from a national public health point of view there is, I

#### Ready Money

"Real opportunities come only to the man with ready money."—John D. Rockefeller.

Almost every day opportunities of various kinds present themselves to you—to go into business, to make an investment which will certainly prove to be profitable, and in numerous ways rise to a position of prosperity. The possession of a greater or lesser amount of capital is necessary. If you lack the opportunity passes you by.

Why prepare for some of these opportunities by having a small portion of your income invested in a fund that will begin with a dollar at a time. Even if you compound half-yearly at three and one-half per cent. per annum, will amount in ten years to \$100.00. The possession of a steadily growing savings account will be a stimulus to you to increase it. The necessary capital will be in your possession sooner than you now anticipate.

### SAMUEL CHARTERS GETS CONVENTION

#### Chosen By Peel Forces to Carry Standard in Coming Election.

By a Staff Reporter.  
Brampton, August 11.—At the Liberal-Conservative convention Saturday afternoon Samuel Charters of Brampton was chosen the Conservative candidate for Peel County in the coming federal election, as successor to Richard Blair, M.P., recently appointed to the senate.

The names of L. A. Hamilton and James R. Fallis were also mentioned as candidates, but Mr. Fallis, with expert aid in the vote which followed Mr. Charters was successful over L. A. Hamilton. Immediately after the nomination a vote was taken making Mr. Charters the unanimous choice of the convention, which was held in the armories.

The convention was largely attended by representatives of the entire county, including many ladies who came to assist in the nomination of a candidate for the provincial house, but the main business of the convention was the nomination of Mr. Charters as the Conservative candidate for Peel County in the coming federal election.

Mr. Charters did not arrive until after the convention. He was given a splendid ovation upon entering the building. He took the platform and in a short but forceful speech thanked the electors and gave a short review of his political career. He has been the Conservative member in the provincial legislature for this riding for several sessions, and was finally forced to resign in 1914.

A Warm Welcome.  
Mr. Charters, upon his entrance, which did not take place until after the meeting had been declared, was warmly welcomed by the Conservative members of the provincial legislature for this riding for several sessions, and was finally forced to resign in 1914.

He immediately took the platform and briefly outlined his former political experience when he represented Peel County in the provincial house during two terms until he was forced by ill health to resign office.

The return to power of Sir Wilfrid Laurier would be a national calamity, which is not in the interests of my sons and your sons at the front. He stood up for recruiting as it should have done. Out of a population of 2,000,000 only 7000 French-Canadians went to the war. Sir Robert Borden had the support of 96 men selected in opposition to him, and that is an indication that the English-speaking people at least are behind him in his policy.

The premier is in favor of a union government, and that union government will have the support of this convention and of a large percentage of the population of Peel, irrespective of party affiliations.

The Conservative party, he said, had done what it could to prevent an election. The election was now upon the people because of the unfortunate action of Sir Wilfrid Laurier and those who are with him. "I am against an election being held at this time, and I am in favor of a union government and the military service bill introduced by Sir Robert Borden," he concluded.

The name of Alfred Noyes of a poet or Englishman was established long ere the war broke, but as to many an Englishman's poet, the war has brought to him a new fame. He has written the greater songs that he has given to the world, that have been born out of the war's passion and its sorrow. He has written better known to the great body of reading people, than his prose writings upon the naval side of the war. In "Open Boats" he has done this briefly, concisely and fearfully pointed with the German submarine campaign which has affected the merchant seamen who have time and again been sunk underneath them, while they were left to sink or swim, just as the chances of the open sea might dictate.

### WARD ASSOCIATION'S WITH LAURIER

#### Meeting in West Bloor Street Strongly Supports the Liberal Leader.

The day of judgment for the Liberal party is at hand, and that the Liberal party is shortly going into power is a sentiment expressed at the meeting of the Ward Five Liberal Association in Bowen's Hall, West Bloor street, Saturday evening. It was a very large meeting, about 100 in number, but what it lacked in numbers it amply made up in vehemence and Sir Joseph Flavelle, Sir Robert Borden were the chief ones in the latter trade was directed at the Liberal party in an impassioned address by Mr. Goldenberg, who pointed out that the chief thing aimed at by the association was the fact that later a resolution was adopted endorsing the Liberal party. Mr. Goldenberg, declared Mr. Goldenberg, but not conscription of manhood, conscription of wealth and of everything else except that of manhood. "We do not conscription," he said, "we are immediately bankrupt. It was suggested by Sir Robert Borden that the welfare of Canada and the world, but merely as a method of patriotism to enable him to return to power."

### VIADUCT DISPUTE IS NOT SETTLED

#### Ald. Beamish Claims City Should Let Contract for Laying Rails.

"At the meeting of the works committee last Friday, called to discuss the passing of the bylaw regarding the laying of Danforth avenue to the bridge," said Alderman Beamish to a reporter of The World yesterday, "I asked Commissioner Harris if it would not be possible to let the contract for the paving and the rails on the bridge to the present contractors, in order to overcome any objection they might have to the city interfering in their contract at the present time. The commissioner said that he would not take the responsibility of letting the contract to them, but he would not give any reason for his decision."

