COMPLAINT RE WEST END CAR HEARD

Mr. Mayes in Role of Lawyer Before Utilities Commission

MR. TAYLOR'S PJINT

Brings Out That Personal Complaints Were Not Just as Set Forth — A Visit to the Scene Likely Finish Today

Evidence was taken this morning before the public utilities commission in the complaint made by residents of the west side against the St. John Railway Company, for inefficient service on the west side "loop" line.

Mr. D. McLeod Vince presided with O. M. Melanson and G. O. D. O'Leary, and E. P. Robinson, secretary present. Mr. Taylor appeared in the interests of the railway company and G. S. Mayes acted in the role of counsel for the complainants.

Mr. Vince presided over the proceedings. After some preliminary skirmishing between Mr. Taylor and Mr. Mayes regarding the examination of witnesses and the grounds for the complaint, Mr. Mayes called Recorder Baxter and put him through a searching examination.

Recorder a Witness. The recorder testified that the car used on the loop line last summer leaked at times and had on several occasions found the car leaking. Also during the winter months he had seen snow sitting through cracks in the car. There was a large crack in the floor of the car, though he was not sure the car was in use during the winter months. In his opinion the car was not warm enough, though this was not due to inattention on the part of employees.

Mr. Mayes then asked to be sworn and Mr. Vincent assumed the role of witness, though his services were not required on any great extent. In addressing the commissioners, Mr. Mayes said he was prepared to answer any questions the commissioners might put to him.

Mr. Taylor testified that he had been told by Mr. Mayes that he had better tell his story in his own way and added that it appeared that Mr. Mayes had not had much experience in conducting court cases.

Mr. Mayes—"We have lost a lot of time in this matter and if we cannot afford it, we would have had a lawyer."

Mr. Taylor—"I don't think Mr. Hopper has any right to interrupt in this way."

Mr. Mayes—"As a matter of fact, Mr. Taylor, you are the only one of those signatories who has not been really complained to the company."

Mr. Taylor—"Except one other I have referred to."

Mr. Mayes—"I couldn't say."

PORTUGAL MINISTRY TO GO DOWN?

Religious Question Prominent and Some Regard it Likely to Cause Defeat of Government

(Canadian Press)

Madrid, Feb. 28.—The religious question has again assumed prominence and threatens the existence of the ministry which will be subjected to an early date to a further attack by the conservatives.

The Vatican has sent another note to the administration. The text, it is understood, is more intransigent than ever, making impossible all hope of agreement.

The ministers will meet on Wednesday to examine the text of the association's bill. It is rumored that the minister of finance, who is a moderate liberal, may not approve the bill and consequently will bring on a ministerial crisis.

It is supposed that the type of the Vatican note is due to assurances from certain influential elements that the religious question will cause the fall of the ministry.

According to Captain Legation of the Portuguese minister for the reasons that there is not a small rise and fall of coal and it is therefore possible to work the vessel all the time. At the present time the coal, eastern legs and others have to tie up at the lower or harbor end of the ship, where there is a lot of sixties or eighty feet. As a result of this, it means that at certain times of day, they are compelled to tie up.

Captain Legation said that, as he had been coming ashore for many years and was paying for his privileges as the year round, he is not sure that he should be known as a sailor.

On the other hand, James D. Alward, collector of harbor revenues, explained that the tax was not a new one, but that it was a tax on the coal which was used in the harbor.

Mr. Taylor—"I don't think Mr. Hopper has any right to interrupt in this way."

Mr. Mayes—"As a matter of fact, Mr. Taylor, you are the only one of those signatories who has not been really complained to the company."

Last Minute Report Says Compromise On Big Measures Has Failed

(Canadian Press)

Washington, Feb. 28.—After a filibuster which had lasted for more than nineteen hours through yesterday afternoon, all night and the early hours of today, to prevent a vote in the Lorimer case, a truce was reached at 8:10 o'clock this morning.

