BAND OF ROBBERS CAPTURE AND LOOT MEXICAN TOWN

Boldest Raid in History of the Country—Fifteen Armed Men Swoop Down on Town and Take Possession—Brisk Fight with Troops.

CITY OF MEXICO, June 26.—Wild stories concerning a formidable and serious revolutionary outbreak in the northern part of Mexico were wholly discredited today by telegraphic reports received from Governor Cardenas of the State of Chihuahua. According to these telegraphic advices which were received by Vice President Corral, one of the boldest bandit raids ever attempted in the history of Mexico was successfully carried out when the town of Viesaca was assaulted and looted yesterday. The bandits, numbering 15, all well armed and mounted, swooped down upon the town without warning. A feeble resistance was made by the police of the place but after three of them were killed and three mortally wounded, the marauders practically had things all their own way. They first proceeded to the jail, releasing all of the inmates, some of whom joined the robbers. The bandits next headed for the bank of Viesaca, a branch of the main institution of that name which is located in the city of Monterrey. They soon overpowered the employees there and robbed the bank of all the money they could get. At the sum is not stated in the official despatches. From these robbers with a hurrah went to the government stamp office, looting it and doing great damage to the postoffice. They then turned back to the express office, robbing it. By this time the whole town's population was terrified. The bandits cut the telegraphic wires and tore up some of the railroad tracks. However, before communication was interrupted, word was sent to the state capital of the assault. Governor Cardenas immediately reported the raid to the secretary of the interior here and dispatched local troops to the scene. After imprisoning the municipal officers and further terrifying a branch of the town, the robbers got word that troops were on the way to the scene. This morning the bandits left and at the town of Matamoros De La Guay, they encountered the first detachment of troops. A lively fight ensued in which one trooper was killed and several wounded. The soldiers succeeded in capturing all of the bandits, but the remainder made their escape and are now in the wilds of the State of Durango. The attack on Viesaca, Texas, June 27.—The attack on Las Vocas, Mexico, yesterday, is separate and distinct from the affair at Viesaca. Thirteen towns are more than 100 miles distant from each other and the assaults were at least 24 hours apart.

NO CAMERA NEEDED. Prof. Lippmann Discovers a Method of Direct Photography.

PARIS, June 26.—As already mentioned in a brief cable despatch to the "New York Times," Prof. Lippmann, of the Sorbonne, has just made a discovery which will revolutionize the art of photography. When his discovery has been perfected in a few of its details, cameras may be done away with, and the photograph will give the same effect of relief and perspective which can be secured now only by use of the lens. The discovery is so simple and so easy to make that it may be mentioned that it was Prof. Lippmann who first discovered color photography. His latest discovery is no less extraordinary. Prof. Lippmann's laboratory occupies two entire floors of one of the Sorbonne buildings, far from the noise of the street and the incessant movement of the Latin Quarter. It may be mentioned that the laboratory is perfumed with the odor of Turkish tobacco. The professor smokes all the time—this is a detail for the more part—lighting a fresh one as soon as he has consumed the old. He has been on the track of his new discovery for many months. There was no hazard in it. He arrived at his results by studying the eyes of flies and mosquitoes.

END OF THE WORLD SET FOR OCTOBER

Accordingly All the Holy Ghosts are Preparing to Migrate to Jerusalem. SHILOH, Me., June 26.—"Elijah" Frank W. Sandford, founder of the Holy Ghost and Us Society, is at the despatch at his headquarters in the Holy Hand, and a cablegram has been received from him asking for aid. Mrs. Sandford also is reported to be in feeble health. "Moses" Charles E. Holland, who is in charge of Shiloh, is preparing to sail on the yacht Kingdom with money and supplies to relieve them. It was announced in the chapel this week that a message had been received from Sandford saying that the world will come to an end in October, and warning the Shilohites to be prepared. Holland is now negotiating with a New York yacht club for two discarded voyagers to be used to transport the colony to Jerusalem before October. On orders from Sandford all the Shilohites, men, women and children, are learning to swim. The men in charge of Elder "Piper" take a plunge every day at 8 a. m., while the women, in charge of Elder Hatch take their bath in the Androscoggin River each day at 10:30. There is much sickness and insanity at Shiloh. Only last week a Mrs. Shaw who came here from New York several years ago, was sent to the insane asylum at Augusta.

SHAW ORDERS NEW ELECTIONS FOR PARLIAMENT

TEHRAN, June 26.—The Shah of Persia will issue a decree and ordering new elections for the assembly and senate, which he will open in state three months hence. A general amnesty has been proclaimed and there is no longer any danger for the refugees in the legations.

PERSIAN SITUATION STILL VERY BAD

Rigorous Restrictions Announced by Shah. Members of Assembly Imprisoned in Royal Camp—Others Have Fled—Governor of Town in Russian Legation.

LONDON, June 27.—The Times Tehran correspondent says that the Shah's proclamation declares Persia to be under martial law from June 22nd, and that it gives General Likhtoff, commander of the Cossacks, free hand to deal severely with the people. The assembling of the people and the carrying of arms is prohibited on pain of death. Several members of the assembly are in chains in the royal camp. The others are scattered and their whereabouts is unknown. The number of prisoners in the camp is increasing hourly. Those detained are being subjected to the worst of ordeals. Messages from the provinces are being censored, thus severing the provinces from communication with the capital. It is difficult to pass mail, but undoubtedly the popular feeling that what is regarded here as the activity of Russia probably will restore the Shah's authority. The correspondent also says that it is reported from Tabriz that the Governor of that city has taken refuge in the Russian Consulate there.

WIFE COMMITS SUICIDE IN COURT

PARIS, June 26.—A tragic scene was enacted at a court-martial in Danzig yesterday. Some months ago a volunteer of the Thirtieth Artillery Regiment named Schwarz became engaged to the daughter of a wealthy merchant. Her parents would not hear of the match, however, and after doing everything they could to dissuade the girl they offered her \$500 if she gave up her lover. The girl agreed, but directly she obtained the money, she hanged herself to her sweetheart and persuaded him to go with her to London, where they were duly married in a registry office. But the young man was moved to repentance for his desertion, and a fortnight ago the two returned to Danzig, where he gave himself up to the authorities. His trial took place yesterday, and owing to the circumstances he was not let him off with a light sentence of three months imprisonment. The young wife was in court, and when she heard that her husband would have to go to prison she swallowed the contents of a small phial of poison, and fell dead on the floor.