"I also asked Commissioner Bradshaw if he did not think it was bad financing on his part to allow two and a half million dollars already spent, to be idle for the sake of the additional forty or fifty thousand dollars which it would take to complete that section of the work. Commissioner Bradshaw, in answer, stated that he did not like to jeopardize the city's interest by paying 8 per cent, which it would take to issue additional bonds for this amount."

"It was absurd for him to make this statement as every financier in the city knows that we can get all the money we want for six or six and a half per cent, and it showed weakness on the part of the finance commissioner."

"The fact is that the city has not the money to complete that work," continued the alderman. "I believe the bonds and debentures were sold, and the money was raised by the city for this work, but that the money has been used for other purposes and that the city will not own up to it. In consequence I can see no prospect of the work being completed until probably the end of next year, despite anything else the commissioner may say to the contrary, as the commissioner cannot do anything until he gets this money again."

That the Times of Toronto will be a better guide to the opinion of J. Dunbar, the president of the association, who described Toronto as a sanitarian for diseased Conservatives. The cabinet of the Hon. Sir Robert Borden, he told them, was made up of crooks and grafters. The Hon. Sir Robert Borden had been proved a graft by a Conservative judge, and yet he had been whitewashed by Sir Robert Borden.

Sir Wilfrid Laurier is to be the next premier of Canada, declared Louis Durofsky, and then, Canada will take its part in the war, but it will be done by the will of the people and under the leadership of Sir Wilfrid Laurier. "The people of Ottawa are trying to plunge the country into a civil war," he declared. "But what we must have is a national government headed by Sir Wilfrid Laurier, and there must not be a single Conservative representative in the whole seven seats of Toronto. Then we shall have our representatives at Ottawa, and there will be no possibility of the mayor and the councillors running there to represent Toronto."

Wifful Negligence. T. Shephard charged the government with wifful criminal negligence in putting the Ross rifles in the hands of the boys at the front and leaving them with insufficient ammunition. He said that Hon. Robert Rogers conspired with the Minister of Militia for the purpose of blasting the name of Sir Wilfrid Laurier, and today conscription was only a Conservative sleazy manoeuvre to defeat the leader of the opposition. "We have often been charged with being disloyal," he said, "but I tell you we have not got the rifles in our hands, and if the Militia Act were put into force eight per cent of the boys would be willing to go and there would be no necessity for conscription."

That the name of Wesley had a fascination for the Tory Government was stated by A. C. Fleming, who pointed out that at the beginning of the war the name of Col. Wesley Allison figured largely in the eye of the public and later another great man loomed up in the person of Sir J. Wesley Flavelle. "And now we are told that there may possibly be another one added to the list in the person of N. Wesley Rowell," he said.

Resolutions Adopted. Two resolutions were adopted, the one condemning Sir Robert Borden and the Conservative party, who were charged with "grafting" and the other expressing the confidence of the meeting in Sir Wilfrid Laurier.

A committee was appointed to bring in a list of names for the officers to be elected for the ensuing year, but objection was raised when the list was produced by Louis Durofsky on account of the Jewish element having been omitted. Mr. Dunbar agreed in this, saying that they must be added, as during the past two weeks 40,000 Jews have enlisted, although they are not a fighting race. Some new names were added and the following were duly elected: Honorary presidents, J. Kane and George Major (Dr. J. Wood); president, J. Dunbar; first vice-president, F. Washburn; second vice-president, W. H. Scott; third vice-president, H. P. Ritchie; secretary, F. Robinson; treasurer, T. Shephard; executive committee, T. E. Young, W. L. Colford, B. J. Higgins, F. Giles, E. Mahar, P. J. Goughlin, J. Egan, H. J. Sonderman, H. Bain, W. T. Burdette, Dr. Kane, Morris Simon, A. Andrews.

At the close of the meeting three cheers were given for Sir Wilfrid Laurier, the King and the boys at the front, but the singing of the National Anthem was conspicuous by its absence, both at the commencement and the close of the meeting.

# The Crowning Result

This is the one quality that constitutes the crowning recommendation for Goodyear Tires.

While Goodyear has led in the efforts to magnify riding-ease and security it is above all in this direction—in multiplying the miles delivered upon the road—that Goodyear tire-making knowledge and achievements represent a tremendous forward step.

For Goodyear Tires positively do yield that greater mileage—the motorist's actual return for the money he invests—which business minded men have set as their standard in tire purchasing.

Two causes co-operate in enabling Goodyear Tires to outserve, outlast, and outvalue so indisputably.

Primarily the prolonged usefulness, the slow and grudging wear, the brimming value of these tires come as result of Goodyear construction.

Goodyear Tires in the No-Hook type are protected against blow-outs by our On-Air cure, against rim-cutting by our No-Rim-Cut feature, against loose treads by our Rubber Rivets, against insecurity by our Braided Piano-Wire base, against skidding by our All-Weather Tread.

Most motorists have neither the time nor the inclination to analyze the effect of these superior features.

But they are actually interested in the greater mileage and heightened efficiency these features lend.

They appreciate even more the merit of Goodyear endeavour when they become acquainted with the work of the Goodyear Service Station Dealer.

It is the work of the Goodyear Service Station Dealer to extend the goodness, the stamina, the vitality—in a word, the mileage—that is built into Goodyear Tires.

