SATURDAY MORNING, MARCH 21, 1914

PROBS—FAIR

PRICE TWO CENTS

## NEW RAILWAY ACT PROVIDES FOR SEVERAL SWEEPING CHANGES

Scope of Railway Commission's Powers Very Considerably Extended.

INTRODUCED IN SENATE YESTERDAY.

Can Suspend Tariffs Pending Inquiry, Prohibit Railways Where Not Serviceable, and Will Have Jurisdiction Over Telegraph and Telephone Companies.

Special to The Standard. Ottawa, March 20.—The proposed new railway act, one of the most important measures of the session introduced in the senate today. Not only does the measure provide for more complete regulation of railway matters and provisions for regulation by the railway commission, but also extends the act to a number of questions other than purely railway matters, including express business, telegraphs, telephones, power and electricity, and traffic by water between ports in Canada when carried by railway companies. A clause is added to prevent evasion of the board's control over traffic rates, etc., where companies acquire control of and operate railways standing nominally in the name of non-dominion companies. Provision is made for applying the act and the authority of the railway board to railways in insolvency or under mortgage or receivership.

Formerly there was considerable difficulty over this question. The new act gives the board power to submit questions of jurisdiction to the supreme court with a view to more speedy determination and to avoid expense to litigants. Provision is also made for more quickly dealing with appeals generally.

Stock and Bond Issues.

One of the most important clauses in that relating to stock and bond issues. It is provided in the bill that hereafter the issue of stock, bonds and other securities by railway companies shall be subject to control. Leave may be obtained from the board before an issue of stock, bonds or other securities payable more than a year after date or issued otherwise than solely for money consideration can be made. The board is given power to impose terms and conditions respecting such issues and may refuse leave or may limit the amount to which it is satisfied is reasonable and proper. The board is also given power to see that the proceeds of any such issue are properly applied and duly accounted for.

The act is being amended so as to give better control by the board of the sale, lease and amalgamation of railways and the provisions for lapse of right if construction work authorized is not proceeded with are made more complete. Changes are also being made with respect to the regulations governing location of railway lines and the cutting up of cities, towns and highways. It is now provided that the board, instead of the minister, shall pass upon location of railways. Wider powers are also given to prevent unnecessary and injurious duplication of railways and railway rights of way. The board may refuse permission to construct a new railway where it will not be useful to the public or may compel different railways to run over one right of way by putting down extra tracks or getting running rights over existing tracks all (Continued on page 11)

## HOPE TO SAVE WATERLOO SITE

Meeting Held to Prevent Belgian Speculators Buying Historic Battlefield to Put up Buildings.

London, March 20.—In view of the centenary of the Battle of Waterloo to be held next year, Belgian speculators are planning to erect buildings on the most interesting portions of the historic battlefield.

To prevent this a meeting was held Friday at Apsley House, the old residence of the Iron Duke and now held by the present Duke of Wellington, who invited English people to co-operate with the Belgian committee and outbid the speculators.

It was explained that the Belgian government had agreed to introduce a bill whereby the battlefield would be preserved to posterity.

Fifty thousand dollars is needed as compensation; of this amount \$40,000 has already been subscribed. A general executive committee has been appointed composed of Lord Roberts, Duke of Wellington and Sir Lubbock.

## Reorganization of C.N.R. May Be the Outcome

Government's Probe Into Canadian Northern's Affairs Before Aid Will Be Considered, Will Be Searching—Liquidation Might Result in National Financial Panic.

Special to The Standard. Ottawa, March 20.—It is anticipated that one outcome of the present investigation which the government is conducting into the affairs of the Canadian Northern Railway will be the complete reorganization of the C. N. R. system. It is believed that the various subsidiary and interlocking companies will be consolidated into one big company and the whole method of financing of MacKenzie and Mann will be put on a new basis. It is doubtful if any assistance will be given until such takes place. There are many members who believe that it will mean the partial elimination at least of the present dominating personal influence in the management, namely, Sir William MacKenzie and Sir Donald Mann.

What the government fears most is that if the MacKenzie Mann system is forced into liquidation a national financial panic would be certain. Therefore every effort possible will be made by the government to avert such a crisis. Before anything definite, however, is done there will be another Conservative caucus. The demands of the government may be summarized about as follows: 1.—Searching investigation of the company's affairs. 2.—Information as to the proceeds of past bond guarantees. 3.—Examination and appraisal of entire system, meaning probable reorganization. 4.—Agreement for interchange of traffic with the Canadian Northern and Intercolonial.

## OPPOSE AID TO IRON AND STEEL INDUSTRY

Delegation from Dominion Council of Agriculture and United Farmers Waits on Premier.

Ottawa, Mar. 20.—A deputation representing the Dominion Council of Agriculture and the United Farmers of Ontario as organized yesterday at Toronto waited on Premier Borden and Finance Minister White today to enter a protest against what is said to be the intention of the government in granting of the assistance to the iron and steel manufacturers either by way of bounties or by way of the imposition of a duty on pig iron, iron rods, billets, bars or other steel products. The deputation pointed out that the farmers of Canada had already more than expressed their hostility to any further protection on iron and steel or to the removal of bounties which expired in 1910. The resolution passed at Toronto yesterday along this line by the farmers from all parts of Ontario gathered there, was presented to the government. A special protest was made against a proposal to put a duty on fence wire, which is now on the free list. It was urged also that by bounties the iron and steel corporations, these later would practically be in a position to wipe out all competitors in the manufacture of wire-fencing and would undoubtedly form a combine and raise prices to the farmers.

Hon. W. T. White told the deputation that a proposal had been made to the government for a bounty of one dollar a ton on iron ore but he gave no indication as to what the government's intentions were in regard to that proposal. The Premier and the Minister of Finance promised the deputation that their representations would be given full consideration before any tariff changes were announced.

## Nfld. Sealing Fleet FIND LARGE HERD

One Vessel Reports Fifteen Thousand—Gulf Fleet Among the Seals.

St. John's, Nfld., March 20.—The sealing fleet found the seal herds yesterday. The steamer Beothic reports for 15,000; Stephano, 10,000; Nascopie, 8,000; Florio and Bella-venture, 6,000 each; Bonaventure 2,000 and the Eagle 1,000. The Adventure has just reached the vicinity and the other ships are unreported. The gulf fleet is among the seals. The Erik reports 14,000 but the catches of the others have not yet been reported.

## KINGSTON CADET KILLED IN EIGHTY-FOOT FALL

Kingston, Ont., Mar. 20.—Cadet Gilbert S. Fry of Montreal, aged nineteen years, while climbing the water tower on the Royal Military College grounds this afternoon fell to his death, a distance of eighty feet. This is the third fatality at the college within a year.

## PREMIER BORDEN CALLS FREE PRESS STORY TISSUE OF FALSEHOOD.

NEW GOVERNMENT BUILDINGS AT CAPITAL.

Departmental Building Ottawa Where all Departments Can Be Centralized—Insurance Bill Gets Third Reading.

Special to The Standard. Ottawa, Ont., Mar. 20.—So many false and malicious reports of the Conservative caucus which took place on Wednesday have appeared in the Liberal newspapers throughout the country that the Premier today was compelled to take notice of them. He singled out for castigation the Ottawa Free Press but similar reports have appeared in a number of Liberal newspapers, particularly in the Maritime Provinces. "I would like to say," said Mr. Borden, "that my attention has been directed to the issue of the Ottawa Free Press of Thursday, March 19, which contains what purports to be a report of a caucus of Liberal-Conservative members of parliament on Wednesday last. The statement contained in the report is a gross misstatement of the facts. Conservative members were held on that day in correct, but apart from that, the report that a caucus of falsehood from beginning to end. I would like to observe further that those who are admitted to the precincts of the Press Gallery for the purpose of reporting the proceedings have certain responsibilities as well as certain rights. Among these rights the practice of deliberate mendacity is not included."

## SUPPLEMENTARY ESTIMATES ARE TABLED

Total of \$3,194,464—Three Millions For Ordinary Cost of Administration.

Ottawa, March 20.—Finance Minister White tabled in the Commons supplementary estimates, totalling \$3,257,036, for the current fiscal year. Of this total \$3,194,464 are chargeable to consolidated fund account or for the ordinary cost of administration. The additional amount required for civil government is \$95,572; for arts and agriculture \$83,900; for immigration, \$235,973; for militia and defence, \$33,975 including \$99,000 additional for the Dominion arsenal, and \$109,000 additional toward the completion of armories; \$264,294 for public works, including \$96,000 for improvements to Rideau Hall; \$135,000 for the naval service, for the patrol of the northern waters of Canada, including the Stefansson expedition; \$70,000 for the Royal North-west Mounted Police; \$20,000 for expenses under the Canada Temperance Act; \$20,000 for the enquiry into the affairs of the Dominion Hotel Company, and \$600,000 additional for salaries in the outside post office service.

Hon. Rodolphe Lemieux asked whether the government had bought the Carleton Hotel property near Bonaventure Station, Montreal, for a postal station. The deputation pointed out that the property was under expert consideration by the government.

Hon. Robert Rogers made a statement in regard to the new government buildings, stating that a departmental building, and one for the supreme court would be the first, to cost \$2,000,000, the land to cost the same amount; and that all departments at present scattered throughout the city would be assembled therein.

Ottawa, March 20.—When an item for \$15,000 for additions to the rifle range at Halifax was reached, Fred Pardee, chief Liberal whip, quoted a Montreal Star cable that an announcement had appeared in the Yorkshire Post that Col. Hughes had given assurances nothing would be done to prevent the departure from Canada of a first contingent of Canadian volunteers for Ulster, who would leave Canada for Belfast in May next.

Hon. Robt. Rogers said that Mr. Pardee had assumed too much from a mere newspaper statement. He should have waited to get an explanation from the minister himself. He was surprised that the opposition members should take a report in a newspaper so seriously. They were crediting statements which every one knows the minister of militia would not make. He agreed to let all items relating to the militia department stand, remarking with a smile that he would undertake to see that Col. Hughes was in the House when they were again brought up.

On a vote for an armory at Amherst Mr. W. E. Nesbitt, of Oxford, protested against the large sum being spent for armories in Canada. "Canada is not a military country," he said, "and it is absurd to have an armory in every small town." The item was allowed to stand and Mr. Rogers promised to bring down further information in regard to the vote.

## STEAMER EARL GREY RETURNS DISABLED

Quebec, Mar. 20.—The Canadian steamer Earl Grey, which was cutting at the ice bridge above Port Neuf, returned to port this morning with her propellers out of order. What the

## WILL RESTORE WASHINGTON HOMESTEAD

Joint Peace Centenary Committee Acquires Ancestral Home of First U. S. President—Statues for Lincoln and Washington.

New York, Mar. 20.—Members of the executive committee of the American Peace Centenary Committee met at luncheon here today to hear the report of their chairman, John A. Stewart, who returned yesterday from Europe. Mr. Stewart conferred with the British and Belgian committees regarding the programme of the celebration of the centennial of signing the Treaty of Ghent, which consummated peace among English speaking nations.

Mr. Stewart said that Sulgrave Manor, the ancestral home of Geo. Washington, which had been acquired by a board representing the joint committees in charge of the centenary would be restored to its former state. One purpose of such a society or institution to take charge of the place whenever a sufficient permanent endowment for the purpose may be secured. One purpose of such an institution, said Mr. Stewart, would be to foster friendship and prevent misunderstandings among nations.

Mr. Stewart reported that sites for statues of Washington and Lincoln in London would be chosen near the scenes of great historical events when America was a British colony. Sir Edward Morris, premier of Newfoundland, was the committee's guest at today's luncheon.

## U. S. CHARGE IN MEXICO MAY RESIGN O'Shaughnessy Admits He May Give Up Post—Says Ill Health the Reason.

Mexico City, March 20.—Mr. O'Shaughnessy, United States charge d'affaires, admitted today that he was seriously considering the question of resigning. He says, however, that if he does resign it will be because of his bad state of health.

Some wonderment has been aroused here by the knowledge that Mr. O'Shaughnessy will be accompanied to Vera Cruz by Thomas B. Hohmler, British charge d'affaires here. Mr. O'Shaughnessy denies any knowledge of a conference between John Lind, personal representative of President Wilson, and Fortillo Yrojas, the Mexican foreign minister.

## THE POTOMAC'S CREW IN DANGER

U. S. Naval Tug Has Been Carried Off Shore in Ice Pack and Chance of Helping Those Aboard Grows Less.

Curling, Nfld., March 20.—The United States naval tug Potomac, which was boarded yesterday by a salvage crew of six men after drifting in the Gulf of St. Lawrence for six weeks, was swept by off-shore winds today into a position of danger for both vessel and crew.