HELIE ANNOUNCES HIS WEDDING DATE

PARIS, June 27.—The Matin's London correspondent telegraphs an interview with Prince Helie de Salicrue, which the prince said that his marriage to Mme. Gould will take place about July 7, and will consist of a religious and civil ceremony. Only four witnesses will be present, two Germans for the prince and two Americans for the bride. When questioned on the subject of conversion to Protestantism, Prince Helie, according to the correspondent, asked him why he should become a Protestant. A TREAT FOR ST. JOHN. The fine performance of the Bohemian Girl so successfully put on in Halifax by Max Neil and his talented group of amateurs will be given in the city Monday evening next. When the Halifax amateurs played Capt. Reese here a few years ago they had crowded houses. If the Bohemian Girl is put on as good as Capt. Reese was, St. John theatre goes home a treat in store for them. In the Halifax company are several very gifted singers and it is universally conceded that a more finished production of any opera has never been heard in Halifax and Halifax is famed for its amateur operatic productions. It will be wise to secure good seats early. MRS. JAS. BRICKLEY. The death of Mary Ann, widow of James Brickley, removes one of the oldest residents of St. John. Mrs. Brickley was in the ninetieth year of her age, and has been very feeble for the past three years. Her demise occurred last night at 11:30 at the home of her niece, Mrs. Sullivan, Victoria street. She leaves two sons, James, who resides at Burton, Sunbury County, and John, Boston. She was born in Ireland and came to St. John when an infant with her parents, and has resided here ever since. Her husband, who was a well known boatman, died about ten years ago. Mrs. Brickley has been a life long member of German street church. The funeral will take place from the residence of Jas. Sullivan, 26 Victoria street, on Sunday afternoon at 2:30. HONG KONG, June 26.—The R. M. S. S. Empress of Japan arrived Thursday, June 25th at 8 a. m.

SOLDIERS PREFER SUICIDE TO "SIBERIA OF ENGLAND"

GLB WOMEN AT BOSTON INJURED Tally-ho Upsets and Delegates Were Caught Under the Vehicle—Prompt Aid Extended. Five Suicides at Bulford Camp on Salisbury Plains Since Christmas—Men Driven to Desperate by Loneliness—No Amusement But Drink.

NEWPORT, R. I., June 26.—Two thousand club women who came here from Boston today for an outing were back greatly saddened, as a result of an accident which caused serious injuries to several of their number. Many of the visitors, who were delegates to the biennial session of the General Federation of Women's Clubs in Boston, had been enjoying carriage drives about the city and it was the occupants of a tally-ho coach bound for Boston's Beach who met disaster. When the coach had reached the middle of a steep hill on Bath Road, at the corner of Cliff Avenue, one of the forward axles suddenly broke and almost instantly the vehicle collapsed. Most of the women were caught beneath the coach, which turned completely over. The accident occurred in the midst of the holiday throng, and aid was swift in coming. Private automobiles were placed at the disposal of the injured, and all were taken to the Newport hospital before the police ambulances, which had been summoned by a nearby resident, had arrived. At the hospital the utmost secrecy was observed regarding the identity of the injured women, who numbered twelve, the physicians and attendants stating that such was the wish of the women themselves. It was understood, however, that a Mrs. Davenport, of Watertown, Mass., and a Mrs. Wynn, of Malden, Mass., were the two most seriously injured, and that they were in a dangerous condition. One of the other women, who was cut about the face and ankles, was said to be a Mrs. Sinden, of Lincoln, Neb. Most of those taken to the hospital were able to leave the institution after they had been treated for bruises and other minor injuries and tonight only three remained. These were Mrs. Henry Wynn, Malden, Mass., suffering from a skull fracture, Mrs. B. F. Davenport, Watertown, Mass., collar bone and three ribs fractured; Mrs. Sinden, Lincoln, Neb., collar bone dislocated and cuts about head and face.

CLEVELAND LEFT A COMPARATIVELY SMALL FORTUNE

Press of Both Parties Pay Tribute to His Career. BATTLE WITH TROOPS. Exciting Revolution at Las Vocas—All Communication Cut Off—Troops Rushed to the Place. EL PASO, Texas, June 27.—In an encounter between revolutionists and troops of the Mexican Government at the town of Las Vocas in Coahuila, Mexico, near the border, a force from Del Rio, Texas, early yesterday, between forty and fifty were killed and the remainder of the Mexican troops were badly injured, according to a despatch received here last night. The story of the battle as received here is as follows: The quarters of the Mexican officers and barracks were first upon by the attacking band and the assault centered upon the Federal Customs House. Forty troops were finally assembled. In the disorder following the initial attack upon the barracks and the discovery that the quarters of the soldiers were burning, the revolutionists captured about sixty horses belonging to the Mexican cavalry. At the customs house the troops made a determined stand and the fighting lasted all morning without intermission. It is stated that 5,000 shells were expended. The revolutionists cut all telephons and telegraph wires, leading to Las Vocas and thus prevented the besieged town from sending for reinforcements. After heavy firing until about noon, the attacking party was repulsed and communication was established out of Las Vocas. CONSTANTINOPLE, June 26.—The Sultan of Turkey has conferred the Order of Chevalier on Mrs. Theodore Roosevelt and Miss Roosevelt. MILLION DOLLAR FIRE. DULUTH, Minn., June 26.—Fire this afternoon destroyed elevator D of the Consolidated Elevator Company and No. 1 dock and shops of the Northern Pacific Railroad Company, causing a loss of more than \$1,000,000. CLEVELAND, Ohio, June 26.—Three children were burned to death tonight when fire destroyed the home of Wm. Kilnicks. ASTOR GIVES \$5,000. LONDON, June 27.—William Waldorf Astor has given \$5,000 to assist the British School at Athens in carrying on its excavations in Laconia, Greece. Umbrellas Recovered, Duvals, 17 Waterloo Street. Sale of hair beginning Monday, June 29th, from 25c up. Flowers 5c. MacLaughlin's, 107 Charlotte St. Marriage licenses and wedding rings. Buy them together from Walter H. Irving, the Jeweller, 55 King street. Don't be discouraged if your clothes need cleaning, pressing or repairing. McPartland, the tailor, will do them for you. Clifton Block, 72 Princess. Phone 1018-41. If you want to be an economical buyer trade with us. You are sure of getting one-quarter of cost anywhere else. Ladies' skirts, \$1.45. Ladies' waists, 80c. J. Ashkin, 655 Main St. The Margie Miller will run on Sunday on Dominion Day and will hold over her six o'clock trip on Tuesday evening until seven o'clock. Tonight, 8 o'clock to 9, one hour only, 15 and 20c. Fancy cakes, 5 pounds for 25c. Sale stops at 9 o'clock sharp. McLean's Dept. Store, 143 Mill St. There will be a temperance meeting as usual at the Every Day Club at 8:30 tomorrow evening. The choir of the Tabernacle church will sing and there will be other musical numbers. Not only is tea grown at a high elevation finer flavored and more healthful than ordinary tea, but it is much more economical. That is why one pound of "Salada" will make more cups of tea than one and one-quarter pounds of any other kind. What might have been a serious accident took place yesterday afternoon at Spruce Lake, when Louis Turnbull, teamster for John O'Regan, fell from a load of hay in the barn to the floor. The man was not able to move for 15 minutes. His head was badly out and his right arm broken. The safe owned by George Doherty of Sussex, seized during the Scott Act raid on his premises, was opened by H. P. Iddle, but no liquor was found inside. It is understood that Mr. Doherty has given instructions for legal proceedings against those who took part in the seizure. No further information regarding the disappearance of Captain Stephen Merrill has been received by his wife on Dorchester street. A letter has been forwarded to New York and an answer is expected on Monday. It is believed by his friends that there can be no mistake about the matter on account of the thorough search which has been made by the police of New York and the statements of Captain Giese in the letter. There are many interesting bargains at the Harvey Clothing, Hat and Furnishing stores in the Opera House block today. Men's cutting suits, cutting trousers, shirts, light weight underwear, wash vests, fancy socks as well as boys' vacation suits. Boys' wash suits, ties, collars, belts, etc. The stores will be open tonight till 11 o'clock. In today's advertisement it will be seen M. R. A. Ltd. are announcing a sale of summer millinery and flowers, the prices of which are low enough to cause a veritable rush of ladies this evening when the bargains commence. Rich French blossoms in abundance are going to be placed on the cut-price counters along with one of the finest collections of modish hats it is possible to assemble at the prices. Read the advt. ROGHEKKEPBAE, N. Y., June 28.—Columbia won the gentlemen's fours race by one length. Cornell was second, leading Pennsylvania by four lengths. Syracuse and Wisconsin did not enter.

