SECOND SHOOTING AT FALLS.  
Italian Saloonkeeper Fata Bullet Through  
Customer's Arm.  
NIAGARA FALLS, N.Y., July 22.—  
After a controversy over the genuineness  
of a coin offered for beer, James  
Henry was shot in the arm by the  
proprietor of the saloon, an Italian,  
who fled. Mayor Douglas, in an auto,  
headed a posse in pursuit, but without  
success late to-night.

At Akron, a village on the county  
line, Stephen Davis, aged 29, was shot  
through the chest by an Italian and may  
die.  
P. C. McCormick, shot here early  
this morning, is dead.

U. S. Court of Appeals Decides  
That Judge Landis Should  
Not Have Mulcted  
Standard Oil Co.  
\$29,000,000.  
COMPANY SHOULD HAVE  
A CHANCE FOR DEFENCE

CHICAGO, July 22.—By unanimous  
opinion of the United States Court of  
Appeals for the seventh district, the  
famous case of the government against  
the Standard Oil Co., in which the  
latter was fined \$29,240,000 by Judge  
Landis in the district court, must be  
retried.  
It has already cost the country \$200,-  
000. In the meantime, there will be an  
appeal.  
The court of appeals differs with the  
trial court on three vital points, hold-  
ing that Judge Landis excluded evi-  
dence for the Standard Oil Co. of In-  
diana which should have been admitted  
to show proper intent in the rate the  
company paid on oil; that he erred in  
considering each carlot a separate of-  
fense; and that in imposing the maxi-  
mum fine for a first offence he abused  
the discretion vested in his court.

It is strange doctrine, says the opin-  
ion, whereunder a million dollar cor-  
poration such as the defendant, the  
Standard Oil Co. of Indiana, may be  
fined 29 times the amount of its capital  
stock in order to punish a defendant  
not even under indictment. By this  
latter is meant the parent company,  
the Standard Oil Co. of New Jersey.  
The decision, concurred in by Judges  
Baker and Seaman, was delivered here  
to-day by Judge Grosscup, its author.  
The concluding sentence reads:  
"The judgment of the district court  
is reversed, and the case remanded,  
with instructions to grant a new trial  
and proceed further in accordance with  
this opinion."  
The new judgment.  
The opinion begins with a brief  
statement of the manner in which the  
case was brought from the district  
court to the court of appeals. Section  
6 of the Interstate Commerce Act, re-  
lating to the publishing and filing of  
rates, is quoted and the opinion con-  
tinues:  
"There are 169 assignments of error,  
taking up 67 pages of printed record.  
In view of the conclusion, however,  
which we have come to, it is necessary  
to review many of these assignments  
—the ones reviewed covering all the  
propositions of law that we deem es-  
sential to the guidance of the district  
court in the event of a second trial."  
The opinion quotes Judge Landis' re-  
charge to the jury, in which the dis-  
trict judge declared that the wheat  
defendant accepted a concession  
knowingly and that the defendant had actual  
knowledge of the law.  
On this phase of the case the opinion  
of the court of appeals declares:  
"In this interpretation of the inter-  
state commerce law, so far as it re-  
lates to shippers, we cannot con-  
cur. The cases cited by the government,  
such as those requiring liquor sellers

28TH YEAR

CANADA'S GREETING.  
"We rejoice to welcome, in the person of Your Royal Highness, the rep-  
resentative of our beloved sovereign. Your Royal Highness, who  
we are glad to know is no stranger to Quebec, will not fail to recall  
the rich memories of its storied past. We cannot doubt that Your  
Royal Highness will agree with us in believing it fitting that the  
ground upon which Montcalm and Wolfe strove with equal valor  
should be set apart as a perpetual memorial."

THE PRINCE'S REPLY.  
"I am greatly touched by the loyal and sympathetic words of your ad-  
dress. Here in Quebec I recall with much pleasure the no uncertain  
proof which I have received on my several visits to Canada of the  
loyalty of the King's French-Canadian subjects. I cordially agree  
with you in the propriety of calling apart, as a memorial for present  
and future generations, the battlegrounds of the Plains of Abraham.  
I shall not fail to convey to my dear father, the King, who takes  
the deepest interest in this celebration, the gratifying expressions of  
your loyalty."

BANKERS ESTIMATE CROPS  
ARE WORTH \$140,000,000

Also of the Opinion That Farmers  
Will Want to Cash in Early and  
Will Thus Facilitate the Moving  
Process.

MONTREAL, July 22.—(Special.)—  
The banks and other financial institu-  
tions of the city, which are so much  
interested in the crop reports daily  
coming from the three western pro-  
vinces, are inclined to the belief that  
if the weather continues good and the  
heated terms prevalent in some of these  
western districts do not engender hail-  
storms, there will be a crop of wheat  
well on the 120,000,000 bushels.  
Some have mentioned 80 cents as a  
prospective price for the present year's  
crop, but the money people, who are  
very much interested in the handling  
of the western crop, think that 75 cents  
will be a good price, which, for 120,000-  
000 bushels, will total up the splendid  
figure of \$90,000,000 for wheat alone.  
At one of the leading banks the officials  
are also looking over the area under  
oats, barley and flax, with the result  
that the acreage under oats is placed  
at 2,607,000, with 150,000 acres  
under barley, and 155,000 acres of flax.  
They claim, therefore, that the pros-  
pective figures out that the wheat,  
barley and oat crop of the Canadian  
west this season will at least foot up  
to \$140,000,000.  
The estimate was also made that it  
will require at least \$50,000,000 to move  
the coming crop.  
James Elliott, general manager of  
the Moisons Bank, stated that if the  
farmers will sell their grain as it be-  
comes ready for the market (and he  
thinks they will), the Canadian banks  
will be able to handle the immense  
crop without in the least interfering  
with the general business of the coun-  
try, and he also opines that the dif-  
ferent railway companies are in the  
same position as the banks. If, how-  
ever, the farmers hold back for fancy  
prices, which scarcely ever come, he  
believes that the removal of the west-  
ern crop will be made with difficulty  
and that abnormal conditions may be  
created. He thinks, too, that 80 cents  
is a pretty high figure to speak of at  
present.  
The dealers generally, and those well  
up in present conditions in the North-  
west, are backing up the money interests  
in the belief that in the whole of the  
western farmer will be in need of money  
early in the season, and that sales will  
be general very soon after the thresh-  
ing has done its work on the prairies of  
the west.

THUGS SHOOT  
11 PERSONS  
Boston Suburb is Terrorized  
By Two Men Who Use Fire-  
Arms Recklessly—  
Four May Die.

BOSTON, July 22.—Eleven people  
were shot to-night, one of them fatally,  
and two probably fatally, by two  
desperadoes, who, pursued by police-  
men and a crowd of citizens, fled for  
two miles thru a thickly settled dis-  
trict of Jamaica Plain, firing madly  
right and left, disappearing later in  
the woods near Franklin Park. The  
men are believed to be two of the gang  
of three who last night robbed a saloon  
in Jamaica Plain after shooting and  
killing one man and wounding two  
others.  
Mrs. Della Fallon of South-street was  
standing in front of her home with  
her baby in her arms, when the two  
men, pursued by a crowd, came down  
the street. As they passed by, one of  
the fugitives fired a shot which en-  
tered her head. She is in a critical con-  
dition.  
Herbert E. Knox, 42 years old, night  
watchman at the Forest Hills cemeter-  
y, and Edward McMahon, 21 years  
of age, a policeman, both received  
shots in the abdomen. Knox died lat-  
er and McMahon is not expected to  
survive the night.  
Others wounded are Patrick McGinn,  
shot in the side; Michael Flynn, slight-  
ly wounded in the head; Policeman  
Thompson, shot in the leg.  
It is believed that the desperadoes  
lay concealed in Calvary cemetery to-  
day while the police were hunting for  
them on account of last night's hold-  
up and robbery.  
Bold Outbreak.  
Driven from their hiding place by  
hunger, and fearing that they would  
be surrounded by the police, the two  
men appeared on Charles-street in Ja-  
maica Plains at about dusk and pro-  
ceeded to "shoot up" the town. They  
looked like foreigners and were rough-  
dressed. Some citizens who had been  
assisting in the hunt for robbers saw  
the men and tried to intercept them,  
whereupon the two started to run and  
with a revolver in each hand fled  
along Charles-street south to Lee and  
Key-streets, firing at every person in  
their path.  
Mrs. Fallon was the first wounded  
policeman Inagals was shot next and  
then Messrs. Moore, Flynn, McMan,  
Noan, Fleming and Policeman Cox  
received bullets in succession during  
the flight of the men to Franklin Park.  
"All along the line of the residential  
district the stoops of the houses were  
black with people enjoying the cool  
evening air, while the streets of the  
business section were filled with the  
usual throngs. The appearance of the  
two desperadoes shooting to each side  
as they ran and shouting as if crazy,  
caused a general stampede for cover.  
Michael Flynn stopped to pick up a

PIES  
Arguments for Standardization  
of the Pastry Product.

