British Transport Royal Edward Is Sunk Six Hundred Men Were Saved From Ship Over One Thousand Troops on Board

KEY TO BALKANS LIES IN SHORTAGE OF AMMUNITION

LONDON, Aug. 17.—The key to the Balkan situation may lie in a shortage of ammunition in Bulgaria, suggests the Daily Mail to-day in an article which deals with "Germany's anxiety to ship ammunition to that country."

"The Austrian concentration at Osorva, less than forty miles distant from the Bulgarian frontier, indicates a determination to force a route in the event of Roumania's refusal to permit munitions to pass through," the article says in conclusion.

OUTLYING FORTS TAKEN

BERLIN, Aug. 17, via London.—One of the outlying forts of Kovno, between the Niemen River and Gesia, to the south of the main fortification, has been captured by the Germans.

ENEMY SUBMARINE SINKS BRITISH TRANSPORT WITH MANY TROOPS ON BOARD

German Submarines are Active in Aegean Sea--The Feat is Credited to the U-51--British Official Announcement Confirms This Loss:

LONDON, AUG. 17, 12.32 P.M.—THE BRITISH TRANSPORT ROYAL EDWARD HAS BEEN TORPEDOED AND SUNK BY A GERMAN SUBMARINE. ANNOUNCEMENT TO THIS EFFECT WAS MADE OFFICIALLY TO-DAY. SIX HUNDRED MEN WERE SAVED OUT OF 1,350 TROOPS AND 220 OTHER PERSONS ON BOARD.

PETITION AGAINST ANNEXATION MADE TO VON HOLLWEG

PARIS, Aug. 17.—"Humanite" prints the text of the anti-annexationist petition addressed to the German Chancellor, Dr. Von Bethmann-Hollweg, on July 9, and signed by 82 prominent Germans, including Bernhard Dernburg, Professor Adolf Harnack, Clemens Delbruecke and Prince Von Hatzfeld.

INTO RECEIVER'S HANDS

ST. LOUIS, Aug. 17.—The Missouri, Pacific, Iron Mountain system to-day consented to the appointment of receivers, as requested late yesterday in a petition filed in the federal district court.

GERMANY SECRETLY TRYING TO PURCHASE SUPPLIES FROM STATES

Shows How Bridgeport Company Was Made Over.

New York, Aug. 17.—The New York World, continuing to-day its exposure of Germany's secret activities in this country, gives evidence to show that Germany itself has been secretly planning to secure munitions through the shipment of such to enemy countries since the beginning of the war.

UNDER OFFICIAL SEAL. "The memorandum of the contract with the projectile company, which has American officers who are supposed to control it, shows that contract was approved by Dr. Albert, Military Attache Von Papen and N. R. Lindheim, the legal adviser of the German Government, experienced in international affairs."

FROM DEUTSCHE BANK. "The correspondence shows that the Projectile Company received money from the Guaranty Trust Co., acting on authority from the Deutsche Bank; that in July last it contracted for the entire output of smokeless powder from the Aetna Explosive Company, the president of which is a British subject, and who is highly indignant at the possibility of supplying Germany with powder for the use in making shrapnel for the German army."

SUBMARINES BOMBARDED ENGLAND

No Material Damage Done by Undersea Craft.

London, Aug. 16.—Parton, Harrington and Whitehaven, in Cumberland, England, on the Irish Sea, were bombarded to-day by a German submarine, a British official statement last night announced. Some fires were caused but the damage was slight, and there were no casualties, the statement adds.

The text of the statement follows: "A German submarine fired several shells at Parton, Harrington and Whitehaven between 4.30 a.m. and 5.20 a.m. yesterday, but no material damage was caused."

No Canadians Aboard. Ottawa, Ont., Aug. 17.—In official circles here it is not believed that there were any Canadians on board the Royal Edward, though there is a possibility that a few may have been in the R. A. M. C. detachments, mentioned as being on board.

COURIER BOX LEAVES FOR THE FRONT

REPLY MADE PUBLIC TO-DAY ON THE FRYE

Washington, Aug. 17.—The American reply to Germany's last note on the sinking of the American sailing ship, William P. Frye, made public here to-day by the state department, accepts the proposal that damages be fixed by a commission and that the disputed treaty provisions be submitted to arbitration at The Hague, but calls on Germany for a statement as to whether she intends to conduct her future naval operations in accordance with her interpretation of the Prussian-American treaty of those of the United States. The note is regarded as putting the noted case well on the way to a settlement.

So far as has been reported officially, this is the first instance in which a British transport has been attacked successfully by a submarine. It had been a matter of pride with the British government that it had transported hundreds of thousands of troops across many seas without the loss of a man. It is probable that the number of troops sent to France and Belgium since the beginning of the war is considerably in excess of 700,000. In addition, large numbers of men have been transported to the Dardanelles, Egypt, South Africa and Serbia.

Troops have been brought in from Canada, New Zealand, Australia and India for the defense of the Mother Country. To guard these vast movements elaborate precautions have been taken. Transports are accompanied by an escort of warships, chief reliance being placed on destroyers for warding off submarine attacks.

The British announcement shows that the Royal Edward was engaged in conveying troops to the Dardanelles front, having been sunk in the Aegean Sea, between the Dardanelles and the Bosphorus. The British battleships Triumph and Majestic.

The British troops at the Dardanelles consist in great part of Australian and New Zealand contingents. The Royal Edward had been engaged in the transport service since early in the war and for a time, at least, was detailed to take Canadian troops to England. On Aug. 11, 1914, she sailed from Montreal with 500 French reservists on board. A despatch from Montreal at that time said the steamship probably would be taken over by the British admiralty, after completing her eastward voyage.

The Royal Edward was 11,117 tons gross and 526 feet long. She was owned by the Canadian Northern Steamship Co., Toronto. She was built in Glasgow in 1908.

GRAND DUKE NICHOLAS HAS NOW WITHDRAWN ARMIES FROM POLAND

GERMAN FORCE DEFEATED NEAR SAISI, RHODESIA

London, Aug. 17.—A message which has just arrived from Livingstone Post says that Saisi, on the northern border of Rhodesia, was attacked on July 26 by 2000 German troops with field guns. On the 27th the British position was surrounded, and reinforcements were unable to join hands with the garrison. The attack was continued until August 2, when the Germans retired. The British casualties were only eleven killed, all of whom were natives.

