## Editor vs. Archbishop.

The Pro-Election Dickering Canvassed.

A Clear Statement of the Negotiations With Minister Chapleau and Others Wanted.

Why Was the Famous Pastoral Withdrawn After the Conservative Embassy Saw the Archbishop?

OTTAWA, July 6.—Mr. J. Israel Tarte, M.P. for L'Islet, has addressed to Le Canada of this city a series of letters in reply to Archbishop Tache's communication of some days ago, in which he undertakes to substantiate the charges he made relative to his grace and the Manitoba school question. The first letter of the series appears in this evening's Le Canada. The letters are addressed, "To His grace the Archbishop of St. Boniface," and begin as follows: "There is between your lordship and myself a misunderstanding with regard to the interpretation of certain incidents previous to the election of 1891, and I am obliged to you for the opportunity of clearing up the matter. On the 6th of March last, I spoke to you in the House of Commons, I spoke to the Hon. Mr. Chapleau, Secretary of State, has been commissioned to see Archbishop Tache, then sick at the Grey Nuns' Hospital, Montreal. Authorized by the then Prime Minister, he saw the archbishop and made known to him the difficulty of the political situation of the cabinet. The archbishop answered: 'But if we wait, if we surrender, I might be again the victim of deceit, as I have been before.' It is also said—I do not affirm it positively; the honorable Minister is in his seat and can contradict me if I am wrong—that the honorable Minister of Public Works took part in those proceedings. At any rate they were conducted by the then Secretary of State, and engagements, private and formal, were then entered into. Long months now have elapsed since I affirmed the existence of those negotiations and private engagements to have taken place before the last general election, and your lordship has spoken, and I hasten to answer, trying to express my views as clearly as I am able. You do not contest this fact, but to my great astonishment you try to diminish its importance." Here Mr. Tarte quotes the archbishop's denial that any negotiations took place "on behalf of the Government," and proceeds: "I know, my lord, that you have not negotiated with all the Government; I know that Mr. Chapleau did not call upon your lordship armed with an order-in-council, and I have never said that; but Mr. Chapleau was, to your knowledge, the Secretary of State for Canada, and this gave to his words the importance due to his official position. If he did not speak to you in the name of the Government, in whose name did he approach your lordship at such a time during the heat of an electoral campaign? If he had not been a Minister of the Crown and if he had not represented, in your mind, the Federal Government, what authority would he have had to make you promise on which you placed the same value as those contained in the report of Sir John Thompson dated March 21, 1892? In a letter written by your lordship on Aug. 30, 1892, to Mr. L. H. Tache, we find the following words: 'Sir John Thompson has pledged himself officially and publicly. Others have done the same privately and solemnly. You must, my lord, have received, and you know they came from a Minister of the Crown, from the Secretary of State of the Government of Sir John Macdonald. If I am mistaken, say so clearly. Give to the country the names of those who made these promises to you privately and solemnly. Your experience is too great and the question is too important for you to have received engagements which would not have appeared to you as solemn. You qualify them yourself as solemn.' You then have believed in them, so much so that the pastoral that the bishops of Canada were to sign and publish was not signed nor published. The existence of that document, so full of interest in the present circumstances, and for the intimate history of the school question, was affirmed by Le Canada and denied by the letter of Rev. Father Gendreau to Le Canada. Why was not the pastoral referred to in the letter, signed, and published, and read if not because your lordship had received in the meantime promises, 'private, but solemn'? No other power in the land but the Dominion Government had the right to make such promises. If there was another, my lord, please say what it was. So I have not culminated you in writing and saying that private and solemn promises had been made to you, and had not been kept, but have arraigned the Minister who has deceived you, and the Government that have taken advantage of your good faith, which have abused your confidence in them in 1891, and abused it to-day more strongly than ever. I regret that you have assumed a position in defense of men who had no other desire than to get out of the school question to shirk the responsibility with which they are charged, and to make of your episcopal robe a shield for themselves. Believe me, your most devoted, (Signed) J. ISRAEL TARTE."

Terrific Hail Storm.

