Special Cable to The Toronto World.
PARIS, Sept. 18.—The French today completed the work that they had successfully begun Sunday in the German positions between Barieux and Vermandovillers, by driving the enemy from the rest of the trenches and redoubts to which he still clung, and by capturing Deniecourt. After the taking of this village the French pursued the enemy for a distance of one kilometre (five-eighths of a mile) to the south, in the direction of Ablaincourt. Besides seizing Deniecourt the French gained a trench west of Horgny, three small woods east of Deniecourt, and several trenches to the southwest.

Prisoners numbering 1600 fell to the French in the operations of the past two days.

Take Trenches Near Combles.
North of the Somme, after taking a trench east of Clerly in the morning, the French succeeded in wresting from the enemy a strong system of trenches about 220 yards south of Combles. They report that violent artillery fighting continued in the sector of the Bethune road in this region.

French official sources report that the German losses were enormous in the recent fighting south of the Somme. The enemy was severely cut up by the fire of French artillery. The French armored aeroplanes played a conspicuous part in the operations in these sectors by leading and directing the infantry attacks. This is the first time that these machines have been thus employed by the French.

Foe Admits Little.
The German official communication today admitted that the fighting

Call for Strong National
Policy.

PARIS, Sept. 18.—The populations of Mitylene and Lemnos have addressed appeals to King Constantine beseeching him to adopt a national policy and save the nation and its throne, says a despatch to the Havas agency from Athens.

Col. Lelakis, who is now at Saloniki, says the correspondent, declares that Commander Hadjiopoulos of the Kavala garrison, announced to the officers there that Field Marshal Von Hindenburg has assured him that the Greek army had been made prisoner as a result of Bulgarian demand. Former Premier Venizelos went on learning that the colors of a certain regiment at Kavala had fallen into the hands of the Bulgarians.

Ballots in Vancouver City Are Now Being Recounted

VANCOUVER, Sept. 18.—In anticipation that the voters of the citizen soldiers must make it a close fight between the Liberals and Conservatives for one or two Vancouver seats, there is a final count of the ballots being taken at the courthouse in the presence of the candidates or their agents. The count may take the better part of the week to complete.

News came from England today that 7,600 soldiers had voted in France and England, and that it also came word to the Liberals that the vote was strongly Liberal; also in favor of prohibition.

Capt. A. E. Tulk, who is interested in the anti-prohibition campaign, wants a recount of the vote on the prohibition referendum in the belief that the soldiers' vote may help his side to overcome the handicap of over 8,000 majority which the prohibitionists at home piled up in favor of the prohibition measure. Final result of the vote will be announced on Oct. 14.

Dominion Ship Runs Ashore While Sailing Lake Superior

By a Staff Reporter.
OTTAWA, Sept. 18.—It was reported to the marine department today that the hydrographic survey steamer La Camdeleine had been wrecked near Doyron on the north shore of Lake Superior. The crew got safely to land with the vessel was driven ashore. She is now lying on the beach with part of her bottom stove in. Reports, however, are to the effect that she may be salvaged, and W. J. Stewart, Dominion hydrographer, has gone west to superintend the salvaging operations.

Special Cable to The Toronto World.
ROME, Sept. 18.—The Italians did not advance any further on the Carso plain in their drive on Trieste, but they repulsed persistent counter-attacks of the Austrians, although they were supported by an extremely violent artillery fire, according to the Italian official communication today. The enemy suffered heavy losses and left 300 prisoners in the hands of the Italians.

Italian Caproni aeroplanes dropped bombs on trains and railway stations on the Carso, making direct hits.

GERMANS SHELL HEAVILY CANADIAN REAR TRENCHES

Enemy's Purpose Is To Check Sending of Reinforcements to Front Line—Wounded Canadians Say British Artillery Is Five Times Heavier Than Foe's.

Canadian Associated Press Cable.
LONDON, Sept. 18.—Members of a party of wounded Canadians who arrived at a hospital near London tonight narrated incidents of the Somme fighting, illustrating in a measure the different nature of the warfare in which Canadians are now engaged from that to which they had been tied down for the previous 12 months.

As already reported, the Germans are confining their artillery nowadays against the Canadians mostly to high explosives.

Three Canadians lying in one ward had pretty much the same tale, although each man was laid out at a different time and place. One private from Vancouver had no fewer than ten wounds in his legs. The Germans, he said, were putting in shells fast. Like the rest of his comrades he was then in the front line standing in a trench. A shell came close back of the trench and buried two of his nearest comrades. One of the two was completely covered and the other buried up to the neck.

"A corporal began digging for the men completely buried," he went on, "and I went for the man whose head was just out. I had to scrape and dig while lying on my stomach and got him pretty well out. A stretcher bearer was right behind me waiting to attend him when another shell laid out the stretcher bearer completely, and laid me out with these wounds in the leg. I had to give up digging and lost myself for a bit. When darkness came, I crawled off and managed to reach the headquarters' dressing station half a mile away. After daybreak I was carried away under a white flag with other Canadians, who had had a similar experience.

"The Germans land only one shell in the front line for ten that go now into the supports, presumably to stop reinforcements being sent forward. The enemy artillery is heavy but ours is five times heavier."

THE CANADIAN PRESS ON THE BRITISH COLUMBIA ELECTIONS FORESHADOW A NEW PARTY

In showing today what the people and press think of the British Columbia election, we believe we will be furnishing good reasons why a new party is needed in Canada.

Press comments on the British Columbia election accumulated and exchanged as come in from all parts of the country. In nearly every case tribute is paid to the ability and influence of Sir Charles Hibbert Tupper, some of the Conservative papers are inclined to think that the result is a victory for Sir Hibbert and the Independents, rather than a win for the Liberal party. The Montreal Mail interestingly discusses the election and its result. Many contributing causes are suggested, such as the personal unpopularity of Mr. Bowser, who was suspected of intriguing against and supplanting his former chief, Sir Richard McBride. Rather cryptically, The Mail goes on to say:

There were questions, too, which could only be adjusted from Ottawa, and the Conservative made no secret of the fact that it was impossible to get any action, or even as they claimed, a proper hearing at the federal capital.

The Mail, by the way, does not admit that the Bowser and the McBride governments were corrupt, but other staunch Conservative newspapers have no hesitation in saying that a house-cleaning in British Columbia was badly needed. The Kingston Standard says that loyal Conservatives like Sir Charles Tupper were forced by their regard for public decency to put Mr. Bowser and his followers out of office. The Stratford Herald says the many British Columbia Conservatives put country before party and turned the Bowser government out of office. Referring to the victory of prohibition at the B.C. referendum on Thursday last, The Herald says:

More significant than the ministerial defeat was the victory of prohibition. When British Columbia votes "dry," the temperance cause has advanced progress. Ontario electors who are keeping alive dreams of this province returning to license surely cannot fail to recognize that liquor's day is past.

The Montreal Herald hailed the result in British Columbia as a Liberal victory and declared:

The striking victory achieved by the Liberal party in the British Columbia election was not unexpected even by the Conservatives themselves. The administration given to the province under Conservative government has been characterized by an orgy of wild expenditure and an utter disregard of the rights of the common people. For the people to have condoned the shocking mismanagement and the wholesale bartering away of valuable public rights perpetuated by the administration which has now gone under, would have been for them to have identified themselves with proceedings which were a disgrace to the province and to the Dominion.

The Ottawa Citizen hails the result in British Columbia as a step forward for the Pacific province. It notes with satisfaction that votes for women and prohibition both carried by large majorities. For the prohibition victory, credit is given by The Citizen to the fearless campaign of The Vancouver World and its editorial columns to liquor advertisements and made a vigorous fight against the traffic.

The London Free Press thinks Mr. Bowser suffered for the cause of prohibition which, though it carried at the polls, did not command anything like unanimous support. The Hamilton Spectator is inclined to think that only provincial issues cut any figure in the election and says:

On the face of it, the overturn in British Columbia looks like a Conservative defeat. Really it is not so. This will appear when the circumstances are considered.