The main work of the filibuster against the Lorimer case at a fixed hour on Thursday and that at a later hour the same day a vote will be had on the permanent tariff board bill; that the amended tariff board bill, which was introduced by Senator Lorimer of Kansas when the Lorimer case was being argued, will be eliminated and that still other concessions will be made, at one time it was suggested that an agreement might be reported by a division which would permit the Lorimer case to be argued on the basis of a compromise.

The purpose of the suggestion was to avoid an extraordinary session if possible. It is not believed, however, that there will be any agreement on the tariff board bill. It is not likely that a vote can be had on the Lorimer case.

Senator Bailey of Kansas, who is the author of the bill, said that he would extend his free list.

Betting Syndicate in Kentucky Takes up Book Making on National and American League Games

(Canadian Press)

New York, Feb. 28.—There were received here today by express from Kentucky, circulars of a betting syndicate which offers to accept bets on the outcome of the approaching pennant races in the National and American Baseball Leagues, and also on club against club series. The circulars caused some uneasiness among the local baseball men, who were quick to denounce the scheme and it is understood that immediate steps will be taken by officers of the leagues to correct what they consider a menace to the national game.

HEROIC WORK OF FIREMEN

Swing Truckman in Mid Air to Rescue Woman

(Canadian Press)

New York, Feb. 28.—Fastening a clothesline under the arms of John Stack, of Truck No. 40, several policemen and firemen lowered him over the edge of the roof of the five story apartment house at No. 322 West 121st street and swung him back and forth, about fifty feet above the street, until the momentum was sufficient to let him catch the sill and climb in the window of the fifth floor from which a woman and her baby were seen to fall back into the burning building.

Once in the room, Stack removed the rope and fastened it around the waist of Mrs. John O'Connor, who was lying unconscious on the floor with her baby, Ella, three months old, in her grasp. Laying the baby near the window so that she could not be suffocated, Stack took the woman above to the second floor, where she was unconscious, was swinging in the air, and at last was hoisted to the roof.

By that time firemen had ascended the four flights in No. 308 and were at a window overlooking an airshaft four feet wide. Stack straddled the airshaft, with a foot on either window sill, and passed the baby to Mrs. O'Connor, who was lying unconscious on the floor with her baby, Ella, three months old, in her grasp.

THE TIMES' NEW REPORTER

WHAT THE STANDARD OMITTED. Mr. James Jones says that he is disappointed in the St. John Standard. It cannot raise to a great occasion. Here is a proposed reciprocity agreement which threatens to shatter the British empire to fragments, and bury them in the uttermost depths of abysmal ruin; and yet the Standard comes out with the following milk-and-water declaration:— "If the business men and loyal Canadians, who have this measure as they have death, will do their plain duty in every town, village and county in the Dominion, even this government will be made to pause, and their supporters in the house of commons will be forced to apply the veto to further action. It is up to the country now. Let those who have convictions make them known. Let public meetings be held everywhere and the peoples voice be heard. Otherwise we will befall."

What James expected the Standard to say at such an awful time of gloom and peril was something like this:—"Oh, sacred emblem of the free! Oh spirit of a thousand years! Oh, memory of a mighty past! Is there no voice to denounce, no hero soul to stand dammed and repel the fierce invader of our fair land? Shall the rich potato, warned in New Brunswick soil, and nourished by the balmy air and golden sun of light of New Brunswick, be saved from the potato bug to make French-fried for a Yankee glutton? Perish the ignominy! We are men. Let us arise, O Garrison the oblige gardeners every corner rather than that her milk should be converted into butter for a Yankee breakfast table. Let us arise, O Garrison rather than that a Yankee foot should tread a floor of Canadian work. Spare the tractor who would take a fish from Canadian waters to fry in a Yankee pan. Let us arise, O Garrison, by the beard of the prophet, North! Let us arise to yield. If we fail to defend our heritage, may the howling moths nest in our whiskers, and the fruits of our folly turn to scum on our lips."

"Now that," said James, "would be something like a protest."

FROM POOR MAN TO STANDARD OIL DIRECTOR

Drake Began By Starting a Little Oil Station and Selling to Country.

New York, Feb. 28.—Thirty-six years ago a young railroad changed occupations and was put in charge of a small oil district in a town in Iowa. This week the young man stepped into the highest councils of the Standard Oil Company.

