

STRUCK BY A BOLT OF FIRE

Anglican Cathedral at Fredericton Destroyed Last Night.

Struck by Lightning at Midnight it Soon Burst into Flames—Nothing but Four Walls Left Standing.

Special to The Standard.

Fredericton, N. B., July 3.—A terrific electrical storm passed over the city tonight...

As soon as it was seen that the building was doomed, the people who had gathered...

As the flames enveloped the great edifice the spectacle was awe-inspiring...

The cathedral was one of the most famous specimens of church architecture on the continent of America.

During the fire some roughs assaulted a young miller who was out in his uniform...

At two o'clock this morning the police had arrested 4 of the alderman's assailants.

Rev. Wm. Ketchum in his Life of Bishop Medley gives the following description of the cathedral:

The edifice which is situated at the eastern end of Fredericton, within a short distance of the bank of the St. John river...

The ground plan is cruciform with central tower and spire.

The spire as well as the roof is covered with metal.

The dressings of the doorways and windows are from Caen stone executed in England.

It doesn't take any brains to complain and kick, but it takes hard work and brains to be a constructive man.

Why don't you be a progressive?

THE SHIPPING STRIKE ABOUT ALL ENDED

It Practically Came to an End Last Night And Traffic Conditions Will Now Speedily Become Normal.

London, July 3.—Tonight saw the practical end of the shipping strike, which so far as its international character was concerned...

The strikers have not secured all their demands, but they have obtained substantial victories...

In Hull where the struggle was the most bitter, the strikers were obdurate and riotous...

As the agreement was signed by nearly forty ship owners, gives the union an advance of sixty cents weekly...

These benefits accrue to all the men, whether they belong to the union or not.

Glasgow, July 3.—Serious rioting by the striking seamen occurred here tonight.

U. S. AMBASSADOR WAS THE HOST AT GREAT RECEPTION

London, July 3.—One of the last functions of the Coronation season was the reception tonight given by John Hays Hammond...

The reception during the former's official tenure, but all the days were so crowded that no opportunity was found until tonight.

WELL CALL STRIKE OFF

The Coal Strike in Irwin Field in Pennsylvania to be Called Off After Fourteen Months' Fight.

Greensburg, Pa., July 3.—Although it has not been officially announced, miners delegates to a meeting held here today, to consider calling off the strike in the Irwin field, practically admitted tonight that it was decided to end the strike. There were delegates from 75 local unions of the Irwin field, presided over by President Francis Fochan, of district No. 6, of Pittsburg. The meeting was behind closed doors, but it is learned that meetings will be held by the locals on Wednesday at which the decision of the delegates meeting will be announced and each local will act upon it.

The strike was called 14 months ago and has been one of the most stubbornly fought industrial conflicts in the history of bituminous coal mining. It is said that no concessions have been made by the operators.

THE WORST IN THIRTY YEARS

Continued from Page 1.

St. Louis, Mo., July 3.—For the three hours today the mercury climbed from 90 degrees until at six p. m. the official government reading was 100. The government's street clock reported 100 at the same hour. Eight prostrations were reported, seven o'clock tonight the temperature was 97.

St. Catharines, July 3.—All the moulding departments in different factories closed down this morning owing to the intense heat. Yesterday, today and last night were the worst in the history of this section. The thermometer's highest record yesterday was 99 in the shade. The churches were practically deserted last night. Today business is at a standstill.

New York, N. Y., July 3.—At 2 o'clock there had been 15 prostrations recorded for the day, but the mercury which shortly before noon had touched 98.6 degrees of a degree short of the 3, dropped to 97, in Brooklyn, Eugene Cornell crazed by the heat attempted to stab two policemen and several citizens, was shot dead by an officer.

Philadelphia, Pa., July 3.—The government thermometer registered 99 at 1 o'clock, making this the hottest day since July 2, 1901, when 103 was recorded. Nine deaths have been reported as a result of the heat spell and scores have been treated at the hospitals for prostrations.

Newark, N. J., July 3.—Today was four degrees hotter than any other recorded here since the weather bureau was established. The official thermometer stood at 102 at 3 p. m., while bulbs on the street registered 111 degrees. Eight deaths and scores of prostrations were reported tonight.

Pittsburg, Pa., July 3.—The thermometer was going up all day starting at 4 a. m., when it was 73, and touching the high point of 97 at 3 p. m. Many prostrations and deaths are reported, the list of drowning in particular being a very long one. Many of the mills are beginning to shut down because of the danger of the iron workers collapsing in the unbearable heat.

Cleveland, Ohio, July 3.—The heat record for the summer was broken today when between 5 and 6 o'clock, this afternoon, the maximum weather bureau temperature on a high building was 94, while in the Kiosk on the Public Square a temperature of 104 was registered. A number of prostrations were reported.

