## NEW ZEALANDERS REPULSE FIERCE HUN ATTACKS ENEMY ADMITS GIVING UP GROUND WON AFTER BITTER FIGHTING RUSSIANS CHECK DRIVES IN GALICIA AND RUMANIA

### Both Sides Claim Highest Peak in Macedonia About Which Gory Fight Rages

French Declare Violent Bulgarian Assaults Were Hurdled Back With Great Loss—Enemy Claims Florina Fight Favors Them.

[Canadian Press.]  
Paris, Sept. 21.—12:05 p.m.—The repulse of violent Bulgarian attacks on the peak Kaimakalan with heavy losses to the attackers is reported in an official statement given out by the war office today. In the region of the Brod River the Bulgarians forced their way into the village of Boreznica, after two attacks had failed. They were driven out by the Serbians in bayonet fighting. Further progress for the Allies is reported on the left wing, where they have reached Hill 1559, three miles northwest of Ploedri. The text of this communication follows: "From the River Struma to the River Vardar there has been intermittent artillery fighting. To the east of the Cerna River a violent counter-attack delivered by the Bulgarians upon the crest of the Kaimakalan range, a position held by Serbian forces, was repulsed with heavy losses for the enemy. In the region of the Brod River, Bulgarian forces have renewed their activity against Boreznica. After several fruitless assaults they finally were successful in securing a foothold in this village, but the Serbians came back with an offensive movement and again drove the Bulgarians out. "On our left wing, in spite of a heavy fog, our troops have progressed as far

as the immediate vicinity of Hill 1559, about five kilometres (three miles) to the northwest of Ploedri. In this vicinity we took about fifty prisoners."  
THE BULGARIAN CLAIMS.  
[Canadian Press.]  
Sofia, Sept. 20.—Via London, Sept. 21.—12:25 p.m.—Bulgarian successes in the Florina district on the Macedonian front are announced by the war office in today's official statement. The tide of battle turned favorably to the Bulgarians, who inflicted heavy losses on the Entente forces in operations in which the Bulgarian cavalry took part. The statement reads: "Macedonian front: The battles around Florina are developing favorably for us. In strong counter-attacks in which our cavalry participated, the enemy was repulsed with great losses. The plateau is covered with enemy dead. We captured one officer and eleven men of a Russian brigade and 100 men of the 17th French Regiment, with two machine guns. "A strong enemy attack against Kaimakalan failed with great losses. In the Moglenica valley the situation is unchanged. There was artillery activity on both sides. "Minor infantry engagements occurred both east and west of the Vardar, also artillery firing. "On the Struma front there was feeble artillery activity."

### MACKENSEN HELD BY ALLIES AFTER DESPERATE DRIVE

Accounts Agree That Russian-Rumanians Hold the Positions.

REINFORCEMENTS COME  
Sofia Concedes Stubbornness of Resistance in Fight for Railroad.

REPORTS CONFLICTING  
Battles in Florina District Continue to Develop Heavy Losses.

[Canadian Press.]  
London, Sept. 21.—Field Marshal von Mackensen's advance through the Rumanian Province of Dobruja, where his combined German, Bulgarian and Turkish forces have been striking for the railroad from Constanta to interior Rumania, has been checked according to accounts from both sides of the straits. Bucharest yesterday announced a check for von Mackensen's armies on the line of defence taken up by the Rumanians and Russians, who have been heavily reinforced. Today a statement by the Sofia war office under yesterday's date concedes the stubbornness of their resistance and reports the Entente armies still holding their strongly-fortified positions. Conflicting Reports. Reports regarding the fighting in the Florina district in Northwestern Macedonia are conflicting. Accounts from Entente sources have asserted the Bulgarians were calling back on Serbian territory and preparing for the defence of Manastir. Sofia, however, announces a turn in the fighting favorable to the Bulgarian forces, declaring that the counter-attacks resulted in the repulse of the Serbian and Allied troops with heavy losses. Further east in the mountainous country along the Serbian border the engagement is a heavy one all along the line, the struggle in the Kaimakalan district being particularly stubborn. Making Progress. On the far western end of the line the Allies are making progress, but are apparently attempting no serious forward thrust in either the Vardar or the Struma regions. The defeat of the Germans in their desperate counter-attacks along the Somme front, reported last night, brought a quiet in this region, judging from today's official report, which says the Germans did not renew their attacks during the night. The bad weather reported during the last few days is continuing, and apparently the Anglo-French forces are awaiting its cessation and any attempts that may be made to wrest their newly-won ground from them before renewing their efforts to advance. French Gain at Verdun. After a lapse of some days, activity has been resumed by the French in the Verdun region, attacks on the east bank of the Meuse gaining them two trenches south of the Thiamont work and some ground east of Fort Vaux and in the Chapitte Wood.

HUGHES' ARRIVALS EXPECTED TO ALTER ALL WINTER PLANS

Just What War Lord Will Do Questionable. ARE BATTERIES COMING? Toronto Artillery Units Being Brought There for Winter Months.

If Ottawa dispatches are to be taken as any criterion of the military department situation there, then nothing has been definitely settled for the wintering of troops in London. True, the battalions of infantry, with auxiliary corps, will be located here, but just how long these orders are to stick is a problem that no military officer will attempt to work out at present.

The orders were made without the sanction of Canada's war lord—Hon. Major-Gen. Sir Sam Hughes—and because the said Hon. etc., is now on the Atlantic and will be home shortly, almost anything can happen to the "housing arrangements."

Pet Scheme "Ditched" It has been generally assumed that one of the minister's pet schemes for recruiting, namely, the billeting system, has been abandoned because it did not prove satisfactory.

Hughes always claimed that the system of billeting small units during the winter where they were raised was a great encouragement to recruiting. Those who took over his work when he went away appear to differ with that view. It may be also that the minister will have something to say about the new scheme, which is to be inaugurated when he returns.

Just what will happen in London and district remains to be seen. Here are some strange disquisitions to make any commiseration.

Announced Start on Park. It has been announced that the work of preparing Queen's Park for the winter accommodation of troops was to be started at once, but as Queen's Park will be used by the ordinance corps in any event, this prediction does not mean so much as it otherwise would.

It is generally accepted as assured that if the 63rd and 64th Batteries are to be returned to their districts, or to be formed, they will be stationed at Guelph in the Winter Fair buildings there. Toronto batteries that recently transferred to Ottawa for training are to come back to Exhibition Park for the winter, according to an official announcement.

Twenty-eight officers left London last night. Hundreds of Londoners and friends of the officers from other parts of the district witnessed the departure. The most notable feature of the station, but mobilized at the platform a few minutes before train time.

Plenty of opportunity was afforded for last farewells, and good use was made of it. The train pulled in and the crossing gates were lowered the people crowded past for a last handshake. Many soldiers were at the station, and the majority of the officers from the units stationed in the city.

As the train pulled out three cheers were given by the crowd. The officers were full of heart, and responded cheer for cheer.

It was intended that the party should leave 30 strong, but medical examinations reduced the number by two. Six officers of the 11th Battalion were added yesterday. They were Lieuts. T. Todd, A. Yates, F. Landreth, J. Parsons and R. S. Stone.

The other members of the party were: Ernest Houghton, 168th; Robert Rankin, 168th; George Harper, 168th; Ernest Edward Showler, 168th; Charles W. N. Wright, 153rd; W. A. G. for Military District No. 2. It is inferred from this that the 63rd and 64th stand a good chance of returning, but to where seems to be the question.

TWENTY-EIGHT OFFICERS GIVEN GREAT SEND-OFF

All Were Chosen From Battalions That Trained Here.

Twenty-eight junior officers left London last night. Hundreds of Londoners and friends of the officers from other parts of the district witnessed the departure. The most notable feature of the station, but mobilized at the platform a few minutes before train time.

KITCHENER BATTALION RECEIVES DYMENT CUP

Trophy for Bombing Championship of Camp Borden.

CAMP BORDEN, Sept. 20.—At the stadium tonight Major-Gen. W. A. Logie presented the A. E. Dymont cup to the 11th "Kitchener's Own" Battalion, 118th, which team won the camp bombing championship. In making the presentation the general commended the good work of the team, to which Col. Lochhead replied fittingly.

Lieut. F. V. Heakes of the 201st Toronto Light Infantry Battalion was then called up to receive the cup donated by Col. E. W. Leonard for the camp championship in athletics.

Major-Gen. G. Watkin, chief of the general staff, is expected to arrive in camp tomorrow to straighten out several matters, on which battalion commanders and F. B. McCurdy, parliamentary under-secretary of the militia department, will confer with Gen. Logie on Friday.

DISTRICT CREDITED NOW WITH ALL MEN RECRUITED THEREIN

New Orders See That Returns Will Be Correct. STRICTER EXAMINATIONS Second Medical Test Before Recruits Can Secure Uniforms.

One of the latest orders issued for military district No. 1 will do away with a subject which has caused much adverse criticism. All men recruited here will, from now on, be credited to this district and not to the district to which the unit with which they enlist belongs. Formerly men who enlisted here to serve with the Irish Rangers, a Quebec battalion, or other similar units were credited to Quebec, Ontario, or another man and at the same time getting no credit.

The new order will make the medical examination stricter, so that few men who are accepted will be discharged later.

It reads: "All recruits from military district No. 1 as soon as passed as fit at the preliminary medical examination, are to be sent to the nearest mobilization centre, at present London, to undergo examination by a medical officer. If he passes this second examination as 'fit' he will be sent to the headquarters of the overseas unit for which he is recruited.

"No equipment of clothing is to be provided until he reports to his unit. This order includes men enlisted for units outside of the division."

RIGHTS OF RECRUITERS CLEARLY SET FORTH NOW

Order-in-Council Outlines Powers and Privileges of Those Seeking C. E. F. Men.

Rights of "recruiters" and the penalties that are imposed for any interference with recruiting meetings or speeches are set forth in the recent order-in-council that was signed by His Royal Highness the Duke of Connaught, governor-general of Canada. The order-in-council is interesting generally, and its application, for instance, in Quebec, where the meetings of a number of battalions have been interrupted, is being watched with much interest.

In this military district the order-in-council is unnecessary because of the ready response that has always been accorded to recruiting, but at the same time the terms of the order-in-council are comforting to those who are engaged in recruiting for the Canadian expeditionary forces.

The order in full follows: "It shall be lawful for any military officer to hold public meetings at which speeches may be made for the purpose of securing, persuading or encouraging men to join or enlist in the Canadian Expeditionary Forces for service during the present war, and such meetings may be held not only in any room or building which may be engaged for the purpose, but also out of doors in any public square, park, or other open space within any city, town, village or other municipality.

"It shall be lawful for any military officer to canvass for recruits for the Canadian Expeditionary Forces, and to do so in any public street or highway in any city, town, village or other municipality, and there to solicit the attention of any person who is willing to listen to or consider recruiting proposals.

