**BEAVER BOARD**  
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtained by using this sanitary and durable board for walls and ceilings in all classes of buildings.  
We carry a large stock in assorted sizes.

**MAIL ORDERS**  
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the relation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

## CONVENTION FOR RESTIGOUCHE

Friends of Local Government  
Called to Meet Next  
Tuesday.

The call for a convention of the friends of the present local administration has been called to meet in the Murray Hall, Campbellton, next Tuesday, Sept. 21st at 2.30 o'clock.  
The purpose of the convention is to name standard bearers of the party at the next election and to organize the county for election purposes.  
All friends of the present administration are invited and it is hoped there will be a large attendance.

## NOW LOCATED IN NEW BLOCK

Messrs. Geo. G. McKenzie & Co.  
Ltd., Now Permanently  
Settled.

Messrs. Geo. G. McKenzie & Co., Ltd., who recently bought the Intercontinental Hotel property on the corner of Roseberry and Minto streets have moved in and are now permanently settled. This building is of brick, sixty-six feet on Roseberry St. and forty-two on Minto St., and is three stories.  
The ground floor is occupied as Dry Goods, Ladies' Wear, Grocery, and office of the firm, and is now admitted to be one of the most attractive stores in the province. The front, which is entirely new, is a most attractive feature, and gives ample space for the display of the latest lines of goods. These windows said to be the largest in the province, add much to the appearance of the building and the street.  
The second floor is divided into offices, which are handsomely fitted up and will compare favorably with any city offices. Dr. Gillis, dentist occupies one suite and George Kerr, lumber agent another.  
The third floor is laid off as a rooming house. There are ten bedrooms all furnished in the best style in brown. The bath and the chief aim has been to make every room homelike and comfortable. This flat is in charge of Mrs. Robt. A. McCallister.  
The entire building is heated with hot water. A separate boiler also assures a plentiful supply of warm water for the bath rooms and domestic purposes.  
The lighting system is of the latest and at night when the store is lighted up presents a very handsome appearance.

**EXCITING FIGHT WITH MR. BRUIN**  
Nash's Creek Man Has Experience He Will Not Soon Forget.  
The Graphic has received from a correspondent in one of the camps along the Kedgwick river the story of a man killing a bear single handed, with a knife which rivals tales of pioneer days.  
The story is as follows:—  
A man, Austin Hickie of Nash's Creek who is working for R. H. Hickie at Five Fingers on the Big Kedgwick river had gone fishing. On his return to camp, while walking along a portage road, he was attacked by a large black bear, which sprang out at him with terrific roars from the scrub bushes at the roadside.  
Hickie, although taken completely by surprise, had presence of mind enough to pull his knife (a large hunting knife) from his pocket, and grappled with the bear. He seized it by the throat and plunged the knife into its body several times, until it pierced the heart.  
The man was not injured, although his clothes were torn. He had lived in the south western states for a number of years, where he was a cow boy, returning to New Brunswick last spring.

**HERE'S ONE BRIDEGROOM WHO HAS ASSUMED A HEAVY RESPONSIBILITY**  
Rye, N. Y., Sept. 14.—Miss Esther Light, of Purdy avenue, who weighs 462 pounds, became the bride of Daniel Holmes, of Purchase, near here. The bridegroom weighs about 126 pounds, and is known throughout this section of West Chester as a leader of Methodist praying bands and as an exhorter. He works daily as a gardener at Ophir Farm, Mrs. Whitelaw Reid's estate at Purchase.

## COAL SITUATION LOOKS BAD

Dealers Cannot Procure Enough to Supply Present Demands.

If Campbellton is to escape a serious coal shortage this winter there will have to be taken at once. In conversation with local dealers the Graphic was informed that very little soft coal was in sight; that they had not enough to supply the present local demands and were turning down business every day.  
This is a very serious matter and one which should have the attention of the Town Council, the Board of Trade, and any other organization which has any weight with the mine operators or governing bodies.  
Campbellton will this year require a large quantity of coal than former years. The high price being paid for pulp wood eliminates coal wood as fuel so that many who formerly used wood will be obliged to depend upon coal.  
Action should be taken at once if suffering is to be prevented during the cold weather of the coming winter.

## EDITOR'S MAIL.

Mr. Editor,—  
I want to tell you that Mr. LeBlanc the farmer, is a very clever man. He kept us laughing all the time, and he pulled the wool over my eyes in good shape.

The next day, at the store, I was telling Farmer Jones what he missed because he did not go to the convention at Chatham. I told him about the man at Woodstock that got \$1200 for selling fertilizer, and he got \$1400 for selling farming implements, and besides this he got enough in other ways to support a family. The fertilizer people were satisfied because they got their prices for the goods, and they did not care who got the commissions. The farming implement men were satisfied for the same reason, and so were all of the other man. The consumer—I stopped after "Consumer," and then I repeated the word like Farmer LeBlanc said they would notice.  
THE CONSUMER said that man THREE years' wages for ONE year's work.

Farmer Jones looked at me, as if I had said something to him.  
"You Scallawag," he said. He likes to poke fun at me because I believe in stocking grain by moonlight, and I didn't believe in getting up before daylight, like he does, to cart seaweed from the beach. When I want to kill myself working I'll sell the farm and go to work in the mill where I can get \$4.00 a day for nine hours work, and not have to get up every minute to feed the pigs, or milk the cow, or drive the sheep out of the grain.

But to return to my story: Farmer Jones, he said, "You Scallawag." What if I did make \$1200 dollars out of my potatoes, and \$1400 out of my hay and oats, besides making enough in other ways to support my family. Didn't I work for it. The consumer paid the same price for a bit of your potatoes as he paid for a bit of mine. And if I got more for my crop than you did, it was because I was not so fond of loafing about the kitchen as you are, and I was not so fond of getting three men's pay, it was because I did three men's work.

I was glad when Farmer Jones had to go. He had seven milk cows, and five children, and they do not leave him much time to loaf at the store in the evenings.  
When Farmer Jones was gone I turned to the Storekeeper, and I told him about the French Storekeeper in Kent County. The Kent County storekeeper had five cars of flour on order last January when the price of flour went up two dollars and a half a barrel, and he would not let the Farmer's Union have one car. I said "ONE" good and strong so that everybody would notice how mean that Kent storekeeper was. But the Storekeeper, he only smiled and asked me, "Did Mr. LeBlanc tell you that story?" And when I said "yes," the Storekeeper said, "Well, that's a good one. I suppose he told you that the Kent County man got the five cars that he had on order. The Storekeeper was smiling, and I knew that he was trying to poke fun at me, so I spoke up kind of sarcastic like. "Of course, since he was not a Scotchman the Kent County storekeeper would not know enough to keep that \$750 from slipping through his fingers!" (Two dollars and fifty cents a barrel, on three carloads would be \$3750). The storekeeper laughed, hal-hal-hal. "I suppose Mr. LeBlanc did not know that the Board of Commerce would not allow the mills to ship one barrel of flour at the old price after they announced the new price. Even if it had been bought months before it would have to be paid for at the price flour was on the day it was shipped."