"Every man who don't luv pl wants  
watching class, as he means to do  
something mean the fast good chance  
he can get. They are vittles and drink,  
they are joy on the half-shell they are  
glory enough for wun day, and they  
are good hold or warmed up."  
"PI is the oldest American beverage  
I know, and ought to go down to pos-  
terity with the trade-mark of our  
grandmothers on it." Josh Billings.  
The World's campaign for more pie is  
attracting attention, not only in Tor-  
onto, but in places like Deseronto,  
Barrie, Hamilton, and other centres  
where, it seems, pie is also one of the  
staple articles of food. The cry goes  
up from many throats for the "stan-  
dardization of pie. No more sixths or  
sevenths or even fifths. What the great  
mass of consumers want is the quarter  
section of pie—the quadrant, and they  
must get it."  
The pie reporter had a talk with the  
sales agent of the Kemp Manufacturing  
Co. yesterday and was told there  
was no uniformity with regard to the  
size of pie plates sold by the trade.  
The Kemp Company makes other  
things than pie plates, but it turns out  
annually about 2000 dozen of these of  
all sizes from the mesage 6 inch plate  
to one having the ample diameter of  
11 inches. The principal run, however,  
is with 9 and 10 inch plates. These  
go to the wholesale dealers, who job  
them out in lots to the pie bakers.  
There is also a large sale of 8 inch  
plates. A few bakers use the 11 inch  
plates, but these go mostly to the  
country trade, where the pie consumer  
wants more for his money than the  
city chap demands.  
Fancy an unsophisticated youth  
had loaned his watch to a confidence  
man who promised to bring it back  
in five minutes.  
He might be disposed to "equal," but  
he knows enough about city life, per-  
haps, to realize that his watch would be  
unto music to a gambler's ears.  
Even the chap doesn't like to  
"make a bolter" when he gets the short  
end of a five cent pie deal. He is getting  
used to it anyway. Sometimes he gets  
a quarter of an 8 inch pie, sometimes  
a sixth of a 10 inch pie, and sometimes  
a fifth of a 9 inch pie, and he doesn't  
know when he pays for his lunch  
whether the cashier is an expert in

IMPERIAL HONORS  
FOR SEVERAL  
NOTABLES  
Peerage for Sir Wilfrid and  
Knighthoods for Whitney  
and Gouin, Says Little  
Bird at Que-  
bec.

QUEBEC, July 22.—(Special.)—Those  
who are in the inner circles are quietly  
discussing the prospects of imperial  
honors being bestowed on distinguished  
Canadians in connection with the ter-  
centenary.  
It is even said that the Prince of  
Wales will confer several honors, in-  
cluding a peerage to Sir Wilfrid Laurier,  
before he leaves this port for  
England.  
One day last week the two leading  
French-Canadian papers of Montreal,  
viz, La Presse and La Patrie, had on the  
same night editorials that read very  
much as if from a common inspiration.  
They were to the effect that King Ed-  
ward, thru Lord Minto, had offered a  
peerage to Sir Wilfrid Laurier some  
years ago and that it had then been  
declined, but that in all probability  
the offer would be renewed at Quebec  
by the Prince of Wales, acting directly  
for the King.  
One of the papers went so far as to  
say that it had no doubt of the previous  
offer, inasmuch as it had seen the  
private correspondence. Both papers  
wrapped up their articles by saying that  
as the honor was intended as much  
for Canada as for Sir Wilfrid, he would  
be in duty bound to accept the compli-  
ment. These two articles were so dis-  
tinct and pointed that people here  
imagine that something along that  
line will happen next week.  
There is also a good deal of talk  
about other honors that will be be-  
stowed by His Royal Highness before  
he leaves. It is likely that Mr. Gouin,  
premier of Quebec, and Mr. Whitney,  
premier of Ontario, will be knighted,  
and both are here for the celebration.  
It is also likely that some of the  
battleground commissioners will be  
knighted, including Mr. B. E. Walker  
of Toronto, no need the public be  
surprised if Mr. C. M. Hays of the Grand  
Trunk and Mr. William Mackenzie of  
the Canadian Northern are also hon-  
ored.  
The names of at least half a dozen  
others are mentioned.

"I look forward with keen in-

which the past and present will  
appear before us upon a stage of  
unsurpassed natural beauty."

"And here in Quebec I recall  
with much pleasure the no uncer-

on my several visits to Canada  
of the loyalty of the King's French-  
Canadian subjects."

"I cordially agree with you in  
the propriety of calling apart, as a  
memorial for present and future  
generations, the battlegrounds of  
the Plains of Abraham, hallowed  
by the association of past years,  
and I heartily congratulate all  
concerned in this noble undertak-

attended their patriotic efforts."

"I much regret that my present  
visit cannot be extended be-  
yond Quebec, and also that the  
Princess of Wales was unable to  
accompany me on this occasion.  
We both retain the happiest recol-  
lections of our stay in Canada  
seven years ago and of the kind  
and affectionate welcome we ex-  
perienced during that most inter-  
esting and enjoyable visit."  
"I shall not fail to convey to  
my dear father, the King, who  
takes the deepest interest in this  
celebration, the gratifying expres-  
sions of your loyalty and attach-  
ment to his throne and person, of  
which His Majesty is well assured."  
"Once more I thank you from  
my heart for your kindly greet-  
ings."

QUEBEC, July 22.—(Staff Special.)—  
When in days to come the government  
of the British Empire moves its head-  
quarters to Canada, the future centre  
of its population and influence, Quebec  
may assume a more magnificent array  
than was presented by the hoary old  
city to-day. But it is difficult to im-  
agine, and the present generation can  
never expect to see anything more im-  
pressive, more impressive, or more com-  
pletely adorned with those accessories  
of weather and season which crown  
such an occasion with success, than  
was seen to-day.

Long before the battleship indomit-  
able, with the prince on board, and her  
consort, the Minotaur, were sighted,  
the broad promenade and sloping hill-  
side were dotted with thousands of  
eager onlookers. As the minutes went  
by the clustering groups grew more  
numerous, until it appeared as tho all  
Quebec, in gala attire, and the thou-  
sands of strangers within her gates,  
had massed themselves on the broad  
walk before the Chateau Frontenac, on  
the incliney street, with fragments of  
slate, mounting up towards the sum-  
mit. Every sign of vantage was used  
despite the discomforts of position and  
the weary days of a blazing sun.  
A fog down the river delayed the ap-  
proach of the prince's man-o-war for  
about half an hour. At 2.30 she was  
observed off the Indian Cove, and fol-  
lowed by the Minotaur and making a  
wider curve than usual, she steamed  
into mid-stream and then, coming up  
sharply and answering the salute of a  
ferryboat, she swept majestically up  
the river. The tide was just on the  
turn, and perhaps for this cause, the  
ship was pointed north-west again,  
before steaming up to her anchorage.

The slight misadventure at this  
time was one to stir national pride and  
patriotic fervor. The rival scenes of  
Oibraltar, or Point Loma, or Adam's  
Peak in Ceylon, or Lewis and Clark  
at Edinburgh, or the Cavehill, Belfast,  
have nothing to exhibit more excellent  
than the estuary of the St. Lawrence.  
The sun, after a night of drenching  
rain, ceaselessly splattering from mid-  
night till 8 in the morning, now shone  
in strength and clear shadows chased  
across the broad river bosom. The  
quaint roofed houses, heaped together  
on the hillside, or lying shapelyly at  
the foot of the rocks, spoke of an an-  
cient town, and beyond to the north,  
where the level plain meets the river,  
the Laurentians more blue than purple  
in the haze of the distance, arose  
from primeval fire, range after range,  
a fence to the Arctic world.

Band music rose out of the clustered  
houses. The Union Jack flew high and  
bright from the Garrison Club, the city  
hall, and the Chateau Frontenac. With  
great bad taste, a commercial firm  
made a blot on the white canvas of  
advertisement. Down in the harbor,  
civilization frowned in the ocean homes  
of the big navy guns. The water was  
with its dark woods and spreading  
streets, and dim hills lay like faint  
shadows in the far south.

When Moses gazed from Dan to  
Beersheba, he had no such vista to  
enchant him as Champlain must often  
have looked upon from the heights of  
Quebec, and the scenery was as one  
of the noblest, the most pulsant George,  
Prince of Wales and Lord of the Isles, was  
come to visit his inheritance of the  
north and west.

Tribute From Three Nations.  
A gun from the Citadel gave the  
signal. The British flag followed.  
The United States battleship  
"New Hampshire" was not a second  
behind. Out crashed the royal salute  
from ship after ship, and the air  
echoed and roared with the clangor  
as the three great nations joined their  
artillery in solemn salutation. France  
and America and Great Britain were  
and they flung their colors in lavish  
beauty over the monster craft and  
lined their bulwarks with ranks of  
weavers set like rows of pearls in the  
gleamless grey.  
And thru the noise of the guns, up  
on the Citadel hill, on a telegraph wire  
sat a song sparrow and warbled his  
sweet little note. One might have in-  
vented the incident, but the crowd  
heard him as he sang, "Canada, Can-  
ada, Canada."  
It was just after 4 o'clock when the  
official visits having been paid the  
Prince of Wales boarded a small, green  
painted launch and steamed for the  
King's wharf. Sir Wilfrid Laurier  
and the cabinet ministers met him at  
the stage. Capt. Newton led the way  
from the launch, and Col. Hanbury  
Williams followed. Earl Grey, Earl  
Roberts with Countess Grey, Lieut-  
Col. Septimus Denison, Sir Assthorpe  
Sturton-Hove and Brig. Sherwood pre-  
ceded the prince, who was received  
with the royal salute from the Ottawa  
Regiment and band.  
Lord Roberts wore five stars and a  
dozen or more medals. All the not-  
ables on the wharf cheered like school-  
boys as the royal banner was un-  
shipped, and the prince mounted the  
gangway. He decided at once to in-  
spect his regiment (the 43rd Ottawa),  
and marched up and down the ranks  
before proceeding to the pavilion. He  
was dressed according to his rank as  
rear-admiral, and wore the broad blue  
ribbon of the Garter, besides many  
other orders. His beard was closely  
cropped, and his blue eyes shone blue  
than usually, as if the Atlantic had  
imbued them with its waters.  
He listened most attentively to the  
address read by Sir Wilfrid in Eng-  
lish and then in French, and replied

Hamilton Happenings WANT 3 MORE FIREMEN TO INCREASE TIME OFF Proposed to Give Men One Day Off in Six—Double Drowning in the Bay—Happenings.