The man is L. J. Drake. He has just been elected a director of the Standard Oil Company of New York following his election several weeks ago as a director of the powerful parent company, the Standard Oil Company of New Jersey, vice H. M. Tilford, deceased.

Mr. Drake established his little Iowa station and sold oil to the countryside. The shrewd founders of the company saw that he was efficient and they told him to establish more stations and run them. He was made a district superintendent, then state superintendent and finally they gave him several states.

His next step was western manager and in 1892 he was told by come to New York. Since that time he has been moving "upstairs." Now he is on the top floor, wealthy and powerful.

The full list of the directors of the Standard Oil Company of New York is William Rockefeller, John D. Archbold, C. M. Pratt, J. A. Moffatt, W. Jennings, A. C. Bedford, H. C. Folger, Jr., W. C. Teague and L. J. Drake.

TUBERCULOSIS IN THE SCHOOLS OF TORONTO

Twelve New Cases This Month—What the Nurses Find

(Toronto News)

Miss L. L. Rogers, superintendent of schools, stated this morning that twelve new cases of tuberculosis had been discovered amongst the children by the school nurses so far this month. Miss Rogers said that the children suffering from the disease were given over to the care of the Health Club, an organization composed of graduate nurses of the Sick Children's Hospital. Here the children are well looked after and whenever possible are given a bed and room to themselves. In the summer the children are taken over to the Lakeside Hospital, where they occupy the villa which was erected there last year.

Miss Rogers said that three cases of contagious diseases had been located by the nurses which had escaped the attention of the parents.

Another interesting fact pointed out by Miss Rogers was that many cases of sickle and trouble, which could only be remedied by performing an operation, had been discovered by the school nurses amongst the poorer children, whose parents are unable to afford the money necessary for proper medical attention.

In many cases the parents are anxious to have their children attended to if they could be relieved of the expense. The nurses have sent so many children to the hospital for treatment that they are overcrowded, and have announced that they will be unable to accommodate any more children until April.

C.M.B.A. ORGANIZATION

In St. Michael's Hall, Main street this evening the new branch of the C. M. B. A., will be organized, and it is expected that there will be a large attendance of those who have applied for membership. There have been about seventy-five applications, and the majority have been accepted, and the applicants will be enrolled as charter members. Officers from the city branch will be present, and will initiate the new members, after which the election of officers will be proceeded with. The new members who have been fitted up in St. Michael's hall, have been given much praise on account of their conspicuous appearance.

These papers advocate: British connection, Honesty in public life, Measures for the material progress and moral advancement of our great Dominion.

No graft! No deals!

"The Shamrock, Thistle, Rose entwines. The Maple Leaf forever."

BEAUTIFY THE CITY

The Times commends to all its readers the following recommendations made by the Arboriculture Society:

"Help beautify your city.

"Become a member of the society—annual dues \$2, life membership \$25.

"Protect and take an interest in the trees.

"Place window boxes with flowers in your front windows.

"Plant vines and ornamental shrubs for permanent effect.

"If practicable remove all walls, fences and railings from your property."

The spring season approaches, and if the citizens enter heartily into the spirit of the new movement to beautify the city the general aspect of St. John by midsummer will be in striking contrast to that of former years. The society, of which Col. G. West Jones is president, says further:

"The society will bear part of the cost of purchasing, planting and placing guards about trees for members."

While tree planting involves expense, there is much that may be done at so small cost that a general effort to carry out the plan, proposed by the society, would not bear heavily upon the poorest citizen; while the net result would be a genuine revelation of a great change that may easily be accomplished.

By all means let the movement become general throughout the city. If the subject is considered and plans laid during the next few weeks the spring will witness an activity in planting trees and flowers such as the city has never witnessed.

THE PEACE MOVEMENT

The Peace Movement doubtless means more to all who heard Rev. Dr. Tryon's address before the Canadian Club last evening than it has ever meant before.

Those members of the club who were unable to attend missed one of the most interesting addresses with which the club has been favored for a year past.

