CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI.

TORONTO, ONT., MAY 23, 1900

No. 18.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co. of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions for one year, \$1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

DECKING FOR SALE.

58 FEET 2 x 3 25 TO 35 FEET B. C. PINE Decking edge grain, clear stock. THE BRADLEY COMPANY, Hamilton, Ont.

Waterous List—Rebuilt Machinery

We find it impossible to avoid taking machinery in trade. This we rest, guarantee in good working order and sell very low:

- 7 1/2 x 26 ft. Direct Steam Feed.
- 8 x 12 Cunningham Rope Feed.
- 11 x 20 Cunningham Cable Feed, 48 x 12 drum, 10 grooves, 3/4 cable.
- 3 Block girder steel Carriage, 40 in. opening, steel faced, 14 in. wheels. Boss Dogs run one year.
- 2 Block cast iron Hamilton 40 in. Carriage, Boss Dogs.
- 3 Block Sewry Carriage, 40 in. Boss Dogs, run one season.
- 7 Block Stearns Carriage, King Dog, would make two carriages. All have rolled V and flat track planed. Waterous iron frame, Three Block Carriage, R. H. Sing's Edger.
- Small wood frame and Two Block Carriage.
- Kelley Kicker, Kline Loader, Steam Jump Saw, 60 in. Saw.
- 1 Waterous Shingle Mill.
- 2 Boss Shingle Mill.
- 3 Saw Hamilton Edger, Single Edger, Slabsaw.
- Endless Log Jack, spiked roll.
- 450 feet Conveyor Chain, 3/4 in. round, 2 x 3/4 in. flat.
- Steel Conveyor Chain, 18 in. iron flights.
- 21 x 15, 12 x 12, 12 x 14, 20 x 24, Engines.
- 60 x 16 Boiler, forty-four 4 x 16 tubes.
- 60 x 12 Boiler, seventy-eight 3 x 12 tubes.
- 48 x 14 Boiler, forty-four 12 foot tubes.
- Several smaller boilers.
- 20, 12, 16 horse upright Boilers.
- 45 h.p. submerged tube Marine upright Boiler, good for 100 lbs.
- No. 3 Rotary Fire Pump, two 2 1/2 in. take offs, double geared, good as new.
- Several Hand Fire Engines; one 600 gallon Steam Fire Engine.
- 21 in. Little Giant Water Wheel with sun.
- 48 in. Lefel Water Wheel with sun.
- 20 in. Centrifugal Sand Pump, 300 feet of 2 guage delivery pipe.
- 7 in. four-sided Moulder.
- 37 in. Chopper, 20 in. Chopper, 12 in. Jolietter Crushers.
- Circular Saws, 68, 64, 60, 50 and 45 in.
- 24 in. Champion Planer and Matcher.
- Several Marine Engines and Boilers.

WATEROUS, BRANTFORD CANADA

WANTED.—Hemlock, Spruce, or Red Pine, and 1 car 2 x 4 Cedar. Write, stating price F.O.B., R. J. DOUGALL, Hallville, Ont.

WANTED.—St ck to cut Have fifty horse new portable mill, Waterous make, at liberty after June fifteenth, possibly sooner. THOMAS HOLLIS, Damascus, Ont.

WANTED.—Hard Maple Logs in lots of 30 M ft. board measure, and upwards, to be sawn to order; whole product taken except culls, a large percentage green. Address, R. E. KINSMAN, Hamilton.

WANTED.

LUMBER INSPECTOR DESIRES SITUATION, has had experience on the road. Apply Box 28, CANADA LUMBERMAN

FOR SALE.

THREE CAR LOADS OF 35 IN. LONG, 3/4 IN. THICK, basswood syrup-barrel staves Address, G. W. MITCHELL, Warwick P. O., Ont.

SITUATION WANTED AS SUPERINTENDENT or Foreman in Wood Pulp or Board Mill, by young Swede who has been engaged for 8 years in large mills in Sweden. Address, JOHANNES HETS, Sandthorquai, Hamburg, Germany.

