WHO WILL GET YOUR LIFE INSURANCE MONEY.
Statistics prove that 90 per cent. of Cash Estates of \$5,000.00 and upwards are lost in seven years.
65 per cent. of Widows lose their all in five years. A widow generally has no experience in making investments, and is liable—through bad advice to dissipate her whole capital.
Make Your Life Insurance Payable to The Eastern Trust Co.
in Trust for your wife and children. This will assure them of a permanent income from these funds.

Results of Conference Approved by French, Belgian and German Cabinets

Viscount Grey Retires From Public Life—Martial Law Proclaimed at Port Sudan—U.S. Fliers Leave Iceland To-Day.

FRENCH CABINET GIVES APPROVAL.

PARIS, Aug. 19. The French Cabinet to-day unanimously approved the work of the French delegates and the delegates' attitude during the London Conference and thanked it for the important results it had attained in the interests of France.

GERMAN CABINET ALSO SATISFIED.

BERLIN, Aug. 19. It is generally expected the Reichstag will meet Friday and its decision on results of London Reparations Conference will be taken at end of next week. Yesterday a meeting of the Cabinet, under the chairmanship of President Ebert, unanimously approved the German delegates' attitude during the London negotiations and the Government is determined to dissolve the Reichstag in the event of the latter failing to sanction the London pact.

BELGIANS SATISFIED ALSO.

BRUSSELS, Aug. 20. After listening to-day to a detailed account of the recent reparations conference in London, the Belgian cabinet unanimously endorsed the conduct of affairs by Premier Theunis and Foreign Minister Rymans and congratulated them on the agreements reached. The cabinet to-day

appointed Louis De Broqueurs as Belgium's third delegate to the League of Nations. He will take the place of Baron Boyens, who requested that he be permitted to relinquish his post.

FLIERS HOP OFF THIS MORNING.

REYKJAVIK, Iceland, Aug. 20. The United States round the world fliers and Lieut. Lecotelli, Italian aviator, who will accompany them on their flight to North American continent, will take off on the long lap to Fredericksdal, near Cape Farewell, East Greenland, at three o'clock to-morrow morning. It was decided to-day.

MARTIAL LAW IN PORT SUDAN.

KHARTUM, EGYPT, Aug. 20. Several British warships have arrived at Port Sudan to aid troops there in maintaining order. Martial law is in effect following further disturbances in Port Sudan.

MANITOBA CROPS DAMAGED BY STORM.

WINNIPEG, Aug. 20. Meagre reports up to an early hour this morning indicated that the severe electrical storms which have been passing over Manitoba the past two days have played havoc with crops in a number of sections of the Province. Especially is this true of Foxwarren District, where it is reported,

the storm which broke over Northwest Manitoba on Monday night brought hail which ruined crops on six thousand acres, fifty farmers suffering losses estimated at averaging eighty per cent. The electrical storm was also accompanied by violent wind and torrential rain.

PRINCE RETURNS HOME.

LONDON, Aug. 20. The Prince of Wales returned to London last night after having spent a few days at Beauville where he was chiefly occupied in playing polo. An amusing incident occurred in connection with the Prince's sojourn at Beauville. One evening the doorkeeper at the Casino refused His Royal Highness admission, the doorkeeper not recognizing the heir apparent to the British throne at the time. The mistake was quickly rectified, however, and the Prince seemed to enjoy the joke.

PRINCE WILL GO DIRECT TO BANCOH.

LONDON, Aug. 20. The Prince of Wales is anxious to reach his ranch at the earliest possible moment and his stop on Long Island, where he will witness the international polo matches, will positively be his only stop on his way to Alberta. What he may do on the return journey is as yet undecided.

SQUADRON AT QUEBEC.

QUEBEC, Aug. 19. The British special squadron arrived at Quebec at 1.30 p.m. to-day.

ADMIRAL BELIEVES IN DOMINION NAVIES.

QUEBEC, Aug. 20. "When you ask me as to the Naval Defence Policy to be adopted by the Overseas Dominions of the Empire, I would say that it is a very delicate question to consider, but if you would like me to express my opinion on the subject I am willing to state that providing the Dominion of Canada or any other Overseas Dominion within the British Empire is desirous of maintaining their own navy, it would be to my mind the finest thing that could possibly happen the dominion thus affected, while at the same time it would be a magnificent help to Great Britain. This was the statement made in an interview this morning by Vice Admiral Sir Frederick Field commanding the British special service squadron now here.

GREY RETIRES.

LONDON, Aug. 19. Viscount Grey of Fallodon has retired from the Liberal leadership in the House of Lords for personal reasons.

DUE TO ILL HEALTH.

LONDON, Aug. 20. Viscount Grey of Fallodon, whose retirement from the leadership of the Liberal Party in the House of Lords was announced to-day, has slipped out of British public life as modestly as he entered it. His friends and political associates, knowing his state of health, were not surprised at the news from Fallodon where the former Secretary of Foreign Affairs is spending a holiday at his country seat which only last year was restored from the effects of a disastrous fire in 1918.

MACDONALD'S LETTER CREATES STORM.

PARIS, Aug. 20. The storm raised by the British Prime Minister's letter to France and Belgium, urging expenditure in evacuation of the Ruhr, continues to rage. Official circles, however, maintain Mr. MacDonald acted quite naturally in the matter, using the only procedure available to him to make known officially, apart from the London Conference, the traditional viewpoint of his Government.

DALHOUSIE REUNION.

HALIFAX, N.S., Aug. 20. From Sydney, N.S., from New Westminster, B.C., from St. John's, Nfld., from Bermuda, and from many intermediate points, sons and daughters of old Dalhousie have assembled in Halifax for a three days' reunion, marking the 106th anniversary of the founding of the University by Lord Dalhousie. Nearly four hundred former students registered this morning.

ENGLAND'S DEATH AND BIRTH RATE.

LONDON, Aug. 20. England's death rate for 1923 is given as 11.6 per thousand, the lowest in recorded history. In a report by the Ministry of Health, just issued, the total deaths were 444,768, which figure is 42,000 less than in 1922. The infant mortality rate is also the lowest recorded, dropping 15 per cent representing a saving to the nation of 45,000 babies. The birth rate, however, does not give the same satisfaction. The number of births was 768,131, or about 22,000 fewer than in 1922.

RAILWAY ACCIDENT IN PORTUGAL.

LISBON, Portugal, Aug. 20. Six persons were killed and forty injured yesterday when a passenger train, proceeding from Lisbon to Estoril, a fashionable summer resort, collided with a freight train. The passenger train was crowded with business men.

SYDNEY WITHOUT INFORMATION.

SYDNEY, N.S., Aug. 20. With reference to stock market re-

The Hostess

FRENCH ORGANDIE
Writing Paper
For Social Correspondence
The paper that's good to write upon.

ports yesterday that the British Empire Steel Corporation at Trenton will re-open Monday, it is stated at Corporation Headquarters here to-day, that no instructions to that effect have been issued and that there is no local knowledge of any intention to start work at Trenton in the near future.

DAMAGE FROM RAIN AND FLOOD.

DESMOINES, Iowa, Aug. 20. Two men lost their lives, many head of cattle were destroyed and property damage to the extent of hundreds of thousands was done in a terrific rain storm in Eastern Iowa, last night. Practically all the cities and towns in the storm's path here were flooded and the Wapsipinicon, Cedar and Big Creek Rivers overflowed.

SUCCESSFULLY TERMINATED.

MADRID, Aug. 20. The Spanish operations against the rebels at Afrau, in the eastern zone of Morocco, have been successfully terminated, says an official communique. The rebels are known to have suffered a loss of 90 killed and 340 wounded, although native reports and air observers put enemy casualties as high as 550. Among the Spaniards wounded were two Lieutenants.

AN ARAB-RUSSIAN TREATY.

JERUSALEM, Aug. 20. King Hussein, of Hedjaz, has conducted a peace treaty establishing diplomatic and commercial relations between Hedjaz and Soviet Russia, according to information received here to-day from Mecca.

placed in a chapel in the presence of many of his former colleagues in the Socialist Party. The body will be buried to-morrow.

IDLEES NEED NOT APPLY.

WINDSOR, Ont., Aug. 19. Mayor Mitchell passed the word to the unemployed yesterday that they need not look to the municipality this winter for help and sustenance. Many of those idlers are English immigrants. It is said some of them refused offers of employment because the work was not to their liking and that this attitude has left a bad impression in the minds of local officials.

NICE TACTICS TO SQUARE ACCOUNTS.

BUENOS AIRES, Aug. 19. Argentine coastwise steamer Asturlano, on a voyage to the South Argentine ports with 320 passengers and crew has reported by wireless that a time bomb exploded in a trunk in the hold of the vessel Sunday night, causing a fire which took four and a half hours to extinguish. The Asturlano, one of several steamers boycotted recently by the Argentine Maritime Federation, sailed Friday with a minimum crew.

TWO KILLED AND SEVERAL INJURED IN COLLISION.