SPORTING MATTERS

CALLAGHAN STILL LEADS THE LEAGUE

Batting for .471—Standing of Different Players in Society League. The Sun has been furnished with the batting and fielding averages of all the players in the Inter-Society League by Peter Carroll, the official scorer. This average includes all games played up to Thursday evening. As shown by both the batting and fielding averages all the teams are hitting hard and playing a good game on the diamond. Callahan of St. Peter's, leads the regulars in stick work, having an average of .471. Hoid of St. Joseph's comes next, with .460 per cent. Rogers, Donnelly, C. McCormick, F. Mahoney and J. Dever of St. Peter's are batting over the 300 mark. F. Mahoney, for St. Peter's, is fielding 100 per cent. For the St. Rosa, Downing leads the batters with .381 per cent. Quigg and McKinnon are the only other players batting over the mark. P. O'Toole, who played in five games, has a fielding average of 100 per cent. His brother "Jack" is the next fielder on the team with .971 per cent. For St. John the Baptist, Captain Walter Harris, who finished among the leaders last year, is batting at the clip of .345 per cent. Walter is also fielding good, having an average of .965. "Johnny" Creagan and Mills are also over the 300 per cent mark. John McDermott, the man who receives all the gifts, has not forgotten to field the ball, while McGuigan is also free from errors. The St. Joseph's last year's champions, are hitting hard and fielding well. Hoid, who has played 12 games, is batting at .400 per cent and fielding the perfect mark. Captain Brit, Donovan, Long and Breen are over the 300 per cent mark. Hoid Breen and Small field at 1000 per cent. It will be noticed that Small is not credited with a hit. As stated before, this list does not include Thursday's game when "Ned" secured two hits out of two times up the pace. Another look over the lists shows that F. Dever, the clever third baseman and captain of St. Peter's, leads the league in runs, having 16 to his credit. Charlie McCormick is left guard, comes next with 14. Rogers leads the bunch in safe hits, with 10 to his credit. Short-stop Curran of the St. Joseph's comes next, having beat out the ball 9 times. Rogers has the greatest number of put-outs, with 88. This means that the St. Peter's twelfth have more strikeouts than their opponents. Johnny Creagan has made the largest number of errors, but he has accepted 48 chances, having 23 put-outs and 28 assists.

MARATHONS AGAIN DEFEAT CLIPPERS

The Marathons were once more victorious on the Victoria grounds last evening, when they defeated the Clippers to the tune of six to one. In fact if it had not been for an easy run by Chase in the last inning the Clippers would have been shut out and the most credit would have been due to George Titus, who pitched an excellent game for the winners. Titus has been out of the game for some time but last evening he had lots of speed and used the nice drop ball that he used a few years ago when he twirled for the Portlands. Mr. Titus is now, as he always was, a favorite with the fans and he has not lost any of his cleverness in America's national game.

He had no less than six strike-outs in the seven innings and fielded his position well. He had, however, two errors, and those, it is fair to say, were caused by his slipping when fielding the ball, as he had no clamps on his shoes. The three assists he had in the game, however, were clever plays, and his many friends were happy to see him again on the diamond. It is exercise for him during his vacation and proves enjoyable. Mr. Titus' support was good throughout, and of the five hits made off him a couple were slow infield ones. McBride was in the box for the Clippers and while he was touched for nine hits he had had support from some of the players. In the first inning both sides were retired quickly, despite the fact that Copeland of the Marathons made a two-bagger. In the second inning, with one man out, Stubbs drew a base on balls, stole second, a wild pitch put him on third and he scored on Ritches' single to right field. The Clippers came very near scoring in the third, when they had six men on base, but good playing by the Marathons stopped the score. In this inning a couple of singles and a stolen base gave the Marathons another run, and they would have got a second run had not Tommy Howe used excellent head work in his position at third, when he kept Bradbury on that bag and by excellent throwing retired the last two men. Both sides were blanked in the fourth and fifth innings, in which a quick double play by the Marathons' second, first and third basemen was a feature. In the sixth the Marathons got two hits and some good base running. The Clippers retired the side with a nice double play. In the seventh and last inning, errors, two hits, a stolen base and a pass ball gave the Marathons two more runs. R. Sproul opened the seventh for the Clippers with a single, but was caught off first. A. Howe singled to second and managed to get to third on Sproul's out, third to first. An easy one to Chase from McBride was fumbled and Howe was allowed to score and save a shut-out. Wolfe struck out and the game was over. Score six to one in favor of Marathons. The following was the score and summary of the game: Marathons, A. B. R. H. P. O. A. E. Malcolm, c. f., 4 2 2 0 0 0 0 0 0 Bradbury, 3b., 3 0 0 0 0 0 0 0 0 Copeland, s. a., 4 0 2 2 0 0 0 0 0 Chase, 2b., 4 0 0 2 2 1 1 0 0 D. Malcolm, l. f., 1 0 0 0 0 0 0 0 0 Stubbs, 1b., 3 2 1 1 7 2 0 0 0 Rootes, c., 2 0 0 2 7 2 0 0 0 Glasgow, r. f., 3 0 0 0 0 0 0 0 0 Titus, p., 2 0 0 0 0 0 0 0 0 32 6 9 21 14 3