READING, Pa., July 6.—This city was visited by a hail storm yesterday afternoon, which for destructiveness eclipsed all previous storms of the kind since 1866. The storm originated about seven miles west of Reading, and covered a width of about four miles. Grain, oats, corn, flower gardens, grapes and other fruits were stripped off like leaves, and the vineyards of Mount Penn are completely ruined. South of Reading, especially along the Schuylkill valley, the destruction of crops was very great. The wheat, rye and oat crops not yet cut have been leveled to the ground, and many of the fields were flooded.

A Little Fa Herly Advice.

"Offer you marry," said an old gentleman to a young woman, "let it be a woman who has judgment enough to superintend the getting of money, taste enough to dress herself, pride enough to wash herself and get enough to use Dr. Pierce's Favorite Prescription whenever she needs it." The experience of the aged has shown the "Favorite Prescription" to be the best for the cure of all female weaknesses and derangements. Good sense is shown by getting the remedy from your druggist and using it whenever you feel weak and debilitated. It will invigorate and cannot possibly do harm.

Some people are wise, others are otherwise.

## SUNDAY AT THE FAIR.

President Palmer Stirs Up the National Commission.

The Managers in Opposition to Congress That Created the Body.

CHICAGO, July 6.—President T. W. Palmer, of the World's Fair, stirred up the Sunday question yesterday on the Sunday question yesterday on the adoption of the Houlden-Toumey resolution, which has for its purpose the closing of the gates on Sundays. President Palmer said: "I want to see this resolution adopted. We have put ourselves in an attitude of antagonism to the Congress that created this body. We are in a false position. I am sick and tired of the petty evasion that pretends that the opening of the gates was in accordance with law. You know, as I know, that the report of the Sunday closing rule has never been in the courts. The only final decision hinged on the jurisdiction and not on the repeal of the rule. No matter as to that, the opening of the gates was in violation of faith, was done without the sanction of the law, and has injured the good name of the commission. If the motion to adopt the resolution is lost now, I give notice that I shall move a reconsideration and keep it up as long as the commission sustains me. The original closing rule stands and will stand unless a majority of the commission sees fit to repeal it."

Several other members made speeches, and then Commissioner Martindale asked for postponement until the written opinion of Chief Justice Fuller, which it was claimed by Commissioner St. Clair would settle the point.

D'ALTON'S DEFEAT.

Mr. McCarthy Challenges the Government to Open Any One of Ontario Constituent Names.

OTTAWA, July 6.—A gentleman who was in the city to-day on business with the Government, says that before D'Alton McCarthy left for England he sent a letter to the Government challenging them to open any constituency out of a list of 20 in Ontario which he named, even during his absence, and he claimed he would be able to capture any of them.

A PERILOUS TIME FOR THE BABIES!

Thousands Will Die!

"It is a perilous time for the babies; thousands of them are very low, and the majority will die."

This statement was made yesterday by one of our oldest established druggists. He was fully aware of the ravages that cholera infantum and dysentery were making in the ranks of the innocents.

This cholera infantum is perhaps the most common cause of death among young children in the hot weather. A little one may become ill to-day, and tomorrow it may be near death's door. The little ones that suffer of cholera infantum and dysentery are those who are fed on poorly prepared artificial foods and inferior cow's milk. Babies fed on Lactated Food, their digestive organs, they are bright, happy, contented and sleep well. The mothers who feed Lactated Food to their little ones have a comfort and feeling of safety unknown to mothers who use suspicious common foods. Give baby the pure Lactated Food all summer and you will rejoice at the result.

Rheumatism No Respector of Persons.

BEZARD'S BAY, Mass., July 6.—President Cleveland is confined to his room at Gray Gables with an attack of rheumatism in his foot and knee. Surgeon General Byant is in attendance on the President.

Two Dancers Drop Dead.

CHICAGO, July 6.—Two persons danced themselves to death on Monday at picnic. Maggie Cannon, 16 years old, dropped dead on the dancing platform at Clybourn Park, and James Vapato, 19 years old, not a dancer, died at a grove on West Forty-seventh street.

The Liberal Leader's Programme.

MONTREAL, July 6.—Mr. Laurier intends to deliver a series of addresses in the eastern part of the Province the latter part of this month. He will speak first at St. Anne, in the county of Richelieu, on July 11. Messrs. Bunnell, Tarte and Brodeur will also address the meeting. Afterwards, accompanied by Senator Paquette and Messrs. Choquette and Tarte, he will visit the counties of Rimouski, Chicoutimi, Temiscouata, Beauce and Saguenay.

