

WOULD SHIFT THE BLAME FOR ROSENTHAL'S MURDER FROM BECKER TO GUNMEN

Evidence of "Newsboy King" for Defence Fell Short of Expectations

Justice Goff Refused to Admit Much of His Testimony -- Maintains Webber and Schepps Planned to Make Becker the Scapgoat--Dramatic Account of Murder Frequently Interrupted by the Court

New York, Oct. 18.—Jacob Reich, known as Jack Sullivan, king of the newsboys, testified with the four gunmen for the murder of Herman Rosenthal, tried to unfold on the witness stand at today's session of Police Lieut. Becker's trial, his version of an alleged conspiracy by gamblers to kill Rosenthal and frame up Becker for the murder.

But much of Sullivan's story was untold. That part which Justice Goff permitted him to relate was based upon testimony already given by the state's witnesses, Rose, Webber, Valon and Schepps.

Sullivan not only denied portions of their testimony relating to Becker's participation in the alleged conspiracy to murder Rosenthal, but declared that after the murder Webber and Schepps told him they were going to "frame Becker and turn him over to the district attorney."

Wanted to Explain. Sullivan became as petulant as a child when Justice Goff narrowed his testimony to contradictions of the previous witnesses.

TURKS AND THE ITALIANS MAKE PEACE

Terms of Treaty Concluded Yesterday Were Highly Favorable to Ottoman Interests.

CYRENAICA AND TRIPOLI FREED. Italian Sovereignty Not Necessarily Recognized by the Porte.

Onchy, Switzerland, Oct. 18.—The final draft of the treaty of peace between Turkey and Italy was signed at half past three o'clock this afternoon.

The peace treaty by no means in one-sided or conched in such terms as usually are imposed by victor upon vanquished.

Upon these concessions Turkey depends greatly to offset the decrease of the Italian empire.

Chicago, Oct. 15.—The first vivid impressions of Col. Roosevelt's on the night on which he was shot in Milwaukee were related tonight from the colonel's own lips.

What seemed to impress Col. Roosevelt most strongly was not the shooting itself—seemed to accept that as a thing of the past to be dismissed once it was over—but rather his hour on the stage of the Milwaukee auditorium when he was speaking with a bullet in his side.

Rather "interesting." "It was quite amusing," he went on to see that it had a hole in it from the bullet, and there was a hole in my chest, as he recalled the surprise he had felt at the time.

Greece Followed Allies' Lead and Declared War on Turkey Yesterday.

Engagements Reported from Various Quarters-- Servians Said to Have Captured Priskina-- News from Near East Strictly Censored, and Reports of Victories May be in Advance of Facts--Struggle Likely at Adrianople

London, Oct. 18.—Turkey's endeavor to detach Greece from the confederation of Balkan states have failed. Greece declared war against the Ottoman Empire today.

Reports of fighting, such as the capture of Pristina by the Servians, and of a heavy battle at Mustafa Pasha, probably are in advance of the real facts.

Joseph Caruso Charged With Complicity in Lapizzo Murder at Lawrence Speaks English Witness Says.

Salem, Mass., Oct. 18.—Joseph Caruso, one of the defendants charged with the murder of Anna Lapizzo at Lawrence during the textile strike, who is on trial here with Joseph J. Elton and Arturo Giovanniatti, sat in the prisoner's cage today with an interpreter by his side, while Lawrence police officials testified that they frequently had conversed with him in English and that the defendant had understood them without difficulty.

When Caruso was detained in the Lawrence jail last March before his indictment for the Lapizzo murder, testified Police Inspector Charles L. Vose, "I talked to him in his cell. I can't speak a word of Italian. I asked him what he was there for and he said: 'They say I stab a man.'"

THE SHOOTING OF WESTERN MAN PREDICTS A GREAT RETURN TO THE EAST
H. J. MYSHRALL
Fredericton, Oct. 17, 1912.
To the Editor of The Standard:
Sir—On Wednesday, Oct. 10th, just after dinner, I was accidentally shot by John Brewer, son of the proprietor of the boarding house where I reside. I had bought a box of steel shells at James S. Neill's hardware store that happened to be too small for the revolver chamber and which I took to pretty well as they were rimless. When trying the shells I forgot one in the revolver chamber. Some time afterward John came into the room, and I showed him the revolver. He said that it was N. G. and that I could buy a much nicer one at a toy figure at a certain hardware store around the corner.
He picked up the revolver, and was standing by his back to the window and facing me. He pulled the trigger around, neither one of us being aware that there was a live cartridge in the chamber. It clicked around once, and John called my attention to the hair-spring, saying that when I was looking at it that it would soon get out of order, and as I bent over towards him to look at it, he pulled the trigger around again to confirm his assertion, and the overlooked cartridge exploded, hitting me in the shoulder.
The surprise and shock weakened me more than the pain at the moment. I told John to get a doctor as quickly as possible. From my room I rushed again to the dining room and told Mrs. Brewer that I was shot. Mrs. Brewer led me to a couch in the hall and rushed out to phone for a doctor. In the meantime someone came to my assistance and took off my collar and the open shirt, which was bleeding freely and was beginning to feel somewhat faint by this time. Drs. Vanwart and McNally arrived soon afterwards, and I was taken to the hospital, where, thanks to Dr. G. C. Vanwart, I am recovering rapidly.
To this report both John Brewer and I can swear if need be. In regard to John Brewer's report about my shooting myself accidentally, I would say that the boy was frightened and said that I shot myself. But some people saw too good a chance to create a sensation and start a scandal to let pass; consequently our came rumors of all kinds.
After hearing a report in regard to my committing suicide, I concluded that it was up to me to make a true report of the accident and refute the sensational ones.
H. J. MYSHRALL.

WESTERN MAN PREDICTS A GREAT RETURN TO THE EAST
A. McKechnie Says Rapidly Increasing Prosperity of Maritime Provinces Will Soon Bring Wandering Sons Home Again—Sees Bright Future for St. John.
The provinces by the sea all that the west can offer. To the farmer in the old provinces offer more for the pioneer work of the west is unnecessary. As regards industrial development and possibilities, it remains with the people here to bring this about.
"I am a firm believer in the value of printers' ink," Mr. McKechnie said, "and advertising a city is just as essential as advertising a business. In fact I think a city should be looked upon somewhat in the light of a big business proposition. The western cities in many cases, and cities in the states are following out this plan, and are making use of the advertising columns to bring their claims to the attention of outsiders. By thorough organization and systematic publicity work much can be accomplished in the way of booming a city, and paving the way for the introduction of new industries."
An excellent illustration of the truth of this may be found, he said, in Nashville, Tenn. As a result of organization and publicity mills and factories were brought in and the industrial life of the city changed from a state near to stagnation to great activity.
"I have not seen much of the Maritime Provinces, but I have heard much of St. John and the Courtenay Bay scheme is one of the greatest things going on in Canada today. We have many New Brunswickers out west, but I feel certain that there will be a period of reaction at a not very distant day, and New Brunswickers will come flocking back east."