WINNIPEG, Aug. 19. John Katerynuk, a section foreman at Jacobs and his father-in-law, George Steetruk, a section laborer, were killed, and S. Holstrom and L. Darcy sustained broken collar bones and other injuries as a result of a collision late Saturday, between two gasoline speedsters on the National Lines between Sioux Lookout and Armstrong, Ont.

CHINESE CASUALTIES.

PEKING, Aug. 19. Four hundred mud houses collapsed in floods in the area near Kaifeng, the capital of Honan Province, and many casualties were reported from Chiaoao among the cave dwellers who are drowned by flood waters, advices received here say.

TRAVELLING ARRANGEMENTS FOR LORD RENFREW.

WINNIPEG, Aug. 19. The Prince of Wales who is travelling incognito as Lord Renfrew, will visit his ranch at High River, Alberta, next month, will leave New London, Conn., on Sept. 14th, en route to Canada, according to a statement made here last night by officials accompanying Sir Henry Thornton, President of the Canadian National Railways, on his arrival from the West. The Prince has accepted the invitation of Sir Henry Thornton to make use of the facilities of the National system on his journey across the Dominion. He will arrive in Winnipeg by special train on Sept. 16.

A RIVER OF MUD.

SACRAMENTO, Calif., Aug. 19. A veritable river of mud boulders and ashes, extending in width for a few hundred yards to half a mile in some places and 15 to 25 feet deep, is flowing from the mouth of Mud Creek Canyon, eight miles above McCloud, Siskiyou County, on the slope of Mt. Shash, into the McCloud River, says a despatch to the Sacramento Bee.

FAMILY FUED ENDS IN THREE DEATHS.

TEXARKANA, Ark., Aug. 19. Walter Armstrong, 50, Charles Dixon, 26, and Jim Dixon, 29, were shot to death in a five cornered gun battle in the main street of Fouke, near here, yesterday, according to a despatch to the Texarkanan. Wm. and Stuart Armstrong, sons of the dead man, are alleged to have shot the Dixon brothers.

STRIKE STATISTICS.

OTTAWA, Aug. 19. The time loss caused by industrial disputes in July was less in the previous month or in July of last year, according to this week's Labor Gazette. Fourteen disputes began or were in progress during the month affecting 9,224 employees and causing a loss of 229,204 working days. The previous month there were 23 disputes, affecting 13,872 employees and 244,673 working days were lost.

COST OF LIVING.

OTTAWA, Aug. 19. The average cost a weekly budget for a family of five using twenty-nine staple foods, was \$9.91, at the beginning of July, according to the current issue of the Labor Gazette. At the beginning of June it was \$9.86 and \$10.17 for July of last year. Slight advances occurred in the prices of flour, potatoes, butter, eggs, and fresh pork. Prices of sugar, mutton, bacon, cheese, and beans were lower. Fuel and rent showed little change.

ZANNI'S PLANE DAMAGED.

HANOI, French Indo China, Aug. 19. Major Zanni, the Argentine round the world flier, met with an accident while taking off for Canton to-day, when his machine overturned. The flier escaped, but his plane was put out of commission.

U.S. FLIERS' PLANES' DEMOLISHED.

ED. REYKJAVIK, Iceland, Aug. 19. The American Army world fliers will be unable to leave Iceland for Greenland for at least three days more, owing to damage suffered by both planes in an attempted start.

Delicious Mayonnaise Without Eggs

THE mayonnaise makes the salad—and Carnation makes the mayonnaise—without eggs—the smoothest, creamiest, most delicious dressing you ever tasted. So easy to make—so economical too. Try it—the recipe is given below. And write for the free Carnation Recipe Book.

Carnation is just pure milk, evaporated to double richness, kept safe by sterilization. It is sold by your grocer in tall (16 oz.) cans and in cases of 48 cans.

NO-EGG CARNATION COOKED SALAD DRESSING:
1 t. salt, 2 tablespoons flour, ¼ t. (leaves) on mustard, 2 tablespoons (or more) or substitute, 1 tablespoon sugar, ¼ cup water, 3 tablespoons vinegar, ¼ cup Carnation Milk. Mix dry ingredients and add melted butter or substitute. Add milk (or more) with water and cook in double boiler until it thickens. Add vinegar slowly, then cool. This recipe makes ¼ cup salad dressing.

FIRST AND FUNDAMENTAL
ABSOLUTE SECURITY TO POLICYHOLDERS

I had to hustle—let my children do the same," you say.

But do you really mean it? Recall the struggle you had getting a start in the world! What would a little money and a better education have meant to you?

Don't force your children to face the hardships you went through! Remember, "getting a start" to-day is more difficult than it was when you were young.

Provide your children with the money for this purpose by purchasing an Imperial Endowment now—while you are in good health and can spare the money.

Write to-day for a copy of our free booklet, entitled "Penniless Old Men." To-morrow you may be uninsurable.

CRAWFORD—MACNAB

Mr. and Mrs. Henry Crawford celebrated the 25th anniversary of their own wedding at their beautiful residence the "Wes House" on Forest Road by the wedding of their daughter Carrie, to Mr. Egerton M. MacNab, of this city yesterday, Wednesday afternoon. The Rev. R. J. Power, of the Presbyterian Church officiated, trying the knot that all hope will bring happiness to two so well and favourably known.

Happy the bride the sun shines on its proverbial and no young couple ever had better indication or good fortune in the future than was ordered by the deities yesterday.

The residence was crowded with relatives and friends and many were the speeches toasting the happy couple which were responded to by the groom and his best man, Mr. Arch Mann. The Hon. John R. Bennett gave an exceptionally happy and humorous speech to which Mr. Henry Crawford replied.

Dr. Paterson asked all to drink the health of Mrs. MacNab the mother of the groom, who now resides in Montreal and whom we all know would like to be present with this happy couple.

The bride looked beautiful dressed in ivory charmesse with bridal veil and orange blossoms carrying a bouquet of magnificent roses. She was ably assisted by her sister, Miss Jean Crawford and Miss Mable Templeman who wore embroidered peach colored georgette.

Telegrams were received from Montreal, Toronto and New York with hearty wishes from friends and relatives all hoping to see the happy couple during their honeymoon. The presents which filled a whole room were handsome, costly and useful, all expressing appreciation and good wishes for the occasion.

About six o'clock the bride and groom left by motor car for Holyrood amid the showers of confetti. They take the first cross country train from there to Canada.

M.

CRAMM—MOORES

A very pretty wedding was solemnized at the Gower Street Parsonage by Rev. Hammond Johnson on Monday afternoon August 18th. The contracting parties were the Honorable Richard Cramm, M.H.A. for Bay de Verde and Miss Olive Lynette Moores, only daughter of Mr. George E. Moores, H. M. Customs and the late Mrs. Moores. Only the immediate relatives of the parties were present and both bride and groom were unattended. After the ceremony the happy pair motored to Donovan's whence they joined Tuesday's Express for Corner Brook, Curling and other points on the West Coast where the honeymoon will be spent. The Telegram joins the numerous friends of Mr. and Mrs. Cramm in wish them very many years of wedded happiness.

Mr. William Piercey, buyer for Jas. Baird Limited, arrived from New York by Silvia this morning.

F. M. O'Neill, accompanied by his two little sons, Master Angus and Dolph, are at present on a brief visit to Bell Island.

Miss Kitty Lamb, daughter of Mr. and Mrs. P. Lamb, leaves by the S. S. Silvia Saturday for New York, where she will be married to Mr. J. S. Cleary, son of Mr. and Mrs. R. C. Cleary and formerly of Messrs. Ayre & Sons Ltd. A farewell party was tendered Miss Lamb last night at the home of Mr. and Mrs. R. Phippard, which proved very enjoyable. A number of friends of both parties were present.

Extraordinary Picture
at the Majestic

Lovers of movies are invited to the Majestic Theatre to-night, to witness an unusually strong bill, the superb picture "Love, Hate, and the Woman," with the renowned Grace Davidson in the leading role, is sufficient in itself to warrant a strong bill. It is followed by Comedy, entitled "You Couldn't Blame Her," a designated scream.

Those two pictures are highly recommended, and from what we have read of the press clippings respecting same, a program far above the average is assured.

The Visit of the Special Squadron

In about a fortnight's time the special cruiser squadron will complete its tour of the Empire in our waters, and as yet no mention has been made of any preparations for their reception.

In many ways we have a more personal interest in the Navy than any other part of the Empire. As an island we are dependent upon its watchfulness for the safety of the ships which bring us supplies.

It is to be regretted that St. John's cannot be the port of call owing to the dimensions of the ships and the limited space in the harbour, but they will be within a short distance of the city and it will not be a matter of any great difficulty to provide travelling facilities by road and train to and from Topsail to enable everyone to view the fleet and to convey the ships' companies citywards.

The impossibility of accommodating the fleet in the harbour again calls attention to such obstructions in the Narrows as Chain Rock and the Pancake. It is quite time they were removed, and we would suggest that representation should be made to the Admiralty in order to ascertain whether it would be possible to avail of the presence of the fleet to secure the services of the naval men in this connection.