CANUCKS FOR DARDANELLES LATEST REPORT

Vancouver, B. C., Aug. 17.—T. Chase Casgrain announced at the Canadian Club banquet in Vancouver yesterday that he had been officially advised by the Minister of Militia that fifteen thousand of the Canadian soldiers now in Britain will be sent to the Dardanelles.

AMERICAN SHIP MERION REPORTED SUNK BY SHELL FIRE FROM FORTS

Philadelphia, Aug. 17.—Reports brought over on the American Liner Dominion yesterday, which arrived from Liverpool were to the effect that the American Liner Merion, requisitioned by the British Admiralty as a troopship had been sunk by the fire of the Turkish batteries at the Dardanelles. The Merion took out a general cargo of food supplies and many soldiers, being practically a Captain Hickson, an officer of the British naval reserve force, who succeeded Captain Hill, her former commander.

TRANSPORT TRAGEDY TRANSCENDS

All Other War News Today in London.

London, Aug. 17.—The British Admiralty's record of transporting great numbers of troops to the various fighting zones without the loss of a single man, so far as reported officially, has been broken, after more than a year of war. The torpedo of a submarine has at last found the mark and the transport, Royal Edward, has gone to the bottom in the Aegean Sea with a loss of life, which may reach 1,000.

The brief Admiralty announcement shows that the Royal Edward was engaged in transporting troops to the Dardanelles front, where Australian and New Zealanders have been largely employed.

Many of the London hotels are experiencing a run on cider.

Movement is Only Made Possible by Greatest Skill.

Rotterdam, via London, Aug. 17.—No point is yielded by the Russians to the advancing Germans until railway bridges and everything else of military value has been destroyed, according to German reports received here. The Cologne Gazette admits the difficulties confronting the invaders, and says:

"The great area west of the Vistula is covered by ceaseless processions of wagons bringing up supplies. In this devastated country where the railway has been destroyed an incredible amount of work has to be done. Only by fabulous exertions have we been able to carry supplies for our armies over the Vistula. Barges from Nowa Alexandria have arrived at various points on this river."

WITHDRAWN IN GOOD ORDER.

London, Aug. 17.—The Times' military correspondent dealing with the warfare in Russia says: "In conformity with the general plan of retirement, Grand Duke Nicholas has now withdrawn his forces from Poland to points west of the line of Ossowetz, Bialystok and Brest-Litovsk, and we shall learn within a few days whether he intends to make a long stand on this front."

A few weeks ago 70 unmarried members of the Brighton police force enlisted. In Manchester recently 1,272 men joined the colors in one week.

Bowels Almost Paralyzed "Fruit-a-tives" Relieved

St. Boniface de Shawinigan, P.Q. February 3rd, 1914.
"After suffering with terrible Constipation for over 2 years, 'Fruit-a-tives' relieved me. While a student at Berthier College, I became very ill and was forced to leave. Severe pains across the abdomen continually tortured me and my digestion became paralyzed. Some one advised me to take 'Fruit-a-tives' and at once I felt a great improvement. After taking four or five boxes, I was completely relieved and have never had any return of this trouble."

THE BRANT
The Brant theatre was packed at both performances yesterday, and the audiences had a good laugh at the pictures of Chas. Chaplin in His New Job. Charles, as usual, gets into some very funny situations, and manages to get out of them as comically as he gets into them. His familiar "side-stepping" never fails to produce roars of laughter. The last series of the Who Pays pictures were shown. The Seven White Blackbirds presented a southern plantation scene and rendered a number of good plantation songs which were much appreciated by the audience. Mr. John Burns, one of the party is the possessor of a rich, deep bass voice and his solo, which he rendered in splendid style, was the best number on the program. He was given very hearty applause for his effort and was enthusiastically encored. Elona, the squaw girls' songs pleased the audience with her Indian songs. The funny antics of the La Nules Comedy trapeze artists made a big hit with the audience.

REV. MR. BROWN GIVES REVIEW OF IMPRESSIONS

When Father, Burke, a noted lecturer, visited America, some years ago, he told of an Irish woman returning from mass, and as she passed the door of Mrs. Maloney she stopped, shook her dust, and said: "Mrs. Maloney, I am in a state of grace to-day, but thank God it will not last forever." When I left home I promised the genial editor of The Courier that I would send him a letter from Ocean Grove for the readers of his excellent paper. For two weeks this promise has repeatedly come to me, and while all this time I have been in a state of grace, I know cannot last forever, and so I bring myself to the task in hand, hoping that these few lines may interest the readers of The Courier whose columns have ever been open to every good cause.

Perhaps it is because of the war, but everything seems different this year from the preceding visits I have made to this lovely spot. I was in Ocean Grove last year the day that war was declared, and I can well recall the feeling of intense disappointment I felt when I heard the newsboys on the board walk shouting "Great Britain has declared war on Germany." To-day, the same newsboys are shouting the various head lines that give the last bit of news from the seat of war. The American papers give a great deal of space to the news from the battle-fields, as our own Canadian papers do. I find most of the papers here favorable to the Allies, but have selected the New York Sun as the one I buy regularly, as its presentation of facts and its editorials seem to me to be more favorable to the British cause than any other. I may be mistaken in this, but this is how it strikes me.

To say that the American people are interested in the war is putting the case too mildly, as they are deeply interested in the issue. To cite an illustration: for over an hour, before a great audience running into the thousands, Bishop Wilson of New York, one of the greatest living bishops of the Methodist church to-day, spoke at the auditorium upon "The war recently, and while he did not call out names it was easy to see that he was dead against the German policy and the record of the German nation in this war up to date. There is a very strong feeling here in sympathy with the Allies and President Wilson's exposition to his people to be neutral even in thought has evidently fallen upon deaf ears, as the people in public address and in private conversation alike freely express themselves as in sympathy with our nation in this titanic struggle. "Blood is thicker than water" is an old adage and we see its truth exemplified to-day in America's sympathy for England, and her citizens feel, many of them, at least, that the United States Government has not done her duty in allowing Germany's breach of faith with the nations in her savage treatment of Belgium to go unchallenged and unrebuked. If the United States government had taken a strong stand then and there, much more might have been done to bring the war to an end than she can do to-day. While this nation does not desire war, and what nation would, yet many feel that America has stood neutral at the expense of principle, and has failed to do her duty to a sister nation in distress. Bad as war is, it is something worse than war and that is an unjustifiable peace. Peace that is worthy of the name must be founded upon the rejection of the terms that thus far the name of Britain has not been soiled by a false peace on her part, but by a blood-guilty neutrality or by taking an easy way to national security. No; the price has been given, and it will be great, that England and her colonies and dependencies has declared willingness to pay to right the wrong and so to keep right from the scaffold and from the guillotine, but she has the assurance, the sweet and settled peace, that in all this she has tried to do her duty as she has seen it, with indifference as to the cost and consequences.

