\$3,400,000 Will Be Spent By the United States; Army of 1,000,000

UNITED STATES TO VOTE FUNDS ON VAST SCALE

Military Budget Approaches Three and One-Half Billion Dollars.

RAISE MILLION MEN

Big Army Expected to Be Ready for Service Within a Year.

Washington, April 5.—The vast scope of the administration's plans for a war army and navy were revealed today after a military budget of \$3,400,000,000 had been submitted to congress.

The navy's task will be to raise the number of the enlisted strength of the navy and to have in service within a year an army of 1,000,000 trained men, including the first 500,000 to be brought to the colors by selective conscription.

Bills to carry out the program already are in the hands of the congressional military and naval committees.

The budget is divided so that \$2,820,000,000 goes to the army and \$480,000,000 to the navy. These sums are in addition to the regular annual appropriation bill of \$240,000,000 and appropriations totalling \$157,273,803, already available for the navy.

The present enlisted strength of 67,700 men to 197,000 in the shortest possible time. It is estimated it will cost \$175,885,741 to do this. The sum appropriated for \$292,538,750 is asked to cover new construction and all other material expenses.

The army bill, drafted by the general staff, has been approved by President Wilson and the department decided today to make it public immediately upon passage of the war resolution by the house.

Break With Austria Likely.

The United States will not sever relations or declare war with Austria, Bulgaria or Turkey so long as those countries do not force such a step. It was learned authoritatively today that any change that may come in the relations of this country with members of the central alliance other than Germany must be precipitated by them.

Nevertheless, it is expected here that Germany will be her ally and share her relationship to the United States.

Ambassador Penfield's summoning to Washington by the state department, admitted officially today, for the first time, is declared not to forecast aggressive action towards Austria by this country, but to be her ally.

The one most often suggested is that, as President Wilson has announced, it is impossible under the present circumstances to receive Count Tarnow, new Austrian ambassador, it is desired not to have an American ambassador to Vienna. Joseph C. Grew, formerly in charge in Berlin, will act as minister in Vienna after Mr. Penfield departs.

Administration leaders until today had paid little attention to reports that Representative Kitchin would oppose the resolution. Rather looking to him as the man who would have to lead the fight for revenue, they talked with him today to find out what he had prepared in part speech opposing the resolution. Follow-members of the house and senators pleaded with the secretary to declare the Zimmerman instructions "contained nothing of the sort."

Mr. Kitchin's opposition drew an immediate following from among the group who have opposed preparedness and armed neutrality and tonight many of them who had sat silent and fumed in the rear of the chamber thrust out their heads to the front and spoke against the resolution.

One of the most earnest speeches in behalf of the president's course came from Representative Lester Mann, who declared Germany had deliberately affronted this country and that only war could save the national honor.

WAR RESOLUTION MEETS OBSTACLES IN CONGRESS

More Than Fifty Members Are Expected to Vote in Opposition, But Passage of Resolution is Assured—Kitchin Takes Dramatic Stand.

Washington, April 5.—The house today met to consider the war resolution. The speaker, Mr. Clegg, announced that the resolution would be taken up after 1 o'clock.

For the most part the discussion proceeded with an air of unemotional acquiescence, scores of members making brief speeches to put themselves on record as reluctantly accepting war as the only course of honor.

During the day the debate revealed an unexpected strength in the minority opposing the resolution. Confident predictions of not more than a dozen votes against it gave place tonight to reports that the opposition might muster upwards of a hundred on the final roll call, and supporters of the resolution conceded that the number to vote in the negative probably would be more than fifty.

This surprising accession to the minority ranks was attributed to the efforts of Democratic Leader Kitchin, who took the floor and in a dramatic speech announced that he could not with a clear conscience vote for war.

Supporters of the president's course were not concerned over the defection, however. Sure of a great majority, they permitted the roll to be delayed only so that everyone might be heard.

Shortly before midnight after the debate had continued for more than thirteen hours, those in charge of the resolution predicted that a vote would be taken upon after 1 o'clock.

There was no certainty that it might not be hours later, however. Late tonight a suggestion by Chairman Flood of the foreign affairs committee that debate be closed before midnight, met with loud shouts of disapproval, and even the opposition of a considerable number of members opposed to voting on the resolution.

Mr. Kitchin's opposition drew an immediate following from among the group who have opposed preparedness and armed neutrality and tonight many of them who had sat silent and fumed in the rear of the chamber thrust out their heads to the front and spoke against the resolution.

ENEMY FAILS IN DRIVE TO CROSS CANAL OF AISNE

French Drive Back Powerful Assault of Enemy Northwest of Rheims—Canonading Prevails on Somme-Oise Battlefront—Foe Uses Picked Men.

PARIS, April 5.—Picked German troops made a powerful attack against the French today to the northwest of Rheims, along a mile and a half front. Their object was to clear the left bank of the canal of the Aisne, and they succeeded in their enterprise at certain points. Over the greater part of this front, however, according to the official statement of the war office, the attack failed, the French re-occupying all of their first line trenches. The battle is still in progress. The text of the statement reads:

"Between the Somme and the Oise the German artillery violently bombarded our positions north of Urvillers. The vigorous reply of our batteries silenced the enemy's guns.

"There was an intermittent artillery action on the west bank of the Oise and south of the Ailette River, but no infantry action. On the western border of the Argonne, after a heavy bombardment, the Germans carried out a surprise attack on one of our trenches north of Vienne-le-Chateau. The enemy, who made use of flaming liquids, was repulsed by our barrage fire and left dead prisoners in our hands.

"Northwest of Rheims a German attack, announced in the preceding communication, against our positions between Saigneul and the Godat farm, developed on a front of 2500 metres. The enemy had assembled numerous special troops for the assault, with the object of driving us from the left bank of the canal of the Aisne, as proved by orders found on dead officers or prisoners. The attack completely failed over the greater part of the front, where we reoccupied, almost immediately, our first line trenches.

LEGISLATION WINDS UP WORK OF THE SESSION

One of Its Last Acts Was to Arrange That No By-Elections Will Be Held During Present Term.

The legislature concluded its session's work early this morning. Among the last acts was the legislation of an agreement between the political parties to hold no more by-elections for the present. This was done by repealing the provision for a by-election within three months of the vacation of a seat. This indicates that there will be no provincial election before the expiration of the present term in June, 1918. Procrastination was fixed for 3 o'clock Thursday, April 12.