The Potomac tonight was twelve miles northwest of Koppel Island, off Ingonichs Bay, still fast in the drift ice that packs the gulf. The crew sent by the American consular agent, Gould, found her tubes broken so that it was impossible to get up steam. A snowstorm was approaching and the ice was considered an active menace.

Should the wind continue southeast the tug would be driven still further off-shore and assistance for those aboard would be impossible. It was thought the salvage crew might decide to abandon her. Since she was abandoned by the naval crew, the tug has drifted with the ice about 80 miles.

trouble is not known, but a diver will be sent down in the morning to ascertain. It is supposed that some of the blades of her propellers are gone, as the vessel steers badly.

## ARMIES IN IRELAND PREPARE FOR EMERGENCY

HOUSE SPLIT SESSION ON INQUIRIES

Premier Ill With La Grippe—Opposition's Questions Took Up Most of Day.

Frederick, N. B., Mar. 20.—The Legislature this afternoon spent most of their time listening to another bunch of opposition enquiries on various subjects. Attorney-General Clarke led the house, Premier Fleming being laid up with an attack of la grippe. The house met at 3:05 p. m.

Mr. Baxter presented the report of the standing rules committee. Mr. Prescott presented the petition in favor of a bill to incorporate the Albert Hall and Park Association. Mr. Guthrie presented the petition of the city council of Fredericton in favor of a bill to incorporate the town of Alhurst and a paper and pulp industry to be established in that town. Mr. Guthrie introduced a bill to incorporate La Cie d'Impression de Madawaska, Ltd.

The house went into committee with Mr. White (Carleton) in the chair, and agreed to the bill to amend the act incorporating the Albert Manufacturing Co. Ltd. with amendments. Mr. Munro presented the report of the municipalities committee.

Hon. Mr. Clarke presented the report of the law committee. Hon. Mr. Clarke said that Dr. Robertson, who was announced to address the Legislature this afternoon, would be unable to do so, but would speak in the Opera House tonight.

Hon. Mr. Clarke moved that the third reading of the bill to amend a clerical error in the municipalities act be rescinded and the bill be referred back to the committee for re-consideration. The house went into committee with Mr. Dickson (Kings) in the chair, and agreed to the bill to provide for the extension and improvement of the Fredericton water supply system, with amendments. Also the bill to legalize the crossing of Protection street, St. John, by the grade conveyer of the C. P. R. and to give power to the city to permit the construction of overhead structures on any of its public streets, with an amendment.

The house adjourned at 4:55 p. m. until 8:30 p. m. Monday.

## AMHERST RINK LOST BY FIRE

Burned to Ground Last Night After Hockey Match—Built Twenty Years Ago.

Amherst, N. S., Mar. 20.—Aberdeen Rink, the scene of many a hard fought hockey match, is now but a pile of ashes. At twelve o'clock tonight an alarm was sounded and almost instantly the whole building was a mass of flames. Just how the fire occurred is not known. A hockey match was in progress about eleven o'clock and the probabilities are that the fire was from the dressing room. Aberdeen Rink was built something over twenty years ago. The rink was eighty by 175 feet. There was \$5,000 insurance on the building.

## GUILTY OF AIDING BANDIT IN HIS ESCAPE

Winnipeg, Mar. 20.—The jury this afternoon at the Assize in the Hazel Westlake case returned a verdict finding Percy Hazel and John H. Westlake guilty on conspiring to release John Krachenko from the city jail, where he was confined pending his trial for the murder of H. M. Arnold. On the second indictment the jury returned a verdict finding each of the accused guilty of aiding Krachenko to escape. The maximum penalty in each indictment is seven years in the penitentiary.

Each prisoner took the verdict cool.

Troops All Along Ulster Border Were Moving Yesterday.

LEADERS ON BOTH SIDES URGE CALMNESS

Two Special Trainloads of Soldiers Left Dublin For the North and Others Getting Ready to Start.

London, March 20.—"War in Ulster" is the startling headline which the sensational London newspapers are displaying in the blackest type. The government began today to dispose of its regular troops in Ireland so that they may be in a position to deal with any situation that arises. The cooler men among the Loyalists and the Ulster Unionists, however, believe that nothing resembling war is yet in sight.

The Army Council some time ago considered the possibilities of home rule strife and instructed Lt. General Sir Arthur Pelly, who commands the British troops, to take all possible precautions to maintain order and safeguard property. A general redistribution of the forces in Ireland therefore was begun today. Two regiments were sent from the south to reinforce the Ulster garrisons, while the troops in Ulster were moved to new stations in conformity with the custom that in the event of hostilities rising soldiers should not be compelled to encounter people with whom they had formed friendships. In pursuance with the same rule some Irish recruits were sent from the Armagh recruiting station to England. The possibility of a collision between the British soldiers and the Ulster volunteers resulting from the super-heated political feeling are recognized, but the leaders on both sides are trying to exert a pacific influence. John Redmond, the Nationalist leader in parliament, today telegraphed the Nationalists in Belfast an urgent appeal to abandon a parade arranged for Sunday in London which it was thought would likely result in rioting. Sir Edward Carson, the Ulster leader, by the members of the Ulster Council invoked calmness at the part of the volunteers.

Four cabinet ministers spoke of the present situation at cabinet meetings tonight. John Burns, president of the local government board, in an address on the occasion of the unveiling of his portrait in the National Liberal club said: "Home Rule is a question mainly for Ireland itself. Three-fourths of the people there have demanded it persistently for years, and we have no right to listen to the demand for more concessions or yield to it. We say no more desire to yield to lawless lawyers than to lawless laborers."

Troops Leave for North. Tonight troops were moving all along the Ulster border. Motor cars with despatch riders sent from Belfast Thursday to volunteer headquarters returned today. It is believed they carried orders directing for a quick mobilization of the Orange forces if they should become necessary. Two special trains left Dublin carrying troops to the North, and others are preparing to start, while provisions are being got ready.

Col. Dacourt, military correspondent of the London Times, says the 110,000 men enrolled in Ulster are in the flower of their age and of excellent physique. Decentralization by being the system of organization. Each county forms a separate unit. There are 64 battalions of which there are 18 in Belfast. The volunteers have 400 motor cars, 200 motor cycles, and a complete system of communication by flag, lamp and heliograph. Fifty thousand rifles, according to Col. Dacourt, have been distributed in parcels, each containing five to selected men, so that wholesale seizure of the weapons would be impossible.

## OUT OF BAL, KILLS HIMSELF

Prisoner on Parole Slashes Throat With Razor.

Hamilton, Ont., Mar. 20.—James Gow, prominent business man on parole on a serious charge, committed suicide here this afternoon by slashing his throat with a razor.

Gow shook like a leaf yesterday after being admitted to \$2,000 bail. He rested uneasily last night and walked the hall today like a man who had a tremendous load on his mind. He ate at his dinner and then went back to the corridor where he paced up and down. He suddenly turned into his room and then slashed his throat.

Gow was separated some time ago from his wife, who now resides in Buffalo. She sued for alimony and got an order.

# NEW ELEVATOR AT SAND POINT MAKES CHARGES AGAINST ASS'T CITY CLERK

## But Eight Permanent Spouts Remain to be Placed and all will be Complete—Expenditure of Over \$600,000—Move Grain by Up-to-date Machinery.

But eight permanent spouts now remain to be secured and placed in position to complete the towering C. P. R. elevator on the West Side. The contract in the hands of the J. S. Metcalf Company calling for an expenditure of over six hundred thousand dollars has been practically, if not really completed, but the C. P. R. with their usual foresight to save time and labor have arranged for the securing of permanent, rather than portable spouts and delay in completing the work is only caused by waiting for the shipment of these parts. From an employment list of seven hundred during the busiest days of construction there has been a gradual decline until now only fifteen men are working. When the spouts arrive these men will be put to work in placing them and the contractor will then be able to complete the work in about six weeks' time.

A towering edifice on the water front, the elevator now stands completed. Through the kindness of F. F. Burrows, C. P. R. engineer in charge of the work, a Standard reporter was yesterday afternoon shown through the complete plant and this is a description of the elevator as he saw it. Disconnected from the elevator building itself is a structure in which is located the engine and boiler rooms. Two turbine generators have been placed in the engine room and in the boiler room are four 125 horse power boilers. All within the rooms is first class.

From electric apparatus in this building the appliances in the elevator are operated there being no belt whatever and consequently no danger to workmen.

A Mass of Machinery  
From this the reporter was shown to the main elevator building and after casting a casual glance at the towering 220 feet of reinforced chimney he was taken among the intricate net of machinery.

Half Way Up.  
Here the observer is half way up the height of the towering structure and a particular point is reached where all above the construction work is of iron and corrugated steel, while all below, reaching beneath the ground, is constructed of reinforced concrete.

A Big Building.  
The building above the ground reaches 200 feet high and extends below twenty to thirty feet, varying in different sections. In all there are 171 bins for storing grain.

Buckets Move Grain.  
A separate motor operates each leg

# It Is of Interest To Every Woman How Dodd's Kidney Pills Cured Mrs. Lance.

## Pembroke Woman Suffered for Fifteen Years Before She Found Quick Relief and a Complete Cure.

Pembroke, Ont., March 20.—(Special.)—Of peculiar interest to women is the story of the cure of Mrs. Lance, well known and highly respected here. Let Mrs. Lance tell that story in her own words.

"For about fifteen years I was a very sick woman," she says, "my sleep was broken and unrefreshing and I had a bitter taste in my mouth in the morning. I was often dizzy and flashes of light floated before my eyes. My limbs were heavy and I had a dragging across the loins. At last Rheumatism was added to my troubles and I also suffered from dropsy. I was unable to walk and I had to be carried in a chair. I felt that my kidneys were the cause of all my troubles and decided to try Dodd's Kidney Pills. From almost the first they did me good, and after taking twelve boxes I am again a well woman."

Women who suffer should learn that the cause of their troubles is bad kidneys. Having learned that, the rest is easy. Thousands of Canadians will tell you out of their own experience that Dodd's Kidney Pills always cure bad kidneys.

# NO NEED TO BE BACHELOR

London, March 21.—At a meeting of the East-End Board of Guardians held yesterday the chairman announced that in response to a letter from a Canadian chicken rancher, with an income of \$2,000 per year and who wanted a wife, no fewer than 244 replies had been received from girls willing to go to the Dominion of Wales. The replies were sent, and will be forwarded to the rancher for consideration.

# SHIPPING CONFERENCE ADJOURNS AGAIN WITHOUT DISCUSSION

London, March 21.—The shipping conference which has been holding its deliberations at Berlin this week, again adjourned without reaching a satisfactory conclusion. Claims and counter claims, with many reservations, were made all of which necessitate further time for consideration. Hence the adjournment made till May 1st.

# SHORT COURSE IN POULTRY

(The Journal of Agriculture and Horticulture.)  
Every effort is being made to make the Short Course in Poultry, to be held from February 16th to March 6th at Macdonald College, of the greatest possible value. The course will extend over three weeks and will be devoted entirely to poultry and allied subjects. In the study of any subject the greatest good is obtained through practical experience. Hence in the poultry course much practical work will be done. The course will be held in the new elevator and this has been shipped out from time to time.

# BORN.

McINTYRE—To Mr. and Mrs. G. C. P. McIntyre, 29 Dorchester street, a daughter.

# Horticultural Departments.

These departments have kindly consented to give a series of lectures on various phases of agriculture which are related to the poultry industry.

Prof. Kilneck will lecture on "Soils and Crops and Poultry," while Prof. Bunting will discuss various phases of the fruit business from the standpoint of the poultryman.

Throughout the course social functions will be provided in the evenings. This is a splendid opportunity for all interested in poultry to learn much at little expense.

Application should be made early for information and particulars address: The Principal, Macdonald College, Que.

# POLICEMAN FOR COUNTY OF SIMONDS

## Reached Decision after Losing First Motion—Need Mounted Officer, Says the Council.

The county council at its meeting yesterday decided to appoint a mounted policeman for the Parish of Simonds, and ask the legislature to pass a bill permitting an assessment for police protection on the people within the district patrolled by the policeman.

A number of petitions were read, asking for police protection in the Parish of Simonds. Coun. Carson urged the appointment of a mounted policeman. A man on foot could not look after the road houses on Golden Grove road, and patrol the other districts.

A voice—There are no road houses now. Coun. Carson—We don't know when they will come back. A good policeman might keep them out.

Coun. Shillington moved that a mounted policeman be appointed. Coun. Agar thought each locality should pay for its own police protection. Coun. Shillington—We don't need police protection from county men. It is protection from the city people we need.

Frank said there was a district of the city, having a population of 15,000, without a policeman at night. Why should the citizens of St. John be asked to pay for a policeman in Simonds when they needed policeman themselves. The other night he had been awakened by the sound of breaking glass. He felt a burglar was breaking in somewhere, and not knowing where to get a policeman he could only get up and turn on all the lights and keep watch with a revolver.

