BISHOP'S SHARP REBUIKE TO WEALTHY OPPONENTS OF CATHEDRAL PROJECT

Could Give Him the Required \$300,000, But Prefer to Complain About Deficiencies.

SYNOD IS STIRRED AND VOTES TO SUPPORT HIM

"You are not going to kill me with it. You may talk till you are black in the face, but I am going on with it. You rich men could have come here this evening and give me \$300,000, but rather you complain about deficiencies in the superannuation, widows' and orphans' funds. You'll have to answer that to God."

With wonderful dramatic power and eloquence that held his hearers spellbound, his lordship the Bishop of Toronto in the foregoing words replied yesterday afternoon to the opponents of the recommendation to proceed with the building of St. Alban's as the cathedral of the diocese.

Continuing, his lordship said: "Mr. Hodgins asks if the bishop will be content with a pro-cathedral. If there was none in sight, 'yes,' but with St. Alban's in sight, with all the trappings of its cathedral, 'no.'"

The executive committee, in recommending the completion of St. Alban's, urged expressly that two principles should be laid down: that no expenditure be made or liability incurred for the completion of the building without having the money in hand, and that no further mortgage be taken.

Before the vote was taken, F. E. Hodgins, K.C., recommended that the matter of a new cathedral be sent back to find how long it would take to finish St. Alban's and the cost, and how long it would take St. James to be freed from its obligations, and at what price the church could be acquired as a cathedral.

Hon. S. H. Blake strenuously opposed the proposal to complete the building of St. Alban's cathedral. "The city are not enthusiastic about it," he said. "I could scarcely raise the necessary \$1,000,000 a year or so ago to prevent the foreclosure of the chapter house mortgage, and besides, the widows' fund only provides \$200 for each beneficiary when it should be as much as \$500."

On motion of Dr. Bryans it was decided to accept the offer with thanks. The following was the vote: To accept—Smith, Dineen, Ogdan, Agnew, Martin, Bryans, Rawlinson, Brown, Conboy and Simpson—10.

Against—Levee and Hodgson—2. A deputation of the residents from the east end of the city was introduced by Ald. Chisholm, urging that Miss Levee should be transferred from Leslie-street School. The board decided to consider their request.

Coal Contract. The customary coal fight for the annual supply to the different schools was this year avoided by splitting up the contract. The Milne's Coal Co. will supply Jarvis-street and Parkdale Colliery Institutes as follows: Grate, \$5.05 per ton; egg, stove and nut, \$5.30 per ton. The tender of the Jacques Davey & Co. was accepted for Church-street, Duke-street, Queen, Alexandra and Wellesley schools as follows: Grate, \$5.10; egg, \$5.20; stove, \$5.30; nut, \$5.20. The Council Co. also received the contract for the balance of the public schools.

For and Against a Cathedral

HON. S. H. BLAKE: "The widows' fund only provides \$200 for each beneficiary when it should be \$500. No doubt it would be grand to have a magnificent cathedral, but I rather have three working evangelists than a new St. Alban's."

BISHOP SWEENEY: "You may talk till you are black in the face, but I am going on with it. You rich men could give me \$300,000, but rather you complain about deficiencies in the superannuation, widows' and orphans' funds. You'll have to answer that to God."

AND STILL THERE'S DELAY IN NAMING INSPECTORS

Because Trustee Dugans Had To Go, Board of Education Divided Evenly on Appointments.

Had Trustee Dr. Bryans not been called suddenly from the board of education last evening, the new system of medical inspection, adopted by the board, would be now complete with two medical inspectors, Dr. Helen Macdonald and Dr. William Graham. As it was, the clause from the management committee recommending these two appointments was lost on a tie vote.

The customary wrangle commenced when Trustee Levee endeavored to split up so that the appointments would be made separately. "I am surprised at the statement of 'Trustee Levee,'" said Chairman Simpson, "since it was he, who, when he saw that it was going to be impossible to have his candidate elected at the present meeting of this board, originated the idea of the dual appointment. If Trustee Levee proceeds further with such unfair tactics, I will see that the question is decided and blocked off for another two weeks."

Trustee Rawlinson remarked that he had no objection to naming these appointments, and that there were any number of physicians in this city who would be glad to get the position, and so giving the opportunity of obtaining an acquaintance with such a large number of children.

It was eventually decided to have the two inspectors, but the two names suggested could not be agreed upon, so that clause was sent back to the management committee.

Free Show For Kiddies. A consultation was held on June 16, E. R. C. Clarkson, receiver for the Scarborough Beach Park Co., containing an invitation from Noel Marshall to this public school children to attend the park, and any one of the inside attractions free of cost on any one of the following days, June 25, 27, 28, 29 and 30. The letter requested that the teachers in the different schools should be allowed to distribute the complimentary tickets amongst the children.

On motion of Dr. Bryans it was decided to accept the offer with thanks. The following was the vote: To accept—Smith, Dineen, Ogdan, Agnew, Martin, Bryans, Rawlinson, Brown, Conboy and Simpson—10.

ORGANIZE EARLY AND BRING OUT STRONG MEN

That's R. L. Borden's Message to Conservative Associations — Ingersoll's Liberal Mayor Extends Hearty Welcome to Opposition Leader.

INGERSOLL, June 16.—(Special)—At the combined picnic of the Ingersoll and South Oxford Conservative Associations to-day, R. L. Borden was splendidly received. He was met at the railway station by representatives of the two associations, and before lunch attended the annual meeting of the South Oxford association. There he advocated the institution of clubs with the end of bringing in the young men.

"Make them acquainted with the past record of the Liberal-Conservative party; enlist their enthusiastic sympathy in the Conservative cause of to-day, for youth counts so much as an assurance of victory," he said.

"Secondly, I would urge you to elect your strongest candidate. It very often occurs that the strongest candidate refuses to come out. Get together and make him come. That is what we did in St. Anne's, Montreal. We made Mr. Doherty come out and the result was we won that seat."

"Again, do not leave the selection of the issue to four or six or ten weeks before the election. Select him one year or 18 months or two years in advance. Every month you put off minimizes your chance of winning an election. I venture to say that in the last campaign we lost at least five ridings in this province because we did not get the strongest candidate, and at least another five because they were too late in the field."

"Lay these down, I ask you, as cardinal principles, and when you have chosen your strongest candidate, while admitting that the rank and file of the party are falling, he will come down to Ottawa to sit at the right end of the left of the Speaker."

A committee was named to report on August 1 on candidates for both houses. Dr. B. Coleidge, Ingersoll, will probably be the standard-bearer for the legislature.

The association elected the following officers: President, J. A. Morrison; Mount Elgin, vice-president, E. C. Corbett; Vereshchiv, Dr. Leith Ingersoll; Maccles, secretary; J. W. Williams, treasurer; Dr. F. Cannell, Ingersoll.

Big Crowd at the Park. At 1:30 a procession was formed, headed by the town band, which marched to Victoria Park. Seats had been provided for over a thousand people. The reception was the most cordial yet. Mayor A. McKay, a Liberal in politics, in an address of welcome, said it was a pleasure to receive one who bore such a reputation as the Conservative leader. A half holiday was observed in the town.

Mr. Borden dwelt upon the various acts of maladministration on the part of the Laurier government, and while admitting that the rank and file of the Liberal party were not as much at fault as their leaders, spoke of the wasteful extravagance of the administration.

BIG BUSH FRES CLIMAX OF A WOMAN

Smothered in Her House While Husband Was Away Helping Neighbors — Situation in Kakabeka District is Serious — Fire Still Raging.

PORT ARTHUR, June 16.—(Special)—Dean has now been added to the crop of destruction reaped by forest fires, which have been devastating this district for several days. Mrs. Christopher Evans, of O'Connor Township, smothered in the burning of her home, while her husband was away with other settlers fighting the advance of the flames, believing his own place to be in no imminent danger.

Fred and M. Winslow, brothers, who lost heavily by destruction logs in the vicinity of Kakabeka, have not reported the loss of their own place. The situation here is serious. It is tonight about the same as it was last night. Flame are still licking up the woods and timber, endangering settlements. Heavy rain, which burst over Port Arthur this morning, does not appear to have been general.

There was heavy rainfall here, there was practically none, even as close as Port William. Kakabeka district got a little, but according to telephone reports, only enough to lay the dust. Heavy section have better getting a copious rain, which has put an end to the serious fires there, at the issue to four or six or ten weeks before the election.

Several Villages Annihilated by a 'Cloudburst'—Conditions in Bavaria Improving.

BUDAPEST, June 16.—Nearly 300 persons were killed and several villages annihilated by a cloudburst today in Kraso-Soreny County of Hungary, bordering on Transylvania, Roumania and Serbia. The capital of the county, Kraso, is almost completely cut off by a flood. Bridges, telegraph and telephone wires in the district have been destroyed, and it is expected that the death toll will be greatly increased when communities which have been almost completely cut off are reached.

Eighty persons have been drowned in the overflowing of the Hungarian River, according to despatches received here to-day.

Four Hundred in Serbia. BELGRADE, June 16.—Reports received to-day from King Peter, who is personally conducting the relief work in the flooded districts, indicate that between four hundred and five hundred persons have lost their lives, and that at least twenty towns are still cut off by floods, besides incalculable damage in the rural districts.

Conditions Improving. BERLIN, June 16.—The River Ammer is falling to-day, and by to-morrow it is expected that the water-borne traffic will be resumed, including several hundred Americans, will be able to leave.

Conditions in the valley of the river Ammer are greatly improved. It is believed the deaths will reach over 150; the property loss will be far heavier than at first thought.

WHAT IF ROOSEVELT SHOULD COME HOME LIKE THIS? You know, he's said some pretty things about British institutions lately.

ROOSEVELT'S REMARKABLE TRIP

When the Kaiserin Augusta Victoria reaches New York to-morrow Theodore Roosevelt will have completed the most remarkable trip ever accomplished by a private citizen.

On March 21, 1909, left New York as the head of the Smithsonian African Scientific Expedition.

On August 21, arrived at Moscow. In Italy, between steamers, met King Victor as audience.

Entertained with almost royal honors, he proceeded to Cairo, where he reviewed British troops. In London, in United States representative at King Edward's funeral, and delivered addresses on alleged dangers that threaten the British Empire.

INDIANAPOLIS, June 16.—Orville Wright made two flights, giving a spectacular exhibition of aerial driving. No other aviators entered would risk the unfavorable weather.

