# ELECTION TOMORROW

— PRESIDENTIAL NOMINEES —

**DON CAMPBELL**

The time for electing a new student council has again arrived. You, the students, have shown a greater interest in your affairs, as evidenced by the flood of nominations for next year's council, than any student body has shown in some time. I hope and trust that you will carry this interest through the coming elections and throughout the coming year, if so, you will have an able council, of which anyone would be proud to be president.

As a candidate for president of the S.R.C., it is impossible to make election promises of a policy nature. But I will promise to do my utmost to obtain the maximum efficiency from our council, and to represent you to the best of my ability before the University, the city and anyone, where I can be of service to you, the students.

I hope you find, that my executive experience in campus organizations, as well as experience on the outgoing council, qualifies me to be your next Students' Representative Council President.

### VOTING REGULATIONS

There will be five (5) polls, located as follows:

- #1 Arts students — Main Hall Arts Building;
- #2 Science Students — Main Hall Chemistry Building;
- #3 Forestry Students — Main Hall Forestry Building;
- #4 1st and 2nd year Engineers — Ground Floor Civil Building;
- #5 3rd, 4th, and 5th year Engineers — Ground Floor Civil Building.

**POLLS WILL BE OPEN FROM**  
9:30 a.m. to 12:15 p.m.  
1:45 p.m. to 4:30 p.m.

- 1. All students may vote for SRC Executives.
- 2. All intermediate Foresters and Engineers, and all junior Arts

**DAVE DWYER**

This past year has been a busy one for the S.R.C. The revision of the Constitution and the consolidation of the S.D.C. was a major job. The amendments of the S.R.C. Constitution was a step forward in keeping pace with the increased enrollment at our University. Nevertheless, this coming year promises to be a busy one also. Apart from carrying out their regular duties, the S.R.C. must revise Article IX (financial) of the Constitution which was left untouched this past year. The outgoing Council also initiated a revision of the Student Hospital, Surgical and Medical Insurance. This plan covers accidents only, but sickness should be covered as well. To have a new plan in effect by this fall would be a challenge to a newly elected S.R.C. The past Council devised a plan for the issuing of student passes at fall registration, and the new Council must carry out this plan efficiently.

The importance of electing an efficient Council, headed by a qualified president cannot be overstressed. As a candidate for president of your new S.R.C. I feel myself qualified to head this council in carrying out its assigned duties. I will strive for organization, efficiency, and improvements.

and Science students may vote for Senior Class Reps and Executive.

- 3. All junior Foresters and Engineers may vote for intermediate Class Reps and Executive.
- 4. All Sophomore students may vote for junior Class Reps and Executive.
- 5. All Freshmen may vote for sophomore Reps and Executive.

**NOTE: MARKING INSTRUCTIONS WILL BE PRINTED ON BALLOTS !!!**

**RON MANZER**

In recent years the enrollment of the University of New Brunswick has rocketed upward, resulting in numerous problems for the administration, the teaching staff, and the students. There can be little doubt that this expansive tendency will continue into the next few years.

The difficulties of providing efficient, comprehensive student government will, of course, multiply. A great portion of the responsibility for the smooth functioning of the Students' Representative Council — and ultimately for all University students activities, since other organizations revolve about this hub — will rest upon the shoulders of the individual who is President of that body.

In entering the Presidential election I have carefully considered the responsibilities which that office-holder has to each and every student at UNB. I realize that my lack of experience on the Council prevents a complete understanding of the details of its activities, but this is a situation which, if elected, I will speedily correct. Indeed I feel that I can bring to the Council perhaps something more important than experience: efficient, intelligent leadership; a capacity for co-operation with representatives and students alike; and, above all, a dedication to office which will ultimately result in a better UNB.

### Rhodes Scholar Visits — To Speak on Thursday

Mr. David M. Turnbull, a senior partner in J. D. Woods and Gordon Co. Ltd., Management Consultants, will visit the University on Thursday, February 27, 1958. Mr. Turnbull is a Rhodes Scholar and an expert in work simplification. He will address the Bus. Ad. Students and the senior Engineers and Foresters in the Chemistry lecture Hall from 11 a.m. to 1 p.m. on the subject of "Business Report Writing".

### LAVAL PROPOSES STRIKE ACTION

#### DUPLESSIS REFUSES AUDIENCE

Quebec, CUP—Last week students of Laval University in Quebec City voted to strike against Premier Maurice Duplessis if the other Quebec Universities will join in the protest.

The reason for the strike is Duplessis' refusal to consider a brief submitted to him by the province's universities seeking more money for university education.

