CROWN ON NEW TRAIL WHICH IT IS PREDICTED WILL CLEAR UP MYSTERY

Evidence is to be Sought Along a Different Line, and Success and Surprises Are to be Expected. HAMILTON, March 19.—(Special.)—A new line of enquiry was instituted by the crown to-night in the Kinrade case which will have the most important bearing on the evidence already given.

The crown is in possession of information that renders it practically certain that the investigation will be successful. It is of an unexpected nature, and will give an entirely new turn to certain phases of the story before the public.

It would be unjust to the crown to embarrass the efforts of detectives by any premature disclosures, but the activity of crown officers may be relied upon by the public.

Every long lane if open to travel will show a turning, and it will not take a month to secure the important link now being sought.

WOMEN MAY END STRIKE

Returning to Work—Clemenceau's Policy Endorsed. PARIS, March 20.—At the conclusion of a stormy debate, which lasted from 3 o'clock Friday afternoon until after midnight, the chamber of deputies adopted a sweeping endorsement of the government's attitude concerning the strike of state employes.

Altho Premier Clemenceau did not mount the tribune during the session, leaving Minister of Public Works Barthou to defend the government's position, this vote of confidence constitutes another personal triumph for the premier.

The Socialists, who favored conciliatory tactics, made a poor showing in the debate, and the Conservatives contented themselves by contending that the strike proved that the successive radical governments by encouraging state employes to form associations had brought France to the brink of social revolution.

The improvement in the strike situation to-day, due to the partial distribution of mail and the opening up of some lines of foreign communication, was more apparent than real.

The women, however, are showing signs of hesitation, and many of them are returning to work. The leaders declare that if the strike is to be maintained, it will be the women to stand firm.

About 4000 soldiers are at work sorting or delivering letters, or escorting the mail to the railway stations, who still are making their rounds.

In the provinces the strike is constantly securing adherents, and in many large centres it is complete.

CONFERENCE OF POWERS

Outline of Program That Italy is Advocating. ROME, March 19.—The program proposed by Foreign Minister Tittoni for an international conference to consider the Balkan situation has not been made public.

There is reason to believe, however, that it is based on three points: First, that the powers take cognizance of the fact that the Balkan situation has become a territorial compensation at the hands of Austria-Hungary for the annexation of Bosnia and Herzegovina; second, that the Austro-Hungarian independence as declared at Timovo Oct. 5 of last year, and third, the modification of the 23 articles of the Treaty of Berlin.

It is asserted that Austrian public opinion accepted this program with satisfaction, but the fact that the Austro-Hungarian has increased her forces all along the frontier and has practically mobilized her fleet is causing considerable anxiety in Italy.

Fears are entertained that the existing situation will culminate in an outbreak of hostilities.

DR. PYNE AT HAMILTON

Opened New Schools—The Prize Public Speakers. HAMILTON, March 19.—(Special.)—Hon. Dr. Pyne, minister of education, formally opened the Normal, Model, Pictou and Sophia-street schools this afternoon. He was entertained at the board of education at luncheon at the Hamilton Club. The minister also inspected the technical school, and gave an address at the normal school.

The second annual public speaking contest, held under the auspices of the Canadian Club, was held this evening at the Association Hall, which was crowded. The judges were R. W. Treleven, representing the Association Law Students' Association, won the gold medal; J. M. Peedies of Victoria-avenue Baptist Church, the silver medal; and R. J. Menary of the Guild of St. John Church, the bronze medal. The judges were Adam Brown, W. H. Wardrop, K.C., and C. R. McLaughlin, W. M. McClement presided.

THE QUEST GOES OVER FOR A MONTH

Crown Wants to Follow Up Clues—Medical Evidence That Victim Was Alive 15 Minutes Between Shots. HAMILTON, March 19.—(Special.)—An adjournment of the Kinrade inquest to Thursday, April 22, was the real surprise of the enquiry this evening.

The hearing of evidence concluded at 10 o'clock, and shortly afterwards the crown examiner announced that evidence to be brought forward would necessitate a considerable delay. It is understood that the crown has very important evidence under investigation.

Should it be found competent to complete the enquiries in hand, the inquest may be resumed at an earlier date. The medical evidence was the important feature of the proceedings to-night.

Dr. Edgar submitted this in a very clear and direct way, and Dr. Baife, who was present at the autopsy, swore in a sentence to his colleague's accuracy.

This evidence went to show that the murdered girl had lived for at least 15 minutes, probably 15 minutes, and perhaps more, from the time she was first shot in the head. It would take 15 minutes for the minimum quantity of blood estimated to have flowed on the carpet and soaked in the hair from the scalp wound. This was carefully estimated by medical men on the results of standard experiments by physiologists.

Had the victim been dead, there would have been no blood on the carpet, said Dr. Edgar. The wounds in the breast were made at least 15 minutes after the wounds in the head, and the latter being very deep, this bullet was not found, being carried probably into one of the large arteries.

Death must have occurred in a minute afterwards. The heart was found contracted and hard as a stone, as the doctor testified. However, the clothing indicated the approach of the revolver within a few feet of the victim, and the bullet was exhibited to the jury and others, and was of 32 calibre, about half an inch long.

Eight wounds, the result of seven different shots, were found in the body, and five bullets were found in it. The other wounds, which were believed to have been caused in connection with the family fight, they thought were contradictory to the evidence.

Mrs. Clara Rudd and Charles Hosack fairly contradicted each other on the point of the clothing. Mrs. Kinrade, the latter being very strict, declared that she saw the clothing during the afternoon of the murder, and swore to the fact. Mr. Hosack, on the other hand, declared that it was blue, as a matter of fact, it was a blue dress that Ethel Kinrade wore the day she was murdered.

Other evidence was in regard to the seeing of a strange man in the "trap" then, and of street railway men in regard to seeing Florence Kinrade running across the street. One conductor also stated that Mrs. Kinrade had been a passenger on his car, and he had said there had been a shooting, on which information she had all along been a passenger on his car.

Mrs. King repeated her story, published to-day, of seeing a frightened stranger in the alley next her home about the time the shooting seems to have occurred.

The court-room was more crowded than ever to-night, and the disturbance was less, and a noticeable improvement was effected by using gas mantles for illumination. Situated prominently in the front rank of the crowd was Earl Kinrade, the younger brother of the family. His bright red hair and pallid face were strikingly conspicuous.

Mr. Lynch-Staunton was present for the reporters how the evidence tallied with the family evidence. So far from public interest in proceedings having abated, indications were that curiosity has been only whetted by developments of the inquest thus far. The police court room was filled with coveted holders of passports soon after 7 o'clock, and half an hour later, every available inch of space was taken up, while a number of ticket-holders were unable to gain admittance. It appeared that passes issued were largely in excess of available accommodation allowing little for standing room. An air of expectation pervaded the throng, the rumors of new witnesses to testify on behalf of both crown and defence having prepared the public for a fresh line of evidence.

Crown Attorney Washington, followed by Geo. Tate Blackstock, K.C., appeared a few minutes after eight. The court-room was filled with hubbub of many voices, and the order had to sternly enjoin order. The court was called to order at 8.05. The usual solemn formalities, which the coroner Anderson informed the court that order must be kept and that the state witness which preceded last week was repeated, the room would be cleared.

New Mrs. Kinrade Pass. Miss Lillian McLeann, 94 Herkimer-street, was the first witness, and the examination was begun by Mr. Washington. She said her home was opposite the Kinrade home, but that she could not see it plainly. She was sitting in the front room of the house building, as British friend called, until 3.25 p.m., when a friend called. She saw Mrs. Kinrade passing the house on her side of the street. This was a few minutes before 3.25 p.m. She did not see Mrs. Kinrade leave the house.

His Head Hurt. Fred East, 202 Simcoe-street, appeared at Grace Hospital last night with a badly battered head. He said he had had a fight with a policeman. His injury was dressed and he departed.

RUSH TO WEST BEGINS SETTLERS FROM ALL OVER

Many Come With Money Prepared to Purchase Improved Property—250 Lots Sold in Lump. WINNIPEG, March 19.—The west is coming to its own again with the advent of spring. Hundreds of settlers are daily leaving Eastern Canada from every Dominion lands office come stories of enquiries, many of them with car loads of effects.

At North Portal yesterday there were sixty cars of settlers' effects undergoing customs and veterinary inspection, the latter being very strict, owing to the fear of glanders, many horses being detained in quarantine. From Emerson there is a similar story. A noteworthy fact is the many settlers coming from the south not seeking homesteads, but who are willing to pay for improved lands.

One of a party of 15 who are springing out land, named Earl Adams of Dwyg of Stettin, Alta. Path in the future of Calgary is evinced by the sale of 250 lots in a new subdivision last night, practically all of which went to small purchasers.

DOMINION COAL

Satisfactory Statement is Presented to Directors. MONTREAL, March 19.—(Special.)—The meeting of the Dominion Coal directors attended here to-day by the local men, with Senator G. A. Cox, J. K. Osborne and E. R. Wood, approved of the annual statement, which is a very favorable one.

The statement shows the company's net proceeds for the year from all sources amounted to \$2,686,202, as compared with \$2,094,539 for the previous year, an increase of nearly \$600,000. After the payment of interest on bonds, dividends on the preferred and common stocks and other charges, amounting to \$1,600,162, this amount, of \$1,086,040, includes the excess price paid by the steel company for coal to some \$1,000,000, but allowing for this there is still the handsome balance for the year of \$400,000.

The total surplus amounts to \$1,253,471, as against \$2,283,208 at the end of 1907. This amount includes the total excess price paid by the steel company for coal, amounting to about \$2,000,000, which the coal company under the privy council's judgment will refund to the steel company, but even allowing for this the surplus amounts to over \$1,200,000.

The company's balance sheet shows that the company is in a fine financial position. A considerable amount has been added to capital account. Cash in banks and offices amounts to \$2,175,884, as against \$864,785 at the end of 1907.

The balance sheet shows that the company's liquid assets amount to \$4,195,923, while its floating liabilities amount to only \$20,000, so that the liquid assets exceed the floating liabilities by over \$3,900,000.

Newfoundland Calls Halt. LONDON, March 19.—(C.A.P.)—Negotiations between Britain and the government of Newfoundland have pecuniary claims and conventions have been suspended due to the fact that the Newfoundland Government is unwilling to include the fisheries pecuniary claims in the schedule of the proposed claims, contending they should be dealt with by the colonial courts after the result of the arbitration fisheries question is known.

Balfour Wants More Ships

LONDON, March 19.—A. J. Balfour, leader of the opposition in the house of commons, has decided to take the sense of the house as to whether four or eight Dreadnoughts should be definitely included in this year's naval program.

He has given notice to move a vote of censure of the government next Monday, declaring that the proposed provision for ships of the newest type is not sufficient to secure the safety of the empire.

HUDSON BAY RY, DISCUSSED

Line Should Connect With G. T. P. and C. P. R. as Well as the C. N. R. OTTAWA, March 19.—(Special.)—In the house of commons to-night, Mr. Lake, who asked about the Hudson Bay Railway, was informed by Mr. Gray that the vote of \$65,000 was to make further surveys to demonstrate the relative merits of Fort Churchill and Fort Nelson, the surveyors having reported that a line to the latter terminal would pass thru as good a country as the route to Churchill and be sixty miles shorter.

As soon as financial conditions permitted, the government would proceed with the project as a government enterprise, he assured.

Mr. Lake urged that the line should not terminate at the Pas, as proposed, but that it should be merely a feeder to the Canadian Northern, which was built to that point. The Hudson Bay Railway, he contended, should connect also with the Grand Trunk Pacific and the C.P.R.

ONTARIO'S RIGHTS TO 2 CENT FARE IN FACT

W. F. Maclean Draws Parliament's Attention to Continued Neglect of G.T.P. to Provide Service Ordered by Privy Council. OTTAWA, March 19.—(Special.)—The attention of the minister of railways was called to-day in the house by W. F. Maclean (South York) to the complaint of a traveler who had bought a second-class ticket at Toronto for Montreal and boarded a train, the conductor of which compelled him to pay \$3.35 additional on penalty of having him ejected.

This brought up the whole question of the violation by the Grand Trunk of its charter obligation to carry passengers on at least one train a day between Toronto and Montreal at the rate of two cents a mile.

Incidentally the member for South York referred to the issue of governmental regulation of the use of railway securities in order to protect the public from excessive charges; a need, he said, that had been recognized by President Taft, who had made it the subject of reference in his inaugural address.

The minister of railways replied, but he gave little hope that he was in sympathy with the demand for regulation, or with the contention that the railways ought to be compelled to give the same treatment to Canadian passengers to travelers starting from a point in the United States and crossing Ontario.

Mr. Maclean was able to show that Americans traveled for two cents a mile thru Canada, while Canadians were required to pay three cents a mile. The explanation of the minister was that rates were regulated by the rates in force where the traffic originated.

