grateful and satisfied users. Many successful farmers and horsebreeders have saved and improved their stock by using our improved HEUREKA CAPSULES. How about you' Have you ever thought of giving this remedy a trial. If your horses are troubled with bots and pinworms, they are suffering just as much as any human being. No matter what you feed them or how well you feed them, and no amount of extra good care will do them any good. The horses will steadily loose flesh and after a while will be run down and unfit for work. You must exterminate the root of the evil, the cause of the different diseases which develop from bots and pinworms.

A GOOD HEALTHY STOCK OF HORSES IS THE BACKBONE FOR A THRIV. ING FARM.

If your horses are unfit for work, you cannot prepare your soil, you cannot harvest and thresh your crop.

If you have never tried these famous "HEUREKA CAPSULES," you should give them a trial at once. One trial will convince you. Why not do it now !

About 2,000 men are required in connection with spring work on the animals have shed their winter the land of this province from outside Saskatchewan, according to T. M. Molloy, commissioner of labor in discussing the farm labor situation. The employment offices in this province have 667 unfilled applications for men and with the near approach of seeding, this aumber will increase very largely. A telegram was received from the Vancouver office yesterday asking how many men from British Columbia could be handled here. A reply was sent to transfer be tween 500 and 800. Offers of help from the Maritime provinces, Ontario and a few from Winnipeg have also been made.

Mr. Molloy does not expect any difficulty in securing 2,000 men. The trouble if any, is going to be in getting men who can stand the work as many of those now out of employment in the east and on the coast are unaccustomed to working on the land.

With these last words, Maggie's sobs burst forth with the more violence for the previous struggle against them.

Mr. Stelling felt like a kindhearted man; he foresaw a probable money loss for himself, but this had no appreciable share in his feeling, while he looked with grave pity at the brother and sister for whom youth and sorrow had begun together. When he knew how Maggie had come, and how eager sh was to get home again, he hurried their departure, only whispering mething to Mrs. Stelling, who had followed him, and who immedsetely left the room.

Tom and Maggie were standing on the doorstep, ready to set out, when Mrs. Stelling came with a little basket, which she hung on Maggie's arm, saying, "Do remember to eat something on the way, dear. liked, and she kissed her silently. bion.