In making the suggestion we feel certain that the motive will not be misunderstood by the naval men. They are always ready and willing to render any assistance in their power and in clearing the Narrows of these rocks they would not only be doing us a great favour, but would help to make the harbour of considerably greater importance from an imperial standpoint.

CORRECTION.—In our reference on Tuesday to the discussion in the Legislative Council on the Gander Contract, the Hon. Charles Steer was mentioned instead of the Hon. Frank Steer.

Seeking Relations The police are seeking the sister of Mrs. T. Lester formerly miss Coleman of Curling. The sister sought is supposed to be resident in the city and to have married a man named Bennett. Mrs. Lester left some time ago to reside in the United States.

Scientific Demonstration ON CURATIVE POWER OF COD LIVER OIL.

A most interesting demonstration on Rickets was given by Miss Mildred Weinstein on Tuesday. Miss Weinstein, who is associated with Dr. Alfred F. Hess of New York, has done a considerable amount of research work on this special deficiency disease and speaks and demonstrates with authority and experience. She demonstrated on three rats, showing Rickets in different stages of development. Protection and healing is obtained by the giving of Cod Liver Oil, which is most potent in two necessary food factors. One, Fat Soluble A, which promotes growth, prevents and cures certain eye troubles, and the other anti-rachitic which prevents and cures Rickets. These necessary food factors have the power of stabilizing the amount of calcium and phosphorus necessary in the body, and it is the deficiency of either of these which produces Rickets.

This demonstration was followed by a lecture from Mr. Quilligan of the Scientific Department of Mead, Johnson & Co. Mr. Quilligan has for many years studied infant feeding. It was too wide a subject with which to deal in one lecture, and therefore he emphasized particularly dietetics in relation to Diarrhoea. There are three types of Diarrhoea. 1.—Fermentative. 2.—Putrificative. 3.—Infective.

The first was due to too much sugar in the diet, the sugar balance being higher than the Protein. This was corrected by giving a Protein milk. The second was due to too much Protein and corrected by giving a higher sugar diet. The third was caused by the milk or food taken by the child being infected by flies and dirt.

It is to be regretted that St. John's cannot be the port of call owing to the dimensions of the ships and the limited space in the harbour, but they will be within a short distance of the city and it will not be a matter of any great difficulty to provide travelling facilities by road and train to and from Topsail to enable everyone to view the fleet and to convey the ships' companies citywards.

The impossibility of accommodating the fleet in the harbour again calls attention to such obstructions in the Narrows as Chain Rock and the Pancake. It is quite time they were removed, and we would suggest that representation should be made to the Admiralty in order to ascertain whether it would be possible to avail of the presence of the fleet to secure the services of the naval men in this connection.

Fishery Report From Labrador

The following message sent from St. Anthony by Capt. E. Haan has been received by the Marine and Fisheries Department. There is good hooking at Battle Harbor, Bell Isle and Lark Harbor, fishing is fair with trawl and hook. Eighteen schooners their average about 400 qts codfish each. Capt. Jesse Winsor with a full load of fish has come to Battle Harbor.

To Serve Sentence The man Fawell who on Monday last was convicted of keeping a disorderly house on Holloway Street was taken to the Penitentiary this morning to serve a three month term in lieu of the fine of \$100 inflicted by the Magistrate.

Health Conditions at Deer Lake Investigated The reports that the Sanitary conditions at Deer Lake were in a deplorable condition have been investigated by the Board of Health Department. Inspector Lawlor who was sent out to Deer Lake to make an examination of conditions returned a few days ago. In the area outside the Company's buildings there is a large number of shacks have been erected the conditions were not good so no attention whatever was paid to Sanitation. In Company with Mrs. Wells and McDonald the inspector visited the shacks under control of the Company, living conditions were found to be satisfactory and no complaint was heard. In regard to those outside the Company's jurisdiction, instructions were given which will when carried out remove the conditions complained of.

Pearline for easy washing. —July 17, 24

Express Passengers

The following passengers arrived at Port aux Basques by S. S. Kyle yesterday morning, and are on the incoming express due at 3.30 p.m. Green, J. A. Murphy, L. Murphy, L. Richardson, Miss E. Rose, Miss A. Hall, Miss J. O'Brien, Miss M. McGarry, Mrs. Warren and son, Mrs. J. Norman, E. Hayden, Mrs. E. Williamson and son, A. B. Mayor, D. W. Sherman, Misses W. Caldwell, Mrs. D. TRAIN NOTES.—Tuesday's express arrived Port aux Basques 5 hours, 55 minutes late. The incoming express is due at 3.30 p.m. The Carbonara train is not due until 4.35 p.m. The Toxopne train is due to arrive at 2.30 p.m. The express went out at 1 p.m. GLENCOE ON DOCK.—The steamer Glencoe was placed on the dry dock on Tuesday afternoon and a staff of mechanics are now employed making permanent repairs. The survey showed that she had suffered two bumps as a result of her running aground at Deer Cove. One near the stem and the other underneath the boiler. Repairs will take about two weeks.

What is Community Singing? Many people in the city have no definite idea of what community singing means, and no idea of its purposes and benefits. Many people also, with a mistaken idea of what it is and put it more or less in their minds in the same category as the amateur theatricals. In fact, the number of people who do not understand, or who misunderstand is so large that I want to explain to the public what is meant by Community Singing. Secondly as the name ought to suggest, it is not an individual exhibition in any sense of the word. It means first and foremost that all the people of the city meet together to sing. If you have never attended a Community Sing in one of the large cities of the United States or other country, you may have some difficulty in getting a proper conception of this idea unless you are a keen observer of human nature or know something of the psychology of music. As one person said "You mean to say that a lot of people meet together and everybody sings?" How beautifully still. The purpose of this article is to prevent anyone else from making that same mistake, for an answer like that shows that the speaker had very little understanding of human nature, and still less understanding of the value of music in our lives. Remember that Community Singing is not specially for the would be prima donnas; it is for you and me and all those people who enjoy plain, simple, sweet singing. Everybody likes to sing until they get the idea as someone else is singing just as well as someone else is. It is a part of human nature to like to sing. If a person does not like to sing it means that a part of their nature has dried up and atrophied. These people are losing a part of the natural joy of life. A great many people as they get along to middle age, sit back and let the younger people do the singing. This is wrong. It is simply bad habit. They soon think that they cannot sing, and they never try. Just come down to the Casino Theatre Friday night and listen to the others singing for five minutes and they won't be able to resist the temptation of singing yourself. Why should we sing? Because there is no other way in which we cannot so readily express ourselves. All of the changes of emotion and feeling are expressed in our songs. Singing in particular is one of the greatest ways of expressing happiness and goodwill. It not only expresses these qualities, but it develops them. Get some disagreeable, ill-humored person to sing before the car, or in his youth he had secured his disposition, and see how quickly he will brighten up. The world does not look so dark and gloomy to the person who sings. Watch the man who sings at his work. He is a good man to do business with. Watch the homes where there is singing. Those without singing are like a birds nest with a bird, cold and empty. It is without doubt the greatest power on earth in appealing to the desirable sentiments and finer qualities of human nature. What was the greatest means of keeping up the spirit and morale of our soldiers in Germany and France? Singing. These few remarks about singing apply to a city as well as to those individual cases mentioned. When the people of a city are singing together there is less strife, less darkness and less hard feeling. There is more happiness, more goodwill and more friendliness. Community Singing in a city gives the people freedom in expressing themselves and in developing the qualities of patriotism, loyalty and good fellowship. Come, join in with us at the Casino. Let us have a city that sings, for that means a city where the people are happy.

TO-DAY'S MESSAGES. CREATING SENTIMENT FAVORING A CANADIAN NAVY. MONTREAL, Aug. 21. A Canadian navy for Canada. That is the ambition of Hon. E. M. MacDonald, Minister of Defence, but such a navy must wait on Canadian public opinion, says a Montreal Star special from Quebec, giving an interview with the Minister. The interview continues: "It is not the policy of Canada to contribute money to the upkeep of the British Navy. We want a navy of our own. Australia has set the example in that respect and we want to follow it. Just at present we are not able to do so. Our railway constitutes too heavy a drain on our resources to enable us to do so. It is our hope that the visit to our shores of the British squadron will create such a public sentiment as will in the future enable us to expend the necessary funds to build such a navy as will be a credit to Canada. We are now training men to man a navy through the voluntary naval reserve. Men from that reserve accompanied the special squadron from Vancouver to Halifax. We hope that the enthusiasm engendered by that trip will result in the creation of a public sentiment to support the necessary expense involved in the construction of a navy. We felt that the best way in which to create an interest throughout Canada in naval matters was to have our own navy. More contributions of money to Great Britain would not advance the interest that would be aroused if we maintained a navy manned by Canadians. We hope to have such a navy when conditions make it possible for us to do so. In the meantime we do our best to create a sentiment favoring the creation of such a navy."

