

## COOLIDGE IS SWORN IN AS PRESIDENT OF U.S.

### Mayor Wants "Public Safety Commission" For London

#### HARDING'S SUDDEN END PLUNGES ENTIRE NATION INTO DEEPEST SORROW

President of United States Dies With a Smile On His Lips.

COOLIDGE SUCCEEDS

Vice-President Is Sworn Into Office in Farm Home of His Father.

Associated Press Despatch. Washington, Aug. 3.—Calvin Coolidge took the oath as president of the United States at Plymouth, Vermont, at 2:47 a.m. today. The new president was sworn in by his father, who is a notary public, and at whose home he was visiting. The text of the pledge as prescribed by the constitution was telephoned to him by the White House.

Associated Press Despatch. Plymouth, Vt., Aug. 3.—Calvin Coolidge, sworn in a few hours before as president of the United States by his father, in the Plymouth Notch farmhouse in which he spent his boyhood, left for Washington at 7:30 o'clock this morning.

As soon as the brief swearing-in ceremony was over, the president and Mrs. Coolidge retired to gain a little rest before the trip to Washington. The swearing-in ceremony was short and simple. In the little sitting room of the farmhouse, furnished in homely style like any other Vermont country home, the president stood with right hand upraised at one side of a little table, with Mrs. Coolidge beside him. Across the table his father, his face beaming with pride, read the few words of the oath. To preserve, protect and defend the constitution of the United States.

The old man's voice trembled as he read. Mr. Coolidge bowed his head distinctly and calmly, and at the end added the solemn affirmation, "So help me God." Congressman Dale, Erwin C. Gessner, Mr. Coolidge's assistant secretary, a Vermont editor, and two secret service men were the sole witnesses other than Mrs. Coolidge.

At 7:30 the president appeared at the front door, bowed to the assembled crowd, posed for several photographs, and went back. Ten minutes later the presidential party left.

Calvin Coolidge, vice-president of the United States, born July 4, 1872, at Plymouth, Vermont, came to this country and settled in Waterville, Mass., in 1890.

He left the farm in 1891 for Amherst College, and graduated with honors in 1895. Immediately upon leaving college he went to Northampton to study law, and finally settled there.

It was Mr. Coolidge's common sense, his insight into legislative tactics and his mental quickness that first attracted to him the attention of political leaders. The late Senator W. Murray Crane, who was a resident of Coolidge's congressional district, was among the first to note these qualities, and he resolved to utilize the first opportunity to project Mr. Coolidge into the national political arena.

By hard work and steady progress Mr. Coolidge continued his rise until he could be considered for high state office and then it was that Senator Crane and other leaders exerted their powers to have him nominated for the lieutenant-governorship. He was elected in the first campaign, won by the Republicans in Massachusetts for several years, due to the Progressive party split. Thereafter it was but logical for him to succeed to the governorship, an office which he held for two terms and which he left for the vice-presidency.

#### WORLD LEADERS SEND MESSAGES OF SYMPATHY

King George, Premier Poincare and Others Express Their Sorrow.

ALL WERE SHOCKED

Mayor Wenige Sends Condolences On Behalf of Citizens of London.

Associated Press Despatch. London, Aug. 3.—King George and Queen Mary today sent the following message of condolence to Mrs. Harding: "Mrs. Harding, White House, Washington. The Queen and I are much shocked and grieved to hear of the irreparable loss which has befallen you and assure you of our heartfelt sympathy in your sorrow. The whole British people will join with those of their sister nation who mourn the death of their president at the culminating point of his distinguished career." (Signed) "George R. I."

CHIEF JUSTICE TAFT. Canadian Press Despatch. Murray Bay, Que., Aug. 3.—Chief Justice Taft, former president of the United States, received the news of the death of President Harding at about midnight and early this morning he issued the following statement: "I am shocked beyond expression at the news of President Harding's death. The loss is a deep personal sorrow to me. The loss to the people of the United States cannot be overestimated. He had impressed the whole country with his nobility of character, the sweetness of his nature, his wonderful sympathy, his breadth of vision, his patriotism and his love of mankind. His death at this juncture in the affairs of the country and the world is a great calamity." (Signed) Taft.

PREMIER POINCARÉ.

Associated Press Despatch. Paris, Aug. 3.—Premier Poincaré this afternoon sent the following cable message to Secretary of State Hughes: "Painfully shocked by the cruel loss the United States has just suffered, I want to assure you, Mr. Secretary, that the French people and the French government are united with you in the most sincere sympathy for the bereaved family."

"With President Harding there disappears not only a great statesman, but a man whose life was a lesson to us all, and whose death is a great loss to the world. All France partakes in the bereavement of the United States."

VANCOUVER MOURNS.

Associated Press Despatch. Vancouver, Aug. 3.—British Columbia, in general, and Vancouver, in particular, were in mourning last night. While the officialdom of this part of the world half-masted their flags and compiled formal messages of condolence to a commencing United States authorities, the plain men and women of the community talked of President Harding's death as the passing of a comrade. They were exactly a week since they were to the music of massed bands through aisles of bunting to greet the head of the household of their nearest neighbor and bid him welcome in the name of Canada. It is exactly a week since they mobbed their police and military in high good humor to bring an "executive" to the United States chief executive, their guest, as he called for home.

Mayor C. E. Tisdall of Vancouver hastened to send Vancouver's condolences to Mrs. Harding and express his regret that the "clean and capable man" who so recently brought the official life of Canada and the United States into official contact should have been cut off in the midst of his term.

#### STEEL WORKERS SEEK TO OBTAIN OLD JOBS IN MILLS

Sydney Company Only Able To Provide Work For Two Hundred.

NEED MORE ORDERS

Attempts Made To Interrupt Electric Service For Mine Machinery.

Special to The Advertiser. Sydney, N. S., Aug. 3.—Some 500 members of the Steel Workers Union, the executive of which called off the strike against the British Empire Steel Corporation, which had been in progress since June 28, crowded around the employment office at the plant today and requested that they be given back their old jobs in the mills. About 200 were taken on, but the rest will have to wait until such time as the company books further business.

As given out in an official statement issued by the company, the precipitating action of the steel workers when they "downed tools" and quit work without a moment's notice, placed the corporation in an awkward position. The company had contracted for considerable business, but in the earlier days of the walk-out they had not sufficient men to carry on the work of manufacture, and they were forced to cancel their orders. The police are endeavoring to detect the men who blew up the company's water lines. Capt. D. A. Noble of the steel company's police force believes that they were I. W. W. sympathizers in the district. Radicals among the miners who have been refused employment continue their sabotage against the collieries.

No great damage, however, has been reported to date. The police are investigating the meaning of several small explosions which have occurred at No. 4 colliery. Further attempts have been made to interrupt electric service on the high tension lines which carry current to the power houses which generate light and electricity to run the pit machinery and operate the fans. The latter must be kept going continually if the deeps are to be ventilated and kept free of gas.

The soldiers encamped on these grounds have begun to break camp, and will commence to evacuate as soon as word has been received from Ottawa ordering their removal.

#### FIRE DESTROYS HOME SOUTH OF WOODSTOCK

W. Silverthorne, Otterville, Suffers Loss in Early Morning Blaze.

Canadian Press Despatch. Woodstock, Aug. 3.—Fire which started from a defective chimney completely destroyed a residence owned by William Silverthorne at Otterville, south of Woodstock, this morning. The house was tenanted by Norman Pickersgill and family. While eating his breakfast, Mr. Pickersgill noticed a small fire on the bushes outside the kitchen window, and on going out found that the upper part of the house was on fire. He had time to get his wife and children out in safety when the upper story crashed in. There was no insurance on the contents, but the house was insured for a small amount.

#### HON. W. E. NICKLE DENIES REORGANIZATION REPORT

Toronto, Aug. 3.—"I have not heard anything about it, and the matter has not been discussed by the government in council," said Hon. W. E. Nickle, attorney-general, today, when his attention was drawn to a newspaper report that the gradual reorganization of the Ontario license board was "a serious consideration by the government."

Mr. Nickle was emphatic in his declaration that the cabinet had not given any attention to the matter.

#### LONDON'S MAYOR SENDS SYMPATHY ON BEHALF OF CITY

Wenige Orders Flag on City Hall Placed at Half-mast.

DEATH REGRETTED

Chief Magistrate Expresses Sorrow at Death of U. S. President.

The people of London, Canada, through Mayor George Wenige and members of the city council, have extended today their sympathy to Mrs. Harding. At noon Mayor Wenige sent the following message: "On behalf of the citizens of London, Canada, I extend sympathy in the deep loss you have sustained. The people of London will join with those of the United States in conveying to you their heartfelt sorrow in your hour of bereavement."

"GEORGE WENIGE, Mayor." In addition to this, his worship directed John McNamara, sergeant-at-arms at the city hall, to fly the flag at half-mast.

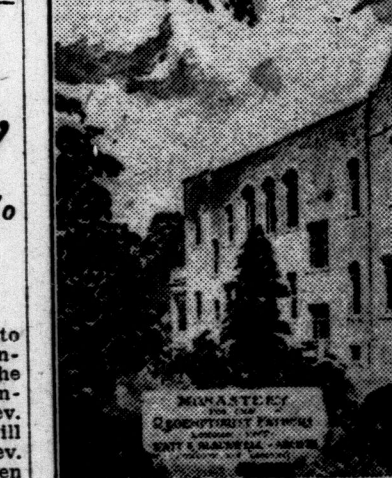

Mayor Wenige felt that his action would be only fitting for the occasion.

#### DETECTIVE IS KILLED IN PURSUIT OF MAN

John Rogers of Niagara Falls, N. Y., Force Victim of Gunman.

Canadian Press Despatch. Niagara Falls, Ont., Aug. 3.—Detective John Rogers of the Niagara Falls, N. Y., police force, was instantly killed this morning when he was shot in the neck by William Ross, alleged to be a confidence man, operating over the river, who was being pursued by the officer. Ross was cornered at Prospect Point, and started to run after pulling a gun. Detective Rogers drew his gun, but did not fire. When pursued Ross wheeled around and fired point blank at the detective, killing him instantly. A son of another detective took up the chase, which led to a rooming-house, where Ross was arrested in the bathroom. He had a preliminary hearing on first degree murder today.

Mr. Nickle was emphatic in his declaration that the cabinet had not given any attention to the matter.

#### The Last Words of Pres. Harding

Associated Press Despatch. San Francisco, Cal., Aug. 3.—"That's good! Go on, read some more." These were the last words uttered by President Harding to Mrs. Harding. Mrs. Harding was at his bedside reading aloud when she paused and looked at the president, according to Alfred Holman, San Francisco publisher, and close personal friend of the president, who visited the sick room a few moments before the end came. Mr. Holman told interviewers that the president's hand raised as he asked Mrs. Harding to continue reading. Instantly his expression changed. He was dead.

Mrs. Harding was reading an article entitled "A Calm Review of a Calm Man," in which President Harding was the man reviewed.

#### REAL ESTATE DEALS SHOW LONDON NORMAL

Assessment Commissioner Reports Transfers For July Total 133.

London is well back to normal as further indicated today from the realty exchange report submitted to The Advertiser by Assessment Commissioner Harry Bennett. Real estate transfers for the month of July totaled 132. Further evidence of London's steady growth is also forthcoming today from the office of Building Inspector A. M. Piper, who reports that since Aug. 1 no less than 37 building and alteration permits have been issued for work estimated roughly at \$50,105. There have been 1,102 real estate transfers in this city since Jan. 1, as follows: January, 106; February, 105; March, 149; April, 198; May, 245; June, 176; July, 132.

#### LITTLE GIRL HAS FINGERS HURT IN WASHING MACHINE

While playing around a washing machine at the home of her parents this morning, Vera Howard, small daughter of Mr. and Mrs. W. H. Howard, 71 Dillabough avenue, caught her fingers in the cogs, and had to be removed to Victoria Hospital. Her wounds were dressed by Dr. E. M. Copeland, and while they are not considered serious, are extremely painful.

#### WILL LAY CORNERSTONE OF HEBREW INSTITUTION

The cornerstone of the House of Twilville, for the Jewish ladies of London, corner of Horton and Colborne streets, will be laid Sunday afternoon at 3 o'clock, under the direction of Rabbi Levine, Hamilton, who will also be in charge of the dedicatory services. This, the second venture within a short time, speaks well for the enterprise and faith of the Jewish people of the city. The other service was when the cornerstone of the new synagogue was laid.

#### Swallows At City Hall Lose Their Happy Homes

Birds That Have Been Nesting in Old Building For Years Shut Out by Old Boys' Decorations.

There was a fearful row in front of the city hall this morning. City Treasurer "Jimmy" Bell reports, and it may require a special session to straighten out all difficulties. Just over the city treasurer's office the swallows have been meeting for years, and when the old city hall was being decorated last evening in preparation for Old Home Week, the nests were covered with bunting, and when the swallows returned for the night they found themselves rudely locked out.

And then the well-known pandemonium cut loose, and "Jimmy" Bell, who was thereabouts at the time rushed out to determine what the fight was all about. Perched on neighboring wires and window ledges the disgruntled birds held forth, raising their voices in protest. And they slept out all night, the treasurer reports, and were back again early this morning. "Jimmy" says it's a shame that they should be deprived of their lodgings, particularly in view of next week's celebrations.

"They are real old boys," he said. "They have been coming back to the city hall for years, and there must be 50 of them around this week. They probably brought a few friends with them."

An effort will be made, however, to see if the bunting can be lowered in order to permit entrance to the nests.

#### EXHIBITORS TAKE NEARLY ALL SPACE AT WESTERN FAIR

Present Indications Point to Record-Breaking Displays This Year.

OFFICIALS PLEASED

All the Space in Old Crystal Palace Has Been Promised.

Latest reports from the offices of the Western Fair board, give promise of this year's fair outdistancing former exhibitions in this city by many a league. The space available for lease to manufacturing exhibitors in the new industrial building grows less each day, and at present there is over 90 per cent of the space spoken for.

The old Crystal Palace is completely sold out, and it will be necessary to open the machinery building in order to house the exhibits which are still coming forward each day.

The fair board officials are not only pleased, but pleasantly surprised at the indications for the success of this year's exhibition.

#### ALL BIG LEAGUE GAMES HAVE BEEN CANCELLED

Associated Press Despatch. Chicago, Aug. 3.—Baseball Commissioner Landis today issued the following statement: "It is the sentiment throughout baseball that no games be played either today or on the day of the funeral of the late president, and as a further mark of respect to his memory flags at all parks will be displayed at half-mast until after the burial."

#### WINDSOR DRIVER HURT WHEN CAR HITS WAGON

Windsor, Aug. 3.—Samuel Shergold, driver for the Windsor City Dairy, is at the point of death at Hotel Dieu, suffering from severe injuries which he received when a westbound passenger street car crashed into his milk wagon on crossing Wyandotte street at Dufferin place this morning at 2:45 o'clock. The operator of the car, Leonard Downey, 325 E. street, was held at police headquarters until early this morning and later released.

#### DR. POTVILIET DIES

#### ADVISES BRITAIN FRENCH STAY TILL RESISTANCE ENDS

Poincare Asserts Reparations Payment Must Be Made or Assured.

THREATENS RUIN

Question Position To Be Gained by Appraisal of Germany's Ability To Pay.

Associated Press Despatch. Paris, Aug. 3.—Premier Poincaré's recent note to London informed the British Government that France could not negotiate with Germany until passive resistance in the Ruhr was brought to an end, and that evacuation could not be considered until a final agreement was reached and reparations payments were made or assured.

The substance of the note was made public last evening after the premier had read press accounts of the British prime minister's statement, in which Great Britain's proposals were disclosed.

The French note raised the question of what might be gained by once more appraising Germany's capacity to pay.

The French premier's note also suggested that if the London government would let Germany know that it did not approve of a policy expected, the situation would be adjusted immediately.

The Paris newspapers find that the speeches of Prime Minister Baldwin and Foreign Secretary Curzon in the British parliament yesterday are more favorable than had been expected, and the press comments show almost relief. The moderate organ Figaro even asserts that the statements substantially represent the progress of the last public declaration of the prime minister, pointing out that Mr. Baldwin contests the efficacy of the Ruhr occupation, but no longer contests its legality.

All commentators find that the salient character of the British declaration is its moderation.

Le Matin adds that France will never capitulate before international finance. "Does not Mr. Baldwin feel it troubling around him?" asks this newspaper.

#### CLAIMS HARDING HAD PREMONITION OF DEATH

Brother of Dead President Cites Instances To Prove Statement.

Special to The Advertiser. Marion, Ohio, Aug. 3.—President Harding had a premonition of death, Dr. George T. Harding, Jr., his brother, said today. "I am sure," said Dr. Harding, "that my brother was evidently sensed danger."

The president's brother cited the sale of the Marion Star, purchase of the old Dickerson home in Morrow County, and the making of a new will shortly before the western trip started as evidence that his brother was concerned about his health and was getting his affairs in order.

#### WENIGE PROPOSES CITY COMMISSION OF PUBLIC SAFETY

Mayor Believes Body Would Aid the Police and Fire Departments.