Froy, N. Y., July 3.—Today was the hottest July 3 in the history of the city, the thermometer registering 102 degrees in the shade and in the sun the mercury ran as high as 120.

Baltimore, Md., July 3.—The hot weather took hold here today. Three deaths, one of them a suicide, two attempts of suicide and six prostrations were reported as a result of the heat.

Montreal, July 3.—The heat wave which seems to be general all over eastern Canada and the eastern states, reached Montreal today. At the McGill observatory the mercury reached the highest point which it had ever achieved since the establishment of the institution in 1874, registering ninety-five degrees. The average for 24 hours was over 85 and late tonight the heat still continued, the thermometer registering a higher temperature than is usual on ordinary summer days at noon.

Boston, Mass., July 3.—All heat records of the weather bureau were shattered by the heat wave in New England today. Three deaths and more than 50 prostrations were reported in Boston and its suburbs alone, while scores of people in other parts of New England were overcome by sufferings from the intense heat. The White Mountains of New Hampshire, famed for their cooling breezes, offered little relief for at Lancaster and other points the mercury climbed upward until it registered 96 degrees in the shade. At Burlington, Vt., at the weather bureau reported a temperature of 100, exceeding by 4 degrees the highest mark that has been reached previously during the 70 years that local records have been kept.

In Boston the official mark was 102, reached at 3 o'clock in the afternoon. There were two deaths and more than two scores prostrations. Some department stores closed early and many factories shut down at midday.

DAMAGE DONE IN MONCTON.

Special to The Standard.

Moncton, July 3.—This was another oppressively hot day. This evening about nine o'clock a heavy electrical storm passed over the city and considerable rain fell. Some damage was done to wires, and a house on Waterloo street owned by John Weir was struck. Part of the roof was torn off and an electric bolt entered the house, tearing off the plaster in one of the rooms, but fortunately doing no other damage. The storm had the effect of cooling the air considerably.

LADY CONSTANCE CHANGED HER MIND

London, July 3.—Lady Constance Foljambe, a half sister of the Earl of Liverpool, controller of the King's household, astonished society by failing to appear at a fashionable church in London, at the time appointed for her marriage to Rev. A. H. K. Hawkins. The edifice was filled with society people who waited an hour wondering what had occurred to delay the ceremony. When the bridegroom sent a messenger in great haste to the Earl of Liverpool's residence in Liverpool to inquire for her, the reply returned was that Lady Constance "went out shopping this morning and has not yet returned home."

The Earl of Liverpool stated this morning that he had received from Lady Constance a message to the effect that she was quite safe and sound. According to the message Lady Constance left London on a train this morning and had simply changed her mind and decided that she did not wish to be married.

VETO BILL IN THE HOUSE OF LORDS

London, July 3.—The Lords again devoted the whole session of the house to consideration of the veto bill and discussed a number of minor amendments, most of which were withdrawn. The most notable feature of the sitting was the joining of the forces of Lord Lansdowne and the official opposition with the government peers to defeat an amendment proposed by the back-bencher "peer," Baron Richard Willoughby de Broke, which was aimed at preventing the passage of any bill under a provision of the veto bill until it had been submitted to a poll of the people. The amendment was rejected 50 to 17.

WOLFGAST IN MORAN TONIGHT

San Francisco, July 3.—For the first time in nearly thirty years, an international fight for the lightweight boxing championship of the world, will be staged tomorrow when Champion Ad Wolfgang of Cadillac, Michigan, and Owen Moran of Birmingham, England, meet in this city in a twenty round bout.

On the eve of the fight both men are in nearly perfect condition as it is possible for them to be, according to their trainers. Both are well under the 133 pound limit and neither has suffered any loss of strength or speed in reducing to his figure.

Champion Wolfgang has been made a 10 to 6 favorite over the Briton and ring experts predict that he will enter the ring at 2 to 1. Big betters are taking the Wolfgang end, while Moran has a large following among the habitual "short end" players.

BATTING AVERAGES IN BIG BASEBALL LEAGUES

Table showing batting averages for American League and National League players, including names like Hooper, Lewis, Drake, Myers, Barry, Thomas, Lelievre, Hartwell, and Wagner.

Hooper, Bas.66 248 50 80 311 Lewis, Bas.66 248 34 77 310 Drake, Det.28 88 16 15 306 Myers, Bos.35 49 6 15 306 Barry, Phil.43 144 29 44 306 Thomas, Phil.44 139 18 42 302 Lelievre, Wash.50 176 23 53 301 Hartwell, N.Y.58 223 27 67 300

Wagner of the Pirates went to bat 23 times last week, made 15 hits and ran his average up from .235 to .360, which makes him first among the National League batters who have played in 10 or more games. He has made 90 safe hits, which makes him the leader in that respect and makes it likely that he will be the first to reach the 100-hit mark.