London, Friday, July 7.

A PLATFORM THAT WILL STAND.

In the past it sometimes has been charged

that the reason why the "protectionists"

have been kept in power for so long a

period in Canada lay in the ambiguity of

the Liberal platform. We have no hesita-

tion in affirming that the friends of the

monopolists got far less effective aid from

so assailing the Liberal policy than from

appeals to carefully cultivated partisan

bias; from the infamous gerrymander,

which is nothing short of highway robbery,

as more than one prominent Conservative

has recently admitted; from the operations

of partisan revising officers and judges;

from the theft of seats, as in the notorious

London case; from the distribution among a

needy population of hundreds of thousands

of dollars of Red Parlor contributions, re-

paid to the rich monopolists many hundred-

fold by special opportunities to profit at

the expense of the whole people; from the

Caron, Langevin and Huggart expedients

which were revealed in Parliament and

which brought the fair Dominion into disre-

pute throughout the civil world, these

we—the agencies, and not the popularity

of high taxation, that saved the men now

in power by a small majority at the last

general election.

But if there were any grounds in the

past for the charge that the trade policy

which we have indulged was not sufficient-

ly plain or popular to captivate the popu-

lar, even in an unfair fight on the

### Deaf for a Year Catarrh in the Head

Caused by  
Catarrh is a CONSTITUTIONAL disease, and requires a CONSTITUTIONAL REMEDY like Hood's Sarsaparilla to cure it. Read:  
"Three years ago, as a result of catarrh, I entirely lost my hearing and was deaf for more than a year. I tried various things to cure it, but had several physicians attempt it, but no improvement was apparent. I could not distinguish any sound. I was consulting putting myself under the care of a specialist when some one suggested that possibly Hood's Sarsaparilla would do me some good. I began taking it without the expectation of any lasting benefit. To my surprise and delight, my hearing was returning. I kept on till I had taken three more, and now I am perfectly well. I can hear perfectly well. I consider this a very little with the catarrh. I consider this a remarkable case, and cordially recommend Hood's Sarsaparilla to all who have catarrh." HERMAN HICKS, 30 Carter Street, Rochester, N. Y.

HOOD'S PILLS are purely vegetable, and do not purge, pain or grip. Sold by all druggists.

### THE TRIGGER.

CONTEST FOR A DIAMOND MEDAL.  
At the last regular shoot of the London Gun Club, Claude won the diamond medal with flying colors, making 24 out of 30. The competition stands to date as follows: Redpath won twice, Claude won twice, Stanley won once, Evans won once and Avey won once. It must be won five times by the same person before its ownership is decided. The weekly shoot takes place to-day.

Some rare shooting took place in the international competition at the Gun Club, Nottingham Hill, on June 20. Fifty-one experts tried conclusions for the Paris cup, valued at \$250, with \$750 added money. Prince Duple Singh won with 20 straight kills, at 244 yards. Don R. Luro was second with 19 kills, while third place went to Sir G. H. L. Buchanan. The winner is son of a Maharajah of India. Don R. Luro is a Spaniard hailing from South America.

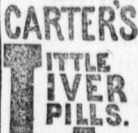

### ATHLETICS.

OFTEN DROPPED OUT.  
Boston, July 6.—The long-talked-of international two-mile foot race between Tommy Connell, the deposed amateur champion, and George W. Orton, champion of Canada and America, was started in the Athletic Club sports Tuesday, but Orton at the end of the fourth lap was so palpably beaten that he dropped out of the race, Connell winning in 10 minutes 21.5 seconds.

F. E. Bacon, the Ashton Harrier, who is coming to this country, added to his laurels to his chaplet at the home track on June 10. He defeated Sid Thomas in a four-mile scratch race in 19:57. Bacon waited on the ex-record holder until a furlong from home, when he cut loose and won, full of running, by five yards. At the Bradford games on June 14 Bacon was allowed ten yards start in the one-mile run from a supposititious scratch man. He rested satisfied with getting within striking distance of the long start division until the stretch was reached, when he closed up and won by half a yard in 4:30.

