ROSEBERY TO LORDS

DANGER IS TOO GREAT TO PERMIT REJECTION OF BUDGET

The Former Liberal Premier, While Denouncing Finance Bill, Fears Terrible Result if Rejected.

GREATEST POLITICAL MOMENT SINCE 1832

LONDON, Nov. 24.—Lord Rosebery, the former Liberal prime minister, today raised the historical struggle between the Lords and the House to a new plane by one of the finest speeches he has ever delivered, in which he warned the lords of the grave risks they were running, if they adopted Lord Lansdowne's resolution to reject the budget.

If possible, still greater interest was manifested in to-day's debate. The public galleries were crowded to their utmost capacity. The Duchess of Connaught headed a long list of the foremost persons, many of whom were compelled to stand thruout.

It is impossible to-night to judge the effect Lord Rosebery's warning will have. A considerable section of the Unionist peers have held grave doubts as to the expediency of Lord Lansdowne's course, and there is almost certain to be a large number of abstentions when the resolution comes to a vote.

It was announced to-night that the House of Commons will adjourn tomorrow until December 1, when Mr. Asquith, the prime minister, will make an important statement explaining the policy of the government in view of the rejection of the budget, which is anticipated.

Nothing has been learned as to what the ministers decided at to-day's council, beyond the decision to call a party meeting to outline a plan of campaign.

Too Dangerous a Game. Lord Salisbury resumed the debate with a speech supporting Lord Lansdowne's resolution, after the arch-bishop of Canterbury had said the church would stand aside from the discussion, as the discussion was one of strictly party character.

Lord Rosebery followed in a long speech, giving the lords plain warnings of the danger of the path which they were following. He said: "I am quite dissociated from any party, and speak from my sense of the awful gravity of the situation. This is the greatest political moment in the lifetime of any man born since 1832."

Lord Rosebery admitted that he was not possible that the commons would send up a budget which the house of lords should go to the length of rejecting.

He considered that the only possible circumstances justifying the lords in exercising such a dormant power would be the direct authority and condemnation of the nation itself.

Such a circumstance might arise if a budget were presented which lowered the defence of the country like a stake, and were risking the very existence of the house of lords.

STUDENTS ASSAIL SUFFRAGETTE

BRISTOL, Eng., Nov. 24.—Since the attack ten days ago upon Winston Spencer Churchill, president of the board of trade, by a suffragette, armed with a whip, a strong feeling has grown up against suffragists, and an attempt by Miss Christabel Pankhurst to address a meeting at Colstonham to-night was prevented by a crowd of students and others who kept up a continuous series of yells and whistling. The disturbers threw four balls and pens and finally tried to storm the platform. A large body of police cleared the hall after a serious conflict with the students and their supporters.

until midnight, the remainder of the speeches took their form of an anti-climax. Lord Milner spoke of the abnormal manner in which the budget was driving capital out of the country. He declared all the proposed new taxes bad and unnecessary, as the money required, he contended, might have been raised satisfactorily by import duties. Lord Curzon will resume the debate to-morrow.

ROSEBERY'S ORATION WILL NOT AFFECT THE VOTE.

LONDON, Nov. 25.—From the tone of the editorials in the London morning papers, Lord Rosebery's remarkable oration, which from a rhetorical viewpoint is universally lauded, is likely to have a small effect on the attitude of the peers.

Rosebery is dubbed the "Hamlet of British politics" and his characteristic of purpose is regarded as having received another striking illustration. A proposal which he made, half seriously, in the course of his speech, that the House of Lords should delegate 150 of the most distinguished peers to vote on Lansdowne's motion, as being a method more likely to impress the country than a large vote of a heterogeneous gathering of peers, many of whom have no claim to distinction and but seldom attend debates, is commented upon almost with ridicule.

The prolongation of the debate in the House of Lords deranged the government's plans, and no decision has been reached as to what course shall be followed regarding the prorogation and dissolution of parliament.

A movement has been started in favor of a great peaceful demonstration of Londoners outside of the parliament on the night the House of Lords rejects the budget, as a protest against this action.

"BLACKBALLED" DEAD MEN.

NEW YORK, Nov. 24.—(Special.)—The entire membership of a Masonic lodge has been suspended. They blackballed the names of four dead men without investigating.

