Eclipses. 1863.

There will be *Four* Eclipses in the year 1863, viz:—*Two* of the SUN, and *two* of the MOON:—

I.—*A partial Eclipse of the Sun*, May 17, invisible in this Island. The Southern line of simple contact of this Eclipse passes through the Straits of Bella Isle, falling a few Miles North of Point Ferolie, Lat. 51 1.9 N., Long. 57.5.47 W. It will be visible at Labrador, from Cape Charles Northwards; also, at Iceland, Greenland, British Islands, Spain, and other Countries of Europe, &c.

It begins on the Earth generally May 17, 2h. 46m. (m.t.g.) in Long. 143.7 W., and Lat. 32.57 N.; ending on the 17th, 7h. 12m. in Long. 2.57 E., and Lat. 47.13 N.

Greatest Magnitude (Sun's diameter=1) 0.863.

II.—*A total Eclipse of the Moon*, June 1, visible in this Island:—

First contact with Penumbra	5h 18m	Evening	} St. John's, m. 1
First contact with shadow	6h 15m	do	
Beginning of Total Phase	7h 22m	do	
Middle of Eclipse	7h 55m	do	
End of Total Phase	8h 28m	do	
Last contact with Shadow	9h 35m	do	
Last contact with Penumbra	10h 31m	do	

At these times respectively the Moon will be in the zenith of those places whose positions are,—

Long. 45.26 E.	Lat. 21.46 S.
31.51	21.48
15.48	21.51
7.54	21.52
0. 0	21.53
16. 3 W.	21.54
29.38 W.	21.56 S.

Magnitude of Eclipse (Moon's diameter=1) 1.218. Duration, 5h 18m.

III.—*An annular Eclipse of the Sun*, November 11, invisible in this Island.

This Eclipse is limited to the Great Southern Ocean, Cape of Good Hope, Australia, Cape Horn, &c. Its line of central and annular Eclipse runs within ten degrees of the South Pole. At the Cape of Good Hope it will be a partial Eclipse, the greatest phase being about one-fourth of the Sun's disc.

IV.—*A partial Eclipse of the Moon*, November 25, visible in this Island:—

First contact with Penumbra	2h 32m	Morning	} St. John's
First contact with Shadow	3h 44m	do	
Middle of Eclipse	5h 23m	do	
Last contact with Shadow	7h 5m	do	
Last contact with Penumbra	8h 17m	do	

At these times respectively the Moon will be in the zenith of those places whose positions are,—

Long. 95.35	Lat. 20.13
113. 0	20.17
137.11	20.23
151.28	21.23
173.45	23.32

Magnitude of the Eclipse (Moon's diameter=1) 0.950. Duration 5h 45m.

To the Public.

THE undersigned has much pleasure in submitting to the patronage of the Public THE NEWFOUNDLAND ALMANACK for the Year of Our Lord One Thousand Eight Hundred and Sixty-three; and though there may be, and doubtless there are, inaccuracies and omissions, nevertheless he flatters himself that the information contained in the pages following may be depended upon for general correctness.

The Compiler has once more to acknowledge his indebtedness to his friend, W. C. ST. JOHN, Esq., of Boston, for the particulars of the Eclipses of the Sun and Moon, which will take place in the year 1863; he is also indebted to JOHN HADSON, Esq., for the Moon's Changes, Tide Tables, &c., and to E. M. J. DELANEY, Esq., C.E., of the Board of Works Department, for the Meteorological Observations for the years 1859, 1860 and 1861; to the Heads of Departments, and others, he is also largely indebted for the readiness and willingness with which information was furnished by them.

The undersigned is thankful for the patronage accorded to previous publications of THE ALMANACK, and he trusts that the present work will receive similar favour and consideration; to his Boston patrons, whose favours will be found in the advertising department, he would also make suitable acknowledgments.

JOSEPH WOODS.

JANUARY.—January (Latin *Januarius*) was so called by the Romans from Janus, one of their superior deities, to whom the first day of the year was sacred, and through whom they offered their prayers to the gods: hence the name is used to signify gate of the year. Janus was represented with two faces: one old and wrinkled, and looking backward; the other face young and smiling, and looking forward.