His work covers many phases. It involves doing many duties you might otherwise neglect. Rendered at no extra cost to you, this service will save your tires, your time, your money, your temper, your clothes.

He, and the thousand or more Goodyear Service Station Dealers who co-operate with him, stand ready beneath the emblem shown here.

Look for this emblem of Goodyear Service. Drive your car up to it. Let the Goodyear dealer demonstrate his willingness, his expertness, his money-saving service. Stop at this emblem when next it catches your eye.

**The Goodyear Tire and Rubber Company of Canada Limited**

TORONTO ONTARIO

INCOMPARABLY the greater number of motorists determine any tire's efficiency by the mileage and endurance it shows.

To them, this is the paramount virtue. It is the "sine qua non" of tire-buying.

True, they appreciate security, appearance, liveliness; but transcending all other desirable qualities they seek and demand greater mileage and the resulting lower tire costs.

### Rameses Motor Club Picnic Brings Out Many Members

Rameses Motor Club held their annual picnic Saturday, Aug. 11, at Bond's Lake. Three hundred nobles with their wives, sweethearts and families enjoyed an ideal day. Many novelty races were introduced. The baseball game between the Arab Patrol and the Motor Club had to be called at the end of the fifth innings owing to the ladies insisting on going to dinner. The tug-of-war between the Motor and the patrol furnished some thrills, the first pull resulting in the contestants pulling the rope apart. After getting a much heavier rope the Motor Club showed their superiority by pulling the patrol off their feet.

The Motor Club extends their sincere thanks to the donors of the many handsome prizes and to the courtesy extended by the officials of the lake. The various committees carried out the arrangements in a very able manner and deserve much credit for the splendid success. After the distribution of prizes three cheers were given to the officers of the club and ended the best outing the Motor Club has held.

### HALF BATTALION RECRUITS OFFER

Saturday's Volunteers for Enrollment Include Thirty From United States.

### MORE MEN COME HOME

Contingent of Nearly 200 War Veterans Reaches Toronto This Morning.

There were 637 volunteers for enrollment at the Toronto mobilization centre last week as compared with 694 and 864 during the two preceding weeks. The lower recruit total last week was due to the civic holiday on Monday, which left only five days for recruiting. The number sworn in for service was 355. The actual rejections only totaled 23.

Of 60 recruits offered in Toronto on Saturday 30 were from the British missions in the United States. The letter signed up as follows with C. E. F. units: Queen's Own Rifles, 3; Army Medical Corps and Army Service Corps, each 5; 48th Highlanders, 4; Royal Grenadiers, 10th Regiment and York and Simcoe Forestry Draft, each 2; Canadian Mounted Rifles, 110th Irish Regiment, Princess Pats, each 2; Canadian Engineers, one.

There were 48 men attested in all during the day for the C. E. F., as follows: Queen's Own Rifles, 3; Army Medical Corps and Army Service Corps, each 5; 48th Highlanders, 4; Royal Grenadiers, 10th Regiment, Canadian Mounted Rifles, each 2; 110th Irish Regiment, Princess Pats, each 2; Engineers and Army Dental Corps, each one.

First place in recruiting during the week just ended was won by the Royal Flying Corps, which gained 116 men. The York and Simcoe Forestry Draft came second with 47. Infantry units last week signed up a total of 87 overseas recruits. Of these the 48th Highlanders are credited with 66.

Mississauga at Ranges. The 8th Mississauga Horse, Lieut. Col. J. H. Moss, commencing in a complete day of quick-firing musketry practice at the Long Branch rifle ranges on Sunday. The whole regiment turned out for the day's marksmanship practice.

Flight-Lieut. W. P. Scott, the Toronto aviator who sustained fractures to both legs and one arm as the result of an airplane accident one week ago, was operated on at the military base hospital yesterday. He was reported last night to be making favorable progress.

Capt. Alfred B. Lindsay, son of W. J. Lindsay, 111 Woodbine avenue, has written a letter stating he has been awarded the Military Cross. He went overseas with the 17th (Mississauga) Battalion.

Upwards of 200 returned soldiers are due to reach North Toronto station at 7.30 this morning. Ninety-two Toronto men are in the party. Capt. Moran, medical officer of the military hospital, commencing for Toronto district, states the commission was never in a better condition to receive and apportion the returned men. There are 450 vacant beds in the military convalescent hospital, and another 400 will soon be available at the Whitby buildings.

### PLAYS, PICTURES AND MUSIC

#### THE ROBIN PLAYERS.

Tonight the great laughing event of the season will take place when Edward H. Robbins and the Robin Players will present for the first time in stock, "The Robin Players' Farce," a comedy farce, "The Robin Players' Farce." This play was devised solely by those who wish to laugh and be entertained, and that it has fully succeeded in its mission was proven by its long run in New York, and also when it was presented here two years ago under the management of St. H. P. Robbins. It is a comedy of unlimited fun. The full cast of the Robin Players will be shown.

#### AT THE MADISON.

Jack Pickford and Louise Huff are both seen to great advantage in "What Money Can't Buy," the first Lasky production to be presented at the Madison Theatre today, tomorrow and Wednesday. The picture is one full of romance and punctuated by a variety of thrills, and the supporting cast, which includes Theodore Roberts, is one of the strongest ever assembled.