U.S. ADMIRAL SCENTS A CONSPIRACY. WILLIAMSTOWN, Mass., Aug. 21. "Great Britain dominates the destinies of Nations and the commerce of the world and inspired the Washington Conference for Limitation of Armaments in order to prevent the United States from having sufficiently strong a navy to protect a merchant marine which would compete with that of Great Britain," said Rear Admiral W. L. Rodgers, U.S.N., retired, in a statement to-day at the Institute of Politics. "Our Limitation of Armaments Treaty of three years ago played into England's hands and indeed she originated it," said the Admiral. "She does not wish us to interfere with her as our national growth would permit us to do. It was the competition of our merchant fleet with that of Great Britain which she hoped indirectly to limit by direct action upon our navy. It is not to be thought that she was contemplating the rivalries of the navies as the primary issue in regard to the prospective international loan to Germany. It is alleged that the American bankers are waiting for England to take the initiative. If such is the case, let us reflect how far it will be explained by the ability of England to control the commerce by which Germany will pay her reparations and thus make American credit the tool of British shipping." "Upon my honor, I have never heard a whisper of it in all my years on intimate association with British shipping," said Sir Arthur Salter, Chief of the Financial Section of the League of Nations, and a member of the British Shipping Control Board during the war in reply to the charges by Rear Admiral W. F. Rodgers, Sir Arthur said that British ships want where the interest of private owners and shippers dictated, and the British Government, he said, knew where merchant ships were or what they were doing.

DIAMOND ROBBERY IN BOSTON. BOSTON, Aug. 21. Diamonds and jewellery, valued at \$150,000, were stolen by four men who held up clerks in the stores of Carl S. Skinner, a diamond merchant here to-day. One man remained in an automobile, two covered three clerks with revolvers, while the fourth picked up a jewellery case which had just been removed from the safe.

PROHIBITIONISTS ON THE WARP-ATH IN ONTARIO. TORONTO, Ont., Aug. 21. Prohibition forces in Ontario are already active in anticipation of the coming plebiscite. Rev. J. Dalley, Secretary of Ontario Prohibition Union is shaping plans for conducting a strenuous campaign. Committees of leading prohibition organizations of the Province have already been at work.

WARSHIPS MAY RUN SHORT OF OIL. INDIAN HR., Labrador, Aug. 21. A survey of the United States Army world flight station to-day, indicates that if there are many more delays the oil fuel shortage of the warships guarding the air expedition route may become serious. No naval oil burners are believed near enough to relieve the situation and there is about an average of sixty thousand gallons aboard each destroyer. Although the cruiser Milwaukee has some surplus, the cruiser Richmond was able to proceed back to Reykjavik only at a twelve knot speed because of lack of oil. It would take several days for a tanker from Halifax to relieve the shortage. The destroyers must reserve thirty thousand gallons each to reach Halifax. As each day now passes now the uncertainty of good weather increases.

CANADA THE WHEAT COUNTRY OF THE FUTURE. LONDON, Aug. 21. "I venture to say Canada will be timely well raise sufficient wheat for over 10,000,000,000 people or twice the population of all white races," declares Pro. George Rivers Anderson, head of Department Engineering Physics and Photography of the University of Toronto, in a special article in the Morning Post to-day.

JUST FOR THE SAKE OF THE THRILLS. NEW YORK, Aug. 21. With Gibraltar as his destination, D. Stokolski, a Cretan seaman, next Sunday will embark upon a perilous trans-Atlantic voyage in the 23 foot sail boat Carachira, the Greek word for shark. His only motive in making the trip is to experience the thrill of achievement, he said.

CHARGED WITH MURDER. HALIFAX, N.S., Aug. 21. Hilda Reynolds, the young hotel employee, who was arrested yesterday after she had told the police that the body of a day old infant, found in the hotel basement had been placed there by her, and that she had given birth to the child in a Kenville hotel a month ago, and carried it in her trunk, to-day confessed to the police that she had smothered the child with a towel. She will be charged with murder in the police court to-morrow morning.

PRINCESS MARY THE MOTHER OF GOLDENROCK. WOODSTOCK, Ont., Aug. 21. Princess Mary, daughter of King George and Queen Mary, who gave birth to her second child, a son, this morning at Goldborough Hall, one of the seats of the d'Almeida family.

NO FILL ELECTION IN CANADA. WOODSTOCK, Ont., Aug. 21. Premier King, Hon. George P. Graham and Hon. Jas. Murdock, addressed a crowd of about 5,000 in South Side Park, Woodstock, yesterday. Premier King repeated there was to be no general election this fall. Holding that people did not wish one.

THE MACLAREN PARTY'S WELCOME. VANCOUVER, B.C., Aug. 21. Major Stuart MacLaren and his party of heroes of attempted world flight by airplane were accorded a rousing welcome when they arrived on board the Canadian Fisheries steamer "Thorp" here yesterday. City officials, veterans of flying corps, army officers and women and children paid tribute to the gallant efforts of British airmen.

NEARLY HALF A MILLION IN MOTOR LICENSE FEES. ST. JOHN, N.B., Aug. 21. That when the offices in Fredericton closed for business yesterday afternoon \$450,000 had been collected in automobile license fees for the year 1924 was the announcement by Hon. P. J. Venios, Treasurer of New Brunswick, on his arrival here last night.

TRYING TO GET IN TOUCH WITH MARTIANS. BUENOSAIRES, Aug. 21. Scientists in United States are to "listen in" from Thursday to Saturday of this week for possible wireless signals from theoretical inhabitants of Mars, learned here, Argentine Foreign Office publishes a communication.

Mr. James J. Hagen

A VETERAN TELEGRAPHER VISITS HIS NATIVE CITY.
(H. F. SHORTIS.)

By the last trip of the *Sable I*, there arrived in St. John's, Mr. James J. Hagen, one of the few remaining operators of the old New York, Newfoundland and London Telegraph Company, the pioneer company in this country. Mr. Hagen joined up in 1869, when the telegraph office was in the old Court House, which was destroyed during the great fire of 1872. After mastering his profession he was for a short time stationed at Black River, relieving Mr. Blackadar, and in 1873, he was ordered on to St. Pierre, where he did duty for about forty-nine years. He was retired about two years ago, and proceeded to Cambridge, Mass., where his daughters reside. Two of his sons hold leading positions in connection with the Telegraph Company of the United States, and Canada. Mr. Hagen is the son of the late Capt. Hagen, one of the best known master mariners of his day, and was for a number of years master of the S. S. *Ariel*, running on the West and North Coasts alternately with mails and passengers. Capt. Hagen was master of the brig "Triumph," owned by the famous sealer, Capt. Pierce Feehan, and was instrumental in saving the lives of all on board the American barque "Slam," in mid ocean, in the sixties of the past century. For three days, during a terrific storm, Capt. Hagen and his crew remained on the doomed ship, and at last, with heroic bravery and able seamanship, succeeded in rescuing the shipwrecked mariners of the *Slam*. The heroism of the Newfoundland captain and crew was highly thought of, and the newspapers of the United States and elsewhere gave a glowing and extended account of the bravery displayed by our countrymen upon that occasion. In recognition of his services, Captain Hagen was presented with a pair of beautiful silver mounted binoculars, and the chief officers and crew were also recognized for their services. The binoculars are still in the possession of the veteran telegrapher in his home in Cambridge, Mass. It is needless to say that after forty-eight years residence in St. Pierre, Mr. Hagen speaks the French language as fluently as he does his mother tongue. He returned by the *Sable I* on Tuesday, and it is not improbable that he may yet spend the evening of his days in St. John's, where he was born, bred and spent his early days. I may mention that of all the operators stationed at St. Pierre, when Mr. Hagen went there in 1873, not one now remains. He has enjoyed his very brief visit to his native city, and it is not probable that he will ever return to St. John's, and, as for past events, he is indeed a walking encyclopedia. We trust it will not be long before Mr. Hagen will once more return to his native city—and remain amongst us.

Nonia Sale

The Newfoundland Outport Nursing and Industrial Association will conduct a special three day sale of beautiful hand knitted and woven wool goods on Thursday, Friday and Saturday of this week. Lady Allard and her assistants, through the courtesy of Messrs. Ayre and Sons, Ltd., are making a special display in that firm's window—upper building—and also will have a good supply in the Mantle Room on the third floor all moderately priced. A special invitation is extended to the large number of round trippers who will be here this week. Volunteer assistants will help at this sale. Come in, step on the elevator and help a good cause.

Motor Boat Picked up

Mr. Hugh J. McDonald, Campbell's Creek, Port aux Basques, reports to the Marine and Fisheries Department that he has picked up a motor boat, of which the following is a description: "Keel 20 feet, width 7 feet, grey, red waterline, 8 h.p. engine, batteries, no wronches. There was 18 fathoms of 18 thread rope attached to the boat."

Secret of Keeping Young

Why is it that some women look older at thirty-five than others do at fifty? Why is it that so many women are always run-down, weak, pale, nervous, irritable and unhappy? Health, vitality and freedom from pain and disease alone can prevent the signs of age from fastening themselves upon women. All over this country women are awakening to the fact that the ill, aches and pains of women may be relieved by Lydia E. Pinkham's Vegetable Compound and the result is renewed life, energy and the glow of health. In fact, the secret of keeping young is to ward off all internal ailments that cause premature old age, which is easily accomplished by this remarkable root and herb remedy.