Moreover, he resorted to the old argument that had not the density of population which would place the Canadian routes in the postal list to compete with American roads in cheap fares.

Mr. Maclean's remarks were well received by the house, many of the new opposition members applauding, as well as Mr. Turritt on the government side.

One Man's Experience. On the motion to go into supply, Mr. Maclean read a letter from George Moore of Montreal, asking him to "help me to get my money back from the Grand Trunk." The complaint was that on Tuesday last, in Toronto, he bought a second-class ticket and checked his baggage. No one said a word to him or stopped him getting on the 10.15 train, but the conductor demanded \$3.35 on pain of ejection. He paid under protest.

"I know you are the man," continued the correspondent, "who is fighting the question and will get what is right for me."

"Hear, hear," observed several members. "Sometimes," put in Mr. Maclean, "we do get a compliment outside of this house."

The correspondent added that he had traveled by the same train from Toronto to Montreal three times before, and his second-class ticket was always good.

Mr. Maclean's contention was that the man was entitled to travel for two cents a mile on that train. This right had been vindicated by the highest court in the realm. The privy council had declared that the Grand Trunk was bound to give a penny-a-mile service at least once a day on its line between Toronto and Montreal.

This right had been affirmed by the railway commission and all the courts, and yet the Grand Trunk had compelled that man to pay first-class fare and had threatened to eject him if he did not pay it.

Privilege Withdrawn. "I want to know," said Mr. Maclean, "who is looking after the public interest in this matter. I am getting rather tired of it; at least, I am willing to continue the work, but I would call upon the government, upon the minister of railways, or upon some official of this country, to see that the public get what they are entitled to."

"For the past few days I have had to devote my time to preparing a bill in order to bring another action before the railway commission to get this penny-a-mile service between Toronto and Montreal, or, in fact, to get it for all the Province of Quebec, for, according to my interpretation of the law, and the advice I get from eminent counsel, the people of Quebec, and certainly of Ontario, up to Toronto, are entitled to it."

"The government," the minister of railways and the minister of justice

MAN WHO MURDERED FREED AFTER 6 YEARS

Alex Sharpe of Dummer Township Gets 15 Years' Sentence Considerably Reduced. PETERBORO, March 19.—(Special.)—Alexander Sharpe of Dummer Township, who was sentenced to 15 years in the Kingston penitentiary in 1901 for killing William Hull, also of Dummer Township, has been released from prison.

Word to this effect was received by F. D. Kerr, barrister, to-day. Sharpe was convicted at the spring assizes at Toronto in 1901 by Justice Lount. Sharpe had accused Hull of having stolen his wife and fired on him at close range with a rifle, killing him instantly.

McMASTER WINS AGAIN

For Third Successive Year Captures Debating Trophy. By defeating Wycliffe College in the final debate of the Inter-College Debating Union last night at Convocation Hall, McMaster University are the contestants of the Kerr shield for three years in succession, and for six years since the union was formed. In view of the fact that McMaster has been so successful Mr. Kerr sent word to the college a permanent memorial and continue to do so to any other college of the union that would be victorious three years in succession.

The debate last night was a closely contested one, and Prof. Alfred Baker, in giving the decision of the judges, said the speaking was well up to the mark, both sides having advanced strong arguments. The Kerr shield was presented by John Ewan, also one of the judges. The other judge was W. E. Rancey, K.C.

"Resolved that the franchise should be extended to women in Canada as well as to men" was the subject of the debate, the affirmative being taken by O. J. Nurse, B.A., and A. E. Bell of Wycliffe, and the negative by W. A. Scott and G. S. Jury, who have represented McMaster twice this year and were successful on both occasions.

VOTES FOR WOMEN NEARER

Second Reading Passes British Commons by 157 to 122. LONDON, March 19.—By a vote of 157 to 122 the house of commons to-day passed the second reading of the bill giving every man, and women, a vote, the only proviso being that they shall be 21 years of age and shall have resided three months in the constituency.

As this bill was introduced by a private member, and as it has not received the "blessing" of the cabinet, there is no chance of its becoming law during the present session.

THE "BOSTON" SPRINGS A BIG SURPRISE

Puts on a Sale That's an Extraordinary Bit of Quick Movement in Shoedom.

The Canadian weather man has grown so fickle that one has to be at ways on the alert to meet his weather whims in dress. A few weeks ago he sent a "little bird" to tell the shoe-makers down in New York and Boston that he had ordered up an early spring, and that if the people were not to be disappointed in having seasonable shoes they must get busy and get to "pegging" out orders for the shoe people up here, and they did.

One of the largest—yes, we guess, the largest—importers of fine American footwear in Canada is the Boston Shoe Store (Canadian stores Toronto and Montreal). The factories with whom they had placed large orders for all kinds of summer shoes for men, women and children told the hint the weather man sent, and, contrary to all "Boston" expectations, the bulk of these spring goods are here three weeks to a month ahead of the usual time. It's rarely such a thing happens as cutting prices of brand new, seasonable goods before the season opens, but the "Boston" "Hens" are so sure of their goods and well just give the people a price benefit on these fine new American goods, and Mr. Advertising Man was hailed and ordered to announce the great advance offered sale. You saw the news of it in the paper to-day, and the sale is on this morning; thousands of dollars' worth from the best American factories; all the newest novelties in low shoes for ladies, the regular faced, buttoned and blucher cut oxfords, the pumps with some comfortable new features, very novel effects all through these lines for men there is a wide assortment, from the common-sense to the very extreme in style. Not a dollar's worth of the goods that have been "this side the line" more than a few days. All styles, all leathers; and the advance oxfords sale means to you a saving on this most stylish and up-to-date footwear of one-third to one-half of the real value of them. The "Boston" is well appointed and splendidly manned, to take care of the biggest crowd that can crowd the store, and there's a wholesale welcome to participate in these less than wholesale prices.

METHODIST CHURCHES HOPE TO AMALGAMATE

Committees Appointed to Arrange Details—Inquest Involving Christian Science.

HAMILTON, March 19.—(Special.)—The Cataract Power Company to-day promised to write a letter to the same council offering Hamilton the same conditions as given to Brantford—a guarantee that the company will cut ten per cent. below the hydro-electric price for power for manufacturers. There was no stipulation in the Hamilton agreement with reference to the manufacturers except that the price would not be exceeded. The company has also promised to aid the industrial committee in handling new concerns.

The Gore and Wesley Methodist Churches have appointed committees to consider a plan of amalgamating the two congregations on equal terms. It is proposed to use the Wesley Church as a place of worship, and the pastors of both churches, Rev. Dr. Tovell and Rev. Isaac Couch, both formerly of Toronto, will be retained until the end of the conference year.

Samuel Goldberg has decided to file a writ against the Cataract Power Company. A Crown Attorney Washington has ordered an inquest on the body of Walter B. Myers, 21 Case-street, who died last Tuesday, a physician being attending him several weeks before his death, but it is alleged that he was dismissed and a woman Christian Science practitioner engaged.

This morning Thomas Hobson, one of the lawyers engaged by the Kinrade family, produced a copy of The Norfolk Ledger-Dispatch which has the following account is given of a reception held on May 14, 1908, which was attended by 57 guests, among whom were Miss Marion Elliott and Col. Warburton, mentioned by Miss Florence Kinrade in her story of her life in Virginia.

"On Tuesday evening Mrs. J. Wells, Fairfax-avenue, gave a very enjoyable reception in honor of Miss Florence Kinrade, a Canadian girl. Her handsome home looked brilliant with many colored lights, and white roses and palms were in profusion. A musical concert was given to the enjoyment of the happy assembly. Mrs. Wells received at the entrance of the reception room wearing a superb gown of blue tulle and white lace, and green taffeta. Miss Kinrade was handsomely gowned in shell pink brocade, satin-ox-princess, and wore a magnificent necklace of pearls. She also carried a bouquet of pink roses, a gift by the son of the house."

John E. Heald, a prominent city engineer, has been appointed city engineer of Brandon at a salary of \$2000 a year.

SENATOR CLORAN REPLIES TO POWERS' CRITICISMS Assailant Lacked Moral Courage in Appealing to Speaker to Suppress Him.

OTTAWA, March 19.—(Special.)—The Senate heard more of the St. Patrick's Day incident. Hon. Mr. Cloran, said when he presented his resolution offering congratulations to the people of the Irish people, under King Edward, it was to secure a unanimous expression of kindly feeling, and his remarks were not intended, as Sir Mackenzie Bowell insinuated, to create racial or religious controversy.

It was the first time in three hundred years that a British sovereign had been able to send a British sovereign a message of peace and good will, and to prevent the message being sent. While he wished to be the instrument to congratulate the sovereign, he had been a fierce opponent of granting autonomy to the Irish people. While feeling was changing in regard to this question in most parts of the world, the society he referred to learned nothing and forgot nothing, while his people had learned to forget and to be governed by fair play and justice. He appealed to the senator from Hastings to inculcate these principles in the organization to which he referred.

Continuing, he said that on Wednesday he had not heard the intimation given by Senator Powers that he should be ejected from the chamber by the proper officer of the senate. He had heard it he would have given an emphatic reply. Senator Powers had shown lack of moral courage in appealing to the Speaker in this case.

He was not to be intimidated in such a case as this, and would not be silenced in giving expression to such opinion as he had voiced on Wednesday by any one who might be called in. Senator Powers assumed full responsibility for the remark attributed to him. He maintained that when a senator declined to respect the ruling of the chair on a point of order, it was the proper officer of the senate to deal with him.

To-Morrow at Massey Hall.

Rev. Byron H. Stauffer, pastor of Bond-street Congregational Church, will deliver his lecture, "The Man in the Way of Reform," at Massey Hall on Sunday afternoon. This address may be said to be a "Canadian" masterpiece. It has developed out of a career full of stirring experiences in reform work in a great city. Mr. Stauffer's twelve years in Buffalo were spent in a continuous struggle against all evils that had entrenched themselves in the city's life. Allying himself with two other clergymen, he was declared against "politic" playing, one of the most corrupt forms of gambling. After a two years' fight the evil was finally stamped out. Additional interest attaches to Sunday's meeting on account of the fact that the Alexander Choir will use the "Gypsy Smith" song book for the first time.

THE POET AND THE ORACLE.

By Helicon he sat and fished—
Or was it by Parnassus?
However that may be, he fished
And hoped to catch Pegasus.

A poet with less sense of shame
Than rhyme calls Peg by any name.

And when he didn't get a bite,
He took his fishing tackle
To Delphi, where he interviewed
The wonderful Oracle.

A poet, for his rhyme's sake, must
Perfect his consonance or bust.

He bandied in a tale of woe
About his rhyme and meter
With other thorns along his path,
And, blamed it on Juno.

A poet should be pardoned if,
He hits orthoepy a bluff.

The Pythia told him good and hard
To go to Helicon or
To Parnassus, which it was
Upon my sacred honor
I do not know. I only know
That somewhere in his tackle
The Pythia found his hair and soured
The whole golden Oracle.

L'Envoi.
A poet's sometimes such a ris
He sees no virtue in Bacchus.

To Be Dyspeptic Is To Be Miserable.

Dyspepsia is the prevailing malady of civilized life. It is largely due to gross errors in diet, over-eating, too free indulgence in stimulants and over-taxing the stomach with indigestible food, eating too rapidly without chewing the food sufficiently, indulging in hot biscuits, pastry, pickles, confectionery, etc.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, faintness, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic. Burdock Blood Bitters regulates the stomach, stimulates the secretion of the saliva and gastric juice to facilitate digestion, removes acidity, purifies the blood, and tones up the system to full health and vigor, and thereby cures dyspepsia and all its tributary diseases.

Mr. Amos Sawler, Gold River, N.S., writes:—"I was greatly troubled with dyspepsia, and after trying several doctors to no effect, I commenced taking Burdock Blood Bitters and I think it the best medicine there is for that complaint."

For Sale at all Druggists and Dealers.

NEXT WEEK AT THE THEATRES

At the Alexandra. Everyone has read of "Girls," the famous Clyde Fitch comedy that ran all summer at Daly's Broadway Theatre, New York City, and which will be seen at the Royal Alexandra all next week.

"Girls" with its mirth laden lines, conveys a lesson, which by the way, contains a great deal of later day philosophy, and little suggestions of Schopenhauer theories as far as they can be applied in a play that is essentially clean and sparkling.

The main object in view seems to have been that of creating laughs—a feat successfully accomplished but at the same time the more serious side of our nature has not been overlooked.

There is no one to whom the approval of both critics and public alike. Louis James stated upon several occasions last season that as soon as he could find a play, written by an author whose merit was worthy of association with Shakespeare, he would produce the same, but until that time he would continue with the Bard of Avon.

The demise of Richard Mansfield made this possible, for when the trustees of the Mansfield estate came to choose a man worthy of upholding the dignity of the drama in question, Mr. James was unanimously chosen as the actor to whom the manuscript of "Girls" was given.

