

The cleanliness of the sealed package appeals to the daintiness of a woman.

She knows that it protects the contents from dust, dirt, odors and moisture.

She will be doubly pleased with our new waxed board package—which we have adopted after several years of testing—because it is stronger, more secure and more completely air-tight; altogether the best container for tea that has yet been devised.

Ask your grocer for Red Rose Tea in the sealed carton.

Red Rose Coffee is as generally good as Red Rose Tea

**CHIEF OF MUSLEMS
COMMENDS DRY LAW**

Sheik-ul-Islam Says That Drink Brought Ruin to Turkish Empire

Constantinople, Nov. 27—(Associated Press)—Gratification over the amendment to the United States constitution for bidding the sale of liquor was expressed by Abraham Effendi, Sheik-ul-Islam, spiritual head of the Moslem church, in a conversation with the correspondent.

"Drink is the mother of all evil," he said, "and lack of abstinence from it wrought our downfall. I am delighted to observe that America is realizing God's command as spoken to our prophet. It is strange that, after thirteen and a half centuries, a new nation should adopt prohibition, while we, whose prophet commanded it, should again begin an effort to enforce abstinence."

Abraham Effendi, who counts among his followers 300,000,000 in the Moslem world, received the correspondent in his palace in Stamboul. The palace is built in two stories with hanging gardens, and overlooks the Golden Horn. He sat in a many-windowed and austere white room, his venerable, stern figure, gray beard, snow-white turban, and black gown making a striking picture.

"It is with pride that we observe America's adoption of prohibition, after trying drunkenness," he said. "It was somewhat so with us in the lifetime of our prophet, who first warned us against alcohol as the cause of financial ruin and the dethronement of reason, but when the conqueror of Egypt said his prayers drunkenly at Medina, then God cursed liquor and the prophet declared: 'Drinking is one of the devil's works, like gambling, and whosoever drinks loatheth God's grace.'"

"Our law regards drink as the worst evil, because it breeds other evils, whereas other habits may not do this. It is a matter of history that so long as our people did not drink, they were of sound morality and order and were also prosperous."

"Sobriety was the secret of Islam's success as the builder of empires. But drinking brought ruin. It came from contact with Europe, whose other bad habits we acquired, at least in our cities, for the country is still sober. Our women do not drink. If ever Islam recovers, it will be because prohibition is restored to make men strong, clean and intellectual."

"We are now launching a prohibition campaign throughout Islam to make God's wisdom respected."

WOULD SAFEGUARD WOMEN.

Labor Conference for Stricter Night Work Limitations.

Washington, Nov. 25—Further to safeguard the health and well being of women workers, the International Labor Conference has gone on record as favoring a broader construction of the Berne convention of 1908, prohibiting night work for women. The conference recommended that the terms of the convention be made applicable to industries where less than ten women are employed and that under no conditions should factories be exempted from the prohibition of night work for this class of workers. Consideration of pensions for the aged and incapacitated was suggested by J. Varela, delegate from Uruguay. He submitted with this proposal a copy of the law now in force in Uruguay which, he said, offered an ample and liberal solution of the question.

Medical Careers for Women.

According to reports from London, the number of women who choose the medical career is rapidly increasing. The London Medical School for Women had an entering class of 103 this year, all of the finest type. Three of the number came with V. A. D. scholarships awarded at the conclusion of the war by the Royal Red Cross Society, and many others had been engaged in some form of war work. The school has recently undertaken to provide a building for use as a research laboratory, in connection with obstetrical pathology, the Medical Research Committee having agreed to supply the necessary staff; another feature of the work this session will be the organization of a gynecology and obstetrics unit, which is to support some seventy beds in all, under the direction of a woman professor. Four medical women trained at this London school are now employed at the Ministry of Health headquarters helping to combat the present low health standards in the country, which had resulted in 270,000 persons in England receiving the national health insurance benefits.

Vatican Takes Action.

Munich, Nov. 26—(Havas)—According to official information received here, the holy see has taken steps to ask France that the repatriation of the German prisoners shall take place between the present time and Christmas.

AN ILLUMINATING ADDRESS.

The most illuminating address on the whole subject of the roads of New Brunswick that has ever been delivered in this city was that of Hon. P. J. Veniot at the banquet tendered him last evening at the Union Club by the New Brunswick Automobile Association.

The president of the Association described Mr. Veniot as the father of good roads in New Brunswick, and the hearty applause given to the minister by the members of a non-political organization was a deserved tribute to a man who frankly admits that he may make mistakes, but who has made it his task to learn the condition of all the roads in the province, and to design and endeavor to carry out a definite policy of road construction and repair.

Mr. Veniot put his finger on the source of the whole difficulty in this province when he pointed out that it is the only province which maintains its roads without help from the municipalities. The limited provincial revenue must provide the money, and if New Brunswick people desire to emulate the state of Maine or Quebec, Ontario, or the other provinces or other provinces or other provinces, they cannot expect such results as are possible under that system.

drained was out of the question, and it did not serve the most people. With regard to the shore road, he felt justified in waiting until he was in a position to make it one of the best roads in the province, and that would be done next year, the work beginning as soon as the frost is out of the ground in the spring, and part of the cost will come out of the federal grant. When completed it will be such a road as will delight the tourists as well as the regular travelers along its course.

When the minister had concluded his address his hearers had a much clearer knowledge of the whole subject of roads in New Brunswick, and had the assurance that what has been so well begun in the matter of road improvement will be continued with vigor along definite lines of policy.

THE GUESSEY AT WORK.

Reference was made yesterday to the forecast of a "leading politician" given to the Woodstock Press in regard to the result of the next provincial elections, in which it was claimed the Conservatives would carry 21 seats, the Independents (whoever they are) 11, the government nine and the United Farmers seven. The forecast gives the result by counties, and it is interesting to note that while this great prophet elects Conservatives and Independents with great freedom in other constituencies he concedes both Carleton and Victoria to the United Farmers. This, of course, would eliminate the Hon. B. Frank Smith, unless he deserted the Conservatives to become a candidate of the United Farmers.

The interesting local feature of this forecast is the assumption that there will be four Independents in the field in St. John and four in Northumberland, besides two in Gloucester and one in Kent. The result against the leadership of Hon. James A. Murray is apparently expected to swamp his candidates in more places than St. John. But who will be the independent candidates in St. John? Will they be Messrs. Campbell, Tilley, Potts and another to be selected? These gentlemen have not been talking lately, but it may be possible they are busy preparing an independent platform on which to appeal to the people. That would be a very interesting development.

The finest tribute, because of the man who paid it, that was paid to Hon. P. J. Veniot last evening was that of Mr. A. G. Batchelder, executive chairman of the American Automobile Association, Washington. He said one of the things that determined him to come to St. John was that the banquet was in honor of Mr. Veniot. He had met that gentleman in Quebec, and heard him speak, and was greatly impressed. Mr. Batchelder said further that since that meeting when inquiries came to him, as they were coming constantly in his official capacity, as to the character of the roads in New Brunswick, he made this reply: "I can tell you that if the roads are not good now they have a minister of public works down there who is on the job, and he will soon give them the roads."

Speaking in Toronto last week Premier Drury said that the shibboleth of the Peoples' party would be "public service and not private advantage." The farmers would be safe, sane and deliberate, with a sincere desire to serve the people. They would endeavor to unite city and country. Wild experiments in legislation would be shunned. Prohibition would be sympathetically and effectively enforced. The press reports indicate that the new premier is making a very favorable impression by his public utterances since coming into office.

In the evening schools in Sarnia are more than six hundred students. The course includes science, mathematics household science, languages and commercial subjects. Classes for stationary engineers, automobile mechanics, marine engineers, masters and mates, and a course in art and design will likely be added.

Toronto Globe: Before prohibition came in Boston was preparing to build an addition to the Charles street jail. The work will not be done. There is plenty of room for all offenders. Everyone who experiences is the same. Drink and crime are parent and child.

HAPPY-GO-LUCKY. Oft I envy Ebenezer, of the ragged coat and hair; he's a heedless happy gesser, who has never known care. All the day he sits and whistles, with his back against the wall, and he cares no jots or tittles what of evils may befall.

CANADA—EAST AND WEST

Domitian Happenings of Other Days

BEFORE THE REAL EXPLORERS

Nearly every school boy will answer glibly that Columbus discovered America in 1492 and will add that other men followed in the wake of the hardy adventurer in later years and entered the St. Lawrence and founded the great empire of Canada. But few know that in the years before these came hardy Norsemen had probably visited the shores of the maritime provinces, Labrador and Newfoundland. That, however, is true, for the Sagas—the old records of the Norsemen—tell of the strange experiences of crews of sailors who had ventured far beyond the well known seas of that day and had visited a place they called Vinland.

SHORT SIGHTED MEN.

(Rev. George Scott.) I hold them but short-sighted men Who look upon their guilty breast. A misfit thrust upon their ken, A something of but little worth.

UNITED STATES MUST HELP.

(New York Evening Post.) The fall in sterling exchange to 84, where the market would be \$4.86 1/2, is abnormal; yet it is not unprecedented. The depreciation since the start of the war is 20 per cent. The American paper dollar, measured by the "gold premium" of those days, went to 65 per cent discount on the international market during the Civil War. In both instances the depreciation continued during several years after war was over. In both, it was eventually corrected through a great increase in its export trade.

LIGHTER VEIN

"We'd better not stay here. Let's go to some other cafe." "What's the matter?" "I don't think we'll ever get our dinner. I've just discovered that our waiter is the one that I forgot to tip the last time I was in here."—Detroit Free Press.

SEEK A SPANISH GALEON

Every now and then the wondrous and now somewhat fabulous story of the treasure lying at the bottom of the Bay of Tobernory is brought forth to the astonishment of an incredulous world. After seven months' preparation, says the London Daily Chronicle's Tobernory correspondent, Colonel Foss, the director of the operations, and his staff have placed the diving and dredging plant permanently on the steam lighter and pontoon now anchored near the spot where the old Spanish Armada galleon lies in the bay. The digger has already reached some lead and copper sheathing which may have belonged to the sunken treasure ship, and divers report that the coating of silt over the excavations of 1912, when the operations were suspended, does not exceed an inch for each year which has elapsed. The treasure ship is understood to lie at a depth of from ten to fourteen fathoms and under from thirty-five to forty feet of sand. Colonel Foss enters on his work anew, confident

THE FIGHT IN THE WEST.

(Winnipeg Finance.)

Within a short time the citizens of western Canada will have an opportunity of expressing their opinions upon municipal matters of various kinds. At the forthcoming municipal elections in many centres, the main issue is without question, whether those centres are to be controlled by the "Red" element or by safe and sane administrations. To be sure they are determined to secure the power which they covet, and if organization, enthusiasm and hard work can secure that power, it is now within their grasp, unless—the real level-headed citizens—employers and employees—of western Canada wake up.

The only effective way to combat organization is by counter organization. Our citizens must organize and fight this menace—and this must be done at once. Last minute organizations lack stability. The events last May and June proved conclusively that the majority of the people will not tolerate mob rule, but it required a very serious series of events to cause the people to realize what was in store for them if the Reds were allowed to run amok. Is the public memory so short that those events are forgotten? Do the men who three aside their business for several weeks in order to protect their homes from fire and lawlessness forget? Can any real man who witnessed the dastardly attempts upon the lives of our returned soldiers who were acting as special policemen on the Winnipeg streets forget how near we were to a period of lawlessness which could have been a lasting disgrace to the city of Winnipeg? There are some things which it is well to forget—there are others which should be remembered. One of the things which should be remembered is the very significant fact that the men responsible for the disturbances in May and June are the men who are backing the Red candidates. These would-be Lenines and Trotskys would still like to see the people existing by permission of the strike committee. The citizens must unite and concentrate their efforts so as to ensure the election of well-balanced men to municipal offices. Good labor representatives would be welcome, but straight Reds have no place in a British community.

PUBLIC OWNERSHIP

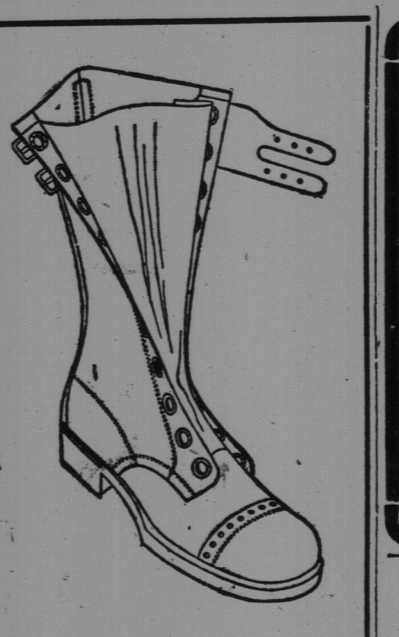

(Toronto Star.) The opponents of public ownership seem to have the floor in Toronto just now. First Mr. Vanderlip, the New York banker, came here and told us that he did not believe that public ownership could be a success in a democracy. Mr. E. W. Beatty, president of the C. P. R., offers the same opinion. But let us not be altogether cast down by these expressions of opinion. It could scarcely be expected that public ownership would be endorsed from either of these quarters.

RETRENCHMENT WHEN POSSIBLE

Problem of Canada in Next Few Years—General Business Conditions in Dominion

Canadian Bank of Commerce Circular.

A member of the dominion government recently stated in parliament that for the present fiscal year and the next, the commitments on capital account are already \$700,000,000. For the present fiscal year the ordinary current expenditure will be \$270,000,000, including \$102,000,000 for interest, \$25,000,000 for soldiers' pensions, \$30,000,000 for soldiers' civil re-establishment, and \$112,800,000 for the public services of the country. The additional amount, therefore, which it will be necessary to raise by new taxation, if our revenue is to meet current expenditure, will be \$148,000,000. Besides this, the capital expenditure already entered upon will involve an additional interest charge of \$38,500,000, while for the fiscal year prior to the war, of a total current expenditure of \$1,000,000, only \$13,000,000 was expended for interest. The annual revenue that will have to be found from taxation and other sources is thus \$307,000,000 or almost three times the ordinary pre-war revenue.

