(Hamilton "Herald," April 3, 1915.) It will repay every reader of The Herald to carefully peruse the an-nouncement of Prof. Mulveney, Toronto, which appears on another page. To state that Prof. Mulveney and his really wonderful Tapeworm Remedy has permanently relieved thousands of sufferers from, this terrible malady is but stating a stern fact. Letters and testimonials from all parts of the civilized world bear testimony to what he has done and the cures he has effected; not only in Canada, but from Great Britain, India, the United States of America, etc., patients have been successfully treated, and Prof. Mulveney is' in possession of grateful letters from many of these patients, who thank him in most heartfelt terms for the relief that he has been able to afford them. His famous remedy for the removal of tapeworms is positive and without doubt. Read the numerous testimonials in his announcement. If in Toronto call at his office, 167 Dundas street, and see for yourself the wonders he has accom-plished. If you cannot conveniently

any bad after-effects. The joy and satisfaction expressed by those relieved of them must certainly bring joy and pleasure to the proprietor of such a valuable remedy and convince all that it is a blessing to humanity from the Most High. The symptoms of tapeworm are many and differ, as some constitutions seem to stand the ravage of this vile parasite without causing much alarm, while others are nervous, melancholy and miserable and waste away to a shadow, a ravenous appetite, pain or distress and sometimes a longing for food. At other times a loathing of food, dizzy spells, gas or wind, nervous feelings headaches, also a feeling as if something was moving in the bowels Sometimes there is a feeling as though something was crawling up the throat The only certainty of knowing one is there is when segments or joints come away at almost any time. They are flat and measure from 1-2 to 3-4 of an inch long and have often been mistaken for pin worms by those who do not know the difference. There are many other feelings of distress which would take too long to enumerate Strange to say some people of strong constitutions have very little distress. Tapeworms are bred from a parasite and measure from 9 to 30 or 40 feet From Ireland long, and sometimes whole colonies of them are expelled. The professor has 12 from a man who was wasted away to a shadow, 7 from a lady who

was operated on for internal troubles. 6 from a lady who was treated for nervous prostration and many from Mr. John Campbell, of 23 Napier cthers who were treated for different street, called on Prof. Mulveney and purchcased a remedy to destroy Tape-worm. When B'Well Will **Pull You Through?** 

B'Well makes people feel well. It is the Greatest Blood Purifier. Tonic. Physic and Appetizer in existence. It tones up the stomach, regulates the Liver and Kidneys, carries all Poison out of the System, removes Pimples, Boils, Blackheads, heals Ulcers and Sores of long standing. It is the sufferer's friend, cures Constipation, Piles, General Debility, Nervous Weakness, revives the Faint, makes the Weak Strong and the Old Feel Young again. Words would fail to express the value of this wonderful remedy. It has cured people of diseases and complaints that have baffled the skill of some of the most learned physicians. St. Vitus' Dance, Paralysis, Locomotor Ataxia, Convulsions, Fits, Loss of Memory. In fact it has restored people to health who have had Nervous Breakdown and saved them from the lunatic asylum, people who were thought to pe in a hopeless melancholy condition. If you are Weak, Sick, Run Down and Miserable try B'Well. It has cured others: it will surely help you. It takes away the appetite for liquor, and is an excellent remedy for Nervous Headache caused from drink-it settles the stomach at once. It cures Gout, Inflammatory Rheumatism, Sciatica or Muscular Rheumatism, Lumbago, Neuralgia, Bronchitis, Colds.

About ten years ago a gentleman came into my office on crutches. The doctors pronounced his trouble to be Consumption, which is known better now as Tuberculosis. \_ He had coughed until he wasted away to a living skeleton, as he was only skin and bones. He had spent \$700 traveling in the West to get dry air, \$300 with specialists in New York City without relief; he was sent to get my remedies, called B'Well and Rheumaticide, by a gentleman whose leg was saved from amputation by using Rheumaticide. He purchased them, and using Rheumaticide on the chest externally and taking B'Well, he was entirely cured in about two weeks, and I think everyone in his neighborhood bought medicine from me. I am told the gentleman is still alive and weighs over 200 pounds. This is only one of many that B'Well and Rheumaticide have cured who were pronounced to have Consumption.

B'Well is composed of Roots and Herbs, Nature's Remedy for disease. Cannot possibly do you any harm. It cures Catarrh of the Nasal Passage. Catarrh of the Stomach, Bowels and Bladder. It is a life saver; it is a blessing from the Most High to man in his weak condition, as it brings relief to the sufferer, and health and pleasure are sure to follow. You say it is a cure-all. I say no. If you are suffering from a Tapeworm it will not cure you, as it is not a Tapeworm exterminator, but it will expel Stomach or Pin Worms. If you know you have Tapeworm my remedy is sure. In that case you would require my World Famous Tapeworm Remedy that has saved thousands of people from a life of misery and an early grave. There is only one way you can learn the value of B'Wellthat is to try it.

