SHIP BUILDING

Yards-Orders From Morgan's Trust.

London, Nov. 3.-The activity prevailing in British shipyards is unprecedented, largely in consequence of orders from the International Mercantile Marine Company The tonnage in the hands of Belfase builders, repairing and under construction, is 300, 000. The Altantic Transport Company has ordered three vessels of 13,000 tons each, which will be named Minnehakta. Minnewaska and Minnielowna The largest vessel afloat, the White Star liner Cedric, is being detained at Belfast, where her passenger accommodations are being enlarged and improved. It is stated that a sister ship of the Cedric is now on the stocks. She will be 75 feet longer than the Cedric It is reported that two new Atlantic greyhounds will be laid down which are designed to rival the new flyers of the Cunard Line, which are now being constructed on the Clyde. All the

His Visit Will Be Strictly Private and Personal.

BAD REPORTS FROM BERLIN invariably full, and discipline is not re-

Shipbuilding Trade Is Very Dull-

British Volunteer System Virtually on Trial.

London, Nov. 3. - It is understod that the visit of the Kaiser to Sandringham will be strictly private and personal, both by desire of the King and also by that of the guest himself. Several cabinet ministers have, however, been invited by the King to meet the German Emperor, and in-formation obtainable both in Germany and England indicates that while the visit will be private, there is little doubt that the political relations of the two countries will be touched upon during the meeting of the two mon-

BAD NEWS FROM BERLIN.

From Berlin come pessimistic reports on the state of the German shipbuilding trade. Five hundred man are said to have been dismissed within a few weeks from the Krupps' Germania yards and the Howaldts' yard at Kiel, and it is anticipated that further dismissals will take place shortly. The work for the shipping combine has caused unusual activity in the Belfast snipbuilding industry, and it is stated that 1,000 more experienced hands could now find employment at Harland & Wolff's. The tonnage in the hands of the Belfast shipbuilders, repairing and under construction, will by the end of this week reach nearly 300,000 tons, and it is chiefly for the lines connected with the combination. THE VOLUNTEER SYSTEM.

Britain's volunteer system is virtually on its trial. Mr. Brodrick has decreed that the volunteers must spend six days in camp at a fixed period, and this regulation has caused a great deal of dissatisfaction. Numerous resignations of officers have been notified, and the country there has been a big falling off in the recruiting returns, but the exact state during his sejourn,

of affairs will not be known until the official statistics are issued.

CONSERVATIVE MAJORITY. The Conservative majority in the House of Commons works like a well-oiled machine. The revolt of Lord Hugh Cecil and other high churchmen is the exception that proves the rule. Day after day and hour after hour the Government supporters assemble and fol-low the Prime Minister into the division lobby, and the majority often rises above 130 and seldom falls below 100. While the Liberal muster is never invariably full, and discipline is not re a measure which is not in any sense popular and excites no enthusiasm, is tribute to Premier Balfour's admirable leadership. It also indicates a dogged determination, under party SLEEP AND BREAKFAST ON CARS pressure, to enact the education bill and clear the ground for other measures on which the Government can appeal to Many Mines Working With Augmentthe country in the course of two or

three years. WHIPS HAVE NO TROUBLE. Whether there are grumblers in the ranks or not, the whips have an easy resource for enforcing discipline. bare suggestion of a premature appeal to the country on the education question suffices to bring the waverers into line. Apathy prevails, but, except when Premier Balfour rebukes Lord Hugh Cecil, the Tory phalanx remains solid.

NEXT SESSION'S WORK. It is now conceded by Govern-ment supporters that the chief work of the Irish land purchase bill, aiming at a more comprehensive settlement than Wyndham's first project plated. The appointment of Sir A. Macdonnell as permanent under secretary for Ireland seems to foreshadow this result. That measure, according to Tory forecasts, will naturally be lowed by a redistribution bill, by which the voting strength of the Nationalists in the House of Commons will be ma-terially reduced. This programme will enable the Government to appeal to the country on Irish questions rather than education measures, and will embarrass the Liberal Opposition, since Lord Rosebery and Sir Henry Campbell-Bannerman are at variance respecting the home rule policy.

THE KING IS WELL. The King has returned to London after a week of good weather at Newmarket, where he enjoyed the races and had been driving and shooting with intimate friends. His week in the open air has been a fine tonic after the heavy work of royal functions the pre-vious week. There has been a strong rally of what was once known as "The Prince of Wales' set" at Newmarket, and all the country houses within driv-ing distance were filled with guests

Unprecedented Activity in the British Peer of the Realm and a A Through Service in 1904 and the Time Will Later Be Reduced.

route every year. Bernard Fraser, had been sentenced at the Norwich assizes to ten years penal servitude. With him to be sentenced parts to Pekin will take at first Paris to Pekin will take at first about twenty days and afterwards a little over fourteen. The average speed per hour will be: From Paris to Berlin, 53½ miles; from Berlin to with one of the oldest and proudest Alexandrovo, 40; from Alexandrovo to families in the United Kingdom. ed Force-Output Largest Since Strike Ended.

Hazelton, Pa., Nov. 3. - The anthracite coal strike commission arrived in the Lehigh Valley region from Scranton today. The commission spent the night and ate breakfast on their spe-

cial train. The party was met at Pond Creek. about twelve miles north of here, by District President Duffy, of the United Mine Workers, who will represent the miners while the commission is in this region. The operators are represented by General Superintendent Warriner, of the Lehigh Valley Coal Company, and General Superintendent Richards, of the Lehigh and Wilkesbarre Coal Company. The programme for today was made up so as to cover the entire Hazelton di

ne entire Hazelton district. The greater part of the territory was lewed from the special train. Upper Lehigh, Sandy Run, Highland, Free-Drifton and place the home of John Markle, the individual mine operator-were visited, and the train was then run through Ebervale.Lattimer, Milnesville, and in-

to Hazelton. A visit to one of the mines took up the time until noon. This afternoon the south side will be gone over by the commission, and it is probable that to-morrow will find the arbitrators in the Panther Creek Valley.

INCREASED OUTPUT. Wilkesbarre, Pa., Nov. 3. - All of the mines in the Wyoming and Lackawanna regions are working with an increased force of men today, and the

216 Dundas St., corner Park Ave. output of coal for the day will be the largest since mining was resumed. A great many of the mines, which operated with a limited force last week, now have their full quota of miners at work. President Mitchell has completed his task of collecting data for presentation to the anthracite commission. All the matter Mr. Mitchell has collected is now in the hands of the recorder of the commission, some additional information for the miners side of the case having been sent to Carroll D. Wright today. President Mitchell's legal advisers think a very strong case has been made out for the

SHORTAGE OF CARS. Pittsburg, Pa., Nov. 3. — A large percentage of the railroad coal mines in the Pittsburg district were closed Saturday on account of a shortage of cars. The outlook for this week is gloomy, and it is believed a number of iron and steel mills will be forced to suspend operations. Very few mines along the Pan Handle Railroad are being operated. When these mines are ruining full 1,500 railroad cars are required daily, but less than 200 were available. The Monongahela division

is getting 5 per cent of the cars neces-COAL 30 YEARS OLD. Brooklyn, Nov. 3. - Hasley Corwin. of Brooklyn, had 20 tons of hard coal in his cellar. It had been there since he was a child, has father having bought it 30 years ago. At that time the price of coal was as high, and the elder Corwin paid \$15 a ton for his supply. Next day the price dropped and kept on dropping. Corwin bought more coal at the lower price and vowed have the price and the price of the supply the price and the he would never burn a lump of his \$15 coal until it was worth what it cost him. Corwin kept his vow, but didn't live to see coal cost \$15 again.
The son respected his father's whim and the coal remained untouched in the bins for years. Now it is going into the Corwin furnace by the liberal

Six Persons Are Said To Be Affected-Diagnosed as Chickenpox.

Toronto. Nov. 3 .- Six cases of smallpox are reported from Caradoc Township, Middlesex County. They were

diagnosed as chickenpox.

Eighty-Five Conversions. Toronto, Nov. 3 .- Eighty-five persons professed conversion at Gen. Booth's three Massey Hall meetings yesterday, nineteen in the morning, fifteen in the afternoon and 51 in the evening. The great auditorium was crowded to the doors long before the evening service began, and hundreds were turned away. At each of the other services

there were very large congregations. Big Grain Firm in Trouble. New Orleans, Nov. 3.—President F. J. Odendahl, of the Odendahl Commission Company, Limited, one of the largest grain exporting firms in the United States, announces that the firm has been forced into liquidation. He says: "Our business has been very profitable and large, but the profits have been diverted into other chan-nels, not through any fault of the writer." The announcement follows a widely-circulated report of alleged forgeries amounting to between \$150,-

000 and \$175,000. Marconi's Success.

Signor Marconi in an interview at Stace Bay, said he felt confident of the success of his system of trans-oceanic communication without the aid of submarine cables. Alluding to his last experiments he said: "For 200 miles from Poldhu I transmitted messages on my last trip, and I received messages a distance of 500 miles from Poldhu. As soon as the machinery is installed in the Tablehead station, which will be in a few days. I will commence to experiment. I will place the Carlo Alberto a short distance from the shore and experiment between her and Tablehead and when I am satisfied that everything is workproperly I will send a message to

REMARKABLE STRIDES MADE BY THE GIANT OF THE NORTH

Rapid Progress of Canada in average grade than the country ever the Past Few Years.

Great Development in Iron, Steel and Agricultural Industries-Increasing Influx of Settlers.

New York, Nov. 3 .- Bradstreet's istue of Saturday says:

Canada has made giant strides of late years. This fact has been apparprogress which augurs well for the immediate future of the country. Comada have a recollection of geography lessons at school in which it was set for the growing of wheat. forth that the two chief items of export in Canadian trade were fish and that in the list of exports for the first Quarter of the present fiscal year fish of the mines in first and second places respectively, replacing fish and lumreally important staple exports of the Dominion.

Although there has been a remarkable expansion in nearly all departments of Canadian trade the past year or two, the

GREATEST DEVELOPMENT has been in connection with the iron substantial additions to the domestic scale in Canada does not date back many months. The development of this industry has been rapid the past

Nature bountifully provided the Do-minion with the material resources a time in the history of Canada when necessary to the successful prosecution of iron and steel manufacture, and to a considerable extent Canadians have provided the necessary capital for the operations along this line. But the working out of the experiment was le t for the enterprise and skill of two Americans, Mr. H. M. Whitney as- ily increasing, and this is giving Cansumed the task in Nova Scotia of proving that iron and steel could be profit- in home enterprises. During the year

show what could be done in the same way in the West. To these two American gentlemen, who maugurated large country. The total exports of Canadisteel and iron industries in Eastern and Western Canada, the people of the Dominion owe a debt of gratitude. of Canadian produce to Great Britain The results they have achieved in the in the six years mentioned rose from past year make it clear that the experimental stages have been passed, the United States increased in the and indicate that Canada in the future same time from \$34,000,000 to \$66,000,000. will take an important place among the

fron and steel producing countries.

The production of coal in Nova Scotia has shown a steady development this year both in connection with the smelting industry and for export. while the coal mines of British Columbia, the Crow's Nest mines in the Rocky Mountains and the mines on Vancouver Island have shown unusual activity.

In agriculture Canadians have been far from idle. There has been a large increase this year in the cereal production. In Manitoba and the Northwest, which are inclined to claim to be "the future granary of the empire," the production of all grains this year exceeded for the first time the 100 .-000,000-bushel mark. Of this 60,000,000 bushels was spring wheat of a higher

HOMES FOR ALL.