# SLUSH AND RAIN

You should not mind when you can buy Men's rubbers, for 49c. Ladies', 37c. Misses', 32c. Children's, 28c. Infants', 24c.

At Bassett's, 207 Union street, Opera House block, and 14 Charlotte street.

# Win Prizes.

In the New Brunswick Motor Car contest on Thursday night, the ladies' prize, a five pound box of chocolates, was won by Mrs. Frank Peters; the gentlemen's prize, a mallet cross inner tube, was won by Gordon Lillie; ticket No. 516. Friday night the ladies' prize was won by Miss Connelly, and the gentlemen's prize by Dr. A. B. Toakley, ticket No. 6471.

# "Never Mind" what other grades of Tea you may have been accustomed to the use of, TRY—

## 25c Per Pound 25c

Never before in your Tea drinking experience have you been able to get such extraordinary good quality and value for in any ways approaching the price.

Clean—Fresh—Fragrant  
No Dust—No Dirt—No Stems

Preserved and sold only in sealed lead packets. Your Grocer has it—or will get it for you. If not, write direct to "Salada" Montreal, and we will see that your wants are supplied.

Other Grades of "Salada" are sold at 30c, 40c, 50c, 60c Per Pound, and all of Matchless Value for prices charged.

# U. S. SENATE TO TAKE UP EXEMPTION REPEAL BILL LATE NEXT WEEK

Washington, Mar. 20.—Consideration of the bill to repeal the toll exemption provision of the Panama Canal Act will not be undertaken by the Senate Committee on Inter-Oceanic Canals until late next week, despite efforts of Democratic senators who favor the repeal to hurry action. This decision was reached today by Senator O'Gorman, chairman of the committee after an informal conference with some members of the committee and Representative Knowland of California, one of the most aggressive of repeal opponents in the house. The effect of the decision will be to postpone any consideration of the toll exemption repeal by the Senate Committee until after the house has voted on the issue.

# LATE SIR GEO. ROSS LEFT SMALL ESTATE

## Will Shows Property Amounted to Only About \$55,000—Widow and Family Beneficiaries.

Toronto, March 20.—From the will of the late Sir George Ross, which has been admitted to probate, it appears that the estate left by the deceased senator amounted in all to a total of \$55,000. This sum includes the life assurance value of the estate left by the deceased senator amounting in all to a total of \$55,000. This sum includes the life assurance value of the estate left by the deceased senator amounting in all to a total of \$55,000.

# For Freckled, Rough or Spotty Complexions

The freckling, discoloring or roughening to which delicate skins are subject after exposure to wind or sun, often appearing in early spring, may readily be gotten rid of. Mercolized wax, spread lightly over the face before retiring and removed in the morning with soap and water completely peels off the disfigured skin, and gets a course of the wax at any drug store. There's no more effective way of banishing freckles or other cutaneous defects. Little skin particles come off each day, so the process doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful face. Bathing the face in this produces a truly marvelous transformation.

# Ice Moving Out.

The rain and mild spell of recent date has tended to loosen the ice in certain sections of the river and yesterday the ice had moved away and open water was shown along the other side of the river below Baywater. It is expected, however, that the cold weather will bring give the river a firm coating of ice.

# To the Electors of the City of St. John:

After matured consideration, and also after a delegation waited upon me, asking me to become a candidate for Commissioner in the coming Civic Election, I have decided to enter the field.

Further announcements will be in the papers from time to time as I cannot interview all the electors personally. I would ask them to kindly consider me in the coming fight, and to give me their support.

JOHN MCGOLDRICK.

ESTEY & CO., 49 Dock Street.

# Nerves in Terrible Condition Would Fall to Floor from sheer Exhaustion

"Your Medicine Helped When Doctors Failed"  
Mrs. Edwin Martin, Ayer's Cliff, Que., writes—  
"Before I began taking Nerve Food I was in a terrible condition, dizzy spells came over me, and I would fall to the floor, and I could not as much as sweep the floor without fainting unless they took me out in the air. Now I can wash and work a lot, and your Medicine helped me when the Doctors failed. I felt as though it was a God-send to me."

# Restores Wasted Nerves

Few people realize what an important part the nerves play in the condition of the health, and many doctors feel helpless when the nerves go wrong because they do not understand diseases of the nerves or their treatment.

If you read the letters which appear in this paper almost daily from people who have been rescued from discouraging and distressing nervous diseases by use of Dr. Chase's Nerve Food, you will soon believe in the efficiency of this treatment.

When headaches, sleeplessness, irritability and nervousness make your life miserable, be warned of the approach of nervous prostration, paralysis and locomotor ataxia, and restore the feeble, starved nerves by using Dr. Chase's Nerve Food. No treatment is so certain to benefit you. 50 cents a box, 6 for \$2.50. All dealers or Edmondson, Bates & Co., Limited, Toronto. Write for booklet.

# Dr. Chase's Nerve Food

Mr. Taylor, Dewittville, Que., will give three lectures on the care and management of turkeys, ducks and geese.

Mr. Jull and Mr. Bersey of the Poultry Department of the college will deal particularly with incubation and brooding problems and the housing of poultry. They will also lead in the discussion on several of the more important topics.

A special feature is provided in lectures given by the Cereal Husbandry

# HERBINE

## That Herbine Ointment is great stuff for chapped hands.

The St. John Standard

Published by The Standard, Limited, 52 Prince William street, St. John, N. B., Canada. ALFRED E. MCGINNLEY, Editor.

ST. JOHN, N. B., SATURDAY, MARCH 21, 1914.

SENATORIAL CHANGES

The recent death of Senator George Ross, following so closely the demise of Senator George A. Cox, serves to attract some attention to the situation in the red chamber...

Since that time senators have been appointed for the western provinces as they came into the union, the total number in the senate being thus increased to eighty-seven.

CHINA'S WEALTH.

According to Baron Takahashi, a distinguished Japanese financial expert, China is cautiously laying the foundation for a financial system that will stand the test of future needs.

Table with 3 columns: Province, Conservative, Liberal. Lists provinces like Prince Edward Island, Nova Scotia, New Brunswick, etc.

It will thus be seen that the Liberal majority in the upper chamber now is nineteen. The west it will be noticed returns four Conservatives and eleven Liberals.

This power contained in the constitution leads to the opinion that the Fathers of Confederation, in their wisdom, foresaw some such situation as that which arose last year, and for this reason, deemed it wise to place in the hands of the government of the day the authority to do as can be done by the majority in the British House of Commons and change the political complexion of the upper house to bring it into harmony with the more representative branch of the legislature.

Diary of Events

HISTORIC DAYS IN CANADA

On this date in 1891 Sir John Thompson, then minister of justice, issued his celebrated report on the Manitoba School Act, in which he recommended the government to allow the measure in due course.

THE HUMAN PROCESSION

MAIL: SPRING IS HERE! We cannot write in prose today, Ah, no, instead, a roundelay, a song, a rhyme, and a bit of whimsy.

The Fixin's. A kindergarten teacher, after explaining to her much interested class that birds have feathers, bears have fur, sheep have wool, etc., asked the questions: "Now, who can tell me what oysters have?"

Dangerous Throat Troubles

THE GOOD THINGS FOR THE UNIQUE Interesting Features to be Shown in the Popular Charlotte Street House.

A glance at the display advertisement of the Unique Theatre in this issue will convince the reader that every effort is being made by the management of the 65 Charlotte street theatre to present the best in film and cater directly to the tastes of the more exacting. Next week's bill of fare is most worthy of mention. The Monday and Tuesday programme embraces the Thianhauser Mission Anderson playlet, "The Two Little Dromios," in which the talented Miss Anderson is seen in a double role. The story is a most pleasing one, and is a study of rural and New York life. With this is a stirring majestic drama of the plains, "The Vengeance of Najera" with L. Johnston portraying the part of the crafty Indian. "The Cricket on the Hearth" is the feature of the Wednesday and Thursday bill. This is a film adaptation and the fact that the American Company is responsible for the production assures patrons that it is a masterpiece. "Baby's Joy Ride" has been secured for the children's matinee jubilee next Saturday afternoon, a pretty subject with the Thianhauser Kidlet as the Baby.

REMARKABLE CURE OF RHEUMATISM Supt. of Sunday School in Toronto Cured by "Fruit-a-lives."

R. A. WAUGH, Esq. Toronto, Ont., Oct. 1st 1913. "For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy "Fruit-a-lives." I have lived in this city for more than 12 years and am well known. I suffered from Rheumatism especially in my hands of one kind of work. I have gained 35 pounds in 18 months. "Fruit-a-lives" will always cure even the most stubborn cases of Rheumatism because it is the greatest blood purifier in the world and acts on the bowels, kidneys and skin. "Fruit-a-lives" is sold by all dealers at 50c a box, 6 for \$2.50, retail price. It will be sent on receipt of price by Fruit-a-lives Limited, Ottawa.

KEITH HOUSE HAS BIG WEEK HEAD Three Unusually Strong Features will be Shown—"The Sword of Damocles" Monday.

On Monday and Tuesday of next week the special film offering at the Imperial Theatre will be a two-part Pathé drama entitled, "The Sword of Damocles." This story is powerfully worked out and in the cast are such favorites as Eleanor Woodruff, Irving Cummins and Gerald Harcourt. In the story, the successful operatic composer who has lost his touch buys the writing of a broken down composer which score he presents as his own composition. At the night of his triumph, when the opera is being produced, the miscreant is exposed by the man from whom he sold the music, and the climax, which is startling in which Sydney Drew, Kate and a formidable staff of fun-makers will do their best to provoke merriment. During the week such additional reels as "The Mystery of the Dover Express" and "The Mystery of the Dover Express" will be presented in a two-reel skit by the Vitagraph Company. "Pickles, Art and Sauerkraut" in which Sydney Drew, Kate and a formidable staff of fun-makers will do their best to provoke merriment. During the week such additional reels as "The Mystery of the Dover Express" and "The Mystery of the Dover Express" will be presented in a two-reel skit by the Vitagraph Company.

MACAULAY BROS. & CO.

ST. JOHN MAN SAW FATHER ON CURTAIN W. C. Smith's Daddy, in Aldermanic Robes, in English Film a Surprise

It is not often the privilege of a young man a long time absent from his father's home to meet his "old gentleman" in person through the medium of motion pictures. Such, however, was the delightful experience of Manager Smith of the Empire Theatre on the Carleton side of the harbor on Wednesday last. Mr. Smith was occupying a box seat with his wife at the Imperial at one of the matinee sessions and when a scene depicting the unveiling of a memorial shaft to the Puritan Fathers at Southampton, England, was thrown upon the curtain, Mr. and Mrs. Smith were astonished to see Mr. Smith's father in his aldermanic robes in the foreground of the living photograph. Naturally their thoughts turned back to their native Southampton with a rush that brought a lump in their throats. Another surprise was forthcoming when the Mayor of Southampton, who is a first cousin of Mrs. Smith, stepped forward in his official capacity with robes and checkered hat. Indeed, it was a regular family gathering and indicates once again the universality of the motion picture.

ST. JOHN WILL BE GLAD TO SEE THEM AGAIN Friends of Mr. and Mrs. Allen St. John (Winona Branch) who have been with the Thompson-Woods Company at the Opera House during the winter, regretted to learn that they had severed their connection with the company. Mr. and Mrs. St. John left Tuesday evening for New York. During their stay in this city, Mr. and Mrs. St. John made a host of friends. While their work on the stage won for them many admirers, those who were privileged to know them outside their professional capacities found them delightful personalities, and they had won a large circle of friends while here. Mr. and Mrs. St. John have the best wishes of their many friends in their new field of endeavor, and the assurance of a royal welcome whenever they visit St. John.

THE COURTS. PROBATE COURT. Estate of Henry Noakes, railway checker. Deceased died intestate; his wife predeceased him. He left him surviving two children only, both sons—Henry Lawrence and Stanley Hunter Noakes—both living at Sea Dog Cove, Kings county. On their petition Charles Ledford, collector, who for some time had been a close friend of the deceased, is appointed administrator, and for special reason shown administration is issued without waiting the usual lapse of fourteen days from the death of the deceased. No real estate. Personalty \$500. W. H. Harrison, proctor. In the matter of Henry Lawrence Noakes and Stanley Hunter Noakes, infant children of the late Henry Noakes. Both parents of the infants being deceased, the petition of the infant Charles Ledford, collector, is appointed guardian of the persons of the infants and of their estate, which on the whole amounts to \$500. W. H. Harrison, proctor.