ADD TO EFFICIENCY

Asserts Overlapping of Duties Results in Matters Being Overlooked.

Mayor Wenige declared today that in his opinion a "public safety commission" would not conflict with the authority and duties of the London police commission.

And he proposes that the special commission shall consist of five members, the mayor and four members of the city council—two each from the finance committee and the board of works.

"The safety commission would tend for greater co-operation between the fire and police departments," asserted the mayor, "and would not, in my opinion, interfere with the administrative powers of the police commissioners. There are now certain instances where the police and fire departments overlap, and then there are instances where they fall short of each other. I think that a safety department would mean increased efficiency. And it should consist of aldermen only."

Mayor Wenige believes that the day will come when the people will be permitted by provincial legislation to elect their police commissioners, and that in the meanwhile the "safety commission" would assist matters generally.

#### BREAKS INTO HOME AND SCARES WOMAN

St. Thomas Police Arrest Man Thought To Have Entered House.

Special to The Advertiser. St. Thomas, Aug. 3.—An unusual case of housebreaking was reported by the police this morning. About 2:30 a.m. Sgt. Geddes received a hurried call to a home on St. Catharines street. Hearing screams over the phone he raced to the scene, the trouble, and found the lady of the house in a very agitated condition at the residence of her neighbor, where she had taken refuge.

She told the police that there was a man in her house, and showed marks on her arm where he had gripped her. She had broken away and fled to her neighbors.

The police searched the premises, but could find no trace of the intruder. A cellar window had been opened and the screen pulled off.

About an hour later the police were again notified that a man was trying to make his way into a Station street residence. The man escaped over the fence as Sgt. Geddes and Police Constable Hawkins arrived.

The woman whose house was entered gave the police the description of a man who had loitered near her home during the preceding day in an apparently intoxicated condition. As a result the man was arrested this morning by Sgt. Ketchaw. He is said to have admitted the ownership of a hat found near the scene of the occurrence. Questioned regarding the case, he could remember none of his actions, having been in an intoxicated condition.

## SPECIAL GUARDS WILL BE PROVIDED FOR SLIM' WILLIAMS

## WILL KEEP "SLIM" SPECIAL GUARDS

Sheriff Donald A. Graham Declares Melbourne Bandit Will Have Separate Cell.

## BANS ALL SMOKING

When Henry Jack (Slim) Williams was brought back to London to stand trial in connection with the Melbourne slaying, he will be confined in a separate cell, Sheriff Donald A. Graham declared today.

Arrangements will be made to keep him separate from Sidney E. Murrell until Oct. 15, the day set for the opening of the fall session at which both prisoners will stand trial. Even then, in the event of separate trials the prisoners may be denied conversation with each other, each only being called into court as witnesses in the case of the other.

Preparations, as elaborate as those made for the fall session, will be made for the reception of Williams. He will probably be brought back from Portsmouth Penitentiary (the only one in which he is serving a seven-year sentence for robbery, by provincial guards. Special guards will be placed over him at the county jail.

Whether the prisoners will be tried jointly or separately is a question still to be considered.

## Will Guard Court House.

When the Melbourne bank murder case comes before the court the court house will be closely guarded to control the crowd. As there are numerous witnesses and officials and 60 jurymen to be admitted, it is not expected that a large number of spectators will have the privilege of witnessing the trial.

Mrs. Murrell has not seen her son yet. No word of any intention of revoking the order keeping visitors from Murrell, has been received from W. W. Dunlop, inspector of prisons and charities.

The screws have been tightened at the county jail. None of the officials are permitted to smoke now. Governor Byron Dawson does not use tobacco at all. The order will have little effect upon him.

Although the jail rules provide that from outside, the officials are given a prisoner on remand may obtain food the right to use their own discretion in this regard. Consequently, Murrell does not get any food other than that provided to prisoners serving terms.

## Does Shadow Boxing.

Murrell is kept in almost solitary confinement. He has only his guards, one at night and one during the day, to talk to him. However, he says little to them.

His exercise is taken alone. None of the other prisoners see him go out into the yard for his 15-minute recreation period. None see him return.

In his cell he spends most of his time reading or pacing to and fro. Once in a while he does a little shadow boxing.

## His condition is reported to be good, and he is becoming accustomed to being without a smoke.

## TELLS KIWANIS CLUB OF DUTY OF CITIZENSHIP

C. H. Sumner of Ingersoll Points Out Opportunities Afforded in Canada.

An address of more than usual interest and calibre was that given by C. H. Sumner, Ingersoll, at the Kiwanis luncheon today. Mr. Sumner spoke on "The Duties of Citizenship."

Prior to beginning his address proper, the speaker expressed thoughts of sympathy towards the United States in the tragic loss of its chief executive, President Harding.

He then dealt at some length on the duties of citizenship, pointing out the opportunities that were within the grasp of Canadians of today. History was being rewritten and the people of the Dominion had the finest chance to become an ideal and contented country. He pleaded for the people to take time in the mad rush after the dollar and strive for and appreciate the finer things in life that tend to bring out the nobler qualities of character and the soul that make up the final analysis of good citizenship.

Referring to Canada as the brightest gem in the crown of the British Empire, Mr. Sumner pointed out that, located as she was, the Dominion should grasp hold of, and draw out for herself, the best of the old established countries on one side and the ever-changing nations on the other. Living in harmony beside the great republic to the south, without a fort or a gun along the 3,000-mile border would be to disturb the thoughts of friendship and sympathy of one country toward the other, tended to make for greatness. The friendly relationship and sympathy was necessary to each country in the working out of its destiny, until in all grandeur the two countries would reach their common goal.

Governor Keddy of Ottawa outlined briefly the principles of Kiwanis as being applied to religion. President Bevan Hay occupied the chair.

## LOSE SUITCASE ON ROAD WHILE ON HONEYMOON

Chief of Police Birrell this morning received a letter asking him to look out for a suitcase, which had been dropped on the road between Strathburn and Evergreen. The writer, Ernest F. Laing, an employee of the Canadian National railway, stated that his bride was honeymooning in the province and were traveling in a Ford coupe, the suitcase having evidently been dropped from the car. The man states he is a newspaper correspondent, and wishes the chief to notify him at the Grand Trunk station, Windsor, if his baggage is found.

## HAMILTON MAN HAS DRUGS, IS FINED AND IMPRISONED

Canadian Press Despatch. Hamilton, Aug. 3.—Joseph Springer, 37 Barton street west, was sentenced to 18 months in prison today by Magistrate Jeffs for having narcotic drugs. He was also fined \$500, and if this is not paid must serve additional six months.

The charge against two newboys of selling racing forms was laid on Thursday last, will be held adjourned for one week by Magistrate Jeffs today. T. J. Agar, K.C., acting for the defence, is away on a vacation and the adjournment was made on this account.

## WATFORD CHURCHES PLAN UNION SUMMER SERVICES

Special to The Advertiser. Watford, Aug. 2.—Vacation union services are being planned between the congregations of the Congregational and Methodist Churches. The only persons in his apartment at the time were Mrs. Harding and two trained nurses.

Not realizing that the end had come with lightning swiftness, Mrs. Harding ran into the hotel corridor, "Call all the doctors quickly," she called to a secret service man who was on duty, and then hurried back to her husband's bedside.

The secret service man failed to hear her call. Four newspapermen, the only others in the corridor, heard, however, and dashed in pursuit of Dr. Sawyer and his aides. Dr. Sawyer was the only one to be found. When he reached the president's bedside, he realized that it was too late.

The utmost optimism prevailed regarding the president's recovery is attested by both official and unofficial statements given out shortly before 6 o'clock. The medical men in attendance upon the president had told in interviews that it was due to his indomitable courage and steadfast refusal to consider himself grievously ill, than to medicine and their ministrations, that his rapid recovery was due.

He was "carrying on," they said. That is the way he died—"carrying on"—a soldier to duty.

ALL NATION MOURNS. Associated Press Despatch. San Francisco, Cal., Aug. 3.—A nation today mourned the passing of its leader. The people of the United States, from coast to coast, and from lakes to gulf and in the territories beyond the seas, bowed their heads in grief, for their president was dead. In the early hours of last evening, after a day which had brought renewed hope of recovery, the president died and struck down Warren G. Harding with a stroke of cerebral apoplexy.

The end came suddenly and without even a second of warning at 7:30 o'clock. There was no time to summon additional physicians, no time to call the members of his official family, and no time for medical skill to exercise its knowledge of an eye, and it left a nation and a world shocked and in grief.

Mrs. Harding, the constant companion of her distinguished husband, was faithful to the end. She was reading to him a few minutes before 7:30 o'clock, when she noticed a shudder run through the frame of the man she had loved, encouraged in adversity, and praised in success. Before the shudder could be explained, Mr. Harding collapsed in his bed, and she rushed to the door, calling for the physicians to come quickly.

Brig-General Sawyer, chief of the staff of physicians who had been attending the chief executive, who also was in the room, and two nurses present, Miss Ruth Powderly and Miss Sue Dawson, did all they could, but it availed nothing.

The president had fought and won one victory against disease, but it appeared in a more insidious form, and he lost the battle.

Great as was the shock to all who dwell under the United States flag, and to people in many lands, the extent of the shock was not as great as the shock to the people of the United States. The president's death was a blow to the heart of the nation, and it was a blow to the heart of the world.

## HARDING'S LAST HOURS.

By L. C. OWEN. Special to The Advertiser.

San Francisco, Cal., Aug. 3.—President Harding died as he lived—a soldier to duty. Although directly to a smile upon his lips, and his last conscious thoughts made happy by printed words of appreciation for work well done.

The end came without premonition—without warning. Mrs. Harding sat at his bedside. She was reading aloud to him an article written by Samuel G. Blythe, noted political writer, entitled "A Calm View of a Calm Man," which appeared last week in the Saturday Evening Post.

The president and his accomplishments were the subject of the article. Mrs. Harding had read a paragraph midway of the article, when the president interrupted her, "That's mighty fine, and it was fine of Sam to say it," was his comment. Mrs. Harding started to read again.

She progressed directly to the end when death intervened. It was instantaneous—the doctors say painfully. While the first cause of death was cerebral hemorrhage, later diagnosis leads to the belief that it came from cerebral hemorrhage. He passed out with the happy knowledge that he had done his duty.

His death was a shock to the nation, and it was a shock to the world. The president's death was a blow to the heart of the nation, and it was a blow to the heart of the world.

## ALLEGES VIOLATION OF THE MEDICAL ACT

**Kitchener Osteopath Is Charged With Signing Paper Without Authority.**

Special to The Advertiser.  
Kitchener, Aug. 2.—Dr. H. M. Good, local osteopath, was charged with a violation of the Ontario medical act in the police court here today, it being alleged that he signed a paper in connection with compensation for a patient for the compensation board as a surgeon.

Dr. Good maintained that in signing the paper he had no intention of breaking the law, but merely signed it as a matter of form, having attended the patient, who had sustained a broken rib. He had not meant to convey the idea that he was a surgeon under the meaning of the Ontario medical act.

After hearing the evidence, Magistrate Weir adjourned the case for a week.

## Disease Germs Doomed

**Many have lost terrors for the Scientist**

The progress of recent years in medical research is little short of marvellous. Daily, science kills germs by the million. Daily, new ones are being discovered, isolated and exterminated by the march of medicine.

Science is winning. What were once regarded as serious diseases are now laughed out of countenance by the doctors. Fearlessly they plunge naked hands into swarms of them, their only precaution being to rinse their hands afterwards with a reliable germicidal preparation. # WARREN G. HARDING DIES SUDDENLY AT SAN FRANCISCO OF APOPLEXY, BELIEVED ON ROAD TO RECOVERY

**Chief Executive of the United States Passes Away Without Speaking.**

**BRAVE IN SORROW**

**Mrs. Harding and Two Nurses With Him When End Came.**

Associated Press Despatch.  
San Francisco, Aug. 2.—Warren G. Harding, president of the United States, died instantaneously and without warning tonight at 7:30 o'clock, a victim of a stroke of apoplexy, which struck him down in his weakened condition, after an illness of exactly a week.

The chief executive of the nation, and by virtue of his office and personality one of the world's leading figures, passed away at the time when his physicians, his family and his people thought that medical skill, hope and prayer had won the battle against disease.

With the passing of Mr. Harding, the office of president devolves upon Calvin Coolidge, vice-president of the United States, a man silent in nature, but demonstrated as strong in emergencies. He was notified of the death of Mr. Harding at his home in Plymouth, Vermont.

The suddenness with which the end came was shown by the fact that only Mrs. Harding and two nurses, Ruth Powderly and Sue Dausser, were in the room at the time.

Reading to Husband.  
Mrs. Harding was reading to her husband, when suddenly, without warning, a slight shudder passed through the frame of the chief executive, he collapsed and died. Immediately the indications of distress showed themselves, Mrs. Harding ran to the door and called for Lieutenant-Commander Boone and for the other doctors to come quickly.

Only Doctors Sawyer and Boone, the chief and assistant chief physicians, were able to reach the room before the nation's leader passed away. They were powerless to do anything.

Brave in the face of the president's illness, Mrs. Harding remained brave in the realization of death, and did not break down, continuing to be "the bravest member of the group." Her first words, when she realized the president had died were: "I am not going to break down."

**Free From Discomfort.**  
The death of the president came after a day which had been described by Brigadier-General Sawyer, his personal physician, as the most satisfactory day the president had had since his illness began. The physicians in the White House announced that the end came during the day, and that there was every justification for anticipating a prompt recovery.

The death of the nation's chief executive was announced in these words: "President Harding died instantaneously and without warning and while conversing with members of his family at 7:30 p.m. Death was apparently due to a brain evulsion, probably apoplexy."

"During the day he had been free from discomfort and there was every promise of a prompt recovery. Signed, C. E. Sawyer, M.D.; Roy Lyman Wilbur, M.D.; C. M. Cooper, M.D.; and J. E. McLaughlin, M.D., White House, Wash., D.C., August 2, 1923, 7:35 p.m."

Members of the president's party said it was probable that the president would leave San Francisco Friday evening, but that it was impossible to make a definite announcement because of the absence of the city of George P. Christian, the executive's secretary.

**Life of Harding.**  
Warren G. Harding, president of the United States, was born on November 2, 1865, Warren G. Harding brought to the presidency an inheritance of peace and kindness in dealing with public questions and men, which enabled him to handle the problems of government without the stress and worry which had handicapped many of his predecessors.

Whatever else historians may say of him, there probably will be little dispute that few chief executives came to office in peace time facing problems more complex than his. His greatest single effort in the field of domestic legislation was in behalf of this measure.

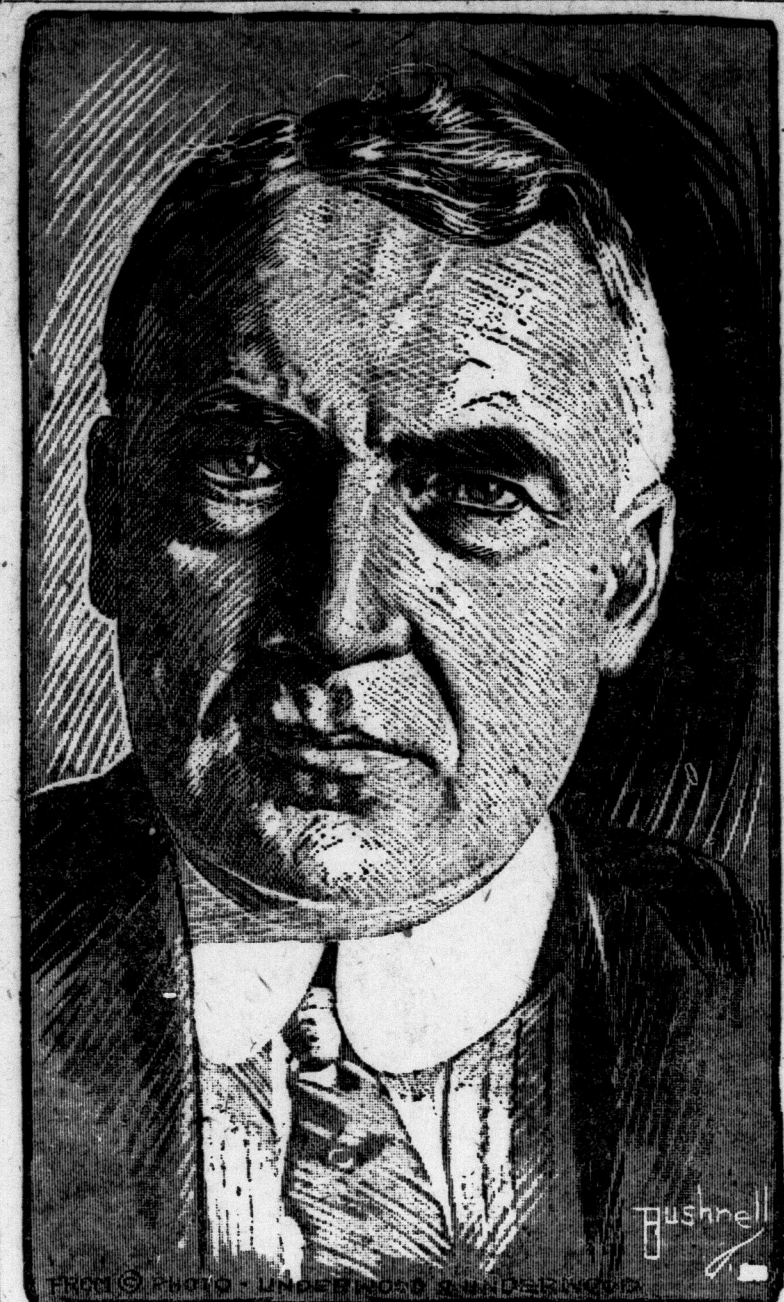

**Was Peacemaker.**  
Not infrequently was Mr. Harding called upon to play the role of peacemaker in domestic affairs. He intervened in a dispute between Congress and the treasury as to the form general tax revision was to take, and the program he approved was carried out in the main with a reduction of more than half a billion in the nation's tax burden. Likewise, his counsel settled the long controversy between the House and Senate on the question of American valuation in the tariff law. He proposed in its place a flexible tariff arrangement under which the tariff commission was given authority with his approval to increase or lower rates within prescribed limitations. Upon signing the bill, the president declared it constituted the greatest tariff reform in American history.

