CONFESSES THE MURDER OF A SIXTEEN YEAR OLD GIRL.

Henry Becker, Under Arrest on Suspicion of Killing Amelia Staffeldt, Admits His Crime—He First Said a Companion Was the Guilty One.

NEW YORK, May 26.—Becker, the man arrested on suspicion of murdering sixteen year old Amelia Staffeldt, today made a full confession of his crime.

His first statement in which he said he saw a companion assault the girl was subsequently retracted. Today he was taken to the scene of the crime and was identified by Miss Emily Simonson, as one of the men who was seen at the pump in her yard on the day of the murder, also told of picking up in the Simonson yard the handkerchief which was later found on him.

Becker was then asked about the second man that he had been talking about in connection with the case, and for the first time admitted that he had seen a man before he was about to go into the Simonson yard and after that the two washed their hands together at the pump. The stranger then disappeared.

Becker was taken back to jail, and during the ride from Simons to Long Island, he told detectives, it is alleged, the most important and shocking part of the story. He said that he would feel better if he told the whole truth. He described how he had been sleeping in the fields and saw the girl enter the lot in search of candelabra.

"I went up to her," it is asserted he said, "and tried to get up a flirtation, but she told me to go away. I can't remember, somehow, just all that happened, but I know I took hold of her, then I hit her in the back of the head with a stone. After that I struck her once or twice with a knife."

After washing his hands at the pump he said he went toward Corona as fast as possible, and there, near a railroad crossing, threw off his outside shirt, which was stained, tore it up and threw it into the bushes. He said a man in Flushing had given him two shirts a week ago.

MEAT PACKERS REFUSE TO PAY FOR DISEASED CATTLE

Commission Men Demand Their Money and Chicago Prices Will go Away Up.

CHICAGO, May 27.—Meat prices in Chicago may jump skyward this week. The packers notified the commission firms that beginning today they would no longer stand the loss on diseased cattle and in order to protect themselves they had found it necessary to refuse payment on "cows stiffs" until it had passed the government inspectors.

During the latter part of last week thousands of letters and telegrams were sent out by the commission men to their customers notifying them of the action that had been taken by the packers and advising them to withhold all shipments of cattle to the big markets controlled by the trust until the difficulty is adjusted. This is expected to cut the meat supply tremendously before the week is over, and prices are expected to go up correspondingly.

Commission men declare it is the intention of the packers to enforce the rule with regard to "cow stiffs" now in the hope that similar action may be taken with reference to their purchases of sheep and hogs.

Some of the leading commission firms and shippers have communicated with the secretary of agriculture at Washington with regard to the action on the part of the packers and it is said assurances have been given that an attempt to delay payments on live stock by packers would result in the withdrawal of the inspection services.

PARIS, May 25.—"Toutou," "Ki-Ki," "Noble," or whatever name he permits himself to be called, is only a dog, and therefore not always discriminating. When on duty "protecting the boss," stop the big truck, he barks at the policeman just as furiously as he would at a bearded man who entered his own home uninvited.

He was alert as usual yesterday afternoon when the truck was being driven through the Rue Royale. He saw a crowd of people and an endless stream of vehicles passing, and barked away as many of them as he could count. He knew as little as he cared about street traffic regulations, and when a policeman held up a baton and the truck came to a stop he did not understand that it was all as peaceful as the Hague intentions. It so happened that the policeman stood quite near the truck, and the gallant guardian thereof consequently stood as near the policeman as possible, a fact on which the latter did not count, when, with a stone, after he signalled the drivers to go ahead.

HALIFAX TIED UP BY LONGSHORE STRIKE

Plant Line Steamer Lyg l Idle at the Wharf—Men Want Flood Agreement for Five Cent Increase.

HALIFAX, May 27.—The longshoremen's strike is now on in real earnest and the men are about on Water street determined that if the five cent increase is not given them they will turn to some other branch of labor for a livelihood. For the moment the number of men giving up employment is not very large, probably 200 or 300, as there are only a few cargo steamers in port and they are not large ones.

A BOY AND A PISTOL; THE SAME OLD STORY

MONCTON, May 27.—Newton Wilbur aged 15 years, last night found an old revolver lying in the back yard. He began experimenting with the weapon, to find out whether it was any good unfortunately he kept it pointed at one of his feet. He found that the weapon was in pretty good working order, for as he pulled the trigger there was a report and the bullet entered his right foot. The revolver was 32 caliber.

HINDUS SEEK JAPANESE AID AGAINST BRITAIN

LAHORE, British India, May 27.—These who have been rapidly to the unrest in India to the victory of the Japanese over the Russians find confirmation of the belief in documents found in the possession of a Hindu lawyer and a companion arrested here in connection with the recent riot at Bawalpindi. The documents show that the men taken into custody were on their way to Tokio to solicit intervention in behalf of a native revolt against British rule.