The large influx of settlers to the West the past ten months has, with the increased production of grain this BRIGHT OUTLOOK FOR FUTURE year, greatly stimulated the demands of the West for staple goods from Eastern Canadian centers of manu-Supply has in many cases failed to keep pace with the increased demand, and factories and mills are now being taxed to their fullest capacity in meeting the requirements of the mercantile trade. The settlers who went into the West the past ten months did not break ground for crops this year, and they, with the many others now going into the country, will cause a still further increase in the grain production next year.

It is believed that Western Canada, ent to the most casual observer, while with favorable conditions, will in 1903 to the student taking an interest in produce 100,000,000 bushels of spring the economic development of a people wheat. There were in the West this there is abundant evidence of material year less than 3,000,000 acres of land A Maniac Kills Two Persons With under wheat. There are in that part of the country 40,000,000 to 50,000,000 acres of land as good for the producparatively young business men in Can- tion of wheat as those already under cultivation. This gives some idea of the possibilities offered by the West

FULL OF PROMISE. The future of the West is full of lumber. It is interesting now to note promise. Leading business houses in sisted of his wife, three daughters and no minister, however able, should at-Canada are establishing branches in anticipation of the large business that will accrue there a year or two hence, sixth and lumber seventh, ani-mals and their produce and products in industrial enterprises, and the chartered banks have been steadily increasing their capital to provide for ber, which were formerly the only two branches. Two years ago the total paid-up capital of the Canadian chartered banks was \$66,264,967; now it is \$70,270,408, and arrangements are being made now for a still further expansion in the banking capital of the coun-

INDUSTRIAL OPERATIONS. In Ontario there has also been a and steel industries and in agriculture. marked expansion in industrial oper-When the end of the current half year ations this year. The increase in agis reached it will be found that the re-sults of the operations in these the present crop year has been large. branches of industry have caused very Total crops of wheat, barley, rye, buckwheat, oats, peas and corn amount to trade of the country. The manufacture of steel and iron on an extensive production of grain in Ontario so far recorded for one harvest. This, with the increased activity in lumbering operations, mineral lands and manufactures, will cause a further expension in mercantile trade and insure another labor was so fully employed, and so well paid as at the present time. In a good many lines of manufacture the demand for skilled labor cannot be supplied, and the output is limited only by this difficulty.

The export trade of Canada is stead-

adians large sums of money to invest ably produced there on a large scale, ended June 30, 1902, the aggregate ing is held on the charge of murder. while Mr. F. H. Chergue, referred to as trade of Canada, taken on a basis of MANIAC'S DESPERATE DEED while Mr. F. H. Chergue, referred to as THE JASON OF ALGOMA.

who sought the Golden Fleece in the rich mineral fields of New Ontario, undertook, at the Canadian "Soo," to show what could be done in the same. it is claimed, exceeds any growth shown in a similar period by any other an produce last year exceeded by \$90,-000,000 the total in 1896. The exports \$62,000,000 to \$109,000,000, and those to While the Americans have been fair-

ly liberal consumers of Canadian goods, Canadian trade with the United States shows a much larger expansion in imports than in exports since 1896. The imports from the United States of dutiable goods rose from \$29,000,000 in 1896 to \$60,000,000 in 1902. Free goods in the same time rose from \$29,000,000 to \$60,000,000. The imports of dutiable goods from Great Britain rose in the same time from \$24,000,000 to \$35,000,000 and of free goods from \$8,000,000 to \$14,-000,000. These figures are especially interesting, owing to the fact that they cover the period that the preferential duties on British goods have been in In 1896 \$17,000,000 duty was collected in connection with the \$8,000,000. In 1902 \$15,000,000 duty was collected on American goods, against \$7,750,000 last

ing, held on the charge of killing his 4-year-old son, is threatened with a son. With his daughters and boy, the fathers was herding sheep. The boy was unable to keep up with the others. The father placed him on a stone beside a spring, telling him to wait until his return. The boy, becoming tired, began to peel the loose bark off a tree that overhung the spring. When the father returned he asked the boy who had stripped the The boy replied that he had. "I would rather have you dead than raise you to destroy everything on the farm," is the reply the father is said to have made, and then it is charged he picked up a stone and struck the boy on the head, knocking him down. Then, it is alleged, he kicked the pros-trate boy in the head until he had killed him, and turning to his daughters, threatened them with a like fate if they ever told what had occurred. the boy, while chasing sheep, had run against a tree and killed himself. Beeldest daughter and went to the mountains. His wife hired neighbors to him of the death of her son, and said her he was going into the woods to girls told the judge that her father the present generation. had kicked the boy to death. Shortly afterwards a sheriff's posse captured Sprading in the wood, but his eldest daughter was not with him. The posse is still searching for her, while Sprad-

AFRICAN PROBLEM IS A GRAVE ONE

Chamberlain Has No Pleasure Trip Before Him.

MOST COMPLICATED SITUATION

If the Secretary Makes Speeches He May Do Mischief-Party Feeling Runs High.

London, Nov. 3.—It is rather surprising that Mr. Chamberlain's prospective visit to South Africa excites an enormous amount of comment, not Kentuckian's Brutal Treatment only in this country, but throughout Europe. General Delarey, who is one of the Boers' most able and most intelligent generals here, in discussing the matter, remarked:

"I cannot understand why Mr. Chamberlain's mission should be regarded as extraordinary or surprising. As a matter of fact, it is the only sensible thing to do, and the necessities Inez, Ky., Nov. 3.-Pleasant Sprad- of the situation make it imperative. The condition of Cape Colony, especially, is worse today than during the war. The whole South African problynching. Sprading's family con- lem is so complicated and difficult that tempt to deal with it without seeking personal knowledge of its principal

> GRAVE SITUATION. Genreal Delarey is quite right in regard to the gravity of the problem in South Africa. The command of peace has increased instead of diminished the difficulties. From a government viewpoint, the political crisis is bad enough, but the problem of ordinary, everyday existence is still un-

War's devastation has been so complete that even now, six months after the peace agreement has been signed, 95 per cent of the population in South Africa from Cape Town to Pretoria is deprived of such ordinary things as fresh meat, butter and eggs. The average Britisher who thinks that Mr. Chamberlain is going on a sort of tri-Afterward, he went home and said umphal pleasure excursion has no conception of the dire necessity which compels the man chiefly responsible coming alarmed, Sprading took his for the present crisis to study his problem close at hand.

Continental comment, which suspects bury the body of the child, and then went to Judge E. Heneley. She told political scheme is back of Mr. Chamshe suspected her husband, who told place. The colonial secretary goes to berlain's mission, is equally out of hunt squirrels, and added that at different times he had threatened to kill the whole family. One of the little South Africa simply to strive to mas-

FROM ANOTHER STANDPOINT

London, Nov. 3. - Mr. Chamberlain's determination to visit South Africa to see for himself what is going on there has not unnaturally received a general chorus of approval. It is a bold, sensible step to depart from precedent and tradition in the peculiar circumstances of the case. It dislocates the constitutional machine by temporarily remov-ing a secretary of state from his office and from Parliament, for the House of Commons will almost certainly sit through next month, if not till Christmas. The session of 1903, though it may be postponed, is pretty sure to begin before the month of March.

But the dislocation of the machine of what Corbett used to call "the thing," is of very small importance, when compared with the peace and prosperity of South Africa, and the practical inconvenience in England will be very small.

WILL BE WELCOME. Mr. Chamberlain's presence undoubtedly be welcomed in the Transvaal and Orange Colony. There Lord Milner's power is practically absolute, and his exercise of it has not given universal satisfaction. He may be entirely right and his critics utterly wrong, but it is in any case desirous that his administration should be brought under the direct personal review of his immediate official superior. It is a proof of the Commissioner's good sense and conscious rectitude of purpose that should welcome the proposal of the Colonial Secretary.

A DIFFERENCE. In Cape Colony and Natal, however. the situation is altogether different, and the same arguments do not ap-Mr. Chamberlain is, through Lord Milner, the real master of the recently - conquered territories in South Africa. They are in the position of "crown colonies," whereas the Cape of Good Hope and Natal are self - governing communities, with

Itching Piles Most Annoying by those who had gathered to see him off.

Positive Cure-

Dr. Chase's Ointment.

It is a question whether there is another preparation for sale in this country that is so heartily indorsed by persons who have used it as Dr. Chase's Ointment.

Professional and business men and women, farmers, mechanics, railroad men, miners, laborers, all classes of men and women, use and indorse Dr. Chase's Ointment as the only actual cure for piles.

F. G. Harding, a retired farmer, liv-ing at Nilestown, Middlesex county, states: 'I had been troubled with itching, bleeding piles for about five years and suffered agony at times from the dreadful itching. Though I tried almost everything I could get no relief. Part of one box of Dr. Chase's Ointment has cured me, and I am recommending it to all that are troubled with

the same torturing disease."

John Puddicomb, 160 Sydenham street, London, Ont., gives in the following brief form an idea of his high esteem for Dr. Chase's Ointment, which freed him from the agony of itching piles. He says: "I feel Dr. Chase's Ointment invaluable as a positive cure for itching piles, and would consider it cheap at \$50 a box if it

could not be obtained otherwise." Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates Co., Toronto.

instructions from Downing street. The power of the Secretary Colonies is thus limited to the exercise of a veto upon the acts of the local legislature on clear and definite grounds of broad, general policy, such as in the nature of things can very seldom arise. The High Commission er has nothing whatever to do with the Cape or Natal.

MAY DO MISCHIEF. As the guest of Sir Walter Hely-Hutchinson and Sir Henry McCallum, Mr. Chamberlain will be received with the honor due his official rank, but his own friends in the press have warned him that if he makes speeches he may do mischief. He has earned the gratitude of all who value the colonial system of Great Britain refusing to introduce a bill suspending the constitution of Cape Colony because the Dutch inhabitants outnumbered the British. The result has amply justified his refusals, the Afrikander Bund supporting on all main questions the Government of Sir Gordon Sprigg, who himself was a warm supporter of the war. They opposed the act of indemnity for martial law, with the accompanying irregularities, without a division, and have since joined in raising the contributions by the colony to the maintenance of the British fleet. But party feelings run high at Cape

Town, and an incautious word from Mr. Chamberlain might kindle flame of race hatred to an extremely dangerous point. Happily, no one dangerous point. Happily, no one knows that better than Mr. Chamberlain, and it may, therefore, be expected that he will set a watch upon his tongue.

Innovation in Ball Firing Tried by "A" Company.

Some Fine Scores Made by Men Under

Odd Conditions. "A" Company, of the Seventh Regipractice Saturday at the Cove ranges. They did not follow the old manner of practicing, but adopted a new style, which made it more interesting and enjoyable. They fired at the 200, 500 and 600 yard ranges in the usual way and the company was then divided into two sections which competed with each other in firing upon disappearing targets while advancing and retiring. Under these conditions the men made some very fine scores. No. 1 section won by 18 points, but No. 2 section had the greater number of hits. After the shooting supper was served at the range and the company enjoyed themselves for an hour or more. No. 1 section was made up as follows: Corp. Sutherland, Corp. Donald, Pte. Fitzgerald, Corp. Newton, Pte. Burke, Pte. Rickard, Pte. Smith, Pte. Kingsnorth, Pte. Brett, Pte. Taylor. The score was as fol-lows: 17 bulls (5), 10 inners (4), 3 mag-

pies (3), 11 outers (2); a total of 51 hits and 160 points.
Following were the members of No. 2 section: Sergt. Wyckoff, Pte. Fraser, Pte. W. Smith, Pte. F. Campbell, Pte. Stickles, Pte. Tait, Pte. McCue, Pte. Johnston, Pte. C. Fraser, Pte. Summers. Following was the score of this section: 12 bulls (5), 6 inners (4), magpies (3), 20 outers (2); a total of 54 hits and 142 points. scores were as follows, out of a possible 75 points: Pte. F. N. Allen, 69 points; Pte. R. Fraser, 65 points; Major

Hayes, 64 points; Sergt. Robson, 64 points; Corp. McDonell, 62 points; Corp. Sutherland, 61 points; Pte. F. Campbell, 49 points; Pte. J. Rickert, 44 points; Pte. R. Taylor, 43 points; Pte. Johnston, 42 points. Well-Merited Growth.

