ITALIANS IN MONTREAL EXPLAIN EASTERN QUESTION

ISSUE BULLETIN TO THE PRESS SETTING FORTH CLAIMS CONCERNING FIUME IN ORDER TO ENLIGHTEN READERS.

The Journal is in receipt of a bulletin from an Italian news bureau in Montreal in which a statement is made covering the position of Italy with respect to Fiume. It declares that the people of the latter place want to be united to Italy. The statement is published for what it is worth and as a partial explanation of the situation as viewed by Italians.

The Canadian public and press will never be in a position to understand fully and justly Italy's aspirations upon Fiume unless they are told the fundamental reasons for the union of this latter city to her mother country, Italy.

ONE OF THE REASONS. It may be true that Fiume was not included in the Treaty of London of April, 1915, but it is also true that Italy renounced to Fiume because of the pressure from Russia, the protector of the Slavic race, and in order to please that nation which at that time was one of the Allies.

ONE OF THE REASONS. It may be true that Fiume was not included in the Treaty of London of April, 1915, but it is also true that Italy renounced to Fiume because of the pressure from Russia, the protector of the Slavic race, and in order to please that nation which at that time was one of the Allies.

ONE OF THE REASONS. It may be true that Fiume was not included in the Treaty of London of April, 1915, but it is also true that Italy renounced to Fiume because of the pressure from Russia, the protector of the Slavic race, and in order to please that nation which at that time was one of the Allies.

WILLIAM HOHENZOLLERN MUST BE HANDED OVER TO THE ALLIES

Washington, April 29.—The following announcement was made by the State Department yesterday:

"Following are the proposed articles regarding penalties, for insertion of the treaty of peace to be considered at a plenary session of the conference, Monday, at 3 o'clock p.m., Paris time:

A Public Arraignment. "Article 1.—The allies and associated powers publicly arraign William II. of Hohenzollern formerly German Emperor, not for an offence against criminal law, but for a supreme offence against international morality and sanctity of treaties.

"A special tribunal will be constituted to try the accused, thereby assuring him the guarantees essential to the right of defence. It will be composed of five judges, one appointed by each of the following five powers, namely: The United States of America, Great Britain, France, Italy and Japan.

Will Fix Punishment. "In its decision the tribunal will be guided by the highest motives of international policy with a view to indicating the solemn obligations of international undertaking, and the validity of international morality. It will be its duty to fix the punishment which it considers should be imposed.

"The allies and associated powers will address a request to the Government of the Netherlands for the surrender to them of the ex-Emperor in order that he may be put on trial.

Must Surrender Guilty Officials. "Article 2.—The German Government not having insured the punishment of the persons accused of having exercised acts in violation of the laws and customs of war, such persons will be brought before military tribunals by the allied and associated powers, and if found guilty, sentenced to the punishment laid down by military law.

"The German Government shall hand over to the allied and associated powers, or to such one of them as shall so request, all persons accused of having committed an act in violation of the laws and customs of war, who are specified either by name or by the rank, office, or employment, which they held under the German authorities.

Individual Courts Provided. "Article 3.—Persons guilty of criminal acts against the nationals of one of the allied and associated powers will be brought before the military tribunals of that power. Persons guilty of criminal acts against the nationals of more than one of the allied and associated powers will be brought before military tribunals composed of members of the military tribunals of the powers concerned. In every case the accused will be entitled to name his own counsel.

Must Furnish Information. "Article 4.—The German Government undertakes to furnish all documents and information of every kind the production of which may be considered necessary to insure the full knowledge of the incriminating acts the discovery of the offenders, and the just appreciation of the responsibility.

war, who are specified either by name or by the rank, office, or employment, which they held under the German authorities.

Individual Courts Provided. "Article 3.—Persons guilty of criminal acts against the nationals of one of the allied and associated powers will be brought before the military tribunals of that power. Persons guilty of criminal acts against the nationals of more than one of the allied and associated powers will be brought before military tribunals composed of members of the military tribunals of the powers concerned. In every case the accused will be entitled to name his own counsel.

Must Surrender Guilty Officials. "Article 2.—The German Government not having insured the punishment of the persons accused of having exercised acts in violation of the laws and customs of war, such persons will be brought before military tribunals by the allied and associated powers, and if found guilty, sentenced to the punishment laid down by military law.

"The German Government shall hand over to the allied and associated powers, or to such one of them as shall so request, all persons accused of having committed an act in violation of the laws and customs of war, who are specified either by name or by the rank, office, or employment, which they held under the German authorities.

Individual Courts Provided. "Article 3.—Persons guilty of criminal acts against the nationals of one of the allied and associated powers will be brought before the military tribunals of that power. Persons guilty of criminal acts against the nationals of more than one of the allied and associated powers will be brought before military tribunals composed of members of the military tribunals of the powers concerned. In every case the accused will be entitled to name his own counsel.

Must Surrender Guilty Officials. "Article 2.—The German Government not having insured the punishment of the persons accused of having exercised acts in violation of the laws and customs of war, such persons will be brought before military tribunals by the allied and associated powers, and if found guilty, sentenced to the punishment laid down by military law.

"The German Government shall hand over to the allied and associated powers, or to such one of them as shall so request, all persons accused of having committed an act in violation of the laws and customs of war, who are specified either by name or by the rank, office, or employment, which they held under the German authorities.

Individual Courts Provided. "Article 3.—Persons guilty of criminal acts against the nationals of one of the allied and associated powers will be brought before the military tribunals of that power. Persons guilty of criminal acts against the nationals of more than one of the allied and associated powers will be brought before military tribunals composed of members of the military tribunals of the powers concerned. CANADIAN BACON PRICES IN ENGLAND

The following are comparative prices as forwarded to the Canadian Trade Commission, Ottawa, as among those fixed by the British Food Controller in April for the sale by agents of the British Ministry of Food of "green" ham or bacon in original packages exported.

Wiltshires, Canadian, 180 s. per cwt. Class A., American, 176 s. per cwt. Cumberlands, Canadian, 177 s. per cwt. Class A., American, 175 s. per cwt. Hams, L. C., Canadian, 178 s. per cwt. Class A., American, 176 s. per cwt.

RETURNED MAN WAS BRUTALLY ASSAULTED

Charles Sargeant, Night Watchman at Jenks Factory Victim of Midnight Crime and Little Hopes are Held for his Recovery—Assailant is Unknown.

Shortly after midnight last night Charles Henry Sargeant, aged 56, a night watchman at the Jenks Machine works was found in an unconscious condition lying in a pool of blood on the floor of the building by the other watchman when he came on duty.

The police were notified immediately by telephone and P.C. Howitt started for the scene and on his arrival at the works he found Sargeant stretched out on the floor and from the general appearance it was evident to the officer that the man's skull was fractured.

Iron Bar Found. Close to the senseless form of the night watchman, the police picked up an iron bar about four feet long and one inch and a half in diameter, which was blood marked, and sticking to it was a piece of a human skull with strands of hair hanging from it.

The injured man was at once removed to the General and Marine Hospital and although the best of medical assistance has been given, little hopes are held out for his recovery.

The police then got busy on the case and many clues have been run to earth without success. During the morning an Austrian named Mike Moleck was taken into custody on suspicion of being implicated in the crime but after a preliminary arraignment before the magistrate he was remanded for one week.

Moleck's boots were taken to the scene of the assault and were compared with the foot marks which are plainly discernible outside the building but they did not tally.

REPORT UNKNOWN. Reports were in circulation all day yesterday regarding minor labor troubles at the works, and as the boiler makers are out on strike a correct solution for the motive that prompted such a crime.

The victim of the brutal assault is a returned soldier and resides with his daughters, Mrs. Davis and Mrs. Collins, King street, Thorold. He has been employed at the plant since receiving his discharge from the C. E. F. At the time of going to press he was still living, but his condition is serious.

There were no new developments in the case at three o'clock this afternoon.

HELD SOCIAL EVENING

The Business Boys Club held their wind up meeting of the season in the Club Rooms at the "Y" last night. The Niagara-on-the-Lake boys with their lady friends were the guests of the evening, and after a well contested game of basket ball in the "gym" in which the Business Boys won by five points, a short programme including selections by the Collegiate orchestra and some very reasonable remarks by Mr. Clark, Boys Work Secretary, was held up stairs. Refreshments were served and after a short informal dance the meeting broke up all having had a good time.