WOULD SHIFT THE BLAME

Commissioner Waldo testified that he, and not Becker, had ordered a policeman stationed in Rosenthal's gambling place after Becker had raised it. The state has sought to prove that Becker did this as a personal revenge.
Commissioner Waldo was not permitted to say whether Becker has returned to his post as a policeman, or whether he has been transferred to another post. He said that Becker did this as a personal revenge.
"Where were you on the night of the murder—were you in the neighborhood of 42nd street and Broadway?" asked Mr. McIntyre.
"Yes."
"Did you go to Webber's place?"
"Yes, about 2 o'clock. There were only two tables of poker players and I was looking for Sam Paul, so I went out and got a soda. This was five minutes to 2 o'clock. There was a big mob there, while I was drinking my soda and suddenly they all ran out. The boy at the fountain followed. 'Here,' I shouted to the kid, 'come back here or somebody will steal your cash register.' He came back and took my diamond pin out of my tie and put it in his pocket so it would not be stolen. Then I pushed my way to the Metropole, where I saw Rosenthal laying dead on the sidewalk."
Climax of Story.
"I leaned over Rosenthal and said, 'Herman, who did it?' but there was no answer. Herman was dead."
When Sullivan reached this climax of his story he paused and looked around as if to note its effect.
"Where did you go then?" resumed Mr. McIntyre.
"To the Cadillac Hotel, but I couldn't get in because of the crowd. I went back to Webber's, reaching there about 2:40 and saw Rose, Webber, Vallon and Schepps."
"Your Honor," said Mr. McIntyre, "I want to prove Vallon as an accomplice."
"No, no," Justice Goff said, "You can't do it this way."
"Do you know where Rose, Webber, Vallon and Schepps went after that?" continued Mr. McIntyre.
"Yes, I saw them at a cigar store about two feet from Webber's place. That was about 3:30 o'clock. Webber and I walked away from the others up Broadway and were talking about the murder."
Sullivan was not permitted to testify what Webber said to him.
"Did Vallon, Rose and Webber, together or separately, at any time ask you to swear, or to say that Lieut. Becker was in front of Webber's place with them while you were talking with them?"
"Yes," shouted Sullivan, before Mr. Moss could object. This answer was ordered stricken out.
Mr. McIntyre then addressed the court.
"I want to show by this witness," he said, "that Rose, Webber, Vallon and Schepps conspired to kill Rosenthal independently of Becker."
The attorney then asked Sullivan if any of the four men named had spoken to him about killing Rosenthal but Justice Goff refused to allow the witness to answer.

Ugly Pimples Have All Gone
Face a Sight, But in a Short Time Stuart's Calcium Waters Worked Wonders.

Many an otherwise pretty girl is distracted with her appearance. Poor girl! She doesn't yet know that Stuart's Calcium Waters will quickly transform her into a perfect dream of loveliness. And many a young man with tender skin just growing a bristly beard is also a sight to behold. All the face creams in the world are nothing but masks. They do not overcome pimples, but merely ally surface irritation.
Skin-health must come from within. Skin-tissue is made from the blood, and as it is a tendency of nature to throw off a good share of impurities through the skin, naturally impurities "other on the surface in the form of pimples, blotches, blackheads and other eruptions. But Stuart's Calcium Waters have a remarkable activity in the blood which seeks the skin as an outlet for its impurities. These are thrown off in invisible mist or gas, are consumed in the oxygen of the air and in a few days all imperfections of circulation and of skin-health are overcome.
All blemishes disappear and the skin becomes as clear and smooth as a baby's. Go to the drug store today—say druggist can supply them—and get a box of Stuart's Calcium Waters for trial. They will cost you only 50 cents but are really worth many dollars to you if you are marred by ugly pimples, blotches, blackheads, etc. Convince yourself by actual test that Stuart's Calcium Waters are the most effective blood and skin purifiers in the world.

LIGHT SENTENCE FOR BOYS GUILTY OF CRIMINAL ASSAULT
Young Men Let Off With Fifteen Months and Fifteen Lashes for Assault on Hamilton Girl.
Hamilton, Oct. 18.—Justice Kelly this morning passed sentence upon the eight respectfully connected youths who pleaded guilty to indecent assault on Lena Holmes, aged 12. The assault occurred last summer on the Mountain.
Justice Kelly sentenced each prisoner to fifteen months in the central prison, with fifteen lashes, in passing sentence he said: "The charge upon which you were indicted by the grand jury is punishable by death or life imprisonment. The crown prosecutor thought fit to accept your plea of guilty to a minor, but nevertheless a serious offence. The laws of this country are made to punish those who break them, to protect the public, to warn the public about breaking them. It is the duty of the court to protect the public."
Some of the boys who ranged from 14 to 18 years in age wept bitterly.

HOW TO GET RID OF CATARRH
Here is a Simple, Quick, Effective Way and COSTS NOTHING—Send for It and See.
Those who suffer with it know well the misery of catarrh. There is just one thing to do—have it cured. It can be done. To prove it to you, send your address and the means of a quick and safe cure will be sent to your home free in every way. The idea in giving it to you free is to prove to you that there is a home cure for catarrh, scratchy throat, asthma, stopped-up feeling in the nose and throat, catarrhal headaches, constant spitting, catarrhal deafness, etc. The remedy that does it is the invention of Dr. J. W. Blosser, an eminent doctor, who has for over 25 years been identified with the cure of catarrh in all its worst forms.
His discovery is unlike anything you ever had before, as it is not a spray, douche, ointment, stimulant, saline, cream or any such thing, but a genuine tried-and-true cure that clears out the head, nose, throat and sinuses so you can breathe freely, the free air and sleep without that choking spitting feeling that all catarrh sufferers have. It will save the wear-and-tear of internal medicine that only ruins the stomach. It will prevent colds and heal up the mucous membranes so that you will not be constantly blowing your nose and spitting.
If you have never tried Dr. Blosser's discovery and know that you need relief, cure, and want to make a trial of it without cost, send your address to Dr. J. W. Blosser, 208 Spadina Ave., Toronto, Can., and a free, free trial treatment and also an elaborate illustrated booklet will be sent you at once, free, so that you can begin to cure yourself privately at home.

CEETEES

Worn by the Best People Sold by the Best Dealers

Many people have remarked on the peculiar name given to this Underwear, which has earned the reputation of being the best pure wool underwear made.

It might be interesting to some to explain the origin of the word.

"CEETEES" Underwear is manufactured by The C. Turnbull Co. of Galt, Limited, a firm founded a little over fifty years ago. The present Manager, Mr. C. Turnbull, adopted the idea of practically attaching his signature to every high-class pure wool garment turned out on their special machines for full-fashioned underwear. He, therefore, used his initials by putting them into words CEE (C) TEE (T), and surrounding the words with a drawing of an Australian Merino Sheep, from the wool of which every garment of "CEETEES" is made.

To-day the word "CEETEES" on any garment is practically Mr. Turnbull's personal signature. It means that it is guaranteed absolutely unshrinkable and made from nothing but the finest pure Australian Merino wool.

AN EMERGENCY CONTRIBUTION.

A despatch from Ottawa indicates a difference of opinion between the Government and Mr. Monk as to the course to be followed with regard to an emergency contribution to Imperial Naval Defence. There can be no doubt that Canadians generally will be satisfied that the Government are taking the proper course when Mr. Borden, with a full knowledge of the situation, makes his statement in Parliament and the proposals of the Government are explained.

The only difference of opinion appears to lie in the fact that Mr. Monk favors the submission of the question of an emergency contribution to the people. He realizes that the situation is grave and even critical. Under such circumstances most people will be well satisfied that the recommendation of the Government should be accepted and the appeal to the electorate should be confined to the Dominion's permanent policy.

They will recall Mr. Churchill's memorable statement in the House of Commons in July last, referring to the naval situation. He said:

"Well do we understand the truth of Mr. Borden's words: 'The day of peril is too late for preparation.' There is an earnest disposition on the part of the self-governing Dominions to assist in the common defence of the Empire. The time has now come to make that disposition effective. Apart altogether from material aid, the moral effect of the arrival upon blue water of these new nations of the British Empire cannot be measured."