HAMILTON, July 22.—(Special.)—Arrangements were made by the fire and water committee this evening to give the firemen more time off duty. Now they get one day in eight, and it is proposed to give them one in six. In order to do so three more will have to be added to the strength of the department, and the council will be asked to sanction that course.

Double Drowning. Peter Sauve and Alex. Wilson, Chippewa, two workmen employed by Contractor Dickson, on the beach piers, were drowned his afternoon. They rowed out from the piers in a boat heavily loaded with apparatus, but the boat sank. Their bodies were recovered, locked in each others arms.

Local Shareholders of the Westinghouse say they cannot account for the rise in the stock from 64 to 89. Bruce Blaisdell, 123 West Hunter-street, won the prizes given by Col. J. M. Gibson for the pupils who take the highest standing in the entrance examinations.

Now open for reception. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. Geo. Midwinter. Phone 462. 127 Adelaide-st. Skidden & Son, Painters, Decorators, Paperhangers. 163 King-street W.

Body Guard Moonlight Friday, July 24th, via steamer Cayuga.

WONT GIVE EMPLOYEES' NAMES FOR ASSESSMENT PURPOSES. OTTAWA, July 22.—The government heads of departments decline to give the city the list of employes for purposes of assessment. Ordinary employes are liable to a penalty for such refusal, and the city will try to find out if the government is exempt.

Attempted Murder or Suicide. HAKENSA, N. J., July 22.—While more than a hundred men and women were waiting for a train for New York at the Ridgeland Park station early to-day, they were frightened to the verge of panic when one of two men who had been chatting on the platform, suddenly drew a revolver and began to shoot at his companion. Only one of the four bullets took effect, and that caused only a flesh wound. When only one bullet remained in the revolver, the assailant shot himself, dying instantly. The suicide was a jeweler named Bargmann, who had been employed by Tiffany in New York. His companion whom he attempted to kill is John Van Pessel, foreman of the department where Bargmann was employed.

Distinguishing Offences. Taking up the question whether each shipment constituted a separate offence by which interpretation of the law Judge Landis imposed the largest fine in the history of the Standard Oil Co., the court has this to say: "The measure adopted by the trial court was wholly arbitrary—had no basis in any intention or fixed rule discoverable in the statutes. And no other way of measuring the number of offences seems to have been given a thought either by the government or the trial court."

BUTCHERS' PICNIC. MECCA FOR 10,000. Thos. Fearman at 60, Dresses Beef in 5 Minutes—Some Fast Horse and Foot Races.

At 10 years of age Thomas Fearman can still give the young fellows a lesson in speed, in the matter of killing and dressing a beef. Yesterday, before a crowd of 10,000 spectators, who were a crowd of 1000 spectators, who attended the butchers' annual picnic and barbecue at the exhibition grounds, he knocked down, bled, skinned and dressed an 800-pound steer in five minutes and 25 secs.

CHICAGO, July 22.—Following closely upon the decision of the United States Court of Appeals to-day reversing the decision of Judge Landis in the government suit against the Standard Oil Co. of Indiana, The Daily News to-day says: "Bankers who have close affiliations with the Standard Oil Co. state that that organization will soon announce an increase in the capital stock of \$100,000,000, making a total capital stock of \$600,000,000.

Effect on Wall Street. NEW YORK, July 22.—Wall-street was on the alert this morning for a decision in the Standard Oil appeal from the Chicago to-day. The news of the decision was rushed about the financial district by numerous couriers and stirred the stock market as the organized market had been given out that the large increase in capital is a diplomatic movement in order that the dividends may not look so large.

TO LAY OFF BIG LINERS. Lusitania and Mauretania to Have Two Months' Rest. NEW YORK, July 22.—It is announced that both the big turbines, the Lusitania and the Mauretania, will be laid off the last of October for two months. During this rest they will be completely overhauled. The Mauretania, which for three voyages has been running with only three propellers will ship a forward port propeller on her dead shaft. It is not probable that, like the Lusitania, she will have four-bladed propellers substituted on her forward turbines for three-bladed screws.

Virginia Harned Asks Divorce

NEW YORK, July 22.—Virginia Harned, the actress, is in Reno, Nevada, where she has brought suit for divorce against E. H. Sothorn, who, since the death of Richard Mansfield, has been regarded as the foremost actor on the American stage.

Under the Nevada laws incompatibility of temper is cause for absolute divorce. Miss Harned's suit is based on that. Mr. Sothorn accepted service of the papers in the suit about two weeks ago and then left the Hotel Netherlands, where he made his home for the last year whenever he was in New York.

Divorce proceedings by one or the other of the Sothorns have been expected for a long time, though the rumor arose, as it did many times in the past two years, Mr. Sothorn always loyally sought to make it appear that his married life with Miss Harned was most happy.

It is true that Miss Harned and I are living apart as we have been for years. Mr. Sothorn said at that time, "She is in receipt of a monthly allowance from me, but I have no thought in the world of bringing suit for divorce, and I am almost equally sure she has no such intention either."

The fact that Mr. Sothorn and his wife were separated was well known. Several years ago Mr. Sothorn purchased a fine residence at No. 37 West 64th-street, which he fitted up most elaborately.

Mr. Sothorn and Miss Harned were quietly married in Philadelphia on Dec. 3, 1896, where Mr. Sothorn at the time was playing "An Enemy to the King."

At that time and for several years previous Miss Harned was his leading lady. She continued in that capacity for a number of years, and when they finally started separately Mr. Sothorn explained the matter by saying his wife did not care for the Shakespearean roles, which his repertoire of plays required to be filled.

Thirteen years ago Miss Harned has been one of the prominent women on the American stage. Little is known of her earlier life. When she made her debut on the professional stage in 1887 she was described as a Boston girl who had achieved success in amateur theatricals.

Prior to her professional career she was married and had her first husband named Hicks. It was as Virginia H. Hicks that she married Mr. Sothorn.

Miss Harned was a success as an actress almost from the outset of her career, but she achieved her widest fame in 1895, in the title role of "Trilby," appearing in Paul M. Potter's dramatization of Dr. Maurier's famous novel.

She toured the country in "Camille," playing in almost every city and town. Early last season, under the management of the Shuberts, whose chief star was Mr. Sothorn, her husband, she appeared in a very expensive production of a dramatization of Tolstoy's "Anna Karenina," which, however, because of its heavy cost, was not a financial success.

When the Shuberts decided to revive "Camille," she objected, and in consequence she and the Shuberts separated.

Miss Harned is a son of the famous actor, E. A. Sothorn. He is an actor of wide versatility, and is regarded as the ablest exponent of Shakespeare on the American stage.

Mrs. Stikeman is spending a few days at the Queen's Royal, Niagara-on-the-Lake.

Mr. Nicol Kingmill, Miss Maund Kingmill and Mr. Galt Kingmill are sailing on Wednesday for England.

Rev. J. H. Starr. The Rev. Joseph Herbert Starr passed peacefully away at his home, 394 Markham-street, yesterday afternoon, at the age of 78 years, old age and a general breaking up of the system being given as the cause of death.

The late Mr. Starr had passed a very eventful life, having spent 23 years in active service in the Methodist ministry, his last charges being of Collingwood, Newmarket and Whitby, from which place he was supernumerated.

He was born on Feb. 23, 1830, and preached his first sermon when he was only 18 years old, being ordained some four years later. In his earlier days, in Nova Scotia and Cape Breton, he had ridden from 6000 to 7000 miles a year, while pursuing his work as a circuit preacher.

The funeral will take place at Whitby, on Friday morning, and will be private. Friends are requested to send no flowers.

King in His Own Domain. Michael O'Dea, who has lived on Logan-avenue above the tracks for upwards of twenty years, was in police court yesterday afternoon charged with disorderly conduct. E. H. Cartier, former caretaker of Riverdale Park, was the complainant. He said that two of his horses had strayed on property which Michael conceived was his own, and the Irishman set his dog on them. There was a barred wire fence and, jumping this, one of the horses had been badly torn. Carter also said O'Dea had threatened him.

"Was he on his own ground?" asked Inspector Archibald.

"Yes, he was," admitted the complainant.

"Well, then it's no offence," declared the inspector. The case was dismissed.

THEATRE REOPENS ON MONDAY, AUGUST 3

Ralph C. Herz, Talented Character Actor, Will Be Headliner in a Series of Impersonations.

Ralph C. Herz, the talented actor, will make his debut in vaudeville at Shea's Theatre on August 3 in a series of character and humorous monologues, some of which have constituted the most pronounced successes of the big musical comedy hits of the past three seasons, the last being "The Out Kiss," in which Mr. Herz shared the honors with the incomparable Genee, and in which he re-appears next season, to be starred the following year in a legitimate play by F. Zeigfeld, Junior.

It is true that Miss Harned and I are living apart as we have been for years. Mr. Sothorn said at that time, "She is in receipt of a monthly allowance from me, but I have no thought in the world of bringing suit for divorce, and I am almost equally sure she has no such intention either."

The fact that Mr. Sothorn and his wife were separated was well known. Several years ago Mr. Sothorn purchased a fine residence at No. 37 West 64th-street, which he fitted up most elaborately.

