CHRISTMAS BAKING EXPECTED TO BE MORE COSTLY THIS YEAR

Although wheat has been hitting the downward grade and having the effect of lowering prices on flour, it is about the only article which is easier in cost for this year's Christmas baking. While it seems early to speak of this matter, yet the holiday is not so very far distant, and quotations now ruling are expected to hold. Cakes, puddings and other pastry prices this year will be advanced, the scarcity of fruits being the main cause, coupled with the impossibility of getting shipments from some of the countries at war.

British Send Four Turkish Transports To Bottom of Sea

Paris, Sept. 2.—Four Turkish transports have been torpedoed by British submarines. Announcement to this effect was made here today officially as follows: "In the Dardanelles the last week of August has been calm throughout on the southern front. In the northern zone British troops delivered successful attacks which put them in possession of a hilllock to the west of Parik Asarta which had been contested keenly."

"To the transport sunk on August 20 by one of our aviators in the anchorage at Aghadashliman, it is necessary to add four transports torpedoed by British submarines, two of them at the same point and two others between Gallipoli and Nagara."

MAIN STREET RAILS TORN UP; CONCRETE IN THEIR PLACE

Commissioner Potts Says He is Tired Waiting For Company to Bring up Rails up to Grade—Vice-President Taylor Says City Wants Them to Build New Streets

Since last midnight a solid block of concrete, about sixty yards in length, eight feet wide and six inches deep, has replaced the section of street car rails in Main street to the west of Douglas avenue.

The rails on the southern side of the street were removed and the section filled with concrete by city workmen, acting under the orders of the commissioner of public works.

Com. Potts' explanation is that the St. John Railway Company have refused to raise their rails from Douglas avenue to Kennedy street to conform to the new street grade. I asked them to do this on August 15, and they did not do so. When I asked them again later Mr. Hopper simply suggested that I should consult the city solicitor. This was on August 25, and, as they have taken no steps since then to conform with my request, I felt that I could wait no longer if the street paving is ever to be completed.

"I did consult the city solicitor and he informed me that I had the privilege of removing the rails or burying them. I did not want to be charged with burying other people's property, so I simply removed them and went ahead."

KAISER DRIVES THE WAR MACHINE

Always in Communication With Both Fronts, Presides at All War Councils And Directs Every Movement

Amsterdam, Aug. 18 (By mail)—The east dynamic force that propels the German war machine is the Kaiser.

Whether in Berlin, or traveling by train or motor to various war fronts, or at the Imperial grand army headquarters in Northern France, the German War Lord is in constant touch with every detail of his armies and government.

At the Kaiser's special train, in which he makes his frequent dashes to the eastern and western fronts consists of two coaches, modern and luxuriously furnished.

The Kaiser's special train, in which he makes his frequent dashes to the eastern and western fronts consists of two coaches, modern and luxuriously furnished.

Cabinet ministers, court officials, doctors, military attaches, hair dressers, chauffeurs, and coachmen, says the writer, are included in the curious population which invaded the town where the general staff temporarily takes up quarters.

The Kaiser is often surrounded by almost an entire cabinet, and the availability over the wire. These meetings usually take place in the field headquarters in the morning. The Kaiser always presides, with the chief of staff or the chancellor at his immediate right.

Snowball-Macgowan The marriage of W. Harrison Snowball, of Charlottetown, and Miss Mabel Macgowan, took place last evening at 7 o'clock, at the residence of Dr. and Mrs. C. A. Murray, Montreal.

At all places the Kaiser avails himself of his perfect system of telephone communication with other points in the field, grand general headquarters, and Berlin.

RUSSIAN HARVEST IS TWO BILLION BUSHELS

Yield Thus Far in Excess of Last Year's Total And Five Year Average—More Than One Fourth Wheat

London, Sept. 2.—The Petrograd correspondent of the Daily Mail telegraphs: "Mr. Krivosheyn, minister of agriculture, has given me definite assurances in regard to the Russian harvest, which dispels all the doubts thrown by German agents upon its annual size and value."

