Market Closes Firm and Buoyant and Improved Conditions Reflect Encouragement Here and in Montreal.

WHEN the market closed strong and buoyant on Wall Street yesterday afternoon, the brokers gathered around the trading posts and cheered long and loudly, so great was their relief over the sharp recovery from the demoralization of Thursday. The curb brokers held a demonstration of their own outside, queer antics accompanying transactions when it became evident that the market was steady under some benign influence...

BROWN ROUSES TOWN'S IRE BY ATTEMPT TO SELL OUT

Liberal Leader's Offer to Take One Million for His Holdings Said to Be Spite for Defeat. Portage la Prairie, March 15.—(Special.)—There is great indignation here over the advertisement of Edward Brown, Liberal leader, that he intends to sell out his entire Portage holdings. The general impression is that it is a clear case of spite for the town having "turned him down" so hard at the election. It means political extinction for the Liberal leader. The advertisement, which appeared a few days after the election in Portage and Winnipeg papers, reads: "One million dollars wanted in cold cash. All of Mr. Brown's Portage properties are offered for sale, including his Saskatchewan-avenue block. His new home, into which he only moved last October, also is put on the market. A large quantity of farm lands in Manitoba and Saskatchewan also are offered for sale. In addition, the string of horses owned by Mr. Brown and his brother are placed on the market. Mr. Brown is mayor of the town, and has been interested in every Portage industry. The announcements of his withdrawal has created a great sensation, and real estate prices have dropped 20 to 30 per cent, for the time being, as a result."

MASSON HELD FOR TRIAL ON CHARGE OF MANSLAUGHTER

Crown Attorney Vainly Tries to Have Hockey Player Charged With Murder of McCourt. Cornwall, March 15.—(Special.)—Manslaughter is the charge Charlie Masson of the Ottawa Victorias will have to face in connection with the death of "Bud" McCourt in a Federal League hockey match here last week. The preliminary enquiry was held to-day before Police Magistrate Dennis. After hearing the evidence of nine witnesses, the crown, represented by County Attorney Dingwall, rested its case. The defence did not call any witnesses, but J. A. Chisholm and R. A. Fringlie, M. P., who appeared for Masson, held that the charge of murder was an improper one and should never have been laid. "Mr. Dingwall held out for a similar charge in the Loney case," Mr. Chisholm argued, "but the crown prosecutor changed it to manslaughter. We did not desire to shrink a commitment to a charge of manslaughter." Pleads for Murder Charge. Mr. Dingwall pleaded strongly for a murder charge. The magistrate felt that proper justice might have been done if the charge had been laid for manslaughter in the first place. Taking into consideration the match that was played and the events leading up to the fatal blow, he would be pleased if the county attorney would assent to a change. On Mr. Dingwall's refusing to do so, Mr. Dennis expressed the opinion that no jury or court would hold Masson for murder, and therefore reduced the charge and committed Masson for trial. The witnesses heard were: George Atrey, Jack Hunter, Dr. Algure, Dr. R. M. Nicol, Dr. W. D. Knight, David Small, Les McCourt, Z. Runtions and Reddy McMillan. All Testify as an Inquest. With the exception of the last two, all gave evidence at the inquest Wednesday, and their stories to-day practically were the same as then. Z. Runtions, a new witness, admitted striking Masson after the latter had felled McCourt. McMillan also saw McCourt knocked out by Masson, who then skated up to him. Witness was dazed by a blow and afterward saw Masson lying on the ice. Mr. Dingwall brought out from McMillan and Hunter that the players were being paid by the match for their services. Dr. Algure testified that from external appearances, Troop's wound would seem more severe than that of McCourt, but the latter was better next week by Masson's solicitors. TO-DAY'S PIANO BARGAIN. TORONTO COUPLE TRAPPED THRU MICHIGAN, STRANDED

Manager of Show Decamps With All the Cash, and Fred Brown and His Wife Start for Home. Detroit, March 15.—(Special.)—Stranded at Lowell, Mich., Mr. and Mrs. Fred Brown, of Toronto, arrived in Vassar, Mich., on Thursday night on a 200-mile walk to Detroit. Thru rain and slush, they walked 20 miles Thursday, the soles of Mrs. Brown's shoes and rubbers being worn away. Brown said they had been traveling with a moving picture show, starting out from South Bend, Indiana. Mrs. Brown's sister was with them, also their three-year-old son. At Lowell the manager of the show disappeared and took the cash with him, leaving Brown, his wife and sister destitute. Brown pawned his jewelry and secured enough money for his sister to take the baby and return to Toronto, while he and his wife started to walk back home. Brown is anxious to get to Detroit, where he has a brother living, and he figures he can get enough money to go by rail to Toronto. He was furnished with transportation from Vassar to Lapeer.

RAMORS GO UNHEADED

There were the usual rumors in circulation, but not much attention was paid to them. One of them was that the government had sent control of Union Pacific. There was an instant denial and the report had no influence on the trading. Union Pacific continued to advance. The stock exchange galleries were filled with spectators in the hope of witnessing an active and exciting trading market. They were not disappointed and there were hundreds of persons waiting outside to gain admittance. Among the visitors to the exchange during the day were many women. Won't Visit Roosevelt. Messrs. HAMILTON HAPPENINGS

AGED MAN RUN DOWN BY A STREET CAR IN HAMILTON

Daniel McIsaac is Not Expected to Survive Loss of Arm and Leg at King and John Streets.

Hamilton, March 15. (Special.)-Daniel McIsaac, 12 East Jackson-street, was run down by a street car this evening. One arm and one leg were so badly mangled that he had to be amputated.

The mishap occurred about 8 o'clock at King and John-streets. Mr. McIsaac was crossing King-street from the south side and the car was going east.

The harbor and beach committee agreed to ask for a number of amendments to the beach bill. Amongst other things they want the part of the beach in Nelson Township placed under the commission.

The civic fuel committee decided to recommend that the council purchase its coal direct from the mines. City Clerk Kent, who is secretary of the committee, is so thoroughly disgusted with the opposition that he asked to be re-elected.

BRITISH ARMY SCHEME

Plan to Double Available Force Not Liked in Provincial England
London, March 15.—The new volunteer scheme for Britain proposed by Mr. Haldane, war minister, has not been received with enthusiasm in provincial England.

Under this new scheme, Mr. Haldane proposes to raise the force capable of instant mobilization to 160,000 men. This would more than double the number of trained soldiers available in the first week of war, and would mean a great advantage upon the spot.

Volunteers and militia will be organized into four divisions, each of 40,000 men, and each division will be organized into four brigades, each of 10,000 men.

Mr. Haldane's scheme at present is not too far from the mark, and it is probable that the committee will report in favor of the maximum rate of 24 cents.

TWELFTH ANNUAL REPORT

TO THE SHAREHOLDERS

The Canadian Railway Accident Insurance Company

Ottawa, Canada
AUTHORIZED CAPITAL \$500,000
SUBSCRIBED CAPITAL \$206,500

Four Directors beg to submit to you the Twelfth Annual Report covering the operations of the Company for the year ending December 31st, 1906. The gross business written in 1906 is as follows:

INSURANCE	PREMIUMS
\$24,520,876 00	\$38,330 70

The satisfactory outcome of the year's business has enabled your Directors to increase your Permanent Reserve Fund from \$65,000.00 to \$72,000.00, and in addition, provide a "Contingency Reserve" of \$28,000.00 to cover liability on claims up to the 31st of December, 1906, bringing the total Reserve up to the magnificent sum of \$100,000.00.

Proper allowance has been made for depreciation on office furniture, equipment and investments. After making every possible allowance for any liability there is a balance at credit of Profit and Loss Account of \$40,085.14, which cannot be but gratifying to the Shareholders.

We would especially call your attention to the fact that we had on hand on the 31st of December, 1906, stationary, blank policies and other advertising matter representing in cash over \$4,000. While this amount should properly be considered as an asset by an active company, we have taken no credit for same in our Annual Statement.

In view of the showing for the year 1906 and the satisfactory condition of the Company's affairs in general, the Directors feel justified in recommending a dividend to the Shareholders of 8 per cent. on the paid-up Capital. All of which is respectfully submitted.

Ottawa, March 4th, 1907. D. MURPHY, President.

The Annual Report for the year 1906 was unanimously adopted and a dividend at the rate of 8 per cent. on the paid-up Capital of the Company, payable on and after March 14th, 1907, was declared.

The following Board of Directors was elected for the current year: D. Murphy, H. K. Egan, A. J. Barr, William Anderson, J. A. Lescaarbeu, Thomas McKenna, David Kelly, C. J. Smith, Alonzo Grant, Ash Kennedy, Charles Pope, W. H. Woods, Thomas Lowry, Albert McLaren, George Mills, W. E. Matthews, P. Whelan, F. W. Green, George H. Millen and V. Bolsovert.

A hearty vote of thanks was tendered to the Officers, Staff and Agents of the Company for their efficient services during the past year.

Mr. J. P. Dickson, the retiring Secretary-Treasurer, was also tendered a vote of thanks for his services on behalf of the Company since its organization.

At a subsequent meeting of the Directors the following Officers were elected:

D. Murphy, President; C. J. Smith, First Vice-President; A. J. Barr, Second Vice-President; John Egan, General Manager; H. W. Pearson, Secretary-Treasurer.

The following Executive Board was elected:

D. Murphy, A. J. Barr, H. K. Egan and William Anderson.

ANNUAL BOAT RACE TO-DAY

Oxenians' Improvement Assures a Good Race—Personnel of the Crews.

Putney, Eng., March 15.—The Oxford and Cambridge crews, which are to take part in the annual boat race from Putney to Mortlake to-morrow afternoon, wound up their training to-day with brief juddies. The Cambridge men are the favorites at 4 to 1, but both crews are above the average of university eights and the Oxonians improved so rapidly after they first appeared on the river here that a good race appears to be assured. The Cambridge crew was intended to beat all previous records and to row against the clock as well as against their opponents, with the object of lowering the record, 18 minutes 47 seconds, on the course about 4 1/2 miles, established by Oxford in 1893 and equaled by Cambridge in 1900. The crews are:

Oxford	Lbs.
W. T. Heard, Bailiol, bow	166
H. G. Donnadieu, Head	160 1/2
G. E. Hope, Christ Church, 3	179 1/2

The Oxford eight weighs a fraction over 168 pounds, and Cambridge 174 1/2.	

The Don's Annual Meeting. The twenty-seventh annual meeting of the Don Rowing Club will be held in the winter club house Monday, April 1. President Ed. Mack has again consented to stand for the presidency and with Nat Scholes handling the boys another successful year is expected.

Secretary Alex. C. Melver, after filling his office very ably for the past three seasons, will drop out of office.

During the past season revenue amounting to \$2000 was handed by Treasurer J. E. Young, \$1000 being spent on boats and equipment.

The membership of the club will be largely added to this year. The club's many wining and winter club rooms have made the east end club popular.

Winnipeg League.

Duluth, March 15.—President Secretary Percy R. Glass of the Northern Copper Country Baseball League announces that the circuit of the organization has been definitely fixed for the season—Winnipeg, Duluth, Houghton and Calumet—and that all rumors that other teams would be admitted to the circuit were without foundation. Secretary Glass, who is chairman of the schedule committee, will submit a draft of two proposed schedules to the league and one is likely to be adopted before April 1.

The dropping of Lake Linden from the circuit put some valuable players in the market, and several of them were quickly snapped up by teams already signed, while catcher Solbra to cover first base; Schuch, center fielder; and pitcher and catcher, Edward Kurke and Pitches, and Calumet, Duluth, according to Secretary Glass, in Chicago this week getting strings on players, and upon his return a most interesting news will be given out.