TRY UNGAR'S LAUNDRY. "THE MYSTERY OF THE DOVER EXPRESS" The first showing of the pictures in "The Chronicles of Cleek" a fortnight or so ago made a pleasing impression upon Gem patrons. This great detective series by the Edison Co. has been a hit in other cities and the securing of the features by the Gem Theatre has been a clever stroke. The second picture "The Mystery of the Dover Express" will be shown today with Benjamin Wilson in the role of Cleek, the Scotland Yard detective. This feature is on again today, but will not appear again until April 3rd and 4th.

SPRING BLOOD IS WATERY BLOOD How to Get New Health and New Strength at this Season. Spring ailments are not imaginary. Even the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and nearly always badly ventilated rooms—in the home, the office, the shop and the school, takes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions, while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give you health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves. And the one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These Pills not only banish spring weakness, but guard you against the more serious ailments that follow, such as anaemia, nervous debility, indigestion, rheumatism, and other diseases due to bad blood. Mrs. Freeman Leslie, Greenwich, N. S., writes: "We have found Dr. Williams' Pink Pills the very best family medicine there is. I was completely run-down and could not sleep or do my work. I was very nervous and the seasickness started me. I began using Dr. Williams' Pink Pills and they soon brought me back to the best of good health. They also cured my husband when he was suffering from a severe attack of rheumatism." If you are ailing this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes from The Dr. Williams' Medicine Co., Brockville, Ont.

LOSING CAPTAINS TO BANQUET THE VICTORS At a luncheon today, which T. H. Estabrooks tendered to the captains of the teams elected to take charge of the collecting campaign, it was moved by W. E. Earle, and seconded by E. L. Rising, that the losing captains tender a banquet sometime during April to the winning teams, also inviting the executive as guests. The motion was put by the host, and unanimously carried amidst great enthusiasm. Each captain feels that his team can not afford to take even second place.

CLEANSER YOUR HAIR MAKES IT BEAUTIFUL It becomes thick, wavy, lustrous and all dandruff disappears. Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance. Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. "You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed."

MASS MEETING SUNDAY Mass meeting in Imperial Theatre Sunday at four o'clock. FALL OF POMPEII E. C. Clancy of New York, who brought the Pasquall version of "The Fall of Pompeii" to the Maritime Provinces, returned to the States a few days ago after playing pretty nearly all the towns and cities in the three lower provinces. He reported a successful tour.

Black rubber school raincoats and hats—F. W. Daniel & Co. Ltd.

Was Badly Cut. George P. Smith, a longshoreman, in the employ of the C. P. R., met with a bad accident last evening while unloading an automobile from a box car into the shed. When the machine was being brought down the slide, it tilted to one side and knocked Smith down, inflicting several bruises. Besides a deep cut three quarters of an inch long on his head, Dr. Neve was called and attended the injured man, who after the wound was dressed proved his gameness by going back to work.

Receive New Members. The Council of the Lancaster Board of Trade met last evening in the Lancaster Court House and received several new members. A resolution approving the appointment of extra assessors was passed. The meeting was well attended.

One hundred rain coats on sale Saturday at money saving prices at F. A. Dykeman and Co.'s store. They are imported by them direct from the manufacturers in London, and they intend to sell them at just about the same price as the wholesalers job them for in Canada; this means a saving of at least twenty-five per cent.

Mr. Allen's Business. The business of the late George P. Allen, druggist, Waterloo St., will be continued under the capable management of Richard P. Colgan.

WOMEN BUILD TUBERCULOSIS HOME NEAR COURTNEY BAY A TREMENDOUS HIT WITH ALL

County Council Decides to Advise Commission Not to Accept Tenders for Construction of Hospital on Merritt Street — Many Arguments in Favor of Change.

At the special meeting of the County Council yesterday it was decided to advise the commissioners of the St. John County Tuberculosis Commission not to accept any of the tenders for the construction of a tuberculosis home on Merritt street, but to have plans prepared for the erection of a building on the Municipal Home property at Courtney Bay.

When the meeting opened in the afternoon the Warden suggested that in view of the high cost of building on Merritt street, the council should consider the advisability of building on the Alms House property.

A letter was read from Dr. Cox, of Massachusetts, saying that some of the features of the proposed hospital might be dispensed with, but that the chairman of the commission, H. B. Schofield, wrote protesting against the elimination of any features.

Tenders for the new building were received from a large number of contractors. The lowest for the building was from H. B. Whitenack, whose price was \$49,234. Added to this would be the cost of plumbing, heating, lighting, elevator and vacuum cleaning system.

Com. Howard said they should consider the whole matter, and suggested using the east wing of the General Public Hospital for a tuberculosis institution. He thought they should adjourn the meeting until they found out whether the legislature was going to grant them permission to build an addition to the Public General Hospital.

Com. Carson said he was surprised at the amount of the tenders, and was opposed to spending such a sum. Com. Agar thought the best view was the ground at East St. John. He did not believe in grouping the two hospitals, the fact that they should not hedge in the water. The tuberculosis hospital should be built.

Com. Howard said if the present municipal commissioners could not manage a tuberculosis home they could get commissioners who would. Com. Frink said there was something in Com. Howard's idea. He thought if a new public hospital building was erected, they might use the northeast corner of the old building for tuberculosis patients. The danger of contagion was averted. They were told that 25 per cent. of the population was infected; if they couldn't go into any assembly

TO COMPILE INDUSTRIAL DIRECTORY. Municipal Home well Directed by Mr. and Mrs. Wood — Councillors Express Pleasure.

An interesting tribute to the management of the Municipal Home was paid by Councillor Carson at the meeting of the council last evening. The councillors went out to Courtney Bay yesterday afternoon to look over a site for a tuberculosis hospital and an unexpected visit to the Municipal Home. Referring to this visit in the council meeting, Com. Carson said he was much surprised at what he had seen in the home, and felt Mr. and Mrs. Woods deserved the greatest credit for the way they looked after the institution and its inmates.

Turkey supper tonight at Bond's between 5 and 7. Quality all the year round that's what you want in your correspondence and you'll get it with the Remington and Smith Premier Typewriters. A. Miss Fraser (J. A. Little, Mgr.) 37 Dock St., St. John, N. B.

KATHLYN STORY A TREMENDOUS HIT WITH ALL

The Standard's Serial Picture, at Imperial Theatre, Wins Continued Applause from Crowded Houses.

It looks very much as if sweet, demure Mary Fuller has got to yield the palm of popularity to charming Kathlyn Williams as Queen of the Movies.

After seeing Miss Williams yesterday at the Imperial in the opening chapters of the great serial photograph "The Adventures of Kathlyn," the affections of the masses, when at the climax of the first act of this 26-week story she resolutely refused to become the bride of the handsome but villainous East Indian prince, applause rang out from every part of the theatre. Then the picture stopped—oh!

In this issue of The Standard the exciting incidents which followed Kathlyn's refusal to marry are told as only Harold McGrath, favorite magazine writer, can tell them. In a fortnight the Imperial will picture these scenes from the institution and the Star, and so on each week and each fortnight until the wonderful tales are finished.

St. John is agog over the Kathlyn stories. In this regard it is only rivaled by the experience of Chicago, where the Tribune is publishing the story. New York, where the Sun is the medium; Montreal, the Star; Toronto, the Globe; and throughout the length and breadth of the continent here The Standard is meeting all demands with additional press-runs and storing up extras for disposal during the week. Last Saturday the Imperial Theatre handled 2,200 Standards alone.

"The Adventures of Kathlyn" is the story of a handsome and intrepid daughter of a noble Maro, dealer in wild animals, who is lured back to India to assume the throne of a king who bequeathed him succession to his life crown for having once saved his life from a leopard. Kathlyn seeks to save her parent from this enforced kingship, from the fanatical imposture of the Hindu.

Thrilling encounters with beasts of the jungle, Eastern mysticism, stealthily brown men, perfidious natives, magnificent Durbar scenes mark the three reels being continued today. The pitiable predicaments of Kathlyn under such trying conditions and the bravery with which she meets them, the keep watchers on the tip-top of excitement, right up to the point of her being forcibly crowned as heir of her father, whom she is told has died.

Crowds taxing the capacity of the new theatre saw the picture yesterday; greater crowds will see it today. Today's Standard contains the second instalment of the story.

Read the story every fortnight. Municipal Home well Directed by Mr. and Mrs. Wood — Councillors Express Pleasure.

An interesting tribute to the management of the Municipal Home was paid by Councillor Carson at the meeting of the council last evening. The councillors went out to Courtney Bay yesterday afternoon to look over a site for a tuberculosis hospital and an unexpected visit to the Municipal Home.

Turkey supper tonight at Bond's between 5 and 7. Quality all the year round that's what you want in your correspondence and you'll get it with the Remington and Smith Premier Typewriters.

Grand Royal Edward Concert. Seamen's Institute on Monday, Mar. 23rd, at eight. The Royal Edward concert party, including the famous Foo Foo band (in costume conducted by Mr. Wheeler, entirely new programme. Admission 20 cents.

ALABASTINE A modern sanitary wall coating. A dry powder ready for use in cold water. A natural antiseptic cement which destroys the germs peculiar to contagious diseases. Admits of re-coating without removing old coats. Comes in 21 colors and white.

YOU WILL SOON BE IN NEED OF A Pair of Boots for Spring We have them in all leathers. Come in and let us fit your foot with the most accurate measuring system "The Footgraph."

Safe-Sanitary-Service The importance of having proper Metal Ash Barrels to hold ashes is very evident; and we would respectfully suggest that this is a matter worthy of your attention. The recent fire and loss of life have fully demonstrated the great need of care in handling Hot Ashes.

## SUSSEX

## St. Andrews

St. Andrews, Mar. 20.—Mr. Harold Greenlaw who has been spending the winter at home returned to Saskatoon on Tuesday.

Miss Winifred Everett, of Fredericton, is the guest of Mr. and Mrs. C. S. Everett.

Mrs. Fred Rowland left for Boston on Thursday to remain for several months.

Mrs. C. A. MacCormack and children of St. Stephen spent a few days in town with guests of Mr. and Mrs. Wheeler Mallock.

Mrs. Frank McVey of St. John is visiting her parents Mr. and Mrs. Thomas Burton.

Mr. Frank McCafferty has been visiting his mother and sister lately.

Mrs. George Elliot and daughter, Miss Isabel, left for Boston on Thursday.

Miss Jennie Kennedy has been visiting St. Stephen friends lately.

The pupils of the Grammar School enjoyed a pleasant drive to Chamcook on Friday night of last week. A delightful evening was spent with games and music at the college. Lamour-du-Bols, the party returning home in the moonlight. Mrs. Sara McCafferty and Mr. Geo. Carpenter chaperoned the party.

Miss Leora Stinson entertained a number of her friends very delightfully at progressive whist on Thursday of last week, with Mrs. Joseph Handy and Mrs. Austin Budd carried off the prizes. Among the invited guests were Mrs. Allerton, Mrs. Tennant, Mrs. Handy, Mrs. Simpson, Mrs. Budd, Mrs. Bert Rigby, Mrs. Gus Rigby, Mrs. Fred Rowland, Mrs. E. Graham, the Misses Nellie Stuart, Ethel Richardson, Gertrude Stinson, Margaret Burton, Pearlie Graham, Genevieve Howe, Carrie Rigby, Carrie Gardiner, Laura Shaw, Bessie Hibbard, Minerva Hibbard, Edith Hewitt, Ethel Cummings, Ida Graham, Emily Donahue, Sara Donahue.

Miss Mattie Mallock entertained very delightfully at five o'clock tea on Friday night of last week. The invited guests were Miss Genevieve Howe, Mr. Will Rollins and Mr. Ronald Hewitt carried off the prizes. The invited guests were the Misses Genevieve Howe, Ruth Greenlaw, Rae Howe, Ethel Cummings, Sara McCafferty, Pearlie Graham, Genevieve Howe, Rollins, Muriel Pendbury, Messrs. Kenneth Cummings, Will Rollins, Ronald Hewitt, Jimmie McDowell, Bert Quinn, Stanley Deacon, Frank McMillan, Hazen McDowell, Raymond Greenlaw.

Miss Miriam Nowatt has returned from a pleasant visit with Boston friends.

Mr. and Mrs. James Starr are rejoicing over the arrival of a baby daughter to brighten their home.