In Russia itself the harvest is not only far better than that of 1914, but also a great deal above the average of the five years 1906-10. In proof of this I have been shown unpublished returns from correspondents of the ministry of agriculture throughout the empire.

"Taking all the crops together these figures indicate that when the cutting is finished, in a week's time, the yield will be about 2,000,000,000 bushels. The winter-grown grain is harvested already and a large proportion of spring-crops. The figures arrived at in 1914, 1915 and 1916 are 1,440,000,000 bushels better than last year's total and 201,000,000 in excess of the five year average. Of wheat altogether there will be harvested 571,000,000 bushels, against 428,000,000 in 1914 and the five-year average of 478,000,000. For export there will be available some 450,000,000 bushels of grain, the greater part of it wheat.

"The difficulty of finding sufficient harvesters has been successfully overcome, and there will not be any shortage, as so many grain ships can steam through the Dardanelles. Great quantities of grain at these ports are already being stored in the success of the operations in Gallipoli."

LIBRARY IN LONDON FOR THE CANADIANS

(Correspondence.) London, Aug. 15.—During the last few months the High Commissioner's office, in Victoria street, Westminster, has been enlarged and made more commodious generally by the addition of several additional apartments.

The room which was the ordinary place of working for the late Lord Strathcona has given place to a large and more agreeable room in which Sir George Percy receives visitors and carries out the duties of high commissioner. A new general entrance has been made direct from Victoria street, which enables visitors to obtain admission to the public rooms without the wandering and jostling of one another in corridors, which has been endured under the old conditions.

At the present time the permanent secretary, W. L. Griffiths, busy getting together a library for the use of callers, from half-forgotten stores he has brought forth a considerable number of books, pamphlets and papers dealing with Canadian matters. Some of these printed records extend as far back as sixty or seventy years, and are of considerable value as records of the progress of the dominion. There is also a comprehensive collection of law books. All these are being carefully catalogued, and when this work is completed it will enable the High Commissioner's office and prove of value to Canadian visitors and those having relations with the dominion.

THE EXCHANGE SITUATION

Probable Progress of Allies' Delegation to America—Mint Buying Gold in Jewelry

Paris, Sept. 2.—The French and British delegates, who are to go to New York to confer with American bankers on the proposed exchange situation, probably advance sums sufficient to stabilize the exchange market. It is understood that American securities will be offered as a guarantee and that proceeds of the loan will be used in settling bills for American exports now due.

The exchange of gold for paper at the Bank of France from the beginning of the movement until today, amounted to 600,000,000 francs (\$120,000,000). The mint has purchased 200,000,000 francs worth of gold, and other gold articles which were refused. Arrangements have now been made for the purchase of a million gold offered in the form of ornaments and jewelry.

Rhine has contributed 3,600,000 francs to the gold stock, and Dunkirk 5,500,000 francs. The provincial record is held by Bordeaux with 22,000,000 francs.

P. P. EXPOSITION ALREADY HAS PAID ITS WAY

Montreal, Sept. 2.—G. T. Bell, passenger traffic manager at St. Francis, has received a telegram from the directors of the Panama Pacific International Exposition, San Francisco, stating that the exposition is now out of debt. Most of the immense cost of erecting the exposition had been met by the tens of thousands of visitors who have poured through the entrance gates of the grounds.

As a striking undertaking should have great financial success is looked upon in a manner which has the greatest of all expositions organized. On next Friday a special celebration will be held in San Francisco to mark the occasion.

German Prisoners Work Amherst News—The hospital grounds and the Dickey Park are already beginning to show evidence of the labor that is being spent upon them. The News company with Mr. Hodges paid a visit to the grounds yesterday afternoon, and found about twenty German prisoners very happily employed in dealing with Canadian matters. Some of these printed records extend as far back as sixty or seventy years, and are of considerable value as records of the progress of the dominion.

There is also a comprehensive collection of law books. All these are being carefully catalogued, and when this work is completed it will enable the High Commissioner's office and prove of value to Canadian visitors and those having relations with the dominion.

