# Montreal Stock Market.

GREAT DEMAND RAISES THE PRICE GENERALLY-HALIFAX 7 HIGHER —CABLES STRONG, AND MONEY EASY.

Business to-day was both plentiful and on higher bases generally. The throwing over of our great traction stock and the ready absorption of it at good values has set money in circulation. It seemed for the last two days that the good consequences of trading in C.P.R. had ceased, but the market to-day strengthens the conviction that holdings are being changed and that a confident vigor is beginning to characterize the market movements. Halifax Railway which has been absent for three weeks advanced 7 points, and Montreal Street sold many and at advances. Considerable quantity of Royal Electric changed hands at 3 of an advance; and it is gratifying to find Duluth not merely holding up to the previous mark, but reaching up to something higher. London quotations for C. P. Ry. were higher. Consols were higher. New York movements were strong and hopeful, and these helped in making to-day's market a good one.

Canadian Pacific & higher at 97%. This was the amount also at the close, while

97½ was offered.
Duluth Common sold ¾ higher at from 5½ to 6. 1,425 shares were sold, and 5¾ was the offer, while 6 was wanted.

Duluth Preferred 2½ higher at 15½, at which price 425 shares changed hands. There was wanted 15½, and offered 15½.

Toronto Railway at the same price 117. An offer of 1171 was made, but the demand was for 1173.

was for 1174.

Republic at ½ advance to 128. More would have been taken at this, but the demand was for 130.

Halifax Heat & Light at advances of 1, 11, 21 to 26, 261, 271. A final offer of 27

was made, but 30 was demanded.

Dominion Cotton at ½ advance to 108. Two sales were made ex-div. The demand was for 108 and there was an offer of 107.

Royal Electric at from 2 to 4 of an advance up to 183, 185. An offer was made of 184, but demand was 187½; 225 shares were sold.

Richelieu & Ontorio advanced 1½ points to 113. For more an offer of 114½ was made, while 116 was wanted.

Montreal-London at ½ lower to 58, at which price and under 6,615 shares were sold. 58 was demanded, 57 offered.

Montreal Street Ry. 2 advance to 324, at which price most of the 435 shares were sold. New St. sold also at this price. For both, the offer was 323 and the demand

Dominion Coal Bonds sold 1 point lower at 111.

Halifax Railway advanced 7 points to 112. Last transaction was Aug. 2. Demand 120, offer 112.

Quebec Bank at the same price 127, which was also offered for more.

#### IRON PROSPECTS TOO DEAR.

There is some reason for thinking that holders of Iron Mining claims, which are mere prospects, are acting against their own best interests and doing injury besides to the country. They are meeting with preposterous demands the offers of capitalists who have been stimulated, by the present great demand for iron and by its consequent high prices, to invest in iron mines Reasonable offers, much in excess of what these holders would have been prepared to take a year ago, are being refused and the country's golden opportunity is being wasted. Since in addition to the expense of developing a mere project into a well equipped mine, the risk of its not turning out a success, and the possibility of lowered prices ere the mine gets into full working order, there is demanded at the outset an extravagant price, capitalists are being repelled from taking any further steps in iron mining. This prohibitive action on the part of many small holders brings into mind a growing districts. American syndicates are said to hold 65,000 acres of fine, mining ground and to be holding them merely for speculation and not for production. Whether the Governement would be right in expropriating private Canadian claims for the public good may be denied, but there can be no doubt that the foreign syndicates, who thus lock up whole districts, should be removed.

The removal of 1,000 American miners involving, as they claim, a loss to them of \$25,000,000 was quite within the limits of the Provincial Government's power, and still more would the removal of useless and injurious American syndicates be so. Complaints might be lodged as by the 1,000 miners with the State Department, U. S that their claims had been confiscated by the Canadian Government. But there could not be much wrong with the Provincial Government's act in this matter as it is virtually the same treatment to Americans as they themselves gave to Canadian miners.

#### MONTREAL MINING EXCHANGE.

# LATE STRENGTH WELL MAINTAINED. -SLOCAN SOVEREIGN AGAIN ADVANCES. — VIRTUE BECOMING MORE IN EVIDENCE SELLS AT 46 DIVIDEND PAYERS CCARCE.— DECCA REGAINS SOME OF ITS LATE DECLINE.

General market is higher and looks like advancing further. Reaction may be looked for, and on such she list can be bought and on bulges profit should be taken. For some time a fairly active business may be looked for. There are some good investments in the list and many properties are selling at prices which look tempting. Big Three is freely offered and considering the quantities of stock which has been put out the price holds very well, which is an indication of its being near bottom. The same remarks apply to California. This stock is one of the best of the low priced shares. Morrison was steady; selling at 18. Virtue shows renewed life and in the Cumberland it has a great property. Had the subscibers of the Cumberland chosen to take the mine for themselves they could have made handsome profits. They preferred throwing it in with the Virtue, that the latter might become one of the solid dividend payers in due time. The stork was strong at 45 to 47 and looks higher. Clean Sovereign was the strongest issue on the list and buyers advanced their views from the opening. It finally sold at 37. There was not much offering. Though 26½ was bid for Decca, no stock came out. The news from this property is good and from present indications the mine will improve with development.

