As Hiram Sees It

"Me an' Hiram" said Mr. Hiram Hornbeam to the Times reporter, "was talkin' last night about the poor folks that hain't got enough fire to keep 'em warm in wint'rs. I've been livin' the last day or two. She made me go an' had a hand of wood yesterday to a poor feller that's been layin' sick all winter an' he'd mighty little to feed the family on. He say for the folks out for the settlement that they're generally good to a neighbor that they know about. An' they soon get to know. But here in town, a family near door didn't tell it themselves nobody's know. An' Hiram says the hard part of it is that the folks that most deservin' is the ones that don't say a word. They just go hungry an' cold. I ain't worry 'bout it because I know it's the same old story."

IMPERIAL CROWDED IN SPITE OF WEATHER

The Great Impersonation Proved a Most Enrapturing Story—The Skating Meet in Complete Movies.

"The Great Impersonation" is one of the most ideal screen productions ever made by the Paramount people. It is a story of intrigue and international conspiracy and contains some new and out of ordinary situations. The cinematography is admirable. At the Imperial yesterday it overpowered the house.

The novel upon which the picture is based was written by E. Phillips Oppenheim, a leading English novelist. His stories are widely read and his style has universal appeal. All his stories are highly original and his plots are highly original. The story is interpreted by some of the screen's ablest players. James ... a highly exacting dual role, most cult because of the fact that one of the characters is a German and the other an Englishman. Ann Forrest is a young woman and many other favorites in the large cast, including Win-Hall, Truly Shattuck, Bertram ... Alan Hale, Lawrence Grant, Will Burras, Temple Pigott, Cecil ... Fontaine LaRue, Louis Dumas, ... Vroom and Florence Midgeley. The picture represents a fortune in ... the Kaiser's palace, etc. These all particularly effective and include conception of the German war lord's ... where were stored ... and plans of war machines, a ... castle interior, with a lavishly fur ... hall and several adjoining rooms; ... setting which is the replica ... Marie Antoinette's boudoir and many ... interesting structures supposedly ... in various parts of Europe and ...

At the least interesting of the Imperial programme was the complete pictorial of the Canadian skating championships on Lily Lake last week. It consumed more than a whole reel of picture or fully fifteen minutes of programme. The photography was excellent and the skaters, both local and ... were shown first in full close-up, animated portraits and then in the ... There were panoramic views of the crowds and the groups of ... the visiting magnates, the successful and unsuccessful contestants. In ... everything was shown right up to the closing event of the second day. It is a grand record of the historic occasion and will be a valuable addition to all archives. It finally rests there, ... person who saw the races will be ... interested in getting the camera ... of them, and those who were ... able to be present will see them in ... and comfort at the Imperial. ... same programme will be on today.

A bean supper in the schoolroom of St. Paul's church brought to a close an enjoyable evening for St. Paul's Y. P. A. ... night. The evening had been originally planned as "loboggan night," but ... to the intense cold this was abandoned and two parties were formed, one ... skating party and the other remained ... the schoolroom and played volleyball ... o'clock the skaters returned ... a hot bean supper was served, ... the co-operation of Miss Hickson.

MASTERPIECE AT QUEEN SQUARE

Universal Picturization of "Fanny Herself" Gives Life to Small-Town Characters and Events.

Like a terrific storm thundering its way across the country leaving behind it upheaval and change, so does "No Woman Knows" cross the silver screen in a cataclysm of human emotions, struggles, ambitions and sublime selfishness. "No Woman Knows" now showing at the Queen Square Theatre, is a human document brilliantly and artistically expressed. It was adapted for the screen from "Fanny Herself," the powerful and dramatic novel by Edna Ferber, and directed as a Universal-Jewel production by Tod Browning, who here presents to the screen a new and original treatment of a big and appealing theme. "Fanny Herself," the girl of the story, is portrayed by Mabel Jullienne Scott, who thereby achieves a new and high place in the photo-dramatic art. Miss Scott's portrayal of "Fanny" can in no wise be compared with any previous

presentations of portrayals of character on the screen. She has achieved the distinction of standing entirely alone as "Fanny" and of having transcended the barrier of screen silence by the potent power of pantomime and emotional feeling.

