yet we are ever striving to penetrate its mysteries. We are the stewards of the mysteries of God."

Mr. Booth touched a live point when he brought forward the subject of the coming of Christ.

"There will always be signs of the n't a sober person in the house, and that they were so disorderly that they could be heard a block away. Bottles of whiskey were all about the place, and serious fights were threatened in

The coming of the millennium proved to be an interesting subject for discussion and little unanimity shown, but, as Mr. Booth put it, are all agreed that the millennium is to come, but as to how or when there are great differences of opinion." At the conclusion of Mr. Booth's address, Rev. Mr. Whiting rose to move a vote of thanks, and said that it was many months since the First Methodist Church had such a day as Sunday. Continuing, Mr. Whiting ad-

vocated the keeping open of the churches every day in the week. "Here we have \$120,000 locked up in a plant and it is closed up six days of the week," said Mr. Whiting. I grew very thin, pale, with dark lines under the eyes; my strength so failed last year was \$63,585, and from that even light housework quite exhausted me. Of course, with a large family, I could not afford a doctor all the time, and when in deepest despair, I tried Dr. Hamilton's Pills. From the very first they acted wonderfully, and I experienced a desire for food and ate my meals with a relish. After a while my system became quite regular, and that horrid sick feeling only came now and again. This made me persevere, and it was a good thing I did so, bethe continuation of Dr. Hamilton's Pills was the means of giving me my health again, and I am now the

To the Editor of The Advertiser: As a lay churchman, the writer would like to submit a layman's comment on Mr. Herbert Booth's remarks at the First Methodist Church as reported in your Saturday issue under the heading, "London Pastors Resent Remarks.'

I submit that Mr. Booth's remark as "the church, fiddling while Rome burning," and "the church being isleep," must be judged from his lewpoint regarding the practical purose for which the church is commissioned as a social institution. I know hat an increasing number of laymen indorse Mr. Booth's remarks, and with myself accept them as fair comment on the situation.

The expressions used by Mr. Booth are a mild interpretation of the convictions of men, who, accepting the gospel of Jesus as a real social force to be practically utilized in that field its moral standards are most needed (viz.: in the utilitarian field grossly than by lay churchmen, whose responsibility is measured by their opportunity.

Mr. Booth's very practical labors in wide field have opened his eyes, as his address on Sunday afternoon very clearly snowed, to the call to the church to declare itself on the great social problems rising ominously to the front as a result of disobedience of the laws of God in those departments of life work where the lay churchman has had, and missed, his greatest op-

White, who is a Democrat, in his tion, they won't mark up her hardstatement says that he received \$1,-000 for voting for Lorimer. This money, he alleges, was paid him by Lee O'Neil Browne, Democratic leader

f the last Legislature. White also says that he received \$900 more from the "Jackpot," a term applied to an alleged general corrupion fund distributed at the close of each session of the Legislature. The \$900 White alleges was paid him by Robert E. Wilson, also a member of the Legislature.

According to White, he was first anproached by Browne on May 24, 1909. while the voting was going on for a United States senator. A deadlock had existed for some time. Browne asked White if he would vote for Lorimer and White said he could and would.

On May 25 they met again and Browne said he would pay \$1,000 and a share of the "Jackpot" for White's vote for On the next day Lorimer was elected on a joint ballot, many Democrats voting for him, and White was among the number.

White says Browne paid him \$100 the next week at Springfield. Later at Chicago, White alleges, Browne paid him \$50, and the next day \$50. At the time he received the last sum White says that Browne had \$30,000 n a belt. No doubt there carriage of grain this year. is a party motive behind President Taft's overtures to this country, but this country are as little interested in recordity today as were our neighbors ten and twenty years ago. In this respect we and our neighbors have changed places. The prosperity of this country would be accelerated by freer admission of our products to the American market, especially our agricultural products, but Canada has demonstrated that she can prosper without these advantages. Washington thought differently at one time. but Washington knows better today.

THE BUDGET'S TWIN TRIUMPH. The Lloyd George budget has scored

two triumphs-one political, the other financial. It saved the Government from defeat, and now it has proved a kind to be done, Mr. Boyce is the man splendid revenue instrument.

