Newcastle, N. B.

Want 4 Yr. Course In Pharmacy

Halifax, N. S., July 29—A four year college course for students in pharmacy, instead of a two year course as at present, was urged by a large number of speakers at Wednesday afternoon's session of the fiftieth annual convention of the Nova Scotia Pharmaceutical Society in the medical science building of Dalhousie University. The development of pharmacy in the province of Nova Scotia was traced by Fraser Colquhoun, of North Sydney, president of the society in the course of his presidential address.

A party of about forty members of the Canadian Pharmaceutical Society of Montreal are attending the Nova Scotia convention. On Monday

in company with a large number of the Nova Scotia druggists, they left for Charlottetown, where the annual meeting of the Canadian Pharmaceutical Society will be held.

Want Provinces To Tax Railways On Mileage Basis

Suggesting that the Manitoba Government consider adoption of a policy of taxing railways on a mileage basis instead of on gross earnings, Sir Henry Thornton, president of the Canadian National Railways, Major Graham Bell, Deputy Minister of Railways, and Mr. Gardiner, member of the Canadian National Board, con-

ferred with Premier John Bracken. Premier Bracken, it is understood believes the proposed scheme inequitable on the ground that Manitoba with small mileage and big business would suffer at the expense of provinces where mileage is great and business small. The railway officials, it was stated, plan to submit the proposal to other provincial governments on their trip west and confer further with Premier Bracken on their return journey.

LYNCH ATTRACIONS

The Lynch Attractions under the auspices of the local G. W. V. A. drew large crowds each evening last week, but apparently the business done was small. It was some place for the people to go and they seemed to enjoy the fact that they were moving about in a crowd.

REV. FR. MURDOCH DIES SUDDENLY AT RENOUS

Much Beloved Parish Priest of Renous Expires as He Enters Home After Saying Mass.

The death of Rev. Father E. S. Murdoch, Parish priest of Renous, occurred suddenly at Renous, on Saturday morning, August 3rd.

Father Murdoch was returning from saying mass and was about to enter his home when he was suddenly stricken down.

The late Rev. Father Murdoch was about 63 years of age and has been parish priest of Renous for the past 30 or 32 years. He was widely known throughout the province and elsewhere as a man of lovable disposition and numbered among his friends many of all creeds. He was on a trip to Rome this year, and apparently was enjoying the best of health, in fact recently he had expressed himself as feeling in particularly good health.

The late Rev. Fr. Murdoch was a son of the late Mr. and Mrs. Alexander Murdoch, of Lower Napan. He is survived by one brother, Mr. Alexander Murdoch, of Lower Napan, and one sister, Mrs. Harriman, of Loggieville. Mr. Bert Murdoch, of Chatham, is a nephew.

The funeral took place Monday morning at 10 o'clock, and services were held at the Cathedral in Chatham with Bishop Chaisson officiating.

MINSTRELS WILL GIVE BAND CONCERT

Residents of Newcastle will remember the John R. Van Arman's Minstrels, which appeared here two years ago in the Opera House. They are coming to Chatham on Tuesday, August 11th, for one night only, direct from a two year tour of B. F. Keith's Circuit of Theatres and are travelling in their \$2 foot long private Pullman Diner and Sleeper. The minstrels consist of thirty all white stars and are a wonderful musical aggregation. On their arrival in Newcastle on the Ocean Limited at 1.40 p. m. on Tuesday, August 11th, the minstrels will give a band concert at the station until the departure of the train for Chatham. This is an opportunity for music lovers to hear a choice musical program and it should be taken advantage of. Tickets are now on sale at Frank Maher's Variety Store, Chatham, with prices ranging from 50cts., 75cts. and \$1.00 Plus tax. Many from Newcastle will doubtless attend the concert, and those doing so may be assured that they will not regret it.

NOMINATION PAPERS FILED YESTERDAY

Nominations for all candidates in the coming provincial election, which takes place next Monday, August 10th were received yesterday in the counties in which the candidates are running in the province. Each nomination paper required the signatures of 20 or more electors and each candidate made a deposit of \$200. This will be forfeited if the candidate fails to receive a certain percentage of votes on polling day.

Sheriff Wm. Skidd, returning officer for the county of Northumberland held court in the county court house, Newcastle, at 12 o'clock noon and received the nomination papers of the several candidates for this constituency. At 2 o'clock in the afternoon the candidates addressed the electors in the Opera House. The meeting was largely attended, many electors from outside parishes being in attendance.

The following candidates filed nomination papers here.

Government

C. J. Morrissy, P. C. Price, H. Savoy, F. M. Tweedie.

Opposition

S. D. Heckbert, A. Holmes, F. T. Lavoie, J. L. O'Brien.

EXPECT 40,000 PEOPLE ALONG THE SAGUENAY

Leichton MacCarthy, K. C., counsel for the Aluminum Corporation of America, said it was not the intention of the company to move the headquarters of the concern to Canada from the United States. Mr. MacCarthy said that both sides of the Saguenay River belonged to the company, which expected to place 40,000 people in the settlements along that waterway. Fifteen steamers would be employed bringing bauxite from British Guiana for the manufacture of aluminum in Quebec. After a couple of seasons in constructing works, Mr. MacCarthy said, manufacturing should be started by January 1927.

A despatch from Paris to the Toronto Star says the Aluminum Company of America will spend \$70,000,000 in developing the "model" city.

INJURED BY FALL

As he was entering his residence, Water street, Tuesday at noon, Mr. W. F. Cassidy of Chatham, had the misfortune to fall on the granolithic pavement and suffered a very severe fracture of the leg just above the knee cap. Dr. Delaney was summoned and the injured man was removed to the hospital where the leg has been set and he is receiving treatment.

MIRAMICHI HOSPITAL GRADUATION EXERCISES

Reception Held at the Nurses' Home on Tuesday Evening

The graduation exercises of the Miramichi Hospital took place Tuesday evening in the Assembly Hall of the Harkins Academy and was witnessed by a large number of the friends of the three young ladies, Miss Annie Mul'lin, Boom Road; Miss Edna McDonald, Newcastle and Miss Margaret McNaughton, Napan, who have completed their three years' course at the hospital.

The valedictory was read by Miss McNaughton and the Florence Nightingale pledge repeated by the three graduates. Dr. D. J. Dolan, of Nelson, presented the diplomas and pins to the graduates, and Little Roxy Russell, Roxane Troy and Edith Belyea presented the bouquets.

After the program a reception was held at the Nurses Home and a very pleasant evening was spent.

Following is the program:

Crairman—David Ritchie
Selection by the Orchestra
Invocation—Rev. L. H. McLean.
Address—Mayor Russell.
Solo—Chub McLoon
Addresses to Nurses—Dr. Wilson, Derby and Mr. J. D. B. F. McKenzie, Chatham
Address—Dr. Nicholson
Selection by the Orchestra
God Save the King

CLOSE FINISHES ON CHATHAM TRACK

John D. Braden captured the free-for-all in the opening day of the Miramichi Driving and Sporting Club's big mid-summer meet. The best time made was 2.08½, the track being rather heavy owing to prolonged rain. The other events run off were: The 2.17 mixed, which was won by Alfred King, Miss Atlantic took the 2.25 mixed, while the 2.24 trot went to Peter Stillwell. The last named race only went two heats owing to the lateness of the hour. The races were witnessed by the largest crowd ever present on the track. Every heat was closely contested and much enthusiasm prevailed throughout.

The officials for the races were: F. J. D. Graham, St. Stephen, starter; P. A. Belliveau, H. H. Carvel, judges.

The second day of the Miramichi Driving and Sporting Club's mid-summer meet was featured by close and thrilling finishes. Dan Hegde-wood captured the honors in the junior free-for-all, winning three out of five heats. The best time was 2:11 1-4. The last heat was a thrilling fight between him and Saccharose. Earl North won the 2.14 mixed. After making a bad start in the first heat he captured the three remaining heats beating Peter Tanlac by a nose in the last heat. Gleaming Silk was the winner in the 2.17 trot, taking three out of four heats. In the third heat he broke badly and dropped back to fifth position.

The weather was threatening in the morning, but it cleared in the afternoon and proved ideal for racing. The races were attended by a fairly large crowd.

It is a conservative way of putting it when it is stated that there isn't a more modernly equipped box plant in Canada than Moirs.