WILD BEASTS AT LARGE, BUT CAPTIVE STILL

Most Wonderful Zoological Garden in World is Opened by Famous Nautilus.

HAMBURG, May 25.—Herr Carl Hagenbeck's wonderful Zoological Gardens at Stellingen, near Hamburg, of which much has been heard during three years of construction, were officially opened recently.

Though entirely a private enterprise this "Zoo" contains the largest collection of wild animals ever seen in one place of the kind, and the design is unique. The important attractions brought to the opening inspection of the complete spectacle a distinguished gathering of Germans and the directors of the old-fashioned "Zoo's" throughout Europe.

Imagine a park of twenty-six acres. You enter by a shaded avenue. Suddenly a panoramic view of over 600 members of the animal kingdom bursts upon the vision. They are disposed in lakes and plain and mountain range; no houses, no restraining bars or wire cages. On the spacious lake immediately in front of the waterfalls and a natural home. On a mound just beyond many hoofed animals, such as zebras and buffaloes sport. Farther away a range of artificial mountains, displaying eight peaks, are inhabited by mountain beasts, who roam at will so it seems, but they are safely confined to their definite quarters by a series of hidden ditches, twenty feet wide, and twelve feet deep.

PHYSIQUE SINKS LOW ON VEGETABLE DIET

Extraordinary Degeneracy of Some German Peasants Attributed to Want of Meat.

BERLIN, May 25.—Some curious statistics come from Southern Baden. During the recent enrollment of recruits in the Lindau and Alpirsch districts, out of 94 young men liable for service, only twenty were found who were up to the physical standard required by the military authorities. 217 were placed on the doubtful list, and the unusual number of 267 were put aside as wholly unfit for active service.

PEASANTS IN REVOLT, HAVE MURDERED MANY OFFICIALS—DISSENT IS SPREADING AND CONDITIONS ARE SERIOUS—BRITAIN SENDS GUNBOAT.

CHINESE, PROVINCE OF KWANTUNG, CHINA, May 27.—A rebellion has broken out at Wong Tung in the Taping district of the Chinese Prefecture. All the civil and military officials at Wong Tung have been assassinated and their remains burned.

The local revolutionists who were joined by several of neighboring provinces, concentrated for their attack on the officials without being molested by the police. The military commander here has mustered the station guards and started for the scene of the outbreak. Ships are being taken by the local police to prevent excesses here.

The Chinese bankers have organized a steam launch patrol of the coast to prevent piratical attacks on the part of marauders from seaward. Chinese, or Tsinchou, is a marine district of China comprising parts of the provinces of Kwang Tung and Fukien on the south west coast. It is inhabited by a hardy and industrious people who furnish the majority of the men who form the crews of the Chinese imperial international navies.

According to advices received by German Cable Company from Shanghai disturbances have also broken out at Pakhoi and Tsium. There as well as at Lenchow it is apparently serious. BERLIN, May 27.—According to dispatches received here from Shanghai and Hong Kong, native rioters have destroyed the German mission station at Lien Chow, near Pakhoi. The missionaries escaped. The German gunboat Altona re-inforced by 25 marines from the gunboat Tsing Tau has left Hong Kong for Pakhoi and it is expected that a British gunboat will also be sent to that port.

PREPARING PLANS FOR A NEW CANAL SYSTEM

Engineers Figuring on the Means of Expending \$10,000,000 on Canals Required for Iron Industry.

CHICAGO, May 27.—Engineers working in the interest of New York, Chicago, Indiana and Indianapolis capitalists are completing plans for an extended line of canals from Indiana harbor to a point between Gary and Michigan City. The first survey provides for waterways fifty miles long to cost \$10,000,000. The system is held necessary to the development of the steel and iron industries.

CHURCH AIDS ENGLISH WILLING TO EMIGRATE

Conjugal Conditions Make Men Derelicts and Incapable, Says R. W. Perks, M. P.

PHILADELPHIA, May 25.—Full of quiet enthusiasm for his project of having Englishmen emigrate to all parts of the world through the agency of the Methodist Episcopal Church, R. W. Perks, M. P., the foremost Methodist layman in England, addressed a large meeting of Methodists last night in the Arch Street Methodist Episcopal Church, Broad and Arch streets.

ENCOURAGING EMIGRATION. In appearance and manner Mr. Perks typifies the English gentleman. He is 35 years old, of medium height, stout, with a clean-cut, smooth-shaven face. He talks in the slow English style, but with a thorough understanding of his subject.

OPPOSES MUNICIPAL OWNERSHIP. "I do not believe the present congested condition of England is due to her political policies. I am a member of the Liberal party, and believe in free trade."

AMERICANS TOO STRENUOUS. When asked for his opinion on American activity, the quiet Englishman replied: "You Americans are too strenuous. You have to come over to Europe to recuperate. It is better to go slow than to have periodical nervous breakdowns and perhaps knock ten years off your life in the end."

