The Weekly Monitor.

WEDNESDAY, MARCH 18TH, 1896. -WHILE the present session of the Cana-

dian parliament has been characterized by a good deal of sameness, the budget deba and the school question occupying most of the time since the session began, the United States congress has had a much more lively time of it. Its opening days were marked by the Venezuelan incident which brought the nation dangerously near to the verge of war with Great Britain. No sooner had the

furore over that matter quieted down than Congress turned its attention to the trouble in Cuba, and soon succeeded in kicking up a worse fuss in Spain than the previous faction had done in Great Britain. The feeling in Spain, which the action of Congress has aroused, against the United States is most sely bitter. Spanish mobs have attacked the residences of American consuls and other officials and the property and persons of these have had to be defended by soldiers. The American flag has been publicly burned and other outrages committed which in former years would have been promptly met by a declaration of war on the part of the offended nation.

running races, open to all horses, drivers and riders. It is proposed to hold a stake race on Aug. 12th for horses eligible to the 3 minute class. Horses eligible May 1, 1896, when nomina-tions close, for this date, also other class races, particulars of which have not been decided. It is also proposed to hold a fall meeting in September. Liberal purses will be offered for each of these events, and full particulars and conditions will be announced in due time. The Directors feel encouraged with the success they met with last season, and have determined to make the coming season more successful than the last. The Park bears a first-class reputation among horsemen and every effort will be made to keep up that reputation. It is only on the foreign questions, which do not seem to immediately concern the American people, that Congress has manifested any degree of harmony. On domestic matters the two branches of Congress have thus far been unable to agree upon much of anything. For instance the House of Repre-Senate promptly sat down upon. Then the senate passed a bill on the silver question and the House as promptly rejected that. In the meantime while the politicians have been wildly fighting Great Britain and Service of a first class reliable man as care-taker, in whom those who desire the services of a skilled trainer can have every satisfant

way to Bridgewater from Kansas City. MRS. ALEXANDER DARGIE. The death occurred at Dalhousie, on Sat-urday the 7th inst., of Mrs. Dargie, the be-loved wife of Alexander Dargie, Esq. The deceased was the mother of Mr. John Dar-gie who now owns and resides on the E. Bauchman farm in West Paradise. The funeral took place on Tuesday, 10th inst., and was largely attended by her many friends. The remains were interred at the Perotte cemetery. Rev. H. How, who con-ducted the service, preached a very impres-sive sermon at the Perotte church. Several children besides a large number of relatives and friends are left to mourn the loss of a kind and affectionate parent. The MONITOR extends heartfelt sympathy to the bereaved family on the sad occasion. DIED IN BONTON. --- THE terrible disaster which has just befallen the kingdom of Italy in the decisive defeat of her army in Abyssinia with the loss of nearly 5,000 men, is one of the results of the vigorous foreign policy which that nation has been attempting to pursue during the last few years. Another result is the ent bankrupt condition of the kingdom. Seeing England, France and Germany helping themselves to huge slices of the dark continent, Italy concluded to do the same, not only to be in the fashion, but to prove at the same time that she too was a great

infinity of the same time that she too was a great power. So after looking over the field she concluded that Adyssinia was good enough for her, and she proceeded forthwith to con-quer it and convert it into an Italian colony. She has been ever since 1885 making the attempt, and now comes news of a crushing defeat of the Italian forces with the loss of all their provisions, sixty guns, several thousand men, and a number of officers. This news has hurled the Italian government from power, led to serious riots in some of the principal cities of the kingdom, and for a time even the throne itself seemed in dan-ger. Whether to scuttle out of Abyssinia and give up the attempt to conquer it, or to make a number of condens of the source of the sour

and give up the attempt to conquer it, or to make another desparate effort, is the problem which just now is occupying the attention of the new government. Italy never had a shadow of moral right to Abyssinia, and even if she conquered the country it would be of no use to her.

Happy Reunion. The home of Mr. Millen Buckler, Morse Road, was the scene on Monday evening, Feb. 24th, of a very merry gathering, the occasion being a surprise party in honor of the 34th birthday of Mrs. Mary Buckler. Relatives and friends of the aged lady to the number of thirty-five or forty assembled, among whom were four sons and four daugh-ters, eighteen grand children and two great-grand children. During the evening a sump-tuous repast was served at which Mrs. Buck-ler presided, her eldest daughter, aged 68, being seated at her right hand, her youngest son, aged 39, at her left. At a late hour the teams were harneesed and with a merry -THE work of the Dominion Parliament during the past week has simply been a continuation of that of the two or three pre-ceding ones. The debate on the Remedial Bill which has occupied the chief attention is expected to close about the middle of this son, aged 39, at her lett. At a fact bour the teams were harnessed and with a merry jingling of sleigh bells the guests departed for their respective homes. Mrs. Buckler was the recipient of a large number of pre-sents and kindly tokens of respect. May she have many happy returns of the day. week when the vote on the second reading will be taken. Our first estimate of a probable majority of fifty seems now to have been too high, although it may possibly reach that. Present indications point to about twenty five as the majority in favor of Nova Scotia Fruit Growers' Association. the bill on its second reading, which is the The spring session of the N. S. F. G. As sociation will be held at Middleton on Wed critical stage of its passage through the House. Various rumors of a compromise after the bill has passed its second reading sociation will be held at Middleton on Wed-nesday, March 25th, at 2 and 7 p m. The afternoon session will be an informal farmers' meeting, to which all interested in frui-growing are invited to be present. At the evening session addressee will be delivered by Prof. E. E. Faville, President Bigelow, Secretary S. C. Parker and other speakers. are afloat and possibly something in this direction may be accomplished. There is no doubt that a settlement would be reached in short order, by mutual agreement, if politicians on both sides could be convin that there was no political advantage to be

gained by following a different course.