When I come to think of it, I did see something like that in the papers. And I am now wondering if Mr. LeBlanc was pulling the wool over my eyes, or if the Kent County storekeeper pulled the wool over Mr. LeBlanc's eyes.  
Anyway, Mr. LeBlanc, he's a very clever man. He kept us laughing all the time, and he pulled the wool over my eyes in good shape.  
Yours truly  
A. GOOSB.

## HOSPITAL STAFF REGULAR MEETING

Report of Work of Hotel Dieu for Month of August, Record Broken.

The regular monthly meeting of the Hotel Dieu Hospital Medical and Nursing Staff took place on Tuesday, Sept. 7th, President in the chair.  
The minutes of the previous meeting were read and approved and then the summary of the Medical Performance for the month of August was laid before the meeting.  
The report showed 105 admissions with 104 discharges. The largest number of any one month in the history of the institution. Three deaths were reported. One within 48 hours of admission, cause, intestinal obstruction; the second was a case of pneumonia; the third, one of typhoid fever.  
The summaries of these three fatalities were produced. The symptoms for which the patients sought relief when entering the hospital were stated, the course of treatment given was discussed. Discussion followed, and the conclusion was reached that nothing more could have been done for these three patients than had been done.  
The meeting then took up the various other items of the report, each of which was separately discussed.  
At the conclusion of the discussion there was exhibited an X-ray plate taken some hours before which proved the value to the institution of the fine new X-ray installation.  
The patient was a child of 8 years who had come to the hospital during the day. Physical examination pointed to a rather mild case of tubercular hip joint, while the X-ray examination showed that the disease had already destroyed the head of the bone, and proved the necessity of immediate rest and immobilization if permanent deformity was to be avoided.  
There being no other business to transact, the meeting adjourned.

## WILL FIGHT NEW FREIGHT RATES

Saskatchewan Government Gives Instructions to Legal Representative.

Regina, Sask., Sept. 11.—The Provincial Government has wired instructions to D'Arcy Scott, K. C., who represented the Province at the application of the railway companies at Ottawa to take steps to formally inaugurate the necessary proceedings for an appeal against the new freight rates.  
MEMORIAL SERVICE FOR OLIVE THOMAS  
Was Held in London Church and Attended by Jack Pickford, Her Husband, Who Arrived in City From Paris by Airplane.  
London, Sept. 14.—Jack Pickford, husband of Olive Thomas, the movie star, who died in Paris Friday from mercury poisoning, arrived here from the French capital by airplane Monday to attend the memorial services held for his wife in the Farm Street Church. Only a score of friends attended the services. They were mostly American actors and actresses.  
Jack, accompanied by Owen Moore, divorced husband of Mary Pickford, knelt at the rear of the church during the services, stricken with grief.  
Shipment of Body to New York.  
Paris, Sept. 14.—It is probable the body of the late Olive Thomas, moving picture actress, who died here late last week, will be shipped to New York on Saturday on board the liner Mauretania. Jack Pickford, husband of the dead woman, and a few friends will accompany the remains to the United States.  
Acute nephritis set up by the absorption of bichloride of mercury by the kidneys was given as the cause of death, following an autopsy performed yesterday.

## FOR FLOWER BOOTH AT FAIR.

Donations of Cut Flowers, Potted Plants, Bulbs, Roots of hardy flowers such as Pionies, Phlox, Narcissus, etc. The latter can be sent to Rink one or two days before the Fair opens.

## CAMPBELLTON BOY DROWNED

Went Angling River in Portage Boat and Caught in Riggings.

The sad news was received Tuesday evening that Armand John Payne of this town was drowned Tuesday afternoon in the Upsalquitch River. Few particulars have been received regarding the sad affair, but those to hand are that he was crossing the river in a portage team and became tangled in the rigging.  
Wednesday morning word was received that the body had been recovered Tuesday evening just before dark.  
The deceased young man who was in his 21st year was highly regarded and his untimely death will be deeply mourned by a large circle of friends. He leaves to mourn the loss of a kind and devoted son and brother, his bereaved parents, Mr. and Mrs. Joseph Henry Payne, one sister Mrs. James Connell and one brother Edward, all of this town.  
The body was expected last evening but had not arrived up to noon today.

## LOOKS BAD FOR THE CONSUMER

If Increased R. R. Rates Take Effect Will Pay Fifty Per Cent.

OTTAWA, Sept. 11.—That the burden imposed by the increased railway rates authorized by the Railway Commission is bound to fall upon the consumer, was the view expressed by F. H. Cahill, member for Pontiac, and the chief Liberal railway critic in the House of Commons, when questioned in regard to the increase by a representative of the Canadian Press, Limited.  
Mr. Cahill said that while he expected there would be some advance in rates authorized he had not anticipated that the railways would be given practically everything they asked for. As far as the consumer was concerned, Mr. Cahill remarked, the rates would mean a fifty per cent. increase.  
TIMBER SALE TO U. S. INTERESTS  
Matane Lumber & Development Company Goes to Americans.  
The Matane Lumber and development Railway, owned by O'Brien and Doherty, has sold all its assets, real and personal to an American company the Hammerhill Paper Company, of Erie, Pa.  
The deal, which involves several million of dollars, was completed last week in Montreal. The timber lands acquired with the mill site, river improvement, etc., on the rivers Matane and Cap Chat, on the south shore of the St. Lawrence, comprises an area of 133,000 acres.

## PLENTY OF WORK FOR HARVESTERS

Previous Reports of Harvesters Being Stranded Were Unfounded.

OTTAWA, Sept. 15.—Investigation conducted by the Department of Labor into reports of alleged difficulties of harvesters securing employment in the West goes to show that there is no foundation for the story. R. A. Riggs, the department's agent, says that the only cases in which there has been any difficulty is where men, disregarding advice, have gone long distances from Winnipeg when there is plenty of work within fifty miles of that city.

## EXCHANGE ON LONDON

New York, Sept. 14.—Exchange on London continued to decline today, although rates on Paris and other European cities, Germany excepted, recovered slightly. As low as 3.43½ was quoted for British demand bills in the first hour, a decline of ½ cent to the pound from yesterday's lowest quotations. Before noon, however, the price rallied to 3.44½. Canadian dollar declined in sympathy with sterling, the discount rate being quoted at 10-15 per cent.

## RUM RUNNERS LOOSE MORE BOOZE

Seven Barrels Seized at Farm House At Oak Bay.

That the rum runners of the Coast are still busy was again demonstrated when a local constable seized seven barrels of booze at a farm at Oak Bay Saturday night. The shipment was addressed to a Campbellton resident who was on the spot, but out of sight when the seizure was made.  
A motor boat belonging to another Campbellton resident was said to be mixed up in the transaction, and a close watch is being kept on some others.  
It is said that this business has been going on for many months and it seems strange that it is an outside constable in no way connected with the enforcement of the prohibition law who has been responsible for both the seizures made on the Quebec side of the river. It is said that almost nightly a motor boat makes a booze carrying trip and is met on the Campbellton shore by an auto into which the load is placed and rushed to its destination.