For a long time after its union with the Dominion, British Columbia retained very much the spirit of its former status as a separate British colony. It was British, but not thoroughly Canadian. All provincial elections turned on provincial issues. So, to some extent, it is today. The issues

"On our right the enemy maintained his hold on the high ground northwest of Leuze Wood, and our efforts to dislodge him were not successful. At the Fourcaux Wood, however, the enemy began to surrender when both his flanks were turned and by 11 o'clock the whole wood was in our possession.

"We thus gained not only practically the whole of the ground between the Combles Valley and the River Ancre, but are well down the forward slopes. Thanks to our excellent artillery observations thus afforded, we are in a position to inflict heavy punishment on the Germans. Our armored cars gallantly led the action, knocking out machine guns and inflicting heavy losses by their machine gun fire, enfilading the German trenches and causing indescribable demoralization in the enemy's ranks.

Counter-Attacks Began.
"On the night of the 15th the enemy began to counter-attack with forces hastily brought from all directions. These counter-attacks continued through the 16th, and were all repulsed with heavy losses to the enemy. The New Zealand troops, after gaining their objectives on the 15th were particularly heavily counter-attacked, and not only stood their ground and punished the enemy severely, but even made some progress.

"On the 16th our troops made further progress, especially in the direction of LesBouffes. In the course of the above operations, and in close connection with them the new army troops have skillfully and gallantly extended our gains south of Thiéval, seizing trenches and capturing hundreds of prisoners. The result of the fighting is of great importance.

FLORINA YIELDS TO FRENCH BULGARS FLEE IN DISORDER

Enemy, Striving to Reach Monastir, Reported Surrounded—Florina Falls After Desperate Struggle Lasting Day and Night— Serbs Triumph in Lake Ostrovo Region.

LONDON, Sept. 18, 9:33 p.m.—The French war office announces tonight the capture of Florina, an important town in northwestern Macedonia. A brilliant victory was won by the French after severe fighting for a day and night, and the Bulgarians are now retreating in disorder toward Monastir, seventeen miles to the north. An unofficial report from Athens says that the retreating enemy has been surrounded by Franco-Serbian troops. Further notable Serbian successes in the Lake Ostrovo region are officially reported.

Serbs' Rush Irresistible.
The official statement follows: "East of the Cerma Serbian troops have reached the approaches to Mount Vetrnik and repulsed violent Bulgarian attacks. Taken under barrage and machine gun fire, enemy contingents suffered heavy losses. Further west Serbian detachments continue to advance despite the difficulty of the ground, and have with a single rush carried along the crest of Kaimakalan the first Bulgarian line, which was strongly organized and defended by numerous entanglements. Enemy counter-attacks launched during the night were repulsed completely.

"Northwest of Lake Ostrovo Serbian infantry continues the crossing of the River Broda, while the artillery

WAR SUMMARY THE DAY'S EVENTS REVIEWED

IMPORTANT allied successes over the Bulgarians in the fighting north of Saloniki were won yesterday, according to the official communication issued on this Balkan campaign at Paris last night. The Franco-Russian forces defeated the enemy in a sharp struggle before Florina, lasting about 40 hours, drove him in disorderly flight towards Monastir, and occupied Florina. The Serbians fought a successful action in the neighborhood of Lake Ostrovo, reached the approaches to Mount Vetrnik, and carried the first line of Bulgarian defences on the crest of Mount Kaimakalan. They are also continuing to cross the River Broda. The campaign as it is developing has become a movement to turn and smash the Bulgarian left flank, which was probably weakened to send troops to occupy Kavala and other Greek towns. The allies are now entering Serbian territory.

In further fighting south of the Ancre in France yesterday the British troops captured a powerfully fortified German work known as the Quadrilateral, and situated between Bouleaux wood and Ginchy, enabling them to advance their line to a depth of 1,000 yards on a frontage of a mile. They also beat off German counter-attacks launched north of Fiers, and then they made progress. In the 24 hours' operations preceding the moment of reporting, the British took 500 prisoners. Their success between Bouleaux wood and Ginchy enables the British to co-operate with the French more closely in encircling Combles. The progress north of Fiers gives the British a convenient salient from which to launch another powerful blow against a new German line of defence hastily constructed about two miles east of Fiers and before Bapaume since the actions of the Somme began.

North of the Somme yesterday the French attacked and won a group of trenches about 220 yards below Combles, taking 50 prisoners. South of the Somme they drove the Germans out of the remaining portions of the positions in the lines between Barletz and Vermandovillers, stormed on Sunday. In finishing their work on these positions, they drove the Germans out of Deniecourt and pursued them for a distance of about five-eighths of a mile southward towards Ablaincourt. They also occupied a trench west of Horgny, and ousted the enemy from three small woods southeast of Deniecourt, as well as from several trenches to the

BRITISH TROOPS TAKE QUADRILATERAL WORK

Carry Powerful German Redoubt and Advance Thousand Yards on Mile Front Near Combles—Extend Gains Also North of Fiers on Somme Front.

LONDON, Sept. 19.—An important success was won again by the British army on the front south of the Ancre in Flanders today. In the capture of the Quadrilateral, a redoubt a mile long and a thousand yards broad, and one of those German fortified positions with great skill and cunning by German engineers, with the object of making the German lines impregnable.

The Quadrilateral was situated between Fourcaux Wood and Ginchy, and it occupied the remaining strip of high ground that had been left in German hands after the great advance of last week. This vast redoubt fell before a British assault yesterday afternoon. The British took seven machine guns and numerous prisoners.

Advance North of Fiers.
The British also succeeded after beating off German counter-attacks north of Fiers in pushing their lines

Further forward in sharp fighting. This work is preparatory for another drive upon Bapaume, between which and the British there intervenes only one more hastily constructed German system of trenches.

Five hundred prisoners were taken by the British army in this region in the past 24 hours.

The British official communication issued tonight says:

"South of the Ancre our troops made another important advance today. A strongly fortified German work situated between Bouleaux Wood and Ginchy, known as the 'quadrilateral,' which hitherto resisted our efforts, has fallen completely into our hands. As a result of its capture our line has been advanced to a depth of about 1000 yards along a one mile front.

TELLING THE TALE BY TABLEAUX

—The Interesting Tale of The New Autumn Mode In Women's, Misses' and Children's Apparel

WAX MANNEQUINS so life-like that you think they are human, and living mannequins so still, and so perfect of feature that you think they are waxen—both play their parts to perfection, exploiting with infinite chic the masterpieces of French and American couturiers. Arranged in groups they are appropriately gowned for the various diversions and duties of the day—one little coterie in smartest of tailored array for shopping; an interesting quartette in the flatter, frillier frocks demanded by the afternoon tea party; another group in swagger sports toggery; a party of juvenies testifying to the attractiveness of simplicity, straight-line and serge; and most impressive of all the figures in the grand stage scene clad in the sparkling panoply of evening attire. Anyone interested in equipping her Autumn wardrobe—school girl, "flapper," young matron or dame of maturer years—should not miss a view of the Tableaux. They are staged along a broad promenade on the Third Floor. Tickets for the enclosure may be had at the Tableaux of Fashion Bureau, Third Floor.

Wonderfully Smart Suits From New York & Paris

Offer Themselves to the Woman Who Wants an Interesting, Exclusive Costume for Autumn and Winter Wearing

SOFT, SUEDE-LIKE FABRICS such as duvetyne, wool velours and Bolivia cloth, compose the majority of the models. And with collars and cuffs of moleskin, Hudson seal, skunk or one of the modish fur plushes, they constitute the most attractive Fall costumes the well-dressed woman could sigh for.

Amongst them are these:

In wool velours in a beautiful tone of Havana brown, a New York suit with long, belted coat, the collar of which is in round cape style bordered with seal rat. Price, \$80.

From Bulloz, of Paris, a stunningly smart costume in putty color broadcloth, beautifully cut in indefinable French fashion, the long-waisted coat showing effective touches of mahogany tinted embroidery, and narrow bandings of moleskin. Price, \$75.

From Cheruit, of Paris, a charming suit in tan wool velours, the very long semi-fitted coat having raglan sleeves. Price, \$75. Delightful suit in Burgundy velours, the lines of the coat conspiring to the long, slim effect of latest vogue and boasting a long monk's collar of moleskin. Price, \$125.

A model from Lina Moulton, of Paris, in peacock blue duvetyne, the redingote showing a chic little collar of gray fur plush. Price, \$75.