The names and testimonials of people who have used it are sufficient evidence to convince the most sceptical. It would take up too much valuable space to publish them, but all who are interested can see the letters from those who have used B'Well and have benefited; yes, restored to health and happiness, who do not hesitate to speak words of praise for what it has done for them, and no one can read them without being convinced it is a Valuable Remedy and a great blessing to humanity. My Monster Tapeworm From Lady in Walsall, World Famous Tapeworm Remedy is saving thousands of valuable lives. and B'Well is doing just as much for those suffering from diseaes, restlessness and misery, as disease is sure to vanish as a piece of ice will in the heat of the sun in Midsummer. Do not put off any longer, but would fail to express my gratitude. It can send anyone to me and I will tell from lady at Grenfell, Sask. All highly delighted to be freed from them. send for B'Well; it makes people feel well. Price \$1.25 per bottle. Six bottles, \$6.00 by express. You pay charges.

that the Canadian officers realized at once the right and necessary thing, and aid it, and that the men, without exception. played the part of heroes, fighting to the death, and gaining their objective, holding the great German army till reinforcements arrived, and actually retrieving guns that had been lost earlier in the struggle, there should be no difficulty for the lay mind to second plaudits so freely granted by professional military authorities.

There was considerable dispute at the time the first contingent left regarding the racial or national constitution of the troops. It was quite freely admitted that a large portion of the men were of old country birth, the percentage being reckoned variously from sixty to as high as ninety. The casualty lists show this by the addresses of the next of kin. But they represent Canada, and represented hefaithfully and well. And the officers were Canadians. Men like Brig.-Gen, Mercer, Brig.-Gen. Currie and Lieut .-Col, Lipsett are of the aucient breed, happily still spared, while the memory of those who fell, like Lieut.-Col. Birchall, Major Norsworthy, Capt. Mc. Cuaig and others, will shine beside the names of Wolfe and Brock and Tecumseh.

The price of glory is a heavy one, and we may be thankful that our soldiers have not been asked to pay the price of glory as the soldiers of the kaiser have. We have asked them to pay the price of freedom, the glorious. heritage of British citizenship. They have paid the price, and they have taught us the value of that treasure of liberty for which unsparingly they laid down their lives. That is their glory.

### Democracies and Foreign Policy

Now that they are actively participating in the defence of the empire, the oversea dominions, more particularly Canada and Australia, are claiming the right to be consulted on the terms of peace and in the shaping of the imperial foreign policy. The first of these has been promptly conceded and responsible members of the Britigh Government have given a sympathetic response to the second. Connected with the desire of the leading dominion governments to share in the conduct of foreign policy is the demand coming extensively from the British Liberal party for the abolition of secret diplomacy and for greater control of its conduct by the house of commons. Both are indications of what is undoubtedly a growing volume of public opinion in favor of the democratization of what has been the last stronghold in the United Kingdom of the hereditary governing class.

Sime who have given consideration to the question of admitting the dominions into the arcana of foreign affairs appear to imagine that this can only be don't thru a formal change in the constitution of the empire. They

problem. The Bible declares that whoever fails in one point is guility of all the Law. (James 2:10.) Surely whoever commits "mortal error" has failed in attaining the desideratum of Christian Sciencies. If "mortal error" thus takes hold at the dying moment, what hope would there is for such a person as respects everlasting life, if only overcomers will be granted that life and if none overcome, but all suc-cumb to "mortal error"? The corol-lary of the argument would be hope-less death for all mankind. In this conclusion the Bible agrees: "The error," brings death."; sin, "mortal

What the Scriptures Say.

The Bible logically and beautifully race and His provision in Christ for our recovery out of this death condi-tion by a resurrection from the dead. The Bible logically shows that the Di-vine sentence of death (not torment)

13. See also Verse 3. Christian Science is in conflict with the Bible along another very important line. According to Christian Science, "God is a divine Principle, supreme in-corporeal Being, Mind, Spirit, Soul, Life, Truth, Love. These are synonymous terms, They refer to one absolute God, and nothing else. The attributes of God are justice, mercy, wisdom, goodness, and so on. Principle is divine, one Life, one Truth, one Love, and this is God omnipotent omniscient, and omnipresent. . . . Soul, or Spirit, signifies Delty, and nothing else. There is no finite soul, or spirit." vine sentence of death (not torment) must be met either by humanity or by a Redeemer, and informs us that if Christ left His Heavenly glory for the purpose of redeeming Adam and his race from sin and death. So the Apos-tle writes by inspiration: "As by a man (Adam) came death, by a man (Jesus) also comes the resurrection of the dead. For as all in Adam die, even so all in Christ shall be made alive." (i Corinthians 15:21, 22.) What is this but a declaration that the sin leading to "mortal error" is atoned for by Di-vine favor, to the intent that all sin-ners may be rescued from "mortal er-ror"—death? The Bible is so much more reason-