#### CARELESS WITH JEWELRY.

Man Presents Diamond Ring and Gold Watch to Police Sergeant and is Held as a Vagrant.

When James Mickle, who said he roomed at 29 Beverley street, strolled into Agnes street police station on Saturday night and told Sergeant Beatty that Europe was to be in darkness for seven days so as to end the war, the sergeant smiled kindly and dubbed the man "crazy," but when Mickle again strolled in last night and deposited a valuable diamond ring and gold watch on the desk before the astonished officer's eyes, Sergeant Beatty reconsidered his decision regarding the man's shortage of mental ability and took him into custody on a charge of vagrancy.

#### AT THE HIPPODROME.

Mabel Taliferro, talented screen star, will be seen in one of the best of the Metro five-part releases at the Hippodrome this week in "Foggy, the Will of the Wind." The picture contains many thrilling scenes and will be shown at 1.55, 4.15 and 8.15 p.m. The Pathé News will command considerable attention this week.

#### AMERICAN PARTY HERE.

Thirty-seven ladies and four men arrived in Toronto last night from Louisville, Kentucky, on a tour of the States and part of Canada. The party, which was organized by the Compton Tours, put up at the Carter-Rite Hotel and leave after lunch today for the Thousand Islands.

#### FELL FROM WHARF.

Thomas Patterson, 528 Burchell avenue, had a narrow escape from a local shipyard and the 4th Toronto Highlanders recruiting in Chicago. Ella La Vail, the gymnastic girl; Beney, Chaney and company, in "The West, two clever comedy singers; Girls and Whirls' sparkling minstrel band; and the Murray Kay Quartet, in songs and stories, and Adele's zoological circus, complete a well-balanced bill.

#### "LADY BUCCANERS."

The patrons of the Star Theatre will have an opportunity of witnessing "Lady Buccaneers," a burlesque attraction that is really a musical revue. It is a corking good company of principals and chorus of nice young women who appear in a dozen or more, cunningly contrived costumes that add materially to their physical charms.

#### LOUISE GLAUM AT STRAND.

A tense and thrilling photodrama is "Love or Lust," which will be presented at the Strand Theatre today and tomorrow. Louise Glaum has in this vehicle the finest role which that fascinating and deserved star has ever portrayed. She takes the part of a queen of the demi-monde who has been instrumental in reforming a young lawyer addicted to the drug habit. He offers to marry her, but she will not drag him down again after she has raised him up. After long years they meet in drama and fashion in court, where she is accused of murder.

#### KITTY GORDON AT REGENT.

One is charmed by the story so ably told by Kitty Gordon. "Forget-Me-Not," which the Regent presents this week. Its scenes carry one to the most beautiful. A young girl, who becomes the sweetheart of a fisherman. From that moment until she is married to her married son's home, Miss Gordon

### SIR W. MORTIMER CLARK DIES AT PORTLAND, MAINE

#### Ex-Lieutenant-Governor of Ontario Passes Away Suddenly While on Visit to Summer Resort.

Sir W. Mortimer Clark, 23 Avenue Road, formerly lieutenant-governor of Ontario, died at Prout's Neck, Portland, Maine, on Friday last. This word was received in Toronto shortly after noon Saturday. Sir Mortimer had been in failing health for some time. He was taken suddenly ill on Thursday night and sank very fast, dying at 10.30 p.m. He had been brought back to Toronto for burial.

Sir Mortimer, who was 71 years of age, and had been in failing health for some time, died at Prout's Neck, where he usually spent his vacation. He was born in Aberdeen, Scotland, on May 24, 1846, and was educated at the Grammar School and Macaulay College, Aberdeen and Edinburgh Universities. He came to Canada when a young man and entered on the study of law, and became a barrister in 1861. In 1866 he married Helen Gordon, daughter of General Gordon, and sister of the late John Gordon, president of the Toronto, Grey and Bruce Railway. He successfully practised his profession in Toronto, and in 1887 was made a K.C. He was chairman of Knox College for a great number of years, a senator of Toronto University, and one of the founders and first directors of St. Andrew's College for boys.

Up to the time of his death Sir Mortimer was president of the Toronto Mortgage Company, trustee of the Home for Incurables, a director of the Consumers' Gas Company, and the Canadian General Electric Company and several other companies.

In politics he was a Liberal, but was later an ally of the late D'Alton McCarthy, C.O. M.P. He was appointed lieutenant-governor of Ontario on April 20, 1903, and held the position until September 19, 1908. He was knighted by King George in 1907.

The late Sir Mortimer Clark was a member of the law firm of Clark, Gray and Baird, and his professional career was marked with many successes. He was a forcible speaker and a ripe scholar. Altho in Liberal politics all his life he kept aloof from party entanglements and was independent in his actions. He broke with Sir Wilfrid Laurier on the reciprocity question in 1911. In religion he was a Presbyterian and an elder in the church.

He is survived by two daughters, Miss Clark and Miss Elsie Clark. Lady Clark pre-deceased him three years ago. The funeral will take place on Tuesday afternoon from his late residence to Mount Pleasant Cemetery.