The Quebec group prepared a brief closely in line with the brief prepared by the National Federation of Canadian University Students — NFCUS — last month.

Following the NFCUS lead, the Quebec universities decided to approach provincial Premier Maurice Duplessis. They sent a letter asking for an audience but received no reply.

The Laval Council last week expressed disapproval of the Premier's stand. They mandated representatives to vote for strike action if other universities approved a strike in a special meeting which was to be held last Friday afternoon.

This meeting, held at McGill University, consisted of student representatives of all the universities in Quebec province, and the Duplessis refusal to meet them was considered.

The brief to Premier Duplessis asked for more scholarships to university students; more money for capital expenditure; statutory grants to all Quebec universities; and democratization of the university system. Under the present system only children of wealthy families can go to college as a result of the high tuition fees.

when financing was conducted in an atmosphere of genteel charity, when the universities looked upon themselves as dignified suppliants who asked for as much as they dared and were properly grateful for whatever they received."

Political leaders, McCluskey (CA), Proudfoot (L), and Steeves (PC) announce the following: The Model Parliament will consist of a combined Federal-Provincial House. Only the Government will introduce the Bills, the Opposition will be given the opportunity to introduce resolutions and/or amendments. House opening will occur Friday 7:30 p.m. by Governor-General Colin B. Mackay. Debates will follow and continue at 10 a.m. on Saturday, lasting throughout the day. Polls will be located with the SRC polls and will be open at the same time. **ALL STUDENTS ARE ALLOWED TO VOTE, MAKE USE OF YOUR FRANCHISE !!!**

# ELECTIONS

## EXECUTIVE

### TREASURER

**DAVE HASHEY**

Dave's two years in Business Administration have prepared him well for the responsibilities which go with the job of S.R.C. Treasurer. His knowledge gained in the study of Accounting and Business Management would be of great assistance to him in this position.

In addition to having maintained a high scholastic record, Dave has actively participated in extra-curricular events. For the past two years, he has been a member of the Junior Varsity Basketball team, and a skip in the Curling Club, as well as a member of the Business Administration Club.

Dave's qualifications of business training and active participation in University functions, coupled with his keen sense of responsibility and fair play, make him an excellent man to handle the Student Finances for the coming year.

**ERIC JAMIESON**

Eric's ability as an organizer, an administrator mark him well as a responsible student and thus an excellent candidate for Treasurer of the SRC.

His organizing ability has been demonstrated by Managership of last year's Varsity Curling team. He is doing a commendable job as Match Committee Chairman of the Curling Club, organizing teams for the Sunday night intramural play, as well as arranging playoffs to choose the intercollegiate team.

He shows his responsibility as a member of the A.A.A., vice-president of the Curling Club and Freshman representative on the S.R.C. Besides playing varsity curling, he has also participated in intramural basketball.

Eric is as well one who will apply his capabilities to the task at hand, and if chosen for this position will be able next year to present the students with a job well done.

### SECRETARY

**HARLEY GRIMMER**

Harley, competing for the post of Secretary on the S.R.C., is a Freshman Engineering student from St. Andrews, N.B. He was an honors matriculant and was recipient of a Sir George E. Foster Scholarship.

Since coming to the campus, he has taken an active interest in many of the campus organizations. He is especially active on the "Brunswickan" staff and is at present Associated News Editor. He is also active in the Radio Club and is a member of the University Air Force Squadron.

In high school, Harley was the Business Manager of the Vincent Massey High School Yearbook. Through his efforts the financial status of the publication were vastly improved.

Speaking for himself, he stated, "If I should be elected, I shall endeavour to warrant myself worthy of the trust placed in me and strive to co-operate in order to perpetuate the most important function of the S.R.C. — to uphold the student's rights on the Campus. I believe very strongly that every student should exercise his franchise on February 26th in order that good student government may be maintained."

**FRANCES MacCOLLUM**

Frances is a first year Arts student from Saint John. While in high school, she successfully combined a good academic standing with many extra-curricular activities. She was a member of the high school Student Council for three years, earned several athletic letters, and was a cheerleader for four years. She was elected President of her graduating class, and had the responsibility of organizing the activities of graduation week.

Since coming to UNB last fall, Fran has continued to participate and have a sincere interest in Student Government and other extra-curricular activities. She is serving as a Freshman representative on the S.R.C., taking part in the "Red 'n' Black", playing Varsity Basketball, and is a freshette representative in the Ladies' Society.

This year's experience as a freshman representative has acquainted her with the S.R.C., and, if she is elected as its Secretary, Fran will serve efficiently and well.

