The subject of good roads is now co-cupying a great deal of attention on the part of the public. The American nation appears to be gradually awakening to the fact that the bad roads of this country are unworthy of its position among the nations. We learn what bad roads bring about when we read of mud blockades Large districts of country are rendered impassible by mud. Almost an entite State is brought into a condition of slege by the muddy roads. The farmers cannot transport their produce, the railroads lose freight, and the speculators seize the opportunity to advance prices of produce.

This is what a mud blockade may mean, The State or region directly af-fected, the railroads traversing it, and the country at large may all suffer for itlessons from modern times. It is true that the nations of Europe put us to the blush. But we may go back two thous Roman engineers won their fame largely as road makers. The roads which they built are to-day their monuments.

Thus we find ourselves very archaiin the matter of roads. It is stated that in Illinois alone the loss to the commu nity from bad roads last year was a much as \$16,000,000. If this ratio were taken for the whole country, it would give a loss of \$300,000,000. At three per cent such loss would represent a capitalization of ten thousand million dollars. This is one-sixth of the total wealth the country.

The subject of deserted farms has been

a subject of concern in the New England States. A farm whose outlets in the fall and spring months are but canals of mud and cobblestones is justly unattractive to the young. From MRS HENRY OUTHOUSE, TIV-ERTON. N. S.

ERTON. N. S.

About three years ago I was sick with consumption, which was brought on by a heavy cold. I employed a doctor who advised me to use emulsions. I did so but they did me no good. I was growing weaker fast—my cough was very bad—with night sweaks; in fact my parents had given me up as I belong to a consumptive family. Two of my sisters and one brother have already died of that dread disease. As my appetite was very poor, a friend advised me to use Dr Norton's Dock Blood Purifier. I got six bottles, the use of which soon gave me a craving for food. Soon my cough was very poor, a friend advised me to use Dr Norton's Dock Blood Purifier I got six bottles, the use of which soon gave me a craving for food. Soon my cough was better and I began to gain in strength. I used twelve bottles of the medicine and by that time had gained forty-four pounds in flesh with good health. Have had no symptoms of any lung trouble since and believe that Dr Norton's Dock Blood Purifier saved my life.
