COSSACKS ARREST OFFICERS ORDER FOR GENERAL STRIKE

St. Petersburg, Aug. 22.—According to private advices, the 24th Ural Cossack Regiment has mutinied at Samarcand, Asiatic Russia, arrested its officers, and replaced them with men from the ranks. The commander of the garrison of Samarcand, it is said, has demanded the immediate surrender of the mutineers, the artillery has been called out, and the city is in a state of panic.

TOO PRODIGAL WITH MONEY PROVINCES CAN'T JUSTIFY

There Would Be No Need of Increased Subsidies if They Had Been Careful. Montreal, Aug. 22.—(Special.)—Hon. J. Israel Tarte has also come to the same conclusions as Hon. Mr. Brodeur, Writing to La Patrie the ex-minister says: "We said not 22 hours ago that if the provinces were administered in a prudent manner and would adopt a business-like policy, the resources at their disposal would be quite sufficient for their needs."

HAMILTON HAPPENINGS
RAILWAY BOARD STEPS IN
TO STOP HAMILTON STRIKE

Messrs. Ingram and Kittson Con-
fer With Cataract Co. and
Union Representatives.

Hamilton, Aug. 22.—The dispute be-
tween the Street Railway Employees'
Union and the Cataract Power Com-
pany has assumed a new phase to-day.
The Ontario municipal and railway
board has stepped in, and will endeavor
to prevent a strike. H. N. Kittson, the
local member of the board, and A. E.
Ingram of St. Thomas held a confer-
ence this afternoon with the officials
of the Cataract Company, after which
they met the union's representatives.
It is proposed to hold a third meeting,
when the officers of the union, the
representatives of the Cataract Power
Company and the railway board will be
present. From the correspondence
which has passed between the com-
pany and the men, it is evident that
both want to avert a strike, but as the
company refuses to consider one agree-
ment for the employees of three roads,
and as the men claim that it is a case
of setting with the Railwaymen's
Union, and not the men, neither one
shows any indication of making any
concessions.

**COMPANY TO REMOVE POLES
RAILWAY BOARD ARBITRATES**

**Amicable Settlement of City and
Street Railway Dispute is
Arrived At.**

A peaceful solution of the difficulty
between the city and the Street Rail-
way Co. as to the removal of objection-
able wooden poles was reached yester-
day morning, when Manager Fleming
conferred with City Solicitor Chisholm,
and it was decided that the company
should remove the poles from the road-
ways where they are dangerous to traf-
fic and erect iron poles outside the curb;
the question as to which party shall
pay the cost to be determined by the
Ontario Railway Commission.

An official of the Toronto Railway Co.
stated that the city might have out-
down the poles, but if they had touched
the wires it would have caused compli-
cations.

Commissioner Harris says that with-
in a week four manufacturers have in-
stalled smoke consumers. One, Ed Prys-
sing, after experimenting with three,
has found a suitable one, which, during
a series of tests lasting 13 hours and 10
minutes, allowed emissions of smoke
for only 11 minutes, less than one per-
cent.

A prominent Toronto lawyer has
written Mayor Coatsworth recommending
his complaints against the railway and
steamship services.

The railway commission have sanc-
tioned the proposed footbridge over the
railway tracks from Wallace-avenue to

City Architect McCallum, to show
that Toronto's building bylaws are not
too severe, has prepared a table showing
the number of pounds carrying cap-
acity per square foot of floor and roof
space which other cities insist upon in
the walls of dwellings. It is as follows:

Toronto	Floor	Roof
New York	60	50
Montreal	70	60
Pittsburg	70	80
Albany	100	100
St. Louis	70	50
Buffalo	40	40

CARE OF MILK.
Provincial Board of Health Issues
a Circular.

The provincial board of health has
issued a circular to the dairymen re-
specting the care of milk. It insists
upon clean strainers and glasses, the
immediate cooling of the milk and its
storage, in some cool place free from
all noxious odors. It is pointed out
that the cows should not have ac-
cess to filth pools and sloughs. The
many illnesses attributed to improper
milk supply make the circular very
timely, and it is to be hoped effec-
tive.

**HOME RULE NEXT SESSION
OUTLINE OF THE MEASURE**

Philadelphia Paper Gives Ten-
ative Features Agreed to by
All Parties.

Philadelphia, Aug. 22.—The North
American publishes the following
story to-day about the Irish home
rule bill:

Home rule for Ireland, the dream
of loyal Irishmen for centuries, is to
be demanded at the next session of
the British parliament—the reform
backed, not alone by the Irish mem-
bers, but by the Liberal government
and the consent of King Edward VII.

Not only has this been decided upon,
but the terms of the home rule bill
have been tentatively settled, the con-
ferring powers being the King, pre-
mier, Sir Henry Campbell-Bannerman,
and John E. Redmond, leader of the
Irish parliamentary party.