Calumet, last year's champion, will have a much stronger team this year, while the Winnipeg and Duluth will not be backward, so that the prospects for a successful season are bright.

VALE: Last night's "God-Speed" to General William Booth may also be his "Good Night." He is old in years, but his heart, in courage or in faith, and therefore his departure pathos, had nothing of the sadness of farewell. Like other men who have done great deeds and accomplished great things, General Booth has had his days of darkness, of trouble and sorrow.

Mr. Bourassa is a private member of the house, and if his attitude be weak, what shall we call the attitude of the leader of the opposition, who is paid a salary, and whose duty it is to criticize the actions and the policy of the government?

Does not the Mail see that, read in the light of the facts, its last sentence amounts to an accusation that Mr. Bourassa is not a man who seriously wishes to bring about reform, inasmuch as he refuses to put his own hand to the plow?

PUBLIC AND PRIVATE MANAGEMENT: Opponents of municipal ownership and operation of public utilities and services are always dilating on the superiority of the service given by private companies. This contention, in view of the facts as ascertained by actual experience, will not stand examination.

BOSTON HAILS BRYAN AS LEADER OF DEMOCRACY

State Committee Gives a Dinner to the Nebraskan, at Which He is Told He Will Win.

Boston, March 15.—The Democratic state committee to-day gave a dinner in honor of William J. Bryan, at which the leading Democrats of New England were present. The guests included George Fred Williams of Boston. In an address of welcome Mr. Williams referred to Mr. Bryan as the "acknowledged leader of the National Democratic party," adding: "I have no right, sir, to place you in the position of a candidate for office until you have authorized it, but I believe I represent the sentiment of the Massachusetts democracy when I say that the success of our party rests upon your shoulders."

Port Hope Prepares to Fight G.T.R. Proposals

Townpeople Turn Out in Large Numbers to Public Meeting at Which Railroad's Scheme to Fill in Viaduct is Denounced as a Menace to the Community.

Port Hope, March 15.—(Special).—The townpeople turned out in large numbers to-night to express their opinion as to the filling-in of the G. T. R. viaduct.

Henry White, town solicitor, who introduced the subject, after the mayor's preliminary remarks, stated that the discussion was to be indefinite.

He explained the objects of the G. T. R. in endeavoring to secure control of the harbor and enclosing the town in a triangle, which would prevent the entrance of any competing line.

The C. N. R. and the C. P. R. he considered a specific advantage to the town, and the representatives of these two roads are to be invited to attend the session of the railway commission at the hearing of this case.

The endorsement of the G. T. R. by the commission would place the town in direct control of the G. T. R., and this would be a gross injustice to Port Hope, which has sacrificed a great deal for the interests of the G. T. R.

The collector contended that it was not the purpose of the town to antagonize the railway, but that what the town wanted was for its just demands to be heard by the commission.

Joseph Bauch severely arraigned the Grand Trunk for its attitude of discrimination in favor of the people of Western Ontario, by making the people in this district pay an increased rate of 11 per cent, where there was no competition.

LOSS FROM FLOOD IN ONE COUNTY ALONE \$9,337,000

Conditions Improved at Pittsburg, But Become Much Worse in Southern Ohio.

Pittsburg, March 15.—With the rapid receding of the waters in the Monongahela, Allegheny and Ohio Rivers, conditions are fast assuming normal proportions and the greatest and most destructive flood in the history of the city is at an end.

Excitement was caused to-day by several fires. One which swept the Mount Washington district had to be dynamited on account of a shortage of water in the mains.

Conditions in Southern Ohio were worse than at the press of time in Va., the electric light plant was put out of commission, and the city is in darkness.

The loss at Marietta, Ohio, will be enormous. Water has flooded the main street, and many residents have been forced to vacate their homes.

Much damage has been done in the oil fields, and there is considerable suffering in the surrounding country.

WOMAN'S WORLD.
A WOMAN'S CLUB.
Interesting to women all over this continent is the Colony Club, which has just been founded in New York. The first club for women on this side of the water, which is to be run on the same lines as a club for men.
Women of the highest social standing in New York, literary women, actresses, business women are all to meet upon the same plane.
Even the decorations were made under the supervision of a woman, Miss Elsie de Wolfe, the former actress, who has now gone into the profession of house decorating, and who is a member of the club.
The clubhouse is of red brick, in colonial style, on the corner of Madison avenue and Thirtieth street. The interior has all the ease, comfort and luxury that a man's clubhouse of the best type possesses.
There is no wine-cellar connected with the club, but any member may keep her own store of wine if she so desires.
Every athletic advantage may be had, a swimming pool with a fifty-six-foot plunge being provided in a very comfortably-fitted gymnasium, which contains even a square court and running track. The uniforms of the club attendants are blue and buff.
One wonders how long it will be before Toronto women are sufficiently independent to establish such a club.
MRS. DIGNAM'S PICTURES.
For the last two weeks art connoisseurs have been delighted with the admirable collection of paintings which Mrs. Dignam has had on exhibition in the Mackenzie Art Gallery, 95 Yonge street.
The collection embraces paintings of scenes in Spain, Africa, Italy and Holland, and exhibits the artist's well-known versatility of style to a marked degree.
In technical detail, coloring and execution Mrs. Dignam's work is too notable to need comment here, but one can only say that her Dutch scenes are particularly noteworthy, one especially charming picture being that of the "Windmill Opposite Dort". In which the color effects are really beautiful.
An equally charming scene from Dort is the "Grote Kerk", while a pretty French scene is the "Gosse-Girl", a little French peasant surrounded by her long-necked charges.
The African, Spanish and Italian pictures are very rich in coloring and, indeed, all Mrs. Dignam's pictures show the master hand.
The exhibition closes to-day.

AT THE PURE FOOD SHOW.
Demonstrations by the Lillian Massey School of Domestic Science will be given on Monday evening, at the Pure Food Show in Massey Hall, the first subject being "Invalid Cookery"; Tuesday afternoon, "Cream Soups." The demonstrations will be given at 8.45 in the afternoon and 8.45 in the evening. The other subjects to be taken up are as follows: "Desserts," "Invalid Cookery," "Pastry," "The Fireless Cooker," "Salads." All housekeepers in Toronto are invited to be present. The demonstrations will be given on the stage in the lower hall, as the stage in the main hall will be occupied.

THE VARSITY GIRLS.
The University College Women's Literary Society held their closing meeting last night in the pretty little Greek theatre of the Margaret Eaton School of Expression.
Under the direction of Mrs. Scott-Ruff, a delightful representation of "Pigmalian and Galatea" was given, the characters being taken as follows: Pigmalian, Miss Marshall; Lucippe, Miss Phillips; Chrysois, Miss Clarke; Agastinos, Miss Ann Sutherland; Mimos, Miss Margaret Sutherland; Galatea, Miss Bradshaw; Cleonice, Miss Gordon; Daphne, Miss Allison; Myrina, Miss Smith.
A very pretty and graceful Greek dance, symbolic of the worship to Apollo, was given under the direction of Miss Constance Weyford; those taking part being Misses Kemp, Campbell, Rothwell, Tait, McAllister, Connolly, McPherson, Holt and Ballantyne.
Among the number present were Professor and Mrs. Hutton, Professor

WORLD PATTERN DEPARTMENT

2331—A TRIM FITTED JACKET.
There are many occasions when one finds it necessary to have her coat made at home and a pattern for one of excellent style and practicability is shown. The coats this season are for the most part of hip length and, as a rule, they are decidedly jaunty and becoming. Such a jacket as the one shown is admirably adapted to any of the suitings or covert, and with collar and cuffs of velvet or closely stitched or braided cloth, it will prove altogether pleasing when finished. Extra fullness at the side back seams is laid in plaits underneath. For the medium size the jacket requires 2 1/4 yards of 54-inch material.

Buchanan's Wife
The Story of a Woman Who Dared to West to Harvest the Love and Happiness as That Were Denied Her by Cruel Circumstances.
By Dumas Miles Perkins and Published by Fennell, MacFarlane & Co., New York and London.

back to love's young dream. You wouldn't know, of course, but in the days of long ago her heart and Mr. Farling's beat as one. Until tonight they have scarcely seen each other since that happy time. Hence these smiles and blushes."
Now, this speech, if rendered in a sufficiently humorous fashion—if but in fact—might pass, tho in questionable taste, as fairly unobjectionable, but Buchanan spoke it with a certain mocking deliberation, and this, born close to the verge of an atrocious insult. Indeed, to every one at the table who knew the man—in English—the intent must have seemed quite beyond question.
"What reason he could have had for making such a speech it is impossible to imagine. What madness was burning in the man to drive him to so wanton a length one cannot think. It must have been a sudden upsurge of that malice which had been so slowly growing in him. It is not impossible that his nerves, overwrought by the excitement of this night, were racked and quivering at this point.
For an interminable-seeming moment there was dead silence. The Colonel Eversley gave a short, amazed laugh, raising his glass in his eye, and staring up the table at his host to see how the thing was to be taken. "I say!" he exclaimed. "I say, you know," and turned to look across at young Farling.
Buchanan had gone perfectly white, but after a moment the color came flooding back to her cheeks once more, and she faced about towards the Englishman with a ready smile.
"Now you know the story of my life," she said, lightly. "Please say my name, if it is very pretty and so on, you think it is very pretty and so on, but I don't care for it. The two ancient sweethearts after many years—how many is it, Harry? Only two—brought face to face once more in the presence of many, at the very dinner table with the cruel husband of one of them! I call that real drama, you know. The only weak point," she complained, "is that neither Mr. Farling nor I seems able properly to play up to the part, do we? We ought to sigh and exchange it—night-have-been glances, and all that sort of thing."
"We're far too stolid, Harry."
Colonel Eversley laughed again, a bit more easily this time, and said that he was sure Buchanan had not had the seen the same situation before, of course, many times over. Now, he had a cousin who—And Harry Farling, who began some laughing remark to Lady Sybil, and old Arabella Crowley plunged into the matter with a rapid fire of never-nonsense, so that, with every one talking very fast and no one listening at all, the worst of the situation was that Buchanan's speech had been meant for a deliberate insult to his wife, so framed that, if taxed with it, he could readily disclaim any sorrows, but Stambolof was wise, and he had lived in his five-and-forty years, thru more experiences and vicissitudes than most men ever meet in their whole life's span, and he had the wit to see that Buchanan was in no condition of nerves or temper to engage in general talk. In particular, he did not give him to be thrown with young Farling.
He set in at once, therefore, upon a dissertation of unsurpassed dulness and interminable length, and it did not in the least annoy him to see that Buchanan made no pretence whatever of paying heed, but sat in a sort of gloomy stony starting at the table before him, and from time to time raising his little liqueur glass of Chartreuse to sip from it.
The sat there for half an hour or more, until at last Stambolof had to suggest that they would be missed in the drawing room; and in all that while Buchanan said "Yes, yes" once, very absently, and "Quite so," two or three times. When the Russian suggested that they join the women, he rose at once, silent but amenable, and followed the other three men without a word. Stambolof said afterwards,

This is called the practical age. At all events it is a time when people like to get value for their money. This is assured when you buy

to Arabella Crowley, that he seemed in a sort of daze—as if he neither saw nor heard any of the things about him. And, in the light of what occurred later that night, Stambolof spent many hours in wondering what was in the man's mind at this time. For that matter, no one was ever able to say what was in Buchanan's mind, either at this time or any other. He could not be judged by other men's standards, he dwelt so apart.
Meanwhile, in the drawing room, it so happened that Lady Sybil and little Miss Trevor—Alison Trevor, as she chose to subscribe herself since spelling out the name on Queen Eleanor's tomb in Westminster Abbey—found themselves together, and sat down in a corner of the big room to discuss the characters of certain common friends in London and Washington. Beatrice Buchanan had moved across to an open window, and stood a moment, raising her hot face to the caresses of the cool night breeze. Arabella Crowley joined her there, and the two stepped out thru the window upon the terrace, where the moonlight lay in silvery satin, barred by velvet shadows.
The younger woman turned her face to the pallid moon, and it writhed and quivered and went gaunt, like the face of one who dwells in unshakable agony. "You see, Aunt Arabella," she cried, shaking. "You see! How is one to bear such things—such a life!"
"Oh, yes, dear child," said Mrs. Crowley. "Oh, yes, I see. I do not know what I should say to you," she said. "I expect it is partly because you are still very angry at—your husband. That was a shameful thing he did—and partly because there is really no thing any one can say in such matters—that will be of any avail. Oh, my dear, I am afraid we women were meant to suffer—for some inscrutable reason, I wonder what! So few of us are allowed to live happy lives. I am an old woman, child, and I have had both joy and suffering, but I think, looking back upon it now after so many years, I think there was far, far more suffering than joy. And I believe it has been so with all the women I have known. Women must weep, Beatrice, even if men don't work. I do not know why. I cannot think that it is just, but it is true." She took one of

Public Amusements

One of the few plays now before the public which has received the unqualified endorsement of the clergy, regardless of denomination, is "The Law and the Man," a dramatized version of Victor Hugo's famous novel, "Les Misérables," which Wilton Lackaye is presenting this season under the direction of William A. Brady and which comes to the Princess next week. The character of Jean Valjean is one of the most powerful in all literature.