#### OTTAWA AIRMAN KILLED.

Ottawa, Aug. 12.—Second Lieut. Arthur Dean of the Royal Flying Corps has been killed in an accident in England. According to a cablegram received by his father, W. M. Dean, 38 Primrose avenue, Ottawa, Second Lieut. Dean, who was in his 18th year, joined the R.F.C. last November.

#### SACCHARIN NOT PERMITTED.

The postoffice department has advised that, as the importation of saccharin into the United Kingdom by post is not permitted, packages containing saccharin received in mails from Canada are being seized by the British customs authorities.

#### RETURNED MAN DROWNED.

Nelson, B.C., Aug. 11.—E. F. Ryan was drowned and J. Carson is missing as the result of a canoeing accident. The two men were on a canoeing party for returned soldiers. Hope of finding the bodies of the two men is fading.

#### THE OAT.

Never was the crop promising than this year. It is a sample of the grain that is being raised in one of the best of the wheat-growing districts. In a great measure the crop is a success. It is a great success. It is a great success.

## KEEP VEGETABLES IN GOOD STORAGE

Brief Review of the Meaning of Storage and Insulation.

### THREE MAIN CLASSES

Different Vegetables and Fruits Keep Better in Different Temperatures.

Storage is holding produce for a period of time in such a way as to prevent its deterioration through decay or shrinkage.

Two kinds—Cold storage and common storage. The first requires artificial cooling, usually by the use of refrigeration machinery, and is the type used largely in cities for holding apples, eggs, butter and other food-stuffs. Common storage relies upon cold air and insulation, and is the type used almost entirely at home for holding perishable produce. In presenting plans of storage houses we shall deal entirely with the latter type. Meaning of insulation: In this connection it means constructing the walls and roof of the storage room in such a way that the air inside is affected but little by the air outside.

This is accomplished by a double wall having a dead-air space or filled with shavings or some other material. Requirements of successful storage: They are three—a uniform temperature of a degree best adapted to the particular kind of produce under consideration; proper ventilation to keep the air in a sanitary condition; and a proper degree of humidity for the kind of produce that is being stored.

Three classes of produce: These are divided according to temperature and moisture needs:

First—apples, Irish potatoes, beets, turnips, carrots, parsnips, cabbages and celery; these do best when stored in a cool, moist place with a temperature close to thirty-two degrees.

Second—pears, tomatoes, eggplants, peppers and onions; these require a cool, dry place of about thirty-two degrees.

Third—sweet potatoes, squashes and pumpkins; these should be stored in warm and very dry places with a temperature of about fifty degrees.

Types of common storage: There are four of them:

First—the house. A building constructed especially for the purpose, having insulated walls and facilities for ventilation.

Second—the basement. This may be under a packing house, too shed or other building. The walls above ground must be well insulated.

Third—the cellar. This is often used, but is frequently unsatisfactory. A cellar insulated from the rest of the corner, however, makes an ideal storage place.

Fourth—the cave. This is usually made in a hillside. It is cheap, easily constructed and easy to operate, but it is frequently located at some distance from the home. Earth forms the main insulation.

Robert Found had a successful barn-raising on Friday last.

The hay crop is now all harvested and a large percentage of it has been saved in first-class condition, and it has been exceptionally heavy and of good quality.

Fall wheat and barley harvest is now in full swing, although a considerable amount of seeding which he put under a hen. In four weeks, the usual time, seven of the eggs produced seven nice healthy ducklings which were taken from her. She continued sitting on the rest of the eggs, and two weeks afterwards another was hatched, perfectly normal and healthy. Scientists may be puzzled to explain the phenomenon, which is most unusual.

A very heavy thunderstorm passed over the locality on Sunday night last, accompanied by a heavy downpour of rain. The lightning was continuous for a considerable length of time and there was a continuous roar of thunder for an hour or two. So far, however, there have been no reports of damage by lightning, but the heavy rain knocked down a large amount of grain.

On Thursday of last week John Stephenson left in our office a corn stalk which measured eight feet in length. This does not look as if corn was a complete failure. This sample was grown on L. White's farm at Greenwood, which is being worked by Jas. Stephenson—Picking News.

Weston.

Reports on the crop situation in this district indicate a big harvest. The market gardener is very enthusiastic over the produce this year. The tomato crop is excellent and some fine specimens were at the North Toronto market on Saturday morning. Potatoes are also in abundance and are above the average.

## AYRSHIRE RECORDS OF ONTARIO COWS

### TRACTOR DEMONSTRATION.

As an example of how the farmer's Ford may be used in harvesting his crops the Stude Mak-a-Tractor demonstration at Oakville last week proved intensely interesting. The Ford was driven from Toronto and the change into a tractor made in seventeen minutes. It pulled a twelve-inch, two-bottom Massey-Harris plow thru tough clay sod without trouble and cut a field of wheat and one of barley, totaling over twenty acres. There was apparently no difficulty at the corners with the binder, which merely made a sharp quarter turn and kept going right along after the Ford. The photograph shows Miss Morden at the wheel drawing the binder thru the wheat. She also drove the Ford while the plow was attached, and was able to turn a furrow as straight as could be desired. Certainly any member of a farmer's family who can drive a Ford would find pleasure in doing the work of three or four horses. Undoubtedly these tractor appliances are capable of helping considerably in solving the labor problem at harvest and plowing times. An interesting feature is their ability to work without stopping for a rest.