WANTED.

30 TO 50 M CUBIC FEET OF ROUND SPRUCE, 10 in. and up; 75 to 1,000 pcs. Round Hemlock, 12 in. and up, for month June 1, 1900. Cash on delivery. Address, Box 630, Sorel, Que.

TELEPHONE POLES.

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths, from 25 to 55 feet. Also 5,000 Pine P. st. Quotations given by mail or wire. GEORGE & MCGREGOR, Killaloe Station, Ont.

FOR SALE.

25 HORSE-POWER ENGINE, 40 HORSE-POWER Boiler, one 4-Side Moulder one 3-Side Moulder, one 12-inch Janitor, one 24-inch Surface Planer, one 8 horse-power Engine and Boiler. TORONTO MACHINERY SUPPLY CO., TORONTO.

DIMENSION TIMBER WANTED.

A quantity of square White Pine, 12 x 12, twenty-two feet long and upwards; also twenty and twenty-two feet 1/2 in. White Pine, 14 inches diameter at small end. Must be sound. MOORE & MCGILLICUDDY, Goderich, Ont.

VALUABLE WATER POWER FOR SALE

Within ten miles of North Bay; estimated strength 2,000 horse-power; two hundred thousand cords pulpwood within radius of ten miles; railway facilities convenient. For further particulars apply to Dr. J. B. CARRUTHERS, North Bay, Ont.

FOR SALE.

PINE AND HEMLOCK LATH, AND CEDAR Shingles. Write for prices. Also White Maple, Red Birch, Quercus Maple, Brown Ash, Basswood, Rock and Soft Elm, Maple. Have a few cars of 2 in. and in. dry Soft Elm on hand at present time. Write us. KER VAN BROS., Owen Sound, Ont.

SAW MILL SITE

GOOD SAW MILL SITE ON SOUTH END of the Georgian Bay, near Midland, extensive Lumber Docks, Houses, Store Buildings, etc.; water power. THE MUSKOKA MILL AND LUMBER CO., Ltd., Toronto, Ont.

GOVERNMENT TIMBER SALE.

The postponed sale of timber limits to be held by the Quebec government will take place in Quebec on the 30th inst. The limits to be offered cover an extensive area, and no doubt there will be a large attendance of lumbermen and other interested persons.

CURRENT TRADE CONDITIONS.

ONTARIO.

Dealers and manufacturers of lumber are putting forth every effort to prevent prices from depreciating, but with one or two exceptions the conditions seem to favor a weaker market. The movement of lumber is not nearly so active as might reasonably be expected, and if the demand does not improve in the near future, a readjustment of prices will be necessary. Building operations have been quite backward, and the manufacturing demand, while of considerable volume, has not expanded to the extent that was anticipated a few months ago. The enquiries from the United States, instead of increasing as the spring advanced, have fallen off slightly. It seems that consumers of lumber have resolved that prices will go no higher, and consequently they are purchasing only for immediate requirements, believing that when the new cut is in shape for marketing there will be a drop in prices. As an offset to these conditions, there is the prospect of a considerable quantity of logs being hung up in the rivers in the Georgian Bay and Ottawa Valley districts. Should this be the case, the cut of lumber for the season will be curtailed, although not to the extent of the logs hung up, as it is said that several Michigan lumbermen holding logs on this side of Lake Huron have been unable to make arrangements for the sawing of them. These would take the place to some extent, perhaps, of the logs hung up. In the Ottawa Valley the local demand for lumber has been stimulated by the recent fire. Hardwood prices do not show a general decline, but in one or two cases some weakness is reported.

QUEBEC AND NEW BRUNSWICK.