Usher appears as James J. Fagin, ex-fatherweight pugilist, and dainty Fanny Usher as Patsy, the orphan. It is hard to realize that Fanny is a grown-up when she is seen in this character, for she impersonates the dearest kiddie and makes everybody look the lonely little waif. Then there is "Sparrows," and surely no lonelier looking dog ever was put on earth.

Ben Welch has not been seen by show-goers in a long time and he is due for a warm welcome. The Brothers Damm with their acrobatic feats of strength are always met with approval. Charles McDonald, "The Irish Bunc Brummell," one of the very best dancers on the stage, has a dainty act, in which he is assisted by the clever Reading Sisters.

The kinetograph closes the bill. On Monday week Miss Lulu Glaser will bring to the Princess her successful opera, "Mlle. Mischief," which is said to be the best musical play that has ever come into the possession of this dainty actress.

All matinee shows in New York during an engagement which lasted for twenty weeks. It is of Viennese origin. All the original scores, which is by Carl M. Zieher, who is as popular in Vienna as his well known compatriot, Franz Lehár, composer of "The Merry Widow," is retained. The book has been adapted for American taste by Sydney Rosenfeld.

The story is concerned with the adventures of the German barracks at Fremstad, dressed in male costume, in order to win a bet. Miss Glaser's supporting company, which includes Alexander Clarke, William Rosell, Roy Atwell, W. P. Carleton, Robert Broderick, Frank Farrington, Gertrude Derrell, Jose Intropodi, Ada Henry, Ethel Intropodi, and a large and good looking chorus.

At the Grand. Cole and Johnson, the clever song-writing comedians, will present a big musical comedy, "The Merry Monday." Their new vehicle is "The Red Moon," a musical play in red and black. Several tuneful melodies are introduced during the three acts of the opera, and the splendid voices of the big chorus, combined with the novel stage effects designed by Bob Cole, make the production stronger.

RED MOON TICKETS. Hundreds Chased the Balloons in Front of The World Office. The distribution of tickets on "The Red Moon" balloons from the roof of The World Office at noon yesterday attracted a large crowd and kept a number of police officers busy keeping the thoroughfare clear. The boys and young men were especially eager to capture one of the ticket carriers before it reached the ground, and many a scramble resulted. It did not take very long for the fact that one easily recognizes a floor to which it has been applied and one not so attended to.

RECIPROCITY, NIT. It Would Be Rainy to the Coal Industry of Nova Scotia. HALIFAX, N.S., March 19.—Robert Drummond, recognized authority on coal mining in this province, says in an interview: "Reciprocity in coal between Canada and the United States would be strongly opposed by the Nova Scotia mine operators. While a majority of them have not had an opportunity of familiarizing themselves with the new tariff introduced in the United States Congress, they are directly opposed to any reciprocal arrangements between Canada and the United States, which they claim, would be ruinous to the coal industry of this province."

WHOSE AIRSHIP IS THIS? Hamiltonians Say They Saw Strange Visitor. HAMILTON, March 19.—An airship was seen over this city by several people about 8 o'clock last night. It was flying in the air over the city and away in a southwest direction. The airship displayed several lights. The identity remains a mystery. The people who saw it saw it were not ready to take oaths that they were not mistaken.

ROLLER SKATING SEASON BEGINS. Parkdale Rink Reopens To-Day. Pastime Will Be Very Popular This Season, Says Mr. Ryan. "I think roller skating is going to be much more popular this season than it was last. In fact, unless indications prove altogether contrary, I feel as sure that during the coming months you will see the people taking just as much interest in the pastime as they did when it was first introduced here."

So spoke J. Ryan of the Parkdale Roller Rink, which opens for the spring season this afternoon, when he was asked what he thought of the prospects for the coming month. "I got back from Detroit a couple of weeks ago," continued Mr. Ryan, "and I can tell you that I was surprised when those who have been looking after the rink during the winter told me the number of enquiries that have been coming out here in the hope that the rink would be open. I feel sure we will have a great season."

There is no reason why Mr. Ryan's predictions should prove at fault. There is nothing in the amusement which roller skating confers and the exercise it gives. The numbers who will flock to the Cowan-avenue rink this afternoon and to-night will see many improvements. The floor is smoother and whiter than ever before, which means a lot. In addition Mr. Ryan has applied his patented preparation for preventing slipping on the floor and for keeping down whatever little dust might otherwise arise. The preparation of the rink would not be known except for the fact that one easily recognizes a floor to which it has been applied and one not so attended to.

The rink band will be in attendance this afternoon and to-night. It surely will be one grand reunion.

164. Gold Medal v. Osterhout. 52. Curran v. Curran.

119. Bryant v. Davidson. 173. Milburn v. Can. Gas Power Co.

174. Morley v. McAfee.

Master's Chambers. Before Cartwright, Master.

Mills v. Spectator Printing Co.—J. King, K.C., for plaintiff, on motion to set aside a statement of defence.

The meaning of the statement of defence is that plaintiff caused a bill of indictment for defamatory libel in respect of the words set out in paragraph three (A) of the statement of claim in this action to be laid before the grand jury at Hamilton against one Robinson.

It might be sufficient to dispose of this motion to point out that Robinson is not a party to this action, so that the doctrine of res judicata cannot apply.

But even if Robinson were defendant in this action such an acquittal would be no bar to a civil proceeding for the same cause.

Orders on L. & S., 4th edition, 579.

The meaning of embarrassing as used in the rule is "bringing forward a defence which the defendant is not entitled to make use of."

Canada Foundry Co. v. Rolston Steel Co.—G. F. McFarland, for plaintiffs, moved for leave to issue a writ for service out of the jurisdiction.

Adams Furniture Co. v. Eggart—E. W. Boyd, for plaintiff, moved for speedy judgment. No one contra. Order made.

Bucknall v. Mitchell—J. F. Lash (Blake & Co.), for defendants, moved on consent for order dismissing action without costs. Order made.

Crandal v. Barker—C. M. Colquhoun, for defendant, moved for commission to examine parties for discovery.

Wilson v. Hudson—C. R. McKewon (Orangeville), for defendant, moved for order changing venue from Stratford to Orangeville.

Demson v. Atkin—E. A. Forster, for plaintiff, moved for judgment on possession.

Kent v. Ocean Accident Insurance Co.—H. E. Rose, K.C., for defendant, moved for order to amend statement of defence by setting up section 148 (2) of R.S.O. (1897), cap. 208, as amended.

Goldfields v. Jewell—Langstaff (O. B. & H.), for plaintiff, moved for an order renewing writ of summons for one year, notwithstanding lapse of two years.

King v. Ruston—T. J. Blain (Rampton), for defendant, moved for an order allowing the defendant out on bail.

Richard Fraser, aged 23, of 171 Ossington-avenue had the finger nail of the second finger of his left hand torn off between the connecting rod and the crank of an automobile yesterday in the McLaughlin garage, where he is employed.

PLENTY AMENDMENTS FOR THE TARIFF BILL

Main Contention is Likely to Be Over the Cut in Duty on Lumber.

WASHINGTON, March 19.—There is a general disposition in the house to eliminate as far as possible any academic discussion of the tariff.

The main contention is to be over the cut made in the duty on lumber. It is understood that the southern representatives will be made by the Democrats to have shoes and other leather products reduced at least 5 or 10 per cent.

AN AUTHOR'S SPEECH. After the storm of applause by the authors had died away the author came down to the footlights and began to speak.

Gow Ganda's Shore A Tale of Silver and New Ontario's Northland

By Aimee Landon—Illustrated by C. W. Jeffreys.

for surely, with the Great Spirit to lead them, they could have naught but victory.

"In a short time there was another war and a large number of Mattawabki's warriors fell.

"When he knew his enemies had the bullets of the sunlight, he realized the treachery of Eagle Feather.

"He broke his spirit; it crashed like a man might love his only son.

"One day he bade farewell to his people, and heading his canoe up stream, directly into the setting sun, he paddled, and was seen by them no more.

"Mattawabki went straight to the place where he and Eagle Feather had, in past years, moulded the silver bullets, and arrow points from a metal taken in its native purity from a great, wide, deep, white vein or ribbon, which wound irregularly up the hillside, down thru the valley to the water's edge like a stream of living water.

"He was coming closer to the shore. A look of hatred and rage came in Mattawabki's face as he watched the canoe approach the rock landing. Eagle Feather sprang lightly from his canoe, and he was behind some bushes, watching him, like a tiger behind him. All the humiliation and hatred he had suffered since his fall.

"The young man turned none too swiftly to fight for his life, and instantly he was aware that he was being held by a hand that he never had before if he would save himself.

"He seized a war club—then Mattawabki with the tomahawk and Eagle Feather with the war club sprang at each other. Only time for two blows.

"The mate evidence of the conflict, the club and the tomahawk lay on the ground and near them the crude tools and moulds, and a buckskin bag containing over a dozen silver bullets.

"The prospector, continuing his search, located one of the rich ribbons of silver from which the very bullets had been made, and this is the story of how silver was first found in Gow Ganda.

"There was silence for a few moments after Miller had finished the story, then Dunbar spoke. "Lord, I would like one of those ribbons of silver."

"Oh!" said Miller. "I guess we had better make an early start for Gow Ganda, for if anybody would like to get hold of these ribbons of silver I would."

"The sounds good to me," said Murphy, "and we cannot start any too soon. Don't need to go to sleep to-night, if you think you can keep up the tramp."

"Oh, no, boys," said Dunbar, "we need the sleep. To-morrow will be soon enough." So a few more logs were rolled on the fire, to keep it alive till morning, then all four crawled under the blankets and slept, the only sound being the whispering of the trees tops as they were caressed by the night wind, and the crackling of the pine logs.

CURE WAS QUICK AND COMPLETE

Dame Parent's Heart Disease Cured by Dodd's Kidney Pills.

She Suffered for Two Years, But Now Advises All Troubled as She Was to Give Dodd's Kidney Pills a Trial. ST. ROBERT, Richelieu Co., Que., March 19.—(Special).—"I recommend Dodd's Kidney Pills to all my friends. These are the words of Dame Joseph Parent of this place. And the good dame gives excellent reasons why she does so. "For two years," she says, "I suffered from Heart Disease, Headache, Backache and a dragging sensation across the loins. Seven boxes of Dodd's Kidney Pills cured me. I hope all who are troubled as I was will give Dodd's Kidney Pills a trial."

Some people may ask how Dodd's Kidney Pills, which are purely a Kidney remedy, can cure Heart Disease. And the answer is simple. Diseased Kidneys fail to drain the impurities out of the blood. If these impurities are left in the blood they not only create the work of the heart in propelling the blood through the body but, more over, cause disease. Pure blood removes the cause of the disease. Dodd's Kidney Pills make pure blood by putting the Kidneys in condition to strain all the impurities out of it.

ST. JOHN, N.B., March 19.—There is considerable speculation as to what is behind the proposed incorporation of the Port, Canada, Docks, Storage & Warehouse Co., capitalized at \$50,000, for the purpose of building docks, warehouses, elevators and all terminal facilities.

George W. Marsh, W. L. E. Marsh and Joseph Duggan, Toronto; Robert N. Agnew and Charles Henry Clark, New York, are the company. Marsh & Marsh formerly operated a line between St. John, Halifax, and Jamaica, and are known to have sought something ago to secure a controlling interest and rights of Port.

There have been reports that the Canadian Pacific Railway has something to do with the present enterprise.

Excursion to Buffalo. The Toronto Kennel Club have an excursion to Buffalo next Tuesday, March 23, by the Canadian Pacific Railway. Return tickets cost only \$2.10, and are good going on the 9.30 a.m. express Tuesday, returning all trains Tuesday following Wednesday. Apply at C.P.R. ticket office, corner King and Yonge-streets.

WINDSOR, March 19.—(Special).—A big sensation has been caused in Minneapolis by the discovery that C. McDonald, millionaire lumberman of that city, and Belle Hamilton, were married in Windsor last May.

McDonald described himself, according to official records here, as a widower, 55 years of age, while his bride claimed to be a widow and said her age was 32. McDonald has a wife and two children, and is under arrest on a charge of bigamy.

WINDSOR, March 19.—(Special).—Provincial Detective Mahoney has returned from St. Joseph, Missouri, where he was successful in securing an extradition order for Joseph Adams, charged by Nicola George, head of the local Gypsy Band, with obtaining money under false pretences.

Adams went to the wife of George Adams and told the woman her husband was in trouble at Washington and obtained, it is alleged, \$25,000 with which to release Adams tried to put up an alibi, but failed.

Before the case was tried, Henry Drouillard of this city went to St. Joseph in company with two gypsies, and represented that he had a warrant for extradition of Adams, although this was not the case. It is alleged they tried to have the case "settled for a consideration."

The warrants were issued, but Drouillard got wind of this action and hurriedly returned to this city. Both gypsies are under arrest on a charge of extortion.

