RUSS RED GOVT. REPORTED OVERTHROWN

RUSSIA FORCED TO SIGN GERMAN PEACE

London, Feb. 19.—Russia is now forced to sign peace upon the conditions proposed by Germany, says an official Russian statement received here today.

Berne, Switzerland, Feb. 19 .- According to Vienna dispatches Leon Trotzky, the Bolshevik foreign minister, has forwarded a wireless message to Count Czernin, the Austrian foreign minister, reading: "The German Government having re-established a state of war with Russia without even giving the seven days' previous notice, I have the honor to ask you to inform me whether the Austro-Hungarian Govern-ment also considers itself in a state of war with Russia, and if not whether it believes it possible to reach a practical realization of the agreements worked out in Petrograd."

FAILURE TO PROVIDE POWER MAY DRIVE INDUSTRIES AWA

Firms Now Using Direct Current Declare They May Be Forced to Move.

GET LITTLE SATISFACTION

Hydro Dept., They Say, Has Refused to Accept More d. c. Customers.

supply of power for London Electric this company out of business for years? customers when that company retires How can hydro expect to put life into a from the power field on March 31, as thing it has killed with premeditation? few of its valued in This intimation was given The Ad-ertiser today by some of the large employers of labor at present using been competing with hydro power, and The Regal Manufacturing Company, King street, employing from 50 to 75 ducing the rates. It has prevented hydro bands, is one of the firms which is confrom becoming an absolute monopoly.

"We cannot wait until the last minthe make our arrangements," said the manager. "We have not been definitely refused power by the utilities commission, neither have we been told that we could get it. If we cannot secure it we will have to go elsewhere to get it, and we have been offered inducements to move."

consider the possibility of manufacturers can secure resulting the city. The fact is known that these manufacturers can secure power in Toronto. They pay their taxes. They give employment to many. The proper thing to do is to approach the

move.

"The hydro department is driving manufacturers from the city," said L. W. Stokes, wood turner, who uses eight horsepower. He said that he had been after the hydro department for two weeks. He got absolutely no satisfaction from it one way or another. He was told, however, that it would take no more customers for direct current. This would mean an outlay for Mr. Stokes of \$260 for a new motor, He says that he usually employs four

mr. Stokes of \$260 for a new motor. He says that he usually employs four hands, but at the present time his plant is broken down, and he is holding up about four factories in the city employing six to eight hands each. "If I don't get a proper answer today I will hold an auction sale and get out of the city," said Mr. Stokes.

Forced to Close.

The Ontario Spring Bed and Matress, employing 35 to 40 hands, would not leave the city, but would be forced, it was announced, to close down. This would be serious. Most of its employees are married men.

The company states if it cannot get direct current from hydro it would mean an expenditure of thousands of dollars for new motors.

J. Darch & Sons, harnessmakers, have taken no steps to secure a new supply. The firm at present employs four hands, but at the present time his plant is broken of sean he no peace until Germany is badly beaten and those who speak peace now are either misinformed as to the situation or are wilfully hefping Prussianism," said William H. Taft, former president, in an address to the enlisted men of the 85th Division here.

Discussing the probability of a big German drive on the west front, Mr. Taft said:

"The only reason I can give why there should be no drive is that the German military has said there would be, and the Germany military is synonymous with lying."

Germand's alms before the war were explained by Mr. Taft, as he interprets them. They included, he said, war on England until there was no indemnity left to pay except colonies, chiefly Can-Darch & Sons, harnessmakers, et aken no steps to secure a new ply. The firm at present employs and an war orders. Mr. supply. The firm at present employs ada, 1 twenty hands on war orders. Mr. tion of Darch said that he felt that the hydro States. epartment would make some provision take care of them. He expressed THREE SHOT TO DEATH tope that it would. Plewes uses 35 horsepower in

his grist mill. He has not sought a new supply, as he is contemplating moving his mill from its present site. He thought it was up to the officials to take some action. If they do not he would not be surprised if a number of firms left the city. Continued on Page Three.

Pursuit of Literature Explained to Girls' Club.

Corp. William Varley, Toronto, a returned soldier, who spoke at a labor meeting in the Masonic Hall here on December 15, on behalf of George S. Gibbons, is feeling the heavy hand of discipline, because he dared to speak his only loss. He has been sentenced to "The pursuit of literature is likened to greatness, some are born to it, some achieve it—and some have it thrust upon them," declared Miss Grace Blackburn, opening her address on "Literature as a Vocation," before the High School Girls' Club last evening. "To those who are born to it I have not a thing to say. They are the ones who will be able to say with Mark Twain that they have never worked a day, but only played. By far the greater number, however, 28 days' confinement by the military authorities, and his family have been denied the right to see him. The Toronto Star has the following account of the indignities heaped upon this hero:

Corp. William Varley, the war veteran who was given 28 days' sentence at the Whitby Military Hospital for refusing to scrub floors at the Spadina Military Hospital while waiting for medical treatment, has been brought back to Spadina Military Hospital, where he now is. He was signally honored by his colleagues of the nally honored by his coffeagues of the labor movement at the annual meeting of shareholders of the Labor Temple Company, Limited, last night, when he was re-elected by acclamation as a member of the board.

While his colleagues are showing confidence in him in this way, the treatment his wife and daughter are receivant of the confidence of the confiden

say with Mark Twain that they have never worked a day, but only played. By far the greater number, however, come under one or two of the other heads. For those who have greatness thrust upon them, the compelling thrust may came from a sort of pre-natal disillusion, a distrust of life, which makes them want to create a world of their own. They may be surrounded by people who are in the pursuit of literature, and it may present itself as the easiest way of shaking the bread fruit tree. Others do not achieve by playing, but rather as Tolstoi, who achieved by dint of great labor."

Miss Blackburn spoke of the difficult task of the mosaic worker and then likened it to the work of the writer "Did you ever think how difficult it was to work, in the medium of words? Each one who sets out to write has a design already formed within him. And from that design is modeled the work. A sculptor has a living model before him, and his task is easy compared with the task of the writer who must depend only on what is within his soul." Whitby for detention five weeks go Saturday.
"What chance have I got to see him then they won't let his daughter peak to him?" she asked.
"When did your daughter try to see lim?" (Ww. daughter Eller restriction) m?" "My daughter Elsie went up to adina Military Hospital at 12 o'clock

only on what is within his soul."

Miss Blackburn closed her talk by reading one of her own poems, "The Chant of the Woman."

Miss Bertha Thornley spoke on behalf of the Thimble and Trinket Fund, "The one association which has shown itself competent to deal with this situation. what he said as the manner in which has shown itself to said at London, as no recruits were sent from the British-Canadian Recruiting Mission in the United States. A number are expected to arrive today. All four who enlisted Monday were blaced in category A2, and all gave Canada as their birthplace. The following is the list:

W. J. Lang, W. O. R., Windsor.

K. Berry, officer, London.

M. H. Hagey, o

LEADING CITIZENS

Brig.-Gen. L. W. Shannon has called a conference of prominent citizens, to discuss the question of the prevention and regulation of venereal discases, at the city hall at 4 o'clock this afternoon. An appeal will be made to the Legislature for authority to secure regulations, and efforts will be made to organize to meet the members and lay the proposition before them.