PULLMAN CONDUCTOR FROM MONTREAL ARRESTED. PORTLAND, Me., May 25.—Robert J. Brown, a Pullman conductor on the Grand Trunk Railway, was arrested here today on arrival from Montreal on a charge of smuggling a suit of clothes into the United States. It is charged that he took the suit to an express office to ship it to an address in Boston.

LITTLE GIRL SHOT BY HER COUSIN. SCRANTON, Pa., May 25.—Vern Davis, 13 years old, was shot and instantly killed by her cousin Lottie Davis, 14 years old, at the latter's home here last night. The shooting was done accidentally while the girls were playing with a revolver. The children were in an upstairs room when the family was startled by a report.

WIRELESS TELEGRAPHY.

Dr. Alexander Graham Bell, inventor of the telephone, has lived to see the day on which the apparatus designed by him has been brought to a high state of perfection, and has become one of the greatest of modern conveniences.

with a rush, the comparative slowness with which wireless telegraphy is being developed appears unusual, but when we consider that this science is as yet only in its infancy, the achievements of the past ten years must be regarded as altogether remarkable.

"The Scotch," said Secretary Wilson of the United States Department of Agriculture, "are certainly a wily people. Now, there was a visitor in the little town of Bowdoin who, on looking about, saw no children, but only grown men and women. He wondered at this and, finally, meeting a weasened old man on the street, inquired: 'How often are children born in this town?'"

"Only once," the man replied, as he proceeded on his way.—Saturday Evening Post.

THE FETTER OF THE FLAG.

To the Editor of the Star: Sir—One can make a fetish of anything, and every country in these days is determined to have one in the shape of its particular flag. The teaching in all schools is that "we must be loyal to our colors," and as the Anglo-Saxon is on the topmost wave in this special day of grace it is the Union Jack and the Stars and Stripes to which our eyes are uplifted.

ENGINEER AND TRAMP BATTLE ON FAST TRAIN

Former, Thinking Intruder a Robber; Grapples With Him in Cab.

Hobo Then Explains He Was Stealing Ride and Only Wanted to Get Warm

SAYRE, Pa., May 26.—Thinking he had a train robber, his grand witness, William Fisher, a Lehigh Valley engineer, had a desperate fight in his cab with a hobo early yesterday morning, while the train was speeding to the summit near White Haven.

Fisher pulls express train No. 19 regularly between Easton and Sayre. The train is one of the fastest on the road, and it carries no passengers. The safes in the express train usually contain large amounts of money in transit from New York banks to the West. In order to make time up the mountains near White Haven the locomotive was coupled ahead of the one Fisher was driving.

In the gleam of the headlight shinning from his machine against the tank of the helping engine ahead, Fisher saw a human form on the running board. He thought the hobo was about to come back for instructions, so he opened the door of his cab. A big man entered, and Fisher realized at once that he had made a mistake.

In a guttural voice the intruder cried, "Let me get out of here!" Before Fisher could gather his wits, the fellow crushed him against the side of the cab. Instantly through the brain of the engineer the thought of the treasure in the express cars behind. Visions of western highways and the cab to get their trade in the east fled his mind.

He thought the intruder was preparing to overcome him and stop the train. He thought of the safes. He seized a wrench, but the first blow missed its mark. The hobo then clutched Fisher's hands and said, "I'll tell you what, mister, I'm not here to rob you. I'm only here to get a ride and to get warm."

"You're a large man, but your opponent was much larger and much stronger than you," said Fisher.

"I'm not a fighter," said the hobo. "I'm only a tramp. I'm only here to get a ride and to get warm."

"You're a large man, but your opponent was much larger and much stronger than you," said Fisher.

"I'm not a fighter," said the hobo. "I'm only a tramp. I'm only here to get a ride and to get warm."

WAS MAKING BOMB WHEN IT EXPLODED

Russian Terrorist Badly Injured in Paris.

Little Light on Mystery—Students Meeting Revolutionary Meetings Regularly

PARIS, May 26.—A Russian named Petrof, member of the Terrorist organization, was yesterday severely injured by the accidental explosion of a bomb which he was manufacturing in the departments of a friend, named Slepner, in the Rue Véra. Researches by the police have thrown little light on the mystery. Another Russian, Berkoff, was arrested in connection with the affair, but was released, as he proved that he was only an unconscious tool of Slepner and was used by him to ascertain whether the police were in possession of his rooms.

Berkoff was unable to get a certain book from the Russian library and Slepner, who was present, offered to lend the book to him, giving Berkoff the key of his room to get it. Slepner doubtless followed him and saw Berkoff arrested. He then disappeared.

