In storming waves of great strength the Germans have made valiant efforts to wrest from the British positions captured from them in the recent offensive, but everywhere, except at two small points, they met with decisive repulse under the succession of fire which swept against them from guns of all calibre, strewing the ground with their dead and wounded. Numerous prisoners also have been taken by the British, and many are glad they are safe from the inferno of bursting shells which the British, without cessation, are pouring in upon the Germans. Fight Between Famous German Airman, Lieut. Vosse, and One of Most Brilliant **British Aviators** 

#### SPECTACULAR COMBAT

Vosse Died Fighting Determinedly and Magnificently; How He Was Brought

British Headquarters in France, Monday, Oct. 1.—(By the Associated Press)—The body of the famous Ger-man airman, Lieut. Vosse, who was recently reported in a German official communication as missing, has been found within the British lines, and British airmen have already dropped messages beyond the German front, giving notification of his death.

Vosse was killed September 23, while engaged in a spectacular combat with a British airman. He died fighting determinedly and magnificiently. It is a peculiar coincidence that the fam-ous French airman, Captain Guynemer, lost his life about the same time in a battle over enemy ground, and was reported missing until the Germans found and identified his body. The opponent of Vosse is one of the most brilliant British aviators, who for the purpose of this narrative may be referred to as Brown—that not being his real name. Here is the story:

A number of British airplanes were patrolling on the twenty-third flying A number of British airplanes were patrolling on the twenty-third, flying at a height of seven thousand feet, when one of them was attacked by a German red-nosed Albatross and a tripplane. It appeared later that Vosse was the pilot of the triplane. Two other planes rushed up and engaged these two, with a third enemy scout, who appeared on the scene. About eleven other enemy airplanes were wasting at a distance to join in the best of National Govern-triplane for the Albatross and the triplane fought in wonderful form. Canadian Headquarters in Farnce, Oct. Canadian Headquarters in Faince, Oct. 2 (Via London).—The enemy early this (Tuesday) morning attempted to raid our lines in the Avion sector, but was discovered before he got to close quarters and driven off, after sustaining a number of casualties. The infantry activity is generally less than normal, but the sound of guns never ceases. The Germans are attempting more by way of destructive shots on our battery positions than they did earlier in the season, but even in this respect they are still far behind the British and Canadian gunners on this part of the front, especially in effectiveness.

REACTIONARY CHANGE

An innocent looking paragraph in the midst of the dispatches this morning announces the fact that Dr. Adam Shortt has been appointed chairman of the board of historical documents. leaving the important post of civil service commission, and that the vacancy thus created has been filled by Clarence Jameson, member of parliament for Digby.

This may mean little or it may mean much. But the most evident interpretation is that Prof. Adam Shortt, who has spent the last few years in reorganizing the civil service, and trying to replace patronage by efficiency, has been removed from that post, and a party politician has been appointed to replace him. Prof. Shortt has given good service to the country. He has not been ap-

preciated by the politicians, who can see nothing in public office but a reward for party service. He is not a politician, and greatly improved conditions in Ottawa. #### LET THE OTHER FELLOW DO IT

According to a dispatch from the east, Sir Herbert Ames, and the other members of the patriotic fund in Ottawa, will decide today respecting the future of the patriotic fund. It is a question whether they will continue the fund on voluntary basis or, as the dispatch says, have the provinces and municipalities meet the levies out o taxation.

There is little doubt but that the voluntary method of raising money Year ..... \$1.00 has not been entirely successful and that contributors in this province at least are convinced that the fund

should be raised out of taxation. But the rather cool way that it is EDICINE HAT REPRESENTATIVE handed over to the provinces and the municipalities is interesting. The patriotic fund is a national affair and should be organized, raised and administered by the Dominion.

If it is placed upon a provincia basis, then the provinces would not only have to raise the fund but administer it as well, which would not be good business or efficient organization. If it is put upon a provincial basis, doubtless each province would have to take care of its own soldiers. In other words, the province of Alberta would have to raise a larger rev- days in the district this week visiting enue for the patriotic fund because his sister, Mrs. A. R. Morrison. #### Try Making Your Own Cough Remedy You can save about \$2, and have a better remedy than the ready-made kind. Easily done.

syrup which takes only a few min-utes to prepare.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it into a 16-oz, bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 55 cents and gives you 16 ounces of really better cough syrup than you could buy ready-made for \$2.50. Tastes pleasant and never spoils.

cough syrup than you could buy readymade for \$2.50. Tastes pleasant and
never spoils.

