### GENERAL CIRCULAR.

THE MOUNT ALLISON WESLEYAN COLLEGE was organized in July, 1862, under a charter obtained from the Legislature of New Brunswick. By virtue of this charter it possesses full University powers.

It is one of the affiliated Colleges of the University of Halifax. This relation involves important privileges to the graduates and students of the College, but does not, of course, impair or affect in any way its chartered rights. The University Act establishing the University of Halifax, passed by the Legislature of Nova Scotia during the session of 1876, is ostensibly an attempt to promote the cause of higher education, by securing the sympathetic co-operation of the governing Boards and Faculties of various Colleges. Interpreting it as a sincere movement in the interests of Educational unity and University Reform, the Board of Governors and Faculty of the Mount Allison Wesleyan College, in their conjoint character as the College Board, have authorised such a modification of the Arts Curriculum as will promote the convenience of Students preparing for the Degree Examinations of the University of Halifax. The subjoined Course of Study will, it is believed, answer this end, and at the same time render it easy to conserve the acquired rights of Students who have been working for Degrees according to the original Curriculum.

The College is conducted on strictly non-sectarian principles. The general denominational control under which it is placed, furnishes a sufficient guarantee that sceptical license will never be allowed within its walls, but does not imply the existence of a purpose or a wish to interfere with the conscientious convictions of any. The fullest recognition, however, is given to the truths and claims of the Christian religion: the Bible is publicly honored as the Word of God, and no pains are spared that the education imparted may be suitably leavened with religious principle.

### MATRICULATION.

The Matriculation Examinations are held on the second and third days of the first Term of the Collegiate year. Supplementary Examinations for special cases may be held at other dates.

No student is admitted to undergraduate standing without passing the Matriculation Examination; but nonmatriculated students, in the character of specialists, may attend any course of Lectures for which, in the judgment of the Faculty, after due examination, they are deemed prepared.

By an Explanatory Regulation of the Senate of the University of Halifax, candidates for Degrees in that Institution who shall have passed the Matriculation Examination of the Mount Allison Wesleyan College, are admitted to the first B. A. Examination of the University.

#### PRELIMINARY COURSE OF STUDY.

This course of study is designed to meet the wants of young men preparing to offer themselves to be received on trial for the Ministry. It embraces all the subjects prescribed for the preliminary and first year's examinations of the Methodist Conference, and may extend over one, two, or three years, according to the previous attainments and circumstances of the student.

The Theological parts of this course may be pursued in connection with Matriculation in Arts.

The English and Classical parts of this course are prepared in the Academy and College.

Students presenting themselves for admission to this course should bring with them letters of introduction from the superintendent Ministers of the circuits on which they reside. If they expect to offer themselves for the Ministry at the close of the year they must be recommended from the quarterly meetings of their own circuits, and not from the Sackville quarterly meeting. Students bringing with them certificates of such recommendation will be exempted from fees for theological tuition. Licenses as exhorters or local preachers should also in all cases issue from the Superintendent and quarterly meeting of the circuit in which the student resides, and where his church membership and standing should be continued.

After examination at the close of the college year, all students in the preliminary course will return home in time to be presented at their own district meetings in case they wish to be received on trial by Conference.

### Prizes.

In Elocution, a prize of twenty-five dollars was offered for competition to the Conference students of last year, by John McDonald, Esq., of Toronto. This prize was gained by Mr. Howard P. Doane.

### Theological Library.

Renewed efforts have been made during the past year to increase the value of this important aid to the professors and students of this department. Very generous assistance has been rendered by contributions of money or of books from Alexander Gibson, Esq., Marysville, and Revs. D. Chapman and G. W. Fisher. It is earnestly desired that further contributions be made to the Library Fund, so that the latest and best results of Theological Science may be placed within the reach of our students.

### Societies.

Two Societies have recently been established having a relation to this department. The one is designed for the benefit of the Theological Students in the college; and the other to serve as a connecting link between them and the Ministers labouring in the three Conferences of the Maritime Provinces, as well as to promote among the latter a spirit of Theological and Ministerial culture.

Among the students it is proposed, by means of Essays, Exegetical Papers, and oral discussions, to stimulate enquiry as to the best methods of Ministerial efficiency, and so to assist in preparing each other for the great work of preach-

ing the Gospel, and feeding the flock of Christ.

The Ministers' Theological Union will meet at the close of each Collegiate year, and, in addition to the consideration of topics of interest belonging to their work, will have an annual Sermon preached, and a Theological Lecture delivered. The Rev. A. McKeown will preach the annual sermon and the Rev. John Lathern will deliver the annual lecture in 1880.
