KING OF GREECE IS MENACED

Fears of Deadly Plot Grow Out of Recent Attack on Dowager Queen of Portugal.

Chicago, Aug. 8.—Writing to The Record, Herald from Aix-La-Bains, Margaret E. W. Sherwood says: You ask me for details of the recent attempted assassination of Dowager Queen Maria Pia of Portugal.

Attack on Dowager Queen. On the night of Aug. 4 the unknown assassin who came near being executed in the bath of her niece, Princess Yolande, infant daughter of the King of Italy, Maria Pia, accompanied her sister, left the church between the assassin and the Dowager Queen.

ERE'S A BEAR STORY.

Indian Ties His Son to Tree to Keep Him There.

Carson, B.C., Aug. 8.—An old Indian named Phillip Adolph was going on foot across the mountains to visit relatives and was accompanied by his son and a dog. The latter treed a silver tip bear of unusual size, and the Indian wanted his hide and incidentally some bear steak. But his rifle was in his house, four miles away.

Now brain will start up a tree so long as a dog sits at the bottom. So Phillip tried to persuade his son to return for the rifle while he and the dog kept watch. But the boy was afraid. Neither would he remain alone on guard while the senior Bushwhacker went for his gun. Finally the old Indian lost all patience, and, seizing the boy, bound him to the base of the tree with both arms clasping it and left him there.

When the bear attempted to descend the boy's screams drove him back up the tree, and there he remained for two hours until the Indian returned with his rifle, released his son and laid in a supply of bear meat.

Trade Follows the Gold

R. Douglas Turenne Replies to General Manager Clouston on Subject of Canadian Mint.

Why Bullion Goes to Seattle

Reasons Advanced Why There Should Be No More Delay in Establishing a Mint.

Montreal, Aug. 8.—(Special)—Mr. R. Douglas Turenne of the Yukon Trust Company, Dawson City, and a son-in-law of Hon. Louis St. Laurent, replies to General Manager Clouston of the Bank of Montreal on the question of a Canadian mint.

Mr. Turenne writes as follows: Mr. Clouston says: "It is pretended that trade will follow the gold."

A simple visit to Seattle, where there is an American mint, and to Vancouver, and a single day of comparison will establish the fact.

Mr. Clouston says: "The banks even now are prepared to pay the miner as much for his bullion as he can realize for it by shipping the metal to an American mint."

It is also said that the plot involves the assassination of King George of Greece. Beyond question, the whole of Europe is being made to discover a widespread and dangerous conspiracy, of which the attempt on Maria Pia is only the beginning.

WINNIPEG MASS MEETING

Much Sympathy Was Expressed for the C.P.R. Trackmen in Their Fight.

Trainmen Visit Montreal

Reports That Local Sources Show That the Men Are Standing Firm.

Winnipeg, Aug. 8.—(Special)—At the strikers' mass meeting last night, Rev. W. C. Vincent expressed deep sympathy with the working men in this strike.

Good wages make a good nation, and poor wages were the cause of most of the misery and crime in the country. [Applause.]

He was glad that the men were acting like men and conducting their fight in an honorable manner. [Applause.]

He believed in strikes, and hoped the men would persevere until they got their just rights. [Applause.]

William Scott, president of the labor party, said the company's conduct had been characterized by degeneracy, and that it had resorted to methods of duplicity and falsehood.

Mr. Scott referred to the threat made by Mr. D. McNeill, that if the men did not return to work the company could not carry out the country's wheat crop, and it would be the public's loss.

This meant that if the people did not support whatever the C.P.R. liked to offer the wheat crop would be lost.

Western Canada where there was only one outlet for the country product. The best remedy for the situation was to get rid of the government buy out and control the railways. [Applause.]

He encouraged the men to stand by their rights until they won their case.

The 500 people at the meeting unanimously endorsed the attitude of the men.

TRAINMEN AT MONTREAL

Montreal, Aug. 8.—Messrs. C. Pope of the Ontario Locomotive Engineers and A. Shaw of the Trainmen's Brotherhood of Port Arthur are in the city, and their visit is understood to have something to do with the C.P.R. trackmen's strike.

It is understood they will see the president of the C.P.R.