Mr. Sothorn and Miss Harned were quietly married in Philadelphia on Dec. 3, 1896, where Mr. Sothorn at the time was playing "An Enemy to the King."

GIRL DECAPITATED BY KING'S EXECUTIONER

Designing Murderess in Freiberg, Saxony, Pays Penalty for Cold-Blooded Murder.

FREIBERG, Saxony, July 22.—Grete Beter, the 15-year-old daughter of the mayor of Freiberg, was beheaded some time between dark and dawn, in punishment for the murder of the man to whom she was engaged to be married.

The executioner of this young woman reached the city last night. He carried a thin, long box containing the ax with which he did his work, and brought with him also a handbag with a suit of evening clothing. The wearing of this garb is an official requirement of the executioner. The preparations for the execution at the prison had been completed and the man did his work quickly and privately and departed from Freiberg as quietly as he returned.

The personality of this young girl who came of a good family, and her thoughtfully arranged betrothal to her fiancé, Herr Pfeleler, a rich young civil engineer, attracted international attention. She was seemingly a happy and loving girl. Her trials she admitted with utmost simplicity that she visited her fiancé's house one evening and gave him a crystal of potassium in a drink she mixed for him, and then, to make sure of his death, shot him in the mouth with his own revolver. She then dropped the weapon at the dead man's side, placed a forged bill in her own favor on his desk, together with a note of good-bye, also forged, saying that he feared to lose her love, and the revelation of a dishonorable liaison. In addition to these papers the young girl also left behind a package of forged letters purporting to come from a woman in Italy, accusing Pfeleler of desertion and threatening to tell Grete everything. These forgeries were so skillfully done that they successfully deceived the police and coroner.

Grete fell under suspicion a month after the crime, thru a love letter to an unworthy man, in which she had done. The letter was found when the man was arrested for a misdemeanor.

It is estimated that the 1500 horses that will be on view at the Canadian National Exhibition will be worth not less than \$75,000, while the cattle will run up to \$250,000, thus between horses and cattle we have \$1,000,000 worth of live stock that will be on view at the exhibition. To this has to be added \$100,000 for sheep and swine.

Editor: Well, I guess you are on the right track all right when you get on the pie question and I trust your readers will not be in vain.

When in New York last week I got up against a bill of fare that had on it blueberry pie, saskatoon pie and saskatoon pie. Are not these all one and the same thing? Some of these cooks should be stabbed with a piece of pie.

Your suffering friends in the division of pie's Suppose that degrees were used. A restaurateur wishing to obtain 25 cents for his pies would merely have to mark off his pie plates into degrees and hang up a card offering 14 degrees 24 minutes of pie for one cent, or 72 degrees for 5 cents. Of course a government inspector might be needed to see that he didn't cheat. For measuring in grades the method would be something like this: radiants were used the pie would be divided into two pi pieces, but since the last slice would be two-sevenths larger than the others trouble might arise among the patrons of the pie-stand.

Of course these are merely suggestions from an outsider. For myself, the less restaurant pie I have to eat the better I am suited.

C. M. Pasmore, a Cake Eater.

GOOD ADVICE. Pie Editor world: The pie question is of great importance to the caterer, for nine-tenths of every ten persons do not consider a meal complete without it. They will walk blocks out of their way to eat where good, generous cuts of pie are served. Apples, plums and all successful hotels and restaurants depend on the quality and quantity of their pie portions for holding and gaining trade. Poor pies and stint-

NOTE AND COMMENT

Canada is coming up slowly at the Olympic games... The better the past two days than earlier in the competition.

The mother country keeps well to the front, which is also a source of equal concern to our former athletic friends to the south.

The New York Herald's special cable story yesterday... The American committee made no protest, feeling that it would be useless.

The New York writer continues: "I suppose by this time there is a good deal of curiosity as to whether the man they will let Tom Longboat run in the Marathon."

Of the members of the American team the weaker appear to be more imbued with what they call the real Yankee spirit than the fellows from the east.

OLYMPIC GAMES FOR CANADA

Within Twenty Years, Tasse Predicts - Across British Sea, Pater Says

(Canadian Associated Press Cable.) LONDON, July 22.—Mr. Tasse, one of Canada's representatives at the Olympic games, expressed the opinion at a banquet to-night that in less than twenty years Canada would be the centre of the British Empire and then he hoped to see the Olympic games held in the Dominion.

Leafs Win First in Second Lose Second to Newmark on Errors

Skeeters Trim Bisons Twice, While Double-Headers Are Split at Montreal and Rochester— Orioles in Toronto To-Day

Larry Schaffy made his debut as manager of the Leafs yesterday, and incidentally furnished the fans with enough baseball to last them a week. It took fifteen innings to decide the first contest, the Leafs winning, but in the second the visitors reversed the tables, and were as bad as they were good in the first exhibition.

Umpire Walker received a foul tip on the instep on the first ball pitched, and, although he bravely waded thru the first contest, he was obliged to quit in the second inning of the second game, the result being Brown and Mueller officiating.

Double-headers prevailed through the Eastern, an even break being recorded at Montreal and Rochester, while Buffalo dropped two to the tallenters. Montreal trotted out a new twirler, named Gardner, while Croton, the Providence twirler, sent duo to Messrs. Rudolph and Prill, who had as ding-dong a pitchers' duel as the oldest pug ever witnessed.

For three hours and twenty odd minutes the fans and gazettes saw Schaffy's crew and the Indians battle it out. The result was a draw, with the Leafs leading by one run, but the Indians were not allowed to sport his war paint before the Britishers. After landing here, Longboat decided to return to Ireland by Tom Blaneagan for the purpose of being trained around the roads of Kilmallock, County Limerick.

As was mentioned in the foregoing, the Leafs had the base full in the ninth, the English hit ahead, and the Indians, and any man can get plenty of bets that Duncan, the ten-mile champion and a winner of one of the tria runs, will show his heels to the redskins.

Of the members of the American team the weaker appear to be more imbued with what they call the real Yankee spirit than the fellows from the east. They are out for the Stars and stripes, but the college is only a secondary consideration. Among the New York A. C. and the Irish A. C. there is a bitter rivalry, the latter, except Tom Blaneagan, being out for the Irish Club only.

Mr. Tasse says the Canadians are coming to a country where everybody got fat, play, and was in no wise disappointed. Blue, on the contrary, says the Argos are an extremely powerful lot, tho' scarcely so well together as on their past visits. Bobby Kerr is believed to be a little stale from too much work.

The Canadians have scratched one of the Argo pairs, Balfour and Taylor. Bowling to-day, Newcastle scored 106 to the Canada 88.

Torontos Win First But Lose Second

FERGUS TWELVE LOSE TO SHELBURNE, 5-4

Only One Player Was Ruled Off—Bradford Defeats Cooks—town—Notes.

SHELBURNE, July 22.—(Special.)—The intermediate lacrosse match held to-day between the Toronto and Shelburne resulted in a clean-cut victory for the home team by a score of 5 to 4. Referee Ed Baker of Ottawa was in charge of the game, and he was very successful in affording the distinction of handling the cleanest game ever seen in Shelburne, as only one man had to be penalized and in that case the offence was tripping. Shelburne scored the first goal in the first quarter, then Fergus got two in 5 and 3 minutes respectively, after which the home team ran in four. Much of the game was decided in the fourth quarter, when Fergus scored two in the last quarter, making the score close at the finish.

At Bradford—Bradford defeated Cooks-town in an Intermediate C.L.A. game yesterday by 2 goals to 1. Cooks-town put up a good fight and played nice lacrosse, but were outclassed. Frank Doyle of Newmarket was referee and had no trouble in keeping the game clean, as the teams were good-natured.

Torontonians who witnessed the Minto Cup game at Montreal Tuesday night were determined to see the game at the challenge, but they will not hit the cup. The challenge was made by the Toronto team, but they were ruled out by two goals or more. Howard will be back in the game for the Irish and Kavanagh will likely go in the next game.

The C.L.A. executive will hold their first meeting of the season to-morrow night at the Croquet, when the Guelph-Gladford protest will be decided.

A Cornwall despatch says the Capitals and Cornwall have agreed upon Peter West as referee and Judge of play respectively in the English team, and a loss for the Capitals will put them behind Cornwall in the race for first place. The Cornwall team has their first practice to-night, since the Montrealers were here on Dominion Day, but as they have since played three hard games they are in good shape. The Cornwall have arranged an excursion to Ottawa at a very low rate over the O. & N. Railway, and all stations from Cornwall to Finch, inclusive, and providing special train for the return. The big crowd will accompany the Cornwall team.

Andy Mara in his present form will be a hard man to keep off the Olympic team. Crocker and Tod are again with the Young Torontos.

Phill Whale, the Young Toronto coxswain, who was knocked out in the last race will get a new opportunity to-morrow.

There are still two games to be played in the city district of the Intermediate C.L.A. The first will be played on the Rosedale grounds Saturday, and the second on the Toronto grounds Sunday. The Toronto team will put their best men in the game, and they will make a strong bid for the honors.

Walker, South Africa, in Olympic 100 metres Beats Rector and Kerr

Irish-American Athlete Makes New World's Record in Running Broad Jump—Queen Alexandra Views the Games

LONDON, July 22.—The Olympian athletes met dark today in the person of the South African youth, R. E. Walker. Walker broke the tape in what is considered the most important event in the Olympic games, the 100 metres dash, a short two feet in front of J. A. Rector, the University of Virginia crack. The Canadian, Kerr, was a few inches behind the Virginian in third place.