from home when your nation is at war is something like being away from home when you know some one in the family is sick. I am anxious to see the paper, the first and the last edition of it, and I am at the same time afraid to read it, lest I should find bad news awaiting me, and thus the days pass with alternating hopes and fears as the news seems to be favorable or otherwise. There I believe, on the part of England's best wishers here, a keen sense of disappointment that her forces have not achieved before this more decided victories for the cause of the Allies. There has been an expectancy in the hearts of the people that some strategic and important move was under way and because Lord Kitchener has not done what was expected of him there is widespread disappointment and a feeling of humiliation on the part of many sons of the Union Jack, who by whose sympathies are strongly in this expected "drive" as it has been called, but up to date it has not materialized. Suspense is hard to bear, but it appears that we must wait for some time at least as the best opportunity for this long contemplated drive seems to be past. As in many other situations in life, we must wait and murmur not. Every day the American papers give detailed reports from the Eastern battlefield, and there is usually an extended article on the French battle line, but day after day not a word about General French and his men. I cannot understand the reason but this is the fact. Many here anticipate that the United States will ultimately have to fight or

come close to it at least, before Germany will pay any serious attention to her claims. The fact that the United States Government has been so picky with all parties concerned in the war, and that diversified interests are pulling the President in opposite directions, has somewhat lessened the intensity of feeling against Germany, which followed the sinking of the Louisiana and also American owned and officered ships. But the issue sooner or later must come to a "show down" and the attitude of the President and his Cabinet may then be a happy surprise to us all. May it please God that it may be so, as a nation that boasts of liberty as the American people do, should be the first to defend the weak and make her contribution to maintain her rights at whatever cost, and in the face of all comers, who threaten without just cause, the integrity and peace of any law-abiding people. Because we live in the eternal and immutable character of God as a God of justice and in the final triumph of the right over all that wars against us, we may and do stay our hearts in the day of adversity in the anchoring power of this great fact, and in this faith our nation is prepared to drain her last drop of blood and expend her last dollar. Succeeding generations will rise up to call "blessed" those who have led to this.

"For over the field and the clod Where the bravest of them fell, There's a deeper green on the sod." P. S.—My next letter will give you a glimpse of Ocean Grove at night, and when I return I want to give another on "Some places of interest about New York City."

With all good wishes to all the employees of The Courier, many of whom I count among my best friends, I remain,

Very sincerely yours,
Llewellyn Brown.

Presentation

Mr. McLarty, who for twelve years has been connected with Penmans Limited, recently resigned to accept a position with the Mercury Mills of Hamilton. Before his departure he was presented with a gold watch engraved with his initials, and this address:

"In severing your connection with us, we, your fellow-employees of Penmans Limited, wish to take this opportunity to express our regret that you have seen fit to place your efforts to other employments. We, however, to extend our appreciation of the good-fellowship which has always existed and hope you will accept this small token of our regard merely as a remembrance of those who have labored with you for so many years."

The employees of the erecting room of the Massey-Harris Company yesterday afternoon presented Edward King, of 58 Brunswick street, one of their fellow-employees who has left to join the colors, with a handsome pipe and tobacco pouch. He was also given the following address:

"We your fellow-employees of the erecting room of the Massey-Harris Company, have learned with a great deal of pride and admiration that you have decided to join the colors in response to our country's call.

"During the twelve years that you have been among us your friendly disposition and affable manner have won for you many friends. While we regret very much your leaving our midst, we desire to take this opportunity conveying to you our best wishes for a pleasant voyage, a victorious service, and a safe return. We would ask you to accept the accompanying pipe and tobacco pouch as a slight memento of many good times and pleasant associations of the past. We trust that you will have time to use them, and that you will be able to smoke the Germans out of their trenches, hoping it will be to you a pipe of peace in the midst of war. We assure you that we shall often think of you in the days to come, and trust that you will have many pleasant memories of the boys you have left behind. Again wishing you all kinds of good luck, and hoping to hear from you once in a while."

The address was signed, on behalf of Mr. King's shopmates, by Jas. S. Brown, G. W. Crook, T. Walton, B. Manning, Henry Yerks and M. Keenan.

By Special Wire to The Courier.
Galveston, Texas, Aug. 17.—Via wireless to Fort Sam Houston and telephone to San Antonio, Texas, Galveston to-day has passed through one of the worst storms within the past fifteen years, and now is ready to repair the damage done by last night's hurricane. Five feet of water stands in the city and is slowly draining off. Two fires started to-day are yet to be placed under control. The transport McClellan late last night broke from its moorings and drifted half a mile out to sea. The commercial wireless station at Port Arthur is out of commission and the big aerial masts at Fort Crockett here are down.

A destructive fire broke out on the premises, on Old Kent road, of Messrs. Walter Savage, and damage estimated at about \$40,000 was done.

YANK GOT ORDERS

By Special Wire to the Courier.
London, Aug. 17.—A despatch from Sofia to Reuter's Telegram Company says that the Turkish authorities at Constantinople have ordered the American gunboat Scorpion, which had been in those waters for some time, to take up her moorings in the inner part of the Golden Horn. Ambassador Morgenthau's protests were unavailing, the despatch says, but he was able to utilize the occasion to settle some minor questions which have been pending. The shortage of coal in Constantinople is expected to result in discontinuance of the electric lighting and street car service.

GERMANY MAY BE ASKED TO RECALL EMBASSY

Washington, Aug. 16.—Officials of the Administration are engaged with the charges and disclosures that are now appearing daily in certain newspapers in regard to the activities of German diplomatic and secret service agents in the United States. Washington authorities are not ready as yet to express any opinion as to whether or not the facts thus far disclosed warrant action by this government either in the way of withdrawing German diplomatic representatives. The attitude of the President and State department is that the present is simply one of waiting, and no decision is likely to be reached until they are convinced that all available facts are in their possession. Among Government officials there is a disposition to be conservative in regard to these disclosures affecting Germany's diplomatic representatives in this country. In all the mass of charges against German representatives that has appeared in the public prints recently there is however, according to Washington official view, one thing that stands out clearly, and that is that there is ample ground for complaint against the extra-diplomatic activities of the Kaiser's representatives in this country. Under ordinary circumstances this alone probably would furnish the basis for action by this government, but the strained relations between the United States and Germany over the submarine issue has led this Government to close its eyes to many things that otherwise would not be tolerated. The President and his advisers have felt that this was the wiser course. Secretary Lansing said yesterday that the State department had not ordered any investigation of the charges. At the Department of Justice no comment was obtainable in regard to the disclosures. It is known, however, that Mr. Gregory's secret service agents have been busy for several weeks investigating clues in regard to the activities of German agents and diplomatic representatives.