Those invited to be present are: A. W. White, of the Canadian Manufacturers' Association; Rev. D. C. McGregor, of the Men's Federation; A. E. Silverwood, board of trade; J. H. Fowler, the Canadian Club; F. G. Jewell, Rotary Club; Mrs. H. A. Boomer, of the National Council of Women; Dr. E. Spence, Medical Boomer, of the National Council of Women; Dr. E. Spence, Medical Society; Rev. J. H. Boyd, Ministerial Alliance; Mayor C. R. Somerville; A. A. Langford, board of education; Dr. E. E. Braithwaite, Western University; Dr. S. J. Radcliffe, Normal School; Liout Col. W. M. Carthera, heavital Despite the publicity given the criey case, nothing has been done to mmute the sentence, and the Trades Variey case, nothing has been done to commute the sentence, and the Trades and Labor Council are depending upon the officers of the Trades and Labor Congress of Canada now in Ottawa to bring the whole matter to the attention of the War Veterans' Association, whose officers are also located in Ottawa. Secretary T. A. Stevenson of the Trades and Labor Council has forwarded to President James Watters of the Trades and Labor Congress of Canada the letter which Corp. Varley wrote to James Simpson, secretary-treasurer of the Labor Temple Company, Limited, giving the details of the charges laid against him and the punishment he had been given.

The information to be sent to Mr. Watters was withheld for a few days following the meeting of the Trades and Labor Council last week with the hope that the military authorities would indicate some desire to commute the long sentence given Corp. Varley, but when there was no indication that the case would be reconsidered.

variey, but when there was no indi-cation that the case would be recon-sidered, Mr. Stevenson forwarded Corp. Variey's statement on to Otta-wa. Since writing to Mr. Simpson, giving the full details of his case, COURT'S DECISION

LEGAL QUERIES

VOICE OF THE PEOPLE

In a recent issue you published an article re the case of Rev. Dr. Knowles. This article was in the form of a resolution passed by the official board of the Methodist Church of Petrolea. It had reference to the recent Petrolea church trial, and its outcome, and it contained

the following paragraph: "Dr. Knowles acknowledged having introduced into a young men's club two books by James Allen. These books, 'Out From the Heart' and 'As a Man Thinketh,' were charged with being Unitarian and 'New Thought' in their tendency, but the committee of trial made no propouncement on their being. made no pronouncement on their being such. Dr. Knowles has not in any way acknowledged any violation of the discipline of the Methodist Church. These books by Allen are very widely read in Canada, the United States and Great Britain."

Britain."

As I am the author of the charges referring to the James Allen books, I ask the privilege of pointing out to the readers of your paper that the statements contained in the above parastatements contained in the above paragraph are not in harmony with the facts, I think I can do so most satisfactorily by quoting the charges and also the verdict, verbatim, from the official documents of the court which tried the case.

Charges.—"That the said Rev. Dr. Knowles introduced for study in a men's society, which he had organized within the church, two books by James Allen. entitled, respectively, 'As a Man

within the church, two books by James Allen, entitled, respectively, 'As a Man Thinketh' and 'Out From the Heart,' which are Unitarian in thought, notably along the lines of 'New Thought.'
"I charge that this is an offence against the law of God and the discipline of the Methodist Church."

The Verdict of the Court.—"As to the charges designated under group G. re

The Verdict of the Court.—"As to the charges designated under group G, re the introduction of books ruled by the presiding officer as minor, we find that they are sustained and proved, and upon them we find that the defendant is guilty."

Now, we have before us the charges in group G, and also the verdict of the court regarding these charges.

Let us summarize the charges:

1. That the defendant had introduced these books.

these books. these books.

2. That the books were "New Thought" in doctrine.

3. That the defendant had indorsed the teaching of the books.

4. That in so doing he had committed an offence against the law of God and the discipline of the Methodist Church.

one association which has shown itself competent to deal with this situation of, supplying the men with coffee at the front, is the Y. M. C. A.," said Miss Thornley. "It has been estimated that Ontario will need to raise \$50,000 this year for the free drink fund. And the women, under the supervision of the W. C. T. U. have undertaken half of this amount to be raised by the collection and sale of trinkets."

In the course of her address, Miss Thornley made a strong appeal for the high school girls to help in the trinket campaign as far as possible.

Two vocal solos by Mrs. Coleman and a violin solo by Miss Margaret Gibson were greatly appreciated. Miss Margaret Council of the seading of the books. A that in so doing he had committed and the discipline of the Methodist Church.

The verdict in regard to these charges is in that upon them the defendant is found guilty." And still, in the face of these facts, the authors of the resolution, being familiar with the entire proceedings, say, "The committee made no pronouncement on the books as being 'New Thought.' Surely they discrete either their intelligence or their honesty, or both, in doing so. I hope your readers will examine the charges closely, also the verdict, and then draw their own conclusions.

Two vocal solos by Mrs. Coleman and a violin solo by Miss Margaret Gibson were greatly appreciated. Miss Margaret Gemmill, president, was in the chair.

LEADING CITIZENS

WILL PARTICIPATE

IN DISEASE TALK

Brig.-Gen. L. W. Shannon has called a conference of prominent citizens, to discuss the question of the water.

Brig.-Gen. L. W. Shannon has called a conference of prominent citizens, to discuss the question of the citizens, to discuss the question of the citizens, to discuss the question of the paragraph quoted, their own conclusions.

As stated in the paragraph quoted, the defendant admitted having introduced the books—what else could he do?—but he made no admission as to the nature of their teaching. That and the other charges in group G were left to the decision of the judges.

It is also stated that the defendant does not acknowledge any violations of the discipline of the Methodist Church, and his refusal to admit guilt does not change the situation.

My action in regard to this matter, from the first, has simply been a protest against the introduction of "New Manufacture of the paragraph quoted, the defendant admitted having introduced the books—what else could he do?—but he made no admission as to the nature of their teaching. That and the other charges in group G were left to the decision of the 'Methodist Church, and his refusal to admit guilt does not change the situation.

My action in regard to this matter, from the first, has simply been a protest of the paragraph quoted, the increase of the paragraph quoted, the decendant of the paragraph quoted, the defendant admitted having introduced the books—what else could he do?—but he made no admission as to the nature of their teaching. The discipline of the water of the paragraph quoted, the defendant admitted having introduced the books—what else could he do?—but he made no admission as to the nature of their teaching. The paragraph quoted, the defendant of the other charges in group G were left to the decision of the decision of the decision of the d ter of their teaching. Wherever the
"New Thought" propaganda is being
carried on, whether openly by "New
Thought" teachers or covertly through
supposedly orthodox agencies, the
James Allen books will be in evidence.
The late James Allen was one of the
leaders in "New Thought." He wrote
many books expounding its doctrines,
and for a time conducted a "New
Thought" publishing house in the south
of England. I have never heard, however, that he wrote or published any
textbooks for the people called Methodists.