Among the publications that came to our exchange desk this week is that little annual messenger, Dodd's Alman-ac, published by the Dodds Medicine Company, Limited. This is its eighth annual appearance, and its growth in the estimation of the public is attested by the fact that in the eight years of its life its circulation has grown from thousands to many millions, and that it is now printed in many languages, and is found in almost every Englishspeaking home, as well as in nearly every quarter of the civilized world.

Dodd's Almanac differs somewhat from other publications of the kind, in that it is filled from cover to cover useful information. The data, weather indications, etc., are prepared by expert scientists, and have established a reputation for acucracy, while the antiquated joke that has made the ordinary almanac a byword, is ban-ished from its columns, which are filled instead with simple, straightforward talks on the rules of health and inter-esting accounts of some of the various cures that have been accomplished by Dodd's Kidney Pills and Dodd's Dyspepsia Tablets. And it might be remarked here that

many people who are prone to overlook such reading simply because the cures are the work of what they call a proprietary medicine, devote much of their time to gorging their minds with less interesting, less wonderful and far less

parliaments and ministers of their own. Their governors act by the advice of the respective cabinets, not by the way of reading matter.

But aside from its value as a book of

reference to the healthy and sick alike, Dodd's Almanac is a wonderful evidence of how an enterprise will flourish when it is founded on merit. As the circulation of Dodd's Almanac has grown from thousands to millions, so has the domain of Dodd's Kidney Pills extended. Eleven years ago they were placed on the market in Toronto, after years spent in the investigation Kidney Disease and its cure had led to their discovery. They had their own "A" Company, of the Seventh Regi- way to make, and they made it. As ment, had their annual ball firing one man or woman was benefited by them he or she told another. Their fame has spread till it covers one continent and has made inroads into every civilized country in the world, and the Dodds Medicine Company has grown into one of the largest concerns of its kind, and we might even say one of the largest influences for good the American continent. And all this immense structure has been built by he hands of those whom Dodd's Kidney Pills have raised from beds of sickness and suffering. Each one told others. That is the secret of it all.

But it is not the intention here to go nto the theories on which the Dodd's Remedies work, nor to mention any of the wonderful cures they have accomplished. Those are now almost com-mon knowledge, for, like Dodd's Alnanac, Dodd's Kidney Pills and Dodd's Dyspepsia Tablets, have found their way into every community and into almost every home. The intention is to simply welcome Dodd's Almanac for 1903 and to commend it to the consideration of the public generally.

ACTOR MANSFIELD BECOMES ANGRY

Chicago Preacher.

HE THREATENS A SLANDER SUIT

Rev. Dr. George F. Hail, the Menaced Divine, Says He Will Not Retract.

Chicago, Nov. 3. - Richard Mansfield has threatened suit in heavy damages against Rev. Dr. George F. Hall, an independent preacher of Chicago, because of alleged slanderous statements made by the latter in a sermon at the Bush Temple of Music recently and reported in the Record-Herald the following morning. Dr. Hall's alleged slanderous statement was to the effect that he was reliably informed that the actor cursed and swore because of the fact that theater buildings are occupied on Sun-

days for religious purposes.

Lyman B. Glover, Mr. Mansfield's manager, telegraphed the Record-Herald that he had instructed Attorney E. E. Prussing to demand a retraction from Dr. Hall, and that in the event of his refusal a heavy suit would be instituted. Mr. Glover characterized the preacher's statement as

WHAT DR. HALL SAID.

The exact remarks of Dr. Hall were "I am, as I think, reliably informed that at a recent rehearsal of his com-pany, Richard Mansfield cursed and swore because of the fact that theater buildings are occupied on Sundays for religious services. He said it was no place for such work. Now I have never seen Mr. Mansfield in any of his plays, and I have been thinking of attending some evening, as I believe in the Shakespearean drama and other high class stage performances. But if Mr. Mansfield feels that way about the use of theater buildings by Christian people, and has no more manners than to express himself on the subject with profanity, then he should not receive a single dollar out of the Christian pockets of Chicago. Personally I believe that the Lord's people ought to rent every available down-town building on Sundays and fill every seat therein with people anxious to hear the gospel of the Son of God." When Attorney Prussing called on Dr. Hall and apprised him of Mr. Glover's declaration the clergyman as-

that his remarks concerning Mr. Mansfield were based on informa-tion given him by a personal friend who was one of probably 200 persons—mostly members of Mansfield's company—who has heard the actor curse and swear, as related. WILL NOT RETRACT. Dr. Hall declared that he had no retraction to make; that he himself had furnished the paper a written transcript of his remarks, and that if

it would probably be a very interest-In Pittsburg, Mr. Mansfield declared the most positive terms that Dr. Hall's statement is utterly false. He says that he has the very highest respect for churches and church people; he never plays on Sunday, although very great; his friends also allege that

Mr. Mansfield should begin suit for slander on the basis of his remarks

ne never uses profanity. In view of all these things, Mr. Mansfield thinks that he has been maliciously slandered, and he declares he will enter suit at once against Dr. Hall for slander unless a complete and public apology is made

Hallowe'en Fun Comes High. Toronto, Nov. 1. - Eight students were in the police court for disorderly conduct last night, celebrating Hallowe'en. Three were fined \$10 and costs and four others a less amount. The eighth was allowed to go on sus-

pended sentence. Hurt by Initiation Goat.

Grand Rapids, Mich., Nov. 1 .- A circuit court fury has brought in a verdict of \$2,500 for Mrs. Mary E. Lewis against the Modern Woodmen of America. Mrs. Lewis sued for \$50,000 damages for injuries alleged to have been received by her ausband, since deceased, while being initiated into the Coopersville Camp of the order last winter. As a result of these injuries. it is alleged, necrosis set in, which

trouble. I am at this time able to do almost any kind of house work. Your medicine saved me from my grave. Thanks to you for the benefit. My case was hopeless when I began taking your

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery," is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine" can show. Biliousness is cured by the use of Dr. Pierce's Pleasant Pellete.

MARCONI SANGUINE

Expects to Give Out an Important Statement Soon as to liis Success.

Sydney, N. S., Nov. 1. - "I hope to incensed by Statements of a statement regarding my success in transmitting wireless messages across the Atlantic in about a week's time," said Signor Marconi in an interview on the deck of the Carlo Alberta, as she lay in Sydney harbor this morning. Marconi was exceedingly gracious, but had no information to give at present concerning the distance from which he was able to send and receive mes-sages between the warship and the Cornwall station.

ENGINEERS START SURVEY

Detroit Experts Engaged by Aylmer Construction Company.

London and Port Burwell Electric Road Will Be Built.

Detroit News-Tribune: The Aylmer Construction Company, Limited, which is to build and operate an electric the dog's case than in the man's. road between London and Port Burwell, has already begun operations. Detroit engineers have started the survey of the route, and expect to have this work completed within three or four weeks if the present fine weather continues. Messrs. Field & Hinchman, consulting engineers, whose offices are in the Majestic building in this city, have been employed by the construction company to prepare the plans and specifications for the entire construction work. The power house is to be located at Aylmer, which is about 25 miles southeast of London. The engineers have been over the route and speak highly of the pros-pects for a good road. The country is level. The highways are wide, very and the entire country through which the line passes has every appearance of prosperity. It is understood that the road will make a feature of freight traffic in addition to the passenger business, which latter offers along very favorable prospects. Port Burwell, the southern terminal of the road is provided with a fine harbor, recently improved by the Canadian Government at an expense of nearly a quarter of a million dollars, providing a waterway 18 feet deep and with ample room for the largest vessels to turn around at the northern end of the harbor. this way it will not be necessary for vessels to back or be towed out of the harbor. It is expected that the road will operate its own coal vessels between points along the southern shore of Lake Erie and Port Burwell. This will make the most direct route for coal for the City of London. The engineers report that the people along the route are enthusiastic over the prospect of an electric line in their locality.

FAST TELEGRAPHING

One Wire Carries Over 50,000 Words an Hour.

London, Nov. 3. - Dispatches from' Budapest announce that further changes are made in the system of rapid telegraphy which was first described a year ago. Telegrams are now transmitted from Pressburg to Budapest over one wire at the rate of from 50,000 to 70,000 words an hour. A Vienna newspaper describes a dispatch which it received by this process. It consisted of a strip of stiff parchment-like paper bearing 230 words. There was an ordinary dash between the words, which were easily The message occupied fifteen seconds in transmission.

BALLOTS GUARDED

Unusual Precautions Against Crooked Work in Delaware, U. S.

Dover, Del., Nov. 3.-Unusual precautions are being taken to protect the ballots to be used in Delaware Tuesday. When the official ballots were delivered by the printer to the authorities in Sussex County, armed guards were stationed over them sworn to preserve the ballots from theft, damage or tampering. In Kent County the ballot boxes were piled in a fire-proof room, which is practically

impenetrable. In this manner the ballots will he protected until the work of distribution to the various election boards be-

JUST IN THE NICK OF TIME

Firty-Five Men Rescued From a Burning Vessel at Sea.

San Francisco, Cal., Nov. 3 .- Fortytransport Creok on her outward voy-

age from this port.

The Crook left here on Sept. 16, bound forManila. On Oct. 10, when off distress signals, was sighted. The vessel proved to be the Japanese collier Yoshimi Maru on fire. The Crook altered her course, and headed for the burning vessel. When she arrived within hailing distance the flames were beyond the control of the crew, and were coming from the hatchways. The Japenese were hanging upon the sides of the vessel, being unable to stand the heat on deck. All were rescued by the crew of the Crook, and were taken to Nagasaki.

The Japanese said that at the first sign of fire the Chinese members of the crew launched the boats and left wholesome food is faken into the sto the Japanese to fight the fire unessist-The Yoshimi Maru burned to the water's edge, and then disappeared from sight.

THE WOMAN WAITS ON BARON'S DOG

Tired of Her Task, the Wife Wants Divorce.

BARONESS TELLS TALE IN COURT

She Goes Hungry While the Big Newfoundland Gets Plenty of Good Meat.

Chicago, Nov. 3.-A table set for two. In one seat a baron of proud ancestry; in the other a pedigreed Newfoundland dog. A pretty picture, one might say, but wait till it is finished, says the Tribune.

In the background is the baroness, whose plebeian American appetite craves the meat that the haughty baron is about to serve with a liberal hand to his guest from Newfoundland. She also is "waiting" on table, which she says is a more thankful task in

Such was the scene that was described in Judge Chytraus' court when the suit for divorce against Baron Oto von Schaezler was cailed. The story told by the baroness didn't seem to annoy her titled spouse in the slight-est. When she told of money advanced to her husband, of cruel treatment, and of being obliged to take second place to the dog the baron only smiled. The hearing was a sequel to the recent arrest of the baron on a writ of ne exeat at the time the baroness' suit was filed. At that time he spent two days in the county jail before he could find a bondsman.