WANTS REVENUE ON DOMINION ASSETS

H. B. Ames' Enquiry Into Public Accounts Designed to Repeat What Was Done in 1882.

OTTAWA, March 19.—Mr. H. B. Ames conducted the enquiry in the public accounts committee this morning into the condition of the assets of the Dominion, his purpose being to discover whether certain of these were worth 100 cents on the dollar. Mr. T. C. Boville, deputy minister, said the gross debt of the Dominion was \$408,207,158, and the net debt \$277,960,869. The Railway was looked upon, he said, as an asset of 100 cents on the dollar, but no interest had been paid since 1887, nor has any special effort been made to collect it.

Grand Trust preference stock, Mr. Boville said, was taken over by the government. No interest had been paid on the stock. In fact, he had been paid, taken, also, over at Confederation.

Forty-one million dollars is the special reserve of the Dominion. This is regarded as worth 100 cents on the dollar, but the governmental reason for that had always been treated in that way.

Mr. Ames said that he was not conducting this enquiry for political purposes, but to introduce a resolution in the house asking for the appointment of a committee to fix a new valuation of the assets of the Dominion. This had been done in 1882, and he thought he might show that the time had arrived when the task should again be performed.

The Power to Strike Off. Mr. Boville said he had no authority to strike off any assets which he did not consider to be of full value. Examining a long list of items, it was shown that some could be reckoned at their full value, some could not, and some had not been regularly carried as an asset, the department had no authority to wipe it off, while an asset on a printing account before the value of a printing account was established was still unaccounted for. These amounts were all small.

Stomach Catarrh

Watery Risings, Belching Gas, Digestive Weakness.

New discoveries in the line of medical treatment have come before the profession of late years with almost alarming rapidity, but one that promises to outdistance all others in the treatment of stomach and digestive troubles is Ferreroze, which is a scientific combination of vegetable extracts and improves digestion in a truly wonderful way.

So many are interested in finding a really good stomach medicine that Dr. McKenzie, one of the most prominent physicians in Cambridge, tells of a remedy he proved to be a "cure."

"No case of Catarrh of the stomach and digestive organs could be worse than mine. I suffered the limit of human endurance. For two years I doctored, but didn't find the real remedy. This preparation must be to all mankind! I took one Ferreroze tablet at the close of each meal and in one week improved. In a month, although not cured, the improvement was steady. I continued to use Ferreroze for three months and was restored to robust health. I would urge every man to try Ferreroze—in many ways it will do good."

In all cases of Watery Stomach, Indigestion, Nervousness, Palpitation of the Heart, Insomnia, General Debility, Chronic Dyspepsia and all wasting diseases, use Ferreroze, and you will see the full vigor of health and strength.

When you take Ferreroze and every bit of you eat tastes good, your food contains the nutriment that is spoken of as "Blood and Tissues." Try Ferreroze, all blood and tissues. Try Ferreroze, all blood and tissues. Try Ferreroze, all blood and tissues. Try Ferreroze, all blood and tissues.

EDMONTON, March 19.—As the campaign draws to a close, it appears that the big fight will be in the south of the province, where practically the only doubtful seats are. The eight seats of acclamation are all north of Red Deer. The ridings that are spoken of as close are Medicine Hat, Cardston, Lethbridge, Otkotok, Ponoka, Vermillion and Camrose. In other ridings Liberal candidates are confident of winning.

Conservatives seem more or less confident that they do any other riding in the province.

The last Legislature of Alberta was essentially a working legislature almost entirely devoid of orators. John T. Moore of Red Deer was the only man in the house who could be accounted an orator. The next house gives promise now of being distinctly different in the matter of fluency and speech.

Duncan Marshall and George P. Smith are likely to have seats, and their oratorical powers are well known. It is also possible, though barely probable, that R. B. Bennett will be returned from Calgary.

SHY MONEY FOR PAVILION

ADD \$16,000 TO ESTIMATES

The lowest tender for the erection of the Palm House in the Allan Gardens is \$35,538, exclusive of heating, which will cost \$7000 more, while the funds for the purpose are only \$28,472, says the board of control decided yesterday not to award the contract until it was learned if the city council would place the balance in the estimates.

The city engineer was instructed to go ahead with the work on the sewage disposal plant. The sea wall bylaw will be voted on May 8 and it is understood that a by-law to provide money for new fire halls will be submitted at the same time. The sea wall will cost \$700,000, less \$400,000 already spent.

R. J. Fleming has replied to the mayor's question as to why the street railway doesn't use the Scott-street loop instead of "Y-ing" at Church-street by stating that the loop in question is already congested and with more traffic on it would make Yonge-street below and at King-street very dangerous to the public.

DRINK DID IT. Magistrate Upholds Prisoner for Loss of Man's Life. LONDON, March 19.—A dramatic incident occurred in the police court this morning when Magistrate Love told John McIntyre, who appeared before him, charged with assault upon his wife, that he was responsible, thru his indisposition, for the horrible death of a fellow-employee.

"McIntyre," said his worship, "if it was not for your love of drink Henry Paisley would have been drunk last New Year's night. Paisley would not have been forced to leave his home to do your work as a cleaner, and he would not have been ground to death beneath the wheels of that passenger train," came back the magistrate's words.

"You have shown contrition indeed. For the last three weeks you have not drawn a sober breath. You have attacked your wife with a knife. Your 15-year-old daughter stands in this court and swears that you slept with her, and a knife under your pillow. I remind you for a week to your thoughts. I imagine they will not be pleasant."

McIntyre was led from the courtroom with great sobs tearing his breast.

USING PURGATIVES INJURES THE HEALTH

In the Spring a Tonic is Needed—But Not Harsh, Drastic Medicines.

A spring medicine is an actual necessity to most people. Nature demands it as an aid in carrying off the impurities that have accumulated in the blood during the indoor life of winter months. But unfortunately, thousands of people who recognize the need know what is best to take and dose themselves with harsh, gripping purgatives. This is a serious mistake. As any doctor and he will tell you, the use of purgative medicine weakens the system but does not cure disease. In the spring the system needs building up—purgatives cannot do this; they weaken you still more. The blood should be made rich, red and pure—purgative can do this. What is needed in the spring is a tonic, and the best tonic medicinal science has yet discovered is Dr. Williams' Pink Pills. Every dose of this medicine actually makes new, rich blood. This new blood strengthens every organ, every nerve, and every part of the body. This is why those who take Dr. Williams' Pink Pills get rid of rheumatism and neuralgia, and a host of other troubles that come from poor, watery blood. That is why men and women who take Dr. Williams' Pink Pills eat well, sleep well, and feel bright, active and strong. If you need a medicine this spring try this great reviving tonic, and see the new life, new health and new strength it will put into you. Sold by all medicine dealers or by mail at 50 cents a box. Dr. Williams' Medicine Co., Brockville, Ont.

WAS SENTENCE JUSTIFIED? Effort to Get Frank Smith Out of "Pen" Because Complainant Faked Charge. (Canadian Associated Press Cable.) LONDON, March 19.—Lodge, the man who says he was bound and robbed by thugs, and who told a similar story at Fort Perry, Ont., for which a vagrant was sent to prison for two years, has confessed to the Plymouth police that he played a voluntary part in the supposed outrage. The police made no charge against Lodge, but found him hotel accommodation, and are assisting him to return to London.

Samuel Perry, editor of the Fort Perry Star, has already interested the minister of justice in the conviction of Frank Smith, the man sent down in Canada, whom he believes to be innocent.

ANALYZED FERTILIZERS. Hon. Mr. Templeman Would Like to Protect the Farmer. OTTAWA, March 19.—(Special).—Hon. Mr. Templeman introduced a bill in the house today respecting agricultural fertilizers.

It was designed, he said, to give greater security to farmers in the purchase of fertilizers by providing that the manufacturers be registered and a guaranteed statement of analysis be furnished.

I CAN MAKE YOU STRONG AND YOU CAN PAY WHEN CURED.

Have you lost the fire and strength of youth? Have you "come and go" pains in your back and shoulders? Are you growing old too soon? If you have those symptoms or any other sign of breaking down of your nerves and vitality, you will find new life in electricity as applied while you sleep.

Dr. McLaughlin's Electric Belt

is for you—it is the best way to use electricity. It pours a gentle stream of life into the weakened parts continually for hours every night. It refreshes the nerves, expands the vital powers, enriches the circulation, and makes you feel bright, active and vigorous in one night's use. You get stronger each day, and in a few weeks you are stronger and younger in the fire of youth. It cures to stay cured Nervous Debility, Weakness, Rheumatism, Lumbago, Kidney and Stomach Trouble, Indigestion and Constipation. It is grand, this method of mine. Business Men, Professional Men, Ministers, Athletes, Men of National Renown, and men in every walk of life who have used it are praising it.

The Following Were Cured and Are Now Happy: ENTIRELY CURED—HAS NOT NEEDED MY BELT FOR THREE YEARS.

Dr. McLaughlin: I am glad to say that I am completely cured of my Rheumatism by the use of your Belt. I certainly felt the benefit of it, and am glad to say that I have not needed the use of it for three years, so that I feel quite clear of it now. I answer any letters written to me about the Belt. Wishing you much success in your business, I remain, yours truly, JOHN CRAWLEY.

STRONG AND WELL AFTER YEARS OF SUFFERING. Dr. McLaughlin: I am glad to say that I am quite well and entirely satisfied with the benefits received from your Belt, which made me strong and well again, after years of suffering. I can truly say its benefits have been permanent. I can highly recommend your Belt for the ailments for which you recommend it. Sincerely yours, WM. H. CAMPBELL.

I don't want your money without giving you value for it. I know it will cure in any case that I undertake. If I can't cure, I'll tell you frankly. You have nothing to lose, for if you wish you can use the Belt entirely at my risk, and if it doesn't cure you it will not cost you one cent. The only condition I impose is that you give me security for the Belt while you are using it, as evidence of good faith on your part. Give me a man (or the woman) that matter) who has been sick and suffering for years and taken medicine and the system is all run down and debilitated, the stomach unable to digest the food, and the nerves shattered. My Electric Belt will give new life to every organ, drive out disease and restore health.

I have the grandest invention of the age for weak men; the surest and easiest cure for all nervous and chronic diseases. Its wonderful power is directed to the seat of the nervous system through which its vitalized strength penetrates into all parts of the body, carrying new life to every function which has been weakened by excess or dissipation, restoring energy to the brain and power to the vital organs. No weak man, no delicate or sickly woman will ever regret a fair trial of my Belt.

Was Troubled With Weak Back For Years.

Could Not Perform Household Duties. Doctors Attended Without Avail. Mrs. Arch. Schnare, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but none seemed to do me any good."

THE VOLCANO OF A IN ERUPTION.

1873. In 1875 Ceboruco volcano, about 150 miles distant, renewed its activity after a hundred years of quiescence. There are records of violent eruptions of the Colima volcano in the years 1577, 1585, 1588, 1591 and 1592. In 1587 Chilpancingo, capital of the state of Guerrero, was destroyed, and in January, 1900, the city of Colima itself was severely shaken. Two years later a volcanic eruption occurred, and several thousand people were killed or rendered homeless.

THE GOVERNMENT'S ELECTRIC POLICY.

Editor World: The speeches of Sir James Whitney and the replies of the Electric Light Co. give some idea of how difficult it is to break away from the tentacles of a giant octopus like the electric monopoly and of what the public of this province has escaped through the enlightened policy of the government. It is funny to read about the confidence the Electric Light Co. feels in the judgment of the dear public, who, it will be remembered, after the frantic appeals of the company, and after absorbing tons of literature issued by the company, took the earliest opportunity of sitting down good and hard on the company's proposals.

MARRIAGE IN ENGLAND.

Number of Bachelors and Spinsters Increasing. From the London Globe. The population of England and Wales, enumerated at the end of March, 1901, consisted of 22,827,843 persons. From that date until the middle of 1907 the number of births exceeded the number of deaths by 2,529,944. The registrar-general, in his annual report, points out that had neither emigration nor immigration occurred this surplus would have raised the population in the middle of the year to 23,048,757. In the absence of precise information with reference to migration, the population of the country is estimated on the assumption that the rate of increase which had prevailed in the last intercensal period has since been maintained. Estimated in this way, the population of England and Wales in the middle of the year 1907 amounted to 24,428,500 males and 24,428,500 females.

In the Realm of Music

Miss Grace Smith, the talented English pianist, who is now visiting in Toronto, will give a recital at Conservatory Hall on Saturday, April 3. The event is under the patronage of Their Excellencies the Governor-General and Lieutenant-Governor.

The Dresden Philharmonic Orchestra of Dresden, Germany, one of the great musical organizations of Europe, is to come to America this season for a five weeks' appearance. It was necessary to obtain royal permission for the orchestra to make this long trip, and so many other difficulties had to be overcome that it is doubtful if the tour would have been arranged had it not been for the efforts of its associate conductor, Victor Ha Clark, a young American musician. This orchestra is famous as the one which both Robert Schumann and Richard Wagner have conducted at different times. Their opening concert will be given in New York. They next appear at the Syracuse Festival April 12, 13 and 14, and then Toronto at Massey Hall on April 15. They will be assisted by Germain Schutzer, solo pianist.