The programme is a fine one, and at its conclusion refreshments are to be served.

are to be served. SUDDEN DEATH.—Mrs. Leonard Newcomb, of Lakeville, Cornwallis, was found dead in bed last Wednesday moraing at the residence of her brother, Wesley Taylor, Avonport. She had attended the funeral of her mother Tuesday, who died at the advanced age of 80 and retired in usual health. Her sister slept with her and when she awoke in the morn-ing found Mrs. Newcomb dead. The cause of death is supposed to be heart failure. The deceased was 58 years of age and leaves a husband and two children.

husband and two children. —The proposed early train between Hali-fax and Digby the coming summer will be a great step in advance. It is contemplated having the train leave Halifax about 4 o'clock in the morning. There will be par-lor and sleeping cars, so that a passenger can go on board in Halifax the night before, go to bed, have a comfortable breakfast on the train going through the beautiful An-napolis valley, or on board the *Prince Ru-pert* and be in St. John about 10.30, making connection with C. P. R. and International line steamers. line steamers.

line steamers. —As an introduction to their season's work the firm of Messrs. Curry Bros. & Bent began yesterday by commencing to tear down the brick house—known as the Tapper house—on Granville street. As before an-monneed in these columns, this sightly pro-perty was recently purchased by O. T. Dan-iels, Esq., and in place of the somewhat an-tiquated structure which has stood there for half a century, he has awarded to the above firm a contract for the erection of a handsome and thoroughly-built two-storey dwelling, to be completed and ready for occupancy by the last of October.

by the last of October. KENTVILLE DRIVING PARK.—A meeting of the new lessees of the Kentville Driving Park was held at the Torter Honse, Kent-ville, on the 13th inst., of which bouse Wm. Townsend, the proprietor, is one of the club. At the meeting the name Kentville Driving Club was adopted, and W. C. Balcom, Ash-lawn farm, chosen president; A. N. Griffin, Oak Dale farm, treasurer; L. S. Eaton, secretary. It is the intention of the Club to put the track under the protection of the National Association for the season and ran the business on strictly first-class principles. The first meeting will be held about June 9th and others through the season. The in-tention is to try and form an early summer and autumn circuit with other tracks. From the standing of the members of the Club we look for a grand revival of the Kentville The engine house of the D. A. R. at An-napolis was totally destroyed by fire last Thursday morning at 4.30 o'clock. Five en-gines were in the building, three under steam, and all were brought out without in-jury, with the tools, etc. There is a daily mail service between St. John and Digby. This new arrangement went in effect Monday 9th, and is welcomed with universal satisfaction. -Despite hard times in Canada for the last year or two, the earnings of some of our railways have been enormous. The C. P. R. during 1395 had net earnings that amounted to \$7,480,950.99.

