

### IRELAND NEVER HAD SUCH TAME ELECTION DAY

Raids in Dublin Only Incident to Mar Serenity of Occasion.

### DE VALERA SILENT ON CONSTITUTION

O'Connor, However, Says Document "Too Rotten to Talk About."

Dublin, June 16.—The universal verdict tonight was that, with the exception of one instance in Dublin, Ireland never had such a tame election as that which took place today to elect members of parliament. In this city, raiders, headed by Rory O'Connor of the Republican Army, made off with the documents and tally sheets of the National University polling precinct. Elsewhere in the city and county Dublin, the day was devoid of incident. The voting was somewhat more brisk than had been expected. A large number of women cast their ballots at the polls. The general estimate tonight was that about fifty per cent of the voters on the register exercised the franchise. The publication of the constitution evoked no expression of opinion from De Valera, leader of the Republican faction. Mr. De Valera declined to speak on anything on the ground that he had not had time to read the document. Rory O'Connor, however, was bitter on the subject. "The thing is too rotten to talk about," he exclaimed when asked his opinion on the constitution. Mr. De Valera has abandoned his visit to Scotland. No reason has been assigned for his action.

Officials Interfered With. Belfast, June 16.—Many cases of interference with officials are reported from the Silgo and East Mayo election areas. It is stated that documents and voting papers were seized and burned in several districts, and many agents of independent candidates kidnaped.

Replying to a protest sent to him, Arthur Griffith dispatched a message to the independent candidates, saying that the pact, which provided for free elections, had been broken. Further work would be investigated and, if such conduct was persisted in, the elections would be invalidated. In some cases threats had been sent by post to Unionist voters warning them to remain at home today.

### NO ROOM IN CANADA FOR COMMUNISTS

Laws Should Be Such, Says H. C. Hocken, M. P., to Keep Radicals in Check.

Ottawa, June 16.—(By Canadian Press)—"I do not want to see Communists given a chance in this country to advocate the overthrow of Government by force." This declaration was made this morning by H. C. Hocken, Conservative member for West Toronto, in the special committee on the Woodsworth bill, when that to repeal sections of the Criminal Code passed during the Winnipeg strike was being considered.

The discussion began with a motion by E. J. McCormack, Liberal member for Winnipeg North, to approve of the clause in the Woodsworth bill repealing a section of the Criminal Code. "I would not repeat that section," declared Mr. Hocken. "I believe in law and order." An effort was made to reach a compromise and a motion was passed to ask for a report from the Parliamentary counsel, Mr. H. Glebova, on two points: (1) How far the Canadian law on sedition coincides with the English; and (2) What provisions of the Criminal Code cover the points dealt with in the section which Mr. Woodsworth proposed to repeal.

### CLEANING UP VICE AT EDMUNDSTON

House Raided and Female Occupants Ordered to Leave the Town.

Edmundston, June 16.—There have been several convictions this week for having liquor in possession, in Police Magistrate J. B. McDonald's court two or three for being intoxicated, one for resisting arrest, and assaulting the Chief of Police, and two or three for speeding their automobiles on the streets of the town. Sunday night a house was raided in the very centre of the town, and the occupants arrested, three women and three men. The women were given a few days to get out of town. The town authorities will not tolerate vice.

### TO STAY AWAY FROM HAGUE

Washington, June 16.—The United States Government, it was stated today, has and will have no official observer at the Peace meeting on Russian affairs.

### INDEPENDENT SOCIALIST PAPER, FORECASTS MONARCHIST COUP

Berlin, June 16.—The Independent Socialist newspaper Die Freiheit features a sensational communication, from a well-informed source, "announcing that a Pan-German Putsch is impending." The writer states that the various military parades, such as the Von Hindenburg celebrations, which have been going on throughout Germany recently, were not merely theatrical displays but serious preparations for a monarchist coup d'etat which, he says, is to be preceded by a sort of St. Bartholomew's night in which all persons, whose names are entered on a special black list, will be given short shrift.

### SMALLER COUNTRIES AT HAGUE DETERMINED TO BE HEARD

Forced Conference to Form Sub Committees of Thirteen Members.

### 29 COUNTRIES NOW REPRESENTED

All Have Signified Their Intention to Join Main Russian Commission.

The Hague, June 16.—The pressure of the smaller European countries, especially those adjacent to and having vital political and commercial interests in Russia, today forced the Hague conference to form sub-committees of thirteen instead of eleven members, as had been planned by the Allied leaders. This is interpreted by all the delegates as indicating not only a determination not to shut out of the important discussions but as manifesting eagerness about the future of the disorganized Russian state. Foreign Minister Van Karnebeek of Holland, was entrained by the conference with the task of naming the members of the three sub-committees and the personnel will be announced Monday afternoon, to which time this afternoon's session was adjourned. Virtually all the twenty-nine countries now represented at the Hague have signified their intention to join the main Russian commission. The French delegation, headed by M. Poincaré, the British Prime Minister, the feature of the afternoon session today was an address by the speaker at the Hague, Lord Curzon, who gave a ringing endorsement of the British naval operation in closing Zebrugga against German submarines brought high fame and honor. Every delegate gave a ringing endorsement to the young officer whose heroism cost him an arm. Young emphasized the urgency of keeping politics absolutely outside the hall of meetings and getting down to solid business.

### DRANK SHELLAC AND SAW THEIR FINISH

Convicts at Portsmouth Penitentiary Died As Result of Imbibing Mixture.

Kingsport, Ont., June 16.—The jury empaneled this afternoon to inquire into the death of convict Kearney, of the Portsmouth penitentiary, who died this morning, brought in a verdict that deceased came to his death through drinking shellac which contained wood alcohol. Convict Jacob Hitt, who also drank shellac, died this afternoon at 3.20. Kearney was working in the shellac and paint shop and apparently had drunk some of the shellac used extensively in the institution, in painting and mixing it with water. Evidently this was done Wednesday afternoon, for the men complained since then of being sick. Hitt this morning, admitting what he and Kearney had drunk.

### WARD ENTERED NOT GUILTY PLEA

Wealthy Banker's Son Charged With Murder, Denied Speedy Trial.

White Plains, N. Y., June 16.—Walter S. Ward pleaded not guilty today, when he was arraigned before Supreme Court Justice Morschauer, on an indictment charging first degree murder in connection with the shooting of Clarence Peters, an ex-actor on May 15. When counsel for the wealthy banker's son requested that he be placed on trial immediately, he was informed by the court that his case would have to take the same course as that of any other prisoner. When Ward's counsel contended that there was no evidence against his client, Justice Morschauer banged his desk and said: "Well, he shot him, didn't he?"