Whatever may be Mr. Borden's recommendation it will be based on the knowledge obtained from the British Government, and will be loyally endorsed by the Canadian people generally, without question.

Mr. Monk considers that he stands committed to the policy of a referendum on the emergency question. He understands the gravity of the situation, but as a man of his word he will prove his sincerity by his resignation. There will be no disposition to blame Mr. Monk for a course of action which he conscientiously believes to be right.

OPERATION OF THE TRANSCONTINENTAL.

In Parliament on December 7th last, in reply to a question, Mr. Cochrane, the Minister of Railways, stated that the portion of the National Transcontinental Railway situated in the Province of New Brunswick would be ready for operation by September, 1912.

This date expired less than three weeks ago. The work necessary to permit a regular service has been completed, and the announcement comes from Ottawa that the Government are arranging for the operation of the line for the benefit of the people living in its vicinity and for shippers who can make use of it. The action of Mr. Cochrane has been prompt and businesslike. He bears that reputation. A regular service over the road will be generally appreciated, particularly by lumbermen and shippers. The event will also be noteworthy as making a further step towards the completion of this great national work.

At the close of last year much remained to be done on "District A," the term which applies to the 256.61 miles from Moncton to the boundary of the Province of Quebec. Practically all the stations and the round houses and shops at the divisional points, Nepesigan and Edmundston had still to be built and the grading, bridges and telegraph lines were not then completed. Work has been rushed and the road from end to end of the Province is now prepared for business. Something like thirty stations are ready for whatever traffic may offer. Coaling plants, offices, yards and the general equipment for the road at the divisional points are awaiting operation.

The line from the boundary to Levis, through the Province of Quebec, is scheduled for completion, according to Mr. Cochrane's statement, by September 30, 1913. For a year at least, therefore, the Transcontinental through this Province will be a local road. It is of interest to note that since the present Government came into office the cost of a car ferry at Quebec, amounting to \$650,000, has been added to the original estimate. On this point Mr. Cochrane explained the Government's intention last session. "The reason the cost of the car ferry is put in," he said, "is that I am informed by the Board of Engineers building the Quebec bridge that they cannot possibly finish before the end of 1916, and possibly 1917, and it is absolutely necessary if this road is going to be finished by 1914 that we should have an opportunity to take cars down to our Winter Ports at St. John and Halifax."

Other sections of the road which the late Government failed to complete are being rapidly pushed forward so that through traffic from the West may be anticipated at the Winter Port at an early date in 1914. Whether or not the Grand Trunk Pacific Railway Company will operate the road when through traffic is possible is regarded as very doubtful. Owing to the extravagant and wasteful course followed by the Laurier Government in the construction of the Eastern Division it is generally believed that no company could afford to pay the interest on the cost and operate the road as a business proposition.

The company will have to pay interest on about \$201,710,000 which means a burden of \$6,000,000 a year of interest, or \$3,300 interest per mile, on every mile of the road from Moncton to Winnipeg. The road was designed by the Laurier Government to reduce freight rates on the grain coming from the West. Obviously there will be nothing left to reduce freight rates after working expenses, including this enormous interest charge, are paid. It may be necessary for the Dominion to step in and take even a larger share of the burden than is being carried today.

Discussing this contingency, the Toronto News recently made the interesting suggestion that the Intercolonial Railway should operate part of the Eastern Division of the road and become a national railway in reality, with running rights from Halifax and St. John to Prince Rupert. It says: "The work done upon the Moncton to Winnipeg section has been wastefully extravagant. The danger is that the Grand Trunk Pacific will refuse to operate the Cochrane to Moncton portion of the road on the ground that it cannot be made to earn profits on the exorbitant cost of construction. In that event the Government should connect up with the Intercolonial and secure running rights over the Grand Trunk Pacific that will carry Intercolonial trains from Halifax, Moncton and St. John across the prairie to Prince Rupert. Under its contract, the Grand Trunk Pacific may enter into agreements with

other companies for mutual running rights and exchange of traffic. The clause is only permissive, but in view of all that the country has done for the company the Ministry should be able to secure the necessary concessions from the management—especially as the company will doubtless be coming to Parliament for further favors.

"Such an arrangement as is here suggested would save the Cochrane-Moncton section from remaining unoperated, it would make the intercolonial a really national system, it would assist in reducing freight rates to the Western farmer, and altogether it would save something from the wreck of that National Transcontinental road which Sir Wilfrid Laurier has so often described as the monument which he was to leave behind him to perpetuate his memory in Canadian annals."

"THE BURDEN OF PROTECTION."

With the objects of protesting against Protection and forwarding Free Trade movements in all countries, a society called the International Free Trade League has been formed and as a first effort for the good of the cause the League have issued a "Journal" called "The Burden of Protection." It consists of fifteen articles, designed to show the evils of a tariff in fifteen different countries, written by fifteen more or less prominent local advocates of Free Trade.

In a preface the editor repudiates with some heat the admission frequently made from his own side that the question of Free Trade versus Protection is one which every country should decide for itself in accordance with its own requirements. He says: "It should be ridiculous to say that Free Trade benefits here and would not benefit there, or that it was profitable then and harmful now, as it would be to say that the law of gravitation is operative in England and not in France, or that it once used to be operative in England and not in France, or that it once used to act. If it is a law, it is universal; it must profit everywhere if anywhere; and it is not more true for the individual than for a society of ninety millions like the United States."

In comparison with this dogmatic claim it is instructive to note the contents of the journal. The first article deals with the Commonwealth of Australia, and is written by ex-Senator Pulafor, who is well known as an ardent Free Trader. From it the following passage may be quoted: "Is Australia prosperous? The answer to this question is an unmistakable 'Yes.' United Australia has existed ten years under a distinctly protective tariff, and is now enjoying a very marked prosperity." It is evident, then, that Protection, to say the least of it, has not been harmful to Australia.

An article on Protection in Germany, by a well known economic writer, Professor Brentano, contains some amazing admissions. He states that even the Hansabund, which was formed in order to oppose the protection of the landed interest, "has shrunk from including Free Trade in its programme. It takes for its platform a gradual repeal of agrarian duties, but hesitates to include Free Trade since it would run the risk of losing the membership of those finishing and elaborating trades which stand for Protection in their own favor. The same considerations appear in all the election addresses of the Liberal members of the Reichstag. In all was apparent the fear of an open and clear confession of Free Trade principles; they made eager protest that nothing was further from their thoughts than a return to it. The party which, as such, stands for Free Trade in Germany is the Social Democratic, though there may be individuals in it who would readily agree to a desertion to the Protectionist camp." The Professor concludes his article by saying: "The sudden return to Free Trade would shake the economy of the German nation to its base."

Mr. Byron W. Holt, who deals with "The Evils of Protection in the United States," is as pessimistic as the German professor. He sorrowfully admits that even the Democrats are not honestly in favor of Free Trade. He says: "Apparently, most Democrats think that our manufacturers and farmers are entitled to a 'reasonable' amount of protection—for their own sakes, for the sake of laboring men, and for the sake of the country as a whole. . . . The idea that this country (the United States) could exist and prosper without some degree of Protection is doubted by most Democrats, if we can judge by their speeches." He also states: "It is notorious that whereas Free Trade was openly taught in most of our colleges 30 or 40 years ago, there are today, in our hundreds of colleges and universities very few professors who dare proclaim their Free Trade ideas either in or out of their classrooms."

