nd become masters of the world. world. All history teaches that those na-tions which learned to mine and work metals become wealthy, powerful and civiliz-ed, whilst those which have no mining inlamily. dustries or no metallic manufactures have remained in a state of barbarism, and that savif at the present day is the distinguish ing feature of savages. Mining industry is indeed the foundation of all civilization and the chief basis on which all industries must rest, as well as being at the same time the principal element of progress. Without it the working class could gain little beyond the mere necessities, and as we have often shown that coal and iron are first requisites of anational prosperity it is to mining that we must refer the

advancement of the present age

### A Good Suggestion.

A writer in Engineering says : The ina- tal, and soul destroying, extravagant and un- have won for him a more successful earthly for saving life at sea has been sufficiently and prurient writers, who pander to the demonstrated. No doubt much has been viated taste of the uncultivated and ignorant domonstrated, the dominate the perils of done by inventors to mitigate the perils of the sea, and it does seem a little hard historic, and soul slevating literature, like on that their exertions should prove of no that their exertions should prove of no avail, just because their inventions have add without offending friend "James"-the not been allowed to get a fair trial. To alviate this evil he suggests that a competitive exhibition might be got up of appa ratus for saving life at sea, to test the re-or offend. There is entirely too much con lative merits of such inventions, and to en- sideration bestowed upon-"is it politic" able the Board of Trade to decide what a "Up gaurds and at them.". The "Dominion

vessel ought to carry. He also suggests is published by J. Dougall & Son, Montreal, that a ship ought to be provided with means at least to save one third more than her complement of passengers and crew, as it often happens in such circumstances The "Church of England" Temperance Societ is reported as doing a good work in Frederic ton. We beg to inform our Fredericton con rendered useless, and this that a boat i means death to a certain number. Be sides, did the passengers know that there is a certain number and the passengers know that there is no "Church of En was more than sufficient means to save all land" in this Province. All churches stand o on board, it would help materially to allay the same footing .- "Kpiscopal" is the property auy panic. As it is desirable to conomize term. Neither are Colonial Bishops entitle space on board ship, some of a ship's fur-nitare might be utilized for saving life; neither Spiritual nor Law Lords.

H. R. SMITH.

Representative and Chempion of American North Restish and Mercantil Art Taste. PROSPECTUS FOR 1875---EIGHTH YEAR. THE ALDINE,

THE ART JOURNAL OF AMERICA, ISSUED MONTHLY.

A MAGNIFICENT CONCRETION, WONDER. FULLY CARRIED OUT."

The necessity of a popular medium for the str John L. M. Lawrence, Bart, G. C. B. & K. S. mepresentation of the productions of our great astists, has slways been recognized, and many CAPITAL - - 12,0000,0 (C3111) G ttempts have been made to meet the want. The successive failures which so invariably allowed each attempt in this country to estab-lish an art journal, did not prove the ind ff: r ence of the people of America to the claims of high art. , So soon as a proper appreciation reasonable serms.

of the want and an ability to meet it were shown, the public at once rallied with enthu Biasm to its support, and the result was a grea artistic and commercial triumph-THE ALDINE

THE ALDINE, while issued with all the regularity, has none of the temporary or ting ly interest characteristic of ordinary periodicals. It is an elegant mi-cellany of pure, light, and praceful literature ; and a collection of pictures, the rarest specimen of artistic skill, in black the rarest specimen of artistic skill, in black and white. Although each successful number off rise a friends, the real value a: d beauty of THE ALDINE will be most expression of the value of the value of the value and observe the value of the star. While other publications may claim superior chempers, as compared with rivals of a similar class THE ALDINE is a unique and original corception-alone and un approached-absolutely without competition in price or character. The possessor of a com plete volume can not dup! cate the quantity o tine paper aid engravings in any other shape or runder of volumes for ten times its cost

and then, there is the chromo, berides ! The national feature of THE ALDINE D us be taken in no carrow sense. True art is cos-mopolitan. While THE AIDINE is a strictly Amer can institution, it does not confine itse entirely to the reproduction of native art. It. while to us to cultivate a broad and appreciative art taste, one that will discriminate only on ground of intrinsic merit. Thus, while place ing before the pathons of THE ALDINE, as a leading characteristic, the productions of the study and America, and America a mis ion is to cultivate a broad and appreciativ "most poted American artists, attention will Hways be given to specimens from foreign Inasle rs