69,000 HARVESTERS WILL BE NEEDED

Excursions to Leave the Maritime Provinces August 11 and 26

If the crops now ripening in Western Canada are going to be harvested as they should be, 50,000 harvesters will have to be taken into the three prairie provinces and distributed through the farms. On Friday last, a meeting was held at Winnipeg, attended by the ministers of agriculture of Manitoba, Saskatchewan, and Alberta, representatives of the farmers' organizations of those provinces, together with Dominion and provincial employment service representatives and the western representatives of the Canadian Railways and it was finally estimated that the total number of harvesters required would be 49,000. It is felt that 13,000 are already available in the prairie Provinces, that 6,000 can be obtained from the Pacific coast, leaving a total of fifty thousand to be supplied from eastern Canada or wherever they are available.

This is an unusually large number. In 1923 about 35,000 went from Eastern Canada, there is no doubt that the full quota required this year will be readily obtained. The future prosperity of the country depends upon the movement of these men into the western wheat fields and the railways have made all arrangements to deal with their transportation.

The dates of the harvesters' excursions from the Maritime Provinces have been arranged for Aug. 11 and 26, and the fares for the going trip from New Brunswick are set at \$20 to Winnipeg with slightly higher rates from Prince Edward Island and Nova Scotia points. One-way second class tickets are issued from starting points to Winnipeg, and on arrival at Winnipeg, harvesters are ticketed to points where their services are required at half a cent a mile. The rate is available for female as well as male help, but half rates are not made for children.

While the representatives of the provincial and Federal governments and the railways at Winnipeg are prepared to advise all harvesters on

Every 10c Packet of

Clean to handle. Sold by all Druggists, Grocers and General Stores

arrival where their help is most needed it has been found in practice that many of the harvesters who go out every year have made their arrangements long in advance to work for certain people, and they, of course, go direct to those they have made their arrangements to work for. In such cases their baggage is checked from starting point direct to their final destination.

The return of the harvesters to their homes in the east is arranged for as follows: On arrival at the destination where the harvesters take up their work, verification certificates of their ticket is deposited with the station agent, and when they are ready to return they are sold a ticket through to their starting point at the rate of half a cent a mile to Winnipeg, plus \$20.00 to their starting point in Ontario or Quebec, or \$25.00 to points in New Brunswick.

Summer Complaints Kill Little Ones

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Midnight Tests For New High Power Radio

Schenectady, July 28—Station WG1 of the General Electric Company will broadcast special midnight high power test programs Tuesday and Thursday, which will make so-called "super power" broadcasting resemble the antithesis of a spendthrift.

WG1 will employ 50,000 watts of power on its antenna in the test programs which will last an hour each night. This power is ten times as great as that now being used by those stations operating on "high power" through special license of the Department of Commerce and one hundred times that of the ordinary radio broadcaster in the 500 watt class.

The WG1 engineers are conducting experiments for the purpose of reporting on super power broadcasting to Secretary Hoover at the next national radio conference.

THE BOOST AND THE KNOCK

"Boost by all means but first build up something that is worth boosting" said Edison Cathcart, Denver Rotarian, at a Rotary Club banquet. "A booster in a certain village was delegated by his organization to meet the train every night and boost the place to the passengers. "The first evening when the train drew in, the booster grabbed the hand of a man who was leaning out of a car window and said with enthusiasm: "Ain't this a great little burg, brother? Ain't it splendid? "I can't see it," said the man coldly. "There's a cow standing in front of it."

LOANS MATURING CANADA WILL PAY

First War Loan for \$42,014,500 Falls Due in December Other Loans Due Aug. 12 to Be Met in Cash

Hon. James A. Robb, Acting Minister of Finance, who recently returned from a holiday, is turning his attention to the financing of loans maturing during the latter part of this year. As announced some days ago the first maturing obligation amounting to five million pounds Sterling, on August 12, will be met with cash. On the 15th. of the following month treasury bills to the amount of \$90,000,000 fall due, and on the first of November treasury notes to the amount of \$8,000,000 mature. The first war loan of 1915, payable in ten years, falls due on December first. The amount is \$42,014,500.

HOLDING OF A SUMMER SCHOOL DISCUSSED

Three vacant mission fields in the Fredericton Diocese at Greenwich, Musquash and Hillsboro, were reported at a meeting of the Mission Board of the Church of England Synod, held on Tuesday with His Lordship Bishop Richardson presiding. The treasurer's report, forwarded by J. H. A. L. Fairweather, now abroad, was received. Archdeacon Crowfoot was chairman at a meeting of the Social Service Council, and Rev. W. P. Dunham was elected president of the Religious Education Council.

After a discussion regarding the holding of a summer school, the matter was referred to a committee of Archdeacon Crowfoot and Rev. J. H. A. Holmes, while the holding of a deanery Sunday school was also discussed.

The Bishop reported appointments to parishes in the diocese as follows: Rev. H. J. Best, to Burton and Musquash; Rev. G. I. Edsforth, to Canning and Chipman; Rev. H. S. Shepherd, to Derby and Blackville; Rev. N. P. Fairweather, formerly at Musquash, to St. Mary's York county; Rev. Edmund Hallett, to St. Stephen, and Rev. W. J. Clarke, to succeed Rev. W. Wilde at Gordon and Lorne. The Bishop announced also the appointment of students for the summer as follows: Eldon, Arthur Coleman; New Bandan, Maurice Oldham; Weldford and Harcourt, F. J. Keble; Gladstone and Blissville, Todd G. Bennett; St. Mary's, York county, John Byron; Greenwich, Harold H. Hoyt; Aberdeen and Brighton, Herbert J. Hoyt; Hillsboro, A. S. Custer; Musquash, Arthur Pickering; Rothsay, Julian McMann; Westfield, Mr. Newton, of West Saint John, Mr. Focock.

Successor To Archbishop Begin

The successor of Cardinal Begin as Archbishop of Quebec who died July 8 will be Most Rev. Paul Eugene Roy, coadjutor archbishop of Quebec. It is officially announced.

The succession of Archbishop Roy to the Archbishopric was automatic. When he was appointed coadjutor of the archdiocese, June 1920 the Papal Bull provided that he would succeed Cardinal Begin in Quebec.

Auxiliary Bishop J. A. Langlois, of Quebec, was appointed administrator of the Archdiocese a week ago, in view of the fact that Monsignor Roy is confined to hospital by illness.

Election Card

Ladies and Gentlemen:

We, the undersigned Candidates, chosen by the Liberal Convention held at Newcastle June 18th to contest the County of Northumberland in the Liberal interest and in support of the Provincial Government, of which P. J. Veniot is Premier, ask the Electors of Northumberland to cast their votes for our Full Ticket.

We are heartily in support of the policies of the Veniot administration, knowing that such policy is for the future prosperity of New Brunswick.

We will be unable to visit you all before Polling Day, but will endeavor to address meetings in as many districts as possible, explaining our attitude towards the several vital questions upon which you are asked to decide.

Silence That Is Not Golden

The merchant, who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down street or, by mail order route to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store!

Tell your buying public what you have—ADVERTISING in "The Union Advocate" will invite the whole community to your store. And—

Most Folks Shop Where They Are Invited to Shop

begging for a crust of bread is the strange contrast offered at the newly opened gold fields in Siberia, described as "the Bolshevik Klondike." The alternation of rich and poor there is due to the fact that the reputed wealth of the district is attracted such crowds of persons desiring to get rich quickly that many fall utterly and eventually are re-

duced to misery. The new gold area is the Aidan region of Siberia northeast of Irkutsk, in a wild and partly unexplored region. The Bolshevik Government estimates that 400 tons of gold is available in an area of 8,000 square miles. Gold transportation is difficult because the fields are about 800 miles from the nearest station in the Amur Railway. Pros-

pectors are precariously supplied with the necessities of life by irregular river and air routes.

LET US BE HONEST WITH OURSELVES!

What Has the Government Done to Warrant the People's Support?

Read These Little Paragraphs:

THE BOON OF HYDRO.—By harnessing the water powers at Musquash civic and rural districts are enjoying the bounty of the Government in vastly lessened costs of illumination and power electricity. Every user knows this to be true.

THE GRAND FALLS PROJECT.—Musquash Hydro has proven its worth beyond question, now comes the great energy scheme of employing Grand Falls to vitalize the whole province so that New Brunswick can become a great manufacturing centre.

UNSURPASSED ROADWAYS.—Equal to the splendid roads of United States and taking the motorist and farmer into every nook of the province with facility and speed. A priceless asset given by the present Government.

THE HEALTH DEPARTMENT.—Has saved 1200 lives yearly by systematized regulations. Contagious diseases cut in half, some entirely wiped out. Protecting the whole family from babyhood to old age. The work of this Government.

HALF MILLION FOR SCHOOLS.—Over \$447,000 spent yearly in grants to teachers, assistants for advance training, upkeep in Normal School classes and University grants. A vigorous forward Government policy.