The whole book is a confession of the failure of Free Trade. It shows that while there are movements in various protected countries in the direction of lower tariffs, there is nowhere any popular demand for the free admission of competing imports. That doctrine finds no supporters except in the fiscal policy which still prevails in the United Kingdom. It has become a mere economic theory which cannot stand the test of practical working, and its adherents are becoming fewer every year. In our Mother Country, its last stronghold, it is rapidly yielding to the popular demand for Tariff Reform and Imperial Preference. The next general election will in all probability see the celebration of its obsequies.

The Policewoman.
(Edmonton Journal.)

Edmonton's action in appointing a woman police officer has given it a great deal of publicity all through America that does it no harm. The move is in keeping with the progressive municipal policy that has drawn so much attention to the city in the past. Germany is supposed to lead the world in this respect, but the cities of the Fatherland are just taking the step now that Edmonton has authorized. A news item tells us that Strassburg's "policewoman" enters upon her duties this month.

The New Mark Tapley.

Hon. Mr. Pugsley is reported as saying he does not think the result of the Macdonald election any indication of the feeling of the Western farmers in regard to Reciprocity. Mr. Pugsley is qualifying for the part of Mark Tapley in the Liberal theatrical cast. His cheerfulness under discouraging circumstances would do credit to the noted child of Charles Dickens' brain.

SOUTHAMPTON BOY SHOT MONSTER MOOSE

The sixteen year old son of Albert Miller of Lower Southampton took his rifle and birch bark horn last Thursday and went out hunting moose with the air of a well seasoned hunter of the old school. He tramped boldly into the woods, at intervals pausing to foot on his horn and listen for the expectant moose, but the sun crept westward, till at last, a little disheartened, he began to retrace his steps. When he regained his father's field he climbed over the high cedar pole fence and walked to the middle of the field where there was a log lying that his father had thrown down and laying his rifle against the log, began to play with the horn, tooting it and trying how many different noises he could make. Suddenly he heard a noise in the edge of the woods.

He Turned Quickly and to his surprise and consternation he saw a large bull moose leap over the fence and rush down upon him. He snatched up his rifle and quick as thought, took aim, and fired at the wildly plunging brute, which with hair standing straight up on the back of its neck was coming towards him at a furious rate. The moment he fired he dropped his rifle and ran. He jumped so quick his hat fell where he was standing. He made for the fence towards home with all the speed he could command. He jumped the high pole fence and made for his home now distant about one hundred and fifty rods. Rushing in the store, immediately across the road, he breathlessly told the proprietor, Wilmot Moore, what had occurred. Mr. Moore ran back to the field with the boy, and there up at the side where he had come in

Was the Moose. Mr. Moore ran to the log, picked up the rifle, and as the moose turned from the fence which he was vainly trying to jump, Mr. Moore took deliberate aim, and at the crack of the rifle the great brute fell with a bullet behind the right ear. They then went up to him. He was quite dead. They then saw that the boy's shot had done. His left hip was broken and that leg useless. This made him stop in his mad rush for the boy, and prevented him from getting back over the pole fence, till the boy returned with his friend. He was a monster—one of the largest ever shot here. His huge antlers measured, from tip to tip, exactly seventy inches. Help was procured and by midnight by the aid of lanterns the huge brute was skinned and the meat cut up.—St. Croix Courier.

not of the political variety, invaded Moncton yesterday. They came down the mountain road into the western portion of the city and moved about for some time in full view of many people before they were frightened away by boys.

Lumber Mill to Close Earlier. Chatham, Oct. 18.—As it is impossible to get steamers for the deal carrying trade, the big mill of the J. B. Snowball Company will close down for the season on Saturday night, nearly three weeks earlier than is usual.

Factory Act Case in Court. Factory Inspector Kenny had W. C. Bauer, manager of the Maritime Art Glass Company, and his engineer, Walter Preston, in court yesterday morning. Preston was charged with working the machinery without having a certificate and Mr. Bauer, the manager of the company, was charged with violation of the law. Both pleaded not guilty, and were represented in court by J. P. Lewis in his employ. His own lawyer looked after the prosecution. Several witnesses were heard and the factory inspector sustained his case.

Union Street Property Sold. H. Hanington has sold the Wilson property on Union street to F. H. Foster. A. H. Hanington purchased the property some time ago for \$18,500.

Cheaper Sugar. All grades of sugar have declined in price ten cents a hundred pounds. Standard granulated is now \$4.90 per cwt., as compared with \$6 a year ago.

The Sugar Refinery. In connection with the sugar refinery project, it is stated that an understanding has been reached with the government regarding the site. It is not likely, however, that anything in the way of construction work will be done this fall. The company, however, is said to have all its financial arrangements completed and will be in a position to commence work in the spring.

Bank of New Brunswick Cases. In the Supreme Court, King's Bench Division, before Judge White in chambers at Moncton, an application in the case of the Bank of New Brunswick against James M. Palmer came up for postponement of the trial from the October circuit, on the ground of the absence of a necessary and material witness, Ernest Lichtenberg, who is in London. W. B. Chandler, K. C., supported the application for postponement; E. A. Kelly, on behalf of the bank, opposed the application, his contention that there was ample time from the service of the replies to the bank, opposed the application. Investment Facts For Thinking Canadians

LARGE PROFITS BEING MADE BY FORESIGHTED INVESTORS WHO GRASP TODAY'S OPPORTUNITIES

In this series of announcements we have shown from week to week by the citation of facts and figures and the testimony of unquestionable authorities:—
 First, the fundamental solidity and stability of the present investment situation in the Dominion.
 Second, the assured future of well-placed investments in vigorous and growing towns of Western Canada.
 Third, the notable investment opportunity presented by such situation.
 The demand of today is for basic facts, and intelligent investors who analyze the facts are acting accordingly.

Well-known Banker Views Western Conditions

SUPERINTENDENT OF WESTERN BRANCHES OF CANADIAN BANK OF COMMERCE OUTLINES PRESENT SITUATION.

Mr. Vere C. Brown, of the Canadian Bank of Commerce, who travels many thousands of miles in the course of business trips through the West, made the following statements on his return to Winnipeg a few days ago:—
 "The growth and development of the cities is, of course, the most impressive thing to the eye of the traveller through the West.
 "Even to those who have accurate information as to what is going on, the growth of the large centres during a twelvemonth is always surprising when actually viewed.
 "It is becoming clear that economic forces are in operation which must result in the settlement of our lands at an unparalleled rate.
 "The immigration to Canada in 1901-12 was 354,237, a figure which was not reached in the United States until that country had a population of 38,558,000.
 "Business conditions generally cannot be described as other than excellent, indeed, they could hardly be better."
 It is at least significant that bankers and financial authorities throughout the Dominion are in general accord with the views here stated.

No Setback in Canada

THE DOMINION'S FINANCIAL SOUNDNESS DEMONSTRATED.

Mr. J. Norton Griffiths, British M. P., who is very heavily interested in investments in Canada, has visited Canada many times and is thoroughly familiar with Canadian conditions, stated upon his return from a recent trip to the Dominion:—
 "When one goes to Canada and sees on all sides the natural prosperity of the country, based not on a mining boom or on an industrial bubble, but on the exchange of wheat for gold, it makes one smile on returning home to hear people talking about a setback in Canada, and saying that Canada has gone ahead too quickly.
 "I can see no grounds to justify such criticism; and as long as people continue to go on the land as they have been doing one need not worry about setbacks.
 "People do not realize that the huge Canadian trunk systems, with all their rolling stock combined make one of the biggest railway undertakings in the world and yet they cannot cope with the traffic.
 "Those who are desirous of investing in town properties will find every security in investing in such properties in main centres and thriving towns.
 "Because London does not realize the vast undeveloped resources of Canada, that is no reason for saying that there is going to be a setback in the country."
 The foregoing interview was reported in a recent issue of The Canadian Mail of London.