It is evident that the expenditures to which the country is already committed are very large and entail a heavy burden upon the taxpayers. The credit of a government has its limits just as the credit of a private individual, and

the dominion government should be extremely careful that no expenditures are undertaken which will tend to weaken its present high standing. "The problem in this country during the next few years," said one of the dominion ministers lately, "is going to be retrenchment wherever it is possible to retrench. There must be retrenchment." If there is to be retrenchment, there must be an end to the creation of government credits, which have had the effect of raising wages abnormally, resulting in still further increases in prices. The exigencies of war made it necessary to incur many obligations regardless of their cost, and the country is now face to face with the duty of retiring the credits, which were thus rendered necessary, out of the

proceeds of industry and by the exercise of frugality.

General Business Conditions.

While the people are in the mood to spend, and as long as their extraordinary earnings and accumulated savings will permit, active business conditions will continue. It is not, however, satisfactory to find that many of our fundamental industries are suffering from a shortage of labor. The scarcity of paper and lumber cannot be remedied unless more labor is available for operations in the woods. To curtail the export of forest products, in order that a larger proportion may be used at home, would only result in further increasing the discount on Canadian funds abroad. In mining there are indications of better labor conditions and a rapid recovery in the volume and the value of the output. France, Belgium and Germany are now in the market for fat cattle, and Great Britain can obtain only one-tenth of the Canadian goods—bacon, eggs, etc., that she requires. For the ten months ending October, 995,999 head of cattle, hogs and sheep were marketed at the Union Stock Yards, Toronto, as compared with 776,874 for the same period last year. At other cattle centres there has been a corresponding increase. It is evidence of a real demand for cattle products that the seasonal decline in price, especially in view of such large receipts, has been so slight. A considerable proportion of the cattle offered, however, are unfinished, and cows and heifers are being marketed and exported at an undesirable rate, partly on account of the fear of mental interference with prices. Meanwhile those engaged in cattle raising are deriving substantial revenues therefrom.

The fish catch on the Atlantic and Pacific coasts recently has been fully up to normal. Of cod, haddock, hake and pollock, 788,000 cwt. were taken up to the end of September as compared with 589,600 cwt. last year. The herring catch was 100,000 cwt. as compared with 51,000 cwt. last year.

In all urban districts in the dominion there is, according to permits being issued, a decided increase in the volume of building projected, and if material were available there would be much more building actually in progress.

Mrs. Robert Duncan passed away suddenly at her home, Sackville, Sunday morning. She was twice married, her first husband being David Allison, Jr., son of a former president of Mt. Allison University. Her maiden name was McMurray. She is survived by her husband, one son David Allison, and the following brothers and sisters—Harvey of Boston, Rupert, Clifford and Frank in the Canadian West, and Mrs. Ritchie of Chipman, N. B.

The Curtiss Aeronola Achieves "A Winged Victory"

In a few months it has literally flown into public favor, and won for itself a high place in the esteem of talking machine owners.

Curtiss Aeronola

The quality of its tone and the richness of its volume are better than any other instrument possesses. It brings, from the record, everything that the maker intended should be brought out. Play the same record simultaneously on a Curtiss Aeronola and another make and you will hear the difference at once.

The Curtiss Aeronola is made with all the skill and precision with which we made Aeroplanes during the war.

We earnestly urge you to go and hear a Curtiss Aeronola, before purchasing any talking machine. You will be charmed by it.

Do not let another week go by. Go to a music store and ask them to demonstrate the Aeronola to you, or write for our Catalogue and we will send it by return mail and tell you the name of a dealer near where you live.

Windfall in Trust Fund And Unknown Amount in Bank Dividends

New York, Nov. 27.—All the heirs of Col. Theodore Roosevelt have been summoned into the supreme court in a proceeding to wind up a trust fund of \$80,000 left to the ex-president by his father. The amount of this trust has so increased that none of the lawyers interested is willing to estimate it. The trust fund was willed by the colonel to his four children, in equal shares.

The proceeding on its face is a friendly action to have the trustees' final accounting passed upon. The disclosure in court, however, is expected to be that eighty shares of Chemical National Bank stock left to his son Theodore by Cornelius Van Schaick Roosevelt have accumulated into a fortune like that finally possessed by Miss Catherine Wolfe.

Miss Wolfe inherited 200 shares of Chemical Bank stock from her father, and at her death, when the stock was sold, it was figured her estate had received in dividends and increased price of stock not less than \$1,750,000 on the original investment of \$20,000.

It was many years after Miss Wolfe died that Col. Roosevelt's eighty shares jumped to 800 shares. The bank increased its capital from \$300,000 to \$3,000,000 and declared a stock dividend of nine shares for one. The last reported sale of Chemical Bank stock showed a price of about \$5,000 a share.

FOR THE KAISER AND RETURN OF OLD REGIME

Berlin, Nov. 27.—Pan-German imperialistic demonstrations were resumed at Potsdam Tuesday. General Ludendorff extolled the Prussian spirit and militarism. The crowds sang imperial songs and cheered Ludendorff, the former emperor and militarism and abused the government.

The pastor of the Berlin garrison church prayed for the former emperor and hoped that other days would soon dawn for the fatherland, while the pastor of the church of the Holy Spirit attacked the government and spoke for the return of the monarchy.

MISSING DETROIT ATTORNEY FOUND

Disappeared Last July And Was Believed to Have Been Drowned

Springfield, Mass., Nov. 27.—LeRoy B. Blinn, a young Detroit attorney and member of a prominent family of West Springfield, was reunited with his mother this week, following a strange disappearance from Detroit, July 17, when it was believed he was drowned in Lake Michigan. A nervous breakdown, which resulted in his discharge from the army last summer, also caused him to become mentally dazed, the police said.

He told the police that he had been traveling all over the country by means of freight trains, from one of which he was taken by railroad detectives in the Boston & Albany freight yards here a week ago and resulted in his arraignment in Springfield police court and he was ordered committed to the state hospital at Northampton. Sunday, Blinn, who had been traveling under the false name of Harry Gibson, was able to give a more accurate account of himself, and told the police his home was in Michigan. Inquiry in Detroit revealed that the young man might be LeRoy Blinn, missing since July 17, and his mother immediately came here and identified him.

Capt. H. F. C. Sturdee, 28 Elliott Row, is anxious to hear from any of those who were overseas with him in the first draft from the 62nd from St. John, with the idea of holding a re-union.

Look for the Label!

In buying toilet articles, etc., stamped French Ivory, the public should be careful, as many of the cheapest grades of Ivory are stamped Solid French Ivory, as the name represents nothing. The best brand of Ivory is stamped ORIENTAL IVORY, the difference in quality being easily distinguishable. Every piece of Oriental Ivory is uniform in color and will last much longer than any other.

COMMUNITY PLATE

"Jack is a gay deceiver, Tess!

I've been hinting at "COMMUNITY"—for my birthday—and he pretended to be as dense as a Scotchman at a Charity Bazar.

—Barbara

P. S.—Barbara's "hinting" is like the toothache—nothing stops it but having the tooth pulled—only in this case it's my purse!

—Jack

P. P. S.—Don't believe him! The COMMUNITY is here and we are both delighted with it."

Shoots Wife As Result Of Dream

Newark Italian Thought Black Hand Was Entering Home

New York, Nov. 27.—Dreaming that Black Hand men were carrying out their threat to kidnap his four-year-old boy, James Espinza, thirty-seven, owner of the National Concrete Block Company, shot and killed his wife at their home in Irvington, N. J., at 6 a. m.

Espinza, in tears, told how he had dreamed that a man came in through the window of his room, where he and his wife and their three children were sleeping, and that he had taken from under his pillow a revolver which he had kept by him since receiving the threats and fired. He awoke and heard his wife cry: "Oh, Jim!"

He bent over her to find that she was dead. He then pounded on the floor, beneath which lived his brother-in-law, Salvatore Caruso, and his wife.

Mrs. Caruso rushed up the stairs to view the tragedy.

Mrs. Caruso said today that the Espinza family was happy. Six months ago, she said, the husband received a letter from the Black Hand. It threatened death if \$2,000 were not immediately forthcoming. He turned the letter over to the police.

A few weeks ago a second letter came telling him that his four-year-old boy would be kidnapped. This letter was also turned over to the police.

The police took Espinza to Newark where a charge of murder was placed against him pending action of the grand jury. He was committed to bail of \$10,000. Prosecutor Harrison said he had investigated and believed Espinza's story.

Shoots Wife Then Kills Himself

Young Husband Dies on First Marriage Anniversary

WATERVILLE, Me., Nov. 26.—Henry Robbins, aged nineteen of Bath, killed himself after critically wounding his wife, Eva Butler Robbins, aged twenty, at the home of the latter's sister, here, on the first anniversary of their marriage.

Five revolver shots were fired, three

of which took effect in the young woman's head, one went wild and the fifth was used by Robbins to end his own life.

Jealousy was given by relatives as the cause of the shooting, which followed an altercation.

Mrs. Robbins' condition is considered very serious, but her physician expresses the opinion that her life might be saved. She had been visiting her parents, Robbins was searching for work here.

Alcoholic liquors are wholly prohibited in Turkey and other Mohammedan countries. Mohamet forbade the use of alcohol to his followers.

RECENT WEDDINGS

Sheehan-Campbell

A quiet wedding took place at the home of the officiating clergyman, last evening, when Rev. Henry Penna, pastor of the Carmarthen street Methodist church, united in marriage Charles Augustus Sheehan, a returned soldier, and Miss Edna Blanche Campbell, both residing in St. John. The bride was attended by her sister, Mrs. William George Williams, a returned soldier, and her cousin, Francis W. Sheehan. The bride was formerly of Digby (N.S.).

A quiet wedding was solemnized last evening at the residence of the Rev. W. Robinson, 72 Prince street, West End, when that minister united in the bonds of matrimony Sergeant-Major William George Williams, of Moncton (Ont.), and Miss Alberta Bernice Nodwell, of Ampton, Kings county (N.B.). James Norwell, brother of the bride, supported the groom, and the bride was attended by Miss Edith F. Dykeman. The ceremony was held in the presence of the 26th Battalion, and was transferred to the imperial forces, returned to St. John last week. Mr. and Mrs. Williams will make their home at the present, in St. John as Sergeant Williams is stationed here in connection with military work.

Chatham, Nov. 26—The home of Mr. and Mrs. S. D. Heckberth was the scene of a very interesting event this morning at 9 o'clock when their eldest daughter, Flossie Belle, became the bride of Miss Dudley McCosh, son of Mr. and Mrs. James McCosh, Douglastown. The wedding march was rendered by Miss Wendolyn Watters. The house throughout in the drawing room was banked with pink chrysanthemums and potted plants; from the windows an evergreen arch was arranged from the centre of which hung a floral bell, beneath which the young people stood. Immediately after the ceremony, a wedding breakfast as served in the dining room to the immediate relatives and a few friends of the contracting parties. The happy young pair motored to Newcastle and spent on the accommodation on a tour of the maritime provinces, followed by the

best wishes of hosts of friends. The handsome array of gifts and silver attest to the popularity of the young couple.

Robert Lee Brittain, member of the C. P. R. local headquarters staff and son of Mr. and Mrs. Brunswick Brittain, West End, was united in marriage to Miss Rita Hodgson, daughter of the late Archibald and Mrs. Elizabeth Hodgson, at the residence of the bride's mother, Broadway, Woodstock, at 3 o'clock yesterday afternoon. The ceremony was performed by Rev. L. E. Askland, pastor of the Woodstock Baptist church. The bride wore a taupe suit, with black velvet picture hat and carried a bouquet of carnations. The young pair were unattended. They will spend their honeymoon in Montreal, Ottawa, Toronto and Niagara, and on their return here will reside in the West End. Mr. and Mrs. Avar Orchard, of this city, were guests at the wedding.

At the home of Mr. and Mrs. D. P. Lewis, Norton, Wednesday, November 19, their daughter, Harriet, and Ronald Bruce, son of Mr. and Mrs. G. W. Bruce, Kingston, were married by Rev. I. E. Vanwart in the presence of relatives and friends.

Rexton, Nov. 25—A pretty wedding took place in the Roman Catholic church, St. Anne de Kent, when Rev. John Gaudet, the pastor, united in marriage, Frederick Hebert, son of Louis Hebert, of Rexton, and Miss Cecile Vantour, of Acadville. Miss Leonie Vantour, of Richibucto, was bridesmaid and Timothy Perry, of Rexton, supported the groom. After the ceremony, the bridal party repaired to the home of the groom's father, where a reception was held. Mr. and Mrs. Hebert will reside in Rexton.

At the home of Mr. and Mrs. W. J. Hoyt, Granville street, Bridgetown, N.S., yesterday, their youngest daughter, Nan K., was united in marriage to W. Henry Patterson, sales manager of the glass dealers, Montreal. Rev. E. Underwood, rector of St. James Parish, performed the ceremony.

At the All Soul's church, Grand Falls, yesterday morning, Miss Leitha White, eldest daughter of Mr. and Mrs. J. L. White, was united in marriage to Walter Page Hatch by Rev. Reginald Britain.

Miss Ruth B. Case, daughter of Mr. and Mrs. A. D. Case, Wickham, N. B., was married in Waltham, Mass., November 10, to James M. Butterfield by Rev. Robert B. Pattison.

what severe. It must, for instance, be established that the firms cannot get them anywhere else, and that it is absolutely necessary to supply them. The firms which have applied represent that substitutes made on this side of the Atlantic do not include certain dyes which they urgently require.

NO MORE APPLICATIONS FOR PHOTOGRAPHS OF GRAVES OF SOLDIERS

British Authorities Have Taken 120,000 Pictures—1,500 Canadian Soldiers Still in London

London, Nov. 27—(By Canadian Associated Press Cable)—Fifteen hundred Canadian soldiers are still here, 500 of whom will probably remain another six months to complete the work of minor departments. These comprise the historical section of the war graves registration, including the photographing of graves. Five thousand requests for photographs have been received from Canada. Incidentally the British authorities have announced that no more applications for such photographs can be received. The expense has been borne by the British Red Cross and Order of St. John. The British authorities have taken 120,000 photographs and requests for 36,000 photographs have still to be handled. Another Canadian section is still here busy packing the hundred airplanes presented by the British authorities to the Canadian air board.

RULES AMENDED TO TAKE IN THOSE WHO SERVED IN WAR

All Overseas Students Eligible to Membership in High School Alumnae—Report on Canteen Arrangements.

