(Canadian Press)
Akron, O., Oct. 11—Reports
were received here this morning
that a Cleveland and Pittsburgh
passenger train of the Pennsylv-
ania railroad struck a school
bus at the New Milford cross-
ing in Portage County. First
reports were that seven or eight
children were killed and several
injured.

Nine Are Killed.
Cleveland, Oct. 11—The gen-
eral superintendent's office of
many have received reports at 9
a. m., that nine school children
were killed and several others
injured when passenger train
No. 39 struck a bus carrying
children to school, one half mile
west of Rootstown, Ohio, this
morning.

Three Others Dead.
Williamsport, Pa., Oct. 11—Three
persons were killed and seven others
injured when a passenger train on the
Elmira division of the Pennsylvania
railroad struck the Williamsport-Trent
road bus at the Hopewell crossing
near this city, at 8 a. m. today.

**Poultry Branch
Reports Activity**
(Special to The Times)
Fredericton, Oct. 11—The provincial
poultry branch has begun the move-
ment of 500 selected cockerels from
various flocks in the province to others
which were culled during the summer.
The movement is undertaken co-oper-
atively by the experimental farm ser-
vice, Federal Live Stock Branch and the
Provincial Poultry Branch.

**Germany Sends Men
And Goods to Turkey**
Constantinople, Oct. 11—An influx
of German merchants and workmen
here is about to begin, according to the
newspaper Akhram, which reports
thirteen German ships with goods on
the way here. It adds that a com-
pany has been formed in Berlin which
plans to send 12,000 craftsmen to Tur-
kish territory for reconstruction, par-
ticularly in the rebuilding of Smyrna.

**India Is Sending
Apples to England**
London, Oct. 11—(Canadian Press)—
The first consignment of 25 boxes of
apples from the north-west provinces of
India have arrived in England. It is
said that very large shipments may be
expected in the succeeding years from
the extensive plantations in the Hima-
layas.

homa legislature completed final ar-
rangements last night for launching
impeachment proceedings against Gov-
ernor Walton.

**THREE ARRESTED AFTER
PISTOL BATTLE IN
WHICH GUN IS SHOT**
New York, Oct. 11—Three reputed
gangsters, who are said to have en-
gaged in a revolver battle at Rockway
avenue and Fulton street, Brooklyn,
during which a bullet struck Mary
Monte, 15 years old, were arrested,
charged with felonious assault and
possession of firearms. The prisoners
said they were Michael Guerriero,
known as "Mike the Blackhead," of
2349 Pacific street, and Lawrence and
Anthony Bialdo, brothers, of 2371
Pacific street.

North Sydney, N. S. Oct. 11—

been causing the ladies of Sydney
Mines some uneasiness for several
nights, failed to walk into the trap
prepared for him by a vigilance
committee last evening.

Chinese Leadership
Is No Bed of Roses

Shanghai, Oct. 11.—Sun Yat Sen,
southern China constitutional leader,
has issued an open declaration of
war against Tsao Kun, president
elect of China, according to a tele-
gram received here from Sun yes-
terday by Wang Ching Wei, his per-
sonal representative. Coincident with
the announcement of Sun's action,
474 members of the Chinese parlia-
ment met and repudiated the recent
election of Tsao Kun, claiming it
was the result of bribery. Sun Yat
Sen issued circulars denouncing the
election.

KILLS MAN, WOUNDS
WIFE AS THEY DINE

Danville, Vir., Oct. 11.—William O.
Williams, a Danville business man, was
killed, and Mrs. Williams was serious-
ly wounded here yesterday by Bee-
Coleman, member of a widely known
family of Virginia, who then commit-
ted suicide.
The tragedy occurred in a private
home, where all of the principals re-
sided. While those present were at
dinner a fusillade of pistol shots rang
out and both Mr. and Mrs. Williams
fell. Coleman then walked upstairs,
locked himself in and killed himself.

J. D. O'CONNELL
HERE; WAITS FOR
COURT JUDGMENT

J. D. O'Connell arrived here last
night from Sussex and will remain
here for a few days to await judg-
ment of Judge Barry in the case
brought against him by the Purdy
Ice Cream Co. regarding the supply
of ice cream for a picnic at Havlock
last year.
Before leaving Sussex several hun-
dred residents turned out and gave Mr.
O'Connell a send-off in the form of a
bon fire.

INVITES PREMIERS
TO VISIT ST. JOHN

Mayor Fisher informed the City
Council this morning that he had tele-
graphed Premier Veniot that St. John
would welcome a visit from the visit-
ing Premier from the Quebec roads con-
ference. The Premier had replied that
he would gladly extend the invitation
and would inform the Mayor if they
could arrange to visit St. John. He
said that he had not yet received any
further communication.

CHIEF OF POLICE IS FLOGGED
AFTER TRIAL BY PRISONERS

Marion, Ill., Oct. 11.—Monroe Owens
chief of police of Pittsburg, near
this place, was flogged by prisoners in
the county jail here.
Owens said that he was handcuffed
to a wall and got 23 lashes with a cat-
o-nine tails.
Owens was arrested Saturday on an
assault charge. There were nine pris-
oners in the jail, two of whom had
been arrested by Owens on liquor
charges. A "kangaroo court" was called
and Owens was charged with
"breaking into jail."
A \$10 fine was imposed and when he
refused to pay it he was flogged. The
prisoners then took \$2 from him, he
said.

DARING ROBBERIES
Outlaws Get \$50,000 in
Gems and \$12,500
Payroll.

(Canadian Press)
New York, Oct. 11.—Two daring
daylight robberies, in one of which a
bandit and a messenger were killed in
a gun duel, yesterday netted bandits
\$62,500.
The first occurred in Columbus
avenue yesterday, when five robbers
sent a wrapped brick crashing through
a pawn shop window and escaped in
an automobile with \$50,000 in gems,
while communications were pouring
in from a Catholic church nearby. Clerks
at the bank, with a bullet wound in
the arm, fled in a panic. The robbers
taxi and private cars which took up
the pursuit were forced to abandon the
chase because of the heavy traffic.
The second robbery occurred yester-
day afternoon in West 10th street in
front of Rotherberg's department store,
when two messengers, bound for a
bank with \$12,500 to deposit, were held
up by four highwaymen.

FIRE AT SUSSEX

Early Morning Blaze Does
Much Damage and Stores
Are Flooded.
(Special to The Times)
Sussex, Oct. 11.—At five o'clock this
morning, Mrs. James Peeney, who re-
sides in the Debow brick block oppo-
site the C. N. R. depot, was awakened
by smell of smoke. On investigation
she found the back of the kitchen
burning in a blaze. Arousing the fam-
ily an alarm was rung in from
Box 24.
The firemen responded promptly but
the flames had gained considerable head-
way and before being extinguished
caused considerable damage. The kit-
chen of the house and adjoining rooms
with contents were totally destroyed.
Mrs. Thompson who occupied the ad-
joining flat suffered much loss from
smoke. The store on the ground floor
occupied by Miller's Meat Market and
a cigar store of which James Turnbull
is proprietor were badly flooded with
water.

RUHR DELEGATES

cial Communication.
Berlin, Oct. 11.—An official com-
munication explains that at a conference
at which Chancellor Stresemann had with
representatives of the Ruhr industries
on Sunday, the latter at the Chancellor's
request, submitted a document ex-
pressing their attitude but making no
specific demands. The document is
under consideration by the departments
concerned and the Cabinet.

REACH AGREEMENT

British, French and Spaniards
Arrive at Basis for Tangier
Conference.
London, Oct. 11.—The British for-
eign office announces that an agree-
ment has been reached among the Brit-
ish, French and Spanish experts, who
have been conferring here on the sta-
tus of Tangier, respecting the basis
for the holding of a plenary confer-
ence on the Tangier question.
An official communication issued by
the foreign office says—
"The Allies experts have agreed upon
a formula which, while reserving
entire liberty of action for their respec-
tive governments to make such points
as they may desire, will serve as a basis
for discussion at future conferences of
the plenipotentiaries to whom will be
entrusted the duty of drawing up a
definite status for Tangier."

3 Yards of Stamps
On German Draft

Berlin, Oct. 11.—Failure of the
Government to raise the denomina-
tions of stamps fast enough to keep
pace with the falling mark has
created many ludicrous situations in
Germany. One draft on a Swiss
bank was ten feet long after it had
been properly stamped. The origi-
nator of the stamp was the size of any
ordinary bill of exchange, but it was
necessary to attach three yards of
paper in order to provide enough
space to paste the necessary stamps.

ROBERT H. GRAHAM
DIES IN HOSPITAL

Municipal Councillor for Prince
William County Is Dead,
After Operation.
(Special to The Times)
Fredericton, Oct. 11.—Robert H.
Graham, of Prince William, York
County, died this morning in Fraser
Memorial Hospital, after being a
patient for one week. He was oper-
ated upon shortly after being admitted
to the hospital. He was in his fifty-fourth
year. Surviving him are a widow, and
four sons, Robert, Scovil and Willard.
They belong to the town of Prince
William.
Two brothers also survive, ex-Coun-
cillor Patrick Graham, of Millville, and
Arthur Graham, of Aberdeen, Wash.,
and six sisters, Mrs. J. M. Scott, Mrs.
C. V. Pickard, and Mrs. Thomas Dar-
range, who was in a hospital. A Miss
Thompson, Mrs. Dr. Lane and Mrs.
Rankine McKay, of Aberdeen, Wash.,
they would be expected to be in
Fredericton.

Miami, Fla., Oct. 11.—The steamship
City of Everett, is sinking about 100
miles west of Tortugas, according to
wireless advices received here today.
S. O. S. calls were sent out by the
steamer at 7 a. m. The first message
"Going down stern first. An low-
ering boats. Will sink soon. Latitude
24.30; longitude 86.00, or about 100
miles west of Tortugas."
The steamer Coral, which is about
75 miles from the scene of the disas-
ter is rushing to the assistance of the

Jack Tar Will Not
Use Empire Tobacco

London, Oct. 11.—The British Jack
tar is the fly in the imperial ointment.
He will not smoke Empire tobacco.
Colonel L. C. Amery, First Lord of the
Admiralty, somewhat ruefully admitted
that campaigns to induce the British
sailor to change his tobacco has been
largely unavailing. "He likes the thing
he has got better than what he might
get," Col Amery confessed.
"Couldn't you wear the navy," queried
Hon. H. Burton, of South Africa.
He added the suggestion that the South
African tobacco should be given a trial.
Hon. George F. Graham reminded
Col. Amery that Canada produced a
very good leaf, but Amery only shook
his head sadly.

RECORD YESTERDAY
Receipts are Reported to
be \$181,912 for the
First Game

(Canadian Press)
New York, Oct. 11.—A hazy sun this
morning shone weakly upon the rain
glittering Polo Grounds, home of the
Yankees, where the second frame of the
world's series will be played today.
"Fair, partly cloudy," had been the
weather man's forecast in the face
of a shower which started three hours
after yesterday's classic encounter at
the Yankee Stadium. Two or three
early arrivals at the low price bleachers
entrance averred it was cold.
"It sure is," affirmed fourteen patrol-
men who had been on duty at the gate
all night to preserve order, and not a
fan in sight. The tardy sun served,
however, to take the chill off the damp
penetrating haze and the line of "soon-
ers" at the gate gradually lengthened.
For the first time in the history of
years of world series, cheap seat chas-
ers were absent from the entrance
gates last night. The first one put in
appearance after sun-up, seating him-
self on the ever-present soap box re-
served for No. 1.

action on a petition filed by J. F. Col-
lier and other Boston citizens asking
for an investigation as to the real own-
ers of the Boston clubs of the National
and American League and charging
fraud on the public. The District At-
torney has obtained a report from an
inspector as to the owners of record
and it is understood that he does not
share the views of the petitioners that
there has been fraud.
The petitioners had expressed the
opinion that the recorded owners were
"straws" for the owners of the New
York major league clubs and that an
indictment might be maintained for
obtaining money by false pretences.
The inspector's report showed the
Boston Nationals to be a Massachu-
setts corporation with the following
officers: President, Christy Mathewson; Vice
President, Emil E. Puchs; Treasurer,
Sinclair Weeks; Clerk, E. J. Riley. It
listed the Boston Americans as incor-

the following officers: President and
Treasurer, Robert Quinn; Secretary,
Alfred P. Lovell; Directors, Robert
Quinn, Palmer Winslow, E. M. Schoen-
born, Robert B. Drury and Henry

Banting Makes Another Discovery;

Said To Be Greater Than Insulin
Hamilton, Ont., Oct. 11.—Dr. F. G. Banting, discoverer of insulin, will
within the next few weeks announce another discovery of even greater im-
portance than the diabetes cure, so Hon. Dr. Forber Godfrey, Minister of
Health for Ontario, announced today at a dinner of medical men.
He said that he was not at liberty to say anything further. He had
conferred confidentially with Dr. Banting.
"Dr. Banting is a real genius," said the speaker. "He has now some-
thing better than insulin to offer the world. It is a marvellous thing, but
I am not at liberty to make further mention of it. Dr. Banting has about
completed work on his discovery and announcement will be made very
soon."

is Asked.
MUCH CRITICISM
All Parties Interested are
Rapped by City
Officials.