The Plumbers and Tinsmiths in Hamilton are now asking for 60 cents an hour, for an 8-hour day.

THE ANGLICAN LAYMEN HOLD FINE BANQUET

Rev. Dr. Renison of Hamilton Gives Splendid Address Before Representative Gathering at the Welland Last Evening.

There was an exceptionally large attendance at the banquet held by the laymen of the Anglican Churches of St. Catharines and district at the Welland House last evening, and after ample justice had been done to the many good things provided, some interesting addresses were delivered.

Archdeacon Perry presided at the banquet, and representatives were present from almost every parish in the district.

Archdeacon Perry, in calling on the speaker of the evening, said that there was a movement on foot to make the Diocese and the Church prominent the world over. The Anglican Church is now pre-eminent among the religious sects of the country.

A FINE ADDRESS. The guest of honor was Rev. Robert J. Renison, pastor of the Church of Ascension, Hamilton, and a former incumbent at St. George's, who gave a most interesting address, during which he called attention to the scenes of darkness and desolation through which we have passed during the past fifty months.

He also pointed out a few of the spiritual realities that are fundamental in the life of the men and nations which survived the trials and testing of the great world war.

Renison, the Rev. Dr. J. Renison, said that there were five stars which seemed to shine brighter than ever before in the history of the world. The first was God himself, the second was the ideal character of Jesus, the third is the star of human brotherhood. The fourth star is sacrifice and the fifth is the star of immortality.

FRIEND OF LIBERTY. Dr. Renison then pointed out the fact that the Church of England has been a friend of liberty to the Anglo-Saxon race for 700 years, and that the future of the church depends not on the clergy but on the laity, who have shown in the past four years that if an appeal can be made deep and strong enough, there will be no limit to the response to that appeal.

Dr. Renison was warmly applauded when he sat down.

F. H. Keefer, K.C., secretary of External Affairs at Ottawa, also gave a short address in which he drew attention to the advisability of a league of religions, as there were many big problems to be faced which could be faced in a better way by the churches getting together.

VOTE OF THANKS. In moving a hearty vote of thanks to Dr. Renison and Mr. Keefer for their splendid addresses, Hon. Richard Harcourt stated that the people were getting nearer to the desirability of working together.

The resolution was seconded by Mr. C. G. McGhie, and was carried unanimously.

The evening was brought to a close by the singing of the National Anthem.

PROBLEM CROPS UP OVER ONTARIO ST.

In connection with the proposed paving of Ontario Street from Welland Avenue to Carleton Street, which has been included in the Board of Works programme as a result of requests from business interests and property holders on that street it is understood there are problems arising. If a pavement is laid it means that the N. S. & T. Railway will be required to spend considerable money if it has to move its tracks or take them up and relay them on a new and solid foundation. The expense is so heavy it is reported that the company is loath to undertake it inasmuch as that strip of track does not earn enough to justify much outlay. The Council desires to go ahead at an early date with the local improvement and just how the situation will be fixed up The Journal reporter has not been able to learn.

CLOCKS TO GO BACK

London Theatres and Steel Railway Company Will Revert to Standard Time To-day.

London, Ont., April 29.—The London Street Railway Co. under pressure from its employees, announced yesterday that daylight saving was abandoned commencing this morning. The theatres have taken similar action, as have several local factories.

The Board of Education is allowing matters to stand and daylight saving will be adhered to until there is a more definite and general reversion to Eastern standard.

EXHIBIT GENERAL'S HEAD

New York, April 29.—The head of General Aureliano Blanquet, reported to have been killed in an engagement with Federal troops shortly after he landed in Mexico, was exhibited to the public in Vera Cruz, April 29th, according to Francisco Bobadillo, secretary to the general manager of the Bank of London.

TURNED IT DOWN.

The members of St. Catharines Local No. 416, International Typographical Union, held an important business meeting last night, when, among other questions that were considered, the "One Big Union" idea as mooted in Western Canada, was turned down by a unanimous vote.

THE COVENANT OF THE LEAGUE OF NATIONS.

In order to promote international co-operation and to achieve international peace and security, by the acceptance of obligations not to resort to war, by the prescription of open, just and honorable relations between nations, by the firm establishment of the understandings of international law as actual rule of conduct among Governments, and by the maintenance of justice and a scrupulous respect for all treaty obligations in the dealings of organized peoples with one another, the high contracting parties agree to this Covenant of the League of Nations.

(In the original preamble the last sentence read: "adopt this constitution," instead of "agree to this covenant.")

ARTICLE ONE. The original members of the League of Nations shall be those of the signatories which are named in the annex of this covenant, and also such of those other states named in the annex as shall accede without reservation to this covenant. Such accessions shall be effected by a declaration deposited with the secretariat within two months of the coming into force of the covenant. Notice thereof shall be sent to all other members of the League.

Any fully self-governing state, dominion or colony not named in the annex may become a member of the League if its admission is agreed by two-thirds of the assembly, provided that it shall give effective guarantees of its sincere intention to observe its international obligations and shall accept such regulations as may be prescribed by the League in regard to its military and naval forces and armaments.

Any member of the League may, after two years' notice of its intention to do so, withdraw from the League, provided that all its international obligations and all its obligations under this covenant shall have been fulfilled at the time of its withdrawal.

J. D. TAIT EMPLOYEES ORGANIZED TO-DAY

The J.D. Tait, Co., Ltd. War Savings Society was organized this morning among the employees of the store by Mr. Worsley, of the Metropolitan Life and the following officers were elected:

President—Mr. A. M. Stobie. Secretary—Mr. S. C. Smith. The meeting was marked by much enthusiasm and good results are expected from this store in the sale of Thrift and War Saving Stamps. This is the first large department store to be organized in St. Catharines and the committee look forward to seeing the other stores follow suit in order that St. Catharines will lead in this campaign as they did in the Victory Loan.

The centennial celebration of the institution of Odd Fellowship has been widely kept throughout Ontario on Sunday last, generally in the shape of religious services in the churches.

REPATRIATION LEAGUE.

"Lost We Forget." We sent our soldiers away to war fully equipped let us welcome them back and equip them as fully for the ways of peace. This is everybody's deal. You have your share in it. Come to the meeting at 4 p.m. in the Council Chamber Thursday and tender your advice and assistance. Everybody

TEACHERS' SALARIES.

Woodstock Sentinel-Review... That Woodstock is so near the foot of the list in the matter of public school salaries cannot be a source of pride to any of us. But it is not merely a question of sentiment. It is a question of efficiency as well. We cannot expect to keep up our end in competition with other places unless we are willing to pay the price. The tendency of the best teachers will be to go where the rewards are the greatest.

A PROBLEM

St. John Telegraph... Further delay in bringing down the Budget is now predicted, and it is expected that negotiations will be continued behind the scenes with the idea of ascertaining whether a sufficient number of Liberal Unionists can be retained through tariff concessions to allow the Government to carry on. Uncertainty as to coming events appears to grow in Ottawa as Budget day approaches. The Government does not want an election, and the Liberal party appears not anxious to have one; but the difficulties attending compromise and the state of popular

SOUR STOMACH MADE SWEET

Gas Belching, Bad Breath, and Digestive Troubles Helped Quickest by Dr. Hamilton's Pills

Better patch up the weak spots. Give to the stomach the assistance it requires—or in other words, try Dr. Hamilton's Pills, which cure more weak stomachs than any other medicine.

Dr. Hamilton's Pills put the kind of life into a weak stomach that enables it to digest and assimilate all kinds of food.

It's the people who feel half-sick—sort of tired and depressed—for those who have any ailment of the stomach, kidneys, or liver, that Dr. Hamilton's Pills are sure to benefit at once. Try them, 25c a box at all dealers, and insist on having only Dr. Hamilton's Pills. In yellow boxes only.

opinion in regard to the tariff may render an appeal to the people unavoidable before another session.

HOMER

On the closing day of the Easter holidays a very interesting exhibit of the pupils' work was given at the school here. A large number of parents and friends was present.

The newly formed parents and teacher association is very much appreciated in this section and cannot fail to increase the interest of the parents in the work of the school.

We are glad to learn that Rev. Mr. Honey is recovering rapidly from his serious operation.

The annual meeting of the Bible Society will be held in the Methodist Church next Thursday. The illustrated lecture given on that occasion by Rev. Mr. Hassard will be very interesting.