How "Ma" Jong Beat the Game

She Plays a Winning Hand

There are two Great National Games just now—Ma Jong, and Wise Shopping. In both games, it is necessary to make wise moves and to use discretion. You win if you use judgment. The Mother of the family is the real "purchasing agent"—and much depends upon her sound logic in selection. "Ma" will shop wisely and always win, if she follows the suggestions on this page. And "Pa" Jong or Smith or Brown, or whatever the name may be, should be equally interested. Come on—get in the game. It's your move.

Special Values in Stamped Linens

The woman who enjoys working in linens will find the new pieces at the art needlework section a perfect delight.

Centres.

Legislative Council

OFFICIAL SYNOPSIS.

TUESDAY, Aug. 19.
House met at 10 a.m. pursuant to adjournment.
On motion of Hon. Mr. Morine and by unanimous consent, Bill to amend Revenue Act of 1905 and amendments thereto, was put through all stages and passed without amendment.
Bill respecting the United Towns Electric Company Limited, was read a first time, by consent, a second time.

Hon. Mr. Morine explained the object of the Bill was to allow this Company to extend in various parts of Placentia District and St. John's East. It did not give any exclusive rights, but allowed the usual privilege of free entry of material for original construction.
Hon. Mr. Ellis recalled that last year on a similar Bill, the matter of the charge for electricity was brought up. Everyone knows we are charged far in excess of what is paid elsewhere. We are granting privileges session after session, and apparently no effort is made to reduce the price of electricity.

Patrick McGrath said when this Company was first projected the idea was they would come in to St. John's and supply power in competition with the Reid Company, then in existence. Now they have made an arrangement whereby they supply the City Company with a certain amount of power, there is to be no competition and citizens are still paying tremendous rates, at least twice as much as in Halifax and Sydney, and three times as much as Montreal and Toronto. He believed water power rights on the Southern Shore had been given, but we did not seem to be deriving any advantage.

Hon. Mr. Morine said that in any case the Company had not made matters any worse, but had conferred a great blessing on the people in many of the Outports. It was his opinion that a Public Utilities Tribunal should be appointed to deal with such matters as this. The whole question of the rates to be charged in St. John's should have been provided for when the Bill went through. This Bill did not have any bearing on that position, but it is a matter that will have to be dealt with in the near future.

Hon. Mr. Ellis said he thought the Public Utilities Tribunal idea a good one. Some years ago the City Council had made an endeavour to acquire some water powers within and area of 60 miles of the city. It was their intention to try and reduce the cost of electricity but their application was turned down as some one had made a previous application, although the Council had expended some five or six hundred dollars in surveying the ground.
The Committee reported the Bill without Amendment, and by consent it was read a third time and passed.

Hon. Mr. Morine moved the first reading of the Loan Bill and by consent the second reading. He stated that it was proposed to spend an amount not exceeding \$4,000,000 on repairs to the Dry Dock, the improvement of the Railway, etc. He had heard the criticisms in the main of two items only, first the construction of a plant for fuel and coal in St. John's. It seemed fairly general, he said, among people who ought to know that the coal plant for the bunkering of steamers would not be necessary. It appeared attractive at first but if on examination it would not be essential it would not be embarked upon and care would be taken to get expert advice on the matter. The money could be directed towards the other purposes stated in the Bill. Then the rails between Brigus Junction and Clarendville have been getting worse and worse and it is proposed to lay new rails. The sum stated for repairs was said to be too low. If that proved to be the case Mr. Morine thought that if the money were not needed for the coal plant it could be spent in re-railing a longer distance. Mr. Morgan had stated that the whole line needed to be re-railled. The condition of the railroad was a very important factor in the success or otherwise of an undertaking such as the Humber. The rails very often have to bear loads which are too heavy for them. The rolling stock also is insufficient. Quantities of wood cut some months ago, he continued, had not yet reached the mills. The only matter he had heard much discussion about is the most important in connection with tourist traffic. He said he was an enthusiast on this matter and that anyone who had doubt about it

was behind the times. There was, he added, need of a highway on the West Coast between Port aux Basques and Bay of Islands. The numerous fishing rivers this connected and the agricultural district opened up would be a beautiful country for tourists. Then again he thought all around St. John's there were many attractions of scenery and fishing inducements so different from those offered elsewhere, which had only to be thrown open to invite a crowd. He explained what had happened in Canada and the United States during recent years. At one time the rich man and those of leisure only, could afford to travel across the border and visit the new and strange places. Today because so many possess "stivers" the middle and labouring classes are doing the same thing. The rich man who wants a degree of seclusion is being driven away and is seeking new fields. If Newfoundland could be made attractive and proper steamers and railroads provided those seeking new sights would visit it. This proved the case in Nova Scotia. In Yarmouth and through the Valley of Evangeline, a large amount of money was spent on the roads with the result that they are now much frequented by tourists. He felt satisfied that if the plans to attract the tourist in this way were carried out we should soon not be able to entertain all who would come. Nova Scotia with all its beauty has nothing like Newfoundland to offer the tourist, and if we have a good steamer across the Gulf and can provide a motor road of 150 miles on the West Coast, we shall have that steamer's decks loaded with motor cars of people who want to see our scenery and visit our fishing rivers and pools. And many of these visitors will invest their money here as they have done in Nova Scotia, and leave vast sums in one way and another with our people. With regard to the road building Mr. Morine stated that it was the intention to have the whole scheme in control of a commission and department with probably the Government Engineer in control. The advice of the Motor Association would be asked and an endeavour made to make the movement a popular one. There was no idea of having the work divided up into districts and the money dribbled away. Nor was the money only to be spent in building new roads. The object was, he continued, to connect up old roads and repair them, so that motorists could go over the whole length of the country. A number of people, he said, talked of the motor roads as if they were to be constructed for pleasure only while in reality they were to develop the country and afford to people the opportunity of getting in touch with one another, and of raising them above the level of local affairs. He remembered a time, he said, when the farmer was the bitter enemy of the motor, because of the inconvenience of drawing in their horses when one passed. Today, he added, the motorists in Canada are the farmers. Their whole method of living has been changed. The farmer's wife is happy. She is no longer isolated but can, by means of good roads, keep in touch with the outer world. This same state could be reached here in a fishing country. He mentioned the case of a son of a fisherman who had a "river" in which he and his wife had made a tour through Trinity Bay. Not only did he enjoy the scenery but was surprised to see the various industries carried on in that part of the country. In all places motor roads respond to the call of progress. Fine fishing ponds, he said, were to be found near Fortargy Cove and a few thousands would make a beautiful open road to the ponds. If we are to have a big hotel in St. John's and keep people here a few days we must have something to attract them. The hotels and sporting places must be linked together. With the co-operation of the Motor Association and the Rotary Club a Tourist Association could be formed and the attractions of our country widely advertised. A large office might be opened on Water Street and an agent appointed to visit steamers, etc. He also stated that if there were an agent in the United States, competent to meet the motored men and explain what we had to offer, we could sell our country in another sense, to the tourist. Mr. Morine thought that this was the first piece of constructive policy attempted for many years and would largely benefit the fishermen. They would get work on the roads, the traffic would increase, there would be greater importation, for the way to import luxuries is to import the persons who want them. Increased importation means decreased taxation. Fishermen may not wish to remain such all their lives, he added, and if we could give them something more profitable and improve the place where they live, it would benefit him. A large sum of money had been spent in the past to build roads in the wilderness to no end, but spent in the proposed way it could not fail to be for the advancement of the Colony. The work, while not given as such for the unemployed, will afford employment to many but will be done under tender or contract under the Government Engineer, and men must render good service or be discharged. These were the principles and he hoped that they would elicit public sympathy and enthusiastic support.

Mr. P. T. McGrath stated that he

considered the amount of money appropriated to re-railing inadequate. The cost of the 16 tons of rails would absorb the whole amount as the cost of steel rails in England was about \$40.00 per ton. If for a reasonable figure the rails could be obtained in Sydney, he thought it would be commensurable. Freight, he added, may go to \$10.00 per ton, depending on whether the steamer got a return cargo. If 80 lb rails be used instead of the 50 lb. used at present, the sleepers would have to be put nearer together he said, and if the road bed were to be improved an additional amount of money would have to be expended. In reference to the Gulf steamer Sir Patrick asked whether it were worth while to carry on this means of communication during the winter season? In his opinion it had not proved a success. He suggested doing away with the idea of an ice-breaking steamer and for the four months of the year when ice conditions made the Gulf difficult to cross the steamer could ply between St. John's and Halifax, a route, which, he considered, would be a much more satisfactory one. For this purpose he thought a second-hand steamer could be procured in England for half the amount proposed to be spent on an ice-breaker. He thought that with regard to the bank scheme the criticisms had much to commend them but he considered if the Government did not intend to carry out the scheme it would be debatable whether the amount of money should be voted at all, for if it were, there would probably be an irresistible temptation to spend it. Four years ago provisions had been made in the Act for the construction of a new Long Bridge and Freight Sheds but nothing had been done and the money was spent in some other direction. As far as the Government's tourist policy was concerned there was a diversity of opinion. Everyone realized the great possibilities which the country affords and we can only hope that it brings the good results looked forward to. The Farmers' Government in Ontario embarked on a road building policy and no doubt it has been tremendously successful in bringing people into the country but some people have doubted whether the return is sufficient to warrant the cost.