LUMBERING ACTIVITIES.—Vigilant policy of protecting forest wealth against fire; improved system of scaling lumber results in Large increase in Revenue. Stumpage money increased from half mill in 1916 to over One Million to-day.

NO DIRECT TAXATION.—From One Million and a half dollars in 1916 to Three and Three-quarter Millions in 1924 the Government has increased provincial revenue without imposing one penny of direct tax on the people, in the face of greater outlay.

FOSTERING A NEW INDUSTRY.—By guaranteeing bonds for Big Pork Packing Plant the Government expects to create a lively Market for Hogs, thus encouraging a new enterprise for New Brunswick farmers right away.

FREE SCHOOL BOOKS NEXT TERM.—If the Government is returned after this election it will begin the Fall school term by distributing \$34,000 Worth of Free School Books to the children of New Brunswick—another new idea.

PUBLIC DEBT DEDUCTION.—By Ample Sinking Funds the Government is laying away against the public debt 4.60 p. c. of its revenue while the Conservatives never saved more than 1.20 p. c. This in the face of vastly greater expenditures

PROVINCE HAS GOOD NAME.—Only four weeks ago 20 year bonds of New Brunswick sold at 48-1 p. c. interest at 90,655 p. c. or Almost Par. No province in the length and breadth of Canada shows a better standing, if as good, as New Brunswick.

TRAINING OUR CHILDREN.—Vocational training for our boys and girls in Seven Modern Buildings, which will cost \$750,000, will entail 1800 day pupils and 4000 in the evenings. Already 6058 have received technical training since 1917.

PROTECTING WORKING PEOPLE.—The Workmen's Compensation Act or Government Insurance gives 55 p. c. of full time wages to every man or woman injured while at work. This Government measure has been a Godsend since January 1st, 1919.

HELPING THE FARMER.—With lessened cost of Fertilizer Free Seed, Tests, Experimenta, farms, Dairy Schools of instruction improving Live Stock and continuous solicitation for the needs and problems of farm workers.

PROHIBITION MATTERS.—The Government stands pledged to change the Prohibition Act if a pl-biscite of the electors indicates that choice. Otherwise it stands as coded. The voice of the people must rule.

FINED FOR SELLING GRILSE UNDER SIZE

Fisheries Inspector H. E. Harrison has returned to Fredericton from Woodstock where he was called Tuesday in connection with the prosecution of Peter Stairs of Southampton, York County, for violating the fisheries regulations in selling grilse under the weight of three pounds. Stairs used a motor-car for carrying on his business and sold extensively to stores and other parties in Woodstock. One of the persons to whom he sold was a member of the Carleton County Fish and Game Association who at once reported the sale to the Association's secretary prosecution resulting. A fine of \$25 with \$19.80 costs was imposed.

In Fredericton a man named Sullivan charged with a like offence also was fined.

In each case the undersized fish came from near Millerton on the Miramichi and that fact is held to account for the poor run of salmon on the upper Southwest Miramichi. The Carleton Fish and Game Association is particularly interested in the fishing on the upper waters of that river. On the Saint John River the run of salmon this summer has been steady and there have been some good catches. This corresponds with the report of good salmon fishing in Saint John Harbor and on the coast.

The peddling of under-sized grilse in western York County has caused complaint. The fish come from the lower Miramichi. The men who catch the undersized fish, the motor-car peddlers and retailers who sell what they buy from them all are liable. In Woodstock retailers were prosecuted.

Hamlet To Be Staged Wearing Dinner Jacket

"Hamlet" in a boiled shirt and dress suit is the newest theatrical sensation in prospect for the British public. Sir Harry Jackson director of the Birmingham Repertory Theatre, it is announced, will produce "Hamlet" in modern costume at the Kingsway Theatre on Aug. 25, and the critics are speculating as to whether, if Hamlet wears a boiled shirt, would Polonius sport one of those colorful pullover sweaters and the Queen of Denmark the latest creation from Paris. It is suggested that Ophelia be brought right up to the last minute and appear in Oxford bags and a cross-word jumper.

While humorous things are being said Sir Harry is going ahead seriously with the rehearsals of what is expected to be a dramatic sensation. "It is unlikely that the characters will adopt uniformity of attire, each one will be garbed to suit the situation," said Sir Harry. "For example since some scenes are nocturnal, Hamlet may be seen wearing a boiled shirt, opera hat and evening dress. The whole idea is based on the belief that the ordinary person who goes to see Hamlet with costumes from the theatrical costumier does not appreciate the play, which seems unreal to him. He does not realize that the characters, strangely garbed and wigged, are flesh and blood people, so I propose to popularize Hamlet for the average citizen."

Will Pay Damage Done To Auto

Three men were concerned in the stealing of the Burchill car out of its garage, Sunday night, ending in the smashing up on the tarvia with one of the occupants, Louis Williams going to the hospital. It is stated that the joy-riders have agreed to make good the damage and the Burchills are not pressing the case.

What Canada Requires Is A Lot of Insomnia

Experts Insists That we Sleep Too Much—Edison and Napoleon Thought Three Hours Enough.

Experts have decided that most of us do too much sleeping. Sir John Sinclair, famous British scientist, has lately issued a public manifesto against super-somnolence. "Too much sleep," Sir John insists, blunts the senses and weakens mind and body. Other English authorities agree with him holding that eight hours should be the maximum. Edison and Napoleon are two famous figures who would no doubt agree with Sir John and his co-workers. Napoleon, according to the histories, slept about three hours a night and before the battle of Eylau did no sleeping for forty-eight hours. Edison is like MacBeth. He seems to have murdered sleep. He firmly believes that four hours a night is ample.

"Sleep," he once said, "is a bad habit. For practically twenty years I slept on a bench with my clothes on. My workmen were forced to follow my example. For the first four or five days they suffered. Afterwards they felt so fine that when they were ordered to knock off work they kept on for nothing—merely to enjoy the physical exaltation."

"Life is too short for sleep. It takes me one minute to undress at night, forty seconds to fall asleep and two minutes to dress in the morning. That is living so that time gets in no inings."

Kant, the German philosopher, was another great man who scoffed at slumber. Frederick the Great required only five hours of it. Zola took seven, John Wesley six, Bismarck and Gladstone eight. The athlete, however, is inclined to disagree with the scientist. Tyrus

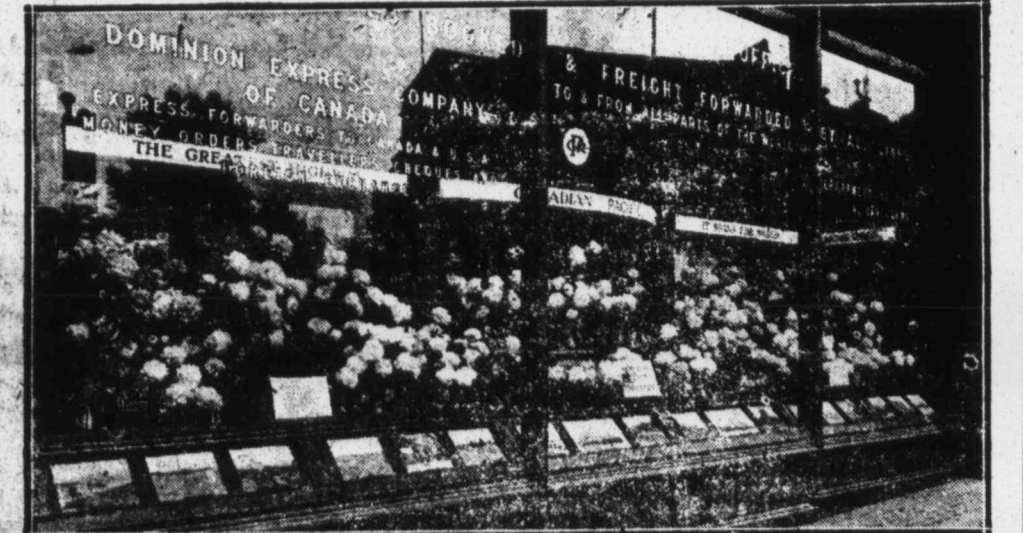

Cobb and Sam Crawford vote for nine hours apiece a night and so they get some support from other quarters. The late John Burroughs even as an old man, slept nine hours daily in winter and a very little less in summer. Dr. John S. Walsh, in his book, "Yours for Sleep," says that while it is well to emulate good example, the example of prominent men is not to be followed without question. One man's meat is another man's poison. Because Edison can work brilliantly on a few hours' sleep, it does not follow that everyone can do it. Temperamental differences, habit, circumstance explain why so "As a rule," Dr. Walsh announces, "adults require from seven to eight hours of sleep out of every 24. Women can do with less sleep than men. In old age less sleep is required. In cold climates more sleep is required than in warm climates. "There is a popular idea that sleep before midnight tends to favor the development of beauty. All sleep is beauty given, save excessive and unnatural sleep. There is no reason why sleep before midnight should be more beauty-giving than sleep attained at other times—so is it."