Among the formal clauses in a bill brought down after 12 o'clock were provisions for repeal of voting qualifications on women, customs officers, postmasters and inland revenue officers. The government dropped a clause to extend the hours of voting in cities.

LIQUOR LAW INFRINGEMENT.

Pte. John Bailey and his wife appeared in the police court yesterday on a charge of selling liquor at their home, Blair avenue, when Mrs. Bailey, on the testimony of a man who swore that he had given Mrs. Bailey \$150 for a bottle of whiskey, was fined \$200 and costs or three months in jail. As the evidence against Bailey was not strong enough to warrant a conviction, he was discharged.

TRAFFIC FAIRLY HEAVY.

Despite the inclement weather and the fact that the usual Easter cheap rates have not been granted this year, the passenger traffic in and out of Toronto yesterday was fairly heavy. The Cobalt express had to be made into two sections, and during the afternoon trains arrived fairly well on time, though later in the day the storm delayed many of the trains from the east.

LOADED STREET CAR IN DANGEROUS SPOT

Woman Hurt in Panic When Trolley Stopped Before Oncoming Train.

In a panic which ensued aboard an east-bound King car at the G.T.R. crossing and East Queen street, last night, Mrs. Robertson, 108 Silver Birch avenue, had her leg broken in several places when she fell from the car. She was attended by Dr. Staley of Broadway avenue, and afterwards removed to the General Hospital in the police ambulance.

According to the police, the west gate at the crossing is out of order, and a flagman was placed there to warn approaching traffic when a train was coming. The east gate was down, but the motorman of the car evidently saw neither it nor the watchman's light, and straight ahead to the other side, stopping just short of the gate. A train was approaching from the east, and the woman, frantically scrambling toward the exits in her efforts to escape, Mrs. Robertson was caught by a little bell heading to the tracks. Before the train could reach the spot, however, the flagman raised the east gate and allowed the car to proceed.

The police state, however, that the people were in no danger, as the train was drawing into the station and stopped quite a distance from the car.

WOMAN SERIOUSLY INJURED

When Struck by Motor Car

Her head bent behind her umbrella as she left Gillan's tailoring shop, 104 Mutual street, Barbara Still, 108 Wilton avenue, employed at the Royal Cecil Hotel, Jarvis street and Wilton avenue, was struck by a motor car, driven by James Gush, 314 East Clermont street, at Mutual street and Wilton avenue last night.

Miss Still did not see the car coming until it struck. Gush, however, saw her, and jammed on the brakes, but the slippery roadway caused the machine to skid and strike Miss Still sideways. She was thrown against the curb and rendered unconscious. Gush picked her up and hurried her to St. Michael's Hospital, where examination showed that she had several ribs broken and probably other serious injuries.

On leaving the hospital Gush went to Wilton avenue police station and reported the accident. He was not held.

RETURNS FROM BELGIUM.

Dr. Frederic Nicholai, son of the general director of the department of sciences and arts of Belgium, has returned to Toronto after serving with a motor transport section of the Belgian army. He was in Belgium when the war opened and immediately enlisted. Later he joined the Canadian army at Shorncliffe, Eng. Illness resulted in his discharge.

Dr. Nicholai, who was formerly a well-known musician and an importer of building materials from Antwerp, has received no word from his family, which was in Brussels when war was declared.

MAY EFFECT SETTLEMENT.

In a judgment issued yesterday at Osgoode Hall, Justice Sutherland advises the plaintiff and the defendant in the case of Williams v. Brayley to come to an agreement and adjust the account with the aid of the master. He therefore reserves judgment for one week.

The case covers an agreement of sale by Goodman, the executor of the Williams' estate, to Brayley, of a property on Jameson avenue. The plaintiff wishes to cancel that sale for \$1000, claiming the agreement void, since the defendant leased the property at an inadequate rental.

WIDENS POWERS OF COMMISSION.

New Bill Empowers Hydro to Absorb Shares of Development Companies.

Authority to issue the Hydro-Electric Commission to issue its own debentures and to take over shares in companies developing power was given in added clauses introduced yesterday to Hon. L. B. Lucas' amendments to the Power Commission Act.

The powers vested in the commission by these enactments, which received their second reading yesterday, are very wide, and have been sought by the commission for a considerable time. They empower the commission to "acquire by purchase or otherwise on any terms and hold shares in any incorporated company carrying on the business of developing, supplying or transmitting electrical power or energy" and to secure shares in such companies.

And further, the commission is empowered to "issue bonds, debentures or other securities of the commission" for the purposes set out.

The lieutenant-governor also is authorized on terms approved by order-in-council to guarantee such bonds.

H. H. Dewar (Southwest Toronto) moved an amendment to the effect that the municipalities should be given a representative on the commission. He supported his motion on the strength of the request of the municipalities previously tendered, for such a representative who would stand for the interests of the majority investors. While he made no suggestion as to how the representative was to be selected, save that the union of hydro-electric municipalities, he said he would like to see some strong names appointed, such as Mayor Church, J. W. Lyon, Guelph, or T. J. Hannigan.

Premier Hearst, in reply, said no possible workable plan had been suggested, even if the principle were admitted. The municipalities should be given a representative in their own mind on how the representative was to be selected. Members of the union had confessed to him. The government was responsible to the people of the province for the money advanced to the commission on the guarantee of the municipalities. The commissioners had large judicial powers between the commission and the government, and as between the municipalities.

San Carter (South Willington), seconded Mr. Dewar's amendment, basing his argument on his long experience with hydro matters. He thought the municipalities should have a representative at the private meetings of the commission.

The amendment was voted down on a straight party line, 17 to 37, and the bills were given their second reading.

The bills as previously drafted, subordinate the commission to the council, authorizing the commission to proceed with the development work at Chippewa Creek, and made the appointment of a controller permissive, and by the commission, not by the government.

Special noon and evening dinner being served at Cafe Royal today, 5c. Vocal and instrumental entertainment.

HEAVY SENTENCES IMPOSED ON MEN WHO ASSAULTED GREEK

Arraigned in the police court yesterday on a charge of wounding Tony Stata, a Greek merchant, by beating him on the head with an iron bar and a soldier's swagger stick, some time ago, in a West Queen street stable, Joseph Cook and George Mack, both members of the Signaling Training Department, Ottawa, were sentenced to two years in the penitentiary, and one year on the jail farm, respectively. The heavier sentence was imposed on Cook because he was deemed to be the ringleader in the affair. Alfred Boddy, who gave evidence in the case, was discharged a week ago.