**Pioneer Stock.**  
Mr. Harding came of hardy pioneer stock. He was born at Blooming Grove, Morrow County, Ohio, November 2, 1865, the son of a country doctor, George T. Harding. Like most country boys he went to country school doing morning and night chores and later attended at Iberia, Ohio.

He tried school teaching for a year, but having had a smell of printers' ink while sticking type for his college paper, the lure drew him into the newspaper field.

His family meantime had moved to Marion, in an adjoining county, where he obtained his first newspaper job, where his life interests were centered thereafter. Mr. Harding's ambition was to become a publisher, and it was realized at the age of 19, when he bid to be misconstructed the world was a heavy mortgage and his friends have often said that the struggles and hardships which were his in making this paper a success had much to do in fashioning his character and developing a broad patience and tolerance which were his chief characteristics.

**Carried Printers' Rule.**

chief executive of the United States, who passed away last night following an attack of apoplexy. A great figure in stabilizing the world since the Great War, President Harding has won the respect of all nations, and today Canada sends forth her sympathy, realizing the passing of one of the world's greatest men.

## "High Spots"

These constituted the "high spots" in the events of the Harding administration:  
Re-establishment of peace with Germany and Austria.  
The calling of the arms conference which approved the naval limitation treaty and the four-power Pacific treaty.  
Ratification of the treaty with Columbia resulting from the partitioning of Panama.  
Revision of the tax and tariff laws.  
Farmer aid legislation with particular reference to easier credits on more liberal terms.  
Establishment of the budget bureau.  
Veto of the soldiers' bonus bill.  
Extension of the program of aid of wounded, sick and disabled veterans of the world war.  
Advancement of United States participation in the world court.

gress Mr. Harding preferred the role of counselor rather than dictator he speedily removed any doubt that his gift of patience denied any lack of power. His greatest single effort in the field of domestic legislation was in behalf of this measure.

His tenacity of purpose was further exemplified in his continual pounding of economy in public expenditures and again in his insistence that Congress pass the merchant marine bill with a view to curtailing the continued drain which the operation of the war-built commercial fleet had become upon the treasury. His greatest single effort in the field of domestic legislation was in behalf of this measure.

## Milestones

Born in Blooming Grove, Morrow County, Ohio, November 2, 1865.  
Began career as newspaper publisher, November 26, 1884.  
Elected to Ohio State Senate, his first political office, November 6, 1888.  
Elected lieutenant-governor of Ohio, November 3, 1903.  
Defeated as Republican candidate for governor, November 8, 1910.  
Elected to United States Senate, November 8, 1914.  
Nominated for the presidency, June 12, 1920.  
Elected president, November 2, 1920.  
Inaugurated March 4, 1921.  
Died August 2, 1923.

Mr. Harding's greatest pride was in his professional accomplishments and training as printer, editor and publisher. Nor did the interests and exacting duties of his high office serve to dull his delight in pottering about a composing-room. On his first trip back home after his inauguration, he went to the Star office, pulled off his coat, rolled up his sleeves, borrowed a chew of tobacco and helped "make up" the paper. His luck charm was a printer's rule carried always in a vest pocket.

As his ambition had carried him into the ranks of publishers, so his fancy took him into the realm of politics. From the first he was an ardent partisan, and his insistence upon wearing a "stovepipe" hat, the badge of support of James G. Blaine, while a reporter on a Democratic newspaper brought him a sharp reprimand from his chief, who held it to be inconsistent for a worker on a Democratic paper to so prominently display the symbol of his Republicanism.

The future president's ability as a stump speaker won him early recognition from his local party leaders. Marion County then was in Democratic column, and he undertook to switch it to the Republican party, but his first effort at office on his party ticket resulted in a defeat, though he commanded an unexpected vote.

**Became Senator.**  
Mr. Harding's first political office was that of Ohio state senator, to which he was elected at the age of 34. He served two terms, and later was elected Lieutenant-Governor of his state. In 1910 he sought the governorship, but was defeated. Four years later he was elected to the United States Senate, where he served six years, much of the time as a member of the important foreign relations committee. From this place he was elevated to the presidency, the first senator to be elected chief executive.

Early in his years of political service he met William McKinley, to whom his close friends have most likened him, and with whom he had in common a predominant passion for obliteration of class and sectional lines. A friendship sprang up between the two men. Mr. Harding also was close in later years to Theodore Roosevelt, Senator Foraker and Fenimore and other high in his party councils.

The president was a life-long Baptist, and was a trustee of his home church in Marion. He also had been a member of the Elk and Moose fraternities for years, and after his election as president he became a thirty-second degree Mason and a Shriner.

Golf was his favorite recreation, but he also liked to fish, although his opportunities for that sport were limited after he came to the White House. He played hard, and possessed the faculty of putting all his

worries behind him during his recreation hours.

**CALVIN COOLIDGE**  
Associate Press Despatch.  
Washington, Aug. 2.—Calvin Coolidge is perhaps better equipped by experience to take up his administrative duties in the White House than was any of his predecessors who have been called to that high office by the death of a president.

Having won for himself in large measure the vice-presidential nomination by his executive forcefulness as governor of Massachusetts, he has kept throughout the Harding administration closely advised as to the problems of the federal government, and has assisted in shaping administration policy by his constant attendance at cabinet meetings.

Not only has he given his best ability to the work, but he has done as much as any other member of the administration to place his accomplishments before the people. He has traveled a great deal, making addresses, and is said to have made more public appearances than any other member of his cabinet. His intimate touch with administration affairs sometimes has brought upon him considerable reproaches and some embarrassment from senators and others who sought to obtain through him information concerning developments in the White House, or to have placed before the president particular views on pending issues. He usually has remained quiet, refusing to discuss public matters under these trying conditions, meetings or to act as a go-between for those interested in having their views presented to the president.

Although vice-presidents usually have no other duties to perform than that of presiding over the senate, casting the deciding vote when that body finds itself in a tie, Mr. Coolidge has asserted himself from its session every Tuesday and Friday to participate in cabinet deliberations. Thus he became familiar not only with all angles of the major public questions but also with the reasons actuating the president in his decisions.

Canada Sends Sympathy.  
Ottawa, Aug. 2.—The news of President Harding's death came as a great shock to the capital of Canada tonight, as it was believed here that he was on the road to recovery. The prime minister, Right Hon. W. L. Mackenzie King, is out of the city, and in his absence Hon. W. S. Fielding, minister of finance and acting premier, expressed the deep sympathy of the people of Canada with the American people in their loss.

Canada, said Fielding, "President Harding was a little closer than usual to the people of Canada. When the first news of his serious illness came the people of Canada were shocked, and this was followed by relief when word was received that he was gaining ground. The news of his sudden death comes now as a shock, and the sympathy of the Canadian people goes out in full measure to the American people in their loss."

**Conveys Sympathy.**  
The opposition leader, Right Hon. Arthur Meighen, is in St. John, N.B., on his way back from the campaign in Cape Breton. In his absence, Sir Henry, "had won the sincere respect of the Canadian people, and the news of his sudden death was received here with great sorrow. On his recent visit to Canadian territory he did much to strengthen the ties between the two countries in friendship, and created an impression that will long be remembered with kindness."

His heartfelt sympathy of the Canadian people goes out to the American nation in its great loss."

**Received Message.**  
Shortly after the news of the death of President Harding arrived over the wires, Burke Martin of 803 Colborne street received the message on his radio outfit. The message was broadcast from the Drake Hotel station in Chicago, and stated that the president had passed away at 7:30.

Many other radio owners in the city became aware of his passing through the same medium.

**HONOR CHURCH MEMBERS.**  
Gait, Aug. 2.—Mr. and Mrs. George McCall who shortly leave for New York and who have been members of Knox Presbyterian Church for the past 40 years, were presented with a silver tea service by the congregation.

**LIUTENANT-GOVERNOR ADDS TO JERSEY HERD**

Special to The Advertiser.  
Brantford, Aug. 2.—Lieutenant-Governor Harry Cockshutt has just received an importation of Jerseys, through B. H. Bull & Son of Brantford. The imported Jerseys are Luga Star, Cupheas Peggy, Fortune Daisy, Volunteer's Sultan and Dandy Daisy. He also purchased from Messrs. Bull & Son Despairs Heir. These animals, with what his honor now has, make a herd of about 50 head.

**SUNDAY SCHOOL CLASSES PICNIC AT LAKE HURON**

Special to The Advertiser.  
Petrolia, Aug. 2.—The combined picnic of the Victor boys' class and the Mission Circle girls of the Methodist Church, which was held at Mrs. William Smith's cottage on Lake Huron yesterday, proved a wonderful success. A pleasant afternoon was spent in swimming and other amusements.

At the close of the day a dainty supper was provided by the hostess, Mrs. Smith, who is teacher of the Victor boys' class.

WIFE OF PRESIDENT.

Mrs. Warren G. Harding who stood bravely at the side of her husband when the end came last night.

## CAYUGA W.I. DISPOSE OF MUCH BUSINESS

**Monthly Meeting Contains Many Items For Discussion and Adjustment.**

Special to The Advertiser.  
Cayuga, Aug. 2.—The monthly meeting of the Cayuga branch of the Women's Institute, held at the home of Mrs. Joseph Peart on Tuesday, was well attended. Among other items of business, Mrs. Duff and Mrs. W. J. Quinsey were appointed a committee to arrange about having fruit sent to the Hospital for Sick Children, in response to an appeal from that institution. Mrs. Bell and Mrs. Watson were appointed to inquire regarding a needy family. The question of having a yecum concert in Cayuga this fall was not favorably received.

An invitation from the Caledonia W.I. to attend their meeting on August 31 and supply the program was accepted.

A vote of condolence to the family of M. H. Jarrett in their recent loss was passed.

Mrs. Jos. Peart referred to the departure of Mrs. N. Middleton from Cayuga, expressing the regret of the society, and Mrs. Middleton replied.

An invitation from York W.I. was received for August 18, and an invitation extended to the Canfield branch to furnish the program at Cayuga on August 28.

Miss MacFarlane gave an excellent address on "Current Events," and Mrs. Bell read an interesting address on "The Use and Abuse of Our Time."

Two vocal solos were rendered by Miss Marion Fields.

The next meeting will be held at the home of Mrs. J. A. Tooley, and in view of the visitors expected from Canfield 18 ladies were placed on the refreshment committee.

**CONFERENCE CALLED.**  
The first formal conference on the subject was held in New York last Thursday when heads of the manufacturing subsidiaries of the U. S. Steel Corporation met with Chairman Gary, and on the following day directors of the American Iron and Steel Institute took up the matter for the industry as a whole.

Both meetings adjourned over the week-end to permit the presidents of the various companies to return to their homes to learn, if possible, the attitude of the employees who would be affected. Presumably officials found a majority of the employees agreeable to the changed rate of pay for the shorter hours, although no announcement as to that was made today.

**W.O.R. SOFTBALLERS VISIT STRATFORD SATURDAY**

Special to The Advertiser.  
Stratford, Aug. 2.—On Saturday afternoon the London Western Ontario Regiment softball team play at Queen's Park against the Stratford Argos team or a picked local team.

The W. O. R. team is bringing their best team and will be at full strength. In big Ed Walker they have a pitcher who ranks with the best in Ontario, and Stratford batters will be at a disadvantage to hit him.

As London and Stratford softball rules are different, the first five innings will be played under Stratford rules and the rest under London rules.

**BOGASH TO MEET MALONE, MIDDLEWEIGHT CLAIMANT**

Associated Press Despatch.  
Cincinnati, Aug. 2.—Jock Malone, St. Paul, claimant of the middleweight championship, has been matched to box Louis Bogash of Bridgeport, Conn., in a 12-round match at Boston, Aug. 20, it was announced here. Malone also is to box Frank Carbone at Covington, Ky., next Monday night.

**KITCHENER WILL CONSTRUCT SUBWAYS AT CROSSINGS**

Special to The Advertiser.  
Kitchener, Aug. 2.—The firm of James, Proctor & Redfern, engineers of Toronto, was appointed by the finance committee of the city council in regular session here tonight to make a survey of the grade separation situation in this city for the purpose of ascertaining the cost of subways and other separations in connection with the level crossings before the council decides to submit the matter to the Dominion Railway Board. This is the first actual step taken by the municipality toward securing subways at the various grade crossings throughout the city.

## WILL ELIMINATE TWELVE-HOUR DAY

**American Steel Mills To Adopt Change As Soon As Possible.**

**MORE LABOR NEEDED**

Associated Press Despatch.  
New York, Aug. 2.—Elimination of the twelve-hour day in the steel industry will begin immediately and wages of employees whose hours are reduced from twelve to eight hours will be so adjusted as to afford earnings equivalent to a 25 per cent increase in hourly and base rates, directors of the American Iron and Steel Institute decided today.

Elbert H. Gary, president of the American Iron and Steel Institute, and chairman of the United States Steel Corporation, in making the formal announcement at the conclusion of today's conference, said the change would be effected as rapidly as the supply of labor would permit. He said it was impossible to say when the changes would be completed, but declared the shift would be no unnecessary delay on the part of anyone.

It is estimated that the shorter working day will necessitate the employment of between 60,000 and 65,000 additional laborers, and will add approximately \$35,000,000 to the annual payroll of the industry.

**Continues Hourly Rates.**  
Employees in the continuous process departments, who now receive \$4.80 for a 12-hour day, will receive \$4.40 for an 8-hour day under the plan. All other workmen, it was announced, will be on 10 hours or less, and their present hourly and base rates will be continued.

Officials of both the independent steel companies represented in the institute and of U. S. Steel Corporation subsidiaries, departed for their homes tonight to begin at once the work of effecting the change in hours.

Today's action by steel officials, representing substantially the entire industry in this country, brought to a favorable conclusion a series of conferences and study of the industry which began when President Harding at a White House dinner requested Mr. Gary to undertake an investigation to ascertain the feasibility of eliminating the long hours.

A committee appointed by Mr. Gary at the May meeting of the American Iron and Steel Institute, reported that it would be impossible to reduce hours in the immediate future because of the shortage of labor. President Harding publicly expressed his disapproval of that report, and subsequently Mr. Gary wrote the president that the industry would begin the elimination of the much-criticized twelve-hour shift "as soon as practicable."

**Conference Called.**  
The first formal conference on the subject was held in New York last Thursday when heads of the manufacturing subsidiaries of the U. S. Steel Corporation met with Chairman Gary, and on the following day directors of the American Iron and Steel Institute took up the matter for the industry as a whole.

## Coroner's Jury Declares No One To Blame in Death On Richmond Street Car

After being out about 25 minutes, the jury impaneled to investigate the death of Ernest Stark, the 12-year-old Huron street lad, who was killed on Thursday, July 28, when he became caught between two street cars, brought in the finding at the inquest held in the courthouse last night that no one could be held responsible for the accident. The verdict read: "That the deceased, Ernest Stark, came to his death on July 28 by being crushed between two street cars. No blame can be attached to any person."

Coroner Dr. Cameron Wilson presided at the hearing.

In all, 15 witnesses were called, and no evidence was submitted that would tend to show that either of the cars lurched at the point where the accident happened. According to the testimony the cars were not traveling more than three or four miles an hour. Neither the boys' mother nor any of the family were called to the stand. J. Gordon Gillman, acting for the crown, and J. M. McEvoy, K.C., for Mr. and Mrs. William Stark.

Joseph Howe, conductor on car No. 64, on which the boy was a passenger, was the first witness called. He said that Ernest Stark was sitting next to the window in a seat about the center of the car, and he noticed nothing unusual until he heard a crash of breaking glass. He was standing at the back of the car at the time, and noticed that the boy's head was hanging out the window. He immediately ran around the car, he narrated, and with the aid of Provincial Officer T. Y. Stratton, who appeared on the scene at about the same time, lifted the boy's body down and carried it into a drug store.

Was Going Slowly.