Dr. Tryon is a fluent and pleasing speaker, moderate in the expression of his views, and master of his subject. His address was well considered and strengthened by apt and forcible illustrations. He paid a high tribute to the service of Great Britain in the cause of peace, dwelt upon the joint contributions of Britain and the United States to the cause of arbitration, and closed with an earnestly expressed hope that those great Anglo-Saxon peoples might at an early date agree that all their differences, of whatever nature, must be settled in this manner.

Dr. Tryon awakened an interest here in the celebration of one hundred years of peace, and associated it with the names of the late Prince Albert, the late King Edward, the late Sir Julian Pauncefote and eminent British as well as American statesmen whose influence made for international peace and good-will.

If there was any feeling that the Peace Movement could not be made the subject of an inspiring address, or that the peace advocates were a haphazardly group of persons, it has been effectively dispelled by Dr. Tryon. The citizens are indebted to him for presenting a subject of world-wide breadth and interest with a freshness and force that appeals to us all.

PROVIDE PLAYGROUNDS

When will the city of St. John take up seriously the public playground movement? The Women's Council have shown on a small scale for some years past what can and should be done on a large scale. The Every Day Club has done what it could in connection with the grounds it had leased, which now, however, have been sold and diverted to another purpose.

This is not a movement for one or several organizations, but for the whole city. Some or later the need of playgrounds must be recognized and met. Why not begin now? Here is a word of encouragement from the Toronto News, telling of the developments in that city:

"No small credit is due to the founders of the public playground movement in Toronto. The pioneers in such a movement are certain to be regarded as faddists and hobbyists until their cause has overcome the opposition and apathy which it must at first encounter. It is just three years since the Toronto Playground Association was formed, and it is to be congratulated on the success it has achieved. It is proposed to perfect a plan of cooperation between the city council, or civic parks committee, the board of education and the playground association. This seems a wise

WHAT IS GOOD

"What is the real good?" I asked in musing mood.

Order, said the law court; Knowledge, said the school; Truth, said the wise man; Pleasure, said the fool; Love, said the maiden; Beauty, said the page; Freedom, said the dreamer; Honor, said the sage; Fame, said the soldier; Equity, said the seer.

Spoke my heart full sadly: "The answer is not here. Then within my bosom Sifted this I heard: 'Each heart holds the secret; Kindness is the word.'"

WEAK HEART WAS THE CAUSE.

Mrs. Robinson Collette, Rogersville, N.B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart and nervous system for some time, and I was afraid to go to bed at night. I could not sleep at night, and I was unable to do any work. I have never used any other pills, and I can recommend them to all sufferers."

HOW ABOUT THIS GIFT?

A promising young merchant recently presented to his darling wife a handsome lamp as a Valentine gift. He was much flattered when she told him to give it his name, until he asked the reasons for so peculiar a proceeding.

"Well," she said, "you know, dear, it has a good deal of brass about it, it is handsome to look at, requires a good deal of attention, is remarkably brilliant, is sometimes unsteady on its legs, liable to explode when only half full, flares up occasionally, is always out at bedtime, and is bound to smoke."—From Norman E. Mueck's National Monthly.

ALBERT COUNTY MAN SUCCESSFUL IN WEST
News of Interest—About Lovett M. Wood—Gets Appointment in Orient

New Brunswick people remember Lovett M. Wood, formerly of Albert county and publisher of a paper called the Albert Maple-Leaf. He went to the west some years ago, and the following from the Seattle Post-Intelligencer of Feb. 20, shows that he has been very successful:

Lovett M. Wood, editor of the Seattle Trade Register, who was recently appointed States commercial agent to the Orient, has just returned from the east, and is now arranging his affairs in order to leave for the Far East about March 15 for an indefinite period.

Mr. Wood stated yesterday that he looked forward to being able to accomplish a great deal for the commercial interests of the United States and that he proposes to leave no stone unturned in promoting close business relations between the United States and the Far East. Mr. Wood said:

"I hope to be able to get my private affairs settled so as to be able to leave by the middle of next month. I shall serve under the direction of Mr. A. H. Baldwin, chief of the bureau of manufacturers."