The treasury receipts for the fiscal year ending March 31st, under the 000. The surplus therefore would have to Westminster. Recreation is more a the expenditure was \$75,000,000 great- Britain than in any other country. er than in the preceding year, the fact that the budget taxes, if they had been fully collected, would have yielded so much to the good, must be ac- ing old. There has been no sign of it counted a notable achievement for free in his preaching. The pulpit has been trade finance.

The actual revenue collected up to March 31st was only £131,697,000, as many people took advantage of the rejection of the budget to withhold payment of their taxes. The Chancellor of the Exchequer estimates that at least £29,211,000 of these unpaid taxes will be recovered, leaving an actual surplus of £2,963,000. The other £1,237,600 may be permanently lost: it is the price the treasury must pay for the partisanship of the House of Lords. Of course the money remains in private pockets, so that the coun-

try is no poorer. The showing for the budget was so satisfactory that "e'en the ranks of Tuscany could scarce forbear a cheer." When Mr. Lloyd George made his statement the other day in the House, Mr. Austen Chamberlain, the Opposition's financial critic, was generous enough to congratulate him. "The success of the right hon. gentleman's estimates taken as a whole is remarkable," said Mr. Chamberlain. "It reflects great credit on the Chancellor of the Exchequer, and still greater credit, as I know he would be the first to say, upon his advisers." Mr. Chamberlain could find fault with only two items. The estimate of the recepits from death duties had been much under-estimated. This was a stroke of luck for the chancellor, but Mr. Chamberlain warned him that it might not happen again, as the excessively high taxation would encourage evasion. The yield of the whiskey duties on the other hand had been greatly over-estimated. Mr. Chamber-

lain censured the Government for in-, shetf. "Sir," he said, "you don't wan flicting heavy loss on the distilling industry for the sake of a revenue which was not forthcoming

Mr. Lloyd George admitted that the whiskey duties had not yielded the with satisfaction to the enormous decrease in the consumption of spirits, amounting to about 20 per cent. With pardonable pride, he said:

"I do not believe a financial estimate has ever been put to so severe a strain as the present. For four months the finances of the country have been thrown into confusion We have had a period of very severe trade depression, and still we pay over £3,000,000 towards reducing the debt of the country out day?" of the revenue of the year. In spite of all that we have a balance of £2,900,000. meditation.

It will be remembered that at their last congress, held in December, 1909, the German Social Democrats decided, by way of protest against the new indirect taxation mposed by the "financial reform" of the summer of that year, to institute a boyplatform orator, his skill in parlia- cott of spirits. The German labor gazette the Reichsarbertsblatt, now publishes a comparison of the consumption of spirits in the five months of October, 1909, to February, 1910, with that in the similar period of the preceding year, from which it appears that the consumption has dropped from 2.6 million to 16.2 million gallons, or over 31 per cent.

The progressive papers greet this success of the Social Democrats as much from the point of view of temperance reform as on account of material damage, which the decrease of consumption of excisable liquor might have caused the exchequer, and consequently to the socalled financial reform of 1909.

Medical Corps Blanks Wortman's in First While St. Mary's Gave Opponents Hot Battle.

TROPHIES ARE OFFERED

Mr. Wm. Gray Puts Up a Cup, ex Mayor Stevely a Watch, and ex-Ald. Gillean a Locket.

Ex-Mayor S. Stevely hurled the first

ball of the local season at Queen's Park Saturday afternoon and started the Army Medical Corps team to a 9 to 0 victory over the Wortman & Ward crew. The game dragged, the losers were clearly outclassed, especially in the battery, and the A. M. C. took advantage of the eight errors of their opponents. of the eight errors of their opponents. However, the fans were pleased to see a game of any sort after several months a game of any sort after several mounts of a layoff, and it is understood that the W. & W. management was unable to get the best material signed up out for the first match. Better things are looked for next Saturday, and the teams promise

Second Match to Rambiers.

The second match, in which St. Mary's Athletic Club gave the Rambiers a close run for their money, kept the fans on the grounds until long after six o'clock. St. Mary's had the game sewn up until the

fourth, when pitcher Fauria, the Cuban vonder, blew up and allowed the runs that tied the score. Two extra innings were necessary to put the figures 11 to 8 in the Ramb-

cessive seasons, or to the pennant win-ners of each season. The choice and rules were left in the hands of the league executive.