Lumber shipments from the eastern provinces to the United States are light for this season of the year. There is little demand for schooners, and freights show a declining tendency. It is said that recent shipments of lumber to New York have not been entirely satisfactory, and that there is an inclination to wait until the demand there shall improve. Trans-Atlantic trade is more active, and an average number of vessels has been chartered to carry lumber cargoes. From Nova Scotia comes the report of a considerable demand from South America and the West Indies. The log drives are coming along more hopefully, some of them having already reached the mills.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba and the Territories is steadily improving, with prices exceptionally firm. A strong market is also reported from British Columbia. Lumber freights have advanced, but as many of the mills effected charters some months ago, they are now reaping the benefit of their action. Export trade is very active, twenty-one vessels having sailed from British Columbia ports for foreign destinations up to May 1st of this year. Of this number nine were billed for the United Kingdom, six for Australia, and three for South America.

UNITED STATES.

The chief feature of the United States lumber market is the report which comes from Minneapolis, that owing to the absence of rain many of the mills will have to close down on account of a shortage of logs, while there is also a possibility that a considerable quantity of logs will be hung up in the streams. This is an element likely to give strength to the market, but so far as the present situation is concerned, it seems that it has been more than offset by the non-development of the consumptive demand. There is a feeling of uncertainty in the trade, and consumers and wholesalers are limiting purchases to immediate requirements. In white pine there has been a depreciation of from 25 to 50 cents per thousand for piece stuff, and in hemlock the market is slightly weaker than it was one month ago. The east is still endeavoring to bring about lower prices, and in this they have been given some assistance by dealers at eastern wholesale centres, where it is thought that the prices asked at producing points are out of proportion to the retail price of lumber. At Saginaw and Bay City, Canada log run pine is held at from \$16 to \$18, and box lumber at \$14 to \$14.50. Hardwood prices are exhibiting a slight weakness, but no general decline can as yet be reported. In New York city ash is quoted at \$43 for inch, and \$49 for 1 1/4 to 2 inch.

The tendency is towards lower prices for lath. This is evidenced by the action of the Wisconsin Valley Lumbermen's Association on May 15th, when the entire price list of lumber was re-affirmed, but prices on lath were lowered to \$3.50 for No. 1 white pine, \$3 for No. mixed, and \$2 for No. 2.

FOREIGN.

The opinion seems to be gaining ground in Great Britain that the importation of lumber this season will be moderate, not only from Canada, but from the

north of Europe countries as well. This feeling has already restored confidence in the market, as it has been admitted for some time that unless this circumstance was brought about, prices would be likely to weaken in view of the decreased consumption. The shipments of pine from Canada to Great Britain will doubtless be considerably less than last year. Within the past fortnight there has been a slight advance in the price of pine deals, and the demand for seasoned lumber is certain to improve in the near future. The position of the spruce market is set forth in the Timber Trades Journal as follows: "The spruce market is as firm as ever, and good prices are realized for all useful sizes. At the London auctions, 2½ x 7 New Brunswick stuff fetched £9 5s, and 2 x 4, £8 10s, prices that were never reached before, and not even dreamt of a couple of years ago. From what we can see there will be a big demand all through the season. The small stock wintering has been sold long ago, and considering the big demand at the present moment, the first few cargoes that arrive—which we understand will be rather late—will soon be swallowed up. We know, for a fact, that a great many of the outports have not purchased yet, and what with the high freights ruling there is very little possibility of prices falling. All 11-in. is very scarce, and this width at any thickness will, doubtless, fetch unusually high prices when they reach the market."

STOCKS AND PRICES

At Springhill, N. B., as high as \$10 per thousand is being paid for spruce logs, while the average price is \$9 50.

The schooner Fred J. Wood left Vancouver, B. C., last week for Kobe, Japan, with a cargo of 800,000 feet of lumber.

The lumber exported from St. John, N. B., during the month of April was valued at \$385,720, compared with \$285,101 in April, 1899.

On the Lake Huron shore, and at interior railroad shipping points in Michigan, ties are selling at 22 to 25 cents. The quotation on the Saginaw river is 38 and 40 cents.

The cargo shipments of lumber from British Columbia during the first three months of this year totalled 13,110,620 feet, as compared with 6,534,404 feet for same period in 1899.

Clarke Bros., of Bear River, N. S., expect to cut at their two mills this season about 3,000,000 feet of lumber. This firm own a considerable area of spruce and hardwood limits in Nova Scotia.