"It shall be an offence for any person to interrupt or otherwise to interfere with or disturb the proceedings of the speakers who are advocating recruiting, or to obstruct, impede or interfere with any military officer, non-commissioned officer or man belonging to the Expeditionary Forces while lawfully engaged in the business of recruiting for the said forces, and to take the person so arrested before a stipendiary magistrate or justice of the peace to be punished in accordance with the provisions and subject to the procedure sanctioned by these regulations; and it shall moreover be the duty of all police or peace officers to co-operate with and assist the military authorities in the enforcement of these regulations in the preservation of order at the recruiting meetings, and in facilitating the lawful proceedings of all persons engaged in recruiting.

"Any person committing an offence against these regulations shall be punishable upon summary conviction under Part XIV. of the criminal code by imprisonment for a period not exceeding two months, or by a fine not exceeding one hundred dollars, or by both fine and imprisonment; and for a second offence the offender shall be imprisoned for a period of two months.

GUELPH WILL HAVE TWO BATTERIES HOME

[Special to The Advertiser.] GUELPH, Sept. 20.—From orders received by military men here, it looks as though Guelph will soon have the 63rd and 64th batteries here for the winter. Supplies for these units, it is understood, are to be shipped here after October 1. The barracks will be the headquarters, as formerly.

The 64th is commanded by Major Walker, and the 63rd by Major Cameron. They are both recruited here and are at present at Petawawa.

It is also likely that another battery will be recruited here by Lieut.-Col. McCrae, who organized the 42nd, which went overseas some time ago. Col. McCrae was too old to go to the front, and returned from England. There is no doubt that he could get another battery here in short order, as artillery has always been quick to recruit in Guelph.

SOUTH WATERLOO HAS ONE OF BEST UNITS EVER TRAINED HERE

Popular Commander Is an Old Newspaperman. 111TH MOST EFFICIENT Standard of Men Above Average, Though Full Complement Not Reached.

The 111th Battalion, which is soon to leave London, was authorized on November 19, 1914. The original intention was to raise one battalion in the whole county of Waterloo. This met with some opposition however, as it was felt that South Waterloo was quite capable of raising and equipping a battalion itself.

The authorities at Ottawa felt with the idea, and Major J. D. Clarke of the 20th Wellington Regiment, a militiaman of long standing and a capable officer, was chosen as commander of the new unit.

Lieut.-Col. Clarke is a newspaperman of many years experience. While originally a Wellington County man, he early moved to Galt, where he entered the newspaper field. His work also carried him to Detroit, where he spent four years on the Times. Returning to Galt he acquired, with associates, control of the Galt Reporter, and the present standing of that paper is largely due to his business and executive ability.

His ability in his chosen work found scope in military life, and it is claimed that he has done as well in the face of stiff opposition in the raising of the South Waterloos as it was possible to do. While the unit has not been brought to full strength the class of men secured was of a high average, and their training since they came to London they have attained a high standard of efficiency.

Excellent Record. The record of the 111th since it came to London has been an excellent one so far as the conduct of the men is concerned. Not a single unpleasant incident has marred their stay here, and the ready reports of the acting provost marshal have been exceptionally clear of the names of 111th men, while the unit is being generally commended on having been chosen to go overseas at a time when the opportunity is even more coveted than usual, regrets are widely heard that London is to see the last of the men from South Waterloo.

FORMER LONDON BANKER RESCUES ENGLISH GIRL

Despite Wounds He Heroically Saves Her From Death From Drowning.

Pte. Robert J. Kirk, a former bank clerk in the local main office of the Bank of Toronto, figured as the hero in an English accident. He heroically saved a girl from drowning in the River Thames near Old London.

While the unit is being generally commended on having been chosen to go overseas at a time when the opportunity is even more coveted than usual, regrets are widely heard that London is to see the last of the men from South Waterloo.

Since his wounding, the bank clerk, in which his right leg was mangled, dropped harmlessly in the sea near by. He was rescued by Pte. Kirk, who, with a chum, brought in another chum who was badly wounded at Petawawa. This was a few weeks after Kirk was wounded in the battle of St. Julien. At Giverny, on June 15 last, Kirk was in the front trenches, where he witnessed the fall of a German machine gun, and lay for hours in "No Man's Land" waiting for medical assistance. Kirk was in a hospital in England when it was reported by newspapers that he had been killed. He was, however, still alive, and he was rescued by Pte. THOS. MARTINDALE'S BODY NOW ON WAY TO PHILADELPHIA HOME

Left Seattle on Wednesday En Route for East.

REVIEW OF CAREER

'North American' Writer Chronicles History of Famous Ex-Londoner.

Relatives in London have today received night letters from Seattle by James J. Martindale, stating that Dr. Babcock had arrived from Blaine with the body of his father, Thomas Martindale, who died while on a sporting trip in the Rockies in Northern British Columbia, near Log Cabin, last week.

The message further states that the body would leave for Philadelphia Wednesday (yesterday) by the Chicago, Milwaukee and St. Paul Railroad, and expected to reach Philadelphia Sunday morning on the Pennsylvania road. Mr. Martindale will definitely in regard to the time of arrival from Chicago.

The message further has this comforting assurance: "Aftering to Dr. Babcock, father slipped away in a country of wonderful beauty, having no pain. He was cheerful and happy in lucid intervals."

A second message adds: "Father enjoyed the first part of the trip immensely. He was cheerful and contented and suffered no pain. When he slipped away, his body was tired out of a recent number of the North American of Philadelphia, the life story told of the late Thomas Martindale, merchant prince, writer and noted humorist."

Throughout his life of many interests, Mr. Martindale kept closely in touch with a large circle of immediate relatives and close friends in London, to whom his passing is a personal loss.

Died As He Lived.

The North American writer says: "He died as he had lived, in the open, active, eager, in the great outdoors he loved so dearly. At the age of 19, Thomas Martindale obtained his first job. He helped a woman farmer gather her crops and market them. In 1857, Thomas found his second position. He became a clerk in a drug store at the age of 13 at \$1.50 a week. Within seven years he had reached the top there, and went to Toronto, where he climbed to the management of the largest drug store in Canada."

Organized Clerks' Association.

He found time while there to organize the first Retail Clerks' Association, which forced shorter hours and more pay from the merchants. At this time he was adding to his development by study at home after work. He learned French, sang in the choir, learned to box and wrestle and took a course in a business school.

He moved from Canada in 1858 to Boston in another drug store. He stayed there but a short time, when he entered into partnership with another young man to open a cycling rink in Philadelphia. It failed, and Martindale was stranded. He wanted to go to Canada, and someone got him free transportation as far as the city, then in the heart of the winter.

Some of the commissioners are enthusiastic over the reports, and will urge a vote of the people on it this January.

Spend Money Later.

That all of the money would be expended in wartime, is unlikely, but the vote of the people would decide whether or not the property should be bought. If the majority were more favorable, work would be commenced.

Believes It Solution.

"I think the report excellent," said Chairman Peacock. "This is the scheme, and will solve our problem. The people want spring water, and they want it badly. I would not recommend building in wartime, as the price of materials and labor is very high. However, we must look ahead."

Use Wells in Meantime.

"The Komoza scheme is the ultimate solution—there is no question about that," said Commissioner F. G. Mitchell. "The water is there, and there are more than 4,000,000 gallons, too. Its quality is absolutely pure. But we need water now, and we need it badly. It will take a year or two, possibly more, to get it here, and until we do, we are in a bad way. The Macgregor wells will tide us over that time, and keep London safe. I am convinced we can get a million gallons of water there, good water, and we can pump it from the Horton street plant, where we have plenty of machinery."

HAWKINS--MARSHALL

A marriage of much interest took place this forenoon at 10 o'clock in St. Paul's Cathedral, when one of London's most charming and popular girls, Amy Heartsease, only daughter of County Registrar Joseph Marshall, ex-M. P., and Mrs. Marshall, Cedar Terrace, was united in holy matrimony to Rev. Edwin Hawkins, formerly curate of St. Paul's Cathedral, now rector of Durham.

The ceremony, which was performed by His Lordship the Bishop of Huron, was witnessed by a large number of guests, including many of the clergy of the diocese, friends of the groom and of the family of the bride. F. G. Kilmaster presided at the organ.

Miss Marshall has a fairer bride given in marriage than the one of today, even in St. Paul's Cathedral, scene of many weddings of fashion and beauty. She was especially lovely in her nuptial robe, a graceful creation of white satin, with long train, and garniture of tulle and sprays of orange blossom. Her slim, tulle veil, which fell to the hem in a soft cascade, was caught by a spray of the orange blossoms, and she carried a shower of sweet peas, lilies and bride roses.

FOUR FORMER EMPLOYER COMES TO AID OF ACCUSED MOTHER

Furnishes Bail and Employment for Baby Deserter.

DID IT FOR LOVE ONLY

Girl Tells Court She Could Not Support Self and Child.

Admitting that she abandoned her baby here on Sept. 15 by leaving it in a Grand Trunk car, Dorothy Suchlich, arrested in Toronto on Tuesday night, at the request of the London police, pleaded guilty to the charges against her.

The girl formerly worked in London, and her ex-employer came to her rescue. He furnished her with a home and employment for her pending the action of the courts.

The magistrate refused the girl's request for possession of her child again, and in the meantime it will remain in the Salvation Army, where the former mother appeared next Thursday and agreed to find a home and employment for her pending the action of the courts.

The girl was working in Toronto as a telephone operator some weeks after the birth of her child in that city. She could earn enough to support both herself and the babe, but the American immigration authorities refused her permission to cross the border with her nameless child.

Started again for Toronto, she says, her trouble preyed on her mind that when she reached London she left the baby on the T. T. train and went to Toronto via C. P. R. In the Queen City, she again resumed her former employment as a telephone operator.

In appearing in court, her former employer declared that while here she had been regarded as a fine type of young woman.

"The girl is more to be pitied than censured," he declared. "Because she has taken this one wrong step, there is no reason why she should not be given another chance, and I am going to do what I can for her."

ADVOCATES CENSOR FOR ADVERTISING NEWSPAPER COLUMNS

Prominent Ad. Man Favors This in Address.

CUT OUT UNTRUTHS

Objectionable Ads. Harm Those of Legitimate Character, He Tells Club.

W. H. Bramble, advertising manager of the Goodyear Tire Company of Canada, was the speaker at the opening luncheon of the London Advertising Club, in the restaurant of the Hotel Cecil, last night. His subject was "Objectionable Advertising." There was a good attendance.

Not all untruthful advertising was necessarily objectionable, Mr. Bramble said, but if all the untruthful advertisements were eliminated from the newspapers about 90 per cent of the objectionable advertising would be cut out. Advertising was no longer a fact, it was a business. The same expenditure of money nowadays does not produce the results it formerly did. There was more competition. Some times needed more advertising than others, as there was an unlimited field. Others had their field confined. There had arisen a certain extent, making it harder to get the business the advertiser wanted.