Immediately after Miss Marie Hall's concert last night workmen began to remove the chairs from the ground floor of Olmsted Hall, and early this morning the work was commenced on putting up the booths for the "Pure Food Show," which opens on Monday and continues thru the two following weeks, ending Good Friday, March 23. The Lillian Massey School of Domestic Science will give practical demonstrations of cookery, in addition to the

Queen's Own Rifles and the Argonaut Rowing Club, a combination of patronage that insures a worthy performance, as well as a successful issue of the project. The dates selected are April 18, 19 and 20, with a Saturday matinee. A splendid cast, the majority of whose members have already won popular favor, has been secured and rehearsals have been going on for some time. The chorus of sixty voices under the direction of Mr. E. W. Schuch, has made great progress and will fully sustain the reputation of the opera as the brightest of Mr. Sullivan's musical production. An orchestra of 20 pieces will furnish the accompaniments and the piece will be staged and costumed with all the care and skill required to bring out its best effect.

One of the amusing characters in "Peggy From Paris," George Ade's musical comedy, which will be offered at the Grand Opera House next week, is that of Sophie Blatz, the German maid of Peggy; so well portrayed by little Olive Haynes. She arrives in this country as a greenhorn, with her mistress, Mrs. Fleurette Caramelle, and an attempt is made to foist her on

assured of a dramatic treat. Mr. Lackaye will be seen in the role of the much persecuted, hounded and philanthropic Jean Valjean. His direct antithesis, Javert, the inspector of police, who has no conscience, save duty, and whose every act is governed by one thought, "It is the law," is played by that excellent actor, Melbourne MacDowell. The scenes between these two characters are terrific in their dramatic intensity, and both star and leading man have brought to their portrayal all the wealth of their long stage experience.

In his work of adaptation, Mr. Lackaye has followed the story very closely and much of the dialogue is Hugo's own. There are a number of "big scenes" in the piece, the first of which is the home of Bishop Welverton in Diton, next the rescue of Fantine by the mayor of Mende, the finding of Cosette, the capture and escape of Valjean from the garret of the Thénardiens, and the beautiful denouement.

One of the most idealistic of love stories runs thru the entire action of the piece—that of Cosette and Marius. Here the spectator sees the better and gentler side of the inspector, the idealist, dramatist and poet, for it is well known that the characters of Cosette and Marius are supposed to be those of Hugo himself and his only love, to whom he wrote those marvelous love letters.

Respectless of creed and denomination, the clergy throughout the world have lauded the religious sentiment expressed in the characters of Jean Valjean.

is the effective means, and while lack of provision for your "loved ones" from such a cause may be counted secondary to a life of suffering to oneself, it is one of the many sides in the study of health that we should take in dead earnest. Every disease has its symptoms—every ailment that flesh is heir to has its note of warning, and it's for us to heed or suffer the consequences; and who does not know the signs by experience or observation?—fever, chills, sweating, shooting pains, numbness, aching muscles, stiffened and swelled joints.

The great South American Rheumatic Cure gives ease from the first dose and it gently and effectually eradicates the trouble from the system. It gets at the root of the evil and it gets there quickly—most stubborn cases cured in one to three days. Influential physicians prescribe it as the best and surest cure they know of.

The annual theatre night of the Toronto Press Club is the conclusion of a regular theatrical season in Toronto. This will be the third annual event of its kind and the organization of the press club, and to those who saw "A Bachelor's Romance" and "Liberty Hall," the two plays which have already been successfully presented under its auspices, it will be interesting to know that something even more ambitious is contemplated this year. Douglas A. Esterson, under whose direction all of these productions are made, has chosen "The Importance of Being Earnest," a farcical comedy, which is to be put on with "Gringolre, the Ballad-Monger," a one-act play from the French of De Banville, as a curtain-raiser. Strong casts have been chosen for both plays and rehearsals are already being held.

Robert Stuart, who has appeared in leading roles in both of the previous productions, will again be featured, and Mr. Paterson will be associated with him. The remaining male parts will be filled by Ebert Durand and Harry Smith. Miss Bernice Parker, a reader, who has done creditable work in several plays, will appear in the principal feminine role, and with her there will be Miss Alice Denzil, Miss Evelyn Bliss and Miss Lucy Doyle.

"Running for Mayor" and "A Politician's Vacation" are the two farce comedies in the "Merry Men" at the Star next week. The old list speaks for itself: The Elton Polo Troupe, three male aerial artists; White and Casey, in "Move de Band Wagons"; Nelson-Morledge, in the farce "Simon, the Butler"; Sam J. Adams, comedian; Miss Jeanette Young, operatic vocalist; Grace Patton, singing and dancing soloist; and the Les Sprays, European whirlwind dancers.

The attraction at the Grand next week will be George Ade's distinct musical comedy hit, "Peggy from Paris." Its wit and humor are employed in telling a real and interesting story, while the char-

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

Trial Package Sent Free to Prove It

You don't want to wait forever and a day to get rid of your pimples or other skin eruptions. You want to get rid of them right now. Next week you may want to go somewhere where you wouldn't like to have to take the pimples along.

You can get rid of them just in time by taking Stuart's Calcium Wafers. These wonderful little workers have cured bad boils in three days, and some of the worst cases of skin disease in a week.

They contain as their main ingredient the most thorough, quick and effective blood cleanser known, calcium sulphide. Remember this, too, that most pimple treatments reek with poison. And they are miserably slow besides.

Stuart's Calcium Wafers have not a particle of poison in them. They are free from mercury, biting drugs or venomous opiates. This is absolutely guaranteed. They cannot do any harm, but they always do good—good that you can see in the mirror before your own eyes a few days after.

Don't be any longer humiliated by having a splotchy face. Don't have strangers stare at you or allow your friends to be ashamed of you because of your face. Your blood makes you what you are. The men and women who forge ahead are those with pure blood and pure faces. Stuart's Calcium Wafers will make you happy because your face will be a welcome sight, not only to yourself when you look into the glass, but to everybody else who knows you and talks with you.

TO-MORROW'S SUNDAY WORLD

Will Have Ten Pages of Beautiful Half-Tone Engravings, Covering Important Subjects—A New Comic Section and All Saturday Sports.

The Sunday World is growing fast. We had to add two pages this week to the beautiful illustrated section in order to cover the news in which Canadian readers are interested, and we have pleasure in announcing the addition also of a four-page comic supplement.

The pictorial features of the issue include a fine portrait of Miss Debra Carson, who has been adjudged to be the most beautiful girl in Chicago; a picture of H. C. McLeod's Jamaica house, wrecked by the recent earthquake; the civic reception to Gen. Booth; a series of pictures illustrating the obsequies of Cronquist, from the body lying in state at Massey Hall to its last resting-place on the Indian reservation near Deseronto—very few readers should preserve a copy of this issue. It will be valuable years hence.

There is a striking picture of a scene at the recent fire on Victoria street, illustrating the dangers of the fireman's duties; a picture of the Carnegie library, town hall and firehall at Sault Ste. Marie, recently destroyed by fire; an excellent portrait group of the Ontario legislature press gallery; wrestling in India, as illustrated and graphically described, and there are Speedway pictures that illustrate the vigorous sport of racing in the snow, included with these is an engraving showing Lady May, 2014, the queen of the speedway.

The finest elk's head in the world is the subject of a picture which will interest hunters as well as the Best People on Earth. Interesting views are given of operations at the Cobalt Silver Mountain Mine, and of the German-Canadian Smelting and Refining plant at the Soo. The prospecting of a house is shown how to remodel a house, and is instructed in the uses of concrete.

In "The Mirror of Fashion" there are strikingly handsome styles presented, illustrating the correct modes in hats and jackets for early summer. "Snapshots of Public Men" are also optionally good, including Elliott G. Stevenson, the newly-elected supreme chief ranger of the Ontario Foresters, and Albert E. Stevenson, his brother; Hon. R. Harcourt, Hugh Montgomery, M.L.A.; R. L. Joynt, Dr. R. F. Preston, M.L.A.; George Kerr, M.L.A.; Stormont, and Dr. F. W. Lewis, M.L.A., Dufferin.

The comic section includes most of the youngsters who have already become famous as entertainers for the younger folks: Sambo and Ella Fanny; Keesee; Mary and her Lakie Lamb; Uncle George Washington Bings; Mose and Simon Simple; Wag—the Dog; Hub, Who's Always in the Wrong; and Stuttering Sammy. Polly Evans' story page is continued and all the other features of the paper, including the serial story, "A Mysterious Disappearance."

The sporting pages of The Sunday World have long supplied the sports enthusiast with the final results of Saturday afternoon and evening sports. This department shall continue to be the best that our splendid facilities and expert writers in the several branches of sport can produce. There is no paper just as good as The Sunday World.

To Owners of Bad Breath

Foul Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges.

Trial Package to Prove It Sent Free. Billions breathe, onion eaters, indigestion victims, cabbage consumers, smokers, drinkers and those with gas in the stomach are in a class all by themselves, distinguished by a powerful bad breath.

STUART'S CHARCOAL LOZENGES. Stuart's Charcoal Lozenges will put a stop to your bad offensive breath, and to your belchings, whatever the cause or source, because the charcoal quickly absorbs all noxious, unnatural odors and gases.

STUART'S CHARCOAL LOZENGES. If you suffer from indigestion and belch gas as a result, Stuart's Charcoal Lozenges will absorb all the gas and make you stop belching.

STUART'S CHARCOAL LOZENGES. If on getting up in the morning you have such a bad, bilious breath, that you can almost smell it yourself, Stuart's Charcoal Lozenges will get rid of it for you quickly.

STUART'S CHARCOAL LOZENGES. If you have been smoking or chewing, or have been eating onions or other odorous things, Stuart's Charcoal Lozenges will make your breath pure and sweet.

STUART'S CHARCOAL LOZENGES. We want to prove all this to you, so just send for a free sample to-day. Then after you get it and use it, you will like them so, it fits your blood—every particle of poison and impurity in your blood is destroyed, and you begin to notice the difference in your face that thing—your complexion.