GOODS Exceedingly Low Prices,

WEDNESDAY MARCH 18, 1896. WEEKLY MONITOR. every justice to be done our Roman Catholic brethren. Mr. Ritchie, before the meeting, put the conservative party in this position: an admitted right on the part of Manitoba to have free and unsectarian schools; but with the hope of gaining the Roman Catho-lic vote, a determination to force a system of separate and sectarian schools on the pro-vince of Manitoba against the will of its peo-ple. If Mr. Ritchie thinks he can persua le the electors of the county of Annapolis to join him is such a crusade of occretion against the free people of Manitoba he is mistaken. Dear Sir, Yours sincerely, New Advertisements. New Advertisem Dalhousie East. Births. Correspondence. Miss Josie Gaul has returned home from Bridgewater. She has been away all winter. Mrs. W. Margeson, of Melvern Square, is the guest of her mother, Mrs. A. Patterson. Mr. H. P. Roop was the guest of his daughter, Mrs. Elton Saunders, on the 15th. A pie social will be held at the Post Office next Friday, March 20th, at 7 o'clock p.m. Mr. Carman Wilson and his sister Loretta were in Paradise all last week visiting friends. CEEN.—At Victoria Beach, 10th inst., to Mr. and Mrs. Edward Keen, a son. We do not hold ourselves responsible for the pinions of our correspondents. KINSMAN.-At Digby, 6th inst., to Dr. and Mrs. F. S. Kinsman, a daughter. A Bat____ To the Editor of the Monitor: Mr. James J. Ritchie in his reply to my lester has changed his position from that as-samed by him at the meeting in Bridgetown. At the meeting Mr. Ritchie took the ground that the government was compelled to pass remedial legislation, in other words, force separate schools upon Manitoba. I asked the question if there were anything in the B. N. A. Act (that Act being our constitution) to compel the government to pass remedial legislation. Mr. Ritchie having the closing speech gave as answer to the question, that he could not find anything in the B. N. A. Act on this question, because Manitoba was not at the time in the Union. That was Mr. Ritchie's position at the meeting. In his letter in your last issue he admits that; speaking generally, the provisions of the B. N. A. Act do apply to Manitoba. He fur-ther assumes that I contended that this ed-torational question depends wholly upon sec. 93 of the E. N. A. Act and not on sec. 22 Manitoba Act. I made no such contention. What I contended for, and do still contend, is that the rights of the minority of Mani-toba are assured as much under sec. 93 of the B. N. A. Act as under the Manitoba Act, though I am free to admit that the latter act is the governing act. Mr. Ritchie con-tended differently and asserts that the right of the Manitoba minority is secured only by hy Kitchie in this contention he is not in accord with Sir Charles Tupper or the Minister of Justice. In moving the second reading of the remedial bill, hear what Sir Charles said. "If it can be shown that any right enjoyed axis province at the time d confide-second reading of the tame." "It is an been infringed upon, if it be shown RYDER.-At Lower Granville, March 1st, to Capt. and Mrs. Wm. Ryder, a daughter. Mr. Alister Kaulback and Miss Somira-Barkhouse, both of this place, were made happy quite recently by the Rev. Mr. Law. ⁸⁰¹. Marriages. mouse. There are business houses in this county Yours sincerely, JOHN ERVIN. much the same. You don't know whether they are WILKINS-SABEANS.-At Port Lorne, March 9th, by Rev. E. P. Coldwell, Burpee Wilkins of Port Lorne, to Amy Sabeans. of the same a grocery store, curiosity shop, or a clothing store. OCHNER-DAVISON.-At Bridgetown, March 11th, by Rev. F. M. Young, John H. Boehner, of Annapolis, to Miss Maud Davison, of Hantaport To the Editor of the Monitor. To the Editor of the Monitor: DEAR SIR,-We thought it might be of interest to the readers of your valuable pa-per to know that Messra, Garcia, Jacobs & Co. cabled last week that our average for apples we shipped by S. S. St. John City, was 14s. 9d. It was currently reported that our fruit by this boat was all frozen in Hal-ifax. This statement evidently lacked the essential element of truth, inasmuch as the above lot was landed in London in splendid MORRISON, A LARGE LOT OF The Tailor, Deaths. happy quite recently by the Rev. Mr. Law-son. Mr. T. A. Wilson spent a week quite re-cently at Greenfield, Brookfield and Mait-land, where he visited his sisters, Mrs. Henry Freeman, Mrs. J. Kempton and others. While Mrs. John Grinton and Miss Susan Grinton, of Falkland Ridge, were returning home on the 15th, the horse got frightened and upset the sleigh. We are glad to learn that the ladies were not badly hurt. Mr. C. W. Saunders spent a week at Brookfield. He was the guest of Mrs. Haden Camerom. Since Mr. Saunders' re-turn he has had an attack of rheumatism. We are glad to learn that he is recovering and able to go out. Sells men's wear only SMITH.—Suddenly at Children's Hospital, Hun-tington Avenue, Boston, on Monday, 16th in-stant, Susan, third daughter of the late Fran-cis and Hannah M. Smith, of Digby, aged 37 years. Flour, Feed, Doesn't it seem to you that such a place is THE BEST PLACE TO BUY CLOTHING. We know it is. When in doubt buy of essential element of truth, inasmuch as the above lot was landed in London in splendid order. The *Halifax City*, now on the voy-age to London, has only a little over eight thousand bbls, and we are of opinion that those of our friends who were fortunate enough to hold back part of their fruit until the present time, will receive very remuner-ative prices. S. E. BANCROFT. REESE.—At Granville, on Saturday, 14th inst., of consumption, Carrie J., daughter of John Ress. At Granting, on Aughter of John of consumption, Carrie J., daughter of John Reese, aged 13 years.
SHIPP.—At Sandford, Yarmouth county, March oth, of Bright's disease, Mr. Elijah Shipp, ay native of Dalhousie, Ansapolis county, aged 63 years, leaving a widow and four children to mourn their loss. A. J. MORRISON, Cornmeal Merchant Tailor. Middleton, N. S. DARGIE-At Dalhousie, March 7th, Mrs. Dargie, wife of Alex. Dargie, Esq., aged 68 years. and Oats. wife of Alex. Dargie, Esq., aged 63 years. HARRIS.-On Wednesday, March 11th, at Hills-burg road, near Bear River, Benjamin James Harris, aged 79 years, leaving a widow, seven daughters and two sons to mourn the loss of a kind, loving husband and father. JEFFERSON.-At Pasadena, Florida, March 3rd, Walter Jefferson, aged 21 years. [The deceased was for some time a resident of this town, where his father died, after which the family removed to Worcester, Mass. The parents of the deceased were natives of Eng-nand. During their residence here they made many warm friends, who will learn of the sad affliction with deep sorrow.|-ED. To Wipe Out Christianity. LASSACRES IN TURKEY A RELIGIOUS WAR ON bought before the re-A DEFENCELESS PEOPLE. STARTLING cent advance, just London, March 11.—The Daily News, in an article upon the situation in Armenia, dilates upon the pitiable state of the hundred thousand Armenians who are in a starving condition, and are solely dependent for the necessaries of life upon the charity of the British and American public. One district alone, the News says, absorbed £16,000 of the £30,000 remitted to Sir Philip Curril, the British Ambassador to Turkey, for the re-lief of the suffering Armenians. The News also announces that it is the in-tention of the Anglo Armenian Society to approach Mr. Gladstone with a proposition that a deputation be appointed to wait upon Lord Salisbury and urge upon him the es-tablishment of a national relief fund under Government patronage. London, March 11.