"I can see before me a field of operations that should permit of marked results beneficial to the manufacturers of the United States, and I shall do my best, under the direction of Chief Baldwin, to make a thorough investigation of trade conditions in the extensive, wonderful and fast developing Oriental countries."

"I have received scores of letters and congratulations and hundreds of personal earnest wishes for success, that will be taken with me as an incentive and pleasant reminder while far from my home."

Mr. Wood's appointment as States commercial agent to the Orient was made by the President of the United States, and the position is one of considerable importance.

MORNING LOCALS
In the school room of Lester street Baptist church last night, Mrs. Fletcher delivered an enjoyable lecture on Burma. It was much appreciated by the large number present.

A sleigh drive to the home of Mrs. Mabel Bonnell at Ketepee was a source of much pleasure yesterday afternoon to the members of the Women's Auxiliary of St. Luke's church. Songs, music and addresses, served to pass the time in a delightful manner. The return to the city was made about 11 o'clock last night.

Conroy Jones, aged 16, was arrested yesterday afternoon, by policeman Silas Perry on charge of snowballing in Victoria street. He was fined \$8 by Judge Ritchie, but it was allowed to stand against him.

"Here and There in Our Province" was the subject of an educative and entertaining discourse last night by D. B. Jack in the school room of St. Andrew's church before the members of the guild. A hearty vote of thanks was tendered Mr. Jack.

Before the schooner Annie Blanche, loaded with lumber at Eymouth Creek, left port there yesterday afternoon, two accidents occurred on board. Mrs. Newcombe, wife of the captain, had one of her ankles broken, while his son's left hand was crushed.

Rev. Fathers Seyringer, Pearce and Freer, of the community of the Resurrection, Mirfield, Yorkshire, England, have reached the city. They will open missions this week in Toronto, and before returning to the old country, will tour Canada and the United States.

The musical entertainment given by the Salvation Army in the Charlotte street chancel last evening was well attended, the building being filled to the doors. Adjutant Carter was in the chair. Esquire Urquhart gave selections on the mandolin, harp and other instruments, which were much enjoyed. Captain Stewart, Adjutant and Mrs. Carter and Captain Davis sang, and Mrs. Aday and Mr. Freeze gave readings. A good sum was realized, which will go toward clearing off the debt on the chancel.

Our doctor gave me medicine but it did me no good, so I got a bottle of Dr. Wood's Norway Pine Syrup, and by the time I had used two bottles I was entirely cured. I am always recommending it to my friends.

Do not be humbugged into buying the so-called Norway Pine Syrup but be sure and insist on "Dr. Wood's." It is put up in a yellow wrapper; three pins free the trade mark; the price 25c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

The Evening Chit-Chat

By RUTH CAMERON

There is a certain woman whom I know who prides herself greatly on the fact that she sleeps with her chamber window wide open even in the dead of winter.

"My sleep wouldn't do me half so much good," she says, "if I didn't have all that good oxygen."

This woman is also very careful about the airing of her bed—pulls all the clothes off and lets them air at least until the middle of the forenoon, and thinks the woman who makes up her bed before breakfast a sort of hygienic Pariah.

All of which, except the harsh judgment of course, is most praiseworthy.

BUT—here's the rub—what I don't understand is why she doesn't extend her interest in fresh air to the day time, why she thinks she needs oxygen when she is asleep and not when she is awake.

For I have visited at her home and I know that this is the case. That is, I know that the living rooms and dining room and kitchen here she and her family spend much of their fourteen to sixteen waking hours are not treated to any such systematic airing as the bedrooms, where they spend their eight or ten hours of sleep.

Isn't that a queer inconsistency?

And isn't it a common one?

In the average household I don't believe that the living rooms are given a systematic all-the-windows-wide-open airing once a week in the winter, except on sweeping days.

And I think they should be treated to one at least once a day—better twice.

One housekeeper I know, who believes as I do about this, always opens all the windows downstairs as soon as she gets up and leaves them open for a few minutes, no matter how cold. The fresh air beats so much more quickly down the stairs that she says by the time she rises the rooms are as warm as they would have been if she had not done this, and are filled with fresh air instead of the stale air of the night before.