REACHED SHORE WITHOUT ANY OPPOSITION

London, August 17.—A despatch to The Daily Chronicle says: "The new successful landing on the Gallipoli Peninsula at Suvla Bay and the manner in which it was effected cannot fail to exercise a moral effect on the enemy. The landing took place on the shore in front of the peninsula. Only a small observation force of Turks was on the spot, the Turks having been led by recent activities of our forces to concentrate their forces and reports to concentrate their forces on the Asiatic side of the Dardanelles and at Smyrna where they thought an attack was probable. Our landing force, with its ammunition, baggage and artillery reached shore practically without opposition, and with only a very few casualties, and with only a very few advanced trenches immediately advanced. The force immediately advanced quickly and seized positions which were planned should be taken. There were strong, entrenched positions were organized. A right wing was thrown out and a junction of forces established before Sari Bair. Our new positions threaten the Turks' communications with the land with the extremity of the peninsula. The enemy's attack brought up forces to the new landing, but were easily repulsed with serious loss. This defeat of the enemy enabled our forces to further to consolidate their position. "The fleet during the last few days has been very active."

WORST IN DECADE

By Special Wire to the Courier.
Dallas, Tex., Aug. 17.—With the cities and towns of southeast Texas isolated from the rest of the world, and one of the worst tropical hurricanes of a decade wearing itself out over the coastal prairies, the fate of the wheat crop was not known, although it was believed the storm centre had passed in-land slightly west of the island city.

ANOTHER MAGNATE DEPOSED

By Special Wire to the Courier.
Rochester, N. Y., Aug. 17.—John Gabel is no longer manager of the Rochester team of the International Baseball League. President Charles T. Chapin issued a statement to that effect this morning. It is understood that Gabel has an offer to go to the Federal League.

THE COURIER

Published by The Brantford Courier Limited, every afternoon, at Dalhousie Street, Brantford, Canada.

Subscription rate: By carrier, \$3 a year; by mail to British possessions and the United States, \$2 per annum.

SEMI-WEEKLY COURIER—Published on Tuesday and Thursday mornings, at \$1 per year, payable in advance.

Tuesday, August 17, 1915.

THE SITUATION.

The official announcement of the sinking of the British transport steamer Royal Edward is the most notable incident of the day's news.

In the Eastern theatre an effort to turn the Russian left flank has failed, and the forces of Grand Duke Nicholas continue in excellent style to fall back upon their new defensive lines.

The occupied area contains the cotton industry of France, i.e., the French Lancashire, of which Lille is, as it were, the Manchester.

Brooklyn has abandoned fumigation for contagious diseases as valueless and for more modern methods.

The official announcement has been made that fifteen thousand of the Canadian soldiers now in the Old Country will be sent to the Dardanelles.

HEROIC SACRIFICE. By special wire to the Courier. Calgary, Alta., Aug. 17.—Archibald and Jack McKenzie, contractors and old timers here, were drowned in the Red River north of Bassano when their boat capsized in a strong current.

NOTES AND COMMENTS.

Bad news to-day, all right, but the marvel of it is that some other transport had not previously suffered.

There is a strike of corset makers in the States. They state that they will stay with the blooming thing to the end.

Uncle Sam reports the greatest corn crop in his history. And by the same token, Germany has been treading on quite a few of them.

This is what is known as an "afternoon paper" war. In other words, with a difference in time of some five hours said papers can in time for issue receive items sent out as late as 8 p.m. of each day.

The sinking of the Royal Edward took place on Saturday, and yet the announcement was not made until to-day. It is difficult to imagine the reason for such red tape delay when information could be of no possible advantage to the enemy—in fact, a German unofficial report at the time said a transport had been sunk.

The man Frank, of Georgia, has at last been done to death. This was a most extraordinary case. He was convicted of murder of a girl on the testimony of a colored man who told an unbelievable story.

VESSEL BLOWS THROUGH. Tempe, Texas, Aug. 17.—It was stated at the offices of the Santa Fe Railroad here early to-day that a message had been received from Galveston saying that a large vessel had been blown through the causeway connecting Galveston with the mainland.

The youngest soldier in the British army is said to be Sam Broody of Cheetham, Manchester, who recently enlisted at the age of 13.

In Yorkville Court, New York, in one day, 187 traffic violators paid fines of \$1 to \$100.

Mrs. Elizabeth Reilly of Brooklyn, is charged with taking other people's purses in church.

The First Presbyterian Church of Mattituck, N.Y., is celebrating its 200th anniversary.

The son of Rev. Charles Philipbar of Brooklyn, N. Y., was put under bonds to support his young wife.

A cable at Chicago from Liverpool asked an estimate for a million head of beef cattle for the allies.

An oil painting by Julian Scott in the Peabody Museum at Harvard was cut from its frame and stolen.

The widow of Patrolman Boyle of Jersey City is suing P. Luden, autoist, for \$25,000 for his death.

The District Attorney of Forest County Pa., Marion Carringer, was fatally shot by Berneno Schectino.

The American Federation of Labor says the Panama-Pacific gold dollars will show the figure of a working man.

The Pacific Mail Steamship Company has sold out for \$8,000,000 and left their trade to the Japanese.

As he fell unconscious, Chas. Wagner, motorman on a Newark car, pulled the brakes and stopped his car.

Oroville will have a 65 mile irrigation ditch to the city.

Nelson is having all overhead wires placed in underground cables.

PUBLIC NOTICE

Notice is hereby given that the Council of the Corporation of the County of Brant will, at a special meeting of the Council to be held in the Council Chamber in the Court House, in the City of Brantford, on Saturday, the 4th day of September, 1915, at the hour of two o'clock in the afternoon, take into consideration and, if deemed advisable, pass a By-law providing for borrowing the sum of eight thousand five hundred dollars, to be repaid in ten equal annual instalments of principal and interest, said money to be raised for the purpose of paying the County of Brant's share of the construction of the Putnam Bridge, on the county line between Brant and Oxford, and the construction of the two Hogback Bridges on the town line between Brantford and South Dumfries.