The most important announcement made for Good Friday is the production of the "Hedempton at Massey" Hall by the united choruses under Dr. Torrington. Subscription lists for which are now open at the hall and the music stores. Choral parts of the work will be sung by the following: Miss Eileen Millet, soprano; Miss Olive Scholey, alto; Mr. Edward Strong of New York, tenor, and Mr. David Ross of Franklyn, baritone. The subscription lists are now open at Massey Hall and the music stores.

The Lenten Sermon

"The Welcome Home" formed the felicitous theme of the closing address of Bishop DuMoulin's series of Lenten mid-day sermons at St. James' Cathedral yesterday. Rev. Canon Welch will give on Monday his series of sermons on "New Light Upon Old Truths." The cathedral was again thronged by a most representative congregation.

The father needed no appeal for food or clothing, but hastened to attire his child with the richest and to spread a feast for the nourishment of the weak and famished wanderer. Thus it is with the prodigal child who strays from the house of God, but awakened to thoughts of duty to his Heavenly Father, returns penitent and contrite. Then it is that the gospel is bestowed, and the feet are shod with righteousness. Divine strength is given by the fusion of the blessed spirit and the bread of life. They make "merry and are glad." There is rejoicing in the home. The returned wanderer realizes that he is at home, that even in the earthly tabernacle with soul possessed of the grace of God, which passeth knowledge, he is in the house of God, the gate of heaven.

This is a foretaste of the bliss of that heavenly home where the blessed will sit down where there will be no more traveling, but all will be peace and rest forevermore. To the communion of saints on earth and the eternal paradise every wandering child of God. The divine message to every listening ear and heart is, "Come unto Me all ye that are weary and heavy laden, and I will give you rest."

There's a Boxful Here-- a Drawerful There-- a Deskful Yonder-- and So It Goes

Some Day You Will Want to Know Just How Many Babies Were Entered in the Borden's Baby Contest--the All Canada Lovellness Race--And the Baby Contest Editor Will Tell You-- She Can't To-day.

"How many babies' pictures have you now, Baby Contest Editor?" "Oh, don't ask me. There's a box-full here, a drawerful there, a deskful yonder, a couple of bundles over there in an armoire here, and judging by the messages that are coming from photographers, the photographs of babies entered for the Borden's Baby Contest are just nicely started to come, and it's within a week of the closing date--March 27. Let's see, that's next Saturday."

"Have you had baby's picture taken yet? No! Well those good-hearted, good-natured, long-suffering photographers have been printing the names of our weeks now are still as interested as the day they made their first negative, and impatiently waiting for the first picture to be taken. The darling of their hearts now are still as interested as the day they made their first negative, and impatiently waiting for the first picture to be taken. LOOKING UP STOLEN BRASS

U.S. Detectives Think Junk Dealers Have Been Filtering in Ontario.

LONDON, Ont., March 19.—Eight detectives from large railroads in the United States are in this city to-day looking up stolen brass. Local officers stated this morning that about two tons of it had already been located here, and that arrests will speedily follow.

Shipwrecked Men Turn Up

MONTREAL, March 19.—After shipwreck off a bleak and barren island in James Bay and innumerable hardships suffered in their long and tedious tramp to a railway station, Frank Johnson and George Martin, two of the crew of the ill-fated Stork, a Hudson Bay Company steamer, arrived in Montreal this morning.

Life Lost in Fire

NEW YORK, March 19.—Failure of his family or the police to discover any trace of him has led to the fear that John W. Simpson, a well-known industrialist and formerly president of Marietta College, in Ohio, met death in the fire which early to-day caused the injury of a dozen persons and endangered many others in the seven-story apartment building at 24 South Central Park, adjoining the Plaza Hotel.

Man's Great Well

MALTON, Ont., (Special).—There are 500 acres near this station that would be just the thing for a new well right at the station. There is a fine central well four inches in diameter and 70 feet deep. Water is pumped from it by a pump 600, which runs thirty-five strokes a minute and pumps 150 gallons a minute. This four inch well has a 50-gallon-a-minute flow when not working.

A BILL TO REGULATE CONDITIONS OF LABOR

Limit Work to Eight Hours a Day and Minimum Wage of 20 Cents an Hour.

Mr. Fripp, M.L.A. (Ottawa), has some radical recommendations in his bill to regulate the hours of labor. His bill proposes to reduce the working day to eight hours, except in cases of emergency.

A minimum wage of 20c per hour is provided, with time and one-half for excess hours.

No boy under 18 or girl under 21 years is allowed to work more than eight hours each day, and in their cases the minister of agriculture shall determine what remuneration is fair and recoverable.

Factory inspectors have greater powers as in the bill to keep a record of each employee's time. The bill will not apply to those working for members of the Grey and White Lodges.

If the act is violated in connection with railway contracts, the contract shall become void and amount payable forfeited.

CLOTHES CATCH FIRE.

Mrs. O'Flynn of Belleville is Seriously Burned.

BELLEVILLE, March 19.—Mrs. F. E. O'Flynn, wife of a prominent lawyer in this city, was badly burned Thursday when her clothing catching fire in the kitchen.

Got on Wrong Train.

Morris Goldsmith, a commercial traveler, sued the Canadian Pacific Railway, in Judge Morson's court, claiming \$100 for alleged breach of contract. Goldsmith got on the Montreal train at Ottawa, instead of the Toronto train, and he blamed the error on the railway.

The Law's Long Arm.

Detective Twigg left last night for Vancouver to bring back Lee Ling, a Chinaman, wanted here for perjury. He was to have appeared Wednesday, but jumped his bail and was on his way back to China when stopped by a wire to Vancouver.

NO MORE WRINKLES

SCRANTON WOMAN MAKES REMARKABLE DISCOVERY THAT PROVES TO BE A GREAT AID TO BEAUTY.

Broad-minded and Liberal, She Offers to Give Particulars to All Who Write Absolutely Free.

Della Ellison, of Scranton, Pa., seems to be the woman whose name shall go down in history as the discoverer of the true secret of beauty. For centuries past women have realized that wrinkles not only made them look much older than they are, but were also the destroyer of their beauty, and with ceaseless efforts they have sought to stay the hands of time, which robbed them of this most valuable charm.

Knowing that the homely, modest little deep-lined sister, many resorted to annoying and even dangerous experiments trying to regain their former youthful appearance. This new discovery, however, will do away with all these rash measures, as the treatment is harmless and simple. It is said that aside from banishing wrinkles in from one to three weeks, it is a great aid to beauty, making the skin soft and velvety and beautifying the complexion. Many who have followed this statement advise look from the fact that she is so remarkably young.

PARAGUAY WANTS MONEY.

WASHINGTON, March 19.—Paraguay is contemplating floating a loan of \$10,000,000, according to information received at the state department to-day.

His Own Carelessness.

BRANTFORD, March 19.—(Special).—At the request here-to-night into the hands of George T. Howard, who was killed on the H. & B. bridge on Tuesday last, the jury returned an open verdict that the deceased came to his death through his own carelessness while trespassing on railway property.

JOE MARTIN SPEAKS OUT TO THE CANADIAN CLUB

Good Word for Americans Who Backed up Roosevelt's Work of Reform.

"Joe" Martin, the breezy and fearless orator of the west, addressed the Canadian Club yesterday on questions of the relation between Canada and the mother country.

There was something more in it all than any question of trade or tariffs or any question of dollars and cents, and the sentiment evoked applause.

Mr. Martin placed Canada at the top of the world, but did not forget to find some faults. Rightly or wrongly, Canadians believed that their laws and institutions were better than those of the American people. He would cast blame, they were the great exemplar of civic and religious liberty.

But the common people of the United States had backed up Theodore Roosevelt in his war against graft and the trusts. There had been no man like that in Canada, and Mr. Martin feared that there had been Canadians who would not have backed him up as the people of the United States did Roosevelt.

Canadians had the advantage of being part of the greatest nation in the world and they did not pay a dollar directly or indirectly, while they had absolute protection from war. What were these men going to do? He was ashamed of them. Would they increase the cost of living to the unfortunate millions of England, and he did not know a farmer in the Northwest who would accept five cents for such a cost.

Canadians were protected in their lives and property by the enormous expenditure of British on army and navy. They should not rest under that, but he was opposed to any closer relation between Canada and the mother country.

Semi-ready Physique Types and real Custom Tailoring

The Plus Mark

Semi-ready

Personal feeling

It's a real guarantee

¶ Semi-ready Tailoring offers you all the advantages of the made-to-measure clothes plus (+) the fact that you can know just how it will suit you when it is made up. You can't know this in the web of cloth.

¶ Plus again +. Up to the moment that it is exactly right the Semi-ready tailor can add to and subtract from the garment, and make corrections until he and his customer are both satisfied. He can build up the sunk-in spots, straighten a stoop, accentuate chest, diminish corpulency—for our physique type system is founded on the proportions of anatomy, and he has the secret of the true art in the craftsmanship.

¶ Semi-ready Suits can be finished in two hours—and the man who has to wear them feels that his suit has been designed and made for him.

¶ When the Suit is sent home it is shaped right, and the right shape stays, for it is wrought into the garment by men tailors who have grown expert.

¶ That is why Semi-ready Garments are not only satisfactory at the outset, but up to the last days the garments are in use. 'Tis why we can put a real guarantee in the pocket of every Suit we make.

¶ And the cost. If the way of to-day saves you \$5 to \$15, wouldn't you just as soon join the throng who know now.

This is the Modern Custom Tailoring— for we study your every interest in every way

"BLACKGUARD" SAYS JUDGE

Severe Censure for Man Who Was Shot at by Young Woman.

Judge Winchester yesterday sentenced Agnes Johnson, colored, 19 years of age, to one month in jail for shooting at E. and Jackson with whom she had been living. She pleaded that the weapon had been accidentally discharged.

"Jackson, you are a blackguard not worthy of the slightest sympathy," said the honor. "You brought this young girl from Jamaica to live with me. I am sorry the law does not permit me to deal with you as you should be dealt with."

"I trust the time will soon come when the makers of our laws will frame penalties for people who lead

just such lives as you have been leading. You have been openly living with two women, and perhaps three. The girl had her few months old white baby in court. Norman Hancock was found guilty in the sessions yesterday of receiving stolen clothing and remanded for sentence.

Doctor Goes for Trial. Dr. Stephen B. Follard was committed for trial yesterday morning upon a charge of having committed an abortion upon Annie Elizabeth O'Brien, and with him, Mrs. Annie Tinsley, 370 West King-street, at whose house the operation is said to have been performed, who is charged with procuring the abortion. Dr. Follard's bail was increased to \$4000.

INVENTOR'S SUICIDE

Wm. Gibb Shoots Himself in New York City Park.

NEW YORK, March 19.—A man believed from papers in his possession to be Wm. Gibb, an architect and inventor, and a well-known member of the New York Golf Club, committed suicide by shooting in Vanocland Park.

One of his inventions, an indoor golf game, on which he was believed to have spent practically all his life's savings in perfecting, met with considerable success, and so far as known Gibb was not despondent.

He formerly lived in California, Denver and Canada.

Free Until Cured

The Dr. Sanden Electric Belt gives New Strength and Vigor to Men and I Ask no Pay Until Cured

The highest mental and moral development, the greatest possible success in life, either financially or otherwise, can best be attained when the organs of the body are in a normal state of health—when the ambitions and efforts are backed by rugged, manly vigor. The man who is weak, who lacks nerve force and energy, is certainly handicapped to a greater or less degree in every undertaking where a clear brain and an abundant reserve fund of nervous energy and vitality are essential—and these qualifications are required at the present day more than ever before.

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, because science tells us that electricity and nerve force are one and the same thing. I apply it through the famous Dr. Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep.

My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of your case, on trial, not to be paid for until you are cured, and I only charge the regular list price. If you are not satisfied with the results, you can send the Belt back to me, and that ends the transaction. Isn't that a fair offer?

If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing fields crave sunshine and warmth. In the great and sublime effort nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will.

MY BOOK IS GIVEN FREE TO ALL WHO CALL OR WRITE. This book, profusely illustrated, contains valuable advice for men, and outlines the proper course to pursue for the greatest possible development of the physical and mental powers. Write or call for it to-day. It is sent free, sealed, by mail.

DURHAM COUNTY'S PAST RIVALS GLENGARRY

Anecdotes From the Early Times of Darlington and Cartwright Are Full of Pathos and Humor.

"Let some gifted fellow collect the story of the settlement of Durham, and you will find that the men of Durham will outclass anything that ever flourished in much-watered Glengarry, as regards heroism and stress under early difficulties," said Auctioneer L. A. W. Tole of the Pelican Club of Bowmanville to The World on Wednesday.