This Pinex and sugar syrup preparation gets right at the cause of a
cough and gives almost immediate
rehef. It loosens the phlegm, stops
the nasty throat tickle and heals the
sore, irritated membranes that line
the throat, chest and bronchial tubes,
so gently and easily that it is really
astonishing. A day's use will usually
overcome the ordinary cough and for
bronchitis, croup, whooping cough and
bronchial astima, it is splendid.

Pinex is a most valuable concentrated compound of genuine Norway
pine extract and has been used for
generations to break up severe coughs.

To avoid disappointment ask your
druggist for "2½ cunees of Pinex"
with full directions, and don't accept
anything else. A guarantee of absolute
satisfaction or money promptly refunded, goes with this preparation.

## Queen Anne Period Dining-Room Suite

"Queen Anne" Furniture is a very elastic term, for it is often used to cover the reigns of William and Mary, Queen Anne, George I. and part of the reigns of George II., or, in other words, all the time of Dutch influence.

This suite we are showing is a true representation of the style at its best. Built of solid black walnut, with a touch of the old marquetry, and the cabriole legs which came into favor then, it reveals a dignity and chasteness of design that will find immediate favor.

The table has 50-inch top extending to eight feet. The buffet is 58 inches long with full-length mirror. There are two curboards, and two linen drawers, one full length. The silver ware drawer has removable line tray. The china cabinet stands 63 inches high, after the style of the highboys. The chairs have full slip seats in genuine leather. The suite of 9 pieces

All Men Subject to the First Draft Must Report Without Regard to Occupation

Ottawa, Oct. 2.-It has been pointed out that it is necessary for all men who come under the qualifications for the first call of the Military Bervice act, to report and then claim exemption, if they feel they are justified. It is immaterial what occupation the drafted man may follow, as the tribunals are established for the purpose of deciding on the question of exemption.

The man who deliberately neglects Great American Baritone to comply with the act, will forfeit any right to exemption. He will also lose the chance that he has, even if not exempt, of being one of those whose services may not be required because the whole 100,000 men authorized by the law been provided without his being

Therefore, it is urged, it is strongly in the direct personal interest of every man to comply with the Military Service act, making claim for exemption if the man believes he has grounds for so doing.

#### BE FORMALLY DISSOLVED TODAY

Musical Agency's series of ten, will be that of Cecil Fanning, one of the greatest song interpreters in the world, with his most delightful and finished accompanist, H. B. Turpin. This concert will give the music lovers of our city an idea of the many treats that lie in store for them during the coming season, as the agency give their assurance that only first class artists, many of them of international and world-wide reputation, will be presented in the series.

Cecil Fanning has won the most enthusiastic approval of the concert-goers and critics of two continents, and has accomplished the most unusual feat, by becoming an artist of international repute at the age of thirty-one.

#### What Causes Wrinkles? What's the Remedy?

Stop to consider what produces wrinkles and sagginess of skin. Premature aging, mal-nutrition, etc., cause the flesh to shrink, lose its youthful plumpness and firmness. The skin then is too large for the flesh underneath; doesn't fit tightly and snugly as it used to-it wrinkles

or sags.

It must be plain that to tighten the skin, make it fit and face prefectly in skin, make it fit and face prefectly in every place, will effectually remove the hateful wrinkles and bagginess. This is easily and harmlessly accomplished by dissolving an ounce of powdered saxolite in a half pint of witch hazel and using the solution as a face wash. ## **CALGARY PAINTERS** ARE NOT AT WORK OVER WAGE TROUBLE

Only Difference Is Over Scale: Men Say They Went More Than Half Way

The Calgary painters are on strike. They have been negotiating for some time for what they considered a reasonable increase in wages, together with an improvement in working conditions. They have not received an increase in wages in the last seven

After many negotiations and con ferences the painters conceded their demand for a closed shop, and every thing else, except the question of wages, and they say that they were prepared to go more than half way in that.

When nothing further could be done by conference, they called in the fair wage officer. He admitted that their demands were reasonable and just. He suggested that the government would agree to 55 cents on all government ork under contract and 60 cents on all future jobs.

The fair wage officer then conferred with the master painters. Later on he called in the men and suggested a 55-cent wage until April 1, and 57 1-2 cents for the following three months. The employers made a counter-proposition of 55 cents on a contract for 18 months. The men declined to accept

the counter-proposition. The men are not actually on strike, but most of them did not turn up for work on Monday morning. Twenty of the men, which includes the large majority of the men who are out, and other men have recently joined the

Buried Twice at Somme and Vimy Ridge, Lance-Corp. Attwood Is Returned Home Unfit

Lance-Corporal "Teddy" Attwood, o Calgary soccer fame, returned home from the front yesterday morning, after a long sojourn in the trenches as a member of the 50th Battalior

the 50th Battalion.