Questioned further, Mr. Howe stated that the car was going about three miles an hour. There were about 30 passengers on the car. He said he did not notice the southbound car after he ran out on hearing the crash.

James Purcell, motorman on the same car, corroborated the conductor's evidence. There was no power on, he declared, as he was coasting to a stop at the corner.

"I saw the southbound car," he related, "and just as it passed I heard the crash. I opened the door and heard the people scream."

Asked regarding the condition of the roadbed and tracks at that point, the witness replied that the tracks seemed to be in good shape with no bumps.

Harold Griffith, conductor on the southbound car, No. 68, testified that he was standing on the back of the car when he heard the crash of breaking glass. Looking around he saw a boy hanging head first out the window of car 64. His car went three or four feet past the rear of the other car before it came to a stop, he added.

"My car was traveling three or four miles an hour when the accident happened," Alfred Coleman, motorman of the southbound car, told the jury. I didn't notice the car lurching, and we were about 125 feet north of the C.P.R. tracks when I heard the crash. I turned my head before the two cars had cleared, and saw the head of the lad hanging out the window."

Windows Broken.

Asked if he could tell anything

else about the accident, Mr. Coleman said that after the crash he saw fresh marks on his car about a foot above the guard-rails, and in his opinion these were caused by the accident. Two windows, the front and rear were up at the time, he asserted, and these were both broken afterwards.

In his testimony, Dr. W. A. Thomson, who was called immediately after the boy was carried into the drug store, stated that the lad's neck was broken and death was due to a fracture of the spinal column. He noticed three large scalp wounds, he said, and the boy's right elbow was almost severed.

Mrs. Ruby Herbert, 1031 Waterloo street, who boarded the northbound car at C.P.R. station, told the jury that she was just about to take her seat, when she noticed Ernest Stark in the act of rising. The next thing she saw was the other car strike the boy's head, and after the car had passed, his head was hanging over the guard rail. Stating that he was standing with his back to the window. At that moment he (Mr. Howe) turned to look in the direction of the station, and when he heard a jump turned around and saw the boy hanging over the rail.

Provincial Officer Stratton also declared that he did not think the car was going more than four miles an hour. He related how he was standing in the vestibule and saw the boy's head buffeted between the two cars. He was shouting to the motorman to open the door, he rushed around the back of the car, aided in carrying the body to the drug store, and then went for a doctor.

Passengers Testify.

Frank Knightley of Broughdale, James McCormick of 241 Oxford street, Howard Bryant of the drug store, Evelyn Burt of Richmond street north, all passengers on the same car, all corroborated the evidence of previous witnesses. P. C. John Fraser told of hearing women screaming, and of seeing the two men carrying the body into the store. The left side of the northbound car was also chipped in places, the constable said.

"I was on my way home about 6:30 when I heard about the accident," C. B. King, general manager of the London Street Railway, asserted. "I immediately went and looked at the cars and talked to the crews. I found the guard rail of the fourth car broken, and the car No. 64 bent, and also saw what looked like fresh scrapes on the cars."

Mr. King stated that the clearance between the two cars, measured at the point where the scrapes appeared, was 7 1/4 inches. He admitted that in his street railway experience he had known cars to come in contact while in motion and while traveling on double tracks, but explained that it was caused from the springs on one of the cars.

He declared that the springs on both cars 64 and 68 were in good condition after the accident, and that the rails were all right.

Superintendent H. Humeaston gave the same evidence as Mr. King.

## ELECTRIC STORM SWEEPS GUELPH

Fear Lightning Has Claimed One Victim—Loss Estimated At \$20,000.

## STREETS FLOODED

Special to The Advertiser by a Staff Correspondent.

Guelph, Aug. 2.—This city was visited by a severe electrical storm at 2 o'clock this afternoon, which left in its wake considerable flood damage in addition to the loss of at least one large barn which was struck by lightning, besides causing serious injuries to the chief operator at the Hydro-Electric transformer station, which was struck twice, resulting in each instance. The chief operator, T. R. Postle, with other employees of the power station, had succeeded in extinguishing the flames following the first bolt, when the second followed, igniting a quantity of oil. Mr. Postle was enveloped in the flames, and was severely burned about the hands, face, arms, and portions of his body. He was rushed to the General Hospital, and little hope is held for his recovery.

Barn Is Burned.

During the storm lightning struck the barn belonging to the Vimy Ridge community, formerly known as the "Red Rose" community, recently taken over by the soldiers' commission for the benefit of the returned soldiers, near Gourock.

Within a very few minutes the whole building was enveloped in flames and was doomed to destruction. Neighbors quickly congregated, and with the men on the place formed a bucket brigade who worked like Trojans for a time to save the building, but the soldiers' commission for the benefit of the returned soldiers, near Gourock.

The building consisted of two parts, the larger one being about 60 feet in width and the other 20 feet in width, together making a length of 200 feet. Underneath were the stables. The barn was thoroughly equipped, and in keeping with other fine structures on the farm, the whole being painted. Fortunately the stock was out pasture. All the poultry was destroyed.

Loss of \$20,000.

In the barn was about \$350 worth of straw and 20 tons of hay which was consumed, besides new machinery. Major Cooper, in charge of the new institution, estimates that it would probably cost in the neighborhood of \$15,000 to restore the building to a condition in which they were before the fire. The total loss will be in the neighborhood of \$20,000.

The institution was partly under way and there were a number of men employed in the work of basket-making and other trades in a building close by.

The downtown streets of Guelph were running a foot deep with water, and several stores, basements were flooded on lower Wyndham, Quebec and MacDonnell streets.

The local street railway system was completely paralyzed for four hours following the storm as a result of damage to the powerhouse.

## CANADA'S PUBLIC DEBT IS OVER TWO BILLIONS

Captain Douglas Hacking Presents Figures For British Dominions.

Associated Press Despatch.

London, Eng., Aug. 2.—Captain Douglas H. Hacking, Conservative member for Chorley, replying in the House of Commons today to a question, stated that according to the latest particulars available the public debt of Canada on January 1, 1922, was \$2,356,551,000, equal to a rate per head of the European population of \$263.96. Corresponding figures for Australia on June 30 last, Captain Hacking stated, were \$235,371,000 or £39 per head of the European population.

New Zealand's debt was £208,241,000, or £166 per head of the European population, on March 31, 1922, was £186,209,000, or £118 per head of the European population.

## BEST CITY HALL PLAN WILL WIN \$2,000 PRIZE

Committee Will Allow Only London Architects To Compete.

Associated Press Despatch.

To foster local spirit in civic affairs and to further the "Spend your money in London" slogan, the members of the city hall committee in special session yesterday afternoon decided to hold a competition among the London architects to procure plans for the proposed erection of a new city hall on the Federal Square.

A delegation of city architects was present at the meeting, and they grew enthusiastic over the idea of inaugurating a plan of competition. They were unanimous in their request that two outside architects be chosen to judge the drawings, and this was granted after all the plans are in the hands of the committee the Ontario Association of Architects will be asked to name the two judges.

The rules of the competition state that only resident architects are eligible to compete for the \$5,000 prize in prizes. Of this amount \$2,000 will go to the winner, \$1,800 to the second prize winner, and \$1,200 to the third. The \$5,000 it to be deducted from the commission of the architect who will meet a long-standing need of the new administration building. The cost of the building as shown in the drawing must not exceed \$600,000, and the plans must be handed in by September 15.

Replying to a query from the city hall committee whether or not the Chamber of Commerce would want space in the proposed city hall, Gordon Philip pointed out that the present location in a hotel is far more convenient for such an organization, as it is always in a position to keep in touch with businessmen and other prominent officials visiting the city.

### "Every Man's Hand Against Us."

The steel workers at Sydney have declared their strike off, and they state very plainly that they are taking this action because some, if not many, of their members are on the point of starvation.

There is all through the statement a bitterness and a resentment that is not wholesome; it speaks of a dissatisfaction that has simply shelved its day of vengeance.

"Everyone's hand is against us." That single phrase summarizes the whole statement handed out by the steel workers, and it is a bad state of mind because it does not tell the truth.

Bad leadership has had much to do with the trouble around Sydney. The public has been interested in watching the ousting of leaders who took their dictation from the headquarters of the red element.

This same public will be quick to recognize the case of the steel workers for better conditions and for a fair chance to provide themselves and their families with a fair competence.

The steel workers should see above all else that their case is not prejudiced in its presentation. The presence of radicalism is a weakness because employers can so quickly seize it and make a powerful red herring to drag over the path. The steel workers should be wise enough to see to it that they allow no red herrings to be made in their own camp. They are a poor investment.

It is positively a wrong state of mind that makes these steel mill workers believe that every man's hand is against them.

The country is full of men in various occupations who are facing the same problems as the steel men of Sydney, viz., making ends meet.

There is hardly a newspaper in the country that would fail to give a full and fair presentation of the steel workers' case, and these same papers, were they shown that living conditions were unfair and wages too low, would not hesitate to speak in favor of a quick readjustment.

The British Empire Steel Corporation has a big chance to play its full part now in curing that feeling among its employees which finds expression in "every man's hand is against us." There are big firms all over Canada whose employees do not feel this way about their position. It is a real opportunity for the employers to deal with a sorrowful situation that has almost potten out of hand.

### They Want \$2.70 Per Week.

The latest chapter in the paper money battle in Germany is that printers in Cologne decide they must have 3,000,000 marks per week.

That sounds like a regular hold-up, but when it is remembered that a million marks can be bought for about 90 cents in our money, it means that these printers want \$2.70 per week in actual cash.

### He Swam Across Lake Erie.

Every year seems to bring with it a new lesson in the powers of the human frame. If last month a man had stood on the shores of Lake Erie and stated he was going to swim from Point Pelee across to the other side, the chances are that bets would have been staked at once regarding the number of miles he would go before he would ask to be pulled out of the water.

But Carbis A. Walker, of the Cleveland Y. M. C. A., went to the edge of the water at Point Pelee, plunged in, and 20 hours and 15 minutes later stepped on the shore at the other side of the lake, 34 miles distant.

A lifeboat was to have accompanied him, as well as a rowboat, but when the lifeboat was not on hand Walker decided to go ahead anyhow, without compass or chart, simply relying on the sun, moon and stars for direction. Strange as it may seem, he and the rowboat that accompanied him went through choppy water and fog in almost a straight line.

Of course the question comes, "But what good purpose is served by such an effort?" A man starts to work at any line of endeavor; he employs all the art and skill he can command, and feels that he can tackle big things, not perhaps from any definite motive, but the accomplishment of each thing tackled gives him new strength. So with a swimmer. Walker had studied swimming; he knew just what strokes he could use to best advantage; he thought he had accumulated enough training, and with all this in his possession he wanted to put himself to the big test of swimming across Lake Erie, a thing never before accomplished.

Useless effort? Perhaps, but at the same time when Walker stepped out of the lake on the American side it must be admitted that he had shown himself possessed of almost superhuman skill and endurance.

As far as records show, his accomplishment is a record that has never been equaled or approached in fresh water or salt. In 1875 Captain Webb swam from Dover to Calais in 21 hours and 45 minutes. This is 18 miles, with about 10 miles allowed for current deflection. This trick was duplicated in 1911 by Thomas Burgess in 22 hours and 35 minutes. Walker made 34 miles in 20 hours and 15 minutes.

The physical director who accompanied Walker made a sensible remark at the end of the trip when he said he would never advise a person to try the trip again, as the strain was too great for even the strongest swimmer.

Still, Walker has the satisfaction of having demonstrated that a man can swim across Lake Erie, a distance of 34 miles.

### The Dangerous Tin Whistle.

Another case is reported where a tin whistle went down a child's throat. Unfortunately the child choked to death before an operation could be performed.

The wonder is that as a people we have fooled over things like this so long. Those flat tin whistles, about the shape of a button, are, and always have been a positive menace, and more than one child has been killed by having the thing go down his throat.

And yet it has always been quite legal to make and sell them, or put them in popcorn bags for prizes.

And every one that is sold is a source of danger.

### Chance Plays Its Part Well.

Chance plays a big part in the uncovering of crime. Chance is the one thing that the shrewdest criminal fails to reckon with, and the reason is that he cannot reckon with it.

With the whole police machine in operation around Toronto looking for the car which the bandits used in their hold-up work, it remained for a boy, out on a week-end picnic, to wander to the barn where the car was placed.

The same thing figured in bringing Sidney Murrell

back to the jail in London. He purchased an automobile, not knowing that it had been stolen. The chance that led him to buy that machine was the first step in bringing him within the grip of the law.

The same force is in operation against the much-wanted bandits in Toronto. It operates in places where the best laid plans of the police cannot reach. It may yet prove the undoing of the murderers who shot down the Toronto bank messengers.

### The Guelph Mercury and Its Publisher.

It was 25 years ago on the first of August that Mr. J. I. McIntosh became owner of the Guelph Mercury. In partnership with Mr. Galbraith, who went west to Red Deer, in 1905, since which time Mr. McIntosh has been publisher and the guiding spirit of the paper. It is 56 years since the Mercury was published as a daily, and the only stop made in all that period was for the swallowing of another paper that had started in business there.

Mr. McIntosh has tried to make the Guelph Mercury a real newspaper; he is a good spender on plant and equipment, and the way he has scrapped old machinery and presses sets a pace that not many would be inclined to follow. In his news departments, too, he considers that his readers are entitled to have the best of service.

But, what is even greater, the Guelph publisher determined to keep his paper clean and honorable. Mr. McIntosh has fought the Conservatives, and at times he has fought the Liberals, doing so because he was convinced it was in the interests of the community to do so. The right or wrong of any question has more weight with him than mere political consideration. In fact Mr. McIntosh would never qualify as a first-class politician, for he likes to think for himself, and would be certain to kick through the dashboard at critical times.

Besides having a successful business, the publisher of the Guelph Mercury has something of equal worth, the esteem and affection of every member who is now or ever was on the staff. They work with him rather than for him.

### Our Musical Maladies.

A few months ago we were freed from the words and music of "I Know Where the Files Go."

It was taken off the song sheets used at places where vocal efforts are possible only in mass formation. Now we are greeted on every hand with "Yes, We Have No Bananas."

What is the use of getting over the smallpox, and having the sign taken down and the house fumigated, only to find out that you are in for a siege of scarlet fever?

### Second Place for Cleopatra.

The management of the Canadian National Exhibition want a regular beauty to represent Cleopatra at the pageant this year. She must be a regular stunner handsome, vampish and all the rest of it.

No doubt this contest will be keen, but the greatest woman at the fair is to be identified in the place where they exhibit the home-made pies and the hand-made pillows.

### Note and Comment.

That Nova Scotia strike cost the workers almost \$2,000,000 in wages. The sad part is that the men who lost it can't afford it.

One housekeeper says the surest way to see the price of sugar drop is to go and buy a 100-pound bag. There's sure to be a reduction next day.

The post of financial controller for Ontario might very well be given to some thrifty housewife who has to look after a family on a wage of \$20 a week.

New Jersey schools are going to teach left-handed pupils to use their right. This may perish some great southpaw baseball pitchers, prospective recruits for United States' greatest industry.

Paris dress designers now say that the long skirts won't do, and that they must be short again. Very simple, for a pair of scissors will save the situation this time. It's cheaper to go from long to short than from short to long.

The magistrate in Brantford says a cornet is good only for disturbing neighbors. Perhaps. But when one young man starts to disturb them with a cornet, and another with a bass horn, while farther down the block another seeks to master the clarinet, it means that the town is going to have a band. A nuisance individually, but collectively a pleasure.

### WHEN THE \$2 PUP WENT WEST.

Well, we buried the \$2 pup in the corner of the garden last night. He was only a bit of wool when we picked him out of a soap box on the market one day. He was there with his brothers and sisters, and he looked a little more anxious to be bought than the rest of them. He went through all the stages of an ordinary puppy, and he pulled the tassels off the cushions and upset the fern box; he chased the neighbor's chickens and howled when he was put to bed in a box on the landing of the cellar stairs.

But he kept on growing and after a great deal of urging would finally do what he was told to do if he had the notion that way. He barked at the postman, barked at the man who read the gas meter, barked at the boy who comes with the bread, and barked at the man who brought the daily lump of ice. He seemed to take it for granted that all this was part of his duty around the place; he was being fed and bedded, so had to render some sort of useful service in return.

Then one day the assessor came around and he barked at him, and that bark cost \$2, which made him a \$4 pup. Yes, sir, that bark brought a postcard from the city hall stating that it would be necessary to purchase a bit of civic jewelry for the pup. So with the purchase of the tag came a collar, which was another dollar, making him a \$5 dog. He never did approve of that collar or the tag, but of course pups have to wear such things just the same as men have to wear boiled shirts sometimes whether they like them or not.

Then one day he refused to eat. The diet was changed to a new sort of dog biscuit, but the pup didn't take to it at all, and he even turned up his nose at it. A touch of distemper, also gave him a bottle of medicine, labeled "Dog, one teaspoon at night." That was \$2, which made him worth \$7. But the stuff that was put in with a needle and the contents of the bottle didn't seem to do the trick, and the patient got worse. Every day his eyes were washed out with warm milk and cotton, and he took his bitters regularly, but he got worse until he could hardly walk around. Even in his sick days his yellow tail would wag when he received attention and a pat on the head.