# NEW YORK EXCHANGE.

ST. PAUL INCREASE OF EARNINGS ENORMOUS. - EVEN BEARS AD-MIT PRICES MUST INCREASE.- B. R. T. SAID TO BE WORTH ONLY 80.

New York, Aug. 21th.

New York, Aug. 24th.

First quotations from London this a. m. show general declines of 1 to 1 with N. Y. C., a notable exception at an advance of 1. Consols were also 1 to lower, but as the session grew older, excellent buying developed, and by 1.45 the cable reports stated that the market for Americans was fatrry booming with the Pacific shares, L.N., Atch. and Erio the favorites. No change was made in the Bank of England rate by the governors of that institution at to-day's meeting. St. Paul's third week August earnings show a gain of \$108,406. The publication of these has stimulated to some extent the foreign buying of American selication of these has stimulated to some extent the foreign buying of American securities. Such stocks as St. Paul, however, are rapidly being taken out of the list of the purely speculative stocks and are being steadily absorbed by investors. The complete change of front in yesterday's market is regarded as an indication that the master operators have at least temporarily abandoned their efforts to create a lower level of prices and have come to the conclusion that no profit will accrue except in special and isolated cases in continuing on the bear side. The demoralization in traction shares caused by the break in B. R. T. seems to be about over, and while some anxiety is exchanged as to the showing which xiety is exchanged as to the showing which will be made by the forthcoming statement of the Met. R. R. insiders are said to be buyers of the stock.

#### New York (noon), Aug. 24th.

New York (noon), Aug. 24th.

The failure of Bank of England to advance its discount rate together with an increase in its strength gave a very good tone to the London market this forenoon. Americans were strong at advances ranging from ½ to 1½, and it was stated that a large operator in England was turning his attention to the American market. In response to London's advance our market opened strong, the buying of St. P ul was called good, it was no doubt caused to some extent by the excellent carnings for the third week in August.

In B. R. T. there seemed to be a good under tone and it was thought that Flower was again a moderate buyer through various brokers. A. M. T. early displayed strength and reached the highest figure yet touched, being equal to 262 of the old stock. The buyers still continue to express the greatest confidence that the sock will sell at 150. T. C. I. was one of the weak features, declining sharply by sales on part of traders and on the uncovering of stop orders, around 94 scale supporting orders from the insiders made their appearance after the first half hour considerable liquidation made its appearance in the market and became distinctly irregular. tion made its appearance in the market and became distinctly irregular. St. Paul earnings third week increase of

\$108,456.

#### MINING NOTES

Vancouver, August 20.—From West Kootenay so far this year ore, to the approximate value of \$3,562,000 has been sent to the smelters. Last year West Kootenay praduced ore of the market value of \$6,012,975. The present output is of the approximate value of \$150,000 a week, which, if continued, for the remainder of the year, would make the output for 1899 worth \$6,500,000 This is a fairly good record with all the big producers in the Slocan closed down.

The Hall Mine smelter is at work again

with a large stock of ore on hand. There is enough in the bins and in the ground lately opened up to keep the big furnace running for three months. The company is opening up the surface croppings on the Kootenay-Bonanza, a claim adjoining the Silver King. This is being opened by work in the nature of a quarry, they are able to employ men for ten hours at the old rate of wages.

employ men for ten hours at, the old rate of wages.

Mr. M. S. Davis, superintendent of the Silver King mine, has received news of the death of an uncle, who has bequeathed him a large sum of money. Mr. Davis will resign his position with the Hall Mines' Company, and proceed to England.

The Fire Mountain gold mine, situated near Harrison Lake, has changed hands, the purchasers being a syndicate composed of Vancouverites. The sale price was \$150,000.

A Mr. Woods, of London, England, is reported to have made the final payment on bond on Glengarry group, in the Lardegu The Glugarry was the property of Messrs. Arthur, victoria; G. D. Scott, Vancouver; and J. D. Sibbald, of Revelstoke. It is understood that the amount of the bond was over \$20,000, and this final payment has been made two months before maturity has been made two months before maturity of the bond.

has been made two months before maturity of the bond.

Mr. Geo. H. Maurer, president of the Dominion Consolidated Mines Company, Limited, operating the Flora, Western Hill and Virginia, at Fairview, is in the city, together with Mr. L. W. Shatford, of Fairview, secretary-treasurer of the company, and Mr. G. A. Forbes, of Liontreal, the company's official broker. Development work is going on rapidly, and it is intended shortly to install a six drill compressor plant, which is coming out from Montreal.