Messrs, Stevely, Gillean and Gray have always taken a warm interest in sports and have done much to advance the

game in this city.

The weather was ideal for the opening match Saturday, and a big crowd witnessed both contests. A large number of the season's membership tickets have been sold and the receipts of the league, should be more satisfactory this league should be more satisfactory this summer than they were last year.

McPherson was accountable for one of the pretitest hits of the day. In the second round he whaled the pill to the end of the middle garden, scoring Costello and Fauria. He died, however, rounding third. "Bung" Daniels gathered in Brodison's foul in a sensational manner in the same inning. He tripped in picking it off, but was on his feet in an instant with the ball in h's mitt.

BEATS YANKEES

New York, April 30.—A dropped third strike on Baker by Sweeney in the third inning today, followed by two hits and an error by Knight, enabled the Athletics to make two runs and tle the Highlanders. In the eleventh the visitors won out, earning two runs on hits by Oldring, Bakes and Murphy. Had Quinn been perfectly supported, he would have won his game by a score of 2 to 0, instead of losing it, 4 to 2. The score:

PHOTOS BY WIRE AND WIRELESS

Inventor Arrives in New York to Introduce the System in America.

New York, May 1.-T. Thorn Baker, who has perfected the invention by which photographs are sent by telegraph, and who has successfully operated his system between London and Paris, arrived here today on the Cunarder Carmania to demonstrate his he has so far developed his system n of photographs by wireless. The difficulty hertofore has been that the pictures became distorted in transmission, but I have invented a 'balance,' as it is called, that corrects this, and now it can be used with ease and correctness," said Mr. Baker. The most interesting part is that photographs can be sent by wireless as well as by wires. I look forward to the time when the newspaper photo-grapher will carry the apparatus with him in a compact box, and when he has made a photograph, develop it, and send it by wireless to his office." Baker will probably work first be-tween New York and Washington. As a rule, he uses the telephone wires to

Mr. Peatfield Preaches. After an absence of two weeks through illness, the Rev. E. H. Peatfield occupied his own pulpit at First Congregational Church on Sunday. The pastor resumed his work on the Book of Revelations. This was begun January, and he expects to finish it in June. After explaining the Reve-lations, he said: "The dragon, John's symbol for the power of moral evil, reappears today in several forms, the drink question, gambling and social mpurity.'

St. Paul's Cathedrai. The pulpit of St. Paul's Cathedral was occupied by Principal Waller. In the evening he preached a very able sermon and deplored the fact that people are not flocking to hear the gospel, and attributed this to lack of attractiveness at the church. He said: "It would be folly to say that people who stay at home are not Christians. People stay at home because there is no great attraction is the Word of God.
But do they get it? People will not despise that. It is because there are dead menting the pullet. Talk of pro-God, but I believe it is just because the Word of God is not there.'

In the morning Street Church, took for his subject the Rev. Rural Dean Chadwick, of Sunday morning the founding by Paul College, will preach.

A meeting will be held in St. Paul's Church tonight to consider the appointment of an assistant rector. The annual meeting of the Enworth League of the Hyatt Avenue Metholist Church has been announced for tonight. Officers will be elected, and reports for the year submitted. The Boys' Institute of the Askin

COMMON

TORONTO, CANADA HEAD OFFICE, Mills are situated at Kenora, Thorold, St. Catharines, Welland and Port Colborne (the last named in

This Company a Going Concern Right from its inception, Maple Leaf Milling Company, Limited, is a going concern, and the dividend on the preferred stock accrues from April 5th, 1910. This means that the subscribers to the preferred stock will

receive dividends from that date. It is a going concern, because it has taken over the whole undertaking as a going concern of the Maple Leaf Flour Mills Company, Limited, includ-

ing therein that of the Hedley Shaw Milling Company, Limited. Five of the six mills of the Company are in operation, and it is expected that the new 6,000-barrel mill now in course of erection at Port Colborne will be completed by January, 1911, and that a portion of the wheat crop of 1910 will be handled by it.