But yesterday he went into what looked like a convulsion, and when we went to try to help him he growled. Didn't seem to want any person around him. The dog doctor said it was all off, and the easiest way out was a whiff of chloroform. It was a painless sort of operation and the pup never knew what happened to him.

So the boys dug a hole in the back of the garden, and last night they put the pup away in the basket he used to sleep in down on the cellar landing.—K.

## The Guide Post—By Henry van Dyke

THE CALL OF THE TRUMPET. If the trumpet give an uncertain sound, who shall prepare himself for war?—I. Corinthians xiv, 8. Every man, like the knight in the old legend, is born on a field of battle. But the warfare is not carnal, it is spiritual. Not the east against the west, the north against the south, the "Haves" against the "Have-nots," but the evil against the good—that is the real conflict of life. The question for each one of us is not only, "On which side do I count?" but also, "To which side do I call?" If we really wish the good to prevail, we must be willing to say so as well as to do so. Make no secret of your allegiance to the good cause in which you believe, even though personally you may fail and fall. Condemn yourself if need be, but let not your trumpet of faith in the best give an uncertain sound. (Copyright, 1923, by The Republic Syndicate.)

## "Too Tired To Play"

By ANNE CAMPBELL. "I am tired! Too tired to play," she said. And lower dropped her pretty golden head. Her eyes, twin lakes that mirrored heaven's blue, Were heavy with fatigue and illness too. Within my arms I held her, oh, so tight! One's dearest joys too quickly take their flight: "I am too tired! I am too tired to play!" So many years ago, it seems today. I hear her cry it often in my dream—My baby still, safe where the starlight gleams! In your long home, such endless miles away. Oh, heart of mine, are you too tired to play? ## TO THE EDITOR.

LET US HAVE A REAL CITY. Editor of The Advertiser: Sir—In forwarding this letter to The London Advertiser, I take a step which I believe necessary, and the dutiful act of a Canadian citizen. The condition of some of London's much-used streets is a disgrace to all concerned. What a welcome to an Old Boy making the trip by motor! What discomfort is occasioned by our inattention to this matter? Not only is Richmond street in a dilapidated condition; several others are in like state. Take for example: York street, from Ridout to Richmond; Wellington, from York to Dundas; King street, from Talbot to Ridout, and others. To show the results of this, I will tell an instance of which I know personally. One man shook the battery of his bicycle light from its case while going up one of the streets.

Are Women Overworked. Yes, hundreds of thousands of them are. This applies to the housewife and mother who struggles on a small income to make both ends meet by doing all the washing, ironing, cooking, making and mending for a large family. There are others who not only support themselves working in factories, shops, stores and offices, but often have an invalid father or mother to support, therefore do housework besides. These are the women who break down early and are afflicted with various forms of female weakness. Ninety-eight out of every 100 women who have tried Lydia E. Pinkham's Vegetable Compound have proved that it is a successful remedy for women's ills. For nearly fifty years it has been restoring women to health, and it will pay every ailing woman to try it.—Advt.

## Your Health: How To Treat Your Ear in One Common Emergency.

By ROYAL S. COPELAND, M.D. There are many popular beliefs which are founded on scientific fact. Likewise, there are some which are absurd.

I am glad to observe that the modern school teacher discusses these matters with her pupils. She is attempting to fill the minds of the students with accurate and common-sense information. Of course, the child does not always get exactly the right idea of what the teacher intends to convey.

For instance, my 12-year-old boy was discussing with me yesterday what had been taught him about gallstones. He told me the teacher said alcohol would dissolve them. But when I suggested that perhaps this is an argument against the Volstead act, he hastened to say the treatment is useful for children only, and would do harm to grown people! Then he added that he might be mistaken about the particular drug, possibly it was not alcohol the teacher mentioned.

Of course, it wasn't, but it is just this way that erroneous ideas get started. Somebody misunderstands, or fails to remember exactly what was said about some ailment. He passes on to others his mistaken notion and pretty soon all the world holds to a false idea.

Most people believe that a foreign body in the ear may "work its way into the brain." This is a silly idea—absolutely without foundation. What does happen, however, is that the ignorant and awkward efforts to remove it, succeed only in driving the thing deeper and deeper into the passage.

At the bottom of the canal is the ear-drum, a delicate membrane which guards the middle-ear, where the little bones are.

If roughness and unskillful efforts are used, the foreign body may be pushed down against the drum and may even rupture the membrane. This causes pain and real harm. Sometimes, in the mistaken idea that a foreign body has entered the ear, an overzealous friend has actually destroyed the drum and scraped out the little bones. Damage which cannot be repaired may be done in a few minutes.

There is a funny old saying, attributed to a wise doctor, that "nothing should be put in the ear except the point of the elbow." This is excellent advice for the layman. There are times, of course, when for one reason or another it is ad-

visable to remove the foreign body when your doctor cannot be reached. If such an emergency arises gentle syringing is all you should attempt. Warm water and a gentle flow of the fluid into and out of the ear will probably accomplish the desired result. But no force should be used. Severe pain and perhaps fainting will follow undue force. The best plan is to go to your doctor, but there is no imperative hurry about that because the foreign body will not stir if it is left alone. Still, you should ask your doctor to remove it as soon as you can conveniently visit him. (Copyright, 1923, by Newspaper Feature Service, Inc.)

## EVELYN BEATRICE JARRETT.

Special to The Advertiser.  
Cayuga, Aug. 2.—The funeral of Evelyn Beatrice Jarrett, the 14-year-old daughter of M. H. Jarrett, took place on Wednesday afternoon from the home of her parents to the Cayuga Cemetery. It was very largely attended, as the deepest sympathy is felt for the family in the loss of their bright young daughter after an illness of about two months. Rev. W. C. Almaack conducted the services, and Roy Carter, Edward Blake, Ray Tomlinson, Aubrey Douglas, Eugene Barry and Kenneth Henslip were pallbearers. The numerous floral offerings which surrounded and covered the casket were carried by boys about the age of their young friend who had passed on, and who is survived by her parents, two young brothers and two sisters.

## WILLIAM HENRY WILLIAMS.

Special to The Advertiser.  
St. Thomas, Aug. 2.—William Henry Williams, a former resident of this city, and a well-known trainman on the C.P.R., died Wednesday morning in Harper's Hospital, Detroit, following an operation, aged 52 years. Mr. Williams was invalided about a year ago, shortly after he left St. Thomas with his family to take up a position on the main line of the C.P.R. He was born in Wicklow county, Ireland, and came to Canada as a young man.

Mr. Williams was prominently connected with Unity Lodge No. 47, Brotherhood of Railroad Trainmen. He was also a member of I.O.O.F. Lodge No. 76, and of Tecumseh Lodge No. 11, G.O.P.

Besides his wife, he leaves two daughters and a son: Mrs. A. H. Brockie and Mrs. Margaret Allen, and Russell of Detroit; also three sisters and a brother, Mrs. J. A. Young, Thamesville; Mrs. E. New, and Mrs. R. C. Little, Toronto, and James Williams of Detroit.

The remains will be brought to St. Thomas Saturday on M.C.R. train No. 36, and will be taken to the undertaking parlors of P. R. Williams & Son. Interment will be made in St. Thomas Cemetery. The services will be held under the direction of Unity Lodge at 2:30 o'clock.

## MRS. TERESA NOLAN.

Special to The Advertiser.  
Wallaceburg, Aug. 2.—The funeral took place on Monday of Mrs. Teresa Nolan, who died at the home of her parents, Mr. and Mrs. Michael O'Neill, at lot 7, concession 3, in the Township of Chatham, after a long and painful illness. The funeral was held from the late home of deceased, lot 13, concession 3, and solemn requiem high mass was sung at the Church of Our Lady of Help by Rev. Father Joseph O'Neill, who was assisted by Rev. Father McCarthy of Thamesville, as deacon, and Rev. Father McKee of Chatham, as reader. Rev. Father Stanley of Woodstock preached a touching and eloquent sermon, and dwelt on the sterling qualities of the deceased.

Other clergy, who were present in the sanctuary, were Rev. Father O'Driscoll of Port Lambton, and the Rev. Father Harrigan of Chatham. The pallbearers were Harvey Duhene, William Burgess, Harry McMurray, Vincent Moran, Peter Murphy and Harry Boulton.

At the graveside in the Wallaceburg Cemetery the address was delivered by Rev. Father J. Brennan, who was assisted by Rev. Father O'Neill.

## JAMES C. WADDELL.

Special to The Advertiser.  
Petrolia, Aug. 2.—The funeral of James C. Waddell, aged 61, died Monday, after an illness of two months, was held today.

## DR. WILLIAM F. SAVAGE.

Special to The Advertiser.  
Guelph, Aug. 2.—Word was received in the city this afternoon of the death of one of Guelph's most prominent physicians in the person of Dr. William F. Savage, which occurred this morning at the residence of his daughter, Mrs. D. Cramer, Haughness Heights, Vancouver. Dr. Savage was a well-known currier and bowler, having been president of the Royal City Curling Club and the Guelph Lawn Bowling Club, and was also a prominent member of the Maritime Order, a past district deputy grand master of the Wellington district.

## RUTHVEN

Special to The Advertiser.  
Ruthven, Aug. 2.—Mr. and Mrs. Nelson Peterson, who have been laid up through accidents which they received in their farm, are able to be around again.

Mr. and Mrs. Jason Malott attended a reunion of the family at the home of Mrs. Jonas Wigle at Kingsville this week.

Rev. Robert Hicks, chairman of St. Thomas district, and Dr. Dobson of Alma College, were recent guests at the personage here.

Mark Dawson is quite ill at the home of his uncle, Stanley Dawson, at Kingsville.

Mrs. Ella Woodwiss of Windsor is here this week, the guest of her many friends.

Miss Myrtle Walters is the guest of friends at West Lorne.

Jack Collins of Windsor, who formerly resided here, is here this week looking at several farms. He will probably buy one of them and move here this fall.

Hot Weather Dishes Tempt  
Jaded Summer Appetites

Cooking Expert Gives Instructions For Concocting Attractive  
Foods by Combining Fruits and Vegetables With Jelly.

Gelatin is a standby when the hot days are with us. Nearly everyone welcomes the cool sparkle of jellied dishes, and their variety is endless. The following recipes are by a cooking expert who knows how to tempt the jaded summer appetite:

**Tomato Salad.**  
Remove the meat from a two-pound lobster, cut it in pieces of uniform size and dress with oil, vinegar and cayenne—let it remain in dressing until well seasoned. Take one envelope of gelatin and soak in one-half cup cold water ten minutes. Place one quart of water in a pan with the outside pieces of celery that cannot be used on the table, add a carrot, an onion and a few sprigs parsley, salt and pepper, and boil gently one hour. There should be two cups of liquid. Add the soaked gelatin and a tablespoonful of lemon juice. Strain and cool.

**Tomato Jelly.**  
Take one and one-half cups of any left-over tomato stew or soup, bring to the boiling point and dissolve in it one tablespoonful gelatin softened in one-half cup cold water ten minutes. Season well. A little chopped onion, pepper or celery may be added for flavor. Strain, turn into mold and chill. Cut in thin slices and serve on lettuce leaves with mayonnaise, or mold in individual cups.

If any hard-boiled eggs are at hand, place slice in the bottom of

small cups and fill with the tomato mixture. Or the tomato jelly may be molded in a thin sheet, cut in squares, spread with cream cheese and put together sandwich fashion.

**Make tomato jelly mixture.** Wash, scrape and cut celery stalks in thin slices crosswise; there should be one cup. Peel and core two large apples, cut in slices and in small pieces. Chop one cup walnut meats. Mix celery, apple and nut meats, and moisten with mayonnaise dressing. Put one tablespoonful tomato jelly mixture in each individual mold. Then add celery, apples and nuts and cover

with the tomato jelly. Chill, turn from molds and garnish with water-cress.

**Jellied Vegetables.**  
Soak one envelope gelatin in one-half cup cold water ten minutes. Add one-half cup vinegar, two cups boiling water, one-half cup sugar and one teaspoonful salt. Strain, and when mixture begins to thicken, add any left-over vegetables on hand, such as string beans, peas, beets, chopped cabbage, a few stalks of celery, a little cucumber or pepper. Turn into a mold first dipped in cold water and chill. May be served with or without mayonnaise and lettuce.

**Fruit Salad Supreme.**  
Soak one envelope gelatin in one-half cup cold water and add two cups boiling water, one-half cup mild vinegar and one-half cup sugar. Strain, and when mixture begins to stiffen add three cups fresh fruit, using cherries, oranges bananas or cooked pineapple, alone or in combination. Turn into mold first dipped in cold water, and chill. Remove from mold to nest of crisp lettuce leaves, and accompany with mayonnaise or boiled salad dressing.

## Nutrition Nuggets

Remember that cold meat is much more digestible than meat which has been reheated and cooked in a "made" dish.

Children of two and a half to three years are ready for the addition of green vegetables to their dietaries. Peas, spinach and string beans should always be mashed and put through a vegetable strainer. Asparagus and celery should be given only in the form of strained "stock" combined with milk.

That we may get the best results from our diet it is important to pay attention to environment while eating, to one's condition at the time of eating, and to the reasonably slow method of consuming food.

Dr. Jesse Williams gives these causes of "indigestion": Improper choice of foods, bad cooking, food idiosyncrasies, fatigue, worry, rapid eating, overeating, drinking cold water before eating warm food, constipation, defective teeth, various diseases.

Nothing is more deleterious to the flavor of coffee than lime. If the water is "hard" see that the coffee pot has an extra scrub every day so as to keep it free from deposits.

Children of school age require daily one quart of milk, a part to be used as a beverage, the remainder as a basis for soups and desserts; one green vegetable, one egg, one serving of fresh fruit and one of stewed, whole wheat bread and fresh butter, a little honey or brown sugar and a serving of a meat or protein. Guard the children's teeth by providing foods that are high in mineral content.

## When You Can Be Well, Why Be Sick?

Why Suffer Delay and Grow Worse?  
Enjoy Life—Health—Happiness

To Have No Back Pains, No Nervousness, No Kidney Disease, With Plenty of Life, Energy and No Blood Disease, Is the Wish of Every Young, Old or Middle-Aged Person.

To you—if you are sick—if you suffer—if you are afflicted with any ailments of MEN—if you are worn out, tired or failing, if you need medical advice—if you are not in perfect health—if life is a dragging, miserable existence—if you lack energy, vim and vigor that make life worth living, to you—rich or poor—young or old—you need my treatment at once.

**Nerves and Blood Are Life.**  
The lack of nerve force is found among men of all ages. This is true with men in all walks of life, from the day laborer to the mechanic or professional man. Merchant and clergy are alike sufferers—no man is exempt from the ailment who has rebelled against nature's laws—so if you have the result of overwork, dissipation, sedentary habits or worry, and your vital organs are disturbed, remember, delay in seeing the right doctor makes it more difficult to overcome the symptoms, and you might reach an incurable condition beyond relief if you delay too long.

**My Equipment**  
Is composed of the latest and best known agents in Electrical, Surgical and Mechanical Apparatus, and I am prepared by the knowledge of their uses and the experiences in prescribing them so as to get the greatest uniform results from them.

**I Am Prepared to Give You**  
Serums, Bacterins, Vaccines and any and all forms of treatment of this character that have been tried and proved a success.

**YOUNG MEN—THINK OF YOUR FUTURE**

How about it, are you qualified to face it—are others doing more and getting more out of life than you are? Find out, if you don't know already, what is dragging you down. No one can violate nature's laws and succeed. I have helped thousands physically, mentally, morally, I believe I (as I have thousands of other men), can help you. Just be frank and tell us your troubles. Let me help you to regain and maintain your health.

**The Dangers of Bad Blood Overcome by SCIENTIFIC METHODS**

## URGE SENIORITY RIGHTS IN FIRE DEPARTMENT

LONDON FIREMEN URGE  
THAT SENIORITY RIGHTS  
PREVAIL IN DEPARTMENT

Members Claim Discrimination Shown in Allotting of Duties to Men With Short Service—Believe All Should Be Given Chance To Prove Ability.

## MAYOR THINKS SURVEY WILL DO GOOD

"Seniorty should prevail." This is one of the grievances among certain members of the London fire department, as some of them explained it to The Advertiser today, and this is one of the questions, it is further explained that is now receiving the consideration of Dr. Brittain and his experts, who are investigating several municipal departments, including the fire and police.

**Charge Discrimination.** Some of the men charge discrimination in the allotment of duties, one of the men related this morning, and cited an instance. There are members of the force who have been selected in the past, they say, for the positions as drivers. This position means a difference of \$2 a year, and while this sum is not exorbitant, it would pay house rent for one month, the men point out.

The Advertiser was told today that certain persons were selected for these positions when there were others who were not considered, although their service was greater. One man with but three weeks' employment to his credit, was placed as driver of certain apparatus at the central station, and while the man in question had not sought the task

he had no alternative but to accept. The Advertiser's informant pointed out that the men, of course, appreciate the fact that while a man might be senior to others, it would not necessarily follow that he should retain a driver's job if not competent for the task. They do insist, however, that he should be first given an opportunity to demonstrate his worth before the work is given to another who has not been as long in the service of the city.