A world's record, by C. J. Bacon of the Irish-American Athletic Club, in the 400 metres hurdling, which he won in 55 seconds; an Olympic record of 24 feet 6 1/2 inches, by F. C. Irons of Chicago in the running broad jump, and the victory of C. S. Dole of Yale in the featherweight wrestling, out of seven finals, was the day's performance of the United States competitors.

Great Britain came second among the countries, with S. V. Bacon winning the middleweight wrestling and the English team defeating the Belgians in the water polo. Saarl conquered all-comers in the Graeco-Roman wrestling bout. An African sprinter, got a great ovation. When he ran the 400 metres people rose with a great cheer and filled the air with hats. The sport who this morning was unknown, but whose name fills London to-night, was lifted on the shoulders of enthusiastic friends.

It would be hard to imagine a finer spectacle than the Stadium presented to-day. Queen Alexandra and other members of the royal family were present and congratulated the African runner on his victory. The stands contained 40,000 persons, of whom at least one-half were women.

In addition to Walker's sprint the 400 metres, hurdles and the semi-finals of the 400 and 200 metre flat races were memorable events. The English team, led by J. B. Taylor of the Irish-American Athletic Club, the colored runner of the University of Pennsylvania, J. C. Carpenter of Cornell University, and D. R. Robbins of Yale, won their heats in the semi-finals of the 400 metres, with the English champion Halswelle their only opponent for the final. Halswelle's feat in lowering the Olympic record was easily one of the most brilliant performances of the day. He lowered the record to 2:05.2 seconds, breaking Harry Hillman's record of 2:05.5 seconds made at St. Louis in 1904. J. Cloughan, Irish-American Athletic Club, came second, with the University of Pennsylvania, won two of the four semi-finals of the 200 metres race, but was defeated in the final by Hawkins of the United Kingdom in the final.

A sensation occurred during the high diving, when the English team, England, struck the water heavily and failed to come to the surface. A bystander plunged into the tank and brought the diver to the surface. The Englishman, however, suffered no more serious injury than a temporary loss of sight. The Olympic managers tendered their official thanks to the rescuer, whose name is Johansson, and who is the holder of King Edward's cup for life saving.

Walker's Victory Popular. Walker's victory in the 100 metres was most popular with the crowd, and the officials rushed to the finish line, surrounded the victor and cheered him. Then the green jerseyed horse was seized by his friends and borne off to the grandstand. After the race Walker was congratulated by royal box, where Queen Alexandra, the Prince of Wales, and the Crown Prince of Sweden were seated. He was greatly embarrassed by the honor.

Walker, who had the pole, got off first, and he was in the position, drew up to him at fifty yards and a few yards the two men ran a splendid race. It was a close and exciting finish. Walker, Rector and Kerr were so close together that most of the spectators did not know who had won until the number was called out on the blackboard. Walker was half a yard ahead of Rector at the tape, while Kerr was so nearly abreast of Rector that the judges decided that second place had been won "by inches."

The 200 Metre Semi-Finals. In the first heat of the semi-finals of the 200 metres flat race, Kerr, Canada, beat Hamilton, United States, time, 22 2/5 seconds. Cartnell, United States, won the second heat, with Sherman and Huff, Americans, second and third; time, 22 2/5 seconds. The third heat went to Cloughan, United States, time, 22 2/5 seconds. Hawkins, United Kingdom, won the fourth heat, with Roche, in the fourth time, 22 2/5 seconds. The first semi-final was won by Queenie Wilks, a half mile heats. Best time 2:14, track record. The 2 1/2 mile heats, pure 3:20—Fox, Pugh, 1:25—Scrap, owned by S. Desardard, won in straight heats; R. F. Jubilee, 2:30—Tommy, 3:15—E. A. 3:45. Macdonald, owned by J. Macdonald, won in straight heats, presiding in the eight minutes after the time limit expired. The 5 mile heats also behaved well in the heat breeze, but the Naomi acted badly. In the 2 1/2 mile race, the driver of Chicago showed fine form and led her efforts were all in vain. The judges to-day remeasured all the races in the universal class, and although some changes were made, it will not alter the results and the Toronto yachts are almost sure of capturing the entire series. The remeasure of Detroit was the victor in the big power boat races this after-

Clever Work by Our Skippers In Light Airs at Put-in-Bay

Boats Fail to Finish in Time Limit and All Races Are Postponed—Yachts Remeasured.

PUT-IN BAY, July 22.—(Special.)—Owing to the light wind this morning and the countering of perfect calm during the race, none of the 60 boats sailing to-day were able to finish within the time limit and the judges were obliged to call off the race. The judges to-night decided to race off to-day's postponed match to-morrow morning at the usual hour. The race was an ideal one for the sport, barring the light breeze, which blew from the west at about four miles an hour. The clever work of Skipper Marlett of the Aggie, who by some remarkably clever manoeuvring succeeded in leading out the 200-ton Jarvis for the lead at the close of the second leg. She soon ran into a calm, however, and was unable to finish. Skipper Wedd, who handled the Crusader, also did some clever manoeuvring and almost succeeded in capturing the entire series. The Aggie showed fine form and led her efforts were all in vain.

The judges to-day remeasured all the races in the universal class, and although some changes were made, it will not alter the results and the Toronto yachts are almost sure of capturing the entire series. The remeasure of Detroit was the victor in the big power boat races this after-

noon. This evening the Toronto tars are being treated to a grand fireworks display. The Toronto skippers are loud in their praise of the treatment they are receiving here and state they are having the time of their lives.

LET BOSS HEAD THE ROLL.

In the United Kingdom the greatest tribute a city can pay to a man eminent in any walk of life is to place his name on the roll of its freemen. This function, popularly described as "presenting the freedom of the city," like many other old country customs, is a survival of ancient times when to be a burgher of an incorporated town—especially when its charter came from the sovereign—meant a great deal for individual liberty.

To be enrolled as a freeman was a long struggle, was an invaluable protection and it carried with it other substantial advantages, some of which still remain. Only enrolled burghers can vote in the election of a dean of guild, an office still found in Edinburgh, Glasgow, Perth and Aberdeen, and a few other burghs. Rights of grazing on the communal lands and some less important benefits also pertain to enrolled burghers, and the burgh rolls are maintained in force, since admission is still sought by both natives and incomers desiring of participating in these privileges.

In Britain therefore the "freedom of the city" has a clear and definite meaning, its conference entitling the recipient to be placed on the roll of burghers with all the rights and privileges thereto belonging. Canadian municipalities have no similar link with the past, but there does not appear to be any valid reason why they should not institute a roll of honorary citizens. Many clubs and associations have provisions for the appointment of honorary members, and it is a proper method of acknowledging past services or expressing respect and regard. Why therefore should not Toronto take advantage of the visit of Lord Roberts to establish a roll of honor and commence it with the name of a distinguished soldier especially close to the hearts of all Canadians? The World suggested yesterday that Lord Roberts should be made a freeman of the city, or if you will, made an honorary citizen of Toronto. Let Canadian cities have some effective way of paying honorable tribute to a great man.

THE MOTHER OF PARLIAMENTS.

Mr. Lowther, speaker of the Imperial House of Commons, recently called attention to an interesting fact illustrative of the "extraordinary continuity" of the illustrious body over which he presides. Many are probably aware that the sovereign's assent to bills that have passed the lords and commons, is given in old Norman French, but few perhaps know that all formal communications between the house of commons and the house of lords are still carried on in the same tongue. The speaker, in response to an interjection of disapproval, added that it was to him a matter of the deepest interest that this should be so and he should very much regret if the old forms were changed. "They convey," he said, "the continuity of what we preserve the continuity of this ancient assembly." "Newer democracies are apt to ridicule the survival in Britain of the customs and usances of the past and the conservatism that maintains them. But the instinct now inbred is but the expression of the habit of mind which has carried the nation successfully and peacefully through great revolutionary changes, and while it remains effective will continue to ensure progress without endangering stability."

MR. ROBINETTE AND "LIBERAL PRINCIPLES."

Mr. Robinette's "call" to young Liberals is instructive, not so much for what it contains, as for what it leaves unsaid. He assumes that there are "hundreds of young Canadians only anxious and willing to espouse Liberal principles and take an intelligent hand in the government of our fair Dominion." The latter ought certainly to be the desire of every citizen, whether young or old, and as for the former it is not surprising that some process of education is necessary. For certainly looking at Canadian "Liberalism" to-day it is impossible for any entrant on the responsibilities of manhood to ascertain from its present exponents either what it is or

what it stands for in the way of political principle.

No attempt is made by Mr. Robinette to expound what he understands by "Liberal principles." Readers of the professedly "Liberal" newspapers and listeners to "Liberal" orators are of course accustomed to the recapitulation of the Reform watchwords associated with the progressive party of Great Britain. But a very cursory and brief acquaintance with Canadian politics and the proceedings in parliament and the provincial legislatures suffices to disclose their utter inapplicability to present day Canadian "Liberalism." Canada is a democracy, both Canadian parties are democratic and cannot be otherwise. There are no such dividing lines as separate the party of privilege and the party of progress in the aristocratic mother land. Professor Goldwin Smith is indisputably right in his oft-repeated contention that the Canadian party system as it now exists is artificial and without any real basis of distinction.