-The Daily News, in Springfield. Mr. Henry P. Roop was in Middleton last week for a few days. Mrs. Francis F. Mason was in Springfield on the 9th visiting relatives. Mr. Omer Stoddart is busy preparing poles for the telephone correlations. arriving. The italies are mine. "If it can be shown that any right enjoyed by any province at the time it entered confede-ration has been infringed upon, if it be shown that the privileges that were enjoyed... have been interfered with or removed, the moment that took place. N. A conference of the shown it stood upon the statute book, the right is transformed inso facto from the local legislat-ture... And, holding that under the circum-stances the moment it can be shown that the provincial legislatures have invaded that right and used 1857, and to the law under which Manitoba came into the Union." So much for Sir Charles Tupper in his INDUCEMENTS! Now is the time to or the telephone company. Mr. Elwood Mason is home again. He As the Spring Season is now rapidly approaching, doubtless there are many households in the town, county and elsewhere who have decided upon placing in their dwellings new appointments in New Advertisements. buy right at as been in Paradise on busines The lumbermen are hurrying along with their work. The roads are becoming un-FURNITURE NEILY & KINNEY'S, their work. The roads are becoming un-certain. Mrs. Benjamin Rhodenizer, of Bridge-water, is the guest of her daughter, Mrs. Charles Mason. Messrs. Charles Marshall, Jacob Stoddart and Mr. Wagner, called at the parsonage on the 9th. They left a fine pile of cordwood as a donation. Their kindness was appre-ciated. and it is to those that the old and reliable Furnishing House, formerly J. B. REED & SONS, and now under their management, wish to call attention by acquainting them with the fact that for the next few weeks Manitoba came into the Union." So much for Sir Charles Tupper in his recognition of the force of the B. N. A. Act in this question. I find that the Minister of Justice is equally emphatic with him on this point, though I must say that he conflicts with Mr. Ritchie's opinion, as given at the meeting. Hear the Minister of Justice: "I think it mould hotton if Justice: tablishment of a factorial relief such under Government patronage. Constantinople, March 11.— Rev. Mr. Christie, an American missionary stationed at Tarsus, will superintend the distribution of relief to the Zeitoun refugees. Bargains of an Exceptional Nature in Parlor Suits, Bedroom Suits, M Side Boards, etc., will be offered. of relief to the Zeitoun refugees. The following information has been re-ceived by the Armenian Relief Association from Constantinople: It has been proved beyond a doubt that the massacres in the Eastern provinces of the Turkish Empire are a religious war upon an unarmed and defenceless people, undertaken with the definite purpose of extirpating the Christian religion, and carried through re-lentlessly to this object, and that in the understanding of the mass of the Mohamme-dan population of several of the provinces, Christianity is prohibited in the Empire, and Mohammedanism has proved that it can do its will unmolested by any force from outside of the Empire. It is from this point of view that the horror of prohibiting the succor of Christians in the provinces of Harpoot and Aleppo has been added to the awful crime of murder and outrage upon wome. The following facts are now given in ad-dition to what has already been established respecting the forced conversions of the broken and ruined people: At Chounkcoush, in the province of Diar-hekir, there were 6,000 Armenian Christians. meeting. Hear the Minister of Justice: "I think it would be better if I discussed this uestion from a point of view from which, I think, it has not yet received sufficient atten-tion in this debate, and that is the drier, the merely legal aspect of the question at issue. I may say, sir, at the outset, that in order to un-derstand the *Confederation act* and the Mani-toba Act on the subject of education... I do not think to people of theoremetry chesse odn-cational sections of the British North America. Act are protestant in their origin.... that the attention of the country should be directed to the historical origin of the troublesome provisi-ons in the B. N. A. Act. There is one point, I think, nobody will dispute from a constitutional point of view, and that is that the B. N. A. Act aminority as such.... Separate schools are not agreeable to me; but the question of whether public schools are regument to Catholics or not is a question settled by the charter under which we live. It is a question settled by the B. N. A. Act for all time. And again: All persons requiring anything in the line of HOUSE FURNITURE who will take the trouble to call, will find that our stock is thorough and com-plete, and that many of the articles are offered at PRICES THAT CANNOT PROVE OTHERWISE THAN SATISFACTORY. Call and inspect. Port Lorne. Mr. Burpee Wilkins and Miss Amy Sabeans, of Sabeans Brook, were united in marriage on Monday evening, March 9th, by Rev. E. P. Coldwell. Undertaking! Besides the usual complete stock always to be found in store at the establishment on Granville Street, a branch has been opened who will give every attention to the requirements of the public. by Rev. E. P. Coldwell. Capt. Samuel Beardsley, junr., Joseph Sabean and Arthur Neaves have gone to St. John to join their schooner, which is already loaded. Capt. B. takes charge. Mr. John Hall has gone to Lynn, Mass, to remain Mr. Jacob Wilcox of St. Thomas, Ontario, is one of the best known men H. PHINNEY in that vicinity. He is now, he says an old man, but Hood's Sarsaparilla o remain. Mr. Albert Wilkins suffered the loss of a AUCTION 11. **Cheap Sale** has made him feel young again. Has just received a fine stock of "About a year ago I had a very severe attack of the grip, which resulted in my not having a well day for several months afterwards. I was completely run down Continued! Real Estate Groceries : Mr. Hopper, of St. John, visited this place last week. A. Calder, of Halifax, was visiting friends in this place last week. Our pulpit was ably filled last Sabbath by Mr. Brown, of Connecticut. Many are laying in their store of ice for the summer's use. They evidently do not desire to melt during the hot months. And again: and my system was in a " I say that the protestants of Quebec are de-pending to-day, so far as the legal support of their schools are concerned, upon the very same power that the catholics of Manitoba are now invoking to save their schools." In order to give my customers and the public another chance to buy first-class goods cheap for the next two weeks, com mencing MARCH 4th, I will sell To be sold at Public Auction on Terrible Condition. I lost fiesh and became depressed in spirits. Finally a friend who had been Confection'ry Thursday, April 2nd, next, me to try it and I did so. I continued tak-ing it until I used twelve bottles and \$1.25 at 2 o'clock, p.m., At Chounkoush, in the province of Diar-hekir, there were 6,000 Armeniaa Christians. Eight hundred and eighty were butchered, and the remainder were forced to accept Mohammedanism at the edge of the sword. Out of a total Christian population of 2,400 at Palu, in the same province, only 300 were left on Dec. 10, and they were on the point of perishing with hunger. The distribution of bread by the Government consists of the filling of several baskets with pieces of bread and emptying the baskets into the street for the people to scramble for the bread. This gives as much pleasure to the Moelem on lookers as the feeding of the wild animals at the Zoo. And another: "The fact of the matter is that no argument of that kind can be based, except on this as-sumption, that the B. N. A ct in this respect was a mistake, and that these sections about ducation should never have been passed." One more extract: LSO A LOT OF..... front of the house occupied by Aaron Chute, in Bridgetown, the following properties belonging to the worth of any of the following goods Goat Robes, today I can honestly say Hood's Sarsa-parilla has restored me to my former health." decision says:

A section has been added to the Act com-pelling the Game Society to file annually in the office of the Provincial Secretary, a de-tailed report of all moneys received and dis-bursed by them, of all fines paid, and the dis-tribution of the moneys arising from such fines, of names of special agents and amounts paid the same, etc., etc. This report is not necessarily for publication, but it is to be placed in a Government office, where it will be open for inspection by any interested. The penalties for the violation of the Agt are similar to what existed heretofore. Any foreigner who pays taxes on property be may own in the province amounting to \$20.00 annually, can shoot without any charge for license.

All the decision amounts to as respects the wo statutes is, that it is unnecessary to re-er to the arguments derived from the ear-ier statute because they are embraced with-the later enactment

Ther statute because they are embraced with-in the later enactment. But what does it matter, any way? Is there anything, even in the statute of Man-itoba, which compels the government to pass this remedial bill. Mr. Ritchie says there is, and at the meeting the whole burden of Mr. Ritchie's address was that the constitu-tion obliged the government to pass the retion obliged the government to pass the re-medial bill. With this contention I dis-

medial bill. With this contention I dis-agreed, and here again I find that Mr. Rit-chie is in conflict with the Minister of Jus-tice. Mr. Ritchie claims that parliament was legally bound to pass the bill. That there was a solemn compact which they should keep, and so on. Here is what the Minister of Justice says on this point: "Now Large no duth at all as a lawyer "Now, I have no doubt at all, as a lawyer, that this house has ample discretion to act or not to act. I have not the slightest doubt that this house is perfectly competent to reject this bill and to refuse absolutely to interfere at all in the affairs of Manitoba."

In the affairs of Maniloba. On this purely legal question I hope Mr. Ritchie will excase me for thinking that the Minister of Justice is right. Mr. Ritchie rests hit contention that the word "may" in this question should read as "shall" on one case. I presume he could have cited others, but for obvious reasons I assume he has cited the very strongest he could find. I should hardly contend, and I think few lawyers would do so, that an authority for the contention that parliament is bound to act, is to be found in a case which relates to the question as to whether a coustable is to The Annapolis County District Division met at Round Hill on Monday the 16th, and

act, is to be found in a case which relates to the question as to whether a constable is to be reimbursed for moneys he has expended in the execution of his duties. If the case cited be an authori v on this point, then it is a pity that the Minister of Justice did not know of its existence, as it might have changed the whole tenor of his legal argu-ment before the House. But I find that he did, at least, understand the principle govern-ing the case cited by Mr. Ritchie, for, after declaring in the most emphatic terms that

declaring in the most emphatic terms that parliament was not legally bound to act in this remedial measure, he continues:---"Nothing can be clearer than this, that if this legislation dealt with magistrates, courts of law, or any public functionary whatever sub-ject to law, that word "may" in sec. 3 would mean "shall," and we would be so obliged to use it."

I must conclude, however, from the above that the Minister of Justice did know of this very case, and that he did not cite it be-cause it was not, in his opinion, an author-WM. DANIELS.

cause it was not, in his opinion, an author-ity governing this case. Again, I hope Mr. Ritchie will excuse me for thinking that the Minister of Justice is right on this purely legal question. The case cited by Mr. Ritchie is the ex-ception. I will cite one which contains the rule: -I was CURED of Chronic Rheumatism by MINARD'S LINIMENT. Albert Co., N. B. GEORGE TINGLEY.

rule: --"Though dicts of eminent judges may be conclusion of courtary, it must be the plainest tonchusion of courtary, it must be the plainest shall be lawful" "ompower the "may," it shall be lawful" "ompower the "may of the proper," when their ordinary meaning an en-abling and discretionary power. LIFE ON A FARM. One of Hardship and Constant Exposure

EQUENTLY THE MOST RUGGED CONSTITU TIONS ARE BROKEN DOWN -A PROMINENT FARMER TELLS OF THE WONDERFUL RE-CUPERATIVE POWERS OF A FAMOUS MED-TCINE.

From the Assiniboian Saltcoats, N. W. T, Everyone around Yorkton knows Mr. Dan Garry, and what a pushing active busas farmer he was until la grippe took h ld of him, and when that enemy left him, how listless and unfitted for hard toil he became. For months he suffered from the bameful after effects of the trouble, and although he still endeavored to take his share of the farm work, he found that it was very trying; he had become greatly weakened had lost both appetite and ambition, and was tired with the least exertion. He tried several remedies without deriving any benefit, and as one after the other had failed, he determined to give Dr. Williams' Pink Fills

a trial. He felt so utterly worn out that several boxes of the pills were taken before e found any benefit, but with the first signs of improvement he took fresh courage, and continued taking the pills for three months, by the end of which time he was again an active hustling man, feeling better than he had for years. Mr. Garry tells his own story in the following letter to the As-

Dear Sir,-"After a severe attack of la grippe I was unable to recover my former strength and activity, I had no ambition for either work or pleasure, and to use a popu lar phrase, "did not care whether school or not." I tried various medicines without deriving any benefit from them. With not much hope I decided to try Dr. Williams' Pink Pills, and was agreeably pleased to find after a few boxes, a decided change for the better. My appetite, which had failed me, returned, and I began to look for my meals half an hour before time, and I was able to get around with my old time vim. I continued the use of the Pink Pills for three months, and find myself now better than ever. You may therefore depend upon it that from this out I will be found ong the thousands of other enthusiastic admirers of Dr. Williams' wonderful health restoring medicine.