The executive of the High School Alumnae met on Tuesday night at the Witanstede school and heard of several proposed activities for the coming winter. The president, Miss Jessie Lawson, was in the chair. An invitation from Miss Agnes Warner, asking for members of the Alumnae to be her guests for the next meeting of the reading club to be held at the Manor House, was

most gratefully accepted. The programme for the meeting will be in charge of Mrs. F. R. Ellis and Miss Jessie Lawson and will deal with Elizabeth England. Arrangements were completed for the recital of Miss Green's pupils. The rules of the alumnae were amended to meet the special case of High School boys and girls who have served overseas. Previously, the regulations have only allowed graduates to become members, but at the meeting it was decided that, irrespective of whether they had graduated or not, all of those who had served overseas and whose names are on the Alumnae honor roll are eligible for membership.

The High School committee reported that there was great need of opening a canteen in the building in order to supply hot soup and cocoa to scholars who come from a distance and eat their noon lunch in the school. The committee reported that the canteen could easily be installed and that it would be possible to serve the hot soup and cocoa at very moderate cost. A communication was received from Hon. Dr. Roberts asking for co-operation in gathering a mass meeting of women in the Imperial Theatre to discuss matters of health. The executive considered the matter favorably and decided to take definite steps in the matter after the Christmas vacation.

A letter carrier had a remarkable escape from serious injury in Main street yesterday about noon when he attempted to board a moving street car and was dragged along the roadway for a considerable distance. The car was bound for Douglas avenue and was not scheduled to stop at Simonds street. The man evidently did not know the rule for corner and managed to grip the rear handrail. He was pulled off his feet and trailed along on his back behind the car. People in the street shouted to the conductor, who signalled for the car to stop. The letter man then got aboard, apparently unhurt.

An Evening Gown is by far the most important article in a woman's wardrobe.

How necessary that she choose an unusual, exclusive, yet becoming creation, such as to be found in our Women's Shop, Third Floor.

National War Service Committee
New Brunswick Division.
147 Prince William Street, St. John.

The Prince of Wales, as Chief Morning Star, the symbol of Light and Hope, comes forward in a new enterprise, and thousands to whom the night brought suffering and pain will greet the Dawn he heralds with gratitude and joy.

Immediately after his return home he pleads the cause of Charity at a Festival Dinner in aid of the Middlesex Hospital, one of the largest charitable institutions in London, which, helping always, now itself needs help to fit it for the work which lies before it. You, who named him thus appropriately, will surely speed him on his way, and aid him to fulfil his noble purpose.

\$1,000,000 needed.

The Middlesex Hospital (a Voluntary Hospital) treated over 10,000 wounded soldiers during the war, in addition to carrying on its work for civilians. There are fighting men of Canada who will hold its tender care of them in affectionate remembrance.

LOCAL NEWS

CLOSE OF SEASON.

The river boats are now finished for the season. The last of them, the Oconee, Captain Taylor, made her final trip yesterday. This steamer was the first to bring down a load of freight this season and the last as well, though she was not the first boat to go up river last spring. All the steamers are now tied up in winter quarters about the Indian-town wharves.

THE INSPECTORS AT CHATHAM.

Rev. W. D. Wilson, chief liquor inspector for the province, returned to the city this morning from Fredericton. He said he had not yet investigated reports from Chatham concerning two men, one a returned soldier, having been badly beaten by three liquor inspectors a few nights ago. Sub-inspector Merryfield of this city, he said, had been one of the inspectors, but he could say no more at present in answer to criticisms of Rev. Mr. Bates and the Chatham Commercial in the matter.

WILL LIVE IN BOSTON.

Mr. and Mrs. Albert Stephens, who were married in the Cathedral on Monday morning, have been guests of honor during the last few days at the home of Mrs. Peter Hatty, who was bridesmaid at the wedding and they will go to Boston to make their home. The bride was given away at the wedding by her sister, Mrs. Rose Lehoucq. John R. Saab, of Boston, who accompanied the groom to this city, was groomsmen. Mr. Saab has relatives and many friends in this city and he received a hearty welcome during his short visit here. He expects to leave on Friday on the evening train for Boston.

THERE SHOULD BE A ROUSING WELCOME FOR COL. AND MRS. MACLAREN

Many Kindly Acts For Soldiers And Families in Addition to Excellent War Record

The return of Col. Murray MacLaren, Mrs. MacLaren and family to St. John, will doubtless be marked by more than an ordinary welcome. They are on the steamship Metagama, and may arrive here tomorrow morning.

The people are familiar with the splendid record made by Colonel MacLaren in hospital work during the war, but very many persons think less about this than about the loyal and unselfish service rendered them and their boys in England or France. A cable to "MacLaren, London," never went in vain. Not only would Colonel MacLaren search out facts about individual soldiers ill, wounded or killed, and transmit the information, but Mrs. MacLaren was constantly going about from hospital to hospital to comfort St. John and New Brunswick boys and render them motherly service. One who saw their work declares that they were father and mother to the soldier boys, and to nurses from this city and province who were within their ken. For this reason especially, but also because Colonel MacLaren served with distinction and brought honor to New Brunswick, it is felt that more than the members of the Citizens' Reception Committee should greet the home-coming of a well-loved family.

COMMON COUNCIL

Matters Deal With at This Morning's Meeting at City Hall

The common council, in a short committee meeting in the mayor's office this morning, decided to recommend to the council that a heated gear shed be erected at West St. John between No. 5 and No. 6 about at a cost of about \$700. Commissioner Bullock announced that he had a request from the Furness Withy & Co., Ltd., for this accommodation for which they offered an annual rental of \$100, and he moved that the committee recommend the erection of the shed, the cost to be paid for by bond issue and that tenders be called for the work. This was carried. He explained that the shed would be 13 by 16 feet and would be used for the storage of ropes, gears and tackle used by the stevedores.

The mayor announced that the resolutions passed by the council recently with regard to harbor commission had been forwarded to Ottawa for the purpose of ascertaining if the conditions as to bounds and limits, as well as ferry reservations, etc., met with the views of the government. He expected to have a reply soon, when the matter could be further advanced towards the taking of a plebiscite on the question.

POLICE COURT

In the police court this morning William Truffen was charged with having liquor in his possession illegally. Inspector J. J. Merryfield told of visiting the man's beer shop in Pond street, but said he found nothing in the immediate vicinity of the shop except two per cent liquors. After searching through the out houses they discovered some straw in the barn, under which was a false floor. They raised this and found five bottles of Jamaica rum. The inspector said he had been watching this place, as he has had several complaints from there. The case was postponed until Tuesday morning at 10.30 and the accused allowed out on a deposit of \$200. E. S. Ritchie appeared for the defendant.

Sam Lewis of 17 Brussels street was charged with assaulting his wife, Mrs. Mary Lewis told the court that last night at supper time, when she went into the house, her husband locked the door and said he was going to kill her now that he had a chance. She said he knocked her down on the bed and beat her and pounded her, causing her face to be bruised and swollen. The defendant denied the charge. The case was postponed until tomorrow morning at ten o'clock for witnesses.

Walter Axell and Arnold Reid, alias William Johnson, who were arrested recently on warrants charging, were charged this morning with stealing several razors from the barber shop of Sterling E. Kennedy, 512 Main street, on November 15. They were also charged with stealing, on November 18, two overcoats from the Y. M. C. A., one the property of B. D. Robertson and the other the property of William Curran. No evidence was taken this morning and the case was postponed until Monday afternoon at two o'clock.

NOTICE TO ADVERTISERS

The co-operation of advertising patrons is requested in the direction of getting "copy" into the business office on or before 4.30 p. m. on the day previous to publication. Very often the receipt of a large advertisement or even regular changes after that hour serves to dislocate the regular work of getting the paper made up in time to catch the mails—and not infrequently such ads. are at the last moment left out.

This situation is not of service to either advertiser or our readers and we, therefore, request that copy be received in the business office

Not later than 4.30 p.m.

MATTERS TO COME UP BEFORE THE GOVERNMENT HERE

Several Applications For Financial Aid—Question of The Marsh Creek

Various matters of public interest are to be brought before the meeting of the provincial government here this evening. Hon. W. E. Foster, premier, returned last evening from Halifax where he attended the ceremonies connected with the farewell to the prince. A delegation will be heard from the St. John Exhibition Association asking for a grant for next year for holding the exhibition here. Another delegation will be present from Moncton, headed by Mayor Price and Doctor Ferguson of that city, asking for aid in connection with the establishment of a home for girls there. The St. John Law Society are asking for a grant for the law school and the Great Marsh Commissioners are to appear to protest against the use of the Marsh Creek for dumping ashes by the C. N. R.

Considerable interest is being displayed concerning the matter of the proposed work by the Canadian National Railways at the Marsh Bridge. Some are of the view that because of the circumstances a first class bridge should be erected instead of a culvert fourteen by eight feet as is now planned. J. P. Clayton, chairman of the Great Marsh Committee, which has been active in the matter, said that in order to protect the landlords whose properties might be affected by the work some action should be taken, else he considered advancement and development at and in the neighbourhood of Goldbrook and Glen Falls would be restricted and there was bound to be trouble. The commissioners, he said, would fight the matter to an issue.

The members of the Great Marsh Committee for some time have been interfering with the railway authorities with the dilling in with ashes at the Marsh Creek. They complain that the continual dumping there has narrowed the pondage and that with the proposed culvert of 14 by 8 feet to be erected there will be serious damage resulting to owners of property along the marsh at Goldbrook and at Glen Falls. They consider that the opening is too little and wish to see a span bridge with concrete pier over the creek.

Mr. Clayton and the other two commissioners F. J. Rafferty and J. M. Donovan, have been very active in protesting about the proposed arrangement and a conference with the creek with W. R. Devenish, superintendent for the C. N. R. They pointed out places which they said had been filled in by the C. N. R. dumping ashes and Mr. Clayton said the superintendent declared this had been done contrary to orders and he promised to have the practice stopped at once. As to the proposed to erect a new bridge he considered the cost too great and thought that the culvert would not cause the hold-up of the back-flow of water, which the commissioners thought the surrounding properties would be threatened.

FALLS ASLEEP IN DEPOT; IS ROBBED

As a result of a thief's operations around the Union Station Ell Wright, who was waiting for his train, was relieved of his pocketbook. Mr. Wright, while waiting for his train to Woodstock last evening, fell asleep and when he awakened he found his pocketbook, which contained a return ticket to Woodstock, a ten dollar bill, one five, a one and \$4 in change, amounting in all to \$20, had been stolen. The matter is now in the hands of the police.

STREET RY. BEARS COST OF PAVING TRACK SECTIONS

This is Rule in Halifax, Says Commissioner—5 Cent Fares Still in Force

Speaking of the question of the payment for paving in Halifax Mayor Hayes said this morning that in that city the street railway people not only bear the whole expense of putting in the foundations for and paving the track sections in the streets but they do the work themselves. In the opinion of the city officials, he said, the work is as good and sometimes even better than that done at the expense of the city. There the abutments also pay a proportion of the expense of permanent pavements.

Street cars are still operating in Halifax at the old five cent fare.

Cutting the Cost of Living Through A Pleasing Occupation

The Superior Sewing Machine is such a wonder at hard work and so inexpensive to operate that it is a genuine pleasure for the women of the home to make up things to wear—or anything that requires sewing.

We are so enthusiastic over this machine that we are featuring it here and are anxious that you come in and see it work.

It comes in two styles—the plain open machine that has the drop-head, and the Cabinet machine that can be made to serve in the dual capacity of table and machine.

Each has a full set of attachments that makes practically all kinds of sewing possible—tucking, pleating, hemming, etc., all of which has a decided tendency to cut the cost of keeping house.

And here is the pleasing part of the machine—the cost of the open machine is \$36, and the cost of the Cabinet Machine only \$40. Seems hardly necessary to say more to have you step in and investigate. On View in Our Window—Glance in When Passing!

VISCOUNT ELLIOTTE IS NOW IN OTTAWA

Other Distinguished Visitors Are Guests at Government House

Ottawa, Nov. 27.—Viscount Jolly of Scapa Flow, accompanied by Lady Jellicoe and members of his staff, arrived in the city this morning and are guests at Government House...

There will be another dinner tomorrow night and at each of these the cabinet ministers and other officials of the naval department and the government will be in attendance...

Another distinguished visitor at Government House today is the commander-in-chief of the North American stations, Vice Admiral Sir Morgan Singer, who is attended by Paymaster Commander Bamber...

Lord Jellicoe is attended by Flag Lieutenant Morgan, D. F. O., and Captain and Mrs. Shore of his staff...

The death of T. R. Allan occurred at his home, Main street, Pugwash, N. S., Nov. 16. He was a son of the late George L. and Alice Allan, of Bayville, Westmorland Co., N. B., and was in his 78th year...

MRS. JOHNSON LOSSES EYE.—London, Nov. 27.—Surgeons this morning will remove the right eye of Wm. E. (Push-foot) Johnson, American prohibition worker...

GUNNER CAMPBELL ABOARD.—A wife to Chas. Robinson, commission N. B. Return, Commission, N. B. Return, states that in addition to Private Tubbs, referred to elsewhere, Gunner C. H. Campbell of 25 Exmouth street, arrived at Halifax today on the Megantic.

BUYING COMPLETED.—London, Nov. 27.—(C. A. P.)—Colonel Grant Morden announces that the English group which purchased 50,000 shares in the Dominion Steel and Iron Company has completed its buying.

Notice of Births, Marriages and Deaths, 50 cents

BIRTHS.—Le ROY.—At 177 Winslow street, West End, on Nov. 24, 1919, to Mr. and Mrs. J. L. Le Roy, a daughter...

MARRIAGES.—GORAL-VICKERS.—At the Cathedral, Nov. 27, 1919, by Rev. A. Allen, Martha Elizabeth Vickers, of Blackville, N. B., to William A. Goral...

DEATHS.—SULLIVAN.—On the 26th inst., Michael Sullivan, in the 65th year of age, leaving his wife and three sons to mourn...

CHEYNE.—Suddenly, in Bathurst, on the 26th inst., Robert, youngest son of John F. and Rebecca Cheyne, leaving his parents, one brother and four sisters to mourn.

Funeral from Chamberlain's Undertaking Parlor, Mill street, Saturday afternoon at 2.30 o'clock.