The City Council had its bat-

passed a resolution summoning
Hon. Dr. Smith, chairman of the New
Brunswick Electric Power
Commission to an immediate
conference, and another refus-
ing to endorse the action of the
Civil Power Commission in
hooking up with the McAvity
plant.

"More Light," is the cry of
the Council, regardless of the
combined current from Mus-
quash, the McAvity plant and
the N. B. Power plant. Inciden-
tally, Premier Veniot and the
Government, Hon. Dr. Smith
and his commission, the Civil
Power Commission and the N.
B. Power Company, were all
brought under the flail by one
another of the members of the
Council.

When the Council came to order, the
Mayor read a telegram from Hon. E.
A. Smith, chairman of the New Brun-
swick Electric Power Commission, tell-
ing of his efforts to get current from
the New Brunswick Electric Power
Company in accordance with assurance given by
Mr. Sanderson, but saying nothing
more. The Mayor said this telegram
did not contain as much information
as he had hoped.

RAIL HEAD SCORES PUBLIC OWNERSHIP OF ELECTRIC LINES

C. D. Emmons Cites Experiences of Detroit in Municipal Control.

Atlantic City, Oct. 11.—(By A. P.) Public ownership was scored as "socialistic and in nine cases out of ten saturated with politics and inefficiency," by C. D. Emmons, of Baltimore, president of the American Electric Railway Association, addressing that organization in convention here. Several thousand electric railway men from all parts of the world were present.

Having done that, the duty of the publisher and buy materials at lower prices than privately owned companies must pay, demagogic promises might be kept. But one cannot escape facts, and the fact in the case of Detroit is that when it became necessary to increase the wages of employees of the Department of Street Railway, those in charge of the railways could turn only to the car riders for the additional money, and they increased the fare to six cents, plus one cent for a transfer. They did right, but they did nothing different from what every privately owned property has had to do in similar circumstances.

RALLY WEEK SERVICES The "rally" week observations in the Portland Methodist church were continued last night when the Women's Missionary Society had provided a special programme which was much appreciated by a large audience. Mrs. A. W. Lingley, the president, was in the chair and the address of the evening was given by Rev. J. S. Bonnell, who on "Sacrifice" and made a great impression on his hearers. Mrs. Stanley Harrison gave a pleasing solo, the Mission Band gave a responsive reading and the Mission Circle and Auxiliary took part in a well presented exercise on the mite box opening. Ladies' Aid of Portland church celebrated their tenth anniversary on Monday evening. There was a very large attendance of members and friends. Mrs. E. N. Rowley, the president, with Miss J. Henderson, received the guests and Mrs. Fred Smiler and Miss Lillian Maxwell ushered. Mrs. Louis Munro and Mrs. A. J. Myers were the convener for the evening. The building was beautifully decorated with wren berries, autumn leaves and cut plants. Those in charge of the decorating were Mrs. Bayard Stillwell, Mrs. Charles McConnell and Mrs. R. C. Thomas. A well written history of the Aid, since its organization, was given by Miss Carolyn McIntyre, the secretary. Mrs. H. P. Breen, the treasurer, gave a financial statement covering the same period. Others taking part were Mrs. Henderson and Miss Muriel Cohan, who sang solos; Mrs. Charles Bustin and Miss Crawford, who gave readings; Miss Vicars MacLaughlin, who gave a piano solo. Mrs. A. C. Powers acted as accompanist. Mrs. E. C. Thomas' Circle had charge of the refreshments. Among those assisting in the serving were Mrs. W. Allen, Mrs. W. Brown, Mrs. Lugin, Mrs. Geldert and others.

CORNS - stop their pain in one minute! Dr. Scholl's Zino-pads protect while they heal—wholly new method. Absolutely safe! Corns are due to only one cause—friction and pressure from shoes. Heretofore, corn-sufferers have ignored this. They have resorted to paring—a frequent source of infection—or they have used corrosive acids frequently with damaging results to the surrounding live tissue. A famous foot specialist's new discovery Now Dr. Wm. M. Scholl, the eminent foot specialist, has found in Zino-pads a vastly better way, a scientific way, to end corn troubles—by removing the cause. Dr. Scholl's Zino-pads not only stop the pain the minute applied but they protect the corn from pressure and friction while they heal! They are easy to apply, are thin, antiseptic, waterproof. Absolutely safe; will not injure the tenderest toe. Special sizes for callouses and bunions, too. Try Dr. Scholl's Zino-pads. Nothing like them. At your druggist's or shoe-dealer's. Costs but a trifle. Put one on—the pain is gone! Write for FREE SAMPLE of Dr. Scholl's Zino-Pads and his booklet "The Feet and Their Care." Address The Scholl Mfg. Co. Limited, Dept. OUR SHARE OF \$1,361,614,000.

In cash, in subsidies, lands, stock and bond purchases and in payment of deficits the people of Canada—including, remember, those of the Maritime Provinces—have put into Canadian railways the sum of \$1,361,614,000 according to figures recently compiled at Ottawa. We in the Maritime Provinces have paid our share of this enormous total according to our wealth and population. Our credit as taxpayers is pledged for our share of any of this sum which is represented in the national debt. An eighth of it would be \$170,000,000 in round figures. Roughly, that is our contribution. The total, that is staggering, and it does not include provincial or municipal payments. As these latter do not affect the argument they may be ignored and consideration given only to the Maritime share of the \$1,361,614,000 which has gone into Canadian railways out of the common purse and the common property and credit. And our share in this investment for the common good surely has a most important bearing upon the Maritime claim for simple justice and an equal play in connection with the business of the whole country.

We are told that we are equal partners in the Confederation. Certainly we have paid on that basis. In taxes, particularly, we have paid up our share in our share of the railway investment assumption and the assurance of equality. We have been partners in payment all right enough, when it comes to dividends in the form of equal benefits, there is another story. The railroads, the Maritime Provinces were told, were being built, extended, expanded, for the benefit of the whole country, and certainly they could be built by common contributions only on the understanding that all parts of Canada would share fully in the business they helped to create. But we in the Maritime Provinces, having stuck to the ship and paid our passage to the tune of some \$170,000,000, are told today by some of our Upper Province and western friends that the pledges of simple justice and consideration and that now we are down to a cold business basis. If that viewpoint could prevail it would mean simply that we could neither get our money back nor get the equivalent of it in sharing in the business of the country at large. Those who assert what they call the cold business view might well ask themselves what the people of the Maritime Provinces have paid \$170,000,000 into the common railway pool for in the years since Confederation.

Those who contend that the Maritime want special or compassionate treatment of a sort unfair to the other provinces are merely ignoring facts which were welcome in the early days of Confederation but which they find inconvenient now. They do not like to put into words what their argument implies. They do not say to us in so many words: "You put in dollar for dollar with the people of the other provinces but you are getting what you were promised and what you have paid for: you are out of luck"; but that is what they say in substance. But Maritime claims are not to be whittled down in the wind. This Canada is a great country, and it is also a responsible one. It is to be prosperous and contented from end to end the Maritime Provinces must profit through all the Dominion agencies of prosperity. There must be railway rates which will give their industries fair play. Their open ports must get the full volume of Canadian traffic. The federal activities in immigration must be felt in this part of Canada as well as in others. Let there be equality in dividends as well as equality in payment.

WHO GOT THE MILLIONS?

The Attorney General of Ontario is now being reminded very forcibly that over and above the prosecution of the Home Bank president and directors it is his duty to show who got five or six million dollars who the depositors and shareholders have lost, not to mention other millions which are expected to be realized on the realization of the bank's remaining assets, are proceeded with. Somebody persuaded the Home Bank to advance \$1,480,000 to the South New Orleans Light and Traction Company, which just now is paying neither interest nor sinking fund charges, and the character of the loan is well established by a description of the street railway which has been published in Toronto for the edification of the Canadians whose money went into it. Here is the picture:

The roadbed of the railway is similar to the roadbed of the old Toronto Street Railway before the Transportation Commission started its program of reconstruction, only worse—much worse. In the sections where the streets are paved there are great holes at frequent intervals. Pieces are broken out of the flanges of the rails. On the

winter port of the Dominion. The great dry dock will be a strong and constant stimulus to the port's business and it will be a great advertisement as well. Enthusiastic co-operation by the citizens in connection with the opening may be counted upon. The representative and energetic citizens' committee and the Dry Dock Company's management are rapidly completing their preparations and a day of commanding success and interest is to be expected.

Premier Veniot, in replying to a toast at the Quebec banquet of the Good Roads Association on Tuesday evening, said a word of warning to the people of the Upper Provinces. The Quebec Chronicle gives this summary of the concluding portion of his speech: "The great problem in the Maritime Provinces was the problem of transportation and in that problem they were not helped by either Quebec or Ontario. The rumor had gone forth that the Maritime Provinces would like to secede; he did not attach importance to the rumor but he felt that it might become serious if the two big neighboring provinces continued to ignore them. The speaker concluded by saying that if Quebec and Ontario continued to encourage their winter traffic to use American ports they would be responsible themselves for the consequences."

"This year's results cannot be encouraging to the whole of Canada," says President Beatty of the C. P. R., on returning from his western inspection trip. The Dominion Government had some \$800,000 on deposit in the Home Bank, but the Ontario Government had a million and a quarter there.

THE CROWNING OF THE YEAR.

(Author Unknown.) The rose is dead, but still the bee has sipped. The honey that was held within its heart. The heavy sweetness of the dew that dripped. From petals that the sun had waxed and sprouted. The grass grows dark in valley and on hill. And through it dream of summer noontides still. As though it dreamed of summer noontides still. And bowed before the breezes in its sleep. The orchard trees are bare; their leaves Trace wistful patterns on the gray sky. The northern winds creep through like murmured hymns. Or sob chant that softly rig and die. And yet the ruddy apples that they bore. Have caught and held the sunshine; and they bring. The morns and nights of June to us once more. And all the blossoms breath of early spring. The fields are still; where once the wheat and corn. Laughed in the gladness of the summer noon. And waved saluting banners to the moon. And whispered softly in a twilight room— There, now, the barren stubble meets the eye. And there the end of harvest days is told. But granaries are heaped both wide and high. As crucibles that catch the finer gold. So sun and rain have wrought their yearly task. Heave given of their bitter and their sweet. The earth, that yields up freely when her balance at the bank. Has left her summer fruitage at our feet. And now the trees and fields have earned their rest. And we may read the message that is sent. When we have done our all, and gone to our best. We, too, may fold our arms and be content.

IN LIGHTER VEIN.

Puzzled Her.
A little girl was visiting the museum when a man asked her for a picture of her father. "What did you think of it, dear?" "Oh, it's all right," the little one answered, "but I don't see why there were so many mummies and no daddies."

Overdrawn.
Mrs. A.—Have you ever overdrawn your balance at the bank?
Mrs. B.—Well, no—I admit that I have exaggerated sometimes when telling my friends about it.

The Value of Experience.
Mother—Are you really sure that you love him?
Daughter—Don't be so naive, mother. When a girl has had the experience of three engagements, as I have, she should know the symptoms.

Needed One More Story at Least.
A Scotchman entered a hotel and inquired what the rates were. He was told that the charges were \$5 a day for rooms on the first floor, \$4 for rooms on the second, \$3 on the third and \$2 on the top floor. The Scot after a moment's reflection started for the door, when the clerk asked him if he considered the charges too high. "No," replied Sandy, "it's the building that's not high enough."

"The building of the Panama Canal has created an alternative route for grain shipping which should prevent any congestion on the Great Lakes and the St. Lawrence ports and should keep for Canadian ports, Canadian railways and Canadian labor the handling of Canadian products."

This business of keeping the handling of Canadian products, and of our imports too, for Canadian ports, Canadian railways and Canadian labor is of profound interest in the Maritime Provinces. It is not a plan that was invented for our benefit. It is a policy to which successive federal governments, Liberal and Conservative, pledged themselves because they said it was the best constructive policy for all Canada. They said it was sound from both the practical and patriotic standpoints. So it was, and so it is. And the way to keep Canadian traffic in Canadian channels is to keep it there. It is destructive of that policy to pay through foreign harbors, to build up alien ports at the expense of our own.

Dry Dock day is going to be one of the most memorable in the city's history. The distinguished company of visitors will include leaders in public affairs and in the transportation and business world. The dock is a wonderful addition to the port. It marks one great step toward the full equipment of St. John in accordance with its fortunate location as the natural

UNEASY LIES THE HEAD.

(Montreal Gazette.) Being a prince is by no means an easy job. The Prince of Wales, if he was asked his opinion, might adhere to the idea that it is about one of the most difficult of positions, and that is why he is taking the opportunity of visiting his Canadian ranch to be away from all the trappings and ceremonics of State for a brief respite. An examination of the chart now being made for the career of his small nephew, the son of Princess Mary, reveals, statecraft, for although this youngster is only six months old, he is to have his future position mapped out and setled on a law on the chief participant in the picture having a say therein. He will have his playmates selected for him from the nursery to manhood; his hobbies chosen—although he may be allowed in after days, to pick for himself a wife. But if he follows in the footsteps of his Uncle David, who is an intensely human and very natural young man, he may get at naught all the aspirations of his well-wishers and diverge very materially from their programmes. And if he does he will be merely illustrating the glorious examples of history, for his great-grandfather and his great uncle, the Duke of Clarence, did likewise. It will be recalled that the Duke of Clarence, when he was at school, wrote to his grandmother, Queen Victoria, for some pocket money. Instead, he received a return in the form of a letter of admonition, which also counselled the strictest economy.