**Complete Re-organization.** The members of the local fire department have their union, and from general observation, reports and complaints that have emanated from various sources from time to time, it would appear that there has been, in fact, considerable dissension throughout the department.

Mayor Wenigke still insists that the visiting experts now "surveying" that department will get at the source of the dissatisfaction, if any does exist. In his inaugural address he asked for a complete re-organization of the department and the present investigation of the council, however, including Ald. John Colbert, who still maintains that the council should have undertaken this work upon its own initiative.

PROPOSED SITTING  
OF CITY COUNCIL  
TODAY DEFERRED

Alderman Douglass Unable To Get Majority To Sign.

## MAYOR'S OPINION

Considered All Members Should Be Present For Discussion.

No meeting of the city council will be held today, contrary to expectation. The mayor, who was expected to call a special session to consider the recommendation of the transportation commission that Sir Adam Beck be authorized to approach the London Street Railway Company for a purchase price.

The mayor felt, however, that no meeting should be held, unless all members of the council could be in attendance, so Ald. Douglass directed City Clerk Baker to frame a petition requiring the signatures of a majority of the council, whereby a special session would be perfectly legitimate. Sufficient names were not secured, however, and no meeting can be held until Tuesday at the earliest in view of Monday's holiday.

Ald. Douglass is more confident than ever today that Sir Adam will be able to secure a prospective purchase price from the company, to be submitted to the people in December.

WILL MAINTAIN ORDER  
IN OLD HOME WEEK

Chief Birrell Will Not Tolerate Undue Rowdiness On City Streets.

"While we want the visitors to London next week to have a good time every day that they are here, law and order will be maintained and rowdiness will not be tolerated."

Chief Birrell, of the local police force, made the above statement to The Advertiser this morning, when speaking about the Old Boys' Reunion to open here on Sunday. "Law and order will prevail," he declared. "In past years there have been many cases of people throwing talcum powder on others and striking them with toy whips. In many instances this necessitated trips to doctors or the hospital in order that they might receive attention. This sort of thing does not go with a good time. People can enjoy themselves without making things unpleasant for others."

"The first person found doing anything like this will be arrested," concluded the chief, "and charges of disorderly conduct, if not assault, will be laid and prosecuted."

REMAND MOSSBURGH  
FOR TRESPASS ON C.N.R.

City Police Hold Minneapolis Man For Deportation Order.

Leslie Mossburgh, claiming Minneapolis, Minn., as his home, appeared in police court this morning on a charge of trespassing on the property of the C. N. R., and was remanded for a week in order that a recommendation for his deportation might be made. He pleaded with the magistrate to be allowed to go back to Detroit, where he said he would get work.

William Henry, 29, Toronto, was also remanded a week on a similar charge, in order that he may get in touch with his parents. Hilda Bell, charged with vagrancy, was remanded a week in order that the authorities may get in touch with the Salvation Army. She was arrested a week ago for soliciting.

Roxie Williams, arraigned on the same charge, and suspected of attempting suicide, will be deported to the States.

THEBES SANCTORUM  
TO STAGE BIG OUTING

Fraternal Organization To Make Merry at Springbank August 22.

The largest picnic of the season is scheduled for Aug. 22 at Springbank Park, when the Thebes Sanctuaries, O. O. H. and P., consisting of members of the Oddfellows, will make merry at the river resort.

May Queen Rebekahs, No. 5, and Victoria, No. 1, will turn out strong. Invitations have been sent to Exeter, St. Thomas, Aylmer, Strathroy and Kerwood. A lengthy and novel sports program has been drawn up, and a baby show will also be held. Mayor Wenigke will act as one of the judges in the latter. A 57-piece brass band has been secured for the day, and it is safe to say that the day will be long remembered.

The committee in charge of arrangements for the day is as follows: R. R. Whitehead, general chairman; J. Kilpatrick, secretary; W. Patterson, sports; A. Dundas, refreshments; Fred James, printing; James Langdon, transportation; the noble grand of the Rebekah lodges are also on the refreshment committee.

ASSESSMENT MEN  
LEAVE WORK FOR  
OUTING AT PORT

Renounce Income Tax Worries and Frolic in Sports at Lakeside.

## FEATURE BALL GAME

Inspector Plewes' Team Noses Out Athletes of Inspector Tambling.

Assessment files, forms and other intricacies of a federal income tax office were calmly thrust aside yesterday afternoon, when between 60 and 75 members of the London inspector of taxation's staff journeyed to Port Stanley for their first annual picnic.

A happier crowd than that which boarded the 1:20 train to the lakeside could not be imagined, and the exuberance of the merry-makers, both young and old, increased on the trip to the picnic grounds. Hardly had the last person left the train at Port when preliminary arrangements for the staging of the novelty program of sports were under way.

**Everybody Frolics.** Staid department heads, who during office hours leave the impression of being cold businessmen, revealed their true selves after the departure of the outing with a spirit that equalled that of the most care-free flapper on the grounds.

After the events were satisfactorily run off, the feature of the afternoon was announced. It was a ball game between teams captained by Inspector George Tambling and Assistant Inspector Jack Plewes. The personnel of the teams was kept a dark secret until the last moment, and this added to the boisterous interest. Bets were made on the outcome of the game. Both teams fought gamely, but Mr. Plewes' squad were a trifle too fast and their team work too compact for Mr. Tambling's aggregation, and they nosed out a win by 8-7.

The victorious team was composed of J. M. Dickinson, J. H. Woodward, J. N. Wood, J. W. Plewes, M. Connor, F. O. Graham, C. E. Smith, O. Cook, N. Dunn, W. Pether, W. H. Irvine, and M. Andrews. The inspectors' fighters were: H. G. Morgan, C. V. Waters, A. Morrison, L. E. Thompson, G. C. Kennedy, W. E. Capewell, E. Tambling, N. Jones, M. Fritz, L. Walton, and A. Henderson. Miss M. S. McLeod performed the duties of umpire so well that the captains vowed she should stand behind the plate at the next contest.

**Enjoy Waters.** After the game the party broke up to go in bathing, and at 7 o'clock all assembled again for supper in the cafeteria, when the prizes were distributed.

The winners in the events were: Soda biscuit contest, Katie Switzer; Annie Henderson; balloon race, Winnie Pether; Lucy Thompson; men's 100-yard dash, M. Dickinson; Alex. Morrison; potato race, Marjorie Connor; Madeline Dunn; girls 75-yard dash, O. Cook; Marjorie Fritz and Madeline Dunn; three and needle contest, O. Cook and Mildred Dickinson; Lucy Thompson and F. O. Graham; paper bag race, Marjorie Connor; Lucy Thompson; Barney Google race, Marjorie Fritz and Morrison; Lucy Thompson and F. O. Graham; clothespin race, Madeline Dunn; Myrtle Andrews.

**NEW PARIS HIGH SCHOOL.** Special to The Advertiser. Paris, Aug. 2.—The construction of the new Paris high school building on the Capron site is rapidly progressing. About 25 men are now working on the foundation of the building.

STUDENTS HOLD FINAL  
OUTDOOR SOCIAL EVENT

The final Friday afternoon social and outdoor event of the season was held today by the students at the Western University summer school. Each week it has been customary to stage a special sports program on Friday afternoon, and this week many special features were added to close the season in a becoming manner.

At 3 o'clock the students went for a drive through the city in decorated cars, and on their return visited the site of the new University of Western Ontario. Then the party returned to the U grounds by the river at 4 o'clock, where a sports program holds sway. Following that, a closing banquet will be staged on the grounds.

The idea of setting aside an afternoon a week to give the students a chance to intermingle and become acquainted has grown in favor since the first outing, and has aided in no small way to the unbounded success of this year's summer school.

Would Lend Germany Cash  
To Assist In Restoration

Ramsay MacDonald Advises Britain Advance One Million Pounds To Aid Overcome Mischief Caused by Occupation of the Ruhr.

By HENRY SOMERVILLE.  
Special Cable to The London Advertiser by a Staff Correspondent, Copyright.

London, Aug. 3.—The question which everybody asks after the government's Ruhr statement is: What will Britain do next? It is possible to apply force against France.

Various alternatives have been suggested. Lord Birkenhead, speaking for the late coalition government, would simply withdraw British troops from Germany and British representatives from the reparations commission, leaving to France full responsibility for her own policy, but the course recommended by Lord Birkenhead diminishes none of the economic mischief of the Ruhr occupation and it tacitly approves what is practically annexation by France of the most important parts of Germany.

The British government's contention is that if France stays in the Ruhr till she is eventually adopted claims demanded she stays there forever. Another alternative policy was advocated by Ramsay MacDonald, who was bold enough to suggest that we should actively assist Germany's restoration by lending her a million pounds. Financiers scoff at the effectiveness of this amount. They point out that German bank balances in foreign countries amounted a few months ago to two hundred times this figure and German credits in this country at the present time are much larger than the amount which MacDonald considers sufficient to work miracles.

The third possible policy is that Britain should encourage Germany to apply for admission to the League of Nations and that the question of the Ruhr should then be referred to the league for settlement as one endangering the peace of the world. France might object, but it would be better to have this question threshed out by the league as a world issue than to make it a dispute between Britain and France. It is most likely that this third policy of recourse to the league will eventually be adopted. Britain modifies her attitude. Britain still holds one card in her hands in the shape of debts due her by her ally. France may be ready to bargain.

LAY FURTHER CHARGES  
AGAINST CHATHAM MEN

High Constable Peters Will Prepare Evidence For Preliminary Hearing.

Special to The Advertiser by a Staff Reporter.

Chatham, Aug. 3.—High Constable Peters at noon today afternoon will see the first steps made towards laying further charges against several of the young men of this city.

Mr. Peters said he had been unable to get at it this morning, being obliged to attend police court at 4 o'clock, where a sports program holds sway. Following that, a closing banquet will be staged on the grounds.

Farmers Are Pleased  
With Bountiful Rain

Satisfaction Everywhere Is Expressed When Drought Is Relieved.

Canadian Press Despatch. Toronto, Aug. 3.—Thankfulness for a bountiful and much needed rainfall found general expression yesterday. In central and western Ontario the recent drought was beginning to have a serious influence on the farming community. In places where extensive dairying is carried on, and from which thousands of cans of milk are daily shipped into the city, the outlook was not particularly rosy. But since yesterday's heavy rain showers the gloomy looks of the farming folk have now been replaced by smiles of satisfaction.

The long drought of the past few weeks was beginning to have its effect on the cattle, as shown in the supply of milk. The small streams were becoming exhausted, and in some areas farmers were drawing water from long distances for domestic use.

The bulk of the fall wheat is cut, much of it being in the barn, and in a few cases threshed. The hay crop is practically all cut, though some of it has been left standing until after the wheat cutting. The oat crop in two weeks will be in the stalk. This crop is expected to give only an average yield.

WIRE LONDON U. S. CONSUL  
ON DEATH OF PRESIDENT

American Consul Taggart at 4 o'clock this morning received the news of President Harding's death in an urgent circular telegram reading as follows:

"President Harding died very suddenly of cerebral apoplexy in San Francisco at 7:20 p.m. Aug. 2."

This was signed by the secretary of state, and is similar to the telegram and cable rushed to U. S. consuls and consulates all over the world.

The Middlesex County stock judging team has been declared the winner in the inter-county judging competition. It defeated the team under J. H. Buchanan, district representative for Elgin County, at the second event in the series at Sheldon on Tuesday last. The Middlesex team, which is under the coaching and direction of R. A. Finn of the department of agriculture, has by this new win placed itself in the lead with a comfortable backing of 300 surplus points.

The winning team in Tuesday's contest, with the points scored by each member, is as follows: Stewart McDonald, 486 (high man); Edward Mitchell, 477; Diarmid MacTaggart, 474; Ross MacTaggart, 468; Ross Sadler, 462; N. Keays, 460; J. Murray Allen, 445; W. L. Pack, 448; Merton McGuike, 438; Clifford Jones, 430; Middlesex total, 4,585; Elgin total, 4,300.

When the judging was completed the members of both teams motored to Port Stanley, where they spent the afternoon picnicking.

GIANT GATHERING  
OF K. OF C. STAGED  
IN OLD MONTREAL

Largest Convention of History To Informally Commence on Sunday.

## PREMIER IS INVITED

Thousands of Knights to Attend Notre Dame Church For Service.

Canadian Press Despatch. Montreal, Aug. 3.—The largest convention ever held in the history of the Knights of Columbus will informally commence on Sunday, Aug. 5. From the 57 state jurisdictions of the organization in Canada, the United States, Newfoundland, Hawaii, Mexico, Porto Rico, Cuba, the Philippines and Panama thousands of delegates and visitors are commencing to arrive in Montreal.

George H. Bolvin, M.P., supreme director of the Knights of Columbus in Canada, estimates the convention, despite its distance from the American middle west, where lies the center of K. of C. membership population, will draw approximately 10,000 visitors in addition to the qualified delegates representing the 2,400 and more councils of the order.

**Begins Saturday.** The convention will get under way on Saturday. Supreme Knight James A. Flaherty of Philadelphia will call the meeting of the supreme board of directors. The formal opening on Tuesday will be preceded by one of the largest parades ever held in Montreal, when thousands of local knights will lead their visiting brothers to the Church of Notre Dame, the largest on the continent, where the solemn pontifical mass that opens all K. of C. conventions will be celebrated.

**Formal Reception.** Following the mass the convention will be formally opened after a ceremonial reception by the ecclesiastical and civil authorities of Montreal. Supreme Knight James A. Flaherty will be in the chair when the convention is called to order. The deliberations of the convention will occupy three days, the 7th, 8th and 9th, the first session of the second day being taken up with the election of officers and directors for the ensuing two and three year terms.

The convention will be preceded by a banquet on Monday evening tendered by the Montreal chapter to the supreme officers and directors of the order, which many prominent men have been invited, including Premier Mackenzie King of Canada and Commander Oswest of the American Legion.

COMMERCIAL TRAVELERS  
TO PLAY NEWBURY AT BALL

The United Commercial Travelers' baseball team is scheduled to play match with Newbury at Springbank on Saturday afternoon at 3:30.

A large attendance is expected as there is likely to be a bitter contest staged on account of the keen rivalry existing between these teams. There will be a large gathering of out of town visitors present.

On reaching Dundas street the conductor handed the boy over to a policeman.

Finn, in the box, told the magistrate that he had seen a girl in front of him whom he knew. He had thrown two peanuts at her in order to attract her attention.

"If I wanted to attract anyone's attention I would not throw peanuts at them," remarked Magistrate Graydon. "The people on these cars must be protected from any unpleasantness or inconvenience. This has been going on for some time and has got to stop. I will fine you \$2 as a warning to others, but in future the fine will be \$10 and costs."

Peanut Slinger On Trolley  
Is Fined \$2 In City Court

Leonard Finn Tells Court He Was Trying To Attract Attention of Girl Friend on Springbank Car.

Persons caught throwing peanuts on the Springbank cars will in future have to pay a fine of \$10 for disorderly conduct.

Magistrate Graydon made this declaration this morning after having heard Leonard Finn \$2 for disorderly conduct last Saturday night, when on a car returning from Springbank he tossed some peanuts at patrons on the seats in front of him.

John Tringham, conductor, told the court that after he had warned the boys to stop throwing the missiles, he had seen Finn throw another one. He went back and asked him to get off the car. This he refused to do.

VALUABLE RUGS STOLEN  
FROM TORONTO HOME

Thieves Also Manage To Get Away With Three Cases of Liquor.

Canadian Press Despatch. Toronto, Aug. 3.—Twelve thousand dollars' worth of Oriental rugs, and three cases of liquor have been stolen from the residence of G. Cecil Moore, in Rosedale, by a gang of thieves who broke in at night, smoking in the illumination of three street lights.

The theft was committed some time within the last three weeks, while the Moore family was at their summer home in Muskoka. When Mr. Moore returned to the city yesterday he found the lower floor of his house stripped of its thick rugs, and spirits missing from the cellar.

Six rugs, the best of a collection that Mr. Moore had been making for the last 20 years, were stolen. Valuing the total value at \$12,000, Mr. Moore said two of these, a red and black Bokhara, and a salmon-colored Shiraz, were especially valuable and worth thousands of dollars. Despite the fact that the house is fronted by three street lights, and is situated directly opposite government house, the robbery broke in by jimmying open a center window facing the street.

**JACK DEMPSEY WILL TRAIN AT WHITE SULPHUR SPRING**

Associated Press Despatch. New York, Aug. 3.—Jack Dempsey, the king-fighter of the world, passed through New York today on his way from Chicago to White Sulphur Springs, Saratoga, where he will go into training for his fight on Sept. 14, at the Polo Grounds, with Luis Angel Firpo.

Reports in the boxing world here stated that the champion was eager to get back into the grind of the training camp.

TON OF COAL AT FETE

St. Mary's Garden Party Is a  
Successful Event of  
Yesterday.