GOODERHAM DID NOT REALLY WANT CITY TO GET CARS FOR COMPANY

G. H. Gooderham did not bring up his amendment to make the City of Toronto provide the 200 new cars for the Street Railway. In the committee, when Chairman Mr. Gooderham proposed that he would bring it up on the floor of the house when the bill came up for its third reading. The bill came up yesterday, but the amendment did not appear. Gooderham explained that the city did not seem to want the privilege. He had brought up the clause just as the railway board might have an alternative.

MASTER'S DECISION APPEALED.

An appeal from the master in ordinary was yesterday made at Osgoode Hall before Justice Sutherland in the case of Union Bank v. Sophronia J. Makepeace. The appeal is from a report from the court of appeal for Ontario to find what amounts were advanced by the bank to the Specialty Manufacturing Company, whose account was guaranteed by Mrs. Makepeace. The master's report held that the defendant was liable for \$226.56 interest and a liability of \$222.28 from an open account.

INHALED GAS.

When he accidentally turned the gas of a small stove on after he had cooked his evening meal, Hugh Kenny, 55 Queen street, inhaled it and was rendered unconscious. He was found in this condition by the landlady of the house, and who called in Dr. Kidd, 446 East King street. Kenny was removed to St. Michael's Hospital in the police ambulance. His condition is not regarded as serious.

DEATHS.

BOYD—On Friday, April 6, 1917, at 23 Winesville avenue, Alexander Boyd, formerly beloved husband of Anna Storey, aged 34 years. Funeral notice later.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

(Continued from Page 1).

River Stokhod, show that the Russian troops engaged suffered a severe handling. The enemy practically annihilated two regiments, or 8,000 men at full strength. The Russians withdrew to the right bank of the river. The fact that the enemy has forced two rather severe combats in as many days on this front, suggests his presence in great force and possibly to preparations for a large-scale offensive.

By joining hands with the Russians near Khanikin, in Mesopotamia, the British forces, under Sir Stanley Maude, have completed the investment of Turkey by land and sea, except the Enos-Midian line in Bulgaria. The next process of the allies will comprise the contracting of their fronts, driving the Turks inward. The allies are, in brief, conducting an enveloping movement against Turkey, and ultimately a turning movement in conjunction with the Salonica advance against the central powers. For the first time since the war began, Russia has secured an outlet thru friendly territory to the summer sea. Great Britain ought shortly to supply the Russian army of the Caucasus from Basra and from Egypt. Commenting on the Palestine and Syrian campaign, General Maurice spoke quite modestly of the victory of Samara. The Turks suffered a severe tactical defeat, but the coming of a dense fog over the land saved them from utter destruction.

The United States Government presented a budget of \$3,400,000,000 for the army and navy, as a war appropriation yesterday. Nearly three billion dollars goes to the army. The United States will have an army of a million men in a year. The budget adds 180,000 men to the American navy, bringing the strength up to 197,000. The most of the extra men will man a host of mosquito craft to fight submarines.

STOMACH MEDICINES ARE DANGEROUS

DOCTORS NOW ADVISE MAGNESIA. Just how dangerous it is to indiscriminately dose the stomach with drugs and medicines is often not realized until too late. It seems so simple to swallow a dose of some special mixture or take tablets of soda, pepsin, bismuth, etc., after meals, and so fully of this drug-ging is not apparent until perhaps years afterward, when it is found that gastric ulcers have almost eaten their way through the stomach walls. Regrets are then unavailing: it is in the early stages when indigestion, sourness, heartburn, flatulence, etc., indicate excessive acidity of the stomach, that the danger is greatest, that precaution should be taken. Drugs and medicines are unsuitable and often dangerous—they have little or no influence upon the harmful acid, and that is why doctors are discarding them and advising sufferers from indigestion and stomach trouble to get rid of the dangerous acid and keep the food contents bland and sweet by taking a little pure bisulphated magnesia instead. Bisulphated Magnesia is an absolutely pure anti-acid, which can be readily obtained from any drug store. It is absolutely harmless, is practically tasteless, and a tea-spoonful taken in a little warm or cold water after meals will usually be found quite sufficient to instantly neutralize excessive acidity of the stomach and prevent all possibility of the food fermenting.

Last Minute Aid to Men and Youths in Choosing the Easter Outfit

The extensive assortments of clothing have been greatly augmented the last few days in preparation for the biggest day in the season—the Saturday before Easter. The immense variety of patterns, materials and colors, as well as the variety in styles provides a most notable selection from which to choose, and from which almost every man and youth can obtain just what pleases his fancy.

Extra Space Overalls, raincoats and other such clothing not of a distinctly Easter nature will be removed to the basement for Saturday, and the area used for extending the displays of suits, overcoats and raincoats. This will facilitate choosing.

Extra Service We have also provided for extra salesmen and will have cashiers in the department to give quick service. Come in the morning if possible. The lists below are brief, but they are representative of the values obtainable throughout, and may aid in arriving at a decision.

Suggestion If you find anything here that seems to be about what you want, ask to see this particular line on Saturday. This will be a clue for the salesman to work on, and he will in consequence be able to give you better service and show you goods most likely to interest you at once.

FIREMEN BRAVE AT HOTEL FIRE

Five Women, Badly Burned, Carried to Safety From "Queen's."

IN CRITICAL CONDITION Four Victims of Early Morning Blaze Not Expected to Recover.

That five women employees of the Queen's Hotel were not burned to death about 2.30 yesterday morning, when fire broke out in the linen closet there, is entirely due to the promptitude and bravery of the firemen, who carried them to safety when escape by the rear staircase was cut off by the flames.

Those rescued were the Miss Margaret Burns, aged 70, 38 Ryerson avenue; badly burned about face, back, arms and body. Unconscious and condition critical. Removed to the General Hospital.

Miss Anna Anderson, aged about 40, 267 Baskerville street, badly burned about the body. Semi-conscious, and condition serious. Taken to the General Hospital.

Mrs. Mary Clark, aged 66, 14 North Shaw street; severely burned about the face and body. Condition is serious, and she is suffering from shock and possibly bronchial trouble. Removed to the General Hospital.