Mr. Bechewsky, Slepner's mistress, has been found at Etoile. She proves to be a dressmaker. The warrant for her arrest has been changed to one demanding her evidence. Recently two employees of the Russian Embassy were recognized at a meeting. They were bound and were terrified by the threats made against them. Three policemen were concealed under the platform, but their services were not required as the meeting contented itself with expelling the intruders. The policemen were seeking to discover if Petrof had been acting alone.

A hundred kilos of cheddite, an explosive like nitrate, has been seized at a railway station here. It is believed that it was consigned to Nihilists. Slepner's mistress, who lives in a house where the Terrorist, Padelovsky, took refuge after the murder of Gen. Suvoroff.

It is noteworthy that a series of Russian concerts is going on at the Opera House, at which many Grand Dukes are assisting. One immediate result of the affair has been that many Russian students have received notice from their landlords to quit.

GIRL FOUND DROWNED IN ANOTHER'S CLOTHES

French Town Mobs Excited Over Second Mysterious Disappearance From Family.

PARIS, May 25.—Sartroville is in a state of excitement over the disappearance of a girl called Marguerite Genest, aged 14. A few days ago a girl's dead body was taken from the Seine at Puteux and buried there without having been identified. The girl's clothes were kept, and a gentleman who knew about the disappearance of Marguerite Genest showed the clothes to M. Genest and to the girl's aunt, and both identified them in an unmistakable manner as having belonged to Marguerite.

The body was exhumed and an examination made, but M. Genest failed to recognize in the corpse the body of his daughter.

Marguerite was blond; the corpse was dark-haired. Marguerite, though big for her age, was only 14; the corpse asserted that the corpse must have been 10 or 20.

There are some facts connected with the case which make it all the more complex and mysterious. M. Genest's first wife, by whom he had three children, is dead. After her death he lived with a Mme. C—, by whom he had three more children. He has since broken off relations with Mme. C— and married again.

M. Genest took out a life insurance policy in favor of Mme. C—, but when he separated from her he had the policy transferred to his children by his first wife. Of these the youngest, a boy called Andre, disappeared mysteriously last August. Marguerite, who was only 10 at the time, was with her when she disappeared.

M. Genest suggests that Mme. C— has had something to do with Marguerite's disappearance, but Mme. C— is a friend of the girl's mother, and her depositions in the case are not recognized.

A woman was waiting for her sister in a railway station when a gentleman, looking for his wife, and mistook by a general resemblance in figure and clothing, stopped up behind her, and laying his hand on her shoulder, exclaimed: "Thank goodness, Emma, it's you." The name he used happened to be the really hers, which made the episode familiarly even more startling. She jumped nervously, "str!" she gasped. "I'm Emma, but she isn't me," Youth's Companion.

MORGAN PAYS MILLION FOR ART COLLECTION

Financier Buys Carvings, Statuary and Furniture in French Capital.

NEW YORK, May 26.—It is learned that J. Pierpont Morgan has purchased in Paris for more than \$1,000,000, the great Hoentchel collection of carvings, statuary and furniture, considered by experts the greatest assemblage of objects of the applied arts and crafts in the world.

Many of its carvings, panels and paintings were taken in times of violence from churches, cathedrals and palaces, and others are of such importance that there was good ground for the apprehension that they might be in some way detained, although France has as yet no such drastic prohibition on the exportation of art works as that which obtains in Italy.

News was received here yesterday that the last consignment of the splendid collection was on its way to the United States, and that there was no longer any cause for official interference.

Mr. Morgan has not as yet decided what disposition he may make of the entire collection, but it was learned yesterday that he has already given a part of it to the Metropolitan Museum of Art.

2368—Many of the new models for street and house gowns are not elaborate in construction, though they may appear so. One of the smartest seen recently is pictured here. The material used will wash, in London smoke, with panne velvet for trimming. The neck shows a round yoke which might be cut away in an evening dress but which is very pretty as a finish for the waist. The fullness of the front and back is laid in side pleats fastened only where they join the yoke. This insures a soft, graceful fullness which, tucks or even garters do not produce. The sleeves may be long or in shorter length, being finished at the elbow with the plain band cuff or the fanciful turnback one. The skirt is a six-pored one with inverted plait in front and back and a side plait at the side. The top fits smoothly while a pretty flare appears at the hem. For developing the dress 78 yards of 42-inch material are needed in the medium size.

Two Patterns—2368—Size 32 to 40 inches, bust measure. 2369—Size 22 to 28 inches, waist. 2368—Size 32 to 40 inches, bust measure. 2369—Size 22 to 28 inches, waist.

The price of these patterns is 20c, but either will be sent upon receipt of 10c.

ton's Wharf about May 4th. He missed the brass and steel about May 5th, when Wolfe, in the employ of J. Lantulum told of placing the brass wheel on the wharf.