GERMANY

(Continued from Page 1)

CHEMIST INTERESTED.

"In the correspondence the plants of Germany to buy 1,400,000 pounds of phenol (carbolic acid) manufactured by Thomas A. Edison, are also clearly set forth. This correspondence is between the American Oil and Supply Company of Newark, and Hugo Schweitzer, German-American chemist at 117 Hudson street."

"In it the fact is clearly established that the latter was acting for the German government, and that the supply company transferred to it on June 22 last its contract with the Edison Company and on the following day gave its receipt to Herr Schweitzer for \$100,000 to guarantee the performance of the contract."

"Evidence is included in the correspondence to show that the German government is even now financing a plan to insure itself the output of shrapnel casings of at least one concern in this country, the manner of shipment and delivery not being disclosed by the correspondence."

"That Germany will probably take cognizance of the charges involving its officials which have been made in the public press, when the proper time comes. It would be undignified to answer them at this time."

Count Von Bernstorff arrived at the hotel in the forenoon from a week-end motor trip into the Adirondacks. He was accompanied by Capt. Karl Boy-Ed, German naval attaché, who had been hastily summoned by the ambassador late Sunday night.

Apparently the whole staff of the German embassy was congregated at the Ritz-Carlton to await the ambassador's arrival. Von Hainhausen, first secretary, and in the ambassador's absence charge d'affaires of the German embassy, was the first one to confer with his chief.

Captain Franz Von Papen, the German military attaché, charged by "the New York World" with having been one of the instigators of the alleged conspiracy to create internal discord in this country in favor of Germany, was also a visitor to the ambassador. He carried a package of papers and left after the conference, preoccupied and apparently depressed.

Count Von Bernstorff's statement that the German embassy would "take official cognizance of the charges involving its officials" was strongly seconded by George Sylvester Viereck, editor of "The Fatherland," charged by The World with having sold his American citizenship for German money.

"I know positively that the documents which were reproduced in the New York World, were stolen by a British spy whose identity is known," Mr. Viereck said. "We have proof that certain officials of the German embassy have been shadowed for weeks by British spies."

The Canadian Pacific Railway will again be one of the principal exhibitors at the forthcoming exhibition to be held in Toronto and, in addition to the display of Canada's golden west product, a new departure will be added taking the form of a Railway Kitchen and dining car. This will doubtless be a revelation to most people, and of particular interest to farmers' wives and daughters.

TENDERS FOR PULPWOOD LIMIT

TENDERS FOR PULPWOOD LIMIT. Tenders will be received by the undersigned up to and including Wednesday, the fifteenth day of September, 1915, for the right to cut pulpwood on a certain area situated north of the Transcontinental Railway, west of LaSalle and south of English River in the District of Kenora. Tenders shall state the amount they are prepared to bid in addition to the Crown dues of 40c per cord for spruce and 20c per cord for other pulpwoods, or such other rates as may from time to time be fixed by the Lieutenant-Governor in Council, for the right to operate a pulp mill and a paper mill on or near the area referred to. Such tenders shall be required to erect a mill or mills on or near the territory, and to manufacture the wood into paper in the Province of Ontario—the paper mill to be erected within such time and in such place as the Lieutenant-Governor in Council shall direct. Parties making tender will be required to deposit with their tender a marked cheque payable to the Honourable the Treasurer of the Province of Ontario, ten per cent. of the amount of their tender, to be forfeited in the event of their not entering into an agreement to carry out the conditions, etc. The highest or any tender not necessarily accepted. For particulars as to description of territory, maps, etc., apply to the undersigned. N.B.—No unauthorized publication of this notice will be paid for. G. H. FERGUSON, Minister of Lands, Forests and Mines, Toronto, June 5th, 1915.

MEET TO-MORROW. The regular meeting of the Trades and Labor Council takes place tomorrow evening.

THE TEMPERATURE. Record for the last 24 hours. Lowest 55; highest 85. Same date last year. Lowest 55; highest 79.

SEEK HIS SERVICES. Pete Cancella has received a communication from the secretary of the committee in charge of the 1916 ball tournament to be held in Toronto next Wednesday offering the position of umpire.

NOT HIS FAULT. In connection with the recent collision, Mr. G. A. Gale points out that he was in no way to blame regarding the matter, as the other chine was on the wrong side of road, and the owner paid all damages.

ONE HUNDRED INCREASE. Comparison of street railway turns for week ended August 1915, city lines only: 1914, 1915.

Showing an increase of \$107,840. The returns for 1914 during the week were large on account of the Old Home Week.

RETURNS FROM TRIP. Mr. G. Pickles, manager of Brantford Laundry Limited, has returned from an extensive trip through the West. He reports trade conditions very quiet, but the attendance at the Pan-Pacific Exposition at present time is very large, the Canadian exhibit, especially, being highly admired and is also a great asset for Canada. He found great deal of interest was being shown in the war also, and judging from editorials in the papers and the pressions in general, their sympathy were decidedly with the allies.

MEET TO-MORROW

The regular meeting of the Trades and Labor Council takes place to-morrow evening.

THE TEMPERATURE

Record for the last 24 hours. Low, 55; highest 85. Same date last year, lowest 55; highest 79.

SEEK HIS SERVICES

Pete Cancelli has received a communication from the secretary of the committee in charge of the Baseball tournament to be held in Tilsonburg next Wednesday offering him the position of umpire.

NOT HIS FAULT

In connection with the recent automobile collision, Mr. G. A. Gale points out that he was in no way to blame regarding the matter, as the other machine was on the wrong side of the road, and the owner paid all damages.

ONE HUNDRED INCREASE

Comparison of street railway returns for week ended August 14th, 1915, city lines only:

RETURNS FROM TRIP

Mr. G. Pickles, manager of the Brantford Laundry Limited, has returned from an extensive trip through the West. He reports trade conditions very quiet, but the attendance at the Pan-Pacific Exposition at the present time is very large, the Canadian exhibit, especially, being greatly admired and is also a great advertisement for Canada. He found a great deal of interest was being taken in the war also, and judging from the editorials in the papers and the expressions in general, their sympathies were decidedly with the allies.