Industries and Cities

CENSUS FIGURES SHOW GIGANTIC INDUSTRIAL EXPANSION OF CANADIAN WEST.

Within a single decade, 1900 to 1910, the aggregate production of Canadian industrial establishments increased by 142 per cent. In the same period the aggregate invested capital in these same industries increased by 178 per cent. In 1900 the output of Canadian manufacturing plants was valued at \$481,053,375. In 1910 this figure had increased to \$1,164,695,032—and it is still growing.
 But mark well this point: In the period when Canada's population was increasing by about 34 per cent., according to the official census, the increase of industrial capital was over 178 per cent., or more than five times the increase in population.
 Let this same ratio continue for even eight years to come—let population and industrial expansion maintain even their present rate of increase—what do we have?
 An industrial capital in 1920 of about five billion dollars—with the whole world as a market for the output of Canadian industries.
 The agricultural basis of the Dominion's future is supplemented and reinforced by the industrial basis. On this double foundation there can be no limit to future expansion.
 As the agricultural West is developed, thriving cities and distributing centres will be needed to meet the requirements of a great producing territory—new industries will be established—population figures will expand steadily and consistently—and real estate values must act accordingly.

How Land Values Grow in Western Canada

WELL-KNOWN AMERICAN WRITER SUMS UP THE SITUATION.

Howard N. Whitney, Editor of the Register and Farmer of Des Moines, Iowa, and Western correspondent for a group of Eastern financial journals, is authority for the following outline of investment conditions along the line of the Grand Trunk Pacific from Winnipeg to Edmonton:—
 "One of the most striking conditions," he states, "is the comparatively low price of the land.
 "When a man enters upon the land in these later years to possess it, he comes with a twentieth-century equipment.
 "Yet this does not rob the new country of its romance or of its adventure.
 "The self-same spirit which stirred the men of '49 to risk their lives and futures in the new land in search of gold stirs the hearts of the strong men today.
 "So that it is not strange that cities of the most modern type are built on these northern prairies in the space of a few years.
 "Thus it is that the low prices asked for this productive land is one of the conditions which strikes a man from the States most forcibly.
 "There are big opportunities for money making in Canada.
 "With the tremendous immigration into Western Canada, the great railway development and the money which is being invested in this new country, the vast prairie region is developing not only rapidly but substantially.
 "This means increased land values. There is every reason why it will advance steadily from year to year."

NORTH BATTLEFORD PROPERTY ALREADY DOUBLED IN VALUE.

Saskatoon, Sask., Sept. 23, 1912.
 The International Securities Co., Ltd.,
 Winnipeg.

Dear Sir,—I am in receipt of your letter concerning the progress of the town of North Battleford.

As I own some real estate in this town I took a trip up there last week, to see for myself if all I had heard was true; and must say I was greeted with a pleasant surprise, for the town even exceeds the circulated reports concerning its rapid growth.

While there I went out to look at my lots in block 21, Battleview Park, and must say they are beautifully situated, and in every way what they were represented when I purchased them. Nearly all of this subdivision lies on a gentle slope overlooking the town and river; and in two years, if the town's present growth continues, will be almost entirely built up.

After talking with several of the leading real estate and business men of the town, I am thoroughly convinced that these lots in less than another year will be worth treble what the owners paid for them. At the present time they are selling at \$200 per lot and upwards, which is double what the owners paid for them; which taken into consideration the terms on which they were sold I consider an A1 investment. In closing I may add that I am in every way satisfied with my holdings, and I intend to hold them.
 (Signed) GEORGE R. LOGAN.

PLEASED WITH HIS INVESTMENT.

Metis, Alta., Oct. 2, 1912.
 The International Securities Co., Ltd.,
 Winnipeg.

Gentlemen,—I am well satisfied. I am the owner of one lot in Tuxedo Park and I am just in receipt of a letter from Sterling Trusts Corporation offering me a spot price for my lot, but I do not wish to sell it yet, as I would like to keep it longer. Also, I am very satisfied dealing with the International Securities Co., Ltd., and whenever I have a chance I am going to deal with your company.
 (Signed) M. JURYN.

INVESTIGATES—THEN DECIDES TO HOLD.

Wilmer, B.C., Aug. 12, 1912.
 The International Securities Co., Ltd.,
 Winnipeg.

Gentlemen,—I have made an investigation of my lots and am highly pleased with my small purchase, which is just three lots, which I could have sold on the 20th June for a profit of \$258.75 and I refused the offer. Later on 3rd August, I refused another offer which was \$175 more than the first one. I think it fair to advise that I have found business relations with this company satisfactory, and if property is genuine and I am well pleased.

Who that knocking at the kitchen door?

Why, it's Mrs. Edwards round again—she's always ready to lend a hand with the cooking. That nourishing home-made Irish soup of hers is a real dish-of-all-work—useful in a hundred ways.

It's fine and tasty by itself. It's the secret of a savoury sauce. It's the making of a made dish. And, to bring out the goodness of your own scup and gravies and hashes and meat puddings there's nothing like adding

U.B.W.M.U. SESSION HELD AT WINDSOR

Windsor, N. S., Oct. 17.—At the Wednesday afternoon session of the U.B.W.M.U. convention, Mrs. W. E. Dincock gave an address, welcoming the convention to Windsor, which was responded to by Mrs. J. H. Macdonald of Fredericton.

The president, Mrs. Hutchinson, gave a splendid address, comprising a review of the work of the past year, and a forecast of the undertakings of the incoming year. She spoke enthusiastically of the labors among the Hungarians of the west, and pointed out the great opportunity and responsibility in regard to them, and the many of all nationalities who are daily coming to the great West. The speaker pointed out that this has been a historic year in foreign missions, having enlarged interest in new work and because of this made a strong appeal for greater effort in the coming year.

The reports of the recording and corresponding secretaries, also the treasurer's reports, were brought in. These reports were all most gratifying and showed a very healthy and progressive state of affairs in the different departments.

Mrs. E. M. Sippell spoke of "Our Medical Work and its present results, impressing upon all the need of more medical and nursing missionaries.

Miss Flora Clark of Bimlipatan, India, in her delightful and cheery way spoke of "Our Bible Women" and their labors of love among their own sisters.

Mrs. Lillie of Toronto in a spirited and stirring talk, told of the work being done among the lepers on our Telegu field. How this miserable class of leprosy is being brought to Christ through the ministrations of the missionary.

The evening session was enhanced by a service of song by about thirty children, under the efficient leadership of Miss Nora Shand.

The report of Home Mission Committee was discussed and "Lidings" was reported by the editor, Mrs. Manning and Business Man, Mrs. Ralston. This report showed a large increase in the subscription list.

The election of officers resulted as follows: Pres. Mrs. Hutchinson, St. John; Rec. Sec. Miss Clara Fullerton, St. John; Cor. Sec. Mrs. Martell, Truro; Mrs. Mary Smith, Amherst. The afternoon session of Thursday was largely taken up with mission board reports and discussion on mis-

The Handiest Way To Shave

Some men, who have shaved for years with the old-style, long-bladed razor, find it hard to believe that the Gillette Safety Razor is really handier and quicker.