Clippers, A. B. R. H. P. O. A. E. Sweeney, c. f., 3 0 0 0 0 0 0 0 0 T. Howe, 3b., 3 0 0 0 1 2 0 0 0 Lynch, 2b., 3 0 0 1 4 2 1 0 0 Duffy, c., 3 0 0 0 0 0 0 0 0 R. Sproul, 1b., 3 0 2 10 1 2 0 0 0 A. HOUSE PROROGUES EARLY NEXT MONTH

Members Going To Tercentenary Premier's Proposal is Regarded as Just

Hon. H. R. Emmerson, M. P., arrived in the city yesterday from Ottawa. Mr. Emmerson is looking hale and hearty, notwithstanding the tedious strain under which the members have been laboring during the past few months. Mr. Emmerson in answer to a question from The Sun said that there was no doubt that parliament would prorogue early in July. The members are anxious to get away in time to attend the tercentenary celebration in Quebec, and there is a mutual desire on the part of the leaders to have prorogation brought on before that time. For seven months now the Ministers have been working many hours a day without cessation and the wonder is that they have stood it so well. Mr. Emmerson did not enter into a discussion of the Manitoba elections bill, but stated that on all sides he believed that Sir Wilfrid's proposal was not only modest but essentially just. The unfairness of the act as it stood was admitted by the best thinking Conservatives.

The picnic of the German street Baptist Church Sunday school was held yesterday at Westfield Beach. About 250 persons were in attendance. Refreshments were served to the children. An exciting ball game was played in the afternoon, when the boys from German street church defeated a nine from the Murray street Mission Church to the tune of 4-2. The game was fast and created much excitement.

UNION CLOTHING CO., 26-28 Charlotte Street—Opp. City Market. ALEX. CORBET, MANAGER.

AFTER A MINE DISASTER.

On December 6, 1907, 358 men were killed in an explosion occurring in two mines at Monongah, West Virginia. This is a typical mining town of about 3,000 inhabitants. It shut away among the hills, writes Margaret F. Byington in the Boston Transcript. The rushing, brown Monongahela River runs through it, on either side of which are rows of little gray company houses that cluster about the company offices or straggle up the hillside. Two saloons and an opera house where cheap shows come are the only excitement offered by the village itself, although Fairmont, the county seat, five miles away, offers other diversions. As unimpressive a little town as you could have found. But how the little things of life are so important to the people. For a time it became a mining town of the country. But this year passed and the town is now left to face the long problem of sorrow and poverty.

The explosion mercifully brought instant death to its victims. It spared the lives of those who were in the neighborhood of uncertainty. When once the terrible scenes were witnessed, as a result of the explosion, the men were taken to the hospital, and the women were taken to the hospital. The explosion mercifully brought instant death to its victims. It spared the lives of those who were in the neighborhood of uncertainty. When once the terrible scenes were witnessed, as a result of the explosion, the men were taken to the hospital, and the women were taken to the hospital.

PROVIDING FINANCIAL AID.

For such personal grief there is, of course, no comfort that an outsider can give. But there are financial problems to be met and it is here that the public can give its most effective assistance. As relief continued to pour in, it became evident that some definite plan for its distribution must be made. It was to reach those most in need. An organization, hastily formed by the ladies of Fairmont, undertook this task and has throughout done most effective work. A list was made of all those left dependent and groceries were sent them immediately as long as the supply lasted. As the company, who were most generous throughout, were allowing the families to live in the houses rent free, with coal and gas provided, while at the same time they were providing financial aid.

Painless Dentistry Assured

Trains number Eighty-five and Eighty-six will be discontinued until further notice on and after February 1st.

MORAL TRAINING IN PUBLIC SCHOOLS

FREDERICTON, June 26.—At today's afternoon session of the Teachers' Institute, Dr. Kierstead delivered an address on moral training in public schools and strongly urged its adoption. He pointed out the differences of opinion among religious bodies as to how much religious training should be given in schools. The speaker thought that education should ever recognize moral training. He held that it was not so much the teaching of religion that is required as religious teaching. He advocated at least a book on moral question and the establishment of a chair at the university of teaching scientific education. He claimed that the duty of all teachers, he claimed, to work in harmony with the churches. Prof. Locke next delivered an interesting address on the teacher and his work. A. B. Magas of Sussex and Wm. McLean of St. John were nominated as representatives to the University Senate. The latter was declared elected by a vote of 73 to 64. The report of the auditor was read and adopted and the meeting adjourned. This evening at the Normal School the teachers were entertained with an illustrative talk on music, eight reading by Professor Harrison. Tomorrow morning the Institute will meet at 10 o'clock in the afternoon at the address on manual training. This will constitute the session's work. The gatherings have been the most successful in the Institute's history, over 700 interested teachers having enrolled.

Scenic Route.

Steamer Maple Miller leaves Millidgeville for Sumnerville, Kennecott Island and Baywater, daily except Saturday and Sunday, at 9 a. m., 4 p. m., returning from Baywater, Sunday at 7 and 10 a. m., and 4:45 p. m. Saturday at 7 and 10 a. m., and 4:45 p. m. Sunday at 9 and 10:30 a. m., 2:30 and 4:15 p. m. Returning at 8:45 and 11:15 a. m., and 7 p. m. JOHN McGOLDRICK, Agent.

FRANCIS KERR CO., LTD., Per Francis Kerr, Manager.

WOMAN GEM DEALER MURDERED.

Paris Has a Third Mystery of Crime to Solve—Signs of Murder. PARIS, June 26.—Great excitement has been caused by a third mysterious murder here similar to the recent killing of the artist Steinheil and the retired banker Berry. As in those cases, there is no clue to the perpetrator. The victim was Mme. Sauzizon, who occupied a flat on Rue de Bondy. She was a dealer in gems, especially diamonds, and will continue the jewelry business under the firm name of FRANCIS KERR CO., LTD., Per Francis Kerr, Manager.

Every Woman should have this. It is the most perfect and most reliable of all. It is the only one that is safe and sure. It is the only one that is pleasant and easy to use. It is the only one that is effective and reliable. It is the only one that is safe and sure. It is the only one that is pleasant and easy to use. It is the only one that is effective and reliable.

FOUR

THE STAR, ST. JOHN N. B. SATURDAY, JUNE 27 1908

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (LTD.) at St. John, New Brunswick, every afternoon (except Sunday) at \$1.00 a year.

ST. JOHN STAR. ST. JOHN, N. B., JUNE 27, 1908.