and normit." But the God of the Bible is a Person, a Spirit." But the God of the Bible is a Person, a Spirit. Jesus said, "God is a Spirit; and they that worship Him must worship Him in, spirit and in truth. (John 4:24.) God is a Soul: "If any man draw back, My Soul shall have no pleasure in him." (Hebrews 1:3; 10:38.) He is "the God of all grace, the Father of mercies." "from whom cometh every good and per-fect gift." (2 Corinthians 1:3; James 1:17.) All these expressions tell us of personality, as do those Scriptures which declare His Justice, Wisdom, Power and Love. These qualities are not properly attributed to a good principle; for principles of right and wrong have no personality. ners may be rescued from "mortal er-ror"-death? The Bible is so much more reason-able and beautiful that, we believe, Christian Scientists, seeing its teach-ings with clear vision, will glady ex-change an inferior for a superior. Why should they bind themselves too close-ly to "Mother Eddy," who according to her own theory, falled in the high-est degree, in committing "mortal er-ror"-and hopelessly? Would they not rather take the older and still better teaching of God's Word, and realize that Jesus' resurrection from the dead was the Divine recognition of His perfect sacrifice and a guarantee that His death had accomplished the designed purpose of providing a way for the removal of "mortal error"-death-from humanity? Those who accept Jesus' death and provided by God, and who believe the Bible teaching that the actual resur-rection is to occur after the Secun Advent of Jesus, may by faith speak of themselves as already risen with Him. But those who deny that there is any death muts of necessity deny that Jesus died, and hence would be, whether intentionally or otherwise, denying the Ranson-Price — the Re-demying the Ranson-Price — the Re-

death-from humanity? Those who accept Jesus' death and resurrection as the satisfaction for sin provided by God, and who believe the Bible teaching that the actual resur-rection is to occur after the Second Advent of Jesus, may by faith speak of themselves as already risen with Him. But those who deny that there is any death must of necessity deny that Jesus died, and hence would be, whether intentionally or otherwise, denying the Ranson-Price — the Re-demying the Ranson-Price — the sins of the whole world.

It further declares that God is a Prin-ciple, yet discusses Him as a personality, quoting, "God is of purer eyes than to behold iniquity." On the strength of this misapplied text Christian Scientists build the theory that God is ignorant of every-thing impure or injurious; that to Him and to them such things are not realities. Nevertheless, the context contradicts all their theories by declaring, "Wherefore lookest thou upon them that deal treach-erously, and holdest thy tongue when the wicked devoureth the man that is more righteous than he?"-Habakkuk 1: 13. lack of glandular action in any part of your body? We claim it is because the nerve power is partly cut off by bone pressure in spine—Nature's forces from the brain are obstructed. The competent Chiropractor who knows the body removes this obstruction scientifi-cally and with no danger. We publish these facts thru sense of duty to thousands of sufferers, who can regain heaith, just as the man did at the eleventh hour, who pays for this space. Chirópractic is logic and backed up by practical results, and does not use any form of superstition, electricity— stimulation by massage—absolutely no drug dictation to Nature. We know disease exists, know its true cause and can correct it. We know germs exist, but they do Nature's work, are for a good purpose in the tissues. This science is growing in popular favor, and the graduate Chiropractor publishes the truth to enlighten the people who need health, and not deadly poison to deaden their pain. In summary Chiropractic removes the cause of all disetses, acute or chronic, by adjustment of spine, allowing full flow of the body's its solicitor herein. Clara Morris Says\_ THAT EVEN INVALIDS CAN ENJOY LIFE THROUGH GOOD, CLEAR WINDOWS

E was an aged jurist, now a room-bound invalid, and in answering a remark he waved a disdain ful hand toward the big windows.

"What can a man know of life when he sees it only rough windows? Bah! Nothing!" Poor gentleman! That was just an ebullition of bitter impatience, for he must know well that nature, when under microscopic study, is most likely to reveal

When early every afternoon the young wife opposite-too gay of dress, bright of cheek, too red of lips-leaves her home without one backward ance at the two untidy, uncombed babies pressing tearful little faces ainst their window, he knows she will surely return accompanied to the eps by a loudly dressed man, about 20 minutes ahead of her tired-looking sband's arrival.

When he notes that before the house next door to them the doctor's rses stand longer and longer, then appear twice a day, then a light begins burn all night long above, and he catches sight of a white, tired-faced man resting her brow against the window pane, after raising the shade n the early morning, he cannot escape the conviction that shadows are apching, that to one home is coming loss and sorrow, to the other loss nd shame

Life never changes in its setting and detail, only we find infinite variety. The Book rather sternly asks: "Who has despised the day of small

Physical examinations end blood pressure, his heart and his tiss uses, other than his brain and ears, were guiltless. Then I examined his nose, throat and ears and found no evidence of trouble visible. He was then given the name of a world famous ear specialist and professor of otology in a great university, and requested to consult him. This professor of the ear, throat and nose, insisted that the difficulty of the rafiroad man was "imaginary." because he had failed to find any ascertainable signs of the fulness. I sent the patient to 28 different specialists, each of whomins a leader fin his particular domain. Each one of these gave him different-that is, 28 separate and distinct-explanations of the cause of the disorder.