No one can regard the political history of the Dominion and its provinces of late years without recognizing that in many cases the so-called Conservative party has been a truer exponent of reform principles than the so-called Liberal party. Public ownership and operation of franchise monopolies, for example, is a cardinal doctrine of British Reformers, but their namesakes of Canada have been conspicuous for their hostility to its introduction. In this matter parties cannot be judged by empty professions of allegiance to a particular principle, but by their practical attitude towards it, and the Conservative Government of Ontario has done more for public ownership during its four years of office than the Liberal party did in its thirty-two years of power. Mr. Robinette would do the young men for whom he appeals and the country at large a service by explaining what he means by "Liberal principles," and that not in eloquent and meaningless generalities, but by illustrations drawn from recent happenings in the federal and provincial political fields.

WORK FOR THE BOYS.

Secretary Morley of the board of trade suggests that householders can find recreation for their boys just now in a very reasonable way. It is to destroy the caterpillars which are to be seen everywhere on the shade trees, and especially threaten the destruction of the chestnuts. Mr. Morley points out that Toronto is famed as a summer resort of beautiful shade trees, and their preservation is an important public question.

INTERNATIONAL FISHERIES.

Uncle Sam's Commissioner in Toronto tells of progress of survey. David Starr Jordan, the United States member of the international fisheries commission, is in the city awaiting the arrival this morning of members of the staff from Kingston. When interviewed by The World at the King Edward Hotel last night Mr. Jordan said the good progress in the bay the lines were found to be only an inch out, and the levels three-sixteenths of an inch out.

WANTS A FIGHTING NAVY.

Roosevelt Comes Out Boldly For Ships That Can Hit. NEWPORT, R. I., July 22.—President Roosevelt arrived here at 9.45 a. m. to-day and later in the forenoon at the naval war college addressed a conference of nearly 100 naval officers, gathered together from all branches of the service to consider plans for new American battleships. President Roosevelt made a stirring appeal for a hard-hitting sea-going navy. "I want a first-class fighting navy or no navy at all," said the president, "because a first-class fighting navy is the most effective guarantee of peace this nation can have."

SWISS PROGRESS. General Agent of Federal Railways a Visitor in City. Switzerland is one of the most progressive countries in Europe, and by reason of its practical use of the referendum, is in the forefront of democracy.

Mr. Somner's visit to Canada is to give wider publicity to the scenic beauties of Switzerland. He is getting in touch with an agency in Toronto to handle literature and disseminate facts regarding Switzerland. A similar agency is already established in New York at 24 Fifth-avenue, and it is likely that Capt. Melville, the best known steamship agent in Toronto, will co-operate with the Swiss Government in bringing to the attention of the people of Canada the sights of Switzerland.

ORONO MUST WAIT. Canadian Northern Not Yet Following Up Surveys in That District. The residents of Orono and of the townships adjacent had their hopes of Canadian Northern Railway connections raised some time ago. Surveys were made and hope ran high of all the advantages of the looked for increased transportation facilities. Enquiries made by The World yesterday at the office of the company elicited that no immediate steps are being taken to follow up the surveys.

GOOD TUNNELING. To show the accuracy of the details of the plans worked out by the engineers in the tunneling work of the city's water supply tunnel, Engineer R. H. Murray has had the tunnel in the city and island surveyed. The bay the lines were found to be only an inch out, and the levels three-sixteenths of an inch out.

MAY BOOST VARSITY FEED. It is reported that the board of governors of the university are considering the advisability of increasing the fees of the students. They are comparatively low at present.

Fastest Service Yet. A new service has been established by the Canadian Northern for Stanley House and Port Cockburn at the head of the Murray lake. Passengers can leave Toronto 5.05 p.m., make connection at Lake Joseph and reach there this same evening. This will be a great saving of time towards the west and those desiring to spend the week end.

Fastest and Georgian Bay Points. These famous tourist resorts are made easily accessible by the excellent service of the Grand Trunk Railway System. The fast train leaving Toronto at 12.00 noon daily except Sunday, has through Pullman parlor car to Penzance, where connection is made with Georgian Bay ports. Full information at city office, northwest corner King and Union Streets.

Pages for the Fair. Frank Lascelles, the designer of the pageants at the Tercentenary at Quebec, will come to Toronto this week end to look over the grounds at the exhibition, and incidentally any suggestions he may have to offer in regard to the spectacles at this year's and future fairs will be seriously considered by the exhibition authorities.

Worked on Sunday. Six of Contractor Godson's men were charged in court yesterday with work on Sunday, July 19, by shovelling coal at midnight. Men from the city engineer's department will give evidence this morning as to necessity.

POLITICAL INTELLIGENCE

The people of Canada are into a political campaign and The World purposes to give them full information of its important features. This column will be devoted from now on to political intelligence of a reliable and, as The World believes, of a trustworthy character. We want to be fair to everybody in politics, and will be guided in this column by that idea.

The report that Sir Wilfrid Laurier may seek a seat in Toronto, leads The Woodstock Sentinel-Review to observe that "Toronto needs some such awakening if the city is ever to be won from its deep-dyed Conservatism." This paper goes on to make a comparison between such a contest and Mr. Gladstone's famous Middlesex campaign, when Mr. Gladstone "threw himself with unrestrained vigor upon a seat which was reserved almost exclusively for the property of the Duke of Buccleuch."

The press of the Dominion are unanimous in the opinion that the general elections are upon us. "One of the signs which the old and wary politician most early notices," observes The St. John's Globe (Liberal), "indicative of the coming contest is the railway subsidy votes. There is an unusually long list of bills for the purpose of giving subsidies to the railway companies, and the generally careful treatment which they receive from both political parties is pretty good evidence that they are regarded as effective forces in election contests. They are a strong lever in the hands of the administration, and they are wrong in numbers in the amount granted, in the inducements which they hold out, the opposition is too careful, too wary to express its views strongly. Materialism in active politics in Canada is as strong a force as it is in the general affairs of humanity. And, after all, the policy of the Dominion really demands consideration of practical questions rather than of speculative ones. Some of the public works projected and favored in this session are of tremendous magnitude and will involve the expenditure of large sums of money. However, they are boundless hopes in its future, and it does not think anything of the burden which it so cheerfully assumes."

The Montreal Witness (Liberal) does not agree with its friends in parliament, and it is reported that the minority led by P. D. Monk, on the Quebec bridge investigation. The minority report, it says, "has more to do with the bridge than with the majority, which looks like an effort to say nothing but what, however false, they would rather have believed. The government in the unfortunate history of a purely political and badly discredited enterprise." Moreover, the committee "quite unjustly" is under "taking." After discussing the finances of the company, The Witness proceeds: "It is only fair to note that the government would have had to pay the return for its expenditure, which was supposed to be all needed for the completion of the bridge, and that the government would have had to pay the bridge as a business enterprise. No money could be got for it on a business basis. It was purely a government job. No one but a government man could have undertaken it. They are governments are never right in promoting for the general good enterprises which could not pay in private hands. But when it is a sensible job it should be one and not be made a present to adventurers. The Transcontinental Railway has been planned as an appendix to this bridge, we presume the bridge will have to be built. When that is done, let it be done without the intervention of political middlemen—men of straw in relation to so stupendous an undertaking."

D. Warren Co., to recover against the defendant as maker of a cheque for \$1000.

Estate Shows Good Surplus. A meeting of creditors of Breckles & Matthews, organ manufacturers, Toronto, was held yesterday afternoon at the office of E. R. C. Clarkson & Sons, when the statement of affairs presented showed assets of over \$16,000 and liabilities of about \$2000, a surplus of over \$14,000. The creditors expressed sympathy with Messrs. Breckles & Matthews, and appointed inspectors, instructing them to reorganize the affairs of the firm, the business of which will be carried on without any interruption whatever.

Band Concert, Allan Gardens. Owing to the fact that the Royal Grenadiers being engaged in Quebec this week, the band concert announced for Allan Gardens Friday evening will be played by the Cadet Band instead.

At Osgoode Hall. Following actions have been entered at Osgoode Hall: James Secombe against John McLeod; to recover \$400.00, alleged to be due on account. J. W. Noble against McCann, Knox Milling Co.; for the return of \$232.25 paid for 30 shares in the company, the plaintiff alleging that there was misrepresentation. The Tercentenary.

The scenes of ancient glory now being re-enacted at historic Quebec, and the fact that the principal participants are descendants of the former actors in this wonderful drama have created the most enthusiastic interest amongst the people of Ontario. As but few, comparatively speaking, of Ontario's sons or daughters will be spectators of the wonderful pageantry now being displayed on the historic Plains of Abraham, it is for The Sunday World to bring those gorgeous scenes to the eyes of the stay-at-homes. This week's illustrated section will be replete with views of the Tercentenary and the scenes being enacted there.

A paneled frontispiece of dazzling beauty, showing King Francis I. going out to meet Jacques Cartier; the court of King Henry IV. at Louvre, France; Champlain leaving France and receiving his commission; Jacques Cartier's arrival at Stadacona; picturesque and awe-inspiring scene of Iroquois Indians attacking the fort at Long Sault; portraits of many historical figures in the costumes then worn; views and scenes in the life of Cens. Wolfe and Montcalm.

There are many other features of local and general interest in this week's picture section, that, combined, makes a souvenir number that will appeal to all classes. Remember, there is no increase in prices. For five cents The Illustrated Sunday World can be obtained from all newsboys, at all news and stationery stores, and on all railway trains and boats. Order early to insure securing a copy.

KING'S PRIZE SCORES.

Mirage Detracted From Canadian Marksmanship at 500 Yards. (Canadian Associated Press Cable.) BISLEY CAMP, England, July 22.—At the 600 yards range in the first stage of the King's prize, the Canadians scored to-day as follows: Brown 33, Crowe 32, Eastcott 25, Elmitt 32, Freeborn 34, Haystead 34, McInnes 31, Jones 31, Kerr 29, Leash 30, Martin 31, Morris 32, Pope 34, Rowe 33, Smith 32, Spearing 30, Spittal 32, Steele 32, Utton 34, Williams 28, Slater 31, Mortimer 30, Bayles 29, Pope 27.