The Copeland-Chatterson Purchase Order System has proved a boon to the business world. It gives a perpetual separation of "filled" from "unfilled" orders—all filed alphabetically. This means that there is no going through dead matter to find the live. It gives a direct reference to any particular order—discourages substitutions or the padding of orders—advises receiving clerk without showing prices or quantities. Write the Copeland-Chatterson Co'y, Toronto. The system will help you in your business.

NO WORKERS UNDER 14

May Be the Result of Ontario's Enquiry into Child Labor.

The child labor committee continued its sessions yesterday and a number of employers were examined. The Cowan Manufacturing Co. had employed young girls some years ago in their chocolate works, but stopped when warned by the inspectors. They now procure certificates of age from parents.

Mr. Kent, the Wallaceburg glass works, took on boys about 14. They worked as helpers for three years and were then apprenticed for periods up to two years at half wages.

The Canning factories depended on child labor for four months in the year, and thought eight months would be enough in which to go to school. They did not think an age limit was needed during the berry season. An age limit of 14 years at other times would not be objected to, no night work to be permitted.

Dr. Hodzits thought the production of a birth certificate from the registrar-general's department should be made compulsory in the case of young children seeking work.

It is probable that the law enacted will prohibit the employment in shops or factories of children under 14. Young boys may be allowed to work in elevators, drive delivery wagons, or work in mines.

Nothing approaching any condition of the child slavery in other countries was shown to exist in Ontario.

ESTIMATES FOR POWER

Engineers Will Start Out on Monday to Visit Municipalities.

Engineers of the hydro-electric power commission will proceed on Monday to the various municipalities which are passing by-laws to adopt the plan of the commission, for the purpose of ascertaining a correct estimate of the amount of power which each shall require.

These will of course be approximations, and the municipalities will not be bound by the quantities specified. These amounts will then be filed, into the contracts which the commission's engineers have prepared and ready for the purpose, and which can then at once be sent to the municipalities.

In four or five weeks the whole scheme should be ready for inauguration.

BRAKESMAN KILLED

Wm. Kerr Meets With a Sudden Death Near Bronte.

A brakeman on the G.T.R., William Kerr of 101 Tecumseh-street, while passing between the tender of the engine and a box car at Bronte to fix the knuckle, was killed yesterday afternoon.

The local doctor was summoned, but Kerr died before he could reach him. His body was brought home.

TEN TOWNSHIPS FOR S. A.

Ten townships in the Northern Ontario clay belt, adjoining the G.T.P. Railway, and containing from 250,000 to 500,000 acres.

These townships have suggested as necessary to their plan of immigrant colonization. The government, it appears, looks favorably upon the idea which has been in the air for some months. The Army asks for reduced terms of payment, but would pay enough to cover survey expenses. Ten years' time without interest is also proposed.

Dining Car is a Feature. There are so many excellent features about the C.P.R. 5:20 p.m. train that it is a hard matter to particularize any of them, but the splendid dinner served between Toronto and Buffalo is worthy of note.

LEGISLATURE IS FOR PEACE IN RESOLUTION TO HAGUE

Hearty Approval Given to Measures Looking to Welfare of the Universe.

Whereas it is expected that a second international conference will soon assemble at the Hague, and it is announced that forty-six powers will meet to discuss questions of mutual interest instead of twenty-six as at the first Hague conference.

And whereas it is a great and noteworthy fact that this will be the first occasion on which the civilized nations of the world have met together in a time of peace of their own free will to legislate with reference to their mutual relations.

And whereas the British government and those of commonwealth have taken a deep interest in making the program of the coming conference practical and useful in promoting the welfare of humanity.

Resolved that the legislature of Ontario heartily approves of and urges three main measures which will greatly conduce to the peace and welfare of the world, viz: "A plan by which the Hague conference may become a permanent and recognized congress of the nations."

"A general treaty of obligatory arbitration for the acceptance of all the nations, a reasonable reduction of armaments by concurrent international action."

The legislature adopted the above resolution at yesterday afternoon's session on the motion of Premier Whitney, seconded by Hon. P. Graham. The prime minister stated that the Canadian Peace and Arbitration Society had suggested the resolution which he was happy to endorse.

Mr. Graham quoted Kant, who believed war would never be over till the world was fully organized, and that it could not be so organized until government was representative. That 46 nations should be present in the peace conference indicated the approach of that time.

Respecting Pawnbrokers. The government adopted W. K. McNaught's bill respecting pawnbrokers, the prime minister stating that it was satisfactory. Mr. McNaught in moving the second reading asked for protection for the public by insuring that the business was placed in the hands of honest men. It had not always been conducted with due regard to the law. Unlicensed pawnbrokers were more independent than secondhand dealers—subject to police supervision.

Search warrants would be issued to enter their premises. Honest pawnbrokers offered no objection, and the bill would render it compulsory in all cases. Licenses of not less than \$250 nor more than \$500 will be issued, and security given for \$1000.

Daily report of loans must be made to the police. Pawnbrokers must not conduct any other business. The act will be administered by the board of police commissioners in cities of over 100,000.

Printing of Statutes. Premier Whitney introduced bills respecting the form and interpretation of the statutes, respecting the printing and distribution of the statutes; respecting the printing and distribution of the consolidated revenue fund, all of a more or less formal character, arising out of recommendations of the committee in charge of the revision of the statutes. The commissioners have adopted the section from the Ontario act dealing with the repeal of an act or part of an act.

Third readings were given the act to provide for the appropriation of certain lands for volunteers; to amend the free grants and homesteads act; and respecting the land grant to the G.T.P. Railway Co.

EDUCATION AT 13 CENTS A DAY

Cost in Toronto is Below That of Cities in the U. S.

The cost of text books in the public schools of Toronto during the year 1906 was ten cents per pupil.

The cost of supplies, including work books, exercise books, book-keeping blanks, note books, dictation books, business forms, drawing materials, writing books, slates, rulers, pens, pencils, practice paper, etc., was 15 cents.

The total cost of educating a child in Toronto public schools was 13 cents per day.

The average cost per day in cities of over 8000 inhabitants in the United States was 20 cents. In the North Atlantic divisions it was 22 cents. In the western divisions it was 24 cents per day.

MORE SKILL IN TRADE

One Man Working at One Thing Develops Both Facility and Skill.

The president of the Semi-ready Company promises to present to the readers of this paper before Good Friday an exact reproduction of the new frock coat for the spring of 1907. This gentleman has been the creator and designer of Semi-ready styles for nine years, and to his genius much of the distinctive grace of these garments is attributed.

With the possible exception of the dress suit most custom tailors dread the making of a frock coat. The correct shape and the draping calls for more skill than is usually available in the ranks of the journeyman tailor. The Semi-ready Company have so perfected the making of frock coats that each one of the 100 coats made each week is a model of artistic laboring. And what interests a gentleman more closely is that for \$30 he can get a silk-faced vicuña frock coat, with vest and trousers, the same class of garments for which a custom tailor would ask from \$40 to \$50.

DO YOU KNOW A WOMAN IN CANADA MORE Beautiful Than the Winner of the Chicago Beauty Contest, Whose Portrait is Printed on the First Page of THE TORONTO SUNDAY WORLD The World invites its readers to find her and send her photograph to the editor, so that Canada may challenge the assumption of the Windy City that it has the Most Beautiful Women In The World The chivalry and gallantry of Canadian fathers, brothers and lovers is at stake. Let each one do his part in the search and The Toronto Sunday World is confident that Canada shall produce the International Queen of Beauty. Miss Carson was selected in a contest inaugurated by The Chicago Tribune to decide a big wager that Chicago could not produce a woman as beautiful as the sister of an easterner, who backed his opinion with his money. SIX THOUSAND PHOTOGRAPHS Were submitted, and Miss Della Carson, a \$12-a-week stenographer, was chosen as the Chicago queen of beauty. It is now claimed for her that in beauty of face and grace of form she outranks all other women in the United States. Canada is famed for its handsome women. Than Miss Carson there are scores of Prettier Women and Girls in Toronto If you have a relative or friend whom you believe to be handsome, send her picture to The Sunday World. This is not a voting contest. All photographs accepted will be published in the illustrated section, and the photograph of the Queen of Them All Will be entered in an international contest to decide who is the most beautiful woman on this continent. The ablest judges will be secured to make the selection and A PRIZE OF \$25 will be awarded as a compliment to the person sending in the photograph of the adjudged queen of beauty. Address all pictures and communications to THE TORONTO SUNDAY WORLD TAXATION OF CITY "FARMS." Amendment to Municipal Act Would Hit Speculators. Amendments to the Assessment and Municipal Acts were considered by the house committees of the legislature yesterday. Some of these were recommended for adoption. W. K. McNaught's bill proposes to knock out the farm land assessment graft by which speculators can hold up two-acre lots in the city limits, while only paying township tax rates. City Solicitor Chisholm observed that the law had been passed to relieve those who got loaded up with vacant lots in the last boom. Ten-acre lots in towns and villages will still be reckoned farms. The 5000 population limit may be removed in the tax exemption clauses, and all towns and cities will be on an equal footing, fixing exemptions at \$1000 for householders and \$700 for non-householders. R. R. Gamey desired taxation to be based on the value of stock carried, instead of the value of the store. This, and an amendment of Bradburn's, to keep polling places open till 8 o'clock were sent on to the statute revision commission. The Killarney of America. Nestling in a frame of beautifully wooded shores lies a series of beautiful lakes 145 miles north of the City of Toronto, Ontario, and known as the "Lake of Bays Region." A chain of seven lakes studded with lovely islands, with hotels throughout the district, and a good steamboat service to all points, attracts the tourist, angler and sportsman. Just the out-of-the-way sort of place to visit during the summer months. For all particulars and free illustrated publication apply to J. D. R. Jamieson or Alfred Price, 1500 McDonald, Union Station, Toronto, Ont. "GREEN" HANDS BLAMED. The different railway organizations attribute many of the recurring accidents to the fact of so many inexperienced hands being taken on, and officials of the railroads will be asked to give new men a special railroad training before sending them out to join crews. Gets \$30,000 a Year Salary. E. J. Bury, assistant superintendent to General Manager Whyte of the western district of the Canadian Pacific Railway, has resigned that position to go to the Chicago, Rock Island & Pacific Railway, at a salary of \$30,000 a year. The vacancy will likely be filled by a local man from the east, and E. R. Jamieson or Alfred Price will perhaps succeed to the position. MODERN DRAMATISTS SHOW THE REVOLUTIONARY SPIRIT

Emma Goldman Says They Lead Way Towards Higher and Nobler Life.

"Every dramatist of every country, and of every age, has shown us the spirit of revolution in the attempt to change the existing conditions to a higher, freer, broader and nobler life."

Thus Emma Goldman, who lectured last night on "The Revolutionary Spirit of the Modern Drama." All sorts and forms of authority, she remarked, combine against revolution, and imagine its spirit dwells only among the poor, and that it is only found in the factory, the workshop, or with the proletariat. But there is hardly a book, whether drama, or poem, of any power or importance but breathes revolution as the expression of its ideals. It is perhaps more than any modern dramatist to undermine conventional institutions and revolutionize human thought. In his "Doll's House" he laid the cornerstone for woman's emancipation. Tolstoy showed the true reason for the spirit of revolution with which Russia is permeated. Chirikov shows that the Jews have contributed more sons and daughters to the revolution than any other class in Europe, and that they are the "Hauptmann, in his "Sunken Bells," typifies the existing conventions of today, and in Heinrich preaches the spirit of revolt against the unnatural traditions and false social ethics that govern modern society.

"Bernard Shaw in 'Mrs. Warren's Profession' satirizes the very society that has given the drama the hall-mark of its appreciation. Maeterlinck, the great Belgian dramatist, in his wonderful creation of "Wanda," exposes the hypocrisy underlying the purity and virtues of conventional society.