REPORTS RECEIVED

Donald Wilkinson, chairman of the Toronto committee of the C.P.R. striking trackmen, has received letters from Owen Sound, Winnipeg, Port Arthur, McAdam Junction, Quebec and Vermilion Bay, stating that the men are firm.

A representative of the local strikers has returned from a trip over the Haverton lock, and reports that the men there are out. In some sections it costs the company \$10.35 a day to guard the tracks.

The men are in Montreal, and the stand firm was taken over the night and signed by 40 section foremen and men.

Another resolution was passed by the strikers in the Ontario division, expressing confidence in Mr. Wilkinson.

C.P.R. CO-STABLES PAID

A couple of months or more ago the Attorney-General's Department was asked by the C.P.R. to recommend a number of constables for service on the company's road between Fort William and Port Arthur.

The request was complied with, and the men went out to work. They returned to the city, and yesterday morning they performed their duties in Montreal.

Later in the afternoon the local C.P.R. men explained that the delay in paying the men was not their fault. They were five men appointed altogether, and four had received their money just an hour before this information was given.

The fifth man was paid as soon as he applied. The official said, should have been paid before they left the north, as their duties were not to be obtained to pay them in this division.

VICTORIA CROSSES

Effort to Be Made to Have Duke Present Them.

Ottawa, Aug. 8.—The militia Department has been asked to recommend a number of Victoria Crosses at Halifax has received the Victoria Crosses awarded by Lieut. Cookburn, Toronto; Lieut. Turner, Quebec, and Sergt. Holland, Ottawa, with instructions to disburse them to the recipients.

They have the Duke of Cornwall and York to the coveted decorations.

THE CLOSURE APPLIED.

Sixty-Seven Million Pounds Voted by Commonwealtheers.

London, Aug. 8.—At 10 o'clock last night, in a crowded and exciting session of the House of Commons, Mr. Balfour's new rule of voting estimates by wholesale closure came into operation.

Lumped in this scheme were a series of divisions before 1 o'clock this morning, the government majority always exceeding one hundred.

The House was still in session at 5 a.m. The Irish members engaged in obstinate tactics with reference to various resolutions incidental to the final stages of the estimates, and Mr. Chamberlain, the Colonial Secretary, frequently moved the closure.

The House adjourned at 6 a.m. after a session of 10 hours. The Irish members kept up a continuous opposition, but without disorderly scenes.

THREE ONTARIO DROWNINGS

John C. Carlaw of Parkdale, Edward Piper of Lambeth and Miss Bessie Dixon, an O.L.C. Student.

BATHING, BOATING AND FISHING.

Lake Ontario, Lake Erie and Lake Chamong the Scenes of Drowning Fatalities.

John C. Carlaw, son of Major J. A. Carlaw of 88 Spencer-avenue, lost his life yesterday afternoon while bathing in the lake at a point nearly opposite the foot of Dunn-avenue, and in water but 7 feet deep. The body has not yet been recovered.

The young man left his home a little before 5 o'clock and went direct to the private boathouse of W. J. Fox, 34 Empress-avenue, on the lake front, where he donned a bathing suit. Securing a dingy he rowed about 100 yards into the lake, where he anchored the craft. From the rear seat of the boat he dived into the water and swam in an easterly direction for a considerable distance. Soon he began to attempt to swim back to the craft, but the strong current running at this point made it impossible for him to do so. He was seen to struggle for nearly half an hour at the point where the young man was seen to sink for the first time.

Downward and toward the lake were conspicuous by their absence, and friends of the young man had to go all the way to the home of Charles Fox, at Humber-street and Mrs. D. Martin, 15 Stair-avenue, who were on the shore and had seen the young man row out.

These gave the alarm and H. J. Holmes, 1 Dunn-avenue, and Charles Waddell, 42 St. George-street, were called. They hurried to the scene of the fatality. They could get no trace of Carlaw, who Waddell found continually for nearly half an hour at the point where the young man was seen to sink for the first time.

Downward and toward the lake were conspicuous by their absence, and friends of the young man had to go all the way to the home of Charles Fox, at Humber-street and Mrs. D. Martin, 15 Stair-avenue, who were on the shore and had seen the young man row out.