AQUATIC.  
The death is announced of Tommy Attwood, "the man fish." The great swimmer, who was once Prof. Beckwith's right hand man, made and lost fortunes in his time, and died in absolute poverty in the Newington Infirmary on June 18.

### NO COMMON HOME RUN.

Harvard was at the bat. It was the opening of the memorable game Saturday when the crimson won (6-4) the baseball championship from Yale. Mason, the first man up, knocked out a home run, which looked like this to the New York World specialist:

"After a little ceremony the Yale team took the field, the long and thin umpire and the short and roundball umpire took their places and the struggle was on. At first it looked as though Carter was trying to stand in the box and Carter's nose was at the plate. He came as near doing it as any man on earth, too. It was only a bluff, however, to disguise the whereabouts of the ball, and it did not fool Mason a little bit. Out of the general tangle of Carter's physical hieroglyphics Mason spotted the ball and slammed it hard over Laurie Bliss' head in center field. Papa's fair-haired boy saw it coming, but for all practical purposes it might as well have been the Angel Gabriel. Laurie Bliss could not have caught it with a flying machine. Nevertheless, he turned his back on all his friends and relations in the grand stand and spiked grass industriously for the suburbs.

"In the meantime the wild and untamed Mason was tearing around the bases like a runaway mule. Every Harvard man and girl on the grounds was standing on tiptoes, shrieking and whooping and knocking each other around in wild enthusiasm. The grand stand was full of bobbing faces, and every bobbing face was full of holes from which their came one prolonged unearthly discord. The Yale men looked with awe upon the fatal Masonian look, and shrank away down into their shirt collars and said naught. One large round peg-green word would have covered the sum total of their combined thoughts.

"The ball rolled down almost against an outfield post. Notwithstanding its distance from the seat of war, Mason came home under whip and spur. The ball was left at the post."

### FLYTS.

In Wellington, Kan., the mayor made an appropriate address at the opening of a baseball game.

### GOLF.

THE LADIES' CHAMPIONSHIP.  
Golfers are enthusiastic over the brilliant climax of the ladies' championship, which was decided on the St. Anne's links on June 15. In the final tie Lady Margaret Scott beat Miss Pearson Tapp and won the championship.

### CRICKET.

LONDON VS. AYLESBURY.  
The London C. C. played a match here yesterday with the Aylesbury eleven, defeating their visitors easily with eight wickets to spare. Score: Aylesbury 92 and 25, London 103 and 20.

### BASES.

At Paris on Thursday: Paris 81, Parkdale (Toronto) 112.

At Leeds, on June 20, the Australian cricketers gained the most creditable victory they have achieved since the opening of their present tour. They beat the players of England with six wickets to spare. The match was the thirteenth on the programme of the tour. Of these they have won 5, lost 5 and drawn 3.

### THE WHEEL.

Gentlemen who ride horseback for health or pleasure do not affect the posture of the jockey on the racecourse. No more should gentlemen who ride the bicycle for exercise and recreation affect the ungainly posture adopted on the racecourse by speedy riders.

The American three-quarter-mile running record of 3 minutes 13 seconds, established by Les Myers in 1882, was beaten at the twelfth annual games of the London Private Banks, Calford Bridge, June 17. The principal competitors were: Harold Wade, last year's champion; W. J. Fowler, London A. C., and E. J. Wilkins. Ranelagh H. Fowler made most of the time in the last lap. The game pair ran locked together until twenty yards from the line, when Wilkins came sprinting along from the rear, and won in the last jump. Time, 3 minutes 12 seconds.

### THE TIE.

WINDSOR RACES POSTPONED.  
WINDSOR, July 6.—The races were postponed to-day on account of rain, and will be completed Friday and Saturday.

TIPS.  
At Washington Park, Chicago, on Wednesday, Wildwood, the \$10,000 California star, won the one mile and 70 yards race by a length, in fine style, with London second, Sweet Blossom third. Time, 1:44.

At Philadelphia, on Wednesday, the Canadian scullion Piles Stanton, a hail and wind storm broke over the park in all its fury, and in a few minutes about \$6,000 worth of damage was done. The grand stand was unroofed, sixteen sheds were blown down and skeletons and carriages were demolished.