### DAMAGE CLAIMS FROM BELFAST FIRES

Belfast, June 16.—Claims for damages, growing out of fires and melonous injuries in Belfast since May 31, including only cases which individually amount to more than £1,000, total £206,157. These claims do not come under the damage caused by the recent fires, which easily totals £100,000. The damage done by fires between May 20 and 30, amounts to £100,000.

### GOOD FARMERS FOR WINNIPEG

Winnipeg, June 16.—Negotiations are now in progress for the purchase of a large tract of land in the Winnipeg district for the settlement of a colony of former members of the Royal Irish Constabulary and their families. The head of each family will have at least \$5,000 in cash as an establishment fund, obtained, in many instances, by commencing their pensions from the British Government. A number of the former constables have also taken up land in Alberta.

### REITERATES CHARGE AGAINST PENSION BOARD

Chairman Says Claims of Vets of Crookedness Are Unfounded on Fact.

### MACNEIL DECLARES CHARGES JUSTIFIED

As Interpretation of Act Does Not Justify Intention of Act When Drafted.

Ottawa, June 16.—Retortations on the part of G. Thompson, secretary-treasurer of the G. W. V. A., that the Board of Pension Commissioners had secretly introduced regulations detrimental to pensioners and denials of any charge of policy by Colonel J. T. C. Thompson, Chairman of the Pension Board, featured the investigation of the G. W. V. A. charges by the special parliamentary committee on soldiers' civil re-establishment tonight. Mr. MacNeil declared that his charges were justified on the ground that interpretations of the Pension Act did not fulfill the intentions stated when the Act was drafted. On the other hand, Col. Thompson stated that doubtful cases were decided in favor of the soldier whenever possible. Dr. W. C. Arnold, chief medical advisor to the Board, said that there were no hardships under the existing legislation, and that Mr. MacNeil's contention that from twenty to thirty per cent of the pensioners were affected by interpretations was "ridiculous and absurd."

### LONDON PREPARES TO RECEIVE TAFT

Chief Justice of United States in England Tomorrow, Supreme Court to Arrive

Special to The Standard. London, June 16.—Mr. and Mrs. W. Taft will leave today three weeks before their departure for London. Sir John Simon has been charged with the arrangements in connection with the visit of the chief justice to the metropolis and other countries and his meetings with judges and distinguished members of the bench and bar. The party, which is expected to arrive Sunday, will be met by Major Oscar M. Bolshak, military attaché of the American embassy, who will be Mr. Taft's aide throughout his stay. The Earl of Balfour will be the principal speaker at a dinner of the Pilgrims' Society on June 19, which will be the first welcome function. On the 21st Mr. and Mrs. Taft and ten other Americans will be presented at Buckingham Palace at the second court of the season. On this occasion the chief justice will wear his judicial robes. During the visit of Mr. Taft there will be a luncheon in his honor given by the English-speaking Union, at which Ambassador Harvey will preside. Mr. Taft will visit Oxford where the degree of Doctor of Civil Law will be awarded him; he will attend a fancy dress ball in London in aid of the King Edward's Hospital fund; will visit Sulgrave Manor, the Washington home stead, and Stratford-on-Avon and will attend dinner given by the Middle Temple by Mr. Taft and a visit to Aberdeen are other features of the tentative programme.

### ELIEN OF AVARE'S CREW MISSING

Brazilian Liner Turned Over When Being Hauled from Drydock.

Hamburg, June 16.—Eleven members of the crew of the Brazilian liner Avare were missing late tonight, following the turning over of the vessel while it was being hauled out of dry dock at the Vulkan shipyards here this morning. One hundred and twelve other members of the crew and shipyard workers were rescued from the hold of the vessel. Lieutenant of the survivors were unconscious when taken out, but were resuscitated through the use of oxygen. A steward was killed in the accident. The capsizing of the steamer is attributed to her having been imperfectly balanced when released from the dry dock. The difficulty in rescuing those entrapped on the liner was due to the great amount of wreckage about the hull which prevented approach.

### DEMURE LITTLE MISS PLAYED THE GAME

Made Good Clean Up of Money and Valuables in Sydney.

Sydney, N. S., June 16.—A demure little miss, apparently about 10 years old, an honest country lass, appeared at one of the city banks today and bashfully asked a lady clerk if she might wash her face and hands in the rest room. Half an hour later she departed, sweetly thanking the staff for their courtesy. Later still the staff donned hats and coats for lunch, only to find pockets cleaned out of cash and valuables. The police were telephoned. "Hi-Jin," said the voice on the other end of the wire, "you're late, she's visited three other places since then, but we'll investigate your case—in turn."

### FOUR HUNDRED WROTE EXAMINATION PAPERS

Special to The Standard. Fredericton, June 16.—The final exit of Normal students from Fredericton began tonight, the class I, superior and grammar school examination, being finished this afternoon. Those taking grammar school examinations were chiefly U. N. B. graduates and undergraduates. In all about four hundred wrote the papers here.

### COUNCIL FAILED TO MEET SPENCER

Fredericton, June 16.—An attempt was made this afternoon to arrange a conference between F. G. Spencer and members of the city council on the matter of the encroachment on Carlton street and a city lease of the new theatre being built for Mr. Spencer's Company by Forbes and Brown. Because of the absence of some of the Aldermen from the city the attempt was not successful.

### FOUR HUNDRED SYMPATHIZERS OF STRIKERS FORCED CLOSING OF MINE

Terre Haute, Ind., June 16.—Disorders in the coal field near here broke out afresh today when a crowd estimated at 400 persons left Terre Haute in automobiles with the announced intention of closing mines which have been operating with non-union employees. Reports received here at noon stated the men had succeeded in closing two mines and were proceeding toward mines in the direction of Clinton and Masonville.

### FURTHER EVIDENCE TO SHOW INSANITY OF EX-PRIEST

Adelard Delorme, Charged With Murder of Half Brother, Peculiar, Says Neighbor.

### GLOATS OVER HIS NOTORIETY

Priest Chaplain Says Ex-Priest Has Never Sorrowed Over the Case.