And anticipating the skating season, a tremendously smart sports costume in scarlet homespun, the loosely belted coat having facings of silver grey broadcloth—from Louis, of Paris, and priced, \$75. —Third Floor, James St.

Superb New Models in Coats of Hudson Seal

Swirling Around the Ankles to a Width of 100 to 120 Inches, and Boasting Most Generous Collars of Contrasting Fur.

LOOKING FORWARD TO- WARDS WINTER, it is the coat of seal rat—known in the vernacular as Hudson seal—which claims, yea, monopolizes, attention. Already the showrooms are all agog with the ordering and purchasing of it.

Imported models and the clever productions of our own furriers vie with one another in charm and distinction. Never before, surely, were their lines so luxuriously ample or their collars so bewitchingly becoming. And the wide swirl around the lower edge is the essential mark of style.

Pelts of excellent quality and workmanship of high standard characterize all coats in the display. The combination of exclusive design and good value marks it throughout. Here, for example, is a typical group of models.

From Reveillon Freres—a copy by their New York furriers of one of their latest Paris models—a coat in Hudson seal (seal rat) of beautiful color and sheen, with long stole collar and deep cuffs of taupe fox, the same fashionable fur bordering the wide rippling skirt. Price, \$450.00.

Likewise in full swirling style is a handsome coat in seal rat with wide, round collar of skunk, the latter bordering the wide muff sleeves. Price, \$240.00.

With gleaming black lynx forming collar and cuffs, and bordering the wide flaring skirt, is a beautiful seal rat coat at \$260.00.

Slightly fitted at the back is another coat with wide square collar of skunk at \$235.00. Strictly plain in line is a seal rat coat with wide monk's collar of its own fur. Price, \$245.00.

In the more youthful coats in misses' sizes is a charming model 36 inches long with collar of skunk, the edge of the skirt swirling to a width of 100 inches. Price, \$155.00.

40 inches long, with a swirl of 94 inches, is another misses' coat in Hudson seal (seal rat) bordered with skunk, with collar and cuffs of the same. Price, \$165.00. —Third Floor, Yonge St.

Revised from the bygone age of Victoria this quaint little tippet is not an oddity among the season's neck-pieces, but an institution—one of the many cape-like effects which are the prevailing mode in fur scarves. Like the muff at the right of the sketch this certain tippet is of fine Scotch moleskin, edged around the neck and finished off in front with ermine—price \$75.00.

Contracting itself to the size and shape of a football, the muff that plays the leading part this season leaves it to the fur cuffs of the coat to be long, wide and roomy. This particular muff of the sketch is in the fashionable moleskin—price, \$32.50.

Lost in its modish straightness and simplicity it should appear too ingenuous, this charming little gown in navy blue charmeuse has its pockets and bib-like fronts embroidered in silver, and exploits a charming contrast in its color scheme, the under-blouse and side sections of the shirt being of smoke gray crepe. It was designed by its clever New York maker for a slight, youthful figure, and is one of the attractive exhibits from the Misses' Department. The price is \$85.00.

Harshing back to mediæval days Fashion has adopted the long waist-line for some of her smartest frocks. For example, this New York model, illustrated above. Navy blue charmeuse—ultra-modish among the season's fabrics—composes it, with silvery grey charmeuse serving for collar, cuffs and the long front panel which affects the appearance of an underdress. The price is \$50.00.

Just arrived from Paris, where it figured at the recent "openings" of the Maison Maurice Mayer. The foundation is white satin, the long flat line upon which the season insists being accentuated by exquisite rose and blue embroidery, and clinging overdress of creamy lace. An original creation of a master modiste it is priced \$250.00.

They call it the monk's collar, because of its resemblance to the cowl on the robe of the old Franciscan friar. It is the collar of the season, ousting from fame the funnel collar of a year ago. When open it stretches out flat and broad across the shoulders. When closed it is soft and supple enough to be drawn up and muffled snugly around the throat. As shown here it is moleskin, and embellishes most charmingly a plain tailored suit of Russian green wool velours—a New York model priced at \$150.00.

No one looks smarter in the new one-piece dress than little Miss School Girl of fourteen or younger. This frock in the drawing to the left expresses the idea in a very pretty manner. It is a New York production—in nut brown serge with girdle and collar of brown satin, the little over-collar being of tan rafah silk. The price is \$30.00.

A Galaxy of Lovely Gowns For Afternoon and Evening

Some of Them From Paris, Some From New York, and All of Them Delightfully Chic and Distinctive

PARIS WITH WAR AT HER VERY GATES still carries the palm as creator of styles. And for this Autumn season of 1916 her great couturiers have verily excelled themselves in their picturesque interpretations of the new mode. The gown of the straight, slim line is charmingly feminine and refreshingly simple. And the Dress Department is justly proud of its splendid collection of original French models and New York reproductions of French designs.

In the Tableaux and in the show-cases in the little Rose and Gray model rooms will be found a fascinating choice in gowns for all occasions. Notice these four in particular:

An alluring evening gown—a Paris model—in oyster white crepe de Chine embroidered in silver, made in semi-fitted princess style with sleeves and skirt flounce of black net beaded with jet sequins, the latter forming the chic little pointed train. Price, \$125.

Another evening gown in silver brocade—from Brandt, of Paris—is suggestive of the *Moyen Age* in its long waist-line and fringe of pearls edging the clinging skirt. It has a filmy double train of white tulle. Price, \$125.

In the fashionable navy blue serge, a delightful example of the pleated one-piece gown, a black and yellow striped belt running under the bodice. This is a New York model—priced, \$45.

From the great Paquin, an exquisite afternoon gown in black gros grain silk with angel sleeves and deep flounce of black Chantilly lace, blue bead-embroidered net and flesh color crepe composing the front of the bodice. Price, \$115.

Paris Model Dresses at \$49.50

ON SALE WEDNESDAY AT 10.30 A.M.

As the remaining models from earlier Autumn consignments of Paris gowns, these will be offered for quick clearance on Wednesday at a price which is a mere shadow of the regular amounts. Included are afternoon and evening dresses in satin, crepe de Chine, net, and taffeta from such distinguished modistes as Bernard, Jenny, Douillet, Lefroy and Premet. The season's happiest ideas in collars, sleeves and ornamentation are represented in the collection, the choice of colors including black and white, brown, silver gray, tan, and navy blue. Wednesday at 10.30 a.m.—\$49.50. —Third Floor, James St.

CHURCH CONCERT WAS A SUCCESS

Victoria Presbyterian Choir Ably Assisted by Donald C. MacGregor.

REDECORATE CHURCH Splendid Entertainment Held to Provide Funds for Improvements.

To Victoria Presbyterian Church choir, under the able leadership of Donald C. MacGregor, belongs the honor of giving the best concert held in a Toronto church in a long time.

The entertainment was held by the choir in order to assist the members in their efforts to raise money to redecorate the church.

During the evening Miss Helen Wilson presided at organ and piano, and opened the concert with a festive march that showed superb control of her instrument.

Harold Jarvis was at his best, and even exceeded the usual choice program he affords his old friends when he revisits Toronto.

Miss Florence Ralston contributed a solo, "The Fairy Pipes," in which she was able to use her soprano notes to advantage.

The choir in the four selections, "Lovely Maidens of the Dawn," "Maiden of Harlech," "National Anthem of the Allies" and "The Rosary," showed their splendid ability both in individual rendition and in ensemble.

Miss Florence Ralston contributed a solo, "The Fairy Pipes," in which she was able to use her soprano notes to advantage.

MAY PRECIPITATE A LEGAL BATTLE

Township School Trustees Resist Policy of Board of Education.

Levy Dollar-Eighty Per Month for Each Pupil Attending School.

It is possible that the erection of Kitchener School on Pape avenue by the Toronto Board of Education in school section 27 of the Township of York, and the policy of the board in demanding a tuition fee of \$1.80 per month for each township pupil attending it, may precipitate a legal battle between the civic body and the trustees of the township school section.

BIG CAMPAIGN ON OCTOBER NINETEEN

Red Cross Society Appeals to Empire on Trafalgar Day for Assistance.