The result was he sold that letter to an autograph hunter for a sum of money which far exceeded the modest demand he had originally made to the "folks at home." On another occasion when his brother King George remonstrated, the Duke said—"You go, you to the 'God save your grandmother,' and leave me alone." Such is life. The present Prince of Wales and his brother, the Duke of York, have both endeared themselves to the public by being "regular fellows." They realize very properly and sensibly that the old ideas of an awful effulgence and a dazzling sacronancity enveloping all things royal and near-royal are now or less myths in this changed world of 1923. The business of being a king nowadays is an unstable equilibrium. Edward VIII, of Great Britain. The present Prince of Wales learned his lesson in an unstable equilibrium. Edward VIII, of Great Britain. The present Prince of Wales learned his lesson in an unstable equilibrium.

And yet the ruddy apples that they bore. Have caught and held the sunshine; and they bring. The morns and nights of June to us once more. And all the blossoms breath of early spring.

"THIS IS A CANADIAN YEAR."
(Border Cities Star.) Consider these figures and realize Canada's greatness. They have been published before, but they are worth repeating. An estimate of the field grain crops of Western Canada for 1922 is as follows:
Wheat 432,503,169 bus.
Oats 886,823,293 bus.
Barley 61,540,140 bus.
Rye 24,376,560 bus.
Flax 7,193,028 bus.
And besides the vast agricultural resources of the East—embracing every variety, in addition to the East's mineral, timber, fisheries and million of dollars worth of manufactured products.

"This is a Canadian year!"

"For instance," he said, "I once entered this court today, I could have sworn that I had my watch in my pocket. But then I remembered I had left it in the bathroom at home."

QUEBEC NOT ILLITERATE.
(Toronto Star) The recent statement of a Montreal Rotarian at Sherbrooke that Canada, next to Russia, is the most illiterate land, and that 10 per cent. of Canadians are illiterate in Quebec, has called forth a protest from the Montreal newspaper, La Presse.

La Presse points out that the Dominion Bureau of Statistics credits Quebec with having 76 per cent. of its children from 5 to 18 years of age registered in elementary schools in 1920, while 96 per cent. of those from 7 to 14 were similarly registered. The actual attendance in Quebec is about 78 per cent. of the registration, a percentage exceeded only by British Columbia. La Presse further asserts that recent statistics show only 12.66 per cent. of illiterates in the province and 0.71 per cent. in the city of Montreal. Young folk under seventeen years of age who live in factories, etc., are examined by provincial authorities, and this dispenses only 4 per cent. illiterate. In Montreal, where about 15,000 men and women have been subjected to the examination, the percentage among French-Canadians is one and a half per cent.

The figures given by La Presse completely refute the statement attributed to the Sherbrooke speaker. They were already discredited by the reference to Canada as the most illiterate land out there. The Bureau's remark so far from the truth that many readers had already concluded that the address was misreported.

(Toronto Star) The recent statement of a Montreal Rotarian at Sherbrooke that Canada, next to Russia, is the most illiterate land, and that 10 per cent. of Canadians are illiterate in Quebec, has called forth a protest from the Montreal newspaper, La Presse.

La Presse points out that the Dominion Bureau of Statistics credits Quebec with having 76 per cent. of its children from 5 to 18 years of age registered in elementary schools in 1920, while 96 per cent. of those from 7 to 14 were similarly registered. The actual attendance in Quebec is about 78 per cent. of the registration, a percentage exceeded only by British Columbia. La Presse further asserts that recent statistics show only 12.66 per cent. of illiterates in the province and 0.71 per cent. in the city of Montreal. Young folk under seventeen years of age who live in factories, etc., are examined by provincial authorities, and this dispenses only 4 per cent. illiterate. In Montreal, where about 15,000 men and women have been subjected to the examination, the percentage among French-Canadians is one and a half per cent.

The figures given by La Presse completely refute the statement attributed to the Sherbrooke speaker. They were already discredited by the reference to Canada as the most illiterate land out there. The Bureau's remark so far from the truth that many readers had already concluded that the address was misreported.

TIT FOR TAT.

(Montreal Gazette.) In the days when Philadelphia had a law—such as it mooted in Rome—penalizing kissing in public places, James Montague, the skipper of a merchant ship, was fined for having kissed his wife on landing after a voyage. The fine was paid and Captain Montague in order to prove—as he said—that no notice was borne asked the magistrates to dine aboard his ship the following day. On their responding to the invitation, their host plied them so freely with liquor that they became considerably more than "half seas over." Then he told them: "I have a law against drunkenness aboard my ship, just as you have a law against kissing in your streets. I paid my penalty; you must pay yours." Forthwith the boatwain a round dozen to each of the magistrates. That might be called "tit for tat" with a vengeance.

THE STAMP TAX NUISANCE.
(Ottawa Journal) The stamp tax has been annoying to everybody since it was imposed as a war measure eight years ago; but there is no defence for making it any more annoying than it necessary. Up to a few days ago, postage stamps were acceptable as a substitute for the special

war revenue stamp, and that fact avoided a great deal of inconvenience to those who issued cheques. Postage stamps were easily procurable, and served a double purpose. No matter whether a stamp of that sort was used or one of the special type the revenue therefrom flowed immediately into the Dominion treasury and the end in view was attained. Since October 1, however, the law requiring the use of the special revenue stamps on all cheques and receipts. They are procurable at the banks.

This change merely aggravated a nuisance that was already trying, and accentuates the rather sorry position, which we are reduced in the matter of direct taxation. It seems as senseless as it was unnecessary. It may more clearly separate ordinary postal revenue from special war revenue; but that is a trivial thing as compared with the annoyance it will be to all the people.

2 CHILDREN BADLY BURNED WHEN GAS IN TOY BALLOONS EXPLODES

Police Search for Peddler Who is Alleged to Have Violated Law.

New York, Oct. 11.—Four-year-old Muriel Carlier and five-year-old Phyllis McIntyre, trotting down Clove road, West New Brighton, S. I., each holding to her mother's finger with one hand and to a toy balloon with the other, placed the strings holding the balloons in their mouths as a big clump of goldenrod came into view and raced for the flowers.

They had taken only a few steps when there were two popping explosions and two puffs of smoke and both children clapped their hands to their faces. They had been severely burned by the explosion of the balloons and were attended by Dr. William Smith, Fort Richmond, who said the balloons probably were filled with acetylene gas.

As this is said to be illegal, policemen were sent to hunt for the peddler who sold the balloons to the children. They spied a man with a number of balloons near Four Corners, but before they could overtake him he let his stock go sailing away and jumped aboard a street car bound for St. George.

After receiving medical attention the two children were taken to their home. Muriel lives at 75 Drake avenue and Phyllis at 805 Clove road, West New Brighton.

MORE DEATHS IN WAKE OF HURRICANE

St. John's, Nfld., Oct. 10.—Twenty to thirty lives in addition to those already reported, may have been taken by the hurricane which swept the Atlantic the first of this month, and four Newfoundland vessels are being anxiously waited for at Newfoundland ports with the hope that they may yet arrive and dispel the fears concerning them.

The three-masted schooner Freedom is out eighteen days from Sydney for Carbonear, Nfld., with coal, the schooner Vignette is out ten days from the same port for Ramen, Nfld., the schooners Cavalier and Lucy Dibbon were also out in the storm of Oct. 1, and none of these vessels have been reported.

With the aid of a delatone paste, it is an easy matter for any woman to remove every trace of hair or fuzz from face, neck and arms. Enough of the powdered delatone and water is mixed into a thick paste and spread on the hairy surface for about 2 minutes, then rubbed off and the skin washed. This completely removes the hair, but to avoid disappointment, get the delatone in an original package and mix fresh.

OREGON SO ILL HE MAY RESIGN, MEXICO HEARS

High Altitude of Capital Endangers His Life, Says Consulting Doctor.

San Antonio, Tex., Oct. 11.—Private reports reaching San Antonio from Mexico state that President Obregon continues seriously ill and the physician called into consultation made a statement that he is suffering from excessive blood pressure and is threatened with apoplexy and cannot live in the high altitude of Mexico City without endangering his life.

The reports also say that he is considering resigning and that the national Congress is to elect a provisional President, who will hold the election next year.

The Epworth League of the Carleton Methodist church held its regular meeting on Monday with the president, Clarence Beattay in the chair. After the opening devotions the pastor, Rev. F. T. RECENT WEDDINGS

Duncan-Chalmers.

Miss Drucilla S. Chalmers, daughter of the late Mr. and Mrs. Hugh Chalmers, of Bathurst, was married to D. Chipman Duncan, son of Mr. and Mrs. R. Duncan, of Campbellton, at St. David's Presbyterian church, at 6 o'clock yesterday afternoon. Rev. Hugh Miller, M. A., pastor of the church, performed the ceremony. The bride, who was given away by her brother, Perley G. Chalmers, wore a smart suit of navy blue point twill, with corsage bouquet of sweetheart roses, fawn panne velvet hat and stone marten fur. Professor Bayard Currie presided at the organ, playing the wedding marches and "O, Promise Me," while the register was being signed. Immediately after the ceremony, Mr. and Mrs. Duncan left on a honeymoon trip to Boston, New York, Toronto and Montreal. On their return they will reside in Campbellton. The sister of the bride, Miss Lillian Chalmers, of Bathurst, was a guest at the wedding and was prettily gowned in a suit of brown point twill with smart tulle velvet hat. Perley Chalmers, Bathurst, brother of the bride, was the only other smart suit of navy blue point twill, which was informal but very pretty.

LEAVES PANTS WITH BOOTLEGGERS, SINGS ON CURB IN RED FLANNELS

Piping Pan From Jersey Chicken Ranch Holds Airy Converse.

New York, Oct. 11.—Singing blithely, without a care for the chicken farm he left behind him at May's Landing, N. J., a partly, indeed almost wholly, demitted gentleman was observed seated on the curbing in front of 442 West Forty-first street.

Early as it is for red flannels, there was no doubt that he was wearing them and little else but a swelling over his left eye. That bothered him not at all, nor did the chill wind sweeping up from the Hudson, which might just as well have been a spring zephyr for all that he was aware.

He was warm, inside and outside, and it was a good word to live in and he was singing. He paused a moment, however, to call out a friendly greeting to the patrolman making his rounds.

"Officer," he inquired, "why does a chicken cross the street?"

Patrolman Van Name, of the West Thirtieth street station, who has been blabbed since 1903, gaped and distinctly reddened at the sight.

"For the love of Mike," he exclaimed, "I'm Steve Brodie and I'm asking you a question," the man continued gravely.

"Where's your hat and coat, Steve, and your shirt?" Van Name asked him. "Don't change the subject, my good fellow," said Steve.

"And for the love of Mike, where may your trousers be?" Steve took a survey of himself slowly and nodded his head.

"Now, that's a question I was just going to ask of you," he replied. "Where in—do you suppose my trousers could have gone to?"

With a theatre party returning down the street it was time for action rather than argument, and Van Name marched Steve ahead of him, the red coat held by the blue, to the police station.

A temporary outfit nine sizes large was rigged up for him before arraignment before Magistrate Batino in Jefferson Market court.

Steve faced every prospect of a sentence until he told the court that along with his habitations the bootleggers had taken \$700 in cash from him, the savings of three years. He was released on suspended sentence and advised to get suitable clothes so the chickens back home would recognize him again.

**WOMEN AFTER
THE 300,000 WHO
NEGLECT TO VOTE**

Republican Leader States
Plan to Stamp Out
Indifference.

New York, Oct. 11.—Three hundred thousand women in New York City who are eligible to vote fail to do so because of indifference, according to a charge made by Mrs. Charlotte Farrar, associate Republican leader of the 10th Assembly District. In the 3,000 election districts, said Mrs. Farrar, there were, roughly speaking, at least 100 women who are "not interested in politics."

THE COUNTRY BOY.

(Manitoba Free Press.) Some humorist has remarked that the first essential to success is to select the right kind of parents. Judging by statistics which have been compiled at various times it looks as if it would also be necessary to select the country as a birthplace. A very large percentage of prize winners in colleges come from the farms.

The majority of merchant princes and professional leaders get their start in the country or in small towns. The majority of the United States Presidents, it is said, were farm bred. This makes a good case for the farm as a factor in national life. Yet how often the whole rural world is looked upon with contempt or less disdain. The city head is apt

to say to the country foot, "I have no need of you." Or it is as if the branches of the tree said, "We have no need of the roots."

There is no intrinsic superiority of the rural world over the urban. If rural conditions offer more for the nascent boy life than urban the reasons should be patent to all who can look a little below the surface. Some of the reasons offered by way of explanation to the country boy's success are that he has learned to do things; all kinds of things, some pleasant and some disagreeable. He learns for the most part to do them cheerfully. His chores come night and morning, rain or shine, mud or dust. His sense of duty is well disciplined. When he comes into contact with city life he is not likely to ask for favors. He knows how to

be his own servant and solve his own problems. His physical backbone is developed, and in many cases where his moral backbone is likewise developed. That is why the country boy wins.