Mrs. Elizabeth O'Reilly, 5 Ontario street; body badly burned, and suffering from shock. Unconscious, and condition is very critical. Taken to General Hospital.

Miss Thirza Hopkins, aged 60; badly burned about the body. Condition very serious. Removed to St. Michael's Hospital.

The fire was discovered by Thomas Quinlan, 64 Gore Vale avenue, who is employed as watchman of the hotel, and he immediately notified the fire department; and in less than three minutes the downtown sections were on the scene, in charge of District Chief Corbett.

The linen room, where the fire originated, is situated below and adjacent to the sleeping quarters of the women, and when the flames burst from the room exit by way of the staircase was effectively cut off by the flames, which were so intense that the women were unable to escape from the front entrance, by which the fire escape ropes were provided, but they were so terrified that instead they chose the rear stairway, plunged into the smoke and were overpowered.

Two lines of hose were laid thru the dining-room to the rear of the building, and two more were brought from a lane on York street. It was not until the flames were partially subdued that the firemen were enabled to undertake the task of rescuing the women who were brought down ladders by Capt. John Lynch, of Richmond street hose section, and Capt. Sam Best, of Adelaide street aerial section. Lieut. David Leslie, of Adelaide street station, and Fireman Arthur Smith, of Richmond street hose section, carried another woman down the burning staircase. The remaining two women were taken to the third floor and over the roof by Capt. John Hughes and his Queen street section, Lieut. George Henderson, District Chief Sinclair and Fireman Sam Wilkinson.

TRADES AND LABOR MEN OBJECT TO ECONOMIES

The municipal committee of the Trades and Labor Council in presenting their report to the delegates at the regular meeting held last night in the Labor Temple were opposed to the action taken by the board of control to reduce the tax rate from twenty-seven and one-half mills to twenty-four mills. The report was presented by Delegate Simpson, who stated that the civic officials might as well have gone as far as to put a crepe on the door of the city hall.

The secretary was instructed to communicate with the board of control and the city council insisting that the item for the support of the municipal labor bureau be reinstated in the estimates and that Ald. Gibbons and Robbins be asked to give the matter their attention.

Regarding the proposed dismissal of many employees in the medical health department to save \$25,000, the committee were of the opinion that such changes could not be made without jeopardizing public health. They thought that the board of control should regard as their first responsibility to look after the health of the people and not economize in that department.

Council went on record as being opposed to Mayor Church's proposal to close the technical school, also to the proposal of Controller Shaw to charge students at both day and night classes an annual fee. They were also opposed to the abolition of the industrial advisory board of the board of education.

Secretary T. A. Stevenson asked that a letter be sent to the board of police commissioners demanding an investigation of the actions of a police sergeant, said to have recently searched a young woman doing picket duty outside of a building where a strike occurred.

TELEGRAPH WIRES DOWN.

The storm last night played havoc with telegraph wires east from Toronto. All lines between Toronto and Montreal and Toronto and New York were down. The morning newspapers received their news from New York over a wire connected from New York to Montreal, thence to Subury and thence to Toronto.

GRENADIERS OPEN C.D.F. CAMPAIGN

Live Up to Motto, "Ready, Aye Ready," States Official Call.

Let us live up to our motto: "Ready, Aye Ready!" is the heading to a printed call to join the 10th Royal Grenadiers Canada Defence Force Battalion, distributed to the members last night. It was the first direct appeal by a militia regiment to its members to enrolling in the C. D. F., and marks the roll in the C. D. F. campaign in Toronto. Several applications by Grenadier members for duty with the C. D. F. have already been received. Starting Monday morning, the armories will be open daily from 8 a.m. until 6 p.m. to enroll C. D. F. recruits. The pamphlet distributed to the 300 members states that:

"Drafts sent overseas from the Royal Grenadiers C. D. F. Battalion will go to reinforce the 3rd, 9th and 12th Battalions.

"Men who are physically fit should seriously consider whether they are not directly called to them to carry out the obligations they assumed when joining the militia.

"In each C. D. F. battalion, a special overseas company will be formed, which men may join direct or be transferred to. As no further C. D. F. battalions or drafts are likely to be authorized, this will be the only way for men to get overseas. Men joining this special company will at once be put on C. D. F. rates of pay and allowances, including postage fund."

The recent announcement from Ottawa that any further officers of the rank in order to reach England, and that names of those reverting should be sent to the various districts, headquarters only, so far as Toronto district is concerned, resulted in two or three names being received. It is said Ottawa will raise no objections to officers paying their own way to England in order to try for army appointments there if they prefer this method to reverting.

REVOLUTION'S VICTIMS BURIED AT PETROGRAD

Striking Ceremony Marks Interment of Remains in Field of Mars.

Petrograd, via London, April 5.—The victims of the revolution were solemnly buried today in the historic field of Mars. As the coffins, draped in scarlet bunting, were lowered, one by one, into the tremendous grave which had been dug in a corner of the field, a series of salutes—one for each victim—boomed across the ice-bound Neva from the fortresses of St. Peter and St. Paul. Regimental bands flanked the square field and thousands of persons, with bare heads, saluted in a mass for the revolutionary dead.

One hundred soldiers from each regiment engaged in the revolution took part in the procession. The girl students from the universities formed an enormous brigade, which marched down the Nevsky Prospect at the side of a company of workmen, and was followed by long columns of peasant women and servants, with detachments of officers and soldiers bringing up the rear.

Early in the afternoon the last group reached the field, and 180 bodies had been interred.

Canadian Shipping Declines During Last Three Months

By a Staff Reporter. Ottawa, April 5.—Shipping statistics show that there has been a decline of six thousand tons during the first three months of the year. This is accounted for by hurried sailing of vessels and five small steamers being struck off the spring list. Also vessels of a tonnage of 4400 were sold to the United States, 184 tons were built in Canada and 735 tons were purchased in other foreign countries.

Many Resolutions Carried at Caledonia Ratepayers' Meeting

The following resolutions were adopted at the regular meeting of the Caledonia Ratepayers' Association, held in Highland Creek, on Wednesday evening, Vice-President E. Norman in the chair.

That W. F. Maclean, M.P., be asked to bring the matter of parcels post delivery for the section at the session of the House of Commons, and to state what services and what conditions J. E. Kelly, the Canadian Manufacturers' Association was paid \$500 in the matter of the citizens' union for the freight wagon.