NEED LARGE AMOUNT

Require Almost Nine Million, Says Dr. Abbott—Ontario Headed List Last Year.

A Trafalgar Day Red Cross campaign will be conducted this year as it was last year, when Ontario headed the list of contributors from all parts of the empire with \$1,512,655.74. Dr. A. H. Abbott, secretary of the organization of resources committee, made the announcement yesterday. He was largely responsible for the organization work last year. This will be the first large work undertaken by his committee, which has been in process of organization through the province for several months. As last year the appeal has been sent out by the British Red Cross to all parts of the empire. It received the immediate approval of the Ontario government. Trafalgar Day falls on Oct. 19.

"With its ambulances, hospital trains, hospital ships and thousands of hospital beds, the daily cost is so much that no generosity on our part can be too great. Its activities are spread over every battlefield in Europe, Asia and Africa, for it is thru the work of the Red Cross that our sick and wounded soldiers and sailors are cured for."

LIQUOR FIRM ASKS LEASE CANCELLATION

The William Marx Co., Ltd., 94 Yonge street, is the first firm to appeal to the license board for cancellation of a lease for premises where a liquor business was conducted under a license before the passage of the Ontario Temperance Act. The board is to consider the matter yesterday, but has not yet given its decision.

TABLEAUX OF FASHION ON DISPLAY AT EATON'S

Handsome Suits and Exquisite Evening Gowns Arranged for Fall Openings.

BOLIVIA A NEW MATERIAL

Best Houses of New York and Paris Represented in the Collection.

Real living models and the waxen imitation were so artistically mixed at the tableaux of fashion on the third floor of the T. Eaton Co. yesterday, that it was sometimes difficult to discern one from the other.

"Yes, she's alive," said a woman with her eyes on a model posed on one of the platforms, "and she doesn't move an eyelash. And isn't she pretty?" and the procession of women surged about the living representative of woman in her latest attire, fascinated even more by her skill in posing than in the beautiful gown in which she was adorned.

Handsome suits and exquisite evening wear are the order for the fall of 1916. So rich and enticing are the outing costumes and so elaborate are many of the gowns that it would almost seem as if the couturiers had sent extra attractions in the way of allurement to offset the homilies on

thrill in the matter of dress. Warm, woolly materials for outing and glittering materials for social functions—such is the demand in lady of fashion.

BOLIVIA IS NEW MATERIAL

A new material is Bolivia with its peach-like pile of the suede order, adapting itself to soft greens, burgundy, taupe and prune tints. Wool velours is another of this season's favorites, and the run of fur as a trimming is almost universal. The coats shown in the tableaux are nearly all long and loosely belted. The flare from either coat or skirt is almost a thing of the past, the silhouette of the slim figure being once more in vogue. High collars of fur with cape collars of the material, together with deep cuffs, also of the fur are seen on many of the coats. It was noted that separate stoles and neckpieces are scarcely to be a need of the season.

QUINT French Frocks

A quint French frock that attracted much attention was made over a pellicot of cream net, edged with silver, the upper skirt of three flounces of Dresden ribbon and chiffon, the middle one being of the softer material, and the old-fashioned flowered patterns in pinks, blues and greens being the theme on each. The waist giving it a most handsome finish, the surplus effect ending in a short plait.

The sleeves of Georgette crepe are quite a new feature being shirred down the back on each side of an opening which leaves the arm exposed. They are finished at the wrist with a narrow frill of the silver net.

DIVED FROM THE BRIDGE OF STEAMER DALHOUSIE

Mermaid, Appearing at Local Theatre, Made Plunge Into icy Bay.

One hundred people were on the dock at the foot of Yonge street at 12 o'clock noon yesterday eagerly awaiting the arrival of Mermaid, who is appearing at the Star Theatre this week, to fulfill her advance publicity work, to dive from the top deck of the steamer Dalhousie City into the bay.

Mermaid, Appearing at Local Theatre, Made Plunge Into icy Bay.

Every town in which Mermaid appears should the climate permit, she offers to dive from one of the largest boats. The weather was chilly yesterday, and many thought that she would not dive. However, just as the 12 o'clock whistles started to blow the dainty young woman appeared on the bridge of the steamer. She stood on the railing for a few seconds, then plunged down into the icy water.

Mermaid was born and raised in Cincinnati, and all of her family were swimmers. Her father was a swimming instructor for 45 years. Shallow water should the climate permit, she and she claims that she never goes deeper than 3 feet into the water whenever she dives. At the age of 15 she competed in a diving competition in the States against nine men, and of this number was successful in defeating seven of them at shallow diving.

MASQUERADER CHARGED WITH FORGING CHEQUE

John Mott, Arrested in Uniform, Admits Guilt—Had Morphine in His Possession.

Charged with forging a cheque for \$27 in the name of "Sergt.-Major Simpson," John Mott, who has been masquerading in the uniform of a deserter, appeared in the police court yesterday, and was committed for trial.

Mott is said to have entered the furniture store of E. B. Johnson, Broadview and Queen, represented himself as a recruiting officer, and ordered some furniture for which he forged the cheque. To Detective Stewart, Mott admitted having made out the cheque himself.

On charges of having morphine in his possession and uttering a false prescription, Mott was remanded till Wednesday.

TRADED WITH THE ENEMIES OF KING

Stanley and Helen Konopka Fined Hundred or Three Months in Jail.

TO HELP FRIENDS

They Sent Money to Number of Persons in Austria and Galicia.

Judge Winchester in the sessions yesterday found Vaclav Chvostek guilty of criminal negligence, and he was remanded for a fortnight for sentence. While Chvostek was driving the staff automobile of the 19th Battalion, on the 17th of June when out with some friends he struck Mrs. Lancaster, who was waiting for a street car.

Michael Boychek was also found guilty of criminal negligence on June 30 when he failed to stop his bicycle behind a standing car at the corner of Queen and Spadina, running down Mrs. Geo. Daniels and her child. He was fined \$50 and costs or 3 months in the Ontario Reformatory. Ten dollars of the fine, if paid, will go to Mrs. Daniels.

Chris Phillips and Mazon Angel were found guilty of receiving a bag of sugar, the property of the Parsons and Brown Company, and while Phillips was allowed out on suspended sentence, Angel was remanded for two weeks in order that his record might be investigated.

Albert Murphy appeared for sentence as the result of being found guilty of indecent assault in the trial last week. He received a sentence of 30 days' hard labor.

William Singer was allowed out on suspended sentence, as restitution had been made in connection with the case in which he was accused of obtaining \$100 from the Crown Life Insurance Company by false pretences.

Stanley and Helen Konopka were both found guilty of trading with the King's enemies, and were each fined \$100 or three months in the Ontario Reformatory. Two weeks' time was granted them under bond to raise the amount of their fine.

Mrs. Konopka traveled to Buffalo and sent money for several friends to their relatives in Austria and Galicia. One witness stated that the money had been sent to his wife and child who were starving and had to travel over the snow in their bare feet. The woman's husband was aware of her action and was charged with the offence. J. T. Harding, counsel for the plaintiffs, asked Judge Winchester to interfere in the act so that the starving wives, mothers and children, but he held them guilty under the act.

PERMIT IS GRANTED BUT CHURCH PROTESTS

The feature of yesterday's property committee meeting was the appearance of a deputation from Wychwood Presbyterian Church, who objected to the erection of a motor service station at the corner of Vaughan road and St. Clair avenue. The committee heard the argument, then granted the permit, M. J. O'Leary, for the Canadian Oil Co., which is establishing the station, declared that the opposition originated from the American Trust, which sought to prevent his concern from doing business anywhere.

CHARGED WITH THEFT

Charles Wisnietki, 9 Bulwer street, was arrested by Detective Armstrong yesterday afternoon, on a charge of stealing \$20 from Louis Bornstein, butcher, for whom he worked. The stolen money consisted of payments made to Wisnietki over the counter, which he is alleged to have failed to turn over to his employer.

CHAIRMAN FLAVELLE IS PLEASSED WITH HOTELMEN

Expresses Satisfaction With Their Obedience to New Temperance Act.