A censorship of advertising was declared by the speaker. It was the rule in many American magazines, and Mr. Bramble thought the idea would be adopted in Canada had it not been for the fact that it was not lived up to as it should be by some of our only means of a national campaign, and it should be the aim of advertisers to see that the newspapers kept the untruthful and the objectionable advertising. The latter did harm to legitimate advertising.

A hearty vote of thanks was tendered the speaker in motion of H. B. Muir. It was announced that the Cleveland Advertising Club could not make a trip to London this fall, but would set a date next summer.

JUMP FROM TRENCH INJURES LONDONER

Former Advertiser Editorial Staff Employee Hurt During Somme Advance.

A letter from Pte. Victor Vinen, late of the 4th Battalion, to his mother, 408 Eglia street, was the first intimation that the young Londoner had been injured during the Somme advance. During the night he jumped from a trench only to fall into another fifteen feet in depth. He was taken to an Australian hospital, and after being there some time was sent to a casualty clearing station at Sheffield, England.

THE ADVERTISER EDITORIAL DEPARTMENT HAS BEEN ADVISED THAT Pte. Vinen, when he enlisted in the 4th Battalion, was engaged in the Hatfield Leg, England, and that he was called to complete the establishment of that unit. His request that the paper be sent to his mother of his injury until he was able to write her himself is the reason the casualty had not been reported before.

WAS 94 YEARS OLD. The death of Mrs. Caroline George occurred last night at her residence, 23 Orchard street. She was 94 years old, and was born in England. She was a widow.

COMPLETE FUNERAL ARRANGEMENTS HAVE BEEN MADE, PENDING THE ARRIVAL OF RELATIVES FROM WESTERN CANADA. Interment will be made at Lambeth, and the service will be conducted by the Very Rev. Dean Davis.

building without profit. It was simply a matter of routine business of the department, and I entirely accepted the judgment of the architect.

Mr. Rogers said the next lowest tender was discussed between himself and Hooper. But Hooper raised objection that accepting this tender would put the contractor on the job. This tender was for \$71,550. Mr. Rogers said the suggestion that the price be raised to \$70,000 from Hooper alone. The contract at \$69,229 had been executed by the contractor, but not by the department, when the change was made. Dancer, the deputy minister, prepared the contract, and it was signed, said Mr. Rogers, on his instructions. Mr. Rogers said he was not sure his conversation with Hooper occurred after August 1.

Hooper Home in Bed. "Assuming," said Phillips, "that it can be established that Hooper was never in contact with the contractor, from August 12 to the end of September, how could you have had this conversation with him?"

"My memory is clear and distinct that Hooper made the recommendation," was the reply. "Hooper sometimes, when sick in bed, used to come to the office for a short time, and I have heard that he would not wear to the date of the conversation, but 'nothing of this sort would be done without Hooper's recommendation.'"

"It really comes down," said the commissioner, "to the fact that about the first time you could have had this conversation with Hooper was about August 12."

"According to the records here," replied the minister.

Accepted Hooper's Word. Rogers said he had no information of his architect that Carter was losing money on the administration building contract.

"You always," he said, "have to be guided by the officers of the department. I always found Mr. Hooper's judgment very sound and very safe."

"I don't want you to distinctly understand," said Phillips, "that no change in this contract was made for any ulterior motive, as has been implied before this commission and in the press. For twelve years as minister of public works I built many buildings in this province, and had to do with many contractors, and no man can come forward and say honestly that I ever suggested or implied in any way the exacting of anything from any contractor for carrying on his work. Whatever were the circumstances in this case, my motive was nothing but the carrying on of the work in the public interest."

"My difficulty is in reconciling the facts," said Mr. Phillips.

LICENSE BOARD SAYS BREWERIES MAY DELIVER

Toronto, Sept. 21.—The license board this morning, through Chairman Flavell, announced that it had accepted the view of its counsel, Mr. Eudo Saunders, to the effect that breweries could deliver from stocks here to customers who ordered from outside areas, and so would not make a test case of bona fide.

ALLIED OFFENSIVE WILL BE CONTINUED THROUGH WINTER

No Chance for "Mr. Boeh" to Seek Winter Quarters.

LORD DERBY'S STATEMENT

British Army Is Best Equipped of Any Country in the World.

LONDON, Sept. 20.—"The Boche" will not be allowed to go into winter quarters," said Lord Derby, British under-secretary for war, today after a visit to France.

The under-secretary was deeply impressed with the visit.

"I wish I could pick one of my horses as a winner with the same certainty of victory as for the Entente Allies," he said.

"We are fighting the best-organized nation in the world, and it would be a reflection on our own troops not to admit that the Germans are showing extraordinary bravery."

"We are able to continue to increase the arms, munitions and food of our troops, and we will get more men needed, but no concrete proposal has been made yet to increase the age limit."

"Recent news of the military on stations and places of amusement pretty plainly have proved there are very few slackers left, and that the eligible men under the present compulsion law work either in the army or are properly badged for other work."

"I found everyone at the front cheerful. You may rest assured that the offensive will be continued, if there seems to be a lull it will be interesting to make a study of the German campaign."

"In company with Joffre and Haig I watched the trials of the famous 'tanks' a slight while despite the terrible power they displayed, crossing trenches, butting their way through wire entanglements and even through groves of trees."

"I am sure that the German campaign will be continued, if there seems to be a lull it will be interesting to make a study of the German campaign."

ALL LAKE SAILORS HAVE WAGES BOOSTED

CLEVELAND, Sept. 20.—The Lake Carriers' Association, through its executive committee, which met here today, provided an increase in wages to boatmen, whelmen and coal passers, men, officers, deckhands and other crew in arranging the full schedule of wages on the great lakes.

It was also determined to give all licensed officers extra pay, ranging from one month's wages to a third of a month's wages.

The schedule for the others follows: Boatmen, \$55; whelmen, \$75; deckhands, \$50; coal passers, \$47.50. The increases are effective October 1.

CALL FOR "TRAIL-HITTERS" COMES TO DETROIT TONIGHT; SUNDAY THINKS TIME RIPE

Ten-Dollar Bills Will Be Asked for Next Wednesday Night—Evangelist Pays His Respects to Dancing and Card-Playing.

DETROIT, Mich., Sept. 20.—Evangelist Billy Sunday will call for "trail-hitters" at tomorrow night's meeting, it was stated today by members of his personal party, who declare all signs show the time ripe for a call for converts, and that Billy Sunday will issue his "invitation" Thursday night.

At both meetings this afternoon and evening there was a powerful hint of the coming climax to all the opening work of the revival. At the afternoon meeting the evangelist would urge his sermon with a fervid plea to all to be ready to come when he called them to the front to accept Christ.

"Ma" Sunday will hold meetings for women only at the Woodward Avenue Baptist Church Sunday afternoon and evening. Next Wednesday night will be "automobile collection night," when everybody owning a car will be expected to drop \$10 in the tin collection basins.

To Meet the "450." "Detroit's 450" will meet Billy Sunday at Mrs. J. W. S. Newberry's fashionable home at noon tomorrow, arrangements having been made for a special meeting in the Newberry home. Four hundred and fifty invitations have been sent out.

"Broken Vows" was the subject of Mr. Sunday's sermon tonight. He took his text from the second chapter of Jeremiah, shall correct thee; thy wickedness shall remove thee. Know, therefore, and see that it is an evil thing and bitter that thou hast forsaken the Lord thy God, and that my

RUSS MAKE GAINS IN CARPATHIANS, REPORT OF VIENNA

Efforts on Other Parts of Front Said To Have Failed.

RUMANIANS LOSE PASS

Driven Back by Teutons on Southern Frontier of Transylvania.

LONDON, Sept. 20.—"There were no important developments on the western or Caucasian fronts," according to the official announcement today of the Russian war office.

Vigorous Russian attacks, however, are being continued in the snow-covered Carpathian mountains. Both Vienna and Berlin admit the Russians have had further successes. The Austrian statement says:

"In the Carpathians the enemy prosecutes his attacks with the greatest tenacity. South of the district of Lutzna, south of the Zyratzka, he gained local advantages, but otherwise we repulsed him everywhere. South of Lipnicadolina the enemy tries vainly to counteract by mass attacks the advance of the German counter-attacks."

"Army front of Prince Leopold of Bavaria: Attempts during the day to attack Col. Gen. von Terneck's army were nipped in the bud. In the evening the enemy pushed masses in deep formation between the German and Austro-Hungarian troops of Gen. von der Marwitz, but were everywhere repulsed. This morning the Russians renewed their assaults and succeeded near Szelow in penetrating our trenches at some points. Speedy counter-attacks, however, compelled the enemy again to yield."

Rumanians Driven Back. The official Austrian communication issued today regarding operations in Transylvania, says:

"The Rumanians south of Hoeting (Hatzeg) have been completely driven off Fetosny and the Saururus Pass are again in our possession."

Saururus Pass is one of the several mountain routes through which the Rumanians advanced on the declaration of war against Austria-Hungary. It emerges from the Transylvanian Alps on the Hungarian side at a point about 50 miles southwest of Hermannstadt.

GEN. SEELY IS ELECTED TO HOUSE OF COMMONS

Lieut. Arthur Turnbull Loses His Third By-Election.

LONDON, Sept. 21.—Brig. Gen. J. E. Seely, the coalition candidate, has been elected to the House of Commons for the Mansfield division of Nottinghamshire, over Lieut. Arthur Turnbull. The vote was: Seely, 7,597; Turnbull, 4,458.

Lieut. Turnbull will be remembered as the man who jumped from the street last March in an attempt to arouse the members to the necessity of supplying the front-line troops with steel helmets. This is the third by-election that he has contested. On the other occasions he received an infinitesimal vote.

The by-election in Mansfield was necessitated by the vacancy caused by the death of Sir Arthur Basil Markham.

BLOCKADE DECLARED ALONG GREEK COAST

PARIS, Sept. 20.—In the Journal Officiel today announcement is made of blockade of the Greek coast from the mouth of the River Struma to the Greco-Bulgarian frontier effective from September 18. The blockade is declared on account of the occupation by the Bulgarians of the Greek seaport of Kavala.

HEAVY FROST DAMAGE IS REPORTED IN LOBO

ALBERTON, Sept. 20.—Lobo farmers are now turning to alfalfa and corn. Campbell's outfit started working near Komoka on Monday. Although the corn is not so mature as the severe frost on Monday night will put a stop to growth and hasten the farmers in the cutting. Some good feeders claim that freezing improves the silage for feeding purposes. The frost was severe, cutting pumpkin vines, beans and potatoes, which were still growing.

ONE MORE FABRICATION

BERLIN, Sept. 20.—(By wireless to Sayville).—The third German aerial attack in three days on Entente warships off the Flanders coast was made yesterday. The admiralty announced today that one destroyer was hit. "German submarines on the afternoon of September 19 repeated their attacks on hostile sea forces off the Flanders coast," the statement says. "One destroyer was hit by several bombs."