Details of the Epoch-Making Bill.
Following are the details of the bill
tentatively agreed upon by the king,
the premier and Mr. Redmond:

1. Elimination of general taxation for
the support of the theological seminary
at Trinity College.

2. Conferences having as their object
the preparation of a bill which will
be accepted by both the English and
the Irish peoples have been of im-
portant Irish problem.

3. At that time John E. Redmond, lead-
er of the Irish parliamentary party,
and his colleagues, Edward Blake and
T. J. O'Connor, will outline the fea-
tures of the bill, and will explain the
reasons for their support of each.

4. It is assured that the Irish ques-
tion will take precedence of all others
at the session of parliament, which
opens Oct. 23, and that because of the
King's approval it reaches the home
measure it will pass the house of lords.
Already the inner circle of parliament
has agreed to refer to the coming
meeting as "The Irish Session."

STENSLAND ARRESTED.
Fugitive President of Wrecked
Bank Caught in Mexico.

Chicago, Aug. 22.—The Record-Herald
says: A private despatch received from
Chicago from El Paso at midnight, re-
ported positively the arrest of Paul O.
Stensland, fugitive president of the
wrecked Milwaukee-avenue State Bank
at Aguas Calientes, Mexico.

A telegram was at once sent to
Springfield to ascertain whether Gov.
Densen had been notified of the arrest;
what action had been taken looking
to the extradition of the fugitive. It
was learned that a telegram had been
sent to the governor, which is now
in the hands of his secretary.

Chicago police claim to have received
no information of the arrest.

WEEK IN THE THEATRES
REOPENING OF "PRINCESS"

"Captain Careless," a Brand New
Comic Opera, to Be the First
Attraction.

There is unusual interest attached
 to the opening of the Princess Theatre
 on Monday night for the season. Dur-
 ing the summer months the entire in-
 terior has been rebuilt and remodelled
 and beautifully decorated, until now
 all that remains of the old Princess
 is practically the outer walls, and
 this popular play house compares fa-
 vorably with any of the first-class
 theatres of America. John B. Hen-
 shaw will appear for the first time
 on any stage as Bigamy Latta, the
 star part in E. C. Whitney's latest
 production, "Captain Careless," a new
 romantic comic opera by Robert M.
 Baker of Boston, and Clifton Crawford
 of Edinburgh, Scotland. Mr. Hen-
 shaw will be supported by Alvie York,
 1000's own prima donna; May Ten
 Brink, Forest Huff, formerly leading
 actress with Lulu Glaser, and Miss
 Schuman Heinek; Sol Solomon, the
 diminutive comedian who is identified
 with all of the New York Canadian
 comedies during the palmy days of that
 popular play house; Elfreida Busing,
 the beautiful contralto; Harry J. Sig-
 freed, last season's basso, and the New
 York Hippodrome, Harry Lane, a for-
 mer tenor of the Alice Neilson Opera
 Company; Frances Golden, who ably
 supported Mr. Henshaw in "The
 last season; Nossie Family of instru-
 mentalists, a military band, and chorus
 ballet and ensemble, numbering nearly
 one hundred people.

Mr. Whitney has intended that this
 shall be the most expensive and elab-
 orate production of comic opera that
 he has ever made, and after a prelimi-
 nary tour, including only Toronto, De-
 troit, Cleveland and Buffalo, the com-
 pany will go direct to Broadway, New
 York, where indefinite time is held for
 the remainder of the season.

The advance sale of seats for the
 engagement here, which will be the
 only one played in Canada, opens this
 morning and the unusual interest
 manifested in the reconstruction of the
 and the first performance of a new
 opera will undoubtedly draw crowded
 houses.

"The Yankee Consul," conceded by
 music lovers to be one of the best of
 the modern comic operas, will open
 the Grand Opera House on Monday
 evening, and, as it is the first time
 it has been presented in this city at
 least, than dollars fifty tickets are ex-
 pected that capacity audiences will
 be present at every performance. The
 company in number and ability is
 claimed to be stronger than when the
 piece was presented here before, con-
 sequently that the opera will look for-
 ward to a musical treat. During the
 engagement matinees will be given
 on Wednesday and Saturday.

"Buster Brown's Holiday" is the at-
 traction at the Majestic Theatre for
 the first week of the fair. Master Rie
 will be seen in the role of "Buster" and
 he is supported by an exceptionally
 strong company. Seats can be secured
 for this attraction.

For the week of August 27 the big
 bill at Shea's will include John World
 and dancer, and Mindell
 Kingston, the musical southe who has
 the grand opera voice; the Balzars,
 European acrobats; Howell & Scott,
 Steady, Dory & Hugh Stanton &
 Co.; Zazel-Vernon Co. and the Kin-
 etograph completes the bill.

The Kentucky Belles burlesquers at
 the Star next week will include
 Trio, Hungarian singers and dancers;
 Ried and Gilbert, exponents of Irish
 music; Young Buffalo, assisted by Mil-
 Marietta, in a show shooting
 the Century Comedy Four, and
 Andy McLeod, musical artist and com-
 edian, the opening shift is called "So-
 ciety," and the closing burlesque, "Mup-
 phy's Mistakes."