WHIMS OF THE BARON. a \$45 bed in it, a nice, soft mattress, and two pillows," the baroness began. "I slept on a little hard bed, without a pillow, because the baron said he needed two, so when he got tired of lying on one he could turn over to the

other" The baroness told how she married the titled one in Davenport, Ia., about a year ago. On representations that he had a large income from estates in Germany, she said, she loaned him \$300 with which to make "the last payment" on a house he had bought in West Grossdale. Altogether the baron had cost her more than \$700, she said. "The morning after we arrived in West Grossdale," said the baroness, "my husband said he wanted to take a bath. He made me bring him some water and then swore at me because it was too hot. I got some cold water

cause it was too cold. BARON'S LOVE FOR MUSIC. But the baron had other whims. When the spirit struck him, the baroness testified, he would spend the night running up and down the house, playing a music box and constantly

to cool it, and then he swore again be-

talking to himself. Still another whim of the baron's was irritating to his American wife. Every night, she said, he would kiss affec-

West Grossdale house. "He told me," she declared, "that he had lost his soul by marrying me, and spent long hours on his knees asking the Lord for forgiveness. All this was because he had 'married an illiterate and fulgar American woman,' as he

called me. Then came the story of the baron and the dog.
"We only had a small kitchen table just big enough for two to sit at," said the baroness. "The baron sat his Newfoundland dog on one chair and sat at the other himself, and they had their meals together. First the baron would take a bite, and then he would give a bite to the dog, while I and my niece had to wait on them. When I suggested that the woodshed was the place for the dog, he said that the house was the place for the dog, but the woodshed might be good enough for someone else he knew."

THE STAR BOARDER. "I almost forgot what meat tasted

NERVOUS DYSPEPSIA A CURE FOR ALL

Not a Patent Cure-All, Nor a Modern Miracle, But Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspensia and stomach troubles. They are sure to claim that their nostrum is absolutel; certain to cure every dyspeptic and

he need look no further. In the face of these absurd claims it is refreshing to note that the pro-prietors of Stuart's Dyspepsia Tablets five Japanese, powerless to escape from a burning steamer, were rescued by the have carefully refrained from making tions regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for in Van Dieman Straits, a steamer flying digestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no farther than this and any man or woman suffering from indigestion, chronic or nervous dyspepsia, who will give the remedy a trial will find that nothing is claimed for it, that the facts will not fully

Progress in Cable-Laying.

The celerity with which the Pacific cable was laid recalls the difficulties attending the laying of the first Atlantic cable. The first portion, which was to connect Cape Breton and Newfoundland, was shipped from England in 1855, but it was lost in a gale in the Gulf of St. Lawrence. In the following year this link was successfully laid. In 1857 an attempt was made to lay the main line between England and Newfoundland, but it failed. Another attempt early in 1858 was also disastrous, but in August of that year the third attempt succeeded. The first messages were exchanged by Queen Victoria and President Buchanan. Many people recollect the public rejoicings in Canada and the United States at that time. These were very Short-lived, as the cable abruptly ceased working in a few weeks, and the old and the new world were severed once more. The public lost faith in the project which was only kept alive by the indomitable will of Cyrus W. Field, just as the Pacific cable project has been realized perhaps many years earlier than it would have been, but for the perseverance of Sir Sanford Fleming. It was not till 1865 that Field could secure sufficient support to organize another expedition. The steamer Great Eastern left England with the cable and had laid 1,200 miles when, by a sudden lurch of the ship, the cable snapped and was lost. The bottom of the sea was dragged in vain for it, and the exedition returned deleated. In 1866 another expediti n set out and this time success crowned the taith and the energy of Field. John Bright pronounced him "the Columbus of modern times, who, by his cable, had moored the new world alongside

The progress of submarine telegraphic construction since then could have no more striking demonstration than the laying of the Pacific cable. The work on it was begun from the Vancouver station on Sept. 18 of this year. The cable ship Colonia traveled at a speed of 71/2 knots, laying an average of 160 miles of cable a day. It reached Fanning Island cable station, 3,455 miles from Vancouver, on Oct. 6 without the slightest hitch. The links Leyond Fanning Island were laid by the cable ship Anglia. The Pacific cable is the longest in the world (7,-986 nautical miles), and the cost has been \$12,125,750. Sir Sanford Fleming first outlined the project in 1879. For the past ten years he has made it his life-work, and has overcome difficulties which would have discouraged a man of less tenacity of purpose. It is something to be proud of that a Canadian has achieved this great enter-

the old."

London and Radial Railroads.

Are the merchants of London sufficiently alive to the importance of radial railways? It looks as if the Province was on the eve of a considerable

development in electric traction. At the last session of the Legislature charters were granted for many huadreds of miles of radial roads. Some of these are already under construction. One is knecking at the doors of this city for admission, and surveys are being made for another, to run from Port Burwell to London. The United States is becoming grid-ironed with inter-urban electric roads. Every large city on the other side is the center of a network of these "radials," which are changing the face of the country by bringing the rural districts into closer communication with the towns, and enabling farmers to ship vegetables, fruits, fowl and dairy produce to market, rapidly and conveniently. Every electric road that leads anto London will stimulate freight and passenger traffic to the city, with corresponding benefit to the retail merchants. The City Council has a difficult problem in deciding upon what conditions radial systems shall be admitted. For years the City of Toronto and the Metropolitan Railway Company, whose road runs from the boundary of To-Ponto northward through York County, have been trying to agree upon terms by which the Metropolitan shall have entrance to the city. The tracks of the Metropolitan are within a few feet of those of the Toronto Street Railway Company on Yonge street north, but the connection cannot be made until the city and the Metropoliten come to an understanding. Any radial railway desirous of entering London should have running rights, by paying for them, over the lines of the London Street Railway Company, to some point within the city Mmits, as it would not be necessary to parallel tracks on the city streets. The design of the freight cars to be used in the city must be very strictly specified. There is no reason why freight cars on an electric road should be less eightly than passenger cars. What arrangements the city and the radial rallway companies shall make as to fares, rates, mileage, etc., must be carefully considered. It is a case

where the city requires good business judgment, and the council should not

be above calling in business men to

Its sid

Bradstreet's is featuring Canada as "The Young Giant of the North." This is much better than Kipling's.

Sir Sanford Fleming's crowning achievement comes in his 76th year. This is called the age of young men, but what would the world do without its veterans?

Mr. Blair repeats his assertion that he hopes to see a Government railway to the Pacific coast. This may be a "dream scheme." but so was the Pacific cable ten years ago.

The Temiskaming Railway, says the Toronto Telegram, (Conservative), "should associate the name of Hon. George W. Ross with the glory of Canada's final departure from the system of using public resources to build private railways."

The Premier of Australia will introduce a bill to grant a tariff preference to Great Britain. The leader of the Opposition in this country denounces the British preference, but has not the courage to move to abrogate it. He is willing to wound and yet afraid to

The cost of the Temiskaming Railway, the first to be built by this Province, is estimated as follows: 110 miles of railway, complete

with sidings and stations, at 50 box cars at \$700 each Passenger and mail cars and sundries

Total \$2,665,000

Papers full of all their fates;
Goldenrod, hay-fever, too,
People sneezing, heavy dew;
Now and then a little frost,
Empty coal-bins, O the cost!
Husbands groaning, wives so sad,
All things going to the had; All things going to the bad; Dishes from the table sent, Ping-pong friends on glory Automobiles whirling by, Automobiles whirling by, Prairie chickens—on the fly! These the signs both far and near Daily tell us fall is here.

Just What He Feared.

[Stray Stories.] Prisoner-Wouldn't it be better to et me tell my own story? Don't you hink it would be believed? Lawyer-That's just the difficulty. It would carry conviction.

The Same Old Legend.

[Goderich Signal.] "Hope springs eternal in the hunan breast," and that is the reason hat R. L. Borden has been greeted on nis Western trip with the legend, "Our Next Premier," Meredith, Marter, Whitney and Hugh John Macdonald was only a legend.

Remedy for Red Noses.

[Detroit News.] A French doctor advises persons aflicted with red beaks to soak a bandage of gauze in benzine and apply it aily for a few minutes each day until the redness turns to pale. Applications hould not be made in the immediate ricinity of a lamp, stove or lighted gas et, otherwise the applicant may lose his or her smeller abruptly. Benzine is is explosive as a campaign orator.

The Thing Most Needful.

[Toronto Globe.]

If the manufacturers have any technical education. In the long run, skill, intelligence and inventiveness vill win the day, and education is a better investment than politics. should strongly advise all manufacurers to button up their pockets whenever they are asked to help any political party or any candidate, but to be most generous in regard to all plans for scientific and technical education.

The Douks.

[Toronto Telegram.] If Hon. Clifford Sifton made a misake in bringing the Doukhobors to Canada, he erred in the good company of nearly all Canadians. Galicians were not unanimously welcomed, but the Doukhobors were regarded as victims of Russian perecution, and Mr. Sifton would have been blamed if he had not done his did. best to add the refugees to the It country's population.

Mark Twain's First Money.

[Baltimore Herald.] While traveling recently Mark Twain was asked by a friend and fellow-

an unusual event. It was against the

A Hely Nation.

[By Richard Realf.] Richard Realf was born in England in 1834 of poor parents and began writing poetry at an early age. His early work attracted the attention of Tennyson, Miss Mitford, Miss Jameson, Miss Martineau, and others. In 1854 he came to New York, where he wrote stories of slum life and assisted in establishing some institutions for the relief of the poor. He did newspaper work until he joined John Brown's party. He was arested in connection with the Harper's Ferry affair, enlisted in 1862, was wounded, taught a black school in South Carolina in 1867, and for years led a hand to mouth existence, all that time writing poetry, some of it of the most exquisite beauty. Family troubles resulted in his suicide in San Francisco about 1875.

rules to mark the desks in any manner, the penalty being a fine of \$5 or SIX MORE CASES TO DROP public chastisement.

"Happening to violate the rule on one occasion, I was given the alternative. I told my father and as he More Election Petitions Likely to seemed to think it would be too bad to have me publicly punished, he gave me the \$5. At that period of by ex-istence, \$5 was a large sum, while a whipping was of little consequence, and so"-here Mr. Clemens reflectively knocked the ashes from his cigar-"well," he finally added, "that was how I earned my first \$5."

Tupper the Prophet.

[Dundas Banner.] a speech in Winnipeg, at the banquet given to Mr. Borden, the Conservative Liberal. leader, "predicted a sweeping victory for the Conservative party at the next general election." The dear old soul. Isn't this just like Sir Charles of old? He was always great on predicing things—things that never happened, of course, but what of that? That did not bother Sir Charles a particle. He kept right on predicting. But is it not an inspiring thing to see a man, who is going on his 82nd year, able to keep up steam in the way Sir Charles does and who can feel it in his bones to

when nobody else sees a single sign of

Marie Corelli Scores American Millionaires.

Says United States Is a Nation of Bombast and Swagger.

London, Nov. 3.-Marie Corelli has an article entitled "Vulgarity in Wealth" terly attacks American millionaries,

ger the United States is a kind of rare hunted the year previous, and 467 for show in the world's progress, but her the year previous to that, when 28 strength is chiefly centered in dollars, schooners took 17,577 skins in Bering and her influence in the social world Sea. teaches that dollars are the only ware. English society has been sadly vulgarized by the American taint."

Miss Corelli does not approve of either Morgan or Carnegie. "We see J. Pierpont Morgan," she writes, "a monied octopus stretching out his greedy tentacles in every direction and striving to grasp the British shipping industries and interests. Everywhere it is devouring everything in its deadly grip, which, if it is permitted to would mean mischief and loss of prestige to our country, though no doubt it might create rejoicing in

Mr. Carnegie is freely abused for his generosity in donating libraries. He is called "a poor human biped," is accused of patronage, ostentation and swagger.

"The masses," says Miss Corelli, hear of Carnegie strewing free libraries all over the surface of the country as if they were so many lollipops thrown out of a schoolboy's satchel; they follow the accounts of his doings with mingled wonder and derision. "With many of the more independ-

ently thinking classes the millionaire Carnegie's money, pitched at the public, savors of a patronage which they resent and of an ostentation which they curtly call swagger. Once wealth could not purchase an entrance into society; now it is the only passkey. "Men and women who have the have seen that legend before, and it privilege of personally knowing and frequently associating with the royal family are known to accept payment for bringing otherwise obscure persons under the immediate notice of the King, and it is a most unfortunate and regrettable fact that throughout the realm the word goes that no such obscure persons ever dine with their sovereign wi hout having paid a middleman for the privilege.