FEBRUARY.—February (Latin, *Februarius*) received its name from Februa, a feast of sacrifices and purifications held by the Romans in this month, in the vain hope of being cleansed from the sins of the whole year. It corresponds to ADAR (Exra vi. 15), the sixth civil, and twelfth sacred month of the Jews. By the Saxons it was called *Sproutkele*, as cabbages begin to sprout now; and also *Sol-month*, the month when pancakes were offered to Sol, or the Sun.

MARCH.—March (Latin, *Martius*) was so named by the Romans in honor of Mars, their god of war. In this month the Gothic tribes went out on warlike expeditions. It answers to NISAN, or ABIB (Neb. ii. 1; Deut. xvi. 1), the seventh of the civil, and the first of the sacred year of the Jews. By the Saxons it was named *Egyl-month*, the loud or windy month.

MAY.—May (Latin, *Maius*) is so denominated from Maia, the most beautiful of the constellation Pleiades, and the fabled mother of Mercury, one of the false deities. The corresponding Jewish month was SIVAN (Esth. viii. 9), the ninth of the civil, and third of the sacred year.

Equation of time to be subtracted from apparent time to the 14th and to be added the remainder of the month.

JUNE—June, (Latin, *Junius*), was so named from Juno, one of the fabled Goddesses of the Romans. It answers to the Jewish Tamuz, the tenth of their civil, and fourth of their sacred year.

JULY.—July (Latin, *Julius*), was originally called Quintilis, being the fifth month of the Roman calendar. Marc Antony designated it Julius, in honor of Caius Julius Cæsar, dictator of Rome, who was born in it, and who reformed the calendar. It answers to Ab, the eleventh month of the Jewish civil year, and the fifth of their sacred year.

OCTOBER.—October derives its name from the Latin word *octo*, "eight," indicating the place it held in the Roman calendar, and *imber*, or "shower." To the Jews it was known as *BUL*, signifying decay, as in the fall of the leaf (1 Kings vi. 38), or *MARCHESVAN*, as it was called after the captivity.

Equation of time to be subtracted from apparent time to the 24th, and to be added the remainder of the month.

DECEMBER.—December derives its name from the Latin *decem*, "ten;" as, in the Roman year, instituted by Romulus, beginning with March, it was the tenth month.

LIGHT HOUSES.

Keepers of Lights.—Fort Amherst, John Shepperd. Cape Spear, James Cantwell; Assistant, Denis Cantwell. Harbor Grace Island, Austin Oke; Assistant, Charles Snow. Cape Bonavista, Jeremiah White; Assistant, Nicholas White. Cape Pine, Henry Herder; Assistant, Samuel Austin. Harbor Grace Beach (Beacon and Light), George Brown. Cape Race, William Hally; Assistant, George Hewett. Green Island, Patrick Houlahan; Assistant, William Houlahan. Dodding Head, Martin Sparrow; Assistant, Thomas Doran. Offer Wadham, Thomas Hennessey; Assistant, William Hennessey. Baccalieu, James Ryan; Assistant, John Ryan. Cape St. Mary's, John Reiley; Assistant, William J. Collins. General Inspector—Robert Oke.

Light Dues.—One Shilling per ton on all Vessels entering any Port or Harbor of the Colony, except Coasting, Sealing, or Fishing Vessels; but not to be levied more than once in any one year.—Sealing and Coasting Vessels—Sixpence per ton on registered vessels of 40 tons and upwards; Fifteen Shillings per annum on all vessels less than 40 tons.

The 19th of Victoria, Cap. 5, Sec. 5, enacts—"That no greater sum than £25 sterling shall be in any year levied for Light Dues on any Steamer or Vessel entering any port of this Colony; and no Steamer plying between Europe and any port of North America, and entering any port of this Colony as a Port of Call, shall be liable to pay any Light Dues or other port charges except Pilotage."

DESCRIPTION OF LIGHTS.