OIL AND WAR. (New York Evening Post.) A special correspondent of the Houston Transcript knows how the next war will be fought about "the greatest war of all, for which Europe is now preparing, may nominally be fought upon any one of half a dozen issues—but the secret fundamental issue will be the fight for oil control."

This is a fairly common prophecy, based upon the assumption that the world supply of oil is now known, and that the methods of using it will remain about the same as they now are. There is no scientific support for either assumption. Neither has it been proved, in general, that economic necessities absolutely dictate national policies and that unequal distribution of some such necessity as oil will necessarily result in war.

Discovery, development and invention move much more rapidly nowadays than Governmental policies. Instead of donning the mantle of prophecy to predict that this country is going to exhaust its oil supply within a few years and have to pay enormous sums abroad, it seems to us much more reasonable to predict that within a few years some satisfactory way will be discovered to use our enormous supplies of lignite so that a large part of the interior market now depending

upon fuel oil will no longer need it. Either prediction is a guess, but the more optimistic guess seems to be the safer because we know the lignite exists and no one knows how much oil there is. The greatest experts in petroleum geology admit that "oil is where you find it." Only recently new fields have been developed in California at depths that couldn't have been drilled 15 years ago. How shall we dare to guess what will be possible 20 years hence?

Forecasts of oil exhaustion frequently stress the fact that salt water has appeared in some of the Mexican oil fields, the greatest in the world. But the known oil lands of Mexico are barely touched. Those now developed are so near the coast and have produced such enormous quantities that

it was not commercially profitable to develop fields for inland. What appear to be some of the greatest oil lands earth lie far in the interior of South America, but the world supply is so ample that the expense of piping oil from those remote places does not at present make development profitable. There are diplomats who use such situations as the world distribution of oil fields for a basis to prepare for future wars, but their plans can all be knocked into a cocked hat by some grumpy individual known as a wild-catter who happens to bring in a gusher in a region uncharted by the diplomat.

PIRPO PAPERS ARE NULLIFIED

New York, Oct. 11.—Luis Angel Pirpo, South American heavyweight has officially repudiated any intention of naturalization in his application last week for United States citizenship papers, made peace with himself and felt relieved at being re-established as a true son of the Argentine. Accompanied by Promoter Tex Rickard, Attorney Hyman Bushel and Guillermo Widmar, his secretary and interpreter, Pirpo visited County Clerk James A. Donegan in the County Court House and pleaded with tears in his eyes for the return of his application for first papers.

The South American giant explained that he had no thought at any time of renouncing his allegiance to Argentina and insisted that he thought when he signed the application that he was applying for a certificate "such as is issued in Venezuela and in some other countries" to foreigners at a port of entry, when they are about to tour the country.

Pirpo previously had appeared before Merton E. Sturges, Chief Naturalization Examiner for the United States in this city, and County Clerk Donegan sent Eugene Schwartz, his general clerk to represent him at a hearing in Mr. Sturges' office. At this hearing Widmar explained that he himself was not an American citizen and had lived only a few months here, adding that he thought, as did Pirpo, that the Argentine heavyweight was receiving a certificate. Pirpo's eyes were moist when he explained, through Widmar, that he never entertained any thought of surrendering his citizenship in the Argentine and declared he flew into a rage when he discovered, upon close inspection of the first papers, that he had renounced allegiance to the Argentine republic.

Mr. Sturges and Mr. Donegan, unable under the law to withdraw Pirpo's application for citizenship, consented to give the Argentine boxer a letter certifying that they believed he signed the application under a misapprehension and the subject of Pirpo's citizenship was settled forthwith.

Pirpo now is engaging himself with the task of settling his business affairs in order to permit his departure for South America as quickly as possible. According to Billy McCamey, who arranged Pirpo's barn-storming tour in advance of the Dempsey bout, the South American has engaged passage subject to cancellation, on three different ships. Pirpo has booked passage for boats sailing on Oct. 15, 18 and 20, all going direct to Buenos Aires. It is all going direct to sail on the ship leaving Oct. 15, if he can arrange his business affairs accordingly. If not, he will leave later. Widmar has engaged passage on a ship sailing from here for South America on Saturday.

Pirpo's eyes were moist when he explained, through Widmar, that he never entertained any thought of surrendering his citizenship in the Argentine and declared he flew into a rage when he discovered, upon close inspection of the first papers, that he had renounced allegiance to the Argentine republic.

Mr. Sturges and Mr. Donegan, unable under the law to withdraw Pirpo's application for citizenship, consented to give the Argentine boxer a letter certifying that they believed he signed the application under a misapprehension and the subject of Pirpo's citizenship was settled forthwith.

Pirpo now is engaging himself with the task of settling his business affairs in order to permit his departure for South America as quickly as possible. According to Billy McCamey, who arranged Pirpo's barn-storming tour in advance of the Dempsey bout, the South American has engaged passage subject to cancellation, on three different ships. Pirpo has booked passage for boats sailing on Oct. 15, 18 and 20, all going direct to Buenos Aires. It is all going direct to sail on the ship leaving Oct. 15, if he can arrange his business affairs accordingly. If not, he will leave later. Widmar has engaged passage on a ship sailing from here for South America on Saturday.

CLOTHING AND SHOES NEEDED

Many Demands for Little Ones Made on Associated Charities.

Many cases where clothing was needed were reported by the secretary at the meeting of the Associated Charities held yesterday afternoon in the Bible Society rooms with the president, W. Shivers Fisher, in the chair. The society's supply of clothing was practically exhausted and there were many demands at the present time when the colder weather was setting in. It was children's clothing that was chiefly wanted and shoes were the greatest need of all. The meeting was the first since the summer and the reports presented covered the whole of the summer period. The reports showed that the work had been carried on faithfully, although there had been no meetings.

Miss Grace Robertson, the secretary, in her report, gave the following statistics of the work: Applications received, 293; requests for employment, 184; seeking relief, 24; relief procured for, 21; visits, 872; asking transportation, 4; cases investigated, 12; clothing given to, 12.

Conditions of distress in the city were rather aggravated at the present time by the fact that it was between seasons for employment and times were a bit slack. Several cases were discussed at the meeting and it was decided to give the necessary relief.

Committees were appointed to look after the winter activities. The annual meeting will be held next month and a committee consisting of Mr. Fisher, Mrs. George F. Smith, Mrs. F. J. Power, Rev. J. V. Young and Miss Robertson was appointed to arrange for that meeting.

Percy J. Steel was appointed convener of the finance committee and was asked to meet with the committee to arrange a campaign for more subscribers.

A Floor that Stands Severe Wear

THOUSANDS of footsteps pound and scrape around these tables every day. Visualize this activity and you get a pretty fair idea of the punishment to which a Dominion Battleship Linoleum floor is subjected. In addition, it is easily kept clean and is sanitary and germicidal to a marked degree, features that make it especially desirable as a floor for public places. When properly applied with waterproof linoleum cement,

DOMINION BATTLESHIP LINOLEUM

becomes a permanent floor that imparts an air of restful quiet and is comfortable and springy to walk on. Dust or germs cannot accumulate on its smooth, seamless surface. Waxed occasionally with a reliable floor wax, Dominion Battleship Linoleum becomes increasingly attractive with age. Canada's largest banks, offices, departmental stores, schools, hospitals and public buildings have proved its durability and all around satisfactory qualities.

Made in four standard shades: brown green, terra cotta and grey. Special colors on large contracts. Write for samples and literature.

THREE REGISTERED SO FAR.

The lectures in the U. N. B. Law School were commenced yesterday. While many students are contemplating entering the school this year only three had registered in the freshman class yesterday. The three are John Joseph Hogan, Herbert Moore Nase and

Michael Maurice Baig. Those who are entered in the second and third year classes are as follows: Class of 1923 (Juniors), A. D. Nicholson, R. H. Moore, W. M. Currie, F. Fritz, B. A. and A. J. Brooks, B. A. The members of the class of 1924 (seniors) are Miss Margaret Teed, Miss Leslie Pickett, B. A., W. A. Haines, M. A., F. D. McGuire, B. A., F. E. V. McLatchey, Percy J. Steel and F. D. Tweedie. Arrangements for the formal opening of the law school next week have not yet been completed.

PRIZE WINNERS AT ORPHANS' FAIR

The New Brunswick Protestant Orphanage fair in St. Andrew's rink had generous patronage last night and there was a big crowd taking in all of the attractions. The band of the 62nd Fusiliers provided an excellent programme. The bands have been a great attraction at the fair. On the previous night the City Cornet band had been in attendance and it will play again on Friday night. Tonight the Carlton Cornet band will furnish the musical programme. The Pythian Sisters will sell baked beans and brown bread at the fair on Saturday afternoon as on that day the fair will be open continuously through the afternoon and evening. No supper will be served at the rink, however. The prize winners last night were as follows: Excelsior, fancy

Lower Cove Society Is Reorganized

The re-organization meeting of the Ladies Association of St. John the Baptist church, Broad street, was held last night with the president, Mrs. J. H. Doody, in the chair. The meeting was marked by the enthusiasm and interest of the members and by the exceptionally large attendance. Many new members were welcomed and there was every indication that in the coming year the membership would be doubled. The officers of the previous year were re-elected as follows: President, Mrs. J. H. Doody; first vice-president, Miss Mary Sugrue; second vice-president, Mrs. Charles O'Neill; third vice-president, Mrs. Wm. Ward; treasurer, Miss Belle Reed; secretary, Miss Stella McDermott. The committee conveners elected were as follows: Social, Miss Nellie McCarthy; sewing, Mrs. Farrell; hall, Mrs. Dewar and charity, Mrs. Herbert Flaherty. The reports presented told of the work which had been accomplished last year when the association raised a very considerable sum and helped materially to reduce the debt on the new parish building. As the first activity of the new season it was decided to hold a pantry sale in about a fortnight's time. Rev. J. J. McDermott

Buying Furniture With Your Eyes Open!

NO longer need you buy furniture in the dark, not knowing whether you are getting real walnut or mahogany, or some other cheaper woods stained to look like the genuine.

You can buy furniture now with your eyes wide open.

Gibbard gives you a printed and signed guarantee that his furniture is built of either genuine solid walnut, solid mahogany or solid oak.

Wouldn't you rather buy furniture of solid construction—that is built of these three finest of cabinet woods—especially when it costs only slightly more?

Then, look for the Gibbard Guarantee Tag when you go to buy. Be sure the Gibbard name is on the tag and the Gibbard name plate on the furniture.

If your furniture dealer hasn't the style of Gibbard suite you desire, ask him to show you the latest Gibbard Catalogue. The Gibbard line includes dining room and bed room

suites, library tables and writing desks in designs reflective of the Chippendale, Italian, Queen Anne, Colonial and Georgian periods.

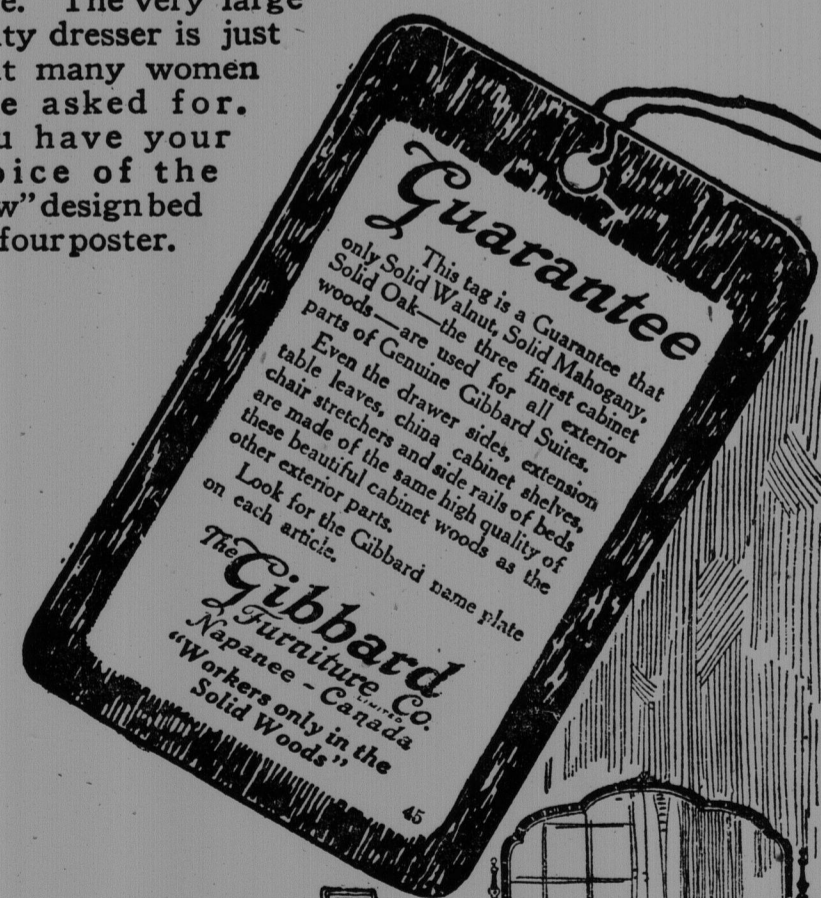

From the large photogravure pictures in the Gibbard catalogue you can easily select furniture appropriate for the home.