## RAIN VERY HEAVY; CROPS AFFECTED

New Brunswick Crops Suffer—Much Grain In Damaged Condition.

Fredericton, N. B., Sept. 14.—With two and a half inches of rain yesterday and the total rainfall the first twelve days of September amounting to 4.62 inches, conditions are becoming serious in central New Brunswick. Root crops are rotting in the ground and oats which were cut but a week ago in some sections are still lying in the fields.  
Grave fears are expressed as to what effect the continued rain will have on the potato crop.  
The water in the St. John River here has risen about two feet in a week, while on the Nashua it came up about four feet and driving operations have been resumed by the Nashua Pulp and Paper Company.

## Fall Coats FOR MEN

Black, Plain Greys, Browns, Etc.  
Made for men in a very conservative model—Very fine quality  
Priced \$28.50 to \$45.00.

### LORD BEAVERBROOK IN ST. JOHN

Delighted to Visit New Brunswick and See Great Opportunities Ahead.

St. John, Sept. 13.—Lord Beaverbrook and party arrived this afternoon from Newcastle, Northumberland county. His Lordship was accompanied by W. D. Ross, of the Bank of Nova Scotia; Murray Williams, of the Atlantic Refineries directorate; E. H. Sinclair, Newcastle, and Messrs. Veniot, Robinson, and Murray of the provincial government. Lord Beaverbrook will be in the city until Tuesday evening, when he leaves for New York, sailing from that port on the 21st.

His Lordship stated that his present visit to Canada had no business significance. He had retired from business absolutely with the exception of his interest in the London Daily Express. While here he had paid a visit to the Price Paper Mills in Quebec and this circumstance probably gave rise to the rumor that he was here in connection with a giant pulp merger. With the present price of newsprint and groundwood pulp, he said, the forest resources of New Brunswick were practically illimitable, surpassing the vaunted wealth of the Nova Scotia coal deposits. He predicted a bright future for the province.

His Lordship said that if the threatened strikes went into effect in England they would be followed by the most serious consequences. One would be the cutting off of electrical current, and the discontinuance of street car services and the shutting down of newspapers, all of which depended on electricity for operation. As a result, there would be countless rumors sent abroad of uprising, upheavals, etc., these sensational stories growing as they could not be effectually answered.

Lord Beaverbrook spoke in sympathetic terms of his love for his native province, which, he said, he loved so well and where he obtained his great treasure, his education.

**BOYAVENTURE.** Mrs. Austin Kerr, has returned home after spending the past two weeks with friends in Campbellton. Mrs. William Henry is visiting in Montreal and Cheong, for a month. She is accompanied by Mr. Poirier.

Mr. Edmond Poirier who has been absent from Bonaventure for the past six months in Ontario and Winnipeg, Man., has returned home. Mr. Albert Foye and Mrs. Evey Kerr have returned from a trip to Halifax.

A pleasant evening was spent at the home of Mr. Austin Kerr on Monday, Sept. 6th, when Mr. and Mrs. Kerr entertained a number of friends. The farmers have delayed harvesting on account of the rainy season.

Mr. and Mrs. John Louis Cavanaugh visited friends in Rimouski last week. They were accompanied by Mrs. Alex. Cavanaugh of Campbellton.

Mr. Edmond Poirier will leave next week for Quebec to meet his mother, Mrs. Pitre Poirier who is spending a few weeks in Montreal and Quebec.

The marriage was solemnized at the Roman Catholic Church here on Tuesday, Sept. 7th, when Miss Alma Pitre was united in marriage to Mr. Polierane Poirier. Mr. and Mrs. Poirier are now visiting in Quebec.

Mrs. Celestia Bugold has returned from Campbellton where she was a patient at the Hotel Dieu Hospital. She speaks very highly of the excellent treatment received while at that institution. Mrs. Pierre Poirier who was also a patient at the Hotel Dieu has returned to her home and she too is enthusiastic of the service rendered to all patients.

Much sympathy is being expressed for the family of the late Mr. J. Musley, Photographer, who died on Sunday morning after an illness of typhoid fever. He is survived by a wife and large family.

Ready to Oblige. Mistress: "Now, Ada, I want you to show us what you can do to-night. We have a few very special friends coming for a musical evening."

Cook: "Well, mum, I haven't done any singing for years, but as you insist upon it you can put me down for 'The Old City.'"

### OPERATION WAS NOT NECESSARY

"Fruit-a-lives" Restored Her To Perfect Health

158 PAPERMAN AVE., MONTREAL.  
"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist who said I must undergo an operation. I refused. I heard about 'Fruit-a-lives' so decided to try it. The first box gave great relief, and I continued the treatment. Now my health is excellent—I am free of pain—and I give 'Fruit-a-lives' my warmest thanks."

Mrs. F. GARREAU.  
Box a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

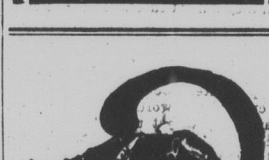

Now She Enjoys What She Eats  
Upper White Head, N.S.  
"I suffered for years with Stomach Trouble and indigestion and could not get anything to help me. I shall never forget the first time I started taking OLIVEINE EMULSION; now I am practically well. I recommend OLIVEINE EMULSION to anyone suffering from Stomach Trouble."

### OLIVEINE EMULSION

### SHILOH 30 DAYS COUGHS

Stiffness  
It is astonishing how quickly Shiloh's Liniment cures stiffness and soreness.

Give Great Relief  
Mrs. A. R. Collier, 25 Park Ave., Seattle, Wash., writes: "My husband and I were afflicted by Stiffness and Soreness in the neck and shoulders. I bought a bottle of Shiloh's Liniment and used it for a few days and the stiffness and soreness disappeared."

MINARD'S King of Pain LINIMENT  
Yarmouth, Nova Scotia

### FROM POVERTY TO AFFLUENCE

Another "Master Mind" Who Acquired \$250,000 in a Few Months.

NEW YORK, Sept. 11.—George Pterostis, who, although he is only 26 years of age, and looks even younger, is said by agents of the Department of Justice to have been the "master mind" in a bill of lading forgery scheme that netted at least \$250,000 in a month, was arrested on the White Star Line pier shortly after the liner Adriatic docked late yesterday afternoon. As soon as he was in custody, special agents Kennedy, Fogarty and Weissmann arrested three other men on similar charges.

The local bureau of investigation of the Department of Justice made public last night the amazing tale of how, as is charged, youthful Pterostis rose from poverty to affluence within a few days, and the equally interesting methods by which he was induced to return to the United States.

Pterostis arranged with firms in Greece for his letters of credit with the big banks here. He had quoted prices on sugar so low that he could not have bought the sugar for his own prices in New York at wholesale.

His method of getting money was simple. Agents said he shipped two bags of coffee or two bags of rice to those firms in Greece with whom he had arranged his letters of credit. The steamship line would give him a bill of lading. He would erase the two bags of sugar or rice and with a milling machine substitute 2,000 bags or double bags of fine granulated sugar. Then, to put a bit of gilding on his handiwork, the agents asserted, he would have the consignment of sugar that existed only on paper, insured. After that he would go to one of the banks where were his letters of credit and get the money.