Wright ascended more than two thousand feet after dark. On reaching the summit a light appeared far below the western horizon, and going still further up he was able to see the exhibition below was in darkness, yet he could look upon the light of day.

Whether at Frisco or at Reno

the interest in the outcome of the meeting between Jeffries and Johnson will be equally keen. As well as a vivid story of the events of July 4, REX BEACH, the novelist, in two preliminary articles will describe to World readers in his own masterful way the gathering of the clans, and his impressions of the gladiators, their assistants and the lib.

TEDDY THE GREAT WILL BE HOME TO-MORROW

And New York is Prepared to Give Him a Wonderful Welcome—What Will Be the Effect on the Political Situation?

NEW YORK, June 16.—Steaming across the broad Atlantic, her bows headed for the harbor of New York, is the Hamburg-American Line Steamer Kaiserin Augusta Victoria, and aboard her, feverishly awaiting the first glimpse of America, is a man who has completed a journey the like of which has no record in history.

That man is former President Roosevelt. Kings and queens, princes of royal blood, and nobilities of every nation have been his hosts and entertainers for months. Soon he will be face to face with an ovation at the hands of the people of the land of his birth, and this welcome bids fair to eclipse any he has been given since he left Africa months ago.

The people of the United States are preparing a welcome to Mr. Roosevelt as was never before accorded to any citizen of this country. On Saturday morning New York harbor will be alive with boats crowded with thousands of admirers. An enormous flotilla will steam down the bay and the great liner will be conveyed to her dock amid the screaming welcome of thousands of whistles and booming salutes from the guns of Forts Wadsworth and Hamilton.

William Leab, Jr., who has been active in furthering the work of the reception committee, has arranged with the steamship company to bring the vessel to quarantine at precisely 9 a.m. If the steamer falls behind her schedule during the crossing, the captain has orders to proceed under forced draught. When the Augusta Victoria reaches quarantine, Mr. Roosevelt will board a revenue cutter which will take him to the Battery, where he will be received by Mayor Gaynor. From this point, the procession will move up the square to Fifth-avenue, to 59th-street, where it will be dismissed.

New York will be filled with people from Washington-square, through the city, to the river. For weeks every hotel in the great metropolis is being prepared to receive the former President. In Berlin, in great of emperor and reviews British troops, an honor hitherto reserved for royalty.

In London, in United States representative at King Edward's funeral, and delivers addresses on alleged dangers that threaten the British Empire.

Where Panama Are Made. The natives of South and Central America make the Panamas we use on this continent wear. They weave them just the same as the old Scotch peasants their homespun, only with the Panama hat not even a loom is used. It is all hand labor. It naturally follows that the worker tries to conform to certain blocks who will rarely find two Panamas hats exactly alike. The Dime Company they weave them in a splendid assortment of Panamas hats made in South America and blocked in New York and London. Prices start at five dollars. They are open until ten o'clock every night.

LOTS OF JOBS, PLENTY OF "READY" FOR VOTES

Evidence in Lorimer Bribery Case — Defence Will Try To Show Blackmail Plot.

CHICAGO, June 16.—Fifteen objections to the defence against the admission of the testimony of state representatives Myers, Luck and Breckmeier in the trial of Lee O'Neill Browne for bribery, were overruled by Judge McSurley to-day after five hours' argument. This permitted the state corroborative evidence in support of the story of Representative Chas. A. White, that he was paid \$1000 by Browne for voting for Wm. Lorimer for United States senator.

Myer's testimony in effect was that Browne had called him aside on the day of the election of Lorimer and asked for his vote, saying that there was lots of jobs and plenty of the "ready" for those who voted for Lorimer.

Representative Breckmeier then took the stand and corroborated White in every manner. Breckmeier said he had been called to St. Louis as White had been and was there handed a "package" by Browne, who remarked: "There is your Lorimer money." Breckmeier said he opened the package and found \$1000 in \$50 bills.

The defence to-day promised to introduce a "confession" on its side of the case. Attorney E. C. Erbstein, counsel for Browne, returned from a trip out of town and declared he had found a witness who had confessed to entering into a plot with White to obtain money from Browne and Lorimer. It was declared that the confession to be offered by the defence will prove that a "blackmail plot" existed.

Busy Days for Automobileists. Green weather this for marriage, and perhaps the busy automobilist is not taking advantage of every hour of it. The demand for motor coats at Oak Hall's big new store at the corner of Yonge and Adelaide-streets has been exceptionally brisk. Oak Hall has quite a reputation for supplying the requirements of automobile parties. Motor coats are shown in linens, brown Hollands and new effects in silk lustre at prices from \$17.50 to \$30.00. The new Gaberdines, made without rubber, but so closely woven as to be absolutely waterproof, are finding much favor with the owners of the whiz wagons. They are priced to sell at \$15, \$18 and \$30.

EMISSARY OF BLACK HAND

Sam Crushoff, Played the Role and is Arrested.

A new line of enterprise was opened up yesterday by Samuel Crushoff, 23 years of age, who says that he lives in Elizabeth-street, but cannot remember the number.

Sam visited the offices of the Central Canada Loan and Savings Company at King and Victoria-streets and demanded money. He declared that he was an emissary of the Black Hand and that, falling compliance with his requests, would demand money. He had been in the office on several other occasions, when he had told the clerks that he was a detective and at other times that he was a friend of a number of European monarchs.

His sanity is doubted. He is held on a charge of vagrancy at the Court-street station.

SENDING TWO PARTIES

Will Investigate Merits of Rivals for Hudson Bay Port.

OTTAWA, June 16.—The government detached two survey parties to Hudson Bay to make a further extension of the railway. The survey parties are Nelson and Fort Churchill as the terminal of the Hudson Bay Railway. They leave Quebec in a few days on the government steamer Stanloper. The party will be in charge of W. J. Stewart, chief of the hydrographic service. The other party, in charge of H. B. Parizeau and A. G. Bachand. The party will be equipped with steam launches in order to travel closer in shore than would be possible without them.

HAMILTON HAPPENINGS

COUNTY TO SELECT SITE FOR HOUSE OF REFUGE

Bylaw to Raise \$12,000 as City's Share of New Registry Office Passed.

HAMILTON, June 16.—(Special.)—The county council at its session this afternoon decided to meet again tomorrow to select a site for the House of Refuge. It also appointed a committee to measure the Mount Albion road, to see whether it belongs to the county or to Barton Township. The bylaw empowering the council to raise its share of the cost of the new registry office to \$12,000 was also passed.

The old waterworks yard on South John-street, was turned over to the Playgrounds Association this afternoon and a large number of children availed themselves of the athletic apparatus placed there.

Walter Caracallan, son of the late Henry Caracallan, fell from his bicycle this afternoon and cut his head open. He was taken to the city hospital, where his injuries were attended to.

The property committee to-night decided to increase the fee for privileged stands on the market from 30 cents to 50 cents per week.

The Salvation Army was relieved of the necessity of paying a second-hand license for its mercantile for charitable reasons. Caracallan was dismissed from the market convenience caretaking for neglecting his duty, and John Goodman, his hired pup, pointed in his place. Supt. Rice of the House of Refuge was granted six weeks' holiday.

Owing to a wreck at Welland on the T. H. & E. last night the picnic to Niagara Falls for the local Baptist Church was kept out all night. Over 500 children were on the train and the greatest alarm was felt as to their safety. The train bearing the excursionists finally got through to Hamilton at 4.10 this morning.

August Ellason, a Norwegian, living at 85 Florence-street, was this morning taken to Montreal, where he is to be deported to England. The grounds on which this action was taken was that he came here as an agriculturist. Ellason's wife and five-year-old child were left in the city yesterday, and he took the action that will result in Ellason's landing in Montreal.

His friends claim that he came to Hamilton not knowing the provisions that are required of a man who comes out as an agriculturist, and does not require to have the same amount of money that he would if he came as an agriculturist.

Ellason's friends will appeal against the action.

Mr. Ellason is an expert bricklayer and has had steady employment since he came to this city, being paid \$1 per day.

WILL STAY IN OTTAWA

OTTAWA, June 16.—(Special.)—Mr. Wilfrid Laurier, it is understood, has given up his intention of spending a week or so at his old home in Arctur, Saskatchewan, before starting his political tour of the west. Laurier is looking after the premier's personal arrangements for his trip, and prefers to remain in Ottawa until he goes away. While Mr. Laurier is in the west, Lady Laurier will holiday in the country, probably at Arctur, Saskatchewan, most of the time.

HAMILTON, June 16.—(Special.)—

The county council at its session this afternoon decided to meet again tomorrow to select a site for the House of Refuge. It also appointed a committee to measure the Mount Albion road, to see whether it belongs to the county or to Barton Township. The bylaw empowering the council to raise its share of the cost of the new registry office to \$12,000 was also passed.

The old waterworks yard on South John-street, was turned over to the Playgrounds Association this afternoon and a large number of children availed themselves of the athletic apparatus placed there.

Walter Caracallan, son of the late Henry Caracallan, fell from his bicycle this afternoon and cut his head open. He was taken to the city hospital, where his injuries were attended to.

The property committee to-night decided to increase the fee for privileged stands on the market from 30 cents to 50 cents per week.

The Salvation Army was relieved of the necessity of paying a second-hand license for its mercantile for charitable reasons. Caracallan was dismissed from the market convenience caretaking for neglecting his duty, and John Goodman, his hired pup, pointed in his place. Supt. Rice of the House of Refuge was granted six weeks' holiday.

Owing to a wreck at Welland on the T. H. & E. last night the picnic to Niagara Falls for the local Baptist Church was kept out all night. Over 500 children were on the train and the greatest alarm was felt as to their safety. The train bearing the excursionists finally got through to Hamilton at 4.10 this morning.

August Ellason, a Norwegian, living at 85 Florence-street, was this morning taken to Montreal, where he is to be deported to England. The grounds on which this action was taken was that he came here as an agriculturist. Ellason's wife and five-year-old child were left in the city yesterday, and he took the action that will result in Ellason's landing in Montreal.

His friends claim that he came to Hamilton not knowing the provisions that are required of a man who comes out as an agriculturist, and does not require to have the same amount of money that he would if he came as an agriculturist.

Ellason's friends will appeal against the action.

Mr. Ellason is an expert bricklayer and has had steady employment since he came to this city, being paid \$1 per day.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and fitted from all parts of the city. Erected in 1908. Modern and strictly first-class American plan. Rates \$1.50 to \$2.50 per day. Theo. Hanrahan, proprietor. Phone 1455.