## STRAFFORDVILLE COW HEADS LIST WITH FOURTEEN THOUSAND POUNDS OF MILK.

Since May 21, 1917, 51 Ayrshire cows and heifers have been in the R.O.P.—24 in the mature, 6 in the four-year-old, 9 in the three-year-old, and 22 in the two-year-old class.

Four in the mature class have given over 12,000 lbs. milk, five over 11,000 lbs., and five over 10,000 lbs. Eight cows gave 422 lbs. of fat, seven gave over 400 lbs. and most of the others from 350 to 400 lbs. In this class "Hobhouse Flirt of Trout Run," 7038, owned by J. L. Stansell, Stratfordville, Ont., leads the list with 14,522 lbs. milk and 623 lbs. of fat. "Jenkinson," 12828, owned by Arthur Woodhouse, Stratfordville, Ont., came second with 14,150 lbs. milk and 479 lbs. of fat. "Chief's Buttercup of Fernbrook," 35466, owned by Collier Bros., Beachville, Ont., was third with 13,488 lbs. milk and 484 lbs. fat. The highest average per cent. of fat in this class was 4.54, and the lowest 3.63, there being only two cows whose average was below 3.81, the majority being over 4 per cent.

In the four-year-old class, "Grace of Springbrook," 38385, owned by E. Burpee Palmer, Norwich, Ont., made the highest record with 12,940 lbs. milk and 503 lbs. fat. "Bonnie Bees," 45381, owned by Samuel C. Blinky, Waterdown, Ont., gave 10,730 lbs. milk and 405 lbs. fat. The average per cent. of fat in this class varied from 3.77 to 4.5.

Of the nine three-year-olds that qualified, "Thompson's Heifer," 47194, owned by Woodhouse Bros., Moorefield, Ont., led off in butter production with 430 lbs. fat from 10,592 lbs. milk. "Brighton Bros. Brooming 4th," owned by second with 11,140 lbs. milk and 394 lbs. fat. She is owned by Harmon McPherson, Orkney, Ont. The lowest average per cent. of fat was 3.84 per cent., the next 3.77 per cent., and the highest 4.4.

As usual, the two-year-old class was a big one, 22 having qualified. The highest record was 11,631 lbs. milk and 440 lbs. fat, made by "Woodsey of Inglewood," 40457, owned by Wilson McPherson & Sons, St. Armand, Ont. Two B. C. heifers qualified, "Lassie 3rd," 40643, with 9,602 lbs. milk and 414 lbs. fat, and "Lady Clinderry," 40646, with 7,730 lbs. milk and 400 lbs. fat. Both are owned by Joseph Thompson, Sardis, B.C. The lowest test in this class was 3.81, the highest 4.4.

The average test for butter fat of Ayrshires that register in the R.O.P. scarcely goes below 3.8 and usually considerably over 4. This high test combined with big production, is fast making the Ayrshire a very popular cow.

W. F. Stephen.

## NEWMARKET ITEMS.

In some places the music of the reaper is heard and the crop is fine, too. The raspberry crop is turning out fine. Apples will probably be scarce—hardly any on the trees. The farmers are all thru haying and some have started to harvest. The crops are good and prospects of a good potato yield.

## CONDENSED INFORMATION FOR FARMERS AND THEIR CLUBS

### HARVEST HELP.

During the past few days a great many men in the city have enlisted to go on farms. This supply is limited and any farmers wanting harvest help should notify the department of agriculture at once. Write to Dr. W. A. Riddell, 15 Queen's Park, Toronto, or J. C. Steckley, Newmarket.

The farmers of Smithville district are now busy with their grain harvest and next week will see the heavy work in full swing. The sound of the threshing machine will soon be heard in the land.

A. E. Schlick brought to this office a sample of oats grown on "Woodlawn" farm, and it certainly is a beautiful grade. The height is six feet, four inches, and Amiel says it put him in mind of the tall timbers of the north country along the French River whenever he visits his old farm. The seed would have a high yield in Amiel's oat field.—Smithville Review.

Wheat cutting has commenced at Georgetown. Wild raspberries are reported plentiful.

One more recent evidence of the leading position as Holstein breeders held by Ontario dairymen is the fact that the third highest priced bull at the Holstein sale recently in Worcester, Mass., was shipped there by its Brookville, Ontario owner, A. C. Harby. This bull, "Sir Pontiac Waldorf" (2718), was sold for \$900. It is to be regretted that Ontario has lost so valuable an animal and home necessity of keeping this class of animal in Canada.

A recent event was the raising of the new barn for George Hamilton on the farm at Yorkville. About 200 people were present, and the large lawn was more than half filled with autos. J. C. Purdy of Keswick and Mr. Cook were selected as leaders, and there were nearly 50 men on each side. Some lively work was done, free from accident. Mr. Cook's side won out by a few minutes. Hopkins was the builder and everything went together in good order. Tables were spread on the lawn and the ladies had everything ready to do up the barn. Needless to say the "good things" provided were greatly enjoyed by the young ladies who were very proficient in serving. When completed the barn will be of the modern class, stabling, etc., on the ground floor.