WHEAT MARKET NERVOUS

Chicago, Sept. 2.—Wheat opened irregular today, 8-4 lower to 7-8 higher with September at 86c and December at 88 3/4 to 94 1/8. Selling by longs in September followed the bulge in that option on which a rise of three cents was noted yesterday. After it had eased off another half cent there was a slight rally. Deferred options rose on the strength in Liverpool and a good demand from leading houses. The market was a little nervous and fluctuating though slight were rapid for a time.

SIR ROBT. BORDEN'S CHICKENS COME HOME TO ROOST

(Canadian Liberal Monthly) When Sir Robert Borden allied himself with the Nationalists of Quebec, on the principle, as Sir George Foster bluntly expressed it, of defeating Laurier at any price, he not only hybridized his cabinet by bringing together in its men utterly opposed to one another in imperialistic ideas, but he usually took upon his shoulders a mountain of trouble, some of the effects of which are now being felt. We refer particularly to the disturbances at recent recruiting meetings in Montreal. There is no doubt that these disturbances were brought about by the Nationalists who declared policy by the Nationalists to Empire interests. If evidence is required as to the attitude of the Nationalists, glance for a moment at the following one of Sir Robert's Quebec lieutenants who was taken into the following after the war started: "In order to breathe the air of liberty one had to shoot holes through the British flag."

POLICEMEN MADE SEVEN ARRESTS IN 35 MINUTES

Quincy, Sept. 2.—Reserve Officer Daniel Shea is credited with having arrested seven men in thirty-five minutes on Sunday morning in the Fore River. The arrested four men at one time and within the next half hour the auto patrol made three more trips to his beat. A new policeman, Shea has been put on "action duty" and "one-day off" shifts all over the city, and has made a success.

NO IDLE MEN IN AMHERST

Amherst News: A few months ago brought about a remarkable revolution in the labor situation in the town of Amherst. There were hundreds of idle men walking our streets. Today the problem that is confronting the employer of labor is to find an ample supply of men. The Canada Car Company has lately brought in twenty French-Canadian recruits from New Brunswick, and have also brought a large number of laboring men from outside points. The merchants and business men of our town will be very pleased to learn that the working staff of the Canada Car Company is steadily growing and that the outlook is good for busy fall and winter.

PORTUGAL'S TROUBLES

Paris, Sept. 2.—Despatches from the Portuguese frontier say the Journal's Madrid correspondent, states that persons arrested as the result of insurrectionary movement at Braga have been taken to Oporto to be court-martialed. At Caxias insurgents tried to storm the barracks, but were repulsed by rifle fire.

RECENT DEATHS

J. H. Norton, of Moncton, received a telegram announcing the death of his father-in-law, Charles Fraga, at his home in Middleton, N. B. Mrs. Norton was at the bedside of her father when he passed away.

At her home, Union Corner, York Co., on Aug. 23, Annie, wife of Aaron Newkirk, one son, Harold, at home, and one daughter, Mrs. Ernest McFarlane, Houlton; one brother, George McFarlane, and John H. McFarlane, of Charlottetown, N. B., are sister and brother of the deceased.

THE SAME OLD GAME

(Montreal Herald) D. A. Thomas, the munitions expert, who is in Canada on behalf of the British War Office, to oversee the placing of orders for ammunition, made the following statement in Montreal this week to a representative of the Herald: "There is more 'politics' in Canada at the present time than there is in England, and it is a bad thing for Canada. Big political interests here, at the present time, are being intimately connected with manufacturing concerns, and after orders. Orders come first—the making of munitions being a secondary outcome. It is a bad thing for Canada."

So they're still at the same old game in Ottawa, are they? It was political "pull" that was responsible for the boot race, the binocular scandal, the automobile scandal, the bicycle scandal, the field dressing scandal and the horse buying scandal. Now, apparently, only the direct interference of a representative of the British War Office will save us from an ammunition scandal.

What Do You Think of the Man Who Owns No Watch?

Everybody who amounts to anything has a good watch. Even young fellows just starting into business life have good watches.

Watches are so necessary that the charge that a man is so indifferent and careless he doesn't get a good timepiece is a mighty serious accusation.

Good watches cost so little that it hardly seems reasonable that anybody with a job can't afford one.