THE GIRL DENIES M'LACHLAN'S STORIES

Miss Alma Nix Says There Was No Love Affair Between Them—Jury Return a Verdict of Murder.

UXBRIDGE, Nov. 24.—(Special.)—The McLachlan inquest was concluded this afternoon, when the coroner's jury, after deliberation for 45 minutes, brought in the following verdict:

"The said Mary McLachlan came to her death from strychnine poisoning administered by her husband, Archibald McLachlan, and that Harold McLachlan and Gordon McLachlan came to their deaths either from poisoning by strychnine or the gas fumes and smoke from the fire in the residence in which they then were in the said town of Uxbridge, and we hereby charge the said Archibald McLachlan with murdering his wife, the said Mary McLachlan, and his sons, Harold McLachlan and Gordon McLachlan, and setting fire to said dwelling house."

When H. P. Cook told his client, who was in the cell in the same building where the inquest proceedings were being held, the verdict of the jury, he was just going to supper in company with Constable Calverly, who brought him up from Whitley Tuesday morning.

The proceedings to-day made public the name of the young woman with whom McLachlan is said to have been infatuated. While her identity was no secret locally, by general consent her name was not mentioned in connection with the evidence, it being felt that she was an innocent victim of McLachlan's too serious advances.

However, the young woman, Alma Nix of Sunderland, herself took the witness stand to-day. She denied emphatically that there had been, on her part, anything more than an ordinary friendship, and gave straight denials to several stories that insinuated a closer relationship.

Miss Belle Charters of Sunderland, an intimate of Miss Nix's, gave evidence along the same line. Other witnesses examined were Thomas Palmer, Bert Lott, Rev. A. Bedford and Chas. Tunstall.

The preliminary trial, in progress before Magistrate Hamilton, will possibly be completed by noon Thursday. The evidence is only a repetition of that already given.

Miss Nix was accompanied to court by her father. She is a tall, rather good-looking woman, about 22 years of age. She wore a blue suit and white shirt waist and a long fawn coat. Her hair was black, and she had on a heavy blue veil.

McLachlan sat sideways on his chair and did not once look at Miss Nix. He looked at the floor.

HALF-A-MILLION IN PICTURES ON SHOW

Lieutenant-Governor Gibson Opens Loan Art Exhibition at Reference Library—B. E. Walker Reviews Museum's History.

Half-a-million dollars worth of pictures is perhaps not an expression of the highest standards of art, but it is one that will probably be appreciated by the ordinary man or woman better than all the fine phrases of the connoisseurs, and convey a clearer idea of the value and importance of the loan exhibition opened last night by His Honor Lieutenant-Governor Gibson, at the new public library on College-street.

As a free day and evening each week is placed at the disposal of the public it is hoped that large advantage will be taken of an exceptional opportunity to become acquainted with so many representative specimens of foreign art. There are 186 pictures loaned by local owners, whose public spirit in this matter must be most highly commended. One gentleman, a well-known K.C., has no fewer than 20 pictures on the walls, and this means a considerable disturbance of his domestic order.

Mr. and Mrs. Byron E. Walker held a reception for the numerous ladies and gentlemen who attended. His honor, in opening the exhibition, congratulated the city on the magnificent provision for the future art of the city in the gift of The Grange by Prof. and the late Mrs. Goldwin Smith.

Byron E. Walker, C.V.O., before calling upon his honor spoke as follows: "It is now nearly ten years since representatives of several bodies, as set forth in the preface to our catalogue, were called together to discuss the possibility of establishing an art gallery where pictures lent for the purpose might be exhibited, and where eventually a collection of works of art might be brought together as a public possession. As a result the art museum of Toronto was founded."

About \$40,000 was subscribed at once by a few gentlemen, but at this moment we were made aware that we should eventually come into the possession of the beautiful Grange property, and that in connection with certain dispositions of the property and house, which will make them a most interesting landmark forever, we shall be able to combine a modern art gallery large in proportions, and set in more spacious grounds than we had hitherto conceived possible.

"Additional powers being necessary, an act respecting the museum was passed by the legislature."

PARENT IS ASKED TO REINSTATE POLITICS

Present Chairman of N. T. Ry. Commission Spoken of as Likely Accession to the Laurier Cabinet.

OTTAWA, Nov. 24.—(Special.)—Two statements of uncommon interest, and co-related, were made in official quarters to the correspondent of The World to-day.