### FIFTH LINE, KING, ITEMS.

The outlook for bumper crops around here is fine.

The produce from the gardens is above the average, and the gardeners report that this has been the best season for getting in the crops for years.

Specimens from this district at North Toronto market on Saturday were excellent.

Newmarket.

The best haying is nearly over and the remainder will be completed after the harvest.

The wheat crop is good and the farmers expect to finish cutting in about ten days.

The harvest is in full swing and we shall hope for good weather.

### BRAMPTON ITEMS.

E. H. Bull & Son received a carload of Jersey cattle from Virginia on Tuesday.

At a meeting of the threehermen of Peel County on Saturday there were sixty present. The feeling was unanimous that a higher charge for threshing should be made, and it was agreed to charge \$2 an hour during the coming season.

Mr. W. H. Noble, who was on the teaching staff of Winton high school, has tendered his resignation and will engage in farming on the old homestead at Castledale.

Mr. W. H. Monkman has sold his farm at Castledale and will retire from farming for a time. The new proprietor is a Mr. Wild, of Toronto, who takes possession November 1st.

The hay harvest is nearly complete and is one of the heaviest ever taken in by the farmers of this district. The grain crop is ready for the sickle and will follow closely on the haying operations. Prospects were never better for a large yield. Some boards of threshing should be made, and it was agreed to charge \$2 an hour during the coming season.

### CLIPS ARE LOOKING SPLENDID.

Streetville girls have been picking berries and cherries at Clarkson.

### HIGH PRICES UNNECESSARY.

In connection with the recent exposures of packing house methods, it may be of interest to repeat what occurred in this section of the week of the settlement of the food controller. Prior to that appointment it was impossible to get an egg under forty cents a dozen. The farmer could get that price from the buyers going about the country in the forty-cent price was general. Within a day or so after the appointment eggs were going as early as possible, keeping with the usual price of the crop, and probably have reached the dollar mark at Christmas this year. It is possible for a farmer to make a profit on his crop in months when they make their profit on millions of dollars, even the that profit is said to be an abundant crop in other provinces where they are grown.—Uxbridge Times.

### Beware the Profiteer.

Bean cultivation is the order of the day. Two weeks ago when the ground was saturated with wet, the plants began to turn yellow. Consequently the growers did not have the most hopeful feelings with regard to the outcome of the crop. Last week, after a continuance of the dry weather, everything had an interest in the bean crop got out with a hoe, and today the crop looks most promising. Some farmers have been given over to bean production. Now, it is up to some far-sighted profiteer to corner the crop, say, at eight cents a pound, and make a fortune this winter.

## NORTH TORONTO'S SATURDAY MARKET

Buyers Were More Numerous and Vegetables and Fruits Good.

## FARMERS' TIME SHORT

Request Buyers to Come Early and Bring Small Change.

The market was brisk on Saturday. There was a marked increase in the number of buyers and this helped to stimulate trade. But there is need for greater co-operation between the producer and consumer in all respects. The market which is conveniently situated at the corner of the market, all residents in North Toronto. The quality of the produce is excellent and the marketplace itself presents an inviting appearance.

The buyers must come early to secure adequate supplies. The farmers arrive about seven o'clock, and as their time is valuable on the farm just now, they would like to leave before 10 o'clock. The farmers request that buyers bring small change instead of bills alone and also market baskets to carry away the produce. There was abundance of garden stuff which looked lovely and fresh. Onions were selling at 8 bunches of large ones for 10 cents, or two bunches of small ones for 5 cents.

Beets were 2 bunches for 5 cents. Carrots were 5 bunches for 5 cents. Marrow were 5 cents and 10 cents. Cabbage were 5 cents small measure or 48 cents basket.

Potatoes—10 cents small measure or 25 cents small basket.

Tomatoes—15 cents box and \$1.50 basket.

Raspberries—22 cents box.

There were a few apples—the Yellow Transparent, which sold at 15 cents a small basket.

The early apple crop is fair, but the winter crop is very poor.

Butter was selling at 40 cents pound.

Eggs were 50 cents a dozen. Chickens were \$1 each.

## VETERINARIANS AT GOODERHAM'S FARM

Large Attendance at Clinic on Sterility at Manor Farm.

On August 9 those attending the annual meeting of the Ontario Veterinary Association met at Manor Farm, Clarkson, as the guests of Gordon S. Gooderham, Professor of Pathology at the department of obstetrics and research in the diseases of breeding cattle, conducted a clinic on several sterile cows. An attendance of about 150 veterinarians witnessed the operations and will be much interested in learning if they have proven successful.

The most enjoyable luncheon was provided for the guests in Mr. Gooderham's cattle barn, and many were the favorable comments passed in reference to the high-class appointments in the barn. After lunch on the visitors enjoyed a stroll around the farm, where they saw some well kept poultry houses and the famous Holstein cattle for which Manor Farm is justly famous.

## PINE ORCHARD.

The moderate weather of this week is quite acceptable after the extreme heat of last week.