For home comforts try Royal Hotel. Newly redecorated, up-to-date. American plan. \$1.50 a day. D. Smith, prop. 154 King W.

While in Toronto call on Authors & Cox, 135 Church-street, makers of artificial limbs, trusses, deformity appliances, supporters, etc. Oldest and most reliable manufacturers in Canada.

When in Hamilton stop at the Arlington. Good accommodation. Proprietor, very central. John Blake. Phone 3452.

Only 50c Per Week Buys a Fine Piano

Heintzman & Co., 115-117 King-street W., will soon be moving to their fine new premises on Yonge-street, and in order to lower their stock and offer pianos for sale at very low prices. Many of the best makes are represented. These pianos are all in first-class condition, having been carefully gone over at the firm's factory before being offered for sale. They are all good instruments taken in exchange for new Heintzman pianos. Terms will suit everybody; only 50c per week required. Prices run from \$75 to \$350.

Are You Planning a Vacation Trip?

If so, why not take advantage of the delightful outings offered by the Richmond and Ontario Navigation Co. to Montreal, Quebec (the ancient and historic) and the famous Saguenay River. Steamers Toronto and Kingston leave daily except Sunday at 8 p.m., and after July 1 daily, passing through the 1000 Islands in daylight and connecting with observation steamers running the Rapids of the St. Lawrence. For further particulars call at new ticket office, 46 Yonge-street, corner Wellington-street.

NEW YORK, June 16.—(Special.)—

While the federal grand jury this afternoon was taking up an investigation into the alleged \$20,000,000 swindle charged in the United States mail for fraudulent purposes, and postoffice inspectors advised that \$20,000,000 worth of wireless stock had been sold to the public at fictitious high prices, and that the stock thus sold came from the holdings of Wilson and his associates.

The federal grand jury investigation is said to be based on the belief that ground may be found for other indictments in connection with the alleged fraudulent deals.

West in Stung.

WINNIPEG, June 16.—If the charges of the United States Postoffice against the United Wireless Telegraph Company of New York City are true, shareholders scattered all thru western Canada stand to lose a big sum, for R. A. Grant, the local agent, who covers Manitoba, admits that western farmers have subscribed for at least one million dollars' worth of stock, and this is not all paid up.

Four Times Refused.

OTTAWA, June 16.—The United Wireless Telegraph Company, which has little foothold in Canada except in the manipulation of stockholders. Enquiry made in departmental circles today elicited the information that the company made four different applications for license to erect stations on the great lakes. The last of them was put in six months ago. The government has never entered into the applications for the reason that the concern is not incorporated in Canada, and secondly that it did not subscribe to the conditions of the wireless conference at Berlin.

Considerable influence has been exerted by Canadian stockholders to have the licenses sought for, but the company, on the strength of enquiries made, has always been regarded with a measure of suspicion, which the latest developments appear to justify.

DOUBLE FUNERAL OF VICTIMS

The double funeral of Misses Amesse and Beaudry took place to-day at the Sacred Heart Church, and was attended by thousands of sympathizing citizens, many of whom had never known the girls, but who were present for their funeral out of respect for their memory and to the bereaved families.

The bodies of Duncan J. Miller, Campbell Morris and Miss Jennie White, of 14 Kensington-street, will be accorded a public funeral by the Montreal Typographical Union, on Saturday afternoon at 2.30. The cortege will leave the undertaking establishment of Joseph Wray & Son, 200 Mountain-street. Should they be sufficiently identified in time for removal, the following will also be interred: Clement Borromeo, R. Harris, Frank Janson, Isaac Johns, Gustave Lippe, William Murphy, René Tittle-John and John Wade.

The Prince of Wales Fusiliers, 14 Kensington-street, will be accorded a funeral to-day at 11 a.m. at St. George's Church, and will be taken to the Mount Royal Cemetery at 10.30 a.m. by train to New Cemetery at Vaudeville.

She was an only daughter.

With feelings of the deepest sorrow the colleagues of the late Frank Consett, whose body was recovered from the debris of the fire on Tuesday, accompanied the remains to the mortuary to the Windsor-street Railway Station, for interment in the burial ground of the family at Perth, Ont. Mr. Consett was only 30 years of age, and married, with one new-born victim of the disaster.

Bodies Identified.

The bodies identified since midnight are as follows: Miss Jennie White, 14 Kensington-street, one of the girls of the bindery department; Frank Janson; he was still sitting on a chair, and the awful pressure of beams and pipes crushed him; he was lying on the chair, from which the body had to be pried. Papers with his name on them, found in his pocket, established his identity. Donatien, identified at the morgue. William Murphy, aged 42, married, was identified by his brother Richard. Reginald Harris was identified by R. C. Carruthers, who worked next him at The Herald; he was single and a member of the S.O.E.

The damage to the plant of The Herald is almost complete. One linotype and several other pieces of machinery, and the others are damaged by fire and water so that the salvage is not expected by the management to amount to anything. The remains from the plant in the room, are wrecked completely. They numbered six. Of the two newspaper presses the older one is the more valuable, and is being taken by the worth more than scrap-iron.

The new one, near the front of the building, it is hoped, will come out in fair shape, except for rust.

TEDDY THE GREAT WILL BE HOME TOMORROW

Continued From Page 1.

police has been besieged by persons anxious to secure accommodations and rates, says a newspaper, enormously as a consequence.

Four Field Hospitals for Emergency.

An idea of the magnitude of the undertaking is to be seen from the former president may be gathered by a description of the preparation that is being made by the municipality to protect those who make it up from accident. The National Volunteer Emergency Service will bear this important responsibility. There will be four great field hospitals erected, one at the South Ferry, another at Madison square, one at 58th-street, and another at Washington-square—all will be equipped with X-ray bearers, doctors, nurses, ambulance, etc. During Mr. Roosevelt's stay in the city the attaches will be on duty, as will be a hospital boat and a dozen or more stations.

The homeward trip of Theodore Roosevelt will be an enviable place in American history. From the moment he stepped forth from the African jungle, bronzed and weatherbeaten, after his long hunt, enthusiastic greetings by the nations of the world have been his.

Roosevelt's endurance thru it all has been most remarkable. He has shaken hands with an average of 1000 persons a day since his homeward trip began and has not retired on a single night without having delivered an address of some sort. Feted at Cairo and Alexandria, the recipient of stormy welcomes at Naples, Rome, Budapest and Stockholm, he checked none of his tributes until the death of King Edward VII. Then, in London, the city where perhaps he would have received the highest honors of any, he represented this government as envoy at the funeral of Great Britain's monarch.

His address at Guild Hall, in receiving the freedom of the City of London in 1917, following his retirement from the office of president, was given a reception that, it was thought then, would never be paralleled. But the respect tendered the great fighter of the civil war cannot be compared to Roosevelt's. Grant was honored because he had been president of a great republic, because of his record as a great and brave soldier. Roosevelt because of the policies which he represents and his world renowned strength of character.

Theodore Roosevelt has been teaching Europe the truth about America. What his return will mean to the politics of the country cannot, of course, be foretold. It is sure at least that he will not remain idle. He has been kept in touch with the political situation and all the scandals and happenings that have occurred during his absence are well known to him. As far as American politics are concerned, not a word has left his lips since he came out of the jungle.

Every day new conditions arise that make it more evident to the leaders of the Republican party that drastic measures must be taken if they are to win at the coming elections. The disaster and factional warfare within the ranks of the party have badly disintegrated it. They need a leader; therefore, the great anxiety to set the former president into the fray.

JEWISH STUDENTS OF PHARMACY MAY STAY

Important Decision Arrived at by Russian Senate—Many Are Affected.

ST. PETERSBURG, June 16.—The Russian senate to-day granted the appeal of the Jewish pharmacists of Moscow who are subject to expulsion from the city on the ground that they are not practicing actively their profession, and ordered the repeal of the ministerial circular dated July 23, 1909, under the authority of which the provincial authorities recently began to act.

The decision of the senate that Jewish pharmacists may remain by virtue of their diploma, even if not actually engaged in their profession, will be a wide application in many territories where a university degree is the sole title to residence of the Jews. The local authorities had declared that Jewish pharmacists were subjected to expulsion, and thirty pharmacists and assistants at Rostov-on-the-Don had been notified to quit the town.

KIEV, June 16.—Eighty-nine persons were expelled from Kiev to-day. Twenty-six of these had been permitted to settle their affairs, while the others were given passports to a specified destination.

LIVED IN GALT FORTY YEARS

Hugh Brennan, Found Dead at Dundas, Was Leading Merchant.

GALT, June 16.—(Special.)—The late Hugh Brennan found dead in bed at Dundas, was a resident of Galt for forty years. He was a leading druggist and merchant, having acquired a competency and retired. He was an ardent Conservative and a writer in the newspapers on political affairs. His wife, who survives him, aged 73, is a sister of Justice MacMahon.

A carrier pigeon was found this morning in front of Knox Church, the bird's head having apparently struck the steeple in its flight. A band on its leg has "W. A. B." on it.

Bad news to the friends of Dr. Alex Pirie, formerly of this county, reached town in a letter from R. A. L. Zinger. The Piries are located in Cartago, Central America. In the series of fearful earthquakes last month, the magnificent residence Dr. Pirie erected two years ago at a cost of \$40,000, was totally destroyed, as well as his drug store. Fortunately none of the family were injured.

Heart Trouble Cured

Through one cause or another a large majority of the people are troubled with some form of heart trouble. The system becomes run down, the heart palpitates, you have weak and dizzy spells, a smothering feeling, cold clammy hands and feet, shortness of breath, sensation of pins and needles, rush of blood to the head, etc.

Wherever there are sickly people with weak hearts Milburn's Heart and Nerve Pills have found an effective medicine.

Angus, Ont., writes: "It is with the greatest pleasure I write to you stating the benefit I have received by using Milburn's Heart and Nerve Pills. I suffered greatly from heart trouble, weakness and smothering spells. I used a great deal of doctors' medicines but received no benefit. A friend advised me to buy a box of your pills, which I did, and soon found great relief. I highly recommend these pills to anyone suffering from heart trouble."

Price, 50 cents per box or 2 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

KAISER LAID UP

Has Blister on Inside of Knee From Horseback Riding.