General batting in the National League is better, in that there are now 18 men hitting 300 or better and two are within a point or two of the mark, as compared with 14 300 hitters a week ago. The new men are Bates, Schantz, Lamm, McLean, the Red catcher, Jimmy Doyle, the new first baseman of the Cubs, Loebert of the Quakers, and Fletcher of the Giants.

Connie Mack's three catchers, Lapp, Livingston and Thomas, have averages better than .300. The averages: G. A. B. R. H. A. V. As the days begin to steam up and the athletes start warming up to their work, the umpires begin to get set again for the usual flood of oratory and declamation that breaks out with a rush in letting a good strike go.

There are three classes of kickers on the ball field, states the National circuit leader, and these three classes are handled in different manners. "No. 1 is the player who in the heat of battle believes there is a wrong decision and loses his balance on the play."

"No. 2 is the chronic kicker—sometimes known as the 'crab' who is always ready to dispute an umpire's decision, no matter how it may be placed. "No. 3 is the player who rails against an umpire to cover his own bad work, either in letting a good strike go or in missing a runner sliding to a base."

THE PEOPLE WHO ATTEND PRIZE FIGHTS

When the spectators at a fight are disappointed by a lopsided contest they are far from justified in placing the blame on the promoter. That individual is without doubt the most disappointed and disgusted of all. He is more than anxious to stage matches that shall be closely contested and please the fans, for the success of his business depends upon it.

It would also be borne in mind that just as often as a supposed good match turns out to be lopsided, the public is treated to a thrilling go between fighters of apparently widely different calibre.

When Corbett was matched to fight Jeffries in New York in 1909 the Gotham fight fans looked upon the match with great skepticism. In the days of bare knuckle fighting, a majority of fights were pulled off in secrecy under the ban of the law.

How many of the fight fans of today would care to board a train with the thermometer below the zero mark, ride all night in a cold car, travel the country over for hours dodging the authorities and assist in preparing a space of ground for the ring? Would they dig stake holes, drive stakes and make themselves otherwise useful to see a couple of cheap scrapper maul each other with a possibility of seeing the fight end in the first round.

THE PEOPLE WHO ATTEND PRIZE FIGHTS

he gave Jeff the closest call of his career. When about two years ago a Los Angeles promoter staged a 10 round bout between Battling Nelson and Ad Wolfgang, it was regarded as an exhibition affair. Wolfgang was a mere novelty and before the match none would have taken him seriously as an opponent for the Battler. However, the new man proved to be one of the most thrilling 10 round bouts ever pulled off on the coast. Wolfgang made a showing that entitled him to a championship fight with Nelson, the result of which is known to all.

There are as many prizes as blanks among ring contests and the true lover of the game is always willing to take his chance. Sometimes after a shady looking or one-sided fight the fan will declare, "That settles it. No more fight for me, if that's the best that promoter can hand out, it's time to quit." But the next fight, be it a week or a month distant will find the same fan in a ringside seat yelling his lungs out for the favorite.

The present day followers of the many art certainly have it easy compared to those of past generations. In the days of bare knuckle fighting, a majority of fights were pulled off in secrecy under the ban of the law. The character of the crowds that attended such affairs were the toughest imaginable. Concerning the hardships of old time fight fans, the late George Siler, the famous referee, said in one of his writings: "How many of the fight fans of today would care to board a train with the thermometer below the zero mark, ride all night in a cold car, travel the country over for hours dodging the authorities and assist in preparing a space of ground for the ring? Would they dig stake holes, drive stakes and make themselves otherwise useful to see a couple of cheap scrapper maul each other with a possibility of seeing the fight end in the first round."

STR. PARISIAN HELD UP; CHOLERA SUSPECTED. Boston, Mass., July 3.—The steamer Parisian from Glasgow was held up at quarantine today, pending an investigation into the death of a Scotch child on board yesterday. The local doctors believe that the child's condition before death indicates a suspicion of cholera. The ship's physician disagrees. An autopsy is to be held.

The public play grounds on the Aberdeen school yard were also opened yesterday morning and were largely attended.

Miss Mabel Peters, convener of the play grounds committee visited the grounds yesterday morning and assisted in the work.

ROUTINE BUSINESS AT SCHOOL BOARD MEETING

Repairs to be Made to Several Schools During the Holidays—Changes and Appointments in Staffs.

At a meeting of the board of school trustees held last evening in the high school, several matters of importance were disposed of by the board.

The recommendations from the buildings committee regarding the repairs to be made during the vacation were submitted. The recommendations call for extensive repairs in a number of the schools.

Among the other important matters decided upon was the appointment of Guy R. Turner as principal of Douglas Avenue school in succession to John R. McKinnon.