It is apparent that James T. Sherman has decided not to run, but will continue in the running as Republican candidate for the Vice-Presidency.

But of my drakes and my sedges Nones make the kill, None tempt him up from his fastness Under the mill.

OWNERSHIP OF THE STREET. "Don't you know who owns the street?" queried the Judge.

KEEP LITTLE ONES WELL. If you want to keep your children healthy, rosy and full of life during the hot weather months give them an occasional dose of Baby's Own Tablets.

TWO BOYS DROWNED IN 15 FEET OF WATER. MONTREAL, June 26—In fifteen feet of water and not twenty feet from the shore, two youths were this evening drowned opposite Mile-à-la-Peine.

THE UNATTAINABLE TROUPE. I know a pool where the river, Sunlit and still, Slips by a bank of wild roses Down from the mill;

For in the shade of the alders, Scornful of flies, There is a trout that no cunning Coxes to rise.

And when the May fly-battalions Flutter and skim, When all the others are filling Baskets a-brim,

Setting in fancy my head, Seized with a frounce, Hearing the reel padding madly Under his pounce,

Knowing at least all the pounds of his magnitude (Eight if an ounce)

Millions—I see that, and that's the future I wish to get my clothes from you, too!

EVERYTHING HAS ITS CAUSE, its simple and striking and satisfactory cause. If we can but find it," said J. McKee Borden, secretary of the Department of Charities, at a banquet in New York.

WHY IS IT? "Why is it," said the first, "that the poor is always more willing to help us than the rich?"

THE JUDGE. "Do you know the value of an oath?" asked the Judge of an old darkey who was to be the next witness.

GRAFTING FOR PLUMS. "If you want a plenty of good plums," remarked the practical horticulturist, "you have to graft."

CUTTING BAIT. "How are you going to spend your vacation this year?" "Cutting minnows for my friends to go fishing with."

MY FIVE DAUGHTERS ARE ALL MARRIED NOW. "I suppose you had considerable difficulty in getting so large a number of girls of your hands?"

THE ARMY AND NAVY. The people of the United Kingdom thus contribute 128 per cent, and the white inhabitants of the Empire outside the British Isles only 6d.

CHILDREN'S EYESIGHT! Small defects in children's eyes are a large hindrance, but often such defects can be corrected by the early adoption of glasses.

PORTLAND METHODIST Y. M. C. EXCURSION TO FREDERICTON, JULY 1st. We intend this to be one of the most enjoyable outings of the season. "Come and bring your friends."

STR. VICTORIA LEAVES INDIANTOWN at 8 a. m. sharp, returning at about 11 p. m. Boat will stop at Brown's Flats, Gageton and Taylor Town.

NEWPORT, R. I., June 24—The new steamer Commonwealth, which is to go on the Fall River line to New York, arrived here tonight after a five hours' trial from New York.

THE UNATTAINABLE TROUPE. I know a pool where the river, Sunlit and still, Slips by a bank of wild roses Down from the mill;

THE BRITISH EMPIRE IN THE STATISTICS

Wonderful Growth of Fifty Years Set Forth—Area and Population—The Army and Navy.

The following will give some idea of the area and population of the British Empire and of its various States, of its growth in the last fifty years, and of its military and naval resources.

Table with 2 columns: Country/Region and Area/Population. Includes Australia, India, Canada, etc.

THE WEDDING. It was not a pretty wedding. The bride was honeyed and so was the groom, and the minister was very plain.

THE WEDDING. The bride did not look well because her dress was not appropriate. It was a costly white silk, and did not match her husband's pocket book.

THE WEDDING. The wedding supper was not pretty, nor good. There was too much coffee, those who did not like cake were hungry.

THE WEDDING. The wedding presents were not good. The bride's trousseau was not useful. There were seven vases, ten water pitchers, thirteen napkin rings, seven bottle stoppers, fourteen picture jars, and out of the whole outfit there were very few that were useful.

THE WEDDING. The wedding presents were not good. The bride's trousseau was not useful. There were seven vases, ten water pitchers, thirteen napkin rings, seven bottle stoppers, fourteen picture jars, and out of the whole outfit there were very few that were useful.

For the Home Dressmaker

Holding to One Color

EXCLUSIVENESS and expediency might impress you as antithetical words, but in the question of dress they are frequently interchangeable if well-dressers did but know it.

The poor girl will yearn for an exclusive style in clothes, reminding herself the while that it could not be recalled to necessary economy; the rich girl will abhor the thought of expediency, believing it to be at variance with successful results.

This is all a mistake, and the poor girl, by means of good taste and good judgment, may so transform expediency that it will masquerade as exclusiveness; and should the rich girl be credited with expediency, surely it will do her no harm! All this is by way of introducing a word of advice upon the selection of colors.

The spring of 1908 is pre-eminently a season of color and in view of this, do you think I am correct when I ask you not to appropriate every one of those most delectable shades?

A little method in the madness of dressing, which it behooves every woman to consider, is the selection of a certain type, a particular style, a peculiar shade, which possesses individual advantages.

The first gown shown may be made of soft pink batiste or silk muslin with the under-bodice and sleeves of silver valencienne lace or dotted net, while the hands might be made of cotton cord wrapped with the material or of white silk cord.

INEXPENSIVE EVENING GOWNS FOR SUMMER

SUMMER gowns are now in order, and must be made before hot weather swoops down upon us, making the finished garments so desirable and rendering us unfit for sewing. Usually the girl who makes her own winter blouses and helps to make her house gowns is able and willing to make all of her summer frocks, but when she does she wants to save money to procure at least a really good costume.

The models of inexpensive evening dresses from Paris show that while skirts are to be sweeping and becoming, the bodices are to be finished with a certain elaborate and becoming simplicity. The feature of summer costumes will be the shades, tied at back or front or at the side. They are of soft ribbon or silk in the same color as the gown or else in a tone that harmonizes well with the general color scheme of the costume.

Many lingerie gowns of white will be trimmed with bands of flowered muslin or with dotted swiss. The combination is most attractive, and the clever girl may get many fascinating effects.

The dress of silver lace and dotted net, while the hands might be made of cotton cord wrapped with the material or of white silk cord. The sach of darker pink may be satin or taffeta and finished in a deep silk fringe.

The dress of silver lace and dotted net, while the hands might be made of cotton cord wrapped with the material or of white silk cord. The sach of darker pink may be satin or taffeta and finished in a deep silk fringe.

The dress of silver lace and dotted net, while the hands might be made of cotton cord wrapped with the material or of white silk cord. The sach of darker pink may be satin or taffeta and finished in a deep silk fringe.

Flowered ribbons are costly, but they may be used with different dresses—a point in their favor. However, so may black, and it wears a far longer time.