That the city council be requested to increase the water rate 10 per cent above cost of manufacturing, as at the present time they are charged less than the cost of water in call upon the abundant resources of our new ally in this respect, but can safely rely on them to grapple with the difficulties now besetting trade routes.

NEW ORDER IMPARTED TO AMERICAN LEGION

Unit in Training Near London Welcomes Declaration of Wilson.

London, April 5.—No group of Americans anywhere has greeted with greater enthusiasm President Wilson's declaration of war against Germany than the members of the American Legion, in the three Canadian battalions encamped near London. These gallant fighters, drawn from all parts of the United States, have been training in England since their arrival from Canada early in January. They came first with the ambulance corps, which they have been vindicated by America's action, to overthrow Prussian militarism and with love and vigor which they believe stands for freedom.

First Lord Returns Thanks For Handsome Canadian Gift

W. G. Ross, president of the British Sailors' Relief Fund of Canada, is in receipt of a letter of appreciation from Sir Edward Carson, in which the first lord of the admiralty acknowledges the receipt of two sums of money amounting to \$500,000 forwarded recently to England by the Canadian fund to be used for the benefit of the men belonging to the navy and the families of the members of the mercantile marine.

Sir Edward Carson's letter says in part: "This generous gift and cordial message of recognition of the services of the royal navy by which it was accompanied, will, I am sure, give great satisfaction to the fleet, whom it is proposed to inform of your communication by a general fleet order."

"May I be permitted also to express my own and my colleagues' pleasure at the decision of your committee to allocate a similar sum to the support of institutions maintained for the benefit of the mercantile marine, whose courage and endurance have deserved by won the admiration and gratitude of the empire."

U. S. WAR DECREE TO PARALYZE FOE

Premier Morris of Newfoundland Sees Doom of Submarines.

TO WIN WAR EARLY

Intervention to Give Fresh Supplies of Money, Men and Munitions.

London, April 5, via Reuter's Ottawa agency.—A representative of Reuter's has had an interview with Sir Edward Morris on the effect of the entry of the United States into the war. Of all the dominions in England none has had a better opportunity in recent years of knowing American sentiment than the premier of Newfoundland, who, as a result of his repeated negotiations with the United States, is well known both in Washington and New York by the leading men of the country. Speaking with a Reuter representative, Sir Edward said: "The most momentous act that has occurred since Germany proclaimed war is the coming in of the United States. Not only is it important as regards the war, but in its future effect in the participation of the United States in the permanent peace of the world. The German press seem to make light of the coming in of the United States, but that is merely part of their well known policy. They are crowing to keep up their courage. But one thing is certain: Those in Germany today who form public opinion, the press, writers, clergy and leaders in public life of the country, those upon whom the responsibility rests of defending the country are doing a lot of thinking."

To Paralyze Enemy. "The declaration of war by the United States cannot but have a paralyzing effect on Germany and her allies. They see in it not alone its moral force by the endorsement of England in her war of civilization, but is more important in the early winning of the war—fresh supplies of money, men and munitions. There is only one aspect of the war that gives rise to any serious thought for England and her allies, and that is the shipping situation, arising out of the submarine menace. But in Germany, Germany could double their effectiveness in the coming season, at the most, it would be an inconvenience."

"Now that the United States has come in, the navy of that country, if desired, is quite capable of safely conveying the whole of the American-British trade across the Atlantic, as well as from the Mediterranean. The British navy has the German fleet as safely locked up as if it were at the bottom of the sea, and we need not call upon the abundant resources of our new ally in this respect, but can safely rely on them to grapple with the difficulties now besetting trade routes."

HEAVY RAINS WILL GREATLY RETARD SEEDING OPERATIONS

Yesterday's heavy rainfall throughout the country will have the effect of retarding seeding operations, which, with the continuance of fair weather, would have been in progress. Low lying lands where undrained will be rendered impassable for a few days with the best of weather. The season is early and no anxiety is felt by the farmers at the temporary setback. Also in the York County during the winter and spring by dairy farmers. They are naturally anxious for an early start and the appearance of grass. Reports from Whitechurch, King, and West of King say that all wheat and clover seeds never looked better.

MASSACHUSETTS MAY CALL OFF GOLF MATCHES.

Boston, April 5.—The executive committee of the Massachusetts Golf Association will meet this afternoon to consider the advisability of calling off all open tournaments under association auspices this year on account of the war. Some of the members favor such action.

RATEPAYERS MAY AMALGAMATE.

At a joint meeting of the Humber Crest and Runnymede Ratepayers' Associations, held last night, looking to amalgamation, it was decided to defer action until early in May, when a big rally of all the ratepayers' associations in the county will be held. It is thought that more effective work can be done by getting together than the present method of small, isolated districts striving for improvements.

Opening of Navigation on St. Lawrence Will Be Late

By a Staff Reporter. Predictions regarding the opening of navigation show that it will be late on the St. Lawrence. The ice-breakers are now at the lower end of Lake St. Peter, but the ice is unusually heavy. Lake Superior is expected to be open on April 25. The St. Clair River, Lake St. Clair, the Detroit River and the western end of Lake Erie are now open, and the east end should be open about the middle of the month.

Every Man Finds His Measure in a Semi-ready Suit

Science and a careful compilation of physiological facts has demonstrated the Semi-ready Physique Type System—which has made possible the tailoring of most expensive cloth to the try-on stage without risk of a single misfit.

Breast and waist measures change. Height is the standard—the basis of the seven divisions and the five sub-divisions in the Physique Types—on which Semi-ready garments are designed.

A suit not intended for your physique type can seldom be made to fit even by the expert tailor. Any man can know his own type by taking his height and weight and studying the size ticket on the Semi-ready garment.

Semi-ready clothes are designed to fit with the least amount of alteration. All the parts are made with outlets.

The label and the price is in the pocket of every genuine Semi-ready tailored garment. Look for it!

STILL SLASHING CITY ESTIMATES

Board of Control Makes Further Drastic Cuts in Municipal Expenditures.

DR. HASTINGS REBUKED

Medical Health Officer Aced Hastily in Sending Notices to Employes.

The board of control is making a strong effort to reduce the tax rate to low 25 mills, and yesterday it further effected large reductions in the estimates of some of the departments.

At the afternoon session of the board the mayor drew the attention of the members to the action of Dr. Hastings in sending out notices to 25 employers that their services would be no longer required thru the cut in his estimate.