### NEW CARLISLE.

Miss L. L. Hall left here Friday, September 10th, for Montreal with her sister Mrs. Belgrave, where she will take up Telegraph duties, she was also accompanied as far as Matapedia by her brother.

Miss Hall was employed here by the Great North Western Telegraph Co., and the Bonaventure & Gaspe Telephone Co., for several years with great satisfaction to the people, who are all very sorry to learn of her departure and join in wishing her the very best of luck.

# TRADE AT HOME AND BUILD UP YOUR TOWN

Do YOUR part in building a great City of Campbellton, and the growth of the Bay Chaleur County, by patronizing Campbellton and Bay Chaleur Merchants and Factories. Every dollar you spend in Campbellton and Restigouche county circulates and leaves a profit in every hand that holds it. Money sent away from here rarely returns—when you send it away you are deliberately sapping the life and strength of your community. To patronize home industries is a duty every citizen owes to himself and those he loves.

WAKE UP.

OUR town should wake up to the fact that some one else is occupying the seat that really belongs to us. This represents out-of-town houses that take away business that should go to our own merchants. When will our town wake up? As long as we remain asleep the intruder will keep his place. Only when we decide on the policy of co-operation are we fully awake. We have seen the havoc and ruin of neglecting home interests. Now is the time for Co-operation.

General mercantile display rates on application.

Campbellton, N. B., Sept. 16th, 1920.

### MAKING TRAIN UNPOPULAR.

The C. N. E. management instead of endeavoring to make the through sleeping car from Campbellton to St. John popular seem to be doing all they can to bring it into disfavor. This train is repeatedly late in leaving Campbellton, as the West Local due to arrive at 8:25 is seldom on time. Monday night a number of passengers took the pullman at Campbellton and other points to attend the Exhibition. It was about 10:30 when the train pulled out, having waited for the West Local, from which no passengers arrived for this train. Passengers for local points between Campbellton and Jacques River were thus delayed until a very late hour in arriving home. The pullman passengers, although arriving in Moncton only a few minutes after the St. John connection was due to leave, found that it had proceeded without waiting. Consequently they had to wait until the Maritime Express, which was also late, and only arrived in St. John about 2 o'clock in the afternoon instead of early in the forenoon.

There is nothing more annoying than avoidable delay, and if the management hope to encourage North Shore people to use this train some improvement will have to be made.

### LORD BEAVERBROOK

In printing to its readers a very striking photograph of Lord Beaverbrook, who was the guest of Mayor Schofield at luncheon today, and who is being cordially welcomed by old St.

John friends, Toronto Saturday night says:

"After a phenomenal career as a financier in Canada he went to London while still under thirty and has become one of the most powerful figures in British politics, Journalism and finance. As under-secretary to the Unionist leader, Rt. Hon. Bonar Law, and later as minister of information, he helped to make history during the late war, and was credited with being the man behind most important changes in the political kaleidoscope of the Motherland."

Since he came to Canada his lordship has had something to say on the subject of lower prices, and on this point Saturday night observes:

"The words of Lord Beaverbrook who brings a very acute mind to bear on all economic problems, must have come rather as a shock to the agricultural interests which have been counting on the prices of wheat staying up to the war level. He gives a pointed hint that farmers cannot enjoy enormous crops and unimpaired prices at the same time. Moreover, the depreciated condition of European money is to produce an inevitable reaction. It will be increasingly difficult for the grain exporters of Canada and the United States to find vast profitable markets abroad for two reasons; agricultural production in Europe is speedily getting back to normal; and exchange is heavily against European purchasers. In this respect the Canadian wheat grower is in a more fortunate position than his American neighbor, but the inevitable result in both countries should be cheaper food stuffs."—St. John Globe.

### JUST CRITICISM.

Lady Burnham and other women who travelled Canada from coast to coast with the Imperial Press party, have very frankly answered the challenge for their criticism of Canada with the declaration that "our wastefulness is wicked." They accuse us of being wasteful of food at a time when the world is complaining of a food scarcity. They accuse us of being extravagantly wasteful in our manufacturing enterprises, emphasizing particularly the forest destruction caused by our cutting and milling methods. Speaking of these impressions of her Canadian tour, Lady Burnham declared: "You are wasteful in every way. Your wastefulness is wicked; it is cruel. I cannot tell you how it all has distressed me." If the indictment is a true one, and there can hardly be two opinions on that score, it must at once be apparent that at our own doors lies very much of the fault for the high cost of living of which we so loudly complain.

## DUTIES OF A TOWN MANAGER

What He Would Do And How He Would Work Under Council.

A good deal has been said and written pro and con in reference to a town manager for Campbellton, but many of our ratepayers are not fully conversant with the system as carried out in other towns. For the benefit of all we reproduce the following:

"The people elect, as now, a Mayor and Council, to whom is entrusted the government of the town and the management of its business and affairs, under the law. They correspond to the president and board of directors of a railroad or business corporation; and just as these are responsible to their stockholders, so they are responsible to the voters for the honest and acceptable discharge of their duties. If they fail to give satisfaction, they will not be re-elected and may even be removed. They retain full control of the town finances and accounting, decide what town work shall be done and pass upon appropriations."

"But instead of doing the town work and business themselves or by various employees, they appoint one capable and competent man to superintend and handle it, as Town Manager, just as the directors of a railroad employ a general manager to superintend and handle the operations of the road and see that the work, or construction, or repairing they order is properly done. The Town Manager is directly responsible to the council for the proper and satisfactory performance of his duties, and is also responsible to the people because they at any time may complain of him to the council. The council holds its regular meetings and special meetings when necessary, at which the Town Manager comes before them, reports upon what he has done and tells them what he thinks should be done, and why, and what it will cost; and the council decides the matter and instructs him accordingly. All the votes in the council should be made public, so that people can understand just what their representatives are doing and how they stand."

"Whatever business the people have with the town they transact with the Town Manager. If they want anything done or undone they know where to go for it, and there is no excuse for him to refer them to somebody else or fail to give their business whatever prompt attention it merits."

"If the plan is to be tried out it should be strictly on its merits. To do this, certain conditions are absolutely necessary, namely:

"First:—A Manager must be selected who not only has the other qualifications, but the education and technical training necessary to make him a master of all the different departments of town business. The selection must be based strictly on qualification regardless of residence."

"Second:—After the council have exercised their legislative function by deciding what is to be done and at what limits of expense, the manager must have absolutely free rein to do it in his own way and show whether he can do the job or not. If some local politician can stop him on the street and tell him what he must or must not do to avoid "trouble," he might just as well go in the "good old way."

"Third:—The Manager must have absolute authority over all persons who work under him, including employment and discharges. "Unless these conditions are observed we shall never know whether the plan is a success or a failure, and it is of little or no use to try it at all."

It will be seen by the above that far from being a fifth wheel of a coach, the Town Manager would be at the reins and thus keep the civic affairs in proper running shape. His will be the guiding hand and he would be responsible for the proper working of all departments, who would work with and through him to serve the interests of the town.