TO MEET THE "450."

"Detroit's 450" will meet Billy Sunday at Mrs. J. W. S. Newberry's fashionable home at noon tomorrow, arrangements having been made for a special meeting in the Newberry home. Four hundred and fifty invitations have been sent out.

"Broken Vows" was the subject of Mr. Sunday's sermon tonight. He took his text from the second chapter of Jeremiah, shall correct thee; thy wickedness shall remove thee. Know, therefore, and see that it is an evil thing and bitter that thou hast forsaken the Lord thy God, and that my

fear is not in thee, saith the Lord God of Hosts. "I am never at a loss for a sermon to preach, so long as I have this text. I believe it applies to at least two-thirds of my audience," he said. He compared the career of a man to a stately ship starting on a long voyage, the decks crowded with gay, laughing, care-free passengers. Suddenly the seas become overcast, a storm arises, and before anyone can realize the danger the ship crashes on a rocky reef and all are lost.

Dancing Classified. Mr. Sunday then, abandoning his text, indulged in some of his characteristic epigrams. Said he: "I never saw a drinking, dancing, card-playing Christian who amounted to anything. The dance is a quarrel of wretchedness. It's as rotten as hell. You wait until I get at it."

"Not every backslider is an apostate, but every apostate is a backslider. Peter was a backslider, but he came back and preached that sermon at Pentecost. Judas was a backslider. He sold out Christ for \$15.00 in his money. Then he went out and hanged himself. "In business life crises come unforeseen. Hard times come. You may be able to get away with an overdraft at the bank, if the cashier doesn't know you too well. At the bank of heaven no checks on God's mercy, when signed by God's loyal followers, have ever been turned down. If you come with an honest heart, God will honor the appeal, even if your hands are red with blood."

BULGARS LOSE AND ALSO GAIN IN MACEDONIA

Driven Back by Serbs and French, Repulse Italians.

MAKE STAND AT MONASTIR

Battle on Plains in Front of Ancient Macedonian City.

LONDON, Sept. 20.—Dispatches from the Balkan front today show that the Bulgarians have suffered further losses at the western end of the line, but northeast of Saloniki the Italians were forced to retire. The Bulgarians are making their final stand in defence of Monastir, where the Serbians and French are pressing them back. They have evacuated Vigitla, falling back on Svedea, taking a previously prepared position between the Cerina River marshes and Mount Banout. If this plain south of Monastir is captured by the allied army, the enemy will be driven from the Macedonian city, where Czar Ferdinand hoped to be crowned.

Florida Is Cleared. On the Struma and Dolran fronts, where the British are operating, there have been no changes. The French statement says the Bulgarians have been driven from the last part of Florida, while the Serbs in hand-to-hand fighting captured Hill 2025, the highest point on the Kaimalsan range.

An Italian war office statement announces the withdrawal on the Macedonian front as follows: "On the southern slopes of Monte Reles, important Bulgarian forces, under cover of violent artillery fire, attacked our small advanced posts between Gornj-Perog and Matrica. After checking the first rush our troops were able to fall back in good order on the Dolran-Demul-Hisar railway, protected by a stubborn rear guard action."

Fighting in Dobruja. Vigorous fighting is continuing in Rumania. The German official report says: "In Dobruja stubborn battles are taking place. With hastily brought up reinforcements the enemy is defending his positions with great stubbornness."

WESTERN M.P.'S GUILTY OF ACCEPTING A BRIBE

"Have That Ready," the Word Passed When Bill Is Withdrawn.

REGINA, Sept. 20.—The jury tonight brought in a verdict of guilty against H. C. Pierce, M.P., for Wadena, charged with accepting a bribe. Frank Brunner, ex-treasurer of the Licensed Victuallers' Association, was the only witness today. He told the arrangements made by the association to fight the liquor legislation, and said on the day the session closed a check for \$5,000 was given to Clayton Peterson.

On the morning of December 19 Brunner met Pierce in the office of the Licensed Victuallers' Association in company with Peterson. They went into an inner office and Pierce told them he would telephone them as soon as the bill was withdrawn and say "Have that ready."

"Sir Frederick asked, 'Have that ready?' Brunner—Five thousand dollars. After lunch continued witness, he went back to the office of the association. The telephone rang, he was called, and on going to the telephone he heard Pierce, who said: 'You can get that ready now; the bill is withdrawn; everything is all right.'"

ITALIAN GUNFIRE IS HOT ON THE CARSO PLATEAU

Vienna Says Twenty Infantry Brigades and Cavalry Division Fighting There.

VIENNA, Sept. 20.—The Italian offensive on the Carso front is being vigorously pressed. The official communication issued at army headquarters today says: "The Italian gunfire against the Karst (Carso) Plateau at times is again very vigorous. Attempts by the enemy infantry to attack were not permitted to develop on account of our artillery fire. It has now been established that the enemy has now been established that the enemy in the four days' battle twenty infantry brigades, one cavalry division and some fifteen Bersaglieri battalions. "In the Sugana sector the Italians attacked our positions on Civitan and the Maso Brook, but after violent battles lasting until midnight they were completely repulsed with great losses."

ONE MORE FABRICATION

BERLIN, Sept. 20.—(By wireless to Sayville).—The third German aerial attack in three days on Entente warships off the Flanders coast was made yesterday. The admiralty announced today that one destroyer was hit. "German submarines on the afternoon of September 19 repeated their attacks on hostile sea forces off the Flanders coast," the statement says. "One destroyer was hit by several bombs."

LONDON, Sept. 20.—The following official announcement was given out here today: "The British admiralty states that the foregoing is absolutely untrue. No destroyer was touched by seaplane bombs or any other agency."

ALBERTON, Sept. 20.—Miss Robson's music pupils to the number of 25 or 26 surprised their teacher when they met at her home and presented her with a beautiful music cabinet as a memento of good feeling.

ST. THOMAS, Sept. 20.—Ed Hickey, the Detroit young man who fell from a Michigan Central Railway fast express train near West Lorne about two weeks ago, was released from the hospital here today sufficiently recovered to return home. He was accompanied to Detroit by relatives.

FISHER, M.P., AGAIN HURT.

BRANTFORD, Sept. 20.—H. Fisher, M. P., of Paris, seems to be dogged by misfortune. A few weeks ago he was in the local hospital suffering from injuries to his knee from an accident. While just getting around again he fell while coming downstairs at his home and injured his leg again.

**Orphan Soldier**—I didn't intend calling again so soon, but after reading "Engineer's Wife's" letter, I thought I would explain more fully what I want. It is this, the full name and address of a soldier fighting in France that hasn't relatives to send him little things. I think I could send a box to him every two weeks; it makes no difference if he is old or young; please send the address in full. I don't know the first thing about sending things to France, and I would want it to reach him O. K. I think you have taken me for a single girl, "Engineer's Wife." Why I have my husband and three kiddies, and my baby has the whooping cough. Do you want any more flags, Miss Grey, like the ones I sent in before? I will send more if you do. Could you spare me one or two crocheted patterns for nightgown or underwear yoke? I am in no hurry for them; you can send them along with the address; has anyone sent in the songs I better than here is a drink I like better than this. Here is a list of what I want: Put three table-spoons of vinegar in a tumbler, fill up with cold water and mix in half teaspoonful of baking soda. Stir in half teaspoonful of soda (small) in 1 cup of sour milk,  $\frac{1}{2}$  cup granulated sugar, 1 cup bran. Add  $\frac{1}{2}$  cup of baking powder in flour. When I make my cookies I use the lemon cookies recipe that appeared in our cook book some time ago, but I used Graham flour and half white flour. S. E. R.

Ans.—"Engineer's Wife" has promised to send me the names of three "orphans," one of which I shall gladly send you. The songs haven't been sent in yet. Shall do the best I can re yokes.

**Save C. G. Work.**

Dear Miss Grey—Just a word to those seeking songs with music. I think they would save you a great deal of work by sending to me a request, as supplied by Miss Grey for songs, all can be bought at 5c to 35c each. They also have "music folios" for 10c to 50c, with words and music of nearly all the songs that have been nearly sent in in the last six months. I will send a small list with prices for anyone that wishes it.

Those wishing to save this jewel to hold up eggs; let whole cucumbers remain in brine four days; drain and place cucumbers in fresh water every morning for three days; drain, wipe dry and cut up in one-inch pieces. Place cucumbers (and twelve grape leaves to  $\frac{1}{2}$  lbs. of cucumbers) in weak vinegar; let steam for two hours; when nearly done add small piece of alum. Drain off and for every  $\frac{1}{2}$  lbs. of cucumbers use  $\frac{1}{2}$  lbs. of brown sugar, 3 quarts of vinegar, 1 ounce of

## ADVERTISER PATTERNS

**1801**

No. 1801—Girls' Apron and Cap—Every girl should learn to wear an apron and wear an apron to learn many things. For a complete dress covering, for comfort and ease, the model here shown is best of all. It is made of a light material and may be finished with or without the band trimming. The pocket is big and comfortable. The cap is neat, and affords protection for the hair against dust. The pattern for this combination is cut in five sizes, 6, 8, 10, 12 and 14 years. It requires  $\frac{3}{4}$  yard of 36-inch material for a 10-year size, for the apron, and  $\frac{1}{2}$  yard for the cap.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

**ADVERTISER PATTERN DEPT.**

Please send above-mentioned pattern, as per directions given below, to:

Name .....

Address .....

City .....

State .....

Age (if child's or misses' pattern) .....

Measurement: Bust..... Waist.....

Caution: Be careful to include the above illustration, and send size of pattern wanted. When the pattern is marked, write on the figure representing the flags; pale blue is pretty. Use silk thread to match the ribbon.

5. I can scarcely advise you as to what is best in knitting your qualifications. Do not "pull up stakes" finally where you are until you are certain of a place in the city and have arranged for board. A good way is to watch the advertising columns.

6. You write fairly well.

**Games for Boys.**

Dear Miss Grey—I have a number of questions on my face, and cannot seem to get rid of them. Can you give any remedies? Have tried warm water and steaming, but had no success.

1. What is the most popular color this fall, and also style of the coat?

2. Could you suggest any suitable games to be played at a corn roast?

3. Lastly, what about my scribble?

Ans.—I am afraid I cannot offer any helpful advice. Suggestions by readers would be welcome.

So far as I have been able to judge, there is no particular color to be considered "the" style this season. One sees much navy, and mixtures of grey and brown; Russian green, seal brown and some plum shades are also being shown to quite an extent. Blouses of silk have a tendency to match the suit, rather than to be all-white, as last season. Suit coats are longer than formerly, fit in at the waist, often secured with a belt, and the coat-skirt has a decided flare or ripple. Fur is used on many suits, both of serge and velvet.