All natural wealth is due to the production of the working classes. If God has given power for all, no man has a right to exclude any from it to help on his own self-aggrandisement. Some critics and reviewers are of more importance than many college professors who teach worn-out ideas. If it were not for the spirit of revolt there would have been no progress and we would still be in the stagnation and superstitution of the dark ages.

HUMMEL SWEARS EVELYN DID SIGN THE AFFIDAVIT

Jerome Gets Lawyer's Testimony Despite Hard Fight to Stop Him by Delmas.

New York, March 15.—With Delmas fighting him every inch of the way, District Attorney Jerome today secured from Abraham Hummel his complete story as to the affidavit in the lawyer's office in 1903, charging Harry K. Thaw with beating her when she had told him that the statement that Stanford White had harmed her was not true.

The Hummel testimony came during the afternoon session of the trial today, and Mr. Delmas, first objecting broadly to all of Hummel's testimony, offered a specific objection to each question put by the prosecution.

"Justice Fitzgerald overruled every objection and Mr. Delmas had exceptions to the rulings noted on the records.

Evelyn Nesbit Thaw herself was called to the stand in the effort of the defence to keep Hummel from testifying. She declared she had called upon Hummel in his professional capacity and to seek his advice as a lawyer, Stanford White had taken her to the lawyer's office with that end in view.

Justice Fitzgerald declared that admitting the proposition of counsel and client, Mrs. Thaw herself had waived the professional privilege by taking the stand early in the case and giving her version of what transpired in Hummel's office. The bond of secrecy once broken could not be re-established.

Delmas badgers Hummel. Unsuccessful in blocking Hummel's testimony, Delmas, in cross-examining the witness, brought from his own lips the fact that he had been convicted in December, 1905, in the very court room in which Thaw is being tried on a charge of conspiracy.

He further admitted that two indictments for subornation of perjury are pending against him, and that one of these indictments charges him with having caused a false affidavit to be made.

Jerome protested against the witness "being dragged through the humiliating details" of his trial, but Justice Fitzgerald declined to interfere.

Then Mr. Delmas asked Hummel if he had not heard the speech made by Jerome when sentence was about to be pronounced upon the witness, and asked him to pass the longest and heaviest sentence within his power upon Hummel, as he "had been a menace to the community for twenty years."

Justice Fitzgerald sustained an objection to this, and Hummel was not compelled to answer.

Delmas wanted to know if Hummel had any more recent business transactions with the district attorney and asked if Mr. Jerome was pressing the charges against him.

"He certainly is," said the witness with spirit.

Evelyn Signed Affidavit. Hummel's testimony in brief was to the effect that he had dictated a statement to a stenographer in the presence of Miss Nesbit and Stanford White; that he gave the affidavit to two of his clerks to take to Miss Nesbit in the Madison Square Garden Tower and the paper was returned to him with Evelyn Nesbit's signature attached.

He kept the affidavit until Miss Nesbit called and demanded it. He refused to give it to her and turned it over to Stanford White, advising him to have a photographic copy made.

Abraham Snyder, one of Hummel's clerks, was called and said he took the affidavit to Mr. White's rooms in the Tower and handed it to a woman pointed out to him as Miss Nesbit. She kept the affidavit for five minutes and signed it, saying she had read it thru.

Jerome completed his medical testimony today, Delmas declining to cross-examine any of the experts.

Five alienists declared Thaw knew the nature and quality of his act and knew the act was wrong.

Jerome announced that when the attorney of the admissibility per Hummel affidavit was disposed of the prosecution would rest.

"The defence will not," said Delmas, and he further intimated that more experts will be called by him on rebuttal.

Adjournment was taken until Monday morning.

Still Fighting in New Mexico. Santa Fe, N.M., March 15.—After the hottest fight in this session, the lower house of the territory legislature has passed a 3-cent fare bill. The fate of the bill in the upper house is doubtful. Governor Hagerman is ready to sign the bill.

WOULD NOT ROB WOMEN.

Thief Hated Them So He Would Not Take Jewelry.

Geneva, March 15.—Vincent Meleine, one of the most daring hotel thieves in Europe, died yesterday in the prison here.

He passed forged banknotes wholesale for years, had a motor car and stayed at the best hotels. For various offences he was sentenced in default to terms of imprisonment amounting to twenty-one years, but owing to his clever disguise he was not captured until three years ago.

Among his belongings were found two Gladstone bags filled with wigs, beards and even women's clothing, which at times he assumed. The trunks had false bottoms, two of which were filled with jewelry chiefly worn by men, and the third with banknotes.

Two Gladstone bags contained burglars' tools and revolvers, while two other trunks which were in charge of his valet were filled with ordinary women's clothing.

Meleine hated women so much that he would not even rob them. He often left behind jewelry belonging to women.

PUBLIC OWNERSHIP.

Woodstock Express: The newspapers that are reproducing the attacks upon municipal ownership which emanate from a stenographer in the city of public service corporations and franchise-grabbers, would find it to the advantage of their readers, even if not to themselves, to tell about the municipal gas and waterworks of Duluth, says The Windsor Record.

The latest official report on the water and light department of that "city of the unsalted seas" shows that "the earnings of the department from both gas and water have increased from \$271,105.28 in 1905, to \$304,458.83 in 1906, while the expenses of operation, maintenance and interest have only increased from \$244,928.25 in 1905, to \$261,882.86 in 1906, and that the net surplus for the year 1906 is \$42,575.97, as against \$28,577.94 for the preceding year.

Meanwhile, there has been no change in rates for either gas or water. In comment the commissioners say: "So far as the operation and maintenance of the gas and water systems are concerned, this board is confronted with very easy and simple problems. Both systems are money-making propositions, and notwithstanding the reduction in the price of both gas and water that have been made since the city acquired these plants, and notwithstanding the fact that during the last year the consumers of gas and water have had to pay the additional interest on the cost of the Duluth Heights and Park Point systems and the West Duluth reservoir, from which no income has been derived, the department is yet able to show an annual profit of \$47,575.97."

or-commission by even an electrical engineer. Mr. Fairbank had reported on apparently no other basis than the report prepared by Manager Wright. The city engineer had not been consulted. The whole power policy was threatened. Some critics and reviewers are of more importance than many college professors who teach worn-out ideas. If it were not for the spirit of revolt there would have been no progress and we would still be in the stagnation and superstitution of the dark ages.

Look Out for Merger. He delved into the past, digging up the record of the amalgamation of the Toronto Electric Light Company and the Incoandustrial Light Company, and sounded the warning that the present monopoly would merge with the Toronto-Niagara Power Company.

Ald. Michie pointed out that some consumers had been allowed to pay \$5 to \$70 per horsepower, and agreed that there should be a clause inserted, providing that if the rate of interest on the company's debt should be increased, it would be a monstrous thing to allow the stock to be issued on a bonus basis. It should be at least at par.

Controller Hubbard pointed out that the directors of the Toronto-Niagara Power Company and the Toronto Electric Light Company were practically the same.

Ald. Adams favored the installation of the annual general meeting to appropriate were denied.

Bylaw for January 1. Ald. Geary was against submitting an appropriation bylaw to the people before Jan. 1, as it would be impossible to get a proper expression of opinion at any other time. He believed the appropriation should be on the basis of the value of the plant, and that the issue of stock would not necessarily affect the price to be paid.

Ald. J. Graham dwelt upon the volume of the cheap power movement, and unreservedly supported expropriation.

Ald. Church agreed to withdraw a motion that stipulated that, should the government grant the stock issue a clause should be inserted providing against any merger, as it was felt that the tactics might be made unwise, and the motions by Controller Hubbard and Controller Ward then carried on a unanimous vote. Ald. McMurich was the only absentee.

The abandonment of the Yonge-street bridge proceedings was approved without discussion.

Favorably Reported in Texas.

Austin, Tex., March 15.—The bill reducing the railroad fare to two cents has been reported favorably to the house by the committee. The bill has not yet been acted upon by the senate committee. It will come up for passage in the house next week.

Virtually Kill Measure in Colorado. Denver, Colo., March 15.—The Colorado legislature has not seriously considered a passage of any legislation lowering railway rates. A railroad commission bill has been on the calendar for weeks, and has been amended until it is virtually harmless.

A SPRING NEED.

Weak, Tired and Depressed People Need a Tonic to Put the Blood Right.

Spring blood is bad blood. Indoor life during the winter months is responsible for weak, watery, impure blood. You need a tonic to build up the blood in spring just as much as the trees need new sap to give them vitality for the summer. In the spring bad blood shows itself in many ways. In some it breeds pimples and eruptions. In others it may be through occasional headaches, a variable appetite, perhaps twinges of neuralgia or rheumatism, or a lazy feeling in the morning and a desire to avoid exertion. For these spring ailments it is a tonic you need, and the greatest blood-making, health-giving tonic in all the world is Dr. Williams' Pink Pills. Every dose helps to make new, rich, red health-giving blood, which reaches every nerve and every organ in the body, bringing health, strength and energy to weak, despondent, ailing men and women. Here is proof. Mrs. Geo. Merritt, Sandusky, N. Y., says: "I was weak, feeling miserable and terribly run down. The doctor whom I consulted said the trouble was anemia, but he did not help me. A friend advised me to take Dr. Williams' Pink Pills, and it is simply responsible for me to over-estimate the good they have done me. I shall always recommend them to ailing friends."

But if you want new health you must get the genuine Dr. Williams' Pink Pills for Pale People, manufactured in Canada at Brockville, Ont. Other so-called pink pills are fraudulent imitations. The genuine Dr. Williams' Pink Pills are sold by all reputable medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

THE DOMINION BANK

NOTICE is hereby given that after the publication of this notice for four weeks as prescribed by the Bank Act, application will be made to the Treasurer of the Province of Ontario for the following By-law of the Dominion Bank.

By-Law of the Dominion Bank for Increasing its Capital Stock.

"By-Law No. 97 of The Dominion Bank passed at the Annual Meeting of the Shareholders of the said Bank, held at the Head Office of the Bank on the 28th day of January, 1907.

"Whereas the authorized Capital Stock of the Dominion Bank is now \$4,000,000, and it is expedient that the same should be increased as hereinafter stated;

"Be it therefore enacted by the Shareholders of the Dominion Bank assembled at the time and place above stated;

"1. That the Capital Stock of The Dominion Bank be and the same is hereby increased by the sum of \$1,000,000, divided into 20,000 shares of \$50.00 each.

"2. That the said increased stock shall, when the Directors so determine, be allotted to the Shareholders of the Bank in proportion to their share as fixed by the Directors, and such allotment shall be subject in all respects to the provisions of the Bank Act.

"3. Any allotted stock which is not taken up by the Shareholder to whom such allotment has been made within six months from the time when notice of the allotment shall be mailed to the address of such Shareholder, or any allotted stock which any Shareholder declines to accept, and also any shares which shall not be allotted by the Directors by reason of the prohibition contained in the Bank Act against the allotment of fractions of a share, may be offered for subscription to the public in such manner and on such terms as the Directors may prescribe."

COBALT --- Less Nervousness, Shown in the Mining Markets --- COBALT

MARKETS LESS NERVOUS SCARE PASSES OFF General Recovery Made in the Prices of the Various Mining Stocks.

World Office, Friday Evening, March 15. The scare in the mining market was particularly noticeable to-day and there was considerably less anxiety to throw overboard shares than there was yesterday. The recovery in the prices of securities in other markets was a factor in the recovery in the mining market.

MUST BE ON THE INSIDE To Get the True Facts in Connection With Nipissing.

Editorial Note: One of our correspondents writes as follows: "The recent statement of President Newhouse as published in The Wall Street News, that the company has only \$125,000 on hand, came as a surprise, as on December 31st the reported assets were \$794,338.13, and have since that time shipped 1,250,000 pounds of ore. Figuring this at only \$400 per ton, the assets would be \$875,000.