So the quill-using clerks of old must have looked askance at the first steel pens—until they learned by experience how much more effective they were.

A few days' experience with the Gillette and a man finds he can shave with it quicker and more easily than he could with the long-bladed razor after years of practice.

Holding the Gillette lightly, like a pencil, you can shave any part of the face, in any direction, using the true Angle Stroke. Those awkward spots around the chin and the angle of the jaw will give you no trouble whatever—and with the Gillette Safety Razor you will not cut your face.

Moreover, the Gillette can be adjusted, by a slight turn of the screw handle, for a light or close shave, or for a soft or heavy beard. This adjustability, which adds so much to the comfort of shaving, is found in no other razor.

Why worry along in the old way, when the Gillette way is so much easier, quicker and more comfortable?

CRITICAL TIME OF WOMAN'S LIFE From 40 to 50 Years of Age. How It May Be Passed in Safety.

So, Wellington, B.C. - "For a year during the Change of Life I was all run down. I was really too weak to walk and was very despondent and thought I was going to die, but after taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier my health and strength returned. I am very thankful to you and praise your medicine. I have advised several women who suffer as I did to try your remedies. You may publish this if you wish." - Mrs. DAVID E. MORRIS, South Wellington, Vancouver Island, B.C.

No other medicine for woman's ills has received such wide-spread and unequalled endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been the standard remedy for women's ills such as inflammation, ulceration, tumors, irregularities, periodic pain and nervous prostration, and we believe it is unequalled for women during the period of change of life.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

The past week has been a busy one socially for hostesses in the city, afternoon teas and social bridges being the chief forms of entertainment.

A genuine surprise was given Miss Resse Armstrong on Wednesday afternoon at the residence of Mrs. John Bullock, German street.

Mrs. Webster of Shetland is the guest of Mrs. Fred C. McNeill, Leinster street.

Mrs. George F. Smith is visiting her daughter, Mrs. Magee, at Montreal.

Among the guests were Miss Vivian Barnes, Miss Jean White, Miss Minnie Gerow, Miss Nora Knight, Miss Margaret Patton, Miss Pauline Biddison, Miss Edith Fairweather, Miss Florence Rainnie, Mrs. Percy Clarke, Mrs. Ralph Robertson, Mrs. Charles Robertson, Miss Skinnon Kerr, Miss Frances Kerr and Mrs. Ivy Robertson, Miss Carrie Fairweather, Miss Grace Fairweather, Miss Maude Magee.

Mr. and Mrs. Stanley L. Emerson are receiving congratulations on the birth of a son, on Wednesday, Oct. 16th.

The home of His Worship Mayor Fryk and Mrs. Fryk presented a very brilliant scene on Wednesday and Thursday afternoons when their daughter, Mrs. William Davidson Postler, was at home for the first time since her wedding, to receive her many friends. The house was radiant with palms, white and yellow chrysanthemums and carnations. Mrs. Postler, who was beautifully gowned in white duchess satin made with long court train, the front of the exquisite cut skirt, was panner style fastened near the hem with a large pearl bowknot. The bodice was trimmed with princess lace with large pearl bowknot to match that on the skirt.

Mrs. John Neil, Fredericton, spent a few days in the city the guest of her parents, Mr. and Mrs. A. G. Edgercombe, Princess street.

Methodist church, Hampton, was the scene of a fashionable wedding on Wednesday afternoon at three o'clock, the principals being Miss Helen Stuart, daughter of the late Mr. and Mrs. John E. Irvine, and Mr. Kenneth Rupert Schofield, formerly of St. John, but now of Montreal, and who are both of this city.

The church was brightly decorated with autumn leaves, palms and yellow chrysanthemums, the bride who was given away by her brother, Mr. William H. Irvine of Montreal, looked charming in a very handsome gown of white crepe de molen with pearl trimmings, veil with white ostrich feathers, and a bouquet of roses and lilies of the valley.

The bridesmaids, Miss Helen Pickup (Granville Ferry, N. S.), and Miss North Webster, Kentville, N. S., were becomingly gowned in mauve colored charmeuse with large black picture hat trimmed with ostrich feathers.

Mrs. Webster of Shetland is the guest of Mrs. Fred C. McNeill, Leinster street.

Mrs. George F. Smith is visiting her daughter, Mrs. Magee, at Montreal.

Mrs. Charles Robertson, Sydney St., has issued invitations for a tea on Tuesday next.

Mrs. Eber Turnbull was at home on Thursday and Friday afternoons at her residence Chipman Apartments for the first time since her marriage.

One of the most important events of the past week, at least from a social point of view, was the large reception and bridge given on Monday evening by Mrs. F. E. Sayre, at their beautiful home on Queen Square.

St. John's (Stone) church was the scene of an interesting wedding on Wednesday afternoon when Miss Helen Stuart, daughter of the late Mr. and Mrs. John E. Irvine, and Mr. Kenneth Rupert Schofield, formerly of St. John, but now of Montreal, were united in marriage.

The church was brightly decorated with autumn leaves, palms and yellow chrysanthemums, the bride who was given away by her brother, Mr. William H. Irvine of Montreal, looked charming in a very handsome gown of white crepe de molen with pearl trimmings, veil with white ostrich feathers, and a bouquet of roses and lilies of the valley.

TUBERCULAR GERMS flourish in the most unexpected places and quickly attack a body weakened from colds or general debility, but if the lungs are fortified with SCOTT'S EMULSION their progress can be prevented and often overcome. SCOTT'S EMULSION is used in tuberculosis camps because its highly concentrated nourishment builds strength and resistive-power faster than disease destroys. It assimilates without taxing digestion, and contains no alcohol. Absolutely nothing equals SCOTT'S EMULSION to strengthen the lungs and drive out colds and coughs. EXCITEMENT UNRESTED MARKETS

Montreal, Oct. 18.—Not since 1907 has any week brought with it to the stock markets as much excitement as the one just past. The previous downward movement culminated last Saturday which carried the entire market off several points and caused C. P. R. to lose 5 1/2 points from the opening price, making a total decline of 11 points from the previous night's close. At the low figure, C. P. R. sold at 258. The dip, however, was but of temporary duration, and was followed by active buying which carried the price up to 259, which was half a point higher than the opening, and still 5 points below Friday's close.

This break in C. P. R. has occasioned considerable comment in local circles. An explanation of the break has been necessary, and several explanations are given. One is that brokers lost their heads and sold the market wildly and without judgment in the fear that a worse break was imminent. Another is that owing to the fact that Wall street was to remain closed all Saturday and that the London market would be closed about the same time the Montreal market opened, insiders considered it an excellent opportunity to make a drive at C. P. R. and ran in a lot of holders who had been accumulating stock here on none-too-heavy margins. Whatever the true reason may have been, it is a certainty that the stock sold many points lower than there was any necessity for. Subsequently its recovery has been rapid and yesterday's sales were taking place practically at 270 once more.

Today the market is lower on unfavorable reports from Europe. The break in C. P. R. and the panic condition of the market affected practically the whole list of local stocks.

Montreal Power sold down about 6 points from the previous night's close and changed hands at a low as 237 1/2, the last sale of the day taking place at 230. Subsequently the stock has recovered three full points, and is back in the vicinity of 233 to 234.

Canadian Cottons weakened to 29 1/2 and is back to 32. Detroit, ran off to 67 and is back to 72.

Steel Corporation fell to 58 and is back to 62 and 63.

Dominion Textile broke to 68, and this morning it was up to 78, this being ten points higher than it was a week ago.