A mirage was blamed for the poor scores made. At the 600 yards range, the last in the first stage of the King's prize, the scores were: Elmitt 29, Haystead 27, McInnes 30, Kerr 32, Morris 34, Pope 31, Smith 34, Spittal 34, Steele 33, Utton 32, Williams 30, Bayles 29, Brown 32, Crowe 28, Jones 32, Leash 35, Martin 28, Rowe 27, Spearing 30, Slater 29, Eastcott 29, Freeborn 30.

Up to the present there are two scores of 103, two of 102, several of 101 and 100, and 98. It is likely they will shoot off. The weather is warm and hazy.

The Canadians to-day fired in the Duke of Cambridge squadded competition. The distance is 900 yards, ten shots, with service rifle. The scores made were: Leash 44, Crowe 40, Brown 38, Eastcott 37, T. F. Elmitt 34, Haystead 35, McInnes 31, Freeborn 31, Smith 38, Rowe 34, Jones 39, Kerr 30, A. Martin 32, F. H. Morris 33, Spearing 35, Spittal 34, Steele 39, Utton 33, Williams 36, Slater 37, Mortimer 37, Bayles 39, Pope 27.

Leahy, Love of Hartney, Manitoba, has been shooting in several competitions, and was fairly successful. A detachment of the 48th Highlanders, Toronto, is expected to arrive at the Maldi Barracks at Aldershot on Sept. 1.

WOODSTOCK, July 22.—Lewis Peabody, aged 18 months, was drowned by falling into a tub of water kept for watering stock.

ROOSEVELT TO REVISE SPEECH. HOT SPRINGS, Va., July 21.—President Roosevelt will be in view in advance the speech Judge Taft will deliver in Cincinnati next Tuesday.

"I have decided to make this speech what may be my most important utterance of the campaign. I have the highest regard for the president's judgment regarding the subjects to be dealt with and a keen appreciation of his wonderful ability for forceful impressions. I want his judgment and his criticism, and this can not be satisfactorily obtained at long range, so I have decided to go to Oyster Bay."

This statement was made to-day by Mr. Taft.

CHILD DROWNS IN TUB. WOODSTOCK, July 22.—Lewis Peabody, aged 18 months, was drowned by falling into a tub of water kept for watering stock.

TOBACCO AND LIQUOR HABITS. Dr. McTaggart's Tobacco Remedy removes all desire for the weed in a few days. A vegetable medicine and only requires touching the tongue with it occasionally. Price \$2.00.

Truly marvelous are the results from taking his remedy for the liquor habit. It is a safe and inexpensive home treatment. Guaranteed to remove the habit, with loss of time from business and a certainty of cure. Address or consult Dr. McTaggart, 31 Yonge St., Toronto, Canada.

The decision of the United States Circuit Court of appeals on the appeal of the Standard Oil Co. from Judge Landis' \$29,000,000 fine for rebating remains the case back to the lower court for a new trial.

The Sollinger Bank of Sollinger, Germany, has suspended. Capital of bank is \$900,000 with liabilities of \$1,625,000.

Preparations for resumption of bullish operations are being made, according to latest developments. Purchases on soft spots should give reasonable returns, following the perfecting of natural resources due to the taking. We have special reasons for directing particular attention now to the low-priced stocks, as bull propensities for a time.

LONDON.—Gilt-edged investment securities after a rally in the market, opened of a two hundred mark rally. Indian issue have steadied. Consols are quoted at 87-1/8. British home rails have entered a rally of 1-2 to 1-1/2, stimulated by the half yearly dividend of 1-2 by the Great Eastern Railway, which is larger than was expected.

A. O. Brown & Co. to J. Lorne Campbell. Bull tips accompanying reports on the general trend continued to circulate freely and opinion in most quarters continues to incline to the belief that the upward movement is to extend considerably farther and even material recession makes good buying opportunity.

NO MONEY OFFERING FOR SPECULATION.

World Office, Wednesday Evening, July 22.

Evidence of buoyancy at the Toronto exchange is still restricted to the foreign shares. Decreased earnings by the Mexican L. & P. Company for the month of June actually appeared to give the stock strength.

Investment shares were more firmly bid, but transactions were small. Call loans are not being extended, and this fact is responsible for the small amount of general speculation.

The Crystal Gold Mine. Gordon T. Jennings, B.Sc., mining engineer has just returned to the city from the Crystal Gold Mine in the Wainipitae Lake region, bringing some very rare specimens of gold in the quartz with him.

Mr. Jennings stated that the gold was free-milling and easy of extraction, as the ore is soft and can be crushed with very little power. He certainly gives promise of large quantities of this mine of the gold.

The World representative, and free gold particular prices, when the market is so much per ton the specimens that Mr. Jennings had would give, he said he would be pleased to place in the hands of the most remarkable of this mine of the gold.

Mr. Jennings states, "is that, at a depth of 185 feet, we have encountered richer ore than is shown in any part of the mine. It certainly gives promise of great depth." Mr. Jennings stated that the stamp mill was now in operation and running in perfect order. He expects to have a brick of gold produced from the dump ore (which is low-grade ore) on the property, by the first week in August.

One of the greatest difficulties we have to contend with is the stealing of the gold ore from the different shafts and the rich workings of this mine. To overcome this he is studying out a plan whereby he will erect a high fence to surround the rich workings of this mine. In addition to this they will install what is termed "a drying and searching room," whereby the property of the mine will have to change their clothes on going in to work, and also on their coming out.

A compressor and some more machine drills, with additional boiler power, Mr. Jennings states, is being installed, as an additional five stamps, which will be in operation in a short time.

A large part of the Crystal Gold Mining & Milling Company's property for as yet unprospected, and there is every likelihood of other rich lodes being uncovered by a little prospecting. This, Mr. Jennings says, will be done this coming fall.

A cheque for \$4000 was received by F. Cochrane yesterday, being the first royalty from the Crown Reserve Mine.

Oats Futures Rally Two Cents, But Wheat Futures Lose a Cent at Close. World Office, Wednesday Evening, July 22. Liverpool wheat futures closed to-day 1/4 to 3/4 lower than yesterday, and corn futures 1/4 higher.

WASHINGTON, July 22.—In the case of the Banner Milling Company and others against the New York Central Railroad Company and others, under consideration by the Interstate Commerce Commission, it was held that the present rate on flour and other grain products from Buffalo to New York and New York points of 1c per 100 lbs., 12c to Boston and Boston points, and 13c to Sherbrooke points, is excessive, and that these rates ought not to exceed 10c to New York and New York points, 12c to Boston and Boston points, and 13c to Sherbrooke points.

Canada's Apples Offer Shipping in Barrels Destroys Good Flavor. Former London Fruit Dealer Didn't Know the Taste of our Spies Until He Came Here - Tasmania, Shipping Her Apples in Boxes, is Winning the Trade From our Barrel Shipped Goods - Oshawa Fruit Growers' Good Showing

CANADA'S APPLES OFFER SHIPPING IN BARRELS DESTROYS GOOD FLAVOR

Former London Fruit Dealer Didn't Know the Taste of our Spies Until He Came Here - Tasmania, Shipping Her Apples in Boxes, is Winning the Trade From our Barrel Shipped Goods - Oshawa Fruit Growers' Good Showing

The unceasing improvement in the shipping of Canadian fruit is the only salvation of a steady market. A large part of our apples go to England and in that market they have to compete with the apples from Tasmania and New Zealand. To allow the poor packing of our fruit to destroy the excellent quality of the goods is a very short sighted policy.

Barrel vs. Box Packing of Apples. The best big trade in box packed apples has sprung up. The boxes are now nearly of uniform size and so made that the apples fit in snugly and at the same time are well ventilated. This keeps the fruit perfectly fresh and retains the peculiar original flavor of the Canadian apple.

CATTLE MARKETS. Cattle Steady—Hogs Are 5c Higher. NEW YORK, July 22.—Beaves—Receipts, 2000; steers, 10c to 10c; calves, 8.50 to 9.00; oxen and stags, 4 to 4.50; bulls, 3.25 to 3.50; calves, 1.50 to 2.25. No exports.

Local Fruit Market. Receipts light, both morning and afternoon, with prices reported as follows: Apples, car lots, 1.00 to 1.10; cherries (eating), basket, 1.25 to 1.50; cherries (cooking), basket, 0.80 to 1.15

Some Quarter Returns. But the auditors' report presented on Saturday showed that the fruit growers of Oshawa would net about \$140 per barrel for their entire output. This was indeed encouraging news, and with no dissenting voice, the work was done, and a large decrease in the incoming year. Of course there were

Two Years in London Fruit Trade. Editor World: Commissioner P. B. Harris, Toronto, Ontario, has reported that the number of apples exported to London, England, has been 200,000, and two years ago, 445,000. From March 1 the total is 9,850,000 against 10,545,000 a year ago—a decrease of 695,000.

WELCOME NEWS. The despatch in The Sunday World, which intimated that Hon. Nelson Monteth will remain minister of agriculture and be found a seat, will be welcome news for the Ontario farmers. The good work began by him, and the proposals to unite the gap in education between the public and the high schools, as well as to draw together the ideals of all students, to a higher appreciation of the farm in the national and domestic life, are worthy indeed.