CARD OF THANKS.—Mr. and Mrs. Charles Burton of Fairville wish to thank the doctors and nurses of the General Public Hospital for care and kindness to their daughter, Carrie, while a patient there.

PATHETIC STATE OF OLD POTSDAM

Great Change in Stronghold of Prussian Autocracy

One cannot live long in Berlin without making a visit to Potsdam, which is to the German capital what Paris is to France... A world of meaning is compressed into the two short syllables! There is a whole philosophy in the name—the philosophy of the just boot and the "piousness" of the mailed fist...

Not long ago its wall still echoed to the measured tread of the imperial guard; the word of command rang in the old sharp tone, bayonets flashed in the sunshine and military bands, led the troops through the quiet, old-fashioned streets...

You walk through the streets and notice that the old names perpetuate a tradition. The Hohenzollernstrasse, the Kaiser-Wilhelmstrasse, the Junkerstrasse and the rest remain silent monuments of a regime which, to the open eyes expressed an uncontrolled regret of all true Potsdamers...

Potsdam was a town which lived on court patronage and the business which was a wasteful hope exists that another turn of fortune's wheel will restore Potsdam to its former proud position as the home of the Hohenzollerns...

As I walked through them chatting with a local inhabitant, a born Potsdamer, who volunteered to act as my guide, I heard stories of the Kaiser's Potsdam days. There was no disguising the regret with which this humble but faithful adherent spoke of his late sovereign's vicissitudes for adherents to his legions in Potsdam.

Among important questions dealt with at the round table conference of the Women's Municipal Committee in Toronto last week was the advisability of this committee securing capable, efficient women to stand as candidates for election in the coming municipal election.

URGE WOMAN TO STAND FOR CIVIC ELECTIONS.—"If the women are going to make an effort to secure civic improvement, they must start as we do in our own ward and different parts of the city and stand at the inside. This means and must have women in the council," said Mrs. J. Baird Laidlaw, chairman of the committee...

There was a resolution was also passed suggesting that well-known women speakers attend the various meetings held by the affiliated societies of the Local Council, W. C. T. U., and other women's organizations, also men's and request the privilege of speaking for five minutes in an effort to secure the co-operation of all the women as well as the men in their undertaking.

BIG MATTERS AT INTERNATIONAL CONFERENCE

Washington, Nov. 27.—(Canadian Press)—Today the thorny question of special treatment for Oriental countries is to come before the International Labor Conference.

The Japanese delegation in this regard have reached the breaking point. From the beginning the Japanese workers have been fighting for the eight-hour day.

At yesterday's session the principal decisions were: 1. Approval of main draft, unemployment, convention and reference thereof to drafting committee.

2. Recommendation that, with a view to their abolition, states license private employment agencies charging fees.

3. Recommendation that each state take steps to establish an effective system of unemployment insurance.

4. Recommendation that each state take steps to establish an effective system of unemployment insurance.

5. Recommendation that each state take steps to establish an effective system of unemployment insurance.

6. Recommendation that each state take steps to establish an effective system of unemployment insurance.

7. Recommendation that each state take steps to establish an effective system of unemployment insurance.

8. Recommendation that each state take steps to establish an effective system of unemployment insurance.

A MISSION TO AID THE MISSIONARY

Committee of Women to Visit Mission Fields to Improve Conditions For Workers There

How would you like to work eighteen hours a day and receive a salary of from \$600 to \$800 a year, despite a college education; to live for seven years without relief in a climate which soldiers are not expected to endure for more than two years, and to be so far away from a physician that in case of serious illness you or your children would have to be carried a hundred miles in a jolting ox-cart? How would you like to be deprived of companionship with those of your own race and nationality for long periods at a time? And to practically abandon hope of a long life?

The poorest paid, hardest working woman has been found at last, not in the sweatshops or factories, but in the foreign missions stations of Christian churches. And now a commission of prominent American women is on its way to the Orient to investigate the lot

of the woman foreign missionary and find out what can be done to better it. This mission is part of an inter-denominational deputation of thirty well-known women which has been organized by the Federated Women's Council of Foreign Missionary Societies, to make a six months' study of every phase of the foreign mission field in the Orient. The results of the investigation will be utilized by the Interchurch World Movement of North America, the organization through which the various Protestant bodies are co-operating in the formulation of its world programme.

The deputation is the first inter-denominational body of women to go abroad for the study of missionary problems and is said to include more distinguished American women than have ever before visited the Orient in one group. The personnel represents the Methodist bodies, the Protestant Episcopal, Presbyterian, Baptist, Congregational and Disciples of Christ denominations and the Interchurch World Movement. President Ellen F. Pendleton of Wellesley College sailed for Yokohama from Vancouver on October 30. The rest sailed from San Francisco for the same Japanese port on November 8. Upon arrival in Japan the deputation will divide itself into a number of commissions to study particular phases of the missionary problem.

The fact that so few women missionaries live long enough to qualify for their pensions has aroused the various denominations to the necessity of improving their lot and the commission on administrative problems, which will be in charge of Miss Nellie G. Prescott of the Women's American Baptist Foreign Missionary Society, will give its attention to this question.

HAVEN'T SPOKEN FOR THREE YEARS

London Couple Lived Together But Both Kept Silence—Divorce Petition Dismissed

London, Nov. 27.—After living with her husband for three years without either having uttered a word to the other, Mrs. Thomas Hill, if not loquacious, was at all events inclined to be chatty about her affairs with a correspondent. Their divorce suit was described by the judge as the most remarkable one since the seventeenth century. They had no children, but one mutual friend existed in their home, a big silver-haired dog with most likeable manners. He did all the "talking" for both.

Most married persons in the kingdom have been discussing the case, and it is sure to go down in history as one of the classics in the great problem of matrimony.

For three years this middle-aged couple have lived in the same model little suburban home, and all that time, except for one recent and unavoidable occasion, they have never spoken to one another. The wife did the housework,

cooked her husband's food and made his bed.

The judge dismissed petition, but as yet there has been no reconciliation. Mrs. Hill said to a correspondent:

"How could a woman think of reconciliation after all that has passed? I suppose it has wrecked my life. It has been a great strain living with 'not one word spoken. They say that a woman cannot hold her tongue. It is always the woman who is supposed to find silence an impossibility. I, for one, have shown that it can be done."

Mrs. Hill is one of the petite blondes who always look so very much younger than their years, and must have been very much admired for her flaxen and blue-eyed beauty in her girlhood days. She said that many years before the silence began and Hill only communicated with her by notes, their matrimonial affairs "went rather wonky." Once upon a time the two were very happy, and the husband's friends say he is a good-natured and easy-going man.

The home is one of the spotlessly clean sort, comfortably furnished and stocked with all those mementoes, photographs and things which make the middle-class house the very human home that it is.

DRYING TIMES.
(The Outlook.)

These changes on the map to conform with the new era of prohibition are suggested by the Dramatic Mirror: "Lye, New York, might be changed to Dry; Bar Harbor, Maine, might become Soda Fountain." Other towns with names that

are now inappropriate may easily be recalled: Wineville, California; Stille, Louisiana; Worms, North Dakota; Beerston, New York; Rieley, Alabama; towns that have Rum for their first syllable, such as Rumford; and, above all, Gin, Florida, and Boon, Tennessee.

PLAN WORLD CONFERENCE OF TELEGRAPH EXPERTS.
Rome, Nov. 27.—An immediate meeting of experts from all countries with a view to ameliorating the situation relative to posts, telegraphs and telephones was decided upon yesterday by the Supreme Economic Council. The French delegate asked that the council co-operate closely with the League of Nations, but decision on this point was deferred until next session, which will be held in Paris in January. In the meantime, the council will investigate the economic situation in Europe and will maintain contact with the economic section of the League of Nations.

It was agreed by the delegates that it was necessary to adopt all means of maintaining an inter-allied economic organization, which, it was said, would be particularly indispensable next spring.

USE The Want Ad Way

URDANG'S WHIRLWIND SALE

A quick decisive price cutting sale to make room for Christmas merchandise coming in. Nothing withheld from the price cutting tag. The greatest bargains we have yet offered and for 15 days only.

works in New Brunswick was on the job and sooner or later he would get the roads.

He spoke of the need of good roads in the United States were going in, would be of great benefit to the whole country.

He pointed to many instances where the roads had kept the peoples of various countries in close touch.

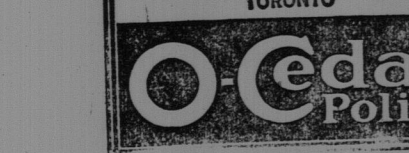

A WAGE ADVANCE OF 14 PER CENT., GARFIELD SAYS

Washington, D.C., Nov. 26.—A wage advance of fourteen percent for all mine workers, maintenance of government control over coal prices, and an increase in prices at this time, were the conclusions of Fuel Administrator Garfield, announced tonight to the operators and miners wage scale committee.

Declaring that Secretary Wilson, acting as the authorized agent of the cabinet and of President Wilson, had offered an increase of thirty-one and six-tenths percent, John L. Lewis, acting president of the Mine Workers, asked if the government intended to "repudiate the acts of Secretary Wilson."

Every Room SHOULD RECEIVE THIS TREATMENT

The housewife of to-day is not content to confine her brightening and polishing to the "company part of the house."

Not only your furniture, but your floors may be kept clean and bright by the O-Cedar treatment.

The Progressive School

If our courses had not been the kind that you should have, we would not, within two months after establishing our school, have been forced to acquire larger premises to accommodate the large number of young people wishing to take Modern training.

COUNTY LOCAL HOUSING BOARD

We are prepared to receive applications for loans on houses now in course of erection or contemplated by private parties in the County of St. John.

ALEX. WILSON, Chairman

GREAT ENTHUSIASM AT CANADIAN CLUB BANQUET IN BOSTON

Colonel D. F. Pidgeon, Formerly of St. John, Among the Many Speakers

Boston, Nov. 26.—More than 400 Canadian born gave vent to their feelings tonight as they have never done before because there never has been in the past such an opportunity to rouse their enthusiasm, their patriotism, their love for their motherland and England.

There was inspiration as the president, Freeman I. Davidson, led the way to the dining room amid the strains of "The British Grenadiers."

Mayor Peters expressed his admiration for Canadians who, he said, made the best of citizens. He was glad to see the living evidence of the force and vigor of men of Canada, who were always found on the side of law and order.

Great Britain's part in the war and a description of the surrender of the German fleet were told in vivid word pictures by Captain (Rev.) Arthur E. Rundles, who put his hearers in good humor by saying that at last Germany had got the freedom of the seas.

Brigadier General G. Eric McCuaig, who went over with the First Canadian Contingent as a captain and returned as the youngest brigadier in the Dominion forces, having been in every engagement, told of the deeds of valor that he had witnessed among Canadians.

A drive was begun two months ago, when President Davidson started the administration for an enrollment of 1,000 before the new year, as the officers believed that with such a list they would be warranted in proceeding with safety towards the erection of a club house that would in reality be a home, a resort for business men from all parts of the Dominion during their sojourn in this city.

The membership is now rising 800 and among the later additions to the list are ex-Governor Eugene N. Foss, Brigadier-General Eric McCuaig of Montreal; Lieut.-Colonel A. G. Lawson of Ottawa; Colonel D. Rukert McCuaig, D.S.O., of Montreal; Captain G. Chipman Drury of Brookline, Captain A. F. MacDonnell of London, ex-Assistant District Attorney Asa P. French of Boston; Hon. Walter B. Clarke of Worcester, Dr. J. Frederick Macdonald of Somerville, Dr. Edwin J. Morse of Waban, Dr. H. D. W. Carville of Manchester, Dr. Philip A. Hennessey of Mattapan, Dr. W. H. Irvine of Fredericton, Dr. W. H. Blanche of Mattapan, Thomas V. B. Binney of Yarmouth, P. E. Lyford of Vancouver, and a score of New Brunswickers.

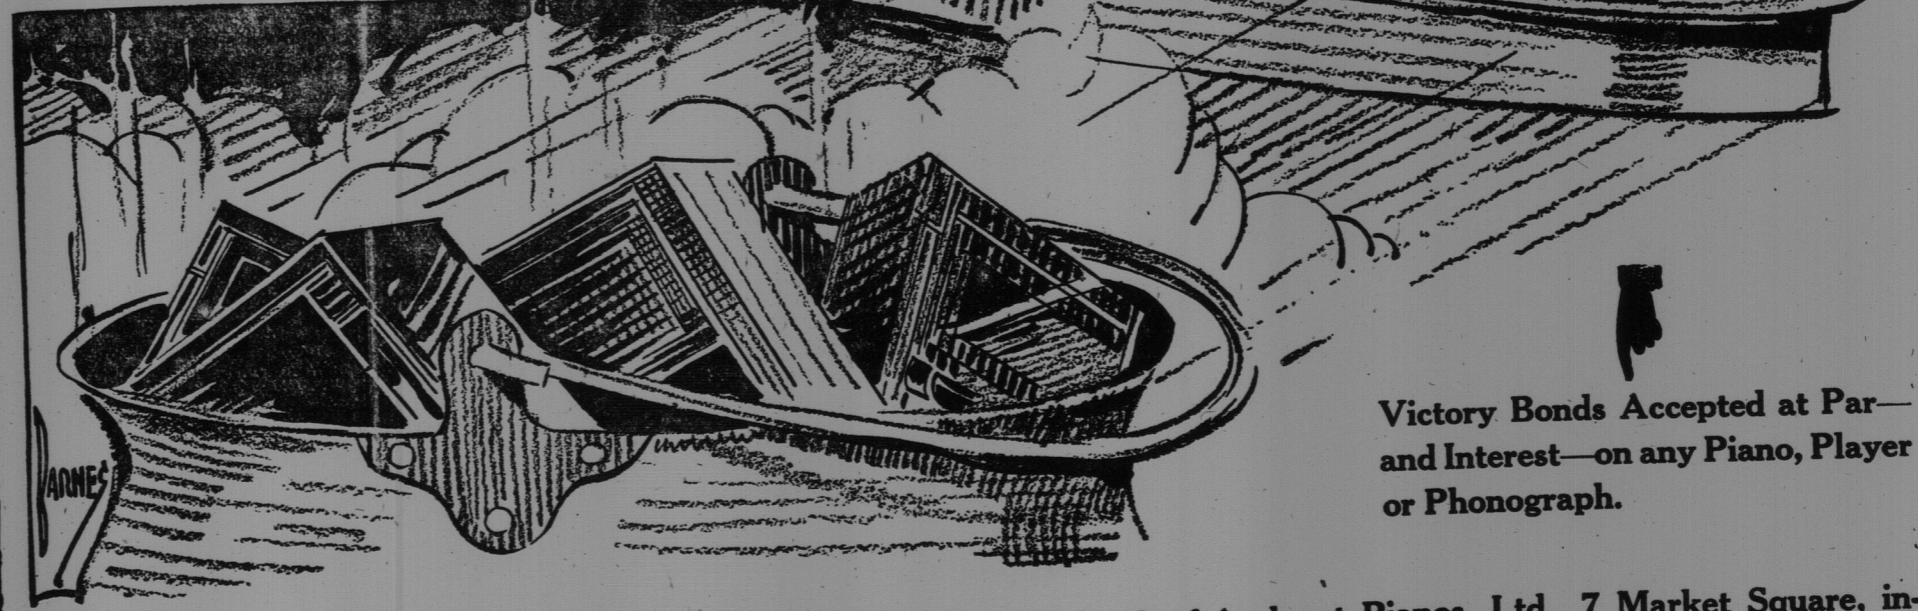

There are 50,000 eligible within twenty-five miles of the state house and with this as a field and as an incentive it is pointed out that New York and Chicago have Canadian Clubs that are progressive with buildings of their own.