Montreal, June 16.—That Adelard Delorme, the ex-priest who is now standing trial on the charge of having murdered his half-brother, Raoul, the twenty-four-year-old Ottawa College student, whose dead body was found lying in the snow in a northern suburb of this city on Jan. 4 last, had "rented his houses too well," and as a consequence the street in which they were located "did not have a very good name," was the evidence of Dr. Handfield, in the Court of King's Bench here this afternoon, who was called just previous to the adjournment of the case until Monday next. Dr. Handfield stated that he was a neighbor of Delorme's, and that one conversation he had had with him had led him to doubt Delorme's sanity. The evidence in the Delorme trial turned upon the question of the sanity of the ex-priest. To this end Provincial Autopist Dr. Derome was closely questioned by Mr. Justice Monet and Crown Prosecutor Walsh. Dr. Derome suggested that opinion on Delorme's mental condition should be based on "the ensemble" of his words and actions during the period of his incarceration in Bordeaux jail. Father Eugene Lachapelle, chaplain of Bordeaux jail, was another witness. Delorme had told him on one occasion that his trial would be fine and famous one, and had apparently been greatly impressed with the fact that his name had become world famous. The Earl of Balfour will be the principal speaker at a dinner of the Pilgrims' Society on June 19, which will be the first welcome function. On the 21st Mr. and Mrs. Taft and ten other Americans will be presented at Buckingham Palace at the second court of the season. On this occasion the chief justice will wear his judicial robes. During the visit of Mr. Taft there will be a luncheon in his honor given by the English-speaking Union, at which Ambassador Harvey will preside. Mr. Taft will visit Oxford where the degree of Doctor of Civil Law will be awarded him; he will attend a fancy dress ball in London in aid of the King Edward's Hospital fund; will visit Sulgrave Manor, the Washington home stead, and Stratford-on-Avon and will attend dinner given by the Middle Temple by Mr. Taft and a visit to Aberdeen are other features of the tentative programme.

### KIDNAP AGENT OF INDEPENDENT CANDIDATE

Kidnapped, Removed to Unknown Destination—Happened in Orange Districts.

Silgo, Ireland, June 16.—Agents of the Independent candidate in the Orange district here were kidnaped this morning and removed to an unknown destination. The polling in Silgo and East Mayo districts was brisk, the feature being the large number of women voters.

### FINGER PRINT THE BABY IS LATEST

Innovation at New York Maternity Hospital Puts It Over Scenario Writers.

Special to The Standard. New York, June 16.—Scenario writers who wish to weave the conventional plot of a baby who became a prince instead of a pauper because of a mix-up in a maternity ward soon will be unable to pick a New York hospital for a setting. For today "Little Kelly"—his first name has not yet been selected—upset playwrights' calculations by being the first American child to be fingerprinted to preserve his identity. The ceremony was conducted by Deputy Police Commissioner Joseph A. Faurot and Health Commissioner Copeland, who believe the system should be introduced throughout the country. A copy of the child's finger prints will be attached to his birth record and another will be forwarded to the bureau of vital statistics. For a time the prints of the mother, in this case Mrs. Harriet Kelly, will be taken at the same time in an attempt to trace similarities between the prints of parents and offspring.

### FIRE LOSSES IN CANADA FOR WEEK

Total \$294,350, As Compared With \$530,400 for Previous Year.

Toronto, June 16.—Fire losses in Canada during the week ended June 14, are estimated by the Monthly Times at \$294,350, compared with \$530,400 the previous week. Authorized capacity, at \$1,434,500 is represented by companies whose incorporations were reported to the Monthly Times during the week ended June 14, compared with \$1,226,000 the previous week. A comparative summary by provinces for the past week are as follows: Dominion \$2,945,000; Alberta \$500,000; British Columbia \$65,000; Ontario \$1,475,500; Quebec \$249,000; Saskatchewan none.

### LEFTHAND AND SIX CHILDREN

Leader of Opposition Forty-Eight Years Old Yesterday.

Ottawa, June 16.—Rt. Hon. Arthur Meighen, leader of the opposition, is 48 years old today. When the House resumed this evening a bouquet of forty-eight American beauty roses was placed on his desk in celebration of the day. The roses were the gift of Conservative members of the House.

### WOODSTOCK DEANERY AT EDMUNDSTON

Edmundston, June 16.—The quarterly meeting of the Woodstock Deanery was held here this week on Tuesday, Wednesday and Thursday. The visiting clergy numbered four. Service was held on Tuesday and Wednesday evenings, and the Holy Communion was celebrated on Wednesday and Thursday mornings. Various papers came before the Chapter, and the Parochial affairs of the Deanery were discussed.

### IMMIGRATION DISCUSSED IN PARLIAMENT

Progressive Comes to Defense of "Man With the Sheepskin Coat."

### IMMIGRATION VIEWS WIDELY DIVERGENT

Expression of Opinion Led to An Attack on the Labor Unions.

Ottawa, June 16.—(By Canadian Press)—"The man with the sheepskin coat," observed J. L. Beaulieu, Progressive member for Provencher in the House today, when speaking on immigration, "is better than the man with kid gloves and a white collar." Mr. Beaulieu came warmly to the defense of the Ukrainians. Canada had a good deal of responsibility, he asserted, in the "debauching" of these settlers. Views expressed on immigration showed some wide divergencies of opinion, and also led to an attack on trade unions by Donald Sutherland, Conservative member for South Okotoks. Mr. Sutherland declared "that the unions were ruining the country. They dictated to the Government and everybody else; and this was one of the reasons for the railway deficit—a remark which induced William Irvine, Labor member for East Calgary, to make the ironical retort that one had to have courage when talking 'beside the facts.'"

### GOING AFTER BRITISH IMMIGRANTS

During the discussion, Hon. Charles Stewart, Minister of Immigration, announced the Government's intention to make special efforts this year to secure suitable immigrants from the British Isles. At the same time, an inspection system would be built up on the other side, which, it was hoped, would permit officials to ascertain the suitability of immigrants before embarking for Canada. On the item of \$1,170,000 for immigration contingencies, Hon. Hugh Guthrie quoted an article written by Tom Moore, president of the Canadian Trades and Labor Congress, in which objection was made to there being too much latitude at booking offices in many places. It was claimed, were entering Canada as farmers, who were not intending to take up agricultural work.

### YOUNGER MINISTERS CARRIED THE DAY

At N. S. Methodist Conference Turn Out "Old Boys" in Representation to General Conference.

Sydney, N. S., June 16.—At the election here today by the Nova Scotia Methodist Conference of twenty-four delegates to represent them at the General Conference of the Methodist Church of Canada, to be held in Toronto, some of the younger ministers openly declared that the representation at the larger meeting has in the past been too much a monopoly of the "old boys." The result of the voting for the twelve ministerial members of the delegates is said to have been a decided victory for the younger element.