J. Myers told about purchasing the brass wheel from Stanley Brown and paying \$2.10 for the 65 pounds.

The defendant was placed on the stand and said that while in company with two others he grasped the brass wheel and rod in front of the Lawton wharf and that Richard Calahan and George Edges saw him haul the stuff out of the water.

The case was adjourned until this afternoon at two o'clock to give the prisoner a chance to get these witnesses to court.

John Beatty, the gardener in the Old Burying Ground, had W. F. B. Patterson on Friday night called him up on Friday Mr. Patterson came to him and wanted to know if he poisoned a dog. Both got angry and Patterson said the ground was full of poison.

Mr. Patterson explained to the court that on Friday after he passed through the old grave yard his dog took sick and died of poisoning. He then asked Beatty about it and the latter said, "If you don't want your dogs poisoned why don't you keep your dog home." This morning a lady called him up on the telephone and said she had positive evidence who poisoned the dogs.

The case was adjourned until ten o'clock tomorrow morning when all persons who can give evidence are requested to do so.

The magistrate stated that the dog days in the court would be during the first week in June.

THE WANDERING LUNATIC BROUGHT TO ST. JOHN

William Mallet Was Found by a Party of G. T. P. Surveyors—Is in Weak Condition

William Mallet, the lunatic who made such a sensational escape last week by jumping from one of the windows of the Maritime express while the train was going at a high rate of speed, was found yesterday and brought to the city by Chief Rideout of Moncton. The two arrived on the Maritime express, and judging from appearances Mallet has had a hard time of it since he made his escape. He limped through the depot and seemed hardly able to walk to a cab which was waiting to convey him to the Provincial Hospital. Chief Rideout told the Star that several G. T. P. surveyors came across Mallet in the woods about five miles from Moncton yesterday afternoon. He was drinking at a brook, and was still handcuffed to a tree. The man had great endurance, as he had been roaming about in the woods for over four days, probably without food. The Moncton police were notified of the capture and Chief Rideout went to where Mallet was found and brought him back to Moncton, where he left with his charge for this city. Mallet was very quiet on the way down, evidently being too sore to endeavor to repeat his antics of a week ago.

THREE BURGLARIES IN FREDERICTON LAST NIGHT

But the Intruders Do Not Want to Steal—Mrs. Fraser's Home Gunned by Fire

FREDERICTON, N. B., May 27.—A house owned by Westley Kitchen, situated on Brunswick street and occupied by Mrs. Mary Fraser, was badly gutted by fire this morning. The loss to the building is estimated at \$15,000. The furniture, which was uninsured, was badly damaged.

No less than three burglaries occurred last night. The stores of James S. Neill, hardware, Lee & Co., five and ten cent store, and C. H. Burtt, grocer, were broken into. In each case the entrance was made through a back window but outside of the entry the owners report very little missing. In another a few cents were obtained. The burglars seem strange as the chances for taking property after entering were easy. Three burglaries have become quite numerous here in the past few weeks but in all of them the securing of property does not seem to be the object. There is no clue to the guilty one.

A meeting of the board of public safety will be held this evening and among other matters to be taken up will be a recommendation from Chief Constable that the fire engine No. 2 be done away with as being unfit for use.

The engine is the oldest in the department and is only about fit for the scrap heap. The board is taking no official notice of the resolution which was passed at the recent citizens meeting as no application has been sent to the board touching the matter.

Edward Leclair, who for years has been an lecturer in the fire department, is reported to be in a very serious condition at his boarding house, King street, and fears are entertained for his recovery. For the past year he has been ill.

TRAGEDIES.

MARBLEHEAD, Mass., May 26.—The body of the woman found in the water near Marblehead Neck yesterday was identified today as Miss Annie Mahon, of Brookline, by her nephew, James Mahon, also of Brookline. The woman was about 45 years old and was to have been married tonight to Dr. James E. Simpson, of Salem, who performed the autopsy on the woman's body refused to say whether he thought it was a case of suicide. The woman's face was badly bruised, but the coroner would not make public whether he thought the marks were caused by contact with rocks. So far as could be learned there were no other marks of violence on Miss Mahon's body. It was generally believed that she committed suicide or fell off the rocks while taking a walk. James Mahon, the nephew, who made the identification, when asked if he thought it a case of suicide would give no information.

GIRL'S CORPSE USED FOR WITCHCRAFT RITE

Body Stolen From Grave, Bones Purified and Head Returned to Coffin.

NAPLES, May 26.—The Naples Municipal Council is being prosecuted for a ghastly crime committed by unknown ghoul in a cemetery.

A little girl was buried there in July, 1916, and twelve months later it was arranged to transfer the remains to a niche in the little mortuary chapel. At the exhumation suspicion was aroused by the extraordinarily light weight of the coffin, which on being opened, was found to contain only the child's skull wrapped in straw, with the customary bottle, containing particulars of the deceased. Professors Antonelli and Finzi, who examined the head, declared that it had been ruthlessly torn from the trunk soon after death.