There is no doubt that such a manager could keep in closer touch with all town matters and by his knowledge of all departments, could in the purchase of supplies save a considerable amount yearly.

### Observant Youth.

Little seven-year-old James came home from school the first day with a determined look on his face. He was decided on one point. "Mother," he cried, "I'm going to quit school and be a school teacher."

"Why, James," said his mother, laughing, "how can you? You don't know enough."

"Don't know enough!" exclaimed the would-be teacher. You don't have to know anything. All you have to do is to ask questions."

### Something in Oils.

He was anxious to purchase a present for his wife, as he liked pictures and as the walls seemed bare, he soon hit upon a satisfactory form for his gift.

"Where shall I find something really nice in oils for the dining room?" he asked the clerk at a department store.

"On the third floor," began the clerk; then he paused and looked doubtfully at the inquirer. Did you mean a painting or something in the sardine line?" he asked.

An Englishman, a Scotchman, and an Irishman were indulging in reminiscences of sporting occasions.

"The closest race I ever saw was a yacht race," said the Englishman, "in which one of the boats that had been recently painted won by the color of a coat of paint."

"The closest race I ever saw," declared the Scotchman, "was one in which a horse, stung by a bee, won by the height of the swelling on his nose."

"The closest race I ever saw," said the Irishman, "is the Scotch."

### Paddy Scored Again.

An Irish sentry was on guard near the powder magazine when the orderly officer approached his post smoking a cigar. Paddy, remembering his orders, halted the officer and told him to put out his cigar.

Complimenting Paddy on his smartness, he threw it away and went on his way.

When out of sight Paddy picked up the cigar and started to smoke himself. The officer, returning, found to his surprise that Paddy was smoking and asked him for an explanation.

"Sure sir," exclaimed Paddy, "I'm smoking this as evidence against you till the sergeant of the guard comes round."

### THANKSGIVING ON OCTOBER 18TH.

**RAIN CAUSED VERY**

**HEAVY LOSSES.**  
Frederickton, Sept. 15.—Hon. J. F. Tupper has made an estimate of a shrinkage of twenty-five per cent. in the potato crop of New Brunswick on account of the blight as result of the continued wet weather of the last fortnight. There will also be a heavy loss in grain although the crop looked the best in years until the rains set in.

**POSTMASTERS AS**

**EMPLOYMENT AGENTS.**  
The Canadian government employment services, which had been confined to the large centres has been extended to smaller places and hereafter postmasters will take up the work and aid employers to obtain help and the unemployed to find work. A plan is also on foot to assist boys and girls who are forced to leave school at an early age to obtain suitable employment where they can still learn.

**MENULTY-HAMILTON.**

A quiet marriage was solemnized at the Presbyterian Manse on Sept. 14th when the Rev. Hugh Miller united in marriage, Miss Edna Earle Hamilton, daughter of Mr. Jas. Hamilton of Bel River and Mr. Robert McNulty of Rexton, N. B.

The bride, who was attended by Miss Muriel Smith, wore a travelling suit of navy blue serge, with smart hat to match. The gift of the groom was a set of grey fox fur.

Mr. and Mrs. McNulty left on the Ocean Limited for a two week's trip to Moncton. They will reside at Rexton, N. B.

## Local Items of Interest

*Neatly Notes of Town and Country Happenings  
Gathered by Graphic Reporters.*

**BORN.**  
On Wednesday 15th inst., at the Hotel Dieu Hospital, to the wife of H. St. Clair Jelliff, a daughter.

**MACKINAW.**  
We have just received a shipment of heavy All Wood Mackinaws for Men and Boys.

**ANDREW'S CLOTHING STORE.**

**AFTERNOON TEA.**  
Lady Carson Lodge No. 37 of L. O. E. A. will hold a tea at the home of Mrs. Wm. Macomber, near Roseberry Street School on Friday evening, Sept. 17th, between the hours of 7:30 and 10 o'clock. Price of tea 50c. Everyone cordially invited. Sept. 16-2 inst.

**PROFESSIONAL.**  
Dr. A. Pierce Crockett, eye, ear, nose and throat specialist of St. John will be at the St. Louis Hotel, Campbellton, FRIDAY, SEPT. 24th, where he may be consulted professionally. Sept. 16-2-pd.

**MILLINERY OPENING.**  
At Henderson's Millinery Parlors, Friday and Saturday, Sept. 24th and 25th, where a beautiful display of fall hats will be shown.

**FALL AND WINTER OVERCOATS.**  
Call and see our new Fall and Winter Overcoats.

**ANDREW'S CLOTHING STORE.**

**REWARD.**  
For the return of a Dark Brown Water Spaniel Pup. Anyone retaining the dog after this notice will be prosecuted.

**GEO. G. McKENZIE.**

**RAIN CAUSED VERY**

**HEAVY LOSSES.**  
Fredericton, Sept. 15.—Hon. J. F. Tupperdale has made an estimate of a shortage of twenty-five per cent. in the potato crop of New Brunswick on account of the blight as result of the continued wet weather of the last fortnight. There also will be a heavy loss in grain although the crop looked the best in years until the rains set in.

**POSTMASTERS AS**

**EMPLOYMENT AGENTS.**  
The Canadian government employment services, which had been confined to the large centres has been extended to smaller places and hereafter postmasters will take up the work and aid employers to obtain help and the unemployed to find work.

A plan is also on foot to assist boys and girls who are forced to leave school at an early age to obtain suitable employment where they can still learn.

**McNULTY—HAMILTON.**

A quiet marriage was solemnized at the Presbyterian Manse on Sept. 14th when the Rev. Hugh Miller united in marriage, Miss Edna Earle Hamilton, daughter of Mr. Jas. Hamilton of Bel River and Mr. Robert McNulty of Rexton, N. B.

The bride, who was attended by Miss Muriel Smith, wore a travelling suit of navy blue serge, with smart hat to match. The gift of the groom was a set of grey fox furs.

Mr. and Mrs. McNulty left on the Ocean Limited for a two week's trip to Moncton. They will reside at Rexton, N. B.

## ENFORCEMENT OF PROHIBITION LAW

Number of Licensed Vendors to be Limited. Recommend Changes.

FREDERICTON, Sept. 11.—In their efforts to make New Brunswick "bone dry" it is understood the New Brunswick Temperance Alliance are taking steps to have the number of licensed vendors in the province limited and otherwise curtail the sale of liquor.

In addition to limiting the number of vendors the alliance has also suggested limiting the amount of intoxicating liquor which can be prescribed by a physician and already steps are being taken to keep a closer check on the sales of vendors.

All this is believed to be leading up to eventually having liquor sold in this province only through government depots, both wholesale and retail.

During the past few days Chief of Police Finlay, who recently resumed the duties of sub-inspector for Fredericton, has checked up the stocks on hand in the stores of the various vendors here and yesterday a former vendor, whose license had been cancelled some time ago, shipped his entire stock on hand back to the wholesalers in Montreal from whom it had been purchased.

The wholesale price of this whiskey when bought is said to have been about \$19 a case while now the same brand is selling at about double that figure in Montreal.

