These Suits Are Worth Talking About

Hard to say which is the prettier. They are fair representations of some we are showing today, almost identical in style and finish. Why should I go to a tailor (one lady said), when I can get such faultless tailored suits, all ready to put on? Suits of character, such as we represent here, made of all-wool, fine broadcloth, with trimmings of beautiful silk braid and buttons, we need say but little about. Our ladies do the talking when they have seen the styles, for never have we shown such perfection in Ladies' Tailored Suits (ready to wear). Even if you don't want to buy, these should be seen.

Stripe Broadcloth Suit, \$21.00

This is the new shade of dark grey. invisible stripe broadcloth. Coat, 32 inches long, mercerized lining, singlebreasted, with bias strapping on seams. Skirt 9-gore, trimmed also with wide bias fold, buttons and bias strappings, for \$21.00

Stripe Brown and Blue Suits. \$35.00

In view of the question of veracity thus raised by "Mr. Borden, the chief," it is not difficult to account for the strained relations between Mr. Graham and the Montreal Star on the one hand and the Conservative leader

Possibly with the view of winning back the financial and editorial assistance of Mr. Graham, Mr. Borden has deemed it wise to change his tone. Speaking at Montreal a few weeks ago the Opposition leader said:

"Let me say further, in respect to some alleged or supposed discrepancles between Mr. Graham and myself: With regard to a certain letter that the memories of men may be at fault to the date or contents of a letter; but I would be last to imagine and I am sure you will agree with me, that Mr. Graham would ever in the slightest degree deviate from the truth in any statement made by him, whether made under oath or otherwise. And I want to say that so far as my knowledge of Mr. Graham goes. I would infinitely rather rely upon his unsworn statement than upon the sworn affidavits of many of those men who are vilify ing him in the Liberal press."

The western agents of the Canadian Pacific Railway are now proclaiming that, with the crop movement actually under way, the business depression over for good. What is worth while to note, however, is that this ready recuperation has been made possible by the fact that in the last ten years in the west the process of settlement has gone on in earnest. What has enabled the railway men to regain their confidence is the fact that there are a million people in the west now, where twelve years ago there were a couple of hundred thousand and that they have ten million acres un der grain, where formerly there were but two millions to draw from. The filling o the west with men is the great practical achievement of the Laurier administra tion, for the market created by the pres ence of the new population has been th means of restoring normal conditions in Eastern Canada as well, of keeping at home those who formerly went to the States for work, and who will now go every Canadian city in the past ten years, have been running on short time during the period of non-production that resulted from the dislocation of business in all the world's great financial centres. S. McMillan Colwell is charged with having by threats and violence secured from Mr. Charles Damm the sum of \$500. It is charged that in December of last year Robert Colwell and another man held up Charles Damm at the point of a revolver, in a Woodstock hotel, and compelled the latter to pay over \$500 in cash, and to give a mortgage for \$4.200, to prevent his arrest on a trumped-up -charge of having guilty knowledge of the murder of a man named Fause.

> It is stated that the man who was with Colwell claimed to be a constable. and, producing a revolver and handcuffs, told Damm that unless he gave him \$5,000 he would take him to the lock-up, whereupon Damm paid over to the supposed constable \$500, and subsequently gave him a mortgage on his farm for \$4,200. Shortly after this. Damm learned that he had been swindled by Colwell and his confederate, who had fled to the United States. Mr. McMillan met Colwell in Port Huren in the course of some lawsuit in which he was interested, and on pretence of securing an affidavit from him induced Colwell to call at his office here this morning, when the arrest was effected, by Detective Sarvis, who took his prisoner to Woodstock. GUILD REFUSED THEIR COMPANY

Mr. Zealand, of Hamilton Wholesale Grocers, Cross-Examined by Mr. Johnston.

Toronto, Oct. 23.-Continuing his effort to break down the case of the complainants in the case against the Dominion Wholesale Grocers' Guild before Chief Justice Falconbridge this morning, Mr. E. F. B. Johnston, K. C., for the defense, subjected Mr. H. W. Zealand, organizer of the Wholesale Grocers' Company, of Hamilton, to a

severe cross-examination. Witness admitted that his company had applied for membership in the Guild, but were refused. The company was organized in 1903, with nearly 60 shareholders, all retail grocers, who were given a bonus of one \$10 share on every five purchased. Witness invested \$500 in stock; and was given a bonus of \$5,000 stock for promotion fees. In the scheme to secure profits it was agreed that seven per cent should first be paid on stock, and that any surplus should then be divided among the purchasing shareholders. according to the size of their order. In all 980 accounts were secured on the company's books.