### Give It a Thought.

Do you know how the big flags which the loyal citizens unfurled on the Fourth are made?

In an upper back room off Grand street, in New York city, sits a little woman not yet 30; her lower limbs are useless. All day long she bastes and fells the white stars on the blue ground of the national emblem. There are placed on both sides alike, which doubles the number and doubles the work, but does not double the pay; these must be neatly done, too. At this, by working from early morning till 9 o'clock at night, she can make just 80 cents.

Little inducement is a great lady; but like many another great lady she beats down her sewing women.—[Sara Spy in Boston Traveller.]

### Beavers and Eagles.

Rev. J. McGillivray's Welcome to the C. E. Delegates.

Annexation Between the Plodders and Soarers Necessary.

The Danger of Depending on Organization and Numbers.

Interesting Statistics Regarding Previous Conventions—Rapid Growth of the Movement—The Banner-Winner—Future Meeting Places—New Trustees.

MONTREAL, July 6.—The formal opening of the great Christian Endeavor Congress took place in the presence of between 8,000 and 10,000 Endeavorers. Shortly after 10 o'clock A. A. Ayr, the chairman, called the meeting to order and the addresses began. Mayor Desjardins made a brief speech of welcome on behalf of the city. Rev. J. McGillivray, of Montreal, also addressed a welcome to the delegates assembled. Addressing particularly the American delegates, he said:

"The truth is that while we in Canada are quite ready to mount up on wings as eagles, we believe in a whole-hearted annexation to the Christian Endeavor between the eagles and the beavers, uniting in uplifting the soaring qualities of the one with the plodding persistency of the other. If such annexation is not possible, then let us all be eagles at convention seasons and all be beavers when we go back to our several spheres of labor."

Mr. McGillivray was followed by D. A. Budge on behalf of the Y. M. C. A., who, after hearty words of welcome, said: "Let me point to

TWO DANGERS of the present day—the depending upon organizations as a remedy for existing evils and the dependence upon the power which comes from the enthusiasm of the moment. The bringing of young people into living union with Jesus Christ and into the fold of the church is a supernatural work, and requires supernatural power. Organization, however perfect, or enthusiasm, however absorbing, cannot take the place of the Holy Spirit needed for this work."

A. A. Needham, chairman, followed, referring to the way in which both Catholics and Protestants had welcomed the delegates. He expressed the hope that this convention would

CONTRACT ANY WRONG IMPRESSIONS existing between Americans and Canadians. This remark was greeted with enthusiastic cheers.

To these addresses a response on behalf of the board of trustees of the United Society of Christian Endeavor and the delegates present was made by Rev. P. S. Benson, of Chicago, who recounted the accomplishments of the past and the hopes of the present and future of the Christian Endeavor movement.

It was nearly 1 o'clock when the Endeavorers adjourned to luncheon.

### AFTERNOON SESSION.

MONTREAL, July 6.—Big audiences attended the morning and evening sessions of the International Christian Endeavor Convention. At the afternoon session at the drill hall Mrs. Alice May Scudder, of Jersey City, presided, and addresses on Junior Endeavor work were delivered by Rev. J. W. Cowan, of Tober, Iowa; Rev. Wayland Hoyt, of Minneapolis, and Mrs. Frances E. Clarke.

At the tent Rev. Mr. Patterson, Toronto, presided, and addresses on the future of the movement were made by Rev. R. S. Milner, of Hummelstown, Pa.; J. Howard Reed, Philadelphia, and Rev. F. D. Power and P. S. Foster, Washington.

### AT NIGHT.

The proceedings at tonight's meeting were of an interesting and varied character. At the drill hall and tent to listen to the address of the president, Rev. Mr. Clarke, and the report of Secretary J. Willis Bar. The addresses were made in turn in each place. Dr. Clarke, in his address, spoke of the great success of the movement, and the necessity for maintaining the movement. He urged the members of the society, during the coming year, to occupy their minds with the cultivation of a larger and more intelligent spirit of patriotism and good citizenship, the enlargement and more practical exemplification of a missionary spirit and the enlargement and cementing of inter-denominational and international friendship.