In a reported interview at Toronto last Tuesday, Mr. Barle of the Nipissing Mining Company, who was quoted as saying that he knew nothing about the mine or what had been done. We have proven that, we know something about the mine, but we are forced to admit that we do not know everything about it. From the enquiry of the correspondents above quoted, it is evident that there are others.

MAKES SHARP RECOVERY. Peterson Lake Stock the Strongest in the List.

The directors of the Peterson Lake and Nova Scotia claims have just completed a meeting at New York, James C. Murray of this city being in attendance at the meeting. As already announced in The World, it was decided at the meeting to sell the stock in the Peterson Lake property. This fact, and the change of control evidently had something to do with the recovery of the stock in yesterday's market.

ELK LAKE LOOKS GOOD C. B. Murray Confirms the Prospects of the New Field.

C. B. Murray of Toronto has just returned from the new silver field in James Township in the Temagami region. It is a new claim, and is generally known as the Elk Lake district. It is fifty miles northwest of Latchford and ordinarily it requires a day and a half to travel from Latchford to the southeast corner of the township.

COBALT ORE SHIPMENTS. Following are the weekly shipments from Cobalt camp, and those from January 1 to date:

Table with columns: Week ending, Ore in pounds, Shipments, etc. Includes data for Buffalo, Coniagas, Cobalt Central, etc.

The total shipments for the week were 644,190 pounds, or 322 tons. The total shipments since Jan. 1, 1907, are now 4,397,659 pounds, or 2198 tons. In 1904 the camp produced 158 tons, valued at \$186,217. In 1905, 2144 tons, valued at \$1,473,196; in 1906, 5129 tons, valued at \$3,800,000.

strict will show up as an exceptionally rich section. "I am strongly of the opinion that it will probably prove as rich as is Cobalt itself," he said. "Already I know of one claim in about the middle of the township that was recently sold for \$54,000; several others have sold at varying less figures. Many of the claims show native silver, but most of the ore is got thru easy development work. Altogether the signs are very encouraging for a great silver camp. Gold is also found in this district, but silver apparently is the chief deposit.

"I want to endorse what your Man on the Spot, Frank Burr Mosure, says regarding this district, and as to the probability that it will become a rich mining section. The silver there, and everything in sight has been staked out by practical men. Your Man on the Spot has evidently got the right-hand information, and what he says in his letter the other morning, I can substantiate from my own personal knowledge.

"Two square miles in the southeast section of the township have already been staked, and large sections along the Montreal River towards the southeast of the township have been taken up. We have had men in the district for several months past, and the men who have wintered there have been the most practical men any mining country can boast of.

"It is no easy matter to winter in James Township. It is a difficult matter to get into the township from Latchford. You have got to drive up the Montreal River from the town and when you get upon your claim you have got to be prepared to face arctic conditions. Snowshoes and plenty of heavy clothing are indispensable, for the snow is four feet deep on the level and the thermometer runs from thirty to fifty degrees below zero. The miner has to bring in everything that he needs, his food, his implements, fodder for his horses and all those things that help to sustain life and assist in development work.

"We used to think two months ago that getting one letter a week thru from Cobalt was a great work. It took me three days to go in from Latchford along about the first of March, traveling in the snow in that time. Coming out three days ago I met seven parties with teams going in. There is a great rush into the district, and when the snow goes, as it likely will before the first of May, there is not the slightest doubt that there will be a veritable stampede for the new silver fields."

A Larder Lake Opportunity. A Larder Lake company, clear of all indebtedness, with \$0 acres in the richest district in order to obtain sufficient funds for immediate development, offers to a limited number of investors blocks of stock at an advance price. Lowest amount accepted \$125. Box 6, World.

TWO SENT TO PENITENTIARY.

Berlin, March 15.—(Special).—William Reitz, 3 years, and William Heuser, 2 1/2 years, in Kingston Penitentiary, was the sentence passed at the assizes here today by Chief Justice Mulock for fatally assaulting John Orszak.

Empire Club Speaker.

THIEL DETECTIVES GET OFF.

Ottawa, March 15.—The six Thiel detectives tried before Judge St. Julien for manslaughter at Buckingham during the riots were discharged today at Hull.

Nathan Snowden, a man of many aliases, held on a charge of vagrancy on suspicion of being a bunco man, was remanded until the 22nd and allowed bail.

Andrew McClelland and Thos. Armstrong were found guilty of stealing a buffalo robe and white at the assizes yesterday morning. Both were remanded for sentence.

Actual Cure Guaranteed for Catarrh!

The New Pine-Air Breathing Cure "Catarrhose" is Unfailing in Bronchitis and Catarrh.

The cause of this disease is a germ that attacks the lining of the nose and throat, from which it spreads to bronchial tubes and finally reaches the lungs. Cough syrups can't follow to the lungs—they go to the stomach.

That's why they fail. But Catarrhose goes everywhere—gets right after the germs—kills them—heals the soreness—cures the inflammation—makes Catarrh disappear.

"Nothing I ever used gives the warm, soothing sensation of Catarrhose," writes Isabel Fry, of Seguin Falls, Ont. "I was in a frightful way with catarrh of the nose and throat—had droppings, hard breathing, bad breath and indigestion. Catarrhose relieved at once and cured me thoroughly. It is invaluable in colds, coughs, throat and bronchial trouble."

Not difficult for Catarrhose to cure, because it contains the essences of pine balsams and other antiseptics that simply mean death to catarrh. Large size, guaranteed, \$1; small (trial) size, 25c. All dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

INSPECTS SILVER BIRD.

Frank Law is Enthused With This Claim.

Frank Law of Messrs Law & Co. of the Traders' Bank building returned yesterday from Cobalt. Mr. Law's essential mission to the camp was to inspect the Silver Bird claim. He came back more than satisfied with what he saw, and convinced that the claim is being legitimately worked.

"Yes," he said, in conversation with The World, "the Silver Bird has a splendid location, almost adjoining the celebrated O'Brien Mine, and the promising Colonial. The superintendent, Mr. Gauthier, is a hustler. He has gone down on what he considers an extension of the O'Brien vein to a depth of 104 feet, and with the deepening even advance has shown higher silver values. The shaft is 7 x 14 feet, and timbered for a depth of 70 feet. This will be sunk about another 16 feet, and it is then the intention to drift in two directions from that level. The machinery on the property consists of two 25 horse-power boilers; two steam drills and a steam hoist, and it is the intention of the management to put in a compressor and another boiler at once. The one shaft is the only work yet done on the claim, but at the north end of the property, the next claim has a diamond drill working on two promising veins, and the Silver Bird management will later take up the development of this end of the property. Sixteen men are working day and night shifts and more men would be put on if they could be had. I think the public will get a square deal in this property," concluded Mr. Law, "as all the shares we are now selling are treasury stock, and the proceeds will be used in development."

Thorold Votes for Smelter.

Thorold, March 15.—(Special).—Thorold Township to-day carried the by-law by 429 to 4 to fix the assessment of the North American Cobalt Smelting Company at \$10,000. This finally decides that the big quarter million dollar smelter will locate in Thorold Township, just outside the gates of this town, and the company will proceed with the building of their plant next week.

Cobalt Lake Stock.

Ottawa, March 15.—(Special).—A meeting of the Cobalt Lake Mining Company will be held next Thursday in Toronto. The business discussed will be the date of issue of scrip, which is expected to be before the end of the month. The original stock was oversubscribed in Ottawa, and those who put up \$1000 subscribers will receive 3000 shares in issues of 500 for each \$1000 subscribed, and Cobalt Lake subscribers will receive 2500 shares in issues of 500 and one of \$16. There is a large sample ore from Cobalt Lake on exhibition in Ottawa, which assays \$6000 to the ton.

ACCEPTS PRINCIPLE IN PART.

Editor World: I read with much interest the articles which appear frequently in your paper on public ownership. So far I can only see my way clear to accept the principle in part. Public ownership includes municipal ownership and national ownership. The former I can accept, but the latter presents difficulties to me. That cities should own and control their public utilities is evident to anyone who has given the matter careful study. Municipal ownership is a great success in Britain. Over one-half the tramways in England are run by local authorities, and last year only four were failures, while of the other half, owned by corporations, five failed, which proves that, in spite of official disunity, and lack of public utility, of which the opponents of public ownership make so much, public utilities can be managed successfully by local authorities. Public ownership has met with a reverse in London, but that failure proves no more against public ownership than the failure of one of the five tramway companies above mentioned proves against private ownership. If municipal ownership is a success in Britain, there is no reason why it should not be a success in Canada.

But when we come to national ownership, we are up against a different proposition.

Where municipal ownership has been a success it is where the local government took over industries successfully in operation. It is yet to be shown that municipalities can start new industries and run them successfully. It was in its new industries that the London county council failed. The tramway, which the city took over, was managed successfully. Canada is a young country, and is still in the making. Much railroad building yet remains to be done before the country is opened up, and we are just beginning to develop our mines. The question is: Would the country progress as rapidly if the public ownership as under private ownership, as now? Canada is now going ahead with great strides. In a few years she will be able to take her place among the great nations of the world, on a footing of equality, at the present rate of going. Would not public ownership retard that progress? To refer again to the defeat of public ownership in London, it was because the undertaking to make brick, and a few other municipal enterprises failed, that the Progressives were turned down at the last election. It will be years before the ratepayers of London will allow their money to be sunk in any other municipal undertaking because of those failures. In the meantime progress will be a standstill in the same way national ownership would check the country's development. If a railroad, for instance, would prove a failure, the public would raise such a cry about the waste of public funds that the government would not attempt to construct another railroad for years after. It would be the same with the mining industry, or any industry. The public are too fickle and too conservative to enable any government to successfully manage national utilities.

If in the early history of the United States public ownership had been adopted, would that country be what it is today? Would such great railroad systems as those owned by Pullman, Harriman and Morgan be in existence? Would the gold fields that made California what it is today have been discovered, and if discovered, developed, had it not been for the dream of wealth of the individual, and the speculative capitalist, ready to risk all on the chance of becoming fabulously rich? Would the rich oil wells of the United States have been developed to the extent they are to-day, had it not been for the Standard Oil Company, or some other equally enterprising company? And

The recent strike on the adjoining property of two veins of cobalt and silver but a short distance (about 60 feet) from and running directly towards Silver Bird has, in our opinion, really doubled the value of this property.

SILVER BIRD

WILL POSITIVELY ADVANCE TO 25 CENTS ON MARCH 25TH.

Advice from Superintendent Gauthier states that the shaft is now 94 feet deep, that drifting will commence at the 100-foot level, and that he expects to soon be bagging ore for shipment. Supt. Gauthier has had many years of experience in mining, is thoroughly familiar with the formation and conditions, and his opinion and advice can be relied upon.

SILVER BIRD

NOW 15 CENTS PER SHARE.