The police investigations have resulted in the discovery that the girl's body was disinterred and the bones pulverized to serve for the rites of necromancy and witchcraft which are still so much in vogue among superstitious peasants of that region.

As the actual malefactors have not been brought to justice, the parents are prosecuting the town council.

FROM EDITORIAL IN United States Trade Reports

We hear so much these days about the "Ground Floor" and yet very few realize how much has been accomplished in the building of fortunes by this Ground Floor idea, in fact almost every one of the great fortunes of today originated from some lucky opportunity or far-seeing thought which enabled some one to know where to place a few dollars which will quickly jump into hundreds.

When we learn of an opportunity which is beyond the ordinary we feel we are doing a service to our readers in pointing it out.

By far the best thing we have heard of for many months is the proposition of the Cove Hydro-Electric Co., whose offices are at 104 Tremont Bldg., Boston, Mass., and 128 Prince William St., St. John, N. B.

Our readers should look into this. The company is offering their stock and those who grasp the opportunity now will indeed be on the Ground Floor.

COMMERCIAL

WALL STREET.

NEW YORK, May 27.—Prices ran off sharply in the opening dealings in stocks under a heavy volume of offerings in all parts of the list. Am. Smelting lost 2 and declines ran from 1 to 1-2 in all of the Pacific and Trans-Continental stocks. Reading, Erie, D. & H., Atlantic Coast Line, Brooklyn Transit and U. S. Steel, pfd. There were numerous declines also reaching a large fraction. Brooklyn-Union Gas sold at a decline of 1/2.

The market opened weak.

BUSINESS FAILURE.

LONDON, May 27.—An important firm of stock brokers, Hubert Brunton & Co., announced their failure, on the Stock Exchange this afternoon. This firm, which was established in 1874, dealt principally in copper shares, including American and Rio Tinto. Their failure tended to weaken the American market.

TRAMPS START FIRE WHICH CAUSES A LOSS OF \$18,000

OLDTOWN, Me., May 26.—A fire that is believed to have been started by tramps destroyed 750,000 feet of dry pine lumber owned by the Jordan Lumber Company and George W. Barker & Son, in Milford, just across the Penobscot River from Oldtown, late today, causing a loss of \$18,000. The loss is partially covered by insurance.

The lumber was piled in a lot from which it had been cut, and there were no buildings in the path of the flames. Help was sent from Oldtown, and, aided by a favorable wind, the fire was kept from spreading to other large lumber piles in the clearing.

DISCOLORED NECKS.

One of the common physical defects to which women are prone is a discolored neck, due, it may be, to injury to the clothing or to hair lotions, pomades, etc., which work down from the head. Of course, barring the possibility of sunburn, the skin on the neck should have the same hue as that on the shoulders. It is well, however, before resorting to artificial means, to see what hot water, a coarse wash cloth and plenty of good soap will do in removing the discoloration. If a month of this natural treatment does not bleach the neck anoint it daily with peroxide of hydrogen. In case this irritates the skin a little vaseline or sweet almond oil may be rubbed in after the chemical has dried.

STILL LOTS OF ICE OFF THE GRAND BANKS

ST. JOHNS, N. F., May 25.—Incoming vessels report a large number of icebergs and ice floes sweeping south over the Grand Banks into the track of the transatlantic steamers.

Immense floes are also reported off the northern coast and off Labrador. Similar conditions prevail on the western coast, fronting on the Gulf of St. Lawrence. Navigation, except along the south shore, is extremely hazardous.

THE BLUSH.

The blush is a sign which nature hangs out to show where chastity and honor dwell, and yet how many people, thoughtlessly perhaps, will tease and torment a beautiful and blushing child until the girl is taught to conquer her blushes and chase away the tears hiding a soft heart beneath a brazen face. Goethe, in company with a mother and a daughter, when the latter, being reproved for something, blushed and burst into tears, said:

"How beautiful our reproach has made our daughter. That crimson hue and those silvery tears become her much better than any ornament of gold or pearls; those may be hung on the neck of any woman, but these are never seen disconnected with moral purity."—Rev. Madison C. Peters.

LONGSHOREMEN OF HALIFAX WENT ON STRIKE LAST NIGHT

HALIFAX, N. S., May 26.—The Halifax longshoremen went on strike at midnight. The shipping men refused to grant the request of the union men for an increase of five cents per hour in their wages, and they decided not to go to work. Victor Dulreux, of the labor department, of Ottawa, addressed the men today, but they repulsed the good offices of that department to enable them to apply the Lennox-Boyd Act. A telegram was also received from the Montreal longshoremen advising the Halifax men not to strike, but to apply for conciliation and investigation under the labor disputes act. So far there are only two steamers in port that will be affected by the strike. About 600 men are out.