"Wealth in excess, wealth in chunks, wealth in great, awkward, unbecoming dabs, is plastered as it were by the merest haphazard toss of fortune's dice on the backs of uncultured and illiterate Americans, who, bowed down like asses beneath their golden burden, are asininely ignorant. In very few cases does immense wealth go hand in hand with refinement, reserve or dignity. Millionaires are for the money to spend out of their business most part ill-mannered, illiterate and here is no better investment than singularly uninteresting in conversation."

AWFUL PAIN

Quebec Man Suffered Terrible Torture With Pains in the Back and Loins.

Mantane, Que., Nov. 3 .- Mr. D. Dionne, of this place, has at last found a cure for the excruciating pains in his back and loins which have troubled him for so long. The suffering Mr. Dionne has endured has been almost beyond belief. He tried many medicines, but nothing seemed to do him any good until he was led to use Dodd's

This remedy has completely restored Mr. Dionne to good health and he has no longer the slightest pain in his back or any other part and is feeling splen-

It was a most remarkable cure and one which has done much to make Dodd's Kidney Pills still more popular with the people of this neighborhood. They will cure Rheumatism, Sci- outing greatly. atica, Lumbago, Backache, or any other Kidney Trouble.

passenger if he remembered the first money he had ever earned.

"Ys," answered Mr. Clemens, puffing meditatively on a cigar. "I have a distinct recollectaion of it, When I was a youngstr I attended school at a place where the use of the birch rod was not an unusual event. It was against the THERE ARE CASES of consumption so far advanced that Bickle's Anti-Conson of the Pacific cable to send a message around the world. It was addressed to the Governor-General, Ottawa, and to the Governor-General, Ottawa, and to the Governor-General, Ottawa, and to the Pacific cable to send a message around the world. It was addressed to the Governor-General, Ottawa, and to the Governor-General, Ottawa, and to the Pacific cable to send a message around the world. It was addressed to the Governor-General, Ottawa, and to the Governor-General, Ottawa, and to the Governor-General, Ottawa, and was sent from here via Australia, which has never been known to fail. It promotes a free and easy expectoration, thereby removing the phiegm, and gives the diseased parts a chance to heal.

North Wentworth-R. A. Thompson,

In the two last-named cases there are also cross-petitions. As already stated, the North Wentworth trial is postponed indefinitely.

In the North Norfolk election trial, where the Liberals have petitioned against the return of Dr. Snider, the respondents are asking for postponement. The motion will probably be brought up at Osgoode Hall today or at the opening of the case at Simcoe tomorrow. The Liberals will oppose any postponement.

Victoria, B. C., Nov. 3.—The Bering Sea catch of the Victoria sealing fleet will be smaller this year than ever. It will be less than six thousand skins.

The stormy weather caused a great falling off in the catch this year. Sealing masters say that they saw as many seals as ever, but the weather was too rough to reach them. The cruise off the British Columbia coast last spring resulted in a eatch of 3,173 skins, half-that of last season; the storms, which wrecked two schooners, one the Hatzic, never been heard of, having prevented hunting. The Copper Island and Japan fleets took about 8,000 skins. All told. the year's catch will be less than 20,000 skins, the lowest catch for years.

Scientist Calls on France to Save the

Paris, Nov. 3 .- Prof. Senger, a distinguished meteorologist, as the result of profound study of the recent volconeruptions in the Antilles, prophesies series of subterranean disasters for 1903. Dr. Senger believes that next year will witness the total disappearance of Martinique and the adjacent islands, and calls on France to adopt energetic measures to save the population instead of wasting time and money on geological missions.

DRANK SHOE DYE

Strange Means of Suicide Chosen by Young Man-Hurt on a Steamer.

St. John, N. B., Nov. 3. - Thomas

Barker, aged 33 years, committed suicide Saturday night at the home of his mother by drinking shoe dye. Shortly after midnight his mother heard groans coming from his room. She went in, and found him in great pain and vomiting. Medical aid was summoned, but nothing could be done, and he died at 4 o'clock, after severe suffering. Barker was a traveler for a Chicago boot dye house. James A. Whipple and Arthur Noble, two drygoods clerks, on Saturday morning went on board the Furness Line steamer Carlisle City, and while watching the men discharging cargo a guy rope broke, causing a derrick to swing around. A sling of puddled bar struck the young men on the head and knocked them down on the deck. Noble received a fracture at the base of the skull, causing the blood to flow from his ears and nose. Whipple was badly cut on the forehead. Both were removed to the hospital. Noble is not

expected to get better. President at Bull Run.

Manassas, Va., Nov. 3. - President Roosevelt and Secretary of War Root, accompanied by Secretary Cortelyou and Surgeon-General Rixey, arhere Saturday morning. president, who was attired in khaki shooting suit, with leggins, a long, heavy overcoat and a black slouch hat, said he was here particularly for the needed recreation the outing would afford him, and for the purpose of getting over the historic Bull Run battle fields, which he never had visited. Brandy, Va., Nov. 3.-The special train bearing President Roosevelt and part left here this morning for Washington. The President is in excellent health and spirits, having enjoyed his

KINGSMILL'S

The store so long used by James Wright & Co., we have purchased. With this ground added, we will have sufficient space to build a modern warehouse, in every respect up-to-date. To enable us to carry this out we are compelled to move our entire drygoods stock, manufacturing departments and tailoring to the premises where we are selling off the

BANKRUPT STOCK OF RUNIANS, CARSON & McKEE.

This stock was very large, amounting to \$67,460, and an exceptionally good stock, as the people were a comparatively short time in business. Think of the price, only 55c on the dollar. The stock is not quite two months on the market. We have kept the best for the last, and a large stock bought so cheaply enables us to give you goods at very

TO ADD TO THIS ATTRACTION our own stock will be all remarked AWAY DOWN IN PRICE.

as we don't want (if possible) to carry anything back to the new building.

Do You Want Carpets?

If so don't buy until you come to

London's Greatest Carpet Warehouse Greatest in size. Greatest in experience,

Greatest in volume of stock, Greatest in variety,

Greatest in capital, Greatest in giving the people the best possible value for their money.

OUR ADVICE—Don't buy Carpets until you see the greatest stock and know the right prices.

We only advertise what we have. We don't place a visionary value on our goods to make reduction attract attention.

We can sell you Carpets much less than the small dealers can buy them.

We don't sell cheap-made, low goods, and call them best.

Kingsmill's Greatest Carpet Warehouse. Carling Street, London.

Cured the King's Ulcer. London, Nov. 1. - A correspondent of the Medical News asserts that some time ago King Edward had a small rodent ulcer near the root of his nose which was successfully dealt with by the X-ray treatment. This was applied by Dr. Arthur Barry Blacker, has since died. Dr. Blacker cured the King in sixteen sittings. How long the cure will last remains to be seen, but at present it is complete.

DOGS SAVED FOUR LIVES

Flames Aroused Their Masters.

Chicago, Nov. 3.-Two great Dane dogs saved the lives of four persons and then were rescued themselves from a burning building in Ashland avenue by their grateful masters. The dogs apparently became frightened at the smoke and the crackling of the flames under them and began to bark. noise they made awakened Henry and Arthur Hirsch, members of the Calumet Metal Company, and J. C. Spokane and Benjamin Barrigan, who were asleep in the building.

As they were leaving the building Arthur Hirsch suggested to his brother that they ought to save the dogs, so the two turned back and groping their way through the smoke found the two logs huddled to gether, almost over-

Grasping the dogs by the collars the two men drew them to a rear door

THE U. S. ARMY CANTEEN

General Corbin Will Recommend Its Re-establishment.

Washington, D. C., Nov. 2. - Gen. Corbin, in his annual report, will recommend the re-establishment of the rmy canteen, and Secretary Root will concur in this recommendation. Gen. Miles does not favor this action, and it is believed he opposes it in his report now in the hands of the Secretary of War. General Miles is of the opinion that the abolition of the canteen was beneficial to the soldiers. He is the only officer of prominence who holds this view.

Secretary Root, Gen. Corbin, and practically every commanding officer of the army is of the belief that the present system has a bad effect on the health and morals of the men. All the reports of the general officers of the army show an increased number of desertions and that more men have been tried for drunkenness since the abolition of the canteen than during

its existence. This law was adopted when the majority. Hume Gibbons was adend house were quate to the part of David Hirsh. attending the Miss Meta Rogers, while possessed of galleries of the senate and house were rowded with delegates Woman's Christian Temperance Union, a pleasing presence and considerable and was passed as a compliment to that body and because a previous law abolishing the canteen had been nullified by Attorney-General Griggs, whose construction of it was considridiculous. Congress resented this, but as the abolition of the canteen has proved disastrous to the army there is every reason to believe it will be repealed at the next session of congress.

STILL THERE ARE DEFICITS

Government Has Given Large Sums to Toronto University.

Toronto, Nov. 1. - The trustees of Toronto University have held a number of conferences recently with Premier Ross and Hon. R. Harcourt, and as a result the estimates for the university for the year 1902-03 are about completed.

Mr. Harcourt has given out some interesting information regarding the provincial aid which has been received by the university within the past five years. Five years ago a block of land in New Ontario was set aside for the benefit of the university, and since 1898 the proceeds of sales in the block institution. Thus the new sources of revenue established within five years, if capitalized on a 4 per cent basis, amount to more than \$1,000,000 this does not include the new science building which the Government is erecting at the head of McCaul street

at an expense of \$20,000. "The last word has not yet been said," said Mr. Harcourt. "The university has been having deficits and the probability is that these deficits will increase rather than decrease. The number of students is increasing and additions to the teaching staff, and this and that department are from time to time required, besides additions to equipment. The total revenue of the university in 1900 was \$121,771; in 1901, \$149,039, but the ficit continued. So strong a hold has the institution in the Province that I am sure aid will be forthcoming commensurate with the requirements. The prospects are that the present academic year will be the brightest in the history of the university.'

TECHNICAL EDUCATION. Albert H. Leake, inspector of technica? education for Ontario, has just returned the Boston Atlas and Bee and other from an inspection trip, and reports that everything is progressing favorably in the different schools under his supervision throughout the province. Normal technical schools are now established in Ottawa, London and Toronto. He said that he hoped to see a school of this kind established in every town in the province. The following places have now got one: Stratford, Kingston, Brampton, Renfrew, Peterboro and Cornwall.

"WHEN WE WERE 21"

Play Pleases in Spite of Deficiencies of

Company.

Even the shortcomings and limita-

tions of the company which presented

H. V. Esmond's play, "When We Were

Twenty-One," at the Grand Saturday,

failed to obscure the fact that this

drama is one of the best-constructed

and most pleasing productions which

has appeared in London in recent

years. Its situations are well worked

out, its dialogue is always bright,

without being distressingly brilliant, and its sentiment rings true. Those,

however, who remembered the pro-

House two years ago by Mr. Wm. Morris, and his capable fellow-play-

ers (including Hubert Wilke as the soldier man, Albert Brown as the Imp

and Florence Wickliffe as Phyllis),

could not refrain from drawing com-

parisons with the present company,

comparisons which were, with one ex-

ception, to the disadvantage of the

latter aggregation. The one exception

is Mr. Walter Walker, who takes the

leading role of Richard Carewe, the

Imp's guardian. His work was as fin-

ished and pleasing as that of Mr.