A "youthful person" tells me of a delightful corn roast held last week at which the games consisted of "hide-and-seek" among the trees and bushes; "a chain" game played by the guests forming a ring, each being given the name of an animal, one of the number being singled out as "it" was blind-folded and placed in the centre, often obliged to guess the identity of the different players as each in turn gave forth the sound of the animal he or she represented. Three guesses were allowed. A "chain" ghost story told with the guests seated around the fire was given additional zest by the appearance of a real ghost, waving ghostly from the cornered shadows, and uttering weird cries as it disappeared.

4. It's very good.

**Weavers of Mats.**

Dear Miss Grey—I see where one of the readers of Cynthia Grey's column was wanting the address of someone who could weave mats made of reeds; if she would send her address, I could give her the names of two ladies who weave those mats, as I had several woven last spring, and I like them very much.

SUNNY KENT.

Ans.—Will the young lady who wished a rug weaver's name please send her own?

**Weaver for "Alleen."**

Dear Miss Grey—This is my second time for coming to the Mail-Box, but as I saw where someone asked for a weaver's address the same time ago, and now where "Alleen" asks for an address, I thought I had better send the address of one I can with all confidence recommend. I am enclosing the address on proven page, so you can forward it to "Alleen." May I come again some time?

WOODBINE.

Ans.—I haven't "Alleen's" address, but hope she sends it for your weaver's

## RED CROSS AND C. W. C. A.

**CANADIANS IMPRISONED IN GERMANY.**

There is one department of the Red Cross Society whose work grows larger and more arduous every day—the work for our soldiers who are daily being made prisoners. There are already over two thousand three hundred of our own Canadians in detention camps in the enemy lands, and the number is steadily increasing.

"There is only one way to protect Canadians imprisoned in Germany from semi-starvation," says an editorial in last week's World Wide, "and that is to feed them," and this is the big task which the Prisoners' Club is trying to help perform. They want your help, and they want it right away.

Have you a dollar and a quarter you can spare? Send it to the secretary of the Prisoners' Club, Miss D. Gunn, 135 Kent street, London, Ont., and a poor half-starved Canadian boy, pining away in a German prison camp, will get a parcel of food that will give him a new lease of life, and show him that the home folk have not forgotten that he got into this trouble for their sakes.

Better still, would you not like to adopt a prisoner for your very own, and see that he is well fed? A dollar and a quarter sent regularly to Miss Gunn will insure him a parcel of food just as often as you send it.

Two dollars and fifty cents per month will give him two parcels of food a month and four deliveries of fresh bread from England.

Five dollars a month will insure him a parcel each week, and fresh bread twice a week.

But perhaps you would rather send the good yourself. Then write Miss Gunn for particulars, and she will tell you what to send and all needed instructions.

Let no one be alarmed or discouraged by the occasional reports that the Germans seize the food sent to our prisoners. There is nothing too cruel, seemingly, for the Germans to do, but the American ambassador has made us reasonably sure that in this case the enemy has been compelled to do the humane act. The fact has been established beyond doubt, by reports from returned prisoners, that practically all

the parcels sent to our prisoners reach them.

And how grateful the poor lads are. Witness these scraps from prisoners' letters recently received here: "I thank you very much," writes Pte. S. Smith, "for the things that were in the parcel. It makes the rough road easy to get over."

"We would not be very well off were it not for the kind friends in this trying time," is the message from Pte. Gordon. "The menu card does not vary much; soup three times a day. Enough said." And then he adds wistfully: "I hope it won't be long before we see Canada, and all is peace and rest once more to get over."

Indeed, they all express the longing to be home again, though they have to be very guarded in their statements. But one can read the anguish between the lines.

"If you only knew how it cheers one up to get even a little news," says one lonely boy. "This is a strain on our nerves."

And almost every one of them, with the true comradeship that comes in adversity, makes a plea for "the other fellow" who has no one to send him either letter or food. There is a list of names in the secretary's hands now waiting to be "adopted."

There are so many calls upon our purses these days from causes all worthy of our help, but surely this is one that must take first rank. We cannot allow the young men who gave their freedom that we might have ours to die of slow starvation in a German prison—no, not if we have to seriously curtail our own food supply. There is no doubt that there is a shortage of food in Germany; that shortage will be felt more and more as the winter approaches, and there is no doubt that the British prisoners will be the chief sufferers. They must be fed. If we allow them to starve, their sacrifice for us was in vain, and we are a people who are not worth saving from the Hun.

Let us show our worth—just how worthy let the secretary of the Prisoners' Club, 135 Kent street, see by our overwhelming gifts.

MARIAN KEITH.

some flags and two coupons; give them to anyone you wish, and please spare me as many Comfort trade marks as you can; also the crocheted yoke designs offered by "Another First Timer." I am sending a stamped envelope. Sincerely,  
WIN NO. 2.

Ans.—My dear, the crocheted patterns were sent out long ago—as soon as they came, in fact; but perhaps when others arrive, I can send you one or two, with some coupons.

For School Fair.

Dear Miss Grey—I could you or any of the Mail-Box readers supply us with two suitable recitations to recite at a rural school fair? One for a girl of 11, and one for a girl of 12. We would also like to get the song, "Keep the Home Fires Burning." We will give in exchange any three of the following recitations: "Poor Little Joe," "John Maynard," "Pat's Love Letter," "The Watermelon," "The Engineer's Story."

Am sending envelope. Will sign ourselves, "THE CANUCK TWINS."

## Daily Bible Question Club

By Rev. T. S. Linscott, D. D. (All Rights Reserved.)

The six daily studies for this week consist of the following: S. S. Lesson for next Sunday. Read the Bible Story on which this study is based, as you ponder the following questions:

Review—"The Things Which Are Not Seen." Reading lesson, II Cor., iv, 1-7.

Golden Text—"We look not at the things which are seen, but at the things which are not seen; the things which are seen are temporal; but the things which are not seen are eternal, II Cor., iv, 18.

The questions for this week may be used as an original lesson or as a review of the twelve preceding weekly lessons. The date and title of each lesson, where found, Golden Text and one question from each lesson follow:

August 12—"The Grace of Giving, II Cor., ix. Golden Text: "In all things I give you an example, that so laboring ye ought to help the weak, and to remember the words of the Lord Jesus, which he himself said, it is more blessed to give than to receive." Acts, xx, 35.

7. Verses 1, 2—"If a faithful member of a Christian church falls in business, how much financial help may be expected from the church to put him on his feet again, or falling that, to care for him and his family?"

August 20—"The Riot at Ephesus, Acts, xv, 23-41. The Riot at Ephesus. The love of money is a root of all kinds of evil." I. Tim., vi, 10.

8. Verses 23-27—"Why does the successful presentation of truth always mean a war with evil?"

## Those New "Bran Foods"

—a new one is born every week—a recognition of the need of food laxatives instead of drug laxatives. The problem of presenting bran to the human stomach in combination with a nutritious, easily digested food was solved twenty years ago by the invention of **Shredded Wheat Biscuit**, the food that supplies all the body-building material in the whole wheat grain in a digestible form, combined with bran, which is Nature's laxative. A body-building, strength-giving food. Serve with milk or cream or sliced peaches and cream or other fruits.

COL. D. M. SUTHERLAND IS AGAIN WOUNDED; INJURY IS SEVERE

Former Commander of 71st in Red Cross Hospital.

PROMINENT MEN KILLED

Col. Campbell of Montreal, Son of Bishop Pinkham and Captain Farris Slain.

[Special to The Advertiser.] WOODSTOCK, Sept. 20.—Lieut. Col. Donald M. Sutherland, who went overseas with the 71st Battalion, and according to recent letters, was transferred to the command of the 22nd, has been severely wounded, according to a telegram received from Ottawa this afternoon by his mother at Norwich.

The message describes his injuries as "gunshot wound, severe," and states that he was admitted to a Red Cross hospital yesterday.

A cable message from Col. Sutherland himself, sent from Paris, France, says that he is doing nicely. This is the second time Col. Sutherland has been wounded.

He originally went to the front as a major with the 1st contingent. He was invalided home in the spring of 1915. He accepted the command of the 71st Battalion last winter.

MONTEAL, Sept. 20.—Lieut.-Col. R. P. Campbell, M.D., whose name appeared in this morning's casualty list, as killed at the front, was a well-known practitioner in this city. He was a son of the late Rev. Prof. John Campbell, and was born in Montreal in 1876. He went to England in 1914 with the first Canadian expeditionary force, attached to No. 1 Canadian Hospital. Later he returned to Canada to command No. 6 Ambulance Corps, C. E. F., which left for England in May, 1915.

CALGARY LAWYER LOSES LIFE.

CALGARY, Sept. 20.—Capt. Ernest Pinkham, youngest son of the Anglican bishop of Calgary, has been killed in action, according to an official telegram received this morning by D. P. Pinkham, Capt. Pinkham left for the front in a military motor car, and a member of the firm of Leighton, Bennett and McLaws & Co. He was a young man of exceptionally bright promise.

FORMER OWEN SOUND MAN.

EDMONTON, Sept. 20.—Capt. Ernest Farris, formerly of Owen Sound, Ont., and a prominent businessman of Edmonton, has been killed in action, according to advices received by his mother. He was known as one of the best polo players in Alberta.

WELL-KNOWN GOLFER KILLED.

OTTAWA, Sept. 20.—Lieut. Alex. Fraser, of an Ottawa battalion, has been killed in action. He was one of the best known amateur golf players in Canada, being runner-up in the championship of 1913. He was the son of W. H. A. Fraser, a millionaire lumberman of the capital.

25 CARS OF AUTOMOBILES ARE DAMAGED IN DETROIT

Blaze in Pere Marquette Yards—General Alarm.

[Special to The Advertiser.] DETROIT, Mich., Sept. 20.—Damage estimated at \$40,000, done to 25 freight cars containing automobiles and other merchandise, when a fire of unknown origin suddenly blazed up at the Pere Marquette Railroad yards on Twelfth street at 9:29 o'clock tonight. The blaze was intensified and gained instant headway by the explosion of large quantities of gasoline that were stored in one of the cars. An engine in the yards heard the explosion and immediately turned in an alarm. Fire engines were at the scene within fifteen minutes after the alarm was turned in, but a second alarm spread so rapidly that a second general alarm had to be sent in, and then a general alarm. It was not until 11 o'clock that the fire was under control.

ONE HEART IN FRANCE RESULT OF THE WAR

Premier Briand Says There Will Be No Political Strife.

PARIS, Sept. 20.—"I don't believe possible about French politics after the war," Premier Briand is quoted by Arthur Meyer in the Gaulois as saying to some newspapermen who expressed anxiety as to the turn political events might take.

"When peace has been declared," continued the premier, "we shall have won a victory over ourselves, as we shall have won it over the Germans. It is always possible to come to an understanding with Paris. As to the provinces, you know I have sources of information. I can tell you that the spectacle they offer is admirable—no more divisions nor local tyrannies; no more hatred of church and state; there is only one heart, there is only one France.