The reports given at the Vestry meeting of St. George's Church were very encouraging. The congregation besides paying off the whole of the \$2,000 mortgage during the year, have wiped off a deficit from 1918 in the current account and replaced it by a considerable balance. Mr. John Secord and Mr. Elmer Cudney were elected wardens, Mr. Lampard treasurer, and Mr. Norman Counsell lay delegate.

The young people of St. George's Church are busy practising for an entertainment which they expect to give in the near future.

An event of importance in the history of our neighborhood will be the consecration of St. George's Church by the Bishop. This will take place at half-past three next Sunday afternoon. The Rev. Canon Broughall, of St. Catharines, will be the special preacher.

Mrs. Allan recently presented a beautiful stained glass window to St. George's Church in memory of her husband. It was unveiled and dedicated on Easter Day.

CARPENTERS SILENT

Just what action the members of the local Carpenters Union will take on May 1st is doubtful but it is rumored that they will ask an increase in wages and a shorter working day.

A Journal reporter tried to verify the report this morning but although a number of carpenters were asked as to whether there was any truth in the rumor or not none of them would make any statement either way.

COMPLETE ARTICLES OF THE LEAGUE OF NATIONS

(Continued from page 1)

with any matter within the sphere of action of the League or affecting the peace of the world.

Any member of the League not represented on the council shall be invited to send a representative to sit as a member at any meeting of the council during the consideration of matters specially affecting the interests of that member of the League.

At meetings of the council each member of the League represented on the council shall have one vote, and may have not more than one representative.

(This embodies that part of the original article three designating the original members of the council. The paragraph providing for increase in the membership of the council is new.)

ARTICLE FIVE

Except where otherwise expressly provided in this covenant, decisions at any meeting of the assembly or of the council shall require the agreement of a fall the members of the League represented at the meeting.

All matters of procedure at meetings of the assembly or of the council, the appointment of committees to investigate particular matters, shall be regulated by the assembly or by the council and may be decided by a majority of the members of the League represented at the meeting.

The first meeting of the assembly and the first meeting of the council shall be summoned by the President of the United States of America.

(The first paragraph requiring unanimous agreement in both assembly and council except where otherwise provided is new. The other two paragraphs originally were included in article four.)

ARTICLE SIX

The permanent secretariat shall be established at the seat of the League. The secretariat shall comprise a secretary-general and such secretaries and staff as may be required.

The first secretary-general shall be the person named in the annex; thereafter the secretary-general shall be appointed by the council with the approval of the majority of the assembly.

The secretaries and staff of the secretariat shall be appointed by the

Public Notice

ATHLETIC SPORTS.

Notice is hereby given that all Athletic Clubs desiring the use of the Lacrosse Grounds for games for 1919 must apply by letter addressed to the Chairman of the Park Committee, in care of the City Clerk, on or before Wednesday, April 30th.

The Committee will meet in the Council Chambers on Wednesday evening, April 30th, at 8 o'clock, for arranging and allotting dates. Any Club desiring the use of the grounds are requested to have representatives present.

J. ALBERT PAY, City Clerk. A 24-25-26

enforcement by common action of international obligations.

The council, taking account of the geographical situation and circumstances of each state, shall formulate plans for such reduction for the consideration and action for the several Governments.

Such plans shall be subject to reconsideration and revision at least every ten years.

After these plans shall have been adopted by the several Governments, limits of armaments therein fixed shall not be exceeded without the concurrence of the council.

The members of the League agree that the manufacture by private enterprise of munitions and implements of war is open to grave objections. The council shall advise how the evil effects attendant upon such manufacture can be prevented, due regard being had to the necessities of those members of the League which are not able to manufacture the munitions and implements of war necessary for their safety.

The members of the League undertake to interchange full and frank information as to the scale of their armaments, their military and naval programmes and the condition of such of their industries as are adaptable to warlike purposes.

(This covers the ground of original article eight, but is rewritten to make it clearer that armament reduction plans must be adopted by the nations affected before they become effective.)

ARTICLE NINE

A permanent commission shall be constituted to advise the council on the execution of the provisions of articles one and eight and on military and naval questions generally. (Unchanged except for the insertion of the words "article one.")

ARTICLE TEN

The members of the League undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the League. In case of any such aggression or in case of any threat or danger of such aggression, the council shall advise upon the means by which this obligation shall be fulfilled. (Virtually unchanged.)

ARTICLE ELEVEN

Any war or threat of war, whether immediately affecting any of the members of the League or not, is hereby declared a matter of concern to the whole League, and the League shall take any action that may be deemed wise and effectual to safeguard the peace of nations. In case any such emergency should arise, the secretary-general shall, on the request of any member of the League, forthwith summon a meeting of the council.

It is also declared to be the fundamental right of each member of the League to bring to the attention of the assembly or of the council any circumstances whatever affecting international relations which threaten to disturb either the peace or the good understanding between nations upon which peace depends.

(In the original it was provided that the "high contracting parties reserve the right to take any action," etc., where the revised draft reads, "The League shall take any action.")

ARTICLE TWELVE

The members of the League agree that if there should arise between them any dispute likely to lead to a rupture, they will submit the matter

COMPLETE ARTICLES OF THE LEAGUE OF NATIONS

Continued from Page 2
either to arbitration or to enquiry by the council, and they agree in no case to resort to war until three months after the award by the arbitrators on the report by the council.

In case under this article the award of the arbitrators shall be made within a reasonable time and the report of the council shall be made within six months after the submission of the dispute.

(Virtually unchanged except that some provisions in the original are eliminated for inclusion in other articles.)

ARTICLE THIRTEEN.

The members of the League agree that whenever any dispute shall arise between them which they recognize to be suitable for submission to arbitration and which cannot be satisfactorily settled by diplomacy, they will submit the whole subject matter to arbitration. Disputes as to the interpretation of a treaty, as to any question of international law, as to the existence of any fact which established would constitute a breach of an international obligation, or as to the extent and nature of the reparation to be made for any such breach, are declared to be among those which are generally suitable for submission to arbitration. For the consideration of any such dispute the court of arbitration to which the dispute is referred shall be the court agreed upon by the parties to the dispute, or stipulated in any convention existing between them.

factorily settled by diplomacy, they will submit the whole subject matter to arbitration. Disputes as to the interpretation of a treaty, as to any question of international law, as to the existence of any fact which established would constitute a breach of an international obligation, or as to the extent and nature of the reparation to be made for any such breach, are declared to be among those which are generally suitable for submission to arbitration. For the consideration of any such dispute the court of arbitration to which the dispute is referred shall be the court agreed upon by the parties to the dispute, or stipulated in any convention existing between them.

The members of the League agree that they will carry out in full good faith any award that may be rendered, and that they will not resort to war against a member of the League which complies therewith.

In the event of any failure to carry out such an award, the council shall

propose what steps should be taken to give effect thereto.

(Only minor changes in language.)

ARTICLE FOURTEEN

The council shall formulate and submit to the members of the League for adoption plans for the establishment of a permanent court of international justice. The court shall be competent to hear and determine any dispute of an international character which the parties thereto submit to it. The court may also give an advisory opinion upon any dispute or question referred to it by the council or the assembly.

(Unchanged except for the addition of the last sentence.)

ARTICLE FIFTEEN

If there should arise between members of the League any dispute likely to lead to a rupture, which is not submitted to arbitration as above, the members of the League agree that they will submit the matter to the council. Any party to the dispute may effect such submission by giving notice of the existence of the dispute to the secretary-general, who will make all necessary arrangements for a full investigation and consideration thereof. For this purpose the parties to the dispute will communicate to the secretary-general as promptly as possible statements of their case, all of the relevant facts and papers; the council may forthwith direct the publication thereof.

The council shall endeavor to effect a settlement of any dispute, and if such efforts are successful a statement shall be made public, giving such facts and explanations regarding the dispute, terms of settlement thereof as the council may deem appropriate.

If the dispute is not thus settled, the council either unanimously or by a majority vote shall make and publish a report containing a statement of the facts of the dispute and the recommendations which are deemed just and proper in regard thereto.

Any member of the League represented on the council may make public a statement of the facts of the dispute and of its conclusions regarding the same.

If a report by the council is unanimously agreed to by the members thereof or other than the representatives of one or more of the parties to the dispute, the members of the League agree that they will not go to war with any party to the dispute which complies with the recommendations of the report.