## MONCTON

Moncton, Mar. 16.—Mrs. J. C. Cooke, Alma street, entertained in honor of Miss Estey and Miss Crisp (St. John) on Monday evening. The drawing rooms were tastefully decorated with potted plants and bunches of yellow daffodils. The lights were shaded with dainty yellow shades. Mrs. Cooke received her guests in a gown of green pique silk with black satin trimmings and ruffles. Miss Estey wore a gown of yellow silk. The young ladies assisting in serving were Miss George Barnett, yellow satin, pale blue marabout trimmings. Miss Alice Gross, pale blue silk, lace trimmings. Miss Winnifred Lockhart, black velvet, lace ruffles. Miss Annie Cooke, brown paillette silk, lace ruffles. Little Miss Marjorie Boyd, in pale blue silk, lace trimmings, acting as door attendant. Among the guests were Mrs. W. K. Gross, Mrs. Fred Williams, Mrs. J. A. B. Marvin, Mrs. H. Corbell, Miss Mary Peters, Mrs. Bars, Mrs. H. A. Gross, Mrs. A. McGowan, Mrs. A. Wilbur, Mrs. M. C. Weldon, Mrs. T. C. Dobson, Mrs. C. F. Gross, Miss Kinraid, Mrs. C. S. McCarthy, Mrs. A. E. Peters, Mrs. Harper Allen, Mrs. A. J. Tingley, Mrs. H. Slesed, Mrs. L. H. Higgins, Mrs. McLean (Halifax), Mrs. Byron Weldon.

## DORCHESTER

Dorchester, March 18.—Miss Mina Palmer was the guest of her cousin, Miss Maud Robson for a few days last week.

Miss Frances Rogers who has been visiting Miss Mabel McDonald, returned on Monday to her home in Albert county.

Miss Marion Sterne of Amherst, was in town on Monday.

Dr. Arnold, recently of Westfield, arrived in town to practice in place of Dr. J. J. Teed, who is now physician at the Maritime Penitentiary. Dr. Arnold intends to move his family here in the early spring.

Miss Josephine Oulton entertained a number of her friends after rink on Thursday evening last. Those were Misses Lulu Bishop, Mollie and Jean Flery, Nina Tall, Carmelita Richard, Messrs. Ted McGrath, Geo. McGrath, V. H. V. Carruthers, R. G. Henderson and Art Gillis, Sackville; Will Tall, Will McQueen, M. R. McGregor, Amherst; B. Smith, J. L. Steeves.

Misses Mollie and Jean Flery entertained a number of their friends after rink on Monday evening. Those present were, Misses Myrtle Thomson, Lulu Bishop, Carmelita Richard, Josephine Oulton, Nina Tall, Jean Flery, Messrs. Margaret, Carruthers, Will Hutchinsop, B. O'Hara, J. L. Steeves, Mr. Johnson, Chas. Eldson, R. Pettis.

Mr. J. J. Kane enjoyably entertained a number of his gentlemen friends on Tuesday evening.

Mr. Justin McGrath of Fredericton is the guest of his father, Mr. H. J. McGrath.

Mr. and Mrs. L. S. Brownell, of Perth, are the guests of Mr. and Mrs. W. W. Brownell.

Mr. Art Chipman and Mr. Jack Burton, who have been the guests of Mr. A. W. Chipman and Mr. and Mrs. George Burnett, respectively, for the past winter, left last week to resume their duties in Moose Jaw.

Miss Daisy Burnett, of Shelias, was the guest of her parents Mr. and Mrs. Burnett for Sunday.

Miss Carmelita Richard and Miss

Sussex, March 20.—Mrs. J. D. McKenna, who has been seriously ill in St. John, is now improving as rapidly as can be expected.

Miss Mabel L. Duffy and Miss E. Louise Harris spent the week-end in Moncton, guests of Miss Duffy's sister, Mrs. C. B. Chisholm.

Miss Florence de Mills returned from St. John Tuesday, after having spent a month there visiting friends.

Mrs. W. S. Thomas, formerly of Sussex, entertained at a tea in honor of Mrs. Wood, wife of Lieutenant Wood, Tuesday afternoon at Fredericton.

Peerless Lodge, I. O. O. F., will be here in force next Tuesday to deliver "The Bundle of Sticks" to Valley Lodge.

They are coming in a special car and will be entertained by the local brethren.

Carl Huestis, who was operated on recently at the Cottage Hospital by Dr. J. U. Burnett, was able to be removed to his home on Tuesday afternoon.

The Trinity Church Girls' Guild will meet at the residence of their new president, Mrs. Harry Lisson, on Thursday evening.

Rev. G. B. McDonald, pastor of the Main street Baptist church, returned home from Perth, Victoria County, on Wednesday, where he has been to assist in the dedication of the Baptist church at that place.

Many in Sussex will regret to learn of the death of the Rev. C. W. Hamlin, Methodist minister, who passed away at the home of his sister, Mrs. Fawcett, Bale Verte, on Sunday evening.

Mrs. D. H. McAlister entertained on Wednesday evening in honor of her guest, Mrs. M. P. Tins, Bloomfield.

Rev. Mr. Crowell, editor of the "Times" Baptist, occupied the pulpit of the Main street Baptist church on Sunday last.

Mrs. D. D. Porter, St. John, is visiting her niece, Mrs. G. B. McDonald, at the Baptist parsonage, Main street.

At the Opera House on Tuesday evening the Sussex Amateur Theatrical Club presented "The Colonel's Maid," a comedy in three acts, in a manner which was much appreciated, as was shown by the hearty applause

which greeted the work of the performers.

The Right Reverend Bishop Richardson, D. D., is expected to arrive in Sussex on Saturday afternoon next to begin an eight days mission in Trinity church.

One of the largest and most enjoyable bridges of the season was that given by Mr. and Mrs. Arthur Keith, Church avenue, on Thursday evening, March 12. Among the invited guests were Dr. and Mrs. McAlister, Mr. and Mrs. J. M. Kinnear, Mr. and Mrs. Arthur Maggs, Mr. and Mrs. J. M. McIntyre, Mr. and Mrs. W. S. Fairweather, Mr. and Mrs. W. S. Hay, Judge and Mrs. Jonah, Dr. and Mrs. Pearson, Dr. and Mrs. Murray, Mr. and Mrs. S. A. McLeod, Mr. and Mrs. J. R. McLean, Mr. and Mrs. F. R. De Boo, Mr. and Mrs. Jas. Kirk, Mr. and Mrs. Edwin Arrid, Mrs. Robert Morrison, Mr. and Mrs. Jas. Lamb, Mr. and Mrs. Jesse Prescott, Mrs. F. Lansdowne, Mrs. Jos. Lamb, Miss Myers, Mr. and Mrs. Geo. Hoyt, Mr. and Mrs. Geo. White, "Pase" prize winners were Mrs. J. M. McIntyre and Mr. Geo. White.

Mrs. O. P. Wilbur entertained at auction bridge on Wednesday afternoon in honor of her guest, Miss Mae Harper, Shediac. Those present were Mrs. H. H. Dryden, Mrs. Jesse Prescott, Mrs. J. D. Daly, Mrs. G. N. Pearson, Mrs. G. H. White, Mrs. Jas. Lamb, Mrs. Hazen Adair, Mrs. Geo. Sutfren, Mrs. Arthur Maggs, Mrs. Jas. Kirk, Mrs. S. A. McLeod, Mrs. W. H. McIntyre, Mrs. F. R. De Boo, Mr. and Mrs. W. S. Fairweather, Mrs. J. R. McLean, Miss Jean Peacock, Miss Harper, Mrs. Edna Arnold, Mrs. J. M. Kinnear, Mrs. G. S. Kinnear, Miss Eva Culbert, Miss Hazel Fairweather. The prizes were won by Mrs. G. N. Pearson and Mrs. J. J. Daly, and the guest of honor prize Miss Mae Harper.

Mr. and Mrs. T. W. Birney, of Marrero, spent the week-end in Sussex.

Mrs. H. H. Reid and Miss Freda are spending Sunday in St. John.

Miss Coggin has returned home after spending several days in Shediac.

Mr. and Mrs. George Whalen spent Sunday at Ward's Creek with Mr. and Mrs. Cummings.

NEW RAILWAY ACT PROVIDES FOR SEVERAL SWEEPING CHANGES

(Continued from page 1)

on the one right of way. It is expected that this will help to solve the problem of highway crossings in cities.

There is a new provision to enable the board to provide that industries by existing spurs or branch lines. The forbidding of removal of spurs without the consent of the board is designed to make its control in these matters more complete.

The powers of the board as to location of stations and the affording of facilities are made more clear and complete. New provisions are added for compensation for interference by the railways with mining rights and to give power to examine mine workings near railways with a view to assuring safety of the railway.

The portion of the act relating to arbitration proceedings generally has been almost remodelled and very materially altered. The county court judge, and in the Province of Quebec the superior court judge, is now made an arbitrator ex-officio. The provision that an owner could not appeal unless the award was over \$600 even though he might be entitled to ten days appeal when he claims more than \$600. Provision is made by which the board may order a company to construct a public highway on a railway by-appeal at the expense of the municipality applying.

Control of Rates

Express power is given the board to suspend tariffs pending enquiry. Special freight tariffs have to be filed with the board in time to be checked before they come into force. Provision is made giving the board power to order the company to return tolls illegally collected.

One of the most important features of the new act is the extension of the control of all water traffic between ports or points in Canada. Formerly the act covered only water traffic carried by railway companies.

For some time past the railway com-

# NEW RAILWAY ACT PROVIDES FOR SEVERAL SWEEPING CHANGES

Compensation for Municipality

There is a new clause providing for compensation to a municipality where a railway is allowed along a highway. Such cases are of course rare, as steam railways are not permitted along highways except where absolutely necessary. There are sections providing for the packing of sliding or hurdle gates at farm crossings with swing gates, and better provision is made for protecting owners' enclosures when a railway is being constructed. The railway board is given power to deal with the hours of duty for railway employees and the length of a section and number of employees in a section is stated.

Control of Rates

Express power is given the board to suspend tariffs pending enquiry. Special freight tariffs have to be filed with the board in time to be checked before they come into force. Provision is made giving the board power to order the company to return tolls illegally collected.

One of the most important features of the new act is the extension of the control of all water traffic between ports or points in Canada. Formerly the act covered only water traffic carried by railway companies.

For some time past the railway com-

# NEW RAILWAY ACT PROVIDES FOR SEVERAL SWEEPING CHANGES

mittee of the commons has been adding to all railway bills coming before it what were called "standard clauses" with respect to municipal control over streets and highways. The second clause with certain modifications are now made a part of the regular railway acts.

Another most important feature of the new act is the inclusion of clauses of telegraph and telephone messages under Dominion jurisdiction shall put wires or poles on streets or highways without permission. If the company cannot agree with the municipality the matter can be referred to the board which has power to give leave and to provide the terms and conditions. Lines already constructed are not interfered with except that in cities and towns they may be ordered to be put underground and more effective provision is made for putting them underground by providing a joint board where one or more of the lines is under provincial jurisdiction. Provision is made for classification of telegraph and telephone messages and also for the establishment of a joint board to deal with long distance telephone connections when the applicant desires.

Endow has been made to simplify the law governing damages where cattle and other animals are injured on railroads. The burden of proof is put on the railway.

When damages result from fires started by locomotives the act is so changed that it is only in case where negligence is proven on the part of the owner that the company is entitled to the benefit of the owners' insurance.

The anomaly of allowing a railway company to plead not guilty by statute without giving particulars of its defense like other litigants is removed.

Railway constables must be British subjects. The board is given power to forbid the use of coal in any district and to order the use of electricity or such other kind of fuel or power as may be deemed proper.

Stricter penalties are provided for obstruction of highway crossings and the company and not the employees made liable where the fault is in the rules of the company.

Power is given the board to order a railway to be opened to traffic.

# Eat "Sunkist" Oranges with "Sunkist" Spoons

While you are eating luscious, juicy, tangy, seedless "Sunkist" oranges, you are delighted with the magnificent silverware you are getting for your table.

You always order "Sunkist" oranges because they are the finest, richest, selected, tree-ripened fruit grown anywhere in the world.

Picked and packed by gloved hands—the cleanest of all fruits. Thin-skinned, fibreless.

Not a Seed in "Sunkist"

Cut the trademarks from the wrappers around "Sunkist" oranges and send them to us. Select silver pieces from our 27 different premiums. Every piece the famous Rogers Standard, A-1 guaranteed silver plate.

The Rogers orange spoon shown above is sent to you for 12 trademarks from "Sunkist" oranges and 12 cents. "Trade-marks from 'Red Ball' orange wrappers count same as "Sunkist." In remitting, send amounts of 20 cents or over by Postal Note, Post Office or Express Money Order.

Buy "Sunkist" oranges by the box, half-box or dozen—from your dealer.

Send your name for our complete free premium list and Premium Club Plan.

Send all orders for premiums and all inquiries to California Fruit Growers Exchange 105 King Street, East, corner Church, Toronto, Ont. (77)

# REMEMBER!

Our Sunkist Oranges are received direct from the coast in carload lots, thus assuring freshest stock.

# NERVOUS PROSTRATION

Severe Case of a Philadelphia Woman—Her Symptoms.

Philadelphia, Pa.—"I had a severe case of nervous prostration, with palpitation of the heart, constipation, headaches, dizziness, noise in my ears, timid, nervous, restless feelings and sleeplessness.