That the club is a fixture and stands for the best in citizenship is shown by the fact that during the police crisis it sent messages to Governor Coolidge, Mayor Peters and Police Commissioner Curtis congratulating them on their stand for law and order and promising them the hearty co-operation of 80,000 Canadian-born residents of this city.

HIT BY STREET CAR DIED IN GENERAL PUBLIC HOSPITAL

Michael Sullivan, who was struck by a street car, last Saturday evening, at Glen Falls, and suffered a fracture of the leg, died in the General Public Hospital, yesterday afternoon.

EMPRESS OF FRANCE COMING TO ST. JOHN IN WINTER SERVICE

The Canadian Pacific Ocean Service announce that the Empress of France is due to arrive at this port about December 16. This will be the largest vessel that has ever come to St. John, having a net tonnage of 10,747 tons, and gross tonnage of 18,481 tons, and is driven by turbine engines.

The first turbine vessels to come here were the Victorian and Virginian, both of about the same tonnage, which were slightly over 6,700. The Empress of France is scheduled to sail from here on December 19.

Ottawa, Ont., Nov. 26.—D. D. McKenzie, M.P., has retired from the House of Commons, after a long and distinguished career in the House of Commons, after drawing the session allowance of \$7,000 attached to that position.

JEWEL LODGE ENTERTAINED

Between forty and fifty members of the Jewel Rebecca Lodge were most delightfully entertained at the home of Mrs. Von Richter, Duke street, West St. John, last evening. The programme for the evening was calculated to please everybody. It included games, dancing and refreshments, each being thoroughly enjoyed. The rooms were prettily and appropriately decorated in pink and green, the colors of the order.

E. W. Gillett Company Limited, Toronto, Canada

that the dominion government's intended offer of aid would place upon the province an extra burden for it would necessitate that he change almost completely the plans made in 1917, although this change would be for the greater improvement of the roads.

"Although I am not in a position to state what these changes will be, rest assured that this policy will tend to greater improvement of the roads than has already been accomplished," stated the minister.

Speaking of the selfishness of automobile owners, he said he did not wish the members to be too selfish and wish all improvements to be in and around the cities, for while endeavoring to improve the trunk roads it was also necessary to improve the secondary trunk and country roads. "I am not making this statement because of the farmers' movement," said Mr. Veniot smilingly, "but it is necessary to give the farmers better support so they may get to market for their benefit as well as others.

Automobile owners should not find pleasure in driving within the limits of the city, at least not within the city of St. John, and so they should not be selfish about improving the roads in their immediate vicinity."

How it Was Done.

He said he thought the association might be interested as to the way in which the funds were raised for the improvement of the roads. New Brunswick maintained her roads without any help from the municipalities. During the last three years the money obtained for roads in this province was \$2,225,000, of which only \$385,000 had been obtained from the ordinary revenues; \$1,425,000 had been obtained from the automobile fund fees. Of this \$1,425,000 had been spent on the trunk and semi-trunk roads, \$400,000 on the by-roads and \$180,000 for work done on them. In 1918 the minister said inspectors had been placed on the roads and the automobile fees had increased marvellously every season since that time.

He referred to the men on his engineering staff, saying that they could not be beaten in any province in Canada. Speaking of the visit of Messrs. Mulroney and McGrath to this province, from the Dominion Highway Commission, he said they went away very well pleased.

The Rothesay road, Mr. Veniot said, had been laid because a gravel road would not have stood up under the speed fenders around St. John, and it asked the support of the association in downing the habit of speeding. It was speeding, not the weight of the car, that tore up a road. He also referred to the lumbermen as offenders on the roads, saying that a certain class of them persisted in transporting portable mills along roads in the late fall when the frost had set in.

He said that if they persisted in doing this, legislation would be enacted that would make them listen to reason.

To improve 17,000 miles of roads in this province as some people were agitating to have them improved, would cost \$42,500,000 as there were \$600 miles of trunk and secondary trunk roads and 16,000 miles of roads and country roads to be faced. The minister of public works claimed the province could not stand financially and would not be able to until the people of New Brunswick would do as the people of other provinces did—pay more taxes for road improvement. The number of automobiles in New Brunswick was 7,651 and 410 trucks, of which St. John city and county claimed 1,364, said Mr. Veniot, while the number of strange automobiles coming in from other parts, last year, was 1,248 and 999 of these had come over the much abused St. Stephen road.

St. Stephen Road.

Referring to the St. Stephen-St. John road, Mr. Veniot said there had been much criticism and probably a great deal of it had been deserved, but that a plan was now before the federal authorities for the improvement of this road and he expected to bring that plan back from Ottawa, approved, next week. Tenders would then be immediately called for so soon as the plan was approved, as the government could not do it until this ninety-one miles of road would cost considerably more per mile than some other roads that had been constructed because of the Lepraux bog and other very bad spots in it. They had decided that the Shore Road was the one which should be improved and a very heavy expense was the construction of the permanent bridge. This necessitated a detour, last summer, and it was this detour that many people found such a nuisance. He did not consider, however, that he was justified in spending the sum which would be necessary to make this detour as nice as was wanted for only a few weeks. He said that the work would begin early in the spring on this road and it would be of a class equal to any in the province today.

Dimming of lights was another question the speaker brought before the association, and he asked the co-operation of the members in this. He thanked the good roads committee and their chairman, Percy A. Thomson, for the interest they had taken in the building of the roads and he said he hoped a system had not yet been decided upon but that a plan would be suggested by him and this would very probably be accepted on the St. Stephen road. He outlined this scheme, but said that the plan of signing all the roads in the province would be very costly and they would not be able to do it in one year.

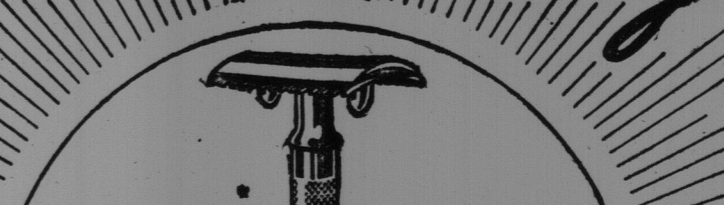

Rule of the Road.

He spoke of the rule of the road and said that it could only be proclaimed law by order-in-council as there was considerable opposition to it and it would be necessary to wait for a year or two until an opportunity presented itself. He suggested that people with influence in Nova Scotia and Prince Edward Island should try to get those provinces interested in the "keep to the right" and if they could be converted it would be an easy matter to convert New Brunswick.

In conclusion, he again thanks the association for the honor paid him, saying that he highly appreciated it and felt that it was sincere and not paid with a hope of getting more work done in this section.

Percy W. Thomson, chairman of the Good Roads Committee, made a short speech in which he thanked Hon. Mr. Veniot on behalf of the Good Roads Committee for the good work he had done. Referring to the St. Stephen road, he said it really needed improvement and he was glad to hear it was to be improved. He advocated the adoption of the patrol system in the roads and was informed by Hon. Mr. Veniot that already 1,200 miles of roads were patrolled by drags. He suggested a plan for this patrol and said he thought the taxes collected for them should be spent on the sections in the vicinity of the taxpayers. He spoke of the great increase in the number of tourists that the improvement of the St. Stephen road would bring to St. John and New Brunswick. He concluded by saying that the province needed better roads and he felt Hon. Mr. Veniot was the one to give them to the province.

Every Day a New Day

A NEW lease of life! You face it with the experience of the days gone by; with that much more opportunity of making a better showing. Often, you've wished for your chance again, little realizing that every morning brings new opportunities.

Gillette SAFETY RAZOR

The Gillette Safety Razor is the right start for each day. No Stopping—No Honing. It is always ready for business. It will have you ready for business too—and with five or ten minutes to spare—ready to meet everyone on an equal or better footing, bright and confident, face immaculately clean. Soon you will be planning Christmas gifts. Consider the Gillette Safety Razor. On sale at all stores catering to the needs of men. For \$5.00 you can purchase for someone a lifetime's shaving comfort.

Minister of Public Works Guest of Automobile Association at Banquet in His Honor

A Striking Tribute by Non-Political Organization to Success Attained by Hon. Peter J. Veniot in His Work For Better Roads in This Province—Minister Deals With Policy of His Department and Makes Important Announcement Regarding St. John-St. Stephen Highway—Prospects For Change in Rule of Road Dependent on Policy of Other Provinces.

One of the greatest compliments that has ever been received by any member of a New Brunswick government was paid last evening to "Good Roads" Veniot, by the New Brunswick Automobile Association, when as a tribute to the efficiency with which he has carried on his work as minister of public works for New Brunswick, this non-political body tendered Hon. Peter J. Veniot a banquet at the Union Club. About 200 members and guests sat down to this banquet, which was a triumph of the culinary art, and which was presided over by T. P. Regan, president of the association. Cason's orchestra provided excellent music and several vocal selections added to the enjoyment of the evening.

Hon. Mr. Veniot responded to the toast to "Our Honored Guest" with an appropriate speech in which he thanked the members for the honor they paid him, explained the work done on the roads and gave a hint of the government's future policy telling of the immense expense which the province would incur if it were to improve the roads along all the lines which were advocated by many of the inhabitants of the province. He referred to the rule of the road as advocated by the Good Roads Association and explained the obstacles in the way of changing to "drive to the right" in this province, saying that so soon as Nova Scotia and Prince Edward Island could be converted, it would be a simple matter to change the ruling in New Brunswick.

Speaking of the St. Stephen-St. John road, he said that plans were now before the federal authorities for the improvement of this stretch of ninety-one miles, and he assured the members that the work, in all probability, would be started next year and this would be made one of the finest roads in the province. He explained that New Brunswick was the only province in the dominion that constructed and maintained its roads by purely provincial funds.

The guests sat down to dinner about 7.45 and the menu consisted of: salted almonds, oyster cocktail, cream of celery soup, fried scallops, roast turkey, cranberry sauce, vegetables, pies of several varieties, ice cream and coffee.

T. P. Regan, after the toast to the King had been drunk, proposed a toast

to Hon. J. P. Veniot, the guest of honor. Mr. Regan said that the automobile association was a non-political body and that good roads was its policy. The association had observed with satisfaction the good condition of the trunk and secondary roads of the province due to the efforts of the minister of public works.

H. MONT JONES, 92 King Street

back the efforts of the minister of public works and join with him in conducting meetings during the winter months. These assemblies could be made somewhat of a social nature so that people of the province would learn more of their neighbors. In this way the aims of the association would be more fully understood. Its policy was not selfish but tended towards the upbuilding of the whole community.

He felt that the tourist trade of the country to the south should be encouraged by providing smooth roads over which they could view the sights of New Brunswick.

In order to carry out this idea it would be necessary to have adequate and up-to-date hotels and these could be secured for the province, he had no doubt. He then called upon A. G. Batchelder, executive chairman of the American Automobile Association, Washington (D. C.).

Mr. Batchelder in a humorous speech showed the need of good roads and how they were responsible for getting the people better acquainted with one another. He said that the headquarters of the automobile association in the United States had been in receipt of many enquiries concerning routes through New Brunswick and Nova Scotia. He had heard of Hon. Mr. Veniot and in answer to enquiries he had replied that: "The minister of public

ANGLICAN LAYMEN TO RAISE \$90,000

Decision Reached at Banquet Given Last Evening at Which Bishop Richardson Outlined Aims of Forward Movement.

At a largely attended men's banquet held in Stone church school room last evening, the men of the Anglican churches of the city listened with interest and entire sympathy to the outline of the plans for the forward movement of the Anglican church, as explained by His Lordship, Bishop Richardson.

THE PRIMARY CAUSE

of most sickness is neglect of the liver. Constipation follows. The poisonous matter which should pass out of the body spreads through the system. That is the cause of sick headaches, sour stomach and biliousness and these troubles are sure indications that the liver needs attention.

HON. H. A. McKEOWN, Chief Justice, New Brunswick Supreme Court, says: "I find Hawker's Little Liver Pills an excellent liver regulator, and we are receiving similar testimonials in every mail."

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, filter out, they weaken from overwork, filter out, they weaken from overwork.

Physicians and eye specialists prescribe Bon-Opto as a home remedy in the treatment of eye troubles and to strengthen eyesight. Sold under money return guarantee by all druggists.

MASTER LOSES HIS CERTIFICATE

Montreal, Que., Nov. 26.—The cancellation of the master's certificate a reprimand for the mate, exoneration for the second officer, and a recommendation of investigation by the department of marine into the pilot boat's action, sums up the findings of Captain L. A. Demers, Dominion wreck commissioner, together with Captain Charles LaPierre and Commander C. J. Stuart, R. N. B., as announced in the inquiry held into the steaming of the steamer Germanicus, which ran on to the Ice Reef on the seventh of November and became a total wreck.