## SENIOR CLASS

### EARL CARPENTER

Being a member of the Civil Engineering class of 1959, I submit my candidacy as a Senior representative on the Students Council.

In my opinion the ideal government, at any level, is one which efficiently performs its legislation in the best interest of the electorates, without jeopardizing the democratic rights of the individual. It is a necessity then, that a representative be, not only reasonably intelligent, but also conscientious enough to clearly reflect the opinions of those who he represents.

To strive toward this ideal is my election pledge.

### PEGGY COLPITS

During her past three years 'up the hill' Peggy has found many outlets for her varied talents and boundless energy. A star performer in the Red 'n' Black Revue she will be missed from the kickline this year due to lack of time. Her athletic abilities have placed her on the Red Bloomers for three years and the Cheerleading squad for two.

As cheerleading manager she served on the AAA during the past year. Following a year as Secretary-Treasurer of the Freshman Class, Peg was elected sophomore rep to the SRC in 1956. In 1957 she was returned to the SRC by acclamation — this time as second vice-president has filled her position with interest and enthusiasm. With her experience and active interest in campus life, the Senior Class will not go wrong in electing Peggy as their co-ed rep on next year's SRC.

### CLIFF EMBLIN

Having been a member of last year's S.R.C., Cliff is certainly the man for the position of senior representative on this year's council. Throughout his years at U.N.B. Cliff has been active in Forestry Association activities and intramural sports, while also finding time for the stage crew of the Red 'n' Black.

### DAVE IRVINE

Dave, a fourth year Forester, has on numerous occasions well represented the University in Varsity sports such as football and track. Now going in to his senior year, Dave wishes to represent you as Senior Rep on the S.R.C. If you want things done right, vote Irvine.

### ARTHUR WHITE

During the past four years I have been an active member of the Camera Club and the Year Book Staff, in the former as Vice-President for one year and President for two years; in the latter as Photographic Editor.

As fourth year Civil Engineering student I will be pleased if you consider me for the position of Senior representative on the next Student's Council.

**IMPORTANT**  
KEEP THIS ISSUE OF THE  
BRUNSWICKAN UNTIL  
VOTING TIME TOMORROW  
YOUR VOTE COUNTS TOO!

### SHEILA CAUGHEY

Sheila, a popular civil engineering student, is well qualified to serve as senior class secretary-treasurer, having participated in a great number of student activities ranging from Ladies' Society, the Red 'n' Black Revue, and bowling to being chosen this year as co-captain of the Varsity Basketball team. She has served ably as secretary of the S.R.C., the curling club, and the band and as vice-president of the Engineering Society. More than anything else, however, Sheila's warm personality and well proven ability to get along with many people make her most suitable for this position.

### CAROLYN SOMERVILLE

Carolyn, a Junior, is one of two co-ed Business Administration students at UNB. She has been and is an enthusiastic participant in a variety of extra-curricular activities ranging from Red 'n' Black, cheerleading and drum majorettes to Business Administration Club and the Brunswickan. Most of Carolyn's spare time this year has been spent editing the Features page of the Brunswickan, working with the Carnival Committee, and being co-chairman of the Social Committee.

Less impressive, but just as important, Carolyn is a willing background worker for many organizations with which she is not officially connected. We feel that Carolyn's activities at UNB, particularly her business and writing training, make her the ideal choice for Secretary-Treasurer of the Senior Class.

## INTERMEDIATE CLASS

### TOM DOYLE

This year, I am a candidate for Intermediate Class representative on the S.R.C. Since entering UNB, in Engineering, I have taken an active part in Varsity and Intramural Athletics, Winter Carnival Committee, Red 'n' Black, and for the past year, I have served on the SRC as a Junior Class representative. In taking part in these extra-curricular activities, I have gained some knowledge of how various campus organizations operate and I feel that I am qualified to serve your interests on the S.R.C.

### HERB SHEPHERD

Herb is a Third year Civil Engineer. Since coming to UNB from Newcastle, Herb has taken a great interest in UNB and extra-curricular activities. During his freshman and sophomore years he served on the S.R.C., and during his third year was elected Secretary-Treasurer of the Men's Residence. These terms have given Herb great experience in Student Government at UNB, and thus well qualify him for another term as your representative.

### ALFRED WALLACE

During the past three years at UNB, Al has participated in many campus activities, both athletic and non-athletic. In sports he has played on intra-mural hockey and softball teams. In non-athletic functions, he has served as Junior Representative on the SRC during the past year. In addition to this he is the Vice-President of the Engineering Society. Interested in all aspects of University life, Al, a Mechanical Engineering student, will be, if elected, an active representative.