Where do you put the fellow without a watch? What's the matter with him anyway?

Be sure you aren't in the watch-less class. Come into Sharpe's and see what a fine watch you can get for a price you can easily pay.

IT IS OUR WAR.

Another battalion is to be recruited in the maritime provinces. The provincial recruiting campaign is therefore necessary, and no men who are fit will be refused an opportunity to join the colors. St. John, during the next ten days will bestir itself as never before, and the response, it is confidently hoped, will be worthy of the city and its loyal traditions.

THE WAR NEWS.

Today's war news is more encouraging. The German rush into Russia is losing its force, and at all but one point along the entire front the enemy is now said to be held in check. The longer the German lines of communication become the more difficult is their task, and the Russian winter is approaching. It is further declared that there is now a very large proportion of very young men and old men in the German ranks in the east. Their losses in this great drive must have been enormous.

A CLARION CALL.

It is worth while in this city and province today to read again for our own inspiration the following extract from the great speech of Mr. Lloyd George to the British miners:

ORPHANS HAD BIG DAY

The children in the various orphanages about the city had a happy time yesterday when they were given their annual automobile ride as the guests of the N. B. Automobile Association. After a delightful ride out the Croyve Settlement grounds, treated to peanuts, candy and other dainties, and returned to the homes after a gloriously happy day, they left the grounds about 5.15 o'clock and were distributed to their respective homes.

JURY URGES PROVISION OF LIFE SAVING APPARATUS

The jury in the George A. Birmingham drowning inquest last night returned a verdict of accidental death and found no negligence in the efforts to rescue. A recommendation was made that, in view of the fact that children go swimming in that section of Courtenay Bay, the city provide some life saving apparatus. The witnesses who gave evidence were Walter McCann, Herbert W. Bloomfield, Dr. J. M. Barry, Robert G. Graves, Samuel Lavigne and Henry S. Wallace. Their evidence was corroborative of that given at the first hearing.

A widow who intended to succeed her husband as the manager of a country hotel, advertised the fact in the local papers after this manner—"This hotel will be kept by the widow of the former landlord, Mr. Higgins, who died last summer on a new and approved plan."

Judge (about to pass sentence)—"You certainly effected the robbery in a remarkable way—in fact, with quite exceptional cunning." Prisoner (deprecatingly)—"No, father, your Lordship, no flattery, please."

"Oh, mamma," cried little Marnie, "I know that lady over there." "Do you, dear?" "Who is she?" Marnie pondered. "Why she's the little girl that I told you about that sits next to me in school's grandmother."

A Poor Advertisement

The Germanic assumption to all the virtues in getting men to do night work is as amusing as the bombastic wording of certain advertisers or the frothy mouthings of cheap political spellbinders.

that we are Opticians, Watch and Jewelry Repairers.

that we have a very fine selection of Sterling Silver, Electro Plate and Cut Glass, while it would be all within the truth, it would be a poorly written ad.

Need Still More Recruits From Maritime Provinces

**BIG RALLY TOMORROW**

Royal Standard Chapter, I.O.D.E. Gives Band Instruments to 55th. —26th. Sharpening Bayonets

An official despatch from Ottawa yesterday said that another battalion of infantry was planned for the maritime provinces. The statement was made yesterday at a committee meeting in the board of trade rooms in the interests of recruiting. The despatch is the more interesting at present because of the daily battalion, offered by men from the three maritime provinces, including several from New Brunswick, being composed thus far entirely of Nova Scotians in the filling of the ranks. Under canvas at Sussex last night were 738 men. A meeting for women at which wives, sisters and mothers of men who have gone will give addresses to others, is planned for some afternoon soon at five o'clock in the Imperial Theatre in the interests of recruiting.

Plans for the big recruiting rally tomorrow night are well advanced. Four bands will be marched in the parade. A request is made for all who have it to try every piece of banding and all flags possible during the day. The members of the big committee working in the interests of the recruiting are spurred by the knowledge that, with another battalion to be formed, there will be need of every man available.