Laureic's Brother III.
 Montreal, Aug. 22 - Charles-Laurier
 M.P., brother of Sir Wilfrid, was
 removed to Notre Dame Hospital last
 night, and to-day underwent a serious
 operation. Mr. Laurier has been ill for
 some time past, and on this account the
 doctors fear the results of the operation.

Is Disease a Crime?
 Not very long ago, a popular magazine
 published an article in which the
 writer asserted, in substance, that all
 disease should be regarded as criminal,
 and that the sickening and suffering
 and suffering of mankind is due to the
 violation of certain laws of Nature.
 It is to say that the sickening and
 suffering of mankind is due to the

THAW'S PLEAS INSANITY
AS TO KILLING OF WHITE

Will Not Admit He is Crazy Now
Evelyn Nesbitt to be Chief
Witness.

New York, Aug. 22 - A decision was
 reached to-day by the attorneys for
 Harry K. Thaw that Thaw's defence to
 the charge of killing Stanford White
 will be a plea of emotional insanity.
 This will include the declaration that
 Thaw's insanity existed only until after
 White was killed and that Thaw is now
 sane again and has been since the kill-
 ing.

The decision to make this plea was
 reached on the reports of two alienists
 who visited Thaw in the Tombs yester-
 day. The plea was approved by Thaw's
 lawyer, H. W. H. H. H. H. H. H. H. H.
 It was decided also to-day that Mrs.
 Evelyn Nesbitt will be the chief witness
 of the defence in its effort to prove
 that Thaw was insane when he killed
 White.

It was over the question whether a
 plea of insanity should be made that
 Thaw and his former counsel disagreed,
 resulting in the dismissal of the law-
 yers. The plea was approved by Thaw's
 former counsel included the admission
 that he is now insane, and if accepted
 by the court and jury would have
 caused his confinement in an insane
 asylum. The plea now decided upon
 makes no such admission.

HIGH ART IN PIANO-BUILDING
AS SHOWN IN
Gourlay Pianos

The phenomenal success of the Gourlay Pianos is but the natural
 result of the realization of a higher ideal in piano quality than ever
 before recorded in the history of Canadian piano-building.

While their matchless tone-quality and constructional superiority
 are first factors in the achievement of this success, still another
 reason is that the credit of making the piano-case reflects art in all its truest
 forms, belongs to the manufacturers of the Gourlay Piano.

The Art Gourlay here illustrated, is of Louis XV. design, and is a
 perfect example of the art of that period. It is one of several Art
 Gourlays that will be shown at the Toronto Exhibition, and the manufac-
 turers cordially invite your critical inspection.

The Habit of Health

Many people have a habit of ailing. How much better it would be to learn to keep well. For health, after all, is largely a matter of habit, which all may acquire with a little practice.

BEECHAM'S PILLS

teach good habits to Stomach, Liver, Kidneys and Bowels. If you are troubled with Indigestion, Nervousness or Headache, Beecham's Pills will reform all these bad habits and set an example of good health, which the body will quickly follow. You can break up all sickly habits by occasionally using the health suggestions transmitted by Beecham's Pills.

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold by all Druggists in Canada and U. S. America. In boxes 25 cents.

FATAL REAR-END COLLISION AT FOOT OF BATHURST ST.

C. P. R. Fireman is Victim—Conflict of Statements as to the Cause.

A rear-end collision between two express trains in the yards near the foot of Bathurst-street yesterday morning, was attended with fatal results.

It is stated that the collision was caused by an error in dispatching which seems to have been the real cause, while it is charged, too, that the C.P.R. engineer disregarded a signal.

At 5.50 a. m. the Grand Trunk express for Chicago left the Union Station, a few minutes late, with Engineer Marshall Wright and Conductor J. Donald.

At 5.50 a. m. the C.P.R. express for Hamilton left. These trains both run over the same track as far as Hamilton.

At Bathurst-street Wright stopped to wait, he says, for a train to pass over the diamond which was stalled until too late. He called to the engineer, Claxton, to stop.

The train was going at about eight miles an hour and struck the G. T. R. dining-car, in which about a score of passengers were seated. The damage all told, is about \$500.

An Official Statement. G. T. R. Superintendent Brownlee issued the following bulletin: "At 12.3 a. m. Canadian Pacific train No. 27, engine 625, Engineer J. Plaxton, Conductor W. J. Wilkes, five cars, ran into the signal and derailed.

ALCOHOL NO LONGER A DRUG

Continued From Page 1.

who had held to alcohol as a sheet-anchor in misery, other cases, not considered it exercised a bad effect on the resisting power of the patient.

"If I can get a patient who has had no alcohol I have no doubt about the results of the treatment to give alcohol. But when I have such patients I find it necessary in some cases to give it, but when I do so it is with a feeling that it is not really doing better without it, but it occasionally does a little better with it."

Men have been working in laboratories, proceeded Dr. Woodhead, trying to find the value of alcohol. Nearly every one of the patients who had been treated with the condition in which we recover from disease. Most of them have been cases of alcoholism.