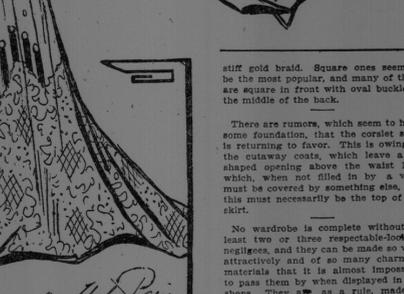

The dress of silver lace and dotted net, while the hands might be made of cotton cord wrapped with the material or of white silk cord. The sach of darker pink may be satin or taffeta and finished in a deep silk fringe.

Our Letter From Paris

THIS demi-season is drawing to a close, although still there are many women who have not yet put on really spring clothes. This is probably owing to their discouragement at Auvergne, where they went clad in their very best and were caught in the heaviest snowstorm of the winter. It was discouraging, it is true, but from now on there will be little chance of another such contretemps. There were there a great many costumes of black velvet or velveteen with long panel jackets, trimmed with silk or braid in different breadths, and the inevitable jabot of soft antique lace.

The new fashion in neck arrangements, by the way, consists in wearing a narrow band of fur around the throat, tied at the back of the neck with broad black ribbons. However, it is true, rather an odd-time effort to the modern costume, but it cannot be called universally becoming. As the seasons advance, the idea is being ousted out in ribbon, for, of course, from now on fur can have no place in the costume-trimming, but some of the elegantes have taken such a fancy to these tight ruffs that they wear them about the house, which seems like the return to the fashions of the seventeenth century.

Many Parisian, shortness, too, are wearing hats of their own, afternoon capsions with a daisy, but semi-tailored costume.

For the demi-season flower toques are much in vogue. A very pretty one is made of wild flowers, and is trimmed with quills of straw, and is placed on a small flat top of black or a crown of green straw trimmed all round with white and mauve blossoms, and on the side is a white algerette.

Green, by the way, seems to be the coming favorite for next season. It will be used on tailored suits, house dresses, and even for ball gowns. Lace is extensively employed for summer wear, although Irish lace has become more popular, as a trimming than for a whole dress or blouse. This is because it is too white and too heavy for the average complexion. A lovely dress in green tulle is trimmed with the bottom with silk of a darker shade, the hem has points cut out in lighter tulle, the top of the skirt trimmed with a large bow. This is quite a novelty, and marks a new epoch in skirt trimming.

A charming gown seen at the races was empire in electric-lace panne velvet. The upper portion of the corsage and sleeves was ornamented with vertical point lace, with long chambray-lined suede sleeves were worn, and a hat of black chip, the crown of which was surrounded by a row of algerettes, which fell backward from the crown, the chinnet of the crown of a soft hood. Madame also wore a loose coat of black silk, the corners of which were turned back at the bottom to show the lining of gray satin.

NOTICED WHILE SHOPPING

EVERY woman who takes any interest in her costumes is looking for novelties in neckwear, some new little touch or wrinkle that makes her blouse look just a little different from her neighbors and a little bit more becoming. It is because of this ambition that they are always seeking for information in regard to these most important accessories. Of course, every one realizes that with the stiff collars and the new flaring stocks and jabots, the neckpiece so popular three years ago has almost entirely disappeared, although there are yet a few old-fashioned chains which are appropriate even with the newest collars.

THE question of a model for a walking or outing skirt has always been interesting to American women, for they use the white short skirt so much and for so many purposes. The ideal skirt is one that may be laundered easily, that does not show the shape around the hips and that has no hooks to rust.

THE skirt in question is the ten-gored lined, buttoned down the front, with covered buttons that may be instantly detached when the skirt is sent to the tub. The gores are so narrow that shrinking or losing shape is practically an impossibility, and the placket being absent there is no opportunity for mis-placed pleats or rusty hooks. Then at the laundry it is not necessary to force the skirt over a board, whether it fits or not, for the skirt opens all the way down the front so that it may be flat when ironed.

**PROFESSOR GRAHAM BELL ON AIRSHIP POSSIBILITIES**

**Great Inventor Visits Toronto and Discusses Projects for the Future—Air Power is of Greater Importance to Great Britain Than to the Other Nations.**

(Mail and Empire.)

"Actually the flying machine is here now, and there remains only the problem of improving it," declared Dr. Alexander Graham Bell, the inventor of the telephone, who is now staying at the King Edward, during a conversation on the subject of his experiments in aerodynamics. He said that there are now twelve successful flying machines in existence. Of those the Aerial Experimental Association, of which Dr. Bell is chairman, and the Wright Brothers have produced the only types built in America. Dr. Bell pointed out the fact that the Wright Brothers had in 1905 traveled 24 miles in a machine heavier than air, the Englishman Farman had flown two miles, De la Grange, a French aviator, had gone ten kilometers. Of the machines in whose construction he himself had been interested, he remarked: "Our machines are so promising a character that I have no doubt we will be able to do all that has been done. But we have gone far enough to show that the age of the flying machine is here now."

He referred to the fact that the French army was now equipped with three dirigible balloons and spoke of the long flight of the La Patrie from France to Ireland without any serious incident in charge. "If a machine could have sailed over London or hovered over a man-of-war, the English are more interested," he said. "I am glad to see that Great Britain is taking up the subject."

"We can certainly predict that these machines will be used for sport and very likely may be used for carrying the mails. Now an hour and there is no reason why we should not get 60 miles," said Dr. Bell, speaking of the possibilities of the machines.

Dr. Bell, who is a hale and hearty man of the physique in spite of his 65 years, has been paying a visit to Stratford, and is now on his way to his summer home at Baddeck, Nova Scotia. He has been engaged in the study of flight for more than a decade, and has now organized an Aerial Experimental Association, of which he is the chairman, and of whose five members, two others are Canadians, graduates from the University of Toronto. Mr. F. W. Baldwin, who, Dr. Bell asserts, has a genius for the work, is engineer-in-chief of the organization, while Mr. J. A. McCurdy is also a native of Canada. The other members are Mr. G. H. Curtis, of Hammondport, N. E., an expert in the construction of motors, and Lieut. Thos. Selridge, military expert in aerodynamics for the United States army.

"It is simply my play, at Baddeck I have a laboratory and there I play, but the subject is so important that I am giving it considerable attention. When it is no longer an experiment I will go to something else," remarked Dr. Bell, whose interest in aerodynamics and of his association is not of a commercial nature.

**QUINLETTE WITH IDEAS.**

The association had its birth on Oct. 1, 1907, and it is to remain in existence for one year unless an extension of the time is desired. Its members gathered there first at Dr. Bell's house at Baddeck to consult, and it was found that each of the quinlette had independent ideas with regard to airship construction. It was therefore decided that the members should help one another. Until December last they aided Dr. Bell in his experiments with tetrahedral kites and then, as the weather prevented work, removed to Hammondport, N. E. The headquarters of the association will be in Nova Scotia again after July 1.