The garden fete which was held in the grounds of St. Mary's Church last night was one of the most successful events of the kind ever undertaken by the church. Many booths, gay with yellow, blue and white bunting and strings of colored lights, gave the lawn a gala appearance.

The largest booth, for the sale of fancy work, was presided over by the Altar Society, with Miss M. Powell as the convener, assisted by Mrs. Dalton, Mrs. M. Flood, Mrs. O'Connell, Mrs. J. Wilkins, Mrs. M. O'Leary, Mrs. Drimie, Mrs. J. Roche, Mrs. McGuire, Mrs. Warcup and the Misses M. Hurly, Costello, Bergh, M. Buchanan, Loretta McDonald, Irene O'Connell, Gertrude Pelton, N. Hurly, Mary O'Donnell and Leone Maynard.

The Mothers' Unit had arranged for the home-cooking stall and a most attractive booth it was. Mrs. Larwin and Mrs. McCormick were the conveners, assisted by Mrs. Ken-sella, Mrs. P. Ryan, Mrs. G. O'Mara, Mrs. Conroy, Mrs. O'Givley, Mrs. Hoy, Mrs. Kelleher, Mrs. McCafferty, Mrs. C. Kelleher, Mrs. Haines, Mrs. Allan, Mrs. Fitzmaurice, Mrs. Ryan, Mrs. Smith and Mrs. McCarty.

The ice cream booth was in charge of the Girls' Sodality, with Miss Mar-jorie Daly as convener, while Dr. Best, president of the Holy Name Society, convoked the soft drinks stall. The proceeds of the fete will be given to the church.

Perhaps the greatest interest was aroused through the selling of lottery tickets, the winners being as follows: Ton of coal, donated by A. J. McGinnis, was won by T. Simmons, 666 Dundas street, the lucky number being 2579; one hundred pounds of sugar, donated by Mrs. M. Gilligan, won by Mrs. Ed. Egan, 36 Blackfriars street, lucky number 471; \$10 in gold, donated by Dr. P. J. Sweeney, won by 3545 R. Christopher, 592 Adelaide street; cut glass bowl, donated by E. C. Killinsworth, won by 330 J. Weber, 422 King street; electric lamp, donated by Philip Pocock, won by 1235 J. MacGregor, 652 York street; silver cake tray, donated by Ross Mac Kay, won by 184 Fred Keaden, St. Patrick's rectory; silver sugar and cream set, donated by St. Mary's Mothers' Unit, won by 54 J. McKel-ler, 231 Waterloo street; 100 pounds flour, donated by Dr. J. S. N. Best, won by 2172 Mrs. J. Halpin, 136 Drury street, Stratford; smoked ham, donated by H. K. Anthony, won by 3250 J. Egan, 493 Adelaide street; camera, donated by W. E. Armstrong, won by 2109 S. Swift. Still another drawing was made for an electric heater, donated by E. J. Carthy, Miss Buchanan holding the lucky ticket.

ST. MARK'S CHORISTERS  
HOLD SUCCESSFUL FETE

The home of Mr. and Mrs. Edmund Webb, Dundas street, was the scene of a successful garden party last night, held under the auspices of St. Mark's choir. Strings of flags, colored lights and gaily decorated booths gave the grounds a festive appearance.

An attractive program included dances by little Misses Arlene and Natalie Bell, vocal solos by Mrs. Manning and a quartet by Mr. and Mrs. Fred Manning, Mrs. Ernest Hill and Mr. Wright, Miss Lillian Moss, at the piano. Dancing on the green by the young people was also a feature.

Mrs. Turner acted as general convener of the affair, with the following assistants: Home-cooking, Mrs. W. Langford; refreshments, Mrs. R. Parker; flowers, Miss Lillian Moss; candy, Mrs. E. Webb; putting the football, John Mirehouse; shy at Aunt Sally, Alex. Langford.

CHATHAM I.O.D.E. RAISES  
MONEY FOR GENERAL FUND

Special to The Advertiser.  
Chatham, Aug. 2.—The local chapters of the I.O.D.E. have forwarded to the local committee a check for \$1,000 for the general fund. When the project was first planned the ladies promised to give the above amount. The arrival of the check in the hands of Treasurer T. E. Cottier today completes their promise. The ladies raised the money this year by concerts, bazaars, etc.

Building permits to the value of \$41,050 were issued during the month of July. The amount shows a decided increase over the same month last year.

FIRST IN CANADA.

Miss Minnie Ginsberg, 10-year-old daughter of Mr. and Mrs. William Ginsberg, Ottawa avenue, has brought honor to the city of London. Just yesterday she received word from the Toronto Conservatory of Music that she had won the medal in the introductory grade at the piano examinations held this summer. Miss Ginsberg, who is a pupil of Miss Irene Burns of this city, was but one of many candidates from all over Canada, and her achievement in coming first is a big one. She has been studying the piano but a short time.

## WEDDINGS

MOYSE—TOMKINS.  
A quiet wedding was solemnized at the home of the Rev. W. E. Millson, William street, yesterday afternoon, when Miss Marjorie Tomkins of St. Thomas became the bride of Mr. Harry Moise, also of that city. The Rev. Mr. Millson officiating. Mr. and Mrs. Moise will reside in St. Thomas.

PRITCHETT—ADAMS.  
A pretty but very quiet wedding was solemnized at the home of the bride, Simcoe street, yesterday afternoon at 5 o'clock, when Madeleine G. Adams, daughter of the late Mr. and Mrs. James R. Adams of this city, became the bride of Dr. Leonard W. Pritchett, also of London, son of Mr. and Mrs. J. G. Pritchett. The ceremony was performed by the Rev. George T. Watts, the wedding music being furnished by Mrs. Percy King. The house was a bower of bloom, pink and white roses and palms being used to carry out a lovely decoration scheme. The bride, who was unattended, was charming in her gown of ivory crepe and pearls, made simply with pleated side drapes, and she carried a shower bouquet of pink roses.

Following the ceremony a reception was held, about twenty-five guests, all relatives, being present. Later Mr. and Mrs. Pritchett left for New York, the bride wearing a smart gown of navy crepe, black velvet hat, gray shoes and gloves. On their return they will reside at 211 Queen's avenue. Out town guests included Mr. and Mrs. W. A. Adams of St. Thomas.

HALL—DOIDGE.

A quiet wedding took place on Saturday, July 28, at 4 o'clock, at the Dundas Centre Methodist parsonage, when Minnie Amelia, youngest daughter of Mr. and Mrs. George DoIDGE, of Queen's avenue, was united in marriage to Mr. Edgar Winslow Hall of London. The Rev. John Garbutt performed the ceremony. The bride was attended by her sister, Mrs. Charles Miller of Detroit, while Mr. W. Lott attended the groom.

SCOTT—EESLEY.

Special to The Advertiser.  
Stratford, Aug. 2.—The marriage of Miss Elva Eesley, daughter of Mr. and Mrs. E. J. Eesley, to Mr. Gordon Scott of London, Ontario, took place yesterday afternoon at the home of

the bride's parents. The ceremony was performed by Rev. G. S. Scott, father of the groom, the wedding march being played by Miss Eleanor Hislop of Stratford. Mr. and Mrs. Scott will live in London.

ENNETT—LITTLE.

Special to The Advertiser.  
Paris, Aug. 2.—A very pretty wedding took place Tuesday morning in the Church of the Sacred Heart, when Miss Mabel Little, daughter of Mr. and Mrs. A. Little of Ayr, Ont., was united in marriage to Mr. J. Leo Ennett, son of Mrs. R. Ennett of Chatham. Rev. Father Holden performed the ceremony.

The bride, who looked very attractive, wore a graceful gown of white crepe de chene, with veil and orange blossoms, and carried a bridal bouquet of roses and carnations in pastel shades. Miss Annie Route, as bridesmaid, was prettily frocked in white crepe de chene, and her bouquet was of pink carnations. Mr. William Glose of Galt, was best man. Mrs. A. Little, mother of the bride, was gowned in a becoming dress of wine-colored crepe de chene with a hat of lawn. The groom's gift to the bride was a set of pearl ear-rings.

After the ceremony a delightful wedding breakfast was served. Summer flowers and greenery formed

charming decorations in the drawing-room, where many friends of the bride and groom gathered to wish them happiness. Amid showers of confetti, the couple left for a wedding trip, going to Chatham and points west.

For traveling the bride wore a fashionable frock of orchid crepe de chene with white lace and a chic hat of leghorn and paisley silk.

MAHONEY—PEARCE.

Special to The Advertiser.  
St. Thomas, Aug. 2.—The wedding was quietly solemnized at Central Methodist parsonage on Wednesday evening, August 1, of Mrs. Cora Bell Pearce, of this city, to John Henry Mahoney of Tabbotville. Rev. Robert Hicks officiated at the ceremony.

JACKSON—COUNTRYMAN.  
Special to The Advertiser.  
Chatham, Aug. 2.—On Saturday, July 21, the marriage was quietly solemnized at the Baptist parsonage, of Robert Jackson, a member of the local fire department, and Miss Ruby Countryman. Rev. J. T. Marshall performed the ceremony, and the witnesses were Chief Pritchard and Miss Thompson of London. Mr. and Mrs. Jackson are residing in the city.

## At the Movies Last Night

"The Man of Action."

"The Man of Action" at the Allen is a rather entertaining sort of film. It stars Douglas MacLean as a comedian, but he has little to do other than provide an affable pivot upon which to swing the plot. A large share of the comedy is provided by Raymond Hatton in a minor role, but which stands out very much, other than minor, in a highly amusing manner.

Marguerite de la Motte, also starred, is a bit too much given to exaggerated efforts, but this failing is not particularly apparent, as the greater part of the enjoyment in "The Man of Action" rests upon the plot.

There are numerous instances where one's credulity is taxed, but all things are forgiven in a farce, if it is really funny. An evening during which a man doubles for himself is bound to give rise to a number of ludicrous situations. In "The Man of Action" these occasions are surprisingly frequent. It is an excellent film in the way of light entertainment.

"The Gentleman of Leisure."

A most unusual act in which trained birds are featured starts off the vaudeville program at Loew's this week. Only one versed in such matters could give the birds their proper name, but they appear to be cockatoos in company with two parrots of gorgeous plumage. The contrast between these birds and the white plumage of the remainder, together with a pretty setting, makes the act one of real beauty. The birds go through some quite extraordinary stunts, which are distinctly in a different class to the average "animal" act. Following this are a pair of comedians, both of whom are clever dancers, but one of whom is particularly expert. The "hoop-jumping" stunt with which he answered an encore was practically an act in itself.

The third act, "Naomi and the Brazilian Nuts," is marked by a rather brilliant "jazz" rendering of a well-known melody, more music on a weird instrument, surely of Brazilian ancestry, and a display of vigorous soft-shoe dancing by a colored gentleman in golfing togs. The picture, Jack Holt in "The Gentleman of Leisure" is a noisy diverting summer-time comedy. Were it not for the fact that the situation was in the author's hands to untangle, everything that happened might not have been exactly comedy to the mind of the hero, one Robert Willoughby Pitt. However, the series of events which take place on the arrival of a titled English family in New York are nothing if not amusing.

One of the most interesting features is Sigrid Holmquist as "Molly Creedon." This is her first appearance at a local movie house. May she come again.

## "Truxton King."

"Truxton King" at the Patricia, is a Graustark story. This tiny but romantic kingdom in middle Europe is now well-known by its association with any of the George Barr McCutcheon novels. If the Graustark court exists only in fiction, nevertheless, the adventure and intrigue with which it surrounds itself are of very real interest indeed. John Gilbert is starred in the role of Truxton King ancestry, and a display of vigorous

OF HARDING'S DEATHTheodore Roosevelt Says Pres-  
ident Gave His Life For  
His Country.

Special to The Advertiser.  
Washington, Aug. 3.—Theodore Roosevelt, acting secretary of the navy, today broadcast a general order, notifying the naval service of the death of President Harding. The order follows:

"After a life of national service, our commander-in-chief, President Harding, died at San Francisco last evening. Through the trouble and important years he gave himself un- sparingly to the service of our country and accomplished great good. He was himself down by the burden he was carrying. No man in our history more truly gave his life for his country. Under the constitution, Calvin Coolidge, vice-president, has become president."

All Over Western Canada

Canadian Press Despatch.  
Ottawa, Aug. 2.—Following to rust and other detrimental agencies crop prospects in the prairie provinces are not so bright as was the case a month ago, according to a report issued to- night by the Dominion bureau of statistics, in which the agricultural situation throughout Canada is dealt with.

Manitoba, Saskatchewan, Alberta and British Columbia report that despite rust, saw fly and hail in spots, the general harvest is expected to be good. Harvesting is expected to be general by August 15. Small loss by grasshoppers is reported from South- ern Alberta. Prince Edward Island, Nova Scotia and Ontario hay is good, but harvesting weather reported bad. Quebec and New Brunswick have suffered from cold weather and crops are below average.

The experimental farm at Charlottetown reports a good hay crop in Prince Edward Island. Haymaking began on July 29 but has been held up by heavy rains. The crop outlook is good.

Reports from Nova Scotia say there is an exceptionally good hay crop, but poor haymaking weather. Prospects for potatoes and roots are good, corn uneven and poor, pastures good, apple crop up to average, strawberries and cherries good.

New-Brunswick reports crops be- low average on account of drought. Hay is described as light to good, grain, roots, potatoes backward, corn fair, apples light, strawberries and bush fruit excellent.

The Quebec bureau of statistics an- nouncing prospects from that province says that the hay yield in the lower part of the province will be poor, but good in the Montreal district. In the north and eastern townships cereals have suffered from drought. Potatoes, roots and vegetables promise good, but fruits and tobacco have suffered from the cold.

Ontario reports a good hay crop, fall wheat medium, spring wheat average, oats only fair, barley being cut, corn, roots, potatoes fair, corn poor at first, but better now, milk flow fair.

## OLD-FASHIONED WORKMANSHIP

The Rhinels Cathedral, made the direct point of attack during the war, withstood fire to a remarkable de- gree. Buildings around it were to- tally destroyed and hundreds of shells fell within its walls, but with comparatively little effect. The se- cret lies in the way it was built. The building of a cathedral was the chief event in the history of the town. The monks who preserved the arts ever- through the middle ages, outlined the plans for the building, and every person in the community shared in the actual work. The work was never hurried; it sometimes required two or three centuries to complete a cathedral.

## MIXING UP "PLAIN LANGUAGE."

In the country about Philadelphia there are many families calling them- selves Quakers, using the plain lan- guage, but not adhering to the plain clothes which at one time was the badge of the sect. Out of compliment trad- ers and others who have occasion to come in contact with the Quakers like to affect their language, which leads to some amazing slips. Thomas Spenny, who did not long since, used to tell of one of these made by a cab driver. Recognizing Mr. Winpenny as a member of the sect, as the latter engaged him at the West Chester sta- tion, he said: "Yes, sir, yes, sir. Take that right up. Where's your bag- gage?"

## VERMONT SOAPSTONE BEST FOR HEATING.

Several varieties of rock with differ- ing chemical and physical properties are loosely referred to as soapstones, where- as some soapstones are hard, being only slightly different from serpentine, and others are soft and contain many tal- cums. Some varieties have a definite grain and others are composed of interlocking prismatic crystals.

The difference in properties affects the suitability of various soapstones for different uses. In the construction of fabricated forms, hardness, toughness and absence of grain are most impor- tant, but in the manufacture of foot- warmers, griddles and heating stoves for fireless cookers resistance to heat and retention of heat are more im- portant. Thus soapstone from certain localities in Virginia is more valuable for fabricating than for heat retention, and certain Vermont soapstone is superior for heating purposes. An in- vestigation of the properties of various soapstones would be most valuable. The market for soapstone in fabri- cated form, that is, in sinks, laundry tubs, trays, table tops, etc., is depend- ing largely upon new building con- struction. During the war and the at- tendant depression in the erection of buildings for dwellings or commercial use, the normal market for soapstone largely disappeared, but government orders partly compensated for this loss.

## Housecleaning in Japan.

The spring housecleaning in Japan is frequently done in December. The Japanese wife must be forehanded. Even though the amount of furniture be small the operations are elaborate. Every nook and corner, every box and cabinet—and how beautiful are some of the after—turned out, cleaned, polished and put in order; the spotless rice matting, which covers the floor, is taken up, brushed and beaten; the woodwork of the dwelling is scrubbed from floor to ceiling; and the paper walls and panels are flicked with a paper brush, which is the Japanese equivalent for a European "feather" duster. In al- most all Japanese houses there is a store of spare articles of porcelain ware, bronzes, lacquer and other curios stored away in boxes ready to be brought out when the housewife decides she will have a change or new scheme of ornamentation in the house. These are all unpacked, a selection made, and the other arti- cles it has been decided to discard for the time are packed away care- fully in their places.