Hon. Mr. Morine stated it was the intention of the Government to offer a portion of the Loan locally, so that any person who might wish to take it up might do so. It was intended also to float it by tender and contract and take the very strictest care in considering and awarding the contract. The Bill was reported without amendment and by consent was read a third time and passed.
Hon. Mr. Morine in moving the adjournment said he wished to make some comments upon remarks made by Mr. Warren, M.E.A., for Fortune Bay, in the Assembly yesterday, relative to his speech on the second reading of the Alcoholic Liquor Bill. He started by saying that it had been quite unnecessary for me to refer to alleged misconduct on the part of previous governments as a reason for supporting the Alcoholic Liquor Bill. I consider, sir, that the fact that previous governments had not enforced the Prohibition Act was one of the strongest reasons for its repeal; those governments had either tried to enforce the Act and failed, or had been remiss in their duties for a number of years. After a law has been

upon the Statute Book for ten years, without strong enforcement at any time, and at last becomes a mockery, a reason is presented for the repeal of the Bill and the enactment of some other law. It seems to me that the conduct of the Squires Government particularly was a powerful reason for the repeal of the Prohibition Act. In the second place, Mr. Warren defended the conduct of the government of which he was Premier, in 1923, in placing a duty of seventy-five cents per gallon upon liquor brought into this country for trans-shipment. He said that the trans-shipment itself had been lawful, and that the imposition of a duty was simply a method of increasing the revenue without increasing the traffic. That was not half the truth. At first enacted the Prohibition Act did not permit the importation of alcoholic liquors for trans-shipment, but in 1917, under the coalition government of Sir Edward Morris, Sir William Coaker and his colleagues proceeded to the enactment of an amendment providing that goods brought into this country for trans-shipment should not be held to be "importations." That was to enable trans-shipment to such places as St. Pierre, and to facilitate St. Pierre's illicit trade with the United States. Then for a number of years St. Pierre was making profits on a business in any particular case, it should have been considered in connection with the mitigation of their sentences. The majesty of the law ought to have been upheld. But Mr. Warren conveniently forgot to make any reference to another fact in this connection, his removal of Magistrate Miffen from Greenspond to Twillingate, at the demand of his colleagues, the members for Bonaville Bay, the now Sir William Coaker and others. Mr. Miffen had done his duty. He was a valued and valuable Magistrate. He had aroused the apathy of lawbreakers by his courage. He was banished at the demand of the lawbreakers, and Mr. Warren consented to and carried out the shameful removal.

Finally, Mr. Warren referred to the appointment of Mr. Meaney as Controller, just before the general election of 1923, and said that it was no more secret than my appointment to the Government of this Colony and to this House. Now, the offence of secrecy about Mr. Meaney's appointment is this, that after Mr. Warren and his colleagues had made a minute appointing him, they resolved that the minute should be suppressed in order that the people should know nothing about it. There was no secrecy about my appointment to this House or to the Government. Who will be appointed to Governments or to the Legislative Council is not usually announced beforehand.
The Council took recess at 11.30 a.m. until 3 p.m. when it resumed and his Excellency the Governor having arrived commanded the presence of the Members of the Honourable House of Assembly, who attended at the Bar of the House. His Excellency was pleased to assent to the Bills passed and delivered a speech of

charges against them. He ought to have brought them to trial, and, if possible, secured a conviction, and then if there had been any hardness in any particular case, it should have been considered in connection with the mitigation of their sentences. The majesty of the law ought to have been upheld. But Mr. Warren conveniently forgot to make any reference to another fact in this connection, his removal of Magistrate Miffen from Greenspond to Twillingate, at the demand of his colleagues, the members for Bonaville Bay, the now Sir William Coaker and others. Mr. Miffen had done his duty. He was a valued and valuable Magistrate. He had aroused the apathy of lawbreakers by his courage. He was banished at the demand of the lawbreakers, and Mr. Warren consented to and carried out the shameful removal.

The Tang O' the North

NEWFOUNDLAND A TOURIST RESORT.

In the sweltering days of July and August when the mercury is flirting around the nineties, the call of the North is very insistent to those who have to spend three-fourths or more of their lives in the city.

Some there are who dread a sea voyage, but to the majority of New Englanders at least, the ocean trip is a most appealing one.

To prove this one has only to go to any of the docks on Atlantic Avenue from which passenger steamers sail and note the vast crowds of excursionists bound for Nantasket, Revere and other nearby beach resorts.

Many, however, prefer a longer voyage, and through the columns of the "Weekly" we propose to tell them of an ideal ocean trip—one which has peculiar attractions of its own and one which is becoming more and more popular.

We refer to the trip to St. John's, Newfoundland, via Halifax. For many years a weekly passenger line (the Red Cross) has been running from New York to St. John's via Halifax, and the increasing number of passengers shows how popular this delightful trip has become. As a result, the Boston shipping firms are getting wise to the possibilities of establishing a first class passenger service between Boston and St. John's, and this season a real effort has been made to accommodate the holiday travellers.

Already one steamer (the Sable I) has been making regular fortnightly trips which have been greatly enjoyed by those who have participated in them, and there is a possibility of other lines getting busy. So that before long we may hope to see a regular weekly service established with modern ocean-going steamers.

One advantage of this health-giving trip is that the traveller has an opportunity of a break in the journey at Halifax, Nova Scotia, where there is a stop-over of ten or twelve hours, according to the amount of freight to be discharged and loaded.

In a future article we may have something to say about Halifax and its many attractions; to-day we must confine our remarks to the Newfoundland end of the voyage.

Soon after leaving Halifax on the last stage of the journey the traveller experiences the cool, invigorating air with the 'tang of the north' and as the good ship steams on the exhilarating effect on the passengers is very noticeable.

Five hundred miles is not a great distance for a thirteen knot steamer to cover, and when the early mists come on deck on the second morning out, they are confronted with the beautiful cliffs guarding the entrance to the harbor or St. John's. This entrance is known as the "Narrows," a channel about 700 feet wide, with Signal Hill on the northern side and Fort Amherst on the southern.

When the warm rays of the summer sun, tempered by the cool ocean draught, are shining on the waking city, and the calm blue waters of the harbor are reflecting in their mystic depths the overhanging cliffs, the scene from the deck of a steamer as she enters this, the finest harbor in the world, is entrancing and unforgettable.—Newfoundland Weekly.

"The Prodigal Son" Coming to the Nickel

THE NICKEL WILL SCREEN MAS-
TERPIECE ON MONDAY.

Beginning Monday, St. John's will see the biggest film to be released for some time, namely, "The Prodigal Son," directly adapted from Sir Hall Caine's powerful story. This story created a furor in the Old Country, where it was run in 17 reels, and played in two different parts, an admission of \$3 being obtained for each part. For Canada and Newfoundland, however, the film has been re-edited and condensed to a powerful 10-reel version, and presents one of the biggest and most gripping motion pictures ever seen.

The locale of the story is laid in Iceland, England, Paris and Monte Carlo, and concerns the drama of two brothers, one Oscar Stephenson, the spectacular, reckless, daring son, who breaks all the laws of God and Man, and yet withal retains the personality and redeeming quality that stamps him as a man, and wins for him the sympathy of the half-million readers who have read the famous book and the millions of photo-play fans who will see the picture.

The other brother, Magnus Stephenson, is the stolid, atic elder son, a man that is called upon to make sacrifices for the sake of his spectacular brother, and still this man after 40 years in the paths of righteousness and service to God and man, suddenly bursts all bonds of continence and restraint, and steals in the dead of night to the room of the stranger with intent to rob and kill—which supplies one of the greatest climaxes that has ever been presented in motion pictures. It's a tremendous picture. All St. John's will want to see it.

Garden Party at Portugal Cove

With beautiful weather prevailing the garden party, held yesterday at Portugal Cove, in aid of the R.C. Parish funds, was attended by a record number of people from the city. Amongst those present were His Grace Archbishop Roche, and the members for St. John's East, Hon. W. J. Higgins, and Messrs. Fox and Vincombe. The Mount Cashel Band was in attendance and furnished excellent music. At the close of the Garden Party, there were many side shows to attract the visitors, whilst at Round Pond, a series of boat races was run off, which proved very interesting and did much to add to the day's pleasure. The Ladies' Committee served appetizing teas during the afternoon, whilst other stalls were well stocked and generously patronized. The day was concluded by a dance in which a large number of people participated.

Lloyd's Bashfulness Cause of Riotous Fun

"GIRL SHY" INTRODUCES HIM IN SCREAMINGLY FUNNY ROLE.