Corporal Attwood will be remembered as one of the star players of the old City football team, in the days of real sport, when some of the fastest exponents of the British game played in the Calgary Association Football league. His experience in the trenches was strentous all through, being completely buried at the Somme affair and at Virus sides. He shows Royal) Dist, 6 ft 6 in Running broad jump—1. #### CONSULATE IN RUINS United States Offices in Dunkirk Destroyed by Enemy.

At Atlantic Port, Oct. 2.—A report of the destruction of the United States consulate at Dunkirk, French seaport, by shells from German aircraft were brought here today by the officers of an American merchant ship. While waiting in the harbor of this port, the officers said, it was necessary to take their ship six miles outside every night, because of the enemy aircraft that was constantly bombarding the town and harbor.

When they were ready to depart, the captain of the ship went to the Inited States consulate for his papers, but found the building in ruins, from German bombs dropped from airplanes.

#### LESS FOR GERMANY

Stockholm, Oct. 2 .- More than 200,-00 tons of provisions, fodder, maize oil cake and other supplies were destroyed today by fire in store houses near Stockholm. The loss, which Lexington, Ky., Oct. 2.—The Real Lady, driven by Murphy, won the \$14,000 Ken-tucky Futurity, "the blue ribbon" of the will be felt severely, particularly as it will probably be impossible to replace these materials under the existing import restrictions.

OFFERED AS AN

PARTICULARS

\$50.00 IN CASH will be paid to the candidate in The Albertan automobile contest, regardless of residence or district location, who turns in the largest amount of money for subscriptions (both new and renewal) between the dates of Wednesday, October 3, and Tuesday, October 23-a period of three weeks.

Previous collections will not count-only the subscription money handed in or mailed to the contest department between the dates mentioned above. All candidates start in on an equal basis—the ones who have already turned in subscriptions and those who have not as

yet been active in subscription getting. This is a SPECIAL PRIZE, in addition to the regular prizes, and all votes issued during the three weeks will count

toward the regular prize at the close of the contest, and the candidate winning the \$50 Cash Special Prize will be eligible to win any of the regular prizes at the close of the contest.

\$50.00 in cash extra!

Someone will get the half-century for three weeks' work.

There will not be any waiting. The prize will be awarded as soon after Tuesday, October 23, as all the returns are in from the outside districts-not later than the following Saturday. None of the candidates has any advantage in the startout for this

special prize. In fact, candidates may enter now and work for the special without any handicap whatever. Probably a number in the list have been waiting for a "stimulator"

to give them the necessary "pep." To pick up \$50 for eighteen days' work is a very good salary in itself. There are no strings to this offer. It is open to all Every vote issued during the time candidates are working for the

special prize will count toward the regular prizes at the close of the contest. Votes have no bearing at all in the winning of the \$50 extra prize. A careful record will be kept of all the money turned in during the three weeks, and the candidate with the largest total gets the cash. That's EXTRA VOTES FOR WEEK ENDING NEXT TUESDAY

This morning The Albertan automobile contest starts on another lap of

Candidates will still have an opportunity of getting 100,000 extra vote ballots, this week the amount required being \$15 in subscriptions. Any surplus left over from the last dub offer will be applied on this week's club Since the contest has gained quite an impetus the past week, it will likely be easier to get a club this week than it was last week, even if the

amount of money is increased a trifle. subscribers know where their payments will do the most good. Every-body likes to help one who helps himself or herself. Well, there are about seventy-five candidates in the list who have proven that they can help

Don't slacken up now because you secured a few club ballots. If you have been successful so far, it's all the more reason why efforts should be redoubled

Keep the \$50 extra cash prize and the 100,000 extra vote ballots in mind, and don't allow your receipt book very much rest. Get as many subscriptions as you can, try for a year or longer, for every time you detach a slip for the contest office you are gaining ground toward the extra prize and piling up votes for one of the big prizes.

Remember that the \$15 club offer lasts only one week, but the time you have to work for the cash prize is three weeks

THE NAVY LEAGUE

OF CANADA Preparations are already under way for organizing the Navy League in every city, town and municipality, in the Dominion of Canada. In the province of Alberta the organizer is asking the mayors, reeves, secretaries and other officials to assist in the work. All pastors will be asked to call the attention of their congregations to the work of the navy and the teachers in the schools will also be asked to bring the work of the British mavy before their pupils, and to assist in the formation of leagues throughout Alberta. All newspapers are being asked ENGLISH NURSING HOME--PATIENTS to assist in every way received from \$20 per week. Trained nurses supplied. \$12 2nd Ave. West. Phone M3423.