Fort Amherst Light, at the entrance of St. John's.—A Light was first established at this station in 1813, and until the granting of a Legislature to this Island the expenses consequent on its maintenance were defrayed by voluntary contributions; in 1850 a new House, Lantern and Apparatus were erected. The light burns at an elevation of 110 feet, is produced by a treble argand burner placed in the focus of an annular lens of the fourth order, and in favorable weather can be seen 12 miles. When Cape Spear is enveloped in fog a heavy piece of ordnance is also discharged at this Fort every hour during day light, to assist vessels in making the harbor.

Cape Spear Light.—This Light was first exhibited on the 1st September, 1836; it is produced by seven argand burners and silvered reflectors burning at an elevation of 275 feet—it revolves, shewing a bright Light, every minute, and in favourable weather can be seen 36 miles. It is situated in 47.31 N. lat., and 52.33 W. longitude.

Harbor Grace Island Light.—First exhibited on the 21st November, 1837; it is a Fixed Light, has fifteen argand burners and reflectors, shewing a steady bright Light from N. to S. W. and by W. seaward, elevated above the level of the sea 151 feet, and can be seen in fair weather in rounding Cape St. Francis or crossing Conception Bay, on the intervening space between N. and S. W. and by W.; on the land side the light is more feeble. It is situated in lat. 47.42 N., and in long. 53.03 W.

Cape Bonavista Light—Situatd in lat. 48.42 N., lon. 52.59 W., is a Revolving Light, shewing alternately every 90 seconds a White and a Red Light. It is produced by sixteen argand burners and reflectors, burns at an elevation above the sea of 150 feet, and in favourable weather can be seen 30 miles. For some years the Light apparatus was in use at the Bell Rock, East coast of Scotland. By keeping this Light open with Cape Largent, it will carry you clear of the Flower Rocks; first exhibited 11th September, 1843.

Cape Pine Light.—This Tower is of iron, built by the Imperial Government in 1849-50, and first put in requisition on the 1st January, 1851. It is revolving, and shews a brisk flash every thirty seconds—has 12 argand burners and reflectors—elevated above the level of the sea 314 feet—situated in lat. 46.37 N., and in lon. 53.30 W. In a favourable state of the atmosphere it can be seen 36 miles.

Harbour Grace Beach Beacon and Light.—First exhibited 11th September, 1854; stands on the Point of Beach at the entrance of Harbour Grace. It is a double Light, as a distinction from Harbour Grace Island Light, one being placed above the other, preserving that appearance for six miles, exceeding this distance up to ten miles, the two Lights appear blended into one. In sailing into Harbour Grace with a fair or leading wind, bring the Beach Beacon to bear W. or W. by S., and by keeping the Light or building a little on the starboard bow it will carry you clear of the Bar, on which at low water there is not more than 8 feet of water.

Green Island Light, at the Entrance of Catalina Harbour, Trinity Bay.—Situatd in lat. 48.30 N., lon. 53.03 W. This is a Fixed White Light, burns at an elevation of 92 feet above high water, exhibited every night from sun-set to sun-rise, and in favorable weather will be seen from E.N.E., seaward, to S.W., 12 miles. Vessels bound Northward by keeping this Light open with the North Head of Catalina until Bonavista Light opens with Cape LeJean, will give the Flowers Rocks an ample berth—or when coming from the Northward and bound for Catalina, by giving the N. Head a moderate berth, you will clear the Brandies Rocks by steering for Green Island Light.

Cape Race Light.—Exhibits a Fixed White Light, from sunset to sunrise. The Light will be visible to seaward from N. E. by E. round by the S.E. and South to West. The light is elevated 180 feet above the mean water level of the sea, and may be seen in clear weather 17 miles from a ship's deck. The tower is striped red and white vertically. It stands close to the old Beacon, which has been cut down. The Light-house is in lat. 46.39.12 N., lon. 53.2.38 W. All bearings are Magnetic. Var. 24deg. W. N.B.—A Toll will be levied upon all vessels benefitting by this Light.

Dodding Head, Great Birin Island Light.—This Light was put in requisition on the 3rd August, 1858, and is exhibited every night from sun-set to sun-rise. It is revolving, catoptric, of the second order, producing a brilliant White Light every minute, with intermediate flashes at intervals of twenty seconds, burning at an elevation of 410 feet above the level of the sea, and in favorable weather can be seen thirty miles—situated in 47.0.0 North Latitude, 55.0.5 West Longitude.