J. D. Flavelle, chairman of the license board, expressed great gratification yesterday at the hotelmen's part in the quiet passing into effect of the Ontario Temperance Act on Saturday last. Regular mail at 6 a.m. Tuesday, Sept. 19, 1916. The parcel post mail, carrying newspapers and parcels, will close at the general postoffice at 6 a.m. Saturday, Sept. 23, 1916.

Any difficulty which they might encounter in enforcing the provisions of the act would not come from the hotelkeepers, he anticipated, but from outside. The board's inspectors would be on the alert to catch such offenders, who would be severely dealt with.

Col. Denton's action in dismissing, was a serious warning to the large number of "drunks" who had been gathered in by the police on Saturday night was commended by the chairman of the board.

Doctor Tells How To Strengthen Eyesight 50 Per Cent. In One Week's Time In Many Instances

A Free Prescription You Can Have Filled And Use at Home.

Philadelphia, Pa.—Do you wear glasses? Are you a victim of eye strain or other eye weakness? Do you find it difficult to know that, according to Doctor Lewis, there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read anything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel like the tips of my fingers. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Buy

troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get 6 bottles of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Philadelphia physician who was submitting a report on "Bon-Opto" is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturer guarantees it to strengthen eyesight 50 per cent. in one week's time in many instances of eye weakness. It can be obtained from any good druggist, and is one of the very best for regular use in almost every family." G. Tamblin sells it.

TUESDAY MORNING, SEPT. 19.

Give the New Law a Fair Trial

Prohibition is now the law, and the law must be enforced so as to give it a fair trial. The duty of obeying it comes home to everyone, especially to the legislators that passed it, cabinet ministers, government house, the lunch rooms of the legislature, the license department and its officials, policemen, constables, judges and magistrates; also clubs, hotels, committee of one hundred.

The trouble will be with illicit sale of whiskey, and here will be the real test of the law.
 The license department should collect statistics of all importations by householders of spirits, wines and beers; also of all sales under permits issued to doctors, druggists, manufacturers, etc.; also as to convictions under the law; also concerning similar laws in other provinces; also as to the consumption of pink beer, and of the export of strong beer out of the province.

Every encouragement and assistance ought to be given to the hotelmen, who are continuing in business to serve the traveling public and restaurant patrons. The restaurants ought to be encouraged to maintain well appointed kitchens, lavatories, good grub well served, laundries, all essential accessories. The help should be healthy and well paid.
 To do all this the public must be prepared to pay reasonable prices, and give every encouragement from their side of the deal.

Was it a German Outrage?

Nothing appears to have occurred to anyone in connection with the Quebec bridge second catastrophe except that it was a dreadful accident. For the philosopher and the business man alike there are no accidents. There is a reason. It is possible that the reason for the collapse of the centre span on the 11th was the result of careless construction. On the other hand the cheerful way in which the news was received in certain circles in the United States makes it possible to imagine that the faulty construction was deliberate. It seems to be agreed that it was not the lifting tackling that was to blame, but something in the span itself. A few loose rivets at a critical point, perhaps one or two, would be sufficient to weaken the structure where the strain of lifting was to be concentrated.

The number of accidents that have happened to government and public property since the war began still leaves many people unconvinced that the enemy has had anything to do with them. Parliament buildings have been burned down, railway depots consumed, factories destroyed, and various attempts made and frustrated fortunately before they were successful in their effort at destruction.
 These things did not happen before the war, but Canadian legislators and government officials appear to be unconvinced that the Germans have anything to do with these sinister occurrences. It is true that the destruction of a C.P.R. bridge was attempted and the agent of this affair, caught red-handed, proved to be an emissary of the German Government. No one in the United States doubts the connection between Von Bernstorff and these events. Of course, he repudiates them, but the correspondence seized by the British Government in the baggage of the dismissed envoy established the existence of the link.
 It would be quite natural that Germany should try to injure Canada and delay the transportation of troops by the destruction of the Quebec bridge. Germany's policy of frightfulness aims at terrorizing feeble folk, but we trust the Ottawa Government is not really so feeble as all that.
 If the Germans have been instigating

war measures against Canada, there is no reason in the world why these crimes should not be brought home, and such reparation as money can provide be included in the terms of peace to be settled at the close of the war. If the fall of the centre span of the Quebec bridge, or the burning of the parliament buildings in Ottawa was due to the Germans, there is no reason why they should not pay for it when they are defeated. Canada would have to pay a heavy indemnity to Germany if the allies failed to win the war.

That Flood of Gold

There is something morbid in the financial situation as it is viewed by the big financiers of the United States. These gentlemen are in something like a panic over the never-ending flood of gold that is pouring from London to New York. Since September 1, no less than \$55,000,000 has been received, and the stream shows no sign of abating. The great inflow of specie is causing inflation no less inevitably than would a monster issue of paper currency. Prices are high and money cheap; could there be any greater incentive to stock speculation?
 The British Government with American securities to dispose of in New York, is anxious to have a bull-market and easy money in the United States. Hence the golden flood, which sweeps the New York market beyond local control, keeps steadily rising. In the end somebody will be badly bit, but it will not be the British Government.

The Movie in Politics

The picture play is to be used as a campaign document in the presidential contest. The Rochester Herald is authority for the statement that films are being distributed all over the United States, and will soon be in action showing among other things the atrocities committed during the past year or two in Mexico. A number of the pictures will deal with the outrages committed upon priests and nuns by the revolutionists. Each harrowing scene of this kind will be followed by a picture of President Wilson in his study at the White House fast asleep.

General Public is Investing in a Most Gratifying Manner.

By a Staff Reporter.
 OTTAWA, Sept. 18.—The second Canadian war loan is already an assured success. The chartered banks have agreed to subscribe \$50,000,000 in proportion to paid-up capital. However, it is very unlikely that these subscriptions will be required, so well is the general public coming forward. It is believed also that the minister of finance will give the subscriptions of the general public priority of allotment over those of the banks, that is to say, that the banks will only be allotted so much of the \$100,000,000 as is not taken by the general public.
 Banks Respond Well.
 Upon the conclusion of his arrangement with the Bankers' Association as to the services to be rendered by the Canadian banks in connection with the war loan, Sir Thomas White wrote Mr. E. L. Pease, senior vice-president of the association, as follows: "I desire to express thru you to the association, my deep appreciation of their action in connection with the loan. Since the outbreak of the war I have met with nothing on the part of the banks but a cheerful and patriotic willingness to assist and co-operate in every way possible, and I need not say of how great assistance and encouragement this has been with financial problems of, to us, unprecedented magnitude and responsibility. The conduct of the banks during this trying period has been deserving of all praise and I cheerfully pay the association by tribute of appreciation and gratitude."

Rural Route Couriers

Editor World: I wish you would take up the case of the rural route courier, whose position under the present system is not an enviable one.
 For the information of your readers who are not familiar with the conditions—the courier at present obtains his position by tender, which places him in the position of a contractor; the public do not obtain the best service, for the reason that there is no continuity promised; the successful tenderer last year may lose his job by being a few cents higher than the successful tenderer this year. There is no incentive to give good service, but rather the reverse, because by skimping and starving the service, you make more on your contract.
 The couriers should be appointees of the government, in the same manner as postmen in the city, and come under the Civil Service Act.
 I am glad to hear that a movement has been inaugurated by the couriers in the County of Peel, who are forming an organization with this object in view. I hope every county in the Dominion will do likewise, and in a short time we will have a Dominion organization, and be able to get our claims before the government.
 The public are interested in obtaining a better service. The courier will do better work as a civil servant, as it will be his life job, and he will be subject to the discipline of the department, and the public will have greater confidence in the man, knowing he is a government employe. His duties can be increased, so that they will become practically a traveling postman.

THINGS TO WORRY ABOUT

RUSSIANS RESUME DRIVE ON LEMBERG

Slavs Subject Halicz Again to Most Violent Pressure.

LOOK FOR GIVING WAY

Petrograd Officials Believe Von Bothmer's Army is Weakening.