"I read in the paper where a young woman had been cured of the same troubles by taking Lydia E. Pinkham's Vegetable Compound so I threw away the medicine the doctor left me and began taking the Compound. Before I had taken half a bottle I was able to sit up and in a short time I was able to do all my work. Your medicine has proved itself able to do all you say it will and I have recommended it in every household I have visited."—Mrs. MARY JOHNSON, 210 Siegel Street, Philadelphia, Pa.

# Another Bad Case.

Ephrata, Pa.—"About a year ago I was down with nervous prostration. I was pale and weak and would have hysterical spells, sick headaches and a bad pain under my shoulder-blade. I was under the care of different doctors but did not improve. I was so weak I could hardly stand long enough to do my dishes.

"Lydia E. Pinkham's Vegetable Compound has made me well and happy and I have begun to gain in weight and my face looks healthy now."—Mrs. J. W. HORNBERGER, R. No. 3, Ephrata, Pa.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a physician and held in strict confidence.

## FIRST SIZE-UP OF FEDERAL LEAGUERS IN TRAINING CAMP--FULLERTON TURNS THE SPOTLIGHT ON TINKER'S FEDS AND SEES MAKINGS OF A REAL TEAM

By Hugh S. Fullerton.

Shreveport, La., March 18.—It is rather unfair to pick the best, most modern and most interesting of the training camps of the major leaguers, study their training methods and then move to the first camp of a new league and criticize a team thrown together from small sorts of material.

After watching the old teams, with their perfect organization, their coaches, trainers and veterans all work on established camps with all modern conveniences, the Chicago Federal League team looks a bit bushy. It has a lot of wretched material, a poor field, the players are strangers to each other. Manager Tinker is hardly acquainted with his own men, nor do they know each other.

But the team he has is a good one—good enough to give all comers a battle. If any major league club owned Tinker's pitching staff it would be figuring on a pennant.

Let us examine the team. Art Wilson and Jimmy Block are the experienced catchers. Wilson has been McGraw's second string catcher for years. He is a near great catcher. He is a smart, intelligent man, a clever catcher and he wants to work. There never has been a chance for him to work steadily. Now he has it. Block is the old White Sox catcher, a slashing right field hitter, a fair catcher, above the average, and a dandy fellow to have on a ball club.

McDonough, a relic of last year's Reds, is with the team, but the real promise is in little Mulvaney, a Cincinnati lad, a fighting, hustling kid of the Steve O'Neill type. He looks good. Tinker had an eye on him as a catcher for the Reds and brought him to the Fed. Tinker still hopes for Red Killifer, who did a double jump but that is too remote a possibility to count upon.

In Art Brennan and Hendrix he has two wonderful pitchers, and he has Seaton, the star of the Phillies. Seaton was turned over to the Brooklyn Fed, but wants to stay with Chicago, and President Weegman is trying to arrange a deal to keep him. With that trio the team is strong enough for anyone. There are Black and Pendergrast, McGuire of last year's Fed, Schmidt, Glaser, Watson, who was with the Cubs, and a bunch of others.

There are three first basemen: Beck, Jackson and Kading. Beck has had a lot of major league experience and is a good man. Jackson was one of the stars in the Pacific Northwest. The infield probably will be Jackson, Farrell, Tinker and Zelder, unless Tinker lands the National league star second baseman who wants to join his team. Zelder is a known quantity and a baseball player. Farrell is one of the most promising youngsters in the business, fast, brilliant and a clever lad. He needs training and experience, but working with Tinker will help him a great deal.

Little Alex Zwilling, formerly with the White Sox, is one outfield fixture. He is one of the best hitters in the game, a slashing left-handed batter, spry and quick, but not very fast. He failed with the White Sox merely because he was a kid who was having too much fun and who took too much fat. He is ten pounds lighter than he was then, faster, and he is married and taking life more seriously. Wickland, who was one of the Reds' most promising youngsters, is there to fit in at any spot. Walsh looks fair and much is hoped for from Fritz.

Magnate Weegman of the Chicago Federal League Team Pitching the first Fed 1914 Ball—Beneath him is Tinker's Pitching Staff—Eleven Twirlers—Some Bunch, eh?

### FIRST ACTION PICTURES OF THE FIGHTING FEDERALS

figures included Miss Chevalier and Norman Scott of Montreal, who also took part in a competition in waiting.

Scott of Montreal. The third championship contest is in pair skating for the first time in the United States, and the entrants in the preliminary

### BASEBALL ON ST. JOHN RIVER THIS SUMMER

At a meeting of the representatives of Belyea's Point, Millville, Port George and Bayswater, it was decided to form a St. John River Baseball League, and the following officers were elected: Commissioner, Hugh W. Wignora, president; A. W. Covey, vice-president; W. J. Coates, secretary.

The league will play for a trophy donated by the Reach Sporting Goods Co., through Edmondson and Fisher. Each will be limited to fifteen men and a manager. The league will be governed by the American league rules.

The forming of this league will be the means of bringing the people from the different places together and enjoying a good game of ball, and no doubt there will be lots of excitement at these games, as some of the best players in the city will be on the diamond.

As for the players who will compose the league, the official roster is not yet obtainable, but Belyea's Point will have "Mike" Harrigan of St. Peter's, St. John fame, Crosby of the Portland-Marathon teams, Murray Leighton of the local leagues, and "Shifty" Chase of the Clipper-St. Johns will manage the team.

Pandemonium will have William Leighton, Ernie Sterling, and W. Halliday of the Doughnut League (Texas), and a bunch of stealing young players, who will be there with the stick, and as S. Johnson is handling the team, they will no doubt give a good account of themselves.

Millville will have "Joe" Dever of the St. Peter's, Charles Norman and Art Barnery, reputed to be one of the fastest coming ball players, who will manage the team, and a bunch of good steady consistent performers who can certainly be relied on.

Bayswater will have "Jack" Copeland of Marathon-Halifax Social and well, you know Jack's record; Mac Henry, a star of the St. Peter's; Sprout of the Clippers, and Dunlap, a young pitcher who will bear watching. The team will be looked after by "Bert" MacNutt, one time star Clipper-St. John-Marathon player, and "Mac" says he ought to win—if he don't get beat.

Credit should be given "Mac" as the league was his idea, and he worked hard in helping to organize it, and Bayswater for backing him up.

With the opening of the river season, the too-too of the motor boats, and the happy sail of the yachts, which will convey the people to the different summer resorts, there will be a rush for the grandstand of the different teams (which will be the pole fences) where they will have a chance to witness something doing always in a baseball way by what will be forever afterwards known as the St. John River League.

The schedule for this league has not yet been drawn up. A meeting for this purpose will be held Wednesday, April 1st, and if there is any resort on the river who have not as yet signified their intention of placing a team in the league, but who wish to do so, kindly communicate with the secretary of the league, W. J. Coates, care of the International Correspondence Schools, No. 3 Sydney street.

### LOCAL BOWLING YESTERDAY

VICTORIA ALLEYS.

In the five men league on Victoria Alleys last evening No. 3 team took three points from team No. 2. The score:

Team No. 2.					
Kelley	102	106	96	104	101-3
Evans	78	83	78	82	89-2-3
Riley	76	73	85	234	78

### COMPETING FOR CHAMPIONSHIP

New Haven, Conn., Mar. 20.—Competitions for the amateur figure skating championship of America and in two other championship events were begun here today on the Arena Rink. As the judging is done on both free and prescribed figure skating, the decision will not be given until tomorrow, competitors being required only to skate on form today.

The contests are the first to be held in this country under the international style recently adopted by the Skating Union of America. They are restricted to amateurs.

Among the competitors for the men's figure championship is Norman

"The

(Continued from yesterday)

"Hello, Connie!" said the man facing him. He spoke quietly, his attitude seemed one of indifference. Yet a careful observer might have noticed that the pulse of his face was beating faster than usual over that great body, under the ring, were rippling tremors of like those that shake the bleached bulldog at the sign street cat.

"Hello, Jim!" answered with equal composure. He had since Blake had hit seen him. Incredibly. His face was the with plum-colored circles under the eyes.

He made a move as though down the valise that rested on the floor. But Blake stopped him. "That's all right," he said, "get up!"

Blake eyed him. During seconds of silent tableau was appraising, weighing, estimating the strength of the other.

"What do you want, Jim? Binhart, almost querulously. "I want that gun you've there under your liver, pal. Blake's impassive answer. "Is that all?" asked Binhart. He made no move to produce the gun. "Then I want you," calmly he said.

A looked of gentle ex-pret over Binhart's gaunt face. "You can't do it, Jim," he said. "You can't take me here."

"But I'm going to," retorted Binhart.

"I'm just going to take you. He crossed the room as if to give the gun to Binhart. Binhart still sat in the chair. He made no movement. Blake's command. "What's the good of getting a house," he complained.

"Give me the gun," repeated Binhart. "I hate to see you put away that white shirt," Binhart spoke. Blake drew the revolver from his pocket. Blake's revolver. touching the white shirt. movement was made. It there until he had possessed hart's gun. Then he was putting his own revolver in pocket.

"Now, get your clothes manded Blake.

"What for?" temporized Binhart.

"You're coming with me. You can't do it, Jim," he said. "You couldn't get in the waterfront, in this town get you before you were touched by the water. You're yards away from the waterfront. And I'd fight you my move. This ain't Manhattan, you know, Jim; you can't white man. I'd have you about the first ship. And at the first port of call the best law sharks would be there. You can't do it, Jim. It's what I'll do. I'll get you." Binhart's retort. "I want you going to take you." Binhart laughed. "Back to New York." Binhart laughed. "I'll get you back to New York more than you could get me back to New York." "All right, then, I'll take the other way, if I ain't you alive. I've followed many thousand miles, C little loose talk ain't got me lie down at this game."

Binhart sat studying the for a moment or two. "Then how do you like the kind of talk that no?" "Nothing doing!" declared Binhart. Binhart flickered a gl as he thrust his own right into the hand-bag on his side. "I want to show you what get out of this," he said ward a little as he looked.

When his exploring right hand again above the top of Binhart firmly expected to of some sort between its was astonished to see a talk, something which bright in the light from lamp. The record of it had scarcely been carried Binhart, something which seemed to explode into a puff of noise that fell Binhart, when the silence seemed to roll off in a drifting cloud of smoke. It so amazed Blake that against the wall, trying hend it to decipher he

# Billie Burke

By Billie Burke. THE FIRST WORD—Make your elbows like Katscha's worth coming miles to see. Notwithstanding we have for a few years bared our arms to the gaze of the world, it is rarer to find a beautiful pair of arms than a beautiful face—and a beautiful hand is so seldom seen that one is always remarked. Many girls neglect their hands and

WORTH GOING MILES TO SEE.

your elbow shows a callous or roughness, it tells you unmistakably that you do not wash it properly. Add a tablespoonful of borax to two quarts of water and heat to a boiling point. After it has cooled, when you can bear your hands in it, take a flesh brush and soap well with any pure soap. Rub your arms from shoulders down to the hands, with it. See that you reach every part of your arm, especially your elbow, with this scrubbing. Rinse with cool water thoroughly and then rub vigorously with a rough towel. If your elbows have been very much neglected, use a little pumice stone on them. You will find them much smoother after this, although they may smart a little from the unaccustomed rubbing. Now take some cold cream or skin

food and rub in all over your arms, clasping one arm with the other and rubbing with a rotary motion. As soon as the emollient is rubbed in, wipe off all that remains with a soft towel. Do this every night for a week and you will find your arms very much improved.

White Spots. Oftentimes, when placing a vase of flowers on a table, we found that some water had run down the vase, leaving a white ring. After trying several things to restore the color, spirits of camphor finally solved the problem.

Remove Paint. To remove paint from chairs and other painted articles, mix thoroughly equal parts of common baking-soda and slaked lime. Moisten with water to the consistency of paint and apply, allowing to remain on for several minutes. Wash off, and the paint will come off with it. If paint is old and hard, allow preparation to remain on a little longer.

Stale Refrigerator. To take out the stale smell from a refrigerator after a winter of uselessness, go over it with a solution of three-quarters lukewarm water and one-quarter borax. It will refresh and give a wholesome scent.

The Freshen Laces. To freshen fine old laces, dissolve a little gelatin in boiling water and, while it is hot, dip the lace into it; then spread it between two pieces of blotting-paper and place under a pile of heavy books, leaving it there for a couple of days. The gelatin not only makes it smooth, but gives it a slight stiffness, most desirable. If the lace were stiffened by starch, no matter how thin, there would be a deposit left on the tiny spaces between the threads, but the gelatin leaves no traces. Ironing pulls out of shape.

Young girls should be careful not to put their hands to their faces, as their faces make the neglect of their hands more apparent. JUST ONE LAST WORD—You can't neglect your hands and arms and expect to be a beautiful woman.