In the morning C. A. E. Brown presented the board of education's estimates, totaling \$860,647, and put up such a strong fight against the mayor that not one dollar was removed.

At the afternoon session of the board the mayor drew the attention of the members to the action of Dr. Hastings in sending out notices to 25 employers that their services would be no longer required thru the cut in his estimate.

The total debt of the city, including new charges, is \$11,372,000. Dismissing the cost of garbage collection when the street cleaning department was up for treatment, Controller Cameron declared that the people should be allowed to keep chickens and that a way would dispose of a considerable quantity of the refuse.

When considering the revenue estimates, totaling \$2,549,000, to be paid by the Exhibition board, and added \$150,000 to its special profits.

SGT. DUNCAN MACNEIL OF THE CANADIANS

Says Dr. Cassell's Tablets Cured His Dyspepsia Completely.

Sergeant Duncan MacNeil, of the Canadian Expeditionary Force, writing from Europe (his home address is 114, Pleasant-street, Halifax, N.S.) says: "For six years I suffered from frequent attacks of dyspepsia, often lasting for days at a time. When the war broke out I joined the Expeditionary Force and came to England. It had not been long there, however, when my old trouble returned, and I had to go to hospital. While in hospital a friend told me of Dr. Cassell's Tablets and I decided to try them. The first box brought me relief, and during the critical periods of life, sold by druggists at 25c per box, I bought a supply of 50 boxes. One tube, 50 cents; six tubes for the price of five. Beware of imitations said to contain typhoid germs. The composition of Dr. Cassell's Tablets is known only to the proprietors, and no imitation can ever be the same as the original.

IF your kitchen stove was buried in Bapaume— indeed all of your house goods!

YOUR little treasured odds-and-ends had been pounded to dust by artillery—and then, if YOU, following in the dust behind our victorious armies, returned to your home in (let us say) Bapaume— Wouldn't Victory taste a little bitter? Your garden—a shell crater! Your house—vanished! Your "place" wiped out! You would feel as the civilian French in these districts feel to-day. Not all the pluck in the world could keep you from despair unless somewhere, somehow, you saw friendly hands reached out to help you—unless you had hope of re-building and restoring your house, your village, your farm!

You Ontario people have the privilege of playing the brotherly part, by offering just such hope to the French war-sufferers. You have already been generous. The SECOURS NATIONAL asks you to consider now this new great need—and relies upon your humanity and generosity to answer it.

WE must raise at once, \$25,000. Will you send Secours National a contribution?

ENROLL MEN FOR SERVICE AT HOME

C.D.F. for Men Whose Affairs Prevent Them From Going Overseas.

THOUSANDS ELIGIBLE

Gives Many Opportunity to Take Place of Those Able to Enlist.

Under the voluntary system Canada has raised an army of approximately 350,000 men. Of this number about 300,000 have actually gone overseas. The remaining 50,000 have been given notice that they will be required to leave very shortly for Europe to take their places at the front.

Canada can point proudly to the achievements of her sons who have already seen part of the stiff struggle in which the British Empire and her allies are engaged. Many young men, physically fit and willing to join the Canadian Expeditionary Force, have been unable to do so because of various reasons.

The department of militia and defence, considering rightly that all possible contingencies should be met, has decided to raise a force of 50,000 men and are capable of training men in the latest and most approved way.

Many queries have been made as to what has happened to the tank which the 10th Regiment put on the streets a few days ago. Hundreds of citizens who lined the advertised route on Saturday were disappointed in not seeing the tank, and speculation has been going on as to what happened to prevent the passing of the monster machine, but the tank came under the shell fire of the enemy at the corner of Broadview and Queen.

LOSES SUIT AGAINST CITY

Mrs. Charlotte Ellis lost her suit for \$3000 damages against the City of Toronto, in a judgment issued yesterday at Osgoode Hall by Justice Kelly. The plaintiff claims that the city was grossly negligent on January 30, by not keeping the sidewalk in front of 20 Bloor west free of ice, when she fell and snapped her spine. Lacrosse Moguls Here

LACROSSE MOGULS MEET THIS MORNING

Many Enthusiastic Delegates in Town for Annual Convention.

Among the first of the delegates to Toronto yesterday, for the annual O.A.L.A. convention this morning was President-elect, P. E. Lancaster of Hamilton. He arrived in town full of enthusiasm for his new position and the prospects for the coming season. Vice-president, Ernie Doyle of Newmarket, was not long in following him here, and down at the Iroquois last night, where the delegates from points far and near were congregating, the lacrosse gossip took on the appearance of one of those fine old conventions that has been like to talk about in days of the C. L. A. Among those down to welcome the delegates to the annual convention were Dan Rose, one of the most esteemed past presidents of the C.L.A., and who is co-president today his thirty-fifth convention and the proud record of not having missed one meeting in all that time.

As usual, a swarm of the Toronto lacrosse enthusiasts were on hand talking "shop" and generally getting buoyed up for the big session this morning. The discussions told of big efforts being made all over the country to keep the game alive for the "kids," and, of course, the amendment to add a midge series is receiving loyal support all round. Last year this series was tried out in Hamilton and Newmarket, and the youngsters took well to the game. The opinion expressed seemed to be that there might be a couple of senior teams, and possibly a few intermediates, but that the greater bulk of the teams would be seen in the junior and juvenile series, and the midge series, if the amendment is adopted. Considerable opposition, however, will be found, it is thought, from the opinions expressed by delegates, to the reduction of the council from ten to six. The consensus of opinion seems to be that this is no time to reduce numbers, when they mean interest kept alive in the towns where the executive members reside, and the more executive members the more the interest.

The election of officers will find a hot campaign in deciding the vice-president, where Ernie Doyle of Newmarket is opposed to Fred Jacobs of Toronto. Both of these men are very popular, and each have their own following, so that a close ballot is expected. The second vice-presidency will be contested by J. Westwood of St. Catharines and Dr. Campbell of Orangeville, while, in the council, sixteen names will be brought up, with the ten highest being elected. W. Vandusen of Tava arrived in town last night, and seems to be a potential candidate for the executive. The following is a list of the candidates:

President—E. A. Doyle, Newmarket; Fred Jacob, Toronto.
Second vice-president—Dr. Campbell, Orangeville; W. Westwood, St. Catharines.
Treasurer—W. McArthur, Toronto (acc.).