J. M. MORRIS.

Petrolea, Ont., Feb. 16, 1918.

Petrolea, Ont., Feb. 16, 1918. WHAT ABOUT INSURANCE FOR DRAFTED MEN?

To the Editor of The Advertiser:

As your paper seems to be almost alone in its straightforward and fearless championing of the people, I write you re insurance of our men who are being hurried away overseas. Apparently nothing has been or is about to be done to give the men a chance to provide for loved ones or meet debt obligations, which many of them no doubt carry, and for which the exemption tribunals, in our district at least, would not for a moment make allowance in appeal cases. Please draw attention to the noble stand in this matter of insurance which the United States Government has taken, and take up the cudgels in behalf of our Canadian boys, Mr. Editor.

Many of our lads, alas! will never re-

soldier citizens.

ANXIOUS PARENT. Windsor, Feb. 16, 1918.

STANDS UP FOR SANATORIUM STANDS UP FOR SANALORIUM.

To the Editor of The Advertiser:

I have just read with very much surprise an article in a recent issue of your paper, signed "A Returned Man."

This would naturally convey the impression to the public that this is a veritable "home of discontent," but I think I am voicing the sentiments of the majority of the returned men here that such is not the case. As in public or civilian life, one is bound to come in contact with a certain number of

that such is not the case. As in public or civilian life, one is bound to come in contact with a certain number of malcontents or "grousers." I presume by the tone of the article by "A Returned Man" that he is included in this number.

Personally, I have spent since April of last year under the care and discipline of the medical branch of the army in France, England and Canada, and I can say truthfully that nowhere have I had better care, more consideration and privileges than in this institution. To abuse these in the

EPILEPSY

I have much sympathy for Sherers from that dreaded malady—Epilepsy, and I firmly believe that my preparation—HACKING'S HEART and NERVE REMEDY, will help you. Dr. Reason tells me that any you. Dr. Reason tells me that any medicine that will soothe and quiet the nerves and the brain, and at the same time cleanse the blood of poisons and build up the system, will be a great help in Epilepsy. Bromides help for a while, but the remedy is worse than the disease—build up, don't tear down. HACKING'S HEART and NERVE REMEDY will surely help you, but you must have faith and perseverance in the treatment. Persons who have been ailing faith and perseverance in the treatment. Persons who have been ailing for years should not expect to be cured in a few weeks. Insist on getting HACKING'S. WHAT MAKES RULES EXPLANATION

doctors and specialists have vielded to Zam-Buk. For instance. Mrs. Alphonse Lariviere of 671 Rodman St., Fall River, Mass., writes: "For three years several doctors tried to cure me of a bad attack of eczema, but each in turn gave up the case as incurable. I then went to a specialist, who charged me a large fee, but did me absolutely no good. I was certainly discouraged, when I heard of Zam-Buk and commenced using it at once. I applied It regularly and for bathing purposes used only Zam-Buk Soap. Before very long there was some improvement, and finally the combined use of Zam-Buk and Zam-Buk Soap

For ulcers, abscesses, blood-poisoning, scalp sores, ringworm and piles Zam-Buk is equally invaluable, as well as for cuts, burns, scalds and all skin injuries. All

DIRECTORS RE-ELECTED.

WROXETER, Feb. 18.—At the annual receing of the Howick Mutual Fire Insurance Company, held in the town hall at Gorrie, the retiring directors, Albert Gallagher and John Bryans, were re-elected. Reports presented showed that the company is presperous. at the company is prosperous.

Peter and Daniel McTavish have disped of their farm on the Belmore and to James Harris.

SATISFACTORY ONE TO MEN AT BYRON

Trouble at Sanatorium Being Adjusted.

At a meeting held in the lecture room at the soldiers' wing of the Byron Sanatorium Monday afternoon Major E. T. Chesham, military commandant of the sanatorium, gave the men an interpretation of the new rules. With the exception of the one forbidding visitors save during the hours of 3 to 5 p.m. all the rules were explained to the apparent satisfaction of all. There has been more or less explained to the apparent satisfaction of all. There has been more or less criticism of the orders, and the N. C. O.'s paraded Saturday to the major's office, but he was away, and could not be seen, hence the meeting on Monday. The major intimated that he did not formulate the regulations, but as they were posted over his name he expected obedience. He asked any having objections to state them, and Sergt. Pocock, on behalf of the N. C. O.'s. requested an interpretation of

PETROGRAD, Friday, Feb. 15 .- Acording to a report current here, Gen. Kaledines, hetman of the Don Cossacks, has committed suicide. A Washington dispatch on February said that the American consul at

OF LIFE WITH MADMAN

ST. THOMAS TEACHERS DEMAND \$200 INCREASE

of local public schools and all malic teachers waited upon the board of education at its meeting tonight, and demanded that their salaries be increased by at least \$200 per annum. The raise is imperative, they said, owing to the high cost of living. The board sent the request to a committee for considerarequest to a committee for consideration, and it is expected that an adjustment will be made all round.

Ex-Ald, John R. Martin was appointed a member of the board to fill the vacancy created by the resignation of vacancy created by the resignation of Trustee Bremner.

A lively scrap started over the report of the buildings and grounds committee. Chairman Johnston of the board charged the chairman of the committee with railroading matters through his committee, and not allowing the members the privilege of discussing and investigating. A heated argument followed, in which Chairman Johnston an uncharitable name, and accused him of favoring a certain plumber.

Chairman Johnston replied that he was favoring no one, and only desired to see fair play. It was finally decided not to award the contracts at present. A full investigation will be made, at which the chairman of the board will assist. assist.

of Kitchener and Noah of Elm Amos Weber of Listowel and Weber of Strassburg are brothers.

- MAKING GOOD PROGRESS MELBOURNE, Feb. 18 .- At the a nual meeting of the Caradoc-Ekfrid Telephone Company, President L. L. McTaggart reported that the splendid financial standing of the company was a feature of the year, and that another twelve months as good as that just past would see the debt completely wiped out. The directors re-elected were L. McTaggart, A. P. McDougald, James Carruthers, Hugh Brodie, James Lethbridge, Mr. Erwin and Mr. Collins.

COAL OIL

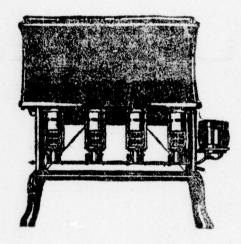

SAVES COAL - SAVES MONEY

As coal becomes scarcer and dearer, many homes are becoming almost independent of it by equipping with reliable, efficient oil burning devices. ROYALITE, obtainable everywhere at the same reasonable price, heats rooms, cooks meals, and provides soft mellow light every day in the year.