Yours gratefully, DAN GARRY.

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, spinal roubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., these pills are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to pale and sallow cheeks. Men broken down by overwork, worry or excesses, will find in Pink Pills, a certain cure. Sold by all dealers or sent by mail, post paid, at 50c a box, or six boxes for \$2,50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont. Beware of imitans and subset alleged to be "just as

Agricultural. It is noted that in course of the coming ammer Queen Victoria will complete the Hotbeds. fifty-ninth year of her reign. She will soon BY B. H. GARNER. have reigned longer than any monarch that has sat upon the British throne. These Early greens and vegetable are much rel years, because of the changes that have come ished by every one who has them, but without timely preparation they cannot be se-cured. Such a thing as a hotbed too often to pass are among the most notable in the orld's history. As a writer in the Edinburgh Review remarks, we must almost say that in no six hundred years of the world's appears out of the reach of any except marketgardeners. There is nothing in connectio history has there been so much moral and with the making and manipulation of a simple aterial progress as the British people have hothed which need prevent any and every farmer from having one. The hotbed, like ade since the Queen came to the throne. In 1837 the population of the British Isles the ice-house is gradually finding its way on

was 26 millions,—there 18 millions in Eng-land and Scotland, and 8 millions in Ireland. The first The first step in the making of a hotbed is There are now about 40 millions in the Uni- to draw hot manure from the barnyard (horse or sheep manure is the best) to the ed Kingdom, of which number Ireland spot intended for the bed, which should be ounts but 41 millions. England and Scotnd have nearly doubled their population; on the south side of a large building or a reland has lost nearly one half of hers. In high close board fence. Here it should be Asia there has been added during the Queen's mixed and turned to have it of an even eign territory nearly if not quite 400,000 temperature throughout. The following day nare miles, and vast populations. In the foundation may be started by building Africa a million square miles have been ad the manure into a pit in the ground or upon ded to the Queen's dominions. Australia the level. Cheap frames can be made from and Canada contain one-ninth of the land any wide boards nailed together at the cornurface of the globe. When the present | ers, using short strips on the inside to better reign commenced Canada had but one mil- hold the nails and strengthen them. The lion of a population, mostly discontented and scattered. New Zealand was settled two years after the Queen's accession. Australia had only a handful of people, eight feet. Saw the end pieces on a straight line from the height of the back to the front part from convicts, the total population eing 75,000, and convicts and pardoned After nailing these pieces, nail four-inch wicts numbering 60,000 of these. The strips along the upper edges of the end pieces, whole British Empire now includes 10 million letting them extend above about two inches square miles, with a population of more than These strips guide the sash at the outer ends. 350 millions. It has more territory than It is better, when large frames are used, to Russia and more population than China. have them narrow with separate sashes in-Nearly one person of every four on earth stead of one large one, on account of more convenient handling and greater strength. owes allegiance to the Queen. In 1837 London was not connected with railway even with Birmingham. Railway enterprise was four-inch strips for the support of the edge only beginning. There are now more than of the sash. Place the glass in the sash by 20,000 miles of railway in the British Isles. | laying the next one over it about an inch, to freely shed the rain. Just before placing In 1838 steamers crossed the Atlantic in 18 days. Now the voyage is made by "ocean the frame upon the pile permanently set it reyhounds" in little over five days. In on the spot intended for the bed and mark 1840 the whole commercial navy numbered off a space one foot larger each way, leaving 23,000 vessels of 2,800,000 tons. The vessels | a free path all around it. Then remove the now number 21,000, and the tonnage 9,000, frame and shake the manure lightly, to the 000. Then vessels were all built of wood; depth of about four inches, over the place now nearly all are built of iron or steel. At marked out. Then tramp this down firmly the beginning of the Queen's reign there was and lay on another layer till it is built up to no electric telegraph; and for many years about twenty inches, then place the frame on the rates for messages were costly; but in the it and fit the sash to be sure it is in the right last twenty-five years the munber of tele- position. Remove the sash and place a little

grams has increased from 10,000,000 to 70,more manure in the deepest part of the box 000,000. Six messages can now be sent at and tramp. A small quantity of salt and he same time along one wire, and words can ashes may be thrown on this, to prevent inbe transmitted at the rate of 400 per minute. sects breeding on the top. Place on this, to within seven inches of the top, light, rich Edinburgh was 13d. Then only about a soil, but do not mix any manure with it. When it is finished drive a couple of short hundred millions of letters a year were carried through the mails. Now the yearly stakes through the earth into the manure number of letters amount to 1800 millions! and close it up till the following day. Then This has resulted from cheap uniform pospull out the stakes and if the bottom ends are warm the bed is ready for the seed, protage. Then imports and exports amounted to £140,000,000; now these amount to £700, vided the soil used is not too damp. Many failures are caused by too thin a 000,000. Then 1200 articles paid duty;