So every night before she goes to bed she goes about the living rooms and puts all the shades that have been pulled down for the evening up to the very top notch so that if the sun is up before she is none of the sunshine will be lost from her home.

Modern housewives are beginning to realize the value of manufactured germsides as weapons with which to fight disease and dirt.

That is good, but they ought not to fail to realize also the irreparably greater value of those germsides which the greatest wealth cannot buy nor the most absolute poverty deprive one of—sunshine and fresh air.

Daily Hints for the Cook

DRIED APPLE CAKE.
Take two cups of dried apples, stew just enough to cut easily, chop about as fine as raisins, and boil in two cups of molasses; drain off the molasses for the cake; then add two eggs, half cup sugar, one cup sour milk, two teaspoons soda, one cup butter, four cups flour, three table-spoons of lemon juice and a half teaspoonful of every one, two or three hours.

The effectiveness of this simple remedy is surprising. It seems to take hold instantly, and will usually stop the most obstinate cough in 24 hours. It tones up the jaded appetite, breaks long fasts, and is a helpful cough, and as a pleasurable, two excellent bronchial trouble, throat tickle, croup, whooping cough, and an unequalled remedy for whooping cough.

This recipe for making a remedy with Pinex and Sugar Syrup (see advertisement) is a prime favorite of the homes in the United States and Canada. The plan has been initiated, though never successfully. If you try this only genuine Pinex, which is the valuable concentrated compound of glycerol white pine extract, and is rich in iron and all the natural healing elements. Other preparations will not work in this recipe.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

FEARFUL DEATH TOLL IN NEW YORK STATE FROM TUBERCULOSIS
Ithaca, N. Y., Feb. 28.—The monetary loss to the state from tuberculosis in 1910 is placed at \$61,000,000 by Professor Walter F. Wilcox, Cornell statistician.

RENO DIVORCE COLONY BREATH EASY AGAIN
Reno, Nev., Feb. 27.—There is rejoicing throughout Reno today on the part of many of the divorce colony over the news from the capital, killing the proposed new divorce bill. The measure extends a death blow to easterns coming here for the purpose of securing a divorce after a residence of six months.

The bill was brought up and action upon it indefinitely postponed by a vote of 11 of the 17 members. Under the rules, this precludes further consideration during the present session.

Mr. Spencer's Poem

To the Editor of Times.

Sir—No doubt the Times is sufficiently interested in the work of our local poet, Mr. Spencer, to publish the following. Twice of late a question as to the authorship of "A Hundred Years To Come," has appeared in the Query and Answer department of the New York Times, and in each case it has been stated that the author is William G. Brown, also that the poem was written in 1890.

The issue of this paper for January 28th last contains the entire poem. The first time this poem appeared your correspondent wrote the name stating the name of the author, but for some reason this information was never inserted in the query column. Perhaps someone else would be interested in taking the matter up with the Times, in which case it is to be hoped he will be successful in obtaining honor for whom honor is due.

Yours
VERITAS.

IMPORTANT MATTER FOR GRAND JURY

Need of Place Where Juvenile Offenders May Be Sent

SUGGESTION OF FARM

Judge Forbes Asks That Matter be Presented to Government—Two Cases on Criminal Side of County Court—Eighteen New Citizens

The quarterly session of the county court opened this morning at 11 o'clock in the court house, His Honor Judge Forbes presiding. Indictments against William McArthur, charged with escaping from the jail gaug on January 27 and George Stanton and Harry Stone charged with breaking and entering Emerson & Fisher's store were presented to the grand jury. C. J. Coster, K. C., appeared for the crown and E. E. Logan and J. B. M. Baxter, K.C., for Harry Stone. E. S. Ritchie appeared for Stanton.

The docket. Criminal. The King vs. William McArthur, escape. The King vs. Harry Stone and George Stanton, breaking and entering.

New Jury. L. Louis F. Dufrene vs. Amadeo Guimond et al—W. B. Wallace, K. C. attorney. O. D. Hanson vs. John Rolichaud—H. J. Smith, attorney.