BIG AVERAGE

Out of seven babies recently born at the hospital, six are boys.

FEELING BETTER

Governor J. Y. Brown, who has been somewhat under the weather recently, was around to-day feeling somewhat better.

MAILED VOTERS' LISTS

Mr. James Smith, clerk of the Township of Brantford, this morning completed the task of mailing a copy of the voters' list of 1915 to all those entitled to receive a copy of same.

HEBREWS GIVE FREELY

The Hebrews of the city held a largely attended meeting recently in connection with the Machine Gun Fund when a committee was appointed to canvass for subscriptions. Reports from the committee are very encouraging and they expect when their canvass is completed to realize a goodly sum for this worthy cause.

WILL GIVE INFORMATION

The assessment office in the city hall will be kept open next Tuesday, Wednesday and Thursday evenings from 7 till 10 o'clock when the assessors will be pleased to give any information regarding the assessment of any properties. Any property owners desiring information regarding their assessment will be given same by the assessors.

REPRESENTING TYPOS

Ex-Ald. George A. Ward, who is representing Brantford Typographical Union, No. 378, at the big convention of the International Union, held at Los Angeles, California, has had the honor of being selected a member of the Committee on Provincial, State and District Unions. The convention is an exceptionally large one, and much important business is on the order sheet. The next convention will be held in Baltimore.

NEW PHYSICAL DIRECTOR

The new physical director of the Y.M.C.A. has been chosen, and will report for duty on September 15th. His name is Ernest L. Snow, and he comes from Lansing, Mich. He is a young fellow of splendid physical proportions, and besides taking an interest in church work and being a good companion, he has had an active interest in sports. Brantford track work, baseball and basketball have received his attention, as player, captain and coach. He is a graduate of Springfield College, an institution which is devoted to Y.M.C.A. work, and had a successful career while there. Both from his official record and from private sources he is highly recommended, and looks as if he will make a thoroughly competent and efficient instructor.

THOUGHTFUL COURTESY

Yesterday afternoon, after working and marching in the sun for two hours or more, the Dufferin Rifles, overseas force, 66 strong, were invited by Mr. W. Russell to his ice cream parlors and handsomely treated with ice cream and other cooling delicacies. A musician was discovered among the crowd who presided at the piano, and several impromptu songs were rendered with great spirit and a graphophone also contributed to the general gaiety. Sergt. Blanchard made a neat speech acknowledging the kindness, and the gathering dispersed. Mr. Russell is now a popular favorite around the armories.

WHY ENGLAND WINS

Sergt. F. W. Knowles of the Dufferin Rifles overseas quota, belongs to a family which has a perfect record of service. The sergeant, himself, after serving 3 years with the North Lancashire Regiment, obtained his discharge shortly after the South African war, and is now returning to the fray. The sergeant has four brothers living and one dead. Of the former three, Albert (Royal Engineers), Sidney (1st Life Guards), and Percy (Master Gunner, Lancashire Fusiliers) are at the front, one of them, Sidney, since the very beginning of the war. The remaining brother is too young to serve, but wants to go just the same. Mr. Edward Knowles belonged to the East Lancshires, and died of rheumatism about a month before the war broke out. Mr. Sidney Knowles was wounded once, and once overcome by gas, but still refuses to be invalided home and wants to stick to the finish.

WILL BE FINE

At the weather bureau in Toronto the statement was handed out that a long spell of fine weather might now be expected.

POLICE COURT

Ald. Pitcher disposed of another light batch of cases this morning at the police court. Two drunks were fined for breaking furniture, while the other cases were remanded.

MUCH APPRECIATED

The Courier office staff is indebted to Mr. G. S. Biggar of Cherry Farm, who was kind enough to present them with a small basket of Shiro plums.

HEAVY AUTO TRAFFIC

Mr. Dougal Campbell stated this morning that he sat in front of his residence on the Calumville road on Sunday between 7 and 10 and counted no less than 247 automobiles pass his door.

WANT SPORTING GOODS

The members of the Second Dragoons on active service would be pleased to accept any footballs, baseballs, bats, gloves or anything in the sporting goods line that any persons or persons should wish to donate to them.

NEW SIGN

A handsome new sign has been erected on the Y. M. C. A. premises. It is about 6 feet high, with a convex surface and fits into the space between the Y. M. C. A. building and the telephone structure adjoining. The lettering is white on a blue background, and the whole sign stands up on a Y. M. C. A. activities in a noticeable and artistic manner.

ABOUT THOSE WASHOUTS

Township Clerk James Smith recently sent a communication to the Lake Erie and Northern Railway informing that corporation that there were numerous complaints from farmers in reference to the washouts on the approaches to the over-head bridge near the Dutton and Crawford farms and received a reply to the effect that the railway people considered that it was up to the Township to keep the roads in repair, not them.

DR. HARTLEY NOW HOME FROM BERLIN

Dr. C. G. Hartley, son of Mr. R. Hartley, Pearl St., arrived in the city last evening from Berlin. He enjoys a successful dental practice there and returns in about three weeks. He is recovering from the illness of a nephew, the illness of his mother after a very serious operation.

What is the condition of affairs in Berlin? asked a Courier man. Matters are practically normal. We see more military men than in general times, but they are always noticeable in the capital, although to not so great an extent. It is two weeks ago since I left there and had passage to New York without incident, except a ten hour delay at Dover for the examination of papers. In Berlin, one noticeable feature is the continuance of city improvements. One of these is a large extension of the underground railway system. The theatres, opera houses and race courses are open as usual and golf and other sports continue.

How about the price of living? The government controls the price of all commodities and there has been no noticeable advance. There seems to be plenty of food and the crops have been excellent. I have spent a very comfortable winter there, with no annoyances, and other things on one occasion during a four days' winter carnival in the mountains five hours trip from the camp near Berlin at Dobritz seem to be well treated. They have hot and cold shower baths, their own theatre, a store where they can buy fruit. The 24,000 prisoners there receive about 17,000 letters a day from as many packages. They have their own postmaster. The feeling of Germans is still one of confidence. The doctor excused himself from discussing any phases of the war.

GAVE ADDRESS. Vancouver, B.C., Aug. 17.—Hon. T. Chase Casgrain gave a patriotic address before the Canadian club here yesterday.

Fifty nurses from New Zealand have arrived in London in addition to a party that has proceeded to France. The death has occurred at Kamsgate in his seventy-seventh year of J. Davis, late R.H.A., a Crimean veteran.