Doctors must be very chary in giving alcohol, which may be interfering with the condition by which a patient regains health.

"I would require very strong definite evidence that alcohol improves the condition of a patient before I would give it. I would require very strong definite evidence that alcohol improves the condition of a patient before I would give it."

The following article by Sir A. Conan Doyle gives his ideas on the question "Are we becoming less religious?"

"It appears to me that one fallacy runs through the minds of many of our religious, that is, that any form of ritual, including the ritual of going to a large stone building for the communion with the great Eucharist, has any bearing upon the religious life of a man."

"The true tests, however, are in the religious life of a man. It is not the ritual, but the life itself, that counts. It is not the ritual, but the life itself, that counts."

THE INVINCIBLE DREADNOUGHT.

Will interest you if you are a good dresser—follow it up.

For the first time since the Dreadnought was laid down in October, 1905, the admiralty has published a detailed description of the most powerful battleship in the world.

The document, which was issued last night, shows that the Dreadnought is practically invincible. She can engage the enemy and destroy them out of range of their fire; torpedoes may strike her below the water-line, but she will not sink, while she has a coal bunker capacity which will permit her to steam 3500 miles at a uniform speed of eighteen and a half knots without coaling.

Her ten 12-in. guns are so disposed that no fewer than eight of them can be fired simultaneously from either broadside, while six can be fired simultaneously ahead or astern. There is no warship afloat that is not put out of action on receiving such a fire. The twenty-seven 2-pounder quick-firers are of a new design and greater power than those hitherto carried for use against torpedo craft, and in addition the ship is protected by armor plating from 1 1/4 to 3 1/4 inches in thickness.

"Mobility of force is of prime necessity in war," the report declares. This mobility is gained by speed and range. The Dreadnought has been designed to travel at a maximum rate of 21 knots. Her coal-bunker capacity of 1700 tons will permit her to steam 5800 knots at economical speed without coaling. The engines are steam turbines.

The officers' quarters are on the main deck forward, near the turrets and conning tower, which are 11 feet high. The mainmast is 110 feet high. The cost of the Dreadnought is £1,747,497, and of this only £520 remains to be spent.

In addition to the Dreadnought, three new armored cruisers are being built. These are the Invincible, the Indomitable, and the Inflexible. The main feature of their design is their extraordinary length—530 feet, as against the 490 feet of the battleship Dreadnought.

BALLROOM ROMPS CONDEMNED. Elizabethan Dances to be Introduced—Cruade Organized.

"Graceful dancing" is the far cry of the Imperial Society of Dances, a society which has declared its intention of organizing a determined crusade against the romps in the ballroom.

The society, which is the result of a conference yesterday at Leeds, and registered its determination to "lift the standard of its present degraded condition," says the London Express.

Mr. M. Compton of London, the president, said some very hard things about the "miserable and slovenly dancing in our present-day ballrooms" and he referred to the "lamentable ignorance of some of the dances of the early Victorian days, and in the best cases, Father Time's ravages, gavottes, galiards and quadrilles are being taught," he said.

New dances will also be introduced. Among them an "Empire waltz," "The Imperial Minuet," a new piece of music, and a "glee" waltz have been recommended by the society for general adoption.

Mr. Compton called attention to the fact that parliament had begun to recognize the importance of the element in education, and in the Portmouth training college for the navy dancing classes were opened in the winter of 1905, and the public schools are also encouraging dancing.

Canada and have no bearing on the industrial problem of the Dominion as it offers itself to-day. Any one who thinks for a moment can perceive that the economic condition of Great Britain in the middle of the nineteenth century was very different from that of Canada at the present moment.

Just now the United States tariff rates considerably exceed those imposed by the Dominion, yet foreign goods continue to be imported into the republic, notwithstanding its great industrial capacity.

Only within recent times have the United States manufacturers succeeded in overtaking the home demand and taken up seriously the task of exploiting foreign markets.

THE VOICE OF BREEDING. The most marked feature of the gathering of British doctors is the superiority of the Englishman's voice over that of his cousins in Canada.

THE TOWN OF BERLIN SHOWED ITS usual courage in appealing to the courts for vindication of its action. It has shown the way to other municipalities that face similar difficulties.

NEW SOUTH WALES IN 1905. According to Orlando H. Baker, United States consul at Sydney, New South Wales, that Australian state is enjoying at the present moment an unexampled degree of prosperity.

IT IMPARTS STRENGTH. Just think of the enormous strengthening power Ferrozone possesses—consider what it did for H. V. Potter, well known in Kingston.

LADY VISITOR INJURED. Yesterday afternoon, while Mrs. Rainard, wife of Dr. Rainard of Palgrave,

THE SKIDOO RAILWAY BOARD.

The World is by degrees getting at the impelling motives, if we may use the phrase, which mark the conduct of the Ontario Railway Board in its duty toward the public.

THE ONTARIO RAILWAY AND MUNICIPAL BOARD. Rules of Practice and Procedure; Regulations and Specifications; and Forms.