covering of earth. This can be told by the temperature of the soil;-if it becomes too warm more earth is needed. Sprinkle the ome tax in 1842 yielded £7,000,000 for every | hed occasionally, but do not soak it. Pick out the weeds as soon as they appear and

benny imposed; it now yields £2,250,000 fo he penny. Food stuffs can now be carried thin out the plants as soon as the danger of 10.000 miles more cheaply than they could frost is past by transplanting some in the open garden. Leave the sash off on mild iays to give the plants stamina. As the days In the early years of the reign employment become hot it is well to prepare a canvas was extremely scarce. In 1842 there were ,429,000 paupers in Eugland and Wales shade, which should be spread about fifteen alone. The number of paupers has been reinches above the bed, hooked to stakes driven duced nearly one-half while the population at the corners. For early lettuce, cabbage, has nearly doubled. Large masses of the tomatoes, and other vegetables, such a hotpopulation in cities lived in cellars, without | hed is well worth the trouble of making and lrainage or ventilation, and without a supply

caring for it. -Farmer's Advocate. Weeds a Benefit.

There is little so bad that no good can be

Intercolonial Exchange.

London, who forwarded the request through the colonial secretary to the governor of the Trains will Arrive at Bridgetown: Falkland Islands. The governor replied that Express from Halifax..... 11.26 a.m. when the seed would ripen he would forward Express from Yarmouth ... 2.01 p.m. a package. This package, 15 pounds, arrived Accom. from Richmond... 4.30 p.m. Accom. from Annapolis... 6.30 a.m. last week on the steamship Numidian, and is now at the marine and fisheries office awaiting passage to Sable Island. The tussad grass is represented as tall, stout, broad leaf Express for Yarmouth... 11.26 a.m. grass, with extensive branching roots, which Express for Halifax 2.01 p.m. help to bind the sand hills on which it grows. Accom. for Halifax...... 6.30 a.m. It is very succulent and nourishing and wild cattle on the Falkland Islands are said to eat it with avidity and fatten on it. If the cultivation of this grass can succeed or Sable Island and on other sandy stretches of our coast, it would be quite an addition to the crops of many small farmers. The grass grows sometimes as high as a man. It is an annual grass. The package of seed received travelled to Great Britain first and then to Halifax, a distance of eight thousand miles. The Falkland Islands are a distant possessio of the British empire

-Here is a scheme for keeping store winlows clear of frost. It may be a little late for use this winter but keep it handy: Run an inch pipe of tin along the lower inside edge of the window, this tube being perforated with small holes at every inch or so; the holes being on the upper side of the tube; carry this tube right across the window, having one end closed, and the other running under the window base, and termi nating in an inverted tin funnel. Under this funnel place an ordinary kerosene lam or a gas jet, and keep it lit all day an night. The hot air will rise through the funnel, travel along the tube, and escape through the perforations to the window, a cending up the face of the glass to the top of the window displacing the heavier, colde air. When other dealers' windows are rosted, the window which is not, where the display can be clearly seen, is doing true reoman's service for the store.

Tapping for Maple Sap

The flow of maple sap is very largely de cendent upon the depth of the tapping. The heory that all, or nearly all, the sap comes from the outer wood is erroneous, according to three years' experiments conducted by A. H. Wood, of the New Hampshire Expe iment Station. The additional injury to the tree by deep tapping is very slight, especialy if the hole is small. Where a three

eights inch bit is used, and the bark practically uninjured, the majority of the holes will be grown over the first summer after tapping.

-Always take it for granted that every ne means well by you, unless you have proof to the contrary. The average person in ociety has a good natured, or at least a vnical, sort of tolerance and liking for you. When you find out that there is some one who does, don't discuss it or quarrel about it if it can be avoided. Just drop the person rom your life as completely as possible, and, shove all never descend to abuse him or her.

How Men May Acquire Strength. EUGENE SANDOW DESCRIBES THE TRAINING

good "

HAT IS NECESSARY Eugene Sandow, a modern Hercules, has something interesting to say about physical

development. "I was a puny lad," he says, "and my desire to improve myself physically was in-spired by a few of the grand works of sculpture that I saw when my father took me through the art galleries of Rome. My plan s so simple that a child can understand it. First of all, know yourself and every muscle of its use. I advocate only simple exercises like dumbell practice, walking and cycling. I am a recent convert to the wheel and spend hours upon it. I do not think much s gained from the use of horizontal bars, £9,000,000. flying rings, or the usual gymnasium appli-

The open air is a great thing, and so vanced pauperism and crime have diminished. are cold baths. I take two of these daily. The facts of British experience within the The exercise must be regular and the weight last fifty years are a powerful plea for popuof the dumbell must not exceed the capacity lar education. Space will not allow us t of the person who uses it. I have had in my follow this subject farther. But certainly company a young man of average health who the Queen's reign has been a blessing to the has increased his weight from 120 pounds to world. The facts are a pertinent refutation 180, and he can now put a one-hundredof religious or political pessimism, a powerpound weight above his head without effort. ful vindication of national optimism. If women would take more outdoor exercise there would be less hysteria and nervous Electricity in the Earth.

complaint. The dress of the average woman IT IS THE AWFUL FORCE THAT WILL FIN is most harmful. I eat anything I like, in noderation, am abstemious beyond a glass "Take a spade, turn up a small quantity of beer or light wine, and I smoke in moderaof soil, hold a portion in your hand, hold it to your ear, then smell it. You will observe "While I am at Proctor's Pleasure Palace

at first a slight motion, hear a faint sound I shall show New York some new muscular as of the moving of distant timber, and undertakings and classic tableaus. Not every young man can reach my muscular power, know that the forces held in your hand are out any one can make himself strong and vigorous by the simplest dumbell exercise. combined with regular and temperate habits of life I expect to live to be a hundred. barring accident, and to be a strong man the soil in unseen billows, thus keeping the until I die. Within the past year I have increased my lifting capacity in harness to keep the waters from becoming stagnant. 6,100 pounds, a distinct gain of 300 pounds. I never strain myself in the least, and can not really tell what I might do with violent polluted water, place it in a bottle, cork and effort. No one thing that I attempt is more set aside in a warm place for a short time difficult to me than another."