Prize Winning Canadian Peonies Exhibited In London

This unique picture shows the much discussed Canadian Peonies grown in Montreal by Mr. Ormiston Roy and shipped to England in cold storage in a Canadian Pacific vessel, on exhibition in the window of the Canadian Pacific offices in London, England. The Royal Horticultural Society has presented the Banksia Silver Medal to Mr. Roy and several London papers have remarked editorially upon the extraordinarily perfect condition of the blooms after their long sea voyage. An interesting feature of the picture is that in the window may be seen the reflection of the new Canadian Building which stands almost directly opposite the Canadian Pacific Offices and was recently opened by the King and Queen.

The ticket therefore, comprises three Liberals and one Conservative, and with four Liberals on the Government ticket, the Liberals of this county have now seven candidates from whom they can choose...

time, or otherwise their party is doomed. For a leader to think that he is bigger than his party is a grave mistake...

As a result of the "tactics" employed at this convention, the CONSERVATIVES of this county are now out in the cold with no ticket and free to vote for whom they wish...

In politics the "Advocate" is CONSERVATIVE, not "Baxterite." It holds no brief for Premier Veniot nor has it any axe to grind, but it does object strenuously to such "tactics" as those employed at the Opposition convention...

Youghal, N. B., July 28th., 1925 To The Editor, The Union Advocate: Newcastle, N. B.

I was deeply interested in the letter from Rev. L. H. McLean on the Church Union vote, which appeared in your issue of July 21st, especially in his statement that the vote by roll call is in accord with Presbyterian procedure...

in the Church Courts, with their delegated authority, such a vote may be demanded at any time, and I know it has frequently been so demanded...

I shall be obliged if Mr. McLean will refer me to any such provision in the rules for Congregational meetings. I have failed to find it. The Parliament of Canada amended the "United Church of Canada Act," expressly to provide for the voters of the church the same protection...

K. M. CAMPBELL

Editor The Union Advocate

I see R. T. D. Aitken has taken up the cudgels for The Reverend F. G. MacIntosh, and yet he says he does "not propose to get into any controversy in this matter." He is taking a very successful way to get into the controversy that he claims he desires to avoid...

"Shall we not preserve the independence for which our forefathers paid?" he asks. I wonder what he means! This is how the Established Church of Scotland, the mother of Presbyterianism, understands freedom. In 1921 it had an Act passed by the Mother of Parliaments—a combination of brains, education and moral ideals second to nothing on earth—in which is found the following: "THE CHURCH OF SCOTLAND, believing it to be the will of Christ that His disciples should be all one in the Father and in Him, that the world may believe that the Father has sent Him, RECOGNIZES THE OBLIGATION TO SEEK AND PROMOTE UNION WITH OTHER CHURCHES WHEREVER POSSIBLE..."

I do not understand how Mr. Aitken could even think that the second vote in St. James' Church is now taken much against my will. In the first place in the opening paragraph of my letter answering Mr. MacIntosh I specially say that the Federal Act provides, on a properly signed requisition, that a vote by ballot MUST be taken. No one but a fool would set his will against such an Act...

BIGGEST OIL PRO-DUGING WELL IS BROUGHT IN

A well producing 110 barrels of oil a day has been drilled to a depth of 2650 feet on the Stony Creek field by the New Brunswick Gas and Oil Fields Limited. There is no great gas flow as yet from this well but it may be drilled deeper.

Another well, producing oil and gas in considerable quantities has also been drilled this summer by the Company.

The well first mentioned is the biggest producer of oil struck in this locality.

The company is pursuing vigorously its development policy and is expending large sums of money on the work in the field.

OBITUARY

MacKINNON CRAIK

St. Andrews Church, Newcastle, at half past eight on Friday morning last, July 24, was the scene of quite a pretty wedding when Roy Davis MacKinnon of Newcastle, formerly of Amherst, N. S. and Miss Jean Clare, only daughter of Mr. and Mrs. William Craik of this town were joined together in the bonds of Holy Matrimony by the rector, the Rev. W. J. Bate.

The Church had been previously decorated with roses and other flowers and very many friends of both bride and groom were present to witness the ceremony. The marriage service proper was followed immediately by that of the Holy Eucharist.

The bride who was given away by her brother Hubert G. Craik was attended by Miss Ola Chapman cousin of the groom whilst Clarence Chapman acted as best man.

An informal reception was held the same evening at the home of the bride's parents after which the happy young couple departed for Amherst on a short honeymoon.

ROBERT MANLY GERRISH

The death of Robert Manly Gerrish youngest son of Mr. and Mrs. Henry Gerrish occurred at his home in Quarryville, N. B. on July 4th, at the early age of 27 years after an illness of six months. His sufferings were borne with patience never complaining of why he must suffer. Everything that willing hands could do for him was done to help him recover. Deceased young man was of sterling character, beloved by all who knew him. Owing to his kindly disposition and obliging ways, perhaps the highest tribute we can pay him is to say we miss him. The deceased young man was a faithful attendant of St. Marks Presbyterian Church and Sunday School. He leaves to mourn his loss, his grief stricken parents, one brother Otto E., of the Fraser Co., Plaster Rock, and four sisters Mrs. Robert Tushie, Quarryville; Alice, Kathryn and Glorine at home. The funeral was held on Monday July 6th. Services were conducted at the home and grave by Rev. Wm. Gattshore. Interment in the family lot at St. Marks cemetery Quarryville. A large number attended the funeral, showing the last mark of respect to one who was highly respected. The pall bearers were: Jas. Astle, Arthur Schorfield, Weldon Schofield, Herman Tushie, Cecil Oak and Robbie Gerrish.

(Contributed)

GODFREY SUTHERLAND

The death of Godfrey Sutherland occurred Saturday night about 10.30 o'clock, on Lower King's Highway, of heart failure. Deceased was 31 years of age and was the son of Mr. and Mrs. Hans Sutherland, of Nordin.

Deceased was about town on his motor-cycle in the early part of the evening, and while en route to his home at Nordin, was stricken and passed away before medical aid could be summoned.

He leaves to mourn their loss, a father and mother, three sisters: Mrs. Magnus Haggstrom, Nordin; Mrs. Erickson and Mrs. Sven Adler, Sweden; two brothers: Andrew at home and Arthur of North Dakota.

The funeral was held Monday afternoon at three o'clock to the Douglastown cemetery. The pallbearers were—Messrs J. F. Kingston, Halger Brumstrom, Swain Erickson, E. G. Hedman, Chas. Nelson, Olga Malmberg.

PERSONALS

Mr. H. B. Cassidy, spent Sunday in Fredericton.

Prof. F. J. Liscombe left last week for his home in Sydney, N. S.

Miss Kathleen Morrissy is visiting friends in Charlottetown, P.E.I.

Mr. M. S. Laffer, of Blackville was a visitor to town on Thursday.

Mrs. P. J. McEvoy is spending a vacation at "Oversteppes" Inn, Tabusintac.

Mr. Fred Carrigan of Toronto, is spending a vacation at his home in Nelson.

Dr. P. M. Clarke of St. Stephen is spending a vacation here with his father Mr. Thos. A. Clarke.

Miss Ella Bernard is spending her vacation in Moncton, the guest of her sister, Mrs. George Masson.

Mrs. Gerlie Payce of Sussex, N. B. is spending a week in town the guest of her mother Mrs. Daniel Sullivan.

Miss Hedge Morris is visiting Mr. and Mrs. John Morris, Summerside, P. E. I.

Mrs. H. B. Cassidy and little son Royce are visiting friends in Fredericton.

Miss Abigail Stewart, R. N. of Boston is visiting Newcastle friends and relatives.

Mrs. D. P. Doyle and Miss K. C. Quigley are spending a vacation at "Oversteppes", Tabusintac, N. B.

Mrs. George Walker and children of Chatham spent last week with her parents Mr. and Mrs. Robert Fogan.

Miss Margaret McCurdy, who spent several weeks with relatives in Matapedia and New Carlisle, P. Q., returned on Thursday.

The many friends of Miss Emma Delano, will regret to hear that she is confined to her home on account of illness.

Mrs. J. F. R. MacMichael and family of Moncton, accompanied by Miss Eileen Stewart, of Sunny Brae spent the weekend in town.

Rev. Thos. Roy of Brockton, Mass., spent several days of last week with his parents Mr. and Mrs. Jerome Roy.