Continuing in his inimitable strain, Mr. Tole became reminiscent of the early days, and his father cut down the first tree on the site of Bowmanville, and lived with his family near Enniskillen for four years without having a neighbor nearer than the front, he, perhaps, has a right to glory in the pioneer days of this exceptionally well-blessed county on the Ontario lake front.

The farms of Durham are good ones. The land is of a good texture and the buildings and crops all testify to the sterling worth of the county. Mixed farming is generally carried on in the whole county and of late years the farms of Darlington, Clarke and Hope, which are at the front, have gone into dairying. Large herds of dairy cows of grade Holstein, Short-horn, Jersey and Ayrshire as well as several pure bred herds with a reputation, are to be found here. At the little station of Darlington on the G.T.R. more milk is shipped to Toronto than at all the immediate stations combined.

One will find another evidence of the general agricultural prosperity by attending the annual fair at Bowmanville, when, last year, there were nearly 200 entries of cattle—alone, horses, sheep and pigs were of high merit and in large numbers, altho there was not a stable on the grounds. This will be remedied next year when the new grounds are opened. But the casual visitor to Durham County is struck with the fine class of driving horses generally owned by the farmers. Several stables such as Belth's have contributed to this result, and it only emphasizes the benefits to be derived from such places in the vicinity. Clydesdales, Percherons, Hackneys, standard breeds, and thoroughbreds are found here, a grade Percheron filly foal sold at Trull's sale on Wednesday for over \$100.

The Humorous Side. Many stories can be related of Durham folk in the early days. These pioneers are rapidly passing away, and if they would each write down a few of their early incidents, it would, indeed, be a valuable legacy to future Canadians. Just now, while the government is taking active steps towards reforestation in this and an adjoining county, the descriptions of early logging bees reveal, the irony of fate, wherein the farmers burnt off the wood which their descendants are trying to reproduce. "Well do remember," said our entertainer, "when the neighbors all got together to clear Jones' big 50-acre bush five miles away from the school at Enniskillen."

"On the day when the great windrows of brush, logs and timber (wonderful maple, hemlock, beech, etc.) were to be fired, we skipped away from school and ran five miles barefooted to get to the place. It was a grand sight to see the great fires blazing to heaven, while a barrel of whiskey and a barrel of beer escorted the men to the work of deforestation."

Humorous anecdotes of the area Tole's father had collected, he had never known a headache or suffered the loss of a meal, shakes with merriment like a bowl of hominy. "I remember," said our entertainer, "of those times, and Durhams must have been unusually witty. The Irish of Enniskillen made a most happy graft on the Canadian maple and from the stirring times when a man's pugilistic abilities and his knowledge of the manual honors, Lewis' dog story outwits David Harum's horse trade."

Donnybrook Event. One of the stories that the Pelicans have often heard is that of the Caddis-Frippen contest in the good old days. It seems that one Cadd and his four sons were noted for their splendid physique and great strength. They came to be known as the leaders in physical culture of those times and as the Caddis-Frippen contest, henceforth, such was the reputation of the Caddis that their advent to the "quiet" manufacturing town of Enniskillen, where they had their moulding shops, was always the signal for a gathering at the "hostelry of the town."

One quiet Monday the older Cadd and his four sons journeyed into town and put up at the usual hotel. Manager Fruppen of the foundry heard of the Caddis and immediately phoned down all his works and with his 100 men went up to the hotel to trim up the Caddis beyond dispute. As the crowd grew the older Cadd winked one eye to his youngest boy, who went quietly out and hitched up the team to the bog—high and coming around to the front the five Caddis got on board and started to run away with the crowd in pursuit. But as doughty Col. Sam Hughes would say, the Caddis were only "hiring" them on. After getting the crowd about a mile out in the swamp they drove their team to the fence, and each animal, with a bolster stake they met their pursuing enemies breathless and almost exhausted on the narrow road and soon the whole force was routed. Arms, skulls, legs and fingers were broken. The town sleighs, cutters, etc., were soon busy carrying back the injured to town, and, says our informant, the whole services of three doctors were occupied for 48 hours in reducing fractures and bandaging heads.

FOUR YEARS FOR BURGLARY.

ST. THOMAS, March 19.—Johnston Radcliffe, an Englishman, who pleaded guilty to burglary some weeks ago, was this morning sentenced to serve four years in the Kingston Penitentiary by Police Magistrate Glenn. His wife was acquitted on the charge of receiving goods known to have been stolen.

Creditors Get One-Fourth. A meeting of the creditors of the Crown Furniture Company, at the corner of Queen and Dovercourt, was held yesterday in the office of the assignee, J. H. Gurney, when the creditors agreed to accept twenty-five cents on the dollar and grant a discharge. The liabilities amount to \$1300, and the assets to about \$400.

MANITOBA JUST WANTS TO GET EQUAL RIGHTS. Prepared to Accept Same Boundaries Treatment From Dominion as Made to Other Provinces.

OTTAWA, March 19.—(Special).—The Manitoba Ministers had an interview with Sir Wilfrid Laurier at noon. The conference on the boundary extension was postponed till Tuesday, after the Manitoba case had been stated. "The one word equality," said Hon. Robert Rogers, "describes our claim. We are simply asking for equal terms among the other provinces of the Dominion." Asked if they were pressing anything new in regard to the boundaries, Mr. Rogers said, "No, we are simply here on an invitation from Sir Wilfrid Laurier and are once more afforded the opportunity of pleading Manitoba's case for equality."

WRECK VICTIMS BURIED. Streets Crowded as Sad Cortège Passed Along. MONTREAL, March 19.—All Point St. Charles, the railroad centre of Montreal, mourned to-day, and thousands of railroad families turned out to pay their last tribute of respect to the memory of the Nixon family, who met such a tragic ending at the Windsor-street station here they had gone to meet and welcome their father; about the hearses of the little boy and girl were members of their Sunday school classes, and behind came hundreds of men of the neighborhood, anxious to show, by their presence, the great sorrow they felt at the loss that had been sustained.

ANSWERS THE DESCRIPTION. Another Torontonian Who Feels Sure He Saw Kinrade Murderer. R. E. Duggan, 741 Lansdowne-avenue, writes The World. Having seen by Friday's World that Mr. Davison of West Toronto was speaking to a man answering the description of the tramp supposed to have committed the murder the morning after, this was undoubtedly the man if the tramp theory is to be believed.

Youth Electrocutated. RICHMOND, Va., March 19.—Benjamin Gilbert, a white youth of 19, was electrocuted in the penitentiary this morning for the murder in Norfolk last July of his sweetheart.

COBALT --- Speculative Drive Made Against Beaver Stock --- COBALT

Mining Markets Disturbed Rumors Prolific on Beaver

La Rose and Nipissing Have Good Advance on New York Buying—Beaver Depressed by a Drive.

World Office, Friday Evening, March 19. Business at the local mining exchanges to-day was conducted with decidedly weak undertone in a number of the issues, the specialty along this line being Beaver.

This issue was hammered right along from the opening this morning until almost the close, the prices of the stock dropping from about 15 to 9 before any steadiness was shown, but even at the close the stock showed no marked firmness.

The break in Beaver is attributed to the circulation of a being sent out by this company calling for the annual meeting a week from Saturday, in which it was stated that the shareholders will be asked to sanction a course of financing for future development.

The rumors around the exchange were that the company was in financial difficulties, and that an assessment would have to be made on the present shareholders, or the property placed in the hands of a receiver.

This demoralized the markets pretty much in the late business, and gave a distinctly pessimistic trend to most of the listed shares.

In strange contrast to this was the strength of La Rose and Nipissing, both of which made good advances in the market. The advances in these issues were due entirely to New York buying, at which centre there is said to be the strongest kind of confidence in the value of these securities.

Among the other stocks Temiskaming sold down slightly lower than yesterday's price. There was less activity in this stock, and after the price steadied the market for the shares had a considerably firmer appearance.

Outside of the stocks mentioned transactions were not large, and prices in most of the issues were low as yesterday's quotations. The recent break in Temiskaming and to-day's dip in Beaver has temporarily upset the mining market at large, and even at the time being is for further irregularity.

BEAVER RUMORS DENIED

Had Break in Stock Price is Facilitated by Rumors.

A had break in Beaver shares occurred on the mining exchanges yesterday, the price of the stock dropping on the afternoon board as low as 9. This was a break of 7 points from yesterday. In connection with the weakness of the stock it was rumored that the company was in financial difficulties and the money would have to be raised by the company to continue its development.

At the office of the Beaver Company it was emphatically denied that there was any prospect of the company going into liquidation. It was also stated that the company will have a considerable stock in the treasury, and that, while new financing might be necessary to continue the work on the claims, there was no reason why this cannot be satisfactorily arranged at the annual meeting.

After the close of the exchanges it was learned that a big block of shares were offered during the afternoon session by a short trader, and interesting in that the shares were looked for when the covering takes place.

Dividend on Cobalt Central

Cobalt Central has declared a quarterly dividend of 1 per cent, a reduction of 1 per cent as compared with the preceding quarter.

Gets His Money Back

Charles Patterson invested \$1000 in some Cobalt properties and yesterday Justice Clute decided that he was entitled to a return of his money. Wm. Whitton of Port Arthur was the defendant, and Wm. Duncan, a co-defendant, but in giving judgment his lordship found that Duncan was not guilty of misrepresentation in any way, consequently Patterson will have to pay the money. The plaintiff claimed that he paid the thousand dollars for a quarter interest and afterwards found that the properties were no good and that Whitton did not own them.

FORMER MINES HAVE A GREAT FUTURE

General Sketch of the Geology of the South Lorrain Mineral Belt

SOUTH LORRAIN, March 17.—(Staff Special.)—Through the kindness of Col. Madge, boss of the Keeley Mines, The World was able to get some useful information on the subject of the geology of South Lorrain.

The formation of this mineral belt is very much like Cobalt; nearly all the veins carrying high grade silver ore occur in close proximity to contact with Keewatin series of rocks and post-Huronian diabase. The Keewatin in South Lorrain resembles in some respects the same outcropping in the Coleman Township, and the diabase is the same.

Near the contact the veins are very fine indeed, due to the more rapid cooling at this point, but at a further distance from the contact the diabase becomes copper-grained, the Keewatin contact showing a great deal of alteration and cherting. Most of the silver veins at an even further distance from the contact, cobalt, bloom, cobaltite, calcite, quartz, native bismuth, galena, native copper, pyrites and copper pyrites, with bismuth and copper in abundance. No veins of any importance have been discovered except in close proximity to the contact mentioned.

On the Keeley and Forneri properties this contact is in strong evidence. The Forneri show on the silver, copper, galena, cobalt, calcite, quartz in large quantities, smallite and nickel bloom, which is a good showing. This property has also real fine silver showings, and on one of the Keeley leads, which run thru the Gibson into the Forneri, a vein has been stripped which shows up to a width of seven feet.

The most marked difference in the nature of the ore in South Lorrain as compared with Coleman Township is that the gangues of rich silver ores are generally composed of quartz against calcite in Coleman.

FIRST GAS LIGHTING INSTALLED AT SMYTH

Montreal River Town Gradually Getting Down to Civilized Accommodations.

BLK LAKE, March 15.—(From the Man Up There.)—The number of people coming into this district is as great as ever, and each night sees the hotels and other places which accommodate the guests at the limit of their capacity, in spite of the fact that more hotel accommodations is being provided on the increase.

The main roads are beginning to show signs of the approaching spring, but it is thought by those who know the country well that the roads will be passable for about a month yet. It is hoped that this prediction holds good, as there is an enormous amount of supplies, machinery, etc., to be brought in before the roads break up. The first acetylene generator to be installed in the Town of Smyth is now in operation. Last Saturday night the guests at the King Edward Hotel were surprised to find the same lighted throughout by acetylene gas. The lamps had been taken from the rooms during the day, and several who had been here so long as to become accustomed to them went groping around after dark looking for the lamp. In a very few days now the new portion of the King Edward will be open.

MAKING MAPS OF MINES EMPLOYS MANY EXPERTS

How Features of Once Unknown Areas Are Proportioned and Brought Up to Date.

Map making is a branch of industry that has received a wonderful stimulus as a result of the development of the silver mining fields of Northern Ontario.

No man thinks of going into the mining country without his blue print of the district in which he is especially interested. Some of these have grown so large that they would more than blanket an infant's cradle.

The making of maps of the mining fields involve a great amount of skill and geographical knowledge. Every claim has to be marked with the greatest care with relation to the surrounding properties, the lakes and the rivers. Otherwise it would be difficult to find the properties one might desire to locate. Each claim is marked with the owner's name and the number of the Forneri, a vein has been stripped which shows up to a width of seven feet.

The importance of well-drawn maps is very great in the hands of the department, others in the recording offices and various brokerage houses. There are, at least two companies in the city which devote their time almost exclusively to turning out large blue prints of the country.