The first of these is that Sir Wilfrid Laurier's present intention is to sit for Ottawa, and the second is that Hon. S. N. Parent, chairman of the Transcontinental Railway Commission, has been asked to resign his commissioner-ship and contest the vacancy in Quebec, when the premier elects to sit for Ottawa.

There are several reasons for this suggestion, and incidentally, it may be said that Sir Wilfrid would have elected to sit for Ottawa or Quebec some time ago if Hon. L. P. Brodeur had taken the hint given him and accepted the position rendered vacant by the death of Sir Henri Taschereau, chief justice of the court of King's bench of Quebec. But Mr. Brodeur, just back from England and full of the Canadian navy project, felt that the navy and not the judgeship was his, and he refused to resign from the ministry.

In the eyes of the government and most people, Mr. Brodeur is very well intentioned, but is regarded as blunderer, and a weakness as minister of marine. Also, it is not supposed that his head, should he be minister in charge of the Canadian navy, which he himself purposes.

Harking back to the Ottawa seat, some strong representations have been made to the premier that he should elect to sit for the capital. The Liberals are absolutely devoid of a good candidate, and there would have been so much dirty linen washed in public if any of the men mentioned had secured the candidacy that the party could not afford to open the seat unless Senator Balcourt would consent to run. However, Senator Balcourt to-day refused to leave the upper house, and so the premier's intentions to hold the seat himself.

As mentioned before, it was fully expected Mr. Brodeur would get out of politics and thus pave the way for the appointment of Mr. Parent to the ministry of marine. Indications, however, have been held out to Mr. Parent, and it is likely that he will re-identify himself with the Canadian navy scheme.

But there is another and urgent reason for his presence in the house of commons. The scandals associated with the Transcontinental Railway and the bad effect created in the public mind by the resignation of Hugh D. Lindsay, chief engineer, are regarded in a serious light by the government and it is felt that Mr. Parent should be in the house to defend himself and the other commissioners.

If Mr. Parent, who was formerly premier of Quebec, does not balk at the proposal to perform the hazardous duty of defending the Transcontinental Railway, and has any success as a defender, he will enter the cabinet.

FINANCIERS' VIEW OF COMING YEAR

Capital Will Continue to Flow In, But for Government Loans, Railways and Other Public Works, Not Mergers.

MONTREAL, Nov. 24.—(Special.)—Financial men here believe there will be no more mergers of any great consequence, and that the money coming into Canada in the future will be devoted to government loans, the financing of railways, and other public works. It is, in fact, very doubtful, they assert, that the consummation of the Steel-Steel and the cement mergers will be followed by any considerable amalgamation of industrial interests.

It is quite likely, however, that the amount of British and foreign capital finding its way next year to Canada will equal or exceed the many billions brought here for different purposes during the present year.

There is also a feeling abroad amongst banks and business men that 1910 will witness the arrival of a great many new industries thruout the different provinces, and that the industrial status of the country will receive a very considerable impetus therefrom, and that the amount of money sent out of the country will be correspondingly increased.

RAILWAYS CANNOT STAND A BIG STORM

Magnates Who Travel in Private Cars Unable or Unwilling to Care for the Public.

OTTAWA, Nov. 24.—(Special.)—The thorough disorganization of the railway service thruout Ontario, as the result of the storm of Monday, was the subject of some strong comments by W. F. Maclean (South York) in the house of commons to-day.

He said that owing to the inefficiency of the railroads he and other members had been unable to get to Ottawa. People who left Toronto on Monday night only arrived in Ottawa on Tuesday night, while others who left on Tuesday night had only reached the city at mid-day, with the result that they missed their engagements on Tuesday and most of them to-day.

"It seems to me," said Mr. Maclean, "that the railway service in the Province of Ontario, which has been organized for years, is altogether inadequate to the requirements of the country, and especially between Toronto and Ottawa."

"The G. T. R. Co. have promised to give us a line from Ottawa to Kingston, connecting with their main system at that point, but it has not been built. The C. P. R. Co. have promised to double-track their system between Ottawa and Toronto, and this has not been done, altho it has been promised for years."

"In consequence, whenever there is the slightest storm, the road breaks down, the public are inconvenienced and the people are not able to keep their engagements."

