CITY OF MONTREAL.

TEES & CO., THE DESK MAKERS

BANK, RAILROAD AND OFFICE FIXTURES, INTERIOR WOOD WORK, PARQUET FLOORING.

WAREROOMS, 300 ST. JAMES ST. FACTORY, 209 to 221 WELLINGTON ST.

MONTREAL, P. Q. The Commercial metropolis of the Dominion of Canada is situated on an island of the same name at the junction of the Ottawa and St. Lawrence rivers at the head of ccean navigation, in Hochelaga Co., and is the heginning of the fresh water navigation of the great rivers and lakes extending to Duluth, Minn, U S A, at the head of Lake Superior, a distance of 1,500 mls It is 145 mis by water and 170 mls by rail s-w of Quebec, 333 e of Toronto, 620 mls from the sea and 420 mls n of New York. Latitude 45.31 N, longitude 73.34 The harbor is spacious and secure, and one of the best equipped in the world. The Island was first visited by Jacques Cartier in 1535 when he found on the present site of the city a

flourishing Indian village. The city was founded in 1611 by Maisonneuve; in 1773 it was ceded by France to the British, and was incorporated as a city in 1833. It is built upon a series of gently rising terraces, running inland from the St. Lawrence for a distance of 2 mls, and culminating in the beautiful elevation called Mount Royal, which has an incline railway in operation, and which is nearly 700 ft above the level of the river, which is here about 2 mls broad Most of the buildings are of lime and brown store, obtained from quarries in the neighborhood, its numerous spires and towers giving it an imposing appearance when seen from a distance. During, the past decade it has made rapid progressive strides, and to-day it

leading streets

ranks among the foremost cities in North America. During the past five

have been widened, and others will be

annually, so as to meet the demands of

the rapidly-increasing traffic. The elec-

tric system of street cars is now in operation, giving the people more rapid transit; residences to meet the wants of

years several of the

AGENTS IN PRINCIPAL T

PHENIX INSURANCE CO'Y FIRE INSURANCE ONLY

the working classes will be erected with the object of reducing the present overcrowding and adding to the health of the city. The city has some magnificent public buildings, and contains more ecclesiastical, educational and charitable institutions than any other city of its size on the continent. The following shows the situation of the banks in Montreal up to June, 1894, according to their annual statements: Net Divi-Bank earnings.
Bank of Montreal....\$1,313,289 dend. 10 71/2 Merchants Bank...... Banque du Peuple..... 630,903 108,915 6 Banque d'Hochelaga ... 93,136 7 Banque Jacques Cartier.. Banque Ville Marie.... 48,656 29,319 $2\overline{2}1,694$ Molsons Bank As was the case in the leading cities of the United States, Montreal showed a falling off in the clearing house returns in 1893, but to a lesser degree. The total clearings were \$568,732,000 against \$590,413,000 in 1892, the decrease being 35-8 per cent, against 14 per cent. in New York, 12 in Boston, 10 in Philadelphia and 9 in Chicago. The Custom House return for the Port of Montreal showed a large increase in the export figures for 1893, as compared with 1892, and an advance of nearly nine million dollars over 1891. This improvement is most gratifying, especially as trade throughout the world was so dull. While the average annual value of the exports for the thirteen years from 1880 to 1892, inclusive was only thirty million dollars, last year's exports aggregated over forty- eight million dollars, being an increase over that average of sixty-two and one-half per cent. Many of the churches are very handsome structures; among them are Christ Church Cathedral, the Church of the Gesu, Notre Dame Church, St. Peter's, Trinity, St. George, St. Andrew and St. Paul churches, etc. The educational interests of the city are represented by McGill University, Laval University, Montreal College, St. Mary's College, besides numerous other academies and schools. The principal public buildings are the Custom House, Banks, Post Office, New York Life Eldg. City Hall, Court House, Convent of Notre

Dame, Seminary of St. Sulpice,

Hotel Dieu, Nelson's Monument, Y.M.C. A., General Hospital, Royal Victoria

Hospital, Home for Incurables, Grey Nunnery, Bonsecour's Market, G. T.

Ry. and C. P. Ry. General Offices. It is the centre of all kinds of manufactures and has a very large transit trade. At Point St. Charles, one of the western suburbs, are situated the head offices and works of the Grand Trunk Railway, which connects the Canadian and United States lines. Here the Victoria Bridge, 9,184 ft in length, a massive but graceful structure, spans the St. Lawrence; it was opened in 1859, and cost nearly \$7,000,000. The Canadian Pacific Railway General Offices are also located here. The railroad facilities are extensive, and, with the ocean and river navigation, provide direct communication with all parts of the continent. Assessed valuation of real property. \$160,-000,000; realty, exempt from taxation, \$30,000,000; funded debt, \$21,500,000 Exp. Dom and Can. Tel, G N W an C P R. Pop, 225,000. A Dansereau, p m.