WORK NEAR AT HAND

Strength of Investment Stocks is of Great Importance.

The action of the Cobalt market during the week would be almost discouraging were it not that a set-back was quite natural after the recent sharp rise in several issues.

Following an encouraging start, with Cobalt Lake the feature on very large transactions, due to the report that a vein carrying good silver values had actually been discovered, the market became dull. The temporary reaction is probably taken advantage of by the professional element, who are still largely in control, and with the dribbling selling of the syndicate in some directions. Temiskaming (x.d. 6 per cent) and Beaver sold at the low end of the market for a long time, but the end should be soon.

As a market factor, looking to the ultimate outcome, the firmness and strength of the leading investment issues is of the greatest importance. This in conjunction with the fact that many of the real operators who will accept a low level warrants the belief that a permanent turn for the better is near at hand.

In the light of experience, apart from the considerations just mentioned, and the progress an amazing possibilities of Cobalt and its allied districts, a majority of the active issues should be a safe purchase now for big profits in due time.

PROPERTIES WITH REAL MERIT

OPERATORS

The present opportunities for investing in real mining properties in the heart of the rich diatase ridge on which the famous mines of Gowganda are situated. These are not snow-staked claims—secured in winter—but properties located last fall when formation and other conditions that mark valuable mining properties were visible to prospectors and mining engineers. Development has proven the merits of these properties, and native silver in quantity is visible to the naked eye. Some of these properties are still in the original owner's hands, and these are claims we believe offer the greatest opportunities to shrewd investors. If you want to buy a real mine at a fair price, we can deliver the same.

The above statements apply with equal force to Silver Lake, James, South Lorrain and other portions of the great silver camp, and real buyers will find it to their interest to consult us before looking elsewhere.

Aside from these properties we have a line of medium-priced claims—properties that show mineral in place—some of which are worthy of more than passing attention. We direct the buyer's special attention to these. All our properties are offered subject to inspection in the field.

Among the list of properties offered we have four forty-acre claims adjoining Townsite of Smyth, the surface rights for residential purposes being worth more than we are asking for the whole acreage.

REAL MINING PROPERTIES

We have unexcelled facilities for handling mining properties, and have an extensive clientele, in Canada, the United States and Great Britain. This clientele is daily increasing, and we are desirous that it should. In order, however, to maintain the position of leadership we have established for sale of mining properties, we believe it advisable to state openly so that all claim-holders may understand the information we have forwarded to many prospectors who have written us to sell their claims.

1.—We must have an owner's statement clearly setting forth formation of claim, description and number of veins showing values.

2.—Send particulars as to title, giving number of claim and stating number of days' work actually performed. Also if surveyed.

3.—Do not have your propositions loaded two or three times their actual value by middlemen and others. We do not and will not offer properties of this kind.

4.—We do not accept for sale all properties offered, and do not demand an enormous profit. We have real buyers in sight.

5.—We believe you would make more money out of well-located and undeveloped claims by placing them in the hands of real operators who will accept an interest in your property and proceed with the development. We have placed several properties reserving an unassessable interest. If it proves to be a mine, you will have a "dependent fortune." If otherwise, you are only out of pocket cost of staking and recording. We have placed several properties this way, which we consider fair to all parties interested.

GOWGANDA--Sam Otisse Tells of His Discovery of "Otisse" Mine--ELK LAKE

FINDING OF THE OTISSE TOLD BY PROSPECTOR

Sam Otisse Relates His Experiences When He Made the Celebrated Montreal River Find.

Mr. Downey tells me that since this ore came down further and they have got ore that cannot be broken with the hammer, as it held together with the silver. Just wait awhile and you will have something that will make the whole north country sit up. Within 200 feet of where the main shaft is going down there are silver leads that I know of there can be tapped. I am as sure as that I am smoking this cigar that you are going to hear news of the Otisse, just as soon as they begin to tap these leads from the 100 foot level.

Mr. Sam Otisse, the noted explorer and prospector, arrived in town yesterday after having spent several months in the north. Mr. Otisse was surrounded by many mining men during the day at the King Edward, who were all eager to hear his views of the different sections of the silver belt. It is not necessary to say that Mr. Otisse was the original discoverer of the famous Otisse Mine, as that fact is well known.

He told the story of his original discovery yesterday and the difficulty he had in finishing staking the celebrated claim. When he was half done two young fellows who had been up to James Bay have in sight. They had lost their way and had struck through the wilderness via Night Hawk Lake to Silver Lake, where he and his brother were staking out the Otisse claim. They were quite exhausted and almost starved. Mr. Otisse had to share his scanty hoard of provisions with them and before he had finished staking, they were all reduced to skeletons. They were "by keep them alive. There was no Elk Lake City then at all. It was all wilderness where the thriving town now stands. There was not even a cat there. The Sam was mighty hungry the last day he stuck to the job and finished it well, because he knew how vital it was. Then he struck out for Latchford, fifty-five miles thru the wilderness, and when he got there, he ate up about everything in sight. "I knew when I found that property," said Mr. Otisse, "that it was the big find of my life. I went all over it and saw that it was a bed of veins. It carried native silver and argentiferous lead. I knew many rich blind leads will be struck such as the two that have been struck in the past three weeks.

"Will you describe the recent finds, Mr. Otisse?" asked the reporter. "Well," said he, "the shaft was being sunk between two of my original discovery veins that they knew were rich. There was no indication of such value at the surface where the shaft was started and they did not expect much till they cross-cut the two veins, one about fifty feet from the shaft and the other about one hundred feet away. I was not surprised at all, however, at the strike, as it looked to me as if they would likely strike into blind leads between those two rich veins. The ore is of course very rich, but it doesn't surprise me in the least.

Mr. Otisse said that he has a large investment in Otisse stock that he is going to keep, awaiting the course of development. "She's going to pay the dividends and the stock is bound to go away up. My friends in Quebec and up north are buying it for keeps, you bet."

WELCH PROPERTY ONE OF RICHEST ON THE RIDGE

This is the Statement of H. E. West, Mining Engineer, in Report Just Submitted.

H. E. West, mining engineer for the Kerr Lake Mining Company, has just submitted his report on the Welsh claims at Gowganda, situated between the Bartlett and Reeve-Doble properties, and in his conclusion says: "Judging from what I have seen of this property on my two visits of inspection, and from what I have gathered from about three months' work, and on, in the immediate vicinity, I am pleased to state that, in my opinion, I consider the chances of this property developing into a paying mine, second to none of those situated on the 'ridge.' I have inspected most, if not all, properties in the vicinity, and whereas the surface showings on the 'Welsh' claims are not so spectacular as on some others, yet from the nature of the trenching shown by the presence of silver being demonstrated in two of these veins at the shallow depth of about three feet, and the expression of the opinion that the present showings on this property, coupled with the known favorable developments on neighboring properties, offer every encouragement to the belief that the Welsh claims, with suitable development, under competent management, will develop into a payable property."

So confident are the owners, F. C. Hunt and W. Griffiths, since receiving this report that they have refused any purchase offer and called all deals off. Their intention, now is to form a syndicate, which they are at present doing, to purchase this property at 15c a share. On this property, which has an area of 70 acres, six silver veins have been discovered, and to "The World" last night were shown samples from these veins, which carried native and lead. Similar samples from the same veins assayed as high as two thousand ounces to the ton, which fact gives every encouragement to the belief that this is one of the richest in the Gowganda district.

Now that the owners have decided to form a syndicate, the property will be watched with interest by the investing public, and any further information needed will be gladly given by either Mr. Hunt or Mr. Griffiths, whose offices are in the Star Building, corner of Adelaide and Bay streets.

I Will Mail Prospectus of the Lemieux Silver Mining Company, LIMITED.

Authorized Capital \$1,000,000
Par Value of Shares \$1.00 Each

This Company owns 240 acres, 1 3/4 miles south of the Gillies Limit, in the Petrus Lake District, and on all the claims value discovered less than one mile from the T. & N. O. Railway. WAGON ROAD IS NEEDED SELLWOOD TO GOWGANDA

Deputation From Sudbury Urges Appropriation for Construction—Something Must Be Done.

The Sudbury deputation to Toronto will not be denied. Having met with a measure of failure in pressing their claims for assistance to the Canadian Northern Railway to Port Arthur, and the government having refused to grant assistance to the railway, the deputation declines to be discouraged and is still on deck looking after Sudbury's interests. The deputation met yesterday and drew up a resolution asking the government to make an appropriation for the immediate building of a wagon road from Sellwood to Gowganda. They point out that the Gowganda Transport Company will undertake to build this road at a cost of \$40,000, of which amount the company will contribute \$20,000, leaving the government to make up the balance of \$20,000.

The company will undertake to complete the road by June 30, and earlier than this if possible. Sudbury's deputation points out in the declaration that many claims will be staked along the route, giving a revenue which will reimburse the government for the outlay. L. O'Connor, president of the Sudbury Board of Trade, stated yesterday that the road would open up a field of great mining possibilities. "There is no other way of opening up this field without some sort of transportation facilities. The road means a great deal to the business interests of Sudbury and Toronto, and to the province at large."

A MINING SUIT.

George Green sues A. W. Jacobs, Sam Blaskov, A. T. Shillington, John Craig, D. H. Baird, A. W. Jacobs Consolidated Mines, Limited, of Ottawa, and H. P. Cobalt Mines, Limited, which the plaintiff claims as his share of the sale of certain mining properties in Nipissing to the Wataash Cobalt Mines Company.

ADVENTURES OF TWO DAYS Unintentional Comedy Enacted in Local Hotel.

A clever bit of comedy was unintentionally enacted at an hotel in Toronto one day last week, and considerable fun ensued. A Montreal, a traveling man, came to the hotel and registered. The clerk assigned him to Room 222. He sent the bellboy up with the luggage, and another gentleman and his wife came in and asked to be accommodated. The clerk whirled the register around and the name of the gentleman, six silver veins have been discovered, and to "The World" last night were shown samples from these veins, which carried native and lead.

"H. M. Day and wife, Windsor, Ont." He was assigned to Room 6, and the clerk asked him how long he wanted the room for. "Two days," answered Mr. Day. "Do you mean that you want the room for yourself and your wife for two days?" asked the clerk. "Yes, for two days," Mr. Day was too dazed to answer for a moment, then he said: "I want the room for two days for two days." "We have a Day in the hotel now," said the clerk. "I suppose when all of us go you will have three Days off work?" facetiously remarked the second Day. "Or will it be two and one-half Days—my wife being but my other half?" thus making a Day and a half for me," the clerk acknowledged that the problem in arithmetic was too strong for him. The Day that arrived first called down to the desk and asked for his mail after the second Day had gone to his room. When the clerk answered the phone the voice said: "Hello, I wish you would look and see if there is any mail there for H. M. Day." "What Day is this?" enquired the clerk innocently. "Why, it was Wednesday when I came up here. What difference does that make?" "I mean what room are you in?" the clerk enquired further. "Two-two-two," answered Day No. 1. "Do you mean six?" gasped the clerk. "Two-two-two makes six, you know, and there are two Days in six," the clerk was trying desperately to explain. "I don't care if there is a whole week in six. I'm asking for my mail. Will you wake up and look for it?" Mr. Day No. 1 was evidently getting mad, but before he reached the desk, the other blustering and stormy. The clerk explained to him that there was another Day in the hotel and that he would have to come down and identify his mail. It chanced that the two Days met in the lobby, one cool and balm, the other blustering and stormy. The clerk rushed out and introduced them, and the lotterers in the lobby witnessed the strange phenomenon of two Days coming together.

HUGHES TO THE DEFENCE Replies to Bishop DuMoulin's References to Woman's Suffrage.

Inspector James L. Hughes writes: I deeply regret that so generous a man as Bishop DuMoulin should have attacked the equal suffrage movement, and especially that he should have stated that the movement was one that caused danger to the best life of the home. I am glad that some of the distinguished leaders of his own and other churches do not agree with him. The great Phillips Brooks wrote: "I am in favor of woman suffrage." The eloquent and scholarly Bishop Spalding in a Roman Catholic said, in speaking of woman suffrage: "The experiment will be made, whatever our theories and prejudices may be. Women are the most religious, the most moral and the most sober portion of the American people, and it is not easy to understand why their influence in public life is retarded." Canon Kingsley wrote: "I believe that politics will not go right, that religion will not go right, except in so far as woman goes right; and to make woman

HOW REEVES STRUCK IT RICH.

Alfred J. Reeves had searched long and earnestly for silver, and was beginning to yield to discouragement. He decided to strike for Gowganda Lake. On the memorable August 26 he struck out and worked away until a clock striking his pick laid a moss-covered crack in a ledge, lo and behold, there was a rich vein of native silver.

On the same afternoon Mann brothers made their great discovery in close proximity. Reeves and Doble have since sold their claim for \$200,000. The ridge on which these finds were made is the treasure spot of Gowganda, and these rich strata are adjacent to the MACGREGOR PROPERTIES.