Morris himself, and that is high

praise indeed. Of the other two mem-

the role of Dr. Terence McGrath, while

Robt. Robson did not convey a strik-

ing impression of the smart and sol-

Ira T. Moore was more satisfactory as

Imp-perhaps the most vital one of the

drama-was utterly thrown away up-

on Wm. Wagner, who had neither the

for the part. His Imp was too juvenile

altogether, a 16-year-old schoolboy in-

stead of a youth who has attained his

dramatic talent, failed to make the

most of the role of Phyllis Ericson,

marring her work by a tendency to

staginess. Miss Marie Hunt gave a

lasting impression of Kara Glynesk, "the Firefly." Most of the minor parts

MULE FATALLY KICKED A JOKER ROSEBERY AND THE LIBERALS

Idea of a Conference of Leaders Welcomed-Another Scandal in Sight -Cholera at Jerusalem

> London, Nov. 3. - The Boer commandant, Viljoen, has written a letter to Earl Roberts, in which he offers his services to the British army if the Boers are enlisted to take the field against the forces of the Mullah in Somaliland.

It was announced from Johannesburg, Oct. 31, that a number of former Boer commandants and British officers had offered their services and those of 1,000 men, half British and half Boers, for duty in Somaliland.

THE LIBERAL LEADER.

Lord Rosebery, speaking at a crowded meeting here Saturday, welcomed the suggestion of a conference between the Liberal leaders. He said he was willing to promote to the utmost in his power the success of such a proposal. He, however, reiterated his abnegation of home rule, and said he did not see any prospect of the Liberals coming into power in the near future. He believed that as a matter of policy the Government might give the Boers more money, and he declared that if premier he would have made Lord Kitchener secretary of state for war.

Lord Rosebery further said it was the duty of the Liberals to remove any possible belief from the minds of the Trish that any independent parlia-ment or anything leading up thereto could be entertained by Great Britain. He was willing to admit that it would be well if there could be developed from the basis of local bodies a scheme applicable to England, Scotland, Ireland and Wales, which would relieve Parliament of business relating to purely domestic concerns. Mr. Redmond's recent announcement that in future the settlement of the Irish land roblem must take precedence over home rule, said Lord Rosebery, had quite changed the character of the Irish question. A hopeful sign, he added, was that Ireland seems to have progressed towards the idea of a con-ference between landlords and tenants. BERNHARDT DID NOT MAKE HIT. Sarah Bernhardt finished her Berlin engagement Sunday evening. Though the tickets sold at high premiums and ed. The critics were rather hostile, especially in the cast of "Hamlet." The negotiations for the actress' apearance at Dresden and Leipsic have been Mme. Bernhadt will return

ANOTHER BRITISH SCANDAL A tremendous sensation was caused in London on Sunday by statements that another scandal of the Oscar Wilde type was about to become pubmer, Que., game warden for Quebec lic property. It is asserted that the Province, has a large collection of the man whose name is connected with the affair, and who is a peer, has fled the country, but there is every reason to believe that he is at present lying ill at an English watering place. A record of the affair found its way into print, in guarded language, this morning, but every effort will be exerted to prevent further publicity.

CHOLERA IN JERUSALEM. There have been 499 deaths from nolera at Jerusalem, and 78 at Ghuzzeh during the past week. Great distress prevails at Lydda because of the total inadequacy of medical attendance there to cope with the dis-

QUEEN A GODMOTHER. Queen Alexandra's consent to act as odmother of the son of the Duke of Manchester, born at Tanderagee Castle, County Armagh, Ireland, Oct. 2, as conveyed in the following message

to the duke: "Delighted to be godmother to your little son. (Signed), Alexandra."
The Duke of Manchester married Miss Helen A. Zimmerman, of Cincinnati.

The Times Melbourne correspondent reports that Prime Minister has promised to introduce in the Federal Parliament at the next session of the body a bill granting a customs preference to England.

The South Australian House of commons has passed a bill providing the construction of a line from Adelaide to Port Darwin, and completing the overland railway on the ang grant system.

600,000 PILGRIMS.

One-third of the population of Vienna made pilgrimages Saturday and Sunday, All Saints' Day, and All Souls' day, respectively, to the Central Cemetery of Vienna. The pilgrims started in the early morning and returned late at night. Some went on foot, while others used vehicles of all descriptions. It is estimated that 600,000 persons visited the graves in the cemetery on hese two days. The pilgrims all carried wreaths or flowers and before the tombs and in the long grass burned countless candles.

The monuments to Mozart, Beethoen and Schubert, as well as the lot where are buried the 600 victims of the Ring Theater fire of 1881, attracted housands of visitors. This cemetery is the largest in Europe and contains 622,000 graves. Emperor Francis Joseph and other

nembers of the royal family placed wreaths upon the coffins of the Em-press and of Crown Prince Rudolph n the vault of the Capuchin Church. "OFF WITH HIS HEAD."

The efforts made by Sir Ernest Satow, the British minister at Pekin, have resulted in the publication of an edict ordering the decapitation of the Chinese military official who refused protection to the British missionaries, Bruce and Lewis, who were killed at Chen Chow, Ho Nan Province, Aug. 15, by a mob, and the pun-ishment of other officials implicated in the crime.

For Meritorious Service in South Africa

During the Later Phase of the Campaign-Who Gets It?

Ottawa, Ont., Nov. 3. - Saturday's militia order contains the text of a new army order, 232, respecting the grant of the King's South African war medals. It says the King has been gracious- berry & Co's. ly pleased to approve that a second war medal, bearing his effigy, shall be granted "in recognition of the services rendered by the troops in the later phases of the campaign in South Africa, and to reward those soldiers who, by their long service in the field, have brought the war to a successful termination." This medal will be known as the "King's South Africal medal." The ribbon will be orange, white green, in three stripes of equal width the ribbon shall be on the right.

and so worn that the green stripe of Provided the claims are approved by the commander-in-chief, the medal, in silver, will be issued to all officers. warrant officers, non-commissioned officers and men of the British, Indian and colonial forces; to civilian, medical practitioners and others employed in military hospitals in South Africa, and to all nursing sisters, as defined in army order 195 of 1901; provided that (a) they were actually serving in South Africa on or after the first of January, 1902, and (b) that on that they had completed eighteen months' war service or subsequently completed such service before the first

of June, 1902. Two clasps will also be granted-(a), clasp, "South Africa, 1901," to all who served in South Africa between Jan. 1, 1901, and Dec. 31, 1901, both dates inclusive; (b) a clasp, "South Africa, 1902," to all who served in South Africa between Jan. 1, 1902, and May 31 1902 both dates inclusive.

The above clasps will be worn with the medal granted by army order 94 of 1901 by those qualified to receive them if they are not entitled to receive the medal granted by this order. If they are entitled to receive the medal granted by this order the above clasps will

Stabbed in a Football Game.

be worn with it.

Mt. Vernon, N. Y., Nov. 3. - David Smith, a young negro, while trying to make a touch-down in a football game Saturday, was stabbed twice by Matthew Jenkins, a negro, and the full back on the opposite team. got the ball and made a dash for the enemy's goal. He managed to get past all his opponents except Jenkins, who was guarding the goal. As he approached Jenkins the latter drew a clasp knife and threatened to stab if he tried to reach the goal. Smith kept on, however, and Jenkins raced after him. Jenkins caught up just as Smith was about to cross the line, stabbed the latter in the chin and abdomen. The wounds are serious. Jenkins was arrested.

To Be Hanged.

Dawson City, Nov. 3.-After a sensational trial lasting five days, the prisoner Labelle was found guilty of he murder of Botheville, of St. Francis, Quebec, and senteneced to be hanged on Jan. 10 next.

A prominent physician says that half the cases of nervous prostration, dyspepsia and insomnia that come to him for treatment are to be directly traced to an inactive liver.

JOTTINGS FROM NEARBY PLACES.

ILDERTON.

Ilderton, Nov. 3 .- The residence of Mr. T. J. Clatworthy, of Ilderton, was the scene of a very interesting event on the evening of Wednesday, Oct. 29, when his The Royal Gamekeepers' Bureau has eldest daughter, Florence S., was united in marriage to Mr. W. A. McRobert, of Maple Grove, the ceremony being per-formed at 7 p.m. by Rev. A. H. Rhodes, rector of Grace Church, Ilderton. The bride, who was given away by her father, looked charming in a beautiful gown of white Habutia silk, with trimmings of chiffon and silk applique, and carried a bouquet of pridal roses, wearing them also in her hair. The bridesmaid, Miss May Clatworthy, sister of the bride, wore a dainty gown of white organdie, and carried a bouquet of white chrysanthemums, with carnations in her hair. The groom was supported by his brother, Mr. T. W. McRobert. Mrs. James Skinner, organist of Grace Church, rendered Mendelssohn's "Wedding March" as the bridal party entered the drawing-room. The floral decorations were very beautiful, conspicuous among them being some magnificent chrysanthemums from Detroit, the gift of Mr. Thomas Hale, uncle of the bride. After the ceremony and congratulations, a wedding breakfast was served. The remainder of the evening was spent in social intercourse, enchiffon and silk applique, and carried a ing was spent in social intercourse, en-livened with music. The bride and groom left for their own home that evening, carrying with them the best wishes of their many friends. Guests were present from Detroit, Port Huron, Toronto, London, Granton, Falkirk, White-church, Maple Grove and Ilderton. The presents received by the bride were nu-merous and costly, among them being a check from her father and a beautiful marble clock and silver cake plate from the choir and congregation of Grace Church, the bride having been a valued members of the choir for anumber of years. The presentation of these took place on the evening of Monday, the 27th ult., the rector and members of the congregation being present at the home of ult, the rector and members of the congregation being present at the home of Mr. Clatworthy. An address was read by Miss Emma McAndless, and the presentation made by Miss Edith Bowey. On the evening of Friday, the 24th, an address and lemonade set were presented to Miss Clatworthy by the members of her Sunday school class.

TRIAL OF GERALD SIFTON IS AGAIN IN PROGRESS

He Faces Jury for Second | called, and Mr. Justice Britton addressed that body briefly. While the present court was to all intents and Time in Two Years.

PROBABLY LAST ONE WEEK

Expert Medical Testimony To Be Curtailed-Possibly None Will Be Submitted.

For the second time in two years oner be brought up. Jabez Fitzgerald Sifton, more familiarly known as Gerald Sifton, is fac-ing a jury of his peers to answer to the charge of mundaring his own fo the charge of murdering his own fathe charge of murdering his own fa-ther, Joseph Hammersley Sifton, on the by the dock, and by his two uncles morning of Saturday, June 30, 1900. In and aunt, John and Alley Sifton, and Miss Minnie Sifton, who have stood addition to the trying of the case at loyally by the prisoner since the day the September assizes in 1901, the case of his arrest. The prisoner was neatly has been four times adjourned, once at clothed in black and preserved the the fall assizes of 1900, when Walter same calm demeanor that has characterized his bearing all through his Herbert pleaded guilty to the charge previous appearances. of murdering the deceased elder Sifton, again at the spring assizes in 1901, a third time at the spring assizes this proceeded with. It occupied about year, and again at the recent fall assizes before Mr. Justice Lount. Gerald ber of jurors than did the crown. It Sifton has thus spent 26 months in will be noticed that not a single juror jail awaiting the final outcome of the hails either from London Township, charge on which he was arrested in the scene of the alleged murder, or

the third week of July, 1900.

GERALD SIFTON.

The trial in the fall of 1901, in which jury disagreed, lasted from Tuesday of one week to Thursday of the following week. It is not expected that the present trial will last more than to the end of this week. The shortening of the trial will be due principally to the probable curtailing of the expert testimony. At the last trial each side had from one to three dozen doctors in attendance to give their opinion as to the cause of Joseph Sifton's injuries and death. Since then the Dominion act has been so amended that either side in any criminal case may call only five experts in any particular line of testimony, unless by order of the presiding judge. It is improbable that either crown or defense will ask for such an order in the present trial, especially in view of Judge MacMahon's action at the last hearing, in almost contemptuously dismissing the voluminous mass of expert evidence in a single sentence.