Keeping News Out.

see tiny forks of blue lightning shoot out It is not an uncommon thing for a newsfrom the bottle, and if you keep perfectly paper to be asked to withhold this or that bit of public news, as it would "look bad uiet you will hear feint mutterings like thunder. This comes from the flintlike rocks reventing the unbroken flow of electricty for the town," to have it go abroad-would be "a bad advertisement." The Post has rough the soil and from the air becoming heard the expression many times, and is glad changed and emptying itself into the water. to find in an exchange, the case forcibly "Electricity as it is being gradually set forth in this way: "Don't blame your shown, is fire-the fire of friction, if you newspaper for what happens in the commun will, the first known by the inhabitants of ity. If there is anything in the life of the our globe. Look at an arc lamp and see its ombined sparks as they emit from the carplace that you do not wish to go abroad to the world, blame yourself if it exists-not oons so swiftly that they are taken for a the paper for saying something about it. It regular flame of eye-bedazzling light. In is the editor's duty to make a typograhical the ages to come the change of electricity photograph of the town each week, and if will keep on accumulating until some com you take a homely picture don't kick the inmotion of the earth will cause it to ignite, strument, but try to get a better impression when in the twinkling of an eye, our world, on your face the next time." with all it contains, will be enwrapped and

A Test for Death. A foreign scientist has a new test for death.

With a candle, produce a blister on the hand foot or body. If the blister upon opening works of the Almighty's creation.' with a needle or other instrument, be found to contain fluid of any kind, there is still life in the body.

one house in every ten was a liquor shop; and other cities were not much better. No for them some of the most valuable lesson means of rational recreation or improvement in agriculture would never have been learned. were within reach of the poor. Crime in-We till to destroy weeds, and by that tillage creased. In 1842 no fewer than 31,300 percause crops to yield and multiply. While sons were committed for trial in England and weeds are a menace to a crop in which they Wales: but now with the greatly increased are allowed to grow, the one only and sover population the number committed for trial is eign remedy for them is the very tillage reduced to 12,300. In 1833 the convict popu-lation of Great Britain was 50,000. Since which they have introduced. When their mission has matured, says Meehan's Mouthly, then the general population has doubled; but they will disappear, because there will be no the convicts have decreased to 4.345 .-- The place in which they can grow. It would be people were desparately discontented. Riota great calamity if they were now to disaping on a serious scale was not uncommon. pear from the earth, for the greater number Prices were high and wages low. There has of farmers still need the discipline which they been a vast sanitary and social revolution enforce. Probably not one farmer in ten since 1837. In that year the educational would till his lands well were it not for these grant was £30,000 a year; it is now about 'teachers," and many of them would not till at all. Until farmers till for tillage sake, It is marvellous how as education has adand not to kill the weeds, it is necessary that the weeds should exist; but when farmers do till for tillage sake, then weeds will disappear with no effort of ours.

Straight Post and Rail Fence.

Farmers whose rail fences are becoming dilapidated can with some labor and but little cost make them better than ever by taking down the worm fence and using the best rails to make one in a straight line. It will need stakes on each side at the ends of each rail driven into the ground, and fastened with one or more wires near the top. If only cattle and horses are to be kept in or out by the fence the bottom rails can be laid 12 to 15 inches from the ground. In this position the rails will last longer than if resting on the ground or on a flat stone near it. Five

readily notice the odor of heat. Do you or six rails, well secured by stout stalks, will make a fence that will keep most kinds of electricity; that the earth for three feet stock from getting over it, though it is best deep is alive with the invisible power and always to be sure. A barbed wire at the forms the secret of vegetable life? Waves top will prevent most stock from making the of electricity are constantly passing through attempt. The trouble with wire fences is that when strung on posts without rails, an soil from souring, as the billows of the ocean animal that is playing or running cannot see the wires until it becomes entangled in them, To demonstrate this fact, go to some rock and then its efforts to escape only makes bound pool, dip out a small quantity of the

Drainage About Farm Dwellings.

Then take the bottle into a dark room, shake The dwelling house ought always to be or the bottle, draw out the cork, and you will a slight elevation, to allow drainage from the cellar and the speedy removal of waste slops from the house through underground con duits. It must not be supposed, however that this is all the drainage that is required A well-laid gravel walk from the house to the roadway, with underdraining reaching to it, will save an immense amount of work in the house from tracking in of mud. It is a mis take to make the drains either from the cel lar or sink tight and closed at the joints, a sewer pipes in cities are laid. There i usually not a great amount of offensive mat ter carried off in these house drains, and they will be less likely to clog if the water drained from the soil is mixed with it. The water will dilute the slops and sewage, and enable the tiles to carry both off together.

-Don't delay hauling manure until the consumed, by a conflagration that will star-tle if not frighten the inhabitants of other ploughing season is on; let it be done now when the soil is frozen sufficiently to bea planets as they look down upon the flaming up the waggon, or if there is snow on the nass and see burn up one of the greatest ground use the sled. Seatter manure thus hauled on the level parts of the fields so there will be no danger of loss by surface