The dictionary gives the definition of bashfulness as "shrinking modesty." But our definition, after viewing Harold Lloyd's latest Pathe comedy, "Girl Shy," at the Nickel Theatre, is that bashfulness is decidedly a subject for explosive laughter. Bashful persons have always inspired us with pity for them, but when Lloyd is seen as a body scared to death of the female sex, he makes the part no of riotous mirth.

Lloyd is indeed one comedian whose pictures are ever a delight to see, for the reviewer and the audience never know what to expect of him in advance. After a series of clever characterizations and stories in the past, he once more proves his great versatility in "Girl Shy" by giving to the screen one of the most entirely novel types of hero it has ever had. The old adage that "there is nothing new in the movies" has been completely blasted at last. Lloyd definitely proves the untruth of the timeworn statement.

Conspicuous in his support is pretty Jobyna Ralston, who made such a hit with him in his last success, "Why Worry?" Jobyna brings to the screen a distinctive type of beauty, young, dainty, and refreshing. Others in the cast are Richard Daniels and Carlton Griffin, with the direction credited to Fred Newmeyer and Sam Taylor. Miss Marjorie Hutchings, the popular St. John's Contralto, has delighted many music enthusiasts by her beautifully rich voice, which has been heard to excellent advantage this week. To-night Miss Hutchings will again be heard in a high class programme of Opera and popular song.

Motor Car Runs Amuck

A motor car, driven by taximan J. Gibbs, got beyond his control whilst proceeding west along New Gower Street, last night, and before the machine was righted, it collided with a horse and Victoria, driven by Cabman Clouney, doing damage to the shafts of the vehicle, but the driver, who was thrown from his seat to the roadside, escaped uninjured. The motor car ended up by swerving off the road and striking a house at the corner of Pleasant Street, but very little damage was done.

Be Yourself!

You love romance. You love a great love story.

You love the days when might made right.

You love the clang of steel—the trappings of splendor.

You love to see the hero triumphant and the wicked brought to dust.

Greater than anything ever before attempted is the super colossal production of Victor Hugo's Immortal Classic. Presented by Carl Laemmle "The Hunchback of Notre Dame," with Tom Chancy.

His master hand has given to the world—now first triumphantly visualized—an opportunity to enjoy the things you love, and don't miss this picture.

A BEAUTIFUL WRAPPING.

One of the least attractive of all the younger girls in our town has recently annexed a very desirable young man. He takes her everywhere, sends her candy and flowers, and writes her long letters when he has to go off on trips.

In our grandmother's day they would have said he was courting her. I believe "rushing" is the modern equivalent of that beautiful old word, or is there some more recent expression?

Anyway, whatever the word, the fact is that it certainly looks as if the gentleman were very much in love with her.

"What Can He See in Her?" I met one of this girl's neighbors the other day and she told me the latest attention on the part of David. We are all much interested in the affair, as the girl in question has never had a man before and the young man in the case is so very desirable.

"It does look as if he were in love with her," said this interested spectator, "but it just doesn't seem possible to me. Gertrude is so terribly plain you know, now just plain in an ordinary girlish way; she has that queer, homely, middle aged look and that querulous expression. How can he look at her and be in love with her? Every time I meet her I look at her and try to see what he sees."

She will never succeed. Why should she expect to? David sees another person. Doesn't she know that she doesn't see at all the same person that David sees?

No two people looking at a third person see exactly the same face. And when a lover is one of those two people and his beloved the third person, the difference in what the two people see may be as wide as the poles.

If it were possible for David and this woman to project out of their mind onto a screen a photograph of their mental picture of Gertrude, no one would recognize the two pictures as being the same girl.

What a blessed thing this dispensation of providence is! For when you look at some one with the appraising, clear seeing eyes of a neighbor or a friend how few people of either sex there are in whom you can see anything to inspire such an absorbing passion as love!

Most People Aren't That Wonderful. Maybe you could pick out half a dozen people in your acquaintance so vivid in personality or appearance that you can understand anyone's falling in love with them. Many of the rest are excited about, surely nothing to get excited about. Nothing to lose sleep over.

And yet to most people some day comes this miracle. Of all the wonderful thoughts of God, the sunsets and the flowers and the sea and the mountains, it seems

Just Folks.

By EDGAR A. GUEST

SUMMER LONELINESS.

An empty house, a stuffy smell. A lonely man comes in at night. Fumbles about to find a light. And sadly mutters "all is well." And "six weeks more for such a plight!"

A snapping window curtain breaks. The silence with a sudden start: The chill of terror strikes his heart And utter desolation makes: The night and day seem years apart.

The creaking stairway seems to say, As if to add unto the gloom: "There's no one in the children's room!"

It's summer, and they've gone away. The house is empty as a tomb! "Six weeks of shadows on the walls And bedrooms bare as empty stalls: How desolate the house can grow When not one restless baby calls!"

If you believe that peace can stay And comfort come from things you own. That treasures count when love has fled. Just send your wife and babes away And try to live six weeks alone.

to me there is none so wonderful as this scheme of His for keeping His earth replenished. How glad we ought to be that nature's purposes for the race are wrapped up in such an exquisite adventure, as love is!

The World's Greatest Power Dam

(By NEWTON BURKE.)

Some time in the next year there will be completed in northwestern Alabama the greatest hydraulic development of the present day and in some respects the most tremendous undertaking of the kind ever prosecuted by man. It is Wilson Dam, which will contribute between 200,000 and 600,000 horse power in electrical energy to the industrial development of the central part of our Southeast, and will serve as a key in a navigation project that will open up a country rich in mineral, timber, and agricultural resources.

Wilson Dam is part of the Muscle Shoals development, which was begun as a war measure to extract nitrogen from the air for use in the manufacture of explosives. Electrical energy in tremendous amounts was necessary in the process, and Wilson Dam was projected to supply it.

When the war ended, the nitrate plant was virtually completed, and Congress decided also to finish the dam, then scarcely begun, as a source of industrial electricity. Plans likewise were formulated for the construction of two other dams with a view to making navigable the Tennessee River through 85 miles of shoal water and thereby providing a waterway to the Ohio River at Paducah, Ky., to Knoxville, Tenn., a dream of the inhabitants of the country for more than 100 years.

For the present the Government merely will finish Wilson Dam and a power house—hydroelectric with an auxiliary steam plant—with a maximum capacity of 260,000 horse power, of which about 200,000 horsepower would be available continuously. Provision has been made, though, eventually to increase the capacity of the power house to 600,000 horse power, and it is more than likely that the rest of the plans for the Muscle Shoals development will be carried out ultimately.

There are dams in the world that are longer than Wilson Dam, and dams that are higher, but none that is larger in all particulars. It is nearly a mile long and ranges from 95ft. to 124ft. high. It covers 29 acres of ground. When completed, 36,500,000 cubic feet of masonry will have gone into its construction. The lake created by the mile-long barrier across the Tennessee River extends upstream for about 18 miles. The total cost of construction will be somewhere about \$51,000,000.

The dam was begun in 1918 and it is expected that it will be delivering power before the end of 1925. Considering the amount of excavation and masonry that its construction entailed, the dam is exceeded in magnitude among achievements in hydraulic engineering only by the Panama Canal.

The flow of the Tennessee River varies greatly. In consequence the 260,000 horsepower that the power house will be equipped to supply will not be available at all times. At low water, engineers say, the available energy may fall as low as 90,000 h.p. A supplementary stream generating plant, capable of producing more than 100,000 horsepower, however, will make 200,000 horsepower available all the year through. Of this about 50,000 horsepower will be devoted to the production of nitrates. The rest will be for the use of local industries, or it can be employed in furthering the development of superpower through the South.

Muscle Shoals offers four distinct fields of usefulness for times of peace—fertilizer, power, navigation, and explosives. The Muscle Shoals nitrate plants are said to be capable of producing more than 200,000 tons of commercial fertilizer a year. The

Comfort Tired Aching Feet With Cuticura

When your feet are tired, hot and burning bathe them with warm water and Cuticura Soap and follow by a gentle application of Cuticura Ointment. Cuticura Talcum dusted on the feet is cooling and soothing.

existing equipment, however, was installed at a time of emergency and without regard to expense, so government experts say it will undoubtedly be necessary to remodel it extensively if nitrates are to be produced cheaply enough to compete with foreign nitrogen compounds.

As a producer of nitrates for the manufacture of explosives, however, the plant constructed at Muscle Shoals during the war is capable of serving an army of more than 1,000,000 men, and the War Department insists that, even should it be devoted to the manufacture of fertilizer, it must be kept in readiness for munitions manufacture and be instantly available to the Government.

Meanwhile, the construction of Wilson Dam proceeds apace, opening to the states of the South new prospects of industrial and commercial development.