## ROMANCE OF A STOLEN MAIL BAG.

The English postoffice department maintains an official of the nature of a historian whose duty is, among other things, to collect and record various data about the service. One of the most curious exhibits of the department is a time-worn oil-can-vas mail bag—a reminiscence of a daring mail robbery. This bag is 100 years old, and was forcibly taken by an armed footpad one even- ing in February, 1798, from the post- boy who was carrying the mails be- tween London and the continent. A reward was offered for the apprehension of the robber, but no trace of him or the mail bag was found until nearly 80 years later, when it was discovered by a man of the name of John. In 1878 an old woman in a village near London was being demolished at Churchill, near Selby, and in the rafters of the work- men found, among other things, the long-lost mail bag, it having evidently been hidden there by the highway- man of 1798, after being despoiled of its contents.

FAMOUS DETROIT  
BAND WILL PLAY  
AT PORT STANLEYSplendid Program of Sports  
and Music Arranged For  
Monday.

## GREAT BABY SHOW

Sunday afternoon and night next the famous Shadokim Band of the Detroit Grotto will render choice programs of music on Invererie Heights, Port Stanley. The Detroit London Old Boys' Association is bridging this splendid musical organ- ization to London, and it is declared to be a credit to the Masons of De- troit and to the Old Boys. The band is under the leadership of Alfred Dunn, who lived in this city until fifteen years ago, when he moved to Detroit. It numbers 40 pieces and the leader, and has a continental reputation. With the band is coming a noted soprano, Miss Jean Cam- bell, and she will sing at the after- noon and night concerts at Port Stanley.

## Monday's Program.

Monday will be London's civic holiday, and an exceptional program has been prepared by the London & Port Stanley Railway for the enter- tainment of the visitors from the city and other places, and also for the old boys and old girls who are coming back to London for the re- ception and will be sure to be deeply interested in the wonderful changes at Port Stanley that followed the electrification of the L. & P. S. R. back in 1915.

All day long there will not be an idle minute, and there will be some- thing that will appeal to everybody. The special features include concerts by brass bands on Invererie Heights and the L. & P. S. beach; a baseball match between the Falcons and St. Thomas, intermediate champions of West Elgin, and the Akin Street Elks of London; a softball game be- tween the London and Port Stanley baby show with excellent prizes and a handsome silver trophy for the champion baby of the day; daylight fireworks in the afternoon; and a dazzling display of pyrotechnics at night over the water; a rollicking program of land and water sports, with a grand array of prizes for the winners of the different events, and special prizes for the old boys and old girls, and a hundred and one other chances for amusement.

## Free Movies.

At night the L. & P. S. free movies on the beach and the community singing will form a wonderful enter- tainment. The feature picture will be the magnificent, super-special, "Colleen of the Pine," and there will also be two first-class comedy pic- tures. Cameron Geddes will render several numbers in the L. & P. S. cafeteria, and will sing a couple of songs at the movies, later taking charge of and leading the community singing. The latest popular hits will be mingled with the songs of yester- year, and the visitors to the old home town and the old home summer resort will have a chance to sing to their heart's content the songs they love.

## Register Babies.

General Manager Richards of the L. & P. S. R. requests all who con- template entering children in the baby show to get their certificates from any L. & P. S. ticket office be- fore the date of the celebration. The certificates cost nothing, but no child can be eligible for the grand L. & P. S. sweepstakes prize of \$500 of- fered by the Northern Life Insurance Company of London, unless it has been properly registered. Get the certificate and fill in the name of the babe with its age and the names of parents or guardians. The \$500 prize

will be awarded by popular applause on Labor Day, and the winning child will after twenty years receive \$500 in cash. From the day the prize is won, the child will be covered by in- surance in the Northern Life, and the policy will not cost the parents of the baby a cent.

## Suds all through

Cleansing soap in every drop of water

Put your hand in a tub of Rinso suds. You can feel that the water is actually soapy all through.

This is one reason why Rinso soaks clothes clean without hard rubbing.

A few minutes at night—just the little time you need to put the clothes to soak in these rich suds, and Rinso suds work down into every fold and fibre, loosening the dirt without weakening a single thread.

Just a light rubbing with Rinso on cuff edges, neck bands and the like, gets them clean—the dirt is loosened.

Be sure to use enough Rinso to get the big lasting suds, that give the water a soapy feel all through.

Rinso is made by the largest soap makers in the world. It's sold everywhere.

# If Not In All the Time, Sate Hours, In Your Want Ad

## WANT AD TIPS

### Want Ad Plans For Neighbors

In the Brethven family, both husband and wife work downtown during the day. One thing they might do, when running a Want Ad, would be to stipulate "By 1932, after 6:30 p.m." They have, instead, a second excellent plan—one that should interest good neighbors everywhere.

Across the street from the Brethven home lives a good neighbor, Mrs. Corbett. Mrs. Corbett is a home body—she is always in. So, when Mrs. Brethven has some canaries to sell (she is a canary breeder), or turns to the Want Ad section for other assistance, she gets up an ad. in collaboration with Mrs. Corbett. The phone number given is not Mrs. Brethven's, but her neighbor's. The Want Ad describes and prices Mrs. Brethven's canaries, or whatever she happens to be selling. Then, always, it contains something else—something Mrs. Corbett wishes to sell.

Mrs. Corbett is a talented needlewoman. If she has anything to dispose of in needlework, it is listed. On one occasion she advertised and sold a kitchen range which, since purchase of a new one, was not needed. Another time, she obtained a tenant for a vacant room.

Mrs. Brethven pays for the Want Ad, and Mrs. Corbett gladly handles inquiries which develop while Mrs. Brethven is away at work. Mrs. Corbett has a key to the Brethven home, and takes inquiries right in.

Such little plans as this are practical in almost every neighborhood. A good neighbor likes to help another out, as Mrs. Corbett delights to. And it is part of good friendship to list something of the neighbor's in the Want Ad, paying for it.

"If I have inserted a Want Ad, and can't be at home an afternoon when people may call," writes in Mrs. Janet Caldwell, "I always put up a note above the doorbell, directing the visitor to speak to Mrs. Black next door. Mrs. Black helps me out by handling inquiries which come when I am away."

This is an excellent plan, too.

Chicago has just completed its latest skyscraper, which is proclaimed to be one of the city's finest pieces of architecture.

Miss Zeta Hills, who in 1918 crossed the English Channel on a watercycle, is now training for an attempt to swim the choppy waters.

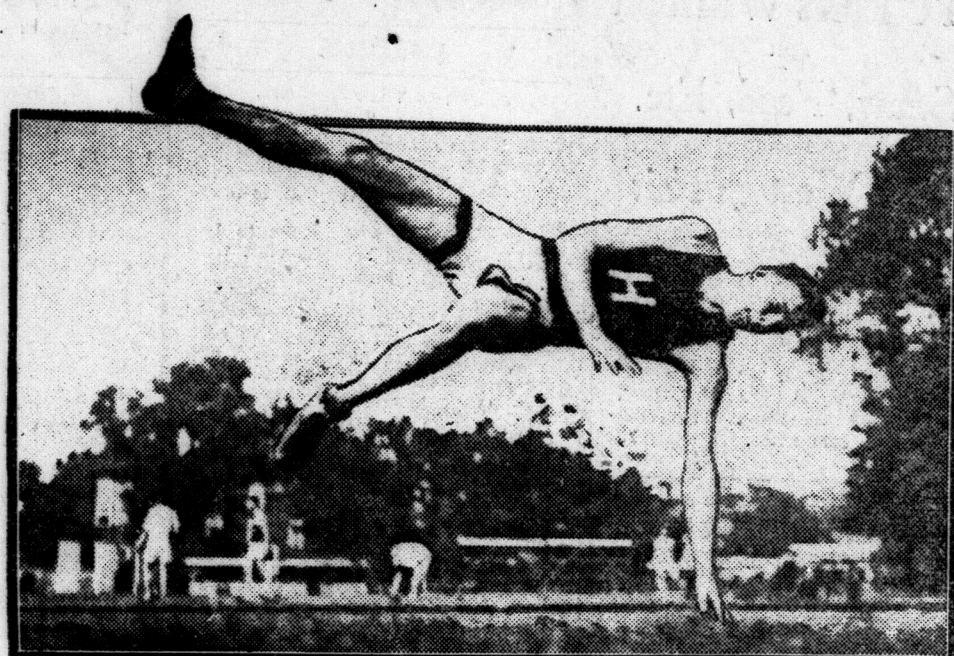

This star pitcher of a ladies' nine throws a wicked ball. Her team is ready to meet all comers, she says.

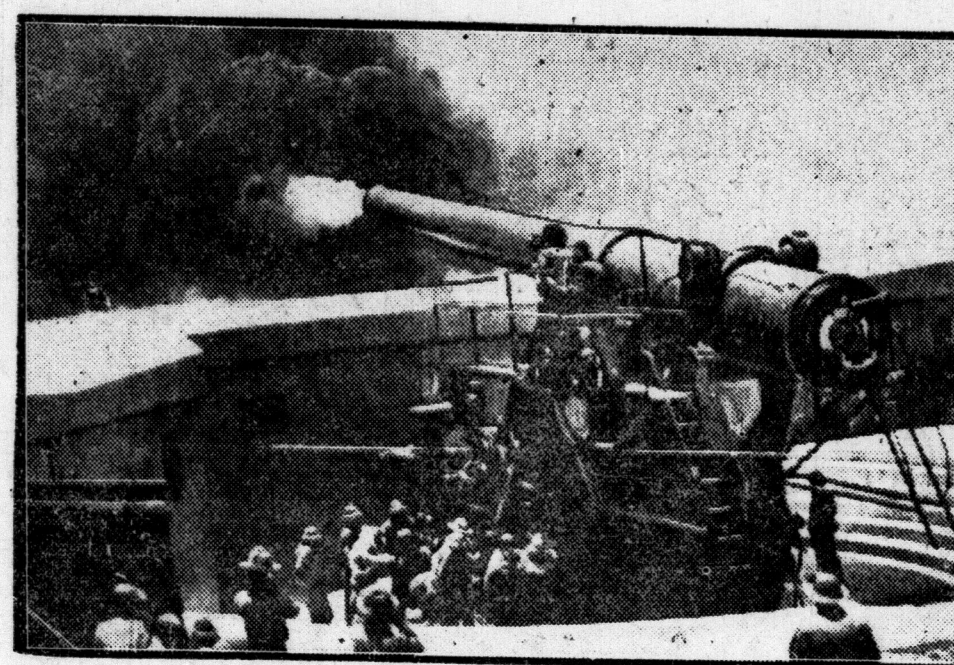

The handwriting on the wall is only "marks." German presses continue to turn out marks, 500,000 of which can be bought for a dollar.

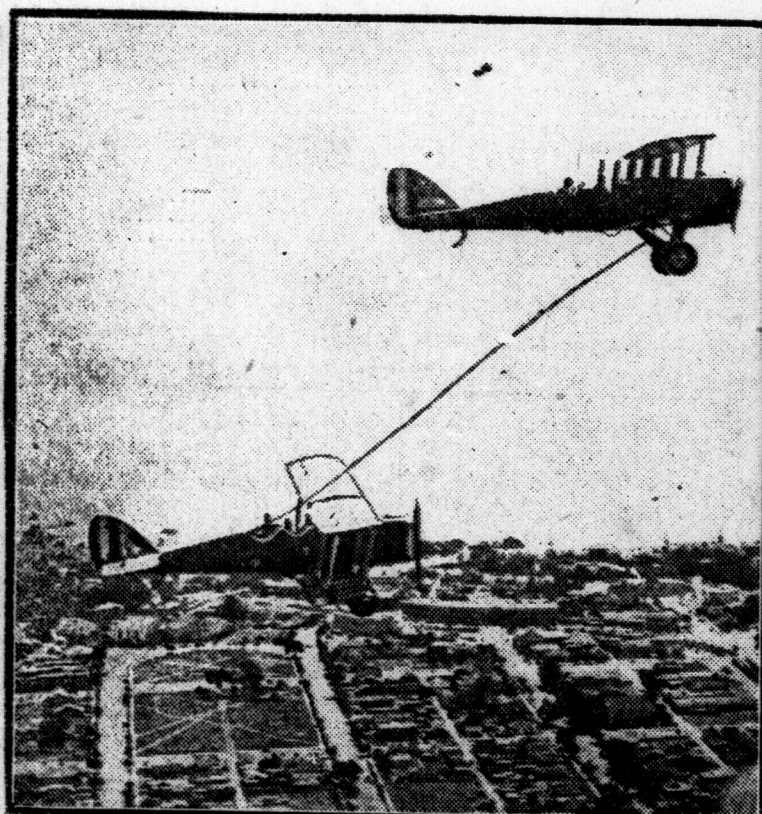

This smart tailored suit is the most advanced style for the fall wardrobe. It is seen that the short, straightline coat will continue to hold its predominance.

R. L. Hyatt of Harvard has a curious way of landing at full length in the put after clearing the bar. He is with the American athletes competing against Oxford and Cambridge.

The "bark" from this fourteen-inch gun at Fort McArthur, California, shakes the nearby houses and makes the glassware and crockery dance from the reverberations.

Aeroplanes, for the first time, are taking on fuel in mid-air while flying at a rate of sixty miles per hour.

Miss Ebon Strandin has won fame as a dancer and now is adding laurels to her crown as an opera singer in Stockholm.

There are many sighs for the poor elephants who have to carry children about most of the day at the London Zoo, but few people are aware how they deal with the hot weather when work is done.

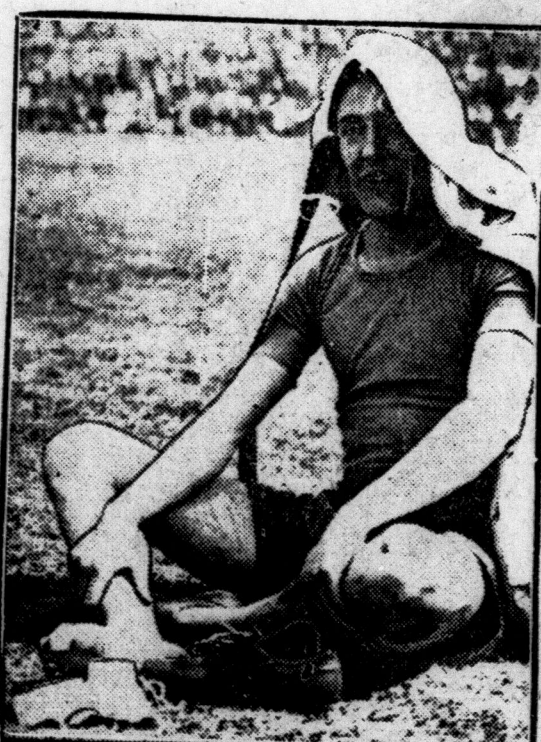

Mrs. Austen Chamberlain, wife of the British political leader, has been hostess to many Canadians visiting abroad.

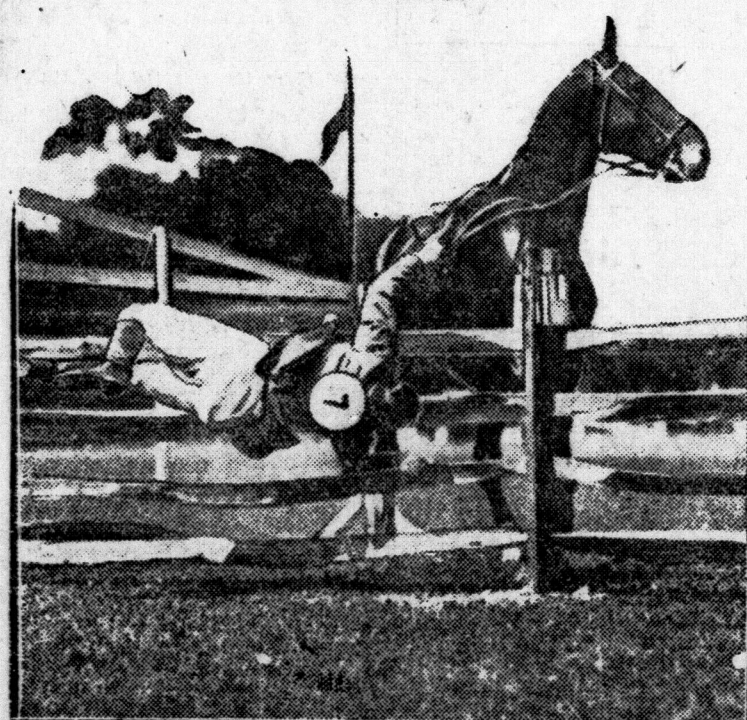

Katherine Brown and Eileen Delaney do a pretty double swan dive at an aquatic meet at Summit Lake, N.J.

Mlle. Valia, the famous Anglo-Russian film star, threatens to discontinue acting unless she is assigned roles which are not those of a home-wrecker.

P. Lewden, the new high jump record holder, is seen bandaging a fractured toe, after which he leaped over the bar to a new world's record at Stamford Bridge.

When his horse refused to go over the jump this rider narrowly escaped from serious injury, although he suffered slight bruises.

A London lady is trying to paint as well with her feet as with her hands. So far it can only be said that she is progressing.

Lady Innes-Ker, formerly Miss Anne Breese, is to pay a visit to New York shortly. It will be the first time she has set foot on her native soil since assuming her title in 1907.