## Helpful Hints

**Overheated Oven.** SHOULD the oven become too hot while baking, put in a pan of cold water and it will quickly cool it. It will not cause a light cake to fall, as happens if door is left open.

**To Produce Blooms.** To make geraniums branch out and blossom, place a common pin directly in the center of the end of the main stalk.

**White Spots.** Oftentimes, when placing a vase of flowers on a table, we found that some water had run down the vase, leaving a white ring. After trying several things to restore the color, spirits of camphor finally solved the problem.

**Remove Paint.** To remove paint from chairs and other painted articles, mix thoroughly equal parts of common baking-soda and slaked lime. Moisten with water to the consistency of paint and apply, allowing to remain on for several minutes. Wash off, and the paint will come off with it. If paint is old and hard, allow preparation to remain on a little longer.

**Stale Refrigerator.** To take out the stale smell from a refrigerator after a winter of uselessness, go over it with a solution of three-quarters lukewarm water and one-quarter borax. It will refresh and give a wholesome scent.

**The Freshen Laces.** To freshen fine old laces, dissolve a little gelatin in boiling water and, while it is hot, dip the lace into it; then spread it between two pieces of blotting-paper and place under a pile of heavy books, leaving it there for a couple of days. The gelatin not only makes it smooth, but gives it a slight stiffness, most desirable. If the lace were stiffened by starch, no matter how thin, there would be a deposit left on the tiny spaces between the threads, but the gelatin leaves no traces. Ironing pulls out of shape.

**Young girls should be careful not to put their hands to their faces, as their faces make the neglect of their hands more apparent. JUST ONE LAST WORD—You can't neglect your hands and arms and expect to be a beautiful woman.**

**Tobacco Smoke.** To dissipate the smell of tobacco smoke from a house, put a lump of crystal ammonia into a jar, and add three or four drops of oil of lavender. Pour over this a few tablespoonfuls of boiling water and let stand in the room. It will give out a faint, pleasant odor, which will entirely do away with all traces of the smell of tobacco.

**Stretched Cane Seats.** When the cane seats of chairs have become stretched, take a teaspoonful of washing-soda, and dissolve in a quart of boiling water. Dip a cloth in this solution and wipe the under side of the seats, leaving the chairs turned upside down to dry. This treatment will shrink the cane to its original size.

**Reviving Asparagus Ferns.** Should your asparagus plumosa seem to be drooping, give it the salt treatment. Sprinkle a half-inch-wide circle of table-salt upon the earth near the spot. In watering, the salt is carried to the roots. One treatment is usually sufficient to bring pronounced improvement in your plant.

## Buy this oven-tested flour

Your oven will certainly produce more bread and better bread as a result of our oven test.

From each shipment of wheat delivered at our mills we take a ten-pound sample. It is ground into flour. We bake bread from this flour. If this bread is high in quality and large in quantity we use the shipment of wheat from which it came. Otherwise, we sell it.

## What Can Be Done With Ham

The economical housekeeper can save money by purchasing a whole ham, yet in a small family it is hard to dispose of. A ham can be kept for some time, if it is well wrapped by first placing paraffin paper over the cut side and hanging the ham in a cool, dry place, writes Harriet R. Whitaker in the Ladies Home Journal. Slices can be cut off for boiling or frying now and then until the quantity remains that one wishes to boil or bake. It can be disposed of then to the last crumb with a relish. It saves time to put through a meat-chopper all of what remains of a boiled ham at once, and then pack, well covered, in a refrigerator.

Right away to boil a ham—Soak the ham overnight, wash and scrape it and place in a large kettle. Put it on in cold water and heat gradually. It is best to let it remain an hour or more heated before it comes to a boil, then keep simmering gently, allowing 25 or more minutes to each pound. Some vegetables and herbs in the water improve the flavor. After it is thoroughly cooked let it cool off in this water. Remove the skin and slash the fat, sprinkle with sugar and set the ham in a warm oven for the sugar to dissolve. If the ham is to be served hot only partly cool it in the water, sprinkle with brown or white sugar and cracker or bread crumbs, press in a number of whole cloves, heat and brown well. Place a paper frill around the knuckle, and garnish with sprigs of parsley. Ham cooked in this way is tender and juicy.

Old English ham-and-chicken pie—Lay thin slices of ham in the bottom of a baking-dish, then a layer of cut-up cold chicken; season very lightly with salt, pepper and nutmeg. Rub the hard-cooked yolks of two eggs in a spoonful of flour and a large spoonful of butter; moisten and stir in one cupful of chicken stock and pour this over the first layer; add more chicken, cover with a paste not quite as thick as for pie, and bake slowly for half an hour, or for 40 minutes if the meat is underdone. Serve hot.

bread half an inch thick into rounds; toast and butter; sprinkle with ground ham. Separate the whites from the yolks of the eggs, using one egg for each round of toast, leaving the yolks in the half-shells, until wanted. Beat the whites very stiff, adding salt; divide on each piece of toast, make a cavity in center, place a yolk on each, add a little butter and pepper and leave in a hot oven until the white is slightly colored. This is a very tempting looking dish. Garnish with parsley.

Hedgehog—One cupful of ground cold ham, one cupful of chicken or veal, one cupful of breadcrumbs, one cupful of cooked rice or any cereal left over, two tablespoonfuls of minced parsley, two teaspoonfuls of grated onion, a piece of butter, two eggs well beaten. Bake until brown. Serve with tomato sauce, using strained and thickened tomatoes well seasoned with hay leaves, three cloves, onion, parsley, salt and pepper.

Cabbage stuffed with ham—Remove the heart from a large head of cabbage. Mix chopped ham with an egg yolk. Breadcrumbs or cut boiled rice may be added to fill the cavity. Season the cabbage with pepper and a

## Quebec And The Poultry Industry

(The Journal of Agriculture and Horticulture.)

That the poultry industry of Quebec is an important one is never to be doubted. It is developing rapidly notwithstanding the fact that everywhere throughout the country many farmers are giving but little attention to their fowl. In some sections improvements have been quite noticeable while in other sections the same old conditions prevail and things are as backward as ever.

One hundred fowls per farm and one hundred eggs per hen, should be the motto for Quebec, as far as poultry raising is concerned.

**Poultry and Mixed Husbandry.**

The system of mixed farming as carried on in the Province is ideal for the rearing of poultry. Quite a few poultry plants, where eggs and other poultry produce form the basis of returns, are quite successful. The returns from the flock should add materially to the income of the fruit-grower and the dairyman. The orchard makes an admirable run for poultry, especially growing stock. In the orchard, many insect pests will be destroyed and the manure from the fowls will greatly enrich the soil. By-products in the orchard and in the fields are converted into profit. Fowls are economical, and when a poultry department is carried on with other branches of farming a system of rotation can be adopted.

Until recently comparatively little attention has been given to poultry-raising in this Province, the industry having been largely considered as a side-issue of but little importance. There is money in hens but it takes a good man to get it. Most people, however, have the idea that for poultry keeping very little, if anything, is required beyond common sense and inclination; they think there is nothing to learn, no knowledge, or experience necessary, but simply to buy some land, build houses, and stock with fowls and the fowls will return money several-fold. The keeping of poultry is not different from any other business and requires a certain amount of knowledge in caring for the fowls. There have been many failures in the poultry business, especially when carried on as a business by itself and these may be attributed largely to one or more of the following conditions: In the first place there is a great lack of appreciation of the value of the hens. The average farmer pays so little attention to his flock, that it is often not profitable. Mangled fowls are found on most farms and mangled methods are employed in caring for them. Probably the greatest fault with the average farmer's and poultry-man's way of raising poultry is neglect. Most of them know better but they don't care. The average farmer as a rule is rather indifferent and unconcerned about his small flock. He has no system in breeding, and does not practice selection to any extent.

Practically no attempt is made to improve the productive qualities of the laying stock. The most serious charge against the farmer is that he makes no efforts to conserve the vigor of the flock. The fowls are often kept on the same ground year after year and no special attention is paid to supply green food for the young stock. Moreover in many cases the chickens are infested with lice. Also many poultrymen give little attention to the question of proper housing. Inroads of disease through contaminated soil, lack of sanitation and overcrowding of the birds in damp, dirty, ill-ventilated houses, do a great deal to destroy the usefulness of the flock.

The above undesirable conditions may all be overcome very easily if the farmer will only take a little interest in his flock and will use ordinary intelligence in feeding, housing and raising his poultry. Failures are usually due to inexperience and to those who are about to start poultry raising, it may be said that one of the safest ways is to start in a moderate way and to learn the business thoroughly before much money is invested. Mistakes will certainly be made and different problems will present themselves for solution before success can be obtained in any extended way. The farmer is in the best position of all to make money with poultry; he usually has plenty of land, so that his fowls can be kept on sweet, clean soil year after year. He has plenty of room to give his plant a good location, he is generally in a position to house the fowls comfortably, and he can secure feeds cheaper than any one else. Also with the small flock on the farm it requires comparatively little time and attention to make it a success.

**Better Stock.**

Every farmer, on the average, could well keep 100 laying hens and these would require but comparatively little more attention than the 50 or so birds now kept. More important than increased numbers however is first to get better stock. Nothing pays as well as pure breeds and the farmer should improve the productive qualities of his laying stock by introducing pure blood as soon as possible. I do not advocate discarding it with pure bred stock, but certainly a pure bred cockerel should be used on the breeding stock from year to year. In this way, the quality of the flock is gradually improved. If it is convenient, however, to get rid of the mongrels at once, it would be advisable. Farmers, as a rule, should keep pure bred fowls as they are much more profitable than mongrels or even cross-breeds. There are two classes of fowls with which the farmer is chiefly concerned:—First, General purpose breeds, and second, Egg Laying Breeds. In the general purpose class, there are such breeds as Plymouth Rocks, Wyandottes, Rhode Island Reds and Orpingtons. All of these breeds are good layers, and are also

good table birds; they combine egg and meat production, and usually lay well in winter. In the Plymouth Rocks, the Barred is the most popular variety and the White Wyandotte is the most popular of all the Wyandottes. There are also the Single Comb Reds and the White and Buff are the popular Orpingtons. The Orpington is a white fleshed bird while the other three are yellow fleshed. All these are popular market fowls, are hardy and profitable.

In the egg laying class we have such breeds as the Leghorns and Anconas. These are typical egg laying machines and are bred especially for egg production. Of all the Leghorns, the Single Comb White is kept more than all others put together. The Ancona is practically a Mottled Leghorn. The breed which a farmer should keep will depend largely upon his nearness to the market, and what the market demands. The ruling price of eggs and poultry will also decide whether he will give his chief attention to egg production or to the production of the eggs and poultry flesh. The egg laying breeds produce good broilers while the general purpose breeds produce excellent roasters. As far as the eggs are concerned, the general purpose breeds usually lay brown eggs, while the egg laying breeds lay white eggs.

The most important of all, as far as pure breeds and mongrels are concerned, is that pure breeds are able to transmit their desirable qualities to the next generation. This mongrel can never do definitely. At any rate on many farms, haphazard methods of breeding are employed with the result that the farmer does not know what to expect from his breeding stock, and takes whatever he gets. The value of any breed is estimated, not on the eggs it lays nor the value of meat produced, though these qualities are valuable, but the breeding value. Pure breeds transmit these egg laying and meat producing qualities with more certainty than do mongrels or cross-breeds; also a pure bred flock will usually give a more uniform product in eggs and dressed poultry than the flock of mongrels. The price that a fowl brings, over and above its eating quality will depend upon its breeding qualities, that is, whether or not the bird has the power of transmitting that quality to the offspring. Neither mongrels nor cross-breeds can do this, so that we must depend upon pure breeds.

There is still another feature about the poultry industry of Quebec. It is this: that a great many farmers and poultrymen are keeping old hens which should have been killed off at the end of their two years. Under the best conditions, the egg production of a hen decreases about 25 per cent each succeeding year, and many old hens on farms are simply eating

their heads off. Laying fowls are not usually profitable after two years.

**Better Method of Breeding.**

Another great need is better methods in breeding poultry. There are very few farmers, who are adopting any system in breeding. Practically, no selection whatever is made, and naturally there is very little improvement in egg production. Vigorous selection should be adopted every year, and the farmers should breed only

from the best fowls of his flock. Particular attention should be given to the male birds, seeing that they are well developed, fully matured, vigorous cockerels with plenty of constitutional vigor. In female, all weaklings, undesirable birds, and poor layers should be constantly weeded out. The farmer cannot trespass his flock very well, but he can select from the standpoint of vigor every year. Best results are obtained by using cockerels and the farmers should breed only on two-year-old hens.