Travel in Private Cars. "There is another thing which I notice, and I believe it is the cause of the inferior railway service in this country, and it is that the railway men, these general managers, whenever they wish to travel, are so distrustful of their own system, and so distrustful of the accommodation that the public have that they always go in private cars with especially well equipped cars."

"This morning there were two railway magnates with special cars with well equipped larders, and they were well looked after. The chairman of the railway commission, however, was looked after, while the general public was lacking any accommodation."

"When the minister of railways travels, he has so little confidence in the railways and the treatment that he gives the general public, that he himself travels in private cars."

"That is an example of the railway system of this country. The railway and political magnates travel in these specially equipped cars, and we fail to make time last night; we were four hours coming from Smith's Falls, because the engine was overtaxed by these magnates."

They'd Learn a Lot. "If the magnates want to travel on these special cars, let them hook up to the freight cars, and let them get ordinary accommodation to the public. If, instead of that, they were compelled to travel as the ordinary Canadian travels, there would be a great improvement in the railway service to this country."

"I will venture to make the statement that a person investigating that the equipment of our Canadian railways is always at the minimum. The moment there is a strain, the service falls down, trains are delayed and the ordinary public cannot keep their engagements."

"It is time the minister of railways took up this question, in order to get that the City of Toronto and the City of Ottawa have better railway service than they have now, and that an improvement takes place in the Province of Ontario, as well as in the other provinces of the Dominion."

GERMAN NAVAL PLANS

A Big Expenditure is Planned for Submarines. BRISLON, Nov. 24.—The Nord-Deutsche Seemannschaft Zeitung prints to-day the chief features of the naval budget.

The budget provides for a total expenditure of \$108,500,000. This is an increase of \$7,000,000. The ship building and armament requirements are estimated at \$60,000,000, an increase of \$5,950,000 being necessitated by a final appropriation for the construction of the battleships Ostfriesland, Helgoland, and Brause-Bowling.

Provision is also made for the completion of the cruiser battleship Von Der Tann. The sum of \$2,750,000 is asked for the construction of and experiments with submarines, this being an increase of \$1,250,000 over the previous budget. The expenditure for naval artillery is estimated at approximately \$19,000,000, an increase of \$2,500,000.

ELECTION DAY IN B.C.

Business Element is Counted on to Support McBride. VICTORIA, B. C., Nov. 24.—(Special.)—In the provincial elections to-morrow the business element will plump for the government and Liberal candidates will profit by the increased Labor sentiment and Socialist activity.

The standing of the parties will not, it is expected, be materially changed. Polls do not close in British Columbia until about 10 p.m. Toronto knows so that the results will not be known here until late.

SHOT TO DEATH FOR CHEERING

SAN FRANCISCO, Nov. 24.—The steamer City of Para, which arrived to-day from Central American ports, brought a report that forty citizens of Cortes were shot to death recently by order of President Zelaya for having received with cheers the news of an insurgent victory.

HANDS OFF ONTARIO

Liberal M.P.'s Wouldn't Allow Tampering With Power Policy. OTTAWA, Nov. 24.—(Special.)—Sir Wilfrid Laurier and his ministers have decided that they will not tamper with the hydro-electric power policy of the Ontario Government, in spite of the strong pressure that has been brought to bear upon them by opposing corporation interests.

Hon. George P. Graham was the first minister to tell the premier that he does not interfere with the policy of Premier Whitney in Ontario, who could count on the province returning him probably no supporters at the next election. In this connection it is worth noting that Brookville itself, Mr. Graham's seat, is by no means a "safe" one.

However, not only has the minister of railways made his position clear, but all the rank and file Liberals followed suit. At the last caucus of the party they reiterated their attitude.

LOOK OUT FOR AIRSHIPS.

LONDON, Nov. 24.—(C.A.P.)—The Aerial League has extended its activities through the over-sea states, and is expected that before the close of 1910 branches will be formed in every important military and commercial centre in the empire.

SOMEBODY'S BLUNDERED

And O. J. Wilcox Has to Delay His Visit to Ottawa. OTTAWA, Nov. 24.—(Special.)—Owing to blundering on the part of some of the deputy returning officers, the exact nature of which has not yet been determined, O. J. Wilcox, Conservative member-elect for North Essex, will not be able to take his seat in the house of commons until the 1st week in December.