POTS DAM, June 16.—Emperor William, who was recently inconvenienced by an abrasion on his right wrist, is now troubled with an abrasion on the inside of the right knee. It was produced by horseback riding, and caused his majesty to abandon his purpose of witnessing to-day's military manoeuvres at Doerbitz. He has also cancelled an engagement for tomorrow at Hannover, and he will not witness, as planned, the yacht race at Hamburg on Saturday.

The Emperor's household physician stated that his bird had been stated to-day that the general condition of his majesty's health was most satisfactory. The Emperor's saddle horses have been trained to guidance thru pressure from the rider's knee. Recently his majesty has taken long rides on the skin having rubbed off in a spot on the inside of the right knee, a blister resulted.

While the physicians in attendance assert that they do not consider his majesty must remain quiet for some days, it is unlikely that he will attend the yacht regatta which opens at Kiel next Wednesday. If he does not go to Kiel, it will be the first time that he has missed a regatta since the Imperial Yacht Club was founded in 1890.

Will Report to President.

As stated, there is no evidence that the friendship of President Taft for his old chief has cooled in the slightest. There is evidence that Mr. Roosevelt stands as high in his regard and respect for Taft as some months ago a caller at the White House mentioned the name of Mr. Roosevelt in conversation. In his replies Mr. Taft replied to Mr. Roosevelt as "The President."

"The President," observed Mr. Taft's caller, with a smile. "Why, I'm addressed to the president."

"Well, he's my president, just the same," returned Mr. Taft, with emphasis.

Will Taft and Roosevelt meet? The official centers have ruled that it would be unseemly for the President of the United States to go to New York to greet Roosevelt. So Mr. Taft will not be at the dock to receive Mr. Roosevelt. The latter represented the United States at the funeral of King Edward VII. Mr. Roosevelt, as a commissioner from President Taft. Custom requires that the commissioner shall make a report on his work in person to the president and to the secretary of state. So Mr. Roosevelt as commissioner will soon be going to Washington, where it goes without saying he will also receive a wonderful welcome.

EATON'S DAILY STORE NEWS

Our New York Letter

(From Our Own Correspondent)

New York, June 14.—Automobile gossip has the centre of the sartorial stage these days. Now that everybody, or everybody's friend, owns a car, an automobile coat with correct accessories, in the way of hat and veil, are really a necessity of the wardrobe; and the shops are displaying such fascinating garments of this sort that even if one does not own a machine, or know somebody who is likely to invite one to ride, one longs to be possessed of garments so smart and becoming.

Becomingness was the last thing thought of in motor garment a few years ago; but makers seem to have set their wits to work with good success, and as well as being pleasingly correct and attractively "sporty" in character, the new motor togs are really graceful and pretty.

At Southampton and at Newport white motor coats are the fad, and these white coats are often matched by white hats and veils, though the bisque or creamy yellow veil is really the most fashionable this year for motoring. These creamy veils are immensely becoming, for they give a soft yet transparent effect over the skin and suit either blonds or brunettes equally. To return to the white coats, however, these are of various fabrics, from linen to a very soft, thick flannel cloth that makes its wearer look like a great, big, growling baby, all wrapped in sturdy white.

White mohair and white tuesah coats are desirable for short motor trips and these dainty coats are lined with dotted toulard, the lining appearing on the outside in turned-back cuffs, deep revers, and the like. Sometimes there is also a hood at the back, lined with the gay fowlard and weighted by a dangling silk tassel. These beautiful white coats, however, are designed only for what might be called by the true sports-woman, "fancy motoring"; the sort of automobiling that is done from country house to country house, or to the country club, or about the village on calling or shopping excursions—when the motor wrap is slipped over a dainty frock, and one makes no pretence of being fitted out for a long, business-like journey.

For the latter kind of motoring there are pongee and linen suits, coats, sternly tailored in style, with stitched seams, horn buttons, and with fronts buttoning snugly about the throat, and tucked away in the tonneau will be a heavy coat in case storms or cool weather are encountered. The rug cloaks are the newest notion; these smart cloaks being built from big steamer or travelling rug, with the fringe left on to form a trimming at the bottom and along the edge of one long overlapping reverse. These rug or "shawl" coats, as they are often called, are cut in the loosest raglan style, with seamless shoulders and wide sleeves gathered into a cuff at the wrist.

The mention of "shawls" brings to mind the vogue of Paisley trimmings. These gay Persian effects now dominate all dress. In Paris the world is verily Persian-mad, and everybody bears the magic touch of Orientalism, from Madame Le Mondain with her costly Paisley chignon frock for the races, to little Mimi Pinson, the milliner's apprentice, who trips down the street with a Paisley cotton sunshade held above her head.

The Persian printed cottons make charming hat scarfs, and these Paisley patterns come also in soft, beautifully colored pongee scarfs, all ready to drape around the outing Panama hat, with a big knot at one side. Even ostrich plumes are to be had in the rich Paisley colorings, one shade seeming to melt into another as the feather blows in the breeze.

Paisley-trimmed neckwear is immensely chic, and frills of white baistis with narrow bands of Paisley on the top of cuffs set at the elbow. These neck frills may be matched by pretty little slippers or pumps made of Persian patterned silk, and one may wear also a Persian belt and carry a Persian silk pocketbook.

In the more costly fabrics, like fezzard silk and chiffon, the Paisley—or Persian patterns—are particularly rich and beautiful, as these colorings always are when expressed in richer fabrics. The vogue for these gay stuffs will last all through the Autumn—so the wiseacres tell us—and already the manufacturers are preparing smart blouses of Paisley chiffon, or of plain chiffon laid over Paisley satin for wear with Fall suits. But next Fall is away off as yet, and the Summer girl is contenting herself just with the touch of Paisley—in hat straps, parasol, belt, neck frill or the like.

Remnants, Odd Dress Lengths and Odd Pieces

Especially during such unusual selling of wash goods as the sudden hot spell caused do remnants quickly accumulate—we've no room for remnants—haven't time to bother with them—that's why we mark them at a price that will not only carry them away quickly, but surely—in a rush. Thousands of yards of all kinds and colorings for you, Saturday, ranging from one yard to almost full pieces, lovely sheer white lawns, Indian linen lawns, nainsooks, vestings, repps, linen suitings, Scotch zephyrs, gingham, chambrays, prints, fancy muslins, mulls and mercerized lawns, also some good shades in plain Irish dimity, all away below half usual price, and a lot less than that suitable for waists and dresses, etc. See some of the odd pieces shown in Yonge Street Windows. There's Just One Good Way to "Shop Without Money"

AND THAT IS TO OPEN A "CUSTOMERS' DEPOSIT ACCOUNT."

The Method is:—You deposit a sum of money at our "D. A." office, in Basement, thus opening an "account" with us, you then phone in your order to the City Order Department (or send it by mail, or shop in person), and advise us to charge that purchase to your "D. A." account (the money you have on deposit with us).

The Advantages are, Briefly—No necessity to carry money while shopping, no paying drivers at door for phone orders and C.O.D. parcels.

A monthly statement sent you, showing in detail your purchases, deposits, withdrawals and balance at your credit.

We allow interest at the rate of 5 per cent., compounded half-yearly, on your daily credit balances up to \$500.00. On amounts over \$500.00 the interest is the regular bank rate of 3 per cent. We do not desire deposits over \$500.00, however, unless purchases are large enough to warrant same, the purpose of the "D. A." method is only to facilitate shopping.

Try the "D. A." system of shopping and phone in your orders. For further information call at Customers' Deposit Account Dept., Basement, Centre Stairway.

Penelope's Web.

The old story of Penelope, with her diligent devotion to her task of weaving, warding off the numerous suitors who sought her hand during her husband's interminable absence at the Trojan wars, is more than occasionally brought to mind in these holiday months by the industrious application of fair hands to some bit of embroidery or fine needlework. It might easily be surmised that the matron or maid ensconced on the verandah of the Summer resort, stitching away with linen and silk, was indulging in a similar ruse to fill in the time until the return of her own particular Ulysses. The famous heroine could scarcely have clung more faithfully to her handiwork than many a woman in the leisure Summer moments clings to the centrepiece or pin-cushion that is to form a nucleus of her Christmas gifts.

It behoves one, therefore, to point the finger of suggestion to some few dainty and novel conceits shown in the Store in the fancy needlework line that the modern Penelope may tuck away in the corner of her trunk in preparing for the seaside, or wherever her plans may lead.

What to Work

Prominent on the list are the little "nightingales"—quaint little one-piece kimonos of the tiniest, baby dimensions, in fine mercerized poplin, stamped with a delicate tracery of bow knots and forget-me-nots, ready for embroidering in pink, blue, or white, as fancy dictates. They are twenty-five cents.

Guest towels, in the best "Old Bleach" huckaback, in scalloped or hemstitched edges, stamped for a touch of embroidery across one end, constitute another item, while the most bewitching of little round lawn work aprons, and the webbiest of dainty corset covers, can be got ready stamped, and enclosed in Royal Society packages, that include the floss for working their respective embroidery designs.

A distinct novelty, and one that will be readily appreciated by the lover of artistic dress accessories, is a linen bag, mounted with gilt frame and chain, and stamped picturesquely for working in Persian and Dresden colorings. This, like many of the handsomest centrepieces, is shown in the natural shades of linen, serving, as it so well does, as an admirable background for the rich Oriental-toned silks employed in developing the floral and conventional designs so strongly in vogue.

White Embroidery

For the fine, all-white needlework, coronation braid may be said to stand as a formidable rival to the better known Madeira and eyelet embroidery. In centrepieces it proves an especially happy choice, while it is to be found also in the five o'clock tea cosies, the pin-cushion tops and the doilies for which the other two forms mentioned are so eminently appropriate. In which connection attention may be drawn to the fact that the linen employed in these various pieces is of the best Belfast manufacture, specially fitted in fineness, firmness and evenness for the purpose to which it is devoted.

In cushion tops, choice may range from the cover blazing forth the redoubtable Chantecler to another novelty in red-checked serim, with pattern ready to be outlined in coronation braid, and including the square of burlaps stenciled in arts and crafts designs for treatment with the effective Glosselli rope floss.

To conclude with a mention of the silk floss and thread necessary for these sundry forms of needlecraft is to speak of Peri Lusta, size E of which is the standard provision for firm eyelet and similar forms of embroidery; of Corticelli filo for Kensington stitch, and Royal Society India and rope floss for all kinds of heavier work.

Exclusive patterning and moderation of price are the keynotes of the section.