Secretary—J. E. Dundas, Toronto (acc.).
Auditors—J. J. Craig,ergus (acc.); D. A. Rose, Toronto (acc.); James Stewart, Toronto (acc.).
Council (ten to be elected)—W. J. Westwood, St. Catharines; A. G. Davis, Brampton; W. Vandusen, Tava; J. Lambert, Toronto; L. Robinson, Collingwood; B. Sullivan, Toronto.

The amendments to be discussed are as follows:
By Fred Wagborne—Add to the constitution a series to be known as the Midge Series, with the age limit under 14 years on the first of January, and that the playing time shall be four 15-minute quarters.

By Fred Wagborne—That in all cities or towns where four teams are in a midge district, medals to be donated by the O.A.L.A.

By Fred Wagborne—Change article 1, section 5, to read: Must not have attained his 17th birthday (in place of 15th birthday) on first of January.

By Pete Hocking—Change article 1, section 4, making the junior age limit under 13 years.

By Pete Hocking—Change article 1, section 5, making the juvenile age limit 16 years on the first of January.

By E. J. Doy—Amend rule 8, section 3, as follows: For senior, intermediate and junior series the playing time of the match shall be divided into three periods of twenty minutes each, and the playing time and each actual playing time, ends to be changed only at the conclusion of each period.

By E. J. Doy—Amend rule 8, section 16, sub-section 7, as follows: A player while in possession of the ball may go into the opponent's goal crease, and any goal

Jim Archer Signs With Chicago Cubs

Catcher Jimmy Archer, a holdout, has signed with the Chicago Nationals. He had declined to sign because of a reduction in salary.

Ed. Walsh, for years the iron man of the American League, who pitched the Chicago White Sox into a world's championship, wrote Manager Mitchell of the Chicago National League club asking for a trial with the Cubs. He says that he feels he can still pitch winning ball.

President Joe Tinker of the Columbus American Association Baseball Club has released two players, Melburn Bell, utility infielder last season, and Ray Lingo, pitcher who joined the team near the close of the 1916 season. Both go to the Peoria Club of the Three-L League.

Manager Dan Howey of the Royals is now quite confident that President Stan Liebentien made a very wise move when he transferred the Royals' training headquarters from Hackettstown to the Skeeters' old ball yard, in Jersey City. The Royals have had the best of weather for training purposes, and the players are consequently fast rounding into first-class condition.

CELEBRATE GOLDEN WEDDING. Special to The Toronto World. St. Thomas, April 5.—Mr. and Mrs. J. Patrick, this city, celebrated their golden wedding anniversary today by holding a large reception. Their family of eight sons and two daughters were present, coming from all parts of the United States and Canada. Mr. and Mrs. Patrick were both born and raised in the Township of Westminster, and were married in Labelle in 1847.

Baseball Pitcher Tipple Joins Leafs

LAJOIE DECIDES ON LINEUP FOR LEAFS

Another Pitcher on Hand, But Two More and Two Outfielders Still Needed.

Petersburg, Va., April 5.—Wild Bill Donovan left Dan Tipple with Larry Lajoie today. The Yanks and Braves were unable to play owing to a steady rain all day. Tipple was in forty games with Baltimore last year; won 20, lost 12. Donovan has decided to keep Rose, there being no chance of the Leafs getting him. The outfielders offered by the Boston and New York Clubs were not of the calibre wanted by Manager Lajoie. Every man Jackie wanted had either been traded or in his position. Two pitchers and two outfielders would round out a starting outfit.

McPherson, recruit outfielder, writes that he has been sick, but will report to soon. Manager Lajoie has decided on his line-up for the first game with Petersburg on Saturday, as follows:

Smith, s.s.
Blackburn, 3b.
Graban, 2b.
Lajoie, 1b.

To Increase Purses At Connaught Park

Ottawa, April 5.—The big task of preparing Connaught Park for this year's racing was begun yesterday. Mr. Bradley Whelan, who built the track and who resigned two years ago, following a disagreement with the former manager, has returned to Ottawa and is now in charge. He signed for one year in the capacity of superintendent of the park. It is likely that his appointment will be made permanent.

The management committee of the Connaught Park Club will meet next Tuesday night for the purpose of deciding on the purses to be offered. It is understood that there will be a general increase in purses with the liberal offerings at the other Canadian tracks. Sheridan Clarke may not be available as racing secretary, and a successor will likely be appointed at next Tuesday's meeting. The stake book is now being arranged.

Ask Toronto Oarsmen To Buffalo Regattas

Buffalo, April 5.—The indications are that the present activity among the local rowing clubs that some interesting regattas will be pulled off during the coming season.

The Celtic Club has decided upon the purchase of a new four-oared shell, and has taken preliminary steps for the club's annual regatta on June 3.

The West Side Rowing Club has made early preparations for the season, and the outlook is that, unless all their plans fall, it will be the banner year for this organization. It is the intention to hold one or more regattas on the harbor course at the foot of Ferry street, to be featured with the presence of out-of-town oarsmen from New York City, Detroit and Toronto. The club is now in communication with these oarsmen, and so far everything looks favorable.

Charles J. Sheehan of the Celtic Club, who won the associate single-oar scull event at Washington, D.C., last season, is in fine form and anxious for the ice to leave the lake, so that he can begin rowing. His new shell will arrive from Cambridge, Mass., on May 1. He will row at the National and Middle States Regattas.

Dave Regan, the local champion sculler, has two racing shells at the Mutual clubhouse, and is ready to start training. He is ambitious to win honors at the national regatta after the splendid showing he made in the regatta held in Canada and at Philadelphia.

CHAMPION PHELAN DEPOSED DOWNING

Resumed His Title by Taking Two Straight Games in Final.

Harry Phelan is again handball champion, having recaptured his title yesterday in the final of the Central Y.M.C.A. handball tournament from Ed Downing, the ex-champion. Phelan took two straight games from his opponent in rather handy fashion, and proved his right to the premier honor. Playing a careful and scientific game, and using great speed and a variety of pace in his worthy opponent, and Downing's defence broke down. The ex-champion seemed unable to solve the delivery of the champion, while, although he showed great resourcefulness on the rally, did not stop points being registered against him.