### BEAUTY ROSES FOR MEIGHEN

Leader of Opposition Forty-Eight Years Old Yesterday.

Ottawa, June 16.—Rt. Hon. Arthur Meighen, leader of the opposition, is 48 years old today. When the House resumed this evening a bouquet of forty-eight American beauty roses was placed on his desk in celebration of the day. The roses were the gift of Conservative members of the House.

### WARNING NOTE TO AMERICAN LABOR

Cincinnati, June 16.—Any one who believes the political and economic system of Central Russia is better than that of the United States is near the realm of insanity," said Frank R. Voris, representing the Near East Relief, in addressing the American Federation of Labor Convention here today. It is, however, up to Russia to determine the kind of government she shall have, declared Mr. Voris. He added that the United States should not try to force adoption of a form of government in Russia, but asserted that "America cannot live for America alone."

A calculation that in  
a dozen patents are pending was per-  
fected by Major General George O.  
Squire, chief signal officer of the army.  
A similar invention was announced  
here by B. F. Messner several days  
ago. Messner, who was a govern-  
ment expert during the war, said his  
work had been separate from the  
government investigation. The draught-  
ing coil was hooked up with Major  
General Squire's device and found to  
work perfectly. Dr. Cohen said.  
Signals were picked up with perfect  
clarity when static conditions were  
good or bad. The electric power line  
method of transmission holds tremen-  
dous commercial possibilities accord-  
ing to Dr. Cohen.  
Electric Power Line Method  
"Eliminating static noise has been  
one of the most serious problems in  
radio development," he said, "due to  
the electrical charges in the atmo-  
sphere, especially in summer, when  
even the largest stations must shut  
down at times. This device, perfected  
by Major Mauborgne and myself sep-  
arates the static noises from the sig-  
nal, grounds the noise and leaves the  
signal clear and distinct."  
"This is a new and radical de-  
parture in receiving radio signals. The  
method consists in receiving the radio  
signal, passing it through a very long  
coil which drains off the interfering  
disturbances and leaves the full  
strength signal without noise."  
Major Mauborgne explained that  
radio signals received by the electric  
power line method also could be cleav-  
ed of noise. Such signals may be  
received from a broadcasting station  
sending by the usual aerial, from  
which the waves hit exposed electric  
wires, over the city and thence travel

### Taking Noises Out Of Radio

Can Be Eliminated Now—  
Making Use of Ordinary  
Power Wires.

Chicago, June 16.—Elimination of the crackling and buzzing accompanying radio signals, which have proved one of the greatest obstacles in the development of the science has been accomplished. The invention which separates all static noises from the radio signal, was perfected by Major J. O. Mauborgne, signal officer of the Sixth corps area, and Dr. Louis Cohen, of George Washington University, consulting engineer of the war department, after more than two years' experimentation.

The separation of signals from static noises caused by the electrical charges in the atmosphere is accomplished by a drain coil of wire, the length of which varies with the distance from which signals are received. The strength of the signal is not affected by the draining process, according to Dr. Cohen, and the signals may even be amplified.

Plugged Into Light Socket  
Another recent invention is a resonance wave coil by which a radio receiving set may be plugged into an ordinary electric light socket and radio signals received as well as with an aerial. This invention, on which a dozen patents are pending was perfected by Major General George O. Squire, chief signal officer of the army.

### How To Hook-Up A Crystal Set

There is knack in handling a coil of wire that I learned after spending several weeks of my life straightening out kinks. If the wire dealer is a desirable citizen he puts a single strand of either stiff wire around coil like a collar. By sliding this around and around your coil you can release one turn of wire at a time. If you take the collar off, sooner or later you lay coil down or drop it accidentally and when you try to straighten it out you find it hopelessly tangled.

There are many kinds of aerials: Invented "L's," "Z's," "V's," "umbrella," "wires," "mesh," "coils," and "cages." I prefer a single wire party, because I am naturally lazy, and partly because I am satisfied when I can hear what I want to hear. The more elaborate aerials require more time and money.

Whatever kind of a receiver you are using, when the wires are all connected and the knobs and things adjusted according to the directions, you begin to hear things that you phonograph never thought of. It is a surprise party with unknown friends dropping in from all parts of the world.

### IMPROVING CHURCH

The interior of the Waterloo street Baptist church is undergoing a complete renovation this week under the direction of Deacon Amos Gibbs, assisted by an efficient committee. It is hoped to have the work completed before next Sunday.

### EXHIBITION COMMITTEES.

Meetings of the industrial exhibits and advertising committees of the Exhibition Association were held yesterday afternoon at the office of the secretary and manager, H. A. Porter. The former checked up the space already taken and discussed ways and means of disposing of that yet unoccupied. The latter, owing to the absence of several members, did not transact any business.

over the wires to the receiving set, or could be received from a station, also using the power line instead of an aerial. The only additional equipment needed for power line receiving is a set of condensers, which cost less than \$1, Major Mauborgne said.

### Tapped Tuning Coils Operate With Great Ease

Many people prefer tapped tuning coils to slide tuning coils for their greater ease of operation and their greater mechanical stability. A tuning coil for short wave reception is here described. The tuning with this coil will not be very sharp, but it is satisfactory for ordinary purposes. A variable condenser connected in series with the coil will sharpen the tuning to a very fine degree.

Secure a panel, preferably of bakelite, 4 by 6 inches and 1/4 inch thick. Purchase nine taps from your supply store and also a rotary switch with a radius of 1 1/2 inches. Two binding posts complete the list of parts necessary for the panel assembly.

Take the brilliant gloss off the panel by rubbing with a fine grade of steel wool. After this is done, rub the panel with a pleasing dilute solution of turpentine and alcohol. Ordinary machine oil will do for this purpose.

Now make the layout for drilling the holes for the switch taps and binding posts. First locate the center of the panel by lightly drawing its diagonals with a pencil. When this point is found, drop 1/2 inch and use this point for your compass center. Now set your compass to a radius equal to the radius of your rotary switch, which in this case is 1 1/2 inches. Draw a line tangential to the panel through the point you have made 1/2 inch below center, and with your compass describe a semi-circle across this line and using this line as terminals. Divide the line into five equal parts with nine equidistant points. With a 1/8 inch drill, bore ten holes on these points.

Secure a tube of cardboard, fibre, or bakelite 2 1/2 inches in diameter and 4 inches long. Wind evenly on this tube some number 22 single cotton covered wire to within 3/8 inch of either end. In winding, pressure should be made for a few nine turns. This is done by scraping the insulation from a section of wire running a distance of 1/2 inch and running the means of disposing of that yet unoccupied. The latter, owing to the absence of several members, did not transact any business.