G. R. Naden, managing director of the Bealey Investment and Trust Company, and Ceperley, well known financial men in Vancouver, made a flying trip to Camp McKinley, Fairview and Kruger Mountam properties of promise. The bond was drawn up and signed under peculiar circumstances. The properties were visited and the showing being satisfactory. Messrs. Naden and Ceperley made an effort to find the owners. They proceeded and found their men. While the funeral of the late Mr. Kruger. Thither thoy proceeded and found their man. While the funeral service was proceeding in the residence, Mr. Ceperley turned his valise into a temporary writing desk for the use of Mr. Naden, who drew up the bond. The signatures were then and there secured, and the deal was made. The properties bonded are the Anaconda Dividend and the Gold Dust.

#### MINING NEWS.

A meeting of directors of the J. O. 41 was appointed for last week or the beginning of this week for appointing Canadian officials instead of those at present. The property is considered very valuable and requires, it is thought, very little more development to bring out its full value. Also better management is needed, it is thought, hence the meeting.

Iron mines that have been long lying idle are being operated again owing to the present iron boom. The Kloman, for instance, near Republic, will, after 25 years' rest, begin soon.

For want of miners, the copper output in Lake Superior district fell off last month. Quincy's output was 700 tons less than the previous month, and the Osceola mine's showed a similar decrease.

The Mountain Lion mine in Minnesota is said to be the largest shipper of iron ore in the world. It daily ships ore to the amount of 8,000 or 11,000 tons.

After much discouragement, a Toronto firm has struck an even voin of mica 20 feet wide in Frontenac. The mica will cut up to 8 x 10 inches. A cutting shop is to be started this fall in Toronto. It will be of great use to local users of electrical mica and to those who using stoves need supplies of this mineral.

Three new Companies for the development of nickel mines in Sudbury district have commenced work. One of them has a cheap process of treating nickel, and is putting a small plant up for this purpose.

### GOVERNMENT BANK STATEMENT.

The July statement as compared with June shows some decided changes. In the item of current loans, when Ville Marie discounts are allowed for and for which there is no return, the change is but ordinary, being less by \$1,855.000. Bank of Montreal has been paid \$1,700,000; Jacques-Cartier, \$750,000. Other changes up to \$500 000 have taken place on both sides in other on have taken place on both sides in other institutions. The Jacques-Cartier has horrowed about \$240,000 from the Bank of Montreal and \$355,000 from the Quebec Bank. Its best securities no doubt guarantee these loans. But in the face of a shrinkage in discounts, the deposits increase apace, being nearly \$4,250,000 over June, and \$33,350,000 more than for July last year. During the month over \$2,000,000 have been sent to England, whilst more than \$3,000,000 have apparently 'zen in vested in Municipal Bonds, nearly all of which appears in the Bank of Montreal coumn. Are these the bonds purchased by the Chicagoans? If so, is the entry under right heading? Circulation shows an increase of \$15,000,000. The Provincial Government has paid off \$1,250,000, and other assets have increased over \$2,000,000 due to the Canadian Bank of Commerce entering bullion purchased at Dawson under this head. Other changes are unimportant. The fo,lowing are the changes as compared with last July, the statement of Banque Ville-Marie, being omitted this year. Banks seem to be under full sail which is an evidence of their faith in the soundness of general business.

# CHICAGO MARKET.

# WHEAT ADVANCES ON MODERATE DE-MAND. — BUS NESS NOT LARGE, BUT GOOD.

Chicago, Aug. 24th.

Yesterday's advanced prices in wheat and grain generally, which also closed firmly, made it impossible to expect openings very much beyond yesterday's close. However, the firmness, it not the vigorous activity, of the market was this morning emphatically exhibited. Sept. corn was the only variety of grain that fell below the previous close which was also its highest price of the day. Other varieties of corn, all the varieties of oats with May and Dec. wheat sold this morning at the opening 4 higher. Succeeding sales did not much improve on the opening, but neither did they fall away from it. A slow but sure advance is in progress, and takes by surprise any one who has accepted implicitly bearish comments on the market situation. Demands for wheat both for export and home supplies exist, but are no more than moderate in amount. An increase, however, is observable, and this is traced to weather conditions which have injured to a greater or less extent large areas of wheat crop in America.

Liverpool cable states that weather is fine. Wheat 4 higher with moderate demand and steady prices. Corn 4 higher, but inactive and with steady prices.

Receipts to-day: Hogs, 19,000; cattle, 8,500; sheep, 13,000.

Curb wheat, September, 72, 724; December wheat, 744.

Weather reports at Chicago from North-West tell of clear weather and cooler from 44 to 58 above.