As the self-sacrificing sister, who devotes her entire life and all its possibilities to a talented brother, Miss Scott's are in numerous instances reaches unusual heights. With a directness and unaffectedness that can only result from a mental and spiritual understanding of the role, this slender girl becomes "Fanny" translated in terms of the silent drama—the lovable, devoted sister and daughter, who gives all that others may be happy.

Miss Scott is supported by an exceptionally capable cast, including Earle Schenck, Grace Maria, Joseph Swickard, Stuart Holmes, John Davidson, Max Davidson, E. A. Warren, Dick Cummings, Suits Edwards, Denny Hoy, Raymond Lee, Bernice Radom, Joseph Stearns, Dorothy Dehn and Eugenie Forde. "No Woman Knows" is destined to live as one of the truly great screen masterpieces of the present year, a credit to Universal and a forward step for the entire motion picture industry.

The Epworth League of the Fairville Methodist church held a largely attended meeting last night when Robert Scott, the chairman of an citizenship committee, was in charge of the programme and The Canadian Government was the theme. Plans were made for an entertainment in the near future and for a skating party next week.

MORNING NEWS OVER THE WIRES

Among the results of the big storm on Sunday night was the driving ashore of the Gloucester schooner L. A. Dunston, built as a contender for the fishermen's races, which dragged her anchors in Yarmouth harbor and went ashore on the mud flats. At Harberville, N. S., the lighthouse and a few outbuildings were blown down by the force of the wind, which reached ninety miles an hour. At Berwick a number of buildings were blown down. St. Arthur Currie of McGill University has received a letter from Lord Atholstan offering a reward of \$100,000 for the

first college graduate or student who discovers a medical cure for cancer within five years. The decision is to be left in the hands of the Royal College of Physicians and Surgeons, London.

In Fredericton, yesterday, Mr. Justice Barry handed down judgment that the municipality of Queens should pay \$1,427.05, public health assessment. Papers in a similar action against the municipality of Kent have been issued, but not yet served. At a meeting in London last night at which Herbert Asquith and Viscount Grey were the principal speakers the Independent Liberals definitely showed themselves as opposed to the government of Lloyd George. Reuben Bigand was officially acquitted

at his trial in London yesterday on a charge of publishing a libel against Horatio Bottomly in connection with the Victory Bond Club, when the court upheld his plea that the trial be proceeded with. The prosecution offered no evidence, and the judge ordered a formal acquittal. The alleged libel was that Bigand printed a pamphlet characterizing the Victory Bond Club as a swindle.

It is expected that about 200,000 workers in cotton mills in New England and New York states will have their pay cut as a result of a general reduction now in progress. The reductions already published in a great number of mills vary between 12 1/2 and twenty per cent. Representation will be made to the government in Ottawa in an attempt to

have an investigation into the manner in which the ballots were handled in the Wentworth county election of December 6, in which Gordon Wilson, Conservative, was declared elected by 129 votes after a re-count.

Nominations for the new town government in St. Stephen show opposition in only one branch. The mayor is John F. Clark. Councilors are: W. A. McKay, Randall J. Webber, W. G. DeWolfe, M. C. Buchanan, H. C. Purves and W. R. Wall. Assessors: Dukes ward, H. L. King; Hill M. G. Grimmer is opposed by Thomas R. Spreck. Meet me at Bais's Bankrupt Sale Thursday morning. 1-28

HEADS THAT ACHE AND PAIN
 It is hard to drag along with a head that aches and pains all the time. In nine cases out of ten, persistent headaches are due to poisoned blood, the food being rendered impure through some derangement of the stomach, liver or bowels, but no matter which organ is to blame the cause must be removed before permanent relief can be obtained.

BURDOCK BLOOD BITTERS
 which has been on the market for the past forty-five years, removes the cause of the headache by starting the organs of elimination acting freely, and when the impurities are carried off from the system, purified blood circulates in the brain cells, and the aches and pains vanish.

 UNDER THE GREEN-SHADED LIGHT OF THE KAISER'S INNER CHAMBER is a tall athletic figure received from the imperial lips a solemn command to proceed to England, impersonate the missing Baronet, take up his abode with the Englishman's wife, take his hereditary seat at Westminster, in short to hear all, see all and tell all—to Berlin. Because why? Because years before at Oxford two students—identical, personalities—knew one another very well. One was a sport-loving Britisher, the other a man scheming for that day when Prussianism was to crush liberty.