If the council fails to reach a report which is unanimously agreed to by the members thereof, or other than the representatives of one or more of the parties to the dispute, the members of the League reserve to themselves the right to take such action as they shall consider necessary for the maintenance of right and justice.

side necessary for the maintenance of right and justice.

If the dispute between the parties is claimed by one of them, and is found by the council to arise out of a matter which is within the domestic jurisdiction of that party, the council shall so report, and shall make no recommendation as to its settlement.

The council may in any case under this article refer the dispute to the assembly. The dispute shall be so referred at the request of either party to the dispute, provided that such request be made within 14 days after the submission of the dispute to the council.

In any case referred to the assembly all the provisions of this article and of article twelve relating to the action and powers of the council shall apply to the action and powers of the assembly, provided that a report made by the representatives of those members of the League represented on the council and of a majority of other members of the League, exclusive in each case of the representatives of the parties to the dispute, shall have the same force, as a report by the council concurred in by all the members thereof other than the representatives of one or more of the parties to the dispute.

(The paragraph specifically excluding matters of "domestic jurisdiction" from action by the council is new. In the last sentence the words "if concurred in by the representatives of those members of the League represented on the council," etc., have been added.)

ARTICLE SIXTEEN

Should any member of the League resort to war in disregard of its covenant under articles twelve, thirteen or fifteen, it shall ipso facto be deemed to have committed an act of war against all other members of the League, which hereby undertake immediately to subject it to the severance of all trade or financial relations, the prohibition of all intercourse between their nationals and the nationals of the covenant-breaking state, and the prevention of all financial, commercial or personal intercourse between the nationals of the covenant-breaking state and the nationals of any other state, whether a member of the League or not.

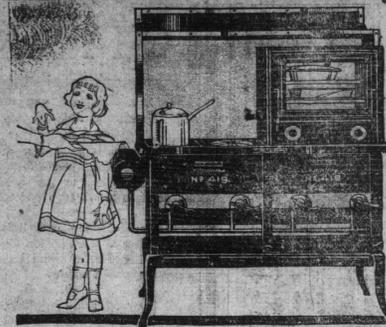

It shall be the duty of the council in such a case to recommend to the several Governments concerned what effective military or naval forces the members of the League shall severally contribute to the armaments of force to be used to protect the covenants of the League.

The members of the League agree, further, that they will mutually support one another in the financial and economic measures which are taken under this article, in order to minimize the loss and inconvenience resulting from the above measures, and that they will support one another in resisting any special measures aimed at one of their number by the covenant-breaking state, and that they will take the necessary steps to afford passage through their territory to the forces of any of the members of the League which are co-operating to protect the covenants of the League.

Any member of the League which has violated any covenant of the League may be declared to be no longer a member of the League by a vote of the Council concurred in by the representatives of all the members of the League represented thereon.

(Unchanged except for the addition of the last sentence.)

In the event of a dispute between a member of the League and a state which is not a member of the League, or between states not members of the League, the state or States not members of the League shall be invited to accept the obligations of membership in the League for the purpose of such dispute, upon such conditions as the Council may deem just. If such invitation is accepted, the provisions of Articles Twelve and Sixteen, inclusive, shall be applied with such modifications as

"FLORENCE AUTOMATIC" OIL COOK STOVES

Full information about the Florence oil stoves will be sent free upon request to our nearest branch office.

McClary

may be deemed necessary by the Council.

Upon such invitation being given the Council shall immediately institute an enquiry into the circumstances of the dispute and recommend such action as may seem best and most effectual in the circumstances.

If a state so invited shall refuse to accept the obligations of membership in the League for the purposes of such dispute, and shall resort to war against a member of the League, the provisions of article sixteen shall be applicable as against the state taking such action.

If both parties to the dispute, when so invited, refuse to accept the obligations of membership in the League for the purposes of such dispute, the Council may take such measures and make such recommendations as will prevent hostilities and will result in the settlement of the dispute.

(Virtually unchanged.)

ARTICLE EIGHTEEN

Every convention or international engagement entered into hereafter by any member of the League shall be forthwith registered with the Secretariat, and shall, as soon as possible, be published by it. No such treaty or international engagement shall be binding until so registered.

(Same as original article 23.)

ARTICLE NINETEEN

The assembly may from time to time advise the reconsideration by members of the League of treaties

which have become inapplicable, and the consideration of international conditions whose continuance might endanger the peace of the world.

(Virtually the same as original article 24.)

ARTICLE TWENTY

The members of the League shall (Continued on page 7.)

Demobilization of Troops

THE demobilization of the Canadian Expeditionary Force is perhaps the most important problem now confronting the Dominion Government, and the transportation of the troops from the port of landing to their home destination is a work which will require skilful handling.

Lieutenant Colonel Walter Maughan.

On reaching Canadian soil, after their hard fought battles in foreign countries, the veterans will deserve all the consideration that can be given to them.

It was therefore a wise decision on the part of the Dominion Government, when they decided that the Canadian Railway War Board should appoint a committee that will make all the arrangements necessary for the transportation of the soldiers through Canada.

The War Board so constituted the committee that it is representative of the three principal Canadian railways. Ever since the beginning of the war officials of the Canadian Pacific Railway have been conspicuous as leaders in the country's patriotic efforts, and now Lieutenant Colonel Walter Maughan, Assistant General Passenger Agent of the C. P. R., has been chosen as chairman of the committee that is to undertake the responsibility for the train transportation of the soldiers to their places of abode in Canada.

Lieutenant Colonel Maughan is representing the C. P. R. on the newly formed committee. Mr. H. H. Melanson will represent the Canadian Government Railways, and Mr. C. W. Johnston the Grand Trunk Railway.

By a co-ordination of effort it is believed that the representatives of the three big Canadian railways can so regulate railway transportation arrangements as to insure the safe and comfortable return of the Canadian soldier men to their homes. The headquarters of the committee will be in Ottawa, where the committee will be in direct touch with the Canadian Government.

A preliminary meeting of the committee was recently held in Montreal, when the Minister of Militia was represented by Colonel R. E. Yarka, Director General of Supplies and Transportation. The problem of transportation was discussed in all its phases, and the committee will have nothing undone to ensure safe transit, and feeding facilities of the highest character for the Canadian soldier men who so bravely answered to the call of duty when the country was in danger.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR. SOFT. GLOSSY. WAVY.

A small bottle destroys dandruff and doubles beauty of your hair.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first, yes—but really new hair growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—your hair will be beautiful hair and lots of it if you will just try a little Danderine.

A FARM PROFIT SHARING SCHEME

Profit-sharing is often heard of in connection with our industries, but a large farm operated on this basis sounds altogether novel. Such a scheme has, however, been carried on with great success in Southern Alberta for a number of years. It is a hobby of C. S. Noble, who in 1915 made a reputation all over the world by harvesting what was claimed to be a record crop of wheat on 1,000 acres, the average yield per acre on this area working out at well over fifty bushels to the acre. This is a record that has not been equalled anywhere outside of Alberta, though it is claimed that it was surpassed by another farmer in Alberta in last year of record grain crops.

Mr. Noble has devoted considerable study to the subject of profit-sharing. His belief is that every worker is entitled to a share of the wealth he creates, and in the Noble Foundation, the name under which his company is incorporated, he and his associates have tried to put this theory into practice. This company owns and operates farm property, stores, elevators to the value of over two million dollars. Any employee who has been long enough with the company to prove his value may become a participant in the scheme and the method of acquiring stock is very simple. The employee is required to pay for ten per cent of his stock in cash and give a note for the balance at eight per cent interest. He then makes monthly payments of a certain amount to pay off the note, to which also his dividends are credited. In this manner his stock is paid off fairly rapidly.

Needless to say, many of the employees avail themselves of the opportunity to become shareholders.

Last year they drew a dividend of fifteen per cent on their investment despite the fact that last season was generally considered a dry one. In this a dividend of twenty-five per cent was paid, and in addition a considerable sum was placed in the reserve fund. The results of the operations of this company are a striking example of the productive capacity of the soil in Southern Alberta and the kind of crops that may be expected if careful and proper farming methods are followed. It is questionable if the land they own is any better than millions of acres of other land in the province, yet last year, which was the driest season ever experienced, they grew a record of wheat per acre, and not of oats fifty bushels per acre. Still more interesting is the average for the years 1911 to 1917, which was no less than thirty-eight

(1) Oats grow well in Alberta.