Remember, too, that on all Gibbard furniture the decorations are executed by hand carvers which give it an added touch of distinction.

Twin beds may be had in place of the double bed in the bedroom suites.

The suite illustrated below is the latest Chippendale Bedroom Suite. The very large vanity dresser is just what many women have asked for. You have your choice of the "bow" design bed or a four poster.

The SOCIETY WOMAN contrives it

Her skin smooth - supple - young

years longer than other women's

"A woman's complexion should be very nearly perfect. It must be smooth, supple and transparently fresh and it must never betray fatigue or the effects of weather." ¶ This, if it were written, would be the society woman's code. ¶ As proof of it, there is scarcely a woman of prominent social position whose age you can guess by lines or any dullness of skin. ¶ Zealous sportswomen by day, they appear in the evening with delicate skin unmarred.

HERE are two fundamental needs of the skin that the society woman knows cannot be neglected without disaster—regular cleansing in the particular way that cannot possibly tighten or coarsen the skin—and careful protection and freshening for *all* day-time and evening appearances.

Long before even the society woman considered sports seriously, Pond's knew that these two essentials were the only right basis for the care of her skin. And for years they put their whole effort into developing two creams based on these essentials. Finally they perfected the two entirely different creams, each beautifully designed for its purpose, which used together form the modern care for woman's skin. Today millions of women are using this famous method to keep their skin fresh, supple, young.

Pond's Cold Cream of a special lightness and fineness, not only cleanses but restores exquisitely the skin's essential suppleness—Pond's Vanishing Cream, delicate and cool, is so sure a protection that no woman careful of her skin ever appears without it. And in addition it has the special property of beautifying the skin instantly, making it marvelously fresh and smooth under the powder.

No matter how careless you may have been

in the past, your complexion *can* be smooth and lovely with this method. It need never be roughened or reddened by exposure, nor lined nor coarsened through neglect. Begin today to use Pond's Two Creams regularly to give your skin that well-cared-for look and smooth loveliness that distinguishes the women who *must* be beautiful in spite of their active social life.

Try this method—yourself

Do this tonight. With the finger tips apply Pond's Cold Cream freely. The very fine oil in it softens your skin and penetrates every pore. Let it stay on a minute—now wipe it off. The black that comes off shows you how carefully this cream cleanses. *Do this twice.* Your skin looks fresh and is beautifully supple again.

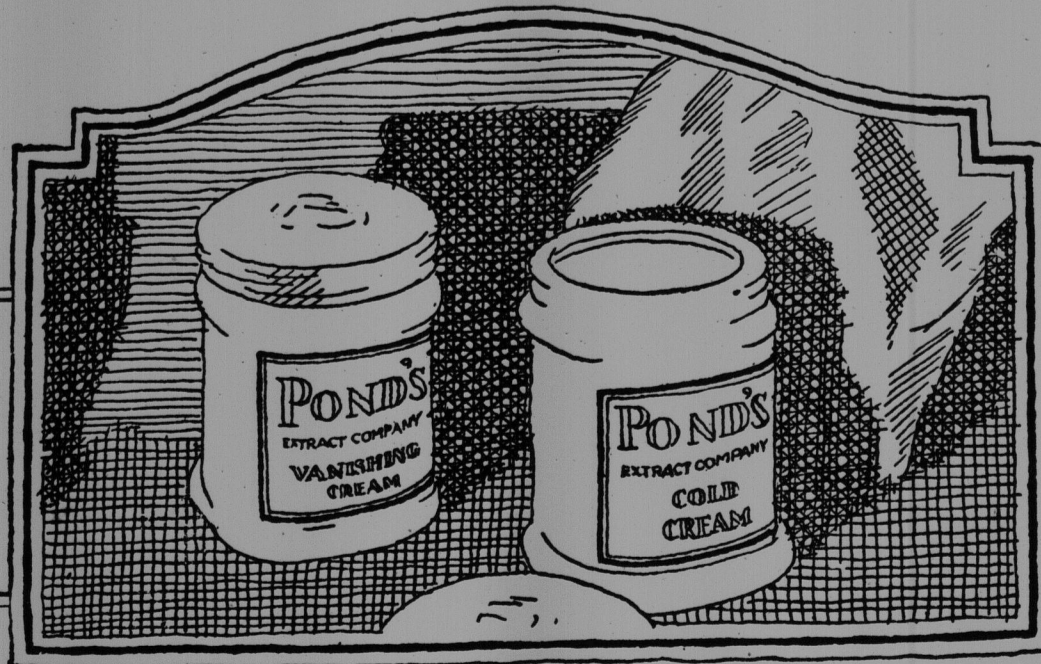

Then in the morning, smooth on Pond's Vanishing Cream very evenly—just enough for your face to absorb. Now if you wish, rouge—powder. How velvety your face feels to your hand. The powder is even and smooth over this flawless base. The appearance of your skin and the compliments of your friends will prove to you how wonderful for your skin these Two Creams are.

You can buy both creams in jars or tubes at 50 cents each in any drug or departmental store. The Pond's Extract Company.

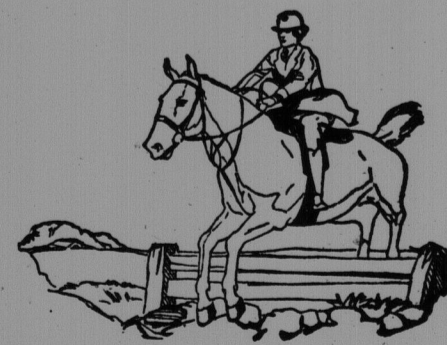

IF SHE IS PERHAPS GROWING OLDER SHE DOES NOT SHOW IT BY A DULLED SKIN OR PREMATURE LINES. IF SHE IS TIRED HER FACE DOES NOT BETRAY HER. HOWEVER MUCH SHE IS OUT OF DOORS HER SKIN IS NOT ROUGHENED OR REDDENED. WHAT IS HER SECRET?

MADE IN CANADA

Every skin needs these Two Creams used by the women who tax their skin most and keep their faces loveliest—Pond's Cold Cream to remove coarsening dirt, excess oil, powder; Pond's Vanishing Cream to prevent coarsening exposure and to keep the skin fresh and smooth under the powder.

was being actively investigated while various members of the Dail were also lending their efforts to arrange a settlement. Meanwhile little progress has been made toward reducing the prices of essential commodities, although the cost of bread has been brought down. Among the other serious effects of the strikes is the shortage of anaesthetics and other drugs, a situation which is causing the hospitals considerable inconvenience. There are rumors that some of these institutions may have to close. Anyway it seems likely that operations will have to be performed without anaesthetics.

BANDITS KILL STATE TROOPER; ONE ARRESTED

Dead Man Had Been Investigating Hold-Ups Between Saratoga and Glens Falls—Wounded Man Left in Vestibule of Doctor's Office.

Albany, Oct. 11.—Roy Donovan, three hours after Donovan had been killed, a State trooper, is dead, and George Haupt of Albany is in a Troy hospital with his arm so badly shattered that it will have to be amputated, as a result of what officials believe was a bandit ambush set for State troopers, who for more than a week have been investigating hold-ups on the road between Saratoga and Glens Falls. Haupt has a police record and was recently married. Matthew W. Slavinski was also arrested having confessed the police say, that he was with Haupt, Haupt when he gets out of the hospital. As Donovan and two other troopers in their automobile came up to a car stopped in the road near Wilton, north of Saratoga Springs, they were ordered by the occupants of the car to "stick them up." A flashlight was directed upon the troopers' car. Donovan reached around the windshield and fired a shot in the direction of the flashlight. Two other shots were then fired from the rear of the other car. Donovan called out that he was shot and crumpled in the road. The man who had the flashlight jumped into the bandits' car which was turned quickly and sent ahead. The troopers, however, got the number and telephoned to all nearby towns and troopers to be on the lookout. Forty miles south of the point, where the shooting of Donovan occurred, other State troopers discovered the automobile heading toward Albany. This was

LUMBER CUT MAY NOT BE SO LARGE
Labor Reported Not Plentiful and Operations May be Curtailed.

Fredericton, Oct. 11.—The statement is made by lumber operators that it is so difficult to obtain men to work in the woods that many preparations have not yet begun, although preparations were complete some time ago. One operator in the north reports that thirty-five men were all who could be secured for five camps the result being that part of the operation has not yet been attempted. Construction work in Ontario has attracted much of the labor which formerly went into the lumber-woods. This year there appears to have been a movement to Ontario started by a few and followed by a rush. Gloucester County particularly the Carleton district is said to have sent many men to Ontario. The resulting scarcity is felt by firms with headquarters at Bathurst. Search for men far to the south in the province also has been productive of little response. Improvement in this point is expected as the autumn advances. Construction work will decrease as the weather becomes colder and more men will return to the south. The return of many from Ontario is expected. In addition to the construction work mentioned, the England States have attracted many during the year and Detroit also although the movement toward the latter city was checked some time ago. As a result of labor scarcity the cut of lumber in the province will not be as great as anticipated. Inability to secure crews at this time of the year will mean that valuable time will be lost as the autumn advances. At one time it was believed that one hundred million feet and more would be cut in the province. It is still believed however that there will be a cut larger than the average.

IMPROVEMENT OF PORT OF HALIFAX
Hon. R. E. Finn Confers With Steamship Men—New Elevator.

Hon. R. E. Finn, M. P., met representatives of the steamship interests of the port Saturday at the Board of Trade office says the Halifax Echo and discussed with them several matters in connection with shipping facilities here. He advised them that tenders of erection of a new grain elevator of 1,100,000 bushels capacity would be called for immediately. Other matters discussed were the cattle shipping sheds now being erected at Richmond, the extension of the railway freight arbitrator's practically to what they were in 1914, the linking up of certain steamship interests with the C. N. R. The programme outlined showed much activity at Ottawa by Hon. Mr. Finn and Hon. A. K. Macdonald in the interests of Halifax. Another matter discussed was the appointment of a customs officer to be stationed at New York to that the Panama Canal may be used for shipments from eastern to western Canada, and Mr. Finn will take the matter up with the Government on his return to Ottawa. The call for tenders for the contract of erection of the new 1,100,000 bushels capacity grain elevator requires the tenders to be in with Deputy Minister of Trade and Commerce O'Hara at Ottawa by Nov. 7. Each tender must be accompanied by a cheque for \$50,000 as a guarantee. The Board of Trade's feeling is that, after years of aggressive work, the removal of preferential rates, the placing of the Dominion by Canadian ports, the construction of grain elevators and cattle shipping sheds, it is the proper time to advertise the port to all Canada.

FOUND PEOPLE OF P. E. I. PROSPEROUS
Rev. Wm. Lawson of Little River Home After a Visit.

Wonderful changes in Prince Edward Island in a quarter of a century were noted by Rev. William Lawson during a two weeks visit from which he has just returned. He was stationed on the Island some twenty-five years ago, and on his recent visit preached for two Sundays in his old church in Alberton. He was all over the island, and on his recent visit found it flourishing. He saw twenty fox farms and was told the business was profitable. As an evidence of that he found radio sets as common as phonographs used to be in people's homes, and every requirement for a life of comfort and enjoyment. The island, with its farms, starch factories, cheese factories, creameries, canneries, packing plants and fox farms, had many sources of profit. On the farm he saw four horses abreast hauling farm machinery, where in the old days only a single span were used. He found the churches and parsonages neatly painted and on all sides evidence of prosperity.

WOODCOIST SLEW PITTSBURG NURSE
Says Girl Refused to Pay Him for Curing "Love Ills."

Pittsburgh, Oct. 11.—Miss Elsie Bartel, 28 years old, a nurse, was killed by a woodcoist, a negro voodoo doctor, when she refused to give him \$395 for "curing her love ills," according to a confession which city detectives said the negro had made. The confession, according to Louis Left, captain of Detectives, was made after Savage had been taken to the scene of the crime shortly after midnight. Under the glare of automobile headlights, Captain Left recited, Savage reacted in detail his movements when he met the nurse beneath the portico of a deserted East End mansion. The negro confessed, Captain Left charged, that he struck the nurse in the face when she grabbed the money out of his hand, felled her with a brick and then dropped a seventy-pound block of marble on her head. As she fell, Captain Left cried out: "I'll give it to you." Savage told the detective that he then stepped to the side of the portico and pushed the loose marble block from the wall, crushing the victim's head. Details of the confession made public by Captain Left related how Miss Bartel met Savage, a negro voodoo doctor, employed by an East End physician, the woman as a nurse and the negro as a butler. The nurse learned of Savage's skill as a "fortune teller" and approached him when she had difficulties with her sweetheart. Savage gave her six cards, held together by a black pin, and told her the "charm" would work if she returned the cards to him and paid him \$395 on Saturday night. They met under the portico late that night and Miss Bartel handed Savage the cards and an envelope containing the money. When Savage that "the cure" had worked, the nurse grabbed the money from his hand. Then he confronted her, the negro confessed, Captain Left declared.

PRISONERS OBJECT TO GUARDING IN RICHMOND JAIL
Affairs at a Pretty Pass Under Sheriff Informs Estimate Board.