Mrs. Robert Galloway and children are visiting Mrs. Galloway's sister, Mrs. Wm. Gifford, Campbellton.

Rev. and Mrs. L. H. MacLeaz and little son Ruthven, Mr. and Mrs. Claude Jardine, Mr. Joseph Javline, Mr. Blair Jardine and Miss Jean Jardine left yesterday morning by motor for Boston, Mass.

Crop Conditions Are Excellent

WINNIPEG, Aug. 3—Fairly general showers over the major portion of each Western Province during the past week, combined with cool weather, has been especially favorable to late grains and has been an important factor in helping grain to fill and to retard rust development, according to the weekly crop report of the Canadian Pacific Railway agricultural department.

Rust is fairly widely distributed in the southern parts of both Manitoba and Saskatchewan, but reports would indicate that very little damage has been done and it is expected that grains will not suffer badly if present weather conditions continue for the next week or ten days. Earlier sown grain appears to be beyond harm from rust. Cutting has started at many points, also that of barley, both crops promising a fair average. Sawfly is reported working at some points in Manitoba and Saskatchewan but are no more prevalent than in the average year and the situation is not at all alarming.

Grass cattle continue to come forward in large numbers to local market and prices for unfinished stock have declined; hogs are bringing good returns with prices showing improvement.

PETRIFIED FOREST OF OAKS FOUND

Discovery Made on Banks of Columbia and Spokane Rivers

Discovery of a petrified forest of giant oak trees, believed to be the only one of its kind on the North America continent, has been made near the confluence of the Spokane and Columbia Rivers in Washington State. E. M. Tardy, United States school inspector for the Indian department now located on the Colville Indian reservation, announced the find, which was made by Dr. W. A. Johnston.

Owing to its difficulties of access, the forest has not yet been fully explored but is known to extend for half a mile along the south bank of the Columbia. The trees are two to five feet in diameter and some 60 feet tall.

"The forest, of what apparently was a growth similar to our oaks, grew on one of the first of the eight flows of basalt that partially covered that part of the state of Washington," Mr. Tardy said. "The trees then were covered by subsequent flows."

"The extent of the preserved forest is not yet determinable, as the location makes exploration extremely difficult. However, on the ledges where the formation are plainly visible, the fallen trunks of giant trees are in open sight and by carefully negotiating the precipitous canyon, the standing trees may be seen to reach a height of 60 feet or more.

The diameter of many of the larger specimens is as much as five feet and a tree two feet in diameter is common.

"To view the work of time on the precipitous walls of the canyon it is necessary to scale the cliffs and pass over the ledges made by the breaking away of the solid rock. This weathering has gone far enough to open a passage into the forest that in reality honeycombs the hillside.

Where the tree trunks have been brought into contact with the air, the wood has rapidly decomposed and left the hollow shafts in the solid rock.

"By travelling along the ledges and breaking away the loose accumulations of small scalings, the hollow shafts may be entered, one tree at a time, as the wall of the canyon is of solid basalt and the only openings are where the trunks of the trees offer perpendicular shafts, most of which are still filled with the decaying wood of many centuries ago."

Mr. Tardy expressed the opinion that further exploration of the site might reveal the presence of animal life of the period when the molten rock overflowed the forest.

Here and There

"Barring accidents, we are in for the greatest wheat crop in the history of Canada," says Andrew Kelly, of the Western Flour Mills. Mr. Kelly thinks the prairie wheat crop this year is off to the best start it ever had.

The first lot of Scottish boys enrolled as farm apprentices for Canada arrived recently on the Canadian Pacific Liner "Metagama." They were brought out under the auspices of the British Immigration and Colonization Association in co-operation with the Canadian Pacific Railway.

Canada's progress in the world of letters is illustrated by the fact that there is a Canadian literary section as one of the features of the Canadian pavilion at the British Empire Exhibition at Wembley. It presents French-Canadian and English-Canadian literature from the earliest dates down to 1924.

Ten conventions, comprising almost 3,000 delegates, will be held in Montreal between now and August 31, according to an announcement by the Montreal Tourist and Convention Bureau. It is hoped to obtain the 1926 Kiwanian Convention for this city which would mean that some 7,000 Kiwanians will visit Montreal next summer.

The Crystal Gardens, the splendid new pleasure resort for the city of Victoria, B.C., will be opened at the end of June and will form one of the unique attractions of that city. It will be both a winter and summer garden and possesses a salt water swimming tank, claimed to be the largest on the continent. Citizens of Victoria are already using the Gardens prior to its official opening.

Screening at the Capitol Theatre, Montreal, of the scenes through which the University of Montreal across-Canada trip and the similar journey of the Teachers' Federation of Canada will pass, attracted a large and appreciative audience. The film was a revelation of the beauty of Canadian cities and scenery. The University of Montreal trip will start from that city July 7 and will return July 28. The trip of the Teachers' Federation will commence July 20 and will conclude August 10.

Frank W. Ashby, secretary of the Manufacturers' Association of Australia, a recent visitor at Banff, said he found Canada to have a most delightful climate and "cities which are more modern than our own." Mr. Ashby said the impression in Australia had been that Herschell Island and Baffin's Bay were linked up municipally with Montreal and Winnipeg, and thought that the best way to correct these geographical misconceptions was to encourage more tourist travel from other parts of the Empire.

That 44 beer now selling in the Province of Ontario had met with approval and was considered quite satisfactory by people of the province was the statement of Premier G. Howard Ferguson prior to his departure recently for England on the Canadian Pacific Liner "Empress of Scotland." Mr. Ferguson will endeavor to interest British and foreign capitalists in the industrial development of Ontario province.

SHAKE Tread Easy

in your shoes and note the relief it affords
Tired, Aching, Perspiring Feet

During these summer months you will be walking more than ever and if you will shake a small quantity of Tread Easy in your shoe each step will be one of ease.

Don't suffer from burning and perspiring feet when such a relief is so easy to obtain.

EVERY INDUSTRY HAS HAZARDS

New York, July 17—There is no such a thing as a non-hazardous industry in the opinion of the National Committee for the Prevention of Blindness expressed in the report of an extensive study of eye hazards in industrial occupations, made public today by Lewis H. Carris, managing director of the committee.

"Of the 100,000 blind persons in the United States approximately 15,000 are the industrial blind persons who have lost their sight in the pursuit of industrial occupations," says the report, "and there is in addition to the totally blind a much larger number of men, women and children whose vision has been so impaired by the eye hazards of industry that they are handicapped throughout life. Both of these classes, the industrial blind and the workers whose vision has been seriously impaired by the hazards of other industrial environment, grow larger each year."

There is hardly an industrial occupation in America, according to the National Committee, which does not add each year to the steadily increasing number of the blind and the near blind. Referring to the experience of just one insurance company which in three and a half years settled claims involving 1,049 cases of permanent disability resulting from eye injuries, the report says: "The loss of 82 eyes in the presumably safe occupations of merchandising, farming and textile manufacturing is further proof of the statement that serious eye accidents are likely to occur wherever men women and children are employed. There is no such thing as a really nonhazardous occupation."

The committee found that although from a national point of view the metal manufacturing industries are the source of the greatest number of serious eye injuries, in Pennsylvania the coal mining industry ranks first as a cause of industrial blindness. In Wisconsin it was found that hard tools constitute a by far the

greatest single cause of eye injuries, being responsible for 44 per cent. As an example of the important part that eye injuries play in the whole problem of industrial accidents the report cites the experience of a large ship-building company in whose dispensary 38 per cent of all injuries treated were eye injuries. More than 4,300 eye cases were treated in the dispensary of this company in one year.

IS ARRESTED FOR BOIESTOWN BREAK

Cryal Parker, aged 21, of Parker's Ridge, York county, was placed under arrest on the premises of the Miramichi Lumber Company at Boiestown Sunday morning between 4 and 5 o'clock by Provincial Constable A. Ford Yerxa, of Fredericton, after he had gained an entrance to the building where the constable had been installed in an effort to catch the person responsible for a series of thefts from the company's stores during the past few weeks.

Parker, who is not regarded as being fully normal with respect to his mental condition, was brought here by Constable Yerxa and arraigned Monday morning before Magistrate Demers on a charge of breaking and entering. He has selected trial by jury, and the preliminary examination was commenced with the constable's evidence and adjourned until Monday next. Meanwhile the prisoner has been placed under observation, and it is expected that a medical report regarding his condition will be submitted when the examination is resumed.

Constable Yerxa arrived in Boiestown Saturday evening and was placed in charge of the premises where the arrest was made during the night.