PERFECTION

bring cheery warmth to any room in the house at any time. Start heating at the touch of a match. No fuel wasted-every drop turned into heat. Cost little to buy and little to run. Your dealer has them.

are all year round cookstoves. They bake, broil, fry or roast-cook every kind of meal for any size family. New Perfection Ovens and Cabinets make them complete. Sold in 2, 3 and 4 burner sizes with ovens and cabinets to fit. Ask your dealer to show them to-day.

shed their soft mellow light in thousands of Canadian homes. Best by far for reading and sewing. Attractively and substantially made. Easily cleaned. Your dealer knows and recommends them

IMPERIAL OIL, LIMITED

BRANCHES IN ALL CITIES

ONLY \$5,500 There's Big Money In Farming Now!

Here's an ideal place in Westminster Township for a farmer feeling the want of

help and wanting a smaller farm.

Fifty acres with 2-story frame house on stone foundation and cellar. Barn, 36 x 83, on stone foundation, with granary. Drive barn, 32 x 40; chicken house and hog pen. A good windmill pumps water to house and barn. The soil is clay loam. All can be cultivated. Farm is well fenced with wire fences, in good condition. There is an orchard of one and one-half acres.

The location is excellent, being only three miles from Glanworth on the London and Port Stanley Railway, and eight miles to the markets of London and St. Thomas. Good school one mile distant; church one and a half miles. Owner will exchange this farm for one of 100 acres, and places the cash value

low, at \$5,500. WE HAVE A LARGE NUMBER OF OTHER FARMS FOR SALE.

Industry, Thrift, Banking, Insurance, Investments

MAINTENANCE OF EFFICIENCY AND CREDIT OF UNITED STATES PUBLIC UTILITY COMPANIES ESSENTIAL.

Hon. John Skelton Williams, U.S. comptroller of the currency, in his annual report, states that if the public utilities are allowed to sink into inefficiency, much of the most important war work of the Government will be crippled or

"The work of war has thrown upon many of these corporations strains which they are unable to endure without prompt help. The costs of their labor and of all material for operation, betterment and upkeep have increased heavily and suddenly. They are required to increase radically and quickly their service and facilities. Industries manufacturing war munitions and materials demand of the public utilities corporations constantly greater supplies of power and light. At the industrial centres, car lines are being rushed and overburdened by new armies of workers. The gas companies are called upon for gas for cooking and heating in quantities beyond all normal cal-culations and far beyond their present capacities. They are urged continually to furnish more coke and coal by-products, toluol and other elements absolutely essential in modern warfare. Where cantonments have been established, the demands on the resources of water, lighting and transportation companies are especially severe; ability to comply with such demands is necessary for the safety and comfort of the fighting men in training.

"A committee representing the four leading associations, which include all the principal electric light and power companies, street railway companies." and the most important gas companies of the country, recently submitted to this office a report in which attention was asked to the increase within the last two years in the cost of materials they must use for the maintenance of their properties. They gave a list of percentages of additional cost, showing among others the following items:

INCREA	SE FRO	M 1915 TO 1917.	
Pe	er Cent.		Per Cent.
Copper wire	180	Castings, malleable	198
Pipe, cast-iron	100	Copper, bar and sheet	
Axles	272	Lead, pig and sheet	
Acids	162	Nails	
Brass	300	Steel, tool	
Car forgings	216	Tie plates	
The continued and increasi for the successful conduct of present conditions. Corporation ing bankruptcy cannot obtain	the war	d by their own figures to be	ssible with approach-

the other hand, banks and citizens suffering severe losses from investments in the securities of these entirely legitimate and once promising enterprises will be discouraged from lending money to the Government or deprived of the "The first and most direct relief to the public utilities corporations can be given by the State public utilities, commissions and municipal and local authorities, with the broad-minded co-operation of the people generally, understanding the necessities of war and realizing that the more promptly its burdens are accepted the sooner they will be lifted. It is essential that forbearance and consideration be exercised by the State commission and municipal authorities, and that the corporations also be permitted to make such additions

to their charges for service as will keep in them the breath of solvency, protect their owners against unjust loss, and give them a basis of credit, on which they may obtain the funds with which to meet the strain put on them by the Government's needs. The breaking-down of these corporations would be a national calamity. "Because of the gravity of the situation in this regard. I am moved to ask for it the careful attention of the Congress and the public. I am impressed with the importance of early consideration by the Congress of some measure to provide directly or indirectly for advance of funds on some conservative

basis to such of these corporations as need help most urgently, so that they can give adequate service to the Government. The remedy would be unusual, but the times are unusual.
"The amount of railroad and other public service bonds owned by the national banks June 30, 1917, was reported at \$763,000,000. This is equal to approximately 70 per cent of the capital stock of the banks.

"With appropriate aid from the Government through the Congress; with liberal recognition by local authorities of the present acute conditions, and with some practical provision to enable the corporations to meet their own needs and those of the country, the danger now pressing and becoming more serious with each day will be removed, the general business interest of the country will be fostered, the ability and readiness of the public to respond to calls for will be maintained, and urgent requirements for the defence of the country's life and assurance of our freedom and peace will be met."

WANTED-A NEW BREAD

In these parlous times of submarines, aeroplanes, and various other scientifically designed agencies of destruction, there is one fact that stands out with glaring pre-eminence—and that fact is that the world needs more bread. Not many of us realized the supreme importance of the role played by the humble loaf of wheat bread-until the price doubled, and threatened go even higher. Not only has the price gone up, but now we are being urged by Governmental and other food-conservation organizations to have at least one "wheatless" meal a day, and yards of newspaper space are being devoted to the demonstration of the value of the dry crust that erstwhile found its daily way into the garbage can. Statisticians are presenting amazing figures to show how much flour would be saved to help feed the European Allies if every bread-eater in the United States would save but a single slice of bread a day. In fact, a great many people seem to be busy telling us how valuable is the loaf of bread, and how scarce it is going to be, but very few apparently are giving any thought to improving conditions by giving us practical suggestions as to how we may bake two loaves of bread, where, but one was baked before. The logical and practical way to meet the situation, when the demand for a product exceeds the supply is to increase the supply. To do this in the present instance seems to be rather difficult. The world in its present state of belligerency cannot possibly double itse production of wheat and rye, the great bread-making grains, so to double or materially increase and rye, the great bread-making grains, so to double or materially increase the supply of wheat or rye is out of the question. But there is an alternative, "Wheat on the whole is no more nutritious than the other grains. In any other form than bread its taste is no better and to most people is not as good as the taste of corn, or buckwheat, or oats. Yet as a bread-making material wheat, at a higher price, does win its way against all the substitute grains, corn included. The answer unquestionably to this apparent conundrum is that man has not learned in bread-making to bring out all the inherent good qualities of wheat and has not learned this lesson as to any other grain except perhaps rye. In other words, man has learned how to utilize wheat and has not yet learned how properly to utilize other grains. Furthermore, he has neglected the bread-making possibilities of thousands of fruits and vegetables apparently better economically suited for bread-making than any of the apparently better economically suited for bread-making than any of the