Every Woman

Marvel Whirling Sp. Co., Windsor, Ont.

A BUSY MORNING IN THE POLICE COURT.

The police made eleven arrests on Saturday and Sunday and accordingly there was considerable business transacted in the police court this morning. Of the eleven arrests five were for drunkenness and these were fined the usual amount.

Wm. G. Cady, a sailor, was arrested in a barber shop Saturday and charged by Captain W. S. Story with deserting from the steamship Kelvinhead loading deck at the ballast wharf, Cody falls from the United States and this morning was told that he was liable to twelve weeks in jail for desertion. He refused to go on board the ship. What I want is to have a doctor see me. Yesterday I asked the turkey in charge of the cells to call a doctor to see me as I was very sick, and fell to the floor twice from illness. The reply I got from the man in charge of the cells was that he was not there to run errands and I had to go without medical attendance.

The magistrate remanded the prisoner and ordered that a doctor be called to attend him. When making the remand he said that officials should take notice that where a man is willing to have a doctor and requests one it should not be thought a trouble to go to the telephone and call one. When a person who is under arrest asks for a doctor and is refused, should anything happen the prisoner and it would be then necessary to call in the coroner, the person who refused to call the doctor might be brought up on the charge of manslaughter. So it would be just as well if people would govern themselves accordingly. Capt. Story of the steamer was in court and said that the prisoner had never complained to him about being sick. The ship leaves port this evening and he wished to take the sailor along with him. Dr. Durrymann, of the labor department, of Ottawa, addressed the men today, but they repulsed the good offices of that department to enable them to apply the Lennox-Boyd Act. A telegram was also received from the Montreal longshoremen advising the Halifax men not to strike, but to apply for conciliation and investigation under the labor disputes act. So far there are only two steamers in port that will be affected by the strike. About 600 men are out.

was told to leave court and return to Mincee as soon as possible.

Burton Malloy pleaded guilty to being drunk on Market square, but did not remember shoving. He was fined \$5. Harry Birchell, a companion, was charged with interfering with the arrest and violently resisting the police. He was fined \$15 or two months in jail, and told that he was getting off easy, as he was liable to a fine of \$50 for what he had done.

Walter Downing said that he knew nothing about assaulting Geo. Cooper, a porter in the New Victoria Hotel. Cooper told of the assault, and the prisoner was remanded to jail.

Harry Hampton, a youth, was fined \$5 for being profane on the Westminster road yesterday.

Gilbert Lauchner and Walter Thompson, arrested on Friday last and charged with fighting, were brought before the court. Lauchner said that he didn't fight, but was assaulted by Thompson.

Cassie Diggs gave evidence of seeing Thompson hit Lauchner, and the latter not doing a thing. The two were remanded again to jail.

John Bentley, the sailor charged with assaulting Dr. Bishop on Carmarthen street early Friday morning, was brought in from jail and the doctor's evidence taken. He stated that while on his way to Mr. Cole's house, Broad street, Bentley called out to him and asked where he was going, then ran and grappled with him, at the same time calling for a companion to join him in the attack. He tried to get the doctor's coat opened and managed to get one button unfastened. The doctor proved too much for his assailant.

The prisoner said the doctor's evidence was correctly given but the police officer and another man whom he had been talking to that night at the gas house gate to appear in court as they could give evidence that would clear him. He was remanded while an endeavor will be made to get the witnesses to court.

Stanley Brown, a North End longshoreman, pleaded not guilty to stealing a brass cog wheel and a bar of steel from Edward Lantulum. He was defended by E. S. Ritchie.

Mr. Lantulum gave evidence that the goods in question were part of a steam boiler that he had repaired and was steering gear and were brought to the city from a wrecked ship at Barrington Passage, N. S. and placed on Law-

But the Intruders Do Not Want to Steal

—Mrs. Fraser's Home Gunned by Fire

FREDERICTON, N. B., May 27.—A house owned by Westley Kitchen, situated on Brunswick street and occupied by Mrs. Mary Fraser, was badly gutted by fire this morning. The loss to the building is estimated at \$15,000. The furniture, which was uninsured, was badly damaged.

No less than three burglaries occurred last night. The stores of James S. Neill, hardware, Lee & Co., five and ten cent store, and C. H. Burtt, grocer, were broken into. In each case the entrance was made through a back window but outside of the entry the owners report very little missing. In another a few cents were obtained. The burglars seem strange as the chances for taking property after entering were easy. Three burglaries have become quite numerous here in the past few weeks but in all of them the securing of property does not seem to be the object. There is no clue to the guilty one.

A meeting of the board of public safety will be held this evening and among other matters to be taken up will be a recommendation from Chief Constable that the fire engine No. 2 be done away with as being unfit for use.