There was no rush of spectators at the opening of the court. They began to gather in twos and threes before 1 o'clock, and by the time court was opened the body of the courtroom was comfortably filled. A large proportion of those in attendance were, of course, members either of the grand jury or the two panels of petit jurymen, num-Conspicuous among them was Edgar Morden, but his two cousins, James and Martin Morden, were only con-

THE COURT OPENED. It was just 1:30 p.m. when Sheriff Cameron called silence, and Mr. Justice Britton entered and assumed the bench. The first formal business of the court was the reading by the clerk of the precept ordering Sheriff Cameron to prepare for the holding of the

THIS DOCTOR IS BOGUS PREACHED TO THE CADEIS

Von Manteuffel.

That Are Dark.

Mr. Joseph Sanders, secretary of the Charities Organization Society, of this city, has received the following ganization of lads of Scottish descent letter from the secretary of the organization of the same name in New York City:

"A man known indifferently as Doctor of Philosophy, Adolph Baron Von Manteuffel,' and 'Professor William Von Humboldt,' but whose real name is Herman William Troebner, and who lately lived at 21 Scholes street, Brooklyn has been swindling of Commanding Officer Munro, and charitable people in this and other preceded by Drum-Major Sergt. Cockcities for some years past. After months of effort we succeeded July 24, Hon. Treasurer R. D. McDonald, ac-The empanelling of the jury was then 1902, in arresting Troebner at the corner of Whitehall and Water streets, this city. He was arraigned in first district court and upon July 28, 1902, committed to the workhouse for six months as a vagrant. A number of papers were found on him, such as a passport made out to the 'Dr. Adolph Von Manteuffel' (purchased we are informed from the real Von Manteuffel, from the city of London, where the prisoner is so well known, and where an outcast), a list of American mil-The jury, as finally empanelled, was lionaires, and a great deal of begging composed of the following twelve men: J. E. Thomas, Westminster; Dougald Gillies, Mosa; W. A. Ryan, Bidduiph; Hy Remmele, Ekfrid; W. J. paraphernalia, including forged references. This man has been known to the society since March, 1901. He has claimed to be a son of the late General Howlett, Delaware; Daniel Wood, North Dorchester; Donald K. McRae, Ekfrid; Robt. Patterson, W. Nissouri, Von Manteuffel and has invariably given false addresses. In March, 1901, the New York Staats Zeitung warned its readers against him as an impostor, and in May last we placed him on our

cautionary list.
"Upon Aug. 30, 1902, Troebner was granted a conditional discharge in order that he might attempt to support his family. He was in the hospital on Hart's Island most of the time and as he expressed himself as anxious to reform, we put him to work in this office at a salary of \$9 per week. Troebner worked but three weeks when he decided that \$9 was too little to get along with, and is now we believe canvassing pictures in Canada. "Troebner's usual method is to represent himself as being a metallurgical chemist and to ask ment. Given an opening he will relate a pitiful story and secure a 'loan' of anywhere from \$1 to \$50, such loans he does not repay and fails to accept employment if offered. As a matter of fact the man is not a chem-

ist at all, but a loafer and gambler. "May we ask you if this man is known to your society, or has he come to your notice as yet? We are trying to keep in touch with him and prevent his resumption of swindling operations. Troebner has a wife and one child,

who we believe left their Brooklyn home after selling all the furniture, The balance of the two panels of and joined him in Canada. jurymen were discharged after the completion of the trial jury.

Mr. Clute asked that the same "If this man is known to your society or if he should come to your notice at any time, will you kindly attend to him and let us know? By course be pursued at the present trial so doing you will confer a favor which

will be greatly appreciated by this society. Respectfully yours, "JAMES FORBES. "Special officer, Charity Organization Society."

MANUAL TRAINING HERE

made were very slight, and the pre-mises were still practically in the for Its Establishment

> Mr. Albert H. Leake, inspector of technical education, and Mr. Sugden Pickles, of the Macdonald manual manual training school in this city. "I have also inspected the domestic science department at the Collegiate Institute," Mr. Leake said to The Advertiser this morning. "I found everything in very good order up there. The classes are getting along nicely. You may say for me that Miss McIntosh has done very good work, especially, considering that the classes were

> started only a week ago." "We expect to have the man ual training classes begin in January," Mr. Leake said. "Mr. Pickles will be the teacher here. He and Mr. Merchant and I have been making ar rangements for the equipment this morning. The prospects here are excellent. London will have one of the best schools for manual training in Canada. A fine room has been set apart for it at the Normal School, and the equipment will be the very best. And London will have one of our most capable and experienced teachers. Mr. Pickles taught in England, and for some years had charge of the school at Brockville."

Asked as to the cost of the equip-ment, Mr. Leake said: Well, I can't definitely, but the equipment at the London school will be more elab-orate and expensive than at other places. You see, it is the intention to provide here for three distinct classes. First of all, we shall equip it for the Normal School pupils. We expect that classes of Collegiate Institute pupils and public school pupils also will be for them will be put in. Mr. Leake said that the school will be ready for the new year.

HAND SMASHED. Charles Thebaudeau, a brakeman, employed on the C. P. R., had his hand caught while coupling cars today. The hand was very badly smashed. Dr. Stutt attended him, and expects to be able to save the hand, although sixteen

Warning Issued Against Baron Chaplain Clark Chooses Loyalty as Theme of Stirring Sermon.

Local Authorities Told of His Ways Boys Urged To Be Loyal to Homes, Parents, Country and Church.

> The first church parade of St. Andrew's Highland Cadets, the new orwhich has met with such encouraging success, was held yesterday morning to the First Presbyterian Church. Here the boys listened attentively to an eloquent and absorbing sermon by their esteemed chaplain, Rev. W. J. Clark, who has taken a great interest in the corps. The cadets assembled for the parade at the drill shed, over 50 being in line. They marched to the church under command burn and the Seventh Regiment bugle band. Hon. Col. John Pringle and companied the corps. Many citizens witnessed the parade and spoke admiringly of the smart and soldierlike appearance of the boys. The church was inadequate to contain the crowd

who wished to obtain admission.
Mr. Clarke choose "Loyalty" as his subject, and took his text from the fifteenth chapter of 2nd Samuel, which tells the story of Absalom's treachery to his father David. From the lessons of this chapter, Mr. Clark urged upon the boys the cherishing of the virtue of loyalty. He enjoined them to be loyal to their homes and to their parents. They should not envy others the possession of luxury, and they should not be ready to see faults in their parents. He asked them also to be loyal to their friends—their true friends, of whom they could have but a few. Mr. Clark also told the boys to the loyal to their city, which was one they might well be proud of. The Dominion and the Empire also were worthy of all loyalty and love. Above all, said Mr. Clark, let the boys be loyal to the Church of Christ.

DAY BEFORE ELECTION

Both Sides Claim New York State-The Herald's Estimates.

New York, Nov. 3.—The day before election finds the leaders of both the Democratic and Republican parties still expressing confidence of victory in the Empire State. Predictions vary from 10,000 pire State. Predictions vary from 10,000 to 50,000 on both sides, though the estimates of the two state chairmen, Frank Campbell for the Democrats, and Col. Dunn for the Republicans, are almost the same, the former claiming 35,000 for Coler, and the latter 37,600 for Odell.

The New York Herald's final poll of the country on the probabilities of the congressional elections on Tuesday would seem to indicate a still further swing of votes from the Republican party. The result, however, does not seem to portend a landslide, but is rather of a negative Inspector Leake in London Planning a landslide, but is rather of a negative character.

Smallpox in Toronto. Toronto, Nov. 3.-Mr. William Ellwell, a student in attendance at the School of Practical Science, was re-House, having come to this city in connection with the establishment of a manual training school in the swiss cottage Hospital on Saturday, suffering from a well-developed case of smallpox. He resided on Binscarth road in a basic school in the swiss cottage Hospital on Saturday, suffering from a well-developed case of smallpox. He resided moved to the Swiss Cottage Hospital outside the city limits. There are six people in the house, which has been quarantined. The head of the family has been shut out of his home, and is stopping at a down-town hotel.

2:07 2-5.

Fourth

Local Players Could Not Score under restraint for the first mile and During First Half.

Only Hope Now Is That Argonauts Shall Win Also.

FOOTBALL.

TORONTO, 11; LONDON, 7. Toronto, Nov. 2.-The Intermediate Rugby game played at Rosedale on Saturday between Toronto and London was won by the local players by It to 7, the score at half-time being 11-0. It was a first class exhibition of Rugby. The Toronto team were pounds lighter, but their speed carried them through. The winners did all their scoring in the first half, while London did theirs in the second. The prettiest play of the day was a dropped goal by Stollery, he doing the trick with a left foot kick. The game was somewhat rough at times, but not enough to spoil

it. The teams:

first half on a penalty. Queen's did their scoring in the second half, with Jockeys O'Connor and Conley were

QUEEN'S, 5; VARSITY, 0. Kingston, Nov. 1 .- The Queen's-Varsity match at Queen's athletic grounds was played before 1,500 people, the day being bright and warm. Savage, of McGill, was referee, and Mohr, of Mc Gill, umpire. Varsity began the first half with a slight wind in their favor. When second half opened the wind had died out, but Queen's seemed stronger and put the play in Toronto territory for the first ten minutes.

Queen's kept the play close to Var sity goal line, and on a pass from Dalton Half-Back McDonell crossed the Toronto line for a touchdown. Simpson failed to convert. Queen's, 5; Varsity,

This proved the only score of the day, and thus Queen's won by 5 to 0. The scoring was in the second half and made by Flipper MacDonald by a long run. It was cleverly done and won the game. The contest was one of strength purely. The ball was almost constantly in scrimmage. Open play was a rarity. There was a number of free kicks, but immediately after the ball would go into scrimmage. Several times Queen's goal was in danger, but was prevented by good work. In the first half the play never got below center in Queen's teritory. In the secand half Varsity territory was the testing ground. There was some scrapping, two Varsity and one Queen's man having to step aside. The officers were: Referee, George Savage, McGill: umpire. F. Mohr. McGill: touch-line judges, F. Etherington, Queen's; W. G. Wood, Varsity; timekeeper, Dr. Harty, Kingston. At the Royal Military College

grounds, in the semi-finals of the Junior O. R. F. U. series, the Cadets were not in it for a minute, the Limestones winning 38 to 0, of which 21 were made in the first half. Referee. Cadet Waldron.

SCORCHER AT ST. PIERRE A NEW MANITOBA RAILWAY

Large Part of Miguelon Town Is Northern Pacific Behind the Devastated.

Loss Placed at Half a Million Dollars-Blaze in New York.

St. Johns. Nfld., Nov. 2.-The town of St. Pierre, Miquelon, has been de-

vastated by fire. A destructive conflagration started last night and swept the main portion of the town. The Governor's house, the Government building, the court house, the building occupied by the Ministry of Marine, the Roman Catholic cathedral, the presbytery, the schools and a number of other buildings, were destroyed. It has not yet been learned how the fire originated. There was no wind last night else the entire town would probably have been completely obliterated. Even as it is, the extent of the disaster very far-reaching, and the financial

loss will probably reach half a million dollars. There was no loss of life or serious accident. The rapid spread of conflagration was due to the trifling water supply and to the fact that St. Pierre has no adequate fire fighting

The town of St. Pierre has been partly burned down three times beore—in 1865, 1867 and 1879. DOZEN FAMILIES BURNED OUT. New York, Nov. 3. — Fire at Larchmont, Westchester County, Saturday, destroyed a section of the business dis-

trict and wiped out houses in which

a dozen families lived. The estimat-

ed loss is \$75,000.