SILVER BIRD is surrounded by the greatest producing mines in the Cobalt District. SILVER BIRD is absolutely inside property, consisting of twenty acres (patented), being the west half of the northeast quarter of the north half of Lot 3, Concession 6, Coleman. SILVER BIRD is a mine in full operation, with two 25 h.p. boilers, steam hoist, steam drills and all machinery and buildings necessary to complete an operating mine. SILVER BIRD is working two shifts and is in full operation both day and night, sinking upon three veins and in the same formations identically as in the O'Brien, Timmins and Right of Way mines and lying immediately between these mines and the Green-Meehan, Red Rock, Cobalt Contact and Nipissing Extension. The veins are broadening out and are increasing in value with depth, now 94 feet in shaft. SILVER BIRD has no indebtedness; there are no incumbrances against the property or stock of the company. The capitalization of the Silver Bird Cobalt Mines, Limited, is \$1,500,000.00, par value of the shares \$1.00 each, fully paid and non-assessable, and no personal liability, with 500,000 shares in the treasury. The first allotment is now offered to the public for subscription at 15 cents per share. Considering the inside location of the property, development done, results obtained, low capitalization and the large amount of shares in the treasury, this is unquestionably one of the best bargains (if not the greatest bargain) that have been offered in Cobalt mining shares. To guard against over-issue and to guarantee to investors the genuineness of the certificates when issued—also the prompt and safe delivery of same—arrangements have been made with The Trusts & Guarantee Company, Limited, 14 King street west, Toronto, to act as Transfer Agents and Registrars. Orders may be telephoned or telegraphed direct to Law & Co., Traders Bank Building, at the expense of Law & Co. would Klondike and Cobalt be household words to-day throughout the length and breadth of America, had public ownership prevailed in Canada? Or would public ownership have given us the railway facilities that we can now boast of? I think these questions, if we are honest, are answered in the negative.

But once the country is well developed, then, I believe we might, with profit, own and control our national utilities. But in Canada's present stage of development, I am of the opinion that the adoption of public ownership would seriously retard our national progress.

World Label the Tax.

A yacht once sailed by Hon. Edward Blake, The Rivet, now in the Arnot shipyards here, is subject to a suit, whereby Capt. Johnston seeks to libel her for \$400 wages. He called her after she had been bought by F. Berthanger and transformed into a steam tug. She is now owned by Oliver Cabana of Buffalo. Judge Hodgins suggested that a settlement be arrived at, and an effort is being made to this end.

TO PREVENT BRONCHITIS OF CONSUMPTION

Do not neglect a cold or cough no matter how slight, as the irritation spreading throughout the delicate lining of the sensitive air passages sooner or later will lead to fatal results.

If on the first appearance of a cough or cold you would take a few doses of Dr. Wood's Norway Pine Syrup you would save yourself a great deal of unnecessary suffering.

TORONTO, March 16th, 1937.

WILLS & COMPANY, BROKERS, WEEKLY BULLETIN

Wall-street have been slaughtering their own stocks, and it is only natural that Cobalt should suffer with them, but it is truly remarkable how well, with a few exceptions, prices have held.

Nipissing, which is in many hands, has held better than any New York or Canadian stock. In this connection we call attention to the "list of over seventy-five members of the Canadian Mining Institution to be held at the camp. Among these visitors were a half dozen delegates from similar bodies in the United States, and it would be hard to get, under any other circumstances, a better trained and more competent body of mining men. These gentlemen were given the freedom of the camp and offered every opportunity to personally examine all the principal properties. They visited the Nipissing and were allowed to inspect veins No. 40 (big one), 25, 26 and 27. These examinations were most thorough. They also inspected Coniagas, Trethewey, Silver Queen, Wats, Coniagas, Trethewey, Kerr Lake (Jacobs) and without exception were astonished and to a unit they voted the opinion that it was one of the world's wonders. We are able to state as a fact that many of these professional gentlemen placed orders for stocks in the various shipping properties.

It is at last going to have a practical concentrating plant of very large capacity. Contracts have been signed and money paid down and it is a reality and not a dream in this instance. The Cobalt Consolidators, Limited, have the only practical and real process that can be applied to this ore. The average percentage of savings demonstrated by a fully equipped plant, has shown to be over 87 per cent, which is truly remarkable.

Now is the time, bargain time. "Buy," "Buy," "Buy."

Yours very truly,
WILLS & CO.

REDUCTION IN FARES TO MUSKOKA RESORTS

Cut of About Thirty Per Cent. Made, Due to Competition of the C.N.R. Short Line.

As a result of the conference of passenger-officials of the C.N.R., G.T.R. and C.P.R., at Montreal, the fares to points in Muskoka have, it is stated, been slashed on an average 25 per cent. This is due to the competition of the C.N.R. "short line" to centre of the lake district. The C.P.R. expect to operate a train into Bala by May 15, and Muskoka will be the divisional point.

That the rates will be reduced to Muskoka will be welcome news to a number of people, as the rates are not yet announced. The World learns that the following reductions will take place to some of the principal points:

Port Cockburn \$7.05 \$5.25
Perry Sound 9.05 6.80
Barnesdale 7.05 5.15
Yonge 6.85 5.15
Gordon 8.85 6.55
Bala 5.75 4.35
Beaumaris 5.75 4.35
St. Sandus 6.85 5.15
Whitesides 5.75 4.35
Footes Bay 6.55 5.00
The Canadian Northern Ontario people say their motto is "Take care of the Toronto people," and the reduction in rates is certainly a good start; and "That nothing is too good for the accommodation of Toronto travel to the Muskoka lakes."

They have placed orders for perhaps the finest equipment yet turned out for any Canadian line, their parlor cars will be the best that the settled car-builder can evolve. Judging by the cars they are running on their trains now, this is no idle boast, as the equipment seems almost too good for local trains.

Toronto's Line.
That this railway will be the favored line this summer there is little doubt, as it is identifying itself as the "Toronto people's line." Heretofore, Toronto people in traveling to the Muskoka lakes, have had to play a kind of second fiddle to the Americans, as the transportation was not so good as their service entirely to suit the travel coming from the other side of the line. There will be a radical change this summer—the waiting at the lakes, the long hauls for hours, for the arrival of American connections. Passengers will be able to leave here at a reasonable hour and go right thru.

This line runs all along the shores of the Muskoka lakes, running direct to the principal centres; it will mean hours saved in getting to many points that were formerly remote and difficult to reach. These places will be brought so close that cottagers will think nothing of running up and down.

People living at Terrace, Bala, Footes Bay and vicinity, Barnesdale and Gordon Bay for example, will be able to leave Toronto at much the same time as present and be at their homes in time for lunch. From Footes Bay to Port Sandfield, right in the heart of the lake district, will be a matter of less than an hour in a launch or even a row boat. Then, again, Port Cockburn, formerly often not reached at ten o'clock at night, will only be a run of minutes from Lake Joseph station.

Should Boom Muskoka.
With such advantages there will undoubtedly be a largely increased travel to Muskoka, which is the natural playground of Toronto people, especially as it is for its beauty and its climate. It is learned that the Canadian Northern Ontario intend running a fast service. They have the shortest route, a minimum gradient, and their roadbed will be equal to anything in the country. The roadbed will be brought so close that cottagers will think nothing of the adaptation of the latest devices for the comfort of their passengers and elaborate precautions for their safety.

It is well known that a line newly opened cannot operate a fast and at the same time safe service, because the roadbed has to be beaten down by the running of trains, and tested in many ways. The Canadian Northern Ontario, however, will have had nearly a year to prepare their line, and the roadbed heavily ballasted and laid with an eighty-pound rail is now in splendid shape, and will, by the time the tourist season commences, be second to none in the country.

Looking on the situation as a whole, it means a revolution in the transport of tourist travel to the Muskoka lakes and Parry Sound this summer.

Silver Discovery in Hastings.
While the British American Development Company were proceeding with the development of their iron pyrite mine, in Hastings County, near Queensboro, they have opened up a very fine silver vein, which is 18 feet wide at the surface, having a good wall on both sides, and this vein is cutting directly across the iron pyrite formation, running in a direction southeast. Cap rock is diabase, and in addition to this silver lead vein there are three smaller calcite veins also carrying traces of silver.

Several assays have been made, which gives average values as follows:
Gold—70 ounces value \$5.65.
Silver—22 ounces 15 dwts., value \$14.50.
Antimony—4.44 per cent.
Lead—49.88 per cent.; 999.63 lbs. per ton.

This only goes to show the possibilities for further silver discoveries in Ontario, and we have no doubt but that the searching for silver will be continued in this neighborhood when the spring opens up. The County of Hastings is the oldest mining section in the Province of Ontario. Many interesting discoveries have been made from time to time, and there is a good deal of activity shown in the mining business there at present.

Two Million Dollars Thrown on the Dump

That is approximately the value of low-grade, non-shipping ore cast aside by the SHIPPING MINES OF COBALT during the past twelve months.

Ore running less than 100 DOLLARS per ton in value cannot be shipped with profit. TOO MUCH ROCK.

The charges for freight, sampling, smelting and handling eat up the profit. Then too, there are good veins in the vein rock in the drifts (tunnels), which is not removed for the same reason.

CONCENTRATION

All this rock can be treated by concentration; which briefly is a simple process of crushing, grinding and separation of the rock from the mineral. IT'S NO EXPERIMENT. Concentrators are operated at all mining camps. The profits of a CUSTOM CONCENTRATOR ARE VERY LARGE. Ores from the various mines are treated at a price per ton or the DUMPS are bought outright.

We are contracting for a plant at or near COBALT. Sufficient stock has been subscribed to make it a "GO"

THE PROPERTY

The east half of the northwest quarter of the south half of lot 6, in the 6th concession of Coleman Township.
2. The southwest quarter of the south half of lot 7, in the first concession of Bucke.
3. The 40-acre claim in the Township of Coleman, Anima-Nipissing District, adjoining claim No. 1404 1-2.
4. Twenty acres in the Township of Coleman, Anima-Nipissing District being the north half of the southeast quarter of the north half of lot 19, concession 3.
5. One 40-acre claim in the Anima-Nipissing District, being mining claim No. 1404 1-2, known as the "South Claim," situated about three-quarters of a mile west of Bay Lake, and about one mile north of Anima-Nipissing. Total 160 acres.
6. 4000 lots in the townsite of North Cobalt, beautifully situated on the west shore of Lake Temiskaming, containing 600 acres, close to the Green-Meehan and Red Rock properties, and only 300 miles from Toronto, on the Temiskaming and Northern Ontario Ry., and is sure to be the coming summer resort, as there is good fishing, boating and bathing. The finest scenery, most interesting surroundings, and a very bracing climate.
These lots alone, in a year or so, will be worth the full capitalization of the company. The mining properties of this company are far better value than a great number of properties now in the market at double the price, without the townsite, which practically acts as a security, which is sure to increase in value every year, and protect every shareholder in full for his investment, with the chance of making very large money out of the development of the mining property.
Our shares will be increasing in value from year to year, and in three years from now should sell on the open market for \$10.00 a share from the dividend it will then pay.
Parties wishing to secure an allotment can do so by wire or by letter, as there is no doubt every share will be subscribed for shortly. Shares will be issued in the order in which the applications are received.
Call or write for prospectus, reports, maps, etc., giving full information.
All drafts, cheques, etc., may be made payable to the order of OWEN J. B. YEARSLEY.

IN THE HEART OF GOLDEN GOLDFIELD

The Goldfield Somerset Mining Company

OWNING AND OPERATING THE RICH SOMERSET MINING PROPERTIES IN THE HEART OF THE PHENOMENALLY RICH GOLDFIELD DISTRICT—THE GREATEST GOLD MINING DISTRICT EVER KNOWN.

Surrounded by large, rich and valuable mines. In direct line with the biggest producers. Large gold-bearing veins opened up. Ore assays from \$40 to \$80, and is getting richer. It should develop into another Goldfield bonanza. Immense dividends seem certain.

THE Company has lately acquired a number of magnificently located claims immediately adjoining the town of Goldfield on the southwest and the Eastern Star claims a little farther south. These properties, with the extremely well located Davis claims near Diamondfield, make the Company's holdings total 385 acres. A limited amount of the stock is now offered at

17 1-2 Cents Per Share

This price is certain to be advanced again very soon.

The better class of Goldfield stocks are being snapped up as soon as they are put upon the market, and this low priced offering of Goldfield Somerset should be taken advantage of.