THE BARBATH AT THE FAIR.  
Speaking of the societies' attitude in regard to the opening of the World's Fair on Sunday, Dr. Clarke said, "I am glad for one of the stand the Endeavorers have taken for the Christian and American Sabbath. I believe the course of the society on this question has set an example that we may wisely follow in the future. We have proved for ourselves that we are not boys, whatever the un-matured people may say. There is a suspicion of lawlessness in that word borrowed from the bogs of Old Ireland. We protested and petitioned, we did everything we could as individuals and as a body to save the nation from the threatened disgrace, and now we each one for himself, without judging others, must decide what we will do in regard to going to the exposition. There is no power to wish in the Endeavor Society to compel uniformity or to force the conscience of its members in regard to the World's Fair or any other subject."

STRENGTH OF THE SOCIETIES.  
General Secretary Bar, in his report, gives the following statistics showing the strength of the Endeavor societies. The official statement is as follows: New York State still leads with 2,985 societies, Pennsylvania is a good second with 2,681; Illinois third, 1,822; Ohio fourth, 1,706; and Iowa fifth with 1,185.

In Canada, with 1,882 societies, Ontario leads with 1,072 societies. Nova Scotia has 393, Quebec 135, Manitoba 94, and New Brunswick 83.

The growth in the South has been encouraging. Maryland, Tennessee and Texas, each have over 200 societies, and Georgia, Florida, West Virginia and Arkansas, each over 100, with Virginia and South and North Carolina not very far behind.

In England there are over 600 societies, Australia over 525, India 71, Turkey—poor, persecuted Turkey—still has 41 societies, New Zealand 30, Japan 34, Madagascar 32, Scotland 30, Mexico, our neighbors, 22, West Indies 19, Africa 15, China 14, Ireland 10, France 9, Samoa 9, Sandwich Islands 6, Bermuda 3, Brazil 2, Persia 2, and Chili, Columbia, Norway and Spain each 1. In all nearly 1,000 societies in foreign lands, making a grand total enrollment for the wide world of 26,284 local societies with a membership of 1,577,040.

The net gain in local societies is the largest in the history of the movement. The net gain in the number of local societies in 1882 was 6; 1883, 49; 1884, 100; 1885, 97; 1886, 597; 1887, 1,464; 1888, 2,565; 1889, 2,793; 1890, 3,341; 1891, 5,261; 1892, 4,806; and 5,276 is the forward step this last year.

### BANNER WINNERS.

The following announcement was made of the banner winners. At St. Louis three years ago a badge banner made up of badges from hundreds of societies, was displayed amid much enthusiasm. According to a suggestion from Minneapolis it was decided to place that banner for one year in the custody of the state, territory or province that should show the greatest proportionate increase in its number of local societies during the year. Oklahoma carried the banner from Minneapolis, brought it to New York, and turned it over to Manitoba, where the Christian Endeavor, like its wheat, is

### GRADE NUMBER ONE.

You will remember that at St. Louis it should be made and given at Minneapolis to the state, territory or province which should show the greatest absolute gain in one year. Pennsylvania captured it. Last year she turned it over to Ontario, and this year, will please return it to the Keystone State, as Pennsylvania has even a better record than ever.

### THE JUNIORS.

Notwithstanding it is difficult to gather statistics from junior societies, we have accurately enrolled to-day 4,130 junior societies. Illinois has from the start stood first, last year carrying the banner for the largest number of juniors. Montreal, and can return with it, for she has now 433 regularly reported societies. New York is second with 403; Pennsylvania next, 305; Massachusetts has 234 and Ohio 219. Two other junior badge holders have been provided. One will be given to the state, territory or province showing the largest proportionate increase. The other banner will be given for the greatest absolute gain in junior societies and goes to New York.

After the addresses the banners were presented to the successful states. SAN FRANCISCO GETS THE 1895 MEETING. At a meeting of the general board of trustees of the Christian Endeavor Society, held this evening, it was agreed to hold the 1895 convention in the city of San Francisco, Cal. Denver, which also wanted the 1895 convention, waived its claims in favor of San Francisco. The 1894 convention will be held at Cleveland, O. O. C. TRUSTEES.