PETROGRAD, Sept. 18.—News of a new series of battles in the general neighborhood of Halicz, in Galicia, ends an almost unprecedented period of quiet existing on all the Russian fronts except that in Asia Minor, where the Turks, without marked success, are steadily repeating their efforts to launch an offensive against the left flank of the Russian Caucasian army. Thus, after weeks of suspended activity, Gen. Brusiloff has energetically resumed his campaign against Lemberg. Halicz, which obstructs the way to that city from the southeast, is again subjected to the most violent pressure by the Russians, who are attacking north of Halicz on the Narayuvka River, where they are attempting to cut the railway from Halicz along the Narayuvka to Podvysoke. It is believed by Russian officials here that the left flank of the army of the German Gen. Count von Bothmer, will soon be obliged to give way before the fierceness of the Russian onslaught, leaving the way to Lemberg open from the north. It is noteworthy that in the first of the present series of battles, in which the number of German prisoners taken argues defeat for the entire German division, all three arms of the Russian forces contributed almost equally to the result. Russian cavalry particularly distinguished itself by executing a brilliant irresistible charge reminiscent of old-time warfare.

WHITE GRATEFUL FOR AID OF BANKS

Fifty Millions Offered as Subscription May Not Be Needed, However.

LOAN'S SUCCESS SURE

General Public is Investing in a Most Gratifying Manner.

By a Staff Reporter.
 OTTAWA, Sept. 18.—The second Canadian war loan is already an assured success. The chartered banks have agreed to subscribe \$50,000,000 in proportion to paid-up capital. However, it is very unlikely that these subscriptions will be required, so well is the general public coming forward. It is believed also that the minister of finance will give the subscriptions of the general public priority of allotment over those of the banks, that is to say, that the banks will only be allotted so much of the \$100,000,000 as is not taken by the general public.

FLORINA FALLS TO THE FRENCH

Important Town Taken by Assault After Day and Night's Conflict.

BULGARS FLEE NORTH

Serbian Play Important Part in Brilliant Success in Macedonia.

(Continued From Page One)

energetically bombards Bulgarian positions on the right bank.

Take Florina by Assault.

On our left wing Franco-Russian troops engaged strong Bulgarian forces on the Rona-Florina front. After a desperate struggle, lasting thru the whole day of the 17th and all of the following night, and despite the desperate resistance of the Bulgarians, they delivered a series of counter-attacks and cavalry charges, our troops gained a brilliant victory. The town of Florina, which was carried by assault at 10 o'clock this morning by French troops, and is entirely in our power. The enemy is retreating in disorder in the direction of Monastir.

Bold Strategy Failed.

Despatches reaching London describe the operations which resulted in the capture by the allied forces of Florina, Macedonia.

According to Reuters' Saloniki correspondent, the French column, in extending their line as far south as the region of Lake Ostrovo with limited forces, played a bold, but dangerous game. Success would have compromised the whole allied line, but lack of success was bound to prove costly by jeopardizing the whole Bulgarian front.

Persistent Attacks Succeeded.

The first wavering among the Bulgarians, says the despatch, was caused by the unexpected pressure of the French and Russians on their extreme flank, and the Serbians, profiting by this indecision, attacked energetically on the 15th and 16th. At first the Serbian infantry made little impression on the well entrenched Bulgarians, but after a strong bombardment with high explosives the Serbians carried line after line of trenches, compelling the Bulgarians to abandon the whole of their advanced position along the Malkandize range, with 82 guns, including two heavy guns.

The whole Bulgarian right wing fell back and the allies obtained command of the ranges dominating the Florina Plain.

Plans Well Concealed.

An Athens despatch to the Exchange Telegraph Co. describes the later phases of the concentration for the attack on Florina, which was carried out with the greatest secrecy. The contingents were divided into three parts in a convergent movement to connect at Florina. The Russians started from Verria, southwest of Saloniki, and proceeded by forced marches. A French column was directed against the same objective, while the Serbians in the region of Morovitz were ordered to repel the Bulgarians from the heights in the

vicinity of Ekshlau and Petroskou. The Bulgarians were decimated and fled, leaving everything behind.

On the north and northwest fronts there were no important engagements. South of Sibia, Hermandstadt, we took 40 prisoners and two machine guns. In the direction of the Danube there were violent combats.

On the south front, on the Danube, our artillery sank barges carrying munitions.

In Dobruja there were artillery duels. South of Kobadin a battery of Russian mortars silenced the enemy's heavy guns.

An aeroplane has dropped bombs on Turru Severin, on the Danube near the Iron Gate.

Firm Stand in Dobruja.

The Russians and Roumanians in Dobruja have been reinforced. Berber's states, and, after falling back for three days, have made a stand in a previously prepared position, on, roughly speaking, the line of Rachova-Kobadin-Turru Severin.

It is stated that German battalions captured five guns on the Danube south of Rasov, and that the Bulgarians make further claims of advances in Dobruja and reports that the Bulgarians are pressing upon the enemy in his new position, adding that the enemy appeared to have sustained great losses in the fighting of September 12, 13, 14.

The afternoon British statement said that the enemy had not developed any activity there had been no developments on the Struma or Doiran fronts.

HUNDRED AND NINTH HAD BIG TURNOUT TO DRILL

Regiment Had Many New Recruits at Bayside Park Last Night.

Owing to the fact that more than half of the members of the 109th regiment reside in the outlying districts of the city, the staff has decided to call all future parades at 8 o'clock. This will give the men ample time to get home from work have their supper, don their uniform and get to the Pearl Street Armouries in time to take their places in the ranks. This should increase the parade strength each night.

Headed by the brass and bugle bands, the regiment, 518 strong, paraded Bayside Park last night and company drill was carried on for over an hour. All branches of the service had big turnout. The march home was via Yonge, Queen, Victoria, Gerrard, Yonge, Queen, Simcoe, Pearl street and home.

Several recruits were out last night, and with men coming in daily Major Dinnick hopes to have the biggest parade in the regiment's history next week.

SPLENDID DIVING ACT AT THE STAR THEATRE

Mermaids and Her Diving Beauties Will Appear at Every Performance This Week.

Mermaids and her diving beauties this week offer one of the best and shallow water diving acts that have ever appeared before an audience at the Star Theatre. All kinds of fancy and high diving exhibitions are given by the trio of water queens. One dive that was very funny was the "Charlie Chaplin" dive, in which the diver, dressed in a laddie far above the stage setting.

Vaudeville specialties stand out with the performance of the Lady Buccaneers, Florence Owen and Fred Hahn give a good cymbal shoe dancing act. Madeline Rows and Claude Kelly offer a ten-minute farce on some of the misfortunes of the show.

The remainder of the show is taken up with the farce "Spending a Million," in which Fred Hackett and J. Benette are the comedians. Floresto McClood works hard with the chorus to put life in songs and dances, the best of which is the rendition by the company of the cakle walk amid a pretty and fitting setting. There is the usual number of girls in the chorus.

PREMIER ASQUITH'S ELDEST SON KILLED

Raymond Asquith Gave Up Brilliant Career to Serve at the Front.

LONDON, Sept. 18.—Raymond Asquith, son of the British prime minister, was killed on September 15, it was announced today.

Mr. Raymond Asquith the eldest of the five sons of the British premier, was only 35 years old, but had already made a name for himself at the English bar, and was to make an attempt to enter parliament as Liberal representative for Derby at the next election.

He went off before him at Oxford University, his career there being a strangely reminiscent of his father's in the number and nature of the academic distinctions he won. He was president of the Oxford Union in 1901. Like his father, he was a scholar of Vallon.

PLAYS, PICTURES AND MUSIC

COMEDY'S FLAVOR JOY OF AUDIENCE

Brilliant London Company Scores in "Pair of Silk Stockings."

AT THE ALEXANDRA

Life in a Flat

Trials of Young Married Couple Thoroughly Amused Large Audience.

Brilliant successes, like Cyril Harcourt's "A Pair of Silk Stockings," depend very largely on the perfection of their production, and in seeing the Shubert company at the Royal Alexandra last night, it was easy to understand how such a clever piece of comedy could run for a year in London and New York and be so successful in the provinces.

Granted that it is a light comedy, the lighter wands, there are to produce the suggestions of the graver interests and the deeper emotions of life to attract a sober attention, while the plot is ingenious enough and the dialogue sparkling, do not prevent the observer at the unfolding of the story from the rise to the fall of the curtain. One sterling merit of the piece is its characterization. As they appear at first, the whole group leaves no impression of anything but of a set of frivolous and unoccupied people, for whose idle hands Providence or Lucifer, as Lady Geary suggests in one passage, might find something to do. The action of the play occurs at Sir John Geary's country place, and the indications, though not lavish in both setting and costume, there has probably been a considerable expenditure of money.