Directions for Preserved Fruit that is Not Too Sweet

Many people do not like jams or preserved fruit that is "dead sweet." Men, particularly, would eat more fruit in the winter time if it is not too sweet, and as it is the most healthful thing they can eat, the following directions should be followed by the careful housewife. "More fruit and less meat" should be the rule in all households, and this year is an especially good one in which to make a start, as both peaches and plums are of excellent canning quality. **DETAILS OF HIS RECRUITING PLAN**

Mr. McDade Applies Suggestion Made By Him in Times on Monday—Systematic Canvass. Aided By Women

Following up his suggestion made in the Evening Times on Monday last, as to a new way to get more men to join the colors in the province, Michael McDade, has developed further details of his scheme. He thinks a plan on the following lines would help:

Call meetings of the merchants and other business men in the different cities, towns and villages of the province. Impress upon them that the fate of the empire is at stake, that Canada and every section of it has much at stake as any other part of the British empire, and that it is up to every man and woman in Canada to do their full duty.

Pictures of the Royal Horse Guards were popular, while the whole series contained in the Pathe News Gazette pertaining to the war was most instructive and entertaining.

Encouraging Reception of Workers in Fitting Out For Office Work

The manner in which the public are receiving the endeavor to increase the Patriotic Fund by \$50,000, is the heartiest in the reception accorded committees which set to work canvassing for donations yesterday. It was most encouraging and greatly appreciated by those in charge. After all the appeals which have been made, not comes the most elaborate and stupendous of all—the patriotic auction to secure \$50,000 in a week, and the merchants and general body of citizens are found rising once again to the occasion and lending an active hand.

The initial endeavor of the committees has been to secure material for office work. The temporary offices will be opened on next Tuesday at 181 Prince William street. This means a big supply of stationery, for there will be much writing necessary, and the generosity of local printing houses was appealed to with most successful results. From Roger Hunter, Ltd., a donation of 30,000 tags was received; C. M. Lingey, 10,000 shipping tags; Geo. A. Knudell, 10,000 cardboard tags; Fred Dolig, 800 envelopes and 400 letter-heads; United Typewriter Co., packages of carbon paper; and F. C. Wesley & Co., a cut containing the I. O. D. E. badge to be placed upon the stationery. The tags mentioned are all of different kinds to be used for different purposes, and with the other gifts are a gratifying stimulus to the first stages of the campaign.

### PRIVATE VIEW OF A FEATURE PICTURE

The Silent Command, Put on Imperial Screen After Regular Show — A Striking Piece of Work

A private view of another Universal master picture was given in the Imperial Theatre last night after the regular programme. The picture is called The Silent Command and is a strong presentation of the subject of hypnotism. It shows failure of the magnetic influence to triumph over the strength of paternal love where a girl's happiness is at stake, and gives a striking exposition of the use of mental control in directing the schemes of an evil mind.

"The picture is remarkable for its impressiveness, its contrast of good and evil and it grips the attention of all who see it." "The picture is a strong story is written around the general theme and it grips the attention of all who saw the picture last night."

A pleasing feature was that those taking the parts are several prime favorites, who played the leading parts in The Master Key. The author of the piece, in fact, is Robert Leonard and he and Miss Hall, "Willerson," Tom Kane and others of the Master Key serial are in The Silent Command.

### Entire Family Stricken With Cholera.

#### YOUNGEST CHILD DIED.

Mrs. E. Slade, 276 Logan Ave., Toronto, Ont., writes: "When I first arrived in Canada, nearly four years ago, my entire family was stricken with cholera from which the youngest child died. Soon after a friend recommended Dr. Fowler's Extract of Wild Strawberry, and acting on this advice I administered it to all who were suffering with the most gratifying results. Since that first attack my children have been subject to stomach troubles, but on the first symptoms I resort to 'Dr. Fowler's,' and it always brings relief. I have immense faith in this medicine and always keep a bottle on hand, also I never fail to recommend it to anyone who is similarly troubled."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 70 years, and has become so universally used, that many firms have gone so far as to try and produce a substitute for it, and even claiming similar names, and saying it is "The Same" or "Just As Good."

Do not accept their word for this as these no-name, so-reputable, worthless imitations may be dangerous to your health.