## SOPHOMORE CLASS

### GERARD COURTIN

Born in France and educated in England, "Gerry" emigrated to Canada 5 years ago. After working with Imperial Oil he was able to achieve his main ambition and start "Up the Hill" in Forestry. A cross-country running enthusiast and a keen and active member of the Forestry Association and Archery Club which he has represented at S.R.C. meetings; Gerry is a hard working, outspoken student who, with his ability to get things done, will be an asset, ably fitted to represent the Sophomore Class on the S.R.C.

### DAVID FELLOWS

Dave was born in Ottawa, but spent most of his life in Calgary before coming east to finish his last two years of High School here in Fredericton. After graduating he enrolled in E.E., coming in on a U.N.B. Scholarship. Dave has taken part in several clubs on the campus and has shown a desire to lend a helping hand to anyone who might need it. While in high school he served on the S.R.C., was Secretary of the H-Y Club, and also an editor of the F.H.S. Yearbook.

### NOTE

These Sophomore write-ups came too late for the Friday edition and are therefore an addition to those that have already appeared.

## EXECUTIVE

### PRESIDENT

### DON ROBINSON

Don is a freshman Business Administration student who is running for Sophomore Class President. Judging from his personality and ability he certainly would be the man for the job.

### VICE-PRESIDENT

### CARL FLYNN

Carl, came from Stanley, N.B., finished high school at Stanley Regional in 1954. After spending three years with the Canadian Bank of Commerce, and Chartered Accountants in the province, he decided to change his line of thinking and enrolled Up the Hill in Civil Engineering. While in school, Carl was President of the Student Council and the Graduating class, and took part in all optional athletic activities.

### Lecturers or Teachers?

Why do some lecturers assume a tone of absolute knowledge, both in regard to themselves and to the authors they quote, when they address a class? It strikes us as odd that at university level lecturing — as opposed to high school teaching — this supercilious tone, comparable to the general attitude of magazines such as the Reader's Digest, should be taken by some of our lecturers.

It has always been our idea that at the university level, and we refer mostly to the humanities and social sciences, the primary task of the lecturer is to create in the student an interest in certain subjects; to create the possibility to think; to create a way to develop, or help develop, the mind of the student.

To have absolute knowledge imparted to him is useless to a student if he has not, or cannot achieve, the ability to think critically on the spoken word and thus apply his reasoning power to the imparted knowledge.

An equally useless habit is the permanent reciting from a limited number of books instead of providing a number of diverse opinions of highly qualified experts, interjected with the lecturer's own opinion, as long as it is made clear that the statements made are opinions and not the last and final words on the subject.

At Kindergarten we expect to be told what to do in detail. At Grammar School, where the material of the knowledge to be conveyed is of an extremely basic nature, the attitude of the elder of being the absolute teacher is natural. As the pupil progresses through High School, and particularly during the last two years, the possibility should be created for the child to change the attitude of being a pupil to the attitude of being a student.

At the end of the High School training, the child — mentally at least — should be at the brink of adulthood. When this person enters University he will run less the danger of being thrown off balance entirely by the change of atmosphere combined with the change of methods used.

We feel that a number of lecturers should make more of an attempt to lecture and to leave their present method of teaching to those places where such is desired and necessary. In this way the calibre of students who graduate could be improved considerably G.B.

### To the Bloomers

We apologize for the fact that in last week's editorial we inadvertently included the Girl's Varsity Basketball team. We have only admiration for the way in which this small group has maintained last year's high quality. A complaint reached our ears that there are still too few students turning out for the games played by this outstanding team. Whereas the support for the Men's games is normally as good as can be expected, the number of spectators for the Girl's games is pitiful. What other team on the Campus can claim to have won ten out of twelve games? G.B.

### COACH COMMENTS

We had occasion to speak with Mr. Ted Bedard, Assistant Coach of the Varsity Hockey Team, who disagreed with some of our words of last Tuesday and commented:

"Team spirit lacks in Varsity Sports on the UNB campus because there is a definite deficiency here in the whole organization, from the faculty right down to the janitor. There is no interest. Players criticize coaching methods and blame lack of team spirit, when actually they have no desire to win, and under tough competition they have no guts to fight back for the honour of the school. It is up to the students and the faculty to support the players. Championship teams are built on organization, which is definitely lacking at UNB. (We just have to look at Saint Francis Xavier for that side of the story.)"

"Personally I'm sick and tired of having faculty, students and players criticize the coaching at UNB. This University has top coaching in every sport. The lack of desire to win is why team spirit does not prevail. Team spirit must EXIST on the campus, then and only then will it rub off on the players."