**HUNTING FOR HIS WIFE.**

Practical Joking by a Sandwich Man Results in Serious Consequences.

Windsor, July 6.—Last "April fool's day" Fred Steves, of Sandwich, perpetrated a practical joke that he thought was too good to keep. He told a friend that he had married a girl named Robair to Frank Moore, and that the two were living together, believing they were legally married. Steves found the joke was on him a few days later, when he was arrested and placed in jail. The couple were properly married by Rev. D. H. Hind, and Steves was released.

Now Moore is hunting for his wife and claims she has been spirited away from home, but for what reason he cannot understand. Constable Wilson, of Sandwich, has been appointed to and requested to make a search for her. Wilson is under the impression that she is somewhere in town.

**Scotchmen, Attention!**

The various committees to arrange for the great Scottish gathering at Port Stanley do not meet till this (Friday) evening in Somerset Hall, at 8 o'clock.

**What About London?**

Hotel-keeper Martin, of Guelph, was fined several months ago \$20 for not having the blinds of his bar room removed during prohibited hours. He appealed from the conviction to the county judge, who Tuesday gave judgment quashing the conviction with costs, on the ground principally that the commissioners have no power to make such a rule. The inspector talks of appealing to the Court of Appeal. A similar regulation was enacted by the license commissioners of this city. Will it hold good?

**Police Court.**

Some of the saloon-keepers in this city are seemingly not aware of all the provisions of the new regulations. Mr. Joseph Deacon, of the Hodgkins' House, appeared in the Police Court yesterday and stated that he should have been notified that windows were to be left unobstructed during prohibited hours. Mr. McKillop explained that no such condition existed. All the light-giving apertures in any saloon had to remain unobscured, unless a special one was designated by the license commission. P. C. Howie, who laid the charge, and whose evidence was substantiated by P. C. Monahan, swore there was only one window in the bar in question. The magistrate imposed a fine of \$20. Etienne Wilson was convicted of disorderly conduct in the street and fined \$2. The young man who furnished bail for her will not lose their money after all.

**Grand Officers' Visit.**

The regular meeting of London Council, No. 233, Royal Arcanum, held Wednesday, was an unusually interesting session and largely attended. After the business had been disposed of, Grand Regent Bro. Joseph Hickson, who by the way is an old London boy, and well-known by most of the younger men in the city, gave an interesting address and spoke most encouragingly to the brothers. He was accompanied by the grand secretary, Bro. Lyman Lee, who spoke at length of the growth and prosperity of the Royal Arcanum.

He claimed that this order is the peer of any and superior to many. Bro. Lee showed the interest he takes in the work by his ready knowledge on all points of interest to workers in the order. Other members also made congratulatory addresses, all uniting in declaring Bro. Lee the right man in the right place. At the close of the meeting many of his old friends took occasion to have a pleasant social chat with Grand Regent Hickson.

**Origin of the Word Picnic.**

The word "picnic" is said to date from about the year 1802. Then, as now, when such an entertainment was being arranged for, it was customary that those who intended to be present should supply the eatables and drinkables. A list of what was considered necessary would be drawn up and passed around, each person picked out such articles of food or drink as he or she was willing to furnish. The name of the article was then ticked off the list. Hence this form of fete champetre became known as a "pick-and-nick," which by natural transition degenerated into picnic. But though the word is comparatively recent, the thing that it designates is at least two centuries older. There is extant an account of a celebration of this sort, which took place in the early part of the seventeenth century, upon the birthday of Charles, Prince of Wales, afterwards Charles I. of England. Mainwaring, in a letter to the Earl of Arundel, bearing date Nov. 22, 1618, says:

"The prince his birthday has been solemnized here by the few marquises and lords which found themselves here; and (to supply the want of lords) knights and squires were admitted to a consultation, wherein it was resolved that such a number should meet at Gamages and bring every man his dish of meat. It was left to their choice what to bring; some chose to be substantial, some curious, some extravagant. Sir George Young's invention bore away the bell; and that was four brawny pigs, piping hot, bitted and harnessed with ropes and carriages, all tied to a monstrous long-pudding."

London's lovely ladies like lovely colored pills, so they now all take Duncombe's Dark Pills, No. 2.