"Since he first found out how to use fire to cook his food, man has made but two other really important food discoveries. These are the preserving of meats and other perishables by salt, smoking, or drying, and the use of leaven in bread-making. These two discoveries are, both pre-historic. The importance of leaven in bread-making cannot be overestimated, because with-out leaven wheat and rye would never have become leading food grains. Without leaven the cultivation of wheat and ryo would practically cease. Without leaven wheat is the most stubborn and intractable of possible foods. Even an amateur cook can make an edible bread from Indian corn, or barley flour and water without leaven, but a professional would be stumped to make anything edible from wheat flour and water alone. But with leaven, yeast or baking powder, wheat becomes the supreme bread-making grain. In other words, wheat, the least suitable of all the grains for use as a human food, with leaven becomes the most suited. This is because it is best suited for making that kind of food, bread, which is the base food of all civilized peoples. Here we are at the root of one of the most significant facts of presentday civilization. Man by the discovery of leaven has been able to raise one grain, and that in its natural state the least promising of all grains, to be not the prime grain but the prime food as well. This marvel was wrought by pre-historic man. Can it be possible that chemists of this age cannot work an equal marvel with corn? Or, if not chemists, the mechanical in-It may be a problem of chemistry, or it may be a problem of

In short, what is wanted is a new bread, a bread made of corn, potato, banana, manioca, or some other kind of flour, that will be as palatable, as cheap, as nourishing, and as acceptable to all the world as the bread made of wheat flour with the aid of leaven. Given such a substance, the food problem of the world would be solved, and we could easily make two loaves of bread where now we can make but one.

WALL STREET CONDITIONS.

The Railroad Control bill has not yet been completed and passed, but its The Railroad Control bill has not yet been completed and passed, but its general provisions may be pretty well relied upon. They will, if about as surmised, be favorable to railroad security holders, for the continuance of the war and for a period after. If the war lasts and the Government, through rate increases, makes the roads earn their keep, advanced rates thus established will constitute an assurance to investors. The Government will have probably worked out its plans by that time, so that all the roads under one control will be treated as one great enterprise and a measure of efficiency and economy established far beyond anything possible under the old regime, with expensive competition and expensive routing. It will be a great thing for security holders if the unified control can be properly arranged to continue,

after the war, with all the roads as one great corporation.

But this is a long look ahead. The present situation of the railroad security holder has been brightened by the action of Union Pacific in shifting from a regular distribution of 8 per cent and 2 per cent extra, to a regular 10 per cent dividend-payer. Returns to the stockholders are not increased, but the action shows confidence in railroad futures and has had a cheering effect upon the stock market, as has also the action of Canadian Pacific on

The market shows signs of strength. Stocks are selling at prices below real values and yield large returns on investment. Prices would probably advance materially if it were not for contemplation of what effect payment of a great annual tax and the issue of a large Government loan may have the financial and business situation.-Bache Review.

GERMAN NUMBERS AND THE COMING (Copyright, 1918, by the McClure Newspaper

FFICIAL figures supplied by the French gencoming year.

close of the battle of the Somme last February, that is, on the eve of the great retreat, the Germans had 133 divisions in the west. The number sives. It fell away again toward autumn to 144 peep into the committee's accounts would be indivisions, and then it began to mount steadily. It reached 155 in early December. Roughly speaking the Germans have then moved some twentyfive divisions, upward of 300,000 men from the Russian to the west front in the last three months. When they had 144 divisions in the west they had 79 in the east, and we may thus fix the total number of German divisions on all fronts at about 225, a gain of 25 since the days of the Somme and of

Verdun. But it is well to remember that there has been a steady diminution in the total strength of service act being violated. the German division. Nearly two years ago the Germans began to reduce their divisions in strength and increase them in number, seeking more women are wearing fur coats than ever begreater mobility. Thus the 200 divisions of the fore. And lower-necked waists, the cynic will Somme time probably included as many men as remark. the 225 which are now organized. And at the time they reduced the strength of the divisions and putting them in special divisions of so-called Again.' 'storm-troops.'' Presumably the larger portion of their present strategic reserve in the west is made of "storm troops," just as their Verdun to Quebec recruits. The judges chosen by the Washington, Feb. 18.—The Prus-

units. Roughly speaking, then, the Germans are holding the western line with about 1,500,000, and this is little more than they have kept before the French and British for the last three years. They have maintained in the east some 50 divisions. little more than 500,000, and, given their ambitions and purposes in the east, this number cannot be reduced materially. We are safe then at fixing at around 750,000 the number of troops they have actually available for their great blow, that is something more than 60 and less than 75

that they actually used up the equivalent of 140 | hold, and, in fact, have been largely voiceless. The divisions. At Verdun they employed rather more tariff affects the Ontario farmer to as great a than 50 divisions. In the fighting in Flanders degree as the grain grower of the prairies. And this summer and fall they used 61 divisions, that the Liberal recriprocity of 1911, enforced pieceis, used them up so that they had to be retired meal by the very party that cried it down, has from the line. Thus it is a fair assumption that demonstrated its efficacy. the Germans have no larger free reserve for attack, than they employed at Verdun, for assault and at the Somme or in Flanders for defence. that the drafted men are being hurried away with abnormal. It means that you are anaedivisions from.

are in favor of insurance for men who come under on the line or in reserve. And this is approximately the German strength. In addition the Unitarian are vidently of the belief that the matter of insurance for men who come under the conscription law. The sity and town councils are vidently of the belief that the matter of insurance for men who come under the book of the book of the conscription law. The sity and town councils are vidently of the belief that the matter of insurance is up to the Government.

It is not take prompt steps to improve the book of the construction that the construction of the state of the conscription law. The sity and town councils are evidently of the belief that the matter of insurance is up to the Government.

It is not take prompt steps to improve the book of the constitution of the state of the constitution of the state of the constitution of the state of the state of the state of the constitution of the state of the state of the constitution of the state of the st may be safely estimated as having a million each are in favor of insurance for men who come under

pected on the west front where Germany is to strike. Austria never has had over 820,000 men had the prime minister, Sir William Hearst, as minister of in line at any time, she has only 79 divisions now, could have done." ance of which are needed to garrison Galicia, Rumania and her own and conquered districts where the population is either disloyal or rebellious.