Published the 14th day of July, A.D. 1906.

By order of the Board—James Leitch, K.C., Chairman.

A. B. Ingram, Vice-Chairman. H. N. Kitzson, Member. H. C. Small, Secretary.

On opening the book we find the first page has all the appearance of a law book, with marginal notes, sub-headings, sections, sub-sections, marginal notes and the like, to the rules, which have all the marks of the rules of a court of law.

On page 8, as rule number 23, occurs the following alongside the short but significant marginal note "Vacations":

23.—"No trial or hearing shall take place or motion be heard during the LONG VACATION or the CHRISTMAS VACATION OBSERVED BY THE HIGH COURT OF JUSTICE, unless otherwise directed by the board in case of urgency, and such vacations shall not be reckoned in the computation of the times allowed by these rules for filing or delivering a notice of application or reply."

It is not the staff for the farmers of Canada to read—that Messrs. Leitch and Ingram and Kitzson, the one who was a county court lawyer, the other an employee on a railway and the third a grocer in Hamilton, should forthwith take upon themselves the airs of the high court of justice of Ontario?

Here is the high court's rule that the railway board has appropriated: Rule 254.—The vacation of the high court and the court of appeal shall be as follows: (a) The long vacation to consist of the months of July and August.

(b) The Christmas vacation to consist of the period from the 24th day of December to the 6th day of the following January, both days inclusive.

What the High Court of Justice in matters of this kind comes down to us from the ages. Their rules and their dignities have a not-unjustly-acquired mellow upon them—a mellow that we have been bred to respect.

Let the ordinary farmers and taxpayers of Ontario observe the arrogance of this position—that no hearing shall take place or motion be made during the long vacation observed by the high court of justice, unless otherwise directed by the board in case of urgency?

What did Mr. Leitch and Brother Kitzson know about the long vacation until they got on this board? Did Brother Leitch tell them all about it, that that was to be the rule of these worthy gentlemen in the discharge of their public duties?

Will Mr. Ingram and Brother Kitzson tell the farmers of Ontario if they are to run their farms on the long vacation and the Christmas vacation adopted by the railway board of the Province of Ontario?

In all seriousness The World calls the attention of Attorney-General Fyfe, acting premier of this province, to this rule 23, which in the parlance of the day is Skidoo. Somebody will call it a Skidoo Board.

We might as well let the attorney-general, that in our first inspection of these rules, we do not see that they have been approved by order-in-council. Perhaps they have been.

But we are now at the secret of the whole situation. This Ontario Railway Board held one or two meetings, constituted itself a high court of justice and then proceeded to take ten weeks' holidays?

By the by, has anybody seen Chief Justice Leitch lately?

was standing at King and Yonge-streets, watching the Troy firemen iron rolling. She was taken to St. Michael's.

RAINS QUENCH FIRES. Conflagration Worst Between Bathurst and Redpine, N.E. St. John, N.B., Aug. 22.—Heavy thunder showers are reported Tuesday evening from different sections of the province, and these drenched out or checked several of the forest fires.

At present the fire is worst between Bathurst and Redpine, also fires are burning at intervals all along the north shore.

At Harcourt the barns of Jabez McArthur were burned Monday afternoon, and Nell McDonald's house and the Kent junction station were saved with difficulty. A counter fire had to be set to save Wm. Boyd's building.

Monday a special train was run from Campbellton to Redpine to save the water tank, and fires are raging far back from the line.

The school house and mills at Humphrey's Mills were in danger all Tuesday. Henry Morton, of Upper Ridge, had his home and belongings reduced to ashes on Sunday. Hicks settlement is in great danger, as are Springfield and the Canadian road.

Big Plant for Port Colborne. St. Catharines, Aug. 22.—The Village of Port Colborne-to-morrow submits a bylaw to the ratepayers to grant a fixed assessment of \$6000 for a period of ten years to the Port Colborne Portland Cement Co. Limited. The company promises to spend a half million dollars on a plant to employ two hundred hands and pay out \$100,000 in wages and \$75,000 for supplies.

AMERICAN GIRL INJURED. Edinburgh, Scotland, Aug. 22.—While a party of American tourists were driving down a mountain near Blairgowrie, County of Perth, to-day, the horses bolted, wrecking the carriage. Miss Van Norden of New York was thrown out, and sustained serious injuries about the head and spine. It is feared she will not recover.

A LONG LOOK INTO WALL-STREET.

World Office, Wednesday, Aug. 22.

There is a seer in town, or one who purports to have a line on the distant future of the stock market.

REGARD OF CRIME GOES ON

POLICE UNABLE TO COPE

Russ Government Will Assist Jews Without Waiting Action of Parliament.

St. Petersburg, Aug. 22.—In spite of the wholesale arrests and deportation of revolutionaries, the big centres' daily chronicle of murder and robbery is not appreciably diminishing.

While the revolutionary opposition to the government has thus degenerated into a campaign of crime the three political parties, the Constitutional Democrats, Octoberists and Regenerationalists, are drifting.