At Hammondport it was decided to adopt all the known good points of

existing machines, and after a number of preliminary experiments an aerodrome, or aeroplane, equipped with a motor, was constructed after the plans of Lieut. Selridge, known as Selridge's Red Wing. It traveled 319 feet about 20 feet in the air, with "Casey" Baldwin acting as aviator or operator. Finally, after several flights, the first device came to grief.

The second airship, Mr. F. W. Baldwin's "White Wings" was produced and made five trips. The first was for 560 feet and the second, while the last, with Mr. McCurdy as navigator, was for 600 feet and ended in the destruction of the machine. The third aerodrome was built from Mr. Curtis' plans and was known as the June Bug, because it was only completed this month, and because its wings do not operate like those of a bird, but after the manner of those of a beetle. This was tested last Saturday and Dr. and Mrs. Bell who finances the association were present. The aerodrome, equipped with a six-horse power motor, weighing only 145 pounds, was run along on bicycle wheels, but when the engine was started reduced to the owing to the porous nature of the wings. This was rectified and the machine flew 150 feet and came down through the accidental stopping of the motor. Finally on Sunday the longest published flight ever made in America took place when the June Bug traveled 1,285 feet under perfect control. The descent was made only because the airship was approaching a railway track and the place selected was suitable for a landing.

**TO RESUME EXPERIMENTS.**

In Nova Scotia, whether the association goes in July, the experiments with Dr. Bell's machines will be resumed. A motor will be installed in a large tetrahedral kite, which rose successfully last year. It is composed of 400 cells and it looks something like a flock of birds.

Its chief recommendation is that it has automatic stability, which no machine has so far had. That is, it balances itself. This, Dr. Bell considers a fundamental requirement, as all other aerodromes if tilted will slide. It has, however, less lifting power than the others and offers more head resistance to the air. It will probably develop less velocity than other airplanes and this, as it will mean that there will be less danger of accidents.

Dr. Bell is an expert in the teaching of the deaf and dumb and in the work done in the United States. He said that Ontario had been in the past far behind other countries, and even other Provinces of the Dominion in regard to the education of deaf mutes. He had heard, however, that two teachers from the Ontario Institute for the Deaf and Dumb at Belleville were conducting normal courses at Northampton.

**"Ontario needs to be poked along," he remarked.**

"The good people of Bradford evidently think I am done for," said Dr. Bell, who has just returned from that place. He thought it was a good thing to commiserate the fact that the telephone was perfected there. He objected to the personal side of the memorial, especially to the monument to himself. "They had better wait until I am dead and gone," he said.

Dr. Bell is engaged in several lines of experiment at his laboratory. He would not discuss these, however, preferring to talk of what was done, not what was to be done.

**AMERICANS FEAR JAPAN WILL BUY BRAZIL WARSHIP**

**Big Order to Shipbuilders From South American Power Causes Worry.**

**WASHINGTON, June 26.**—Persistent rumors that Japan has secretly contracted for considerable naval increase received credit today as a result of cables received from the Brazilian government. Two or three battleships of the Dreadnaught type would be sufficient to make Brazil a leading naval power in South or Central America. There is, therefore, no reason why Brazil should spend funds for greater naval strength.

Officers of the navy directly connected with the office of naval intelligence will not discuss for publication dispatches representing Brazil as contracting for warships to be turned over to other countries. They are confident of the fact that Brazil is making notable additions to her navy, but they profess not to believe that she is ordering vessels which are later to be turned over to another power.

According to information received from the office of naval intelligence, Brazil has ordered from British shipbuilders in order a large sum for battleships and that Brazil would naturally sell in order to make a profit.

**NEW YORK GOES WILL COP ON OLYMPIC TEAM**

**NEW YORK, June 26.**—Nearly all the members of the Olympic team who will sail for England tomorrow, gathered in the gymnasium of the New York Athletic Club tonight to receive final instructions.

Commissioner Bingham today decided to grant sixty days' leave of absence to New York's three policemen who will sail with the American team. They are Martin Sheridan, the all round champion, John Flanagan, champion hammer thrower and "Matt" McGrath, Flanagan's pupil and former champion with the 16 pound hammer. Commissioner Bingham said he was proud to have his department so well represented.

Ald. Frink remarked that in the present financial condition, the city could not get more than 90 per cent for their heads. He said the matter could be solved by abolishing the three.

It was reminded that Winter street only accommodated pupils up to grade four. The present building was not built a large amount would have to be spent to put new sanitary arrangements in the present building and referred to the complaints which were being received regarding the winter street building.

**PROTEST FROM AID. FRINK.**

Ald. Frink here protested against money being wasted on outside iron

**SCHOOL TRUSTEES HAVE HARD TIME TO CONVINC TREASURY BOARD OF NEED OF ANNEX**

**Board Wants to See for Itself—Consent to Bond Issue Will Not be Given Until Ald. Frink and Kelley Look Over Winter Street School and Ascertain Just What Can be Done—Medicine Men to be Tabooed**

The question of whether the city will authorize the issue of debentures to cover the erection of the Winter street annex has not yet been settled. At the meeting of the Treasury Board held yesterday afternoon to hear the board of trustees and consider the matter, a committee consisting of Ald. Frink and Ald. Kelley was appointed to investigate the conditions of the Winter street school, and see if any arrangement can be made by which building operations can be postponed for at least a year. They will probably report at the next meeting of the Treasury Board, which will be held during the first half of July, the sentiment of the majority of the aldermen seemed to be that the annex should not be erected this year if it is at all possible to avoid it.

The following members of the Board were present: Ald. Baxter, chairman; Mayor Bullock, Ald. Kelley, Vanwart, Rowan, Scully, McGowan, Baskin, Frink and several members of the board.

The board of school trustees held a special meeting at 2:30 to discuss the matter and three o'clock adjourned to the City Hall. They were represented at the Treasury Board meeting by Chairman E. B. Emerson, Messrs. Russell, Keefe and Coll, Mr. Skinner and Inspector Bridges.

On the behalf of the trustees, Mayor Bullock, Ald. Kelley, Vanwart, Rowan, Scully, McGowan, Baskin, Frink and several members of the board were present. The board of school trustees held a special meeting at 2:30 to discuss the matter and three o'clock adjourned to the City Hall. They were represented at the Treasury Board meeting by Chairman E. B. Emerson, Messrs. Russell, Keefe and Coll, Mr. Skinner and Inspector Bridges.

The chairman appointed Alderman Frink and Kelley.

