### Saturday's Attendance Very Large---12.561.

Saturday's attendance at the exhibition was a record and the big rush to the grounds during the past few days has shown that fine weather means success for the fair. The attendance Saturday was 12,561, a mark which was only once before approached in years. This was on the seventh day in 1898, when the figure was 12,411. There have been 33,604 admissions during the past three days of the exhibition. The children were there in force Saturday and greatly enjoyed the

Britain's Sailors To-day.

Much pleasure is anticipated for thi afternoon in the appearance on the ground of a squad of sailors from the man o'-war now in port. They will perform cutlass and physical drill before the grand stand. The flagship Crescent's band will also be on

the grounds, and play a programme. Dunlop Tire Company, Ltd., Toronto.

In the carriage part of the agricultural building this firm, famed for its "Dunlop" tires, has an interesting exhibit of carriage tires in their latest and best styles—pneumatic and solid rubber carriage tires. They are shown in the process of fitting, which is most simple and it is carry they which is most simple and it is seen they hold tighter than any in use. Mr. F. H. Tippet, maritime manager for the Dunlop Company, is in charge.

Fertilizer's Value Demonstrated.

The most striking exhibits in Agricultural Hall at the exhibition are the col-lections of vegetbles and field roots which won the sweepstakes prizes of-fered by the Provincial Chemical Ferfered by the Provincial Chemical Fer-tilizer Company for the best exhibits of field-roots and vegetables grown on their fertilizer, and in which competition there were many entries. W. M. Thur-rott, of Maugerville, N. B., took first prize; A. & C. A. Harrison, also of Mau-gerville, 2nd, and F. A. Parker, of Ber-wick, N. S., 3rd. The exhibits are shown side by side and have been given much careful inspection, especially by visitors from country districts who know all about this branch of farm life. A strong about this branch of farm life. A strong point has been made by the Provincial Chemical Fertilizer Company for the entire prize winning exhibits were grown in soil prepared with the company's fertili-

stooping hour after hour from morn until night. And that But agricultural hall testimonials do not stop with the sweepstakes, for the prize winners using the company's manufac-tures are greater in number than all the others combined; in fact, nearly every first and second prize in agricultural hall has been won by products grown on the Provincial Chemical Fertilizer Company's fertilizers. Facts are stubborn things and these facts show conclusively that the success of these prize winners in growing produce, which experts declare superior than the story other shown is due to the user. they become victims of that terrible backache, or blinding headache, which is so common among business women.

If you are bearing this burden, bear it no longer. For the backache, headto any other shown, is due to the use of the Provincial Chemical Fertilizer Comit no longer. For the backache, headache, nervousness and weakness which spring from a discased condition of the womanly organs there is a sure cure in Dr. Pierce's Favorite Prescription. Half a million women have been perfectly and permanently cured by this wonderful medicine.

"My niece was troubled with female weakness for about four years before I asked for your advice," writes Mr. J. W. McGregor, of 62d St. and Princeton Ave., Chicago, Ills. "You advised her to take Dr. Pierce's Favorite Prescription which she did faithfully for fine months, and now we must acknowledge to you that she is a well woman. We cannot thank you enough for the cure."

Sick women can consult Dr. Pierce by letter free. Address, Buffalo, N. Y. pany's manufactures. A walk through agricultural hall shows the great number of products which were grown with this fertilizer and won the prizes, for they have been so ticketed and much comment-

The Provincial Chemical Fertilizer Company has been 10 years manufacturing at St. John and they report a steadily increasing business, which the merit of their manufactures has built up. From New Brunswick this trade has spread over the other maritime provinces and now into Upper Canada and even across the border into the State of Maine. Their fertilizer is of several varieties. There is the Imperial Superphosphate, which is a general fertilizer and especially adapted to

These annexations practically complete the work of the British army in South Africa. It may be that a few bands cause some annoyance, but for all purposes of organized resistance the war is virnow found in arms against Great Britain are calculated to prevent the undue spilling of blood. The two colonies, the Orange River colony and the Vaal River colony, were not desired by Great Britain, and there is no doubt that the British government would have been willing to do almost anything to avoid the necessity of acquiring them. Although foreign nations are always talking about British greed for territory it is a fact that the greater part of the territories which have been annexed to the British Empire in recent years has been annexed against the wishes of a majority of the British people and the British government. They, undoubtedly, have fe't the burden of governing so many large outlying posses ions, and they are unwilling to add to their responsibilities. # Royal Baking Powder ...

# Imparts Healthfulness the Food

Royal Baking Powder possesses pecaliar qualities not found in other leavening agents, which arise from the superior fitness, purity and healthfulness of its ingredients,

Royal Baking Powder leavens the food perfectly by its own inherent power without changing or impairing any of the elements of the flour.

Thus the hot-breads, hot-rolls and mushins, and the delicious hot griddle-cakes raised by the Royal Baking Powder are wholesome and digestible, and may be eaten without distress, even by persons of delicate digestion.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

Richmond, Va., Sept. 17.—The 76th communication of the Sovereign Grand Lodge, I. O. O. F., commenced in this Lodge, I. O. O. F., commenced in this city to-day. They were welcoming exercises at 10 a. m., attended by a splendid audience. Governor Tyler, Mayor Taylor and Grand Sire Pinkerton, of Massachusetts, were the principal speakers. The committee on appeals made five reports, two of which involved consideration of the laws in relation to the sale or use of intoxicants by members. The committee recommends strict enforcement of the laws. It is estimated that nearly 5,000 Oddfellows are here from all parts of the country and Canada, and they are still coming.

Surplus, \$8,024,731. The capital expenditure was \$9,718,543, against this there is a surplus of \$8,024,731 and a sinking fund of \$2,465,639, which, as already said, leaves \$771,828 to reduce the public debt.

The revenue for the current fiscal year, that is for July and August, amounts to \$8,217,006 as compared with \$7,492,192 for the same time last year, or an increase of nearly one million dollars. The expenditure for the two months was \$4,173,471, which leaves a surplus of over four million dollars.

If the capital expanditure be deducted the surplus for the two months will be about \$3.500,000. The figure for the month of August an increase in the revenue of over \$200,000 and a reduction in the expenditure of over \$50,000. There is abundance of evidence if any were required in the financial statement to show Canada's growing time not only continues but increases.

The waters of the gulf now cover about 5,300,00 square feet of ground that was formerly a part of Galveston. This loss has been suffered entirely on the south side of the city where the finest residences were built, facing the gulf. For three miles along the shore of the gulf this choice residence property extended, but the shore line was so changed by the storm that at low tide the water is 350 feet higher along the entire three miles. The foundation pillars of the beach hotel now stands in the water. Before the

After 10 days' festivities at Bar carbor, the gayest summering place in the 1 ded States, the flagship Crescent and the ruiser Psyche arrived at St. Jol 1. The two warships arrived off Partridge Land at 10 o'clock in the morning and target up at high water in the afternoon. The Crescent felt her way up first and dropped her anchor off Reed's Point at 3,30. A string of flags conveyed an invitation to the I syche to come up and in ten minutes her anchors were down and she was swinging just below the flagship. The harbor front was lined with spectators and the manoeuvres of the two ships were closely watched and admired by hundreds of curious eyes from the shore.

The ships leave on Wednesday morning.