Bend two little brackets out of brass or copper strips. In each drill one hole for the panel screw and one for a screw that will pass through the tube. Locate and drill two holes on the panel for these brackets.

All that now remains to be done is to connect the parts. The tap section over a 1 inch length of wire to the left hand binding post. The taps then follow in consecutive order. The remaining binding post is connected to the switch lever. Turning the lever to the right increases the wave length and vice versa.

## Netherwood School Closing Exercises

### Class of Nine Girls Graduated—Prizes Awarded Old Girls' Association Elects Officers.

The beautiful weather of an ideal June day, favored the closing exercises of the Netherwood school for girls, which were held at Rotheray yesterday afternoon.

The class of nine girls who graduated were: Alice Tilley, Ellen Henderson, Ruth Robinson, Ethel Powell, Isabel Swan, Phyllis Richardson, Helen Armstrong, Byrd Corbet, Mary Vanbuskirk.

The exercises which were conducted in the school gymnasium were opened by the Rev. Canon Daniels with a short prayer. This was followed by a musical programme. Three songs were sung by the pupils of the school, and these were followed by three songs by the school Glee Club, who had been trained by Douglas Baker of Rotheray. Miss Elizabeth Thompson of Rotheray, and Miss Margaret Day of St. John were then heard in piano solos, and followed by Miss Marian Lane, with a violin solo.

Following the musical programme Bishop Richardson addressed the graduates and gave a few well chosen words and officiated at the presentation of certificates and the awarding of prizes. Following the awarding of certificates and prizes, the presentation of the programme carried out was as follows:

The Daily Dozen, Walter Camp— "Take a Tip From the Tiger and Stay Young."  
Play Exercises, Pitching, batting, catching, baseball, golf, swimming, tennis, and rowing, shot put, —Senior and Junior Gym. Classes, Nursery Rhymes, Swedish Folk Dance—Kindergarten.

Dance, Tully Time—Sen. and Jun. Gym. Classes.  
Scarf Dance—Day Girls and Boarders.  
Country Dance, The Old Mole—Day Girls.  
Marching—Day Girls.  
Dance, Post's Love—Margaret Tilley, Margaret Page, Ethel Powell, (Post), Constance Watson, Daphne Paterson.

DIGBY

Digby, June 16.—The baseball game between the Weymouth seniors and the Digby Juniors played on Wednesday afternoon proved to be the most interesting game of the season so far.

Although it resulted in a defeat for the home team by a score of 16-17. The game had to run ten innings, the score being tied at the ninth inning.

The feature of the game was a triple play and two double plays by the Juniors. The star on the Weymouth team was Mr. Potter, who makes a sensational catch in the ninth inning, which the game for his team. As both these teams have now a game each to their credit, the play-off will take place in the near future on some neutral ground.

An interesting but very one-sided game was played between the sub-juniors of Digby and the sub-juniors of Annapolis Royal on the Digby grounds last Saturday and incidentally the new athletic field. The Digby boys won by 23-3. The sub-junior team of Digby is one which shows excellent promise. There are some corking good players on it and they will be heard from in the junior and senior leagues in the Valley before many months.

Balfour Specht's mill at Barton finished its season's operations on Tuesday. It has had a cut of about 50,000.

The members of the Women's Institute of Smith's Cove intend giving a play entitled, "A Meeting of the Ladies' Aid Society at Mohawk Crossroads" in the hall next Friday evening.

Mrs. Bessie Wilson leaves for Halifax tomorrow to spend a short time.

The Supreme Court has been in session here this week. Mr. Justice Chisholm presiding. There were no criminal cases and only two civil cases, both actions for support and maintenance. The first was Amstro vs Doucette. This was partly tried and then settled.

Frank Jones, K. C. for plaintiff; R. W. Landry, K. C. for defendant. The other case was LeBlanc, vs. Jones; Jones for plaintiff, Landry for defendant.

The Pines Hotel opened for the season yesterday. All the summer hotels, except the Manhattan, are now open.

Mrs. E. J. Lay, Mrs. Ralph Brown and Ted Brown of Ottawa, have arrived for the summer and are guests at Lour Lodge, occupying one of the cottages in connection with that hotel.

Dr. and Mrs. R. W. Stewart, Dr. W. Forchheimer, Miss Forchheimer and Miss Laura Rhodes, of Cincinnati, have arrived to spend the summer and are registered at Lour Lodge for the summer.

Dr. and Mrs. Read and T. A. Thompson, of Trinidad, are among those registered at Lour Lodge for the summer.

THE OLD COURT HOUSE.

Most people, we imagine, will be disposed to agree with His Worship the Mayor, that the present is no time to spend a million to a million and a half on the erection of new Municipal buildings, in view of the fact that the old Court House can probably be remodelled and rendered fit for occupation again for about fifty thousand dollars.

A WHEAT BOARD.

Canada is to have another Wheat Board which shall control the selling price of wheat in the bill that the Government proposes to bring in as a result of the adoption by the House of the report of the Agricultural Committee advocating the creation of such a Board.

the facts actually are as he states, it certainly is not much encouragement for residents to take steps to improve their properties, by keeping their gardens and lawns well attended to.

The disturbances which took place during the polling in Southern Ireland yesterday do not furnish friends of Ireland with ground for very much hope that a better day is dawning for that country.

AMERICA IS NOW ENGLAND'S ONLY ANCHOR

Dean Inge Says Britain Needs United States More Than States Does United Kingdom.

London, June 15.—Dean Inge, of Saint Paul's Cathedral, whose writings usually bring forth severe criticism or plaudits—there can be no neutral ground—this week discussed the relationship between the United States and England. There are many things about the United States and America which the "Gloomy Dean" dislikes.

"But after all," he said, "we need their friendship much more than they need ours," and he insisted that good relations between the English-speaking peoples were necessary for peace.

"Our relations with the great republic form a strong argument for keeping the empire under one flag. The two countries have never understood each other. Misunderstandings have been often inconvenient and sometimes dangerous. It is doubtful whether we will improve matters by the meaty-mouthed flattery we are accustomed to use in public, though not in private when we speak of America."

Dean Inge then maintained that even the debate in Congress in which Great Britain is mentioned in connection with the British press for patriotic reasons. "Now that friendship with America is the sheet anchor of our policy," he says, "there is no need to be endeavoring to put an end to these misunderstandings. The fault is in my opinion, has been almost all on the side of America, but it is right to remember that we need their friendship much more than they need ours and we have to thank them for that marvelous, unprotected frontier of nearly four thousand miles between Canada and the United States. How different it would have been if our neighbor had been Germany, Russia or France."