BRANCH BANKS QUESTION

More Managers Interviewed on the Topic Raised by Man From Sleepy Eye.

MR. HAMILTON STATES HIS VIEWS.

Points to a Chasm Between Voluntary Co-Operation and a State-Granted Monopoly.

Editor World: In today's issue of the World, the first paragraph of an interview with Mr. B. E. Walker of the Bank of Commerce, capital \$8,000,000, suggests a comparison of the quantity of that gentleman and his bank with the "quantity" of Mr. C. D. Griffith and his \$500,000 bank of Sleepy Eye, Minn. If you succeed in causing your "little brothers of the press" throughout Canada to investigate Canadian banking and its relationship to the comparatively recent centralization of money power in the towns and rural districts, I hope that none will forget that "testimony" is like the shot of a long bow, which owes its efficacy to the force of the shooter; argument is like the shot of the cross-bow, equally forcible whether discharged by a giant or a dwarf.

I for one am not opposed to banks opening branches, nor am I opposed to an affiliation of, or even a "combination" among, some banks having independent capitals. I see wherein a fellowship among banks is helpful to them and beneficial to the people, because of the stability which results. But I would open a big chasm between voluntary co-operation among banks and a State-granted monopoly of the right to issue "currency" so that will not take it; a chasm so big that no small-minded legislator could ever close it.

To-day the chartered banks of Canada, under St. Victoria, Chap. 51, are practically given an opportunity to be tyrants, to practice tyranny, not only on masses of people, but on individuals. They can make or break at their own sweet will. I do not say that they take advantage of the opportunity given them, perhaps they don't; even so, they should not have the opportunity refused to them.

To-day, under the same act, the people of a town in Canada remote from a bank or a branch of one must contrive to get along without banking facilities and without anything "that is a substitute for money" outside some one of our mighty institutions is prepared to open a branch and in a majestic manner cater to the wants of the town, on scientific (1) principles.

The people of Canada don't need an act of Parliament to prevent them taking my note and passing it round as a "substitute for money"; they never asked that the people of a distant town should gladly organize a \$50,000 bank of issue and take its notes as a "substitute for money" from their own risk, be prevented by law from doing so.

I hope, Mr. Editor, I have not written you at too great length; if so, kindly excuse. When you have time I would like to talk to you about the "overplus of money" that the banks now have to cart away from our small towns to prevent accumulation.

Aug. 8, 1901. W. B. Hamilton.

MANAGERS INTERVIEWED.

Mr. T. G. Brough, general manager of the Dominion Bank, thought that the matter was not debatable, and did not wish to be quoted.

C. W. Clinch, manager Melsons Bank of Toronto, referred The World to Byron E. Walker, as he did not wish to make any statement in the present discussion regarding the branch banking system of Canada.

Mr. H. S. Stratby, general manager Traders' Bank, said there was no question of the superiority of the Canadian system over the American, but did not wish to enter into the question.

Mr. Turner, acting manager local branch of the Bank of Montreal, said the Canadian system was founded on the Scotch, and was incomparably superior to the American. When asked if he thought it really a fact that the Canadian branch banking system denied rural districts of money and hoarded it up in the centres of population, Mr. Turner said there were lots of communities in which local money could not be profitably used, and in such places the banks stepped in and took it where it could be profitably used.

Mr. Leslie, acting manager of the Bank of Montreal, said that the Canadian system was founded on the Scotch, and was incomparably superior to the American. When asked if he thought it really a fact that the Canadian branch banking system denied rural districts of money and hoarded it up in the centres of population, Mr. Turner said there were lots of communities in which local money could not be profitably used, and in such places the banks stepped in and took it where it could be profitably used.

WORK COUNTY AND SUBURBS

W. J. Hill, M.L.A. for West York, Will Not Be a Candidate in Next Campaign.

HEALTH CASE AT THE JUNCTION

Diphtheria Patient Said to Have Been Taken into the Midst of Heathland Park.