Laurentide broke to 219 and was selling up to 227 this morning, or four points above the price one week ago. In connection with the Dominion Textile stock it will be of interest to repeat the story which is going round the street to the effect that there is something substantial behind the recent rumor of an amalgamation between that Company and Montreal Cottons. Incidentally it may be said that Montreal Cottons held very steady during the break, selling all the way through 42. Today the stock was stronger, selling at 65. All the Textile stocks are firm.

Cement was down to 25 1/2 the other day and is now back around 28 1/2, although the English market continues to come in at less than 28. There is a feeling here that the rather weaker tone in Cement is due to some extent to the fear that the duty on Cement may not be restored in full.

Quebec Railway is at its low point, being sold at 15. The Bonds are quoted around 77 1/2. There is little confidence in the common stock in Montreal just now, the fear being that this may be affected by the situation in Quebec and Saguenay Railway, against which the contractors recently took action.

Not only is it of great importance of those who exchanged their Rio and Sao Paulo holdings are at present engaged in taking profits. How long it may be until the stock goes to its proper dividend level is what the street would like to know.

Hollinger has declared its dividend and is now established on a definite basis, with better things promised for the future.

LaRoche, however, is on the shady side of the hill, and during the week declined to the lowest point in its history, namely, 22 per share, at which price it was selling practically on its investment basis.

Headaches, Dizzy Spells and Weakness Overcome by Dr. Chase's Nerve Food.

Miss Gallop.

At about the age that most girls are working hardest at school studying for examinations there are important physiological changes taking place which are an additional strain on the nervous system.

Mrs. Gallop has had experience in the cases of her daughter and granddaughter, and for this reason her letter is particularly interesting to parents.

Mrs. J. A. Gallop, 138 Victoria Street, St. John, N.B., whose husband is a carpenter, states:—"We have used Dr. Chase's Nerve Food in our family for nervousness, headaches, dizziness and nervous dyspepsia, and have found them satisfactory in every particular. My daughter, Bessie, was going to school, and became quite run down in health. By the time she had used three boxes of this remedy her nerves were steady, her general health was excellent and she was entirely free from headaches and dizzy spells. We are more than pleased with the results of this treatment."

"Mrs. recently we used the Nerve Food for my granddaughter, who was out of school for nearly a year from nervous trouble, and noticed improvement in her condition at once."

Eighty Million Feet of Gas per Day

Enormous Advantage Given to Manufacturing and Industrial Enterprises Using Montreal's Natural Gas for Power Development

The natural gas and oil wells of New Brunswick near Moncton, will constitute an important feature in the industrial life of that city and not unlikely also of manufacturing centers there about Moncton. The company that controls this great property has already bored from 17 to 20 wells which have a known capacity of 80,000,000 feet of gas daily, and at pressures varying from 200 to 600 pounds. The wells bored are within an area of two to two and a half miles, and they are located in but a tittle of the areas granted exclusively to the company. All have been capped except one, from which supplies are now being drawn.

The Moncton natural gas has been proved to have the highest heat-producing qualities of any gas hitherto discovered in the world. The gas is free from sulphur and is piped without purification direct from the wells to the consumers.

Not only is it of great calorific value, but for the generation of power no other agency exists in point of economy. It will prove of inestimable value in the carrying on of manufacturing enterprises and will reduce fuel costs generally to a small fraction as compared with the use of coal.

The Humphrey Unshrinkable Underwear Limited, which is equipping its mill at Moncton with machinery and which is erecting the other structures necessary, will share in the advantages furnished by this economical source of power for its operations. Manufacturing will begin early in December.

"Grandpa, I know Where we can Get more Maple Buds for a Cent."

"LET'S go get some. This little store on the side street has them."

Grandpa is a willing victim, but is a little skeptical about this drop in the price of Maple Buds. When they reach the little store he picks up one and examines it.

"Why, that's not a Maple Bud!"

No imitation looks just like it, although you might be fooled if you didn't look close. The real Maple Buds are a little larger, too.

But just try them.

Taste one of each.

There's the difference. Notice how smooth and velvety the real Maple Buds are—how rich and creamy.

COWAN'S taste so much better because they're made of the best chocolate, pure milk and pure sugar.

That's why they're good for little chaps like you.

"Taste One Of Each"

"Why that's not a Maple Bud. Cowan's name is not stamped on it. That's an imitation. We'll buy a few though sonnie, because I want to show you the difference. Now come along, and we'll get some real Maple Buds."

This is a big day for sonnie. The demonstration makes a hit with him. Grandpa is quite serious about it, however. They step into the next grocery and make the purchase.

"This is a real Maple Bud. See how it's formed."

ANNUAL MEETING OF BORDEN CLUB HELD LAST NIGHT

W. H. Harrison is Elected President—Club Favors Gondola Point Crossing for the Valley Railway.

At the annual meeting of the R. L. Borden club held last evening in the Ritchie Building officers for the ensuing year were elected, the reports of the year were passed upon and a resolution adopted expressing the club's sentiment in favor of having the Valley Railway cross the Kennebecas at Gondola Point instead of at Perry's Point. W. H. Harrison was elected president of the club for the coming year.

The election of officers resulted in the following selection: Honorary president, Hon. R. L. Borden; pres., W. H. Harrison; 1st vice-pres., John Willet; 2nd vice-pres., Louis Lindsay; 3rd vice-pres., Chas. W. Wannamaker; sec., H. C. Mott; treas., Chas. Robertson.

The executive committee is composed of Murray Jarvis, Wm. W. Donahoe, G. Earle Logan for Beauséjour, in the Parish of Lancaster; F. R. Fairweather, Christopher J. Spence, J. Starr Tait, Walter Emerson, W. W. Allingham, Andrew Stevens, for the Parish of Simonds; J. W. Brown, Wm. Catherwood, Fairville; Cyrus F. Inches and E. Allan Agar.

Following the election of officers the future plans of the club were discussed. A committee was named to consolidate the constitution of the club. The following resolution regarding the Gondola Point bridge was introduced and adopted: "Whereas, there have been reported rumors that the Valley Railway is to be built around by Perry's Point necessitating one long bridge, three short ones and a tunnel, and a lengthening of the line of railway by five and one half miles so that every pound of freight and every passenger for all time will incur this extra cost; and

"Whereas, as by crossing the Kennebecas River at Gondola Point this extra five and one half miles will be saved and one bridge all that will be necessary to be built, and

"Whereas, the Valley Railroad will probably be a carrier of freight to St. John from the West, therefore

"Resolved, that this R. L. Borden Club at its annual meeting most emphatically urges upon the New Brunswick Government the necessity and importance in this port of bringing this road by the most direct route, and furthermore

"Resolved, that this resolution be printed in the public press and presented to the Premier of the province.

The matter of organization for the season as well as the question of securing rooms was dealt with and will be looked after by a committee. The club has had a successful year and has a large membership list.

C. P. R.'S PLANS FOR PROVINCE

Premier Fleming Has Conference with L. O. Armstrong as to Colonization

BIG RESULTS FROM C. P. R. CO-OPERATION

Provincial Government and Railway Company will Work Together to Bring Thousands of Settlers to Province

Yesterday Premier Fleming had a conference with L. O. Armstrong, who has taken charge of the colonization and natural resources department of the C. P. R., east of Port Arthur, and discussed plans of co-operation between the government and the C. P. R. in the work of bringing new settlers to the province and reforesting waste lands along the line of the railway.