This is as it should be. Mollie Thornhill is exactly the sort of woman to put the cost in costume. A group of these worldly girls, smoking, gossiping, somewhat catty in their remarks, and with a certain superiority ethical code of these people of the world to that of the vicar and his followers, is a couple of hours' entertainment.

The story opens with the attempt of a housemaid to seduce the audience's attention by her own amateur performance of Tom Robertson's "Casta," and this is followed by the entrance of Sam Thornhill, a part taken by Langdon Bruce, in a way reminiscent of the "Casta" scene in "The End of the Road," and accounts for his demeanor by remarking that he is a "quiffy" of late, and that he has been "divorced" by his wife.

How could they know what was going on in my soul? I plead, "I'm rotten lot of grocers" in the midst of reverent Mollie Thornhill, who is going on in my soul, without hearing explanations, breaks into the play, her indignation, she says Sam, finally disappears to get himself up in his own way, and she is left with M. E. Winington-Barnes, engaged to Pamela, a girl who is very much in love with Sam Thornhill, a part taken by Langdon Bruce, in a way reminiscent of the "Casta" scene in "The End of the Road," and accounts for his demeanor by remarking that he is a "quiffy" of late, and that he has been "divorced" by his wife.

How could they know what was going on in my soul? DIED A PRISONER IN GERMAN CAMP

Pte. Flanagan, Toronto Soldier, Met With Accident, Writes Comrade.

YESTERDAY'S LIST

Twenty Reported Wounded and Three Have Been Killed in Action.

Three Toronto men are reported to have been killed in action in yesterday's casualty list, and one has died of wounds.

Another previously reported missing is now a prisoner of war. The list also contains the names of 20 men who enlisted with Toronto units, all of whom have been wounded.

Serjt.-Major F. Bridgen, of the 15th Highlanders' Battalion, has been killed in action. He has no relatives in Canada, and his parents are in England.

Another soldier, Corporal Thomas S. Dent is another Englishman, whose parents are in the old country. He enlisted with a Winnipeg unit and is reported to have been killed.

Pte. Albert Gordon, a member of the 15th Battalion, who has been killed, has no relatives in this country. He went overseas with the 15th Battalion.

Robert Sparrow, of the 35th Battalion, whose people live at 116 Campbell street, and yesterday he received word from a member of the Scots Guards, who is a prisoner at the camp, telling of the death of her son, Isaac Keen, 356 Victoria street, who received word of the death of his son, Pte. Percy Keen, who was a member of the 84th Battalion. He was 19 years of age, and worked at Woodstock, Ontario.

Hears of Brother's Death. Miss Sadie Cuyler, 3 Charles street, has received word of the death of September 7th, of her brother, Charles Cuyler, who enlisted with the 76th Battalion. He was an Englishman and lived in Canada for 20 years.

While being removed to a clearing station at Wimeroux, on September 4th, Pte. W. J. Bullock died of wounds. The soldier's brother, Walter, who was fighting alongside him in the trenches, has also been removed to the hospital in France with wounds. The parents reside at 210 Greenwood avenue, and both boys went overseas with

the 75th Battalion and were drafted into the 8rd Battalion.

Lieut. McIntosh, of 16 Walker avenue, in a letter to his father, stated that he was slightly wounded in action. He was practicing law at Kitchener, Ontario, and went overseas with the 84th London Battalion, afterwards being transferred to the mounted rifles. No word has been received from Ottawa.

Serjt. Augustus P. Law, son of Commander Law, 4 Wellesey place, reported missing since August, is now a prisoner of war. He has four brothers in uniform. One brother, Wilfrid, is in command of a British man-of-war. The father, Captain Law, was in the British navy for 20 years.

PRESENT CHRISTIANITY TO SUIT ALTERED STATE

"Otherwise Church Will Lose Grip on Society," Says Rev. Dr. James Henderson.

Rev. James Henderson was not anxious to say much regarding his views on a material hell, that he first gave utterance to on Sunday evening in the Timothy Eaton Memorial Church. He said that in the main he had been correctly reported, and while it was the first time he had given voice to such opinions, they had been his for considerable time.

He was urged to take up the subject because the war had so modified and altered theology all along the line, that things were looked upon differently. "We have now a Christianity that will suit altered conditions," said Dr. Henderson, "otherwise the church will lose its grip on the sinking elements of society."

Other ministers of the Methodist Church did much real thinking yesterday in the remarks of Dr. Henderson, but while some said they would decl with the matter in future sermons, none would voice an opinion for publication.

SETTLEMENT OF DISPUTE IS ADVISED BY JUDGE

Arguments Heard in Case Arising Out of Will of Late H. W. Allan.

A case arising out of the will of the late H. W. Allan, customs inspector, of the port of Windsor, brother-in-law of ex-Lieut.-Gov. Sir John Gibson, was argued in the non-jury session before Mr. Justice Kelly yesterday.

The will left the major portion of the estate to the son, Norman McLeod, and Miss Francis of Elm avenue, Toronto. Mrs. Francis reserved judgment. It was stated in the evidence that Norman McLeod Allan had promised settlement of \$3000, but later refused. Justice Kelly reserved judgment.

Justice Kelly reserved judgment, suggesting that in the two or three weeks before he would hand his decision the parties concerned should get together and reach an amicable settlement.

CANADIANS TAKE MOUQUET FARM

Sir Douglas Haig Sends Warm Messages of Congratulations.

LOSSES FAIRLY LIGHT

Toronto Battalions Have Part in Splendid Series of Charges.

The Toronto Star last night published the following special cable from its London correspondent, Roland Hill.

LONDON, Sept. 18.—Sir Douglas Haig, after the fight at Mouquet farm, sent this message to Col. Swift's Quebec Battalion.

"You have done splendidly. You have taken the objective you started for and have enabled a great operation to be carried out successfully. To the Scots and Toronto, too, were sent special messages of praise from general headquarters.

"In again, out again," the Canadian brigades have been still putting up the fight of their lives. It is to their credit that the capture of Mouquet farm and a strong re-advance of the enemy have not been allowed to check the progress of our operations. A small share goes to them also for the carrying of Courcellette.

"They have lost heavily but nothing in comparison to the Germans, and the losses really are reasonable when considered the importance of the gains in position. The largest estimate of casualties which Canadian staff officers on the front have ventured to make is 1000 men. There is to be written on the credit side the most glorious history Canadian soldiers have yet achieved in Armageddon, but again there is no Canadian correspondent to chronicle events. We still sit kicking our heels in London.

The Triangle Taken. Take a triangle from Pozieres, which made fame for the Australian. To one side along the Bapaume road level with Courcellette, then Courcellette to the left of Mouquet farm to the left of the area and triangle, the front of both Pozieres thru battered German trenches, all of which gained at the price of Canadian blood, and you have the area which is the Dominion's share in this greatest battle of the war.

Enemy in Trap. Still further to the Canadian left are the ghastly, grinning details of men and machines that have been piled up as regards as the masterpieces of modern warfare. The Canadian staff officers by and today, talking with an officer, who scanned it from an omnibus that has been used for the British Mouquet, where Canadian machine guns search it from the rear. "We have it searched. It is a hornet's nest of machine guns, but no one will

set out of it alive unless as prisoners. We have blocked the elaborate passages, where the Germans thought to catch us in retreat.

It is a human wedge which represents Canada from Halifax to Victoria that has done it. There are dozens of battalions which have won special fame. Others will be mentioned. Dolly Swift's Quebec men have had a special honor, being personally congratulated by Sir Douglas Haig who sent the message quoted above.

Series of Charges. I wish I could mention the battalions and brigades which took part in that great series of charges that followed with the capture of Courcellette. It will rank greater in Canadian history than the famous counter-attack on the woods and the guns won back at Ypres. Some men who look part then were in this also. A Canadian staff officer, who was on this morning, returned on the train, saying: "An Ontario battalion had been warned to expect a strong attack that night.