The engine is the oldest in the department and is only about fit for the scrap heap. The board is taking no official notice of the resolution which was passed at the recent citizens meeting as no application has been sent to the board touching the matter.

Edward Leclair, who for years has been an lecturer in the fire department, is reported to be in a very serious condition at his boarding house, King street, and fears are entertained for his recovery. For the past year he has been ill.

WORK DONE ON THE VICTORIA GROUNDS. The Men Who Have Wrought the Great Change There.

Statement of the Receipts and Expenditures Since the Every Day Club Took Charge—Work of Bad Boys.

No finer example could be shown of public spirit on the part of men, who have nothing personally to gain by their efforts except the satisfaction of doing a helpful thing, than is furnished by those men of the Every Day Club who have stipped up the Victoria Grounds.

Every week-day evening for about a fortnight prior to May 24th a group of men, every one of whom had already done a day's work, spent a couple of hours digging holes, setting posts, building fence, clearing away the wreck of the old grand stand, and doing every other work necessary to put the grounds in good shape. More than that, each of these men subscribed and paid something toward the grounds fund. The men who did this work were few in number, when one thinks of the hundreds who crowded the club rooms every evening last winter, and there is the more honor to them for their work. They were E. H. Collier, Edward McFee, Edward Ricketts, E. L. Sheppard, J. A. Kilpatrick, W. P. Colwell, Robert Mason, C. A. Myers and E. P. Sumner. A number of other members, including Oscar Grant and H. Kierstead, gave aid when possible. The work done speaks for itself, but there is much more to do, and further aid will be welcomed. Among those who were unable to go down in the evenings, but worked zealously for the financial success of concerts or the success of the grounds fund, were C. S. Humbert, Charles Gordon Allan and a few others. In the sports the assistance of D. B. Donald, C. A. Seely and A. W. Thorne, of the St. John Amateur Base Ball League was most valuable, as well as that of J. N. Harvey, Frank White, President Fleming of the Trotting Park Association, Arthur McHugh and the various officials of the day. Those who contributed to the grounds fund, in addition to the members mentioned, were G. H. McLaughlin, Joseph Mann, John Lattimore, G. Collins, Thomas Campbell, J. E. Smith, James Main, A. W. Worden, W. R. Shanklin, D. Daley, C. E. Farham, C. G. Holder, Wm. Carr, Henry Carr, M. Stevens, W. Morrison, J. Car michael, H. W. Belling, J. W. McCosh, Law, H. A. Lynch, Samuel Kelly, H. F. S. Paisley, B. Allen, J. J. Irwin, W. C. Galt, G. S. Mayes, Rev. A. B. Cohee. Forty-nine persons who pledged one to two dollars each toward the grounds fund have not as yet redeemed the pledge.

The total receipts for the grounds fund, from subscriptions, proceeds of concerts and sports, and rent received from letting the grounds four evenings by members themselves, have amounted to \$1,000. The expenditure for rent, materials and labor, in addition to the work done by men in no way connected with the club, therefore the net profit was \$200. This is the amount which has already been fully \$200. Thus the club has on its grounds account a small balance of \$200. It is the duty of the caretaker's salary for the season and whatever funds may be expended on further improvements.

This statement will explain to any who ask why the grounds were subjected for four evenings per week, instead of being kept wide open all the time, the reason for the course pursued. The president of the Every Day Club, appreciating the hundreds of men frequenting the grounds to subscribe enough to guarantee open grounds, and the total subscription so received to date is less than seventy dollars, of which nearly one-fifth was subscribed by men in no way connected with the club. Therefore the net profit was \$200. This is the amount which has already been fully \$200. Thus the club has on its grounds account a small balance of \$200. It is the duty of the caretaker's salary for the season and whatever funds may be expended on further improvements.

PERSONALS. Mrs. S. Melaney and son, Sidney, are spending a few days with Mrs. V. J. Agate, of the Waverly House, Disby, N. B. Mrs. J. E. Snodgrass, who has been very ill for the past week, was removed to the General Public Hospital on Sunday. Her many friends in the city and elsewhere will wish her a speedy recovery.

WORKING AT NIGHT NOW ON THE NEW ROYAL BANK. During the past few weeks work has progressed rapidly on the new Royal Bank building. Scarcely a stone delayed the operations during the winter months, but this difficulty has now been overcome, and cartloads of stone are arriving daily. The first floor of the building has been completed and three stories are finished so far as the stone work is concerned. Work is now going on at the fourth story. The vaults have been built and the doors will be set in a few days.

A crew of over 50 men are now employed in the daytime and this number will be increased to 100 in a short time. In order that the building may be completed as soon as possible night crews have been put on. Electric lights have been installed throughout which enable the men to work all night. Ed. Berthelme, superintendent of the building operations, said this morning that the roof will be on the building in June and the whole job will be completed during the early part of August.