**OBITUARY.**  
The death of Miss Laura A. McNair, daughter of Mr. and Mrs. Jas. McNair occurred at her home at Upper Charlton on Monday, after a lingering illness which she bore with Christian fortitude.

Deceased who was in her twenty-third year, is survived by her father and mother, four brothers, Howard, Raymond, Sydney and Osborne and one sister, Mrs. Alexander of St. John.

The funeral was held on Wednesday and was largely attended, the services at house and grave being conducted by Rev. Hugh Miller of Campbellton.

The pall-bearers were: Messrs. Clarence, Edward and Byron Craig, Robert McConnell, Burgess McConnell, Alonzo McConnell and Herbert McConnell.

A loved one from us is gone. A voice we loved is stilled. A place is vacant in our home which never can be filled.

Angus Everette Dobson.  
The death occurred at Campbellton on Wednesday, September 8th, of Angus Everette Dobson, the little son of Mr. and Mrs. Angus Dobson.

The funeral which was largely attended took place on Friday at 2:30, the Rev. Mr. Camp conducting the service, interment in the Rural Cemetery.

The pall-bearers were Messrs. David Bolton, Herbert Warren and Harvey Harris of Broadlands, Que., and G. Rustie.

Many beautiful floral tributes were sent, among them being a wreath from Mrs. W. M. Rogers, a cross from Mrs. H. Harris, Broken Creek, from the family and cut flowers from Miss Rogers, Mrs. Duthie and Mrs. Court.

**SHORTER HOURS FOR WIVES.**  
London, Eng., Sept. 14.—Dr. T. Baillie Smith, health officer at Aberlilly, advocates shorter hours for wives. He declared that the women at the head of households should obtain more rest and believes that men should help in household duties in order that this may be brought about.

**TRAINS DELAYED.**  
Because of a freight train wreck at Little Media Monday night, the Maritime Express did not reach here Tuesday until nearly noon. The Ocean Limited was also delayed about a half hour.

**PINE AGAIN.**  
The weather cleared up Wednesday after almost two weeks of rain and east wind. The rivers and brooks are all very high and the roads throughout the country are very rough.

Mr. Wm. R. Gremley, vendor of big game licenses had up to this morning sold fifty-five big game licenses.

**ST. ANDREW'S CHURCH.**  
NEW CHARLISLE, QUE.  
A. W. Buckland, Rector.

Rev. C. Eardley Wilmet of Shiga-wake, will preach next Sunday evening in St. Andrew's Church. Mr. Wilmet was formerly attached to the Cathedral Quebec. His subject will be a special message to St. Andrew's congregation. Everybody welcome.

**GAME LICENSE.**  
Mr. Wm. Gremley has been empowered to sell the usual big game licenses. The regulation in reference to the oath has been suspended by a special telegram received by Mr. Gremley last evening. All now desiring licenses can get same.

**PRESENTATION.**  
Mrs. Alexander E. Robertson, formerly Miss Mamie Duncan, who for some time has been the efficient leader of the Life Saving Guards of the Salvation Army, was very pleasantly remembered by the Campbellton Troop on Friday evening, Sept. 3rd, when after the regular meeting of the Guards at the Citadel here, she was presented with several pieces of beautiful cut glass and the following address was read:

September 3rd, 1926.  
To the Life Saving Guard Leader, Dear Leader—

On behalf of the Life Saving Guards of the Campbellton Troop, we wish to extend to you our heartiest congratulations and in appreciation of your services rendered, we wish you to accept these slight tokens of our regard, together with the best wishes for your future happiness.

(Signed)  
The Campbellton Troop.

**TURNED STUMPS INTO FODDER AND RECEIVED INCREASED MILK SUPPLY.**

When the dairy farmer of this future needs feed for his cow he may get a fresh supply by going out in his wood lot and reducing a few stumps to sawdust. By chemical treatment hydrolyzed sawdust may be converted into a nourishing cattle food.

This fact was brought out today at the sectional meeting of industrial and engineering-chemists, American Chemical Society, at the University of Chicago. The process of preparing such animal food was described by E. C. Sherrard and G. W. Blanco.

White sawdust, finely ground, is treated under steam pressure with diluted sulphuric acid in a large boiler, known as a digester. This breaks up the fibre and extracts the sugar. To prevent injurious effects, the acid is neutralized by adding lime to produce chemical action. The liquid thus obtained, when boiled down, is rich in sugar, and when mixed with the fibre, produces a moist feed containing about 15 per cent of water, in which form it is fed to dairy cows.

At the Forest Products Laboratory, United States Department of Agriculture, Madison, Wis., experiments proved that three cows thrived on this sawdust ration, and not only gave more milk, but increased in weight.

The result was so satisfactory that the government has decided to take up matter on a larger scale at the experimental stations throughout the country and furnish a detailed report on the value of hydrolyzed sawdust as cattle food.

**DISCOUNT NOW.**  
Pay your taxes now and take advantage of the 5 per cent discount.

**Absent Minded.**  
Prof. Dogbody, LL.D., LL.S.D., is absent minded. One night he returned home late and rang the bell. Every one was in bed. So he rang again—quite forgetting he had his latchkey.

At last his housekeeper's head protruded itself from a second story window.

"The professor," declared the head, "isn't in."

"All right," he answered, quietly, "I'll call again." And, hobbling down the steps, he went forth once more into the cold and cheerless night.

It was a proud day for the Jenkins and the Smiths. The first grandchild was being christened, and a host of admiring uncles and aunts had turned up to witness the great event.

"And the name is to be—"asked the clergyman suavely, as he stood beside the font with his armful of silk, lace, ribbon and red face.

"Augustus Philip Frederick Charles Snooks Chesterfield," replied the godmother, all in one long breath.

"Dear me!" exclaimed the clergyman. Then he turned to the sexton. "Some more water, Mr. Perkins, if you please."

## FED SAWDUST TO THE COWS

Turned Stumps Into Fodder and Received Increased Milk Supply.

When the dairy farmer of this future needs feed for his cow he may get a fresh supply by going out in his wood lot and reducing a few stumps to sawdust. By chemical treatment hydrolyzed sawdust may be converted into a nourishing cattle food.

This fact was brought out today at the sectional meeting of industrial and engineering-chemists, American Chemical Society, at the University of Chicago. The process of preparing such animal food was described by E. C. Sherrard and G. W. Blanco.

White sawdust, finely ground, is treated under steam pressure with diluted sulphuric acid in a large boiler, known as a digester. This breaks up the fibre and extracts the sugar. ### KNOW VALUE OF TRAVEL

#### Women of Australia Are Not Provincial.

While the women of the world were clamoring and fighting for the much-longed-for vote the wise men of Australia saw that their women folk obtained that possession. Yet, though it pleased her to have it, that vote has not altered the life of the average woman of the commonwealth. It has not even provided one woman member for either the Federal or State Parliaments.

Women who have been near the heart of the world might think that the life of women in a far-off country must lack much. They would not have to spend five minutes in the commonwealth to discover their mistake. First of all, its women do not think their country is far off. If they cannot get to America and Europe, they know that many of the best things of both countries come to them.