"By these facts, I should judge," said Mr. Johnston, "that none outside the sixty shareholding retailers secured any rebates from you; any special privileges in buying. And yet you call that an honest arrangement, a perfectly legitimate wholesale business?" "I certainly do."

"Did you arrange with any manufacturer to entrust your company and machinery to handle his goods ex- discussed the tobacco trade conditions clusively in Ontario?" "Yes."

"True." "Then, after the first two years of business you found your members buying from other wholesale grocers?" "Yes. Their travellers were knocking us, saying our lack of Guild membership prevented us getting goods at right prices."

Cut Off Profits.

Mr Zealand told of the failure of the co-operative system in his business, and the employment of travellers, which move cut off the profits for the year ending July, 1905, when the sales to shareholders showed a falling off of \$25,000.

Mr. Johnston tried to get Mr. Zealand to admit that his firm was virtually an association of retailers, and read from a copy of the bylaws of the company, in which it was describ-

ed as an organization of "retailers for the retailers." Witness said the wording was faulty. "That means it was false," remark-

the progress it is making in curing women's disorders, and that, too, within a few days after commencing its use. All authorities agree that in every case of women's disorders there exists a congested condition of the womanly organs. The circulation in these parts is sluggish or stagnant, and the result is that the broken-down tissue or waste matter which should be carried off if the blood was circulating freely, remains in these parts, causing inflammation, irritation, oppression of the nerves, etc. Orange Lily is not taken internally, but is applied direct to the suffering organs. It is absorbed into the circulation, and its antiseptic properties at once act on the waste matter referred to above. The consequence is that this waste matter, which is causing the inflammation, ulcers, nervous troubles, etc., begins to be discharged, and it continues to be discharged until all the foreign matter is removed from the circula-

tion. At the same time the blood vessels and nerves are toned and

strengthened, the nervous trouble disappears, the circulation is restored. Toronto, Ont., June 2, 1904.

WILL BE RELIEVED FIVE MINUTES AFTER TAK-ING DIAPEPSIN.

Why not start now-today, and forever rid yourself of Stomach trouble and Indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of you eat will do you good.

ALL MISERY IN THE STOMACH here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and besides one trinagule will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works, your stomach rests-gets itself in order, cleans up-and then you feel like eating when you come to the table, and what

the boys of the M-E-D! It was the Meds who were given the opportunity of celebrating a great class victory at the annual Western University field sports yesterday at Queen's Park, and they made the wel-

It looks extremely like an attempt on the part of some of the Conservatives to stampede East Middlesex. Not one Liberal has been directly or indirectly connected with the supposed attempts to bribe electors. This is admitted by the London Free Press.

If Watcher did attempt to buy votes for the Liberal candidate it was either part of a scheme to embarrass Dr. Better Buildings in This Country the large amount of money that the churches devote to their Sunday man really anxious to buy votes, with the dangers of such a pursuit vividly impressed upon him, would have advertised his business quite so openly as Watcher is alleged to have done in this instance.

The story was well timed, so well timed that it was sent throughout the riding of East Middlesex with scant time to contradict it, and explain its true inwardness.

Liberals are warned to be on the lookout for such canards, and protect themselves. It is quite probable that another similar tale will be sent out today there were boarded 1,135 boxes of at the very last moment. Boswell had many weaknesses, but there were two things to remember-first, that Johnson knew them all and yet loved him, and that insanity was well marked in his family. That was ordinarily a too facile method of accounting for peculiarities, but in this case it was sorrowfully reasonable. As to those defects and errors, they would do wisely to remember Dr. Johnson's own says ing: "Few have all kinds of merit belonging to their character; we must not examine matters too deeply. He then handed to Mr. Fitzgerald an illuminated and framed vote of thanks from the Corporation, and the recipient said it would be placed among his heirlooms as one of his most treasured possessions.

The crowd joined in singing the National Anthem, and the proceedings terminated with three very hearty cheers for the donor of the statue.

My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New Method Treatment. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. OXFORD'S NEW SCOPE.