Security and Earning Power

The position of the preferred stock now being offered is specially secured, there not being any bonds ahead of it, and the Company has no bonds either

The assets of the old Companies taken over stand in excess of all liabilities, and without any allowance for goodwill, trade marks, etc., at \$3,770,524 11, this amount being ascertained on the basis of an appraisal by the Canadian-American Appraisal Company, Limited, as of March 17th, 1910, of the capital assets taken over, and the certificate of Messrs. Price, Waterhouse & Company, as of February 28th, 1910, as to current assets and current liabilities, with a liberal allowance for all contingencies. There has also been placed in the Treasury \$1,000,000 of additional cash, which, besides permitting of the completion of a 6,000-barrel mill and a million-bushel elevator and storage warehouse at Port Colborne, and of fifteen additional elevators in the West, will provide the new Company with further working capital.

As per certificate of Messrs. Price, Waterhouse & Company, of London, the earnings of the old Company on the present plant amounted from September 25th, 1908, to August 20th,

ferred stock of the Company.

Market for Output

The tremendous increase in the wheat crop of Western Canada makes additional elevator capacity particularly urgent. In the past a great proportion of the total wheat crop has almost of necessity found its way into Canadian Mills, and the conditions in this respect should be very much the same as they are at present, when the total output of the Western Wheat Belt has increased, as experts expect it will, from 125,000,000 bushels in 1909 to fully 500,000,000 bushels by the end of 1915.

The points at which the company's mills are situated will place it in a very advantageous position and will enable it to lay down its flour at almost all points in Canada, at all Atlantic Sea Ports, in Great Britain, and in Foreign Markets cheaper than can be done by any other Canadian Mill-

RESIGNS HIS POST. Lima, Peru. May 2.—The Peruvian minister to the Argentine Republic, E. De La Riva Aguiro, has resigned his post. His letter of resignation, which has been made public, has caused a great sensation. He asserts that the direction of foreign affairs in Peru during the last nineteen months has een characterized by many mistakes, and patriotism obliges him to with-draw from office. Carlos Alvarez Calderon has been appointed minister in

A MASS MEETING.

A mass meeting of the members of the Brotherhood of Andrew and Philip held in Egerton Street Baptist Church, yesterday afternoon, was addressed by Rev. J. G. Inkster, of the First Presbyterian Church, who dealt with the need for strong young men in a country growing as Canada is. Every church in the city should have a chapter of the brotherhood, said Mr. Inkster, as the organization is doing a great deal of good among young men

Mr. Booth Criticized.

To the Editor of The Advertiser: I do not know how the idea impresses your intelligent readers, but it seems to me that travelling evangelists and others who purport to be doing Christian service in the city. manifest a good deal of assurance and other "virtues" in making sensational charges against our people, such as: "The churches are asleep," "hundreds of men in London would sell their very souls," etc. One would naturaly think that before making such sweeping assertions regarding spiritual conditions here these speakers would reside in the city for some time and seek to get their information from reliable But, no, they no "blow in" than they assume to "know" all the outs and ins of our civic, social and family life. They come fully prepared to "rake" the churches and to pour "hot shot" into any camp or individual who will not or cannot pronounce their shibboleth. Had they gone to any one of a dozen places to doubtless made the same assertions and used the same methods. They seem to see no incongruity or spiritual obliquity in imagining certain evils or grossly exaggerating them in order to have a plausible excuse for delivering the "hot shot" above referred to, and which obviously is the 'feature of such religious upheavals.' I have great respect for the Christian pulpit, though sometimes obliged to take an independent view, and I am very much pleased that a goodly number of our ministers have strongly

That is the tenor of a circular letter sent out by the secretary of branch 194, of the Journeymen Tailors' Union of America, and the merchant tailors have until noon on Tuesday to take action on it. The journeymen tailors in Hamilton claim that the scale of prices for work is lower here than in almost any city of its size in Canada, ing, by George H. Hackstaff, office on the corner of Richmond and North streets (that is where the Bank of resulted in a searcity of help and British North America now stands), some of the merchant tailors have nearly opposite the English Church, been offering big inducements to those -14 shillings (\$3) per annum, who remained to work for them, as payable half-yearly in advance. The class of work here is supposed to be better than it it is London, hence the journeymen want 25 cents more for sack coats than the journeymen are getting there. As it is, a lot of the work is being sent out of town now because the merchant tailors cannot get men and women to do it, it is said. There are about 125 members of the union, and if they go out on strike they will have the support of the International union and a strike allowance of \$9 a week.