VERDICT FOR PLAINTIFF

The case of Edith Eagles vs. the Canadian Bank of Commerce came before the circuit court yesterday, Judge Barry presiding. It was a suit to recover the value of a piano seized under the execution of the property of the plaintiff, father, John S. Eagles, the plaintiff claiming the piano was bought and partially paid for by her mother who gave it to her when she, the plaintiff, made the final payment on it. Verdict was given for the plaintiff, for \$875 and costs. H. A. Powell, K. C., and C. C. Hanington appeared for the plaintiff and E. P. Raymond, for the defendant.

Did Not Sign

Paris, Nov. 26.—Contrary to expectations, the plenipotentiaries of Jugo-Slavia did not sign the Austrian peace treaty this afternoon. The reason given by them was that they found they did not have the requisite powers to sign the different annexes.

Steamer Wrecked

London, Nov. 26.—The wooden steamer Flush has been wrecked south of the Aland Islands, off the east coast of Sweden, with the loss of all the crew, according to a despatch to Lloyd's.

CURE YOUR COLD WITHOUT MEDICINE

Just Breathe "Catarrhózone." Its Balsamic Vapor Does the Rest

It's a tiny germ that sets up the irritation that makes colds so disagreeable. Colds die quickly if Catarrhózone is used, simply because the vapor of Catarrhózone instantly destroys the germ that keeps the cold alive.

Every breath you draw through the inhaler fills the whole breathing apparatus with pure piney essences that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared, and every trace of cold or catarrh is cured.

Approve Amendment.

Bismarck, N. D., Nov. 27.—The state senate late today passed the Federal Suffrage amendment by a vote of 43 to 3.

"SWAT THE COLD" A HEALTH SLOGAN

Health Authorities Are Back of Campaign which Covers Entire Continent

The familiar "Swat the Fly" slogan is now being revised by health authorities and the public is being advised to "Swat the Cold" in winter as heartily as they "swatted" the fly in summer.

DON'T NEGLECT A RHEUMATIC PAIN

Buy and keep handy a bottle of pain-relieving Sloan's Liniment

YOU need it when the unexpected rheumatic twinge starts—the pains and aches following exposure—sciatica, lumbago, sore muscles, stiff joints, neuralgia. Forget all about buying another bottle and keeping it handy, didn't you? Get it today—play safe—you may need it tonight!

Maintain Price Control.

"Control of prices by the government will be maintained for the present. The present negotiation stands by itself, but it is far from disposing of the fundamental controversy between operators

STATEMENT BY GARFIELD ON 14 P. C. INCREASE

Public Ought Not to Pay Higher For Coal Than Now

COST OF LIVING BASIS

U. S. Fuel Administrator Urges Permanent Consultative Body With Purely Advisory Powers — Government Retains Control of Prices

Washington, Nov. 27.—In a statement last night to the operators' and miners' wage committee, fixing a wage advance of fourteen per cent for all mine workers, Dr. Garfield, fuel administrator, said:

"On the 24th inst. I announced that the public must not be asked to pay more than it is now paying for coal, unless it is necessary to do so in order to provide reasonable wages to the mine workers and a reasonable profit to the operators. Careful investigation forces me to the conclusion that, in accordance with this and other principles set forth on the 24th inst., the public ought not to be required to pay any increase in coal prices at this time.

"The prices fixed by the government on coal were calculated to increase production for war purposes. Coal was basic and the increase in production was imperative. The operators are now in receipt of margins which were necessary to effect that increase of production, but which are larger than are required under present conditions. It was estimated that the production needed for 1918 was 600,000,000 tons. The estimate for 1919 is 500,000,000 tons.

"Applying the principles set forth in paragraph two of the statement of Nov. 24, when the average increases in wages since 1918 for the various classes of miners are deducted from the increase in the cost of living since that time, we arrive at the amount of additional increase in wages justifiable at the present time.

"I have taken the figures of the bureau of labor statistics for both cost of living and for the weighted average of wage increases. According to these figures the cost of living has risen 79.86 per cent since 1913 and the amount necessary to bring the average wages of mine workers up to the point at the present time is 11.1 per cent.

"Re adjustments heretofore made since 1918 were such as to give certain classes of mine workers an average increase in excess of the increase in the cost of living, and certain others an average increase below the increase in the cost of living. This form of adjustment was made in order to establish on a certain relative basis in the mining industry.

"I do not think this condition, however, ought to result in giving the mine workers as a whole, and in consequence imposing on the public, a total average increase in excess of the total average increase in the cost of living, because if this course be adopted, the result will be that the total increase in the burden placed upon the mining industry will be far in excess of the increase in the cost of living. If this principle were applied in industries generally, it is obvious that the resulting cost would be passed along to the general public and the increased wages would increase in a rapid spiral taking as a minimum the percentage of increase in the cost of living. In the long run this would add many new and serious burdens to the cost of living of the entire public and would fall more injuriously upon the working classes than upon any other.

"It seems to me that the reasonable way to deal with this situation is to give to the industry as a whole an average increase commensurate with the increase in the cost of living and then let that amount of increase be apportioned in accordance with the wage bases that are acceptable to the employers and the employees.

"Control of prices by the government will be maintained for the present. The present negotiation stands by itself, but it is far from disposing of the fundamental controversy between operators

Used After the Bath Dr. Chase's Ointment Keeps Baby's Skin Soft and Smooth

Baby's skin troubles are generally caused by chafing and skin irritations resulting from friction of the clothing.

Baby's skin is tender, and if neglected these irritations of the skin develop into eczema. Everybody knows the suffering caused by eczema and the tendency of eczema to become chronic and spread over the body.

While Dr. Chase's Ointment cures eczema, it is always better to prevent such ailments, and this is why mothers use the ointment after baby's bath so as to prevent irritations and more serious skin troubles.

Powders clog the pores of the skin and are on that account a cause of skin irritation. Dr. Chase's Ointment, on the other hand, cleanses the pores and keeps the skin in healthful condition.

Regular size, 60 cents a box; family size, about five times as much, \$2.00. All dealers, or Edmansons, Bates & Co., Ltd., Toronto.

URGE RESTRICTIONS ON GAS CONSUMPTION

Moncton Case Before Utilities Commission Yesterday—Continued Today

The matter of the application of the residents of Moncton for restrictions on the consumption of natural gas took up the entire session of the public utilities commission yesterday afternoon in the local government rooms. No decision was arrived at and the session adjourned until this morning. There was a large delegation before the board from Moncton. These included representatives of the city council, the domestic consumers, manufacturers, churches and schools. A delegation also came in from Hillsboro.

The Moncton city council was represented by Mayor Price; J. S. Magee, city clerk; A. A. Allen, city solicitor; Robert Simpson, Moncton, Tramways; E. H. Cummings; J. E. Smitte, representing the Success Business College and Fred Robinson, representing the churches of Moncton. The Hillsboro delegation was represented by W. H. Duffey, for the churches, and A. B. Lauder, for the schools, and Mr. Thompson, of the Hillsboro Manufacturing Company.

A telegraph reported speaking to a member of the board after the meeting learned that the temporary order placed by the commission a few months ago which restricted the use of the gas by manufacturers, expires on Saturday, November 29. With the expiration of the expiration of the temporary order the commission will have to take some action.

PROFESSIONAL COURT MARTIAL WAS APPROVED

London, Nov. 26.—(By Canadian Associated Press Cable)—The committee under the chairmanship of Mr. Justice Darling, inquiring into the procedure of government courts-martial, has found that what is chiefly needed is not so much an alteration of the law as a more effective instruction of tribunals. The difficulty was overcome during the war by the employment of expert court-martial officers. The committee urges that this system be made permanent and do not find much ground for the complaint that prisoners are kept an unreasonable time in custody.

SNUG HOME IS NEED OF CAR FOR WINTER

Proper Storage Against The Cold Blasts Means Added Mileage — Weather proof Garage

(Toronto Globe.)

For various reasons hundreds of motor cars are annually given a resting place during the winter months in some public or private garage. The owner either travels to another climate during the winter or else prefers using a closed car during the cold months. There are also many who find winter motoring not the least enjoyable, and there are those who, from a pecuniary standpoint, refrain from the use of their favorite motor during those months.

For such owners the following instructions in regard to storing their car for the winter may be of great value in prolonging the life of the car and at the same time saving a big saving to the owner.

The prime object to have in mind is protection against cold and dampness, and to the preparation of the car itself. To your car than 20,000 miles of driving. The first and obvious thing to do is to look over your garage and see if it is weather proof. If it could be hermetically sealed it would be ideal, but as this is impractical, do the next best thing and see that all cracks and openings are closed up doors fit properly and generally prepare it so that your car will be snug and warm as possible. Now as to the preparation of the car itself:

Wash and thoroughly clean the car and jack it up, from under the frame. Do this by placing four wooden trestles under the frame, the best points of support being close up against the two front axle bolt brackets of the front springs. Supporting the chassis in this manner relieves all weight from the springs and wheels.

Use Oil-Soaked Rag.

Remove all tires from the rims and completely exhaust air from the inner tubes and rub them down well with soapstone, sprinkle with French chalk, fold them up perfectly flat, care being taken not to crease them, and place in inner-tube bags. The tires should be laid down flat. Store both tires and tubes in a dark place.

Clean and shellack all rims. Drain off water from the radiator and cylinder block. Flush out the radiator with hose. To insure that all water has been emptied from cylinder block and water pipes, start the motor and run slowly for a few minutes. This will convert any water into steam which might have collected in the water jackets. Replace and plug removed to drain off the water and close drain cocks.

THE BROTHERHOOD CHIEFS

Cleveland, Nov. 27.—No action looking toward a railroad strike by the four railroad brotherhoods was taken yesterday by the 500 general chairmen meeting here to act on Director-General of Railroads Hines' offer of time and one-half for slow freight service and no vote was taken on the proposition, although a motion to vote on it was adopted. The conference adjourned until today. Discussion of the proposition and the request of the firemen and trainmen for a general wage increase occupied the afternoon session yesterday.

Here's a Cheery Chap.

St. Peter Herald.—The man who has enemies amounts to something. He is a live man. He is a fighter. People don't kick a corpse. A live man can swim against the current; a corpse floats down without hindrance. God bless our enemies! We love them. They are making life worth while.

Mrs. Dora McCants of Shasta, Calif., 72 years old, is the mother of 27 children, including twins born September 23 of this year.

Pain subsides—aching ceases—

When Thermogene is applied. This wonderful medicated wool generates instant heat—and soothes and cures pain-racked nerves and tissues. Takes the place of poultice or plaster.

From Your Druggist 50c

Wanted to Enter Mexico.

New York, Nov. 26.—Representative Johnson, chairman of the house immigration committee, announced that he had been informed by the bureau of immigration that application of Alexander Berkman, an anarchist leader for per-

mission to go from the United States to Mexico instead of being deported to Russia, had been denied.

A member of the delegation said it was estimated that, from November 1 to the end of March, domestic consumers alone would use 90,000,000 feet of gas whereas it has been stated that the average pressure shows the available supply to be only 75,000,000 feet. Continuing the member of the delegation from the railway city thought that, should experts' opinions prove correct, the city was facing a serious crisis.

Asked if there was any way of ascertaining the exact amount of gas available, this delegate answered that the citizens of Moncton wanted an independent finding regarding the present gas supply. This could be done, he suggested, through the provincial government bringing an expert from the United States to sound the wells to see just what is available and how long the supply would be likely to last.

G. O. Dickson Otty was present as chairman, P. P. Robinson as secretary, in addition to A. B. Connell and Felix Michard, the other two members of the commission.

Ever, it was learned that a restriction will have to be placed in some way as the supply is said to be dwindling.

Don't let the poisons accumulate in the intestines either, but take a dose of castor oil the first thing on arising, or a pleasant laxative occasionally, such as one made up of May-apple, aloin and jalap, rolled into a tiny sugar-coated pill, and sold in every drug store as Dr. Pierce's Pleasant Pellets. Then a cup of hot water before breakfast, and you'll feel better than a king! If you continue in life thus, you can pass a Life Insurance examination at sixty.

If you wish to prevent old age coming on too soon, or if you want to increase your chances for a long life, you should drink plenty of soft (rain) or distilled water daily between meals. Then procure at the drug store Dr. Pierce's Anurie (anti-uric-acid). This "Anurie" drives the uric acid out and relieves backache and rheumatism, as well as kidney trouble. Anurie dissolves uric acid as hot tea dissolves sugar.

NUXATED IRON

If you are not strong or well, you owe it to yourself to make the following test: see how long you can walk or how far you can walk without becoming tired. Next take two five grain tablets of NUXATED IRON three times per day for two weeks. Then test your strength again. You will see how much you have gained. Many people have made this test and have been astonished at their increased strength, vim and energy. Nuxated iron is guaranteed to give satisfaction or money refunded. Ask for good druggist.

CHICAGO HAS CRIME WAVE

Four Murders, Two Hundred And Fifty Crimes in Three Days

Chicago, Nov. 27.—Among the approximately 150 persons taken into custody as a result of the crime wave that swept Chicago in three days, in which holdups, automobile thefts and safe blowings followed in rapid sequence, sixteen men and a woman placed in city jails charged with implication in four murders, 100 saloons, pool room and street holdups, and 150 house burglaries. Members of the band confessed to the more than 250 crimes, police asserted.

THE YPRES MEMORIAL

London, Nov. 27.—It is announced by the War Office that the Battle Exploit Memorial Committee has under consideration the question of a memorial to the troops of the British Empire who fought at Ypres.

Harmless Means of Reducing Fat

Many fat people fear ordinary means for reducing their weight. Here is an extraordinary method. Extraordinary because while perfectly harmless no dieting or exercise are necessary. Marmola Prescription Tablets are made exactly in accordance with the famous Marmola Prescription. A reduction of two, three or four pounds a week is the rule. You prefer send \$1. to the Marmola Company, 864 Woodward Ave., Detroit, Mich., for a large case.

George C. Trenholm of Moncton is dead aged 67 years. He is survived by his sister Miss Caroline and two brothers, Dykes Trenholm of the Canadian National Railway, St. John and Howard who lives in Lynn, Mass.

A New Blood-Food Has Been Discovered That Works Wonders

SAID TO PUT NEW LIFE INTO PEOPLE THAT ARE RUN-DOWN.