All Australian women know the value of travel. No matter what their station in life they cherish one idea from childhood. They want to see the countries and things of which they have been told by their parents and teachers. Six weeks to London, four weeks to America mean nothing to the Australian girl or woman. Both have been born in a land of big distances. The woman from Australia sets out on her foreign travels happy in the knowledge that having been born in a new country she has an original point of view, that tradition has not got her in its grip, that she has a large capacity to learn and assimilate.

In the earlier days of Australia women were rather imbued with the early Victorian idea that to earn a living was "not quite the thing." In 1893 there was a big financial crash in the country. It brought to the ground with one fell swoop the fortunes of many families. But out of that crash came many women's first chance. Many who had hitherto led a dull, pampered existence were thrown into the commercial world. They set the fashion which still holds good. Nowadays, even though the financial standing of a family makes work unnecessary, girls are invariably brought up with the ability to earn their living, even though they may never be forced to do so.

One of the first things that impress the visitor to Australia is the smart, up-to-date attire of the women. There are few who do not dress exceedingly well, and in no grade is there a slavish following of the fashions set by Paris, London or New York. The Australian woman certainly pays attention to these fashions, however. Their arrival is awaited with almost feverish impatience. They are studied, then converted to the local setting.

The B.C.L., as she is called everywhere, has, of course, swept down the Pacific to Australia and has given the woman of Australia something to think about. Few Australian girls but can make their own frocks, trim their own hats or remodel last year's hats and gowns if occasion demands.

The Australian home is generally built for comfort rather than style. Hospitality is the slogan of the country. Snobbishness does not exist. Attractive personality and warm-heartedness count more with the women of Australia than social position, bank accounts and long pedigrees.

When it comes to trying to solve the domestic problem the Australian woman perhaps has more difficulty than women of other lands. The white Australian policy prevents the obtaining of Chinese or Japanese servants. Local factories have attracted hundreds of hitherto satisfied domestics, and even though high wages are offered help is often difficult to obtain. This is where the adaptability of the Australian woman comes in. She does not force her family to restaurant life; neither does she grumble about enforced domesticity and cooking. Both may be distasteful to her, but if she has to accomplish them she does so, as part and parcel of the bargain she thinks it her duty to keep.

Open house is the order of the day and often means many visitors at all sorts of odd times. The more visitors the Australian woman has in her home the happier she is. She has a philosophy that it is as easy to cook for twenty as for two.

There is one thing that is the possession of almost every woman of Australia and Tasmania. That is a voice. Once some traveler returned to his country with the information that in Australia birds do not sing. No one could ever say this of the women. Music plays a big part in their lives. A deep appreciation of music they have, too. Melba is responsible for the best to be found in her native land; the conservatoriums. Poor music makes no appeal to the woman of Australia. She likes jazz and ragtime; she can dance to both with a will, but if she can hear grand opera or classical music, jazz and ragtime take a second place.

**One of the Blind.**  
A bill has been introduced in the British Parliament concerning the care and training of blind persons. It provides that it shall be the duty of every local authority to make sufficient and suitable provision for the technical training, employment and maintenance of every blind person more than sixteen years of age within its jurisdiction.

**Back to Adam.**  
There is a chart at Hatfield tracing the genealogy of Queen Elizabeth back to David, and thence to Adam. It measures 45 feet, and is believed to be the largest genealogical tree in existence. Costs of arms and heraldic devices are attached to many of the illustrious names given.

**The Green Room.**  
The little waiting-room, close to the stage, for the use of actors during intervals, was originally colored green as being restful to the eyes after the glare of the stage. And so it became known as the green room.

**Cannot Break Habit.**  
Maid—Her husband is always running around in circles at home.  
Cook—His wife tells me that it's from force of habit. He uses a switch-chair in the office.

**Entirely Qualified.**  
"Do you know the nature of an oath, madam?"  
"Well I know, we've just moved, and my husband has been laying the carpets."—Stray Stories.

### GENGHIS KHAN.

#### He Was a Forerunner of the Modern Hun.

In the thirteenth century a numerous and warlike people of Central Asia, called Mongols or Moguls (generally known as Tartars) burst like a devastating flood upon unprepared Europe, and made deserts of many countries.

A petty Mongolian prince had a son named Temujin, who at the age of thirteen began to rule over his tribe. Insatiable ambition drove him to the safety of Aqut-Khan, a Tartar prince, who later was driven out by his brother. Temujin gathered a force and restored Aqut, who rewarded him with his daughter in marriage. Quarrels arose between the two, and Aqut's son, the destruction of his son-in-law, Temujin, and soon after, falling upon his enemies at the head of a wild force, glutted his vengeance by putting them to the sword.

The taste of blood and victory inflamed the fierce young leader, and his sweeping conquests gathered around him a large and merciless army. Using his growing power with vigor and judgment, he soon obtained such an ascendancy as to be acknowledged, in 1206, Chief of the Mongol tribes, when he assumed the name of Genghis-Khan—"Chief of the Very Mighty."

And now, having unquestioned command of an innumerable host of born fighters, he commenced a victorious and frightfully destructive career of conquest.

The Emperor of China, whose general he had been, experienced the first weight of his power. The northern part of China was invaded in 1210, and in the course of several years the capital was taken by storm and plundered, and a vast tract of that country subdued.

Then, turning west and south, he attempted the murder of his ambassador by sweeping through Turkestan with the devastating fury of a tornado. His 700,000 fierce and pitiless warriors created a fearful havoc. The two great cities of Bokhara and Samarcand were stormed, pillaged, and burned, and upwards of 100,000 persons of all ages and both sexes slaughtered. In 1222 he drove the Sultan of India over the Indus and retained master of all Carmania.

Continuing his savage career Genghis encountered the sovereign of Tangut, and in a great battle on a plain of ice formed by a frozen lake, defeated him and slew it is said 300,000 of his men.

Advancing with his horde, from the mouth of the Don, he overthrew the Russians and their allies, and their prince, Mstislav, was slain. Ravaging the south of Russia, he then retired over the Volga. Conquering wherever he marched, he extended his territory until it comprised within its vast boundaries Northern China, Eastern Persia, and the whole of Tartary.

In achieving the conquest of these "barren acres" it has been computed that he slaughtered 5,000,000 of the human race; and in the cities of Central Asia his barbarous soldiers destroyed countless treasures of literature and art.

While preparing to conquer the remainder of China, this ruthless warrior, grown old in bloodshed, died in 1227. Four of his sons divided his Empire, among whom Ocal was Supreme or Great Khan.

Ocal was a ruler of government as he was valiant and capable in arms, and the effects of the wide-sweeping conquests of this scourge of mankind are felt to this day. One of his successors led his warriors on through Russia, Poland, and Hungary, ravaging the land, but making no settlement except in the Crimea, where he was known as the Golden Horde. In Asia the Mongols drove before them from the Caspian Sea to the Turkish, who finally overwhelmed the Christians of Palestine in 1243.