The steamer Labuan is loading 3,500,000 feet of deals at Parrsboro, N. S., for Manchester, Eng., the cargo being supplied by M. L. Tucker. The steamer Lady Iveah is loading at the same port for the east coast of Ireland.

At Buffalo cedar posts are quoted at 13 cents for 8-foot lengths, 3 to 4 inch tops; 15 cents for 4½ inch tops; 17 cents for 5 inch tops, 10 foot lengths, and 22 cents for 6 inch tops. Ties are on a basis of 52 cents for firsts, while poles are not really quotable, as many sizes are wanted.

Recent rains in Quebec have greatly assisted river driving, and the logs are making favorable progress. The Laurentide Pulp Co., of Grand Mere, took out about 900,000 logs last winter, about one-half of which is pine to be sawn into deals. The St. Maurice Co. have about 300,000 pieces to drive.

Three timber berths were sold at the crown lands office, Fredericton, N. B., last week. A six mile berth on Mersereau stream went to Hilyard Bros. & Co. at the upset price; a four and one-half mile block at the head of Salmon Brook, branch of Cain's River, to Sumner & Co., at the upset price, and a two mile block on the west side of the Magadavic River to John E. Moore, at \$8.25 per mile.

Penobscot lumber shippers are, it is said, standing by their recent agreement with relation to forwarding stock to the New York market, and in consequence a better condition of things is already in sight. Although not all of the eastern

shippers were in the agreement, it was believed from the first day of the campaign, which culminated in the meeting in Bangor, that the dealers would see the wisdom of standing by the understanding that no random shipments were to be made.

THE SITUATION AT MINNEAPOLIS.

A leading manufacturer of white pine at Minneapolis, Minn., who is of the opinion that there will be no weakening in white pine prices this season, expresses himself regarding the situation as follows:

Considering present market conditions we do not see that there is any reason to believe that there will be any reduction in the present values for white pine lumber. The log situation in the whole territory manufacturing white pine at the present time is very serious. Practically all the drives are hung up and on some streams no attempt has been made to start driving. On a few streams where water was held under storage the drives have been started, but are now either abandoned or are moving so slowly that the results promise anything but an early or regular supply of logs for the mills.

This condition of affairs is not confined to any one locality, but is prevalent over almost the entire territory of Wisconsin and Minnesota. In many districts the mills are already shut down and in others they anticipate an early shut down. Locally at Minneapolis the boom company figures that it will have logs enough to last from the 20th to the 25th of this month, but in all probability all logs will be turned through by the latter date. This would mean that every mill in Minneapolis would be closed down not later than June 1. The next drive coming from Brainerd under present conditions would not reach here to be available before the middle or latter part of June. This would mean that if weather conditions do not change, and change radically, we would lose two to four weeks or longer right in the middle of the sawing season.

The terrible fire at Ottawa, Canada, means that certain districts of the eastern states will have to look west for their supply, as a large portion of this lumber was to go into the New England territory. It means that all told from 400,000,000 to 500,000,000 feet of lumber will be taken out of stock sheets when made up the end of the sawing season.

Present prices of stumpage and logs are on such a basis that a decline in present market prices for lumber would mean a serious loss to parties supplying their mills by logs bought in the open market, and the basis of values on logs means that lumber cannot be sold at less than present prices without an actual loss to the party manufacturing the logs.

General conditions of trade throughout the entire country are good, perhaps not as good as a year ago, owing to the extended labor troubles, but the volume of business taken as a whole is enormous. Although the year 1899 was a banner year in the shipment of lumber, we believe that the shipments for the year 1900 from January 1 to May 1 inclusive, will nearly, if not quite, equal those of the corresponding period last year. The general condition of the farmers throughout the entire west is prosperous, and they have to-day an enormous purchasing power. Prices on all classes of agricultural products, with the exception of wheat and oats, are high. Taking all these conditions as outlined above into consideration, we feel warranted in predicting that the year 1900 will as a whole maintain the present average price of white pine lumber.