It is announced that some amelioration of the condition of the Jews will be made without awaiting the action of parliament.

PEASANTS RESCUE PRISONERS

Tsarlitsin, Province of Saratov, Aug. 22.—A divinity student, named Ilyin, who was arrested in the village of Garbuda for activity in the revolutionary movement among the peasants, was released yesterday on the demand of a crowd of 7000 peasants, who are of Cossack already was on a train half way to Tsarlitsin when a mob arrested and threatened to destroy the station and kill the chief of police unless he recalled the train. This was done.

GET WRONG MAN.

Heisingers, Aug. 22.—Eight mailmen seized Engineer Lindstedt, intending to execute him for betraying the names of the members of the Red Guard, who blew up a coal bank, where they were met by Chief Thompson and Capt. Russell and several members of the Toronto fire department and escorted to the Arlington Hotel. After luncheon they were given a trolley ride around the city and returned to the city hall shortly after 5 o'clock, where they were welcomed by Ald. Graham, in the absence of the mayor.

CONSTITUTION FOR CHINA.

Peking, Aug. 22.—The dowager empress of China plans to summon a conference of high officials, including several viceroys, to discuss the adoption of a constitution.

Japan's consent to the establishment of a customs house at Port Dalrymple apparently conditional on Russia's consent to establish customs houses on the Manchurian border, Russia appears to be unwilling to consent to make the Manchurian arrangements desired by Japan.

Our Friend From Cannington Sees Heap Big Medicine Men

Our friend from Cannington mixed with the delegates of the Medical Association convention yesterday.

Up to the meeting of the Medical Association yesterday—or in other words, cutting into the men who cut us up—and struck by lodgings almost dead from the contact.

That's the way the doctors appeal to me; and so far as a real demise goes, I guess it wouldn't have bothered them much—the first life that dipped the dip from the same cause.

For a more analytical, colder set of men as a body it has never been my pleasure to meet. They look at you with a lance-like precision, and away down in my shoe where there is still some Cannington dust I felt they might take

chance, and did want a knock in that line. So remembering the morgue and being slandered postmortem, by having some student in the process of cutting me up, pronounce a case of incipient appendicitis that would or could have killed me whether or not I took another hand at life with the joker in the pack.

I experienced at once much regret that I had never attended Toronto University, and much self-congratulation that I hadn't. As to being a surgeon and saving bones, I would have preferred a northern shanty and a cross-cut. But with the university a gypsy camp of architecture pitched here and there and not labelled even as well as a post-mortem, I would have liked to know more about it.

There is enough of it to be sure—with the new convocation hall—but outside of the main building, which is as beautiful as a picture of old Greece, and the medical building, I could not see much reason for it. It is of course, as from Cannington. And being so I had a feeling that a few acres of pasture ground around about—since I could not as a romancer conceive the possibility of the perfunctory medical student, dreaming love beneath the low-rolled trees—might have been utilized in growing a few good bushels of wheat, to rejoice the appetite of some undisturbed visitor in Toronto—just as good as the other fellow, but noted principally for a lack of money which spells opportunity!

Imagine a fine flock of cucumbers on that waste of land, while the sign hung high, and the good of their souls. There's joy for you, there's benevolence and there's temptation, yet the doctor would call it temptation. Oh, ye doctors and oh ye cucumbers!

The former I found about as hard to take as medicine. But it wasn't so much their fault, who kept you out and wouldn't tell you—for fear of over-working themselves, probably—as to what was what, and who was who. And I had a great occasion to wish that the lords of creation would wear their nobility in outward semblance rather than have it pointed out to you by a porter.

However, the porters were not too bad—especially the old negro who stands by the water canteen in the main building, who talks humor with you, and is possibly as real as the ivy climbing the wall—Sir Thomas Barlow wasn't either—he wouldn't talk anything but straight orthodox medicine, and was inclined to give me but a small dose at that. The prescription was his own probably, and I guess he had the right; but even a teaspoon of conversation was sufficient to give me an inkling of Sir Thomas.

From the Cannington point of view, he is short and squat with a fat pair of shoulders and a fat face. He has a beard, close rimmed, that is very white, a voice that is very kind, and carries himself in a manner that might be royal if we could recognize aristocracy.

Seriously he is a man of depth—the kind of depth of a professional stands for something of an abyss to electrical age—and you like his laugh and you like himself whether he gives you an interview or not; and if the baby had the crop and you wanted to raise it, he is the very man you would send for sure. If his fees were not too high, perhaps that's why he is Sir Thomas

combined with his own cleverness, course. You know he would not take an atom more than the pound of flesh even if a Shylock were there to jiggle his elbow.

Dr. L. F. Barker of Baltimore—a Canadian—was speaking when I first entered the lecture room of the medical building. And he has the least cash you ever saw. It is a hand upon which the very individuality of the whole man rests—and the individuality is something. He talks in a sort of way that makes you overlook perhaps the fine-cutting of his arguments—and he stoops very slightly like a man who has studied hard. He has a young face, free of beard, and gray hair, and carries the impress of the man who has too much human sympathy to be a doctor—yet the very kind who brings most to the profession at the great cost to himself.