Jeffries and Johnson Will Meet in Reno

Note and Comment

The last of the Suburban is on this afternoon at Sheepshead Bay with Fitzherbert out and Ballot likely to start favorite.

Fitzherbert, the champion, will not start in the Suburban to-day. Sam Hildreth, his owner, said the colt is counting on that King James and Joe Madden will carry his colors in the big race on Friday.

In the Coney Island Handicap, to be run Saturday at Sheepshead Bay, Fitzherbert is the colt to be watched.

The solons of racing in New York State were greatly disturbed when the news that Governor Hughes had signed the bill to amend the racing laws.

A New York writer sums the situation up thus: There is no doubt that even if the majority decide to shut down on Sept. 1 they will not give up without carrying the matter through the courts.

The law of Nevada would permit the Jeffries-Johnson fight in that state, according to a statement made at Carson City by Judge Sawyer.

Many Salt Lake citizens would welcome the Jeffries and Johnson fight to that city, but legal obstacles are believed to be insuperable.

Gov. Reno, as soon as Governor Gillett's letter was sent out, made an offer for the fight. A. J. Atwater, the official manager, representing Reno business men, telegraphed to Tex Rickard that Reno would furnish the \$100 license required by the state law.

Sportsmen generally expressed themselves as believing that the fight in California is over, and that even though the Jeffries and Johnson fight be carried through, the legislature will be forced to go on record prohibiting bouts of more than a few rounds.

I saw Mr. Webb, attorney-general of the State of California, writes one of the army of special correspondents on the spot, and said to me: "I don't want to see this fight." "Why not?" he said. "Because it is against the law."

Major McCarthy's Considerable Talk. Major McCarthy of San Francisco is not the only official in favor of the fight when Governor Spuy is in Reno.

Little Attaches Johnson's Automobile. SALT LAKE, Utah, June 16.—Billy Delaney took charge of the Johnson camp to-day. Johnson appears to be in fine fettle, and it is believed that he will superintend Johnson's work.

Heavy Track for To-day's Suburban. NEW YORK, June 16.—The heavy rains to-day and night might make it almost certain that the Suburban will be almost certainly a slow race to-morrow at Sheepshead Bay.

FIGHT WILL TAKE PLACE

Nevada Not Opposed to Pugilism and Reno Will Welcome Johnson and Jeffries.

SAN FRANCISCO, June 16.—The fight between Jeffries and Johnson will take place on July 4, if not in San Francisco then in the stipulated Reno, but the fight will be held on the date set and will keep my promise.

The statement of Rickard was made soon after Southern Pacific officials advised that the special fight trains had been cancelled during the day.

The fighters are ready and are training faithfully; there is no doubt about the purity of the money.

While no legal steps have been taken as yet against any of those concerned, Rickard said he would immediately transfer the match to some other state if the court ruled against him.

Neither man appeared sorry to hear of the postponement. The two men who were expected to hear of the postponement.

Lang and Lavin Go 10 Rounds—No Decision

Canadian Amateur Champion Carries Battle to His Bigger Opponent.

BUFFALO, N.Y., June 16.—Paddy Lavin took a heavy punch in the 10th round in the person of Hilliard Lang, the Toronto boxer, and when he got through the 10th round with the visitor Paddy was considerably knocked out.

The referee, after the fight, repeatedly urged the crowd, and astounded followed the other out—Lang perhaps had had a hard time in the main event, but he had been so aggressive throughout that he started the action with no official comment.

Besides these will be shown boxing six rounds with Kid Cotton.

ST. MARYS, NEWMARKET

Murphy Can't Act in Cap-Tecumseh Game and Carling or Kavanaugh Will Take His Place.

A Montreal dispatch last night stated that Peter Murphy would be unable to come here to-morrow to act as one of the officials in the Cap-Tecumseh game at the island, and that either Tom Carling or Jim Kavanaugh would take his place and act with Doc Taylor.

The C.I.A. executive met to-night at the Trocadero to consider the Hespel-Guelph protest.

The game to-morrow at the island between Tecumseh and Capitals will start at 2 p.m., the plan of which is on sale at 50c.

Billy McIntyre and Roddy Finlayson have been agreed upon as officials for the Shamrock-Toronto game in Montreal a week to-morrow.

At Newmarket last night in a juvenile C.I.A. match, the home team had little to boast of, the score being 12-10 in favor of the Capitals.

Tecumseh had their first workout yesterday for the Capital game here to-morrow at the island, practicing both in the morning and afternoon.

At Newmarket yesterday the following increase schedule for that district was drawn up: July 12—Midland at Orilla. July 15—Bridgford at Midland. July 22—Orilla at Bridgford. Aug. 2—Midland at Bridgford. Aug. 12—Orilla at Midland.

The Cape will bring along 14 players to-morrow, when they meet Tecumseh at the island. If the Cape players are all present, they will make the trip, and should any of the Cape be hurt, he will be present.

Nationals have got out Dupras and will have him on for the Toronto game to-morrow when they meet Tecumseh at the island. The Nationals are expected to be a maiden race, neither team having won a game since the Ontario game of the Indians say this will be the first for his team in that class this year.

There will be "some game" at Scarborough Beach to-morrow afternoon, when the Young Toronto and St. Kitts will meet in a Senior C.I.A. fixture. St. Kitts have a hand-picked aggregation and have had the benefit of the coaching of the two Toronto stars, Fitzgerald and Kalls. The Young Toronto will have a strong team, including Morris, O'Brien, Lane, Wright, a candidate for the Toronto N.L.U. team; J. Hill, Joe Hill and J. Hill.

The local Intermediate C.C.A. season will open at Cottesingham Square on Saturday, June 18, when Patons and the Maitlands meet in their 20th game.

The Varsity team to play University of Pennsylvania to-day, starting at 11 o'clock in the law: H. E. Messer, J. H. M. Bond, R. C. Reader, J. W. May, J. S. Beatty, J. Maquard, E. Davidson, S. Brown, S. M. Mills, J. Chawell.

Following will represent Toronto C.C. against University of Pennsylvania on Saturday at Varsity at 11 a.m.: W. E. Dean (capt.), E. J. Leighton, J. M. Leonard, R. M. Harcourt, W. M. Whitehead, J. W. McCaffrey, J. M. Laing, J. O. Black.

Dovercourt C.C. and Pioneer's C.C. were disappointed in not being able to play their match at Varsity field to-night, last Saturday, owing to the wet weather.

The Overcourt C.C. played their first practice match against Aura Lee C.C. and aiso some of the team at the opening were conservative enough to express a desire to play under the old rules.

The Pioneers play Garrett's C.C. in the Church and Mercantile League on Saturday at 2 p.m. at the Toronto College campus, West Queen-street, and the eleven will be selected from the following: Parrott, Forsyth, Robbins, Lyles, W. J. Wake, Mortimer, Ruddick, Roberts, Strachan, Ritchner, Bryan, Roach and Howe.

The Star will reopen Monday afternoon for one week when it will have for an attraction a motion picture fete carnival made up of 15 motion pictures of the recent Langford-Flynn fight, in which the latter was knocked down three times and finished with a knockout. Together with these will be the Seal Rock training camp of Jack Johnson going thru his daily training stunts for the coming fight with Jas. J. Jeffries. Besides these will be shown boxing six rounds with Kid Cotton.

"Davis' Perfection" 10c CIGAR When Your Friends Call you naturally like to offer them cigars. As it is undesirable to keep a great many kinds on hand, it is well to have a box of a brand pleasing to the average smoker. Such a brand is "Davis' Perfection." This unique cigar has the mellow, rich Havana taste, and yet is so delightfully mild that you can smoke all day with enjoyment. Not every good cigar pleases so many smokers as this. It seems to give perfect satisfaction, not only to smokers of heavy cigars, but also to those who smoke mild domestics. Therefore, when your friends call, if you offer them "Davis' Perfection" they will not only enjoy their stay, but will carry away pleasant memories. S. DAVIS & SONS, LIMITED MONTREAL Makers of famous "Noblemen" two-for-a-quarter cigar.

Each Dish Washed By Machinery In Separate Hot Water. We are just as fussy about the cleanliness of our kitchen as you are of your own. We aim to make it impossible for one of our patrons to say, "Bring me a clean plate, please," so we wash each dish three times in separate hot water by machinery. Notice the white, dazzling polish on all our china—our food is just as savory and appetizing as the dishes are clean. 152 BAY ST. Each Dish Washed By Machinery In Separate Hot Water.

LATERAL, NOT VERTICAL, FACILITIES

It is remarkable that the Montreal fire-tank disaster has not been made the subject of a sermon on single tax by one of the enthusiastic supporters of that philosophy. There is no doubt that the Herald tragedy was the result of the craze for congestion, which is the chief characteristic of modern city life. While there are millions of acres to spread out upon, humanity has been obsessed with the idea that he must, Babel-like, tower towards heaven.
The object of our modern congestion is not really to save space so much as to save time. But if the same amount of ingenuity had been put into lateral as into vertical means of conveyance, this difficulty could have been overcome. Communication ought to be as easy over the surface as it is in elevators, but our method of loading up all surface communication with perpetual dividend charges makes short rapid surface transport impracticable.
At the same time there is a greater tendency than before to move factories of all kinds into open spaces, where there is no need to build above the ground storey. The finest printing plants in England and many in the United States have gone into country quarters.
Where so much heavy machinery is in use as is required in modern manufacturing processes, the risk of using such appliances on upper storeys is very great. Accidents from this cause are likely to be more rather than less numerous. As buildings age under the constant shuddering of vibrating machinery, sudden and destructive collapses are to be expected. Rigid inspection must be provided, and every precaution taken.

ST. CLAIR AVENUE WIDENING.

A suggestion has been made by Mr. Edmund Burke which should not be allowed to pass without consideration by the board of control. Just why the officials and people immediately concerned are so pig-headed about what is so obviously necessary an improvement as the widening of St. Clair-avenue, is more than the ordinary person interested only in the general welfare of the city, can discover. But granted that there have been difficulties, is it not the office of the city government to overcome these difficulties and arrive at conclusions which will be for the ultimate benefit of all concerned? Mr. Burke's idea is that the street should be widened to 100 feet in view of future requirements, but that for the present only a roadway of 42 feet be provided. The building line can then be observed as for the wider thoroughfare without burdening the residents with pavement rates.

STATE RAILWAYS AND GERMAN TRADE.