Offer Wadham Island Light.—Was first exhibited on the 4th October, 1858, and will continue to be lighted every night from sun-set to sun-rise. The Light is a steady, fixed lens-light, burning on a circular Brick Tower 96 feet above the level of the sea, and can be seen in a favourable state of the atmosphere 12 miles. Situated in Latitude 49.36 North—Longitude 53.46 West.

Baccalieu Island Light.—This Light is exhibited every night from the going away of daylight in the evening to the return of daylight in the morning. The position and characteristics of this Light are as follows:—Baccalieu Light House is situated on the Northern end of that Island—Latitude 48.09 North, Longitude 52.50 West,—the Tower is of Brick, the Keeper's Dwelling a Square Building, detached from the Tower, painted white, with the roof red.

The Light is a Catadioptric first class Holophotal Revolving White Light, shewing a flash every twenty seconds. It is elevated 380 feet above high water, and can be seen in clear weather forty nautical miles, and a lesser distance according to the state of the atmosphere. When the Southern end of the Island bears N.N.E. the Light will not be visible when nearer the Island than eight miles.

Cape St. Mary's Light.—Was put in requisition on the 20th September, 1860; it is a Revolving Catadioptric Light of the first order, producing alternately every minute a brilliant Red and a White Light, burning at an elevation of 325 feet above the level of the sea, and will be seen in a favourable state of the atmosphere 30 miles from a vessel's deck; situated in 46.49.25 N. lat., 54.8.45 lon. West. The Tower is of Brick, and on each side of which stand the dwellings of the Keeper and Assistant, the sides of which are painted White, roofs Red.

POST OFFICE DEPARTMENT.

Post Master General—John Delaney, Esq. Chief Clerk and Accountant—James Healy. Second Clerk—John Freeman. Assorters—E. Solomon, and James Furlong. Messenger—George Gaden.

Office hours, from 9 o'clock, a.m., to 4 p.m., Sundays excepted.

POST MASTERS.

Harbour Grace, Andrew Drysdale; Carbonear, Mary Casey, (Post Mistress); Brigus, Sarah Stentaforde, (Post Mistress); Trinity, Anne Cross, (Post Mistress); Bonavista, John Lawrence; Greenspond, William Lang; Fogo, John Fitzgerald; Twillingate, Joseph J. Pearce; Bay Bulls, Martin Williams; Ferryland, John Morry; Trepassy, John Devereux; Placentia, Mary Morris, (Post Mistress); Burin, Thomas Birkett; Harbor Briton, James M. Winter; Burgeo, Richard Bradshaw.

WAY OFFICERS.

Port-de-Grave, Matthew O'Rielly; Bay Roberts, James Fitzgerald; Blackhead, John Curtis; King's Cove, Michael Murphy; New Perlican, Francis Howel; Old Perlican, William Christian; St. Mary's, Philip Breen; Oderin, Andrew Murphy; Salmonier, Patrick Hurley; Little Placentia, Alexander Burke; Harbour Maine, Patrick Brick; LaPoile, Horatio Read; Hermitage, Thomas Winter; Catalina, J. Jeans; Garnish, Samuel E. Bowman.

POSTAL ROUTES.

Summer—Between St. John's and Portugal Cove, every day, except Sunday and Friday, by Waggon.

Between Portugal Cove, Brigus, Harbor Grace, and Carbonear, by Steamer, tri-weekly.

Overland, by Waggon, for Carbonear, via Topsail, Kelligrews, Holyrood, Harbor Main, Brigus, Port-de-Grave, Bay Roberts, Spaniard's Bay, and Harbor Grace, Four Hours after the arrival of Halifax Steamer.

Winter—Overland Mondays and Thursdays, between St. John's and Carbonear, calling at all the intermediate places.

Between Carbonear and New Perlican, (calling at Heart's Content) weekly, by Messenger.

Between Carbonear and Bay-de-Verds, weekly, by Messenger, calling at intermediate places.

Between New Perlican and Bay-de-Verds and Grates, calling at Old Perlican, weekly, by Messenger.