For years doctors have been searching for a combination that would enable them to inject into thin blood the elements it lacked. This can now be done, and any weak-blooded person can quickly be made strong and well. Already a small army of ailing people has proved the merit of taking after each meal with a sip or two of water, two chocolate-coated Ferrozone Tablets. This is easily done, and even one week's use of this wonderful blood-food will prove how nourishing and strengthening and flesh-building the treatment is.

DIES AT BREAKFAST

Discoverer of Famous Hollinger Mines at Cobalt, Ont.

Pembroke, Ont., Nov. 27.—Benjamin Hollinger, discoverer of the famous Hollinger mines at Cobalt, and one of Canada's most famous prospectors and mining magnates, died suddenly here yesterday at his breakfast table. He had been in the best of health until his head dropped upon the table. Physicians were hurriedly summoned, but before they arrived, however, he was dead.

In Sackville on Monday Titus Stokes died, aged 68 years. Besides his wife, he leaves one daughter, Mrs. Jesse Crossman of Sackville, and five sons, Charles and Elijah in Detroit; Burton, in Woburn, Mass.; Edward in Vermont and Arthur in Centerville.

H. P. Hill of Ottawa, Conservative Member for West Ottawa in the Ontario House. He defeated a Liberal.

TELEPHONE HUMORS

A lot of ruse has lately been made in the papers regarding the delays of the telephone. So much has been said that I feel it is necessary that I should, in a few well-chosen remarks, present my views and observations on this subject, says Thomas Jay in London Tit-Bits.

One gentleman has even said that the telephone is perfectly useless. This, of course, is all nonsense. The telephone is a most useful instrument—as a desk paper-weight. Furthermore, under the influence of the late Mr. Euclid, I have been able to ascertain that if all the telephones in use in Great Britain were piled on top of the other in Ludgate Hill, they would probably be knocked down.

The telephone was introduced into this country some years ago. Mr. Edison once said we used to sleep too much, so an enterprising gentleman named Bell immediately decided to invent the telephone.

The name of the first man to introduce this instrument—or weapon—into Great Britain is a closely-guarded secret. This is just as well because, we are, generally speaking, a peace-loving nation.

Most of us keep pets—silkworms, fretwork, income-tax demands, and tame mice hitches—but very few people make a pet of the telephone. Indeed, it is said to be no joke to have a telephone loose about the house.

For people with ginger hair it is said to be a great boon and a blessing as were the combined activities of the late Messrs. Owl, Picwick, and Waverley. People with ginger hair only have to hire a telephone, and they will have the beastly stuff turned grey in no time.

For outstanding ears the telephone is most useful. After using it, no ear can stand out any longer. One long-distance telephone call is calculated to cure the most obstinate case of outstanding ears. In fact, they become so tame that they will lie down flat at the word of command.

There is a case on record, which happened on August 12th, 1889, when a

If Thin And Nervous Try Bitro-Phosphate

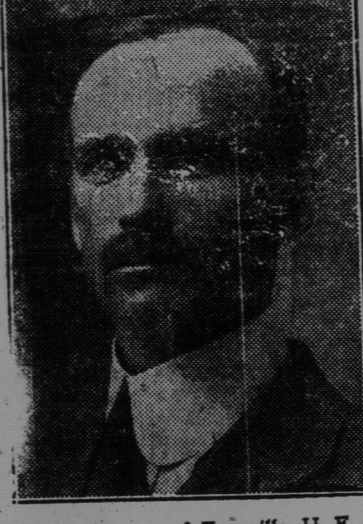

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nervous tension disappears, vigor, and strength replace weakness and lack of energy and the whole body loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty, and the will and strength to be up and doing.

CAUTION.—White Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

DISTINCTIVE FOR THOSE MENTIONED IN DESPATCHES

Great Britain Authorizes Oak Leaf—Maple Leaf Suggested For Canadians

(Toronto Star.)

A despatch from one of The Star's resident correspondents in London, England, announces that Winston Churchill said in the House of Commons that it was contemplated that those who were mentioned in despatches during the war should have permission to wear a small oak leaf on the ribbon of the Victoria medal.

But we telephone tamers should take heart. I understand that authorities are experimenting with a new automatic exchange, which will enable one to get through to the wrong number without the assistance of the operator.

MORNING NEWS OVER THE WIRE

The United Farmers of New Brunswick at a meeting in Woodstock, N. B., yesterday sent a telegram of protest to Sir R. L. Borden against the proposed appointment of the executive of the Manufacturers' Association.

Speakers at a meeting of the Moncton Amalgamated Central Labor Union last night urged organization along political lines for the local campaign and to join with the United Farmers in the Federal arena.

Writing motion-picture scenarios is part of the course in English composition of eighth-grade pupils in some of Philadelphia's public schools.

WHAT IS STYLE?

It is something no man can get without the right clothes. It's an air, an effect that the right suit produces on the right man—it's a combination. Here are the Suits and Overcoats—come in and let's fix up the combination. There are few stores better equipped to style up a man.

\$25.00 to \$65.00 GILMOUR'S, 69 King St.

come from Ottawa. Whether the change would be advantageous or not would be an interesting matter for discussion among the 4,000 Canadians who would be entitled to wear the decoration. In some ways it would be more pleasant for all the dominions and the Motherland to wear the same decoration, on the other hand the maple leaf was especially Canadian.

Col. Bartlett Rogers, of the Third Battalion, was delighted with the idea as so many Canadians had been recommended for decorations, and failing to receive these had been "mentioned." They would now have something to show for it. From the Third Battalion 88 men had been mentioned in despatches, and of these twenty had no other decoration. The maple leaf would be just as good and more distinctive to Canadians than the oak leaf and all Canadian "mentioned" had been at the recommendation of Canadian officers; for instance, most of the Third Battalion "mentioned" had been recommended by Col. Rogers himself.

The Chinese government has floated a note issue of \$9,000,000 in England to pay for a contract for a large number of commercial airplanes placed with Vickers, Ltd. The English firm will erect hangars in China and send out pilots to train the Chinese to take the air.

The Pole star really is three stars, and the light from it that will reach us tonight left it 48 years ago.

HARDWARE CLERKS SPENT EVENING AT THE Y. M. C. A.

Social For Members of the Association Proved Enjoyable—Many Athletic Contests Indulged in.

The Y. M. C. A. was the scene of many hard fought battles last evening when the athletes, which includes the ladies as well as the stronger sex, of the different hardware establishments in this city, met on the floors of that institution.

After the games had been finished refreshments were served by the young ladies and a short programme of dancing was then carried out.

The line-up and scores of the different games were as follows:

Basketball. W. H. Thorne & Co. (12), McLennan, Willett, Doherty, Hood, Armstrong; Emerson & Fisher (11), Thorne, Stinson, Hoyt, Henderson, Keely.

Bowling. S. Hayward Co.—Crownwell, 110; Hazlett, 46; Lonn, 51; Geldart, 39; Sullivan, 95; total, 341.

T. McAvity & Sons—Ramsey, 89; Mitchell, 54; O'Brien, 70; Mitchell, 85; Stenhouse, 51; total, 329.

Emerson & Fisher—Fitzgerald, 89; Shampier, 42; Mallory, 86; Campbell, 55; Dunham, 80; total, 302.

W. H. Thorne & Co.—Myles, 88; McDermott, 84; Stevens, 62; McKenna, 45; Cooper, 86; total, 315.

Swimming—Forty yard dash, Hoyt, 1st; back swim, Hoyt, 1st; plunge for distance, McLennan, 1st.

EUROPEANS BUY AMERICAN HORSES

Swedish Purchaser Takes Chance on Manrico, a Man-eater

Indianapolis, Ind., Nov. 24.—With the war in Europe over but a year and the Treaty of Peace not as yet ratified, the foreign market for harness horses, at its best previous to the outbreak of hostilities, is coming back strong.

Buyers from England and the Northern European countries of Norway, Sweden and Denmark and also Holland have been busy for several weeks picking up desirable material in various parts of the country. A Swedish buyer a short time ago journeyed to the Blue Grass country and purchased from Walnut Hall Farm the 1912 Kentucky Futurity winner Manrico, 2.07 1/4.

The Swedish buyer was acquainted with the faults of Manrico previous to purchasing him, but was willing to take chances, particularly as he is a young horse and already has made something of a reputation as a sire with such fast performers as Miss Rico, 2.03 1/4; Mary Coburn, 2.07 1/4; Kentucky Jane, (3), 2.06 1/4, etc., to his credit. He was trained by Will Durfee, the premier reinsman of the Pacific Coast section and was brought east for the futurities in 1912. His victory in the Kentucky Futurity was a brilliant one, beating Baldy McGregor and others in a six-heat battle and taking his record of 2.07 1/4 in the final heat, this mile for six years standing as the record for a sixth heat by a trotter. Baldy McGregor, his futurity opponent, preceded him across the water several years ago.

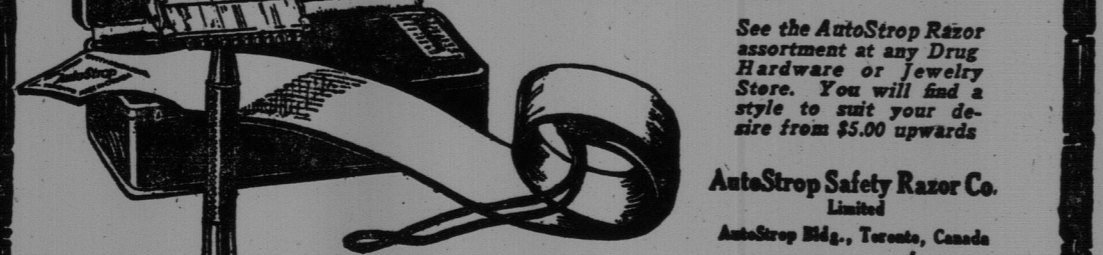

Another fast record star recently sold for across the sea shipment is that handsome Boston stallion, Frank "light little isle," along with a big lot, Dewey, 2.01 1/4, which was purchased by English parties and goes to the slower record performers which have been purchased during the past few weeks. The stallion from the Hub is about the highest class type of pacing horse ever seen on the major racing circuit; its bred in fashionable lines, and but for a very bad pair of bowed tendons he would undoubtedly have taken a record much faster than that he carries at present; probably inside the two minute list.

Your Dealer will gladly Demonstrate it to you

YOU cannot understand the AutoStrop Safety Razor by looking at it in a store window or show case. There it looks like any ordinary safety razor, with its leather case, its silver plating, its dozen blades. Only when you get it in your hands, when you see the strop put through the razor, when you realize it cannot stop the blade wrongly, that the blade must stay sharp—then and then only will you realize the value of the little \$5.00 set marketed under the simple name AutoStrop Safety Razor.

It is on sale throughout the world. Wherever you are located you will find a dealer who will gladly give you this demonstration and you can see with your own eyes that this razor must give you efficient and economical razor satisfaction. In addition you have our guarantees of 30 days' trial and 500 perfect shaves from each dozen blades, but the demonstration offered you will show you how needless are these guarantees. However, they are there if you want them.

AutoStrop Safety Razor

ENGLISH POLO TEAM WANT GAMES IN YEAR 1921

London, Nov. 24.—Earl Haig, chairman of the Hurlingham polo committee, is calling a meeting shortly to discuss the preliminary arrangements for the defence of the America Cup in 1921. Letters are now published which recently passed between England and America regarding the next international polo matches. Lord Valentia, the chairman of the Hurlingham Club, wrote to propose that the next trial of strength should be postponed until the year after next. He pointed out that the war had left this country with a severe shortage of ponies. "Many of our regiments being still abroad," wrote Lord Valentia, "we see no hope of regaining our full polo strength for the present."

In a reply typical of the fine sporting feeling which has always existed between the two polo organizations, William Hazard, the secretary of the American Polo Association, said: "The committee of the Polo Association have no wish to challenge until you feel that we can have a good sporting event and perhaps in 1921 your men and mounts, and ours, will be in better form than would be possible in 1920."

Some Likely Players. The building up of powerful sides for the international matches will be the feature of next season's play both at Hurlingham and in the United States. On last summer's form Major F. W. Barrett, Major Vivian Lockett, Lord Rocksvaer, and Major F. B. Hurdall are eligible for the home team. The first two helped to bring back the cup from Meadow Brook in 1914. On the past season's form in America Devereaux Milburn, L. Stoddard and Earl Hopping have chief claims for

places in the attacking side. Malcolm Stevenson, T. Hitchcock, Jr., J. Watson Webb, C. C. Ramsey and J. Cheever Cowdin are other front-rank American players whose qualifications will have to be taken into consideration.

McDonald May Meet Jackson. Halifax, Nov. 26.—It is likely that an effort will be made to have Kenneth Jackson, a 205-pounder, now operating

Old Glory Sale
Opens in New York

New High Average Price For
Last Ten Years is Set at Gar-
den

New York, Nov. 26.—That there is a
strong revival of interest in harness racing
was indicated at the opening of the Old
Glory sale at Madison Square Garden
yesterday when the prices brought by
the horses offered at auction set a new
high average for the last ten years.
Nearly 150 horses were disposed of on
the opening day, and the first 110 of
these brought \$62,810.

A consignment of thirty-one yearlings
by Peter the Great, the leading sire for
several seasons, brought the best prices
total of \$37,765. The top price of the
day was paid for Peter Henley, a year-
ling son of Peter the Great. This colt
was bought by R. L. Cooper of Dayton,
Ohio, for \$3,700. Several others of the
same sire brought varying prices up to
\$2,900, while the Fatherland Farm of
Byfield, Mass., paid for a bay filly, Great
Fig Leaf.

A feature of the sale was that a num-
ber of horses were bought for year-
lings, among several of the Peter
the Great colts and fillies, paying close
to \$10,000 for the entire lot. The sale
will continue until Thursday night.