The artistic illustration of American seep ery, or iginal with THE ALDINE, is an import and feature, and its magnific-rnt plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspor sion of landscape, marine, figure, at d animal subjects, sustain an unabated interest, impossible where the scope of the work contines the astist too closely to a single style of subject The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic teatures, with only such technical disquisition as do not interfere with the popular interest of the work.

PREMIUM FOR 1875. Every subscriber for 1875 will rec ive a

beautiful portrait, it all colors, of the same no ble dog whose pic ure in a former issue attract "MAN'S UNSELFISH FRIEND"

will be welcome in every home. Everylody loves such a dog, and the portrait is executed so true to the life, that it seems the veritable preses ce of the animal itself.

Besides the chrome, every advance sub-cri ber to The Aldine for 1875 is constituted a member, and entitled to all the privileges of

Dr. J. Walker's California Vinegar Bitter's are a purely Vegetable preparation, made obielly from the native herbs found en the lower ranges of the Sierra Novada mountains of California, the medicinal pro-perties of which are extracted thereform without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vnrgan Br-rms?" Our answer is, that they remove the cause of disease, and the patient recor-ors his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigerator of the wystem. Never before/in the history of the world has a 'medicing been compounded possessing the remarkable qualities of Vargan Brrrzes in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or In-formation of the Liver and Visceal Organs, in Bilom Diseases.
If men will enjoy good health, let

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine,. and avoid the use of alcoholic stimulants

in every form. R. H. McDGNALD & CO., Draggists and General Agests, San Francisch, Californ and cor. Washington and Charlton Sis., New York. Sold by all Bruggists and Benlezs.

Sold by all Druggiets and Denlezs. No Person can take these littens according to directions, and remain long unwell, provided their bones are not de-stroyed by mineral poison or other means, and vital organs wasted beyond repair. Grateful Thousands proclaim Voceans Britses the most wonderful Invigorant that over sustained the sinking system.

Billous, Remittent, and Infermif-tent Fevers, which are so prevalent in the values of our great rivers throughout the United States, especially those of the dis-missippi, Ohio, Missouri, Slizois, Tennesser, Cumberland, Arkaness, Red. Colorado, Ben-zos, Rio Grande, Pearl, Alabama, Mobila, Savannah, Roahoke, James; and many othera, with their vast tributasies, throughout our entire country during the Summär and An-tumn; and remarkably so-during sensors of unsual heat and dryness, are invariably accompanied by extensive derangements of the storasch and liver, and other abdominal viscera. In their treatment, s purgaive, exerting a powerful influence upon these varions organs, is essentially necessary. There is no eathartie for the purpose equal-to Da. J. WALKEN's WINBOAR BETTERS, are they will specially remove the dark-colored r viscing at the same time stimulating the secretions of the liver, and generally restor-ing the healthy functions of the digestive organs. Billous, Remittent, and Intermit-

ing the healthy functions of the digestive organs. Dyspepsia or Indigestion, Healsohe, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizzinces, Sour Rzuctakions of the Stomach, Bad Taste in the Mouth, Bil-ious Attacks, Palpitation of the Heart, Indam-mation of the Lungs, Pain is the region of the Kidneys, and a hundhod other painful symptoms, are the offsprings of Dyspopsia. One bottle will prove a better guarantees of its merits than a lengthy altertiscnent. Scrofula, or King's Evil, White Swel-lings, Ubers, Eryspeka, Swelled Neck,