Between New Perlican and Trinity, weekly, by Boat.

Between Trinity and Bonavista, weekly, by Messenger.

Between Trinity and King's Cove, weekly, by Messenger.

Between Bonavista and Greenspond, fortnightly, during summer months, touching at King's Cove or Tickle Cove.

Between St. John's, Fogo and Twillingate, leaving St. John's every second Wednesday after the arrival of the Mail Packet from Halifax, or on such other days as the Post Master General may appoint.

* Between St. John's and Ferryland, weekly, by Waggon, during summer months, and fortnightly in winter.

* Between Ferryland and Trepassy, by Messenger.

* Between St. John's, and Placentia, by Waggon, at 4 o'clock a.m., on the Tuesday after the arrival of Halifax steamer.

* Between Placentia and St. John's, by Waggon, in one hour after the arrival of Packet Boat from Burin.

* Between Salmonier and St. Mary's by Messenger.

* Between Great and Little Placentia, by Messenger.

* Between Little Placentia, LaManche, Sound Island, Harbor Buffett, Red Island, Merasheen and Burgeo, by Boat.

* Between Great Placentia and Burin, by Boat, touching at Paradise and Oderin.

* Between Burin and Garnish, by Messenger.

* Between Garnish, Grand Bank and Fortune, by Messenger.

* Between Garnish and Harbor Briton, calling at English Harbor, by Boat.

* Between Harbor Briton, Burgeo and LaPoile, by Boat.

SAVINGS' BANK.

Governors—Three members of the Legislative Council, and five members of the House of Assembly, viz.:—Hon. Nicholas Stabb, Hon. Robert Kent, and Hon. James S. Clift, of the Council; and the Hon. the Speaker, Dr. Winter, Hon. Robert Carter, R. N., Ambrose Shea, and John Leamon, Esquires, of the House of Assembly.

Directors—Hon. N. Stabb, Hon. the Speaker, and Dr. Winter.

Cashier—Hon. Edward Morris.

The Bank is open every Monday between the Hours of 12 and 2 o'clock, for Depositors' business; and on Wednesdays for Discount business, from 11 to 2 o'clock.

RULE WITH RESPECT TO DEPOSITORS.

Deposits—All Deposits of not less than One Shilling made by any person, shall as soon as they amount to Twenty Shillings, be considered as a Deposit to the amount of the aggregate sum deposited, from the period when the last sum constituting such aggregate was

deposited. The Deposits to bear interest at three per cent., but no interest will be allowed on sums less than a Pound, nor for Deposits under six months, the six months to commence from the first day of the month ensuing the receipt. The interest due on deposits on the last day of December in each year, to be carried to the credit of the Depositor, and the balance carried to a new account, and to be regarded as a deposit made on that day. The Bank is at liberty to return or reject the deposits of any person or persons, and to decline receiving any deposits exceeding Five Hundred Pounds, subject to the payment of interest thereon, when it shall be deemed expedient so to do. And no sum exceeding £100 shall be received from any depositor, but on condition that the same shall not be withdrawn, except upon a notice ending at two months from the date thereof, or upon forfeiture of two months' interest thereon, if at the request of such Depositor the Directors consent to pay the same without requiring such notice.—*Third Rule of Newfoundland Savings' Bank.*

French Shore	3334	1778	1556	1647	1586	85					16

The Census of the Labrador was cursorily taken by the late Superintendent of Fisheries (James L. Premergast, Esquire,) in 1856 and 1857, but it is not sufficiently correct or full to form a part of the foregoing Returns. The number of permanent residents, as given by that gentleman, from L'Anse Sablon to Sandwich Bay, both inclusive, including Belle Isle, is 1650, of whom 1331 are Protestants and 319 Catholic.

TOTAL VALUE,

In Sterling of the Imports and Exports of the Colony of Newfoundland, from and to each Country, in the Year 1861.

STAR

Life Assurance Society,

48, Moorgate Street.

TRUSTEES,

George Smith, L.L.D.

William Betts, Esq.

William Skinner, Esq.

Frederick Mildred, Esq.

