FORTY-FIFTH ANNUAL REPORT

OF THE

MONTREAL GENERAL HOSPITAL

The Annual Meeting of the Corporation of the Montreal General Hospital, was held in the Governor's Hall of the Institution on Tuesday, the 21st May, when the Board of Governors presented the following report which was read and adopted; the President, John Redpath, Esq., occupying the chair.

The Board of Governors of the Montreal General Hospital present their Annual Report to the Corporation of the Montreal General Hospital, with a concise statement of the receipts and expenditure of the Society for the year terminating on the 30th April, 1867.

Amongst the diseases treated during the year, we notice an unusually large number of cases of Diarrhœa, Dysentery and Enteric Fever, a circumstance tending to show that notwithstanding the more general attention paid last year to the sanitary condition of the city, the causes productive of such affections were prevalent and probably unduly active. The importance of this fact becomes more striking when it is added that almost precisely the same insanitary conditions as favour the propagation of the above mentioned diseases favour the propagation of Asiatic Cholera, and that in more than one Epidemic of that affection the prevalence of Diarrhœa antecedent to a general outbreak of Cholera has been observed.

On two former occasions the Board pointed out the urgent need there was in Montreal of a building for the reception of such contagious diseases

as Small-pox and Typhus Fever and this subject has been forced upon their attention in an especial manner during the year under review by the conveyance of small-pox from the wards devoted to that affection to several patients in the general wards.

Hitherto your Board have not felt warranted by the financial position of the Society in incurring so serious an expenditure as the erection of a suitable building would involve, but in view of its imperative necessity to the welfare of the citizens they have decided to venture on the enterprise and will call upon the citizens for liberal donations to defray the cost of building.

Another subject that has engaged the attention of the Board during the year has been the heating of the hospital in a better and more economical way than that at present employed and they are now receiving tenders for the construction of an apparatus by means of which the building will be heated by steam. With the view of determining what class of building shall occupy the neighborhood of the hospital and at the same time providing a large open space immediately opposite the Institution that should secure an ample supply of fresh air for its ventilation, the Board have wished for some years past to procure for the Society the property forming the corner of Dorchester and St. Dominique Streets and adjoining the vacant land belonging to the Society, which lies in front of the hospital. This has lately been done and two of the Governors, Messrs. William Molson and J. G. MacKenzie, have very generously agreed to pay respectively each one half the annual interest upon the purchase money which is to remain at interest upon the property.

The following handsome donations to the "Endowment Fund" have been made during the year :—

Grand Trunk Railway, per C. J. Brydges Esq.....	\$ 400 00
Montreal District Savings Bank.....	300 00
Peter Redpath, Esq.....	100 00

While the list of "Life Governors" has been reduced during the year by the death of the late Geo. E. Molson, Esq., it has received an unusually large accession of members, the following gentlemen having been declared "Life Governors" of the Institution :—

Peter Redpath, Gerhard Lomer, Benjamin Dawson, E. A. Prentice, and W. F. Kay, Esqs.

The annual collection amongst the citizens in aid of the hospital has been made, and the liberality of the subscribers furnishes evidence, not only of the estimation in which the charity is held by the public, but also of the efficient way in which the collectors have discharged the responsible and onerous trust committed to them. The following gentlemen deserve the sincere thanks of the Society for their kind co-operation in this work:

W. B. Cumming, Geo. Frothingham, James Ferrier, jr., Romeo H. Stephens, John Grant, T. M. Bryson, N. B. Corse, John Thompson, John Elliott, Henry Mussen, John Phelan, Benjamin Dawson and James D. Adams, Esqs.

(Signed.)

JOHN REDPATH,
President.

R. P. HOWARD,
Secretary.

Montreal, May 21st, 1867.

The following Report of the Committee of Management adopted by the Governors at their Quarterly Meeting in April last, was also read:—

The increasing cost of maintaining in efficiency the enlarging work of the Montreal General Hospital and the consequent need of its obtaining a more liberal aid, either by way of Government grant or of voluntary contributions, has forced upon the Governors an analysis of its account, and sources of income so as to justify such and appeal for more adequate support as they may find it necessary to make. To this end the report presented in May 1866 was taken for investigation.