Twenty-Five Thousand is the Amount

The fund for Machine Gun and other equipment is now heading for the \$25,000 mark. From the Brant theatre profits of last week there has come the sum of \$100.

The committee met on Friday to close matters and it is urgently requested that canvassers make all returns by that time. Those who had not been called on and would like to be on the honor roll are asked to send their contributions to either of the newspaper offices.

LEO FRANK IS LYNCHED BY CITIZENS

Frank, serving a life term for the murder of Mary Phagan, the Atlanta factory girl, and who was taken from the prison farm at Milledgeville last night, was lynched by a party which took him. He was hanged to a tree. Frank was brought 100 miles from the prison farm, to a point almost within sight of the former home of Mary Phagan. No shots were fired. Frank's body, barefooted, and clad only in prison trousers and shirt, was found at 8:30 o'clock this morning. It is believed he was lynched about daylight.

Inhuman Treatment by German of Family North Bay, Aug. 17.—A story of unusual cruelty was brought to town on Saturday by Provincial Constable Lefebvre. A German farmer, named William Brehm, who lives at Ess Lake, back of Wainwright, on the C. N. R. was arrested on Friday and lodged in jail at Sudbury on the charge of non-support. On Monday last Brehm packed his wife and four small children into a rowboat and landed them on a lonely island. For four days and a half the family subsisted on berries they picked, and the only covering they had through the inclement weather was an old blanket. When discovered by the police they were in a pitiable condition. Mrs. Brehm is enceinte. The inhuman father was arrested and taken to Sudbury, where he appeared before Magistrate Brodie, and his case was remanded for a week to enable the wife to testify.

LONDON STARTS OFF WELL WITH OTTAWA

Even the Champions Fail to Stop the Rush of the Cockneys.

Ottawa, Aug. 17.—London took the first game of the series yesterday by a score of 3 to 2. Smithson passed 8 and hit 2, but was absolutely invincible in the pinches, Ottawa having 11 men left on bases. In the first and second they filled the sacks, but failed to score. Ross and Smithson each allowed five hits. London gave Smithson perfect support, Perry having two hits which drove in runs. Score: R. H. E. London 3 5 0 Ottawa 2 5 1 Smithson and Yelle; Ross and Payne.

HAMS ARE STILL LOSING. Hamilton, Aug. 17.—Hamilton lost the first game under the new manager, Gus Zeimer, when they dropped the opening game of the series with St. Thomas by 3 to 1. They had nearly double the number of hits of the visitors, but only netted one run. Score: R. H. E. St. Thomas 3 6 1 Hamilton 1 1 2 Fulton and Lage; Jones and Lamond.

Fried second only to Grieves of Guelph, Mullins second only to Pay of St. Thomas, and Isaacs of Guelph. Dunlop leads the league as short stop, having it over them all. It will be seen that in everything that counts, Ottawa is right to the fore, although the Brants have also a fine record. When it is also discovered that Ottawa plays 67 games at home and only 45 on the road, and that on August 15th play 14 games at home to 9 on the road, it will be apparent that the Shaughnessy's spirit hovered over the schedule in the making and saw that he wasn't overlooked.

Upon a close analysis of the batting and fielding averages, the most noticeable phase of the situation is that the Brants are far down the list in stolen bases. That is a great weakness, because a stolen base often grows into a run, and runs are what wins games. The premier base-stealer of the league was Merlin Kopp. The little St. Thomas outfielder stole 42 sacks in 70 games, more than one every two games. The next three on the list are Fuller, Smykal and Shaughnessy, all of Ottawa, with 28, 24 and 23 respectively. Burrill leads the Brants with 16, Joe Dunn running him a close second with 15. Comstock, who led his league in stolen bases last year, has only 6 to his credit, which shows that the Canadian League plays fast ball. The Brants' outfield stole thirty-seven times, while the infield stole 27. The Senators infield on the contrary, beating their outfield hollow in getting to the next sack.

Four men played in 70 games or over. Bullock, Ottawa, 75; Smykal, Brantford, 74; Kopp, St. Thomas and Schaefer, London and Guelph, 70 each. Seven players have scored more than 40 runs. Burrill 43 and Dunn 42, of Brantford; Fuller 43 and Bullock 42, of Ottawa; O'Brien, London, 40; Kopp, St. Thomas, 40; and Murphy Guelph, who leads the procession with 51. The highest number of home runs made by any player is 5. Three men knocked out 5 each. Mullin, Brantford, and Brown and Schaefer of Guelph. Only three pitchers hit out circuit clouters, Dorbeck, Guelph, and Hammond, London 1 each; Walker, Brantford, 2.

Those people who hold that Todd, late of St. Thomas, was about the best second baseman in the league, have some figures to support their view, as he made more assists, 218, than any other player. Smykal of Ottawa is second with 202. The three leading men who played errorless ball were: Dolan, pitcher of Hamilton, no errors in 19 games, and 51 chances; Walker, pitcher, Brantford, 13 games and 34 chances; Bashang, outfielder, Ottawa, 12 games and 22 chances. The record for the greatest number of assists for an outfielder is held by Joe Dunn with 20 to his credit. Some whip had Joe.

Cooper has had 213 chances to make an error and made only three. Cooper came to bat 143 times and had 52 hits; Harkins came to bat 198 times and had 60 hits. Harkins has 17 errors charged against him, which gives Cooper quite an edge. Looking at the Brants' infield in fielding averages, it is found that Cooper is second only to Payne of Ottawa, Ivers, second only to Dolan of Ottawa,

Pittsburg, Aug. 17.—Cincinnati twice tied the score in the game yesterday with Pittsburg, only to lose out in the ninth inning by a score of 5 to 4. In the ninth, after Collins and Hinckman had singled, Wagner was purposely walked. Lear then hit Viox with a pitched ball, forcing Collins in with the winning run. Score: R. H. E. Cincinnati 5 4 3 Pittsburg 4 5 2

BOLAND COMES CLOSE TO THE HALL OF FAME

Cleveland, Aug. 17.—Detroit took both games from Cleveland yesterday 6 to 2 and 3 to 1. Not a hit was made off Boland in the second game until there were two out in the ninth inning. Score: R. H. E. Cleveland 2 1 0 Detroit 6 2 0

CANADIAN CLUBS ALL LOSERS

Hamilton Herald: Expressing the wish to cut down expenses, the directors of the Hamilton Canadian League Club released Manager Cristall on Saturday night. The club's action came as a huge surprise, and it must be said on Cristall's behalf that it was not because of any managerial shortcoming that he was allowed to go. The league has had a rough voyage this season, all the clubs losing money, and the local officials deem it wise to make the move in order to prevent further loss.