Dean Inge finds American character very difficult to understand but concludes that we are much simpler than the English and he adds, "They care more about what we think of them than we care about what they think of us, and they are thin-skinned about their country."

"There is a curious mixture of idealism and chicanery in the American character. They are open-handed when successful and take losses philosophically. Money-making for them is a great game—not, I'm afraid, always a very honorable one."

"There is a curious mixture of idealism and chicanery in the American character. They are open-handed when successful and take losses philosophically. Money-making for them is a great game—not, I'm afraid, always a very honorable one."

"By the way, when I saw the Potomac, which is a very broad estuary, I recalled Washington boasting when he was a youth he threw a dollar across it. The American explanation, I believe, is that money went further in those days and that since Washington afterwards there has been a sovereign—he may well have thrown a dollar across the Potomac. I prefer to believe that even if the voracious George didn't always live up to his reputation, such tokens of goodwill (statues) must not be thrown away. The two nations have the same language and traditions, and to a large extent the same ideals. In spite of disagreements we must never cease to work for what would be the greatest of all safeguards for peace and liberty—a firm alliance and strong friendship between all English-speaking nations among whom the United States must be the largest and the most powerful."

National Party Organized In India Legislature

Plans to Give Embodiment to Ideas of the Indian Moderates.

Delhi, India, June 15.—(By Mail)—A new political party, calling itself "The National Party," has been organized in the Indian Legislature to give embodiment to the ideas of the Indian Moderates. Under the leadership of Sir P. S. Sivaswami Aiyar, it is seeking to extend its organization into the provinces and districts.

The new party stands for "The attainment by constitutional methods of full responsible government in India as an integral part of the British Empire." It is opposed on the one hand to those British interests which are seeking to prevent the attainment of self-government by India, and on the other hand to the aims of extremist Indians who are seeking to make India an independent republic and who do not limit themselves to constitutional methods.

The immediate objective of the party is full autonomy in the provinces and the transfer to the Legislature in the central government of the control of all subjects other than defense, political and foreign affairs, and ecclesiastical matters, subject to adequate safeguards for the protection of the vested rights of persons already in the service of the Crown, and the fulfillment of the country's obligations.

Continental to Take Up Farms in Western Canada

Fine Appearing Bunch Intelligent and With Means, Arrived on Melita.

Quebec, June 15.—The Canadian Pacific steamer Melita, in command of Captain G. Hamilton, arrived at Quebec from Antwerp and Southampton this morning, at 10:45 o'clock, bringing seven hundred and seven passengers, including 230 cabin and 424 third class. The latter were landed for immigration inspection and included four hundred continental foreigners, all farmers, young married couples and farm laborers, intelligent in appearance and apparently people of means. These farmers, for the most part, are booked for the Western provinces, with a small quota for Toronto, and remainder are British and young farm laborers booked for Toronto who have come out under the auspices of the Ontario Government.

In conversation with these Continentals they expressed their delight to be in Canada, saying the conditions in Poland and Russia, whence a good many of them came from, were in such a state that the better class of the farmers of these countries were only awaiting a chance to sell their lands and effects to come to Canada, in as much as they looked for no settlement in living conditions as long as the Russian question remained unsettled.

The third class passengers, who came out on the Empress of Britain, were forwarded by C.P.R. special train at 12:30 o'clock this afternoon. The Melita's third class passengers, after immigration inspection, followed in another special furnished by the C.P.R. at 4 p.m.

London Interested In Salvaging Of S. S. Lusitania

Skeptical, However, of Success of Americans' Plan to Raise the Ship.

London, June 15.—(By Mail)—The statement cabled from New York that an American salvage company was going to try to raise the Lusitania has aroused keen interest here. But most of those who speak with authority about lifting ships from the bottom of the sea are sceptical as to the Lusitania ever being hoisted.

Sir Frederick Young is strongly of the opinion that it will never be done. He had charge of the Admiralty Salvage section during the war, and brought into port nearly 600 ships that had become war casualties. Many of them had been torpedoed and a considerable number had been sunk. No one knows more about raising sunken ships.

To an interviewer Sir Frederick has said it is very improbable, though not absolutely impossible, that the Lusitania could be raised. The cost would be out of all proportion to her value. After lying seven years at the bottom of the sea it would cost as much to raise her as to build a new vessel.

To build a floating chamber nine hundred feet long and one hundred feet wide to be raised by diving wreck by means of steel cables, would involve, Sir Frederick pointed out, an expenditure so considerable as to make the undertaking by that means quite impossible on any commercial basis. N. R. conductor of this city. The bride, who was unattended, was becomingly attired in a suit of navy blue and carried American beauty roses. Miss Jennie Trites rendered Stohengrin's wedding march, after the ceremony, luncheon was served and the happy couple left on the Maritime Express for Detroit, visiting Toronto and Niagara Falls en route. Upon their return Mr. and Mrs. Trites will take up their residence in Moncton.

WEDDINGS

Hillsboro, N. B., June 14.—A wedding of much interest took place in the First Baptist church, Hillsboro, at eleven o'clock Wednesday morning, when Miss Melba Bianche Outhouse, of St. John, N. B., the daughter of Mr. and Mrs. F. J. Outhouse, and Mr. William Neish, of Montreal, were united in marriage by Rev. A. S. Bishop. The bride entered the church in a becoming suit of navy blue, with corresponding hat, and carried a beautiful bouquet of roses. She was given in marriage by her mother. The church was very prettily decorated for the occasion. As they left the church the organist played Stohengrin's wedding march. They repaired to the home of the bride's sister, Mrs. W. H. Plummer, of Hillsboro, where a dainty luncheon was served, after which the happy couple motored to Moncton, then to Montreal and Toronto. They will reside at their summer home at Stratmore, Quebec, and later at Montreal. The wedding guests included Miss Ethel Shaw, Miss Sadie Patterson and Mr. F. J. Coggin, of St. John.

Anti-Christian Movement Stirs World Of Far East

Move Looked Upon With Grave Misgivings, and the Outcome Feared.

Amoy, China, June 16.—(By Mail)—The religious world of the Far East is stirred by an anti-Christian movement which started early in May among the students of Peking University, and is now rapidly spreading among the students of private and government schools throughout the country. These young people term Christianity a superstition and harmful to the people, taking away reverence for ancestors and freedom of thought and action.