THE BEST OF FURS.

You cannot say that you are getting a bargain in furs by merely quoting the price. Bargains are not to be had by price standard, but by that of quality. It doesn't matter how low the price is, if the pelt is not good, then the fur is not worth anything. And you will find some advertising "real bargains" in furs, notwithstanding the fact that most reputable furriers are hunting for the very "good" furs that are being sold at reduced prices. Consult them before you purchase elsewhere.

HALF A MILLION IN PICTURES TOM SHOW

Continued From Page 1.

passed by the Ontario legislature in 1908, and we invite those who are sufficiently interested in our affairs to read it.

Public Library Gallery.

"But while this made our distant future more secure and much more attractive, it left us with no gallery in which to carry on our work unless we could obtain one temporarily. Toronto did not seem to possess a single building in which pictures could be properly viewed, and at the same time be reasonably free from the risk of fire.

Many schemes were discussed, but with no success, until it was learned that the present gallery was to be a part of the public library plans.

"A frank discussion of our aims with the library board resulted in our obtaining possession for a term of years on a basis which recognizes that what we seek to do is in the interest of the whole public. In this connection the gallery will be thrown open on at least one day and night of each week, free of charge. While the gallery will have exhibitions covering the major part of the year, under our own supervision, it is to be borne in mind that when any of the art societies of Canada exhibit in this gallery, they will do so without our supervision, and practically in the same manner as they do in the galleries they now use, unless some other arrangement is voluntarily made.

"Under the charter of the museum, as soon as we have 100 members, we must elect the regular council. This will now take place very shortly, and the provisional council will be dissolved.

Growth of Local Art.

"I hope everyone here will realize that we need a large membership, and that those who cannot aid our work in a more important way should, if they can afford it, and if they are really interested in art, ally themselves with our effort in this manner. The effect of our work on Canada must be important, but after all it will be important in near relation to the financial support we obtain.

"Ten years ago there were practically no foreign pictures in Toronto, and you have only to look at these walls to realize the tremendous change that has taken place. These are great and joyous possessions, and in time our museum will have a collection of its own, representing the art of foreign countries, but let us always remember that our main purpose is to foster the creation of art in our own country.

"We believe that we must first make an environment of beautiful creations in art without regard to where they may have come into being, but that with this environment and its corollary, a more intelligent and enthusiastic community in artistic matters, we may hope to take the position in the art world that our other aspirations as a nation demand."

Some of Those Present.

Besides His Honor Major Macdonald, A.C.C., and Mr. Walker, there were present among others: Prof. Mayor, James Louden, LL.D., Wm. Laidlaw, K.C., J. P. Murray, J. Arch. Brown, Enoch Thompson, George H. Locke, G. A. Reid, R.C.A.; E. P. B. Johnston, K.C.; E. R. Wood, Dr. Reeve, J. C. Eaton, C. W. Jeffrey, Wylie Grier, F.O.A.; Prof. Macaulum, F.R.S.; Hon. S. G. Biggs, R. A. Donald, Edward Fisher, Mus. Doc.; W. R. Brock, G. W.

Yarker, Dr. A. McPhedran, Prof. Ramsay Wright, S. G. Curry, Curtis W. Blamson, W. L. Forster, G. R. R. Cockburn, George Dickson, Dr. Harold Clark, E. Douglas Armour, K.C.; Fred. Challenger, George Wilkie, Prof. W. H. Ellis, J. W. Beatty, Prof. MacIsaac, A. J. Glazebrook, Gustave Haing, E. A. DuVernet, K.C.; E. H. Keating, R. F. Stupart.

The Pictures.

Thanks to the generosity and public spirit of a number of the leading art-collectors of Toronto, the organizers of this exhibition have been enabled to have an interesting collection of paintings, particularly of the British and French schools. The galleries are well adapted for the purpose, the lighting is good and care has been taken to arrange the pictures to advantage and to provide seats permitting of their leisurely examination. Altogether the exhibition must be pronounced a distinct success, very creditable to the provisional council of the Art Museum of Toronto and the library authorities who collaborated.