New York, Oct. 11.—The prisoners in Richmond County grumble because they are not properly guarded and can't get to court quick enough. Sheriff Peter J. Finn appeared before the committee of the whole of the Board of Estimate and asked for nine additional deputy sheriffs. He told the committee that since the police recently refused to bring prisoners from the county jail at Richmond for trial in St. George, a distance of nine miles, Sheriff Henry Rudolf was unwilling to assume further responsibility because of his inadequate staff. The sheriff was doing the best he could after the Police Department passed the buck to him, until the justices of the Court of Special Sessions, sitting in St. George recently gave him thirty minutes to produce a prisoner then in the county jail. "The county jail is nine miles from court," said Mr. Finn, "and six miles from another court. We have only six deputy sheriffs. They cannot possibly keep from one place to another, and everybody is grumbling, even the prisoners." The Under Sheriff said it was either a question of giving them additional deputies or compelling the Police Department to look after their own prisoners. Comptroller Craig said the situation was serious, and promised to have a report ready for the next meeting. Walter Hauke, a taxicab driver and friend of Miss Bartel, was taken to the central police station for questioning. While talking with detectives, Hauke saw Savage, who was being held as a suspect. Hauke identified him as the negro he had carried in his cab to the East End district Saturday night. Savage, up to that time, had maintained his innocence, but when Hauke confronted him the negro confessed, Captain Left declared.

GETS 90 1-2 MILES ON GALLON OF PETROL
British Aviator in Glider Competition Near 100 Mile Goal.

Lympe, England, Oct. 11.—In an effort to reach the ideal of one hundred miles on a gallon of petrol, which is the goal of several pilots in the motor glider competition here have set for themselves, one competitor flew 90 1/2 miles yesterday in a baby plane using only a gallon. The cost of the flight was less than one farthing a mile. The feature of the trials thus far appears to be the reliability of the little machines, which are doing all sorts of stunts and long distance flights even in the face of high winds.

\$5 down

During October Only
YOU have always wanted a Hoover. You know how it lightens the work of keeping the house clean—how it lengthens the life of your carpets and rugs by keeping them free from destructive grit and dirt. October is the best time to buy. During October you can obtain The New Hoover on the unusually low terms of only \$5 down. The balance can be arranged on our easy "divided payment" plan—only a few cents a day for a limited time. The Hoover always had a definite superiority over all other kinds of electric cleaners. The New Hoover, introduced last Spring, has ten practical improvements over the old model. It has been accepted as the World's Most Efficient Household Cleaner. Do not delay! Remember, this offer is good only during October. Telephone now to any Authorized Hoover Dealer. SIX STARS TO PLAY FOR CUE TITLE

Hoppe, Schaefer, Horemans, Conté, Magenlacher and Cochran.

New York, Oct. 11.—The entry list for the third annual international 18.2 ballcue tournament has closed, and T. A. Dwyer, secretary-treasurer of the Brunswick-Balke-Coleender Company, under whose auspices the event will be staged at the Hotel Pennsylvania, Oct. 28 to Nov. 4, officially announced that the contestants will be Willie Hoppe, the world's champion; Jake Schaefer, former champion; Roger Conté of France; Etouard Horemans of Germany; Erich Magenlacher of Germany; and Viktor Cochran of San Francisco. These six players have filed their entries and deposited their forfeits of \$250 each. The event is the same that competed in the field a year ago.

Immediately after the closing of the entry list Willie Hoppe declared that he has arranged a hard practice campaign to perfect his stroke for the defence of the title.

MORE ACTIVITY TO SECURE IMMIGRANTS

Hon. J. A. Robb Speaks to Synod—Latter Denounces Quebec Law.

Lachute, Que., Oct. 11.—Hon. James A. Robb, Minister of Immigration, was a special guest yesterday at a meeting of the Presbyterian Synod, Montreal and Ottawa, at this season here. Mr. Robb reviewed past movements of immigrants and quoted figures to show that the west was fast becoming a country of mixed farming. Referring to 24,800 British children brought out to Canada during the past year, he said the Government would heartily welcome the assistance of all organizations seeking to help new settlers. He declared that better economic conditions now make it possible for the Government to pursue a more active immigration policy. The Government would, he said, look first for people to go on land and would endeavor to send them to those districts of the west where there were railway and other facilities.

Dr. H. C. Sutherland, convener of the synod's home mission and social service committee, proposed two resolutions unanimously adopted by the synod, one condemning the selling liquor law in Quebec, and the other upholding the Temperance Act of Ontario. He described Montreal as the home center of the continent and the bootleggers' headquarters.

Dealing with home missions, Dr. Sutherland said the present year had commenced with a deficit of \$100,000, and expenditures had been limited to \$970,000, being \$100,000 less than last year. If there were a good harvest this year a radical improvement was

I have heard of Dr. Foulger's Kidney Pills and decided to try them. After taking a few boxes I feel like a new woman. My backache is gone and my kidneys are working properly. I can now do my work without any trouble. I am sure that every woman who suffers from backache or kidney trouble should try Dr. Foulger's Kidney Pills. They are the best and most reliable remedy for these troubles. I can recommend them to every woman I know."

Basis Of Canada's Future Greatness

Present Economic Situation Likened to That of England Century Ago.

In discussing conditions in Canada at present, George Herbert Wood of the firm of Wood, Gundy & Co., one of the largest dealers in Canadian Government municipal bonds in the Dominion, declared that the present situation is one which has been many times repeated and that there are many parallels to be drawn between the present status of the Dominion of Canada and the Napoleonic war says The New York Times. In discussing Canada in relation to these historical parallels Mr. Wood said:

"Since the fifteenth century, history discloses a continuous succession of wars, followed by inflation, followed by chaos, followed by the unrest and even uprising of the masses. History has seen Governments overthrow, nations disintegrated, and, finally, the recovery of the whole to a state of stability. History also shows (and this is the important disclosure) that as the result of these trials the people who have suffered them have emerged from each ordeal stronger in character and more resourceful in the development of its national policies.

"For example, the amazing recovery of France following the Franco-Prussian War. After paying off an indemnity which, at that time, was considered to be staggering, France has so far progressed in 1872 (five years after the close of the war) that Bismarck considered seriously the expediency of striking again because he feared a war of revenge. Ironically enough, he is said to have remarked that if Germany were victorious in the war she would insist upon paying the vanquished rather than upon collecting an indemnity.

"In the economic position of Canada today there are several parallels to be drawn between the present status of the Dominion and the position of England following the Napoleonic war. At the conclusion of the Second Congress of Vienna in 1815, England, although victor in the struggle, found herself with her own and her colonies in a state of economic depression. In 1815, although victor in the struggle, found herself with her own and her colonies in a state of economic depression. In 1815, although victor in the struggle, found herself with her own and her colonies in a state of economic depression.

"We in Canada stand today where England stood just 100 years ago. We are about the same burden of national debt, but we are immeasurably better off in industrial facilities, agriculture, and mineral wealth and the knowledge of how to use these things for the payment of our debt and the improvement of our agricultural, financial and industrial welfare. Further, we are handicapped by unemployment, and are suffering from an impoverished farming community.

"We enjoy enormous strategic advantages for the development of trade with Europe and with Asia. On the west we have a shorter water haul to continental countries than any other country. On the east we have a continent that, under normal conditions, should be able to take every pound of surplus food stuffs that we can produce. The United States is buying more and more of our natural products, such as timber and pulpwood. She is also our largest customer for deep sea and fresh water fisheries.

IF KIDNEYS ACT BAD TAKE SALTS. Says Backache Often Means You Have Not Been Drinking Enough Water. When you wake up with backache and dull misery in the kidney region it may mean you have been eating too much meat, says a well-known authority. An excess of meat may form uric acid, which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's uric waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy with sediment, chills are often got, sore water scalds and you are obliged to seek relief two or three times during the night.

When you consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts, a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for years to cleanse and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad salts is inexpensive, cannot injure and makes a delightful effervescent lithia water drink. Drink lots of soft water. All means have your physician examine your kidneys at least twice a year.

YOUNG DAUGHTER MADE WELL

Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound

Vancouver, B.C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for several months and is quite all right now. It has done all it was represented to do and we have had a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have."—Mrs. J. McDONALD, 2847 26th Ave. East, Vancouver, B.C.

From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time. If she complains of headaches, pains in the back and lower limbs, or if you notice a slowness of thought, nervousness or irritability on the part of your daughter, make life easier for her. Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions.

our Continental friends seem to imagine. When she fights she fights. When she is at peace she is at peace. This is not a quarrelsome country. Great Britain prefers peace with her neighbors. But I do not like the way she is being treated as of no account. Is she not? She put forth a gigantic effort. Without her it would have been impossible to secure triumph. And if any peril comes in any quarter again, we will soon forget our disputes."

DRY DOCK OPENING WILL BE BIG EVENT IN CITY'S HISTORY

Prominent People from All Over Canada Will be in Attendance.

Several of the most prominent men in the political and industrial life in the Dominion of Canada have signified their intention of being present at the opening ceremonies of the St. John drydock, the largest of its kind in the world, on Monday, Oct. 29, according to an announcement made by Frank M. Ross, general manager of the St. John Drydock and Shipbuilding Co., Ltd., at a meeting yesterday afternoon in the Mayor's office of the citizens' committee formed to co-operate with the company at the ceremony.

Lord Byng, Governor-General of Canada, and Right Hon. Arthur Meighen, former Prime Minister and present leader of the Opposition, will be present and will speak at the luncheon to be given by the company at Courtenay Bay. E. W. Beatty, K. C., president of the Canadian Pacific Railway, is available, while Sir Henry Thornton, president of the Canadian National Railways, will be one of the guests along with Mr. Beatty will speak at the luncheon.

Other distinguished guests of the day will include Lt.-Col. H. F. Cockburn, Lieutenant-Governor of Ontario, Lieut.-Governor W. F. Todd, Hon. Dr. William Fagley, Mr. Richardson, of Winnipeg, one of the largest grain exporters of the Dominion, Robert Hobson, the steel magnate, General S. C. Mewburn, of Hamilton, Grant Hall, vice-president of the C. P. R., and many others.

To Try to Float in Ship.

His Excellency, the Governor-General, will officiate at the opening and one of the chief speakers at the luncheon will be Hon. Dr. J. H. King, Minister of Public Works. Mr. Ross said that the directors of the company were entertaining at luncheon. The company had prepared an invitation list for this affair and he desired citizens' committee to add to that list. Mr. Ross also told of his plans for the day. It was the intention, he said, to float a ship into the dock, if possible, for the opening ceremony.

On motion of E. A. Schofield, it was decided to form a sub-committee of three on invitations. Mayor Fisher, who presided, appointed Mr. Schofield, Commissioner Wigmore and G. E. Barbour, president of the local Board of Trade.

After considerable discussion on the advisability of appointing a small executive to handle the city's part in the ceremony, it was decided to proceed along the lines originally intended. Several new names were added, namely, Walter H. Golding, W. H. Coleman, R. D. Paterson, Stanley L. Emerson, R. S. Sims, F. G. Spencer, W. E. Scully, M. P. P., H. A. Porter, George D. Ellis, W. A. Lockhart, E. J. Terry and N. P. McLeod.

Great Event in City's History.

It was felt that this was one of the most important events in the history of the port and that more than an ordinary effort should be made to observe the day in a fitting manner, particularly in view of the fact that many distinguished visitors will be here for that day from all parts of Canada. "We must make the best impression possible," declared one member.

The matter of a grant from the Common Council was raised and the Mayor and Commissioners present expressed a willingness to grant a sum sufficient to carry out the plans made by the committee.

May Hold a Parade.

No definite decisions were reached concerning a programme. It was suggested that a parade be arranged and Commissioner Thornton was appointed chairman of this committee. Other chairmen of committees appointed at the meeting were: Motion pictures, W. H. Golding; publicity, T. F. Drummond; transportation, J. C. Chesley; statistics on port business, R. E. Armstrong; schools, R. E. Armstrong; military, Lt.-Col. N. P. McLeod; finance, A. P. Paterson.

Those present at yesterday's meeting were Mayor Fisher, Commissioners Frink, Bullock, Thornton and Wigmore, T. F. Drummond, E. A. Schofield, A. P. Paterson, G. E. Barbour, R. E. Armstrong, C. B. Lockhart and J. C. Chesley.

The committee meets again this evening in the Mayor's office at 7:30 o'clock.

THE BURDEN OF BUSINESS

Canada's industries are burning up. Its wage and production properties are being destroyed by fire. Buildings and products worth millions of dollars are annually reduced to worthless ashes. That is why the people of Canada are paying absurdly high insurance rates.

The insurance companies know all about this destruction of wealth. They pay out huge sums because of it. Mind you, they are not the losers—they make a profit on the transaction. They merely pay out the money we foolishly furnish them with. By carefully constructed tables they can estimate the approximate amount they will require. Those figures enable them to make out the bill.

That bill is rendered with grim regularity. It commences, "Your Fire Insurance Premium is Now Due." And we pay it—pay it to the last dollar, no matter what it amounts to. Every property-owner in Canada is as helpless before the demand as the unarmed wayfarer before the automatic of the thug.

These premiums payments pour into the giant fund that goes to reimburse the sufferers by fire. We pay our contribution because we are afraid that some day we shall need to draw upon that fund. We pay heavily in proportion as the companies estimate that "some day" will be "soon."