POPE'S HEALTH NORMAL

Doctors That He Is Indisposed Are Untrue.

ROME, Sept. 20.—Via Paris, Sept. 20.—A report is being circulated that the pope was indisposed. It was said at the Vatican today that the health of the pontiff was normal, notwithstanding the strain imposed by his arduous labors during the war, which have added greatly to the burden of the administration of the church under ordinary conditions. Pope Benedict received seven persons in private audience today and several hundred in a collective audience.

WAR BONUS DOUBLED

Railway Crisis in Great Britain Averted.

LONDON, Sept. 20.—The railway crisis arising out of the demands of the men for an increase of ten shillings a week in their wages, has been settled on the basis of doubling the war bonus. This is a compromise, giving the men half of the ten shillings demanded.

The resumption of the negotiations between the railway companies and representatives of the men, effected through the mediation of Walter Runciman, president of the board of trade, has resulted in this settlement.

ONTARIO BREWERIES CAN DELIVER GOODS RIGHT INTO HOUSES

Provincial License Board Is Convinced That This Analysis of New Law Is Correct—Chairman Sees New Game.

TORONTO, Sept. 20.—The provincial license board learned today from Eudo Saunders, K.C., and eminent counsel associated with him in a legal analysis of the new temperance act for the board, that liquor can still be delivered direct from the breweries and other places authorized to store it, to the homes of householders in any quantity required. Such liquors, however, must be ordered via points outside of the province.

FOE FIGHTS HARD TO REGAIN POINTS HELD BY FRENCH

Make a Series of Mass Attacks After Bombardment.

ALLIES' GUNS EFFECTIVE

Assaults Prove a Complete Failure, With Heavy Loss to Foe.

[Canadian Press Cable.] PARIS, Sept. 20.—via London, Sept. 21, 12:11 a.m.—Powerful counter-attacks launched by the Germans against the French in the neighborhood of Priez farm and Bouchavesnes, north of the Somme, today were beaten back, according to the official statement issued by the war office tonight.

The battle raged all day along a three-mile front, and the Germans succeeded in getting a temporary foothold in a section of Bouchavesnes, but were dislodged with the bayonet. Determined attacks were made by the Germans last night on the French positions at Hill 76, north of the Somme. They gained a foothold at some advanced points, but subsequently were ejected.

Tonight's communication says: "North of the Somme the Germans today made a powerful effort to dislodge us from positions we had recently won. The battle lasted from 9 o'clock in the morning until midnight on a front of five kilometres, between Priez Farm and a point south of the farm of L'Abbe Wood. Made Repeated Attacks. "Enemy masses made repeated attacks, preceded each time by violent artillery preparation. Our troops resisted magnificently all the assaults, repulsing the attacks with a crossfire of machine guns and artillery. Everywhere we held our positions.

"The battle was particularly violent at the edge of Priez Farm and in the region of Bouchavesnes. In front of Priez Farm four assaulting waves were successively smashed by our fire. The enemy attack could be seen from our side to break up and flow back in disorder behind a forest, leaving the ground covered with corpses.

"In the sector of Bouchavesnes the enemy, who, after several sanguinary defeats, had succeeded about 1 o'clock in the afternoon in setting foot in the northeastern part of the village, was dislodged with the bayonet in our irresistible attacks.

"Fifty prisoners, including several officers, remained in our hands. According to observations made along the whole front and statements by prisoners, the enemy suffered heavy losses.

"The usual cannonade occurred on the remainder of the front."

BERLIN'S REPORT ON WEST FRONT.

LONDON, Sept. 20.—via London, 5:20 p.m.—The official statement issued today by the German army headquarters follows: "Army group of Prince Rupprecht—There were no events of special importance on the Somme battlefield. Isolated enemy attacks were repulsed. We achieved some success in a hand grenade attack near Fiers. Supplementary news states that during Monday evening a French attack from Clerf was repulsed.

"On the western slope of Le Mort Homme, the French were driven out of a small portion of a trench which they had retained. As a result of this operation, ninety-eight prisoners and eight machine guns fell into our hands.

"During the night of Monday, our patrols in the Champagne, as the result of successful enterprises, captured forty-six French and Russian prisoners. Last night they took a number of French prisoners south of the Rhein-Rhone canal."

BAPTIST OFFICIAL DIES AFTER YEAR'S ILLNESS

TORONTO, Sept. 20.—The death occurred this evening at his residence, 50 Howland avenue, of Rev. Dr. Wm. Norton, for fifteen years superintendent of Baptist home missions for Ontario and Quebec, and one of the best-known men in the denomination. Deceased had been ill for over a year. Prior to his appointment to his official position he held charges in several places in Ontario, the last incumbency being at Owen Sound. He was 65 years of age.

ACCIDENTS FURNISH THRILLS FOR FINAL STRATHROY FAIR DAY

Boy Kicked in Stomach in Stock Parade.

COLLISION OF SKULKIES

Largest Crowd Ever seen at Exhibition, With Ideal Weather.

[By Staff Reporter.] STRATHROY, Sept. 20.—The Strathroy Fair again had the ear of the weatherman, and the last day of the exhibition was better than the previous days, which is handing out the praise with a somewhat lavish hand. It was ideal and the crowd was large. There was plenty of entertainment, there being something happening every minute.

The stock parade, showing the prize winners, was quite the feature. It was a delight to the eye to see so many splendid animals at a county fair. Middlesex is noted for fine stock, and the parade gave visitors an opportunity to see the best. The horses were particularly fine, the lighter breeds being much in evidence.

Lad Kicked in Stomach. An accident marred the parade, however. William Roberts, a young lad, a home boy employed by J. Dewar, Adelaide street, was riding in the ring when it turned suddenly and kicked him with both feet in the stomach. It was thought for a time that he was fatally hurt. But after Dr. Dennis and others had worked over him for a time, he rallied. Unless internal injuries develop he will recover.

Driver Is Thrown. The trotting races also provided a thrill. Zeke Mackey was driving Tory Bars in the 2:25 class when he collided with the sulky of Dennis Boy, throwing him to the track. He managed to alight on a soft spot, and other than receiving some bruises escaped serious damage. The horse paced twice around the track in spite of the efforts of some men to stop him, and when he had finished his mile staid and allowed himself to be caught.

Boys' Good Showings. One of the most interesting exhibits on the grounds was that of the junior agricultural societies of Strathroy and Mount Brydges. These had took courses last winter and this fall. They exhibited the results in grains and fruits. The Strathroy boys had a trials in the horse show, but no exhibits would do justice to older exhibitors, even professionals.

The music was furnished by the Galt Klites Band, and it was fine indeed. The races were well attended. J. C. Elliott, M.P.P., were among the distinguished visitors on hand.

Free-for-All. The Charles Barrett had a soft time with Little Alfred, his campaigner, winning in straight heats. Lady Belle, owned by Sinker of Perth, was second three times, with Nettie B. owned by James McDonald, Sarnia, getting third money. The best time was 2:17 1/2.

2:25 Class. Tory Bars furnished the surprise in the 2:25 class. He met with an accident in the first heat, Dolly G., owned by W. Aitken, Wyoming, taking the money. In the second Dolly beat Tory Bars by a hair lip, but in the third the Monbars horse won and came home the rest of the heats in easy fashion. Dennis Boy, owned by Sear, of Carleton Place, was third all the time. The best heat was in 2:16 1/2, some pacing on that track.

Half-Mile. The half-mile race had three starters, Prince F. owned by E. F. Frank, The Flirt, owned by W. Walker, and King, owned by Ferguson, East Williams. The Flirt won, taking the heat, after that the Prince had the speed of the outfit. The best time was 1:14.

The ladies of the Red Cross had another success. The French Red Cross and made a lot of money.

33RD DEGREE MASONS IN SESSION IN PITTSBURGH

Number of Councilors From Canada—Next Meet in Gotham.

PITTSBURGH, Sept. 20.—The supreme council thirty-third degree Ancient and Accepted Scottish Rites of Free Masonry of the northern jurisdiction, now in session here, decided today to meet next year in New York.

The annual banquet was held tonight, with 800 members in attendance, including a number from Canada.

McINORY—CAVERHILL.

ILDEKTON, Sept. 20.—"Sprague" was the home of Mr. and Mrs. E. T. Caverhill, was the scene of a quiet and pretty wedding September 16, when their daughter, Agnes Mae, was united in marriage to Mr. Wm. McInory. The ceremony was performed by Rev. R. McCullough under an arch of evergreen with trimmings of white flowers in the presence of the immediate friends and intimates of the bride and groom. Promptly at 6 p.m., to the strains of "Lohengrin's Bridal Chorus," played by Miss Olive McInory, sister of the groom, the bride entered the spacious drawing-room, leaning on the arm of her father, and preceded by the two ribbon-bearers, Little Florence Campbell and Francis Caverhill, dressed in white and pale blue, respectively. The bride was gowned in ivory duchesse satin with bodice of georgette crepe and shadow lace, trimmed with seed pearls and veil with Juliet cap and orange blossom, and carried a shiraz bouquet of bridal roses. She was attended by her sister Ida, who wore maize silk and carried pink roses. The groom was supported by his brother Murray. During the signing of the register Miss Ruby Caverhill sang, "O Promise Me." After all had partaken of the sumptuous wedding supper the bride and groom left on a short trip to Sarnia, accompanied by Strathroy by two well-filled autos of young people who were well supplied with confetti, which they literally showered on the bride and groom. Guests were present from Lindsay, London, Denford, Parkhill, Adelaide, Nairn and other places. The groom's gift to the bride was a pen-time chair, and the bride's gift to the groom was a pearl and diamond necklace. The bride's traveling suit was navy blue taffeta, with pale pink blouse, and black hat with wide pink feathers charming. They will leave shortly for their home in Saskatoon.

SEARCH OF CEBU EFFORT TO FOIL PLOT OF GERMANS

Hyphenates Are Attempting to Arouse India.

WORKING IN PHILIPPINES

British Stopped the Steamer While Seeking Prussian Reservist.

WASHINGTON, Sept. 20.—Great Britain today formally expressed to the United States regret for the action of a British destroyer in holding up and examining the Philippine steamer Cebu within the territorial waters of the Philippines. Because of a heavy fog, it was explained, the destroyer's commander did not know the vessel was near shore.

The Cebu was boarded and examined a mile and a half off the island of Carabao recently, the boarding party apparently being in search of a German, who was not found. Gov.-Gen. Harrison of the Philippines reported the case, denouncing the action as a violation of American neutrality, and a protest was immediately made to London. In the explanation presented today the British Government declared that "When the Cebu was boarded the land was hidden, but as soon as the weather cleared, and it was found that the ship was within territorial waters the boarding officers were recalled, and that the passenger list was examined but the ship was not searched."