Prominent among the exhibits are several portraits by Sir Joshua Reynolds, that of Horace Walpole, the noted diarist, being especially characteristic work. Another charming artist attractively represented is Sir John Lawrence, usually peculiarly happy in his presentation of the human form. Henry Raeburn, Scotland's greatest portrait painter, whose works are becoming more and more appreciated, is also well represented, the none come up to the highest standard of his art. Another Scottish artist, Sir David Wilkie, famous for his humorous characterization of Scottish humdrum life, is the subject of a portrait painted by himself for Sir Robert Peel.

Light of the Harem.

A fine work of the late Lord Leighton, "The Light of the Harem," is on view and is a pleasing example of his cultured pencil. "Fonthill Abbey," by Turner, greatest of English landscape artists, will be a special attraction for its exquisite atmosphere, luminous sky and the ease and masterfulness of its drawing. John Linnell is well represented by an English landscape, and the Rev. John Thomson of Dundee, a Presbyterian minister, whose paintings were remarkable in their day, are still well worth study, is represented by a characteristic landscape. Two excellent examples of the work of John Lavery, one of the originators of the Glasgow school, "A Lady in Black" and "A Lady in Pink," are also on the walls. There is a splendid triple portrait of Sir George Wilson by Sir George Reid, ex-president of the Royal Scottish Academy, conspicuous for virile treatment and grasp of character.

Among other British artists there are William McTaggart, Peter Graham and Rev. M. Stevenson, the canvases hung being all good examples. Of French artists there are many represented—Corot, Renoir, Roybet, D'Auigny, Gerome, Jacque and others, and of Flemish and Dutch schools, Thoten, Pieters, Welsenbruch, Jacobs and Willem de Maas. Josef Levasseur, Willy the exhibition thoroughly deserves popular support and it is to be hoped the action of the council and officials will be rewarded by a large audience during its currency. POISONED BY CREAM PUFFS

Young Negro Boy is Dead After Partaking of the Confection.

ST. CATHARINES, Nov. 24.—(Special.)—Coroner J. M. Cory this afternoon opened an official enquiry into the cause which led to the death of Alonzo Lane, a 14-year-old negro boy.

The facts are none too clear at present. Last Thursday the boy purchased half a dozen cream puffs from a bakery shop here and shared them with Robt. Richards, a young white boy.

Richards hurried to his home, where he was given immediate attention, which revived him. Lane returned to a store where he was employed, and from there he went into a drug store owned by Percy M. Dwyer, a few doors away. Dwyer was out, but the clerk in charge gave him something to relieve his pain. The remedy was effective, however, and the boy was sent to his home, where he continued to improve until last night, when he died.

Dr. J. M. Sheahan, who had attended the coroner that the tongue had evidently come in contact with corrosive sublimate or some such irritant poison. Upon this statement, after a conference with Crown Attorney Taylor, J. K. Black, C. A. Wilson, J. W. Coy, Joseph Hodgins, George McLean, William McLean, John Call, John Wood, A. Wallace, George Gordon, Thomas Dow.

After viewing the body adjournment was made till to-morrow night. Drs. Sheahan and Mullock to-night performed a post-mortem examination.

FIRE WAGONS TO CARRY "FIRST AID" OUTFITS

Firemen Will Be Able to Provide Emergency Care For Injured—Summonses for "Gruying" Cops.

HAMILTON, Nov. 24.—(Special.)—The cemetery board this evening increased the salary of Superintendent S. H. Rutherford from \$1200 to \$1500 a year.

Mary Murphy, Burlington and Wood-streets, who claimed that she broke her leg in climbing over the cemetery fence, was taken to the hospital for treatment. She said all the gates were locked, and that she was forced to climb over the fence to get out. Mr. Rutherford said one of the gates was unlocked, and the claim was turned over to the board's solicitor.

John Lacey and J. Cotter have been summoned on the charge of "gruying" Constables Cameron and Barrett, who are doing plain clothes duty. The constables have been making the rounds of some of the cool rooms hunting for loafers, and it was claimed that the pair made fun of them.

Alfred Wright died at the city hospital this afternoon. He was a locksmith and had lived in Hamilton for many years. Jessie Ireland, 42 Stanley-avenue, died this evening aged 83 years.

A Good Idea.

The fire and water committee this evening purchased eight boxes containing first aid to the injured outfit at \$6.15 each, for the fire department. Course of instruction being thrown in with each box.