Re—"Sports and What Not."

The Editor, Brunswickan

Sir,

I agree in principle with your editorial on the coaching of the teams here at UNB. I had the impression that you tried to impress on the coaches that they should try to strike a better balance between training for physical fitness and for team play. I agree with this unless it is possible to maintain the physical fitness schedule under which they now operate and to this add training and coaching for teamplay. I feel however that this would take too much time and that therefore it would be better if the coaches did try to strike a balance. I am glad that you brought this subject in the open, and hope that people will try to read it sensibly and not fly off the hook because you touched the "untouchable"; Sports.

Yours truly  
 A Player

The Editor, Brunswickan

Sir:

In recent years I could not help but be appalled by the great sheepishness of University of New Brunswick students. Nowhere was their docility more noticeable than in campus politics, where they accepted without question the tired old dogmas of the traditional parties.

However, the recent formation of a genuine grass-roots party, the Christian Atheists, is a sign that there may yet be some life in the student body. If nothing else, it at least shows that Maritimers do not always have to have the tail wagged by the Ottawa dog.

Let us hope that UNB students will have enough courage to return a fairly large number of these adventurers in this week's election. I, for one, would like to see a little originality displayed on the floor of the Legislature.

Yours truly,  
 John Feeney

### Letters to the Editor

The Editor, Brunswickan

Re—"Sports and What Not."

Sir:

It was with regret that I read your editorial on the Athletic department. I do not believe your method of defamation by suggestion is quite fair to those involved. I know that the purpose of the editorial column is, at times, to spark controversy and student interest, however, I do not think an attack in this manner is justified.

I can only mention a few points in this regard which I feel will clarify the situation here at UNB. First, your suggestion that team spirit is low or lacking. This suggestion is false. There are some games played in which spirit is low I will admit, but by and large the majority of games are very hard fought and team spirit is quite evident. I believe you are confusing a lack of team spirit with a lack of excessive talent in respective sports.

Second, you state that the level of sports is low here but I suggest that it is the level of sports participation which is low and not the level of sport. If you judge the level of sport by the number of winning teams we produce then you misunderstand the true meaning of sport.

Third, let me quote an example of what can be accomplished by physical fitness and conditioning which you feel is not important enough to be stressed. 'Shearwater Flyers' won the intermediate title in Canada largely as a result of their superb condition.

There are two main ingredients required in a winning team. One is a good coach, and the other an abundance of talent. One without the other is not sufficient to produce a winner. (There are exceptions, of course). Editorials of this nature cannot possibly elevate the prestige or quality of sports here. The type of editorial which should be written is one to encourage greater participation in sports and not one attacking the Athletic dept.

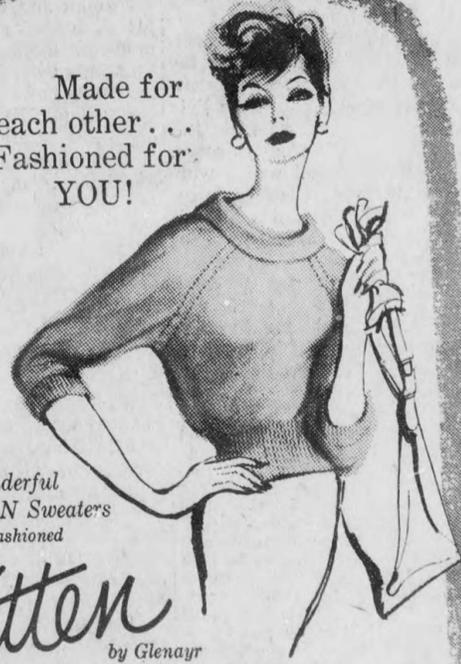

I am not saying that our coaching staff cannot improve but I venture to say that even if Pop Ivy, Goose Tatum and Toe Blake were added to our staff here at UNB, they would not be able to produce consistent winners unless more people could be encouraged to participate.

Montreal Canadians are a good example of a winning combination and although at present the other five teams in the NHL do not appear to have team spirit or talent we cannot claim that they are not well coached just because they are not leading the pack.

Improvement in our Athletic department endeavours cannot be forthcoming with editorials such as the last one.

Sincerely yours,  
 M. J. O'Connor

# DEVILS, RAIDERS — LEAGUE CHAMPS

UNB goaltender John Bassett seems to be the centre of attraction in this shot of goalmouth action that occurred in last Saturday night's game. Other players pictured are Sears (2), C. Peters (3), Parent checking R. Peters (8) and to the right McLellan checking Keayes.