(2) An Alberta wheat field in autumn.

bushels of wheat and ninety-two bushels of oats. With such high average yields as these the big dividends need not cause any surprise. An instance of the progressiveness of the Noble Foundation and its faith in the country was the purchase in the fall of 1917 of a large ranch of about 20,000 acres. On this property thirty-five miles of graded roads have been constructed, sixty miles of three-wire fencing put up, several first-class buildings erected, five wells drilled and 10,000 acres broken. The profit-sharing scheme has been successful beyond expectations. Many employees have availed themselves of the opportunity to invest their money in the company and are drawing dividends on their stock. Mr. Noble has noted that a large farm can be operated successfully in good years and bad under good management, and the future of his profit-sharing scheme will be watched with great interest.

Canadian Masons in England

H. S. Carmichael, Passenger and Freight Manager of the Canadian Pacific Ocean Services, was installed W. M. of the Canada Lodge at the installation banquet held recently in London, England, attended by the Rt. Hon. Sir Edward Clarke, Sir Gilbert Parker, General J. G. Ross and many other Canadian and English representative men interested in Canada.

The Canada Lodge No. 2527 on the Register of the United Grand Lodge of England was founded in 1911, in order to provide a Masonic centre for Canadian residents in Great Britain and Brethren from the Dominion visiting the Old Country. The object of the founders was also to form a bond of union between the Brethren of the Dominion and the Brethren of the United Kingdom in the strong hope and confidence that Freemasonry might even still further assist in the great work of forming these bonds of "indissoluble attachment" which shall forever unite the component parts of the British Empire. The Lodge has now 722 members, many of whom are Dominion members resident in all parts of Canada. No fewer than 150 are initiates of the Lodge, 206 members of the Lodge are on active service in H. M. Forces.

Mr. Hugh Strain Carmichael, the newly-elected W. M. of Canada Lodge, is a native of Glasgow. He has been connected with the Transatlantic steamship trade since 1888, when he joined the staff of the State Line, which in 1891 was taken over by the Allan Line. In 1895 he commenced his long connection with the Canadian Pacific Company at Glasgow, transferring to its Liverpool office in 1903, when the company established its transatlantic passenger service. In 1908 he was promoted to be general passenger agent for Great Britain and Europe. Since the establishment, in 1915-16, of the Canadian Pacific Ocean Services, Ltd., which manages the entire fleet of the C. P. R. and Allan Lines, Mr. Carmichael has occupied the position of passenger and freight manager, and has his headquarters at Waterloo Place, London, England.

Afraid To Tell Mother!

The child won't play or smile. He is real sick. His tongue is white, breath feverish, stomach sour. He fears he is in for a dose of awful castor oil, calomel or pills. How he hates them. He would rather remain sick.

If his mother would only learn the value of candy "Cascarets." How children love this candy cathartic—how surely it acts on liver and bowels.

TO MOTHERS! Each 10 cent box of Cascarets contains full directions for dose for children aged one year old and upwards. Nothing else "works" the nasty bile, sour fermentations and constipation from the tender little bowels so gently, yet so thoroughly. Even scurvy, feverish, bilious children gladly take Cascarets without being coaxed. Cascarets taste just like candy. Cascarets never gripe, never sicken, never injure, but above all, they never disappoint the worried mother.

INCREASE POTATO CROP

How to Check Serious Diseases in Ontario.

Leaf Roll and Mosaic Are Firmly Established and Reduce Yields One-third—How to Detect Diseases and Only Way to Control Them.

(Contributed by Ontario Department of Agriculture, Toronto.)

THE two most serious seed-borne potato diseases in Ontario are Leaf Roll and Mosaic. Other seed-borne potato diseases common in the Province are Black Leg, Rhizoctonia, Blight, Wilt and Scab. Leaf Roll and Mosaic cause a very marked reduction in the yield, and the fact that these two diseases are so prevalent in Southern Ontario accounts for the poor crop of potatoes that has been obtained in many parts of the Province for the past four years.

Leaf Roll.—The cause of this disease is unknown. Data gathered by the pathologists of the United States and Canada shows that Leaf Roll may reduce the yield to about one-third of the normal crop.

Symptoms.—Symptoms of Leaf Roll are always more or less dwarfed and in some varieties the leaves assume a characteristic upright, almost starling habit, instead of drooping over in the normal way. Rolling of the lower leaves is always associated with the disease. The rolled leaves on plants affected with this disease begin to die early. The harsh, leathery texture of such leaves is a constant symptom. The tubers of affected plants are small and are generally on very short tuber-branches (stolons) or even attached in a cluster to the stem. Tubers from affected plants invariably produce diseased plants. There is also evidence to show that the disease may spread from plant to plant in the field.

Prevention.—The only sure way of avoiding loss from Leaf Roll is to secure fresh seed from districts free from this disease. Fortunately, this is possible, as Northern Ontario and certain sections of New Brunswick, Nova Scotia and Prince Edward Island are comparatively free from this trouble. In experiments conducted in Old Ontario by the Agricultural Representatives with seed potatoes from Southern Ontario, New Brunswick and Northern Ontario, it was found that the average amount of Leaf Roll in the plants from the seed from the three different sources was as follows:

Old Ontario	45.5%
New Brunswick	5.1%
Northern Ontario	1.4%

These figures strongly emphasize the desirability of obtaining northern-grown potato seed.

Mosaic.—The cause of this disease is also unknown. It has been observed in many parts of Ontario. When severe there is a very noticeable reduction in the crop. Data gathered by the pathologists of the United States and Canada shows that this disease may reduce the yield by one-half.

Symptoms.—The foliage of plants affected with Mosaic is bronzed, wrinkled or corrugated and mottled with faint, light green or yellowish spots. The stalks of the diseased plants are often cracked and brittle from the ground than those of healthy ones, partly because the affected foliage does not spread out and drop down normally, and partly because the lower leaves sometimes fall off in the last stages of severe attacks. The tubers of affected plants are normal-looking and sound and their keeping or eating qualities are not impaired.

Prevention.—If Mosaic is abundant in a field the surest and quickest way of eliminating it is by obtaining fresh seed from a non-infected district. Such seed can be obtained at the present time from Northern Ontario.

General Suggestions For the Prevention of Seed-borne Potato Diseases.

In order to avoid loss from Leaf Roll and Mosaic, the source of seed is of the utmost importance. Seed potatoes free from these diseases can be obtained from Northern Ontario. Only certified seed, however, can be relied upon. For information concerning certified seed, apply to the potato seed writer Mr. Justice Miller, Assistant Commissioner of Agriculture, Parliament Buildings, Toronto, Canada.

Even certified northern-grown seed is not a panacea for all diseases. In order to avoid loss from such seed-borne potato diseases as Black Leg, Rhizoctonia, Wilt, Blight and Scab, the following precautions should be taken:

1. Select for seed smooth, sound tubers, as free as possible from scab, black, hard lumps on the surface, and abnormal discolorations of the skin or flesh.
2. Disinfect all seed before cutting with formalin or corrosive sublimate. The latter substance is the more reliable for the prevention of Rhizoctonia.
3. When cutting potatoes have at hand two or three knives and a jar containing a 20 per cent. solution of formalin. After cutting into a tuber which shows signs of rot drop the knife into the formalin solution for the next cutting.
4. Spray every year with Bordeaux mixture for the prevention of Late Blight and Rot. Such spraying is an insurance which it is not safe to neglect.
5. Rogue the growing crop once or twice during the summer, or at least that portion of it from which the seed is to be saved. This operation consists in the removal and destruction of any plants showing signs of such diseases as Leaf Roll, Mosaic, Black Leg, Rhizoctonia and Wilt.
6. Practice a rotation of crops and if possible plant potatoes after clover sod.—Prof. J. E. Howitt, O. A. College, Guelph.

The big wire cable factory, in Toronto, was burned down on Sunday causing a loss of \$50,000.

USING MILKING DEVICES

When It is Advisable to Invest in Milking Machines.

The Cause and Cure of Diarrhoea in Calves—Simple and Common-sense Methods of Treatment May Save Valuable Young Animals.

(Contributed by Ontario Department of Agriculture, Toronto.)

IT is clear that if dairying is to develop as it ought to do in the Province of Ontario, more labor is needed on dairy farms. As the supply of labor is limited, cow-farmers are turning their attention to the mechanical milker as an aid in the biggest job on a farm where milk-sews are kept, namely, that of milking.