The first game went twelve innings, with Phelan winning by 23 to 15, but the second battle was a variety of the greatest part of its length. Downing had the advantage, and looked good enough to even the score by taking the second fifteen minutes by one point out. Phelan was not to be deterred, and he out-pointed his opponent, and Downing's defence broke down. The ex-champion seemed unable to solve the delivery of the champion, while, although he showed great resourcefulness on the rally, did not stop points being registered against him.

MILITARY BOXERS MADE GOOD SHOWING

Ted Lewis and Tommy Lore Were Star Attraction, But Other Bouts Were Good.

The military boxing tournament under the auspices of the athletic association of military district No. 2, and the Sportsman's Athletic Association at the Arena last night was a great success and Director of Ceremonies Capt. Lou Scholes deserves credit for the way in which the bouts were handled. While the boxers were hardly up to the standard of the boys who are now overseas, they made up for lack of skill by their willingness to do their best.

The best bout of the evening was the heavyweight between Sergt. Major Barthelme and Sergt. Rouke. Barthelme, for two rounds Rourke came back with a swing that almost won him the bout. James R.F.C. proved to be by far the best of the soldier boxers and easily won his bout against Moore of the A.S.C. Another good boy, Ted Lewis, a champion welterweight boxer and his partner gave an interesting exhibition. The British actor also a real champion. He has two good hands, is shifty, and made the best impression of any of the champions seen here in years.

Jack Armstrong and Scotty Lamer of the Eldorado A.C. put up a tremendous round bout with honors even. Battling Johnson of Syracuse, and Burns of Rochester started out very brightly but in the third Johnson evidently got a idea he had a chance and went after his man fiercely and would have hit him had he had enough in the fifth and ended it by fouling.

The Summary: 135 lbs.—McCracken (C.M.B.) beat Ramon (25th Battalion) first round. 160 lbs.—E. Cahan (21th Battalion) second round. 125 lbs.—Chas. Glass (29th Battalion) beat Bolger (17th Battalion) three rounds. 125 lbs.—S. Lambert (21th Battalion) beat Loherty (21th Battalion) third round. 145 lbs.—A. Scott (R.C.D.) beat E. Penning (21th Battalion) second round. 158 lbs.—Alexander (17th Battalion) beat Price (Cyclists) first round. Heavyweight—Berwick (21th Battalion) beat Rourke (25th Battalion) three rounds. Special, 145 lbs.—A. Jones (R.F.C.) beat Moller (A.S.C.) three rounds. Special, 125 lbs.—Jack McCracken (C.M.B.) beat Johnson (21th Battalion) 16 rounds draw. 125 lbs.—Johnston (Hamilton) beat Burns (Rochester) five rounds, foul.

BODY OF UNKNOWN MAN FOUND IN OUTHOUSE

Remains May Be Those of James Currie, Who Had Relatives in Toronto.

Special to The Toronto World. Geoph, April 5.—Henry B. Tolton, who lives in a concession of Finschling Township, made a ghastly discovery yesterday at about 10 o'clock this morning when he was about to remove some farm machinery from an old unused residence on the farm. He found a body, which he at first believed to be that of a man, and he called other animals that it could not be recognized. Coroner Savage decided that no inquest would be necessary, as there were no evidences of foul play. The body was that of a man apparently about 70 years of age, fairly well dressed. It is possible that the remains may be those of James Currie of this city, who has been missing. The old man was a boarder for many years at the Armitage Hotel. He left for Hamilton November 24, but that is the last heard of him. His relatives in Toronto raised a farewell banquet last evening, and a couple of months ago to the local police asking them to try and locate him, but he could not be found.

NORTHERN DELEGATES PLANNING. Special to The Toronto World. Kitchener, April 5.—The Kitchener Board of Trade, in session tonight, decided to hold a convention on which large delegations from all central western Ontario councils, boards of trade and agricultural associations, will wait upon the Ontario Legislature, to bring to their attention arguments backed by statistical figures, why the Toronto to Windsor highway should follow the northern route.

GIVEN FAREWELL DINNER. Special to The Toronto World. Fritchard and the officers of the 13th Battalion, who are under orders to leave for the east shortly, were entertained at a farewell banquet last evening by the officers of the 25th Regiment, at their clubrooms.

Forget Former Accidents Now in Royal Flying Corps

Norman F. Newport, for three seasons quarter-back for the Argonauts football team, and secretary-treasurer of the Toronto Motorcycle Club, has become associated with the Royal Flying Corps. About two years ago Shorty broke two ribs and a collarbone while playing for the Argos, broke a wrist and a leg when he crashed thru the fence at Exhibition track to avoid a collision with a motor speedster, and in December of the same year was severely burned while trying to extinguish the blaze of a motorcycle and side-car which caught fire on the road near Cookville.

Apparently these mishaps have not been deemed a sufficient lesson. Shorty is now a full-fledged aviator in the shortest possible space of time, and expects to be soon flying over France in a bi-plane. In the business world, Mr. Newport was manager of the Robt. Elder Carriage Works, city.

SINGS WITH SYMPHONY ORCHESTRA

Tilly Koesen, the famous Dutch contralto, who will be the soloist at the Toronto Symphony Orchestra concert at Massey Hall, April 26th, is known on two continents as one of the most consummate artists of the day. Miss Koesen's voice is a deep, warm contralto of marvelous range and pliability, with splendid touches of mezzo and alto tones. The record of this contralto from the Netherlands is one of continuous success, and from present indications her welcome in Toronto will be commensurate with her great merit, and the high reputation she holds in the musical centres of Europe and America.

WOMEN WORKERS NEEDED IN MUNITION FACTORIES

Ontario Government Employment Bureau Besieged With Appeals for Help.

Rush orders at Easter are usually connected with spring suits or Easter bonnets. The rush orders that came into the Ontario Government employment bureau yesterday were for neither of these things, however, but for women workers. One factory in the city sent in a call for one hundred munition workers, while in two outside factories twenty-five workers were wanted at once.

In addition to this, a recent demand was for one hundred and fifty workers for a factory which is sending weekly supplies of pork and beans to the army in France. In this connection there are still a number of vacancies. For this work there is no restriction, except that the women should be strong enough to stand the strain of continuous work.

Many women seem to object to going out of the city, yet the men who enlist have to go out of town and out of the country. All who have already registered and others should apply at once. Those first and fit will, of course, be the first chosen.

There is also a call for government inspectors of munitions. They, too, may have to go out of town. Those ready to give service should apply at once at 164 Bay street.
