WALKERVILLE. A town on the Detroit river,
in Essex Co, 4 mls n-e of Sandwich, the co seat,
and bounding the town of Windsor. It is one of
the termin of the LE & DRR. Walkerville has
secured excellent shipping facilities, having
direct connection with the GTR_MCR and CPR,
in addition to its unsurpassed water communication. Numerous factories have been established
during the past year, and with others in contemplation the indications point to this being one of
the most important manufacturing points in
Canada. The town takes its name from Mr.
Hiram Walker who founded in 1838 the extensive
as Son (Ltd), besides which the Messrs Walker
extensive Allendary on many other industries, including lumber
yards, planing mills, cooperage
and Detroit Ferry Co, Ontario Basket Ce,
and are large shareholder lamps, and has an excellent water supply, both from the plants of Hiram Walker & Sons, who maintain also an efficient fire brigade, staff of night watchmen and a telephone office, open day

BEAMSVILLE.

ONTARIO.

relates to an improvement of the Disk Harrow in which a forward and rearward section of double disks, which are suspended from a frame, are cap-

able of being raised and lowered and also adjusted to different angles to the draft tongue by means of mechanism. The object of my improvement is:—lst, To provide la disk harrow that will be capable of light or deep cutting to ridge the ground up for seeding, to hollow or level, to throw up the ground to or from fruit trees, to level between fruit trees and to cultivate corn or potatoes, 2nd, To afford facilities for the proper adjustment of the disk and to remove any of the disks from the machine to suit the various necessities of different soils.

The one-horse disk is provided with shaves and is strongly recommended for all fruit growers. The disks will not stick fast and pull out the roots of trees, but will cultivate up the soil and run over all large roots by weighting it down. It would likely cut the small roots but would not tear under and stick fast like a cultivator, tooth harrow or scarifier.

BEAMSVILLE, December 1, 1893.

MR. TALLMAN:

Dear Sir,—This is to certify that I have seen the Tallman Improved Double Disk Harrow work in an orchard and also on new plowed land and can say the work was well done. The land was left very level and well worked up, much better than the single disk which was working in the same field, I would say fifty per cent. better.

Brantford, January 2, 1894.

MR. H. TALLMAN:

ay: I saw it working among trees in a peach orchard and I considered the work was well done. The land was finished as level as a floor, and in examining the work I found the land all worked up to a good depth. I also witnessed it working on newly ploughed land alongside of a single disk, and I can safely say the work with your Improved Double Disk was very evenly done and fully a hundred per cent, the best. Dear Sir,-In answer to yours with regard to your Improved Double Disk Harrow, I would

MR. TALLMAN:

Dear Sir,-I saw your Double Disk Harrow work in stiff sod fresh plowed and unrolled red Dear Sir.—I saw your Double Disk Harrow work in stuff sod fresh plowed and unrolled red clay, and it worked better than any other disk harrow I ever saw. I worked it in corn ground, stiff clay ground, after corn was cut, and it cut better than my single disk. It left the ground leveller and not ridged up in the centre, and the ground was all cut in the centre. On lumpy ground you can set the hind disk in centre of front disk and it cuts the lumps splendid. As for me liking harrow, I like it far better than any other disks I ever worked. I have used and saw used five different disk harrows, and the Double Disk is the one for me.

Wishing you success, I remain, yours truly,

J. F. LINDABERRY.

EXHIBITOR—Toronto Carpet Manufacturing Co.

ADDRESS-Toronto, Ont.

Group 103. Class 649.

EXMIDIT-Ingrain Carpet, Axminster Carpet.

.... AWARD. coec...

INGRAIN CARPET.—The high standard of manufacture which the owner- have adopted. Extra-super Ingrain, strictly standard in the number of "Ends" apparent in dissection of warp. The high grade of fulling yarn- employed and careful attention to wearing minutiae. Exceeding, in weight per yerd, the commercial standard governing extra-super ingrains; also tast fulness of design, and for matching qualities incident to even selvedge, and general uniformity.

AXMINSTER CARPET.—New principles in fabrication, imparting unusual stability and weight to finished product. Tenacious grasp of pile, obtained by exceeding care in the process of tying in the formative knots, numbering one hundred to the square inch. An improved method of backing which insures evenness of foundation, and grateful wearing qualities.

THE "LEADER" CHURN

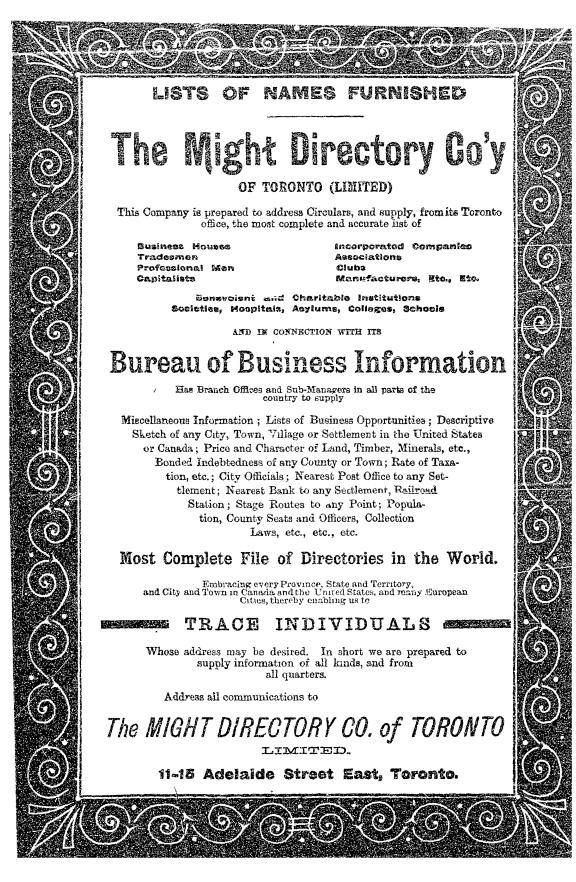

"With Dowswell's Patent Gas Escape Vent."

DOWSWELL'S IMPROVED Royal Canadian

The improvement consists of a simple device, as shewn, by which you simply press down the drop table and the Wringer becomes fast to the tub, the drop table being inside the tub; please note this. The quickest fastener known and perfect in action. Two screws on top; double tooth cogs at both ends. Nice tinning and galvaniz-ing, and just the kind of Wringer every family wants. The Rolls are warranted all White Rubber vulcanized direct to the shafts. Length of Rolls, 11 inches.

# Dobbie— & Stuart

......Manufacturers of a Full Line of......

CONTRACTORS' PLANT, STEAM, HORSE and HAND POWERS, DERRICKS, PLOWS, SCRAPERS, CAR WHEELS,

ETC., ETC.

## **OUR HOISTING ENGINES**

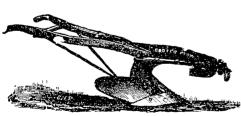

Are built on the most improved style, having Friction Drums and Double Speed Gears for light or heavy loads. No springs to get out of order, and everything in first-class style.

#### SINGLE OR DOUBLE DRUM HORSE POWERS

Either Clutch or Friction Hoisters.

SIMPLE IN CONSTRUCTION....

.....EASILY HANDLED AND DURABLE.

## ....GONTRAGTORS' ROOTER PLOY

Is acknowledged throughout America to be the best in use for Canal and Railroad grading. It has been used for the past twenty years, and has been frequently tested by 8 or 10 houses, in stiff clay, hard pan or gravel.

The object of Machinery is to lessen manual labor, and in the invention of our Machines we claim to aid the Contractor largely in that respect.