225 Shareholders Of Battle S. S. Co. Receive Indemnity

The 225 shareholders of the Battle Steamship Co., Ltd., the majority of whom reside in New Brunswick, have already received their part of the \$1,350,000 war indemnity awarded to the company because its two ships, Trebia and Candosa were interned in Germany throughout the war. Percy Thompson, representative of the company, who is at present in St. Andrews, arranged for the immediate distribution of the money, an equal amount being paid on each share.

Majority in N. B. While the majority of the shareholders are New Brunswick residents, a number reside in Nova Scotia and a few are in the United States. The distribution of the indemnity award was made with remarkable promptitude and it is understood that some of the shareholders are gaining by quite a large amount.

In some cases individuals owned large blocks of shares and it is understood that a few of the shareholders have received sums of money which run up to the hundred thousand dollar mark and past it. Not the full sum of \$1,350,000 was available for distribution however, as there were many expenses incidental to the securing of the indemnity award.

T. H. Baisley Tells Of Gardening Joys

Now is the time to add The Gardener, by T. H. Baisley, which is published with illustrations by the MacMillan Company to the garden literature. This is really the psychological moment as it is when in the midst of gardening, and when Nature is trying her own experiments, that all sorts of questions, all kinds of problems arise before the gardener, amateur and professional, and it is to answer these that The Gardener has been written. Mr. Baisley whose present book will take the place of the Bailey and Hunn Practical Garden Book, which has been regarded as a standard for the past twenty five years, and is now out of print, writes with the authority given him from fifty years experience His knowledge of all that is practical concerning the growth of trees, plants flowers and vegetables is that gained by personal contact with their vagaries during a lifetime spent in gardens. With this goes a fine appreciation of the loveliness of gardening and of the value that man gains from a contact with all out of doors.

"A garden," he says, made by one's own hands is always the best garden," and then he tells those who cannot always compass the luxury of a helper, or of continued expert assistance, how to bring to blossom and fruit the little and the larger gardens that everywhere are growing into favor. His advice is expert advice; his suggestions based on a definite knowledge. He answers the many questions that yearly are asked of neighbors across the garden railing; that are asked at the seed counter when the packages are purchased, that are hunted for when a new and entirely unfamiliar worm pokes its destructive head from among the dahlias or the carrots. There is indeed information on the growing and care of one hundred and twenty-seven genera which with cross references expands the little volume into a really comprehensive library for the gardener, amateur or professional. The trend of the present toward specialization is noted by Mr. Baisley, who speaks of the development of the specialty garden in which he has the gardener's love for a garden, but his heart is apparently with the old-time gardener for whom he asks a remembrance, because it is to that all-round man with his patience and his skill and his sympathy, to say nothing of his devotion, that the specialty garden owes a deep debt of gratitude, and to whom the specialty gardener must turn to acknowledge a valuable service in the promotion of this branch of a delightful science.

MILL SAW BILLS

We have just printed a large quantity of Mill Saw Bills, and can supply them to the different mills either singly or in quantities.

THE ADVOCATE

NO REASON FOR QUAKE PANIC

The Engineering Economics Foundation engaged in organizing knowledge of earthquake hazard, announced last week that the basic data in connection with the possibilities of earthquake damage in Boston have been assembled and that the collection of detailed knowledge relating to every section of the city is proceeding rapidly.

The announcement was made in connection with requests from builders, architects, engineers and property owners from different sections of New England as to what types of buildings and what sections of the northeastern area of the United States are most likely to be affected in the event of earthquake.

Interest in the question has been stimulated, it was said at foundation headquarters, by the recent discovery in Boston of several buildings that are believed to have been cracked by the shock of last February and the fact that some of these buildings, including large apartment houses, have been condemned. These discoveries coming so soon after the Pickwick Club disaster on July 4, when 44 persons were killed when the wall of a building toppled, have caused many persons to question whether or not they should remain in houses that have not been condemned.

No information has been obtained by the foundation which makes such change seem necessary. When no data now exists which would require moving, to permit this alarm to spread would mean a tremendous economic loss without cause and it is to minimize this loss as well as to learn the facts of earth disturbances that the foundation is working.

The foundation hopes that before many weeks have passed it will have detailed information concerning the area of Boston and its hazards and will be able to offer suggestions as to how to minimize the danger to buildings in Boston.

VOICE OF LORD TENNYSON IS PRESERVED

This interesting fact is disclosed that in the library at Aldworth, shortly before he died, Tennyson made a record of his voice on the first phonograph brought to this country.

The record has recently been presented to the British Museum by the poet's son.

Aldworth was visited recently by the members of the Poetry Society, who were the guests of the Maharajah Gaekwar, of Baroda. The Maharajah bought the property five years ago, and has restored it to the condition in which Tennyson left it.

Miss Alice Duckton who was one of Tennyson's favorite child friends showed the poet and gave an address on her intimate knowledge of Tennyson's personality, character and poems. Mr. W. F. Rawnsley a relation of the poet and the last survivor of the small company present at Tennyson's wedding in 1850 described his association with the poet at Aldworth.

The Rev. A. H. Lee, President of the senior Centre of Poetry Society said that the Maharajah had performed a national service in preserving the house and grounds.

First Impressions Are Important

In a world where appearances are valued as indexes to character, *Your Stationery* should represent you worthily—always and everywhere.

That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

LESS WHISKY BEING DRUNK IN BRITAIN

London, July 28—Britain's biggest liquor combine—the Distillers Company which likewise is the world's biggest has many of the dries on their hind legs today over its confessed ambition, appearing in the first published reports since the great trust recently was formed, to encourage greater consumption among moderate drinkers in more salubrious surroundings.

The report laments the fact that, whereas in 1908 Britain consumed more than 32,000,000 gallons a year, it is now imbibing only 13,000,900. It also asks why the formation of the combine should have been greeted with such hostility, when it is only in keeping with modern tendencies toward combination.

"It is an act of self-preservation," the report adds. Where we have so many enemies without the gate it behooves those within to close their ranks.

Many of the dries regard the formation of this big combine, which is shortly to take in another large distillery, as a step to beat any local option move toward eventual prohibition. The combine insists there is an over production of booze and calls upon agriculturists to join the agitation for the reduction of duties on liquor so that consumption will be increased and more barely can be bought from the farmers.

The report further admits some statements contained in it will have the whole weight of the teetotal party against them, "as they desire nothing better than the destruction of the whole trade."

William Ross, chairman of the company, declares that secret drinking and other alcoholic abuses would be obviated "if the surroundings for dispensing this pleasure were made more attractive."

Ross insists there is nothing incompatible with true temperance in seeking to increase the sale of alcoholic beverages to those who will use them in moderation.

COOLIDGE AIMS FOR PEACE IN THE PACIFIC

Washington, July 28 President Coolidge has instructed the State Department to forward to Governor-General Lord Forster of Australia a message to the effect that in questions touching the great region of the Pacific the aims of Australia and America will "always be similar."

In the same message the President expressed the belief that the peace of the world can best be maintained through full and sympathetic understanding between nations, faith in their honorable intentions, and their common determination to eliminate cause of possible dispute.

The President's message was in reply to a communication from the Governor-General of Australia on the visit of the American fleet and was transmitted through the American Consul at Melbourne.

HARD COAL CARGO

The three masted schooner Cutty Sark arrived in Newcastle on Thursday with a cargo of hard coal for the Stothart Mercantile Co., Ltd.

BIG RETAIL TRADE BUREAU PROPOSED

The Retail Trade Bureau of Canada, an organization which is announced as being in some measure an opposition body to the Retail Merchants' Association of Canada, and of which E. M. Trowern, former secretary of the Retail Merchants', is slated as manager, is among the incorporations listed in the issue of the Canada Gazette just released. While the organization will be Dominion-wide in its scope, the head offices will be in Ottawa.

George Kelly, barrister, one of the incorporate members, said that the organization had been under consideration for some time, and that all organization plans were practically completed. Mr. Trowern, he said had his plans and organization well in hand, and had merely been awaiting his charter. He thought that the executive officers of the body would be announced within a very few days now.

It is understood that immediately upon the final organization steps in Ottawa, an intensive membership campaign will be promoted, not only in Ottawa, but in all parts of the Dominion, with the hope of building up an exceedingly powerful and useful organization to work for the benefit of the retail trade. Officers of the new body are eagerly anticipating a warm reception by members of the trade, and are confident that it will meet with the general approval of all.

Mr. Kelley stated that in a way the new body was an opposition organization to the Retail Merchants' Association of Canada, while in another Trade Bureau was much more comprehensive in its scope than the other association, and included many duties and services in its charter which the other did not.

LONG LIFE OR NOT

What affair of ours is it when we die? Did we have any choice about coming into this life? Why then choose about leaving it?