In 1258 Hologar Khan, a grandson of Genghis, took Bagdad and conquered and covered Persia. In Asia the power of the Kingdom of the Seljuks was overthrown, and then the power of the Ottoman Turks began. One of the Emirs or leaders of the Turkomans—who had been driven from the Jirganduk by the Mongols—was named Othman. He, the bold and successful captain of a robber band, made himself master of a large part of Asia Minor in 1299, founding upon the ruins of the Saracen, Seljuk and Mongol power the Empire of the Ottoman Turks in Asia. His vigorous and capable successors went from conquest to conquest until, in 1453, by the overthrow of the last weak and effete remnant of the Roman Empire at Constantinople the cruel Turkish rule was finally established in the most beautiful and historic corner of Europe.

**A Large Saw.**  
The largest circular saw in the world have just been made to fill a special order from a Pacific coast lumber mill. Each saw is 104 inches in diameter, weighs approximately 795 pounds, and includes 190 teeth. The latter are inserted in the rim, and can be replaced if broken. Two steel ingots, each weighing 1,140 pounds, were the raw material from which the great disks were made. The saws will be used for cutting big logs into lengths suitable for the production of shingles.

**Need Locomotives.**  
In Africa there is a lack of locomotives which is felt just as acutely as is being experienced in the remainder of the world and for the purposes of a light railway, cars are being drawn along the tracks by road tractors, which move along on a road built beside the tracks.

**Ancient Gerns.**  
In a papyrus of Ptolemaic age Prof. Galippe founds germs that after three hours of exposure to moisture rotted. They had been asleep 2100 years, and they were identical with the micro-organisms found on the plants, which the Egyptians used in making their papyrus.

**WOMAN'S STATEMENT WILL HELP CAMPBELLTON**  
"I hated cooking because whatever I ate gave me sour stomach and a bloated feeling. I drank hot water and olive oil by the gallon. Nothing helped until I tried simple buckthorn bark, glycerine, etc., as mixed in Adler's-Ka." Because it flushes the ENTIRE bowel tract completely Adler's-Ka relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. The INSTANT action is surprising. A. McE. McDONALD, Druggist.

## LABOR BUREAU FOR CAMPBELLTON

Proposal Put Before Town Council At Informal Meeting Here.

An informal meeting of the town council was held on Monday evening to hear Mr. Howard of Ottawa and Mr. Christie of Moncton in connection with the establishment of a labor bureau in Campbellton. Both gentlemen were given a most attentive hearing as they explained the benefits of the bureau and the arrangements under which same were to be conducted.

The Federal Government has appropriated \$250,000 annually for the upkeep of such labor bureaus throughout Canada, agreeing to pay 50 per cent of the running expenses in connection with these bureaus, conditional upon the province paying the other 50 per cent.

In many of the provinces throughout the Dominion the local governments have accepted the Federal Government's arrangement and have pledged themselves to pay the remaining 50 per cent.

Unfortunately in New Brunswick the government has not been able to pay their proportion of the upkeep of these bureaus and an effort is being made to establish at least six within the province, the local government paying 25 per cent of the running expenses and the town or city where these might be established the other 25 per cent.

Campbellton, Bathurst, Newcastle, Chatham, Fredericton and St. John are mentioned as the six places, but there is no reason why the number should not be increased if more municipalities are willing to pay their share of the upkeep which the Provincial Government is now expecting them to do if such bureaus are to be established.

The bureaus so established are to be by nation-wide, and will at the same time serve local needs. No fee is to be charged employer or workman for services rendered.

Under the arrangements as outlined, the town council would appoint the local superintendent here, also the lady stenographer, both of whom must give their full time to the work, and it is expected that both the officials receive adequate salaries for their services.

The salary for the superintendent being placed at from \$1,500 to \$1,800 per year and that of the lady stenographer in the vicinity of \$950.

The duty of the superintendent would be to supervise the work and be constantly on the job.

The duties of the lady stenographer in addition to attending to all correspondence would be to look after female help, the bureau even giving assistance in procuring domestic help.

Another condition to be complied with is that the office be kept open eight hours every day. Sundays and holidays being of course excepted.

The benefits to be derived from such institutions were fully explained by the speakers, and there is no doubt whatever that the establishment of such bureaus would be of great assistance throughout the Dominion and particularly so in New Brunswick.

## WANT LEGISLATURE CALLED EARLY

To Pass Legislation Prohibiting Importation of Intoxicating Liquor.

Fredericton, Sept. 14—While the provincial government were meeting at St. John yesterday the executive of the New Brunswick Temperance Alliance were meeting here with President Donald Fraser in the chair, making preparations for the part they propose to play in the coming general provincial election. The Alliance executive decided to again urge the government to convene the legislature at the earliest possible date and pass the legislation prohibiting the importation of liquor into the province for personal use at once as the first item of legislation.

The executive went on record again as "deploring the action of our legislature in April last to grant the request of the Alliance and to ask for such referendum as provided by law."

An resolution set forth that in view of an election an effort be made to secure pledges from every candidate nominated the executive having approved of the recommendations of the committee in having candidates of tried and true temperance principles nominated for the legislature at the next provincial election and that we take such steps as are required to bring about this result.

It is also stated that it was decided to send out pledges to all the candidates in the next election pledging them to support the referendum on the question of liquor importation and to use their vote and influence in support of the prohibition act and amendments to the same, making it more comprehensive and effective.

The Alliance also want to nominate the commission to administer the prohibition act after October 31st next, when all present licenses expire.

Branswick, as these bureaus would be in constant touch with the outside world, and could furnish suitable help for those requiring it on short notice.

In addition to the establishment of these local labor bureaus there would be a clearing bureau in each province, that for this province being located in Moncton.

Daily reports from the local bureau would be sent to the clearing bureau in each province, that for this province being located in Moncton.

Daily reports from the local bureau would be sent to the clearing bureau, which bureau would furnish a weekly report to be sent to Ottawa, from which quarter every local bureau in Canada would be made aware of the number of carpenters, masons, farm help, workmen in every occupation, tradesmen, clerks, professional men, nurses, domestic help, etc., wishing employment.

This report would also specify the needs of employees in all localities and in this way should a local bureau not be able to find help for those requiring it that bureau would weekly be notified in what locality the desired help could be secured.

## "BLIND HUSBANDS"

One of the Season's Greatest Artistic and Popular Successes.

THIS is the wonderful picture which authorities consider one of the three best photodramas that the art of the screen has ever produced. Simple in plot—the story of a neglected wife—"BLIND HUSBANDS" is the most absolutely gripping photoplay you have ever seen—with a tremendous surprise at the end that will make you gasp. With its scenes in the Alps, "BLIND HUSBANDS" rises to heights of drama as overpowering as its towering peaks. If you miss this picture you will miss one crowded hour and three quarters of photoplay entertainment—a picture that you'll never forget.

THE LOVE STORY OF "BLIND HUSBANDS" IS AS APPEALING AS THE MOST BEAUTIFUL ROMANCE IN YOUR MEMORY—A SCENIC MARVEL AS WONDROUS AS THE MOST INSPIRING TRAVEL PICTURE YOU'VE EVER KNOWN.

A Big Show—Don't Forget the Dates!

And Watch for Circulars for Details.

Note—Special Starting Hours.