THE STAR LIFE ASSURANCE COMPANY was founded in the year 1843. It was established by members of the Wesleyan Methodist Society, and is the only Company connected with that Body.

By its Deed of Settlement special provision is made that a majority of the Directors shall be accredited Wesleyan Methodists. The STAR has been largely adopted by the Itinerant Preachers, as a medium for family provision—upwards of 500 being already assured in this Company.

Agents for Newfoundland—Messrs. W. & G. RENDELL, St. John's.

Duty paid to Government by the Phoenix
Company 1861 £137,547 Stg.

W. & G. RENDELL,

AGENTS, ST. JOHN'S, NEWFOUNDLAND,

Be leave to recommend the protection afforded by this Institution against the destructive ravages of Fire, which in a few moments may lay waste the fruits of a whole life of industry.

The Phoenix has been a most successful office, and stands unrivalled for stability, liberality, and usefulness.

The security offered to the public by the Phoenix Office is unlimited, comprising, in addition to the large invested capital of the Company, the whole fortunes of a numerous Proprietary, composed of some of the most opulent Gentlemen and Merchants in the United Kingdom.

The liberality and promptitude with which all Losses, (to the extent of upwards of *Seven Millions* Sterling,) have been adjusted and paid by the Phoenix Fire Office, has been manifested to the public by the experience of more than Seventy-five years.

Annual and short time Insurance are effected upon almost every description of Property in Newfoundland, on the most favourable conditions.

Rates and particulars of Insurance may be had on application to the Agents as above, and any orders or communications addressed to them, will be punctually attended to.

Cotton Lines, Nets and Seines.

THE AMERICAN

Net & Twine Manufacturing Company,

RESPECTFULLY ask the Newfoundland Fishermen to give their Fabrics a fair trial, and it is believed that they will be found durable, light, and of AMPLE STRENGTH. They are universally used in the United States.

43, Commercial Street, Boston.

Correct in principle, thorough in construction, accurate, convenient and durable in operation.

The SCALES are still made under the supervision of the original Inventors, and are constantly receiving improvements, based on the skill and experience of more than THIRTY years devoted only to this branch of business. They have received *more first class premiums* than ALL other Scales; and, what is of more practical value, have received the award of SUPERIOR EXCELLENCE by the *vast numbers* who have used them for many years. At our Warehouse, may constantly be found a complete assortment of all kinds of weighing apparatus adapted to every branch of business, as Hay, Coal, Railroad, Ice, and Stone Scales; Platform, Counter and Warehouse Scales; Druggists', Confectioners', Butchers' and Gold Scales; with an ample variety of *Store Furnishing Equipments*, as Sugar Mills, Alarm Money Drawers, Measures, Weights, &c.—All warranted in every respect.

FAMILY DYE COLORS,

FOR

Dyeing Silk, Woolen and Cotten Goods, Shawls, Scarfs, Dresses, Ribbons, Gloves, Bonnets, Hats, Feathers, Kid Gloves,

Children's Clothing, and all kinds of Wearing Apparel

WITH PERFECT FAST COLORS.

LIST OF COLORS.—Black, Dark Brown, Snuff Brown, Light Brown, Dark Blue, Light Blue, Dark Green, Light Green, Pink, Purple, Slate, Crimson, Salmon, Scarlet, Dark Drab, Light Drab, Yellow, Light Yellow, Orange, Magenta, Solferino, French Blue, Royal-Purple, Violet.

These Dye Colors are expressly for family use, having been perfected, at great expense, after many years of study and experiment. The goods are ready to wear in from one to three hours' time. The process is simple, and any one can use the dyes with perfect success.

Great Economy! A Saving of 80 per cent.

In every family there will be found more or less of wearing apparel which could be dyed, and made to look as well as new. Many articles that become a little worn, soiled or out of style, are thrown aside. You can have a number of shades from the same dye, from the lightest shade to the full color, by following the directions on the inside of package.

At every store where these Dyes are sold, can be seen samples of each color, on Silk and Wool.

All who have used these Family Dye Colors pronounce them to be a most useful, economical and perfect article.

Numerous testimonials could be given from ladies who have used these Dyes; but in this case it is not required, as its real value and usefulness are found upon one trial.