First, the Experimental Stage.

While it is true that mechanical milkers are not yet perfected, and possibly will never be absolutely "fool-proof," they have reached a stage of perfection where they can be recommended to the man who is in need of help at milking-time. There are several machines now on the market which have proven to be more or less successful in tests made at Experimental Stations, but what is even more important, have stood the test of actual farm conditions. The advertising columns of the agricultural press contain the names of the leading makers of machines which can now be purchased by milk-producers.

In answer to the question, will it pay to buy a milking machine? we would answer yes, under the following conditions:

1. Where the herd of cows or more milking cows are kept, though we were in a stable recently where a man was using a machine to milk eight cows, and he considered that it paid him.
2. Where hand-milkers are not to be had, and where it means selling all or part of the herd because of the difficulty in getting the cows milked.
3. Where a man desires to increase his herd but cannot do so, because hand milking is impossible.
4. Where a man has some mechanical genius and is willing to give the machine the necessary attention in order to make it successful. Not every man can get good results with a milking machine. The machine must be dripped after the machine, to insure its proper operation.
5. Where a man or woman will give the necessary attention in order to keep the machine clean, it must be thoroughly washed and the milking parts kept in a solution of chloride of lime—one pound, dissolved in six gallons of water. This must be done at least once a week, and is often as necessary to prevent contamination.
6. Where a man has the necessary capital (about \$500) to invest in a machine and has the time to borrow the money at the present high rate of interest.—Prof. H. H. Dean, Ontario Agricultural College, Guelph.

THOROLD

The regular meeting of the Thorold Methodist Church Epworth League was held last night and was largely attended. After the regular service, the following officers were elected:

President, C. J. Neely,
First Vice-President, Arthur Mable,
Second Vice-President, Jessie Miller,
Third Vice-President, Jean Forsythe,
Fourth Vice-President, Frank Wilson,
Secretary, Gladys Del,
Treasurer, Clara Hendrie.

Infected Diarrhoea in Calves

A form of diarrhoea in calves, known as "Infectious Diarrhoea," is not uncommon in calves, and the owners are often at a loss to account for it.

It is caused by a specific germ that is transmitted by the excretion, generally by the nasal opening. It generally occurs as an epidemic in certain stables or certain localities, and as it is often fatal, causes great loss to the breeder.

The cause and results strongly resemble those of joint ill or navel ill in foals. The virus which causes the trouble exists in the stable or in the soil.

Symptoms.—At a variable time after birth, in some cases a few hours and in others a few days, the young animal suffers from an attack of acute diarrhoea, the symptoms of which do not differ markedly from ordinary diarrhoea, except from the fact that they seldom yield readily to treatment. The patient refuses to nurse or partake of nourishment, vomits and death soon results.

Treatment.—Preventive treatment consists in preventing the cause. When we know that the entrance into the circulation of a germ occurs by the nose, the entrance must be prevented in order that we may be successful. The building in which the cow is expected to bring forth young, and especially the stalls, should be thoroughly disinfected. This may be done by sweeping and dusting thoroughly, and following by a thorough washing or scrubbing with a hot five per cent. solution of carbolic acid or one of the coal tar antiseptics, or a thorough coat of hot lime wash with 20 per cent. solution of carbolic acid. The stalls should be cleaned out daily and a little bleached lime spread upon the floor each time before supplying fresh bedding. The attendant should have a quantity of a good strong disinfectant on hand, as one of the solutions above mentioned, or a solution of corrosive sublimate, 20 grains to a pint of water. The writer prefers the latter. The navel of the calf should be freely dressed with this as soon as possible after birth, and several times daily afterwards until thoroughly healed.

Curative treatment is often ineffective. The following has probably given better results than any other: Mix part formalin with 15 parts new milk and mix a teaspoonful of this with each part of milk consumed by the calf. When the calf is nursing the milk can be mixed with a small quantity of the dam's milk and given as a drench, the attendant estimating about how much it will take. When the calf is nursing the dam it is well to wash udder and teats with the solution before the calf nurses and once or twice during the day. The milk can be mixed with a small quantity of the dam's milk and given as a drench, the attendant estimating about how much it will take. When the calf is nursing the dam it is well to wash udder and teats with the solution before the calf nurses and once or twice during the day. The milk can be mixed with a small quantity of the dam's milk and given as a drench, the attendant estimating about how much it will take.

WANT SCOTTISH HORSE IN TERRITORIAL ARMY

London, April 28.—The Duke of Atholl writes to the press that he had been asked to raise the Scottish horse once more as an integral part of the new territorial army.

Kingston, Jamaica, April 28.—In view of the representations by a large body of Jamaican laborers who allege ill-treatment by employees of the United Fruit Company in Costa Rica, the government after consultation with Sir Claude Mallett, who is mere preparatory to taking up his post as British minister to Uruguay, has decided to send their special envoy to Costa Rica for the purpose of investigation.

MERRITTON

The Independent Labor Party held a very successful dance in the Town Hall last night, which proved a huge success in every respect. Guests were present from Thorold, Welland, St. Catharines and Niagara Falls. Colton's orchestra was present and supplied excellent dance music, which was much enjoyed by the large number who attended. The dance broke up when the last cars arrived to convey the guests to their homes, each one reporting having had a most enjoyable evening.

The jury empanelled by Coroner Dr. J. F. Vanderburg to investigate the finding of a baby girl in the old Welland Canal near the Klondon paper mill on Sunday morning, met on Monday in the Town Hall. A post mortem was held by Dr. J. Herod, of Thorold, after which the jury adjourned to meet again on May 13th. The names of the jurors are as follows: John Dore (foreman), David Jaffray, James Smerdon, J. W. Riggs, W. R. Saviny, Frank Bassett, John Wallace, Sylvester Burns, Grobb Bros. were authorized to take the body of the baby to Victoria Lawn Cemetery for burial.

The W. M. S. of the Methodist Church will meet on Thursday afternoon at the home of Mrs. William Bradley, West street.

Mr. and Mrs. Speedy, the former freight agent for the N. S. & T. at Thorold, who have resided on Thorold Road for some time past have taken up their residence in St. Catharines, on Wiley Street.

THOROLD

The regular meeting of the Thorold Methodist Church Epworth League was held last night and was largely attended. After the regular service, the following officers were elected:

President, C. J. Neely,
First Vice-President, Arthur Mable,
Second Vice-President, Jessie Miller,
Third Vice-President, Jean Forsythe,
Fourth Vice-President, Frank Wilson,
Secretary, Gladys Del,
Treasurer, Clara Hendrie.

CAT MOTHERS FOXES.

Chatham, April 26.—At the Ruckle fox farm, near Thamesville, a tabby cat is mothering two little black foxes which were in danger of being destroyed by their own mother until Mr. Ruckle rescued them.

SAILS FOR CANADA

London, April 28.—Lieut.-Col. Grant Morden and Mrs. Morden have sailed for Canada today.

His numerous friends in this city will be sorry to learn that Mr. Alex. Wright, vice-chairman of the Ontario Compensation Board, is reported dangerously ill at his home in Toronto. During the summer Mr. Wright and family make their home near Virgil in this county.

Air Mixing Necessary at Gas Burner Tip

Forecasts—Moderate winds, occasional showers. Tuesday, fair and cool.

The combustible constituents of natural gas are made up of combinations of the elements carbon and hydrogen. When natural gas is burned so as to secure perfect combustion only carbon dioxide and water vapor are formed; that is, the carbon of the gas unites with the oxygen of the air forming carbon dioxide, and the hydrogen of the gas unites with the oxygen of the air forming water vapor. The water vapor, of course, will condense when cooled. This water vapor does not come from the gas, but is created and formed by the chemical action of the hydrogen in the gas and the oxygen in the air.

Each cubic foot of natural gas burned requires approximately 9 1/2 cubic feet of air, forming 10 1/2 cubic feet of combustion products, which are made up of 2 cubic feet of steam, 1 cubic foot of carbon dioxide and 7 1/2 cubic feet of nitrogen, all thoroughly diffused through each other.

ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT—THE SUPPLY IS NOT EVERLASTING.

In The Hills Above Ice River

THIS man is not carrying his name on a stump. By looking closely through sticks and stones. Brulin, one will identify the claws in the downbeat right forepaw as those of a good sized black bear. So the human operator is removing a handsome black coat from a sleek fat fall bruin that had ventured in innocent ignorance out on the open in search of mice and such interesting changes from a diet of berries. He did not know that men with guns were creeping up the slope toward him because the wind was sweeping down from the peaks above and the only scent it took to his keen nostrils was that of the fresh, sweet snow that were already whitening the peaks above Ice River, north of the C. P. R. transcontinental line.