So we had a chat. "Why did you go to the States?" I asked. "Oh, opportunity just offered." "And you made it your own and succeeded?" He smiled. "And the expression of a well-known Toronto editor came to me—that Canada has a habit of pooh-hoohing her own sons—the boys who can hold their own with anything on God's green earth, even if they only get a strap-hold—and sends them to the States to make a name for themselves."

But Dr. L. F. Barker of Baltimore could make a name for himself anywhere—remember that! He carries it even in his very unassumingness, which is unusual, but he is an unusual character. And he wasn't one of the ones by any means that sent me home near dead. But when one fellow got up and gave a fifteen-minutes' talk on the advantages of purging in typhoid, and another got up and gave a fifteen-minutes' talk on the advantages of not purging, I got out—fearing to have purged utterly my faith in the professions knowledge of things, and I never yet had the typhoid.

Prof. John Glaister of Glasgow is no old fellow with an old country look, man of medium height and wiry. He takes notes eternally and looks as if he had been taking them all his life. When he talks to you it is with the manner of a man to whom nothing else exists but the medical profession.

But he talks well, even in arguments that are not right. And one of these was that the man in the profession who creates a new invention that may revolutionize some existing treatment has no right to patent his invention, and get the most out of it commercially, and advertise it. The professor was quite certain this sort of proceeding was not only dishonest to the profession but to the man who did it. And I was quite as certain it wasn't, from the Cannington point of view.

"Look at the dentist he reaches, and the good he does humanity," I suggested. "And telling him it was only a bit of narrowness the profession would have to get over, I caught the flash of a Highland temper. It was one of the best things he had about him, and I immediately took him to heart."

"See here," I said, "I am going to do Europe some day with a fiddle, as Goldsmith did with his fute. I may pass the hat to you."

"You'll find me," he returned, "at the institution that I cannot bring to mind. But I assured him of my being there to play the Flowers of Edinburgh" a la Paganini, and with a hearty handshake, the professor went in to take more notes.

Sir James Sayer had almost donned his red and purple in the back alley of convocation hall, where I had been waiting for him, before I realized who he was. Whether it was the red and purple or Sir James, I am not prepared to say. Certainly, Sir James, with his dignified bearing, is interesting.

He was quite pleased to meet Billy Glynn, but he didn't know Jack London or Gilbert Parker. He thought Canada a great country, strictly up-to-date, and the Canadians a great people. But he wasn't prepared to say anything regarding psychic possibilities in psychology, hypnotism, Christian Science, magnetic healing, etc.

Perhaps the first thing you notice in talking to him is that he hasn't false teeth. For despite his beard, somewhat grey, his shows his teeth when he smiles, and his smile is really delightful. It suggests social prestige in a full, it suggests social prestige in a full, it suggests social prestige in a full.

For a few frills, Sir James is a demagogue thru and thru, a thinker among thinking Canadians and Americans, and carries no affectation, at least, no more than he should. I really believe he would not mind if you called him "Jim."

Sir Victor Horsley of London, England, who came up while I was still speaking with Sir James, is a personality, not striking. But he carries a hardened look, a genial patience about him that is great deal better. He is the kind of man whom you could imagine marching all day beneath an Egyptian sun in the face of an unrelenting sun, and at night, caring for the sick and dying, without a thought for himself, and with the same easy smile. He is the kind of man with whom you there is not enough pretension about him to float even a soap bubble. He is straight, thru and thru, and you know it the moment you look at his lean length, rather carelessly dressed, and strong, unhandsome features, with the drooping moustache and Roman nose.

Outside the main building I looked back philosophizing. And my philosophy was this: That there must be something radically wrong with human life the way we lived it, that all these doctors were required to look after it. I realized I had a pain inwardly, and there was a reason. So!

Billy Glynn. DEDICATORY SERVICES. Will Be Held in Dovercourt Road Presbyterian Church Sept. 9.

The Dovercourt-road Presbyterian Church is rapidly approaching completion, and the dedication service will take place on Sept. 9.

The preachers on the occasion will be Rev. A. B. Meldrum, D.D., of Cleveland, who will officiate on morning and evening, and Dr. John Potts, who is the speaker for the afternoon.

On Sept. 9, Rev. Professors Kilpatrick and J. A. Macdonald will occupy the pulpit.

HAS CRIMINAL RECORD. WHY McDONALD COMES.

Charles Driscoll, Mentioned in Brandon Case, Known in Kingston. Kingston, Aug. 22.—(Special.)—The man Charles Driscoll who is now in the Central Prison and between whom and the late Mrs. Brigid a correspondence was carried on, is known here and has made a criminal record.

Driscoll was formerly known as Charles Babcock, that being his mother's maiden name. But later on he married a man named Driscoll of this city he changed his name to Driscoll. He was last summer employed on the Folger boats. During the season the company experienced several losses by theft, and late in the season a quantity of silverware, knives, forks, etc., was stolen from the steamer Pierre Point.