Mr. Armstrong expressed himself as much impressed with the plan adopted by the local government of settling people on ready made farms, and declared that it would no doubt prove successful in attracting old country farmers to the province. He said he had procured much valuable information from Mr. Gilchrist, the secretary of the Farm Settlement Board, and said he would return here in about a week or ten days to confer with the government officials again.

Premier Fleming Pleased. When Premier Fleming was seen last evening he said he was much gratified at the interest being shown by the C. P. R. in the problem of placing more people on the land of the province, and had no doubt that the co-operation of the big railway would help to increase the number of new settlers coming here.

A Satisfied Settler. Speaking of the work of the Farm Settlement Board Mr. Fleming said he had received a very nice and very enthusiastic letter from an old country man whom the board had located on a farm, a letter in which the writer expressed his personal appreciation of what the Farm Settlement Act had enabled him to do, and declared that when his friends in England learned of his conditions a farm was procurable here they would all want to come out and settle in the province.

GREAT MILLINERY BARGAIN EVENT

Celebration of Sixteenth Anniversary of Marr Millinery Co. Starts This Morning—Best in Winter Headwear

A millinery bargain event which bids fair to be the greatest in the history of St. John, opens this morning at the store of Marr Millinery Co. who, sixteen years ago started business in this city. To commemorate their 16th anniversary this firm, who have always been noted for giving the best values for the smallest money, have decided to offer local shoppers, for one week only, the newest and best in 1912 winter headwear for ladies, misses and children, at just about cost prices.

This mammoth bargain festival is the more notable, as it comes in the height of the season when milliners generally demand highest figures. Most prominent among the sale offerings is the Marr #2 trimmed hat, which is a special feature of this firm and which they claim can not be duplicated elsewhere for double the money.

During the past fortnight, new hats, in all the most favored effects have been arriving almost daily from leading fashion centres, among the most attractive being some smart creations in plush, velvet, hatters' plush and velour.

The sale, as already stated, opens today and continues till Saturday night the 26th inst. Needless to say, earliest shoppers have best choice.

FAIRVILLE PREPARING TO BOOM

Mail Carriers the Latest for Ambitious Suburb—Board of Trade Discusses Plans for Street Numbering

T. H. Wilson presided at the meeting of the Fairville board of trade held last evening in the Temperance hall, Fairville, when after the minutes of the previous meeting had been read and approved, the first business to be taken up was the securing of a mail carrier for Fairville, Milford and Beauséjour. The matter of numbering the houses was also dealt with.

J. B. M. Baxter, M.P.P., when requested by the chairman to address the board relative to the securing of a mail carrier, stated that he thought there would be no difficulty in getting the regular service, the only objection of the postal department being the lack of numbers on the houses. Mr. Baxter said the best thing to do was to ask for the service for Fairville, Milford and Beauséjour, and have two or three carriers appointed. He then informed the board that B. Lockhart, M.P.P., had on his return from Ottawa a few days ago spoken to him about the proposed service, and thought there would be little difficulty in securing it. J. D. Hasen, minister of marine and fisheries, had also spoken favorably of the project, but thought the houses should be numbered.

Mr. Baxter speaking of the numbering of the houses, Mr. Baxter said the best plan would be to request the householders to number their own numbers and as this would cost each less than half a dollar, the scheme was entirely feasible. In conclusion Mr. Baxter pointed out that Fairville was sure to be the residential district of Greater St. John and steps should be taken to get ready for the boom. This statement was greeted with loud applause.

It was then proposed that the highway board be requested to attend to the matter of numbering of the houses a resolution being passed to this effect. It was also decided that the numbers should be continued from the end of Douglas street to the highway. The meeting was then adjourned to meet next Wednesday evening in the rooms of the highway board.

FIRST HAND NEWS OF WAR SITUATION IN PATRAS, GREECE

Charles Masters Receives Letter From Firm There Saying Business is at Standstill—A Stamp Collector's Request.

Charles Masters, broker of this city, who represents Hancock and Wood, large exporters and shipping merchants of Patras, Greece, yesterday received a letter from his principal under date of October 3, in which they write: "This country is on the verge of war with Turkey, and all men from age of 21 to 40 have been called out to join the colors, and consequently all business is at a standstill, clerks, laborers, lightermen, etc., having all left to join the army."

Mr. Masters informs The Standard that if the war is prolonged it will very seriously affect the dried fruit business, of which there is a large importation into Canada. Greece is the country where nearly all the currants used throughout the world are grown. Fortunately for this season several cargoes of currants are already in transit. A good supply of currants one of the principal ingredients in the Christmas pudding, is assured.

Incidentally by the same mail Mr. Masters received a card from the accountant of the firm at Patras, which indicates that even in the midst of war alarms a keen stamp collector is always on the job. Paul Buneman is the name of this enthusiastic philatelist.

"Might I ask by the present if you are not a stamp collector yourself to please return to me in a neutral separate envelope the stamps on today's letter from Hancock and Wood. Also, I would beg to ask you not only to affix 1, 2 and 5 cent stamps on your letters, but also 7, 8, 10 cent and higher ones in case of heavy postage.

It should be glad if you could occasionally put me in connection with a stamp collector for the purpose of changing stamps.

"Thanking you very much, "Yours truly, "PAUL BUNEMAN." Mr. Masters is quite willing to oblige this Hellenic enthusiast and the stamps will be sent. He suggests that stamp collectors who may read this letter might be glad to accept Mr. Buneman's invitation to correspond.

MASONIC RESPLENDANT IN NEW DRESS

Will be Formally Reopened with Impressive Ceremonies

OCTOBER 30TH IS DATE SELECTED

Lodgeroom Remodelled and Redecorated Under Supervision of Neil Brodie—One of the Best in Canada

With appropriate ceremonies the new rooms of the Masonic Fraternity will be opened on Wednesday, October 30th. The work of remodeling and renovating is in the final stages and when completed the local lodges will have one of the finest Masonic homes in Canada. On the opening of the new quarters a fitting programme is being prepared. For the ceremonies is expected that in addition to prominent officials of the Grand Lodge, who will formally open the rooms to the craft and consecrate the hall, many representatives of the fraternity from outside points will be present. The third degree will be conferred, and addresses delivered.

The new quarters in Masonic Hall are most attractive. The walls and ceiling are beautifully tinted, the lower part of the walls panelled in beautiful mahogany, and the ceiling is of the English duff finish. A canopy supported on Ionic pillars and modelled compasses has been erected in the eastern end of the room. It is a splendid example of calm work and is enriched with some fine carving. At the apex of the canopy is a large illuminated letter "G." Over the seat of the warden is a smaller canopy of similar design. At the rear of the hall over the seat of the senior warden is a gallery sufficiently large for a pipe organ. The gallery is enclosed by iron railing and is supported on two pillars, one of Tuscan and the other of the Ionic style of architectural design.

A handsome old English altar with fittings to match add much to the general attractiveness of the room. New electric fixtures are being installed with all modern attachments, and the old heating apparatus has been replaced by a modern steam heating system. New furnishings have also been included in the work. Old English furniture, in a handsome upholstered leather has been procured and new carpets of beautiful design and colorings will replace the old floor covering.

The work of renovating and furnishing which has been in progress for several weeks is nearing completion and reflects much credit on the architect, F. Neil Brodie, who designed the fittings, and who has personally supervised the work. In addition to making the interior of their rooms beautiful the Masonic Hall Company have given considerable attention to the exterior. The hall ways and approaches have been cleaned, painted and decorated, and when the new quarters are formally opened the local lodges will have one of the most attractive halls in Canada.