The UNB Red Devils moved into first place in the NB-PEI intercollegiate Hockey League with a 10-1 victory over the Saint Dunstan's University, last Saturday night in the Lady Beaverbrook Rink.

The Red Devils, needing a win by at least an eight goal margin, played lethargic hockey in the first two periods and then exploded in the third frame for six goals. The ten UNB markers were divided among nine players. Bob Soward scored two, the rest went to McCarthy, Jarrett, Pearson, Morrow, McLellan, Benson, Coombes, and Mockler. Goaltender John Bassett's shutout attempt was broken in the third period when Burns scored the only Saint's goal.

Saint Dunstan's netminder, King, was subjected to a bombardment of 39 shots, making 29 stops. His defense stopped almost as many again. Bassett made 23 saves, several being labelled.

Currie McCarthy scored the only goal of the first period. McCarthy shook himself free in front of the SDU net and slapped in a Mockler pass from right wing.

The Red Devils scored three in the second frame, Jarrett, Pearson and Morrow were the marksmen, with Morrow's being the prettiest of the game. Morrow took a rink wide pass from Pete Coombes and shot while in full flight from 30 feet out to score.

The third period was a wide open affair. Six UNB goals resulted, two by Soward, one each for Coombes, Mockler, McLellan and Benson. Benson was the only defenseman to score when his blueline shot deflected off of King's stick into the net.

Burns spoiled Bassett's shut-out bid in the third when he snared a loose puck in front of the net and scored.

Twelve penalties were handed out by referees Wif Miles and Moe Morris, seven to SDU and five to UNB. One flareup occurred in the game, that at the 12:00 minute mark of the third period. Saint defenseman Trainor and UNB winger Glenn Mowatt tangled in front of the SDU net. Both received majors for fighting and minors for highsticking. Neither were in the penalty box more than 15 seconds when they resumed the scrap. Both were then ejected with game misconducts.

Three injuries occurred. SDU Captain Ron Hache sustained a cut on the back of the head. UNB defenseman Galen Parent received a mild concussion after being upset into the endboards during the second frame and UNB winger Tommie Jarrett re-injured a knee that he has had previous trouble with.

Both Parent and Jarrett should be ready for the playoffs against Mount Allison that start next Saturday night.

## BEAVERS WIN IN MONTREAL

The University of New Brunswick senior varsity men's swim team defeated Sir George Williams College of Montreal 68-52 in a meet held in conjunction with the Canadian Intercollegiate Telegraphic Swimming Championships. The "Beavers" standing in relation to the other Universities was unknown at press time. Other universities in the competition are McGill, Western, University of Toronto, University of British Columbia, Saskatchewan, Manitoba and McMaster.

This was one of the first ventures of the UNB swim team, outside of the Maritimes in quest of further honours. The 'Ambey' Legere coached squad won eight of the ten events from their Sir George William College rivals, to pile up their winning margin.

## CO-EDS DOWN MOUNT A

A large number of students saw the UNB 'Red Bloomers' tighten their hold on first place in the MWIAU basketball schedule on Thursday afternoon when they sent the Mount Allison squad down to a 52-43 defeat. UNB now has four wins and only one loss. They have one game left in the regular schedule which will be played at Mt A. on March 4.

Although the UNB team did not play to the best of their ability they displayed fine team co-operation throughout the encounter on both ends of the court. The Mt. A team was very disorganized and showed no definite plan of attack. UNB was never behind at any time and at half time they had chalked up a 32 to 20 lead.

Diane Smith led the scoring field with 28 points and Jo-Anne Carr was second high scorer for UNB with 16 points. Mt. A's Charlotte Doyle and Judy Cooney accounted for 35 of their team's points.

UNB was tagged with 19 fouls during the game by referees Gwen McMullin and Byron Troy, and Mt. A accounted for 15 of their points on the free throws. UNB sank only two of a possible fourteen free shots.

UNB: Smith 28, Stiven 2, Hart, McCollum, Carr 16, Colpitts 6, Grant, Gardiner, Wilson, Read, McElman, Caghey.

Mt. A: Doyle 20, Mann, Ashworth, Kingston, Cooney 15, Barbour 8, Hebb, Fanjoy, Malcolm, Beattie, Hamilton, Toole.

## RED FALCONS PLACE FOURTH

In the closely-contested University of Maine Winter Carnival Ski Meet held at Bald Mountain last Friday and Saturday, the UNB Red Falcons placed well in Downhill, Slalom and Cross-Country races to secure a substantial lead over teams from Colby College, and the Maine State Champions, Bowdoin. However, in the last event of the Meet, Jumping, held Saturday afternoon, Bowdoin picked up sufficient points to give them a ten-point lead over UNB.