The will of Cecil Rhodes, which pro vided for the maintenance at Oxford of a large number of scholars drawn from all parts of the English speaking world and in a small proportion from Germany, undoubtedly impressed the public imagination more than any other testamentary document of modern times. The lofty spirit of British patriotism which inspired it, the touch of wider idealism which gave it a distinction altogether singular, the strik ing part which the testator himself had played in the drama of our national life, all contributed to throw a glamor of strange interest over the plans by which Mr. Rhodes proposed to perpetuate and project on the future of the world the ideas which had absorbed his busy brain during his short lifetime.

Since his death the scheme has been organized under the direction of his chosen trustees, and it has now been in operation at Oxford for five years. Four groups of scholars have come into residence, and a fifth will do so in the autumn of this year. One group, almost seventy in number, has completed its three years' course and the men have returned into the active life of their own countries.

I doubt if Oxford itself has yet be gun to understand the immense widening of her horizon which is sure to come and is already beginning to come

But the return of Rhodes' scholars perplexed about their future. The avenues to all employments in this crowded country become more and more choked with competitors. The greatest objection that such men have hitherto tries beyond the sea is that they cut themselves off from the university associations and friendships which often prove so great an assistance in working out a career. But henceforth there will be few men at Oxford who do not have a list of personal friends in every part of the great colonies-friends who will give them a welcome and open door to them .- G. R. Parken, C. M. G., in the Sphere.

TALISMANS IN MALTA.

There are still to be found in Malta number of small stones shaped and colored like the eyes, tongues and other parts of serpents. The superstitious among the Maltest connect these with the traditions that St. Paul when shipwrecked was cast on their island, and that it was there while lighting a bundle of sticks for a fire a viper fastened on the apostle's hand. St. Paul calmly shook the reptile off into the flames and no harm followed. The natives wear these stones as talismans, in which character they suppose them service-

All the liniments and rubbing, and so-called electrical treatment in the world will not cure rheumatism. The acid that causes the disease must be driven out of the blood and the blood enriched and purified. It is because Dr. Williams' Pink Pills make new, red blood that they have cured thousands of cases or rheumamost severe cases of rheumatism, the case of Mr. David Carrol, a well-known furniture dealer, of Pictou, N. S., may be cited. Mr. Carrol says: "I have been a most severe sufferer from rheumatism, and in the hope that some other poor sufferer may find relief from my experience I gladly write you of the benefit I have received from Dr. Williams' Pink Pills. The trouble settled in my shoulders and down my sides, and at times I was quite unable to raise my arm. I was attended by a doctor, but as I did not appear to be getting any better I sent for a so-called electric belt, for which I paid \$40. It did not do me any good and then I tried another remedy, but without any better results. A friend asked me to try Dr. Williams' Pink Pills, and I got three boxes. By the time I had used them all I found the stiffness and pain less severe, and I got another half dozen boxes. When I had taken these every symptom of the trouble had disappeared and in the two years that have since passed I have had no return of the trouble. I believe there is no other medicine equal to Dr. Williams' Pink Pills for curing this most painful trouble, and I have recommended the Pills to others who have been benefitted by their use."

Newbro's Herpicide

Every woman should have beautiful and abundant hair, for nature lavishly rewards those who labor intelligently to preserve and beautify it. Is your hair oily or sticky? Is it dry, dull or lustreless? Have you dandruff? If, so, you should use Newbro's Herpicide at once. It kills the germ or

microbe that causes dandruff and falling hair, after which the hair will grow as nature intended. It stops itching of the scalp almost instantly, and gives the assurance of a cure from the very first application It contains no oil or grease, and is unsurpassed for its daintiness. It makes the hair light and fluffy and gives it a silken gloss.

A meeting in the interests of Major Beattle, the Conservative candidate, was held last evening in Collins' Hall, West London. It was fairly well attended. Addresses were delivered by Major Beattie, Wm. Gray and Hume Elliott. Mr. George Conley presided. The Conservative candidate was the first speaker, and devoted some little time to the labor question. He declared that in the campuign there was no issue with the Labor party, but with the Government. He dealt with the Arctic expedition, the Montcalm, and other of the socalled scandals. He advocated a higher tariff, and asked that graft be done away with. He predicted that Mr. R. L. Borden would be the next premier.

Mr. Wm. Gray followed, and for some minutes explained that he was a friend of the laboring classes, and was not endeavoring to "knock" the party. It was necessary, he contended, to elect a supporter of Mr. Borden that the "era of graft and corruption" should be ended.

Mr. Hume Elliott closed with a brief speech. THE Y. M. C. A.