THE SAFETY OF THE INVESTMENT

can best be shown by drawing attention to the claims surrounding the MACGREGOR properties. For instance, O'Kelly claims, showing one of the most promising native silver veins in the district, is adjacent to the MACGREGOR PROPERTIES. The diabase formation tells the prospector plainly that hidden wealth is there for the digging, and the same formation found on the various valuable discoveries adjacent to the MACGREGOR properties is plainly evident in the MACGREGOR properties.

THE GROUND FLOOR

With all the promises given by Nature, with promising fissure veins plainly evidenced, it is reasonable to expect that the MACGREGOR properties will be among the richest silver producers in the GOWGANDA district.

When is the best time to get in for future reward? The time is now! The returns will come with the formation of the company, because the Syndicate will have eliminated the promoter, and each \$100 share will stand good for 6,000 shares in the company, or \$3,000 cash, less, say, 5% brokerage for selling.

Isn't this getting in on the ground floor? Doesn't it suggest your quick consideration and prompt action?

The shares are offered now to NOW men. Act now. The agreement of purchase of the MacGregor Mines Properties may be seen at our office.

MACGREGOR SYNDICATE

THE INVESTOR'S GREAT CHANCE

The MACGREGOR Syndicate is being formed for \$20,000 with shares at \$100 each, and will own 120 ACRES (three claims: M.R. 3507, M.R. 3523, M.R. 3524) at the south end of GOWGANDA Lake, right in the district where all the recent valuable discoveries have been made. When the Syndicate is completed it is proposed to form a company with a capitalization of \$2,000,000 to thoroughly work the properties.

The highly promising fissure veins upon, and the location of the properties, situated as they are in the heart of the rich district, has led to the formation of the Syndicate for the purpose of keeping within its members all the profits that would naturally go to promoters of the proposed company.

Every member of the Syndicate, whether worth a hundred or a million, will have equal rights and equal votes with one another, and will share according to his holdings equally when the stock of the proposed company is sold. There's none of that commercial competition where the smaller man is absorbed by the greater. A square deal to every member.

It was late last fall, when the first valuable discoveries were made in GOWGANDA, so it is fair to say that as far as actual prospecting is concerned, the ground has been scarcely scratched. And in the spring the magnificent richness of the district, promised by discoveries already made, and the discoveries being made daily, will be heralded from seaboard to coast, when an unprecedented rush is expected.

This means a great influx of capital for the purchase and development of meritorious properties. So get in now on the ownership of these valuable properties.

go right she must have her rights." Bishop Bowman wrote: "In quite early life I formed the opinion that women ought to vote because it is right and for the best interests of the country. Years of observation and thought have strengthened this opinion." Bishop Hurst wrote: "I fully believe that the time has come when the ballot should be given to woman. Both her intelligence and her conscience would lead her to vote on the side of justice and pure morals. The English Rev. Joseph Parker, the great English preacher, said: "To oppose giving the franchise to woman seems to me simply stupid."

Probably the opinion of no minister of any denomination in Canada ever carried more weight than this opinion of the late Dr. Caven. He wrote: "I do not find in Scripture anything which can be fairly adduced in opposition to woman's enfranchisement. In many branches of the church women vote on all questions equally with men. If this is right, I have no doubt it is—it would be difficult to show that women should not have permission to vote in the municipal or national sphere." Chancellor Burwash made a very able address in favor of woman suffrage on the last occasion, when a deputation advocated woman's enfranchisement before the Ontario Government.

The very fact that woman is usually held responsible for the home is the strongest possible reason why she should have the right to vote in deciding the laws made to protect the home. The State of Wyoming has allowed women to vote for nearly forty years, and the bishops and leading clergymen of that state are very strongly in favor of woman suffrage. They speak from experience, and not merely from narrow prejudice.

The experience with woman suffrage in Wyoming, Colorado, Idaho and Utah has been so completely satisfactory that very recently the States of Washington and South Dakota have granted women the right to vote on an equal basis with men by an almost unanimous vote of both houses of their legislatures. Two other legislatures, in California and Nebraska, gave a majority in favor of the two-thirds majority required by their constitution. The legislature of Kansas has recently granted women the right to vote in presidential elections. The announcement was made a few days ago that Sweden has granted full suffrage to women. Women in Finland vote and sit in parliament. Three-fifths of the women in Norway vote. The English and the Danish women vote in municipal elections. The women in Australia and in New Zealand have full parliamentary suffrage.

Shares in a GOW GANDA SYNDICATE to investors. This Syndicate is for the purpose of exploiting 120 acres, being three hundred-acre claims in the Gow Ganda district, lying south of Spawning Lake. They are in the true diabase formation, and have every indication of proving very valuable properties. The Syndicate is composed of one hundred shares of \$500 each, payable \$100 cash, and the balance in four monthly instalments of \$100 each without interest. \$10,000 is provided for development work and as soon as the work warrants a company shall be formed, having a Charter Capital of \$2,000,000, in two million shares of One Dollar each. One Million Five Hundred Thousand shares of the stock of the Company will be paid to the Syndicate for the title to the property, and this stock will be divided equally amongst the Syndicate shares, giving each share in the Syndicate 15,000 shares of the capital stock of the company. The balance of 500,000 shares will be left in the Treasury for future development—as I have no doubt if this is right, I have no doubt it is—it would be difficult to show that women should not have permission to vote in the municipal or national sphere."

Call in and see us in relation to this proposition. We think it a safe investment, and one in which you will make money. It also affords the investor an opportunity to see that it is being done on the property from month to month, when the monthly payments are made. Some instances of syndicate operations in the Cobalt camp are as follows:

Crown Reserve Syndicate consisted of 30 shares of \$1,000 each. For each share in this syndicate 30,000 shares of the stock of the Crown Reserve Mining Company were given, and at the present market price this means a return of \$34,000 for each \$1,000 syndicate share. The Right-of-Way mining shares sold at 15c and are now selling at \$4 per share, and have already received 40c per share in dividends. We might also quote Buffalo, Coniags, and Hudson Bay, which was sold at 25c per share, and which is now selling at \$275.00 per share.

SATURDAY, MARCH 20, 1909.

With the Confidence of Certainty Our Suits are for Women of Taste and Discernment

TORONTO is the Queen City of Fashion in Canada. What Toronto wears is what all Canada wants to wear. We beg to proclaim that Toronto has enthusiastically endorsed our type of tailored suits for 1909.

Our sales have doubled highest previous records for a corresponding period. For three weeks we waited to see if we were on the right road. We now are certain of it. Our suits are right! Such is the verdict.

Let us consider the ideal that this store sets up.

We aim to provide that subtle quality for

chief London, and, latterly, New York, suits are famous—simplicity.

By simplicity, however, we mean much. We mean masculine tailoring; we mean perfection of line and cut. We mean the simplicity of distinction—which is a quality as hard to achieve as it is unmistakable when you see it.

That has been our ideal. And this, besides—moderation in price. Come and see.

\$5 Petticoats \$2.95

Petticoats of beautiful quality satin-striped silk mottoreto. In brown, green, wine tones, with smart overchecked patterns; made of generous width, with deep blue flounce, trimmed with pin tucking. On Monday, regular \$5.00 skirts for \$2.95.

New \$1.00 Print and Chambray Waists

Shirt Waists of fine English print and chambray, made in two of the most desirable styles, one with four tucked and box pleat fronts, shirt sleeves and laundered collar; the other with 1-1/2-in. tucks across the front, running down to large range of neat and natty effects, in stripes and checks. The assortment contains the most popular colors, such as greens, greys, blue, pink, red and black. While this is the class of waist which is so much in demand at the present season, and the quality is sufficient to merit a higher price, our special price \$1.00.

We Pay Extra for Quality

ONE of the reasons why our Dress Goods Department is given such precedence is due to the fact that we have always made it a principle to pay a little extra, be it in France or be it in England, to the manufacturer who put a little more than the usual quality into his cloth. It is very easy to buy dress goods which LOOK as good as any other. We make it a point to buy the cloths which look and feel and ARE as good as any against which they might be compared.

We pay a little more for Finer Wool, Evener Weave, Faster Dye, Purer Color, Rarer Shades, and when we get the goods in which you are asked to pay elsewhere for the goods which only LOOK their equal.

You have no idea of the inexhaustible variation of shades we have for this spring. Let us show you and advise you. We have experienced men to tell you what is the particular advantage of each fabric. Let us show you our

- Broadcloths at \$1.25 and \$1.50. Worsteds at \$1.00, \$1.25 and \$1.50. Satin Cloths at \$1.00, \$1.25 and \$1.50. No better values can be had on this continent.

FINISHED THEIR WORK

Whitney's Desire for Despatch Has Been Respected by S. O. Committee.

It cannot be said that the end of the legislative is reasonably in sight, but the premier's insistence that members stick at work resulted in the standing orders' committee completing its business for the session yesterday.

Only a few bills occupied the attention of the municipal committee. Mr. Sulman's bill to prevent wholesaler from Detroit buying everything in right on Chatham Market, thereby affecting the food supply of the town, was reported. The remedy is to restrict buying to certain hours.

A few other minor bills were also reported. Hon. A. G. MacKay has returned from the Owen Sound Assizes and several bills for which he is sponsor will now be taken up. Now that the first set of estimates have been passed the way is clear for serious work on the law reform bill and other important items of legislation.

London Wool Market.

LONDON, March 19.—The offerings at the wool auction sales to-day amounted to 14,083 bales. The recent advance was easily maintained as the quality of the offerings was bright medium freights. Competitors for secured and some spinners were active in course through-out. To-day's sales follow: New South Wales, 200 bales; secured, 194 to 18 3/4; greasy, 734 to 18 1/2. Queensland, 39 bales; secured, 18 3/4 to 23; greasy, 64 to 10 1/2. Victoria, 1600 bales; secured, 18 3/4 to 25; greasy, 74 to 18 3/4. The sale of Cape of Good Hope and Natal stevedunks was held here to-day. The offerings numbered 23,287, of which 17,582 were sold. The quality was rather poor. But there was a good demand and long wooled skins advanced 4d; short wooled were unchanged to 4d higher and coarse grades unchanged.

GOCHRANE TURNED DOWN AN INTERESTED RELATION

Mr. McDougal of Ottawa is Rebuked for His Insinuations—Work on Gillies Limit.

A heated discussion arose in the legislature yesterday when D. J. McDougal, member for Ottawa, asked for particulars concerning the agreement and settlement in connection with the O'Brien and Alpha Mine case. The minister of lands and mines, Hon. Frank Cochrane, replied that no agreement of any kind was in existence, and the main issue had been fought out in the last election.

The member for Ottawa came back with the statement that as the money had been paid to a near relation of the minister, he should prefer to have the matter made clear.

Hon. Mr. Cochrane retorted: "I am not accustomed to insinuations. State plainly what you mean."

"It is said that the minister of mines paid out this settlement money to a near relation," was Mr. McDougal's reply.

"I do not believe," he said, "that there is a man in the province who knows more about the subject than the hon. member from Ottawa."

"I am astonished that the hon. member for Ottawa should put himself in the position of wilfully misunderstanding what was said three or four times."

Hon. Mr. Cochrane retorted: "I am not accustomed to insinuations. State plainly what you mean."

"I do not believe," he said, "that there is a man in the province who knows more about the subject than the hon. member from Ottawa."

"And," continued the premier, amid applause, "the fact that the minister of lands and mines turned down, and was not influenced by, the interests of a near relation, shows that he was made of material far above ordinary clay."

Mr. McGarry's bill to incorporate the Ontario Veterinary Association was sent to the agricultural committee.

The premier took a firm stand against the bill prohibiting any but certified embalmers to practise in the province. He did not approve of the principle of requiring a man to have a certificate with a seal "as big as your head" on it before he could do business. The bill was withdrawn.

New Bills. Bills introduced were: An act to incorporate the Town of Tilbury.—G. W. Sulman. An act respecting the Ontario West Shore Electric Railway Company.—Hugh Clark. The Fair Wage and Hours of Labor Regulation Act.—A. E. Frupp.

An act to amend the Public Health Act.—A. A. Mahaffy. An act to incorporate the Lake Superior and Long Lake Railway and Transportation Co.—J. J. Carrick. An act respecting the Toronto Suburban Railway Company.—J. S. Fox. An act to regulate the act regulating the speed and operation of motor vehicles on highways.—D. C. Ross. An act to amend the General Road Companies Act.—G. H. Ferguson. An act to incorporate Toronto West End Y.M.C.A.—W. D. McPherson. An act respecting Geo. McCauley.—W. D. McPherson. An act to amend the act respecting electric street car, heat, electricity or natural gas for heating or power.—W. F. Nickle. An act respecting the Canada Central Y.M.C.A.—W. F. Nickle. An act to amend the Municipal Act (2 bills).—W. F. Nickle.

The snowfall of yesterday was more than two inches.