In one of a series of articles he is contributing to The London Daily News on German commercial and industrial conditions, Mr. J. Ramsay MacDonald, one of the leading parliament members of the imperial parliament, refers to the manner in which the central government aids the trader thru the state-owned railway system. German railways are not run to make the maximum of profit out of the trader, but to render him the maximum of assistance. They do make a profit and chambers of commerce have on occasion complained that it is too high. But on the whole, Mr. MacDonald thinks the administration has kept before it the dictum of Bismarck: "Railways are intended rather to serve the requirements of trade than to earn a profit for their owners."

He quotes a declaration made in November, 1879, by the then minister of railways to the effect that it was the aim of the government to take the railways out of the hands of speculators and to make them truly national for the defence of the country and for the development of its prosperity. This policy, consistently followed out, has made freight rates low and easily ascertained, and when there is differentiation, it is not in favor of foreign goods, but of home products. The government also, instead of discouraging waterways, has provided them wherever they could cheapen freightage and strengthened their banks so as to promote swift traffic. Towns and cities hundreds of miles inland have water communication with the sea, industries are relieved, industrial centres do not crowd up in small areas, and export trade is easy. Mr. MacDonald quotes one of the most recent writers on modern Germany as saying that Germany "protects and fosters her industries," not only by tariff, but "before all by the provision of adequate, efficient and cheap means of transit."

REGULATIONS FOR AVIATORS.

With the arrival of airships and aeroplanes and the rapid rate at which they

are increasing it has been found necessary to adjust and promulgate regulations for aerial navigation. A conference of nations for the consideration of such regulations assembled in Paris last month and the delegates from the British home office, before their departure, took occasion to consult with the chief authorities upon aviation in that country. They were advised that the attempt should not be made to frame a scheme of regulations applicable to the developments which may not arrive for years, but that in the meantime they should only contemplate conditions as these actually exist or may reasonably be expected in the near future.

Four rules were generally conceded to be necessary, the first being prohibition of flying over towns or over any locality where there is appreciable risk of injury to the public. Not only is there the chance of the aeroplane itself coming to grief, but if aviators acquire the habit of carrying tools with them, as automobilists do, there is every probability that now and then some one or more of them might descend with serious results. Other suggested laws are the fixing of stations for landing purposes, the establishment of regular airways which aviators should observe, and the arrangement of "rules of the air" to avoid confusion, and the risk of collision. All which bring home the extraordinary progress made in aviation in recent years.

The Star proposes the elimination of the handman and the substitution of some scientific device acting from natural causes. But the man who adjusts such a contrivance compasses the criminal's death as certainly as if he employed a more direct method. Nevertheless, there is much to be said for the proposal.

The great problem in the United Kingdom is to get unskilled labor, the main feeder of pauperism, back to the land. That means a radical change in the land laws and the restoration to agriculture of the vast areas now devoted to the amusement of the idle rich.

Prize fighting is an anachronism in the twentieth century, and is yearly becoming more repugnant to popular sentiment. Yet the intense interest aroused by the meeting of Jeffries and Johnson shows how much of the old Adam remains, an inheritance from the centuries when physical prowess alone commanded respect. Many even who oppose pugilism on principle can not get away from ingrained sentiment.

Religious conditions are changing

when laymen show themselves more orthodox than their ministers. Is the fact to be read as a sign that the more liberal minded of them are drifting away from church membership, or at least losing interest in doctrinal controversies? There is food for thought on the part of church leaders, especially those who are inclined to deny reasonable liberty.

It looks as though the parliament elected Controller Spence chairman of the special civic harbor committee yesterday when the five Liberal members voted for him and the two Conservative members alone supported Controller Church, who, as mover in council for the appointment of the committee, was, as per custom, entitled to the honor. Controller Church has made harbor improvement a specialty, and he has done and is doing a great deal of better conditions.

NOT SENT BACK BECAUSE CAME UNDER CONTRACT

Immigrants Had Not the \$25 Required and Had to Be Deported.

OTTAWA, June 16.—(Special).—Enquiry was made at the immigration department to-day in respect to the complaints from London to the effect that thirteen workmen had been sent back from Quebec because they came to Canada under contract to work in this country. W. D. Scott, superintendent of immigration, said that the thirteen people sent back to England were factory people going to work in a factory at Paris, Ont., who did not have in their possession the necessary money to comply with the departmental regulations. Under the circumstances the officials had no choice but to send the people back.

The view is expressed here that much trouble could be avoided if the steamship companies would take the trouble to see that emigrants bound for Canada have sufficient funds to comply with the regulations before they are allowed to go on board. The result of the enforcement of the new regulations is that Canadian manufacturers are getting a better class of transient workmen from the mother country.

Projects in Embryo Important Factors.

The big factors which are making for an extensive movement in the northern section of the city have scarcely yet been appreciated, because they are only in the embryo stage. Among the principal of these the following may be cited:

First, that within a short period the large retail centre of the City of Toronto will be removed up from King and Queen-streets to Carlton and will extend as far as Bloor-street. In fact many anticipate that a few years will witness the corner of Bloor and Yonge as the pivotal retail trading centre of Toronto.

The second, and a most important factor, is the evolution in the railway systems now serving the city. Where the C. P. R. crosses Yonge-street in the north there is to be a big enlargement of the railway property, and it is believed by many that this north station of the C.P.R. will become the important passenger station of the city. About a mile above this is the belt line of the G.T.R. The reopening of the belt line has been decided upon and it is expected to be operated from the west to Yonge-street inside of the next three months. It is not improbable that a suburban service will be established by the Grand Trunk, who will altogether likely utilize electricity and thereby make a quick communication from any point on its circuit to the city's waterfront.

Considering these improvements which, also they may be delayed for a short time, are bound to come, it is not to be wondered at that North Toronto and parts of the Township of York surrounding the town are now attracting so much attention from financiers who have a good insight into the future.

Canada Cement Co. v. Gordon Pulp and Paper Co.—J. Thomson, for plaintiff. W. S. Edwards, for defendant. Motion by plaintiff for judgment under C.R. 98. Order made. Judgment not to issue until the 17th inst.

Judge's Chambers.
Before Middleton, J.
Campbell v. Elliman—S. Denton, for plaintiff. R. U. McPherson, for defendant. Motion by plaintiff for an order to admit defendant to call for returning to answer questions on examination.
It appears from the examination of the defendant that he has concealed and made away with his property in order to defeat and defraud the plaintiff, one of the creditors, and further upon the examination of the defendant's books he has refused to disclose his property and has not made satisfactory answers concerning the same. It is ordered that he be committed to the common jail of the county in which he resides for the term of 12 months. I reserve the order until he is discharged at any time after he is released into custody and before the expiry of the period for which he is committed as aforesaid. I also order him to pay the costs of these proceedings.

Single Court.

Before the Chancellor.
Re Farah Mining Co.—G. Smith, for Negri B. Hanl. R. McKay, for the company. Motion by applicant for a mandamus for transfer of stock. Starts till 20th inst., as settlement of matter progressing.
Elliott v. Ellis—E. E. A. DuVernet, K.C., for applicant. Motion by way of petition of applicant for reinstatement as solicitor, and for directions as to service. Leave given to set down and direction given that notice of hearing be given to the law Society.
Ellis v. Ellis—F. M. Field, K.C., and T. F. Hall (Cobourg), for plaintiff. B. E. Norring, K.C., for defendant. A motion by plaintiff for leave to appeal from the report of the local master at Belleville, notwithstanding time for so doing has elapsed, and a motion by defendant for judgment pursuant to the findings of the local master. Order affirming the report and judgment dismissing the action with costs and for payment to defendant of the \$88 found due to him by the report. Two weeks stay.

Bird v. Lavallee—A. H. LeRoy, K.C., for plaintiff. No case stated. Motion by plaintiff for judgment on further directions pursuant to report of local master. Judgment for plaintiff for \$375 and costs. In default of payment land to be sold with approval of master at Parry Sound etc. Defendant to make good any deficiency arising on such sale.
Fahel v. Finkelstein—F. Aylesworth, for plaintiff. J. M. Glenn, K.C., for defendant. Motion by plaintiff to restrain defendant from continuing on the business of a junk dealer in St. Thomas. Motion stands to hearing. Defendant to keep an account of his business.
Re Stokes—W. M. Charlton (Brantford), for executors Grayson Smith, for Mrs. Stokes. Mrs. Anderson, J. E. Jones, for Mrs. Ayres. Motion by executors for an order construing the will of the late John Henry Stokes under C.R. 98. Reserved.

Brain v. Coffin—B. F. Justin, K.C., and H. S. White, for defendant Grayson Smith, for plaintiff. An appeal by defendant from the report of J. A. C. Cameron, official referee. At plaintiff's request motion stands till Sept. 21.

Price v. Price—J. Mahon (Woodstock), for plaintiff. J. Mitchell, for defendant. This is an action for alimony. Judgment in my view the law so long as a wife, as in this case, remains in her husband's house enables her to enforce the marital obligation to supply her with clothing only by a circuitous route by pleading the credit of her husband for necessities. The action, should be dismissed with costs payable as provided in C.R. 114, the dismissal of course to be without prejudice to any action other than for alimony.

Grills v. Farah—A. G. Slaght (Halifax), for plaintiff. F. L. Smiley (New Liverpool), for defendant. M. G. V. Gould (North Bay), for the company. Plaintiff in January, 1909, obtained judgment against the National Mining and Development Co. for \$21,000 damages and \$2244 costs, and on obtaining a return of nulla bona from the sheriff who still holds the fieri facias in his hands, started this action against defendant, share-holder in the company, claiming \$500. Defendant filed a defence and counter-claim against the company. The defendant cannot succeed on the counter-claim, but as the fieri facias has not been returned unsatisfied, action dismissed with costs. This dismissal will not prevent or obstruct another action being brought as in Barber v. McCusick. Counter-claim dismissed with costs as of a motion.

Divisional Court.
Before Meredith, C. J., Tetzlaff, J., Middleton, J.
Joncas v. Ottawa—An appeal by defendant from judgment of Britton, J., of April 23, 1910. No counsel appearing to support or oppose appeal stands till September sitting to be placed at foot of general list for that sitting.

Long Horseback Ride.
AVON, N.Y., June 15.—Mrs. Herbert Wadsworth of this village, member of the famous Wadsworth family, is in good condition, after having broken the world's record for horseback riding in one day yesterday, by her jaunt here in 16 hours, 19 minutes. She used twenty mounts from her own stable in performing the feat.