So the bear waddled along with an investigating nose close to the sticks and stones as turned over with his great paws. He paused at a rotting log that had fallen before some great tree which had swept the blizzard in the decades past, and he turned it over with an ease that spoke highly of strong claws and big muscles; he found some grubs and he licked them up; he started to investigate a bundle of weeds and dried grasses that over with an ease that spoke highly of tender young mice. A hundred yards away, down the slope, a man's weak ankle that had been strained in days gone by a skating trick, turned on a stone and sent it clattering down through sticks and stones. Brulin, over the rise and out of sight, reared to his haunches in curiosity. He spled the crown of a hat rising slowly over the ridge and he turned and sped away with an awkward shuffling that had ventured in innocent ignorance out on the open in search of mice and such interesting changes from a diet of berries. He did not know that men with guns were creeping up the slope toward him because the wind was sweeping down from the peaks above and the only scent it took to his keen nostrils was that of the fresh, sweet snow that were already whitening the peaks above Ice River, north of the C. P. R. transcontinental line.

CONGRESSMAN DIES

New Orleans, La., April 29.—Congressman Albert Estopinal, of Louisiana, died at his home here yesterday, was 74 years old.

The latest return of the Imperial Bank of Germany shows it has a gold holding of 1,912,000,000 marks, as well as an indefinite amount of securities of doubtful value. The German mark is worth 10 cents.

Three years hence if the world lasts length a great exhibition which outrival that held in Chicago a number of years ago, will be held in Paris.

GOOD SPORT WITH THE FROG.

Ottawa, April 29.—Thomas Hubert Hutton believes that good sport can be had with the frog. He says in capturing frogs for sport, lines baited with red cloth, worms or insects are extensively used; guns, small bore rifles and spears are also frequently employed and crossbows are adopted for the purpose in Canada. "They are often hunted at night," he says, "a lantern furnishing light for the hunter's aim, at the same time blinding the frogs. Many are their hibernation, large numbers frequently being found together. "This form of hunting offers a new variety of sport, at the same time adding a delicious dainty to our food."

YANKEES' "BIG FOUR" WHO WILL DO THE BULK OF THE PITCHING THIS YEAR.

NEW USE FOR AVIATION SHEDS

AFTER many years of waiting a covered skating rink has been secured for the Gentlemen Cadets at the Royal Military College at Kingston. The acquisition of this building will give a great impetus to our national game—"hockey." Hitherto the Royal Military College hockey teams have had to get along the best they could, using the open ice on the lake and occasionally the city rink at Kingston. These limitations interfered materially with the quality of the game. On the demobilization of the Royal Air Force in Canada and the abandonment of the aviation sheds at different points some suitable buildings, originally designed for hangars, became available, and through the kindness of Sir Joseph Flavelle, Bart., Chairman of the Imperial Munitions Board, under whose direction these aviation sheds were originally established, two of the best sheds, each 120 feet long by 68 feet wide, were secured to form the basis of the new covered skating rink. The many friends of the Royal Military College were not slow in taking advantage of this opportunity in coming forward to assist in carrying out the idea. The Canadian National Railways, through the courtesy of Mr. D. E. Hanna, its president, and the Grand Trunk Railway System, through the courtesy of its president, Mr. Howard G. Kelley, have undertaken to free-freight the material of the sheds from Camp Mohawk to the point nearest to the Royal Military College, to Kingston. Sir Herbert S. Holt, who is deeply interested in everything that makes for the welfare of the Royal Military College, has generally financed the undertaking, and a contract for the removal and reerection of the flight sheds above referred to, has been let to the Kingston Construction Company, who now have the work in hand. The Minister of Militia and Defence has approved of a site within the college grounds on which the covered rink will be erected. Mr. E. L. Wanklyn, General Executive Assistant of the Canadian Pacific, who is also deeply interested in the welfare of the college, has taken charge of all the work in connection with the carrying out of the scheme. The rink, when completed, will be substantially as shown in the above illustration. The main building will be 240 feet by 68 feet wide, and the height from the underside of the roof trusses to the ice level will be 18 feet. Commodious dressing and locker rooms, 25 feet square, will be provided at one end, over which a gallery for spectators, capable of seating 300 persons, will be provided. The main sheet of ice will be 215 feet by 68 feet wide and this will be in the opinion of well known hockey experts (Messrs. "Rife" Horn and Col. Walter Maughan) make a most satisfactory hockey rink. The building will be well lighted by windows all round and with electric lights for the evening. The outside will be neatly finished in cement rough-cast and present a generally attractive appearance. The originators of this project have received many congratulations from a host of friends interested in the welfare of the college. The strikers will hold up fruit vessels, which will not be able to load their cargoes. A general labor movement is believed to be imminent.

THE DOMINION BANK

COMPLETE ARTICLES OF THE LEAGUE OF NATIONS

(Continued from page 3)

crally agree that this covenant is accepted as abrogating all obligations or understandings which are inconsistent with the terms thereof, and solemnly undertake that they will not hereafter enter into any engagements inconsistent with the terms thereof.

In case members of the League shall, before becoming a member of the League, have undertaken any obligations inconsistent with the terms of this covenant, it shall be the duty of such member to take immediate steps to procure its release from such obligations.

(Virtually the same as original article 25).

ARTICLE TWENTY-ONE.

Nothing in this covenant shall be deemed to affect the validity of international engagements, such as treaties of arbitration or regional understandings like the Monroe Doctrine for securing the maintenance of peace.

ARTICLE TWENTY-TWO.

To those colonies and territories which as a consequence of the late war have ceased to be under the sovereignty of the states which formerly governed them and which are inhabited by peoples not yet able to stand by themselves under the strenuous conditions of the modern world, there should be applied the principle that the well-being and development of such peoples form a sacred trust of civilization and that securities for the performance of this trust should be embodied in this covenant.

The best method of giving practical effect to this principle is that the tutelage of such people be entrusted to advanced nations who, by reasons of their resources, their experience, or their geographical position, can best undertake this responsibility, and who are willing to accept it, and that this tutelage should be exercised by them as mandatories on behalf of the League.

The character of the mandate must differ according to the stage of the development of the people, the geographical situation of the territory, its economic condition and other similar circumstances.

Certain communities formerly belonging to the Turkish Empire have reached a stage of development where their existence as independent nations can be provisionally recognized subject to the rendering of

administrative advice and assistance by a mandatory until such time as they are able to stand alone. The wishes of these communities must be a principal consideration in the selection of the mandatory.

Other peoples, especially those of Central Africa, are at such a stage that the mandatory must be responsible for the administration of the territory under conditions which will guarantee freedom of conscience or religion subject only to the maintenance of public order and morals, the prohibition of abuses such as the slave trade, the arms traffic and the liquor traffic and the prevention of the establishment of fortifications or military or naval bases and of military training of the natives for other than police purposes and the defense of territory and will also secure equal opportunities for the trade and commerce of other members of the League.

There are territories, such as South-west Africa and certain of the South Pacific Islands, which, owing to the sparseness of their population or their small size or their remoteness from the centres of civilization, or their geographical contiguity to the territory of the mandatory and other circumstances, can be best administered under the laws of the mandatory as integral portions of its territory subject to the safeguards above mentioned in the interests of indigenous populations. In every case of mandate, the mandatory shall render to the council an annual report in reference to the territory committed to its charge.

The degree of authority, control or administration to be exercised by the mandatory shall, if not previously agreed upon by the members of the League, be explicitly defined in each case by the council.

A permanent commission shall be constituted to receive and examine the annual reports of the mandatory, and to advise the council on all matters relating to the observance of the mandates.

(This is the original Article 19, virtually unchanged, except for the insertion of the words "and who are willing to accept," in describing nations to be given mandates.)

ARTICLE TWENTY-THREE.