FIRMNESS AT BOSTON.

Few changes of importance have developed in the Boston market during the past month, and the relation of supply to demand is practically the same, offerings of dry lumber being light, and the views of holders as to the value of spot lumber decidedly firm. The controlling factor in the situation, says the Lumbermen's Review, seems to be the demand for factory lumber to be used in the construction, enlargement or repair of factory and mill buildings. Where the retail yard, by reason of its surroundings, is obliged to rely upon the builders for its outlet, complaint of slow and unsatisfactory trade is quite general. Quite frequently one sees or hears the report that the season is very backward, but the mere fact that the average temperature in April was decidedly low does not constitute a valid reason why the builder with a contract in his hand should not proceed with the work, for the frost has been out of the ground from four to six weeks, and where orders have been placed for new construction as a rule the buildings are now well advanced. Investors and

speculators are still laboring under severe apathetic pressure, and are planning very little in the way of new construction, though they have seen the first rift in the dense cloud of unduly inflated prices for building material in that cut of \$20 per ton in nails and the general tendency to shave off something from all classes of iron products.

Factors to be reckoned with in summing up present and prospective conditions in the lumber market are strikes and politics. For some months past there have been rumors of impending strikes in the building trades, and May 1 was the date set for an uprising; but, happily, a settlement was effected in a majority of cases before that date. An eight-hour day, with a uniform wage scale, formed the basis of the demands of the unions.

The hardwoods are moving less freely, and a little more pressure is noted on the part of shippers to move their stock. This is particularly true of the varieties which originate in Canada, New York, Pennsylvania and Michigan, while oak, both plain and quartered, thin ash and poplar are in good demand and firm, where prompt delivery of dry stock is called for. Mahogany is still a free seller at top figures. Local manufacturers find the American market sufficiently broad and active to absorb all offerings of dry lumber, and as a result very little is being sent abroad.

The following prices govern both rail and water shipments:—10 and 12 inch dimensions, \$19.00; 9 inches and under, dimension (frames, etc.) \$17.00; yard orders cut on even feet to be same price as dimension. Above prices are based on lengths not over 28 feet, and for all lumber cut to specified lengths longer than 28 feet add \$1 per M for every two (2) feet or fraction thereof. 10 and 12 inch random lengths, 10 feet and up, \$18.50; 2x3, 2x4, 2x5, 2x6, 2x7, and 3x4, random lengths, 10 feet and up, \$15.00; all other random lengths, 9 inches and under 10 feet and up, \$16.50; 1½ inch laths, \$3.15; 1½ inch laths, \$3.00; 5 inch and up merchantable boards, 8 feet and up, p. l. s., \$17.00; out spruce boards p. l. s., \$14.00; bundled furring random lengths p. l. s., \$14.50; bundled furring clipped to same length in each bundle p. l. s., \$15.00.

NEW YORK PRICES.

Following is the schedule of prices for New York delivery as adopted by the Eastern Lumber Manufacturers' Association at Bangor, Maine, on April 24th:

10 and 12 inch dimension, per M, \$20; 3 x 9 inch dimension, \$19; 8 inches and under, dimension, \$18; 10 and 12 inch, random length, 10 feet and up, \$19; special bills, 24 and 25 feet, 10 and 12 inch, \$21; random, 3 x 9, \$18; special bills, 24 and 25 feet, 3 x 9, \$20; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4 inches, 10 feet up, random, \$16; 2 x 9, 10 feet and up, random, \$17.50; all other random lengths, 10 feet and up long, 8 inches and under wide, \$16.50; planing one side, per M, 50 cents; planing two sides, per M, \$1; planing three or four sides, per M, \$1.50; planing one side and grooved, per M, \$1; planing one or two sides and matched, per M, \$1; butting to exact lengths, per M, extra, 50 cents; splines, extra, per M, not less than \$1. Shipments to all Sound ports, fifty cents per thousand less than New York prices; terms on Sound shipments as customary heretofore.