FALL WHEAT. What farmer is it who has not experienced the joy of leading a big binder into fall, even, golden yellow and brown crop of fall wheat? Hundreds of acres of Ontario are now standing binder deep in ripened grain. The prospects per acre yield for Dawson's golden chaff, Clawson's and other popular varieties were never better. Forty bushels will be a common yield.

Good Prices for Hogs. According to the stockyards report of Chicago, the seven-cent hog has again arrived. The supply of hogs on the Chicago market is also several thousand less than that of one year ago. Naturally, the Canadian farmer will rejoice that the porcine prices are to again return to a sure-paying basis. It

### DISPUTE OVER THE USE OF THE CITY HYDRANTS

Magistrate Defers Judgment—Carnegie Library Plans Are Ready.

WEST TORONTO, July 22.—About 100 yards of trolley wire fell down on Dundas-street, just east of the car barn, about 1 o'clock this afternoon. A stub line for the benefit of West Toronto citizens was instituted during the two hours the wires were being reinstated.

City Treasurer Jackson is a busy man just now. To-day alone he received over \$8000 in taxes, and has already taken in upwards of \$15,000 of this year's taxes, although the bills have only been out for a few days.

Manager C. F. Wheaton of the Dodge Fulley Company appeared in police court this morning on a charge of breaking the hydrant, which forbids interference with the street fire hydrants. The company, it appears, has down 15 feet and the hydrant is being used for the purpose of watering the road in front of the factory.

Wheaton in defence said he had been given permission by Aid. Hahn to use the hydrant, but now that he found it was illegal to do so, he promised that the offence would not occur again. In view of Mr. Wheaton's statement that he had been given permission by Aid. Hahn, Police Magistrate Ellis deferred judgment in the case.

On the other hand, Mr. Hahn emphatically denies that he ever gave such permission to the company. "That statement connecting me with the misdemeanor is absolutely untrue," said Mr. Hahn to The World this evening. "I gave him no such permission, and even if I did, that doesn't alter the case. If he breaks the bylaw just the same."

Shortly after 8 o'clock this morning fire broke out in the kitchen at the rear of Thomas Robb's butcher shop, corner of Rose-avenue and Lousa-street, York Township. The explosion of a coal-oil lamp caused the outbreak, which caused damage to the extent of \$100.

The plans for the new Carnegie library, which have been completed by the architect, Messrs. Ellis and Conroy, were sent to New York to-day for Mr. Carnegie's inspection and approval. The building will be 72 feet long, 30 feet wide, and will contain a stack room, reference library and two reading rooms, one for ladies and one for gentlemen. In the basement will be a lecture room, with a seating capacity of 500, and a smoking or recreation room. The building will be of red brick with stone trimmings.

### NORTH TORONTO

Happy Event Took Place in the Town Yesterday.

NORTH TORONTO, July 22.—A pretty house wedding was solemnized this afternoon by Rev. Mr. McCausland, at the residence of the groom, West Eglington-avenue, when Miss Rosetta Elizabeth Parker, only daughter of Mr. and Mrs. William Parker, of Ex-Councillor Parker's, was united in marriage to James Pears, Jr., eldest son of Mr. and Mrs. Pears. The ceremony was performed in the parlor of the groom's residence. The bride wore a silver-striped dress, trimmed with princess lace and satin folds, wearing a veil with wreath of orange blossoms and carried a bouquet of roses and sweetpeas. Miss Sullivan of Boston was the bridesmaid, also carrying a bouquet of roses and sweetpeas, as did Miss Sarah Pears, sister of the groom, who was maid of honor. Little Miss Delphine, the groom's youngest sister, looked charming and made a handsome flower girl. Harry Parker, the bride's brother, was groomsmen. The groom's gifts were a pair of cufflinks, a watch, a pair of cufflinks, and a watch. A reception was held after the ceremony and a wedding breakfast served. Mr. and Mrs. Pears left with the evening train for New York, where the honeymoon will be spent.

Judge Morson Sends All Cases Over to a Later Date.

Judge Morson in chambers yesterday was prepared to try the case of the Metropolitan railway between the Metropolitan railway and the City of Toronto, but the trial will take place on Wednesday next.

### YORK COUNTY CROPS.

Prospects Generally Are Bright, But Weeks Later Inward.

If the crop conditions prevailing along the Metropolitan railway from Toronto to Lake Simcoe are any criterion, those generally prevailing in other parts of the county are equally bright. Peas are an exceptionally early crop, and the whole length of the line, some fifty-two miles, the showing for corn has never been better. Wheat, a little of which has been cut, is as good as the best that has been grown in this district in years, while peas make a phenomenal showing, and if no unforeseen blight or insect, or other bumper crop, Oats and barley are of moderate length, but the heads are well filled and the kernel of wheat, which is fully matured, exceptionally large.

From Newmarket to the lake, hay is more advanced, being practically completed, but little of the wheat or barley is cut, the former being especially heavy. Peas are an exceptionally early crop, and the whole length of the line, some fifty-two miles, the showing for corn has never been better. honey-moon will be spent. The presents were numerous. Mr. and Mrs. Pears left with the evening train for New York, where the honeymoon will be spent.

The deferred cases of the Eglington Methodists were run off on the morning of July 22nd at the Court House. Town Clerk Douglas went up to Jackson's Point yesterday and attended the Conservative picnic held there. Mrs. Douglas and family are visiting near Mount Albert.

George Parsons, whose home is in King townships, tried to take his life by strangling himself. This case was also adjourned a week, as was that of Richard Hahn, accused of reducing a 14 year-old girl of Aurora.

Inspector Armstrong will resume his investigation of the Toronto jail delivery to-morrow morning.

## Dollars Go a Long Way Here To-Morrow

Dollars earned by hard work should be carefully spent—the man who earns them has a right to expect as much. It would be interesting if one of these earners could come to this store to-morrow with his wife and see how much we are now cramming into a dollar's worth. He would be surprised. He would return to work with a new conception of what his labor was worth to his family.

Do you realize why this is so? Why dollars will go such a long way here to-morrow? Here's the reason in a sentence: On account of big changes in the near future the most rigorous stock-taking this store has ever experienced is now in progress and this is bringing before the buying public of Toronto values that will not be matched this year.

## 12TH OF WORLD'S SILVER OUTPUT FROM COBALT

Constant Increase in Production of Camp—Chambers-Ferland Will Shortly Ship.

COBALT, July 21.—(From the Man on the Spot.)—A vein has been found on the streets of Cobalt, a stone's throw from the square, and just west of the Imperial Bank, on Nipissing property, R. L. 401. It runs under the Legris Block, and Sol White's law office.

It carried cobalt and nicolite and assays will have to be made before it is known whether it has silver values or not.

Last week was a banner week for shipments. Eight Cobalt mines sent over 500 tons of ore to the smelters, and most of the shipments consisted of exceptionally high-grade ore, carrying several thousands of ounces to the ton.

Nipissing shipped five cars. Three went to Copper Cliff, Ont., and two to New Jersey. One was abnormally rich, two were high-grade and contained a lot of cobalt with high silver values, two were low grade.

La Rose sent out six cars, four of low-grade to Denver and two of high-grade to Copper Cliff, Ont.

Twelfth of World's Output. Last year Cobalt produced 10,000,000 ounces of silver, or more than any state in the Union except Montana. Five ounces out of every 100 ounces produced in the entire world. This year Cobalt will produce 15,000,000 ounces of silver, or about one-twelfth of the production of the whole world.

Cobalt the wonderful little speck of land 2 1/2 miles square; and people in Old Ontario ask it Cobalt mines pay. Nipissing alone has, from 1904 to July 1, 1908, produced 6,366,000 ounces of silver, and the gross smelter returns to July 1 have been \$3,529,000 and \$400,000 was distributed to the original owners. This company has paid nearly two million dollars in dividends.

La Rose has paid in profits one and a quarter millions, and will go on a regular dividend-paying basis before long.

Superintendent Jeffery, at the Chambers-Ferland, is rushing development and is being benefited by the development work being done on all sides of his property.

The Nipissing shaft across the railway track and the drifts and cross-cuts that will be run from it will be a great boon to the C.-F. property.

Chambers will soon ship. The main shaft on this part of the company's acreage is now down 100 feet, and was sunk on the vein and has ore all the way down. Ore was broken down for the first 32 feet and taken up the shaft. A shale then appeared between the shaft and the vein, and the ore has been left standing for the balance of depth of shaft. They are now drifting at the 100 foot level and taking out ore. The high grade runs between 5000 and 9000 ounces to the ton, and a carload will be ready for the smelters in less than three weeks. A lot of ore is already sacked. This shaft is sunk on an extension of the O'Brien main vein which crosses the property (a distance of 300 feet), and then runs into La Rose. Rich ore has been taken out of this vein by Superintendent O. T. Culbert, on the O'Brien at a depth of 300 feet.

No. 2 shaft is sunk on a fault and is sunk on vein No. 4. This shaft will be worked when the same depth is reached as the 100 foot level in main shaft. Drifting and cross-cutting will then be done and the entire flat will be worked. Several runs into this flat and this part of the Chambers-Ferland territory, from the Right of Way and other adjacent properties. These will be picked up at depth and worked.

La Rose Vein Picked Up. Shaft No. 3 has been recently started

A NEW JUDGE.

OTTAWA, July 22.—J. J. Kehoe of Sault Ste. Marie, a former resident of this city, has been appointed to the district judgeship of Sudbury. This is a new district for which provision was made at the recent session of parliament.

A glass of good "Saldna" Tea will be found most refreshing in this warm weather. As cooling as a summer breeze.