Subject to and in accordance with the provisions of international conventions existing or hereafter to be agreed upon, the members of the League (a) will endeavor to secure and maintain fair and humane conditions of labor for men, women and children, both in their own countries and in all countries to which their commercial and industrial relations extend, and for that purpose will establish and maintain the necessary international obligations; (b) under-

take to secure just treatment of the native inhabitants of territories under their control; (c) will entrust the League with the general supervision over the execution of agreements with regard to the traffic in women and children, and the traffic in opium and other dangerous drugs; (d) will entrust the League with the general supervision of the trade in arms and ammunition with the countries in which the control of their traffic is necessary in the common interest; (e) will make provision to secure and maintain freedom of communication and of transit and equitable treatment for the commerce of all members of the League. In this connection special necessities of the regions devastated during the war of 1914-1918 shall be in mind; (f) will endeavor to take steps in matters of international concern for the prevention and control of disease.

(This replaces the original article 20, and embodies part of the original articles 13 and 21. It eliminates a specific provision formerly made for a bureau of labor and adds the clauses B and C.)

ARTICLE TWENTY-FOUR.

There shall be placed under the direction of the League all international bureaux already established by general treaties if the parties to such treaties consent. All such international bureaux and all commissions for the regulation of matters of international interest hereafter constituted shall be placed under the direction of the League.

In all matters of international interest which are regulated by general conventions but which are not placed under the control of international bureaux or commissions, the secretariat of the League shall subject to the consent of the Council, collect and distribute all relevant information and shall render any other assistance which may be necessary or desirable.

The council may include as part of the expenses of the secretariat the expenses of any bureau or commission which is placed under the direction of the League.

(Same as article 22 in the original, with the matter after the first two sentences added.)

ARTICLE TWENTY-FIVE.

The members of the League agree to encourage and promote the establishment and co-operation of duly authorized voluntary national Red Cross organizations having as purposes improvement of health, the prevention of disease, the mitigation of suffering throughout the world.

(Entirely new.)

ARTICLE TWENTY-SIX.

Amendments to this covenant will take effect when ratified by the members of the League, whose representatives compose the council and by a majority of the members of the League whose representatives compose the assembly.

Such amendment shall (the word NOT apparently omitted in cable transmission) bind any member of the League which signifies its dissent therefrom, but in that case it shall cease to be a member of the League.

(Same as the original, except that a majority of the League instead of three-fourths, is required for ratification of amendments, with the last sentence added.)

ANNEX TO THE COVENANT.

ONE.

Original members of the League of Nations:
Sister States of the Treaty of Peace: United States of America, Belgium, Bolivia, Brazil, British Empire, Canada, Australia, South Africa, New South Wales, India, China, Cuba, Czechoslovakia, Ecuador, France, Greece, Guatemala, Haiti, Hedjaz, Honduras, Italy, Japan, Liberia, Nicaragua, Panama, Peru, Poland, Portugal, Roumania, Serbia, Slam, Uruguay.

TWO.

First Secretary-General of the League of Nations (blank).
(The annex was not published with the original draft of the covenant.)
(End text.)

SALESMEN WANTED

Sell stock in Oil Companies. Make one thousand dollars week. Hundred dollars invested. Traphooters paid. Sixty Thousand Supplies free. Write Big Southern Company, Fort Worth, Tex.

DR. ARTHUR B. COBB

Dentistry.

A dear old Grandmother came to us the other day with her little granddaughter.

She informed us that she was wearing a plate that we made for her ten years ago.

"I want you to give this little tot's teeth a thorough examination and see if there is anything wrong with them," she said, and then added, "If I had received this early attention I might not be wearing a plate today."

We could not help but admire this Grandmother's wisdom and it occurred to us that it would be a splendid story to tell the public at large.

A thorough examination of the child's teeth was made and a small cavity was discovered in one of the teeth.

It was immediately filled, entirely without pain and at the small cost of 50 cents.

"This girl is going to have a sound, beautiful set of teeth when she gets to be a young lady, if I have anything to say about it," was the parting remark of the Grandmother.

Her wisdom might well be copied by all who hold the future welfare of their children at heart.

Offices 368-378 Main Street—Corner of Eagle
Open until 8; No Sunday work.

"THE ROSARY"

Laughter and tears are mingled in right proportions in "The Rosary" which will be seen in a magnificent revival at The Grand Opera House, on Thursday night, May 1st. It is a play in which there is heart-break as well as humor. Messrs. Rowland and Clifford are making the revival with a notable cast and a splendid production.

WOMEN'S LITERARY CLUB

Splendid Address on "Sable Island" Given by Miss Jane Carnochan at the Regular Meeting.

The members of the Women's Literary Club and their friends had a most enjoyable afternoon at the home of Mrs. George Burch, Thorold Road, on Saturday afternoon, when Miss Janet Carnochan, of Niagara-on-the-Lake, gave a most interesting address.

In her opening remarks, Miss Carnochan congratulated the Club on the fact that it is the oldest Women's Literary Club in Canada, having entered on its twenty-seventh year. She has followed our course of study with interest and when this year's programme reached her and she found we were studying the "Islands of the Sea," she kindly offered to give us a talk on "Sable Island," where she had spent a week and had had some unusual experiences. Her thrilling tale of shipwreck, escape in a life-boat, and a week spent on this island of menace known as "the graveyard of the Atlantic," waiting for a rescue party, was listened to with breathless interest.

HELD FINE MEETING

Facer Street district ratepayers association members held their regular meeting last night and during the evening many important questions were discussed, such as sewers, police protection and good roads. The question of garbage collection raised the most discussion as many did not understand what the Civic System was like. After a lengthy discussion during which it was pointed out that collections would be made every month and that the assessment would not be as big as imagined, the members looked on the question with more favor and it was decided not to proceed with the petition relating to that question. I was also urged that the police be asked to take more drastic action in regard to having the practice of allowing cattle to roam the street put a stop to at once. After a little further discussion the meeting adjourned.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver! If you catch cold easily, it's your liver! If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

CANAL MEN MAY WALK OFF JOB AT ANY MOMENT

Hydro Employees Also Threaten to Strike Unless Eight-Hour Day is Granted—1,700 Men Involved

Niagara Falls, Ont., April 29.—If their request for an eight-hour day is not granted 1,700 men on the Hydro and Welland Ship Canal will likely go on strike, tying up both public works. The men agree to work at the present pay, but ask a two hours' shorter day. This move was agreed on at a meeting of the Federation of Trades and Labor of Niagara District here Sunday night. A deputation will see Sir Adam Beck, Wednesday, but the Minister of Railways and Canals has not yet promised to see the ship canal delegates.

Sir Adam Beck informed a reporter yesterday that he had not heard anything about the threatened strike.

Prince Edward Island is said to lead the Dominion in egg production. Even the cod fish along the coast produce millions of eggs.

WOULD RETURN U. S. CABLES

Washington, April 29.—President Wilson has been asked by Post-Master General Burleson to approve the immediate return of American cable lines to their private owners. In announcing his action yesterday, the Postmaster-General said he hoped restoration of the properties could be effected by May 1st.

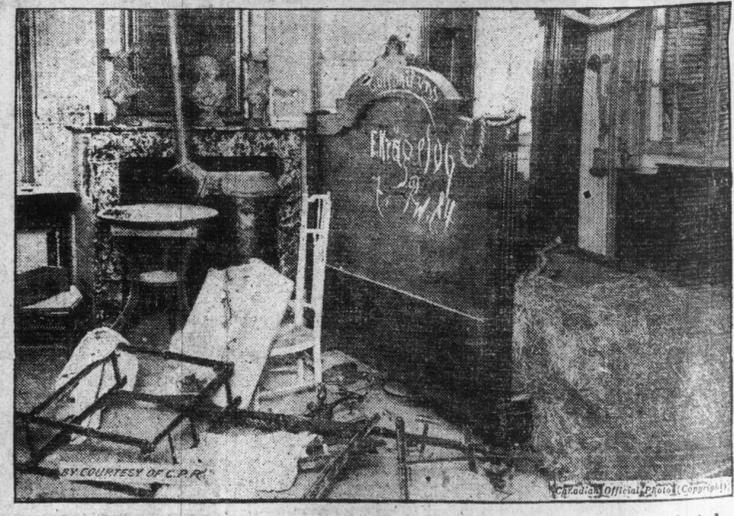

Ottawa, April 29.—Petitions are being tabled in the Commons daily, praying for the passage of an Act by Parliament prohibiting the manufacture, importation, transportation or sale of alcoholic liquors for beverage purposes. While the majority of these petitions come from the English-speaking Provinces a considerable number are tabled from representatives of the Province of Quebec.

It is understood that the Government will give early consideration to the prohibition question.