The genuine "Dr. Fowler's" is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Price, 50c.

### TO PUT ON FLESH AND INCREASE WEIGHT

"Gee, look at that pair of skinny scarecrows, why don't they try Sargol?"

"Sargol has put just 10 pounds on me in 14 days, states W. D. Roberts. 'It has made me sleep well, enjoy what I eat and enabled me to work with interest and pleasure.'"

"I was all run down to the very bottom," writes F. Gagnon. "I had to quit work I was so weak. Now, thanks to Sargol, I look like a new man. I gained 25 pounds in 28 days."

"I weighed 182 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have ever seen," declares D. Martin, and N. D. Sanderson adds: "When I started Sargol I weighed 147 pounds and now I weigh 160 pounds. Everybody is telling me how fat you have got in the last month."

Why hundreds of men and women—and there are hundreds, with more coming every day—living in every nook and corner of this broad land voluntarily testify to weight increases ranging all the way from 10 to 45 pounds given them by Sargol, you must admit, Mr. and Mrs. and Miss Thin Reader, that there must be something in this Sargol method of flesh building after all.

Hadn't you better look into it, just as thousands of others have done? Thin folk say: "I'd give more anything to put on a little extra weight," but when someone suggests a way they exclaim, "Not a chance. Nothing will make me plump, I'm built to stay thin." Until you have tried Sargol you do not and cannot know that this is true.

Sargol has put pounds of healthy "stay there" flesh on hundreds who doubted, and in spite of their doubts. You don't have to believe in Sargol to grow plump from its use. You just try it and see if your weight does not pile up, hollow vanity and your figure round out to pleasing normal proportions. You weigh yourself when you begin and again when you finish and you let the scales tell the story.

Sargol is just a tiny concentrated tablet. You take one with every meal. It mixes with the food you eat for the purpose of operating upon its flesh producing elements, in an easily assimilated form, which the blood can readily absorb and carry all over your body. Plump, well-developed persons don't need Sargol to produce this result. Their assimilative machinery performs its functions without aid. But thin folks' assimilative organs do not. This fatty portion of their food now goes to waste through their bodies like unburned coal through an open grate.

A few days' use will prove whether or not this is true of you. Isn't it worth trying? If you want a beautiful and well-rounded figure of symmetrical proportions, if you want to gain some solid pounds of healthy stay-ther flesh, if you want to increase your weight to normal, weight what you should weigh go straight to your druggist today and get a package of Sargol and try it as directed. Sargol will either increase your weight or it won't and the only way to know is to try it. A single package of Sargol easily enables you to make this test. Sixty days' use of Sargol, according to directions, is absolutely guaranteed to increase your weight to a satisfactory degree or your druggist will refund all the money you have paid him for it. Sargol is sold by leading druggists everywhere.

### WHAT YOU SHOULD WEIGH

Table of Statistics Similar to Those Used by Leading Life Insurance Companies

Life insurance companies are becoming more and more strict in their physical requirements of those who would take out policies. Any material falling in weight from their table of normal weight statistics is in itself sufficient to cause them, in most cases, to regard the applicant as an "undesirable risk." The following table of normal weights enables both men and women to know exactly what they should weigh to conform to the average for various heights:

Height	Men	Women
5 ft. 0 in.	121	118
5 ft. 1 in.	124	116
5 ft. 2 in.	129	121
5 ft. 3 in.	135	127
5 ft. 4 in.	140	131
5 ft. 5 in.	146	138
5 ft. 6 in.	149	141
5 ft. 7 in.	156	148

The Stock consists of MEN'S and BOYS' CLOTHING, BOOTS and SHOES for MEN, WOMEN and CHILDREN, UNDERWEAR, DRY GOODS, Etc.—and, will be Sold at ABSOLUTE SACRIFICE PRICES!

**BARGAINS! BARGAINS!! BARGAINS!!!**

**Sale Begins Friday, SEPTEMBER 3rd 10 a. m. sharp**

**Notice to the Public**

The disastrous fire which occurred at my store some little time ago and which caused such considerable damage, left me with a large amount of merchandise that has become just slightly touched with water or smoke. The goods that were very badly damaged were sold out immediately after the fire occurred, and the balance of the stock turned over to the Maritime Salvage Company, to sell for what they can get within the next few days, as it is compulsory for us to have whatever cash can be got out of it, and also to make room for winter goods.