In November Driscoll was found guilty and sentenced to two years less one day in the Central Prison. This term he is still serving.

At the time of the trial Driscoll was paying attention to Miss Hilliard, sister of the late Mrs. Brigid. He pleaded guilty to the charge of theft, and endeavored to prove an alibi by saying that he was at the Hilliard house at the time the theft was alleged to have been committed.

BUY CONDEMNED DREDGE. Ottawa Citizen: The department of marine appears to have made a bad bargain in the purchase of the big suction dredge Gaiveston. She was bought in Galveston, Texas, and towed around to the St. Lawrence, the intention being to use her in dredging the shallows at Crane Island, below Quebec. There she was put to work after extensive repairs had been made upon her in Sorel. The dredge has, however, proved to be useless for the purpose for which she was purchased and has been withdrawn from commission and returned to Quebec. It is now said that she had been chartered by the harbor authorities at Galveston before being sold to the Canadian government.

MUSLIN-CLAD RIVER GIRLS CONDEMNED. The "river girl" is on trial. The charge is a serious one—inappropriate dress. Experts have pronounced the sentence that the frilly "river girl" must disappear and her place be given to the girl neatly gowned in linen or holland.

The judges, as an excuse for their powers criticism, draw attention to the pitiable sight of the modern "river girl" returning home by moonlight with her print gown dragged and her river hat falling over her eyes. For the benefit of the would-be reformers, a London Express representative has collected the opinions of authorities on the question.

BERLIN WINS RAILWAY CASE ACT'S OPERATION IS RECENT

Justice MacMahon Holds That Section Applies Only to New Railways.

Berlin can go on with its plans for the expiration on Sept. 6 of the Berlin-Waterloo Electric Railway.

Justice MacMahon, who heard argument of counsel on a technicality as to jurisdiction yesterday announced his decision.

By section 41 of the R.S.O., 1897, chapter 208, it is provided that "a municipal corporation may, after giving six months' notice prior to the expiration of the period limited (twenty years) assume the ownership of the railway, and all real and personal property in connection with the working thereof, on payment of the value thereof, to be determined by arbitration."

The giving of the notice six months prior to the expiration of the period limited for the running of the railway under its franchise is a condition precedent to the right of the municipal corporation to initiate arbitration proceedings to determine the value of the undertaking. That the notice must be "a proceeding pending" at the time, sec. 6, chap. 31, Edward VII, came into force, and R.S.O., chap. 208, remains in force as to this reference.

Judge MacMahon adds to his judgment a rider to the effect that the legislation should be notified that section 202 of the act (6 Ed. VII, chap. 80) does not appear to apply to any but those railways to which municipalities have granted privileges since the act came into force.

The railway is to pay the costs of the application to the Town of Berlin.

SMALLEST ENGINE IN WORLD Will Be on View at Exhibition—Weights Four Grains Troy.

Don't miss seeing the "smallest steam engine on earth," said Dr. Orr. It is the smallest complete machine of any kind probably ever constructed. It is smaller than a common house fly and it weighs only four grains troy; that means that it takes 150 engines to weigh one ounce, 1920 to the pound and 3,840,000 engines to the ton. Stroke, one-thirtieth of an inch. The speed of this engine is 6000 revolutions per minute and the horse power one four hundred and ninety-two thousandths part of a horse power.

How was the speed calculated of so small a machine? The speed and horse power were estimated by Dr. C. A. Chant of the physical department of Toronto University. When the engine is running it gives out a note of high pitched, caused by the rapid vibration of the piston. This note was compared with that of tuning forks of known vibration. As no motion is visible to the eye when running it will be seen to best advantage at rest. This minute piece of mechanism is made of gold and steel or 17 pieces and will be found in the centre of the manufacturer's building, "Tiny Tim," as this engine is called. It was made by P. H. Thompson of this city and fits easily into a 22-cal. empty cartridge.

WILL CONTINUE SCHOOL. Major Craig Appointed Arbitrator in Guelph Dispute.

Guelph, Aug. 22.—(Special.)—A conference was held at the Macdonald Consolidated School to-day to clean up the matters which have caused trouble in the operation of the school for some time past. John Smith, superintendent of education; Mr. Cowley, Ottawa, representing Prof. Robertson, Mayor J. J. Craig, P.S.I., and the school board, were present.

After a lengthy consideration, it was decided to continue the school on the old agreement. The principal features of this agreement are that Prof. Robertson has the power to recommend the appointment of the principal and the manual training and domestic science teachers.

Prof. Robertson claimed that the trustee had broken the agreement. In future all difficulties in the interpretation of the agreement will be referred to County Inspector J. J. Craig, who was appointed final arbitrator.

Conductor Injured. St. Catharines, Aug. 22.—Conductor Herbert Breckett of the Niagara, St. Catharines and Toronto Railway, was injured last evening while trying to get on a car. He missed his footing and was rolled along the ground some distance. He was unconscious when he was picked up, but no bones were broken.