Among the most important of the
sales were the following with the pur-
chaser:
Peter Henley, b. c. 1, by Peter
the Great, to L. T. Cooper, Dayton,
Ohio, for \$3,700.
Great Fig Leaf, b. f. 1, by Peter
the Great, to Fatherland Farm, By-
field, Mass., for \$2,900.
Evelyn the Great, b. f. 1, by Peter
the Great, to Fatherland Farm,
Byfield, Mass., for \$2,700.
Peter Rogue, br. h., by Peter the
Great, to C. M. Muller, Sweden, for
\$2,600.
Marge the Great, b. f. 1, by Peter
the Great, to James Powers, for
\$2,600.
Miss Lee C., b. f. 1, by Lee Ax-
worthy to Charles Welland,
Brooklyn, for \$2,050.
Grace Forbes, blk. m., by Malcolm
Forbes, to A. J. Furber, Brighton,
N. J., for \$1,850.
Un, b. h., 8, by Reddie, to A. J.
Furber, for \$1,650.
Betty the Great, b. f. 1, by Peter
the Great, to R. McDonald, for
\$1,600.
Peter Wheeler, b. r., by Peter the
Great, to C. L. Mueller, Sweden, for
\$1,700.
Wellington Direct, ro. h., by Wal-
ter Direct, to S. B. Russell, Lew-
iston, Pa., for \$1,600.
Peter the Brewer, b. c. 1, by Peter
the Great, to J. L. Stadler, Cleve-
land, Ohio, for \$1,350.
Lee Axworthy, Jr., b. c. 1, by
Lee Axworthy, to C. L. Mueller, Sweden, for \$1,225.
Cat Nan, b. f. 1, by Peter Hope-
ful, to A. McDonald, Indian-
apolis, Ind., for \$1,400.
Nanton the Great, b. f. 1, by

to nothing.

GOULLET CHOOSES PARTNER
Will Ride With Madden in Six-
day Bicycle Race

Alfred Goulet will team up with Ed-
die Madden in the six-day bicycle race
which starts at midnight next Sunday
in Madison Square Garden. New York
Goulet has been holding Madden in re-
serve, and when Champion Ray Eaton
refused to ride with him Goulet brought
Madden into the six-day office to sign a
contract to ride. Madden is one of the
first-string six-day riders, and has been
second in the Garden race for the last
three years.
The Italian Sporting Club has offered
an extra prize of \$500 to the team of
Brocco and Verri if they win the race.
They were fifth in 1913, the last time
Brocco appeared here.

NEW YORK CITY TO HAVE GREAT BOXING CLUB

Is New York city to let down the bars on pugilism? The greatest boxing club in the world's history is to locate there...

PREPARING FOR WINTER SPORTS AT U. N. B.

Now that the football season has drawn to a close and the city has taken on the appearance of winter by the recent fall of snow, the students of the university are beginning to consider the prospects for their winter sports.

As there was no hockey played here last winter there is a great chance for a surprise and two lower classes to spring a surprise and beat out some of the older players who have made a good showing in former years for positions on the team. While this is a possibility it is quite unlikely that there will be any new men make their appearance who have not figured in interscholastic hockey and whose ability is fairly well known.

Bert Burgess, who has been elected captain of the U. N. B. team for 1920, was regular member of the team in 1916, and the following year was elected captain, but as he was not in college during the winter he resigned the position, and was allowed to play for U. N. B. in the city league. He is a member of the junior class and returned from service overseas last winter and last week was

dicted to lead the red and black team in 1920. He has played both forward and defence and is one of the fastest players U. N. B. has ever had.

THREE BATHS IN SYRIA. Plunge in Elisha's Spring Removes Traces of Jordan and Dead Sea. The Jericho region is supplied with three kinds of water, and this prodigious defence and is one of the fastest players U. N. B. has ever had.

Showing Off. There is so much moral effort made these days merely for the show of it in all departments where good is the object of organization the effort is delayed or defeated by show. If the progress of this world were brought face to face to insignificance, so weak and pitiable it would seem. More and more we are increasing the wickedness of human life by making displays of our virtuous intentions. Whatever is started with a tumult, glamour, sound, parade, banners and self-exaltation, these things are sure to follow. The religious forces of the world seem to enjoy the experience and smile rather than object. We have long gone on the idea that the display in doing something. They come up from all quarters of the globe, representing all sorts of needs, as if humanity bore all the responsibilities and God bore none of the world. A noble citizenship is better than all the weeping apostles on the street with their hands out for more money. No good can come from the display that is made to support it—Ohio State Journal.

Reciprocated. In reply to a telegram received yesterday the following has been sent to the Halifax Commercial Club:— R. H. Murray, President Halifax Commercial Club, Halifax, N. S.: Your congratulations breathe the spirit which our organization aims to follow and believe that with your cooperation our joint effort can accomplish wonders for the maritime provinces. T. E. SIMPSON, Secretary St. John Commercial Club.

MUTT AND JEFF—THE REVENUE GUM-SHOE SLEUTH GAVE MUTT JUST ONE LOOK. THAT WAS ENOUGH

Y. W. C. A.

Opens its recreational centre in the old St. John's Church, King street east, on Monday, December 1, with splendid programme of gymnasium, handicraft and educational classes, social evenings and sports events.

Preliminary Schedule of Gymnasium and Folk Dancing Classes: —

- Monday, 4 p.m., 8 p.m.—School Girls, 12-15 years.
- Tuesday, 4 p.m., 8 p.m.—Older Girls.
- Wednesday, 4 p.m., C. G. I. T. Girls—7.30 p.m., Older Girls' Basketball.
- Thursday, 7.30 p.m.—C. G. I. T. Girls.
- Friday, 7.30 p.m.—Ladies' Class.
- Saturday, 10.45 a.m.—Children's Games Time.

Applications for admission to Gymnasium and Folk Dancing Classes must be made promptly to Miss K. McK. Matheson, Y. W. C. A., King street, to ensure enrollment.

Special rates for C. G. I. T. and Y. W. C. A. members, but every girl and woman is welcomed.

RATES FOR SEASON, AS FOLLOWS:

C. G. I. T. Girls—Afternoon, \$2.50; Evening.....	\$3.50
Juniors under 17 years, Y. W. C. A. members.....	\$3.50
Non-Members.....	\$4.00
Seniors, members, \$4.50; Non-members.....	\$5.00

WHEN SEA SICKNESS WILL BE THING OF PAST

The Gyroscopic Ship is The Answer—Results Outlined by Marine Engineer

The day is coming when ships on the ocean, even the biggest liners, will cease their rolling, and the passengers be at rest. No more will a few railroad carloads of lemons be carried aboard to cure the mal de mer, and no more will

the busy steward ply his sick-room care. The gyroscope is coming into its own as a stabilizer of ships, and the success of some experimental installations gives assurance that the modern passenger vessels will soon be equipped with this ingenious apparatus. Before the Society of Naval Architects and Marine Engineers in New York a few days ago, E. A. Sperry outlined the results of gyroscopic stabilization, and if his facts are correct, marine people will not be long in deriving the benefits he prophesies for it.

What the Principle Is. He declared that after fifteen years of experiment along this line plans are now being adopted for extensive utilization of gyroscopic control. The gyroscope is an instrument that acts on the principle that a quickling revolving disc,

resting lightly on a central pivot, will maintain a steady axis with great stiffness. Mr. Sperry says that in all previous attempts to prevent rolling the equipment has operated passively, depending on a certain amount of roll for the stabilizing movements, and the amount by which the roll has been reduced has never been satisfactory, nor have the means themselves been practicable. The stabilizing effect did not begin to make itself felt until the roll was quite pronounced, and then it was too late. What is wanted is not reduction of roll, but prevention, and the active gyroscope seems to have the goods. "For years engineers have observed the strange perceptions of the gyroscope, but have failed to perceive the dominant powers of this simple apparatus, only awaiting the application of artificial 'precession' to render it abundantly serviceable for stabilizing even the largest ship." The larger the ship the easier it is to stabilize her. The gyro out-classes all other mechanisms in that, while its weight and cost vary as the cube of its linear dimensions, the stabilizing power varies no less than the fifth power.

Velocity Makes the Power. The Thomeycrofts invented a great pendulum, and others have bethought themselves of a tank for stabilizing purposes. But whereas in these cases a pound is only a pound in force applied, the gyroscope has vast powers far beyond its weight. Every pound is multiplied by the velocity of the particle, so that a comparatively few pounds are capable of doing the work of tons. With the active gyro, this power is exerted independently, and can be applied to prevent rolling, instead of merely countering it. Some naval architects have feared that the forces and stresses involved by heavy washing of waves against an apparently unyielding vessel would do great damage to her. The nature and magnitude of the stresses are

resting lightly on a central pivot, will maintain a steady axis with great stiffness. Mr. Sperry says that in all previous attempts to prevent rolling the equipment has operated passively, depending on a certain amount of roll for the stabilizing movements, and the amount by which the roll has been reduced has never been satisfactory, nor have the means themselves been practicable. The stabilizing effect did not begin to make itself felt until the roll was quite pronounced, and then it was too late. What is wanted is not reduction of roll, but prevention, and the active gyroscope seems to have the goods. "For years engineers have observed the strange perceptions of the gyroscope, but have failed to perceive the dominant powers of this simple apparatus, only awaiting the application of artificial 'precession' to render it abundantly serviceable for stabilizing even the largest ship." The larger the ship the easier it is to stabilize her. The gyro out-classes all other mechanisms in that, while its weight and cost vary as the cube of its linear dimensions, the stabilizing power varies no less than the fifth power.

Moreover, from the point of view of economy there is much to be said for the new device. It not only lengthens the lives of ships, but it saves power. In a heavy sea, a steamer yaws back and forth, the helm constantly in use to steady her, and there is a large loss of propulsive power because of the use of the helm. It is estimated that there is a saving of one-twelfth in actual power delivered at the propeller. A stabilized ship needs little steering, because it virtually stays in its dead track, and can almost be termed self-steering. A wallowing ship travels far off its course, whereas the stabilized ship saves feet and yards at almost every other bound of the sea, or a 15,000 ton vessel at eighteen knots, the loss from rolling might easily amount to 1,000 horse power, and when coal is so scarce and high, this is an item every shipowner has to scan carefully.

Great Aid to Economy. Moreover, from the point of view of economy there is much to be said for the new device. It not only lengthens the lives of ships, but it saves power. In a heavy sea, a steamer yaws back and forth, the helm constantly in use to steady her, and there is a large loss of propulsive power because of the use of the helm. It is estimated that there is a saving of one-twelfth in actual power delivered at the propeller. A stabilized ship needs little steering, because it virtually stays in its dead track, and can almost be termed self-steering. A wallowing ship travels far off its course, whereas the stabilized ship saves feet and yards at almost every other bound of the sea, or a 15,000 ton vessel at eighteen knots, the loss from rolling might easily amount to 1,000 horse power, and when coal is so scarce and high, this is an item every shipowner has to scan carefully.

LEADER IN RUSSIA. Admiral Kolchak, head of the "All-Russian" government who narrowly escaped assassination when bombs were hurled at him in Moscow. Six soldiers were killed by the bombs. Kolchak's government is partially recognized by the Allies.

It's A Big Protection

WEEK-END SPECIALS

We are offering several very interesting specials this week for Friday and Saturday only. These are reasonable lines and, as we anticipate a big run, advise early shopping if possible.

Men's Tan Calf Boots, extra heavy sole, with waterproof lining, rubber heel. Most suitable for present wear. We have been selling this Boot at \$9.00.

For Friday and Saturday, Only \$6.85

Men's Working Boots—Black leather lined with viscolized soles. Regular \$6.00,

Week-End, Only \$4.85

Men's Tan Boots—Receding toe, leather or Ne lin soles. An excellent Boot for general use. Regular price, \$6.50 and \$7.00.

For Friday and Saturday, Only \$5.00

Ladies' Gum Metal Boots—High cut with Louis heel. Regular price, \$5.00,

Week-End Price, \$3.85

Ladies' Tan Calf Boots with grey buck top, military heel. Regular price, \$8.50,

Friday and Saturday, \$6.50

Ladies' Grey Kid Boots—A regular \$7.00 line.

Week-End, \$4.85

Ladies' Black Button Boots—Extra good value for

Week-End at \$1.98

Skating Boots For Boys and Girls up to size 1

Special Price, \$1.50

CANADIAN CLUB REPORTS.

The St. John Canadian Club has published its year book for 1919-1920 and the small booklet contains much of general interest. Besides the names of the officers of the present and past years, the constitution and by-laws and the gratifying annual reports, it prints in brief and pithy form a synopsis of all the addresses heard by the club during the year 1918-1919, as compiled by the literary secretary, W. J. S. Myles. This synopsis in itself well repays the time of reading and shows that the club has been the means of presenting to its members on eighteen different occasions speakers prominent in public affairs. The report of the secretary, C. W. Romans, places the membership for the year at 569, of which number 200 were enrolled

during the year. The present membership is greatly in excess of these figures. The honor roll which is given in the year book has the names of seventy-one members who saw active service during the war and among them are the names of three who made the supreme sacrifice, J. D. Brock, F. R. Fairweather and S. K. L. Macdonald.

LUXOR TEMPLE.

Luxor Temple, of the Ancient Arabic Order of Nobles of the Mystic Shrine, met last night in the Masonic Hall and conferred degrees on seventeen candidates, with Illustrious Potentate H. R. McLellan in charge of the ceremony. After the ceremonial light, refreshments were served in the banquet hall. Through the kindness of Noble W. C. McKay the

orchestra of the Opera House was present and furnished a programme of enjoyable music. Noble McKay was also thanked for the first class films which delighted the large audience. G. D. Davidson and A. G. Rainnie also took part in the programme. Much credit was due the recorder, Charles Robinson, for the way in which he managed the details of the entertainment.

Colonel E. T. Sturdee, president, H. C. Schofield, treasurer, and C. B. Allan, secretary of the local branch of the Navy League, left last evening for Ottawa to attend meetings of the Dominion Council of the league which will be held on Friday and Saturday. Admiral Lord Jellicoe will be present.

GEE! SOME PIE!

You bet it is—with the satisfying taste of tart fresh lemon to every bite! It is always appetizing, light and tasty when made with

"MEADOW-SWEET" LEMON PIE FILLING

(Also Made in Chocolate and Vanilla Flavors)

FOR DESSERTS and so economical. One 15¢ tin, requiring no eggs or butter, makes filling for four large, juicy pies nicer than any you ever ate before.

Keep a package of each flavor in your pantry for economical pie fillings, dainty puddings and tasty sauces.

Free booklet of recipes on request.

Try it tomorrow and let your family tell you how they like these wonderful pies.

Also ask your dealer for "Meadow-Sweet" Peanut Butter and "Meadow-Sweet" Cream Cheese.