The chairman and chief were empowered to make a settlement with I. Pickar, whose rig was damaged Tuesday evening in collision with a fire department wagon. The chief recommended the installation of a system to give the mountain annex protection at a cost of about \$1300. Action was deferred as it is probable that something will be done before the end of the year. A number of mains will be laid down in the new annex, so as to give the residents a temporary supply of water until next spring.

Revenue Officer Dead.

James Bartimalee Hipson, 28 North-west-avenue, a member of the land revenue staff, died this morning.

William Sutton, 81 Eglint-street, was fined \$5 for the same offence on the Bramford & Hamilton Railway.

The City Hospital authorities will like information concerning Henry T. Cheves, who was taken from his room at 12 North John-street to the hospital in an unconscious condition. He is about 50 years of age and lives at 511-513 Jarvis-street, near Naplane.

The will of the late Mrs. Emily was filed for probate this morning. She left \$11,750, as follows: W. G. Moore, \$4000; Barbara A. Duns, \$3000; E. M. L. Duff, \$1000; K. C. S.; Maggie Maguire, grand-niece, \$500; Charles Bradley, grand-nephew, \$500; Benjamin Bradley, grand-nephew, \$500; E. Mitchell, \$100. The relatives will probably contest the will.

The Rev. Mr. Sutherland celebrated the fortieth anniversary of his wedding to-day.

A THEME FOR "EXCELSIOR."

Seven years before in the rugged Alps had the sure-footed chamois butted unsuspectingly into an English tourist and sent him hurtling below into the green pastures of the valley below.

Now this same tourist is scaling those same Alps in search of the treacherous chamois. By bounds he climbs the steep and jagged mountainous walls almost perpendicularly inclined. The chamois leaps to still more inaccessible heights. Fearfully upward ascended the tourist, his Dimloop "Sure Step" Rubber Heels holding every inch of the ground and forcing the fatigued chamois into a cleft of the rock, he deliberately smote it with his alpenstock.

Cheap Gas for Port Arthur.

PORT ARTHUR, Nov. 24.—(Special.)—There is possibility of Port Arthur and Fort William joining hands for the purpose of procuring gas for lighting and heating purposes at a low rate.

Port Arthur Council has expressed its willingness to open negotiations to that end and has appointed a representative to wait on the joint board which has been managing the street railway, and ask it to sit on behalf of the two cities.

A bylaw to authorize giving a site to the Ashmun museum in the University of Oxford, will be laid before the trustees of the Toronto Archaeological Society at the University of Toronto on the evening of Wednesday, December 8. Mr. Hogarth is an author of note, who has for a number of years conducted explorations and excavations in Asia Minor and other eastern lands. The lecture is free to the public.

Oxford Scholar to Lecture.

David G. Hogarth, M.A., curator of the Ashmun museum in the University of Oxford, will lecture at the auspices of the Toronto Archaeological Society at the University of Toronto on the evening of Wednesday, December 8. Mr. Hogarth is an author of note, who has for a number of years conducted explorations and excavations in Asia Minor and other eastern lands. The lecture is free to the public.

Will Take a Rest.

Mr. Justice MacMahon will take a rest from judicial duties this winter, owing to his poor state of health.

Tolerance was a new

characteristic of

the social spirit. They

were not all as

tolerant as they

might be, and

much energy was

expended on the

criticism of what

others were doing.

In answer to the

question of the

new social spirit: "Am I

my brother's

keeper?"

This is but a

sketch of Miss

MacLean's address,

which was bright-

ened by happy

illustrations and

anecdotes, and

much of her own

wide ex-

perience.

IN SOCIETY.

Mr. Percival Leaday, 21 Elm-ave.,

Rosedale, will receive on Monday,

Nov. 29th, and in the last Monday

of the month.

WOMEN'S CANADIAN CLUB

Miss Marion MacLean's address to

the Women's Canadian Club yester-

day on "The New Social Spirit," at

the Margaret Eaton Temple, was

such above the average address given

by masculine speakers to the men's

club. Miss MacLean hails from the

maritime provinces, but is now of the

ecological department in Adelphi Col-

lege, Brooklyn. Without any superci-

ous preliminaries, and speaking en-

tirely without notes, she plunged in a

business-like way into her subject.

The hall was crowded and the audience

highly appreciative.