Applications for positions on the teaching staff were received from Miss Cecil Carman, Miss Etta M. Sampson, Marion A. Chesley and Annie E. Parker.

Letters were received from Miss Mary A. Nannery of LaTour school in application of absence granted her by the board.

The recommendations of the building committee re the appointment of janitors was taken up by the board. The report of the committee on the Bell building was referred to the committee.

A committee consisting of the chairman of the board, Supt. Bridges and the high school committee was named to meet the trustees of the Y. M. C. A.

THE NEWCASTLE CHORAL SOCIETY

Annual Business and Social Meeting Held and Presentation Made—Soldiers Leave for Camp in Sussex.

Newcastle, July 1.—In St. James' hall Friday evening, the Newcastle Choral Society, E. A. McCurdy, honorary president in the chair, held its annual business and social meeting.

At the last meeting of the council when this matter was discussed, no definite action was taken. The report of the special committee appointed to secure information from other cities showed that electrical power was obtainable elsewhere at prices so much lower than those offered by the promoters of the N. B. Hydro-Electric that it appeared to be the opinion of the members of the council that it would be superfluous to lay down conditions for the granting of a franchise to this company.

The promoters, however, appear to have hopes of coming to an agreement with the city. No word has yet been received from the Inglewood Fuel Company, which notified the mayor some months ago that it was considering a project to sell electricity in St. John.

THE NEW POWER COMPANY.

To the Editor of The Standard: Sir,—No doubt many manufacturing establishments have, like ours, been approached by the engineer of the new power company, and every one of us would be glad to have some competition. Perhaps the council will get the opinion of the manufacturing community, and if they accept our feeling they will lose no time in making arrangements to get the new company in, rather than have us move across the bridge where there is cheaper power and lower taxes.

LECTOR CONFESSES; SENTENCE DEFERRED

Pleads Guilty to Both Crimes Upon Mrs. Ann Davidson—Charles Fleury Acquitted on Theft Charge.

In the Circuit Court yesterday afternoon Mr. Justice Barry presiding, George Hector, the colored youth charged with attempting to murder Mrs. Ann Davidson, an old lady, and also charged with another grave offence upon her, pleaded guilty to both charges. Sentence was deferred.

Charles Fleury, the young Frenchman, charged with stealing a coat and vest from Richard Whelby, was acquitted and General McLeod appeared for the crown.

Shortly after the court opened at half past two Hector was brought in to court and arraigned. He pleaded guilty to both charges. G. Earle Logan, who was assigned by the court to defend Hector, stated that in view of the nature of the testimony he had advised the colored man to adopt that course.

The case against Charles Fleury was then taken up. Considerable time was lost in procuring an interpreter and it was not until almost four o'clock that the trial commenced. Charles E. Legere, the local solicitor, acted as interpreter. The court assigned Homer D. Forbes to defend the prisoner. The following jury were empanelled to adjudicate the accused: Wilfred C. Day, Sydney Gibbs, Harry E. Green, Robert H. Armstrong, James W. Morrison, Alexander Corbett, William Brodie, Fred E. Law, Walter H. Irving, R. Dominic Hayes, Dodrridge L. Noble and Fred R. Patterson.

For the crown Richard Whelby, the informant, Thomas G. Dwyer, Detective Patrick Killen, Harris and Joseph Gilbert testified. Their testimony was practically a reiteration of that given at the preliminary examination in the police court. The prisoner took the stand in his own defence and denied that he stole the goods and claimed that he purchased them from a Russian for \$3.50. Mr. Forbes in addressing the jury referred to the fact that the unfortunate prisoner was a foreigner unable to speak English and unaccustomed to our laws. He contended that the crown had not made out a case inasmuch as the informant Whelby was not positive that the goods alleged to have been stolen were his, nor as to the date they were stolen.

The Solicitor General followed and briefly reviewed the evidence and asked for a conviction. His Honor then summed up and shortly before six o'clock the jury retired. After being out half an hour they returned a verdict of not guilty.

The case of the King vs. Mary Davidson, charged with murder, will be taken up this morning at ten o'clock. The accused is charged with murdering her infant child. Solicitor General McLeod will prosecute and an imposing array of counsel has been engaged to defend. J. B. M. Baxter, K.C., George S. Shaw, and Homer D. Forbes.

The case will likely be completed late this afternoon.

The Best Quality at a Reasonable Price

Eyeglass Economy

Doesn't mean buying your glasses at a bargain counter nor at the place where you can get them a few cents cheaper—unless you know absolutely that the glasses you buy are exactly what your eyes require. The value in eyeglasses is not in the intrinsic worth of the pieces of glass and the bits of metal of which they are made, but in the exactness of the combination of these parts to properly correct the defects of the eyes and to produce the desired results in relief from eye strain or in improved vision.