London, Oct. 2.—The prospectus of the new war bonds was well received and it is thought the issue will be supported lib-erally, as the terms are attractive. Business on the stock exchange was interrupted by air raid gossip, but the tone of the market was good. There was an up-ward tendency in Argentine rails and a fair demand for gildedged securities. Grand Trunk shares were weak on the passing of the dividend. Speculative rubbers were easier. Russians weakened about the uncertain situation.

days to come.

The set "artillery duel," that has formed the preliminary to so many battles which have been fought in the period between the discovery of gunpowder and the outbreak of the present war, has ceased to exist as such. The use of artillery in active operations is now mainly to destroy the trenches and works opposed to it. But, even so, there are still occasions when guns, abandoning for a moment their vertex vertex as a verse, the guns are certainly damaged probably one or two destroyed, and much of their ammunition has exploded. That particular battery will not give any trouble for many t. But, even so, there are still occasions when guns, abandoning for a moment heir systematic tasks, engage the guns pposed to them. In trench warfare such s has existed for the past two years and more, when artillery is not employed in preparing for or in countering an infantry assault, it can be most profitably used in arassing hostile batteries, destroying their guns if possible, and in any case rendering their positions untenable. It is no vain boast to say that at the present time the British artillery has achieved a marked superiority over the Germans and that it inflicts far more damage that t sustains itself. I will try to give some impressions of the way the game is played n a battery of medium howitzers.

REVOLUTION IN TURKESTAN

The first step is to discover the exact position of the enemy's guns, for which purpose very many ingenious schemes are n constant operation. Information from any sources flows steadily into a central many sources hows teachly into a central office, where it is pieced together until enough evidence has been accumulated for the officer in charge to place a pin in a map, with the cetrajnty that it marks the exact position of a hostile battery. It merely remains to indicate

osition to the battery most favorably situated to engage it. This battery is organized for the purpose. It is a matter of daily routine, and one may very likely engage a hostile battery every day for months. Some-where, not necessarily near the guns, it has a dug-out or cellar elaborately equipped with telephones, maps, instruments of all kinds. Somewhere else is a wireless set for receiving messages from opianes, for aeroplane observation is one of the most important aids it employs, and the one that it usually prefers. There are however, other and subtler devices ould the battery prefer to use them. The battery commander, having re-

Both have maps and photographs of the target; they agree upon the exact part of it that is to be ranged upon. The guns are loaded, the pilot goes to his machine and thes to a point above the battery. There is a pause for a few minutes while he does so. Suddenly the wireless operator tele-phones "Aeroplane calling up, sir!" "All right, tell him I'm all ready." A few

econds more, while the aeroplane gets seconds more, while the aeroplane gets into a favorable position to observe. Then the telephone again, "Fire now sir!" The battery commander transmits the order to one of his guns, and the report comes dully to his ears. The shell whistles away into the distance, the pilot sees it burst, and sends down his observation. The battery commander translates this into a slight alteration of range or line, and transmits an order to his suns. A and transmits an order to his guns. A few minutes of this procedure, until the rounds are falling actually into the target, then a further message to the wireless operator, "Tell the aeroplane I'm satisfied, I'm going to fire for effect." The battery itself is a scene of busy activity. The men, working swiftly and silently in their shirt sleeves, feed the heavy shells into their. guns, which swing their blunt muzzles into the air and roar at regular intervals. Men and mechanisms move with the precision of clockwork, there is no appearance of haste, yet nearly a ton of steel and high exposive is being poured into the target every minute. The allotted number of rounds is fired,

the detachments wash out their guns and cover them up. The pilot sails once more over the ruins of the hostile battery, this time to take a photograph from

As Mildred, Clara Kimball Young plays the role of an artist gone to Paris to complete the learning of art. There she meets Dr. Mario Martinez, and Derwent Ainsworth. The latter falls in love with her, but as the time of his marriage to Mildred draws near, he is called to Eng-land, where his father is dying. Martinez confinement. Take Hood's Sarsaparilla takes advantage of the occasion to tell along with you. It refreshes the blood, Mildred that Langford is unfaithful to her, and he attempts to thrust himself upon her. He is nearly successful when Langford returns and meets Martinez. Learning of the latter's attempts to influence Mildred against him, Langford thrashes Martinex, and leaves to join his regiment. Mildred, in the meantime, has joined the Red Cross. After a terrific battle, Langford is brought to the hospital where Mildred is working. He has been blinded. Their many adventures before finally finding happiness with each other make this a very original and appealing story, and give Miss Young an opportunity to do some very extraordinary