Toronto Junction, Aug. 8.—At the regular meeting of the Executive Committee of the Town Council to-night, Mr. C. M. Hall appeared in support of a letter, in which he asked that the duties of the Medical Health Officer be defined. A child, suffering from diphtheria, was removed to the residence of Quebec-avenue, from the far West end of the town, to the Junction, where a higher rate of interest was offered, could not be supplied. In this connection the superiority of the Canadian branch system is obvious.

Mr. Frank Stratby, manager of the Union Bank of Canada, denied that the branch bank system placed the country districts at a disadvantage as compared with their situation under the American local bank system. From the depositor's point of view, said Mr. Stratby, the great superiority of the Canadian system was its security. A country depositor placed his money where he placed it in a branch of one of our few Canadian banks, all of which have large capitals. On the other hand, a local bank in a small American town necessarily had a small capital and was, in comparison with its Canadian counterpart, unsafe.

No Exhaustion. As for the alleged financial exhaustion of the country districts under the branch system, Mr. Stratby declared it to be untrue. The branch banks invested as much money in their localities as possible, in some places, of course, the loans did not equal the deposits. But the contrary was likewise true in other places. The beauty of the branch system, said Mr. Stratby, lay in its elasticity. Money could be speedily concentrated in different localities as it might be required.

Mr. McLeod, general manager of the Bank of Nova Scotia, was out of town, and Mr. Reed of the Standard would not talk.

Another Extract. This morning we print another extract from an address delivered by Mr. B. E. Walker, general manager of the Canadian Bank of Commerce, before the New York State Bankers' Association at Saratoga in 1895. Mr. Walker said: "If we compare banking in the United States with the other prominent systems of the world, we are struck with certain features in which our system differs. As these other systems represent the two great classes of banks: (1) those which are the result of compromise between the commercial needs of the government, such as England, France and Germany; and (2) those which more nearly represent the needs of the people, such as Scotland and Canada, we may fairly conclude that any quality possessed by the Canadian system is a quality which is not possessed by the other systems of the world."

Mr. McLeod, general manager of the Bank of Nova Scotia, was out of town, and Mr. Reed of the Standard would not talk.

Excursions to the Exhibition.

Many Reported From Points in the United States—Athletic Entries.

Word was received at the Industrial Exhibition office, 82 East King-street, yesterday, that an excursion, 500 strong, is coming from Chicago, to be present on Canadian Old Boys and Students Days, Sept. 3. Smaller excursions are also reported from several other places. It begins to look as if Tuesday, Sept. 3, was going to be a really memorable day for the renewal of old acquaintanceships. Some trouble was experienced at first, because vacation was on before the day was arranged, but private interest would seem to have overcome any difficulty in the way. An entry, written entirely in French, of a herd of cattle, was received yesterday. The entries for all the special classes, such as the butter-making tests, the judging tests, the harness riding and the scoring competitions, some of which filled badly last year, are very large this year. Several entries have also been received for the athletic contests on Saturday, Aug. 31, for which is free to all amateurs. The events are as follows: 100-yards dash, 220-yards dash, 300-yards dash, 880-yards dash, 1200-yards dash, 220-yards, students at schools and every regiment in Canada will give for every event, and a shield for the winning regiment. Mr. George Pepper made 95 entries in the horse classes yesterday. An automobile race is talked of, the cars to start from Buffalo, three times at once, and to make the round trip between 9 a.m. and 8 p.m., the first to get home at each exhibition to be winner.

Harvest Hands. Ottawa, Aug. 8.—The "Harvesters' excursion from this district for Manitoba and the west left to-day. There were about 400 on board, being three times as many as last year. The excursion is being looked after by Mr. George H. Brantley, who has been looking after this work, goes as far as North Bay. By that time he expects there will be about 2000 on board. The next excursion leaves Toronto on the 12th, and another from here on the 15th.

Pale, sickly children should use Mother Graves' Worm Expeller. Worms are one of the principal causes of suffering in children, and should be expelled from the system.

Through Car to Newark. Lackawanna Railroad now runs through car to Newark, via Dover. "The Orange" every night at 11:30 o'clock.

Shot His Daughter. Louisville, Ky.,—Clement Butcher, a chairman, to-day shot and killed his daughter Irene, aged 19, and wounded his wife, who endeavored to dissuade him from assaulting the girl. He was arrested.