"Active British airmen had seen concentrations of troops and all preparations before the light failed. Our standard patrols were stronger than usual and made a profound impression and held them at bay until our first line of attack was over what was dignified by the name of parapet. They overcame the German machine guns which were firing at our front trenches with a rush. They were brave men and we found later that we had to go on for the desperate adventure they had undertaken. We would drive us back and protect Thiepval.

Germans Fought Well. "Some got thru our line and actually reached our trenches, but we could not wait or chase back our supports, but bombed them and killed them. Whatever the morale of the rest of the Germans, there was no fear among those who really died in preference to surrender. When we reached the trench we caught hundreds in the act of putting on their equipment. We found later that a few had demoralized them, but we had to go on and leave them for our supports.

Walking Fights Helped. "It was just as we were about our first sight of our line and our thoughts. We got into difficult ground behind the German second line and were losing men from an inflating machine gun fire we knew came from a ruined factory. Some of our men started to work round the machine gun and were not to oppose or impede the work of the new machines. It was just at dawn, both moon and stars shined on the sun giving uncertain light when three ghastly, lumbering things they seemed to know exactly what to do, and fired straight at the pile of bricks which represented the factory. Our men cheered them and then they rolled over and fired with shells. Out came about fifty Hun runners for all they were worth at yelling 'surrender!'

FELL FROM WAGON. Alex. Burns, 28 Gladstone avenue, fell off a wagon he was unloading at Bathurst and Queen streets yesterday afternoon, sustaining slight concussion of the brain. He was removed to the Western Hospital.

Dandruff Heads Become Hairless. If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about one ounce of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp, and rub it in gently with the finger-tips.

Morning, most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look much better, and your scalp will be much cooler and smoother. You can get liquid arvon at any drug store. It is inexpensive, and four times as effective as any other dandruff remedy you have. This simple remedy never fails.

Puts Everything Else In the Shade

Nothing in motors touches the Willys-Knight—it dominates by performance that puts everything else in the shade.

Except that you have effortless—almost supernatural—control of motion at any desired speed.

Willys-Knights actually get better as they grow old and are virtually everlasting.

And your senses tell you nothing of its performance—

Of course such quiet, smooth, soft performance means absence of wear.

It's a car to keep—get one today and settle for good your motor car problem.

HAVE NO EFFECT ON PROHIBITION

Nothing Significant in Recent Elections, Declares N. W. Rowell, K.C.

Recent by-elections in Ontario will have no effect on the temperance situation in the opinion of N. W. Rowell, K.C., leader of the opposition, who returned to Toronto yesterday after visiting the trenches in France and investigating methods for social reform on the western front.

The law had been enacted with side support of both parties. It was outside party politics. He was designated with the smoothness with which the act went into effect.

While at the front he had been given the opportunity of observing what was the issue of this war. He brought back from the trenches a message of confidence in passing that was a profound impression and held them at bay until our first line of attack was over what was dignified by the name of parapet.

"I am glad to be in Ontario on its first day" under the new act, he said, "no effect whatever upon the situation. The law is now in force and will remain in force until the people have the opportunity to vote upon it; and the people to remain in force or be repealed. The question of both parties in the legislature is now to pass the act, and the responsibility has been removed from the shoulders of the government. The prohibition question being removed from the agenda, we must turn our attention to other matters."

Part Nickel Plays. "In visiting the fleet and the ordinance and munition depots, I had the opportunity of seeing by practical observation modern warfare, which nickel plays in the hands of the enemy. What I saw was not for projectiles as well as view which we held abroad confirms the supreme session of the legislature of the Canada and the empire, the interests of taxation was company to pay its share of the cost of the war. Mr. Dewar's campaign for forward by the Liberals in the House of Commons was also a part of the campaign to safeguard the development of the nickel industry."

The people of Great Britain appear to be to see this war through to a successful conclusion, no matter how great the sacrifice and the time necessary to secure a decisive result. This attitude of mind is not to be surprised from a desire for revenge, but rather from a sense of duty to the British people, and from a stern sense of duty to secure the future of the world. There is no doubt that Germany has put forth her utmost strength and in the future her strength must diminish."

Face Social Reform. Mr. Rowell particularly stressed that measures of social reform similar to those which have recently been accepted by the British people in Canada. There had been great British reform over many of these in Great Britain, and he believed that the same measures would be adopted in Canada. He said that the whole British policy of the war is based on the belief that the British people have won imperishable glory for Canada, and an experience never to be forgotten.

"I found our soldiers thoroughly fit and ready for any task that might be assigned to them. Military officers and public men of both Great Britain and

BRITISH DEFEAT TURKS EAST OF SUEZ CANAL

Enemy is Surprised and Makes a Precipitate Retreat.

LONDON, Sept. 18.—Defeat of the Turks in a minor engagement on the Sinai peninsula, 65 miles east of the Suez Canal, was announced officially today as follows:
"A mobile column composed of 4,200 mounted troops and a camel corps, on Sept. 16, with a view to carrying out reconnaissance of enemy troops west of El Arish. The columns reached an enemy position at Bir-el-Mazar, 65 miles from the canal, at dawn of Sunday. A sharp engagement followed in which our troops penetrated the enemy trenches at several points, while our artillery heavily shelled the enemy camps.
"The attack appears to have been a surprise to the Turks, and our aircraft saw and fired on several parties of them, among whom were German officers. Flying rapidly back to El Arish, we took some prisoners. Our casualties were slight."

LIBERALS HOLD 39 SEATS. Only Five Conservatives Elected in British Columbia.

VANCOUVER, Sept. 18.—According to the latest returns the Liberals are expected to have 39 seats in the new legislature out of forty-seven. The Conservatives have five seats and there are still uncertain positions. The Conservatives hold Cowichan, Nelson, South Okanagan, Slokan, and Similkameen. It is not expected that the soldiers' vote will change these results materially.

ITALIANS PENETRATING AUSTRIAN THIRD LINE

Great Drive Upon Trieste is Proceeding Satisfactorily Every where.

NEW YORK, Sept. 18.—A News Agency despatch from Rome published here today says:
"The Italians have broken the Austrian third line in the region of Montefalco after three days of fierce fighting.
"On the whole front from Gorizia south to the sea the new Italian drive is proceeding satisfactorily. From Oppachiasela southward through Pietra Isona have been carried and the Austrians driven back to trench positions in the valleys.
"Advanced Italian lines are now less than thirteen miles from Trieste. Heavy rainstorms have interfered with the progress of the offensive, preventing aerial observation and thus impeding the artillery attack. But in spite of these obstacles, General Cadorna's men drove the enemy down the eastern slopes of Hills 144 and 208 and several other dominant positions holding up the Italian advance along the Vallone."

DRILLING TO COMMENCE FOR POTASH IN CANADA

Reports From Peace River District Indicate That Valuable Mineral Has Been Found.

Reports coming from the Peace River district indicate that a new industry has developed, one that will determine whether this "New North" can replace Germany as the world's producer of potash. According to the representatives of Baron Rhonda, better known as D. A. Thomas, the man who is spending millions in the development of industries along the Peace River, there is every promise of the valuable mineral, and experience by experts have proved the presence of a fully saturated saline solution with solid salt underneath, containing potash.
Active boring will commence next spring on Salt Prairie, and already machinery for drilling purposes is stored at Vermilion, Alberta. Representatives of big American companies, who have been on the ground, have promised substantial assistance, and all agree that if potash can be located in commercial quantities it would be the greatest economic production in Canada.
Encouraging reports are coming into Edmonton regarding the immense coal deposits at Hudson's Point. No great development work can be undertaken until the P. and G. E. Railway, now in course of construction, is completed, and the mine operators are looking forward to the day when this coal will be in use all over Canada, not only for domestic purposes, but for industrial plants.

WAR LOAN

DOMINION OF CANADA

Issue of \$100,000,000 5% Bonds Maturing 1st October, 1931.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG, REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97 1/2

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.
THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97 1/2, payable as follows:—

- 10 per cent on application;
- 30 " " 16th October, 1916;
- 30 " " 15th November, 1916;
- 27 1/2 " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognised bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.

DEPARTMENT OF FINANCE, OTTAWA, September 12th, 1916.