Highlights of the Meet were a second place in the Downhill race (team), and the unprecedented placing of Anvik, Dykeman and Higgs in fifth, seventh and ninth places respectively in the 7 1/2 mile cross-country race, to give UNB second place behind the Maine varsity in that event.

In this meet the 'Red Falcons' attempted to better their record of one week earlier, when in the Colby College Winter Carnival Meet held at Farmington, Me., UNB was edged by Colby by only two points to take fifth place in the six-team meet. However, competition was close, as is shown by the fact that Harvard, the winners of the Meet, were only fifty points in front of UNB's 322 points.

Results	D.H.	Slalom	Cross-Country	Total
Maine	96.6	100	92.2	386
Maine (frosh)	96.1	89.6	87.4	380
Bowdoin	96.1	88.1	85.9	362
U.N.B.	91.2	91.1	89.4	352
Colby	89.7	86.9	85.7	337

Jumping results were not available at time of writing.

### Individual placings:

Downhill	Slalom	Cross-Country	Jump
10 Anvik	4 Crutchfield	5 Anvik	6 Bergh
12 Maxwell	10 Berg	7 Dykeman	Anvik
15 Bergh	11 Maxwell	9 Higgs	Sadler

The University of New Brunswick Red Raiders captured the NB-PEI Senior Intercollegiate basketball championship by defeating the Mount Allison Hawks 62-41 last Saturday afternoon in the Lady Beaverbrook Gymnasium. In the preliminary match, the UNB Junior Varsity squad downed Simmond's Regional High 66-61 in a closely contested tilt.

During the first period of play, both teams seemed to lack the punch necessary to create decisive figures on the scoreboard. Many patterns of play, which at times were hard to notice, were put into play by both teams with the Red and Black having more success. The Raiders netted 11 out of 27 shots in their first half and picked up 7 points from penalty shots. Out of 31 shots, the Hawks netted seven, plus three foul shots. At half time the score stood at 29-17 in favour of the home team.

The second half saw more action on the part of both teams, as the figures indicate; however the scoring averages decreased appreciably. The UNB hoop squad picked up another ten baskets out of 44 shots and added 13 foul shots. The Garnet and Gold sank 6 baskets out of 37 shots plus 12 foul shots.

A total of 44 fouls were called in the game by referees Ritchie and Reid — 23 against UNB and the remaining 21 against Mount Allison. Two technical fouls were included in the UNB total as there was evidently too much bench talk. Hosiak, who was fouled out in the last minute of play and Davidson were the main Garnet and Gold offenders.

John Kelly was the only Raider close with four fouls.

In the scoring department, Don Bryant with his consistent playing and untiring effort, and Lonnie Taylor with his well executed jump shot were the top scorers, leading both teams with 12 points each. Close behind was Al Casey with ten and Howie Kirkpatrick with seven. Leading Mount Allison scorers were Black, ten points and Penner, nine points.

### Scoreboard

UNB Red Raiders — Taylor 12, Bryant 12, Casey 10, Gorman 3, Kirkpatrick 7, Hodgson 6, Vaughan 2, Petrie 0, Porter 4, Kelly 6.

Mount Allison Hawks — Black 10, Cuthbertson 4, Davidson 3, Essing 7, Hayden 2, Hosiak 2, MacAukay 0, Penner 9, Roberts 2, Winsor 2.

## CURLING CLUB

The annual meeting of the UNB Curling Club will be held in the Student Centre tonight at 7:30 p.m.

The election of officers will be held for the year '58-'59. A report will be given on the Intramural Bonspiel to begin either March 2 or 9 at the Lady Beaverbrook Rink. The meeting will close with the showing of movies on the MacDonald Brier championships and curling in general.

The varsity playoffs are nearing conclusion at the Fredericton Curling Club. The UNB winner will play a best out of three series against the UNB Law School to represent UNB in the Maritime Intercollegiate Curling Bonspiel.

## CONSERVATIVE CLUB FAVORS

1. Establishment of a national sports promotion scheme.
2. Inducement of industrial development in the Maritimes.
3. Legislation to make N. B. liquor laws more modern and realistic.
4. Reorganization of secondary school mathematics courses to better prepare students for university.
5. Recommendation to A. P. E. C. that they survey Maritime industries with respect to employment of Maritime university graduates.
6. Increased development of Canada's Northland.
7. Granting of money to the Engineering Faculty in order that the number of professors and course options may be increased and the amount of individual attention expanded.
8. Conversion of the old 'College Field' into a landscaped 'Lovers' Lot'.