In so far as numbers are concerned, therefore, there is no occasion for alarm over the coming German offensive. Germany has a large strategic eral. reserve, she has brought some twenty divisions serves. from east to west since the Russian collapse became complete. She has, in addition, combed out the units on the east for the best material and weeded out the poor material from the divisions in the west, but she has no considerable numerical advantage, if indeed she has any, and she has no constitution of the has any and she has an abundance of rich, creamy nothing like the advantage in numbers or material and towns. which she had in her drive at Calais in 1914 or her assault upon Verdun in 1916. On the contrary we are going to see a great battle in the west between two opponents, about equal in num- consideration be given to the above facts. bers, and we are going to see the Germans attempt under far less favorable circumstances to accomplish what they failed to accomplish at Ypres and at Verdun, and what the Allies failed to accom- room. Perhaps just a miscue.

plish at the Somme and in Champagne and Artois, in 1916 and in 1917, namely to make a complete break through and follow it up with a crushing and complete victory.

ANOTHER DELUSION GONE.

VEN the few delusions we held to regarding the comparatively humane character of certain German individuals are being dispelled rapidly. In Allied countries it was well known that von Bethmann-Hollweg and von Capelle, minister of the navy, were opposed to the unrestricted submarine warfare which the Huns have been waging, and some kindly souls saw in this evidence of some decency in the makeup of these men.

Alas! The reason for their opposition has been made public, and there is no love for fair play revealed by it. The truth, according to Dr. Struve, writing in the Kiel Zeitung, is that these ministers of the crown did not believe it would be a success because von Tirpitz, while in office. "had neglected to build submarines in sufficient numbers." The only reason for their disapproval was that the warfare did not promise to be deadly enough to smash Britain. Is there such a thing

OFFENSIVE.

(By Frank H. Simonds.)

Copyright, 1918, by the McClure Newspaper Syndicate.)

FFICIAL figures supplied by the French genation of the activities of the Opposition will seek some of the numbers which the Germans to the numbers which the Germans have on the line, he west, some 113 divisions, and behind it as are to use in their coming attack. These French trades and labor branch of the Ontario Departfigures show that the Germans have on the line, in the west, some 113 divisions and behind it, as a strategic reserve, about half as many, 63, to be accurate. We may reckon the present German accurate. We may reckon the present German but it has nothing on the Ontario resources ordivision as between 10,000 and 12,000, and can thus estimate the German troops on the line at ganization. It's a contest between the two as in injecting the maximum of energy and about 1,250,000, and those behind it at around to which does the least good and spends the most 750,000. All told the Germans, then, have in the money. The Ontario resources committee was a "Straight" Gillen has known little west some 2,000,000 at least and possibly 2,250,000 regular harvest for several large Toronto printtroops, which are their chief resource for the ing houses, and an army of clerks. With their assistance the committee was able to keep well assistance the committee was able to keep well assistance the committee of the war board. Looking backward we may recall that at the see of the battle of the Somme last February, assistance the committee was able to keep well executive committee various offices scattered all over the province, laterin a duplication of the little work carried on. NEW MANAGER OF C. N. E.
TORONTO, Feb. 18.—John G. Kent, acting honorary manager of the Canadian National Exposition, was today appointed manager with a salary of \$10,000 a year by the executive of the fair. He succeeds the late Dr. J. O. Orr.

Iron Is Greatest of All Strength

This dries the scalp, makes the hair bittle, and is very harmful. Just piain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoontals will make an abundance of rich, creamy lather and cleaness the hair and scalp in thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and excelly, and it leaves it fine and sliky, bright, fluffy and easy to manage.

WINNIPEG, Feb. 18.—Much interest was evinced today in Winnipeg civic ment from London, Ont. that the London company is controlled by the leavest fine and sliky, bright, fluffy and easy to manage.

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Advt.

PLAYED AT TILLSONBURG

TILLSONBURG, Feb. 18.—In one of the fastest games of the season the Pan-Dried Juniors trimmed the All-Stars, 7 to 5, tonight in the semi-finals of the Southern Counties League. The game was fought to a finish, and 20 migutes overtime was played to decide the winner. The first period ended 1 to 1. In the second the Pan-Drieds rushed things, and the bell rang with the score 3 to 2 in their favor. With five minutes to play in the third period, and the score 5 to 4 in favor of the All-Stars, Barrett, the 13-year-old midget of the Pan-Drieds, tied the score with a beautiful shot. In the overtime, Barrett scored again, also Pollard. D. Barrett refereed.

Mrs. Chapin says:

Standard Oil Company (New Jersey) NUJOL Department, 26 Broadway, New York City.

I don't think there was ever anybody, man woman or child, who was or is more constipated than my little three year old boy was. He was so bad before we got him the Nujol that we would have to leave his bowels unmoved for three or four days, then use almost a quart of water in a syringe to move them. The poor little fellow would almost go into spasms; his father could never stay in the room where he was: it would take almost an hour's work to get them to move and never to move without

He had been constipated for two years. I think those patent medicines did it. I have known the doctor to be here and give him five tablespoons of castor oil, one every half hour, to get his bowels to move. We tried four different doctors, one a well known specialist, but none could help him. Three advised operations, said it was the only cure. I have always had a horror of operations and I guess always will.

Last April, he had Scarlet Fever, sir; he lost chunks of blood as big as the size of a marble. We were going to try a well known woman doctor who claims she cures without an operation, when I coaxed my husband to let me try Nujol. I told him even if it didn't help him, it would not hurt. We tried it, started giving him three tablespoonfuls a day, one after each meal, then as his bowels moved better and with less blood, we decreased the dose as per directions. We used two bottles and a half and we cured him. How thankful we were; tears come to my eyes, even now, when I think of how that poor little fellow suffered. Just think, a little tot, hardly able to talk plainty! He has not taken a drop of it since last June, only occasionally we give him a dose of castor oil to physic him which acts on him now as on any normal person.

I have wanted to write before, but kept neglecting it till I thought perhaps my letter would relieve lots of other people. Again I say, God Bless Nujol, and I will never be without it or cease to recommend it. From a mother whose heart will always be thankful for your great remedy for constipation.

MRS. I. CHAPIN.

It is absolutely harmless

and may do the same for you. Try it.

1,000 APPLICATIONS FOR SOLDIERS' LAND AID BEFORE BOARD

Most of Them From Men Who Have Farmed.

Men Looking For New Land Do Not Want To Be Shoved Away Back.

OTTAWA, Feb. 18.—The soldiers' land settlement board was only inaugurated Forecasts Another "Victory about three weeks ago, and yet there have already been about 1,000 applications for the assistance provided for under the act for those who desire to "carry on" on the farms. The majority of these are men who had farms or esteads before going to the front, Carvell, minister of public works, ad-

in each case.

The greater and more difficult problem of securing land for those who do not possess it has still got to be worked out. The whole question was discussed generally at the conference of provincial premiers held here last week. The Government was informed that returned soldiers in the west were, to say the least, unfavorable to being placed in the hinterland of the prairie provinces in view of the fact hat there were millions of acres of facant land held by speculators with, neasy reach of railways and within lose touch of civilization. These lands, hey claimed, should be made avail-hig for soldiers' settlement. n easy reach of railways and within close touch of civilization. These lands, they claimed, should be made available for soldiers' settlement. It was intimated that many of the land companies in the west would be pleased to dispose of their holdings on the best possible terms, and only asked for reasonable interest until such time as the lands were paid for.