Cool Kitchen—Perfect Cooking

The housewife with years of experience—the woman who knows how to cook—finds, after practical tests and hard trials, the New Perfection Oil Cook-Stove is her idea of what a good cook-stove really ought to be.
She finds it requires less attention, costs less to operate, and cooks all food better than any other stove she has ever tried.
She finds the New Perfection oven bakes and roasts perfectly. The

Western Man Suicides.
VALLEYFIELD, June 16.—Yesterday morning a man about 35 years of age, stout and well dressed, was found dead in the New York Central yards, Valleyfield. It was evidently a case of suicide. Documents in his pocket would indicate that his name was Owen O'Brien and that he recently resided at 188 Jarvis-avenue, Winnipeg.

A Bright Boy Who Needs a Chance.

Judge Winchester yesterday recommended for a week Fred Cold, aged 17, who pleaded guilty to stealing a horse from G. N. Graham, Georgina Township. He said he had once been in trouble before for the same offence.

"Here is a bright lad who one time saved up \$105, and yet has no education whatever. Would you like to see to some institution where you would learn to read and write?" asked the judge.

"Yes," said the boy.

Arrangements will likely be made to help him.

NEW PRESIDENT OF THE COUNCIL

LONDON, June 16.—The Earl of Beauchamp to-day was appointed lord president of the council, in succession to Viscount Wolverhampton, who resigned from that office yesterday.

A YOUNG AERONAUT

Boy of Ten Run Away With by a Dirigible Balloon. CHILLICOTHE, Ohio, June 15.—Breaking away from its moorings, a dirigible balloon belonging to Cromwell Dickson of Columbus, Ohio, soared to an altitude of half a mile above the city yesterday, carrying with it Fred Meyers, 10 years old, while thousands of horrified spectators looked on.

CHINESE GAMBLERS GO FREE

More than 100 Chinamen were in police court yesterday morning to hear the fate of a big batch of Celestians, charged with keeping or frequenting a gambling house at the Pekin Club, 105 West Queen-street. There were 67 names upon the calendar of those charged. They had been gathered in a raid on April 24. It was shown that the police took 15 minutes with sledge hammers to break thru the barricade at the door. But it was also shown that Lee Ling, charged as keeper, had been in Fort William on the night of the raid. The case against him was then withdrawn. Then all the cases were dismissed, as it could not be shown that there had been any rake-off.

COBALT --- Outsiders Take Little Interest --- COBALT

Speculation at a Standstill Sentiment is Apathetic Mining Markets Show No Outstanding Tendency—Stocks Generally Soft, But Hold Comparatively Steady.

RECOVERY WILL COME

It may require patience, but the reward will come. Cobalt Stocks cannot go down continually, and we are of the opinion that the turn is near at hand. Some speculators were hard hit in New York Stocks, and liquidation has thereby been forced on the mining exchanges. Now is a good time to buy Cobalts.

GOLD EXTRACTION ON SASKATCHEWAN RIVER

Days of "Grizzly" and "Recker" Now Over—Succeeded by Modern Steam Dredge. The evolution of gold extraction from the river bed and bars of the Saskatchewan would form a volume of interesting details. On the hilly drive from Duck Lake, the famous battle ground of 1885, on the south shore of the North Saskatchewan, to Prince Albert, tourists may view an old, curiously constructed, ramshackle, abandoned steamboat, which somewhat resembles a sternwheel passenger craft, and is yet rigged with an apparatus evidently intended for dredging. This is a discarded gold dredge, which represents some \$10,000 or \$12,000 invested, mostly by Englishmen, in enabling an English engineer to develop his ideas as to what a gold dredger should be. Perhaps, if he had been furnished with wheels, pulleys, chains, stanchions and other mechanical parts of good steel, it might have worked in England, possibly by some one used to contracting for the war office. They gave out at the last juncture with want of rapidity, and the dredger practically went to bits, as has been said, almost after the manner of Dr. Holmes' "one-hoss shay." Yet it produced in the open season of one year, gold that sold at the mint for \$310, from 18,000 cubic yards of gravel dredged from the bars of the North Saskatchewan; this means 45 cents of gold per cubic yard. The tallings are said to have contained enough more to be worth reworking.

Mines Company of America to Acquire Dolores and Elrayo Companies. NEW YORK, June 16.—Capital stock of Mines Company of America is to be increased from \$2,000,000 to \$3,000,000, for the purpose of acquiring control of Dolores and Elrayo Mines Co. Merger will require \$3,500,000, leaving \$500,000 stock in treasury. It is proposed to increase par value from \$1 to \$1.50, giving enlarged company 900,000 shares.

ONTARIO SYNOD WILL NOT TOUCH KING'S OATH

Better to Leave Matter Alone—Question of Mixed Marriages Under Discussion. KINGSTON, June 16.—(Special)—The Ontario Synod was brought to a close late this afternoon. The feature of to-day's proceedings was a discussion of the resolution: "That in the opinion of this synod, no change should be made in the coronation oath of the sovereign of the empire, and that copy of this resolution be sent to King George V., and also to the Premier of England." It was moved by Rev. W. F. Fitzgerald and seconded by Rev. J. B. Dean, both speaking strongly in its favor. Several members favored a passing of the resolution, but on the advice of Bishop Mills, it was withdrawn. The bishop remarked that he thought it would be better to leave the matter alone.

CIRCUS TRAIN WRECKED

Now the Wild Beasts Are Loose and Inhabitants Are Scared.

EBENSBURG, Pa., June 16.—The circus train composed of fifteen cars of the Frank A. Robbins show, was wrecked one mile from here early today on the Cambria and Cresson branch of the Pennsylvania Railroad. Two lions, an elephant, one leopard, one jaguar and an ibex are reported to be at large as a result of the wreck. Ten circus employees were injured.

The entire country for miles around is in a state of terror. Many of the farmers and their families refuse to leave their homes and take up the search for the liberated menagerie beasts.

GOT HEAVY SENTENCES

Five Year Terms for Army Veteran and a Subduer Resident.

Robert Murdoch, an old member of the Black Watch, and who was arrested by a provincial constable near Fort Arthur, after shooting his neighbor, George Beatty, was sentenced yesterday to five years in the penitentiary.

Joseph Gourdeau of Sudbury also received five years for assaulting a little girl.

At Blind River a jewelry store owned by John Minster was broken into and a quantity of jewelry stolen. Two men, John Mervise and Alfred Gagnor were traced to Woodburn and arrested by provincial constables. Part of the stolen jewelry was found in their possession.

TOO MUCH INSTITUTIONALISM FORCES PASTOR TO RESIGN.

ST. JOHN, June 16.—Rev. Dr. John A. Morrison, formerly of St. David's Church here, and for the last six years in charge of the First Presbyterian Church in Chicago, has resigned his pastorate here.

The reason for his resignation, according to Dr. Morrison, is his uncompromising antagonism to conditions in Chicago, which he considered pastorally located churches to be institutionally headed, society presidents, charity trustees, bond brokers, syndicate directors, settlement workers, endowment solicitors, school officials and even bill collectors.

Dog Fight Causes Lawsuit.

A fox terrier was killed by two dogs and the owner of the terrier, H. Mercer, sued Mr. Wright of the Welcome Home Hosiery for \$50.

"My dog was sitting quietly on the step when the other came and carried him off," said Mr. Mercer. "One grabbed him by the neck and the other by the tail."

Mr. Wright maintained the terrier was a nuisance in the neighborhood. His honor reserved judgment.

MARKET HOLDS SURPRISINGLY FIRM.

World Office Thursday Evening, June 16.

The Canadian exchanges displayed an all-round firm tone today, while in one or two special instances higher prices were recorded. Trading, however, was generally restricted, and the speculative movement throughout was about as flat as it could be. The feature of the day's operations was the large amount of bonds which changed hands, these being picked up at fractional advances for investment purposes. The general opinion among market followers was that financial institutions which were heavily loaded with these securities were taking advantage of the firm attitude of the exchanges to convert them into cash, possibly in anticipation of the coming grain movement in the west, or for real estate loans. Purchasers took care of all offerings in the idea that the liquidated securities offered good speculative, as well as investment, chances. The market is holding surprisingly firm, considering the apathetic speculation which is extant.

Desultory Trading on Wall St. Market Hardens at the Close

New York Stocks Receive Some Support, But Speculation is Slack—Some Local Issues Higher.

World Office, Thursday Evening, June 16.

Trading on the Toronto Stock Exchange to-day was about on a par with that of the past few days. Speculation was not of large volume, but prices held remarkably firm and in several instances small advances were made.

As during the last few days, Black Lake was the favorite issue. This stock made another fractional advance, selling up to a new record of 27, and closing firm at that point. The preferred stock was up over a point, one block changing hands at 47, as against 45-46 the previous high price of this week.

Trading in the traction stocks was only fairly well maintained and prices made little change. Sao Paulo was also firmer, the shares touching 148 7/8, but easing off at the close. Rio was off from yesterday's high, the shares being half a point at 94 and closing a point below that figure. Porto Rico was also easier and closed offered at 50, with no bids registered.

At the close the market was quiet but generally firm, and while there was no increased buying in evidence there was little stock on offer.

Dividends on Canadian Issues.

The following dividends were declared yesterday:

F. N. Burt, common, 1 per cent. quarterly; preferred 1-3/4, payable July 2.

Ogilvie Mills, 2 per cent. quarterly, payable July 2.

Perman, common, 1 per cent. for quarter, and preferred 1-1/2 per cent. payable Aug. 15, and Aug. 1, respectively.

Wm. A. Rogers, quarterly, 2-1/2 on common and 1-3/4 on preferred, payable July 2.

The regular half-yearly 4 per cent. dividend has been declared on Niagara Navigation stock, payable July 2.

The Winnipeg Electric Railway Co. declared the regular quarterly dividend of 1-1/2 per cent. payable July 2 to shareholders of record June 30.

A final dividend of 25 cents per share is announced for the past year by the Hudson Bay Co., making 44 cents, or 40 per cent. for the 12 months, carrying forward \$11,986. For the preceding year the dividend was 22 cents per share, or 25 per cent., and the balance \$105,764.

Dividends Declared.

The regular semi-annual dividend of 3 per cent. was declared on Reading yesterday.

Louisville and Nashville directors declared the regular semi-annual dividend of 3-1/2 per cent.

On Wall Street.