Haying is pretty well over in this locality, and some have commenced harvesting, which will be general by next week.

Berry picking is the popular pastime of the ladies at present. They report an excellent crop. The story is current that a lynx or a wild cat has its abode in one of the patches, and adds excitement to the game.

A very successful barn raising and dance was held at Mr. W. Webb's on Friday. Many from here attended, and all report a good time.

Mr. Bert Hawtin has purchased a farm near Kettleby and we understand will be taking possession after the harvest is off.

## FARMERS INSTAL HYDRO.

The farmers on Breslau road outside the corporation limits of the Town of Preston are installing hydro in their homes and stables. Motors, too, will be run by hydro. Those who have made this improvement include: Henry Thorman, Ephraim Kintle, Lincoln Haze, James R. Wood, Menno Bechtel, Simon Kintle, Jacob Zeller, Aaron Mader, Joseph Criesman, Abram C. Hallman, Simon Thaler, Moses Heekendorn, Valentine Bitchey, Menno Mader, George Gole, Lawrence Sittler, estate, Anthony Sittler, Fernando Bitchey, David Thaler, Joseph Sittler and Edgar S. Eby.

Berry picking is the order of the day for the ladies at present. Monday being civic holiday several energetic ladies were out from the towns to help the Vandorf growers.

## PURPOSE MAKING SUGAR

Timothy Sample Measures Sixty-Seven Inches; Oats, Sixty Inches.

Monday, Aug. 6.—We are in the middle of the haying time now, but expect to finish in about three days if the weather holds out good. We have had a pretty hot week or so, but only rained twice in three weeks, so we are having thunderstorms today (Sunday) which may delay us a day or so. The hay on our farm is pretty good; in fact, Mr. Johnston says it is the best he has ever put in the barn. We shall have about 70 tons altogether this season.

I am sending you a stalk of the timothy hay and oats. (The oats measure 60 inches and the timothy 67 inches). The oats are looking very well indeed. We have no barley or wheat in this year, but we are going to put wheat in for next year. The farmers will be cutting barley and wheat in about two weeks; oats will not be ready for about four weeks.

The roots are all fine here; we got a sample of the potatoes today. The country looks very fine at present and wide waving thru the bush this afternoon we saw the place where we expect to make maple sugar next spring. This will be a very interesting time. We are on a lovely farm of 160 acres, one of the highest in the township, from the window of which we can see for miles around. We have lovely spring water right beside the house, which helps to feed the river that runs forty rods away from us thru to Goderich.

There is one thing about this year, and that is the apples, which are very scarce. The cold spring stopped them, but other things will do us make up for them, as everything else is plentiful and in good condition.

## CALGARY WOOL PRICES SATISFACTORY TO ALL

Co-operative Sale on Thursday Brought Good Money for All Grades to Breeders.

On Thursday, August 9, an important sale of wool occurred at Calgary. A Canadian buyer was the purchaser and prices were as follows: Fine combing, 64¢; medium combing, 62½¢; low medium combing, 59¢; fine clothing, 56¢; coarse clothing, 52¢. The sale comprised 150,000 lbs. of Alberta wool.

## THE OAT CROP.

Never was the oat crop more promising than this year. There was brought to this office on Thursday a sample of oats, 20 ft. measured 5 feet 7 inches in length, and was heavily loaded. That this splendid crop will be safely harvested is the opinion of all who have seen it.

The hay crop in Leeds and Grenville counties, which is now being harvested, is one of the largest ever known in a great many years. The farmers are unable to get the hay to the barn on account of lack of hay and storage room. There will be much hay stored in stacks this year when ever before on account of the big yield.

## DISCONTINUANCE BELIEVED TEMPORARY.

In connection with the discontinuance of the purchasing of horses for the artillery, it is believed that the order is only temporary, and that a further call for the same type of horses may be looked for in a short time by the Ontario breeders.

## PROTECT ANIMALS FROM THE FLIES

Horses and Cows Need Your Aid Same as the Potatoes.

The hot sunny weather following the long rainy season seems to bring with it an unbelievable host of flies and insects of all descriptions. The problem of protecting one's plants and animals from being tortured or destroyed by the innumerable pests is already a big one with the farmer. It is indeed disappointing to find one's plants eaten up by the bugs and insects or shriveled by the caterpillars and worms. And it is a pitiful sight to see the cows standing in the mud trying to get some small protection from the flies that afflict them. Let their tails in the same endeavor. It is to be hoped that owners of live stock will be as watchful of the welfare of their animals in this regard as they are of the proper growth of their potato plants. It is well to remember that whereas the potato plants may lose their fertility thru being eaten by the bugs, thus affecting the farmer's pocket, yet they experience no suffering as do the animals. The picture of a dumb animal being tortured is pitiful to one who sees it. Let every owner of live stock see to it that his animals are given all protection from those pests that is in his power to give them.

## LOOK IN ST BRIGHTER

Wheat Yield Estimated Thirty Million Bushels.

According to a report from C. E. Lewis, of the Dominion, the wheat crop in the Dominion is the earliest that has been delivered since his being doing business in southern Alberta and the month of the year starting will begin at about the 12th or 15th of the month in the crop prospects than stubble.