Mr. Carvell expressed a wish that the more attention to the great economic and trade questions which were before the Dominion. If they did he had no fear for the future of the Dominion, with all its natural wealth and resources.

A SLUGGISH LIVER **CAUSES** LOTS OF TROUBLE

When the liver becomes sluggish it the army in Canada, in addition to \$200,000 for the army across seas, is an indication that the bowels are although this latter sum would not be not working properly, and if they do actually paid out. not move regularly many are liable to set in.

Constipation, sick headache, billous headache, jaundice, heartburn, water brash, catarrh of the stomach, etc., all come from a disordered liver.

Milburn's Laxa-Liver Pills are a specific for all diseases or disorders arising from a slow, sluggish, lazy or torpid liver, and they have been universally used throughout Canada for over 20 years with the greatest suc-

Mrs. W. A. Harrison, 7 Poplar Grove Halifax, N.S., writes: "I take pleasure in writing you concerning the great good I have received by using Milburn's Laxa-Liver Pills for a sluggish liver. When my liver got bad I would have severe headaches, but after using ple of vials or your pills, I have

not been bothered any more." Milburn's Laxa-Liver Pills ars 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

who wish to purchase. They are plying for the \$2,500 advance to which ery returned soldier is entitled who is a bonafide intention to go on the id. The machinery required under a cott of deal with such and the resulting the country had to raise something like \$800,000,000, and the act to deal with such applications while he was not announcing any policy, while he was not announcing any points.

The scenes are laid in Canada, and deal with the feud between the course of sheing prepared. In meantime, in order that there may no delay in dealing with applications, various Dominion land and home-days the could not raise the money by way of tariff there was only one source of tariff there was only one source of tariff there was only one source of tariff there was not announcing any points.

The scenes are laid in Canada, and deal with the feud between the course of sheing prepared. In the declared that if the Government would not raise the money by way of tariff there was only one source of tariff there was not announcing any points. stead officials will be called into requisi-tion to make the necessary investigation in each case.

reasonable interest until such time as the lands were paid for.

The purchase of land sufficient for 60,000 men would mean a considerable initial outlay on the part of the Government. The provincial premiers estimated that for the purchase of land an additional \$2,500 per man would be required. However, if any considerable proportion can be obtained by simply paying interest until such time as the occupant of the land arrives at the point where he can start paying the principal, the outlay would not be so great. Many of the land companies are, it is said, willing and ready to take Dominion bonds for their holdings.

\$250,000,000 Ordinary Business.

Mr. Carvell said that there was hardly a man in Canada who was not in a better financial position individually since war started than he was before. But the Government of Canada had been getting poorer and poorer, and today it was faced with a condition such as no Government had ever faced before in Canada. Before the war the revenues of the country were about \$175,000,000, provided that there was hardly a man in Canada who was not in a man in Canada. Before the war the revenues of the country war about \$175,000,000 prover and poorer, and poorer and poorer and poorer and p

carry on the ordinary affairs of the country.

Six million dollars had to be provided for interest charges, and at least ten millions or more for soldiers' pensions, and that might go as high as twenty millions. In addition to that, \$400,000,000 had to be provided to pay for the goods which were being sold by Canada to Great Britain and the Allies, and which they could not pay for at the moment. During the present fiscal year Canada would send to Great Britain probably over \$900,000,000 worth of goods, including munitions, but unfortunately she only imported about \$90,000,000 worth, and that left an adverse balance of trade of \$800,000,000 which must be taken care of in some way.

Railways Require \$40,000,000.

The railway problem would take up robably \$35,000,000 or \$40,000,000, "Trune probably \$35,000,000 or \$40,000,000, prune and pare the best way we can." The Government had to provide at least \$145,000,000 to pay its debts and carry on the army in Canada, in addition to \$200,-

although this latter sum would not be actually paid out.

Mr. Carvell referred to the recent Victory Loan, and said he had sufficient faith in the people of Canada that if next August or September there was a call for another \$400,000,000, the Government would get it.

"We may just as well realize," he declared, "that the time has come when we must be self-supporting. We must buy our products and send them across the ocean, and must furnish the necessary money, and the only way to do it is for the people of Canada to dig down in to their pockets, and I believe they will do it."

A story that breathes the very essence of the out-of-doors and the charm of gypsy lore, together with a love story of unusual interest, is Sir Gilbert Parker's "The World for Sale," showing at the Majestic today only. The scenes are laid in Canada, and deal with the feud between two small

Appearing in "The Rose of Blood" admitted to be the supreme effort o

clared that up to date no Government in Canada had ever succeeded in operwill do it."

The minister referred to the balance of trade against Canada in the United States, and said that there was at least \$350,000,000 to be provided for this, and some scheme must be devised for this.

The Railway Problem.

Discussing the railway problem, he described the Canadian Pacific Railway as a splendidly-managed, dividend-paying concern; the Grand Trunk well managed, but unable to meet the interest liabilities of seven millions loaded on it by the Grand Trunk Pacific; the Canadian Northern, as a white elephant; the National Transcontinental as a splendid railway, but no revenue-getter, and the Intercolonial, which had always been up to the present a political machine, as, therefore very hadly managed. He determined the steel manufacturers would have sufficient ability, energy and business accument to so arrange things that the plates would be rolled in Canada in the present a political machine, as, therefore very hadly managed. He determined the server were the country must have ships.

He believed shipbuilding might be a given to do; but it was a lementable fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government operation of rallways had been one of the most tragic fact that government felt it its paramount duty to make a start with \$35,000,000 or \$40,000,000, and he hoped next year it would be still greater, because, although the country must have ships.

He believ

> CANADA'S PARLIAMENT LIKELY TO BE CALLED WEDNESDAY, MARCH 20

OTTAWA, Feb. 18.—Wednesd March 20, is now regarded as likely be the date for opening the first s sion of the new Parliament. Thouse meets on Wednesday when this a speaker to be selected, as this always necessary when a new parlment meets for the first time. The session cannot be summoned until soldiers' vote is all counted, and adden the home wete, and considerably its properties.

MONTREAL STEAMER SUNK IN OVERSEAS SERVICE

MONTREAL, Feb. 18.—The steamship percesian, commanded by Capt. Joseph Percesian, commanded by Capt. Joseph Bernier, the Arctic explorer, has been sunk, according to a cable received by the Robert Reford Co. here.

It is certain, however, that the vessel was not torpedoed, said an official of the agency this afternoon.

The Percesian left Halifax January 31. She was a vessel of 782 tons, the property of the Gaspe and Bale-des-Chaleurs Steamship Company, Limited. She was for years engaged in the service between Montreal and Gulf ports. Latterly she had been transferred to overses service.

