indefinitely."

Another Subscriber (a prominent banker and large property owner) writes—

'You may send me 'The Indic tor' for another year. I would not be without it for five times its price—It has warned me in time of many unreliable companies—I think property owners should pay more attention to the class of companies their property is insuled in, and keep posted concerning the companies whose policies they hold. When ever I place any insurance I always try to secure the policies of the companies whose advertisements appear in 'The Indicator,' for I know they are rehable

The aim of "The Indicator" is to uphold the genuine and expose and fight the shams of all kinds in insurance. Every Agent representing an insurance company doing a legitimate, lawful business should subscribe for it.