The labor involved in putting quinine into capsules is skilled and costs 2 cents a dozen capsules, according to a New York druggist.

Big Venture?

Route of Proposed Line-Promoters Want Charter for 2,500 Miles.

Winnipeg, Nov. 3. - C. E. Hamilton, of St. Paul, has applied to the Manitoba Government for a charter for a company that proposes to build as much railway as the whole province at present contains. Roughly estimated the line, when completed, as mapped out will be about 2,500 miles in length No names are attached to the application, and nothing is definitely known as to who are behind it, but it is generally believed that the Northern

Pacific is the promoter. The proposed line will enter the province at Emerson. One line will come north to Winnipeg, where it will branch in two directions, one branch going to Fort Alexander, on Lake Winnipeg, the other to Winnipegosis, on the lake of the same name. main line, however, will traverse Southern Manitoba, and will pass into the Territories about 60 miles north of the international boundary. Branching from this is a line which will run into the Territories, at the northwestern part of the province. From the main line five branches will run south American territory. Neepawa, Portage la Prairie, and all points in Manitoba now important or likely to be, will be tapped by the new

system It will be remembered that the Northen Pacific leased all its Mani-toba lines to the Canadian Northern less than two years ago, the Provincial Government securing the bonds to the

extent of many millions. Canadian Ore in Demand.

Halifax, N. S., Nov. 3. - It is learned from a reliable source that agents for the United States steel trust are endeavoring to obtain iron ore deposits in Cape Breton. A few weeks ago two representatives of the company visited Cape Breton, and examined several areas. They made an offer for them, but in some cases the offers were refused because the Dominion Iron and Steel Company had already acquired an option on the properties. It is stated that the steel trust agent considered an area at Mira to be superior to any in the world. This was one of the properties they were unable

SMASH-UP CAUSED DELAY. A smash-up occurred on the C. P. R. near Chatham early Saturday morning which caused delays in the local service. A train broke in two, and on a down-grade the rear end crashed into the front half, smashing several cars. The Rugby players going to Toronto

were late in arriving there on this ac-FIRST MEETING HELD. The first meeting of the Maple Leaf League of the season was held Sat-

urday, when the following officers were chosen: President, Miss Shaw-Wood; first vice-president, Mrs. Cal-Wood; first vice-president, Mrs. Calland; second vice-president, Mrs. Screaton; third vice-president, Mrs. Mitchell; recording secretary, Mrs. Glass; treasurer, Mrs. Walker; corresponding secretary, Mrs. W. C. Hooper; honorary members, Mrs. T. H. Smallman and Mrs. J. H. Marshall.

A PASTORAL LETTER. The services yesterday morning at St. Paul's Cathedral were made exceptionally interesting by the reading of a pastoral letter from the archbishop and bishops of the upper house. It was read to the General Synod at Montreal in September this year, and was ordered to be read by the paro-

chial clergy to all the Church of England congregations in Canada. It referred to the happy unity which at present exists throughout the Church of England in Canada; to the establishment of the new missionary society; the observance of the Lord's Day; the necessity of accepting the Word of God, and the present apathy in regard to Sunday school.

AL DAVIDSON IN SHOW BUSI-

Al E. Davidson, who at one time was secretary of the old Grand Opera House while his brother John H. Davidson was manager, and later was secretary of the Princess Rink during the roller skating craze, has had on the road for some time a company controlled and owned by himself, called the Davidson Stock Company. He has been playing the principal towns in Michigan and the Northwestern States and has met with much success. and the "Great Diamond Robbery," two popular melodramas, are in his repertoire, besides many other new pieces. It is possible that the company may tour Canada and eventually visit

DECISION MET WITH FAVOR. The Minister of Education made the following statement on Friday:

"The decision of the department of education some time ago to abolish Part I. of the public school leaving examination has been received with great favor in all parts of the province. There have been two or three protests received from teachers, but, generally speaking, there is a ten-dency throughout the world toward lessening the number of examinations. The policy of the education department is to have as few merely ompetitive examinations as possible, Qualifying examinations are, however, necessary, and certain requisites must be leaving several counties this provision has

SCENE FROM "A FIGHT FOR MILLIONS."

TONIGHT AT THE GRAND. "A Fight for Millions," which will be seen at the Grand tonight, has scored one of the greatest successes of the season. In Toronto the past week it drew crowded houses. This new production is one of the most elaborate that will be witnessed here this season. Two 60-foot baggage cars are required for all its magnificent scenic, electrical and mechanical effects, and the company numbers 20 artists. For this engagement a special scale of prices has been arranged, 15c,

25c, 35c and 50c. BIG SCENIC PRODUCTION. Judging by the outlay for scenery and other equipment, together with the intense climaxes and absorbing love interest of the story, "Sergeant James," by Eugene Walter, will be as big a success as "Arizona," when it appears at the Grand tomorrow night. The piece of full of bright color contrasts. It is a delightful play, clean and wholesome, as well as thrilling, drawn on lines of real humanity and lightened with comedy of a particularly excellent type.

How a Woman Holds a Man's

Affections. A wise and observing person stated the other day that many a wife complains that her husband does not take required of teachers, her out, that she only sees him at just as from doctors or ministers. meals, or that he makes friendships Our best teachers say they get the in which she has no part. Further, meals, or that he makes friendships best work when the students are not that she blames him for neglecting compelled to work simply for the ends her, and thinks herself ill-used; yet, of an examination." To those who he is only following the natural inobjected to the abolition of Part I. of stinct of humanity—the fault is really the public school leaving examina- hers. The most easiest way a wife tion, Mr. Harcourt pointed out that can hold her husband's affection and provision is made that the county sympathy is by Beauty, which is council, on the recommendation of possessed by using the great Dr. T. the public school inspector, has authority to arrange for promotion or leaving examinations, and that in leaving examinations are suppossessed by using the great Dr. T. Felix Gouraud's Oriental Cream, or Magical Beautifier; it will render your leaving examinations. skin a soft pearly whiteness, free from tan, pimples, freckles, moth patches, and all blemishes of the skin -at the same time defies detection. WESTERN FAIR BOARD HAS BALANCE OF \$3,000

Were \$19,000.

This is \$7,000 in Excess of Those of Preceding Year.

The gate receipts for this year's Western Fair exceeded those of last year by over \$7,000, the receipts for 1901 being \$12,000, while for 1902 they were \$19,000. This was shown at the regular meeting of the board held on Saturday. Other receipts were as follows: Privileges for boths and buildings, \$3,254; special prizes, \$840; City and Middlesex Agricultural Societies. \$550; entry fees, \$780; balance from 1901, \$78; ring privileges and rent of stalls, \$583. The largest item of expenditure was the prize money, which amounted to \$10,220. Other expendi-tures came to about \$6,000, leaving a

credit balance of \$3,000. the meeting that during the last thirteen years over \$52,000 had been expended on the Queen's Park property, owned by the city, which uses it for public purposes when required. The city during all that time practically spent only \$1,000 on the grounds. The fair brought money galore to the city, and one director said that a Dundas street merchant told him that he had increased his sales \$3,000 this year

Total Gate Receipts for 1902 during fair week. Later, during the meeting, when the proposal of a guarantee fund for the fair was made, it was suggested that those so benefited should contribute towards such a fund. Col. Gartshore, who was in the chair, proposed that, as in Toronto, the fair board should endeavor to sell tickets before the commencement of the exhibition. Then, in case of bad wea-

ther, the board would not be left with an elephant on their hands. From this proposal came the suggestion that the city council be approached with a view to obtaining a liberal grant from it, as at all other places where there was an exhibition the city councils contributed liberally. It will be recommended to the new board that they take action in the mat-

A committee was appointed to look after the Western Fair interests, if the Government grants any money for fair purposes. It was understood that a grant may be made to the proposed Dominion exhibit at Toronto next year, and the directors felt that the Western Fair is as much entitled to a grant as the Industrial.

The Dairymen's Association of West-ern Ontario wrote to the board calling attention to the need for better ac It was brought out in discussion at | commodation at the Western Fair for dairy exhibits. Their letter will be acknowledged by

Secretary Nelles, who will ask the association to suggest changes, and ask also what share of the cost it will bear. The secretary will convey to Mr. Frank Cooper, photographer, the thanks of the board for a fine group photograph of the officers and direc-

TO SAVE ST. JAMES' CHURCH

treal Edifice.

Rev. Joseph Graham, pastor of St. preached at the First Methodist Church yesterday morning. He took his text from the words of Isaiah, "Ye shall not fail nor be discouraged," and from it made an impassioned appeal for funds to relieve the financial embarrassments of St. James' Church. He said that church was a most vital point in Christ's kingdom, and he compared it to the situation occupied by Ladysmith in the late war. Of the \$182,000 required by the church, only \$50,000 now remains to be raised.

Bats and their parasites are held responsible, by an Italian expert, for the transmission of plague in some

LOST TOES ON LEFT FOOT

Painful Accident to Percy Bang-

hart, Medical Student.

Was Struck by Engine at London East

Household Science, Toronto.

student at the Western Medical College, met with a painful accident shortly before 10 o'clock yesterday morning at the London East station of the G. T. R. He was taking a Sunday morning walk and had called to see Mr. D. J. Kennedy, the station agent at London East. Mr. Kennedy being busy, Mr. Banghart walked across the four tracks to the most southerly, where he became interested in the operation of "dumping" an engine's firebox. A freight train was passing on the east main line, and Mr. Banghart was walking slowly on the west main line, between the passing train and the stationary engine. A yard engine with a string of cars at-tached came westward behind him, and before he could act upon the warning shouts given he was struck by the engine. Fortunately his body fell clear of the rails, but his left foot was caught by the wheels, which passed over his toes. He was picked up in a dazed condition and was unable to give any clear account of the accident. The ambulance was summoned and Banghart was removed to Victoria Hospital, where Dr. Hadley Williams and Dr. W. English amputated the first four toes of the foot. Later in the day Mr. Banghart was sufficiently recovered to see a number of his friends. Should blood-poisoning not set in, thus necessitating a further amputation, the patient will probably be out in about two months. Mr. Banghart, who is one of the brightest and most popular students at the school, with his parents, Mr. and Mrs. W. H. Banghart, at 891 Lorne avenue

Memorial to John Hay's Son. Simsbury, Conn., Nov. 3. - Secretary

of State John Hay and Mrs. Hay today attended a service in dedication of the Hay memorial chapel given by them to Westminster school of this place in memory of their son, the late Adelbert Stone Hay, formerly United States consul at Pretoria, South Africa, whose death resulted from a fall uated from Westminster school in 1894, China or elsewhere,

and from Yale in 1898. The dedication of the memorial was on the 26th anniversary of his birth. The chapel, which is a handsome structure of stuccoed brick, is situated on an elevation of several hundred feet, overlooking the Town of Simsbury.

There are some fifteen thousand Chinamen in Cuba, and since the island became independent there is no law to prevent their going there from

"Just a little bit off the top"

So saith the Customs Officer to the United States Shoe.

"Cut away a vard or two of value, before you cross our border ! "

Canadians who buy United States Shoes, merely because they are not made in Canada, are thus fined 25% for their lack of perception and patriotism.

The Canadian made "Slater Shoe" is sold in Newfoundland, Bermuda, England and France, in even competition with United States Shoes.

It is sold in Canada at 25% less than any United States Shoes can be imported.

Note and investigate these prices: The "Humanic" Shoe retails in the United States - - -In Canada - - -\$5.00 The "World-Known" U.S. price \$2.50 In Canada "Queen Quality" U. S. price - \$3.00 In Canada "Sorosis" U.S. price \$3.50 In Canada \$4.50

Are you working for the Custom House? Money can't buy better shoes for the price, anywhere on earth, than those which are stamped on the

sole with the Makers' valuation, in a slate frame.