Transplanting a Living Heart

A living, beating heart has at last been transplanted from one living body into another. Into a body already supplied with a heart, Dr. Ph. Stohr of Wurzburg placed a beating heart taken from another body. And he succeeded in keeping both hearts alive, functioning in the same body. Dr. Stohr has also succeeded in isolating the heart system from the organism and developing it outside the body for a considerable length of time. We read of Science Service's Daily Science News Bulletin (Washington):

"The experiments were on embryo salamanders. Although there is a wide gap between salamanders and man, it is the ultimate hope of all such experiments that the same thing may eventually be accomplished in the case of man. However for the present discovery may be from such an eventuality because of the numerous intricate problems that must first be solved. It is of great interest and import."

"Dr. Stohr first attempted to confirm the findings of another scientist named Ekman, who has demonstrated successfully that the undeveloped embryonic heart of salamanders is capable of not only remaining alive outside the organism but also of developing into its several parts. Stohr succeeded in the case of salamanders and tritons in seventy cases and kept hearts alive for as long as three weeks."

"In other cases Stohr transplanted the heart from one embryo to another, thus producing larva or tadpoles with two hearts each. These tadpoles successfully kept alive long enough to show the result of an extra heart on the development of the animal. During these experiments Stohr learned several noteworthy and interesting facts. He found that the power to perform regular contractions is the inherent property of each heart cell and not a function of the nervous system or of the immediate surroundings of the heart."

"He also learned that there was an extraordinary regularity of pulse-beat in the excised hearts. In only five

cases out of the seventy were there irregularities and these exceptions were capable of explanation. He also noted that each heart cell or entire heart has a rhythm all its own and cannot be influenced by the rhythm of another heart in the same body. Neither heart cares what the other heart is doing. A rise of temperature causes the pulse rate of both hearts to increase, but in the same proportion in each case.

"In successfully implanting hearts there are three possible arrangements: 1. The new heart may send the blood-stream in the same direction as the regular heart; 2. The new heart may work in the opposite direction, causing a conflict in the circulation; 3. The heart is only joined on at one end after the manner of an appendix. It is also possible that the new heart may find no connection at all in the common blood-stream and build for itself a new circulatory system."

"Stohr also learned that the heart is extremely jealous of its functions. When a new heart was implanted in a body where there was already one, without being properly oriented, they got along about as well as two roosters in one hen-yard. The two hearts battled for the blood-stream. If both were fortunate enough to obtain enough blood there was no danger to their existence and both developed. In most cases, however, the original heart being first on the spot gained supremacy over the new heart.

FIRST SHOWING OF ADVANCE AUTUMN MODES

Those you have been patiently waiting for--

COATS Jumpers and Blouses

First came anticipation—now comes realization and the latter surpasses the former. Women who wish style information as well as those who are always first to wear a new season's mode, will find this advance display intensely interesting and important.

The Coats

A Superb exhibition of the newest popular styles.

In Velours, Cloths, Tweeds and popular Piles, featuring shades of Grey, Taupe, Fawn and Black. Fur Collars are popular as well as Fur Cuffs; some with girdle, others without, price moderateness an outstanding feature.

George Knowling, Ltd., GROCERY DEPARTMENT.

aug13.ecd1f

they take your breath away— at all stores GERALD S. DOYLE, Distributor.

and the development of the latter ceased. "In some cases the new heart proved stronger and little by little destroyed the weakening heart originally there. When a new heart was first implanted in an embryo salamander it was noted that development was at first distinctly arrested on the side where the implantation was made. But after several weeks symmetry was again established and normal development apparently occurred."

Household Notes. Be sure that your refrigerator is as far away from the stove as possible. An excellent and decidedly novel garnish for broiled steak is baked bananas. Rather large, tough cucumbers are good boiled, drained, mashed and seasoned. The next time you make marsh-mallow sauce, try flavoring it with chocolate. A little chopped mint, nutmeg, vanilla or cloves will vary the flavor of food tea. Keep a bottle of sugar syrup in the refrigerator, ready for making iced drinks. Serve melted cheese on small rounds of toasted bread, with the salad course. Small tender cucumbers are nice sliced lengthwise in quarters, and eaten with salt. Mashed devilled eggs and chopped cooked ham make a savory filling for split finger rolls. When making mayonnaise for fruit salad, add a small amount of rich apple butter. Rings of onion are nice dipped in milk, drained, dipped in flour and fried in deep fat. A sprig of fresh mint and a maraschino cherry give a festive air to a glass of lemonade. Broiled, sliced tomatoes and parsley make a nice garnish for broiled halves of chicken. A cupful of chopped, cooked prunes may be added to the filling for lemon custard pie. Banana pulp is delicious when beaten up with egg white, and used like whipped cream.

ASTHMA Take half a teaspoon of Minard's in syrup. Also splendid for internal pains. MINARD'S KING OF PAIN LINIMENT

Wedding Bells

THOMPSON—BROWN.
The marriage of Miss Gladys D'Elia, youngest daughter of Magistrate and Mrs. J. P. Thompson to Mr. Stephen Brown, of Montreal, Canada, took place in the Methodist Church, Brigden, on the afternoon of Thursday, August 14th at three o'clock.
As the bride party entered the church, the organ pealed forth the strains of the Lohengrin wedding march. The bride, who was charmingly attired leaning on the arm of her father proceeded to the altar where the groom was awaiting her, attended by the groomsmen, Mr. Lewis G. Bartlett and the appropriate "groom" was sung.
The ceremony, which was a most impressive one, was performed by the Rev. Hammond Johnson of St. John's before a large number of people who had assembled to witness the interesting event. After the nuptial knot was tied, a solo "Because" was rendered in a most excellent manner by Mrs. Gordon Christian. The bride was attended by her sister, Miss Florence Thompson, with Miss Lewis G. Bartlett, nieces of the bride.
The bride's gown was of Duchess satin trimmed with rhinestones and single beads and wore a veil with orange blossoms. She carried a very pretty shower bouquet of pink and white carnations and white sweet peas with asparagus fern. The bridesmaid was dressed in a gown of pink and mauve tulle over yellow with a white sash and carried a bouquet of pink and mauve sweet peas and white carnations. The groom wore a dark suit and a white shirt with a white tie.
The organ was presided over by Mrs. Emma G. Bartlett, who rendered the different selections in her usual good style. The church was tastefully decorated for the occasion with white flowers and greenery. Great credit on the taste and skill of the young ladies of the congregation who were so freely of their time and talent. On leaving the church the bride and groom were met at the "Lakerie", the residence of the brides parents where a reception was held.
The bride was the recipient of a large number of handsome presents, including a number of cheques from friends far and near. The bride's travelling costume was of navy blue with navy hat trimmed with orange color poppies. The young couple left for St. John's to join the Rev. Rosalind en route to Montreal where they will in future reside. Their many friends wish them bon voyage over the sea of life.
Dr. F. A. Janes, Dentist, will close his office from August 23rd to September 15th.—aug19,41

St. Michael's Choir
HOLD ENJOYABLE OUTING.
Yesterday, a most enjoyable picnic was held at the Octagon Pond, by the choir boys and acolytes and servers of St. Michael's Church. Arriving at the scene the party sat down to a most sumptuous dinner. The afternoon was spent in games, swimming and rowing. Tea was served at 5 o'clock and all those participating expressed themselves thoroughly satisfied with the social gathering which promises to be an annual event in the future. Before leaving for home cheers were given for Rev. E. J. R. Nicholls, Rector of St. Michael's, and Messrs. W. E. Swift and T. J. Pope, for the use of their motor cars which made the outing a pleasant and enjoyable one.

Goulds Garden Party
The Goulds Garden Party, held yesterday at the farm of Mr. William Gould, was a decided success. The games, played from the Railway Station, enjoyed a large number of citizens to the scene. Tea, refreshments and drinks, etc., were served by the ladies, whilst the side shows were largely patronized. At night a very enjoyable dance was held in the Parish Hall. The arrangements of the Committee were admirably carried out, and they are to be congratulated on having raised a handsome amount for the church funds.
In its dainty design and new blue and white dress the five cent Ivory Soap makes an instant appeal to ladies of good taste.—adv., 11

Meets With Accident
Mr. John Ryan, of Ferris, arrived in the city by train on Tuesday, for medical treatment to his arm. On Monday last, whilst Mr. Ryan was breaking in a young horse, it got behind his control with the result that he received a severe kick in the arm.

This Week's Finest and Rarest VALUES
Stand Out Conspicuously
Speed the parting guest, and welcome the new-comer.
For the next two weeks we will be speeding the summer goods, that is,—hastening their exit with depleted prices, and many are the bargains you will find to be just what you wanted.
Also during this period we will be welcoming new comers.—Fall goods of all kinds. These will be on display just as soon as they arrive. So you can expect to see new things almost hourly.
Thus the Store will prove of most extraordinary interest, be just as we desire it to be, a meeting place for you and your friends day in and day out.

Business Bringing Values at Baird's

Guaranteed Products!

Buy Upholstered Furniture that stays upholstered. Don't experiment with Chesterfields and Chairs that have nothing to recommend them but attractive prices. We make all our own frames from the best selected hardwoods and insure a solid foundation to build upon. The springs are manufactured of the best oil tempered Premier Spring Wire. Nothing but the best quality of stuffing materials are used and all work is carefully inspected before it leaves our factory.