The new social spirit, she said, was

but a re-embodiment of the old. It has

not changed, but we are all members

of one another, and they know that,

but had gone on ignoring it. The

new spirit was merely a recognition

of the fact.

To realize it, it was necessary to

establish a standard of normal social

morality. Passing from a considera-

tion of Comte's efforts to this end,

she quoted Dr. Small of Chicago,

whose classification of human wants

showed that man had within himself

the forces that would spur him on to

activity.

Recognizing the desire for social

well-being, she required the opportu-

nity for each to earn his living, and

to give forth to society the best that

was in him. The social instinct had to

be gratified. There must be a further

extension of education, every normal

child should receive his education.

Curiosity in the child or in the vil-

lage, gossip, male or female, was but

the distorted desire to know. The normal

instinct should be added to the desire

to learn, and there must be channels of

industrial education.

Here there was the instinct for the

gratification of the aesthetic side of

the nature, and she illustrated this by

anecdotes.

A standard by which to test the

social spirit was being established.

Living conditions need not produce

poor fighters, but there should be no

poor social conditions. All should get

an opportunity to be self-supporting. She

hoped Toronto was meeting the stand-

ard. More was being done in the

schools than in any other direction.

Crucial among the workings of the

new spirit was the development of

social settlements. The movement on

behalf of children was notable, but

society was still wasteful of human

life when it put children to work and

made them undergo the rigors of the

factory.

"Give the child a chance to play,

and he will take the chance to grow."

It was a mistake to leave

money for children's games and or-

phanage, she declared. Such money

should be devoted to homes for the

aged.

Half a million working girls in New

York gave Miss MacLean a text for

much that was interesting regarding

employment. The effect of much of

their occupations in the factories was

subversive of their health and the dis-

charge of their functions to society as

workers.

The working girl had a perfectly

legitimate desire for recreation. She

was attending the nickel theatre

and the penny arcade. Her amuse-

ments must be inexpensive, but she

must have relaxation after her

day's work.

CITY WATER TO-DAY

City water to-day is not fit to

wash in -- much less to drink.

Even its appearance makes it

disgusting. Disease producing

germs are often present but the

citizens are seldom warned--as

at this time. The only way to

be perfectly safe is to drink

YORK SPRINGS WATER

which sensible people now do.

Government too poor

Sir Wilfrid Admits the Desirability

\$20,000,000, But--

OTTAWA, Nov. 24.—(Special.)—It is

only a matter of money that prevents

the deepening of the Welland Canal

from 14 to 22 feet. The premier, Sir

Wilfrid Laurier, in replying to the

representations of a large delegation

that to-day urged the government to

undertake the work, regretted that

the premier, who heartily agreed with

the views of the already large expendi-

tures that must be met, it was impos-

sible to make provision just now for

the \$20,000,000 that would be required

for the canal.

REMOVE LAST OBSTACLE WAY OF MARSH SALE

British-American Oil Company Withdraw Opposition to Closing of Roadway.

The last obstacle in the way of the National Iron Works securing possession of the Ashbridge's marsh property, sold to them by the city, was removed yesterday when the British American Oil Co. withdrew their opposition to the closing of the 150 foot roadway.

When the matter came up before Judge Denton, the city presented a revised plan whereby it was shown that the oil company would not be cut off from the wharfage facilities it feared would be threatened by the closing of the roadway. All that remains is for the city to approve the plans.

Railways at Odds. City Engineer Rust, speaking of the Canadian Northern's application for power to lay down a double line of tracks on the east side of the Don, below Winchester-street, so as to give access to Ashbridge's marsh, says he knows of no engineering difficulty in the way.

While the matter is one for the city council to decide, he said he thought the Grand Trunk and the Canadian Northern would mean crossing the G. T. R. tracks on the level near their bridge over the Don at Queen-street.

Preparing for Taxes. The time limit for payment of water rates expires Nov. 30, and City Treasurer Coody, who has grown wise from experience of past struggles of rate-payers to take advantage of the dis-arrangement on the last day allowed, is arranging to have a temporary receiving office erected in the main corridor of the city hall.

TAXICAB STOCK EARNINGS

Do not underestimate the earning power of the Taxicab. The Taxicab habit grows, and where there is one user to-day there will be two to-morrow.

We advise the purchase of Taxicab Stock at \$6.00 per share, par value \$5.00, because it has a big future, and is now a big money earner.