Are we going to continue longer in this bondage of fear? Shall the devouring greed of preventable fire rob us further of the earnings of our industry?

Can we stay this tremendous waste of our National wealth?

We Can by Preventing Fires.

MANY ATTENDED LOCH LOMOND FAIR

Annual Event is Pronounced Huge Success From All Standpoints.

The Loch Lomond and Simonds Agricultural Society annual fair was held yesterday at Loch Lomond and proved one of the most successful held in recent years. There was a large attendance. Many of those present were from the city, while the quality and quantity of the exhibits in domestic science, produce and livestock surpassed others of former years. This went to show that the farmers in this district were steadily going forward, it was remarked.

Some idea of the number of people present can be gleaned from the fact that at one time 150 automobiles were counted on the fair grounds and vicinity. The weather was pleasant. Many of those present took great pleasure in viewing the horses while they were being judged, while the judging of the household and domestic science exhibits were taking place in the agricultural building. These exhibits were tastefully arranged, but the building was certainly inadequate to accommodate the immense quantity of produce that was placed in competition.

M. A. Macleod, of the Provincial Agricultural Department, gave a short address while the judging was going on, and also assisted in judging.

William P. Boyle, president of the society, and A. F. Johnstone, secretary, supervised the arrangements, and much of the success attained can be attributed to their untiring efforts.

The Loch Lomond Fair has always been a very popular annual event, but this year is said to have been the best yet recorded.

The judges found their task rather difficult in awarding the prizes as the competition in every department was closely contested.

SENIOR W. A. MEETS.

The senior W. A. of St. Luke's church held its first meeting of the season yesterday afternoon when the president, Mrs. R. P. McKim, was in the chair. Miss Loretta Shaw, Anglican missionary of Osaka, Japan, brought before her hearers most vividly the devastated area in Japan, a society, and A. F. Johnstone, secretary, supervised the arrangements, and much of the success attained can be attributed to their untiring efforts.

WINGED FEET

Mrs. Mary Corday, dancer, with the laurel wreath of royal favor, gained from the Prince of Wales, resting on her brow, returns to America to conquer the hearts of her fellow countrymen.

She Had A Black Feather In Hat

This Tipped Village Wives to Possible Solution of the Mystery.

In a certain exclusive section within an hour of Times Square eleven houses were robbed within the short space of two weeks, says the New York Times. It was during the Summer season when the families were either absent in the country or were away for the day. In each case the loot consisted mainly of small trinkets left lying in unlocked bureaus, drawers, or exposed to view on dressing tables. The total worth of the stolen articles, aside from their sentimental value, did not exceed in any one case more than \$800.

Of course, there was much discussion among the neighbors and the local constabulary was bitterly blamed. One of the victims was a man whose work kept him up until late at night on the day when his house was robbed. He had been aroused about 10 o'clock in the morning by a persistent ringing of his door bell. Finally he rose, pulled on a bath robe, thrust his feet in slippers, and went down to the door, where the buzzer was still busy.

He threw open the door with words of wrath upon his tongue, and was surprised to find standing demurely before him a very pretty young woman. She was clad in sober brown clothing, with a little brown hat decorated with a black feather, which stuck up straight on the right side. The significance of this description will shortly be understood. The man, instead of giving utterance to certain sentences he had hastily phrased, apologized for keeping the young woman waiting and politely asked what he could do for her. She explained that she was searching for Mr. Roger Wilson, a relative, and hoped the man could tell her where he lived. The man could not, though he coughed his brains trying to think of some way of extending help.

Nobody Home.

"So many people are away," said the young woman, "and it is so discouraging to ring bell after bell and find nobody at all home. I am glad I found you at home anyway."

This was said with a drooping of the eyelids, and the man, captivated, said he was glad, too, and added:

"If you had called an hour later I would not be home and the house, like the others you have visited, would have been empty of human souls."

Then he told her all about himself, how the family was away, and how nobody at all would be home in the house again until he returned late at night. The young woman appeared to listen with a distracted air but she murmured some words which sounded like an expression of regret that so fine a man should not have a companion. Then, appearing to think she had said something of too dull a character, she blushed, said "Good-bye" sweetly, and tripped away. The man chuckled and returned to his bed.

After the eleventh burglary had been committed at the village gathering place about the young woman and how lucky it was for her that she was in the house while the thieves were in his house.

"It was the same day I was robbed," he explained, "and maybe the rascals would have injured her if she had interfered with them."

"What kind of a looking girl was she?" asked an elderly merchant.

"Short, kind of plump, round face, brown clothes, little hat, with a black feather sticking up one side of it."

Enlightenment.

The village doctor interposed:

"There was a girl with a black feather fooling around my house the morning of the day I was robbed."

Then came a chorus of exclamations. Why, the girl had been seen loitering around the roads and streets for the last three weeks. She had called at a good many houses for various kinds of information. Sometimes it was an inquiry about some person; sometimes for a direction; sometimes an offer to sell a sewing machine, and sometimes it was something else. Those who were at home when she called did the best they could to help her, and those who were not at home, it seemed, were robbed. A great light dawned upon the gossips.

"By Jove!" exclaimed the elderly man, "I believe she was nothing more than a lookout for the thieves. That is, she found out the houses that were without inhabitants, so her rascally associates would have a clear field."

Later, talks with the constabulary appeared to confirm this, and thereupon the police notified all and sundry that if any other young woman applied for information she was to be detained until a constable could be procured.

The doctor began laughing loudly. Asked what ailed him, he explained:

"Say, remember what that night worker said about it being a good thing she did stick out her head while the

thieves were in his house? How, haw!" Then they all laughed. Now, in that suburban community the settlers are waiting for some young woman in any kind of a dress, but especially one with a black feather sticking on one side of her hat, to call for information. And the constabulary are waiting for a speedy summons to apply the third degree.

WHAT THE CASE DEMANDED

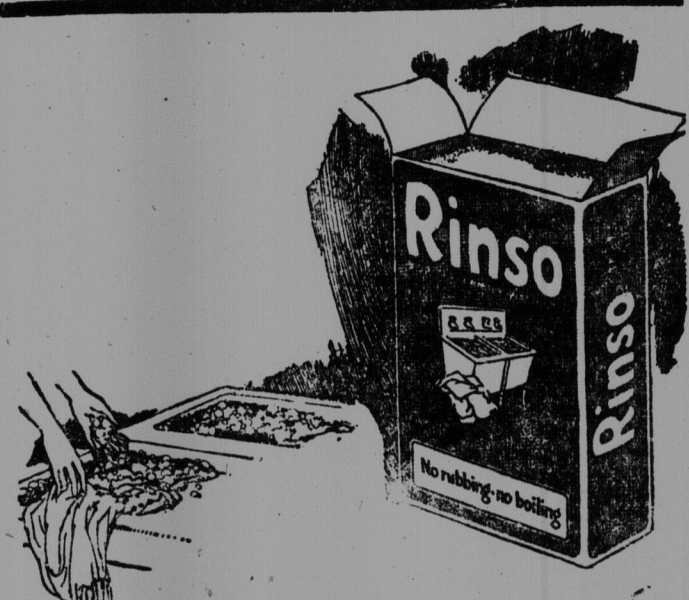

(Boston Transcript.)

Though the action of a Chicago judge may not be taken for a precedent, we think it fitting and human enough to speak of it.

A despatch from that city says that Judge Francis Borelli, while sitting in his court in a bail proceeding, had four worthless bonds given to him. Believing them to be good, he allowed a man accused of four robberies to be released on bail, and it was some time before he found out the imposition.

The other day he went to a Turkish bath, and while there espied the man who had imposed on him. Without more ado, his honor knocked the bail expert down and sat on him until the police arrived. It may be a long time before his example is followed in New England; our bench is more conservative; though by this we do not mean that its members may not use the judicial bath, but they rely more on moral instrumentalities.

Those who can appreciate the justifiable anger of this Chicago judge will feel that he gave the malefactor no more than he deserved and that while his methods may have disturbed before him, they were in no wise soiled. The man who palmed off a worthless bail bond got, as he himself would have said, exactly what was coming to him and we like to picture his anger and discomfiture when Judge Borelli dispensed with formalities and gave

HEARTY RESPONSE FOR HEALTH CENTRE

Many Willing Workers Agree to Assist in Raising Funds.

The response to the call for workers for a tag day has seldom if ever been so promptly and so willingly made as it has been for the Health Centre tag day of this week. The cause is one which has the sympathy of everyone and it is found that the majority of the citizens now realize how great a work the Health Centre is accomplishing. The tag day effort is being planned by the ways and means committee of the Health Centre, of which Mrs. E. Atherton Smith is the convener, and the organization in every particular is being well looked after. The committee met yesterday with Mrs. Smith presiding and the reports of progress which were presented by the various conveners made excellent hearing.

Mrs. Smith is general convener and has as her assistants, Mrs. A. W. Estey, Mrs. J. H. Doody and Mrs. H. Peck. The convener of wards is Mrs. Estey and the various wards are to be in charge of the following sub-conveners: Kings, Mrs. Allan G. McAvity; Queens, Mrs. A. C. D. Wilson; Duke, Mrs. Roy Gregory; Sydney, Mrs. F. E. Holman; Prince, Mrs. Charles Christie; Wellington, Mrs. T. N. Vincent; Victoria, Mrs. J. E. Owens; Dufferin, Mrs. Jean McCarthy; Lorne and Lansdowne, Mrs. H. Usher Miller and Miss M. H. McCloskey; Stanley, Miss T. Whiston and Miss Eileen Ritchie; East St. John, Mrs. William Cooper; Silver Falls and Red Head, Mrs. George Anthony; West St. John, Miss Helen Brittain; ferry boats, Mrs. A. J. Mulcahy; Lancaster, Mrs. Philip Simms; Fairville, Miss O'Brien; Coldbrook and Glen Falls, Mrs. George Cuthbertson; St. Martins, Mrs. A. F. Bentley; Lorneville, Mrs. W. J. Bevis; Ben Lomond, Mrs. Barker, and Rothsay, Mrs. H. O. Evans.

The remainder of the outlying districts will be canvassed by city workers who will go out in automobiles. L.-Col. R. A. McAvity is the convener of the automobile committee and he reported yesterday that he would have ample cars available.

The press and publicity committee members are Thomas Bell, J. S. Gregory and Mrs. J. H. Doody and the publicity work in press and pulpit through posters, displayed in public places, and through slides in the various places of entertainment was reported going on.

The committee in charge of the banks for tag day consists of Mrs. H. H. Fickett and Miss Alice E. Estey.

A NEW IRISH COLLEEN.

(Philadelphia Public Ledger)

"Irish pride should be great in these passing days of 1923. Ireland next month takes her place in the Imperial Council of the Commonwealth of British Nations. She will sit down with the Dominion of Canada, the Commonwealth of Australia, and the Union of South Africa as an equal. She has been unanimously elected as a member of the League of Nations, adding one vote more to the British bloc of six. The Irish have passed through the first general election with credit to themselves. The first year of the Irish Free State has seen amazing progress toward stability. The rebellion has passed and the influence of De Valera and the 'wild men' of the Irish has never so weak and negligible as it is today. Instead of a Noble of Nations, Ireland has become a smiling colleen willing to take the future without bitterness or hostility."

Poor Prospects For Fun.

THANKSGIVING TURKEYS TO VANISH IN 30 YEARS

Chicago, Oct. 11.—Twenty years hence—thirty at most—there will be no turkey for Thanksgiving dinners, no white meat for guests, no drumsticks and gizzard for little Willie and no neck and wings for mother—nothing but a papier mache gobble for a centerpiece.

This gloomy picture was drawn by delegates to the National Poultry, Butter and Egg Association. It is pointed out that in the East and Midwest states, turkey production has fallen off 80 per cent. since the war, and in Texas, the chief source of the Thanksgiving bird, the ranches are being cut up into small parcels.

The chief hope of the United States for the few remaining years of turkey meat, lies in New Zealand, Austria and the British Isles.

RUDYARD KIPLING IS LORD RECTOR

London, Oct. 10.—Rudyard Kipling was installed as Lord Rector of St. Andrew's University today and Lord Haig was installed as Chancellor of the University, Premier Stanley Baldwin, on whom the honorary degree of LL.D., was conferred participated in the picturesque ceremony.