JUDGE DUFF REFUSES EXEMPTION TO EXPERTS IN MUNITION-MAKING

OTTAWA, Feb. 18. - The centra ppeal judge has dismissed the appliations by P. Lyall & Sons, Montreal, for the exemption of three of their employees, on the ground that they are skilled laborers. The three men are Ovila Robillard, Emile Dessain, and Emile Laurin, and all are engaged as machine operators in the manufacture of shells.

machine operators in the manufacture of shells.

Mr. Justice Duff, in his judgment, states that "the fact that these men are engaged in the manufacture of munitions is no ground for exemption. In addition to that it must at least appear that they are essential and cannot be replaced."

COURT OF INQUIRY TO DEAL WITH COMPLAINTS

ment of Soldiers on Shipboard. OTTAWA, Feb. 18. - The depart ment of militia and defence, in a statement given out this evening, an-

Vanished When She Used
Dodd's Kidney Pills.

Lower West Pubnico, Yarmouth Co.,
N. S., Feb. 18.—(Special.)—After suffering for some time from backache and rheumatism, Miss L. V. Le Blanc, a well known and highly respected young lady living here, took a friend's advice and used Dodd's Kidney Pills. The result is that she is completely cured and one more recruit has been added to the army who are advising their friends to use Dodd's Kidney Pills for all kidney trubles.

"Yes, I am telling my friends what Dodd's Kidney Pills did for me," Miss Le Blanc says. "Not only did I have the greatest possible efficiency and dispatch.

"Not only did I have the appointment of a court of inquiry under Lieut.-Col. Hulme of system being discarded.

The accounter, to investigate complaints made by returned soldiers as to treatment received by them on shipboard. The statement also deals with other complaints relative to the supplying of names of returned men.

Referring to the difficulties experlenced in obtaining a list of returned soldiers and forwarding the names of returned men.

Referring to the difficulties experlenced in obtaining a list of returned on the remaining the names of returned men to relatives, with the announcement of their arrival, the statement promises that the present unfavorable system being discarded.

The tatement also deals with other complaints relative to the supplying of names of returned men.

Referring to the difficulties experlenced in obtaining a list of returned soldiers and forwarding the names of returned men.

Referring to the difficulties experlenced in obtaining a list of returned to relatives, with the announcement of their arrival, the statement promises that the present unfavorable system being dispatch.

In that was needed, the complaints made by text.

The statement also deals with other complaints relative to the supplying of names of returned men.

Referring to the difficulties experlenced in obtaining a list of returned to relatives, with the announcement of their arrival, the stateme nounces the appointment of a court of OTTAWA, Feb. 18.—Commissioner Pringle stated today that no date had yet been fixed for the resumption of the inquiry into the cost of newsprint. He added that it would probably be left to the publishers and the manufacturers of newsprint to decide on the four mills to be investigated as to cost of production.

It was authoritatively stated here that there was no intention on the part of the sub-committee which dealt with Commissioner Pringle's interim report

CIVIL SERVICE TO BE PLACED PERMANENTLY WITH COMMISSIONER

TORONTO, Feb. 18 .- Hon. I. B. ucas introduced a bill into the Legislature this afternoon providing for the appointment of a civil service commi sioner for the province. This, said the of minister, was a one-man commission, minister, was a one-man commission, not a commission to inquire, but a permanent commissioner, who would make a continuous survey of the different departments and from time to time report on their workings, with a view to suggestions and improvements in the organization. The commissioner, he suggested, might make a classification of the civil service. Until such classification was made civil service reform as popularly understood would not be feasible. There was a special provision for county officials, where no appointment was to be made until the commissioner should recommend in writing that the nominee was of suitable character, education and ability for the office. A qualifying examination was all that was needed, the competitive system being discarded.

The NEAD OLD PETILINES

KINGSTON, Feb. 18.—Among the soldiers who arrived here yesterday from overseas was Pte. Boucher of Gananoque, who is 73 years old. For eight months he faced the German lines and bravely endured the hardships. When his age was discovered Boucher was ordered down the line and sent with a special pass to Buckingham Palace to meet the King, who was anxious to see the oldest man in khakd. The veteran was graciously received by his majesty and complimented on his courage and determination. Pte. Boucher fought in the United States Civil War.

MONEY.

WALL STREET.

New York, Feb. 19—Wall Street, 19:30 a.m.—War shares and kindred special-ties bounded forward again at the opening of today's stock market, record-

opening of today's stock market, recording gains extending from large fractions to 3 points in the very active first half hour. Shippings, rails, steels and the usual leaders advanced more moderately at the outset, but increased their gains later. The rise prompted further heavy covering of short contracts. Liberty bonus showed slight irregularity.

Noon.—Pools were in control of the forenoon operations, although outside interest was not lacking in representative stocks. The turnover of the morning approximated 500,000 shares, establishing a record for many weeks. Extreme gains of 2 to 5 points were made by New York Air Brake, Pressed Steel Car, Crucible Steel, Bethlehem Steel, Virginia Iron, Chandler Motors, Industrial Alcohol, Colorado Fuel and General Electric. Rails held their early gains, but shippings were reactionary.

THE ROBERTSON CASE \$1.70

Chicago, Feb. 19.—Unfavorable weather gave some degree of firmness today to the corn market. Excessive moisture and low temperatures made a combination which seemed likely to cause further damage to soft corn. Besides, receipts did not have the volume that would have been pleasing to the Opening prices, which raned from the same as yesterday's finish to ½c off, with March at \$127½ and May at \$126%, were followed by a slight upturn and thon a little reaction.
Oats climbed to new high price records for the season. The chief reason was that at first the market was almost bare of offerings. After opening ½c to ½c to ½c up, with May at \$4½ @84½c, prices scored a further gain.

DR. R. W. SHAW TAKES WHO GAVE SONS TO VACANCY ON BOARD OF EMPIRE DECORATED PT. STANLEY RAILWAY

by Aldermen.

Dr. R. W. Shaw, ex-controller, was

red for London. Ald. Watkinson wanted to know Aid. Watkinson wanted to know why the sewer on Florence street was not continued, and he will be asked to present the case to the board of works at its next meeting.

The question of charging the Bell Telephone Company for the use of the

Telephone Company for the use of the city streets was sent back to the finance committee. Controller Moore has some suggestions in connection with the matter, which he will present. It is thought the minimum charge of \$5,000 is not sufficiently high.

Alien Labor Taxed.

Alien labor will be charged a fee of \$10 annually in addition to the poll tax for the privilege of working in London. This suggestion was made by Ald. Wilson.

This suggestion was made by Aid. Wilson.

Aid. Ashplant complained that the finance committee had not been consulted in connection with the sale of debentures. Mayor Somerville explained that it was an oversight on his part. The sale of \$673,500 debentures at 6 percent five-year bonds for 97.89, and \$673,500 6 per cent debentures for ten years at 96.36, was reported.

The bylaw preventing rigs from carrying loads with six feet or more extension, unless carrying a light or signal, was passed.