Order at once. All stock fully guaranteed and protected by our \$3,000,000 Guaranty Fund.

SYSTEMATIC FORESTRY MOVEMENT ADVOCATED. Ottawa Convention Urges Planting of Trees on Waste Lands and Western Prairies.

Ottawa, March 15.—(Special.)—At the forestry convention this afternoon, a number of important resolutions were passed, the effects of which are as follows: In the older settled districts, great benefits would be derived from a systematic movement to reforest large tracts of land which are lying waste in the agricultural districts.

Therefore, the government, federal and provincial, should be urged to encourage, both by instruction and by giving facilities for obtaining suitable nursery stock, a more general interest in tree planting. Such efforts should be extended to the prairie regions.

Imperfect organic action makes bad blood, so, too, bad blood, in turn, makes imperfect action of every bodily organ. If the blood becomes impure, poisoned or contaminated in any way from constipation, biliousness or any other cause, some especially weak organ must soon become diseased thereby, or the whole system may suffer in consequence.

Pimples, boils, blotches, ulcers, festering sores, abscesses, tumors, rashes or some serious and perhaps incurable blood disease may result. There is no medicine on the market to-day to equal the old and well-known remedy.

PUBLIC OWNERSHIP LEAGUE GETS START AT JUNCTION

S. J. Chubb Elected Chairman of Committee of Ten to Assist Central Organization.

Toronto Junction, March 15.—(Special.)—The Public Ownership League of Toronto Junction was well started to-night, the public meeting called by the mayor in the town hall being largely attended.

A committee was formed to represent the Junction on the central committee, as follows: S. J. Chubb, R. Stretton, Dr. R. R. Hopkins, John Brown, Mayor W. A. Baird, W. R. Shephard, R. G. Agnew, J. G. Wright, William Pears and S. Rydings.

S. J. Chubb was elected chairman; R. Stretton, vice-chairman; J. G. Wright, secretary, and R. G. Agnew, treasurer.

Mayor W. A. Baird presided, and Jos. Cross was appointed temporary secretary. The mayor said he had acceded to the request of a number of citizens who favored the organization of a Public Ownership League in Toronto Junction.

The mayor declared that he did not know of any movement that was receiving the same attention from the public as the question of public ownership. While public sentiment was strongly in favor of the idea there would be honest difference of opinion when it came to putting it into effect, and the only way to crystallize opinion and make an attempt to put public ownership into effect was to organize.

Watery Blood

Nerves are Weak Face is Pallid You Lack Strength You Look Sickly.

Until You Ironize and Fortify the Blood There's No Hope of Cure.

Thousands of tired workers need the invigorating strength, the nerve-force which Ferrozone can supply.

Ferrozone imparts strength because it nourishes.

Ferrozone is able to nourish because it supplies to the blood the elements it lacks.

Once the blood is vitalized, its tonic influence is circulated to every nook and corner of the body, carrying new life with it.

Cases on record prove that Ferrozone builds up when everything else fails. Mr. Alonzo W. Douglas of Woodbridge, Ont., says: "I desire to state the results I derived from the use of Ferrozone. Two years ago I was stricken with pneumonia. So severe was the attack and so reduced was my strength that my life was despaired of. I had the very best medical attention, but made no progress towards recovery. When reduced to practically a skeleton, a kind friend told me of the remarkable powers of Ferrozone. An improvement began almost at once. I gained steadily in weight and strength until Ferrozone made me a new man. I will gladly answer inquires from other sufferers if they care to have further particulars about my recovery. Ferrozone deserves its great measure of success."

When a man in Mr. Douglas' low condition can be quickly cured, aren't the chances good for you? Don't fail to try Ferrozone. Price 50c per box at all dealers.

ownership into effect was to organize. Not Extremists.

J. H. Duthie, a member of the South Toronto executive, addressed the meeting, explaining the purpose of the promoters of the league. He said it was hardly likely that the people of Canada would favor putting public ownership into effect in its extreme form. He believed, however, the great majority of the people were in favor of at least the operation of many public utilities by the people. There was nothing particularly good in connection with the private ownership of such utilities as telegraphs and telephones. He criticized the Toronto Street Railway system and referred to the condition of some of the big carrying companies. The failure of the railways recently was not due so much to stress of weather as to the failure of the companies to supply sufficient motive power.

The railway commission of Canada was a failure, Mr. Duthie declared. It was to protect the people and to control the rates, and also to have been in existence since 1902 had failed to perform the duties for which it was appointed. It had never undertaken to analyze or criticize the tariffs submitted by the carrying companies.

The Public Ownership League was not looking so far ahead as the government should not exercise this control. The duty of the people of Canada, in Mr. Duthie's opinion, did not end with the election of members of parliament. It was their duty to force their representatives to do their duty.

The mayor took exception to that portion of Mr. Duthie's speech referring to the railway commission. He said the commission had visited Toronto Junction and its subsequent action met with popular approval.

Mr. Duthie explained that he did not mean to say the commission had done nothing, but that it had failed to do what it was appointed to do.

J. M. Wilkinson of the Toronto committee explained the plan of organization which was carried out in Toronto and was followed by W. A. Sherwood of Toronto, who gave an excellent address on the success of public ownership in Glasgow and New Zealand. In Canada, he declared, the corporations owned the government.

All Favor League. A resolution submitted by John Brown, and seconded by Councilor Irwin, that the meeting approve of the public ownership of all utilities that are natural monopolies, was carried unanimously, after a gentleman named Murray had called for something definite from the promoters of the meeting. While he believed all were in favor of public ownership, he did the league propose to take them?

Col. Belcher, mayor of Southampton, was invited by the chairman to speak, and he declared himself a believer in public ownership of many years' standing. Thirteen years ago he had been instrumental in having a by-law passed to buy the lighting plant in his town of Southampton, but his successor had the utility placed in the hands of a private corporation and the town had been suffering ever since. This movement would surely touch the hearts of the people of Canada.

The selection of the committee to represent Toronto Junction on the Central League was then proceeded with, and about twenty names were suggested. Afterwards this list was reduced to ten, and these were declared elected.

TENDERS WANTED.

Tenders, in whole or part, will be received by the undersigned up to March 16 (Saturday) at 10 o'clock, at the Cut Stone and Brick Building at Toronto Junction for the Bank of British North America.

North Toronto.

The death of Colin Skinner, one of Toronto's oldest citizens, occurred Thursday, at the home of his daughter, Dr. Skinner, Carlton-street, Toronto. Deceased at one time conducted a large business at a florist in Davisville, but had for some years been living a retired life. He is survived by three daughters, Mrs. J. Trethewey and Mrs. Skinner, city, and Mrs. Nesbitt of North Toronto.

The town's private bills passed the committee stage in the legislature, and the following applications were granted: To confirm the tax sales; to change the multiple election day to New Year's Day; and to relieve the ratepayers on the side streets from paying towards the maintenance of the Young-street lighting, if such side streets will be illuminated by electricity on the improvement plan. The clause providing for an extension of time for the returning of the assessment roll from July 1 to 15 was thrown out, on the ground that if the change would be equally beneficial to others, and the time uniform over the whole province.

Rev. D. C. Hossack, M.A., LL.B., will deliver a lecture in the Deer Park Presbyterian Church on Tuesday evening. His subject will be "Present Day Problems." Musical selections will be given by Miss Mackenzie, Miss A. M. Murray and Mr. N. T. Ives and others. The proceeds are in aid of the mortgage interest fund.

Montreal Agent of Trappists Monks Tried to Boon His Business.

Montreal, March 15.—(Special.)—Joseph Motard, senior partner of the firm of Motard, Fils & Senecal, 5 Place Royale, importers of wines and liquors, and agents for the Trappists Monks of Oka, has been arrested on a charge of forging notes on the Molsons Bank to the amount of nearly \$40,000.

He has admitted his guilt, and says the greater part of the money was spent in advertising his business. He stated that the notes are for sums ranging from \$100 to \$200, to which his customers forged names of his regular customers.

Motard tried to raise the money to cover the forged notes, but without success.

Sifton Says This Will Call for Different Class of Immigrants.

(Canadian Associated Press Cable London, March 15.—Hon. Clifford Sifton, interviewed, said that the time was approaching when an entirely new chapter in the development of Canada would be opened. This will call for the presence of a class of British people quite different from that now emigrating. It also would be accompanied by the introduction of capital to develop Canadian industries. "But you must not expect to see matters hurried," he said.

INSINUATION OF IMMORALITY LEVELLED AT MINISTERS SHOULD BE MADE GOOD, SAYS STAR.

Montreal, March 15.—(Special.)—The Star to-night under the caption "Laurier and Borden Should Act" editorially says:

There are two men whom the country in special degree holds to be responsible for the tone of parliament. These two men are Sir Wilfrid Laurier and Mr. R. L. Borden. They have in their hands, by common consent, certain powers which no other two men possess. They can purge parliament of an undesirable member, if they act together. They can punish—by the same co-operation—men who are guilty of persistently lowering the tone of debate. They can declare, when a member has taken a position that he shall make good his words or retire from the house.

All this being true, the country looks to these two leaders to clear the good name of parliament with respect to the unmistakable threat of Mr. Fowler to reveal the connection of certain ministerial members with women, wine and graft in case what has been described as his own private business is not left alone by his opponents.

The threat was startling enough, but what has amazed and aroused the country is the reception which has been met by the grosser insult could have been met by the faces of the ministers and their supporters, and yet they received it with a mildness which would have been twitted with going to sleep in church.

Fowler's Insultations.

There is no mistaking the meaning of Mr. Fowler. His insinuation is an insinuation of immorality. It is leveled against ministers, of whom there are only about a dozen in the house of commons. It also includes the ministerial members who offer a wider target, but whose names are not mentioned, or at least, withdraw them, so far as they themselves are concerned. Conscious innocence should have arisen on the instant and demanded the dismissal of Mr. Fowler from the house. If he failed to establish his debasing insinuations.

But nothing has happened. Mr. Fowler goes about the country explaining that this is merely a "serving notice" to the ministerial members to keep their tongues off his private affairs, and the country cannot help perceiving that this is precisely what the ministerial members are doing. They could not very well act differently if they were not mortally afraid of Mr. Fowler's data.

The insurance commissioners' report, for which some of them professed to be waiting, is now down, and is printed and in the hands of the members. Yet, nothing is being said against Mr. Fowler, and this is precisely what the statement that nothing is being done with the report at all this season.

Meanwhile the country stands watching the affair in exasperated indignation. It is heartily ashamed of the insinuations which can contain at once a man who accuses his fellow members of connection with women, wine and graft, and the men he accuses, and can do so in a quiet, friendly fashion, for all the world as if nothing had happened. But what can the country do? Mr. Fowler's insinuations are not to be denied. He has not only accused, but he has also shown that he is not only ready to defend, but that he is now ready to defend. For all the people know, they have accepted Mr. Fowler's proposed saw-off of unsavory details. Apparent as they are, he has decided not to touch on the other and to join forces in the despicable game of footsie with the people.

Look to Leaders.

In its helplessness, the country looks to the two men who are guaranteed to be held on this occasion, Sir Wilfrid Laurier and Mr. Borden. Sir Wilfrid Laurier should at once give Mr. Fowler the choice between proceeding with his charges and retiring from parliament. In this step he should have the hearty and determined support of Mr. Borden. Mr. Borden, on his part, should tell Mr. Fowler and tell him in public—that he cannot bring such foul insinuations into the air, and then leave them unsupported by more definite charges, and sworn testimony, and still remain a member of any party which Mr. Borden will consent to support.

"The name of parliament ought to be cleared, and it ought to be cleared before the session of parliament is opened. It is the duty of the government to clear the name of parliament, and it is the duty of the government to clear the name of parliament."