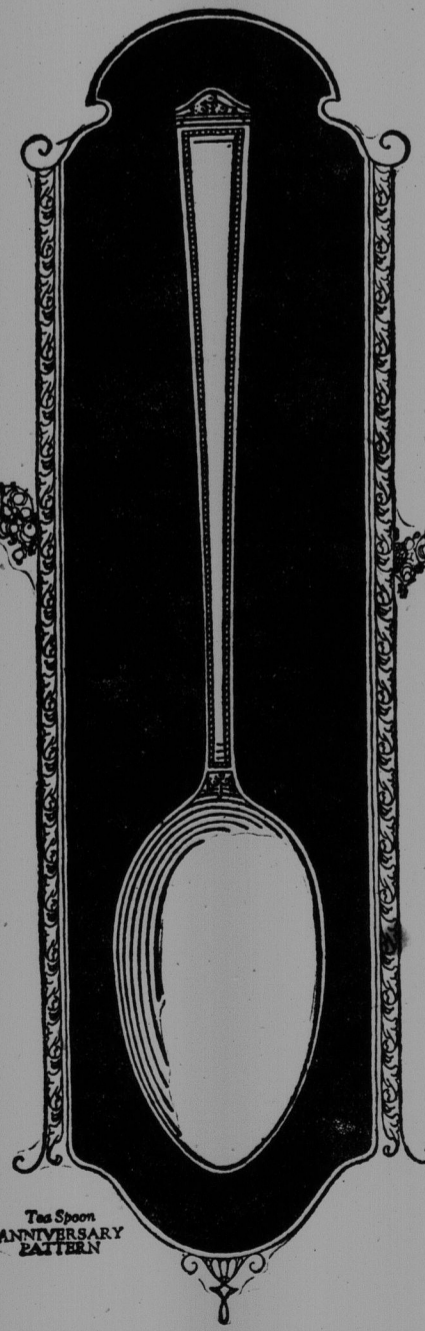

Premier Baldwin arrived at St. Andrews before Kipling. He was escorted by the university students, who greeted him at the railway station to assume the undergraduate's mortarboard and scarlet gown, then he was escorted to the residence of Principal Irvine, who with the Premier, still wearing the scarlet gown, subsequently welcomed the noted author at the station. The students dragged the party in an open carriage through the streets.

DRYDOCK BOOSTERS TO MEET TONIGHT

A special meeting of the citizens' committee organized to assist at the opening ceremonies of St. John's magnificent dry dock on Monday, Oct. 29, will be held this evening in the Mayor's office at 7:30 o'clock and every member of the committee is urged to be present. In view of the importance of the occasion, the Mayor will make history for the two greatest transportation companies in the world, the opening ceremony will make history for St. John and those in charge of arrangements are counting on the hearty support of all citizens. Chairmen's reports will be presented at the meeting this evening.

In the Kitchen

The greatest use for OXO Beef Cubes is in the home kitchen—

—to help you make everyday dishes better.
—to help you to originate new dishes.
—to lighten your work and save your money.

There are hundreds of ways of serving OXO Cubes. Here is what one lady says of seven uses to which she puts them—she gives a recipe for every day in the week.

SUNDAY NIGHT

I often give the whole family a real treat—so easily too. I make a panache better, dissolve two Oxo Cubes in half a gill of water, then beat it into the sauce. The panache looks beautifully brown and the children always ask for more.

MONDAY

I chop finely the remains of the cold meat left from Sunday, season it with salt and pepper, dissolve a Cube or two of Oxo in hot water, add one ounce about quantity, let the mixture come to a boil, pour it into a mould and when cold turn it out and garnish with parsley.

TUESDAY

For four persons, I chop finely six slices of cold meat, add an Oxo Cube dissolved in water, then a small onion minced, a teaspoonful of mustard, and put all in a pie dish, cover with a layer of sliced tomatoes, and sprinkle all over with a teaspoonful of bread crumbs and a small piece of butter. Bake this for three quarters of an hour gives us one of the nicest dishes that we have.

WEDNESDAY

We have breakfast at 7 and dinner at 12:30 and, some days, around 1 o'clock I begin to feel "peckish." I do not like to spoil my appetite by eating between meals. So, I have a nice hot cup of Oxo soup and it invigorating and satisfying.

THURSDAY

If the folks at your house like Curry, make it for them this way. Slice an apple and a small onion and fry in butter until brown. Add two Oxo Cubes dissolved in a cupful of boiling water. Put in a teaspoonful of curry powder, a little chutney or sauce and any dry minced meat you have. Stir together for fifteen minutes on the fire, a bit of rice, and serve with a border of boiled rice around the dish.

FRIDAY

A Welsh Rabbit is always a happy thought. Oxo Cubes make it a gastronomic joy—something better than you have ever known. After you have heated the cheese, add two Oxo Cubes, dissolved in a little hot water. The flavor is delicious and the meat is more digestible.

SATURDAY

Last Saturday we took the train to Mother's. Lucky it was that I got a tin of Oxo Cubes in my satchel. We were delayed for six hours and everybody blessed me—almost, they fell upon my neck in gratitude for I was able to give the hungry ones a satisfactory, something out of bed tea.

Try some of these—your experience will suggest many other ways of using Oxo cubes. You will find them a most economical means of improving home cooking.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

55,000 FANS SEE N. Y. GIANTS TAKE FIRST IN WORLD'S SERIES

Stengel, With Circuit Clout, Breaks 4-4 Deadlock in Ninth Inning.

The New York Giants yesterday vanquished the New York Yankees by a score of 5 to 4 in the first game of the world's series. The game was a sensational one, attracting a record attendance of 55,000 fans, a record witnessed by 25,000 fans, a record attendance. The victory was largely due to Casey Stengel, the Giants' veteran centre fielder, who drove out a home run in the first of the ninth inning and gave his team the necessary margin to win. With two and three on him and two men down he walked into one of "Babe" Joe Bush's fast straight balls and sent it into deep left field for the winning tally.

Fans Are Interested

Local fans apparently are keenly interested in this year's world series as ballparks on the game attracted large numbers in front of Thorne's in Market square and Gimeno's in King street yesterday afternoon. When the Yanks had the score 3 to 0 in their favor, many of the fans thought it was all over but the shouting. But the Giants never lost faith in one of the greatest money teams ever gathered together and when the National League champions scored four runs and went into the lead, great was the enthusiasm displayed. There was a fairly good crowd at the Pythian Castle where a board was in operation. The promoters are considering running the board in the evening.

Meusel, Meusel up. Meusel flied to Stengel. Pipp up. Ball 1, ball 2, Pipp scratched a hit to Frisch. Ward up. Ball 1, strike 1, strike 2, ball 2, Ward fanned. No runs, one hit, no errors.

BOTH WORK HARD FOR TITLE BOUT

McIntyre Keen to Reclaim Crown From Neddler Healey

"Johnnie" McIntyre, of Glace Bay, is working out daily for his championship bout on Monday night with "Neddler" Healey, Maritime waterweight champion, and is showing good form. McIntyre realizes that this bout will be his last chance to win back a title he once held and he is determined to make the best showing possible. Healy is sure to be in fighting trim for the bout, a rattling good contest can be expected. The Halifax boxer is expected here the latter part of the week.

27 TIGERS WILL EACH GET SHARE

Plan for Dividing the World Series Second Place Money.

Detroit, Oct. 11.—Twenty-seven Tigers will divide second place world series money in the American League, it has been announced at headquarters of the local American League club. George Cuthaw, although out of the game most of the season through illness, will receive a full share, as will Earl Whitehill, Birmingham pitcher, who joined the club late in the season but pitched a two-hit victory over Cleveland in the last series with the Indians.

In addition to the players, the club trainer and the club secretary each have been voted a full share.

Indians Vote on Share. Cleveland, Ohio, Oct. 11.—The Cleveland Indians' share of the world's series money will be divided 28 ways. Full shares were voted to Coaches Jack Macallister and Frank Roth, Business Manager Walter McInnes, Trainer Max Wiseman and Louis Guitto, former first baseman, in addition to the players who have been with the club all season. Half shares were voted to Miss Edna Jamison, assistant secretary, and Frank Von Dellen, ground keeper.

Manager Tris Speaker and Leslie Nunamaker, manager of the Chattanooga Club of the Southern Association, have left on their annual fishing trip to Rice Lake, Ontario.

SLUGGED ON EVE OF BOUT IN RING

Milwaukee, Wis., Oct. 11.—Slugged and beaten after being forced to enter an automobile at the point of a revolver, Sailor Friedman, a Chicago pugilist, was severely injured last night that he will be unable to go with his scheduled fight with Pinky Mitchell tonight.

He was found lying in a pool of blood in a gutter a little before midnight.

DIES OF FOOTBALL INJURY. Price McLean of Kentucky University Suffered Fractured Skull.

Lexington, Ky., Oct. 10.—Price McLean, 21 years old, who played center on the University of Kentucky varsity football team, died here last night from a cerebral hemorrhage, the result of a badly fractured skull received in the Kentucky-Cincinnati game at Cincinnati Saturday afternoon.

This is the first fatality ever known in the history of University of Kentucky athletics.

The student was a junior in the engineering college.

BASEBALL. Vance Signs With Robins.

New York, Oct. 11.—Arthur (Dazzy) Vance, the Robins' sensational right-handed pitcher, has signed a contract for the season of 1924, at terms to be a substantial increase over those of this season. Vance, it is said, will now draw down about \$9,000 from Squire Charles Ebbets.

He was the big winner for Wilbert Robinson this season and made new strike-out records. The Dodgers got him from New Orleans in the spring of 1922.

RING. Renault Awarded Decision. Jack Renault, Canadian heavyweight champion, was awarded a decision over Soldier Jones in a ten-round bout staged in Montreal last night.

FOOTBALL. Wanderers Not Coming. The Halifax Wanderers will not play in St. John because of the fact that the best available date for them to appear here would be Nov. 17 and this is not suitable to the local senior team. An effort will be made to have the McGill English rugby team come here.

AQUATIC. Hilton Invited to Attend. Hilton Belyes has received an invitation to attend a dinner in Philadelphia this Saturday, which will be held by the Bachelors' Barge Club in honor of W. E. Garret Gilmour, who won the Philadelphia Gold Challenge Cup from Walter Hoover.

FAMOUS STALLION ARRIVES. Stefan the Great in Good Condition After Trip From England.

New York, Oct. 11.—Stefan the Great, the famous stallion recently purchased in England by Joseph E. Widener, the Philadelphia sportsman, arrived here on the steamship Minnewaska. The son of The Tetrach and Perfect Peach, which is a grey like most of his family, arrived in splendid condition, having stood the journey well. Club Announces Attendance Figures of Home Games This Year.

Cincinnati, Ohio, Oct. 11.—The total paid attendance at the Cincinnati National League Baseball Park this season was 275,275, according to figures given out at the Red's office. Figured on 71 playing dates, the average daily attendance is placed at 3,170.

DONOVAN TO GO TO THE OLYMPICS

Clever Local Boxer Will Represent City—To Leave on Monday.

Louis Donovan, St. John's brilliant young amateur boxer, will leave here next week for Toronto where he will compete at the Canadian trials for the Olympic contests next year in Paris, France. A telegram was received last night from Toronto by A. W. Covey, president of the M. P. B. A. U. of C., that the St. John boy's entry had been accepted and that a certain amount would be granted for expenses. The elimination trials will be held in Toronto on October 18 and 19. It is probable that J. C. Chealey and Elmer Ingraham will accompany the youngster on the trip. They will leave on Monday.

Young Donovan has had a brief but highly successful career in the roped arena. He took up boxing a few years ago, making his first appearance here in the city championships of 1922 at the Armory. He met and defeated Furse, of Moncton. In April of the same year, he boxed in the Maritime championships here, winning an easy decision over McInnis, of Halifax, in a preliminary, and winning by a knock-out in the finals of the 115-pound class from Collins. On December 4 of 1922, he boxed Farrell Britt in the City Hall, West St. John, and won the decision.

This year on January 25, he met and defeated Leslie Britt in one round. He also defeated McInnis again at a meet in the Armory during Carnival Week. In Halifax early this spring, Donovan showed his class by winning the 115-pound Maritime championship by scoring decisions over Cavanaugh, of New Glasgow and Goolery, of Halifax.

Last April, he met Bruce Winchester and won inside two rounds. That was his last bout but since then he has not neglected training but has kept in good condition. He has put on weight and now boxes around 125 pounds, the featherweight limit.

McTigue Will Be Idle Some Weeks

New York, Oct. 11.—Pending the recovery of Mike McTigue from the injury to his left hand, which has troubled him for more than a month, Joe Jacobs, manager of the world's light-heavyweight champion, has announced that he will sign no more matches for the titleholder. Jacobs conferred with Promoter Tex Rickard on prospects for a return bout between McTigue and Young Stribling, Georgia youngster, who received a draw with the champion in the wild bout at Columbus, Ga., last week. Rickard is prepared to arrange a return meeting between the boxers for Madison Square Garden. Jacobs, however, informed the promoter that McTigue's injured hand now is in a plaster cast, which will not be removed for at least four weeks.

U. S. RESUMES HEARINGS AGAINST SOAP COMPANY
Unfair Competition Charges Are Denied by Procter & Gamble in Cincinnati Hearing.

Cincinnati, Oct. 11.—Hearings have been begun on the complaint filed in 1922 by the Federal Trade Commission against the Procter & Gamble Company on the ground that one of its widely marketed brands of soap was advertised and sold in violation of Section 5 of the trade commission act, making it unlawful to engage in unfair competition.

Hearings were held in New York early in June of this year, at which witnesses for the government produced testimony in support of the complaint. Testimony is being offered here by the Procter & Gamble Company in defence, the Federal Trade Commission having in July denied a motion to dis-

Mirrors Brighten the Home

A mirror above your buffet, in the hall or reception room or as a part of the decorative scheme of your living room, will add a decidedly artistic touch to your home.

Many do not realize the attractiveness as well as utility of numerous mirrors, judiciously placed, and a glance at some of those in our stock will prove a revelation.

Naturally a great variety in prices, too.