We have not much choice. We are spared that, if long life comes to us we are entitled to believe that it comes for our good. The right idea of life is continuation; that death is not a terminal, but no more than an incident; that it is not a crash, but a mere change of cars. We pass out of our physical bodies and proceed into our spiritual bodies—invisible, to be sure, to most mortal eyes, though some mediums seem to see them—but bodies none the less, and made of something fit to hold and contain personality, and capable in some cases apparently of communication.

If we could be trained to complete advantage in the beyond, why should we be born here. The fact that we were born here implies that the life on earth is to be to our advantage; that in the school kept here we learn things necessary to our development for those things, if we die prematurely, can still be imparted to us and doubtless are, yet the appointed place to get them is here. To get all one can out of life is the right aspiration for 'us human creatures: to keep it as long as we can, and work at it as long as we live; not to hurry off into the next plane with out the education which we are entitled to get here.

Lord Beaverbrook Postpones Visit

Forced by the Threatened Coal Strike in England

After sending across the Atlantic his new yacht, which he bought from Earl Beatty, First Sea Lord of Admiralty, Lord Beaverbrook has been forced by the threatened coal strike in England to cancel or postpone his visit to Canada and the United States. He intended sailing last week-end, and had planned to transfer in the Gulf of St. Lawrence

FOR JOY OF GOOD HEALTH

Manitoba Woman Thanks Lydia E. Pinkham's Vegetable Compound

Crandall, Manitoba.—"When I was a young girl at home and working I had terrible pains, almost more than I could bear, and I was not regular. These troubles kept me so tired all the time that I had no strength and no ambition to join in with my friends and have a good time. I was just tired and miserable always and life just seemed as if it wasn't worth living. I saw so much in the papers about Lydia E. Pinkham's Vegetable Compound, and then I had a friend who had taken it and told me about it, so I got some. Every month after taking it I got stronger and I soon did not suffer every month. It stopped the pains and helped me other ways. Then when my babies were coming I was tired and worn out the first three months and ached badly. I took the Vegetable Compound right along and must say it made a new woman of me and able to do my work, and it helped me through confinement. You see I am a farmer's wife with a big house to look after, and three babies now. I have told ever so many women about your medicine. Just last week I got a letter from my old chum in the East. Her baby was born fifteen days before mine and she told me she was not feeling very well, her back aches so much, and that she is going to take the same medicine I took. You can see my letter and I hope some one will be helped by it."—Mrs. Jos. H. Kind, Box 56, Crandall, Manitoba C

Pastoral Calls The First Duty Of Clergymen

Chicago, July 27—The most important duty a pastor can perform for the good of his flock is the making of pastoral calls.

One hundred and seventy-eight ministers of the Methodist Episcopal Church agreed to this in questionnaires sent out from the Mid-Western headquarters of the church.

Teaching the children in the Sunday schools was considered most important by 175 ministers, while only 151 said that preaching was their most important duty.

Of the 446 preachers answering, only seventy-one voted for evangelistic campaigns.

Best Medicine 'She Ever Used'

Dr. Williams' Pink Pills Highly Praised by a Nova Scotia Lady

Among the well known and esteemed residents of Hemford, N. S., is Mrs. Amanda Woodworth has the misfortune to lose her husband, and as a result of caring for him during his illness, and attending to farm duties, she became terribly run-down. Mrs. Woodworth says she felt, as though her blood had turned to water. The least exertion would leave her tired and breathless. She was often attacked by spells of weakness that left her almost speechless, and frequently suffered from severe headaches. The medicines she took did not help her, and she almost despaired of gaining her health. In this condition she one day read in a newspaper of a case very similar to her own, in which health was restored through the use of Dr. Williams' Pink Pills. This made her decide to give these pills a trial. After using a few boxes she found the pills were helping her, and she continued their use until her old-time health and vitality were restored. Now Mrs. Woodworth looks after a small farm of fifteen acres, besides doing all her housework, and says she never felt better or more energetic in her life. She gives credit for her present splendid health to Dr. Williams' Pink Pills, which she says are the best medicine she ever used, and strongly recommends the pills to all run-down people.

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

from the liner to his yacht and cruise in Canadian and American waters.

Here and There

According to the official records one hundred and thirty whales have been caught by the Victoria, B.C. whaling fleet so far this season. The sperm whale is the most plentiful this year.

It has been estimated that over one hundred and fifty thousand people attended the Calgary Stampede this year. A historical pageant more than five miles long was the opening feature of the jubilee.

With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October, according to figures from the Tourist and Convention Bureau of that city.

It is expected that when Hon. Honore Mercier, Minister of Lands and Forests, returns to Canada, a thorough organization of the aviation branch of the Quebec Lands and Forests Department will take place. It is reported that the Province is to purchase several more hydroplanes, to be used for forestry research work, as well as for combatting forest fires and other work.

Church dignitaries, statesmen and thousands of laymen congregated in ancient Quebec to be present at the wonderfully impressive ceremonies attendant upon the burial of the late Cardinal Begin. The Basilica, which has only recently been reconstructed and opened to the public, presented a scene of colorful beauty and majestic dignity while the profoundly sorrowful services were being recited.

At this year's Cross-country Ride and Pow-wow of the Trail Riders of the Canadian Rockies it is expected that approximately one hundred riders will cover a new trail which extends from Marble Canyon on the Banff-Windermere Road over the Wolverine Plateau and past Lake O'Hara to Hector, while between 250 and 300 are expected at the Pow-wow near the Wapta Bungalow Camp. While out west Field Marshal Earl Haig signed on as a member of the Trail Riders.

On the occasion of the departure from England of a party of one hundred school-teachers on board the "Empress of Scotland" to visit Canada and study educational methods here, His Majesty the King sent the following message to the International Education League: "His Majesty congratulates the League upon the happy conception of the undertaking which will give opportunities to study the educational system in Canada and to gain an insight into her history, development and general resources."

That 69,000 harvesters would be required to handle this year's crop, of which the East would be expected to supply 50,000, was the estimate arrived at last week at a conference of various governments held in the Canadian Pacific offices at Winnipeg. In the meantime the Canadian Pacific Railway has taken all necessary steps to transport the army of harvesters. Their colonist cars and special equipment has been overhauled and the company is now fully prepared for its annual rush of harvesters.

George Morris Bosworth, Chairman of the Canadian Pacific Steamships, who died in London, England, on the morning of July 26th, from septic poisoning following an operation for appendicitis, was with the company almost from its inception. He was 68 years old when he died. He joined the Canadian Pacific Railway in 1882 and was head of the steamship service for nearly seven years. When informed of Mr. Bosworth's death, E. W. Beatty, K.C., chairman and president of the company, stated that in his opinion Mr. Bosworth had had no equal in the country as a manager of railway traffic and added that "the company deeply regrets the passing of another of the old guard, whose ability and effort so largely contributed to the company's success."

Here and There

That a new market has been found for Canadian lobsters, is shown by the report that twenty-six hundred cases of lobsters, valued at about \$78,000, were shipped to Sweden from Halifax, N.S., during the first week in July.

The gold mines of Northern Ontario are now realizing aggregate profits of a million dollars a month, according to estimates compiled at Timmins, Ont. There was a gross income of \$2,650,000 during the month of June.

Six hundred and twenty-four families from Great Britain and other European countries settled in the West on 187,000 acres of land, sold in the fiscal year ending May 31st, according to the records of the Canada Colonization Association.

Quebec is this year enjoying the greatest influx of tourists it has known for a considerable time. Hundreds of motorists, the majority from the States, are camped in and around the city, and the Chateau Frontenac reports capacity bookings.

During his tour of Western Canada Field Marshal Earl Haig passed through the town on the Canadian Pacific Railway which was named for him several years ago, for the first time. The Field Marshal, on learning his connection with the town, looked as pleased as though he had just won another famous victory.

According to the report of the Department of Agriculture, livestock marketings in Canada during the past year were the best experienced for many years. There were 975,020 cattle, 355,179 calves, 3,094,291 hogs and 485,606 sheep marketed in 1924, as compared with 882,921, 315,522, 2,363,402 and 512,390 respectively in the previous year.

According to J. M. Gibbon, secretary of the Trail Riders of the Canadian Rockies, who recently left Montreal for the West, the annual cross-country ride and pow-wow undertaken by that organization, is becoming so popular that lovers of the outdoors from England and Australia are attending this year, in addition to the members from the United States and Canada.

The "Beatty Boys," four British youngsters, brought out here by E. W. Beatty, K.C., President of the Canadian Pacific Railway, to study Canadian farm methods, arrived in Canada on the "Montcalm" this month. They are expert farmers selected by the Minister of Agriculture from the members of the Young Farmers' Club of Great Britain and will remain in Canada for two months as the guests of Mr. Beatty.