The Grand Jurors are—Fred C. MacNeill, Frank J. Laloy, Robert C. Haley, Gordon Hevenor, John T. McGowan, Charles H. Gibson, Joshua Ward, Robert Magee, Wm. A. Munro, Geo. H. McLaughlin, Robert J. Armstrong, Robert T. Warden, Thomas Gorman, John Spillan, John Magee, John Hornbrook, Burtace Barnes, Thomas H. Linton, Kendall Hall, G. Wilford Campbell, J. Edmund Seaward, Alfred L. Dodge, Edward L. Rising and John R. Vaughan. Robert M. Magee was selected as foreman.

The petit jurors are—N. Louis Brennan, Charles E. Belyea, Justin G. Lako, F. McDonald, Richard H. W. Rowley, Harry S. McLaughlin, Marshall Armstrong, Charles M. Hoyt, E. B. Johnston, Joseph P. Quinn, F. William Kaye, Thomas L. Murphy, Andrew W. Emery, Harry M. Floyd, Henry C. Green, George H. Plummer, Sidney Gibbs, Wm. V. Hatfield and Wm. C. Magee.

His Honor stated that he had received several applications to be excused from service on the petit jury. Men would be excused only by proper certificate. Judge Forbes remarked on the new electronic painted walls, table tops, etc., which had improved the appearance of the court room.

W. H. Harwood read the naturalization papers of Philip Goldstein, Benjamin Levine, Alex. Shiano, Jacob Warsaw, Abraham Drebin, Samuel Levine, David Cherry, Henry Goff, Louis Harwitz, Myer Perchok, Louis Baxt, Leonard Shane, Lazar Bellif, Jacob Herrett, Maurice Fine, Aaron Tenzman, Samuel Goldfeiner, Harry Gikstein.

Judge Forbes' Address. His Honor, on charging the grand jury, took up the case of the King vs. McCarty, accused of escaping from the chain gang. He said that he did not think they would have much difficulty in finding a true bill. His Honor then commented on the case of the King vs. Harry Stone and George Stanton. He drew attention to the serious nature of the charge. The defendants were accused of breaking and entering the store of Emerson & Fisher, and evidence was that they took revolvers and loaded them with ball cartridges, which showed disposition on their part to defend themselves if discovered. The jury would have no difficulty in finding a true bill.

His Honor then referred to the need of legislation to provide a proper place to which to send juvenile offenders. Children from eight to twelve years are brought before him charged with truancy and similar offences. There was no place to send these children, but the reformatory, where they would be assisted with criminals and come out worse than when they went in. His Honor regarded it as a crime, but there was no way for him to escape his duty. The government should provide some farm away from the city and its influence, where they could be trained in useful habits, where they could see the green fields and chickens which would bring out their finer instincts. He would like the jury to take this matter up in committee and make some recommendations to the government, whereby these children might be saved, and become useful members of society.

His Honor congratulated the jury that so many of them had such a sense of their responsibility as to attend to discharge their duty to their king and country. The jury had not returned at 1 o'clock, and the court adjourned until 2.30.

WENT ACROSS CANADA

In the school room of St. James' church last evening before the members of the Young Men's Athletic Club, the pastor, Rev. H. A. Cody, delivered a highly interesting and edifying lecture on a trip from St. John to Vancouver, B. C. The address was illustrated with 100 magnificent views, showing pictures of the large centres along the route, the prairies, Rocky mountains, irrigation canals, and numerous other scenes all of which were much enjoyed.

Mr. Cody, in a concise and pleasing manner, described the points of interest en route, taking his large audience across the prairie, pointing out the particular features which would impress themselves upon the mind of the traveler, and dealing at some length with the municipal management of some of the western cities.

He also told of their growth, and compared the methods of living and the advantages in the east and in the west. In 1871, he said, the village of Winnipeg had a population of about 100, while the city now glories in numbering its population at 120,000. Montreal, Quebec, Fort William, Calgary, Victoria, and Vancouver also came in for their share of attention, and on the whole the lecture proved decidedly interesting to an audience which crowded the school room.