In the absence of Ambassador Spring Rice, Coiville Earley, counselor of the British embassy, called at the state department at the request of Foreign Secretary Grey, and presented the explanation and expression of regret. Department officials said later the incident was regarded as closed.

Effort to Break Up Junta. LONDON, Sept. 20.—5:50 p.m.—The holding up of the Philippine steamer Cebu is believed to have resulted from a "man reservist" connected with a "man" in Manila. The reservist was believed to have been aboard the Cebu. He is believed to be one of a number of Germans and Indians making their headquarters in Manila for the purpose of sending guns to India and encouraging a revolution here.

In officials circles here it is stated that Manila is the chief center of these activities, but important branches also exist in the United States. The British Government, it is said, has made representations to Washington on the subject, but no information has been received yet that Washington has taken steps to crush the organization, which, according to statements is supported heavily by Germans.

NORWAY AND SWEDEN HAVE AN AGREEMENT

Will Never Engage in War Against Each Other—Denmark Not Included.

LONDON, Sept. 20.—Following a statement by King Haakon of Norway, to the effect that the Scandinavian nations were united in their desire to remain neutral, the correspondent of the Exchange Telegraph Company, in an interview with Premier Knudsen of Norway, asked whether if one of the Scandinavian countries was drawn into the war, it was probable that the other two would be forced to follow suit.

"Norway and Sweden will never enter the war against each other. A secret agreement which was made between the two countries in the anxious days of August, 1914, is a guarantee that such a thing will never happen."

Asked if there was a corresponding agreement between Denmark and Norway, Premier Knudsen replied in the negative.

KAVALA TROOPS HELD PRISONERS BY THE TEUTONS

Did Not Surrender to Bulgars With Consent.

RETURN IS DEMANDED

Premier Orders Berlin To Transfer Them to Swiss Frontier.

LONDON, Sept. 20.—An immediate break with the Teuton powers is looked for in Athens unless the German Government accedes to the demand of the Greek Government and returns the Greek troops taken prisoner at Kavala by the Bulgarians. This demand has been made by Premier Kallogeropoulos. Reuter's Telegram Company says that it learns that the Greek note to Germany is a very firm demand that the Greek troops be brought to the Swiss frontier in order that they may be conducted to a Mediterranean port, from which they will be taken to Greece. The Greek Government guarantees that they will not be forced to serve with any enemy of Germany, and as the same time disavows entirely the action of General Haidjopoulos, who, it is claimed, disregarded orders to transport his troops to another Greek port.

Tried to Save Men. The Canadian Press has been furnished with the official text of the dispatches exchanged between the commander of the Greek fourth army corps at Kavala, Gen. Haidjopoulos, and the minister of war through the admiral of the British fleet, demonstrating, according to the Greeks, that the Greek Government made every effort to extricate the Greek army from Kavala. On Sept. 11 General Haidjopoulos telegraphed:

"The fourth Greek army corps at Kavala wishes to surrender immediately to the British. The Bulgarians have threatened to bombard the city tomorrow."

The British admiral thereupon sent the following message:

"Do you wish me to permit the Greek troops to embark on Greek ships?"

In response, Gen. Callaris, the minister of war, sent this message:

"War Minister's Order. "To the fourth army corps at Kavala—Transport yourselves immediately with all your forces, and, if possible, all supplies, to Volo, arranging there for with the British admiral.

"Embark preferably on Greek ships, but if there is none, on the ships of any other nationality. The civil authorities and police must remain at Kavala."

"The Greeks are using these telegrams as a basis for the contention that General Haidjopoulos did not wish to surrender to the Bulgars, and therefore that he and all his forces are now being kept as prisoners, instead of being treated as neutrals.

The Greek forces in the easternmost part of Macedonia, cut off by the Bulgarian occupation of Kavala, are reported to have been transported to SEATTLE, Wash., Sept. 20.—The five-masted ship Inca, bound from Melbourne to British Columbia to load lumber for Australia, is reported lying distress signals off the reef of Taloust Island. The United States coastguard cutter Snolomish has gone to her assistance.

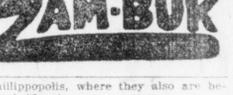

DID YOU EVER THINK

why that skin trouble, from which you are suffering, will not heal? It is because it is so deeply rooted that ordinary ointments are incapable of penetrating to the seat of the disease.

Zam-Buk, on the contrary, is so refined that it is capable of reaching the underlying tissues, and that is why so many cases of skin trouble, which have defied all other treatments, have yielded to Zam-Buk.

RIOTING IS RENEWED IN NEW YORK STRIKE

Many Arrests Made After Fight Between Strikers and Police.

NEW YORK, Sept. 20.—Rioting was renewed here tonight in connection with the car strike, after efforts of Mayor Mitchell and others had failed during the day to effect a settlement of the differences. Several hundred strikers and their sympathizers, who attacked four surface cars, engaged in a running fight with police reserves, during which several persons, including a woman, were hurt. Many arrests were made.

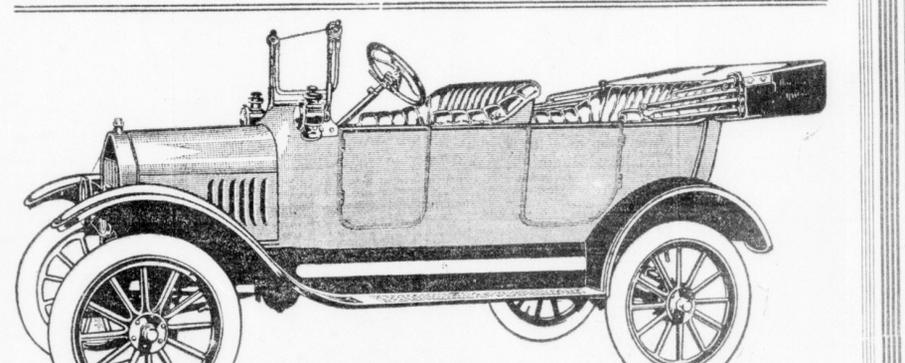

Apparently, the only chance now of calling off the union officials in their determination "to tie up New York" by Monday next, it was said today, lies in a conference to be held tomorrow between a citizens' committee and the strike leaders.

Samuel Gompers, president of the American Federation of Labor, and twenty-five presidents of international unions arrived today, but no definite action was taken.

GERMANS TRY TO REGAN ROAD HELD BY FOCH

Vital Point Between Bapaume and Peronne Not Taken.

MASSES HURLED AT IT Machine Guns and Bayonets Prevent Recapture From French Victors.

CLEARED OUT VILLAGE

Bouchavesnes, on the National Highway, Could Not be Won Back by Huns.

[Canadian Press.] New York, Sept. 21.—The London correspondent of the Tribune, cabling last night, says that the attempt to disprove the statement that their counter-assaults had lost their plan, the Germans made a desperate effort today to regain their hold on the Bapaume-Peronne road.

The blows began last night on both sides of the river, but they met with no success. On the French front the Germans penetrated some trenches, but Foch's troops drove them out in short order. This apparently was preliminary to an attempt to feel out the strength of the newly allied positions.

With morning a greater effort was begun. This attack was confined to the French front, in the sector between Ransart and Chery. It aimed to regain possession of those parts of the Bapaume-Peronne road won by the French a week ago. Through this gain it is possible for the allied troops to drive a wedge between the two towns.

Another force attacked about Bouchavesnes on the national highway. Here the Germans succeeded in winning a foothold in the village. Foch's infantry, with bayonets fixed, then sprang to the attack and after a hand-to-hand combat drove the enemy out again.

Each charge was preceded by a heavy bombardment, to which the allied guns responded effectively. The French machine guns and heavy artillery did the major work with their cross fires. Where they failed to stem the German attack the infantry succeeded. By nightfall the counter-blow had been turned, the German losses were undoubtedly heavy.

The ability of the Allies to hold their gains is extremely encouraging. It must be remembered that the positions won by the Allies had been almost completely destroyed by the gunfire which always precedes the attacks. The allied troops thus are confronted with the task of defending positions almost unscathed by their own Huns. That task was accomplished today.

HAPHAZARD WAYS MARK BULGARIAN FLORINA DEFENCE

Poor Air Service Permits Batteries To Waste Shells.

MANY ARE SLAUGHTERED

Bones of Hundreds of Enemies Are Picked by the Vultures.

[Canadian Press.] London, Sept. 21.—The London Times special correspondent with the Serbian army, in a dispatch dated Dragomiratz, September 12, describes the appalling operations in Moglena mountains which, during the last few days led to the capture of Florina and advance on Monastir. Watching the fighting from the front the correspondent writes:

One could see shells from the howitzers, mounded guns and 75's bursting on and around the opposite crests. The answering fire of the Bulgarians was most erratic and haphazard, judging by what we saw around the double battery of 75's, about a quarter of a mile from our point of observation. Waste of 5,000 Shells.

For perhaps an hour all their shells would land with varying precision on an area of about half an acre some 300 yards north of the objective. Then, evidently uncertain what they had been doing, the gunners changed their aim, and for another hour their guns played with equal concentration on a spot 200 yards to the south of our battery, but quite harmlessly.

Our colonel told me that over 5,000 shells had been aimed this same battery during the last month, with only one successful shot, which caused two casualties and broke three gun carriages. He added that most of the shells were those of a Turkish battery captured by the Bulgarians in the first Balkan war, and that as was only to be expected from this circumstance, not more than half of them exploded.

Financial, Market and Commercial Section

THE LOCAL MARKET

There were few changes in price on the local market this morning, although attendance was fairly good, and a good number of animals were offered.

Hay was a little weaker, as the supply had been increased. The market today ranged from \$1 to \$1.50. The majority of the loads bringing \$1.50. Straw was still steady, and remained unchanged at \$7.50 to \$8.50 a ton. Oats were firm, the old selling at \$1.25 to \$1.32 a cwt., and the new at \$1.15 to \$1.25. Barley was unchanged at \$1.25, while wheat was steady at \$1.25 to \$1.32 a cwt.

One could see shells from the howitzers, mounded guns and 75's bursting on and around the opposite crests. **ANNUAL MEETING**

Catholic Women's Patriotic Society Holding it Friday.

**THE HOUSEWIVES' LEAGUE IS PLANNED TO FIGHT HIGH COST OF LIVING**

Trades and Labor Council to Take Definite Action.

FOR MUNICIPAL BAKERY

All Women's Organizations Will Be Asked to Co-operate.

The high cost of living and the best plan to adopt in order to solve the problem and reduce the cost of commodities were the principal questions discussed last evening at a meeting of the trades and labor council.

The matter was discussed from every angle, and every phase of the situation covered, and as a result the members of organized labor in the city have decided to take definite action, in order, if possible, to reduce, at least check the advance in prices.