M. JACOBSON.

**EXTRA—OPENING DAY**

FRIDAY, (SEPT. 3)—We will sell to the First Fifty Customers, whose purchases amount to \$2 or over, 5 YARDS FINE GINGHAM OR PRINT FOR 25c. FOR THE 5 YARDS. Regular values 10c. and 12 1/2c. per yard.

**COME EARLY. BUY ALL YOU CAN. YOU WILL NEVER GET ANOTHER CHANCE LIKE IT**

**STORE OPEN EVERY NIGHT UNTIL 9 O'CLOCK**

**TERMS OF SALE—All goods sold for cash. Everything marked in plain figures. No goods on approval. We will exchange any article not satisfactory.**

**READ THE FULL DETAILS!**

On our shoulders rests the responsibility of closing out this stock within the next few days. It is optional with us whether we sell it in bulk or at retail. We have been given power to sell at a very low rate on the dollar, far below what such goods could be manufactured for. It means a disastrous loss to Mr. Jacobson. But he fully realizes that if he is to turn the balance of his stock into cash quickly, drastic action and unmerciful prices must rule, so he has accepted the inevitable.

We have gone over the stock and find the majority of it in a practically perfect condition, and have no hesitation in saying this will prove the greatest bargain event ever attempted in St. John.

Joe Wood, Red Sox pitcher, who has returned from the west to get in trim for the "Speed Boy" final dash for the pennant, is working out at Fenway Park. He says his arm is a lot better than it was, and that he is sure he will be able to work in his turn, and at his best, when the club comes home.

Cravath has made sixty-eight home runs since he joined the Phillies in 1912, and he made twenty-nine with Minneapolis in 1911 before he went to the Phillies. He made eleven in 1912, nineteen in both 1913 and 1914, and nineteen to date this year.

A CANADIAN INDUSTRY The manufacture of men's soft and stiff hats - by Canadian workmen - with Canadian capital - for Canadian heads. From raw fur felt to finish, in a Canadian factory at Brockville, employing skilled Canadian labor, and using Canadian capital—that is the proud record of the Wolthausen.

Its reputation is not of mushroom growth, neither is its patriotism, for it has been consistently advertised all over Canada for years past for what it was—a Canadian Hat—when the fad was for things imported. But as we were neither ashamed of our workmanship nor Canadian origin, we nailed our flag to the mast—as newspaper records will show—many years ago.

MATHEWSON HAS NEW STYLE OF DELIVERY. Finds That By Taking Longer Stride He Gets Better Results.

New York, Sept. 1.—Christie Mathewson has discovered a new wrinkle for developing speed. Since having trouble with his shoulder, he has been trying to work out the pail so that he could get the free overhead motion he used to have. While working out in Cincinnati a few days ago he lengthened his step when letting go the ball. To his surprise he found that he could get a lot more stuff on the ball. He was bothered by a pain in the shoulder, but he kept at it, and now he believes he will be as good as ever when the pain disappears. It appears that when Matty first was affected he began to shorten his stride, and this counted against him.

WILLIE RITCHIE TO MEET JOE SUGRUE.

San Francisco, Sept. 1.—Willie Ritchie, American lightweight champion, will signalize his return to the ring after a vacation of several months in a test-round, no-decision bout against Young Shugrus, in Madison Square Garden on Friday night, October 1. Ritchie, who has been in communication for some days with W. H. Wellman, promoter and matchmaker of the Madison Square Garden Athletic club, announced that he had accepted terms for the match. The contract is to be forwarded at once for his signature. Under the terms of the agreement, Ritchie is to be guaranteed \$8,500 for his end, as well as to receive a percentage of the receipts if they run to a higher figure. The Californian is also contemplating a match in Milwaukee, Wis., late in September, but it is not likely the New York people will agree to his accepting a prior match.