## Take Another Look!

With the University of New Brunswick Model Parliament election set for tomorrow, there has been a great deal of discussion among political observers and news analysts here in the Capital as to the actual worth of the Liberal Party Platform. Before going to the polls it might be to the advantage of the conscientious voter to reexamine these propositions, which, to this observer at least, appear basically unsound.

A series of questions concerning the intentions of the UNB Liberal Party would perhaps be the most effective method of attacking the problem.

1. The establishment of national university scholarships. This is a program which the Conservatives have been trying to bring before Parliament for 22 years. Why did the Liberals wait until they were out of power to deal with this problem?
2. Increased government expenditure and decreased taxes. Is not the PC policy of providing jobs a sounder way to combat the recession?
3. and 4. Trade and Defence. We agree with these policies and suggest that the Liberals may yet see the light.
5. Abolition of 7½% tax on automobiles. The Liberals were responsible for the tax. Why did they impose it in the first place? After 22 years why the sudden urge to remove this tax?
6. N.B. Fisherman. Even an economist can not see the point of this plank.
7. Mistresses. Recent Liberal plans call for couples to have the first three years of marriage tax-free, thus encouraging alternate marriage and divorces to avoid taxes. Would the Liberals add to the decadence they already advocate by including Mistresses.

The object of the Progressive Conservative Club on the UNB Campus is to provide NEW and NECESSARY ideas, rather than copy old ones or mimic those from above. It is from groups similar to the one the P.C.'s have formed here that present government leaders as well as the future one who are being groomed may get a clue in the formulating of better government. It cannot be said of the UNB Club that the ideas are handed down from above. It is from places like the UNB Campus that suggestions are directed up the line.

A quick glance at the platform (Section Eight excluded) will reveal a list of suggestions, all of which are practical, necessary and, above all, possible. Section Six on development in Canada's Northland was placed

## UNB Club Platform Promotes Public Works, Maritimes, Liquor, School - Love

Realizing the needs of University students, the UNB Progressive Conservative Club has presented a broad, workable and interesting platform. An ambitious number of public works which would employ a large number of students highlight the new points of the party that formed the government in last years Model Parliament.

Dick Steeves, leader of the UNB Club, stated, "Last year it was an experiment during which we at times fumbled, but we learned. This year our platform is forward looking. We have very capable members from all faculties and, much to our delight, from both sexes. If the P.C.'s are elected, they will form a sound government."

The platform would seem to bear him out. An analysis of each 'plank' is given below.

### SIDELIGHTS

\* Premier Hugh John Fleming has been invited to address the student House of Parliament.

\* On the weekend of the Model Parliament the Provincial convention of the YPC's will be held in the capital city.

\* Douglas Jung, MP, national YPC president will be in town for the convention.

## ORIGINALITY NOT FORMALITY

in the Campus platform some weeks before a similar one was adopted by the present Federal Government. Both groups were independent in their formation. It is, however, quite possible that persons in responsible positions will see the list and, if the students of the University of New Brunswick support it, will realize that an intelligent segment of the population supports it. Actions upon the topics are not unforeseeable.

This is all part of the Campus Progressive Conservative plan. An analysis of the name of the party presents not a contradiction, but a Canadian trait that is our trademark around the world. A 'progressive' nation, but one which acts cautiously or, if you wish 'conservatively'. The Club is a very "Progressive party in a Conservative sort of way".

### SPORTS

The establishments of a system of grants to encourage Canadian participation in all forms of national and international athletics, and to develop coaching and sports facilities across the nation.

### MARITIMES

The establishment of primary industries and high quality manufacturing industries in the Maritimes will be encouraged. Previously exported skilled labour and management could be reclaimed.

### LIQUOR

This would involve first of all a complete investigation of the present antiquated laws to be followed by twentieth century revisions. The suggestion is more thorough than the defeated Liberal motion of last year.

### MATH

More emphasis will be placed on preparation for University rather than passing of Matriculations. The teachers will require better qualifications and new texts books will be introduced.

### A.P.E.C.

On the recommendation of the S.R.C. of the University of New Brunswick, APEC will be urged to take positive steps to promote the employment of Maritime university graduates.

### NORTHLAND

All faculties of the University will find jobs available as the development will involve scientific surveys and increased construction.

### ENGINEERING

Fewer students per class, greater choice of subjects, more professors, all will lighten the task of the university engineering students.

### LOVE

When the new sports field is opened, athletics will continue on the old field around the hedges, benches and lanes. University authorities will have no control over it but will be permitted to use it.

**We're a Very Progressive Party in a Conservative Sort of Way**