The new movement has begun an energetic propaganda, which in turn has brought Christian leaders to the front, many of whom look upon the movement with grave misgivings, not knowing what will be the outcome. Others think it is simply the result of a desire to organize something, and that the best means of defeating it is to ignore it.

Conditions provoking the organization of such a movement are said by Christian leaders to be the rapid progress of Christianity in China, taken together with much talk and advertising of the recent World's Christian Student Conference and other conferences of a like nature held in this country. The students are declared to be unconscious tools in the hands of leaders who are seeking favorable conditions for the breaking up of organized society and the working of Communistic ideas.

The leaders of this anti-Christian movement are Dr. Tsai Yanpei, Chancellor of the Peking National University; Wang Chaoming, Secretary to Dr. Sun Yat-sen, and Chen Tzu-tai, who is a Socialist. Sub-organizations will no doubt spring up. A Free Love Society has already been formed among the students of Amoy University.

Considering the possibility of an anti-foreign movement resulting, the local consular bodies have taken up the matter with the Commissioner of Foreign Affairs who, however, pronounces himself unable to give any promise of protection in case of persecution. Already in a few places minor outbreaks of a hostile nature against mission work have been reported, in spite of the claim by leaders of the movement that the purpose is to be nothing more than passive resistance.

Women are judged by their accomplishments, men by what they accomplish. There is just one way to handle them and that is to go after them.

Bituminous Coal Producers Have Boosted Prices

Shoved Them Up 100 Per Cent Since Entering Agreement With Hoover.

Washington, June 14.—Senator Walsh of Massachusetts said today that communications which he and Senator Borah of Idaho, have received over the week-end offer positive proof that producers of bituminous coal have boosted the price of their output by approximately 100 per cent since they entered an agreement with Herbert C. Hoover, Secretary of Commerce, that the maximum price should be \$2.50 a ton. The senator said that while Mr. Hoover understood that the agreement had no effect on minimum prices, the operators apparently have decided that these are war times and that they are justified in making the increase just as they did during the war. They have jumped their prices to regular customers from \$1.75 to \$3.50.

Montreal, June 17.—(By Canadian Press)—Yachmen of Lake St. Louis, the locale of a number of great international races for the Seawanhauk Cup before this trophy was won by the "Mansuetor," N. D. Yacht club, a generation ago, began operations today to win back the Royal St. Lawrence Challenge Cup for "B" class boats, won by the White Bear Yacht Club, St. Paul, Minn., here last year.

ROYALS SATISFIED
WITH S. E. LEAGUE

In conversation with The Standard last evening, the manager of the Royals baseball team, John Gay, stated that his team had not as yet been approached to enter the Senior Amateur City League, and had made no application for a franchise in any existing in that league.

IROQUOIS DEFEAT CRESCENTS

The Iroquois defeated the Crescents by a score of 15 to 6, in an interesting ball game played on the Douglas avenue diamond last evening. The batteries for the winners were McCann and White; for the losers, Vowells and McLean.

A CORRECTION

Through an unfortunate error it was stated in yesterday's issue that an athletic meet was being held on the Y. M. C. A. grounds this afternoon. The meet is to be held next Saturday, and the entries will close on Thursday.

A good many people think they have done their duty by friends in trouble when they tell him not to worry.

Commercials Met
First Defeat

St. George's Team Took the
Leaders Into Camp by
Score of Nine to Three.

On the East End grounds last evening the Commercials met their first defeat of the season when they lost to St. George's; score 9 to 3. The game would have developed into a pitcher's battle but for the ragged fielding on the part of the Commercials who seemed to depend on Hannah to win the game single-handed.

## Stock Market In Throes Of Another Sinking Spell

Many Popular Issues Sustain Extreme Losses of Two to Five Points.

New York, June 16.—Recent acute uncertainty in the stock market made further progress today, prices of many speculative issues again breaking sharply, after an early period in which the list was disposed to make up some of its lost ground. Liquidation differed from that of yesterday, and the early period of the week, in that it was directed more generally against the low priced rails, a majority of the food specialties, minor motors and several of the mail order and chain store issues. Texas and Pacific was the main target, falling almost four points on a string of offerings which included a drop of one point between sales. St. Louis Southwestern preferred, Wheeling and Lake Erie preferred; Lake Erie and Western, Rock Island, Pere Marquette, Atlantic Coast Line and several of the prominent transcontinental were lower by 1 to 2 1/2 points. Elsewhere the reversal which was at its height at midday effected gross declines of 1 to 3 points. Chemicals, secondary equipments, copper, textiles and tobacco easing as "stop loss" orders were uncovered. The only constructive stock of the day was Mexican Petroleum, which made a net gain of 8 1/2 points to the high record of 143 1/2, the greater part of its rise being accomplished in the last hour. The buoyancy of this stock went far to restore confidence in the general list losses in a number of instances being materially reduced at the close. Sales amounted to 1,975,000 shares.

Continued ease of call money rated was a negative influence being based mainly on the light inquiry. The opening rate of 3 1/2 per cent was shaded 3 per cent in the afternoon but no relaxation was shown in time funds. Foreign exchanges without exception reflected more clearly the unsettled state of economic conditions abroad. Sterling fell 1 1/2 cent, allied remittances lost 6 to 10 points, unit rates were lower by 3 to 10 points and the Australian rate developed further weakness on cables which offered little hope of an early loan to that country.

## Further Weakness And Inactivity On Montreal Market

The Day Was One Of Dullest Of Year and Lacked Features.

Montreal, June 16.—Further weakness and continued inactivity marked today's trading on the local stock exchange, the day being one of the dullest this year without an outstanding feature. Canada Cement was one of the few issues to show strength, and led in activity. Breweries, which touched a new low, was second in activity, and Brazilian was third. One issue reached new high ground and two were at new lows. There were nearly four times as many losses as gains. Abitibi, preferred, was the only issue to reach a new high, and was the strong feature of the day, being up 1 1/2 points at 32. The greatest loss was suffered by St. Lawrence Flour, which was off five points at 33. Canada Cement was the most active stock dealt in, closed up 1 at 69. National Breweries was off 3/4 at the new low of 52. Ameer Holden preferred was the other stock to reach a new low, being off a point at 7. B. E. Steel was off 1 1/2 at 11, and the second preferred was down 2 points to 30. Steel of Canada was down 1 1/2 at 71. The papers were also weak. Abitibi was up 1 1/4; Brompton 1 1/4; Laurentide off 3/4 and Price Bros off a point. There was a slight improvement in activity in bonds with prices for the most part unchanged. Total sales: Listed 5,832; bonds \$178,350.