It was finally decided that a committee be appointed by the trades and labor council to confer with all women's organizations in the city relative to the formation of a housewives' league, similar to that formed in New York city.

The motion to this effect was made by Vice-President Wright, and seconded by Delegate Hessel.

**Bake Own Bread.**

The discussion in the first place was launched by Delegate Joe Dean, who moved that a committee from the council be appointed to call on all the Mothers' Clubs and other women's organizations, and all the women's organizations of organized labor, and request that they bake their own bread, in an effort to reduce the present cost of that article.

He also suggested that the Dominion Government be requested to bake its own bread at the military camps.

Delegate Dean characterized as a "crying shame" the present cost of certain foodstuffs, and said it was high time that the laboring men were awakened to the fact.

**Municipal Bakery.**

Delegate Terry thought that a solution of the problem would be in the establishment of a municipal bakery, and stated further that the Dominion Government should exercise control of all the wheat produced in the country.

He thought that the proper course to follow would be to submit the question of a municipal bakery to a vote of the people and urged that the council be approached relative to the proposition.

Delegate Hessel strongly advocated the formation of a Housewives' League, and thought that great good would result by holding public meetings in the schools and educating the people in the best methods of fighting the high cost of living.

Delegate Dean then made a motion to the effect that the Dominion Government be asked to investigate the high prices of food products of all kinds.

This motion was made in conjunction with Delegate Dean's motion to send a committee to confer with all women's organizations requesting that they bake their own bread.

**Wait on Council.**

The city council will be waited upon in the near future by a deputation from the Trades and Labor Council, which will ask that a bylaw be submitted to the electors relative to the establishment of a municipal bakery.

Considerable discussion arose over the advanced prices in coal, and the motion was made by Delegate Dean and seconded by Delegate Hessel as a result.

Ald. Ashplant believed that the schools should be used to give the high cost of living problem the greatest publicity, and advocated that the members of the Trades and Labor Council take steps at once to do what they could to assist in a reduction.

The next question to be discussed was that of free text books for the school children. Several of the delegates stated that their children had received none of the free school supplies, and they wanted to know why.

Ald. Ashplant agreed to furnish the information desired at the next meeting.

Tax-Ald. Max Lerner protested against the Trades and Labor Council being forced to pay \$25 for one day's use of Queen's Park.

**Favors Project.**

International Agent W. T. McKay of the International Cigar-makers' Union addressed the council and complimented the members on the stand taken regarding the organization of women to fight the present high cost of living.

He cited several cases that had been brought to his notice where women had won many a fight.

He believed that a campaign by a Housewives' League along the line suggested by Delegate Dean's motion would result in producing the desired results. He concluded by strongly urging all union men to stand behind unionism by purchasing nothing but union goods.

John Mackinnon of the Cigar-makers' Local Union was outgated as a delegate from that branch of organized labor, and was duly made a member of the council.

The members propose to stand together in their fight against the high cost of living, and in the motions made asking that municipal bakeries and coal yards be established, they are taking what they claim to be only preliminary steps for future movements.

Will some of the city hotels introduce barmaids as an inducement to get customers to patronize the "soft goods" bar now in operation in the hotels in succession to the licensed bar which became extinct on Saturday night?

From the small receipts in all the bars in the city during the past few days it appears evident that some such scheme will have to be introduced otherwise, it is said, the bars will be of necessity forced to close.

In Toronto one of the hotels introduced the novelty of barmaids, and it is claimed there that this particular bar was well patronized, whereas others were deserted.

The barmaid seems to be the solution of the problem, but whether any of the maidens will be employed by any of the local hotels is yet a matter of conjecture.

Several hotelmen, when asked for an expression of opinion on the question of barmaids, did not wish to commit themselves definitely. One hotelman, though, thought that the idea would be first-class, and he stated that he was going to Toronto today and would look over the situation there, and if the novelty appealed to him he would place barmaids at work in his bar on his return to the city on Saturday. All the hotels report a great slump in their bar receipts some stating that the amount taken in under the new act, as only one-third of the receipts of other days.

One bar closed up completely yesterday, the owner stating that he could see nothing in it, and considered he was just about as far ahead with the bar closed as with it open.

Others when interviewed said they were contemplating similar action, and unless the business took a decided change would not be long in doing so. The introduction of the barmaid may solve the problem, but as none are at present employed the question cannot be answered until the scheme has been adopted and tried.

**WESTERN CLASSES DRAWING STUDENTS FROM OTHER CITIES**

University Arts Course Gaining Ground Rapidly.

INFLUENCE IS EXTENDED

Development of Institution Shown by Number of Professors Required.

**Registration in the arts department is taking place** Wednesday, September 27, and lectures will begin the following day. In the medical department registration will not take place until Monday, October 2, and lectures will be started Tuesday, October 3.

While the attendance of the arts department will be affected by the number who have gone overseas, prospects are very good, better, in fact, than some time ago, and the medical department attendance will be about as large as usual.

**Great Development.**

Development of the university is indicated in several ways, and among these is the increase of honor departments. Each year there has been an increasing demand for honor courses, and where four honor departments were offered two years ago, seven are being offered this year. To illustrate what this means in the way of added work, the professor of mathematics, Prof. Patterson, has an increasing number of students in mathematics, due to the honor work, as he had in mathematics, philosophy and economics three years ago. Three men are now required to cover the department of mathematics, and in addition three years ago, Dr. Louis Woods taking economics and Prof. Alfred Buckley, the latest addition to the faculty, which Prof. Patterson had in English and history. This year the department is divided among three. Three years ago Dr. James was alone in the French and German department, and now there are three, and an assistant lecturer, and Miss Hilda Baynes was appointed to this department.

**Standards Raised.**

Even with the additions which have been made to the staff, the development indicates that more assistance will be required in the near future. A further evidence of the "growing up" of the Western is to be found in the raising of the standards. This especially applies to the M.A. and B.A. M.D. courses and the standard for admission. The M.A. degree standard is such that it will answer for one year for anyone desiring to take the Ph.D. course in one of the larger United States of America or continental universities. An opportunity is thus offered any of the graduates of taking one year towards the securing of the Ph.D. degree without leaving the city.

The B.A. M.D. course has now been extended to seven years, instead of five, as formerly. The standard for admission to the university has also been stiffened. At the present time, President E. E. Brantwith and members of the faculty are engaged upon the arrangement of time-tables and other details in connection with the work of the term about to open.

**DIED FROM EXPOSURE**

James Reynolds, South African Veteran, Found in Park.

The inquest into the death of James Reynolds commenced last evening at the undertakers' parlors of John Ferguson's Sons, and will be continued tonight.

He was found in Victoria Park during fair work in an exhausted condition, and was first taken to the police station and later to the Victoria Hospital, where he died on Tuesday night, Dr. Ferguson, the coroner, believes death was due to exposure. Deceased was about 60 years of age, and so far as can be ascertained has no relatives in the city. It is stated that he was a veteran of the South African war.

Two Well-Trained Secretaries Appointed Yesterday.

**SATISFACTORY REPORTS**

Invaluable Service Is Being Rendered to Young Women Here.

With the monthly meeting of the board yesterday afternoon, a new era was inaugurated in Young Women's Christian Association activities in London.

For years the association has gone quietly about its work, rendering an invaluable service to young women and to the city, making little demand upon the public for recognition.

It was finally decided when accomplished, only proved the need of some further development.

So imperative has become the demand for the extension of the field and of the opportunity, that the board has practically no choice but to set about extension work which will, in some measure at least, cope with the situation.

**Secretaries Named.**

The great undertaking towards living up to the opportunities was launched yesterday at the board meeting, to which reference has already been made with the appointment of two highly trained and efficient secretaries, Miss Beatrice Lukes, late of Montreal, to fill the position of general secretary, made vacant by the resignation of Miss May Ludwig, and Miss Kate Archibald of Toronto, to act in the capacity of extension secretary.

Miss Lukes for the past two years has been general secretary in Montreal in one of the largest associations in the Dominion. She comes to the London Association at a very important juncture because the work of organization which lies before her in this field makes a stronger appeal than carrying on work so perfect an organization in every detail that it has become routine. In addition to her responsible position in Montreal, Miss Lukes has behind her experience as general secretary in Edmonton.

**Will Go to Study.**

With all the knowledge she has had an opportunity of acquiring, she is not content to come to the new position in London with her present equipment. Her acceptance of the appointment has on condition that it will not take effect till December 1. In the meantime she plans to go to some large centre in the United States for a couple of months for further study of the most up-to-date methods.

She has been in London for the past few days making a survey of the situation, and yesterday attended the meeting. She made a most favorable impression upon the members by her keen insight into conditions here, gained after a very short time for investigation, and her evident entire mastery of the work to be undertaken by a general secretary.

Miss Kate Archibald's ability is already well known to the association from the success of her work in charge of the Y. W. C. A. rest tent in co-operation with the Y. M. C. A. military work in the summer. She comes to the London Association at a very important juncture because the work of organization which lies before her in this field makes a stronger appeal than carrying on work so perfect an organization in every detail that it has become routine. Invaluable Service Is Being Rendered to Young Women Here.

With the monthly meeting of the board yesterday afternoon, a new era was inaugurated in Young Women's Christian Association activities in London.

For years the association has gone quietly about its work, rendering an invaluable service to young women and to the city, making little demand upon the public for recognition.

It was finally decided when accomplished, only proved the need of some further development.

So imperative has become the demand for the extension of the field and of the opportunity, that the board has practically no choice but to set about extension work which will, in some measure at least, cope with the situation.

**Secretaries Named.**

The great undertaking towards living up to the opportunities was launched yesterday at the board meeting, to which reference has already been made with the appointment of two highly trained and efficient secretaries, Miss Beatrice Lukes, late of Montreal, to fill the position of general secretary, made vacant by the resignation of Miss May Ludwig, and Miss Kate Archibald of Toronto, to act in the capacity of extension secretary.

Miss Lukes for the past two years has been general secretary in Montreal in one of the largest associations in the Dominion. She comes to the London Association at a very important juncture because the work of organization which lies before her in this field makes a stronger appeal than carrying on work so perfect an organization in every detail that it has become routine. In addition to her responsible position in Montreal, Miss Lukes has behind her experience as general secretary in Edmonton.

**Will Go to Study.**

With all the knowledge she has had an opportunity of acquiring, she is not content to come to the new position in London with her present equipment. Her acceptance of the appointment has on condition that it will not take effect till December 1. In the meantime she plans to go to some large centre in the United States for a couple of months for further study of the most up-to-date methods.

She has been in London for the past few days making a survey of the situation, and yesterday attended the meeting. She made a most favorable impression upon the members by her keen insight into conditions here, gained after a very short time for investigation, and her evident entire mastery of the work to be undertaken by a general secretary.

Miss Kate Archibald's ability is already well known to the association from the success of her work in charge of the Y. W. C. A. rest tent in co-operation with the Y. M. C. A. military work in the summer.