MILES MAIN PITCHES

A NO HIT, NO RUN GAME.

Buffalo, Aug. 17.—Kansas City shut out the Buffeds 5 to 0 yesterday, Main pitching a no-hit, no-run game. Only three locals reached first base, two on errors and one on balls. Ford, after the first innings did not allow a hit until the ninth, with three singles and Chase's wild throw scored two. Score: R. H. E. Kansas City 5 0 0 Buffalo 0 0 0

TOO MUCH FOR "BUNNY"

Pittsburg, Aug. 17.—Hern was easy for the Brooklyn Feds yesterday, and they defeated Pittsburg by a score of 4 to 1. Finerman passed seven men, but was unhit when his meant runs. Score: R. H. E. Brooklyn 4 1 0 Pittsburg 1 2 2

DO THE MOVIES HURT YOUR EYES? THEN READ THIS

Doctors Explain the Reason and Suggest Some Remedies.

TOO MUCH SPEED OFTEN THE CAUSE

If One's Eyes Are Weak Steady "Picture Fanning" Will Not Pay.

If your eyes are strong and normal looking at moving pictures will do them no harm; if they are weak, you had better stay away. This appears to be the general conclusion of a symposium on the subject just gathered, says the Medical Times.

The first writer, Dr. J. Norman Risley, of Philadelphia, notes that the elements likely to be the source of irritation to the delicate structure of the eyes are "flickering," or vibration, and inaccurate and variable focusing of the pictures, also the relation the light reflected from the screen bears to the visual plane of the observer. To the normal spectator the undue effort required to maintain distinct vision under these circumstances often produces discomfort, but this subsides and no permanent injury results. Where the refractive powers of the eye are defective—a condition more common than the normal one—eye strain, with its accompanying disorders will probably follow.

Says Dr. Risley: "It seems to me that the motion picture exhibition in its effect upon the eyes can be classified only as an additional irritation and stimulation to the numerous other characteristics of the tense and active neurotic life of the period. It is, as a rule, only those individuals with uncorrected optical defects, or pathological organic changes, who experience discomfort or injury from the irritating features of the motion picture, which then are only the exciting factor in the crisis resulting from a long-standing predisposing cause. The influences of the motion picture often work for the individual welfare, since, in many instances, the existence of an optical defect is unknown until subjected to strain in viewing these projected images. The irritating features are curative mechanism regulating the relation between the condensing and projecting lenses, more care in the selection of the glass used and in the grinding of the lenses, and a scientific understanding of optical principles by those who are responsible for the placing and operating of the projecting machines. The most irritating feature to the eyes is the exposure to the direct unreflected rays, and this condition should be remedied. As municipal regulations forbid the placing of a stationary structure in a public auditorium in a situation where it may interfere with rapid exits when emergency arises, it prevents the installation of the picture instruments as a point from which it is possible to project the pictures to the screen on a horizontal plane.

"Would it not, however, be possible to locate projecting machines in the basement at a central point to the rear of the audience, and have an open avenue in the floor through which the pictures could be projected to the screen on an ascending plane of sufficient degree to reflect the rays above the visual line of the audience and thus remove a most irritating feature of an otherwise pleasing and interesting diversion?"

HERE'S AN ENTHUSIAST. That any one with thorough sound eyes, not weary before entering the theatre, can watch the movies from an hour to an hour and a half without discomfort is the opinion of Dr. J. Herbert Claiborne, of New York, another contributor to the symposium. Others he advises to avoid the movies until the trouble is corrected. Says Dr. Claiborne, in addition:

"The movies have come to us to stay, and I consider them a source of interesting, instructive and innocent amusement, economical to the last degree. Moving pictures are the only good things I know in this world that give one likes that cost little and every great pleasure. This

is what men have been looking for all time, and I think they have found it at last, but the most important feature of the movies, we are gradually coming to recognize it, is the education one. It is to be hoped that in the future many, if not all, of the historical events of this country will be presented without prejudice, for the instruction particularly of children and likewise of all of us.

Some objectionable features of moving pictures, from the visual standpoint, are catalogued by Dr. Seth Scott Bishop, of Chicago. He writes: "One very serious objection to the manner in which the pictures are projected upon the screen is the presence, in some of them, of innumerable glimmering, flashing and dancing bright spots that try the eyes. But these do not characterize the best class of pictures, which shows that they can be eliminated. "Another feature which puts a severe test upon the eyes, is the unnatural swiftness with which the films are reeled off, making every action abnormally rapid and jerky, converting the actors' walk into a Chinese trot, and giving all the participants a sort of St. Vitus dance. "But the common practice of flashing written letters and printed matter on and off the screen with almost lightning celerity, puts the greatest strain of all upon the eyes. The audience in its eagerness to get an intelligent understanding of the action, makes a strong effort to read the lines, but they are given no opportunity to read all of them in many instances.

MODERN TORPEDO LOADED AUTO CAR. SHAPE LIKE CIGAR

It is the Most Terrible Weapon Yet Devised by Human Brain.

AN EXPERT TELLS HOW IT OPERATES

Victim Ships Are Destroyed by Detonation and Not by Explosion.

The up-to-date torpedo is a loaded automobile, shaped like a cigar, made to run in a certain direction in a fixed time and explode when it strikes something that offers sharp resistance. A reliable one, properly equipped with explosives and running gear, costs from \$8,000 to \$9,000, according to size. A large torpedo is 23 feet long, 21 inches in diameter and weighs 2,800 pounds, and it tears a hole 30 feet by 10 feet in the bottom of a ship of two skins.

"The torpedo," said an expert of the navy, to a Washington newspaper correspondent, has four principal parts—the warhead, which carries the explosive; the air flask, or fuel chamber; the engine and the steering gear and the balance chamber. The explosive—gun cotton, etc.—and is provided with a percussion detonator. This strikes a hard or solid substance, and the explosive goes off instantaneously.

"The explosive head strikes the bottom of a ship and a 'detonation,' not an 'explosion,' takes place. The mass of high explosive seems to explode around it scattered on the ground, but it explodes if confined in a close place. The high explosive will burn if you stick a match to it, but not so easily as gunpowder. A sudden blow will apply heat to an explosive and set it off.