The school trustees then withdrew, after some further discussion. A committee was appointed to investigate the conditions at Winter street school and report to the board.

The chairman reported that the vice accounts had been received from the printers with John A. Bowes' bill for \$10,000. A letter from Geo. A. Henderson asking that the statute increasing his salary to \$15,000 be put into effect. The increase was granted to date from the first of May.

The aldermen spent some time in discussing merry-go-rounds, peasy rides and itinerant medicine sellers. It was decided to refuse licenses to the latter in the future.

The chamberlain was authorized to employ an extra clerk temporarily to write tax bills for the present year. The meeting then adjourned.

**IN THE HOMES OF FAIR CANADA**

**Dr. Williams' Pink Pills are Bringing Health to Weak, Despondent People**

There is not a nook or corner in Canada, in the cities, towns, villages and farms where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other they have brought back to breadwinners, their wives and families the splendid treasure of new health and new strength. You have only to ask your neighbors and they can tell you of some nerve-shattered man, suffering from rheumatism, or some young man, ailing with, or unhappy because of, some present health and strength to Dr. Williams' Pink Pills. Their wonderful success is due to the fact that Dr. Williams' Pink Pills go right to the root of the disease in the blood, and by making the vital fluid rich and red, strengthen every organ and every nerve, thus driving out disease and pain.

Mr. Joseph LaCombe, Quebec City, says: "Today I weigh about forty pounds more than I did a year ago, and am in every way in much sounder health. For upwards of two years I had been studying hard to pass my examinations and my health had completely given way under the strain. I was obliged to abandon my studies and was in a state of complete exhaustion. I consulted a physician, but as I was daily growing weaker, I decided to try Dr. Williams' Pink Pills, which I had often heard very highly spoken of. The beneficial effects were indeed remarkable, for I had not used more than a couple of boxes when I could feel an improvement, and hope returned. I continued using the pills for some weeks longer, with the result that my strength increased daily and I was soon able to take over my studies and work with as much energy as I had ever done. Today I am in perfect health and I attribute my recovery solely to Dr. Williams' Pink Pills."

You can get these pills from any medicine dealer or by mail at 25c a box, or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Mr. Archibald to the Sun that the dining car service would be the same this year as last.

STILL ENFORCING THE SCOTT ACT IN MONCTON

Raid on Leading Hotels Still Continues—Four Deaths Among Members of Relief Association.

MONCTON, June 27.—The Moncton police are not by any means letting up in the Scott Act campaign. Yesterday all the hotels in the city were visited for evidence of violation of the act, but the police were not successful from the police point of view.

MONCTON, June 27.—Secretary Fayer of the International Railway Employees Relief and Insurance Association, in his monthly statement reports four deaths. These are, Joseph Barton, foreman in I. C. R. shops here who died at Coburg, Ont., and George M. Jarvis, Truro, I. C. R. District Superintendent, who died so suddenly in St. John, each had one thousand dollar insurance. Others are Fred Jacobs, Truro, and Robert Jackson, Sydney, with \$250 each. The fees and levies for the month are class A, \$2. Class B, \$1.20. And class C, eighty cents.

CLOSING OF ROTHEASY SCHOOL HELD FRIDAY

Fifty Children Give Excellent Programmes of Drills, etc.

The closing of the Rothesay public schools took place yesterday. The children to the number of fifty gave an excellent programme of flag drills, songs and readings. A feature of the closing was the hoisting of the new flag. This took place in front of the school and was done by a number of the boys. Dr. Norman made a speech on the flag. About 100 visitors were in attendance at the exercises and all enjoyed themselves greatly. The children enjoyed a drive through the village, given by Messrs. Anthony Dobbin and James Henderson. The general success of the exercises was largely due to the energy of the teachers, Miss McIlwain, of this city, and Miss Bell, of Moncton. Miss Bell will not resume her position after the holidays and will be greatly missed by all.

PANIC IN A CHURCH.

ROME, June 25.—While Cardinal Agostino Richelmy, Archbishop of Turin, was saying mass in the Cathedral at noon today in honor of the Feast of St. John, the city's patron saint, a petard exploded within the building, making a terrific din. The congregation, which was composed mostly of women, was thrown into a state of panic, and made a wild rush for the doors. Many persons were thrown down and trampled upon, some thus receiving injuries. Nobody was wounded by the explosion. The petard consisted of a tin box containing gunpowder and revolver cartridges. The effects of the explosion were lessened by the fact that the cartridges did not explode. It is believed that the author of the outrage was seeking the life of Cardinal Richelmy, to whom the Pope has telegraphed congratulations upon his escape.

ZION CHURCH HAS INTERESTING HISTORY

Now Celebrates Its Fiftieth Anniversary

Built by the Late John Owens—For Many Years an Independent Church—Present Situation.

Zion Church was built by the late John Owens of the North End and was for a time under the control of no conference and was supplied by ministers of Methodist, Episcopal, Congregational, Baptist and Reformed Episcopal denominations from 1858 until a few years ago. After the death of Mr. Owens the building was converted into an art gallery, this, however, did not succeed. By an act of the local legislature the art collection was transferred to Sackville and the building was again fitted up for purposes of Divine worship. The church and parsonage are vested in a board of trustees and for some sixteen years past been used by the Methodist. The property is commodious and valuable, and though the church at present is not very strong yet there is opportunity for growth as the city will eventually enlarge in that direction.

WILL REPLACE ABERDEEN AS SOON AS POSSIBLE

Dr. Judson E. Hetherington, one of the directors of the Western and Atlantic Steamship Company, was at the Royal yesterday. He said that it is the intention of the company to have a boat on the river if possible in a week or two. If their efforts to buy one are in vain, they will build one on the lines of the May Queen of the Star.

Dr. Hetherington was asked whether there would be an inquiry into the burning of the steamer Aberdeen at Cole's Island. He said that he did not know about that, but expressed it as his personal opinion that the fire was of incendiary origin.

FAREWELL SERVICE FOR ADJ. AND MRS. BOWERING

A farewell service in honor of Adjutant and Mrs. Bowering will be held in the Citadel tomorrow night at 7.30. The chief speakers will be Rev. Messrs. Lang, Armstrong and Cokes, Geo. A. Henderson, Mrs. Jas. Bullock and Mrs. Hall.

HOPEWELL NEWS.

HOPEWELL HILL, June 25.—The closing of the school here took place on Tuesday, a good number of visitors being present. An interesting programme of entertainment was given by the pupils. Prizes were awarded. Nellie Rogers for highest grade, and Achsah Rogers for best attendance during the term. The teachers, Mr. Stewart and Miss Mary Archibald, left on Wednesday to attend the Provincial Institute in Fredericton.