Shugrus was at one time considered the most promising of the New York lightweights. His eyes failed him and at was feared he would be forced to retire permanently from the ring. More recently his condition has improved until he is once more able to accept engagements.

If Ritchie is successful against Shugrus and White, he will endeavor to force a long distance match with Welsh.

**FOLLOW BAND TO KING SQUARE**

**Watchward for Tomorrow Night—Minister Enlists as Private and Shows Fine Example**

Tomorrow night's by-word will be "Follow The Band!"

Four bands, starting from Haymarket Square, North End, West End, and South End, will play the populace in big processions to the new patriotic headquarters on King Square, opposite Breese's Corner.

Here an array of speakers will explain very forcefully the war situation at the present time. An appeal will be made to the manhood and womanhood of St. John to strengthen the nation's hand in this dire emergency. It is expected the response will be record-breaking.

Those having charge of the arrangements of tomorrow night's rally have completed every detail to their entire satisfaction. Carpenters are commencing the erection of the speakers' platform near the diagonal walk leading towards the City Market. Colonel B. R. Armstrong's men will set up a big military tent tomorrow morning, and it is to remain as recruiting headquarters for the next few weeks.

So soon as these arrangements are made, recruiting officials and military medical men will be constantly in attendance to explain to inquirers the recruiting conditions and also to examine them as to physique. Every effort will be made to place the matter quickly and conveniently before the people.

Chairman E. A. Schofield of the meetings committee, has supplied to the Times tomorrow night's list of speakers, which is as follows:

His Worship Mayor Frink, Rev. Matthew K. Conroy, who is going into the next contingent as a private, Rev. Mr. Conroy is pastor of the Portland Methodist Church, North End, and is enlisted as a stretcher bearer in the 48th battalion. The other speakers will be: Lieut. A. J. Brooks of the 80th, and Rev. Mr. Harrison, an Anglican clergyman from St. George, who is also going to do the talking.

**CANADA'S NEW GIFT TO ALLY**

**Hospital for French Soldiers Manned by Staff Able to Speak Language of Their Patients**

London, Sept. 1.—As a result of the visit of Premier Borden to France, the Canadian government has decided to provide a hospital near Paris for wounded French soldiers. The government, having decided to equip the hospital, made a choice of a medical unit whose members will be able to speak the language of their patients.

The Canadian premier on the occasion of his visit to Europe was greatly impressed with the work of the Royal Army Medical Corps. When Sir Robert Borden met the French president recently he offered on behalf of the Canadian government to provide and equip a hospital for French wounded. The offer was accepted by President Poincaré, and, thanks to the exertions of General Cardon Jones, director of the Canadian army medical services, and the co-operation of Philippe Roy, Canadian commissioner in France, and the interest of M. Hanotaux, ex-minister of foreign affairs, the promise of the Canadian prime minister is about to be fulfilled.

The hospital already in existence in England in charge of Col. A. Mignault, of Montreal, since May, with a staff of French-Canadian medical men and nurses. He has been in charge of a tent hospital on the south coast of England capable of accommodating over five hundred patients. This is officially known as No. 122 Casualty Hospital. While it has done excellent work, it has afforded the members of the staff an opportunity of gaining experience for their new duty. The hospital to be given by Canada will be in the open, but special tents will be provided so that they may be used throughout the winter. There will be accommodation for more than 800. All necessary stores have been secured, and shortly the staff of French-Canadian, with Col. Mignault, will leave the south coast and pitch their tents on the outskirts of the French capital.

**When You Return From the Country**

And open up your town house, your rugs and carpets will need a thorough cleaning. It takes many hours of extremely hard work to do this in the old fashioned way, with a broom, but with our "SOVEREIGN" COMBINATION VACUUM CLEANER and SWEEPER it will be easy, and you will be surprised at the results. With its triple bellows it extracts every bit of dust from all through the rug (not merely the surface dirt as when a broom or ordinary sweeper is used), while the sweeper brush gathers up all the loose threads, lint, etc., leaving the carpet cleaner than if taken up and beaten.

We will be glad to send you one on trial, and you need not purchase it until convinced that it is the best cleaner you have ever used.