Erickson Perkins & Co. had the following: Stocks marked time to-day, people in general being content to wait until the actual adjournment of congress is nearer at hand. The demonstration against the U. S. Steel Corporation in the house of representatives shows the extremists to which certain men are apparently driven, either for political or other purposes. The railroad bill should become a law by the end of the week, and then we believe the public will show more disposition to go into stocks. Look for a trading market to-morrow and Saturday. Some support was given to Steel to-day, the bill is not at all unlikely the bears will try to test it again before the week is over. The short interest is increased. Our improved trade position has come in for much favorable comment in banking circles, and this, with good progress of the crops, should help to keep stocks from declining much. The return of Mr. Morgan is awaited with much interest, it being assumed that his influence will be felt in any improvement in the stock market. His friends, including Chairman Gary, talk reassuringly.

Chas. Fitch & Co. to E. R. Bongard. The government proposes to investigate the U. S. Steel Corporation and to determine whether the said corporation may be fined for not complying with the anti-trust law. It is said the Hawley roads will soon submit specifications and request bids for \$150 new cars, and it is also reported that the Chinese railway will be in the market for a large amount of equipment as soon as the loan negotiations are settled and the money available. Closing prices were strong at highest for the day, showing a one point gain generally. The outlook favors a gradually hardening and higher market without much activity.

TORONTONIAN WITH SCOTT

C. S. Wright is One of the Physicists With Polar Expedition.

C. S. Wright, son of Mr. Alfred Wright, of 60 Crescent-road, is one of the physicians on Captain Scott's Antarctic expedition, which has sailed from England for the South Pole. He has been working for the last two years in Cambridge under Prof. Sir J. Thomson, in the famous Cavendish laboratory. He was educated at Upper Canada College (head boy 1904) and the University of Toronto, where he took first-class honors in one year and finally won the 1881 Exhibition Scholarship.

A Peculiar Case.

BRAMPTON, June 16.—Peter Brunet of Toronto won the suit which he brought against Leopold Roumegeur of Cooksville, being awarded \$325.00 damages. The case was a somewhat peculiar one. The jury were unanimous in favor of the plaintiff, who loaned the defendant some money in return for a promise of one-fifth of the damages, which Roumegeur expected to get for the plaintiff's wife's affection for a Toronto man. It was claimed the latter paid \$300 as damages, but Brunet did not get his share.

Price of Oil.

PITTSBURG, Pa., June 15.—Oil closed at \$1.35.

A Dangerous Place.

CATHARINES, June 16.—In closing the county court at Welland Judge Wells raised his voice against the open violation of law and order in the locality of the Port Erie race track. He gave an instance of a respectable man who was robbed of \$200 there by thugs.

Joe's New Sphere.

Joseph Thompson, late commissioner of industries for the city, has opened an insurance office in the Lumden Building, where he will represent the Royal Fire and Employers' Liability Company.

Plumber Dies at His Work.

ST. CATHARINES, June 16.—While working in the basement of a private house at Thorold, Richard Bourgeois suddenly died of heart failure. Receiving no response to signals on a pipe, Joe McLaughlin, a fellow plumber, went below complaining to him about his fathering at his work so near quitting time. McLaughlin was horrified at the discovery he made. The man had been dead 15 minutes when the doctor arrived.

Reduced the Rate.

ALMONTE, June 16.—Because the municipal council of the town appropriated the two thousand dollars, which belonged to the Almonte Electric Light Commission, also a municipal body, the commissioners reduced the electric light rate by 25 per cent.

100 CARS AT CITY YARDS QUALITY GENERALLY GOOD

Trade Fair and Prices Easier, Especially for Best Cattle—Sheep, Lambs, Calves, Hogs Steady.

Receipts of live stock at the City Yards for Wednesday and Thursday were reported by the railways to be 100 car loads, consisting of 170 cattle, 200 hogs, 124 sheep and 414 calves. The bulk of the cattle on sale were of medium to good quality, although there was quite a number of grassers that were slow of sale, as many of them should have been kept on the range.

There was a good trade for the best quality cattle, and these that had been fed meal while on the range. Prices for these were a little easier and slow, but the common grades were hard to sell as few of the dealers seemed to want this class of cattle for their own use and they were likely to go still lower.

Exporters.—George Rowntree bought export steers at \$7.25 to \$7.50; calves, \$8.00 to \$8.50, and some export bulls at \$8.00 to \$8.50.

Butchers.—George Rowntree bought for the Harris Abattoir Co. 400 cattle, all light butchers' steers and heifers, at \$7 to \$10, cows, \$6 to \$8.

Stocks and Feeders.—H. Murry reported a good trade in stockers and feeders, but expects trade to pick up in the near future, as light grass crockers were necessary on the market today.

Hogs.—H. Murry handled about 150 at following quotations: Steers, \$9 to 100 lbs. at \$5.75; steers, 60 to 90 lbs. at \$4.75 to \$4.75; hogs, \$3.75 to \$4.25.

Milkers and Springers.—Receipts were large for the two days. The demand has fallen off from what it was a few weeks ago, and prices are a little easier. The market for milk cows is steady, but some talk is heard of a slight decline in the price of the best cows. Some good cows sold from \$50 to \$60, with the medium grades at \$40 to \$45, and common down to \$20 to \$25.

Veal Calves.—Moderate deliveries met a steady market, prices being unchanged from \$3 to \$3.50 per cwt, or an average of about \$3.25 per cwt.

The Summer Sale at Simpson's

Saturday's Series of Shopping Attractions at the Coolest Summer Store.

A Sale of Summer Waists

at \$1.75 Waist Dept. —3rd Floor

The sale of Waists on Saturday will be memorable for two things:—

The exquisite daintiness of the models.

The extraordinary low prices.

This lot of high-class waists is a special purchase from a firm whom we consider the best lingerie waist maker in the Dominion, a firm that never makes a cheap waist and whose absolute guarantee for cut, fit and style is behind every garment.

Six different styles as follows:—

Pure Irish linen, trimmed Soutache, regular price \$8.50.

Fine English Repp, trimmed heavy lace and crochet buttons, regular price \$2.75.

Clear Swiss Muslin, with exquisite

hair line tucked yokes, regular price, \$3.50.

Two designs of beautiful embroidery work in shallow effects, regular price \$2.95.

Finest quality English Vesting with brilliant surface, regular price \$2.50.

The whole of them are marked for Saturday selling at \$1.75.

Women's \$5 to \$10 Summer Dresses \$2.98

95 only Women's Stylish Summer Dresses, in a variety of one and two-piece styles of muslins, mulls, lins in the lot, but not in each material; white, pink, sky, mauve and tan.

Also of fancy striped and checked chambrays and ginghams. Waists have yoke and collar of lace and are finely tucked. Some are trimmed with self strappings and embroidery insertion. Skirts are trimmed to match waists and are either gored or pleated styles. Sold regularly at \$10.00, \$8.50 and \$5.00. Saturday, to clear, \$2.98.

Women's 11.75 Dust Coats \$7.95

Women's Smart Dust Coats, of wide wale diagonal silk in natural shade, long length, close-fitting back, new pointed effect on side panels, which are pleated to bottom of coat; mannish collar, trimmed with buttons. Sold regularly at \$11.75. Saturday, \$7.95.

Women's \$4.95 Coats \$1.95

A little lot of Women's Coats, suitable for motoring or boating, made of a splendid quality English repp, in tan only. Double-breasted style, long length, loose back, roll collar, trimmed with strappings of self. These sold regularly at \$4.95. Will clear Saturday at \$1.95.

Women's \$8.50 and \$4.95 Lace Coats \$1.95

Women's Coats of Battenberg and Bebe Irish Lace, and some in Battenberg and Net, ornamented with crochet ornaments; these are made in a number of styles, short length coats, and trimmed with cord or ornaments, some with ruchings. Only 32 coats in this lot. The regular selling prices were \$8.50 and \$4.95. To clear, Saturday, \$1.95.

Women's \$11.50 Skirts for \$4.95

50 only Women's Separate Skirts, of good quality striped worsteds and imported tweeds in grey tones, navy and black French venetians, and of brown, navy and black French voiles, in a variety of pretty pleated, square or round cut, trimmed with strappings of self or buttons, and some with silk folds. The regular selling prices of these ranged from \$8.50 to \$11.50. Saturday, to clear, \$4.95.

Girls' \$6.50 Capes for \$2.95

Girls' stylish Military Capes, of fancy wide-wale diagonal serge, in brown or grey, cut very full, faced down front with satin to match, velvet collar trimmed with gold braid, finished with gilt buttons; sizes 12, 14 and 16 years. Sold regularly at \$6.50. Saturday's price, \$2.95.

Girls' 3.50 to 6.75 Wash Suits \$1.98

Clearance sale of Girls' Wash Suits, suitable for holiday wear. These are in a variety of materials, mostly linen-finish fabric, in lawn with white or blue with white stripes, shepherd checked ginghams, white Indian head suitings, and white with tan or blue striped gaiters, made in a number of smart styles. Coats are either single or double-breasted, square or round cut, trimmed with strappings of self, buttons or lace insertion. Skirts are in either gored or pleated styles and trimmed to match coats. A large assortment of styles to select from. These sold regularly at \$3.50, \$4.25, \$4.75, \$5.00, \$6.00 and \$6.75. To clear, Saturday, \$1.98.

As there will be a great demand for all of the above specially priced garments, we cannot accept phone or mail orders.

We Have Made Some Very "Special" Purchases of Summer Muslins.

THE recent cold weather displeased some of wholesalers very much indeed. They thought warm weather was never coming. In consequence we have been offered and have accepted quantities of Muslins at less than half price. During the next ten days we will have unusually attractive muslins for sale at extremely unusual prices. To-morrow we offer the first lot, bought from one of the biggest dry goods importers of Montreal.

3751 yards of dainty colored muslins, groundwork of mottled colors, as pink, green, brown, Alce, mauve, tan, etc.; designs of spots of various sizes, rings and fancy stripes; regularly 12 1/2c. Sale price 7 1/2c.

2334 yards of fine sheer batiste, white ground with pretty polka dots in sky, red, navy, mixed black and mauve, floral figures in sky, yellow, grey and mauve, colors. Regularly 15c. Sale price 10c.

White vestings, all new, small, medium and large broadcaded designs, that will keep their lustre after washing. Regularly 25c. Sale price 15c.

30 pieces 31-inch celebrated Ramoney batiste, most exquisite designs in Persian effects, all the daintiest colorings imaginable. Mauve, pale pink, pale blue; beautiful for either dresses, dressing