## Winnipeg Wheat Market Registered Slight Gains

All Futures Closed Around Highs of the Day, October Leading.

Winnipeg, June 16.—Following a bull session for the major part of the day, the local wheat market strengthened and registered gains of from 3/4 to 1 1/2. All futures closed around the high of the day October leading the advance at the close at 1 1/2, above yesterday. A bearish tone predominated during the early part of the session and following a drop of 3/4 cent to 1 cent at the opening when trading was fairly active, the market turned dull. According to private cables, foreign markets are depressed by the offerings of old crop wheat, which are responsible for a good deal of the depression on this side in American markets especially. Both the local and American markets continue to be largely governed by weather conditions over the winter and spring wheat areas of both countries. The bearish feeling that prevails has been chiefly promoted by good weather reports, good receipts and weak foreign markets.

There was an urgent demand from exporters for Number 1 Northern wheat and new business was reported at 1/4 cent better than last night's price. Number 2 Northern was also ranging 3/4 cent better. Offerings of both grades were light. Other grades grain were in fair demand with Canadian and American crushers in the flux market. Future coarse grains were generally higher, with fax showing the greatest demand. Following an opening at 2 3/8 the market advanced to 2 1/2 and closed at 2 3/8, 9/16 above yesterday's.

Closing Quotations. Wheat—July 1 1/2 1 1/2; Oct. 1 1/2 3/4; Dec. 1 1/4 bid. Oats—July 61 1/4; Oct. 45; Dec. 43 1/2 asked. Barley—July 64 1/2 bid; Oct. 60 1/2 asked. Flax—July 2 3/8 1/2; Oct. 2 1/2. Rye—July 89; July 83 bid.

## Holders Asking More For Cubas

Better Enquiry, Both Domestic and Export, for Refined Sugars.

New York, June 16.—The early raw sugar market was firm and while no sales of Cubas were reported, there were buyers at 2 cents, cost and freight, equal to 4 1/2 for centrifugal, with holders asking more. The raw sugar futures market was firmer early and prices were 1 to 2 points higher on buying by commission houses. Offerings increased at this level and under liquidation for over the week and prices eased off, and at midday showed net declines of 1 to 2 points. There was no change in refined sugar, but a better inquiry was reported for both domestic and export account. Prices were quoted at 5.80 to 6.00 for fine granulated. In refined futures there was a sale of one lot of July at 6.35, an advance of ten points from last night's final. Courtship has lots of billing and cooing. Marriage continues the billing.

## Bond Market More Than Held Its Ground

Some of the Underlying Rails Were Under Pressure at Losses.

New York, June 16.—In the face of further reactionary tendencies in the stock list, today's bond market more than held its ground although some of the underlying rails were under pressure at extreme losses of 1 to 4 points. Liberties were the stabilizing feature, the first 4 1/2's scoring a new top at 100.40, while several other of that

Protestant Orphans' Home Land Bought

Ten Acres of Flowelling Farm on Manawagonish Road Obtained—Building Commences Next Spring.

The land for the new and larger Protestant Orphans' Home has been bought by the directors of the institution and the construction of the building will be commenced not later than the spring of 1923.

This announcement was made yesterday by one of the directors of the Home and will be good news for those who have been working so hard toward the establishment of such an institution.

The land secured is a part of the Flowelling farm, near the Manawagonish road, now owned by W. A. Quinton. The block bought comprises ten acres and they have the option of purchasing five more acres, or any part of the five acres, at the same price per acre as paid for the original parcel.

This lot faces on the Manawagonish Road and the side of it is on the road leading to the hydro station, thus giving them a right of way on two sides. It is regarded as a much better site than the lot which it was proposed to buy from the city.

At the last meeting of the Board of Commissioners of the Home a resolution was passed that at the next regular meeting a resolution would be moved calling on the committee to proceed to obtain the necessary information and that resolution, as being in favor of the action, was carried.

The new building will be for the care of all orphans in the province, irrespective of race or creed, but will be maintained by the Protestant bodies of the province, all denominations having a large stake in it, as being in favor of the action. Each of the four larger bodies, Anglican, Baptist, Methodist and Presbyterian, have agreed to also an offering of a year to all their churches for the work and several of the fraternal organizations are taking a keen interest and promising financial support to the institution.

Y.M.C.A. Swimming Classes Closed

Out of Ninety Boys Tested, Thirty-Two Passed Successfully—Total Enrollment 407.

Examinations in connection with the Y. M. C. A. free swimming classes for boys, who have been receiving instruction in the "Y" tank for the past two weeks, were held yesterday, and out of the 90 boys tested, 32 passed successfully, and will receive awards, which take the form of an engraved silver button. This button bears the inscription "Swimming Award, Y. M. C. A." and has on it a picture of a swimmer, and the Y. M. C. A. triangle. William Bewie, physical instructor in the "Y" tank, in charge of the classes, said, last evening, that there were not enough of these buttons on hand to enable him to present them at present, but those on order should arrive next week, and the successful candidates would receive their awards at the athletic meet, which is to be held on Saturday next.

Mr. Bewie also said that, in view of the fact that a number of the boys had not put in an appearance for the examination yesterday, and as he thought some of these could pass the test, they will be given another opportunity on the afternoons of Monday and Tuesday of next week.

The total enrollment in the classes numbered 407, this being four and one half times the classes of last year. The large attendance was due to the efforts of Dr. H. S. Bridges, who announced the campaign through out the city schools, and also to the fact that the Sunday school teachers took up the matter with their various classes.

Water Turned Off from Lake Lattimer from Noon Today Until Monday Morning.

Commissioner Wilmore announced last evening that the water would be turned off from Lake Lattimer at noon today and be kept off until Monday morning, in order to complete repairs to the concrete main. During that time the pressure will be light on the higher levels and he advised householders to draw a supply to carry them through until Monday morning. A large crew of men will be employed on this work, which will be carried on continuously from today at noon until Monday morning, the men working in relays. While the water is turned off repairs will be made to the two bulkheads which were put in at the time the diversion was made around Dry Lake.

Commissioner Thornton Makes Suggestion to Car Owners Who Attend Band Concerts.

Commissioner Thornton said yesterday that in order to provide all the room possible for parking cars around the square on band concert nights, it had been necessary to keep several policemen on duty there, and he made a request that car owners cooperate to make this unnecessary by starting to park at the western end of the square with their front wheels against the curb so the occupants could face the music. He has this matter under consideration, and will make an announcement before the next band concert.