That elk, in the Panther River country, not far from Banff, are rapidly increasing in number and may possibly become a menace, is the opinion of Belmore Brown, an artist of New York who recently returned from a painting tour through the Rocky Mountains. Mr. Brown is regarded as an authority on wild animals and states that there will be ten years from now, 10,000 elk in the district, unless steps are taken to decrease their numbers.

French-Canadian agricultural experts, theologians, students and others, tearing the country under the auspices of the University of Montreal express unanimous amazement at the agricultural development of British Columbia, the scenery of Alberta, the prairies of Manitoba, and the beauties of Northern Ontario and the vastness of the country in general. A similar excursion left Toronto recently under the auspices of the Teachers' Federation of Canada and will return the middle of August.

Apply Minard's at once. It halts the pain and stops inflammation. Removes all poison from cuts and sores.

Keep a bottle on the shelf.

Local and General News

TOO MUCH RAIN
Continued rainy weather is making it extremely hard for the farmers to make their hay. Reports say that not much hay has been cut yet as the farmers are waiting for a change of weather conditions.

OPPOSITION MEETING
The Opposition held a meeting in the Opera House last Friday evening. Mr. D. S. Creaghan was chairman and the meeting was addressed by Messrs. C. D. Richards, M. L. A., A. J. Doucet, M. P., E. W. Wailing and Joseph Manderson.

THE FIRE PATROL
The Newcastle Fire Department is holding a Benefit Night in the Opera House, on Wednesday and Thursday, August 12th and 13th, when the moving picture entitled "The Fire Patrol" will be shown. It is a wonderful picture and merits your patronage. See advt. elsewhere.

YOUR SUBSCRIPTION
The date of the expiration of your subscription appears on the colored label on your paper. For instance Aug. 22, means that subscription terminated August, 1922. Look at your label and see if you are in arrears. If you are, we would appreciate a remittance.

UNITED SERVICES
Services of the Presbyterian, Baptist and Methodist Congregations, during the month of August will be held in the following order:
August 9th.—A. M. Baptist Church
August 9th.—P. M. Methodist Church
August 16th.—A. M. Presbyterian
August 16th.—P. M. Baptist Church
August 23rd.—A. M. Methodist Church
August 23rd.—P. M. Presbyterian
August 30th.—A. M. Baptist Church
August 30th.—P. M. Methodist Church

PRESBYTERIAN SERVICES
Last Sunday Rev. Dr. Hilts of Toronto, conducted Presbyterian services in the Masonic Hall, Chatham. The morning and evening services were attended by large congregations and in the afternoon Dr. Hilts preached in Redbank to a congregation of some two hundred and twenty-five. Dr. Hilts will remain in Chatham during the month of August and while in this district will supply other places as well. Rev. Dr. J. A. Hilts is pastor of Davenport Road Church, Toronto and is a fluent and inspiring preacher.

COUNTY COURT
Northumberland County Court opened here Tuesday morning. Judge McLachey presiding. There was only one criminal case on the docket, that of Sylvester Rideout, who was charged with killing a horse belonging to Legere Roy, of Beaverbrook. The grand jury found no bill.

When the court convened Tuesday afternoon two appeals from convictions under the Inland Revenue Act were taken up. George Gallon, of Chatham, is the appellant and the convictions were made by Sub-Inspectors Fraser Saunders, of Fredericton, and Perley Stewart, of Newcastle, both of whom are inland officers. Judgment will be delivered in these appeals at the October sitting of the court. Considerable interest is centered on the outcome of the appeals argued by J. A. Creaghan on behalf of the appellant, involving the question of the authority of the officers.

Baseball Notes

Nelson vs. Chatham
The postponed baseball game of June 29, between Nelson & Chatham was played in the latter town last Friday night. Keoughan pitched for Chatham and Briggs for Nelson. Mayes umpired. A large number of fans were present to see the game but were entirely dissatisfied with the result. Chatham had 4 strikeouts while Nelson had 5. Chatham was blanked in the first and second, while Nelson scored one run in their first and blanked in the second. In Chatham's third one run was scored and Nelson scored 2 in their half making the score 3 to 1 in favor of Nelson. Each team scored one run in the fourth. In Nelson's half of the fifth, they secured 4 runs making the score 8 to 2 in favor of Nelson when Chatham came to bat for their fifth and last inning. In this inning Chatham scored 3 runs making the standing 8 to 5 in favor of Nelson. With two men out, and two strikes on the batter, Umpire Mayes called the game on account of darkness. This ruling met with much disapproval by the Nelson team and the spectators as they felt that the inning should have been finished and it apparently looked as if Nelson was getting a raw deal on the part of the umpire. As a result the Nelson team has entered a protest. It is just such occurrences as this that is eventually going to kill baseball in this community. Clean baseball is what is looked for and during this season there has been so many differences that the fans are about disgusted and future baseball is in a precarious condition.

POLITICAL MEETING
Hon. P. J. Veniot, Premier of New Brunswick, along with other prominent speakers, will address public meetings in the Empress Theatre, Newcastle, and Opera House, Chatham at 8 o'clock, this evening. The public is requested to attend to hear the political issues discussed.
8-0-L. P.

PROSPERITY
The prosperity of this country is based, to a large extent, on the well-being of the farmer. It is, therefore, with feelings of thankfulness and satisfaction that the favorable forecasts for the crops this year will be read. From present indications growers will enjoy an exceptional period of prosperity, for there will be a profitable market for their crop, whatever its size may be. The farm is coming into its own. The fact, will be noted abroad, and there could be no better advertisement for Canada. Young men of enterprise will be tempted to share in the opportunities available, and within the Dominion itself the prosperity of agriculture should bring about that readjustment of population which is so desirable for the economic welfare of the nation.

Hon. Mr. Martin, Ontario's minister of Agriculture, dealing recently with provincial conditions, spoke of the unemployment in the cities, the overcrowding of the professions and the comparative prosperity of the farmers. It is reasonable to expect, under these conditions, a back-to-the-land movement. "The best investment on earth is a piece of earth itself," declared Mr. Martin. "It is that which gives a person a stake and an interest in life." Life on the farm today, with the automobile, the telephone, the radio and labor-saving machinery of all kinds, is a very much more attractive proposition than it used to be, and there is every reason to expect that, sooner or later, the present urge citywards will be reversed.

HERE ARRANGING FOR WESTERN TOUR

Mr. W. L. Lowther, of Moncton Travelling Passenger Agent C. N. R. and Mr. C. E. Cameron, of St. John Travelling Passenger Agent C. P. R. were in town last Friday, conferring with Board of Trade members, in respect to a tour which these two railways purpose placing before the Maritime Boards of Trade. The idea is to have representative members of Maritime Boards of Trade, as well as business men generally, take advantage of a special trip over the C. N. R. going and C. P. R., returning to Vancouver and Victoria, with stopovers at all the large centres, so that Maritime province men can become acquainted with the western business men and talk over the many problems which is confronting the country at the present time. The proposed train will leave Moncton N. B. on the last day of August and will return on September 23rd, at a reduced fair of \$300.00 per man, including meals and rooms. These gentlemen stated that they were meeting with good success on their mission and the prospects are that the proposed trip will materialize.

Baseball Notes

Newcastle vs. Chatham
The postponed game of ball of July 17th, between Newcastle and Chatham was played last evening in Chatham. A large number of fans were on hand to witness the game. The Newcastle team was on the field in plenty of time for the game to start at 6.45 o'clock, but no umpire to take charge of the game had been arranged. As a result, valuable daylight was lost before Jenkins was secured to act as umpire and for two innings ball was played in the dark, with the moon shining in the far east. It was impossible to finish the game because of the darkness and Umpire Jenkins called the game after Newcastle had played their half of the fifth inning with the score tied 5-5. Graham and Lindon worked for Newcastle, while Veno and Curry was the battery for Chatham. Jenkins umpired a good game and everybody was perfectly satisfied with his decisions. In Newcastle's initial inning three runs were scored while Chatham was blanked. In the second Newcastle was retired scoreless and Chatham earned one run. In the third Newcastle was again blanked and Chatham scored one run, making the score 3-2 in Newcastle's favor. In Newcastle's half of the fourth they scored one run, and Chatham in their half tallied 3, changing the score to 5-4 in Chatham's favor. At this stage of the game it was extremely dark and several hits off Graham, which were difficult to field because of the darkness obtaining the lead. Newcastle again went to bat for their 5th and secured one run, tying the game 5-5 and the umpire called the game on account of darkness. This game will be played at some future date, announcement of which will be duly given.