The question of the construction of a poultry house, and the question of giving free range to stock are two important factors in maintaining vigor. The poultry house should be inexpensive, comfortable, convenient, dry, sanitary, and provided with plenty of fresh air. Fresh air is one of the most important things for laying stock. It is surprising how much cold a hen will stand providing the house is kept dry. Many farmers are fortunate in being able to house their

fowls in comfortable houses which are often built inside of the barn or as an adjunct to the cattle or horse stable. Here the fowls do very well, particularly in winter. The trouble, however, is to keep the house dry. This trouble may be overcome by leaving the front of the house open. If there is one thing which is needed more than any other, as far as housing is concerned, it is to provide the fowls with fresh air at all times.

# UP-TO-DATE NEWS OF THE MOVING PICTURE WORLD

## THE GEM'S BIG BILL OF PICTURE HITS

Next Week's Features Are Very Attractive and Include Three Successes in the Pictorial Field.

The programme arranged for the Gem Theatre for next week includes several distinctly successful features, which are certain to continue to maintain the standard of pictures shown at this popular house, and give added pleasure to its patrons. In addition to the picture features which have been secured, there has been an unusually attractive programme of musical hits by the orchestra, under the direction of H. W. Burnham, strengthened by Kubell, who has established himself in the city as a violinist of repute.

For the opening show on Monday and Tuesday a strong drama of the wrongs of a factory girl will be presented, "Broken Lives." It is a picture which has caused a sensation in other cities because of its exposure of the dangers and risks incurred by working girls in the larger factories. A rich and selfish woman having power and influence, because of her wealth, is shown in the picture as the owner of a factory in which several young girls are employed, for whom she is the means of adding to her riches, she has but little regard. Her main purpose is to crush the spirit of independence within them at all costs. In one of the scenes a fire breaks out in the factory and the New Jersey fire department are seen in action in extinguishing the blaze. This is a particularly effective scene and has created keen excitement wherever shown. The Vitaphone Co. have a fascinating two part story for Wednesday and

## THE CANADIAN WEST IN GOOD FILM STORY

Star will Present Screen Narratives, with Mounted Police as Features.

"Into the North" is the title of the "Star" Theatre's first feature for next week, to be shown on Monday and Tuesday. This two reel special story of the Essanay Company starts with a bank robbery in a large American city and carries with it most exciting incidents into our Canadian Northwest. This subject will doubtless prove one of the strongest features shown at the "Star" picturing Canadian scenes and the Northwest Mounted Police.

On Wednesday and Thursday a two reel social drama by the Pathe Company will be shown. Pathe pictures are favorites with "Star" patrons and "Her Masked Beauty," with their heaviest cast and beautiful stage effects is bound to merit more admiration for this company's productions. The Selig Company's special society drama, "When May Weds December," will lead the programme for Friday and Saturday. From fifteen to eighteen pictures a week are the goods shown on the canvass by the little North End Theatre. Included in the last two big features of two or more reels.

Thursday, in "The Master of the Mine," a drama showing an uprising of mine-workers and the flight of the young owners against the bitter odds. A cave-in of a tunnel with the entrapment of human lives, makes an intensely gripping situation. There is a strong vein of love throughout the picture, and it is finally triumphant. The Vitaphone players in the film handle the various roles to the satisfaction of all.

## A History of the Development Of Motion Pictures in St. John

### A NEW PIANIST AT THE UNIQUE

Able Exponent of Harmony Helps to Interest Patrons in Pictures.

The Unique Theatre is to be heartily congratulated on having secured the service of a musician whose excellent work last week upon the piano at this house proved a feature and a treat.

The task of mounting the different picture plays with music appropriate to each scene presented is far from being an easy one, as judgment must be exercised in the selection of music brought into play by the artist who sits hour after hour in an endeavour to bring forth music suitable to the picture.

In J. Allan Gardiner the Unique has found an artist most capable of performing duties assigned him. Beauty of tone, accuracy of statement and fluency of execution characterized the work of Mr. Gardiner, while his incidental selections in imitations of bells, horns etc., greatly enhance the value of the scene being projected. Mr. Gardiner is a graduate of McGill, is a newspaper man of wide experience and a writer and composer of ability. He successfully needed his own dramatic company some few years ago, and is well versed in things theatrical.

### Wonderful Growth of Business in Past Seven Years.

Two Hundred Chairs in First House Here

Now Forty Thousand People See the Movies Each Week—Some Interesting Features.

It is said by some, statistically inclined, that there are upwards of forty thousand persons attending the local picture theatres weekly. If this is true, or nearly so, possibly a brief retrospective glance, beginning at inception of the business locally, might be of some slight interest to at least some of this large number.

The charter members of the above large band of amusement seekers, will readily recollect the first picture theatre location, in a small store forming a portion of the building at present housing the clothing establishment of Henderson & Hunt, Charlotte street. The far-seeing promoter was Henry Mills, a middle-aged man from across the line, who, in February, 1907, had the temerity to invest several hundred dollars for two hundred chairs or less, and a picture machine. His establishment he styled "Fairlyland," and in this small and unpretentious abode, Mr. Mills began to tread the path of the pioneers, which, however, as is so often the case, led neither to fame nor fortune.

### CELLIST HELD ANOTHER WEEK

Imperial Audiences Will Still Enjoy Ralph Smalley and His Excellent Music.

The cello playing of Ralph Smalley at the Imperial Theatre this week has been truly a feat of good music; and the announcement made in this issue of Mr. Smalley's re-engagement for the second week will doubtless be received with a great deal of satisfaction.

The Boston Symphony man has proved a delightful visitor in a social way as well as a musical. He is a very bright conversationalist, particularly along the lines of his art, and the circle of acquaintances in which he has moved during his stay has enjoyed his little inside talks about orchestral affairs and concert work in that wide realm of cultured Boston and other metropolitan cities where he labored for years.

The Boston Symphony Orchestra, in which Mr. Smalley has been a valued solo player, consists of ninety-five instruments, sixty-four of which are strings, the remainder being made up of woodwind and brasswind instruments. Having sat under the baton of some of the world's most eminent conductors and having played the most difficult masterpieces of the greatest writers in the history of music, the cellist at the Imperial naturally reflects the severe training such work would entail. One of the most amusing and interesting lines of conversation upon which Mr. Smalley can be engaged is that pertaining to the solar winds and fancies of great singers and of the mistakes which numbers of them are making from time to time but which are covered up by very clever orchestral work.

## "THE ADVENTURES OF KATHLYN"

OPENING CHAPTERS OF THIS WONDERFUL STORY.

### IMPERIAL THEATRE

takes great pleasure in announcing the commencement of Harold McGrath's thrilling series of East Indian adventures. Throughout the length and breadth of the continent the "Kathlyn" stories are creating a furor, and at Imperial Theatre, Montreal, the interest is at fever heat in each succeeding chapter. The stories will be shown in this city fortnightly, on Friday and Saturday.

ENJOY THIS SERIES FROM THE VERY START

Weekly in the Paper; Fortnightly at Our Theatre

### BETTY DONN Soprano

"A Heart That's Free."

### STANDARD NEWSPAPER

has acquired from the Chicago Tribune the Maritime Provincial rights to publish the "Kathlyn" stories each week. Therefore, Imperial patrons will be able to get one chapter each Saturday and two chapters in motion picture form every fortnight, as before mentioned. Back numbers of The Standard can always be had at the office of either the theatre or newspaper.

ENJOY THIS SERIES FROM THE VERY START

Weekly in the Paper; Fortnightly at Our Theatre

### EXTRA PICTURES

Especially Comedies.

### NEXT WEEK'S ATTRACTIONS

MR. RALPH SMALLEY, SOLO CELLIST of the Boston Symphony Orchestra, has been re-engaged for a second week which is doubtless welcome news to all Imperial patrons for this young gentleman has made a pronounced hit during the week.

THE NEW-COMER TO THE IMPERIAL is Mr. A. D. Fleming, who commences his engagement with that splendid ballad, "The Song My Mother Used to Sing."

ON MONDAY AND TUESDAY the premier film feature will be a two-reel Pathe drama, "The Sword of Damocles," dealing with a dramatic incident in the life of a poor composer and carrying the watcher into the inside circles of operatic affairs in cultured Paris. There will be additional comic films.

ON WEDNESDAY AND THURSDAY what is promised as the finest Famous Player feature yet issued will be presented, namely "The Pride of Jennico," a four-reel reproduction of a play which has been seen by millions of people in various parts of the world. This story is described as a conflict of hearts and swords, highly dramatic, exciting throughout and containing an appealing love story.

FOR THE WEEK-END the pictorial offering in chief will be in lighter vein, a rip-roaring Vitaphone comedy of 2,000 feet length, "Picks, Art and Sausage," introducing such champaign fun-makers as Sydney Drew, Kate Price and others.

THE HOUSE OF REAL ATTRACTIONS.

SPECIAL "BRONCHO BILLY"  
For Friday and Saturday

## "PRIDE OF JENNICO"

A FOUR-REEL PLAY

Famous Players will Appear in the Story at the Imperial, on Wednesday.

Playgoers who revelled in the pleasure of seeing the pictorial version of "In The Bishop's Carriage" at the Imperial Theatre the latter half of last week, and who also watched the same standard feature in filmed form, have another season of enjoyment in store next Wednesday and Thursday. Upon these dates the Imperial Theatre will produce "The Pride of Jennico" in four reels, a story which had a tremendous sale all over the world, and which dates its inception from, ran for several seasons in the largest metropolitan theatres. As a motion picture it is being enjoyed by millions today.

"The Pride of Jennico" is a story telling of the gallant days of old, of romance and roses and in stages of fortune and glory were carved by the sword and daring deeds were performed for the smile of a lady fair. In a word, it is a dramatic conflict of hearts and swords. With a highly romantic story motive, an atmosphere of chivalry, magnificent scenic effects and elaborate costuming, a charming diversion for people of all classes and ages is assured. The Famous Players Stock Co. appears in full strength in this production, and such favorites as House Peters, Hal Clarendon, Marie Leonard, Betty Hart, Wellington Player and others have conspicuous parts to play.

Searle Dawley, who attained prominence in the studios of the Edison company up to a short time ago, produced "The Pride of Jennico" and has given scrupulous attention to all those fine points which bespeak thorough film-play. Everywhere and in every scene is luxury and grandeur which with the magnificent vistas of tropical Cuba has the outdoor settings of the piece, the whole effect is delightful.

### NEWSY REEL NOTES

Mr. Jenkins the travelling representative of the Mutual Film Corporation is in the city this week, making arrangements for the bookings of several special features for the Unique and Lyric. Mr. Jenkins will make tour of the Mutual houses throughout the provinces before returning to the head office at Montreal.

Charles Murray, the well known Irish comedian of the Biograph Co., signed a contract with the Keystone forces this week.

Wednesday and Thursday of next week will be known as Dicken's Day at the Unique Theatre. The special attraction for this occasion will be Charles Dicken's well known novel, "The Cricket on the Hearth," which is a two part production of the American Co.

James M. Cummings, general manager of the Mutual Film Corporation is expected in the city from Montreal today.

The Reliance production entitled "Daybreak" has met with favorable comment from the patrons of the Unique, who witnessed the novel photo play last Wednesday and Thursday. Miss Mabel Normand will hereafter be seen playing opposite Mack Sennet, who by the way is an old friend of hers, both of whom have been connected with the Biograph Co. at the one time.

## "THE GENTENARY BROTHERHOOD"

The meeting of Centenary Brotherhood has been withdrawn in the interests of the Metropole meeting in the Imperial Theatre at 4 o'clock.

Rev. W. H. Barraclough's morning topic: "Individual Work for Individuals."  
Major D. C. Moore of Toronto will preach in the evening.

## Congregational Church

Another Illustrated Sermon by Rev. Mr. Haughton Sunday Evening

The Garden of Eden to the Lion's Den.

Come and see Schopin's masterpiece of Rebecca, Moses, David, Ruth and Naom, "The Queen of Sheba," "The Feast of Belshazzar," etc. Wonderful staves, superbly illustrated.

EVERYBODY WELCOME

## THE LYRIC LINE UP FOR THE COMING WEEK

Good Vaudeville Acts Have Been Secured for the Entertainment of Lyric Audiences

Exploiting society and modern dances, singing popular songs and offering catchy conversations, Jessen and Jessen should prove one of the most novel attractions of this season's vaudeville, and their engagement at the Lyric the first three days of next week is sure to prove a popular one.

## THE REFORMERS; A MODERN SATIRE

Biograph Photo Play will be Featured at the Empress—Two Part Story.

In "The Reformers," we behold the uplifter, a peculiarity of the human species, quite convinced that all that is, is wrong. Forth to the uplift, he minds everybody's business but his own, until that business is as clean, pure and spotless as himself. Verily in these later days there is no school of art named "Minding One's Business."