It appears from it that the annual income of the Hospital is \$16,500; this amount was expended in the treatment of 1117 in door, and 7187 out door patients; of the former 550 or only 9 short of half were Roman Catholics and of the latter considerably over $\frac{3}{4}$ ths or very nearly $\frac{8}{10}$ ths were of the same belief. The sources from which this revenue is derived are:

- 1st. A government grant of \$4000.
- 2nd. Tonnage dues amounting to about \$1200.
- 3rd. The interest on the Permanent Fund amounting to about \$7200 (this fund was contributed wholly by Protestants.)
- 4th. Voluntary subscriptions making up the balance \$4100.

Of these latter, after a careful examination of the subscription lists it was noticed that about \$3800 are contributed by Protestants and only \$300 or $7\frac{1}{2}$ per cent by Roman Catholics; and if we add to this as we

undoubtedly ought the amount contributed last year to the Permanent Fund the proportion of the Roman Catholic subscriptions will be reduced to 5 per cent.

Now the Governors of the Hospital wish to make no illiberal or ungenerous use of these facts, but they affect so seriously the present position of the Institution with whose management they are charged, and there is so much of necessity in the circumstances in which they are now placed, that they feel it to be their duty to make these facts known, and endeavour to use them in its interests and behalf. For not only as stated above are the expenses of the Hospital yearly increasing, and do the Governors find themselves checked or hindered in their plans and the usefulness of the Institution much curtailed for want of funds, but at present a large sum of money is required for the erection of a Fever Hospital, outside the present building, the means for which if taken from the Permanent Fund will much reduce even the present income. Under these circumstances they feel it to be essential to the proper management of the Institution that they should receive a more liberal assistance either from Public Funds, from whatever source derived, or from voluntary contributions.

Nor is there any wish on the part of the Governors to make unnecessary distinctions between countries and creeds in the bestowment of the benefits of the Institution, and indeed it is evident from the report that these are in nowise withheld from their Roman Catholic fellow citizens and neighbours; but when it is found that one of the communities into which our population is divided receives liberally a very large per cent of the benefits of the Institution without contributing almost anything therefor, surely it is to that community the Governors may first turn, and appeal with the best reason for the assistance required.

It is therefore in this spirit and under these circumstances that they request their President to represent these facts by communication of this paper to the Superior Authorities of the Church of Rome, with the respectful request and in the hope that there will be rendered either directly from the Corporation of the Church, or by influence exerted upon the members of its community such amount of annual contribution as it must be admitted—as they believe the facts here set forth, have proven—to be only fair and equitable.

After the reading of the preceding Reports, Mr. William Molson announced to the meeting in a very modest manner his intention of presenting to the Society the sum of five thousand dollars (\$5000) towards the erection of the proposed Fever Hospital.

This announcement elicited an instantaneous expression of approbation as well as an unanimous vote of thanks from the meeting.

The President, in a feeling manner, thanked Mr. Molson on behalf of the Society, for this further munificent proof of his liberality towards the hospital, and remarked that this was only one of his many acts of munificence towards the public institutions of Montreal for which the citizens are indebted to him.

The meeting then proceeded to the election of six Governors for two years, and a Governor for one year. Messrs. Alexander Molson, and T. M. Taylor having been appointed scrutineers, the ballot having been made, the scrutineers announced that the following gentlemen had been elected Governors of the Institution for two years :—

MESSRS. GEORGE MOFFATT,	JOHN LEEMING,
" HENRY THOMAS,	E. M. HOPKINS,
" GEORGE STEPHEN,	THOMAS WORKMAN.

and that Mr. Robert Leckie had been elected for one year.

In conformity with the 15th chapter of the By-laws, the following proposed new By-law, having been adopted at the last Quarterly Meeting of the Governors, was read to the meeting, and carried without any discussion.

" That no officers of the Medical Board, or other Medical officers of the Institution shall be eligible to election as Governors."

The Annual Meeting of the Governors of the Montreal General Hospital was held on Thursday the 23rd of May, 1867, when the following Gentlemen were elected officers for the year :—

JOHN REDPATH, Esq.....	President.
WILLIAM MOLSON, Esq.....	Vice-President.
ARCHIBALD FERGUSON, Esq.....	Treasurer.

and JAMES D. ADAMS, Esquire.

A number of gentlemen were then named Collectors for the year, and the meeting adjourned.
